YOU DON'T HAVE TO KNOW ANYTHING ABOUT PRINTING

to be sure of a good job when we do your work. Seems funny, but some printers are so utterly lacking in ideas that unlesss you know a lot about printing yourself, you don't stand much chance of getting a creditable job.

We have a sufficient fund of good ideas about the right sort of printing to supply the lack of such knowledge on your part—that's what we are paid for.

CITY COUNCIL.

A Valedictory Meeting.

The retiring city council held their last meeting on Friday night. Present: The Mayor, Ald. Abrahamson, Taylor, Nettle and McLeod.

The accounts presented to date were paid. On Mr. Tapping's bill of $10 for the use of the hall for the public meeting coming up Ald. McLeod and others said it was too much to pay for a building where the people had had to sit shivering with cold. Mr. Tapping admitted the complaint but said he had arranged for heating it. He would endeavor to have it in better condition in future, and on that promise the council passed the bill.

Ald. Nettle set the ball rolling in the way of open confession by expressing the opinion that as this was their last meeting they should drop any hard feelings which had been engendered by their differences of opinion. He hoped the meetings of the new council would be as harmonious as those of the old. Ald. Taylor and McLeod endorsed these views.

Ald. Abrahamson created a laugh by stating he hoped none of the aldermen bore the same feelings toward one another as some of those who spoke at the meeting the other night.

The Mayor closed by moving a vote of thanks to their worthy city clerk who had always acted towards them in the most courteous manner, and he hoped Mr. Shaw would continue in his office.

The city clerk acknowledged the compliment, and the happiest council meeting of the year concluded by the Mayor and Aldermen singing "God Save the King."

P., with a view to obtaining a grant at next session of Parliament of $100,000 for improving the navigation of the upper Columbia river between Revelstoke and Big Bend; and of $25,000 for a post office and custom house in a central position at Revelstoke.

Man Run Over on Track Dies From His Injuries.

An unfortunate accident occurred this morning at the railway station to W. R. Stephens, of Golden, who was walking along the track, when the dining car was being transferred. Dr. Cross was promptly sent for and accompanied Stephens by No. 2, intending to take him to the Golden Hospital but he died on the way at Glacier station.

FRIDAY, JAN. 18, 1902.

THE interest taken by the citizens in the elections held this week is a new era in civic affairs.

[illegible] of the most important [illegible] to come before the new city [illegible] is the scavenging system. The health of citizens is of paramount importance.

SCHOOL LIABILITIES.

It appears that the government has absolutely refused to pay the balance of the accounts of the school districts up to Dec. 31st, when the districts go over to the city. It was certainly the intention of the members of the Legislature that the districts should start from the beginning of the year with a clean sheet. We trust Hon. Mr. Tolmie, as Minister of Education, will see that this is done in good time. In Revelstoke, for instance, if the matter is not remedied, the city will be saddled with a liability arising from the previous year to pay with, and this would be unfair.

GALENA BAY.

A piece of road work that is urgently required is that to connect Galena Bay with the Thomson's Landing-Trout Lake road. As will be seen from our correspondent's remarks there are several producing ranches at Galena Bay, but the owners have no outlet for their produce save by water. By cleaning out the Horne Payne road there would only remain a mile and a half of new road to be completed to connect with the Bay, and this would give the Galena Bay settlers direct access to the mining camps. A few hundred dollars would do the work, and Mr. Tayler, M. P. P., should have no difficulty in securing that allocation.

CONGRATULATIONS.

The Dunsmuir government is to be congratulated on the stand it is taking in promoting officers of the civil service. That is the only efficient way in which to obtain good officials. The Gold Commissioner's post at Revelstoke has been the plaything of party till it had fallen into discredit. Now the government have taken the matter up in the only legitimate way in which it could be dealt with, and that is by making the appointment from the service itself. The selection of Fred. Fraser will meet with general approval. Since he has been in the government office here he has proved a good and reliable officer, and we have no hesitation in predicting that he will fulfil the duties of his new office with credit to himself and to the government. Great credit is due to Mr. Ed. Adair for the manner in which he represented Mr. Fraser's claims to the Government on his recent visit to Victoria.

MINING NOTES

Prospectors and mine-owners are invited to contribute to the KOOTENAY MAIL information of a reliable character regarding their properties, describing surface showings, development work and results attending assays, and new discoveries. The editor desires to make the MAIL a means of furnishing to investors reliable information concerning the progress and development of the mineral resources of North Kootenay.

The strike on the Ottawa, near Slocan City, is widening, and now shows five feet of ore in the face of the drift.

Conductor Ogilvie intends starting active development work in the spring on the Cleveland group on Isaac creek, in which he is interested.

A mining paper says Butte is producing copper at less than eight cents a pound and could therefore sell at 12 cents with a profit of 50 per cent.

The Northwest Development Syndicate will build a bridge over Fish Creek to connect the Oyster and Camborne properties, being developed by the company.

The plant for the Vulcan smelter to be established at Ferguson by the Lardeau Smelting and Refining Company, organized by C. W. McCrossan, was cleared through the custom house at Revelstoke, Friday, by J. W. Bennett and will be shipped in as soon as possible.

N. Abrahamson of Trout Lake informs us that the C. P. R. warehouse there is filled with ore from the Silver Cup, there being 200 tons now stored there. Three or four teams are steadily employed in hauling ore from the Cup. Two teams are also steadily employed in hauling ore from the Nettie L.

We have seen samples of the Big Bend mica from the Potlatch claim, which is one of the group of 12 claims purchased by Messrs. McCarter and associates. This mica has been trimmed to sheets of 5 by 7 inches whereas sheets cutting 4x4 make a valuable size for commercial purposes.

Geo. P. Wells, of Pelliser, is interested in some very promising silver-copper properties in the Ice River district, which came into prominence last season on account of new discoveries there. On one of the properties there is a vein reported as 20 feet wide.

E. A. Bradley returned from Smith Creek on Wednesday, the trip outward having occupied two and a half days. Mr. Bradley found the travelling good. The drift to strike wash on the Blue Jay has been extended twelve feet and Mr. Bradley considers the indications good for shortly striking the old channel. The pumping plant is working well, and although there is a considerable inflow of surface water the plant is handling it satisfactorily.

Thos. McNaught, of the Halcyon Sanitarium, who has been largely instrumental in bringing about the visit to the province of T. B. Steuart, the celebrated Scotch mining engineer, will invite the leading mining men of the district to meet Mr. Steuart at Halcyon on the occasion of his visit there. During his stay in British Columbia Mr. Steuart will collect full information as to the mineral resources of the province and he is backed by ample capital. Mr McNaught says: "Mr. Stewart is the best man who could have come out here." Mr. Stewart has been at Kaslo, enquiring into the prospects of building a smelter there on behalf of Scotch capitalists.

CHILDHOOD INDIGESTION

Often Leads to Serious Trouble Unless Prompt Steps Are Taken to Check It.—How This Can be Done.

Indigestion is a trouble that is very common in infancy and early childhood, and unless prompt measures are taken to control it the result is often very serious. It prevents the proper growth of the child and weakens the constitution, so that he is unable to resist other diseases that are more dangerous. Fortunately, however, the trouble is one that is easily controlled. Proper food—not too much, but absolutely pure—plenty of fresh air, and Baby's Own Tablets, freely administered according to the directions, will soon put the sufferer right, and make both mother and child happy. Mrs. W. E. Bassam, of Kingston, Ont., is one of the many mothers who have proved the truth of this statement, she says: "When my little girl was about three months old, she had indigestion very badly. She was vomiting and had diarrhoea almost constantly. She was very thin, weighed only four pounds and although she had a ravenous appetite her food did her no good whatever. I had tried several medicines but they did not help her. Then I heard of Baby's Own Tablets and procured a box. After giving her the tablets for a few days, the vomiting and diarrhoea ceased, she began to improve at once and grew plump and fat. I always give her the tablets now when she is ailing and the result is always good. Baby's Own Tablets are the best medicine I have ever used for a child."

These tablets will promptly cure all the minor ailments of little ones, such as sour stomach, indigestion, colic, constipation, allay the irritation accompanying the cutting of teeth, etc. They are good for children of all ages, and crushed to a powder or dissolved in water can be given with absolute safety to the youngest infant. If you cannot obtain Baby's Own Tablets at your druggists, they will be sent post paid at 25 cents a box by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Epilepsy Curable.

A DISEASE THAT HAS LONG BAFFLED MEDICAL SKILL.

Mr. M. A. Gauthier, of Buckingham, Gives His Experience for the Benefit of Other Sufferers From This Terrible Malady.

(From the Post, Buckingham, Que.)

We venture to say that in our town of 3,000 inhabitants few business men are better known than Mr. M. A. Gauthier, the young and hustling butcher of Main street. He wasn't, however, as energetic or as hustling a couple of years ago as he is today, and for a good reason—he wasn't well. Having gone into business ere reaching his majority his desire to succeed was such that no heed was paid to keeping the body in the state of health necessary to stand a strain, and in consequence of the extra demands on the system it became run down to such an extent that epilepsy or falling sickness resulted, and he lapses into unconsciousness becoming alarmingly frequent he consulted physicians and took some remedies, but without beneficial results. Finally seeing Dr. Williams' Pink Pills advertised as a cure for falling sickness he decided to give them a trial. As to the result the Post cannot do better than give Mr. Gauthier's story in his own words: "Yes" said Mr. Gauthier, "for nearly four years I suffered from epilepsy or falling fits, which took me without warning and usually in most inconvenient places. I am just twenty-four years of age, and I think I started business too young and the fear of failing spurred me to greater efforts perhaps than was good for my constitution, and the consequence was that I became subject to these attacks which came without any warning whatever, leaving me terribly sick and weak after they had passed. I got to dread their recurrence very much. I consulted doctors and took their remedies to no purpose, the fits still troubled me. I saw Dr. Williams' Pink Pills advertised and determined to try them. I did so, and the medicine helped me so much that I got more and kept on taking them until today. I am as well as ever I was, better than I ever was, and am not troubled at all by dizziness or the fear of fits seizing me again. Thinking there may be others similarly afflicted, I give my story to the Post that it may perhaps lead them to give this great medicine a trial."

Dr. Williams' Pink Pills are a positive cure for all diseases arising from impoverished blood, or a weak or shattered condition of the nervous system. Every dose makes new, rich, red blood and gives tone to the nerves, thus curing such diseases as epilepsy, St. Vitus dance, paralysis, rheumatism, sciatica, heart troubles, anæmia, etc. These pills are also a cure for the ailments that make the lives of so many women a constant misery. They are sold in boxes, the wrapper around which bears the full name—Dr. Williams' Pink Pills for Pale People. Can be procured from druggists or will be sent by mail, post paid, at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

GALENA BAY.

(From Our Own Correspondent.)

This is a section which is coming prominently to the front as an agricultural and fruit-growing point.

Thos. Beech has a farm of 320 acres. Of this 12 acres has been cleared and cultivated. The land produces excellent crops of vegetables, which are shipped to Ferguson, Trout Lake, Comaplix and Arrowhead. Mr. Beech is raising a small orchard.

T. J. Olson's farm comprises 160 acres. Eight acres have been cleared, and of this area an acre is in orchard. The fruit trees are now in bearing and are doing well. Apples are mainly produced. Vegetables are grown for market and sufficient hay for farm use.

J. J. Foley, of the Lake View hotel, at Arrowhead, has a ranch here of 160 acres. Five acres have been cleared and utilized for growing vegetables to supply the hotel.

On Angus McLeod's ranch of 80 acres, four acres have been cleared. Vegetables are grown. Half an acre has been planted with apple trees.

Another 80-acre farm is that of George Edge. Five acres have been cleared, and the land applied to cultivation of vegetables for market. A small orchard, mainly of apple-trees has been planted out.

John Shaw's ranch consists of 160 acres. Five acres have been cleared and used for growing vegetables. About an acre of small fruits has been planted out, and promises to give good returns.

Walter Jennings, of Thomson's Landing, owner of half the townsite, his holdings amounting to 320 acres. Of this property 12 acres have been cleared and seeded down.

W. Mackin, of Trout Lake, has a holding here and 200 acres have been cleared.

If we had the Horne-Payne road to connect with the Trout Lake and Thomson's Landing road, opened it would be a great benefit to us, as we could then cart our produce out to market. As it is we are shut in here, and the only way we can get in or out is by boat. Our produce has to be shipped and transferred so that the cost of freight is very heavy.

NAKUSP.

Presentation of School Medals.

(From Our Own Correspondent.)

Thos. McNaught, of the Halcyon Sanitarium, has given two handsome meda's to the Nakusp school, one for the head of the school in the boy's department and another for the girl's. The medals were sent to Nakusp and were presented by Walter Scott. The winners were Albert Lacoursier and Olive Vanderbergh. The medals were engraved "Nakusp Public School 1901 (Boy's and Girl's Department respectively) First Place" and bore the names of the winners. Hearty cheers were given by the children for the donor.

Mr. McNaught gave a similar medal to Arrowhead last year and proposes to present medals to the Ferguson school for this year's work.

COMAPLIX.

The Bridge to be Built.

(From Our Own Correspondent.)

Capt. Young, of Comaplix, who has interested himself much in the building of the bridge over Fish River, near Comaplix, has received the following very satisfactory letter from the Hon. W. C. Wells, Chief Commissioner:—

"Replying to your letter of the 18th inst. I beg to say that instructions had already been given to Mr. Killeen to have the Comaplix bridge re-erected. I have just been talking to him again about it and he wished me to say that he will come to Comaplix and arrange for the work."

Thousands Sent Into Exile.

Every year a number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. Don't be an exile when Dr. King's New Discovery for Consumption will cure you at home. Its the most infallible medicine for Coughs, Colds, and all Throat and Lung diseases on earth. Astounding cures result from persistent use. Trial bottles free at The Canada Drug and Book Co. Price 50 cents and $1.00. Every bottle guaranteed.

HALCYON

(From Our Own Correspondent.)

The Sanitarium maintains a gasoline launch for bringing supplies of vegetables and farm produce from the neighboring ranches and for running excursions on the lake when required by guests.

T. McNaught, manager of the Sanitarium, has discovered a splendid bed of clay in the neighborhood of Halcyon Springs, suitable for brick-making and it is probable steps will be taken to make use of it.

Visitors to Halcyon find an interesting subject of attention in a pet bear which is kept at the boiler-house.

The weather is remarkably mild. Although it is midwinter C. C. Taylor before joining the steamer one morning last week, plucked a buttonhole of pansies. A nice garden is to be laid out at the Sanitarium.

A HIGH COMPLIMENT

Paid to Brackman-Ker Milling Co's Products by New Zealand Miller.

The Victoria Colonist says: "Mr. Thos. Fleming, of the firm of Fleming & Gilkinson, flour millers and feed merchants of Invercargill, New Zealand, was in the city yesterday on his way home after an absence of 10 months, during which he has made a tour of Canada, a part of the United States and the United Kingdom. He carries away with him the most favorable impression of the Dominion, which he regards as a country of boundless possibilities. The wheat fields of the Northwest and the mines of British Columbia were a revelation to him. He told the Colonist that he would like the paper, if it mentioned him at all, to say that he had made the production of breakfast foods a special subject of observation, and he had no hesitation in saying that those produced by Brackman-Ker Milling Co. are the best in the world. This statement was volunteered by him, and he said it was a pleasure as a miller to be able to give such a testimonial to a B. C. product.

Blown to Atoms.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. F. C. Wells of Villa Ridge Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease. Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle."

Rev. Dr. Morris Wechler.
Rabbi of the Cong. Beni Israel
New York, Jan. 3rd, 1901.

Drs. Taft Bros. Medicine Co.,

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with periodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign on a vacant window on 130th St., New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the 1st of November. Every dose produced a radical improvement. After using one bottle her Asthma has disappeared, and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this dreadful disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901.

I am now in the best of health and am doing business every day. This testimony you can make use of as you see fit. Home address 235 Rivington street.

Specialised Treatment for Deafness.

In the "Journal for the Deaf," we find a complete description of a special treatment together with upwards of 200 recently cured cases, that will be of absorbing interesting to these who have any difficulty with the hearing. An instance of a cure in a most obstinate case is the following:—

The Rev. Mr. Heel, of Dartmouth-park, London, had for the last thirty years suffered from deafness, accompanied with the most intolerable noises in the head, an affection which interfered greatly with the performance of his religious duties, and which, besides, caused him considerable annoyance in social intercourse. On different occasions the Rev. Mr. Heel had attended specialists, in the hope of getting rid of this troublesome infirmity, but with little or no results, and he had, therefore, with some sense of logic, come to the conclusion that his case belonged to the great category of those evils, which, being insusceptible of remedy, must of necessity be endured in the best possible manner. But Hope can never be entirely eradicated from the human heart, and having some time ago heard repeatedly of the extraordinary results obtained by deaf people from the Drouet treatment, he decided to try once more and do away with the old nuisance. The success which attended his efforts was, indeed, most surprising, for the cure of his old complaint was effected in less than twenty-one days from the commencement of the treatment, and proved, subsequently, to be absolutely final. It must, in truth, be said that, considering the old standing of the disease and the rapidity of the cure this case stands as quite exceptional; the majority of the cures effected by the Drouet Institute taking on an average of from thirty to fifty days' treatment, but it is by no means unique. We find, indeed, in the "Journal for the Deaf" several most interesting reports of cases of quite as long standing, in which the cure has been effected in a remarkably short time.

Among the features of the Drouet treatment which especially interest any person suffering from Deafness, Ear diseases, and Throat and Nose affections, is the admirable system by which one can receive advice and use the treatment successfully without giving home. For all information, write to the Secretary of the Drouet Institute, 72, Regent's Park-road, London, England, who will answer such communications absolutely free of charge. A copy of the "Journal for the Deaf" can also be had gratis, and will be accompanied by a Pathological Report Form, which enables any patient to submit his or her case so clearly that the Consulting Physician can send accurate information of the treatment necessary to effect a cure.

This week Mr. and Mrs. H. A. Brown celebrated the tenth anniversary of their wedding by a pleasant family gathering.

Invitations are out for the annual ball at the Halcyon Sanitarium, to be held on Thursday next. This is one of the social events of the year, guests coming from all parts of the Province.

L. H. Buck, C. E., returned this week from the Coast, and will spend a month or so with his family. Mr. Buck has been working on the Great Northern survey from New Westminster to Vancouver.

A ten cent Talent Tea under the auspices of the Ladies Aid of the Methodist Church will be held at the residence of Mrs. Nettle Tuesday 21st inst from 3 p. m. to 6 p. m. Everybody welcome.

All who possibly can do so should support the Hospital Ball, for which exceptionally good arrangements have been made. The Ladies Auxiliary and the various committees associated with them have worked hard to make a success of the event in aid of a deserving institution.

A report having got about that the Hospital ball was to be a dress affair, we are requested by the Ladies Auxiliary to state that this report is incorrect. The aim of the committee organising the ball is to make it a general social gathering where all may feel at home and enjoy themselves.

In the window of the Canada Drug and Book Company's store are shown some samples of china painting done by Mrs. Courser. The work is most artistic in effect, especially the genuine coin gold, and is burned into the pure white china on which the painting is done. RAIL AND STEAMER

F. McCarty, President of the Revelstoke Navigation Company, informs us the return run of the steamer Revelstoke from Arrowhead to Nakusp was entirely satisfactory. He found no difficulty in getting up and maintaining a pressure of 200 pounds of steam. It has been decided to leave the steamer at Nakusp till spring, when she will be taken on her maiden trip up the Columbia River to Laporte.

Conductor Stevens, who has spent most of the summer in charge of work trains east of here and has lately been in charge of the snow service at Roger's Pass, is again on his old run between Revelstoke and Kamloops.

C. H. Snyder, formerly of the Mountain division, and latterly of the Canadian Northern at Winnipeg, has moved to ed Mona, Arkansas.

Ben Corley has gone out to Roger's Pass.

The steamer Rossland is tied up at Nakusp for the winter, and the Minto is taking her run.

The C. P. R. pay cheques for the shops, trainmen, station and telegraphic staff arrived yesterday, a pleasant welcome to the employes who have hitherto had to wait till nearly the end of the month. The rest will no doubt follow in a day or two. The punctuality thus instituted by Paymaster Baker since his appointment has given great satisfaction to the staff.

THE LARDEAU

How the Railway Progresses

When Constable Upper was south he went over the railway from Gerard to Lardo. Only about 85 men are employed on the grade, of which a mile and a half at the Lake end remains to be completed, with some connecting points. It is expected this work will be completed in two months. Tracklaying is at a standstill, the men having struck work when wages were reduced to $2 a day for nine hours work.

Mr. Upper found everything very orderly on the part of the road within the Revelstoke division, but in the Kaslo section two hotelkeepers were recently fined $20 and costs for allowing gambling on licensed premises, and the Licensing Committee renewed their licenses in spite of the protestations of the police.

W. J. Goepel, who has been acting Gold Commissioner at Revelstoke, is busy winding up the affairs of the Government office so as to hand everything over in good order to his successor, Mr. Fraser.

The retiring school trustees held their final meeting on Wednesday night, all members being present. Four applications were received for the position of assistant mistress in place of Miss Creech, and Miss Dent was the successful candidate.
