PRESENTATION.

Address of Congratulation to W. Cowan.

On Monday night a number of friends of W. Cowan mustered and called on him at his residence in the Cowan Block to express their congratulation on his having taken unto himself a wife, though he succeeded in keeping the secret so well. There is no man who has done more for Revelstoke or showed greater public spirit than Mr. Cowan, and advantage was taken of the opportunity to show him that the citizens of Revelstoke appreciated what he has done for the city and district. The Mayor, on behalf of the assemblage, read the following address:—

W. Cowan, Esq., Revelstoke.

Dear Sir,—Your many friends in Revelstoke have learned with pleasure that you have at last joined the ranks of the Benedicts, and have availed themselves of this opportunity to convey to you and Mrs. Cowan an expression of their regard and esteem for you, and their hope that your married life may be long and pleasant, and that you will for many years to come continue to reside in Revelstoke, where are to be found so many evidences of your public spirit and enterprise, and your assembled friends request that you accept the accompanying chest of sterling silver as a token of their regard for you.

On behalf of your friends, H. A. BROWN.

Mr. and Mrs. Cowan were then presented with a handsome chest of sterling silver, and those present having joined in their expression of good wishes, Mr. Cowan thanked them for the handsome gift, and a pleasant social evening was spent.

RAILWAY FATALITY.

Brakeman Killed at Beavermouth.

On Wednesday, while a train in charge of Conductor Bruce was shunting at Beavermouth Brakeman J. H. Davison was coupling cars, when the engine suddenly backed, and a steel rail slipping from a flat car he was on caught and drove him against a box car, inflicting terrible injuries. He was removed to Golden Hospital, where he died yesterday morning. The body is being sent east for interment in charge of Brakeman McNeill. Deceased had been employed on the division for some months. An inquest was held at Field yesterday.

ROSCIAN OPERA CO.

The Roscian Opera Co. made their first appearance here last night in Sousa's well known opera, "El Capital," and judging from the applause which was well merited, the performance was greatly appreciated. Claude Amsden, in the title role, is an exceptionally clever comedian being ably assisted by Jack Leslie as Pozzo, the private secretary. Mr. Walters, the tenor singer, needs no introduction to the music-loving patrons of Revelstoke, having been heard here before with the Beggar Prince Opera Co., and his solos were rendered in a very efficient manner.

Of the ladies special mention should be made of the prima donna, Miss Nola, who possesses a very fine clear voice and with apparently little effort easily handled the work allotted to her. Miss Hazel Davenport, as Estrelda, was very vivacious and chic, captivating the audience with her pleasing manner. Miss E. George, as the Countess Morganza, and H. Campbell, as Caramba, handled their respective parts with ease.

The chorus work under the able direction of Mr. Hosmer was exceptionally well handled, showing that not a little time and care had been paid to that branch of the organization. The company will conclude their engagement tonight with Gilbert and Sullivan's well known opera, "The Mikado."

GRIP AND PASSWORD.

MACHINISTS.—At the meeting of the local lodge of the Brotherhood of Machinists held Monday evening the following officers were elected for the ensuing term: President, D. J. Jackson; vice-president, R. Tallon, secretary, T. J. Wadman (re-elected); financial-secretary, J. McRae; treasurer, F. Burke; conductor, Jas. Robinson; guard, Gordon Knowlton; trustees, H. Williams, W. Feeney and J. Fulton.

I. O. F.—Court Mt. Begbie, No. 3461 I. O. F., elected the following officers for the coming year: C. R., F. H. Fretz; V. C. R., G. Bell; Jr. P. C. R., Ed Moscrop; R. S., J. S. Hooley; F. S., B. F. Gayman; treasurer, J. L. Smith; orator B. R. Atkins; organiser, W. A. Smythe; S. W., J. B. Scott; J. W. L. A. Fretz; S. B. C. Austin; J. B., W. A. Smythe; trustees, B. R. Atkins and G. Bell; finance committee, L. A. Fretz and J. V. Saunier; court physician, Dr. Sutherland.

THANKS.

Permit me through your paper to thank in the most cordial manner those who took part in the presentation of the beautiful case of sterling silver to myself and Mrs. Cowan on Wednesday evening last. The high appreciation in which it is held is not only in its value but in the manner in which it was presented and the men and business interests that stood behind it. Yours sincerely,

W. COWAN.

SATURDAY, DECEMBER 16, 1905

REVELSTOKE AND RAILWAY RATES.

We congratulate the C. P. R. on recognising and admitting the injustice under which Revelstoke has labored since the distributing rate formerly in force here was cancelled. B. W. Greer, freight agent at Vancouver says:

"The question of natural advantages over Calgary or Revelstoke were not natural—they were unnatural." He stated that they were unnatural in the respect that it was not natural that Vancouver should be able to freight from Montreal cheaper than the same class of freight could be landed in Calgary or Revelstoke.

"Now that is an unnatural advantage and that was what was meant in the company's reply to the Railway Commission," said Mr. Greer. "It is incorrect to argue that the reference to natural advantages in the reply referred to Vancouver's position on the seaboard by reason of which she has many natural advantages. That Vancouver is able to secure lower freight charges from Montreal than either Calgary or Revelstoke is due to conditions which cannot be controlled, that is water competition."

BULLETS OR BALLOTS.

When a member of the legislature like J. H. Hawthornthwaite gets up on a Vancouver platform and endeavors to incite the public mind to the idea that this country has to face a battle between ballots and bullets it is time wiser counsels prevailed among the electors who are responsible for the return of representatives to parliament. Canada is one of the freest countries on the face of the earth, and by the intelligent exercise of the ballot any reform which the people want can be secured. Under such conditions the agitation of the ideas of bloody revolution in a country where the people are law-abiding and wish to dwell in peace and harmony are utterly uncalled for. The use of such language by a responsible legislator leads one to doubt his sanity and certainly to insist that such a man is utterly unfit for such responsibilities as attach to the good government of the province.

BUILD UP YOUR DISTRICT.

The failure of the York County Loan Company is another instance of the folly of Revelstoke people investing their money in eastern concerns of which they know nothing instead of putting their savings into home enterprises which are carried on in their midst under their direct supervision. Far-off fields look green and the citizens of Revelstoke have lost thousands of dollars by their eastern investments, which should be a warning to them for years to come. Nor are these people entitled to any sympathy. By their policy of investing away from home they have proved traitors to the city and district in which they earned their money, in most cases by hard work. With the exception of some mining companies there is not a local enterprise that has been a failure, and in a growing district like this, where there is such immense natural wealth, industrial enterprises are certain to bring big returns in the future. The York County Loan, Marconi Wireless, and another eastern concern took about $50,000 of the savings of Revelstoke people, investments which are practically valueless, whereas that money turned into home enterprise would have helped to build up the city and district, would have given increased employment to labor, and if steady dividends had not been assured immediately the result would have been to build up industries which, in a few years, could not fail to prove highly profitable to the investors. What Revelstoke and district wants is a higher and nobler public spirit, generous in its loyalty to its home enterprises and slow to condemn or knock legitimate plans for home development.

CORRESPONDENCE.

PROOF WANTED.

Editor KOOTENAY MAIL:

Sir,—The unfair attack in your paper of Dec. 2nd by a correspondent signed "Inquisitor" calls for one or two comments. Will the writer come out over his own signature and repeat his statement with proof?

I question if the writer is genuine in his cry for better conditions as regards gambling, and I doubt very much if he has ever lifted a hand to stem the torrent of vice in this town. In the face of the many evils in this community it is not for any one to point in an insidious manner at any official and make unfounded charges, and expect such to face all the difficulties of the situation, while the like of "Inquisitor" sits back in his obscurity and weakens a man's hand, even when he is disposed to do right. What we want today in Revelstoke is a Public Opinion which will say that the evils must be stopped. It is up to Inquisitor to come out boldly and tackle the evils of this "open town," and lead in a crusade against vice and not in a cowardly manner from behind a nom de plume strike at officials who, notwithstanding how great their desire may be for a better state of affairs, are powerless to act unless supported by public opinion.

The fact of the matter is, the tentacles of vice are so interwoven with the business and general life of Revelstoke that it is a task beyond the power of any one man or set of men to change existing conditions. No one understands this better than "Inquisitor" and therefore the unspeakable meanness of his attack.

Yours truly,
ANDREW COCKBURN.

NAKUSP.

From Our Own Correspondent.

Rev. Mr. Simpson and Mrs. Simpson, of Arrowhead, spent a few days in town the guests of Rev. D. K. and Mrs. Allan.

Miss McCullough, of Burton, was in town for a few days visiting friends.

Frank Bourne, of Revelstoke, was down for a few days.

Mr. and Mrs. L. J. Edwards are away for a holiday trip to the coast.

E. Tretheway is relieving Mr. Edwards at the station.

Rapid progress is being made at the repairs to the Grand Hill.

The Polmatier Sisters are billed for Abriels Hall on Saturday evening.

The bazaar given by the Ladies Aid of the Presbyterian church was a huge success and the ladies are to be congratulated on providing such a magnificent display of their handiwork. The rooms of the Leland House, which Mrs. McDougald kindly placed at the disposal of the ladies, were beautifully decorated, and the various tables were presided over by the ladies of the Aid. The proceeds amounted to over $100. The quilt drawn for was won by W. Gammon, who presented it again to the Society.

"The Man from Borneo" will be given by the Dramatic Club on Wednesday evening, Dec. 20th.

A butcher shop will soon be opened in town.

ARROWHEAD

From our own correspondent.

A HINT TO FARMERS.

Every farmer in Canada should read the Family Herald & Weekly Star of Montreal. It is without exception the best Family and Farm paper on this Continent, and costs but one dollar a year, including their most beautiful picture, "Queen Alexandra and Her Grandchildren and Dogs." It is the biggest dollar's worth offered this season, and no farmer should overlook it. The Farmer's Manual & Veterinary Guide issued by the same paper should also be in the hands of every farmer. Particulars may be had at this office or by writing direct to the Family Herald & Weekly Star, Montreal. No enterprising farmer should be without it. It is recommended by the best authorities. Samples can be seen at this office.

A Certain Cure for Croup.

When a child shows symtoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years, and has never been known to fail, viz: Chamberlain's Cough Remedy. Mr. M. F. Compton, of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in cases of croup with my children and can truthfully say it always gives prompt relief." For sale by all druggists.

Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption.

Chamberlain's Cough Remedy

has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

Happy at Last

Her Husband no longer gets Intoxicated—Samaria Tasteless Remedy Cured Him.

This lady says: "For the first time since I have been married I can be happy and content—my husband is cured of his bad habit of drinking. Several months ago you sent me a free sample of your remedy at my request, and without my husband's knowledge I gave it to him in his tea and food. I then got a full treatment and gave it regularly. It is wonderful, and I cannot sufficiently thank you for the blessed change it has brought to my home."

LECKIE BOOTS DEFY THE ROUGHEST USAGE.

They are the staunch friend of the logger, prospector and miner, and the arch enemy of the custom shoemaker.

LECKIE BOOTS can be relied upon to stand the severest strain that shoe-leather is ever put to. They never go back on a prospector or miner when far from the busy haunts of men.

How much LECKIE BOOTS will save you we cannot say; we do know, however, that they will wear twice as long as some boots and a great deal longer than most boots.

Ask for Leckie Boots; your dealer has them, or can secure them for you.

The Fall Showing of Fancy Plates

Never in the history of this store have we shown so many styles of fancy plates or so many pretty designs costing little.

¶ In fact some of them cost so absurdly little that you can indulge yourself without extravagance.

¶ And then you needn't be afraid of breaking them.

¶ The prices don't begin to correspond to their real value.

¶ In dozens or single pieces.

¶ Then there are the finer grades, sold in dozens only, made by potters to European royalty. You'll manage to own some of handsome new patterns, we dare say.

Marlin
REPEATING SHOT GUN
NEW MODEL No 17

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high *Marlin* standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for smokeless as well as black powder and so chambered that 2¾ inch or 2⅝ inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and bird shooting to get this high grade repeating shot gun at so low a price.

Victorious Through Merit.

OXYDONOR triumphs through merit—for years it has been the life guard of more than a million persons. It is the embodiment of the highest law known to human science. In it is concentrated the experience of the greatest scientist of the age. A labor of love for humanity.

No other agency for health has so many faithful friends—none other deserves so many.

OXYDONOR instills new life into the system; regenerates, reinvigorates and vitalizes every organ to the proper discharge of the function for which Nature intended them. Its use brings vigorous health with all the vigorous activity that makes life worth living.

No matter what disease you have, this is the only natural cure for it. There is no danger, no pain, no doctor nor medicine in using OXYDONOR.

It will last a lifetime and serve the whole family. SEND TO-DAY for book 49 mailed free. Write us a description of your case.

INFLAMMATORY RHEUMATISM.

Mr. Jas. Ansen, Rossland, B. C., Can., writes, March 11, 1901: "Some five years ago I got Oxydonor for my wife who was suffering from female weakness. After a week's use the doctor himself was surprised to find such a change, in fact it was enough to induce him to get an Oxydonor for his sister.

"A short time ago my wife had an attack of inflammatory rheumatism. She could not walk and her joints were much swollen. She applied Oxydonor, and before night the pain had ceased, and next morning there was very little swelling, and she could walk as well as ever. She had a similar attack before we got Oxydonor, and was under a doctor's care for a month, and suffered agonies.

"It has cured me of a severe cold."

Royal Household Flour Is Always Uniform —Why?

It is one thing to make flour pure, well balanced and strong, it is another thing to have it uniformly so—to make flour that is precisely the same in purity and nutriment on Saturday as on Monday—in May as in November.

Because the "Royal Household" mills have the finest *testing* equipment available and unlimited resources for securing *perfect* wheat, they *can* and *do* produce—every working day in the year—flour of precisely uniform strength, nutriment and purity.

That is why Royal Household Flour makes always the very best bread and pastry, year in and year out.

That is why Royal Household Flour is the most reliable—the most successful flour—and being scientifically purified by electricity it is the purest—the best of all flours.

The next flour you buy ask for "Royal Household"—and try it for yourself.

Bovril the Kitchen Economist

When looking over your market accounts do you realize how much of what you pay for is wasted?

Often the bits that you usually throw out because you cannot serve them as they are, can be transformed into delicious, toothsome dishes with the help of a little BOVRIL. Here's a dainty Luncheon Dish from the remnants of roast mutton:

MUTTON FRITTERS. Finger-shaped slices of cooked mutton should be coated with a little salad oil and vinegar and left awhile, then spread lightly with Bovril, coated with thick frying batter, and cooked a nice brown in hot fat. A little grated cheese put on the meat is a further improvement. Drain well and serve very hot.

BOVRIL

Eight pounds of prime beef is concentrated in four ounces of BOVRIL.

Bovril is prepared only by BOVRIL LIMITED, LONDON, ENG., and MONTREAL, CANADA

MINING MATTERS

FRANK SMELTER.

Duty on Zinc.

The new industry of British Columbia—the zinc smelter of the Canadian Metals Co.—promises to be a large and growing concern. A market will be afforded at good figures for classes of zinc ore hitherto unsaleable, and the plant will compete successfully with those of the United States for the higher grades of ore. This is the class of smelting competition that will be beneficial to the country. No favors are asked from the producer, the management going on the principle that the best man wins. The competition will be sharp enough to keep the plant up to date in enterprise and practice, and herein lies the secret of a successful industry. If this plant were located in Eastern Canada we would hear a howl on at once for a duty on the spelter produced, but no word has yet been heard from the management on the subject. They should have it. The Canadian market belongs to them by reason of their enterprise, and the amount invested in a work which will be of extensive benefit to the province. The producers of the Slocan and other districts of British Columbia should unite in a unanimous petition to the Minister of Finance for the imposition of a duty. The home market does not amount to much, but every little helps, and in the next ten years Canada should have population enough to produce and consume her own spelter. The producer will reap the benefit from steadier prices, and still have left open the free competition for his ore. —Mining Standard.

DRIFTS.

The Broadview at Ferguson has shipped two cars of ore to Trail smelter.

The Western Federation of Miners propose starting a co-operative mining company.

At the British Institute of Civil Engineers George Attwood, consulting engineer for the Ferguson Mines, Ltd., read an exhaustive paper on Riblet aerial trams as installed at the Nettie L. and Silver Cup mines.

The Granby dividend now being paid amounts to $405,000.

The B. C. Copper Company intends enlarging its plant by the addition of the three largest copper furnaces in Canada.

The magnetic zinc separators at Kaslo are working well and the plant will be increased.

Silver is still over 65c., lead has dropped slightly to £17 6s 3d in London, and copper has reached the top price of 18¼c.

The annual meeting of the shareholders of the Revelstoke & McCullough Creek Hydraulic Mining Co. was held in the office of Sibbald and Field on Monday when the following officers were elected for ensuing year: President, C. F. Lindmark; vice-president, Cassius Bagley, Duluth; managing director and secretary-treasurer, J. D. Sibbald. Directors, C. M. Field, M. Hume, J. D. Sibbald, J. P. Sutherland, of Revelstoke, and J. G. Harris, J. T. Mischaud and Morris Thomas, of Duluth, Minn.

Another nugget of 250 lbs. has been found at Cobalt, Ont., and two more weighing 30 and 40 pounds respectively, the latter being of pure silver.

The Frank smelting plant for the treatment of zinc-bearing ores, has a capacity of 120 tons per day. The company has a coal mine in its own right alongside, from which it can deliver coal at 60 cents per ton.

The recent uncovering of gold on the Laurentian mine, Wabigoon, was probably the richest in the world, running up to $300,000 already laid bare. Immense quantities of the glittering mass will turn out $50,000 to the ton.

Eight feet solid of high grade ore has been struck on the North Star which was recently reported played out.

Platinum is reported in the Bear Creek claim at Nicola, owned by Messrs. W. H. Armstrong and C. F. Law. A number of samples of the ore were recently assayed by a firm of platinum assayers in New York, and yielded the excellent return of four ounces of platinum to the ton.

The Kaslo magnetic zinc separator has succeeded in getting a concentrate of 50 per cent. zinc, while the iron saved is sufficient to pay for the treatment of the ore as a flux by the smelters.

Le Roi shareholders refuse to agree to the amalgamation of the mine with the Trail smelter, Centre Star and War Eagle mines.

RAIL AND STEAMER.

Lord Rothschild has joined the directors of the Grand Trunk Pacific.

Mrs. Wallman got $2,500 damages from the C. P. R. on account of her husband being killed on the track.

The C. N. R. and Great Northern have made a further cut on rates to Edmonton and the C. P. R. will probably follow suit.

We have it on excellent authority the Great Northern is figuring on building through Revelstoke into the Big Bend and Canoe River with a view to connecting with the Grand Trunk Pacific, and that the matter is taking definite shape.

It is supposed the Chicago, Milwaukee & St. Paul railway company is behind a big scheme to secure Similkameen ore tonnage and gain a shipping port at the coast. This company will spend fifty million dollars to gain connections and reach tidewater.

Twenty-seven contractors' teams arrived at Keremeos this week and more are expected daily.

The C. P. R. is moving for an extension of its charter for the A. and K. railway to connect Arrowhead with the Lardeau branch, and the Topic urges the application be opposed to hasten the building of the road.

John H. Wadman, son of Supt. Wadman, of Moncton, N. B., and brother of T. J. Wadman J. P., of Revelstoke, has been appointed fuel inspector on the Intercolonial Railway.

The Great Northern has 2000 men employed on the Boundary section of the V. V. and E. railway.

LUMBERING.

Proposal to Raise Rate of Stumpage.

It is commonly reported that there will be a move made at next session of the Legislature to raise the stumpage on provincial timber limits to $1 per thousand. This increase would not affect the sixteen-year timber leases granted prior to last session, but would affect all the twenty-one year leases issued since then. In these leases the Government specially reserves the right to raise the stumpage, and, as a matter of fact, in them it is already ten cents a thousand more than in the sixteen-year leases, which would thus become especially valuable. The Government are after a means of raising more revenue, and this is one plan that strikes them as feasible, and would be supported by those who consider the province is not now getting as much as it should out of its timber. The effect would, of course, be to raise the price of the manufactured article to the consumer.

CHIPS.

The roof of the Revelstoke Sawmill Company's mill at the Big Eddy is now on. The company also propose to put in a sash and door factory.

Lumber shipments from Revelstoke for week were Big Bend Lumber Company, 4 cars; Arrowhead Lumber Company, 15 cars; Bowman Lumber Company, Comaplix, 6 cars; Revelstoke, 5 cars; total, 30 cars—600,000 feet.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds, which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. J. Egleston, of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." These Tablets promote a healthy action of the bowels, liver, and kidneys, which is always beneficial when the system is attacked by a cold or attack of the grip. For sale by all druggists.

SYNOPSIS OF REGULATIONS GOVERNING THE DISPOSAL OF DOMINION LANDS WITHIN THE RAILWAY BELT IN THE PROVINCE OF BRITISH COLUMBIA.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths except those situated west of Yale for which the rental is at the rate of 5 cents per acre per annum. In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 12½ and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on the sales.

A license is issued so soon as a berth is granted, but in surveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber, and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 10 cents per cord for shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years, at a rental of two cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken up is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be required instead of cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

EARN CASH

In Your Leisure Time

If you could start at once in a business which would add a good round sum to your present earnings—WITHOUT INVESTING A DOLLAR—wouldn't you do it?

Well, we are willing to start you in a profitable business and we don't ask you to put up any kind of a dollar.

Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

You Pay No Cash Until After 1906 Harvest.

Poultry raising pays.

People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is outclassed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

CHATHAM INCUBATOR AND BROODER.

"Yours is the first incubator I have used, and I wish to state that 53 chicks out of 53 eggs. This was my first lot, truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. THOS. MCNAUGHTON, Chilliwack, B.C."

"My first hatch came off. I got 179 fine chicks from 190 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and if I could not get another money could not buy one for me. Every farmer should have a No. 3 Chatham Incubator. F. W. RAMSAY, Dunnville, Ont."

"The incubator you furnished me works exceedingly well. It is easily operated, and only needs about 10 minutes attention every day. R. SCOTT, MOOSE JAW, ASSA."

The Chatham Incubator and Brooder is honestly constructed. There is no fake about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.

You pay us no cash until after 1906 harvest.

Send us your name and address on a post card to-day.

We can supply you quickly from our distributing warehouses at Calgary, Brandon, Regina, Winnipeg, New Westminster, B. C., Montreal, Halifax. Chatham. Address all correspondence to Chatham. 314
