CITY AFFAIRS.

Public Meeting of Ratepayers Held Last Night.

A meeting was held at the opera house last night to consider the proposed bylaw to borrow $20,000 for improving the water and light system.

There was only a small attendance at the opening but it increased to about 100 as the meeting went on. The Mayor, Ald. McLeod and H. Floyd, city clerk, were on the platform and later Ald. Lewis joined them, the other aldermen being absent.

The mayor regretted the small attendance. He pointed out the present plant was wholly inadequate for present requirements of the city. Every time they opened up the present machine they ran the risk of burning out the armature, which cost $1,000 to replace. They had a meeting of the fire water and light committee to devise the best means of dealing with the situation, and they had prepared estimates for the necessary improvements which this bylaw was asked for to enable them to carry out. They had gone on the principle of providing the citizens with water and light wherever the revenue would provide interest on the cost, and to provide for the growing demands of the city, two carloads of pipe were required to replace with 4-inch pipe the small pipes now laid and this larger pipe would be laid on every second street so that every building in the city would be within a block of a first class water supply in case of fire. He invited them to discuss the matter fully and freely. These extensions were absolutely necessary, and he strongly advised them to see that the bylaw went through (cheers).

H. A. Morris—What is the net profit of the water and light?

Mr. Floyd explained it was $24,000 for the past two years.

Mr. Morris—Would not that provide for these works without borrowing more?

Mr. Floyd explained the interest, sinking fund and discount on debentures amounted to $18,588.09, and with the amount expended on improvements it still left a balance of $6,780 coming to the city from the electric light and water service.

The mayor explained last year $9,000 was put into the new water service. This should really have been raised by loan instead of being provided out of revenue, as it was an entirely new work, but as their debentures were unsold they financed it that way, necessitating raising the taxes to 32 mills. If the work had been done from loan the taxes need not have exceeded 22 mills. If the proposed works had to be done from revenue it would again raise the taxes this year. That was not right. The cost of permanent improvements like these should be shared by those who would follow them and get the benefit, and the only way to do that was by borrowing the money and repaying it over a number of years. (cheers)

In reply to Mr. Coursier the Mayor explained there were 100 now using meter and 180 without. Some of these never turned their lights off and the people who used meters had to pay for those who did not. As a matter of business it was proposed to charge each user exactly the amount of light they used. To do this meters must be put in everywhere and he was satisfied the result would be they would be able to reduce the meter rates a third, and each would get exactly what light they paid for. Regarding the flume it had been allowed to run into very bad shape. They put nearly a carload of timbers into it last year, but it was leaking so badly a piece got washed out and now they wanted to make a permanent job of it. The same with the water pipes. They had to take up the smaller pipes so as to save the expense of repeatedly having to tear up the streets to lay larger pipes, as the demand increased.

J. A. Kernaghan advocated having a competent engineer examine the plant and ascertain exactly what was required. It was time they got something permanent. The expenditure of last year should be a lesson to them to do permanent work. They talked about buying lumber by the carload. Lumber was not sold that way but by the thousand. Last year they bought a lot of pipe which was stacked up outside and was thus rendered practically useless. It would only last two or three years, whereas if put in the ground it would last 30 years. (Cheers.)

The Mayor—That pipe was bought on a survey made by an engineer and the profile was sent to the pipe works to fix the quantity. It was afterwards found the pipe line could be shortened and that was why that pipe was over. We took every precaution in putting in that new water supply. I don't know what Mr. Kernaghan wants an engineer for. There is no engineering work to do. The Hamilton Company have offered to undertake all the repairs, place the dynamo, etc., and will guarantee it. We propose to replace the piece of flume washed out by a barrel flume. We are taking every precaution we can in the interest of the city.

R. Tapping—Let Ald. McLeod give an account of his stewardship.

Mr. Kernaghan—Why didn't you protect the pipe you had left over? The Hamilton Co. don't deal in electric supplies, and that is why I don't think it right to turn the whole thing over to them. It looks a little suspicious. It is time you employed a man to look after the plant who knows something about it instead of one who knows nothing. Getting plans and specifications from the Hamilton Co. for an electric plant reminds we very much of sending a watch to Sam McMahon to repair. (Laughter.)

The Mayor—I never said the Hamilton Co. built electric machinery, but by getting the electric plant out in a carload with the other machinery we could get carload rate.

E. Moscrop—Get it out by freight.

The Mayor—Since the foundation has been put in there has been no trouble with the dynamo. As to the pipes they were put in the shade as advised by the makers, where the sun could not get at them.

Replying to Mr. O'Brien, the mayor said the timber ordered was what was required to replace the rotten timbers in the flume.

Mr. O'Brien—What are you going to do to prevent the flume from leaking? Can you place any scheme before the people to fix this up?

The Mayor—By replacing the rotten timbers and strengthening the foundation. The timbers in the collapsed piece of flume were perfectly sound, but the foundations were washed out by the leakage. I told Mr. Gordon I considered it gross carelessness. He applied for timbers a month ago to repair it and we asked him if it was absolutely necessary to do it then and he replied he did not think there was any particular danger just then. At the same time there was half a carload of timber lying there which could have been used to shore up the flume, and I consider this last accident due to carelessness.

J. Maddocks—Did you tell the man you would stop his pay as the former mayor told me?

The Mayor—No.

Mr. Morris—Dont you pay a man $120 a month to look after the machinery?

The Mayor—Yes.

Mr. Morris—Well dont you consider it carelessness on his part to let the thing go down and not look after it?

The Mayor—Some people advocate moving the plant to 8-Mile or the Jordan. If anyone has a scheme of that kind I would be glad to hear it. I would not be in favor of changing it at present, but if a scheme of that kind could be devised and we could find the money it would be considered. It would cost about $40,000.

P. R. Peterson—It would be a good scheme to put the new plant out there and give Gordon the old plant to practice on. (Laughter)

The Mayor—I want to put myself right on this matter. When I was elected one of the first things I tried to get done was to divide up the city's work, putting Gordon and one man at the power house to look after the plant, another on water service, and Lembke on installation, wiring, and fire alarms. I laid that before the Fire, Water and Light Committee but could get no support for some time, when the chairman, Ald. Lewis, was instructed to report to the council but never did so, and I was turned down. I wanted to see the city business run in the most economical and efficient manner. I did not advocate dismissing Gordon but considered he should be given an opportunity of proving his ability to run the plant. I was opposed to paying $1500 a year to a man to go to one end of the town and watch another dig a hole, and then go on his wheel to the power house to look at another man screwing a bolt.

Mr. Peterson—He's a blacksmith.

Mr. Morris—It is nonsense having one man doing nothing but running round town.

A. Brundrett—There is no concealing the fact that when the company sold the city this plant there was nothing to sell and the city got nothing. This trying to saddle one man with carelessness is a poor affair (hear, hear). I hope people will come to the conclusion the plant is a dead failure. I believe a good steel flume should be put in.

E. Trimble—Gordon is a capable man. The man who can run that plant as it is is worth $500 a month. This is simply throwing good money after bad. Let us have a permanent plant.

Mr. Brundrett—The city has spent on this the price of a new plant.

R. Howson said some suggestions had been made which would be helpful to them in future. There was a strong feeling on the part of many the plant was out of date and wanted to see up-to-date specifications prepared for an up-to-date plant. It would be of the utmost value to the city if they got a competent engineer to report on the best plan of providing the city with such a plant. He suggested having a board of works like the school trustees who should have control of public works of the city with one member retiring each year and so keeping the board in touch with the requirements of the city.

Mr. O'Brien said there were many objections to the present source of supply—a turbulent river, trouble with ice and difficulty of maintaing a flume and dam. Any further expenditure on it he regarded as patchwork, and it was impossible to make a job of it. He believed it would be better to change the source of supply, he had an idea of 8-mile creek. Mr. Smith, C. E., had stated a dam with depth of 40 feet could be built there at a cost of $200, and they would have a fall of 200ft. They could operate the old plant till the new could be installed, and then move the old plant there also. The only extra expense would be the wiring.

The Mayor failed to understand Mr. O'Brien's position, as there was no patchwork proposed except the flume. This work had been originally put in by oldtimers who knew every creek in the district. In this climate they could not avoid having anchor ice, and

THE BY-LAW

The Mayor on the Situation.

Editor KOOTENAY MAIL:

SIR,—I should be obliged if you would give me space to call further attention to the Water and Light Plant Improvement By-Law now before the citizens and to emphasize certain points. At last night's public meeting a suggestion was made to abandon the present plant and instal a new one, deriving power from 8-mile creek; another idea was to abandon the present flume and construct a tunnel flume on the other side of the river nearly parallel to the one now in use and build the power house over there. While willing to admit that either of the foregoing schemes is worthy of investigation, I wish to point out that the present and previous councils have been expending money and endeavoring to make the present flume permanent, or at any rate substantial for a number of years.

H. B. Smith, C.E., reported on the flume as follows: "Construction has been well done and so long as the foundations remain rigid the structure will be equal to the duties required of it." (See page 8).

The breakage of 1903 and the recent one were due to defects in the foundation and it was generally acknowledged that each could have been avoided. The reconstruction of the part in 1903 has made that part more substantial than ever, because it is now built on solid rocks. When the part recently broken is replaced it will do away with the bad leakage hitherto prevailing, and if the foundations are periodically examined and attended to no danger of collapse need be apprehended.

The foregoing are my reasons for thinking the present time inopportune for seriously considering any other expensive venture which, after all, will only be experimental.

I believe that a great deal more of the purchase price of the present plant can be gotten out of it before a new scheme need be considered. At any rate, whether a new scheme is considered or not, I am convinced of the absolute necessity of passing the proposed bylaw and making the suggested additions and improvements.

I would like to call attention to the various items, dynamo, exciter, &c.

The present dynamo is built to supply 2000 lights; the demand right now is for 2500, and as winter approaches the demand will increase.

We know what the present dynamo will do, and it is plain that a duplicate dynamo will be sufficient for quite a number of years. Where would be the advantage of paying a high price for expert advice on this?

The same applies to the spare armature. To ensure sufficient power to run the two dynamos—or the present one for that matter—it is necessary that the water wheels and accessories should be put in proper order. The Hamilton Manufacturing Co. have been consulted in reference to this, and I certainly think the extent of their business and the reputation they have fully justifies the action of the committee in getting out their plans and figures. I believe they are expert enough to advise on this matter. The new gate gear ($200) is a small item, and by itself. Expert advice on this is hardly necessary.

It is intended to procure expert advice on the necessary work to the buttress adjoining the dam, but this cannot be obtained till low water. The estimate for this is speculative and was inserted to make up an even amount.

The repairs to the power house can be laid over, but the amount is too small to make much difference, and expert advice on the matter is hardly necessary.

The item of water-pipe is necessary to keep pace with the growth of the town and make the distributing system more regular than has hitherto been the case. The quantity required was measured on a plan and reduced to carloads from the Pipe Company's tables.

Referring back to the flume, I would point out that if an annual expenditure had been made on this and the weakest parts repaired the structure would have performed its work without mishap, and if this plan is followed up I feel sure it will last the life of the purchase debentures.

So far as expert advice on this is concerned, I think an experienced bridgeman could give us better advice than the best engineer.

In conclusion I would like to impress on the citizens the absolute necessity of making a considerable expenditure to supply required lights. If this expenditure is spread over a number of years, the burden will be small each year, and our taxes need not be above 20 mills. If we have to spend the necessary amount out of this year's revenue our taxes will be as high as last year—32 mills.

It is intended that the work shall be of a permanent character and such that will justify doing it on borrowed money. For that reason I would strongly urge the citizens to pass the proposed bylaw as a business proposition, claiming that expenditure for permanent improvements should be spread over at least the life of the improvements.

I am, etc.,
H. A. BROWN,
Mayor.

LAST NIGHT'S MEETING.

The citizens meeting held last night ended very unsatisfactorily. The opinion of the meeting should have been expressed in a resolution giving the city council to understand exactly what the citizens want. As matters stand all that remains is that much dissatisfaction was expressed with the running of the water and light department, and that it was because of want of confidence in this the bylaw was turned down, and the opposition to the bylaw to be voted on Wednesday would arise. Doubt was shown as to whether it was wise to spend any more money in patching up the present source of power at the Illecillewaet, and the opinion expressed that a better source should be looked for.

The aldermen courted criticism by not appearing on the platform in stronger force to explain and defend their position and this intensified the feeling of distrust and opposition to the scheme put forward by the council. At the same time there are two sides to it. The city has over $80,000 invested in the water and light equipment. Is that investment to be allowed to go to wreck and ruin for the sake of the $20,000 required to put it into first-class condition?

Such a policy on the part of the citizens would be absolutely suicidal. It would leave this city with nothing but its ordinary revenue on which to conduct improvements, provide for education, find interest and sinking fund on the moneys already borrowed, and which must be paid at any cost. It means that the city rates will have to be advanced to a point where the taxation will be unbearable. It means blighting the otherwise excellent prospects of the city in every way and seriously depreciating the value of city property.

We are satisfied that when the citizens realise this position, there is not a responsible man who would not regret the defeat of the bylaw, and admit by his vote against it that he helped to strike a disastrous blow at the best progress of the city. The intention of the Council has been to use this money in the best and most efficient manner to put the electric light plant in permanently first-class shape. And it can be done.

The Illecillewaet furnishes the largest body of water for power in the vicinity of the city, and in winter it requires the whole of the water available. It would take months to investigate thoroughly the Jordan and Eight Mile Creek, as it would be absolutely necessary to ascertain the amount of water in these creeks in midwinter, and also their liability to frazil ice. If there is to be any hitch over this electric plant being put in proper shape the city will lose its best customer, the C. P. R., the revenue from whose supply alone would pay all the interest and sinking fund on the amount it is proposed to borrow under the bylaw.

The city has no cause to regret the purchase of the water and light plant. A large and profitable revenue has been derived from it, and the city has been enabled to put in an excellent water supply, make other civic improvements, and establish schools which are second to none in the province. Without the revenue from this water and light plant these things could not have been done. The service has earned an average of nearly 20 per cent on the amount invested in it since it has been under city control.

The trouble is that sufficient capital was not provided in the first place to put the system in first-class shape, but the time taken to dispose of the debentures was proof the council went just as far as it could at that time.

We appeal to the ratepayers to think over these things in an unprejudiced manner. There is every reason to believe the expenditure now proposed will put the plant in a very efficient condition, and if it does the money will be well spent. If the bylaw does not carry it can only be taken as an indication the citizens dont want to carry on the enterprise, and it will then be up to the council to take steps to sell it to a corporation who will be only to glad to get the opportunity of getting hold of such a good thing, and will conduct it in a business way. If that step has to be taken, the city will regret it only once, and that will be always. If a company took it over there is hardly any doubt they would make the very additions and repairs the city council now proposes. The city has never been up against a more serious proposition, and we hope the citizens will recognise their responsibility and sacrifice personal feelings for the best interests of the city at the poll on Wednesday.

FANATICISM IN CANADA.

Bigotry is coming to be the curse of Canada. At the London election the Conservatives are reported to have floated standards "Vote for the King" and "Vote for the Pope," insinuating on the one hand that the Conservatives were the only loyalists, and on the other that a vote for the Liberal candidate was a vote for the Pope. A party that will resort to such disgraceful appeals to race and religious passions is a curse to Canada, and its tactics are more nearly allied to a Spanish inquisition than to Christianity. Who have been the friends to liberty and justice in the past? The Liberals, who fought and carried to victory the battle for freedom in Manitoba, or the Conservatives who sought to make the people of that province subservient to the church? What party could have, by its acts in the Boer War, by its preferential franchise, by its national policy, of relieving the Mother Country of the cost of maintaining the defences of the country, have shown greater loyalty than the Liberal party? There is plenty of room in Canada for Protestant and Catholic to live amicably side by side, and in justice to the French Canadian and other Roman Catholics we must say the history of the past twenty years has shown that they have been better citizens than many Protestants who have lost no opportunity to insult their fellow citizens who differed from them in religious opinion. Freedom of conscience has been one of the great bulwarks of British government, and those men, calling themselves Protestants, who seek to deny to their fellow-citizens their undoubted right to worship God and educate their children as they deem right are neither Christians nor good citizens, but bigots and fanatics who would repeat the story of the days of the inquisition by steeping this land in blood for what they are so hypocritically pleased to term "the glory of God." The future state is the concern of the conscience of each alone and no man has a right to dictate to his neighbour what creed he shall follow.

AN EMPHATIC PROTEST.

The result of the dominion elections in Ontario on Tuesday is an emphatic denunciation of the methods of the Conservatives in resorting to an appeal to race and creed prejudice in their frantic appeals to gain victory. There was George Eulas Foster playing the role of pious fraud in crying out for denunciation of the education clauses of the Northwest Autonomy Bill, on the ground they were an attempt to coerce the people. Yet there was no more notorious coercionist in the days of the Manitoba school question than this same Foster.

Then we had the pitiable spectacle of Bennett, of Calgary, rushing to Ontario to endeavor to feed sectarian strife by making demagogic speeches in the hope of rousing the issue Protestant versus Catholic. We say such men as Foster and Bennett are a menace to the peace and good government of this country. The men who would destroy the peace and goodwill of the people of Canada by striving to sow the seeds of sectarian strife in this land which Providence has blessed are traitors to their country and fellow citizens, and the electors should lose no opportunity of showing their contempt for and disapproval of such exhibitions of bigotry and fanaticism.

TRUTHS FOR ONTARIO

Those who know Hon. Frank Oliver would expect some homespun language from him on the Northwest education agitation which fanatics of Ontario are trying to engender. Well, Frank attended a meeting at Woodstock and proceeded to deal out to the bigots and fanatics of Ontario some plain language forcibly setting forth the hypocrisy of the men who are crying out against the education system of the Northwest. Mr. Oliver said: "The rights of the province were those given by constitution in the Confederation Act, and it was not for government or parliament to ignore the constitution. This the government had not done and it was guilty of no breach of provincial rights. 'Let the province be free' was a favorite cry made by many provinces in educational matters. By whose hands had Ontario been restricted save by those of the imperial parliament. Many petitions, mostly from Ontario, had been received at Ottawa that new provinces might be entirely free in educational matters. They had been sent to the wrong address, for nobody but the imperial parliament could make the provinces entirely free in educational matters. If we in the Northwest had a system of separate schools similar to that of Ontario, we would do away with them. We had such a system and we voted it out. I would suggest to the people who are making such a fuss that they get out and abolish their own separate schools."

"We haven't got power," came from the audience.

"That's exactly what they told us there," was Oliver's reply, "but we took it. Now we haven't any such system, and we are supporting the Laurier government and amended clause 16 of the autonomy bill as a certain guarantee they will never get it."

Ontario has more churches and wickedness and hypocrisy within its borders than all the rest of Canada put together, and its stand on the education question in the Northwest is proof of its hypocrisy. Let Ontario first remove the mote from its own eye.

RELIGION IN SCHOOLS

The Bishop's Proposal.

The Rev. C. A. Procunier informs us that while Bishop Dart advocated religious instruction in schools at the meeting of the Diocesan Synod, he did not propose that the work be thrown on the teachers, but rather that the schools be thrown open to the clergy for half an hour a day or so to enable them to give religious instruction. The trouble about this proposal is that few of the clergy would take advantage of it, and that the pupils, after they have put in the regular hours at their school work, will not be in fit condition to absorb the instruction in religious dogma that would be given them by the clergy, and the scheme would probably destroy its own object. Our idea on this question of religious instruction in schools is to leave well alone.

BANFF.

Serious Accident to Railway Employees.

While unloading gravel from a work train near Banff Sunday afternoon five of Gosling's extra gang received injuries through the breaking of the cable used to operate the gravel plow. Of the 5, 2 were only slightly injured, the other three being brought to Banff hospital where they were attended by Dr. Brett. Their injuries were as follows: W. Gosling, back injured and general bruises; W. Nicholson, legs injured and hands dislocated; E. Quinn, leg broken in two places, fracture at base of skull and severe scalp wounds.

F. W. Jordan spent a few days on his ranch at Edgewood.

The material for the new Catholic church is being put on the ground.

J. R. Jamieson and A. N. Cowan arrived home from their trip to the coast.

Mrs. A. Hobbs and family are spending a few weeks at J. H. McCartney's ranch.

The warm weather of the last few days is causing the water to rise very rapidly.

Mrs. A. Nicholas left on Monday for a trip to Cowley, Alta., to visit her mother.

Mrs. Muirhead, who has been very ill, we are pleased to say is rapidly recovering.

A number of the mill boys are organizing a cricket club. They expect their outfit will be here in a few days.

Mrs. Gibson and children of Arrowhead, who have been visiting Mrs. C. B. Kirk, returned home on Tuesday last.

Robert Sheill and W. Calder of Fire Valley spent Saturday in town. They report prospects good in the Valley for a bountiful crop.

Strawberries are now on the market. F. G. Fauquier, of the Needles ranch, Fire Valley, is sending up some fine fruit. The berries grown in this district are second to none in B. C.

LATE WAR NEWS

Deplorable Condition of Russian Fleet.

The ammunition was exhausted after the first day's fighting even the very morning of the battle. When the Japanese appeared the Russians were caught in an impossible formation.

Rojestvensky's position was cramped his transports were badly placed, and caused confusion. While the Japanese were raining in projectiles, even from machine guns, on the Russian ships, the latter were huddled together, blanketing each other's fire. Only the leaders of the columns could bring their guns to bear, and even these untrained gunners fired wildly.

Pekin, June 14.—In German and other circles here the prospects of peace between Japan and Russia are considered remote. It is supposed Japan intends to inflict a final and crushing blow upon the Russian army of Manchuria before entertaining any proposition for peace.

Gunsha Pass, June 14.—The Japanese have forced the advance posts of the Russian left beyond the Kacche river. A heavy force seems to be behind this movement. Field Marshal Oyama is ready for a general offensive movement.

Tokio, June 14.—It is generally thought that Field Marshal Oyama's plans are rapidly maturing, and that the next great battle will sweep Gen. Linevitch back and carry the Japanese army into Russian territory. The good faith and ultimate intentions of Russia towards peace are openly and generally questioned.

Washington, D. C., June 14.—Russia's formal response to President Roosevelt's appeal to the far eastern belligerents for a cessation of hostilities has been communicated to the Tokio government by the president. Doubt is expressed in some quarters whether the Russian response is satisfactory to Japan. The government has indicated its intention of not sacrificing its dearly bought victories at arms in the conflict of diplomacy which is now being waged.

Peace Now in Sight.

Washington, D. C., June 15th.—Official announcement is made that Washington has been selected for the location of the peace conference.

The announcement came in the form of an official statement issued by Secretary Loeb, by direction of the President. The statement follows:

"When the two Governments were unable to agree upon either Chefoo or Paris, the President suggested the Hague, but both governments have now requested that Washington be chosen as the place of meeting, and the President has accordingly notified both Governments that Washington will be selected."

Vienna, June 15.—The opinion prevailing here is that peace negotiations between Russia and Japan will eventually prove successful. This is based primarily on the belief that Japan will meet Russia more than half way, making unexpectedly reasonable demands.

LUMBERING.

The Mundy Lumber Co. will shortly have their mill at Three Valley Lake in operation, steam having been got up for the first time on Saturday.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." For sale by all druggists

J. Humfrey Anger, Mus. Doc., gives his opinion of the New Scale Williams Piano

The following letter from Dr. J. Humfrey Anger is expressive of the deep knowledge Dr. Anger has of his profession, and at the same time very complimentary to the

New Scale Williams Piano

"Allow me to congratulate you upon the New Scale Williams Piano. I can honestly say that the instrument is one of the best upright pianos that I have ever tried. The tone is exceptionally rich and full, while the treble possesses a bright and liquid character, at the same time the tone is well and evenly graded throughout. A beautiful workmanship of the highest class. As soon as the sterling qualities of the instrument become generally known I feel sure that it will meet with instant success. Believe me, Yours very truly,

J. HUMFREY ANGER, Mus. Doc., 341 Jarvis St., Toronto."

MINING MATTERS

OLD CARIBOO.

Operations Resumed on Slough Creek.

The Canadian Mining Review says: It is very gratifying to learn satisfactory financial arrangements have been made to carry on the work which has been for some many years past courageously undertaken to develop the ancient river channel systems at Slough creek and elsewhere in the Cariboo district. Some months ago Mr. J. D. Kendall, a well-known mining engineer, was retained to examine the Slough creek properties on behalf of the promoters of the undertaking, who have since taken the property over. Mr. Kendall's report was eminently favorable, and as he has the reputation of being most conservative in his opinions, there is every reason to believe that this enterprise will be carried to a successful issue.

SILVER CUP MILL

Shuts Down—120 Men Thrown Out of Employment.

The worst piece of news the Lardeau district has experienced for some time came as a thunderbolt, when it was announced the mill and chloridising plant of the Ferguson Mines Ltd., operating the Nettie L. and Silver Cup Mines, had been shut down and 120 men thrown out of employment. Nor does it appear to be a merely temporary affair as the telephone lines were taken down and other signs of a long shut-down are evident. The reason ostensibly given is that the reserves of milling ore have been exhausted, but that is all nonsense as, although the second grade dumps have been pretty well worked out, the workings are full of that class of ore which was not taken out of the mine by the Sunshine Ltd. when they were mining only the shipping grade of ore.

It is feared the true reason is, the company found itself unable, with the plant installed to make a profit on the ore they handled in the mill. Other reports say further development will be pushed on and modifications made to the mill plant with a view to ensure better results.

The long low-level tunnel driven by the company two years ago to develope the lead discovered very little ore, though it was hoped to strike the downward extension of the big lense on which most of the development work and mining had previously been done. The opinion is expressed that the tunnel was not pushed far enough to strike this ore chute. The compressor was so damaged by the big slide a year ago that work was never resumed in the tunnel afterwards, though, if the compressor plant was again put into commission, this tunnel might be pushed forward with a possibility of obtaining ore or making a raise from it in the direction of the ore shoot, when more ore might be discovered.

We hope the outlook may not be so disappointing as it at present appears.

VINTNERS' ASSOCIATION

The annual meeting of the Provincial Vintners' Association was held at Grand Forks, A. W. Von Rhein presiding.

General expression of opinion was exchanged representing nearly every license district in the province.

The election of officers resulted President, A. W. Von Rhein, Victoria; first vice, L. A. Manly, Grand Forks; second vice, Wm. Gosnell, Nelson; sec.-treas., H. F. Behnsen, Victoria.

Resolved the president again visit all license districts in the province, the object being to organize some which have not yet joined the association, to elevate and advance the trade to the highest possible standard of society, and that the teachings to all must be to act together in harmony. The licensing bill was fully considered and it was decided to recommend a clause in the Municipal Clauses Act limiting licenses to population.

The membership of the association in this province is now nearly 500.

Next annual meeting will be held in Nelson, June, 1906. A parliamentary committee will look after the interests of the association whenever occasion calls.

CALGARY.

A Rapidly Growing City.

W. M. Lawrence returned Wednesday from a trip east as far as Calgary. At Golden he found the residents elated over the prospects of building the Kootenay Central railway to connect the Crow's Nest and main C.P.R. lines. At Calgary he found immense strides, the city now extending for three miles. He attended the Presbyterian Church services there and found these had to be held in the theatre as the accommodation of the former building was insufficient to cope with the rapid growth of the congregation. The Presbyterians in that city are so strong and prosperous they are building a $60,000 church and installing a $5,000 organ.

CITY FLUME.

130 Feet Broken Down.

On Tuesday morning 130 feet of the flume at the power house broke down, due to the rottenness of the timbers and partly due to the foundation being washed out by leakage. The result is the city will have to do without the electric light for two weeks, till repairs can be affected, and the city revenue will suffer considerable loss.

CITY COUNCIL.

The Special Meeting Thursday Night a Hot One.

A special meeting of the council was held Thursday night to consider what should be done in view of the breakage to the flume at the power house.

Present: The Mayor, Ald. Foote, Field, Lewis, McCarter, McLeod and Abrahamson.

The mayor considered the mishap due to want of proper oversight on the part of Mr. Gordon. It was for the council to consider the best means of dealing with the trouble.

Mr. Gordon said the flume had been sagging for the past three years and the council knew it. He asked for timber to repair it and his request was refused.

The Mayor—You had plenty of timber there.

Ald. McCarter—Why was the flume not repaired before it was sloughed off on the city?

Ald. Abrahamson—The company repaired it repeatedly as required.

Mr. Gordon—Mr. Smith who examined the works for the city reported the flume was good for ten years.

Ald. Abrahamson—It is like a bridge—it has to be kept in repair.

Ald. McCarter—It was in fine shape till the city got it. Then it required a new foundation. The same with the machinery, and now it is all the fault of the man who is in charge of it.

Mr. Gordon—You engaged Mr. Roberts to inspect the plant and he told you the wheel might fly in pieces at any time. You asked me to do the best I could to keep it running, and I have done so for a year since then. If it went to pieces the mayor would make the same complaint as now and put the whole of the blame on me.

The mayor quoted Mr. Smith's report and said the break in the flume was due to rank carelessness.

Mr. Gordon—Last year we got a carload of timbers to repair that flume.

The Mayor—This is a council meeting. Sit down Mr. Gordon.

Ald. Abrahamson—The flume has been leaking much more the last two years than formerly.

Mr. Gordon—That is a lie. That flume has leaked less the last two years than ever before.

Ald. McCarter—I move that Mr. Gordon be given permission to be heard. He has as much right as any one else to speak on this matter.

The Mayor—If he is to be given an opportunity of jumping up and interrupting everyone I shall leave the chair.

Ald. McLeod—I shall support that motion. He should have a fair opportunity to defend the charges made against him.

Ald. Abrahamson—The company strengthened the flume before it was turned over to the city and while they had it they saw it was kept in good repair.

On Mr. Gordon rising to speak the mayor intervened.

Ald. McLeod—Ald. Abrahamson is talking all the time. Give Gordon the same show.

The Mayor—I am quite prepared to give Mr. Gordon the same opportunity as anybody else.

Ald. Lewis considered a barrel flume would be the best for the repairs but if the whole length had to be rebuilt it would be cheaper to drive a tunnel on the other side of the stream.

Ald. Foote—The question is, what will it cost to repair the damage?

The council then set to work to devise a means of refixing the flume and Mr. Floyd submitted estimates which he got from two pipe companies of the cost of putting in a barrel flume.

Ald. McCarter moved that a barrel flume be put in and prices be obtained from the pipe companies for doing the work, the works committee to get out specifications and call a meeting as soon as possible to make definite arrangements for having the work carried out.

Ald. Foote seconded and the motion was carried.

Mr. Gordon applied for two weeks leave of absence for Mr. Lembke, as it would be a good time for him to take his holidays while the plant was shut down.—Granted.

NEW BUILDINGS.

Knox Church Decide to Build.

At a meeting of the congregation of Knox church Thursday, plans were submitted with estimates for a church building. The plans show the finest church building in the city. The building will be about 50ft square with tower and belfry, and hall for Sunday school and social purposes. The specifications provide for the basement being of stone, with wood superstructure. A subscription list was submitted showing a large part of the necessary funds had been subscribed and the balance was assured. It was resolved to complete the payment of the purchase-money for the lots recently purchased on Second street, at corner of Boyle avenue, and proceed immediately with the erection of the building. Building and finance committees were appointed.

The new church will be conducted on Y. M. C. A. lines, which are considered the most progressive for ensuring the usefulness and popularity of a church, making it especially a social resort for the young people of the city who care to avail themselves of the facilities to be provided.

The architecture of the new church will be of a character to make it a handsome addition to the public buildings of the city.

Buy It Now.

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by all druggists.

WHEN YOU WANT A GOOD CIGAR THINK OF BROWN'S.

HALCYON HOT SPRINGS

Famous Health Resort Passes Under New Management.

Rossland Miner

Harry McIntosh, the genial proprietor of the Hoffman House, has taken a four years lease of Halcyon Hot Springs Sanitarium, the most beautifully situated health resort in British Columbia. It goes without saying that under the management of Mr. McIntosh Halcyon will soon become known far and wide as the most popular place of its kind in the west.

Situated on the east side of Arrow lakes, the Halcyon Hot Springs are owned by a company organised several years ago by ex-Governor C. H. Mackintosh. The healing properties of these waters are nothing short of marvellous. For rheumatism and numerous other physical ailments they are probably unexcelled on the North American continent, and they bear favorable comparison with the best medicinal waters of Germany and Austria. Analysis of the flow of the springs has revealed the interesting fact that it contains a higher percentage of lithia than any other natural waters the world over. This is considered sufficiently important by the medical fraternity to recommend them most highly for the cure of afflictions arising from the existence of a superabundance of uric acid in the system.

At an expense of considerably over $100,000 the company has improved the springs and provided excellent accommodation. The waters are piped from the point where they rise on the mountain side to the hotel and sanitarium, which is about a quarter of a mile distant. The hotel has excellent accommodation for a large number of guests and the baths, plunge, cooling and other rooms are fitted up in the most approved fashion and with every necessary convenience. The natural surroundings of the place possess a distinct and truly wonderful charm. The Arrow lakes are a really magnificent body of water, stretching north and south for nearly a hundred miles, and from one to four miles wide. The winding course of this great expanse of water, affords the tourist a scenic panorama difficult to equal anywhere. The view of towering mountains, many of them capped with eternal snows, the forest clad hills, with an occasional cascade formed by mountain streams present a prospect of surprising grandeur.

Halcyon is also the centre of numerous other attractions. The fishing is of the best, while boating, tennis and other pleasurable pastimes afford ample opportunity for killing time. The springs are admirably provided with transportation facilities, having a double first-class boat service daily the year round.

It is stated authoritatively that Mr. McIntosh intends to make many important improvements to the already efficient service at Halcyon, and when they materialize, coupled with the efficient management that is certain to come from Mr McIntosh's supervision, Halcyon will be a most desirable place to spend a day or a life time.

DOINGS MILITARY.

Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption.

Chamberlain's Cough Remedy

has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

In the Supreme Court of the North-west Territories, Judicial District of Western Assiniboia.

IN THE MATTER OF THE ESTATE OF JOHN H. FERRIER DECEASED.

PURSUANT to the order of the Honorable Mr. Justice Newlands made herein on the 6th day of June, 1905.

TAKE NOTICE that each creditor of the above estate is requested to send in to the undersigned on or before the thirty-first day of July, 1905, a detailed statement of his claim against the said estate together with a statement of the security (if any) held by him, said statements to be verified by statutory declaration.

Dated at Regina this sixth day of June, 1905.

F. W. G. HAULTAIN,
Advocate for Administrator.
938je21 Regina, N. W. T.

NOTICE IS HEREBY GIVEN that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay district:—

Number One.

Commencing at a post planted near Boyd's ranch on the Columbia river and marked "Big Bend Lumber Company's" south-west corner post, thence north 160 chains, thence east 40 chains, thence south 160 chains, thence west 40 chains to point of commencement.

Number Two.

Commencing at a post planted near Boyd's ranch about one-half mile from the Columbia river and marked "Big Bend Lumber Company's south-west corner post, thence east 80 chains, thence north 80 chains, thence west 80 chains, thence south 80 chains to point of commencement.

Number Three.

Commencing at a post planted on the Keystone trail near Boyd's ranch, about three quarters of a mile from the Columbia river and marked "Big Bend Lumber Company's south-westy corner post," thence north 160 chains, thence east 40 chains, thence south 160 chains, thence west 40 chains to point of commencement.

Number Four.

Commencing at a post planted about one-half mile west of the west bank of Columbia river on the west boundary of John Nelson's ranch, and marked "Big Bend Lumber Company's" south east corner post, thence north 160 chains thence west 40 chains, thence south 160 chains, thence east 40 chains to point of commencement.

938jy15 BIG BEND LUMBER CO. LTD.

NOTICE IS HEREBY GIVEN that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in North-east Kootenay district:—

Number One.

Commencing at a post marked "D. M. Macfarlane's N. W. corner post," and planted one mile south of Columbia river, about five miles above mouth of Canoe river, thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to the place of commencement.

Number Two.

Commencing at a post marked "D. M. Macfarlane's N. E. corner post," and planted at D. M. Macfarlane's N. W. corner post; thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the place of commencement.

Number Three.

Commencing at a post marked "D. M. Macfarlane's N. W. corner post," and planted two miles west of D. M. Macfarlane's N. E. corner post, thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to the place of commencement.

Number Four.

Commencing at a post marked "D. M. Macfarlane's N. E. corner post," and planted at D. M. Macfarlane's N. W. corner post, thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the place of commencement.

Number Five.

Commencing at a post marked "D. M. Macfarlane's S. W. corner post," and planted at D. M. Macfarlane's N. E. corner post, thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to the place of commencement.

Dated this 26th day of May, 1905.

938jy3 D. M. MACFARLANE.

NOTICE IS HEREBY GIVEN that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay District:—

Number One.

Commencing at a post marked "J. M. Kellie's S. W. corner post," and planted on the east bank of Columbia river about two miles below Maloney creek, thence north 160 chains, thence east 40 chains, thence south 160 chains, thence west 40 chains to the place of commencement.

Number Two.

Commencing at a post marked J. M. Kellie's S. E. corner post," and planted on the west bank of Columbia river, about three miles below Maloney creek, thence north 160 chains, thence west 40 chains, thence south 160 chains, thence east 40 chains to the place of commencement.

MARRIED.

BAKKE—OLSEN.—On Thursday, at the residence of Mr. C. Abrahameon, by the Rev. C. Hill-Sutherland, Mr. S. S. Bakke, of Arrowhead, to Miss Anna Olsen, of Norway.

CAMERON—WATSON.—At Arrowhead, B.C., on Wednesday, June 14th, by Rev. Mr. Sully, Duncan Cameron, of Arrowhead, B. C., to Helen Amelia, eldest daughter of Mr. and Mrs. W. G. Watson, of Revelstoke.

BORN.

AMAN—At Revelstoke, on June 12th, to Mr. and Mrs. C. J. Aman, a daughter.

WILKS.—At Revelstoke, June 10th, to Mr. and Mrs. J. Wilks, a son.

Local and General.

The death is announced of Geo. Batho of Ferguson.

Seven miners were drowned in a canoe accident at Hazelton.

Vancouver is to have a limited private phone service at $1 a month.

R. J. Ballard is the successful tenderer for the new school at Arrowhead.

On Monday the horse attached to A. E. Bennison's rig bolted and demolished the vehicle.

A. W. Green, a prominent business man of Medicine Hat, was drowned in fording the Saskatchewan river.

Hon. Hyman was returned for London by 329 majority, and Smith (liberal) for Woodstock by 349 majority.

Calgary is putting in a civic power plant and proposes reducing the cost of electric power and light from 16 cents to 1½ cents per kilowat.

At a meeting of the city licensing committee on Thursday a license was granted to H. J. Hanbury for a hotel on First street, to be called the Windsor.

P. Ryan, of Toronto, has sold the Ashcroft Water & Electric Company's business to G. W. Fowler, M. P., and J. Shields is suing Mr. Ryan for an accounting.

On Monday an accident happened to the dredge, the crane breaking off and dropping into the river. It was recovered and the dredge is laid up waiting repairs.

The suit Nagle v. Harbor Lumber Company came before the full court at Vancouver on Tuesday, judgment being reserved. G. S. McCarter and F. C. Wade for pltff. and E. P. Davis for defendent.

The Mayor has received a letter from the Lewis and Clarke Fair Committee setting aside July 8th for Revelstoke Day, and inviting the Mayor, aldermen and citizens to visit Portland on that day.

There have been lively doings at Arrowhead this week between weddings and birthday celebrations and running in a young man whose love outran his discretion, and who was put away for a night for safe keeping.

C. J. Wilkes got one of his arms caught in a planer at the Bowman Lumber Co's. mill at Comaplix on Wednesday, and came home for medical attention. Though the arm was badly bruised no bones were broken, but the injury will lay him from work for a week or so.

It was good news to the district to learn that the various suits between E. L. Kinman and the Canadian Sawmills had been amicably settled, the result being a sweeping victory for the pltff, who got the amount of his claim and costs. G. S. McCarter appeared for him.

A. Lucas, who was appointed chief assessor for the whole of the Kootnay country, is now making a tour of the district, nominally as assessor, really as organiser for the McBride government, making part of the farce for which the taxpayers have to pay. What does Mr. Lucas know about the value of land in Revelstoke riding for instance, and what experience has he had in assessing values—one of the most important duties in the public service, and one which should be entrusted to men who thoroughly know their business?

Further improvements are to be effected in the course at the city school. The trustees propose fitting up the top floor for manual training, brush drawing, &c., and have in view a first class teacher for the work. It is expected another teacher will shortly be required for the high school, and the present building will probably be divided into two rooms to furnish the necessary accommodation for the present.

Persons handling bananas from Mexico require to be careful in handling them, lest there should be any poisonous insects present. The other day Mrs. MacDonell, of the Hotel Revelstoke, was inspecting a bunch when a tarantula ran out and was captured before it did any mischief. This well-known poisonous Mexico spider was placed in a bottle and formed an interesting exhibit at the hotel office.

MONEY ORDERS ISSUED

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

Mechanics, Farmers, Sportsmen! To heal and soften the skin and remove grease, oil and rust stains, paint and earth, etc., use The "Master Mechanic's" Tar Soap. Albert Toilet Soap Co., Mfrs.

SPORTS.

Vernon was defeated by Kelowna at lacrosse.

The Turf Association are letting a contract for putting the recreation reserve on the north side of the track into first-class shape, and will arrange for a full race meeting at which some excellent sport is expected.

Social & Personal.

Mrs. Dr. Graham returned from her visit to Kamloops.

Mrs. W. I. Briggs arrived from New Westminster today.

J. V. Saunier has returned from an extended visit to Sweden.

J. W. Bennett is in the city, having left the service of Ferguson Mines.

G. S. McCarter returned this morning from a business trip out of town.

The marriage of B. M. Richards and Miss Elsie Middleton, of Midmar Ranch, Vernon, is announced for June 21st.

D. J. Macdonald, of the Dominion land office, spent two days in the city this week.

Hon. J. W. Longley, Attorney-General of Nova Scotia, has been appointed to the Supreme Court bench.

The ice cream festival and sale held by the Ladies' Aid of the Methodist church on Tuesday was a very successful affair.

The Ladies' Altar Society of the Catholic Church will hold a strawberry festival on July 6th. Particulars will appear later.

Mrs. Dudgeon and family have arrived to spend a few months in the district and Mr. Dudgeon is erecting a cottage for them at Comaplix.

Mr. Bowman, of the Bowman Lumber Co., arrived this week and will spend about three months looking after his interests at Revelstoke and Fish Creek.

The Ladies' Aid of St. Andrew's Church will hold an Apron Sale and Concert on Monday afternoon and evening on the Manse grounds. Band in attendance in the evening.

A. Grant, formerly of Revelstoke, and manager of the Revelstoke Wine and Spirit Co.'s business at Vernon, was married at Salmon Arm to Miss Pratt, and went to the Coast on the honeymoon trip.

The Peerless Entertainment Company, of New York, will give panoramic views of the passion Play as acted at Ober Ammergau, in St. Andrew's Church on 22nd 23rd, under auspices of Willing Workers.

The many friends of Mr. and Mrs. M. J. O'Brien will be glad to learn their eldest daughter Alice, who has been seriously ill at Kamloops, where she was attending school, is now out of danger. Mrs. O'Brien left end of last week to attend her daughter in her illness and sends word she is progressing rapidly towards recovery.

On Monday night an excellent debate took place at the Epworth League on the question, "Is War Justifiable?" Mr. Little championed the cause of war in defence of attack, and Mr. W. W. LeFeaux opposed. The result of the debate was in favor of the affirmative. Mrs. Creelman sang a solo in her usual delightful manner. Next Monday a paper will be read and an address given on the subject, "Japan's greatest need."

On Wednesday an interesting event took place at Arrowhead when the marriage was celebrated of D. Cameron, proprietor of the Lakeview hotel, with Miss Helen Watson, eldest daughter of W. G. Watson of Revelstoke. The bride looked splendidly in a white satin gown. She was attended by her sister, Miss Florence, as bridesmaid. Mr. Dennison was groomsman. Rev. A. H. Solly performed the ceremony. The many friends of Mr. and Mrs. Cameron wish them every happiness.

CHURCHES.

KNOX—Rev. Mr. Simons will preach tomorrow at 11 a. m. and 7:30 p. m.

ST. ANDREW'S—Morning service 11 a. m., evening service 7:30 p. m.

METHODIST—Rev. C. H. M. Sutherland, pastor; subjects, 11 a. m., "A Bond Servant"; 7:30 p. m., "A Man With a Vision."

GRIP AND PASSWORD.

L. O. L.—Rev. W. C. Galser and E. Adair, on behalf of the Orange Lodge, have written Sovereign Grand Master Sproule congratulating him on the manner in which he has "withstood he shameful effort to do the work of Rome in Canada."

K. of P.—At the meeting of Gold Range Lodge Wednesday night Bro. E. C. Evans, C. C., of Vancouver, visited the lodge and a pleasant evening was spent, Chief Bain being admitted to first rank.

I. O. O. F.—The combined Oddfellows lodge of the city is making splendid progress. Several new members are being enrolled.

SUICIDE.

A lumberman named Macdonald, who has been foreman for the Big Bend Lumber Company, committed suicide by drinking carbolic acid. He was brought from Comaplix, where he took the poison, to Arrowhead and died there yesterday. Dr. Cross, is investigating the matter as coroner. The man had been drinking heavily.

BANKING.

The Bank of Montreal will open at Nicola Lake.

The Imperial Bank has had a prosperous year. Net profits were $510,951, compared with $504,414 the previous year, or a little over 17 per cent. on the capital, compared with 16.86 per cent. One hundred and fifty thousand dollars were added to rest, and now equals the capital, $3,000,000. The new stock issue will make each $4,000,000. After paying the usual 10 per cent. dividend and writing $25,041 off premises account, the balance at credit of profit and loss account was increased by 35,910 to $176,516. Deposits have increased over $2,000,000, the statement of assets showing that these additional funds are all employed in current discounts. The annual meeting will be held on the 21st inst.

CITY AFFAIRS.

Continued from First Page.

it only meant the shutting down of the plant for three or four days a year.

Mr. O'Brien said it would be necessary to open the gate to let out the rubbish accumulated in the dam, and that would weaken the dam. If that went out where would be their power?

Mr. Brundrett—Get figures on the 8-Mile scheme and put in your plan before you do anything further.

Mr. O'Brien—Supplement that by getting a competent engineer.

The Mayor—Am I to understand you wish me to withdraw the bylaw and have a competent engineer examine these creeks and report?

Mr. Brundrett—That is my wish.

The Mayor—The proposed work will be necessary to carry us on meantime in any case. We are up against the fact that unless these additions are made the whole plant may be wrecked.

Mr. Tapping—Let us go back to coal oil till then.

Mr. Brundrett considered they should only run the armature to its limit.

E. Moscrop—It is not necessary to burn out the machine. We can do with poor light till we get something permanent.

Ald. McLeod wished a vote as to whether they wished the bylaw withdrawn.

Mr. Tapping moved it be laid over for sixty days but no one would second the motion.

The Mayor doubted whether the bylaw could be withdrawn since it had been petitioned for.

Mr. Coursier asked why the other councilmen were not there to express their views. There was only one present.

Mr. O'Brien said they had heard the views of the meeting and the council would understand what was wanted without passing a resolution which would give them a slap in the face. It was evidently the wish of the meeting the council should get expert opinion on a permanent scheme.

Mr. Moscrop—The citizens have lost confidence in that plant and want an engineer to report on it.

Mr. Tapping then mounted the platform and wanted to address the meeting on civic affairs generally. A large part of the audience now left the hall.

Ald. Lewis said the Mayor expressed the views of the council, and urged the council had in view making the work of a permanent character. The proposed improvement would double the capacity of the plant, and they would be able to supply the city with all the light required all the year round except six or seven days in winter. It would cost $10,000 to put in a steam plant, and it was a question whether the city would care to spend this for the sake of getting light for few days they were shut down by ice once a year. He believed the bylaw was the best that could be done, and would result in great benefit to the city.

P. Hooley—As a working man of B. C. I would like to know if there is no firm here, who could supply this plant.

Mr. Moscrop—There is no reason why other firms should not be given a chance of putting in this plant.

Mr. Kernaghan—The people have no confidence in the council.

The Mayor—Who have you no confidence in?

C. J. Wilkes—We have no confidence in the man you have running that plant. That is the feeling of the citizens of this town. You have a capable man there but he is in a subordinate position. You don't want a man who is a practical mechanic at the head of it. (Loud cheers.) People may say I want the job but I don't. I have one. Let them cut out the street lights meantime and supply the hotels and residences. If the council would appoint a competent man to take charge of this plant the citizens would support them.

R. Tapping endorsed the previous speaker's remarks, and wanted bills of particulars for all supplies submitted. He said the city was run in the liquor interest and if a man came out who was opposed to them they went together to down him. That was why he wanted woman's franchise and he condemned the mayor for taking his men shooting on Sundays.

A voice—He's all right.

The meeting then adjourned.

Halcyon Hot Springs Sanitarium.

Under the new management of HARRY MCINTOSH, Hoffman House Rossland.

SIGN OF A GOOD SHOE STORE.

THE SLATER SHOE

THE "Sign of the Slate," hung in front of any Shoe Store is sure testimony to four significant facts.

1st—that store is the most reliable in that town or it couldn't get the agency for "The Slater Shoe."

2nd—that it pays its bills promptly, in cash every thirty days, or it couldn't hold "The Slater Shoe" Agency.

3d—that it is satisfied with a reasonable profit on goods or it wouldn't be selling "The Slater Shoe," which is price-controlled by the Makers.

4th—that it sincerely intends to give the best value possible, and to deal "squarely" with its customers every time, or it wouldn't have signed such a contract as must be signed to control "The Slater Shoe."

Whether you buy Slater Shoes or not, a safe place to trade is at the store where swings "The Sign of the Slate"—for the four reasons given.

THE SEAL OF CERTAINTY — THE SLATER SHOE

The genuine Slater Shoe has the slate frame brand stamped with the Makers' price ($4.00 or $5.00) on the lining.

THE MAKERS OF

"THE LECKIE BOOT"

Are "Old Timers" of the West

They know to a nicety, the climatic and geographical conditions that call for a special class of footwear to meet these conditions.

Eastern shoe men cannot know these things from mere hearsay.

They must live "out west"—get "the local color" as it were—become steeped in western experience and knowledge obtainable only by living the life of a Westerner, before they can hope to make satisfactory footwear for the strenuous life of the toiler in western forests, fields and mines.

"THE LECKIE BOOT" is a western product for western people.

Look for the trade mark upon the sole.

J. Leckie Co.

VANCOUVER, B. C.

CORPORATION OF THE CITY OF REVELSTOKE

By-Law No. ——

A By-Law to authorise the borrowing by the Municipal Corporation of the City of Revelstoke of the sum of Twenty Thousand Dollars to defray the cost of improving and extending the Water and Light Plants of the said Corporation by the issue of Debentures for the said sum and interest.

WHEREAS a petition has been presented to the Municipal Council of the Corporation of the City of Revelstoke, signed by the assessed owners of at least one-tenth in value of the real property within the City of Revelstoke as shown on the last revised assessment roll of the said City, asking that a by-law be introduced for the purpose of authorising the borrowing by the said Corporation of the sum of Twenty Thousand Dollars to defray the cost of improving and extending the Water and Light plants of the said Corporation by the issue of Debentures for the said sum and interest;

AND WHEREAS the whole amount of the rateable real property within the said City of Revelstoke according to the last revised assessment roll of the said City is the sum of Seven Hundred and Fifty-Three Thousand Two Hundred and Thirty-Eight Dollars;

AND WHEREAS it will be requisite to raise annually by special rate sufficient therefor, the sum of Fifteen Hundred and Forty Eight Dollars and Fifty-Six Cents ($1,548.56) for paying the said debt and interest thereon;

NOW THEREFORE the Municipal Council of the Corporation of the City of Revelstoke enacts as follows:—

1. It shall be lawful for the Mayor of the Corporation of the City of Revelstoke to borrow on the credit of the said Corporation by way of Debentures hereinafter mentioned from any person, persons, firm, body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of Twenty Thousand Dollars, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the Corporation for the purpose and with the object above mentioned.

2. It shall be lawful for the Mayor of the said Corporation to cause any number of Debentures to be made, executed and issued for such sum or sums as may be required for the purpose and object aforesaid, not exceeding, however, the sum of Twenty Thousand Dollars, each of said Debentures being of the denomination of One Thousand Dollars, and all such Debentures shall be sealed with the Seal of the Corporation and signed by the Mayor and Clerk thereof.

3. The said debentures shall bear the date of July 3rd, 1905, and shall be made payable in Twenty-Five years from the said date in lawful money of Canada at the office of the Molsons Bank at Revelstoke aforesaid, which said place of payment shall be designated by said Debentures, and shall have attached to them coupons for the payment of interest, and the signature to the interest coupons may be either written, printed, stamped or lithographed.

4. The said Debentures shall bear interest at the rate of Five (5) per centum per annum from the date thereof, which interest shall be payable semi-annually at the office of the Molsons Bank at Revelstoke aforesaid in lawful money of Canada on the 3rd day of January and on the 3rd day of July respectively in each and every year during the currency thereof, and it shall be expressed in said debentures and coupons to be so payable.

5. It shall be lawful for the Mayor of the said Corporation to negotiate and sell the said debentures or any of them for less than par, but in no case shall the said Debentures or any of them be sold for less than ninety-five per centum of their face value including the cost of negotiating and sale, brokerage and all other necessary expenses.

6. There shall be levied and raised in each year during the currency of the said Debentures the sum of One Thousand Dollars for the payment of interest, and Five Hundred and Forty Eight Dollars and Fifty-six Cents for the payment of the said debt under the said Debentures by a special rate sufficient therefor on all the rateable real property in the said Municipality.

7. It shall be lawful for the Municipal Council to repurchase any of the said Debentures upon such terms as may be agreed upon with the legal holder or holders thereof, either at the time of sale or at any subsequent time and all Debentures so repurchased shall be forthwith cancelled or destroyed, and no re-issue of Debentures shall be made in consequence of such repurchase.

8. This By-Law shall take effect on and after the 3rd day of July, A.D. 1905.

9. This By-Law shall, before the final passing thereof, receive the assent of the ratepayers of the Corporation according to the provisions of and in the manner prescribed by the Municipal Clauses Act and Amending Acts.

Read a first time the 9th day of June, 1905.

Read a second time the 9th day of June, 1905.

Read a third time the 9th day of June, 1905, with the unanimous consent of the Council.

Received the assent of the electors the ..... day of June, 1905.

Reconsidered and finally passed and adopted by the Council the ..... day of June, 1905.

City Clerk. Mayor.
