City Council Meeting

Police Report Presented - Aquatic Association Change of Plans Causes Heated Discussion.

A meeting of the city council was held last Monday. The Mayor and a full attendance of Aldermen were present. The minutes of the previous meeting having been adopted, the Mayor informed the council that Mrs. Josselyn, on behalf of the Ladies' Aid had asked for permission to use the city park for a Strawberry Social next Friday. Permission was given on condition that the refuse left was cleared up.

The clerk then read the following correspondence.

G. A. Fisher, re insurance of electric light plant. Filed.

H. Barnes, re appointment as fireman at Power House.

H. J. Jones, Mandeville Co., re electrical supplies. Filed.

Hewetson and Mantle, enclosing cheque paying insurance on Power House fire.

Pump and Water Wheel Co., re water power.

The Dominion Securities Co., re debentures.

Monetary Times, re damage and particulars of Power House fire.

A letter was also read from the Boiler Inspector, saying he had inspected the power house boilers and that they had been fitted with new valves, etc. They had also been tested up to 150 lbs., and a certificate would be given for 125 lbs. to the square inch.

The police report was then read and much discussion arose as to transferring of the license of the Royal Hotel. Chief Hidson pointed out that in the change of a license thirty days notice ought to be given through the press, of the proprietor's intention to transfer license. This had not been done in the case of the Royal Hotel, and he thought some action should be taken in the matter. The matter was left in the hands of the chief to see that the laws were complied with.

Several member of the Aquatic Association were present, and when called upon, Mr. G. Rose, in an opening speech made reference to the work that had been started that day. He showed that the Mayor had stopped progress owing to some hitch, and he would ask the Mayor to explain the reason.

The Mayor gave his opinion that the work was not being done according to the plans shown the council, and because of this he had called one or two Aldermen together and had asked their opinion, they thought the same as he did, and it was decided not to allow the building to proceed.

Ald. Elliott wished to know why three buildings were in course of erection when the plan put before the council only provided for one. He understood that the plan originally shown the council had been modified, but did not understand that modification to the erecting of three buildings.

Mr. Rose said the original plans had been modified and that the change had been shown to the building inspector, Mr. Cox, and received his sanction. The plan was shown to Mr. Cox directly previous to the last meeting, and it was agreed upon at that meeting that the plans submitted to Ald. Cox should be accepted.

Ald. Elliott did not understand that three buildings had been sanctioned by the council. He understood that the one main building had to be modified owing to lack of funds. The building he stated was to be a graceful one, and the present cubicles that were being built were not fit for the city park.

Mr. G. Rose in reply stated that he thought the council very unreasonable to kick at a building already passed by the building inspector. They had wished to have bathing accommodation ready in two week's time, and had practically engaged Professor Wilkinson to look after the accommodation so provided.

Ald. Cox wished to point out to the council the true facts. Mr. Rose he said showed him the plans and he misunderstood about the outside buildings, but since looking again at the plans he was of the same opinion as before, that the buildings were arranged properly. As building inspector he wished to resign his position. He pointed out that the directors of the Association were men with brains the same as the city council, and an undeniable architect had been secured in the person of Mr. Peters. He did not like the action taken by the Mayor and Ald. Elliott, and the action taken by them was was against his views.

The Mayor in explaining his views said that in a conversation with Mr. Biggar he was told that the Association were building, and that he (Mr. Biggar) had secured the contract, and named a figure of $700. He knew that $3,000 had been agreed upon by the city council and so went down to see what work was being done. He at once thought it would not do, and the land was about 50 feet further east than it should be.

The plan as submitted by Mr. Rose was not in accordance with the buildings that were going up, and he thought it right to let the council know this. He was a shareholder in the Association and did not wish to stop the progress if the rest of the council agreed, but he considered that Mr. Cox had unknowingly stepped over the mark when he accepted the plans. The Mayor also remarked that the city had a council and a park committee, and he did not see the use of them if they were to be ruled by Ald. Cox and Mr. Peters.

Mr. Crowley who was present asked for Mr. Peters to submit the plans. So far only a plan of the cubicles had been shown, when the plan of the whole structure was submitted it would throw more light on the subject.

Mr. Peters in showing the plans said that although the cubicles only were being started now at a cost of a little under $700, the building would be put up at a cost of $3,000. The idea in putting up the cubicles first was in order to start bathing.

Ald. Ball thought that the cubicles being away from the main building would be better from a sanitary point of view. There was more and better light and the club house would not be attended by the odour from damp cubicles.

The question of position was also gone into. The Aquatic Association admitted that they were in the wrong with reference to locality, as a first locality had been given.

Mr. Meugen's said that no notice had been given of a change of position, and the original position was chosen in a spot where no trees would have to be cut down. They did not know the locality had been altered by the park committee until that day.

Mr. Rose objected to the stand that the city council were making, and the Mayor objected to the position the Assoc. were taking in the matter. The matter was then allowed to drop, but upon being afterwards taken up again, it was the general opinion of the Aldermen that the matter should be referred to the park committee.

Ald. Elliott thought the remarks made by the Association at this meeting were uncalled for, as the council had done all in their power to urge the matter on.

Mr. Rose contended that instead of urging the matter on, obstacles were being put in the way by the council. Mr. Cox as building inspector had passed the plans as sensible and adequate.

Ald. Elliott said it was the decision of the people connected to do nothing to deface the park, and he did not like to see an ungainly building going up.

Mr. Rose refused to allow the buildings to be called ungainly and called attention to the tents belonging to the Lake View Hotel as being far more ungainly than the Aquatic building. In the course of his speech he remarked, "We are not trying to deceive the council. We are putting up the three buildings for sanitary as well as financial reasons."

It was finally agreed that the park committee should meet two of the Aquatic Association directors and settle the matter of building and site, on Tuesday morning at 10 a.m.

Chief Hidson attended and informed the council that he had been looking about for a room and had only been able to find the room in the Keller Block. He thought it advisable for him to take this and make an office as well as a sleeping appartment. Very often private conversations had been carried on in the council chamber, and had to be stopped owing to someone entering. If he had his own office it would relieve this matter. The rental was to be $10 a month, and sufficient room could be had for Mr. Burne to use as a court room. The council agreed to this, and decided that the furniture should be provided to make a good room for the chief, also that the rear part should be used as an office.

The Police report for May was then read. The following cases were were arrested during the month, one drunk, one drunk and disorderly, one vagrancy, one cruelty to animals, one whisky to Indians and one confidence man. In the case of the latter the chief upon searching found a pack of marked cards and loaded dice. The magistrate gave the defendant six hours to leave the town. A lengthy report was also received about the bad language used on the veranda of the Royal Hotel, and the chief called the attention of the council that the License Commissioners ought to look into the matter before any conviction was made. A lengthy discussion arose as to the tranferring of license from Mr. Wheeler

Continued on page 8

Two Runaways

Two serious runaways are reported this week. As a rig containing Mr. and Mrs. Walker and child and Mr. Bell, of South Okanagan was proceeding home, the tongue got separated from the neck yoke and caused the tongue to drop. The team getting scared, started off and Mr. Walker was thrown out of the rig. Soon several people were rushing after the buggy, and Mrs. Walker tried to hand her child over the back to someone. The followers however were unable to keep pace with the team. Turning McCurdy's corner Mr. Bell managed to jump from the rig, and planting his feet in the ground tried to force the team to stop and was dragged several yards hanging on to the lines. The rig then turned over throwing Mrs. Walker and child out, and nearly falling on top of Mr. Bell. The team then went on unattended with upturned buggy, but was soon recaptured. Strange to say the rig suffered no serious hurt, and the occupants escaped with only a few bruises.

Another runaway occurred last Monday, when Miss Violet and Miss Amler Wheeler were driving around in their dog cart and small shetland pony. Passing two cyclists the pony became scared, and turning down Ethel Street started off at a bolt. Miss Violet was thrown out, and Miss Amler, the younger of the two was left alone, and was subsequently thrown out in Glenn Avenue. The pony then ran into a fence and stopped. The Misses Wheeler, however, were not hurt beyond a few bruises, and the rig and pony were not damaged.

The Rev. Thos. Green will preach at the Okanagan Mission school house on Sunday afternoon at 3 o'clock.

Fire Brigade Hold Meeting

A meeting of the Fire Brigade was held on Tuesday last in the Fire Hall, when Mr. Elliott representing the city council was present. The attendance of the members was good and much discussion arose as to the present standing of the fire brigade.

Mr. Elliott informed the members that the council had decided to find another room for hief Hidson, and that the room at present occupied by the chief would be fitted up for the use of the brigade. The council wished two men at least to sleep there and one man at least to be in attendance during the evening.

The account which was presented to the council was next brought up, and generally discussed. Chief Samson did not wish to press the matter, and said the brigade were willing to forego the $17 for the false alarm given by him to see how quick the boys could turn out, he was also willing to accept $40 for sprinkling the streets and also fifteen dollars for looking after the hose.

Mr. Elliott asked him why he did not agree to this at the council meeting. Mr. Samson contended that he did, and that it was turned down by the council.

Mr. Jenkins then produced a copy of the "Record" and based several arguments on what had been reported at the meetings Mr. Samson had attended. He wished to know why it was reported that the council were dealing with Mr. Samson, and not with the fire brigade. If they had not explained their grievances to their chief, and their chief explained it to the council, how else were they to do it. He had heard that, the council were not satisfied with the chief, and asked the reason why.

Ald. Elliott said the chief had done several things without the consent of the city council, and he did not think the council were being treated fairly. They had voted $25 for the boys to go to Vernon, the money to come out of the fire and water estimates, a decision Mr. Elliott thought unjust. The council further were ready to supply any legitimate equipment. Orders had been sent for goods that had not turned up, and it was not the fault of the city council that they had not come to hand. As far as the false alarm given as a test was concerned, he refused to O.K. the bill for that.

Mr. James wished to know how the brigade were to test if no false

Continued on page 8.

Aquatic Asssociation Start Building

The Aquatic Association started building cubicles last Monday, and owing to the city council taking objection to the locality and the size of the structures, the operations had to be stopped. The matter was again brought up at the council meeting, a detailed report of which appears on this page.

The park committee met with the directors of the Association last Tuesday, and set out the exact locality and decided that the cubicles at present under dispute should be allowed, provided the one on the east side was moved about 200 feet to the west, practically on the point. A bluff on the point to be the end of the boundary given by the city to the Association. The building will be proceeded with forthwith, and is expected to be ready in about two weeks' time. The structures are to be painted a moss green to harmonize with the foliage, and club house will be proceeded with as soon as the cubicles are finished.

The action of the Association in setting out the cubicles first is highly commendable, as the time is near at hand when a swim in the lake is practically a necessity as well as a luxury.

First Regatta of Season at Naramata

The first regatta on the lake this year was carried through successfully at Naramata last Thursday. Despite the rain which was falling, and the cloudiness of the sky all round, quite a fair crowd left the wharf by the Aberdeen, the war canoe boys, full of hope, being among the passengers.

Mr. J. M. Robinson in a speech remarked that the regatta was about to be opened. He also hoped to formally open up Naramata as a summer resort. The preparations which had not been as far advanced as Mr. Robinson and the committees wished, but which everyone else considered excellent, were promised to be better on the 26th of July, the date fixed for the second regatta.

Dr. Bulyea, Lieutenant Governor of Alberta, in the course of a long speech generally praised the Okanagan Valley as a whole, and remarked that it was marvellous the amount of men from the prairie who were coming in to the various cities. He then declared the regatta open.

The speeches being through, the yacht handicap, the first race of the afternoon was called. The event which covered over an hour caused great excitement. The war canoe race which caused perhaps the most excitement of the afternoon should have fallen to Kelowna, but owing to so many of the regular crew being absent, substitutes had to be found. Although Kelowna did not pull off the event they ran a good second behind Summerland, and it is likely that when the full team is met in these water the opponents will wonder what is up. In the single canoe race the Kelowna boys were well to the fore. L. C. Aviss and Harvey both of our town pulling off the 1st and 3rd prizes respectively. In the double canoe race two Harvey's scored third place. An amusing race was a canoe race in which the paddles were supplied, a soup plate being given each competitor as a paddle. In this race Wilgress secured third place.

After the regatta many attended the amateur show "All a Mistake," given by the Naramata Stock Co., and which was pronounced as a first-rate performance by those who had the pleasure to attend.

Another Strawberry Social to be Held in Park

A Strawberry Social is to be held in the park next Friday, by the Ladies' Aid of the Kelowna Hospital. One of the features of the evening will be a baseball game, Professionals versus Commercials, starting at 7 p.m. The following are the teams and a strong game is expected:

Professionals	vs. Commercials
G. A. McKay	F. R. E. DeHart
Dr. J. W. Knox	J. N. Thompson
Dr. Huycke	C. C. Josselyn
Dr. J.N. Shepherd	D. Leckie
Dr. W. Gaddes	Chas. Dick
C. Daniel	T. Lawson
W. R. Trench	D. Campbell
J. B. Knowles	Leslie Dilworth
W. M. Parker	W. F. Goodwin

M. Eastman, Umpire.

The Kelowna Brass Band will be in attendance and will render music during the evening. The following will be the programme:

March: "Tenth Regiment" R. B. Hall

Melody Overture: "May Flowers" A. N. Kawrens

Waltz: "Daughter of Love" C. W. Bennett

Triple Tongueing Cornet Solo "Prize Polka" Keller

Quick Step "Belle of New York" Tom Clarke

Barn Dance: "Frivolity" Rogers

Selection: "Songs of Scotland" Theo. M. Tobane

March: "Our Special" F. Jewel

"God Save the King"

T. S. Robertson Leader.

Ball Team Now Heads the League

Last Thursday an interesting game of ball was played in the City park, a fair attendance of spectators being present. Armstrong, the opposing team came down by the afternoon boat and had a short practice before the game started. The shade afforded by the trees in the park certainly made the ground more pleasant for the spectators, but the diamond that that had been previouslyprepared for the ball team was certainly not to be compared to the ground the team was used to in Boyce's field.

The teams lined up as follows:

Armstrong	Kelowna
Barnes	Eastman
Fisher	Jamieson
Spencer	Creelman
Ferguson	Coe
Ives	A. McMillan
Patchett	L. McMillan
Watt	Marintette
Parkinson	Frame
Holtby	Kincaid

The game was full of life throughout, and our boys certainly showed that they were good in the field. Several good hits were made by Kelowna, but the opposing team did not hold them.

Armstrong were at one time tied with Kelowna, the score standing four all, but in the fifth innings our boys forged ahead again and made away from their opponents. In the seventh innings, although the score was well ahead, Eastman had the hard luck to fall on his arm, crippling it for the rest of the of the game. A good second pitcher was found in Marintette, who pitched good ball and although perhaps not quite as swift, pitched straight and true.

The fielding of the home boys was excellent, Jamieson at short and Frame at second seemed to be a wall almost impenetrable by the Armstrong boys. Coe had another day off color. We hear the Captain is seriously thinking of taking him to task, but it is not his usual form and he is generally very useful in the field. The outfield with Creelman, Kincaid and Marintette was fast and did not let many pass by. Several good hits were sent out, and in most cases were caught by the outfielders. Angus McMillan has certainly got his batting eye and has proved a good man. Eastman kept "cool" this time and managed to put more confidence in the team than they have shown in previous games.

The score at the end of the ninth innings stood 9 to 6 in favor of the home team. A good game resulting in a win for Kelowna against a team they were none too sure of beating.

Previously Armstrong and Kelowna were tied for first place in the league. This places our team in front. They are due to meet Summerland again today and will do all in their power to pull off the event.

The Armstrong boys returned home on Friday morning's boat, staying over night at the Lake View Hotel.

Standing of teams:

	P.	W.	L.	Pct.
Kelowna	5	4	1	800
Armstrong	3	2	1	667
Summerland	3	2	1	667
Revelstoke	4	2	2	500
Peachland	2	1	1	500
Enderby	2	0	2	000

We are pleased to see Mr. Dallin entirely recovered from his recent accident and hear he will resume his dray business early next week, also his weekly South Okanagan trip.

The Women's Auxiliary of the English Church are holding an evening garden party at Guisachan Ranch, the residence of Mr. W. C. Cameron, on Tuesday, 29th June. Mr. Dallin's tally-ho will leave Willit's corner at 6:30, making three round trips. A cordial invitation is extended to all.

At last the fire brigade seem to be on the right road to make some definite understanding with the council. Their desire to remain a voluntary brigade is a noble one, and they now seem to see the matter in a different light to what they did some weeks ago. They are satisfied that they are working as citizens for the city, and not for the city council alone, and it is likely that every assistance will be forthcoming from the citizens.

The council have promised them all the equipment they ask for, and should they want an outing or a little money subscribed to take them to a neighboring town to compete in a hose and reel race, the funds could be easily raised around town, instead of having a small sum taken out of the fire and water estimates, to provide for the fare of the team and their expenses. The brigade has always been looked upon by the citizens as a body of men ready to do their utmost in case of fire, and usually have to work under very annoying cirumstances. Take the Palace Hotel fire for instance, ordere were being given here, there and everywhere, by people not connected with the brigade, and it is small wonder that the brigade became somewhat annoyed.

It is a pleasure to see the chief spoken so highly of, and it is only a man who is held in such high esteem by his comrades that can successfully govern a body of men. It is to be hoped that the arrangements that are made with the council on Friday will smooth off any ill feeling or antagonism on either side, and the little "rub up" now past will make the brigade put double energy into their already efficient service, and the council will do on behalf of the citizens, what is in their power to help the brigade along.

Now that the Aquatic Association have started their building, and the various hitches are at an end, a few words in praise of the project may not be out of place. Away from the financial aspect let us take a look at it from the point of the traveler and the occasional bather. The arrangements are such that a single ticket can be purchased, and a cubicle procured for the purposes of dressing. The action of the Association in going ahead and putting up cubicles is a praiseworthy one. From a financial stand point it is necessary for the cubicles to go up before the club house, and it shows good faith on the part of the directors, when they start building bathing facilities for the general public before they start their own club house. To the traveller and occasional bather the whole will be a boon, and many people who pay a short business visit to the town will feel it to his or her advantage to stay over week ends, and make use of the facilities that are not to be found on any other portion of the lake. The good hotels and bathing facilities usually go hand in hand to make all good watering places, and both can now be found in Kelowna.

Chief Hidson is to be congratulated upon his police report this month, and his action in ridding the town of two undesirable card sharpers must be put as a feather in his cap. Very little goes on that our chief does not see or know about, and although he at times has to make himself objectionable to some individuals in the cause of justice, yet there are times when we see the wisdom of his plans. It is a difficult matter for the chief of police to keep on friendly terms with everyone and at the same time to do his work properly. It is in the nature of things that an official so placed should make make some enemies, and those who are anxious for the welfare of the town should render all the help they can, and forbear throwing out objectionable and unreasonable criticisms simply because they feel hurt at some course which has been taken by the chief.

Communications

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

Editor Orchard City Record
Dear Sir,

I feel it my duty in justice to myself to clear up a matter which seems to be causing some unpleasant comment.

At a meeting held by the city council on June 7th the matter of fixing the rate of wages per day for laboring men was brought up by one of the Aldermen, and discussed at considerable length, without arriving at any final decision.

As there was a large amount of work to be done on the park, streets, etc., and having an opportunity to know that we had nearly fifty unemployed men in our city who could get nothing whatever to do, I felt something should be done to help those thus unfortunate, until permanent employment could be obtained. I pointed out that I would favor engaging as many of these men as we could possibly provide work for at $2.25 per day, rather than paying a lucky half dozen $2.50 for nine hours work, the rest enviably sitting on the fence looking on. Half a loaf is better than no bread.

To show how necessary and urgent it was that those men should be helped, I explained that Mr. D. McMillan, through sympathy for a couple of inexperienced old country men came to us and urged us to try and give those two men something to do. The matter of wages they did not consider, as much as getting a start and earning something. They thought they could earn $1.50 per day and would consider it a great favor if we could give them a few days days work at this figure. We had all the help we required and only consented to help them out, as we thought them worthy of being encouraged. That was the only mention made by me of $1.50 per day.

Had the Press reported more fully the circumstances, instead of misquoting the words of Ald. Cox, (who seemed anxious to make capital of the matter), all fair minded working men and ratepayers would realize that my policy was for the general good of all concerned. Certainly I did not wish to oppress the worthy working man, neither make a good fellow of myself at the expense of the already heavily taxed ratepayer.

Yours truly,
G. ROWCLIFFE.

P.S.—Re letter that appeared in this paper of June 17th, signed Working Man. The accusations are entirely incorrect and I will insist on a public contradiction.

THE CONCIERGE.

Tyrant Rule of the Autocrat of the Parisian Flat House.

The "concierge" is considered to be the bane of the Parisian flat dweller's existence. His functions are supposed to be the following:

The first and most important is to collect the rent on quarter day; after that he must see that the tenants do not surreptitiously remove. The latter precaution seems to be somewhat unnecessary, as rents in Paris are always paid in advance.

He should also bring up your letters at least twice a day, but as the concierge is generally a stout, middle aged woman who has a decided objection to climbing stairs the latter regulation remains somewhat of a dead letter.

In Paris the front door of most houses is generally closed at 10 o'clock. After that time admittance can only be obtained by ringing a bell. The concierge is obliged to open the door, and she does this, as soon as she is awake, by pulling a rope which hangs by her bedside.

If she is a sound sleeper and you are accustomed to come home late at night, the best thing to do is to look for another flat, as the concierge will put you down as a "bad tenant" and make things as unpleasant for you as possible.

If you never stop out late at night, receive very few friends and fee her heavily at Christmas, the concierge will consider you as a "good tenant" until you give notice to leave, when her interest in you suddenly vanishes.

As there is nothing more to be expected from you and the incoming tenant is obliged to give a substantial tip, called a "denier a Dieu," she is anxious to "speed the parting guest" as much as possible.

The concierge does sometimes make a final effort to extract something more from you by attempting to make you pay a franc for every nail knocked in the walls of your flat, but this has been decided to be illegal and may be safely resisted.

But the Parisian concierge is really unpopular because she represents a landlord.—London Mail.

A DELAYED LETTER.

And What Happened When the Missive Was Finally Recovered.

The vagaries of the postal service are sometimes beyond the understanding of the layman. In March of last year a man in New York received a letter from a friend in England, written when on the point of sailing for Philadelphia, urgently requesting him to return a loan of $10. The man who wrote the letter needed funds and would the debtor kindly send the money to him, care of the steamship line at Philadelphia? The man in New York saw that his friend would reach Philadelphia within a day or two, so he promptly clapped a ten dollar bill in an envelope and addressed and mailed it. A week later he was apprised by mail that the money had not arrived. Both men made a diligent search for the missing letter. But it could not be found. So the debtor gave his friend a check and forgot about his $10, setting down its loss to the dishonesty of some intermediary who had handled the envelope.

Imagine his surprise when one day eight months later he received his letter from the dead letter office in Washington. It was covered with postmarks and much battered, for it had traveled many thousands of miles, back to England, around the United Kingdom and to America again, but the money was safe inside.

Chuckling, he met his friend a few minutes later and showed him the ten dollar bill.

"How's that for luck?" he queried.

"Great," replied his friend. "Say, old man, you couldn't lend me that for a day or two, could you? It's like picking money up in the street for you, and I could make use of it just now."

Sadly the bill was handed over "What's the use of such wonderful occurrences?" ruminated the "lucky" man.

The Best Laid Plan.

Husband (who is going to the theater with his wife)—There; I took time by the forelock tonight. Here I am an hour beforehand, with my evening clothes all on and everything ready. Now I'll go downstairs and have a quiet smoke while you get ready.

Wife—Oh, darling! Can you ever forgive me?

"What's the matter now?"

"Why, the cook tells me the furnace fire went out this afternoon, as the furnace man failed to come. The baby has a cold, you know. Would you mind going down in the cellar and making it over? You've just got time, love."—New York Herald.

Successful Ugly Women.

Successful women were not always of irreproachable beauty or modeling. Thus the Princess d'Evoli of Louis XV.'s time was one eyed; the slit of Montespan's mouth reached her ears; Mme. de Maintenon was thin, meager, yellowish; La Vallicre lame, Gabrielle d'Estrees one armed, Anne Boleyn six fingered.

He Dodged.

Mr. Meek—Did you trump my ace? Mrs. M.—Yes. What of it? Mr. M.—N-nothing, my dear. I'm glad it was you. If one of our opponents had done it we'd have lost the trick.

The Smart Ones.

"Do you believe that the world owes us all a living?"

"Yes, but the smarter fellows are collecting the debt for us on an 80 per cent commission." Boston Transcript.

Old Country News

Thomas Lipton Will Not Challenge

In view of the renewal of rumors that he was about to build another vessel to challenge for the American Cup, Sir Thomas Lipton has made it clear that he will not again compete. His opinion is that no man can build a boat to sail under such conditions as have prevailed in the past. "If I challenged under the international rules governing Europe, they would say I had a pull" Sir Thomas remarked "and I will not try again under the conditions of fifty or sixty years ago."

Imprisoned in a Lift

A curious accident occurred in Parr's Bank, Fleet Street lately, and had it not been for the timely assistance of the police, the accident might have proved fatal. As a man was passing the building he heard cries of a man evidently in great agony. The police were quickly summoned but it was found that the bank was locked, an attempt to gain entrance was made but in vain. A messenger was sent immediately to Bridewell station for tools with which to force open the door. By the time the entry was made the cries had ceased but a search of the premises found the night watchman pinned between the platform and the shaft. Before he could be released it was necessary to saw away part of the lift to free one of his legs. The man was immediately sent to the hospital where he is showing signs of recovery, but had it not been for the prompt action taken by the police in all possibility the man would have met with a cruel death.

Medal for Explorer

Ernest Shackleton the explorer who managed to get within 111 miles of the South pole in a recent Antarctic exploration arrived in London, England, last week where he found awaiting him a letter from Washington stating that he had been awarded the Hubbard Gold Medal for his work. The lieutenant is highly delighted with this recognition of his work as an explorer.

Madame Nordica Retires

Madame Nordica gave a farewell concert before a crowded house last Friday. The audience was so great that seats had to be placed on the platform to accommodate them. When the singer appeared, the crowd rose and cheered, and she received a memorable ovation at the close of the program. The King and Prince of Wales had engaged a row of stalls for the performance, but were unable to be present.

Robbed by Bogus Detectives

Paul Friest a powerfully built man of Dutch nationality was charged at Marlborough Street police court with being concerned with two others, not in custody, with obtaining by means of a trick several watches, a chain, six medallions, fourteen rings and several other minor articles, the property of Wilhelm Fredrich, a jeweller of Tottenham Court road. Sam Goldstein said that about two in the morning the men called round at the boarding house and said they were detectives. One man was also introduced as an interpreter, and it transpired that they were looking for a man with a large moustache who lived there. Goldstein admitted such a man being in the house, and went and fetched Fredrich, directly the bogus detectives saw the man they explained, "That is the man we want," and they then proceeded to search the room. They also searched under the mattress of the bed in which the wife of the prosecutor was sleeping. After they were through they took off the swag saying at the same time that they would call back for the prosecutor and take him to the police station. Goldstein at once went to the police station and asked what was occuring, and was informed there that no detectives had been sent to the house. Later at the police station the accused was identified by Goldstein and Fredrich from among nine men. The prisoner protested innocence but was remanded.

Uncaged Lions Exhibited

One of the attractions at the White City is four uncaged lions that ramble about the painted rocks and eye with wonder the vast throng of people who come to see them. The lions which are the property of Mr. Hagenbeck are only separated from the public by a wide ditch. It is generally agreed that although so near, the public are in absolute safety from the clutches of these kings of the beast tribe.

Australia Wins Second Test Match.

After making two hundred and sixty-nine in their first innings to which the Australians replied with three hundred and fifty the English eleven failed to make up in the second innings. They were all out for one hundred and twenty one and the Australians soon knocked up the forty one runs required to win. The match was won by nine wickets and evening the score to date.

Woman Shot by Buffalo Bill's Son.

Raven Cody supposed to be the son of Col. S. F. Cody generally known as Buffalo Bill shot a young girl named Alice Seymour, while appearing in a trick shooting sketch. One report says she was holding a lighted candle on her head at the time, another report says that the shooting was done with murderous intent in their own lodgings.

News of the Valley.

It is reported that a Customs Office for mail and parcels will soon be opened in Summerland. The same promise has been made to Penticton.

The house boat "Lily of the Valley" has been launched at Summerland, and will make a fine floating house when finished.

Armstrong is to make a field day of the 1st of July. A good programme of sports has been arranged and baseball and lacrosse matches. An acrobat is billed to appear and will give a display, travelling down a 60 ft. wire holding on by his teeth.

A sad accident occurred at Celesta Creek Shuswap Lake last week when Ira the third son of F. N. Daniels lost his life by drowning. The deceased was engaged with a companion directing logs for the Lamb Watson Co. Noticing that no logs were coming down the creek Daniels and his companion went up the creek and found a jam had occurred which they broke. Anxious to get back to his post the young man jumped on a large cedar log and suddenly the log rolled over throwing him into the creek. Not being able to swim the deceased stood no chance for his life, and his companion who was also a non-swimmer threw himself into the water in his endevor to save the unfortunate man, in his gallant attempt he nearly caused his own death. Help was soon fetched and a search was made for the body, no trace however was found and it is believed that the body must have gone through the schute and over the falls. The lad was well respected and was a member of many local lodges at Armstrong. He had only been married a little over a year ago leaves a widow and a two months old child. It was only a short time ago that deceased had left Armstrong to camp on the Shuswap Lake. and it was his intention to make his home there, the deceased carried insurance in the several societies he belonged to and it is at least a comfort to know that the wife and child will be cared for.

A sad bathing fatality occurred at Vernon last Friday at about five oclock in the morning. Mr .C. Thompson a well known and well respected citizen had made it his usual custom to go for a swim every morning and was usually accompanied by his sons whom he made a point of calling every morning to accompany him. Owing to the sons having been away late on Thursday night Mr. Thompson did not call his sons on the fatal morning, but went down to the water alone. Deceased was subject of epileptic fits and as he was entering he was siezed with a fit and fell in a few feet of water. There was no assistance near at that time of the morning, and it was not until about an hour afterwards that the body of the deceased was noticed. Artificial respiration was resorted to but was found to be of no avail. The sad death has cast a gloom over Vernon and all regret the loss of a trne and well beloved citizen.

News of the Prairie.

J. Sandercock, of Sintaluta, had the misfortune to have his farm burned out last week. All the outbuildings and stables were destroyed, but luckily the dwelling house was saved.

The Lord Bishop of Qu'Appelle has offered to the Rev. T. G. Beal, vicar of St. Michael's, Grenfell, and Rural Dean of Eastern Assinaboia, the first Honoraiy Canonry in the Diocese of Qu'Appelle. The Lord Bishop visited Grenfell in connection with the appointment last week.

Work on the Weyburn water works commenced last week, contractor Murphy and about twenty men having started operations. The system will be continued into the town streets later, connecting with the reservoir south of the town.

W. C. T. U. Notes.

Conducted by the Ladies of the Kelowna branch of the W. C. T. U.

Roman Catholic Utterances

We do not believe that the church should leave the field entirely alone to the saloon-keeper to champion our laws. We believe that as long as the saloon dares, with brazen effrontery, to demoralize our politics, that the church, with uprightness, with a clear and serene countenance, should enter the political arena to purify it.—Rev. Father Gleary, Kenosha, Wis.

What is it that keeps the Irish people in these low social conditions? The Saloon. Thither goes the money earned by the sweat of the brow. Thence do men issue, broken down in health and strength, to swell the list of idlers and paupers. Our disgrace and our misfortune in America is the number of Irish saloon-keepers.—Bishop Ireland.

Don't sell liquor. I would rather see any young man become a tramp and beg from door to door, than to sell liquor for a living. There is no meaner or more contemptible way of getting a living than by selling rum.—Rev. Father R. J. Barry, Hyde Park, Mass.

One of the great blessings of No License is, that it has crippled the power of the saloon,—one of the most powerful, bold persistent and audacious opponents to what is good.—Rev. Father Thomas Scully, Cambridge, Mass.

The saloon is the recruiting office of the Devil, of blasphemy, and of infidelity. It is the duty, therefore, of all who love God and the church, to oppose the influence of the saloon.—Rev. Father C. J. Burns, Providence, R. I.

We know that intemperance has wrought evils in the liberties of our country and in the politics of our country. Oh, the meanness of our politics that will be led by the grog-selling element!—Rev. Father W. Elliott, C.P.S., of New York.

We who labor so hard to rid our mother country of landlords and landlord iniquity, ought not to become slaves of the rum-lord, and bow to the iniquity of intemperance.—Rev. Father T. J. Conaty, Worcester, Mass.

Any American citizen who says it is impossible for us to put down those evils, to enforce the laws that are upon the statute books against the liquor interest, I would say to him he ought to abdicate. We are able to do it.—Most Rev. W. H. Elder, D.D., Archbishop of Cincinnati.

Trotter—"During my travels in Italy I was captured, bound, and gagged by bandits."

Miss Homer—"How romantic! Were they anything like the bandits in the opera?"

Trotter—"No, indeed; the gags they used were all new."

Provincial and General News

Thrown Overboard by a Boat Thief.

A strange case of a struggle in a small boat comes from Vancouver. A. Carlston a well know fisherman along the water front, nearly lost his life in trying to save his property from being stolen. The police aroused by Carlston's yells for assistance at Sixth Street Slip, at once went to the scene and found him in the water, when pulled out he said he had been assaulted but did know who his assailant was. He went on to say that as he was about to enter his boat, a man got up and tried to steal it away. They engaged in a struggle and both fell in the water. No trace could be found of the assailant. A man named Watson, well known among the folk, was arrested later in connection with the affair.

Indians Robbed by White Men.

A case of robbery of land and money from Indians comes to light by the sojourn of one, Frauk Fleming, a secret service operator, at Yakatat, Alaska. He was posing as a fisherman, and obtained evidence in that manner. Eventually he obtained sufficient evidence against a man named Hurley, to have him arrested. Yakatat bears the reputation of being one of the most depraved towns in the Alaska territory; men, women and children are under the influence of drink constantly. Many of the Indians have died of pneumonia and exposure, caused by drinking and remaining in the snow for the night. Several Indians died in a month as a result of the drink evil among the aboriginies. The sums stolen from the Indians by white men are reported as being enormous.

Delicate Work Done on Steamers Shaft

A novel piece of marine workmanship was done lately on the S.S. Ionic, of the Northern Navigation Companie's fleet of package freighters. When the steamer reached Port Arthur it was found that her shaft was so badly worn that it was not pnssible to proceed with the journey unless something was done to strengthen it. Divers were accordingly sent down to estimate the extent of the damage and to place hangers so that should the shaft break it wold save the loss of the wheel. The vessel then proceeded to Duluth under her own steam, using the starboard wheel only for stearing. In the Duluth dry dock it was found that the work would consist of welding about five feet of new steel shaft on to the propeller, which was a heavy piece of work. The shaft which is about forty feet in length, was taken out and the new steel welded on. The operation was one of the most important and difficult ones that has ever been experienced on the Great Lakes.

Site Chosen for Catholic Church.

The Mount Pleasant Catholics have decided on a site for their new church, which is to be at the corner of Twelfth Avenue Quebec Street. It will be a two-storey structure. The basement will be used as a crypt, while the upper portion will be for church services. The building which will be only a temporary structure, will serve its purpose until the congregation is able to erect a more commodious church. The priest who will have charge has not yet been named. Tenders for the building have been called for immediately.

Painting Stolen and Returned.

A valuable original painting by Salvastor Ross, was stolen out of its frame by some daring thieves from the Laval University Gallery at Quebec. The picture which is entitled "The Gamblers," was a small one about 20" x 15" and had been cut out with a pen knife. The picture was afterwards returned by the city priest, and a statement made that the thief had confessed his guilt and returned the painting. Owing to the ritual that surrounds confession in Catholic Religion, no questions were asked of the priest as to who or where the thief or thieves are.

Americans Compete in Cheese Competition.

The Alberta Provincial Exhibition that will be held soon at Calgary, has received entries from all over the county for its cheese contest. F. S. Hadler, a cheese maker of Wisconsin has made entries for both large and small cheeses and has sent his eqhibit to the Government cold storage where it will be kept until the fair opens. Entries have also been received from Vancouver, New Westminster, Toronto, and various points in Ontario and Alberta.

C. P. R. Track Slides into Lake.

About 150 yards of C. P. R. track slid in to the Hawk Lake about five miles east of Kenora, Ontario; only a few timbers being left. The traffic on the line was seriously impeded, passengers had to be transported and freight trains were unable to proceed It is expected to take a few days before the tressle work is up again. The C. P. R. trains are now travelling over the Canadian Northern tracks. The place has been considered dangerous for some time by trainmen.

Edmonton Lumbermen Alarmed.

Lumbermen at Edmonton have become alarmed at the rapid rise of the Saskatchewan. Owing to the floods, some millions of dollars worth of logs have beeu lost in the past three years and in spite of frequent applications, the government have refused to place a break water across. The conditions of affairs are very precarious, five booms are expected to break any minute and will mean a great loss. Last year all the booms broke loose, and a million feet of logs went adrift. The lumbermen managed to save about a quarter, but the rest were lost.

Counterfeit Quarters in Circulation at Calgary.

A number of counterfeit twenty-five cent pieces have been put in circulation at Calgary. The coins are such exact copies that it is hard to detect them, and so far the police have been unable to find out the origin of the circulation. About the same time as the circulation started Norris and Rowes circus was at Calgary, and it is thought that their presence had something to do with the affair. The police have not been able to associate one with the other so far.

Heavy Damages Awarded.

The heaviest damages that have been given lately for personal injuries were recorded in Vancouver last week. J. C. Farquharson by a supreme court jury obtained the sum of $11,500 for injuries sustained in a tram collision at Cedar Collage last fall.

Great Fire at Winnipeg.

Fire has wiped out a large block of frame and veneer buildings belonging to the Great West Saddlery Store. The president of the company estimates the loss at $700,000, $70,000 of which is in the building the balance in big stock and manufactuing plant. Had a high wind been blowing, more damage would have resulted as the adjoining blocks were practically all frame and veneer buildings. The new high pressure fire plant was brought into existence for the first time and proved a decided success.

Drowned in Kootenay Lake.

Word is received of the drowning of Thomas Carlyle by the capsizing of a canoe near his ranch in the Kootenay Lake district. The deceased was a young man belonging to Newcastle, England, and owned a fine tract of fruit land to the east of Nelson.

Constable on Deadman's Island Has Appendicitis.

John Allen, one of the police constables who were sent to guard Deadman's Island and who was assaulted when the Kinnan-Gartley forces attempted to gain possession for the Ludgate forces has been suddenly taken ill. The doctor was sent for at once and found Allen suffering from appendicitis The sufferer was at once taken to the General Hospital where an operation will be performed.

Canners to Have Free Tinplate.

It has been decided to admit tinplate into Canada free of duty, owing to the amount of material used by the canneries. The matter has been in abeyance for about six months and it was feared a duty might be placed on the raw material that would seriously injure the canners and force an advance in the price of canned goods, and would mean several thousand dollars more outlay. Morrisburg of Ontario has been unremitting in their endeavours to get a duty placed on stuff from the States, putting forward that they can supply all the tinplate necessary, but it was afterwards found they would hardly be able to provide for the whole trade and the result would have been been forced importations from the States at higher costs because of the duty.

His Last Trip.

Andrew H. Thompson, ferryman on the Columbia River, at Trail, was knocked off his boat the other day by a revolving wire gear while he was carrying passengers across the stream. He was drowned before assistance could be sent. The deceased is about sixty years of age and leaves a wife and children. The high water in the stream is supposed to be responsible for the accident.

Chief of Police Resigns.

Owing to various citizens being dissatisfied with the work rendered the chief of the police at Strathcona has resigned his position, the resignition has been accepted by the city council. Citizens were dissatisfied because he took a house in the outskirts of the city, and the criticisims and reports at the city council meetings led to his resignition.

Stanley Man Drowned.

The death accured lately of Eugene Flatt, who comes from Gardner, North Dakota, as the result of a lark. He went swimming with some friends and boasting that he could float, attempted to do so. He was drowned before any of his friends knew what had happened. The body will be sent to his home at Gardner.

AN IDEAL FRUIT RANCH

S. T. Elliott returned from Vancouver last Saturday.

R. Paul arrived from the Coast by last Saturday's boat.

G. H. E. Hudson returned by Saturday morning's boat from Penticton.

Mr. and Mrs. Chas. Clark returned last Saturday, after an extended trip to Vancouver and Seattle.

Mr. and Mrs. H. Rose returned last Saturday from Vernon.

Mr. and Mrs. H. C. Childers returned last Saturday after a trip to Coast points and Salmon Arm.

Miss M. James left last Monday for Bristol, England.

Mrs. Burtch returned from a trip South last Monday.

Mr. P. B. Willits returned on Monday from a visit to Coast points.

Mr. D. W. Sutherland returned on last Saturday's boat from Vancouver.

Mr. Clement, editor of the Penticton Press spent last Saturday in town.

A. E. Gilbert, who arrived last week from Vancouver, is staying with friends at Rutland.

Mr. Guest arrived from Cleveland, Ohio, last week, and it is likely that he will locate in the district.

Mrs. D. D. Campbell left for Vancouver last Tuesday.

W. S. Grant of Westbank returned last Tuesday to Yellow Grass Saskatchewan.

Mr. and Mrs. F. E. Bray arrived by last Tuesdays boat from Winnipeg.

D. F. Gillis, inspector of schools for the district was in town this week, in connection with the examination at the High School.

Hon. Richard McBride Premier of British Columbia visited this town last Saturday in comyany with Mr. Price Ellison M. P. P. of Vernon.

Mr. P. Prozeski manager of the Havana Cigar Syndicate returned last Monday after an extended trip to the various coast points including Victoria.

Mr. A. Cox left by the Aberdeen last Tuesday for Short's Point, he will not return until Friday.

Mr. Healey left to-day for the Coast where he has purcased two lots of land at Prince Rupert. He will, however return to the Okanagan Valley shortly.

Pure Bred Shire Stallion

"Mona's Rocket"

No. 25,438 (Imported)
Foaled June, 1905.

The property of
J. HAYTON and E. W. MORRELL,
Oyama P.O.

"MONA'S ROCKET" is a grand bay. Four white legs and nice flinty bone of the right sort; the best of feet and joints. Present weight is 1,900 lbs.

Won 1st Prize and Reserve Champion as best foal at Bodedern Horse Show, 1905; 1st Prize at Toronto as a three-year old, 1908; 1st Prize at Vancouver Spring Show, 1909.

This horse will travel between Woods Lake and Kelowna, and will be found at Blackwood's Livery, Kelowna, every Tuesday night until Thursday morning, and at the Home Ranch, Oyama, Friday until Monday morning.

Mares kept at pasture.

Terms: $20 to ensure; $15 for the season; $10 single leap.

For further particulars apply to owners.

Town and Country News.

Last Friday 200 sheep arrived by the Okanagan. The shipment was made by Mr. Armstrong of Keremeos, local butchers purchasing the whole outfit. The work of getting them off the boat was a long and tiresome one.

The Okanagan cricket team returned last Friday after a trip embracing Revelstoke and Vernon, both of which towns were played during the team's tour.

A cheque for $2,000 was handed over to the City on Friday last by the Central Okanagan Land Co. This was the amount of the insurance on the ill-fated power house, held by the Company as agents for the Phoenix Assurance Company of London, Eng.

The departure of the road gang last Saturday for Black Mountain is perhaps the first move in connection with the work of the Belgian Syndicate. The company, it is estimated, will spend about a quarter of a million dollars this year on their irrigation system. The grading of a special road round the hill started on Monday, and a good road will have to be made in order to allow the various materials to be carried up.

It seems likely that the Okanagan Saw Mill Co., and box factory, directly south of the hospital will soon be in full working order. The wharf was scattered with various pieces of mill machinery last Friday, all being shipped by W. R. Megaw of Vernon.

The first consigment of new goods in connection with the repairs of the power house was received here last Friday. The shipment was made direct from the Canadian Fairbanks Co., Vancouver.

The workmen have been busy with the roof of Raymer's building during the past week. Mr. Raymer expects to have the store ready for occupation by T. Lawson Ltd. before the end of August.

Messrs. Hewetson and Mantle paid in a cheque for $2,000 from the Royal Insurance Co., last Friday, in settlement of the claim for the fire at the power house.

In the list of prize winners in the dot and dash contest inaugurated by the "World" newspaper of Vancouver, the name of Mr. E. C. Harvey, of Kelowna, is mentioned as one of the 303 successful competitors.

The Summerland Dramatic Society will produce that well-known farcical comedy, "The Schoolmistress, at the Opera House tonight (Thursday) at 8 o'clock. The show was very well received by the people of Summerland, and will no doubt amply repay for a visit. The proceeds are to be given to the Summerland Hospital.

Mr. Raymer has booked his hall to the Colonial Musical Comedy Company, generally known as the "Runaways," on Thurday, July 22. They will come with a strong cast and will play "The Showgirl," the comedy that took New York by storm a few years back.

Mr. Mills started moving his stable at the back of the Oak Hall Tuesday. The building will be taken to Mr. Mill's land in Eli Avenue. Mr. H. W. Raymer has the work in hand.

The large pump at the Power House is expected to be ready for working in a week's time. The boilers are now fixed ready for use.

The Kelowna Brass Band have accepted an engagement to play at Penticton on July 1st, it is expected that a big crowd will go with them. A special boat service is arranged.

Dr. Mathison, dentist, next to Post Office. Phone 89.

Next Sunday will be flower Sunday in the Methodist Church and the pastor Rev. S. J. Thompson will preach a special sermon expressly to young children.

The Rev. G. R. Clark arrived last week and has taken up his appointment as pastor of the Mount View Methodist Church. He has pitched his tent near S. Sproule's house, with whom he is boarding.

The service in the Methodist church next Sunday evening will be devoted entirely to young men. Mr. Thompson will take as the basis to his sermon "The Glory of Young Men."

Mrs. Thompson arrived by last Saturday's boat from Vancouver where she has been attending the W.C.T.U. Convention. She was received with great joy by her husband, the Rev. S. J. Thompson, who has been living in bachelor style just lately. Mrs. Thompson who is superintendent of the Moral Reform department of the Union reports a very successful meeting.

Ripe cherries were received in town last Saturday from Mr. Thompson's ranch.

The Kelowna Camp No. 14134, of the Modern Woodmen of America was organized last Saturday night in Raymer's Hall. The following officers were installed: F. Armstrong, VC.; R. D. Cook, W.A.; Wm. Ludlow, B.; P. Brooke, Clerk; L. Budden, E.; W. F. Bouvette, W.; F. C. McMillan, S.; and Chas. E. Wright, Camp Physician. The officers and members regret to note that their physician, Chas. E. Wright, leaves for Chicago, Ill., on July 1st.

The following circular letter has been received by Dr. Boyce, Medical Health Officer of the city, from the Provincial Board of Health, Victoria.

Dear Sir,

In view of the fact that small-pox is present in many points throughout the Province, I beg to call your attention to the following sections in the small-pox regulations:

11. When small-pox is present in the Province, any physician who is called upon to attend a person suffering from chicken-pox shall immediately give written notice to the Medical Health Officer.

10. Physicians, teachers, and householders shall notify the Medical Health Officer of the presence, or suspected presence, of chicken-pox.

I have the honor to be,
Sir,
Your obedient servant,
C. J. FAGAN,
Secretary.

Doctor Boyce wishes it to be known that in the early stages of the disease small pox is very often mistaken for chicken pox.

The Marathon race at Penticton on July 1st will be run over a ten mile course on the track for prizes of forty and twenty dollars. Among the other events are Aquatic Sports and various Horse Races. A good crowd from Kelowna have signified their intention to be present.

Miss Hubey, niece of Mrs. W. C. Cameron, returned last Monday to the Coast.

Mr. and Mrs. Verity who have been paying an extended trip to this locality, last Wednesday drove back to their home at Salmon Arm.

Major Audain left by Wednesdays boat for the Coast.

C. C. JOSSELYN GROCERIES FLOUR FEED

Should Peaches be More Widely Grown?

The minds of the people in the Okanagan will soon be aroused to the advisability of going more largely into mixed fruit farming, than into one or two specific varieties of apples. So far it has been understood that peaches are only grown as fillers to orchards, and the crop so obtained has been scanty and thin. The cause of this has often been put down to excess of irrigation. The finest types of peaches have been secured by farmers who have made extensive experiments with and without irrigation, and the general opinion goes to show that it is the amateur or ignorant farmer that should receive the blame. So far the cultivation of peaches has not received the same attention that the apple, pear, and perhaps the cherry have, and yet with cannery possibilities, there is no doubt that the attention of the growers will soon be pulled in the direction of this delectable fruit. A peach orchard requires more nitrogen than is generally supplied in the ground, and a light and frequent system of irrigation is generally advocated. The so called short life of a peach tree is due to poor management and principally along the lines of pruning. The peach is very often the first fruit to be produced by the amateur, this being his first experience in irrigation cultivation and marketing that the poor results can be accounted for. More study should be given to the market demands and distribution, and every locality should study its adaptabilities in a case of a glut or under supply in the market. The soil in which the peach grows best is a light sandy loam, as well as the granite soils of the hills. The peach is an early bloomer and is therefore more often caught by the frosts that would not damage to any extent the apple or pear crop. The crop requires very careful picking and handling, a fact that makes it more difficult to haul the fruit very great distances. There may however be a time when the tramways will supply a good even journey, and the fruit could be carried miles over road with the same amount of safety as is experienced by the train journeys both east and west. With the canneries in view, a great demand may soon crop up for these fruits for canning purposes. The cannery will give preference to the cling varieties. The yellow flushed cling stones will be the most favourable for canning purposes, while the yellow free stone are to be prepared for shipping. As a general rule the most farmers desire to keep to the shipping variety, and consequently use the culls and second-class goods for supplying the canneries. The canneries do not like to use the lower grade fruits, their business being to wait until fruit is at its lowest price, and then buy in large quantities, good fruit at a discount, and in the event of a business being made of canning and evaporating, there is little doubt that contracts would be made with the large orchards for the whole supply of fruit at a set figure. Those that have old trees, and have no crop this year will do well to head back rangy trees, so as to produce an abundance of wood for the next crop. Old trees that have been neglected can be improved by cutting back the old branches, and taking off practically the whole of the top, after two years a good tree will result with better bearing possibilities, and a decided improvement in the fruit. The best peaches when sent to market are always wrapped in paper, and packed in twenty pound crates, and at present the shippers can take and dispose of all they can get. When the canneries come to business and possibly an evaporating plant is put in, then will be the time when peaches will be found of good marketable value, and more trees required. The matter then will be more extensively studied by the farmer.

Colonial Musical Comedy Company.

With a cast of principals that has never been surpassed in any organization outside of the larger citie of America, the Colonal Musical Comedy Company will make its appearance at the Opera House on July 22 presenting as its initial bill "The Show Girl." This organization includes Adele Oswald, who has appeared in three of the leading musical productions of New York and Chicago in the principal feminine roles. Nellie V. Nichols, concededly the best dancing soubrette on the American stage. Essie Barton, an exponent of character roles, that has won deserved recognition. E. Coit Aldertson, the creator of the leading tenor parts in several conspicuous productions: Frank V. Nelson, a fine baritone and clever actor: Frank Woods, one of the funniest little comedians known to the stage: Harry Burgess, another famous comic, and others of equal note. Back of this exceptional list of principals is a chorus of twenty people, including the famous "Eight Dancing Ponies" selected from the best New York and Chicago "Broilers"—so called. The work of these little women alone would make any entertainment worth seeing. In all there are 35 exceptional people with the Colonial Company. "The Show Girl" is one of the best musical comedies seen recently in the United States. Its long and prosperous engagements in New York Chicago, Boston and Philadelphia have created a desire every where to see it, and the cities favoured with its production have invariably declared it the best and brightest thing of the sort seen in years. No ordinary company could do "The Show Girl" justice, as it demands a special and high order of talent, which the Colonial Company supplies. Seat sale at the Usual place.

BROWN BROTHERS COMPANY, NURSERYMEN,

LIMITED, of ONTARIO,

Are extensive growers of all kinds of Fruit Trees, and other Nursery Stock, such as Roses, Shrubs, and Ornamental Trees, and offer to planters of Orchards, choice trees, true to name.

The most experienced planters realize that young trees grown in Ontario, under somewhat similar conditions as prevail in the Interior of this Province, are the best.

We are prepared to furnish "One year old trees," on a three year old root, or a two year old tree on a four year old root, as desired, at prices that will be considered reasonable.

We grow the Duchess Dwarf Pear very extensively, which is being used as a filler by a good many planters.

Our Peach, Apple, Pear, cherry and Plum trees are all of first quality well grown, well rooted, and will please the most critical buyers.

Thorough cultivation in our Nurseries ensure a splendid root system which of course is most necessary in a young tree.

During the past two seasons we have successfully shipped our stock to all parts of the Province, and can guarantee satisfaction to all our patrons.

The members of our firm are all practical Nurserymen, with long experience, and they are giving their whole time to this one business, constantly overseeing every detail of the work of growing, packing, shipping, etc. The fact is, we live among the trees, watching with zealous care the development of every acre of our vast plantings.

This is a Canadian enterprise of 25 years standing, and our reputation is behind all our dealings, give us your order and you will not regret it.

We want a good reliable man to look after our business in Kelowna and vicinity.

Apply for particulars in regard to prices and terms to salesmen to our British Columbia Branch Office.

City Council Meeting

Continued from page 1.

to Mr. Grabell. The chief was of the opinion that the license could not be transferred without a notice being placed in the press for thirty days, and an announcement made before the license commissioners.

It was finally moved by Ald. Cox seconded by Ald. Rowcliffe, that the license commissioners be requested to see the hotels be required to comply with the Provincial laws and City By-laws governing licensed premises for the sale of intoxicating liquors before any renewal of licenses.

The chief had received several complaints from persons witnessing the baseball game last Thursday. Upon entering the park, people were asked for 25c. admission. He understood the park was to be free and only a collection taken up. When he entered he was requested to pay 25c. and upon mentioning who he was the collector looked very small. The council agreed that the matter ought to be stopped as the admission to the park was free. They understood from Mr. Eastman at the last meeting that a collection would be made and that no admission would be charged.

Mr. Mills attended and asked leave to move his stable as the back of the Oak Hall to his property on Eli Avenue, and also to cut necessary wires to allow the building to pass. Permission was granted on condition that D. Mills assumed all responsibility for damage done, and that he bore all expenses connected with cutting and repasring wires, all work to be done under the supervision of the building inspector.

The following accounts were referred to the finance committee to be paid if found correct:

Vernon News Advertising	$7 20
George C. McGown Inspecting boilers	30 40

Mr. G. Rowcliffe reported that in order to rush the work of the power house, the Light committee had given the contract for the construction of the power house to C. G. Clement, the price being 15c. per cubic foot, the city to supply the cement and gravel.

The Mayor explained that the plans and specifications had been prepared by Mr. Thomas, and that tenders for building should be in by the 27th of the month.

Several aldermen thought it best to call for both brick and concrete, walls, and a general discussion as to the best material to use in the case of a fire.

Ald. Cox in advocating concrete took the Fernie fire as his example and stated that the concrete buildings stayed the fire better than the brick. He also pointed out that all the large buildings were made of concrete and more especially the largest elevator now in course of erection. It was decided to call for tenders for both brick and concrete.

Ald. Ball wished to know if the fuel would be protected, and the bins placed right away in the building.

The Mayor was of the opinion that the council ought to wait until more money was available before they put in bins.

Ald. Ball thought the reason of the cause of the last fire ought to be protected at once, so as to lessen the chance of a recurence of such a fire. The matter was left in the hands Aldermen Rowcliffe, Bailey and Ball to look into.

The question of the fire hall and the occupants of the room vacated by Chies Hidson was next gone in to.

It was suggested by Ald. Ball that one man should be in attendance all the time during the evening even if he had to be paid. As the Fire Brigade were having a meeting on Tuesday night, it was decided to bring the matter up and make a final decision.

A report was also received that several children were playing in the irrigation ditches at Glen Ave. and filling them up. The Mayor thought something ought to be done to stop this and left the matter in the hands of the chief of police.

The following motions were carried.

That the deds for the Kelowna Land & Orchard Co. for the north 33 feet of Lot 14 Map 286 be registered.

The Clerk was instructed to inform the Dominion Securities Corporation that it is the intention of the council to float a further issue of debentures, and to ask their opinion in reference to rate of interest and term of years for which same should be floated.

The meeting then adjourned to meet again on Friday June 25th at 8 o'clock.

Fire Brigade Meeting

Continued from page 1.

alarm was given.

Mr. Elliott said he did not blame the brigade for having false alarms.

The great bone of contention was the O.K.ing of the bill for some cloth caps which had been procured by the brigade without order from the council.

Mr. Samson was told he could get the caps, but it was not brought up before the council. It was considered imperative for the brigade to get some caps to distinguish them from the rest of the people who were present at fires, and Mr. Elliott did not think the brigade would find any difficulty in getting the council to O.K. the account under those circumstances.

Mr. James thought uniforms ought to be supplied, as often a suit of clothes would be spoiled by water and mud, and he did not think it right for the brigade to pay for their clothes if spoiled.

Ald. Elliott said the council would make no agreement to replace spoilt clothes, as there would be no knowing when to stop. He contended that the owners of the property attacked would compensate the brigade for any loss, and had not the papers set out that support was coming from the council, one fire in particular might have been paid for by the citizen whose building was attacked.

Mr. Jenkins urged a better system, he did not think a fire brigade could be properly run unless a better system was established.

Mr. Elliott wished to know if the brigade wished to remain a volunteer fire brigade. If it wanted paying he said, say so.

Mr. Jenkins replied that not one of the brigade wanted payment as long as the equipment was found.

Ald. Elliott said the present council had done ten times more for the fire brigade than any other council had done, and it was simply because the city never had an efficient fire brigade before.

H. Newby remarked that the council had promised to fix up rooms for the fire brigade and also a sleeping room for the chief, this was three months ago and nothing had been done.

It was finally agreed that the brigade should approach the council and ask for the following matters to be put straight.

That the city council pay the bills as presented, minus the money for all false alarms and attendance at fires.

That the city council O.K. and pay the bill for the caps ordered.

That the Brigade have a written agreement with the city as to the way they shall proceed in future.

The meeting then adjourned.

(a.) The name, address and occupation of the applicant.—Rosa Casorso, Kelowna, B.C., the wife of John Casorso, Rancher.

(If for mining purposes) Free Miner's Certificate No.

(b.) The name of the lake, stream or source (if unnamed, the description is)—An unnamed stream, flowing from a stream rising 800 feet from North line of D. McEachren's land in South half of Section 8, Township 26.

(c.) The point of division.—At the said Spring.

(d.) The quantity of water applied for (in cubic feet per second)—2½ cubic feet per second, and 1-37 of cubic feet per second for domestic purposes.

(e.) The character of the proposed works.—The erection of a dam at said spring and thence to convey the Water by a ditch, flume or pipe to the place of use.

(f.) The premises on which the water is to be used (describe same)—South half Lot 132, in Group 1, Osoyoos Division of Yale District.

(g.) The purpose for which the water is to be used.—Is agricultural.

(h.) If for irrigation describe the land intended to be irrigated, giving acreage.—The South half of Lot 132, in Group 1, Osoyoos Division of Yale District, containing eighty-five acres more or less.

(i.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return.

(j.) Area of Crown land intended to be occupied by the proposed works.—None.

(k.) This notice was posted on the twenty-sixth day of May, 1909, and application will be made to the Commissioner on the Twenty-sixth day of June, 1909.

(l.) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet.—None.

(Signature) ROSA CASORSO,
(P.O. Address) Kelowna, B.C.

Local Briefs

Mr. and Mrs. Hassel are giving a birthday dance at the Belle-vue hotel today.

The engagement is announced of Mr. A. G. Martin of South Okanagan to Miss Mackenzie Grieve.

The examinations for McGill University matriculation finished last Tuesday. The candidates were the three Miss Hunters, Miss Biggar, and Miss W. Raymer. The examinations were conducted by the Rev. Thos. Green.

The members of Knox Church Choir met on Wednesday night at the home of Mrs. J. N. Thompson, and after a pleasant evening spent together, presented Miss E. Smith with a suit case, as a slight token of their appreciation of her services as organist and choir leader during the past three years. Miss Smith expects to leave Kelowna the first week in July, and will be much missed.

Yesterday Mr. W. McJannett had the misfortune to step on a rusty four inch spike that was sticking up in a piece of board in the road. The spike went right through his boot and has caused his foot great pain. He at once had the wound cauterized and progress today is favorable.

Hold-up Near Ducks

About twelve o'clock, when the C.P.R. train No. 97 was proceeding west, towards Ducks, six men effected a hold-up. Soon after leaving Sicamous two masked men crawled over the coal pile on the tender of the engine, and entering suddenly into the engine cab, with levelled pistols demanded the driver to stop at a signal fire only a few hundred yards off. The driver having no alternative slowed down, and the fireman was requested to dismount. Four men then came from the fire, and after firing a few shots proceeded to run through the various vans. Nothing of value was on the train and it is expected that the robbers held up the wrong train. No. 5 was proceeding east with a large quantity of bar silver, and it is signified as likely that this is what they were after. The train No. 97 carried practically no express and only a few registered letters, and after finding this out the robbers allowed the train to proceed. The men made away across the Shuswap Lake by boat. A search party is being sent after them, and it is expected they will be caught soon. The locality is identical to the place where Bill Miner held up a train three years ago last May.
