POWER FLUME.

Permanent Work Undertaken With Rock Foundation.

The temporary flume at the power house was completed by the bridge crew last Saturday evening and the lights were turned on for a short time, but the timbers proved to be too weak and gave way under the heavy strain.

This week permission was received from the C. P. R. authorities to have the rock bluff blasted, giving a solid foundation the width of the flume. This was on Thursday commenced and it will take about four days more to complete the rock work. Today an order was placed for timber required, and the Mayor says he expects the lights will be on by Saturday next. The new portion of flume will be of same width as the original but will lack two feet in depth, this amount being allowed on the under side which will leave the flume clear of all ordinary stages of high water and barely within the extreme limit of '94, thus ensuring a permanent structure.

SCHOOL CLOSING.

Teachers and Scholars Liberated for Summer Vacation.

The closing of the public school yesterday was an important event not only for the children but for the parents and visitors who availed themselves of the opportunity. A sea of youthful smiling faces were seen wending their way to school long before opening time, the majority of the children carrying large boquets of beautiful flowers.

After opening the school was thrown open to the visitors, the habit followed on previous years of having the children assemble and give an entertainment being abandoned on account of not having a room large enough, and in place of this each class went on with its regular routine work which had the pleasing effect of demonstrating to the parents of pupils how and by whom their children were being taught, also bringing the parents individually before the teachers—an important factor in education. A large number of citizens availed themselves of the opportunity and made a thorough inspection of the school.

Commencing with the principal's room the exhibit of practical work displayed was inspected, the drawings of the students in this department being considered specially good as also were the maps. The neatly filed compositions for inspection were much admired. Miss Smith's room was next visited and the same practical work according to the standard was being carried on as also in Miss Robinson's, Miss Fraser's, Miss Dent's and Miss Grant's rooms.

The presents given by the pupils to the different teachers were very pretty and appropriate.

The following is the list of Honor Rolls distributed:—

POLITICS.

Ed. Adair intends running as labor candidate for Revelstoke.

The socialists of Ferguson will probably put up a straight socialist candidate for Kaslo riding, and S. Shannon will probably be selected as the candidate.

The World states the C. P. R. is contributing largely to the conservative election fund on an understanding with the leaders of the party that they will take steps to rectify the East Kootenay land grants so that these lands will eventually be returned to the company as if Hon. W. C. Wells had never cancelled the grants. Evidence of this is already adduced in the fact the government refuse a title to timber located by other parties on these lands which are thus practically being again reserved for the C. P. R. by the McBride government.

LORD'S DAY ALLIANCE.

Rev. Clarence Mackinnon to Address Revelstoke Mass Meeting.

Dont forget the mass meeting in the opera house tomorrow (Sunday) evening at 8.30, a meeting which is in the interests of all classes, as it is a matter so closely identified with the future progress and welfare of our country. The meeting will be undenominational in character. A number of the clergymen attending the General Assembly in Vancouver last week volunteered to engage in work under the auspices of the Lord's Day Alliance. This society has received the endorsation of all the churches, both Protestant and Roman Catholic, in Canada, and the hearty support of all labor organizations. The Rev. Clarence Mackinnon, B. D., of Sydney, N. S., will address our citizens on the "Preservation of the Lord's Day in Canada." Mr. Mackinnon is of delightful personality, is scholarly and eloquent, and stands high in the estimation of the Presbyterian church in the dominion. After a brief but highly successful pastorate in Park street church, Halifax, he was called unanimously to take charge of one of the growing churches in the rapidly expanding city of Sydney, Cape Breton. Called upon to enter the struggle for the preservation of the Lord's Day against the great corporations interested in the coal and iron industries of that locality, Mr Mackinnon is well fitted to place the subject in an interesting manner before the public.

A strong choir composed of the musicians of our city will be on hand to help in the service. Invitations have been extended to the clergymen of the town to be on the platform, also to the Mayor and Council. It is hoped that the workingmen especially will turn out in good force as the subject in hand is of such importance to them. A collection will be taken up to defray necessary expenses. All who attend will be amply rewarded.

ACT PASSED.

Columbia River Improvement Co., Ltd., Incorporated.

In the private bills commitee at Ottawa Wednesday, the Columbia River Improvement Co. Ltd., act of incorporation was passed. The promoters are: James White, George McCormick, and D. Inglis Grant, M. P., all of Orillia, and Archibald Alexander, Colin W. McGillan and Thos. Meredith, of Winnipeg. The capital stock is to be $50,000 and the head-office will be at Winnipeg. The company is given power to place booms in the upper Arrow lake and on the shores of the Columbia river where it enters the lake, and to construct incidental works so long as navigation is not interfered with. The use of the works is to be allowed to the public at all reasonable times on reasonable terms. The act prescribes the rate toll which shall be charged on different kinds of timber.

ATHLETICS.

LACROSSE.

Revelstoke lacrosse team returned Sunday evening from the south having to their credit one goal over Rossland in the match played the previous day. The game was close throughout, the score when time was called standing 6-6, but Revelstoke won after four minutes additional play. All the boys were in good spirit and speak highly of the hospitality shown them both in Nelson and Rossland. Edwards was slightly disabled through injuries to his knee, but expects to be on deck for the game with Kamloops next Wednesday.

On Dominion Day Kamloops plays Revelstoke at Alexandra Park, Kamloops, being first of series of matches for Fulton Cup. Revelstoke team will be selected from the following: Cao, Hyatt, Coghlin, Wickens, Dodds, Edwards, Graham, McIlville, Dodds, Latham, Barber, McQuarrie, Woods.

Vancouver defeated New Westminster last Saturday by a score of 7 to 4.

BASEBALL.

Kamloops Baseball Club has arranged a match with a Vancouver nine to be played at Kamloops on Dominion Day.

GRIP AND PASSWORD.

K. OF P.

Gold Range lodge advanced an esquire to the rank of knight at last regular meeting.

S. O. E. B. S.

T. B. Baker was elected president, vice Dr. Carruthers resigned, and H. Cooke secretary, while Dr. Chipperfield was appointed surgeon at the regular meeting of Lodge Loyalty on Tuesday evening.

EXCURSION TRAIN

For Accommodation of Those Attenping Kamloops Sports.

A deputation of lacrosse enthusiasts waited on Supt. Kilpatrick this week with a view to arranging for a special train to leave here for Kamloops at 4 o'clock on the morning of Dominion Day, the result of the interview being an assurance that such would be arranged provided a sufficient number of passengers was assured. Lists have since been opened and signed by about 80 who expressed a desire to go and there is now little doubt but that a train will be run at that hour, the return trip being made on the regular No. 2. A special return rate has also been asked for, the usual holiday rate being fare and one-third for the round trip. This will prove a great convenience to those desirous of attending the Kamloops celebration as a number of them, including some of the lacrosse players, cannot get away on the regular No. 1 previous evening.

STAMPEDE FOR GOLD.

Great Excitement at Kaslo and Lardo Over New Find.

Kaslo, June 25.—Frank Marquis and George Gilbert came in yesterday morning from the Lardo-Duncan country with evidence of a gold find that casts everything heretofore heard of completely in the shade. These men have with them pieces of quartz that are more than half gold, and a prominent mining man stated that in describing them it would be more proper to say "pieces of gold with a little quartz." These specimens will run in value to the ton up to figures almost incredible. Intense excitement was aroused, and the room where the find was on exhibition has been thronged all day. In the fruit can brought down there is in the neighborhood of $500 worth of gold.

Parties are being rapidly formed to proceed to the find, and the fortunate gentlemen are in no way backward in giving every assistance to others who may wish to participate in their good luck by making additional locations.

Mr. Marquis, who is a reliable and experienced mining man, states that he has over $100,000 worth of ore in sight, putting it at half what he is confident would be realized with but little work. He says that he has at the very lowest estimate over a ton of ore ready to be sacked that will give returns of at least the above amount. One has only to see the ore brought down to believe the statements made.

The property, which is called the Gold Park group, of two claims, is located on Poplar creek, tributary to the Lardo river, about a mile from the Kootenay & Arrowhead railway, and about twenty miles from Lardo. The find was made while doing assessment work. Some twenty open cuts have been made, in all of which good ore has been uncovered, giving fair values, but nothing like this find was met with.

The ore is white quartz and carbonates, carrying large quantities of free gold and chloride of gold. The vein from which this ore is taken is about seven inches wide, widening out in places to ten inches, the whole gangue being pregnated with filigree gold. The vein has been uncovered in places for several hundred feet.

The owners came to town to procure supplies, mortars and sacks to sack the ore, and will return at once. A large party is prepairing to accompany them. Several parties have already left for the ground.

The country is very heavily timbered and the immediate vicinity is rough and precipitous.

There is no doubt that this is the same source from which the large quantities of placer-gold found in the Lardeau River have originated. Numerous finds have been made on the Lardo and its tributaries, of gold quartz carrying gold values, but nothing approaching this has ever been met with.

The strike is about forty miles from Kaslo, and is not far from Tenderfoot and Meadow Creek, where good properties are now being worked. Messrs. Marquis and Gilbert say that they are in the same mineral belt with the Silver Cup, Triune and Ophir Lade groups, all of which carry the same character of ore.

An excellent strike has been made on the Stockholm below the Eva at Camborne. This claim is located on the Eva fissure and proves the continuous deposition of gold in this remarkable fissure from the top of the Eva mountain, to the Fish Creek flat. A. Gording and Reamy own the adjoining claims across the creek and expect to prove the continuation of the gold-bearing streaks on their ground

The Badshot, at the head of Gainer creek, is owned by W. Johnston, of Beaton, F. Campbell of Trout Lake, and J. Black, of Denver. Five hundred feet of work has been done and considerable ore taken out for shipment. This ore is said to run $10 gold, $372 silver, 76 per cent lead, and carries bismuth. The vein is four feet in width, and consists of decomposed carbonates over almost the entire width.

The Kootenay Mail

UNION LABEL

SATURDAY, JUNE 27, 1903.

The government should appoint two justices of the peace at Camborne. The large amount of police work there makes it necessary to have justices whose services are available when required.

ROADS AND TRAILS.

The crying need of British Columbia today is a vigorous policy of opening up the country by good roads and trails in those localities where mineral development warrants the probability of paying mines. For an important camp like Fish creek for instance, the success of which is practically assured, the systems of roads and trails are utterly inadequate. The first and most important section of communication, from Arrow lake to Camborne, should have been provided with a first-class wagon road. The makeshift which has been provided requires another $5,000 spent on it to improve the grades, gravel the corduroys, improve the rock cuts, and corduroy the softer portions so as to stand the heavy traffic which the road is required to carry. Here, with a short length of road over country where uniformly easy grade could have been got, it is anything but creditable to the provincial engineering department under Mr. Gamble that the work was not properly laid out in the first place.

Above Camborne the main Fish creek trail is in a disgraceful condition and a cause of frightful hardship to prospectors. Some of the best properties in Kootenay, as the Goldsmith and Scout, located on Boyd and Lexington creeks, and the owners are practically cut off from their properties. For two years they have urged that a trail be built along the east side of Fish creek, so as to avoid the dangerous crossing, and have offered to contribute towards the cost of the work but nothing has yet been done, and claim owners have had to labor under cruel disadvantages.

Locators on Pool and Mohawk creeks are in even worse condition. Along these creeks runs one of the richest mineral belts in the province, extending from the Eva through the Oyster, Lucky Jack, Mohawk, Homestead, Silver Dollar, Silver Crown groups to the Beatrice. The Pool creek trail, almost from the doors of Camborne, is a veritable trap with bridges and sidecuts fitter for a cat than a cayuse. The other day a pack train had loaded horses dumped off the trail into the creek, in one case with heavy loss. This should not be. $1,000 spent judiciously on this trail would remove existing sources of danger and complaint.

The Mohawk trail is a standing disgrace to the government. The Beatrice, at the head of this creek, was one of the first to ship ore in North Kootenay, and there is now a large quantity which would be sent out if decent facilities were afforded. Along the watershed are several groups of unquestioned merit, and all traffic and supplies for this section have to pass over one of the steepest and most inaccessible trails in the district. Such wretched means of communication with one of the oldest and most available mineral camps in the country is a great drawback to development, and to the investment of capital. It means the locking up of a rich camp almost as effectually as if the government had deliberately conspired to stop its development and operation.

This too is a case where an excellent sleigh road could be constructed at small expense, as owing to the configuration of the country a road could be constructed from the townsite of Camborne, behind the Oyster-Criterion stampmill, up the south-west slopes of Pool and Mohawk creeks to the Beatrice with a ten per cent grade, and without crossing dangerous snowslides. $7,000 would do the work well. Nature has provided every facility for good work and access, but the governments who have been responsible for the existing state of affairs have shown themselves incapable of securing horse-sense administration.

The Fish creek camp is one of the best revenue-producers in the province, and if the government would hand over the whole revenue of the district for a year or two, together with the ordinary annual vote for the section, these works could be carried out in a permanent manner, relieving the revenue of the heavy annual charge for maintenance thereafter, except under special circumstances. The progress of the camp would thus be promoted by the government in a legitimate and effective manner, mine-owners and other tax-payers would thus get a reasonable return for the revenue they furnish, increase of revenue would result, and this province would benefit as a whole.

Fish creek district is, after all, only a fair example of the condition of other sections of the province as regards roads and trails. This shows the necessity for vigorous, straightforward policy of development, and now that an election is to take place we hope the people will take advantage of the opportunity to insist on candidates pledging themselves to such a policy, and will also see that the men elected are of the calibre to carry it out.

POLITICAL.

G. W. McKim, of Kaslo, is now regarded as the probable Liberal Candidate for that riding, which now takes in Trout Lake and Ferguson.

Hon. R. McBride intends going over the Revelstoke riding with T. Taylor, and will spend a day or two at Camborne. Opportunity will be taken of this visit of the premier there to interview him regarding roads and trails urgently required in that section.

It is stated one of the first acts of the McBride government has been to raise the salaries of the "Knickerbocker Brigade" at Victoria by $8,000 when many of them are already drawing excessive salaries, and the interior is starved for want of much-needed roads and trails.

It is stated T. Taylor, who will probably be the Conservative candidate for Revelstoke riding, will be appointed provincial secretary at an early date. The wonder has been that a portfolio was not awarded Mr. Taylor on the formation of the cabinet, as next to Hon. R. R. Green, Premier McBride had no more faithful henchman.

WHY I AM A LIBERAL.

NO. 4.

Owing to the stand taken by the Liberals against the encroachment of the church of Rome on the civil rights of the people, the church established in Montreal Le Nouveau Monda, a paper specially intended to combat Liberalism. When Laurier first entered public life, this paper remarked: "His advanced Liberal theories will prevent Catholics from giving him the cordial support which a Conservative would have received. Unfortunately his studies have lain along Liberal, not to say Socialist, lines."

INDUSTRIAL DEVELOPMENT.

Conservative leaders shout themselves hoarse about the industrial development of Canada, as if theirs was the only party to recognize the value of manufacture. Long years ago the Liberal party took up the cause of home industry, and in one of the first legislative speeches Laurier made he urged the promotion of national industries.

A UNITED PEOPLE.

But the grandest work done by the Liberals has probably been in healing the race wounds of the past and making of Canada one people, one nation, one destiny. Laurier struck the keynote of national unity when, in 1871, he said: "The times have changed, and the hour has struck for French-Canadians to enter the lists with their English-speaking fellows. Our respective forefathers were enemies, and waged bloody war against each other for centuries. But we, their descendants, united under the same flag, fight no other fights but those of a generous emulation to excel each other in trade and industry, in the sciences, and in the arts of peace." The inconsistency of

DUAL REPRESENTATION

was first exposed by the Liberals, who contended members and ministers could not do their duty to the provincial and federal interests alike if they were permitted to hold seats simultaneously in both houses as there interests often clashed. The result was to abolish this undesirable feature of early confederation to the benefit of the provinces individually and the dominion as a whole, the reform having been effectively urged by such representatives of Liberalism as Marchand and Laurier.

THE LIBERAL MOVEMENT

in Canada was defined by Laurier in 1874 to be a reflection of the grand old Liberalism of England, which had for so many years steadily worked and voted for reform, and by constitutional means had achieved such splendid results. The Liberals were also pledged to loyalty to the constitution, and in his first speech in the commons Laurier said: "Our constitution is founded on the British constitution, and that is the first under which men lived." Referring to that speech of Laurier, Mr. Willison says: "It would be hard indeed to overestimate the services which this eloquent French-Canadian has rendered to the cause of Canadian unity and to the integrity and solidity of British institutions on this continent."

DEVELOPMENT OF CANADA.

The Liberal party has ever been to the fore in promoting the development of the dominion. A railway from the Atlantic to the Pacific coast, improvement of harbors and canals, reciprocity with the United States and reform of electoral laws have been amongst the bulwarks of the Liberal programme. Even the Conservative leader, Sir John Macdonald, was forced to compliment the Liberals on their advocacy of a national programme as laid down by Laurier 28 years ago—a policy the party steadily adhered to during its long years of opposition, and which the party has done so much to give effect to since it has been in power at Ottawa.

Ringing in the Ears.

This is an unfailing sign of catarrh, and if not checked will ultimately result in deafness. The simplest remedy, is Catarrhozone, which if inhaled a few times daily, prevents the catarrhal condition from spreading. Catarrhozone quickly stops ringing in the ears, head noises, gives permanent relief to catarrhal deafness. For Catarrh in any part of the system, Bronchitis, Asthma, Lung or Throat Troubles, Catarrhozone is a specific, and is guaranteed to permanently cure or your money back. Large size, $1.00; trial size, 25c. Druggists or Polson & Co., Kingston, Ont.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

NEW PATENTS.

Rowland Brittain, Patent Attorney, of Vancouver, sends the following report for the week ending June 9th, 1903. During this week 646 Patents were issued, 564 being to citizens of the United States; Argentina 1, Austria Hungary 2, Belgium 4, Canada 16, Denmark 1, Great Britain 22, France 6, Germany 16, Italy 1, Mexico 3, New South Wales 1, New Zealand 1, Sweden 1, Switzerland 4, and Victoria, Australia 1.

V. D. Sibley, of Port Hammond, received this week the C. S. Allowance on a Wire Snap Hook which is ingeniously designed to afford a light and particulary strong hook in a very simple manner. A half interest in the Patent has been assigned to Peter McTavish, of Vancouver, but late resident of Port Hammond.

Northwestern shares are now selling at Hancock around the dollar mark.

FREIGHT RATES.

Vancouver Merchants Interview the Fourth Vice-President.

Kamloops Sentinel publishes the following editorial on freight rates, which are of equal importance locally, and the consolation extended to the board of trade there may also encourage the Revelstoke board to resume its efforts in this direction:—

"The merchants of Vancouver have been making hay while the sun of Mr. Bosworth, fourth vice-president of the C. P. R., was shining at the coast. They asked for "better terms" and in stating their case alleged that the unfairness of the current rates has occasioned so much friction that unless the existing conditions are improved the harmony between them and the C. P. R. that should prevail cannot be maintained. They complained that the rates allowed the merchants of Winnipeg were such that Vancouver merchants could not compete with them in shipping goods to Calgary and vicinity. They said: "We have gone into the existing freight rates thoroughly, and can find no instance where goods originating in Eastern Canada and shipped to Vancouver by all-rail route can be laid down at Calgary in competition with goods shipped from Eastern Canada to Winnipeg and thence to Calgary; but we can show instances where goods can be shipped through Vancouver to Winnipeg and back to Calgary at a lower rate than the same goods would take if shipped direct to Calgary through Vancouver." This sounds somewhat familiar; it is, in fact, the old mystery of the cheap long haul and the dear short haul over again in another form. The Vancouver people may think they have reason for complaint but their case is not a circumstance to what the merchants of interior towns, such as Kamloops, have to put up with. Mr. Bosworth has promised to give Vancouver the best possible rates. He was importuned into making the concession and their persistence and the fruit of it should encourage the board of trade of Kamloops to make further effort to obtain some amelioration of the existing unfair rates imposed upon local shippers and importers."

NEW STAMPS

To Be Issued on Dominion Day—The King's Portrait.

On Dominion Day the Postoffice Department will issue new postage stamps, and those who have had an opportunity of seeing copies of them speak most approvingly both of the design and the workmanship. The stamps bear the likeness of the King copied from the latest portrait of his majesty, being one painted since his accession to the throne, representing him in royal robes, scarlet and ermine, and now in York House, the London residence of the Prince of Wales. In each of the upper corners of the stamp is a Tudor crown, and in the lower corner a maple leaf, with a numeral indicating the denomination of the stamp. The portrait of the King is a striking and admirable likeness of his majesty.

Chamberlain's Remedies.

Chamberlain's Cough Remedy.
For Coughs, Colds, Croup and Whooping Cough. Price 25 cents; large size 50c.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

CONSERVATIVE PLATFORM.

(Adopted at Revelstoke, September 13th, 1902)

1. That this convention reaffirms the policy of the party in matters of provincial roads and trails; the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows:

"To actively aid in the construction of trails throughout the undeveloped portions of the province and the building of the provincial trunk roads of public necessity.

"To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no bonus should be granted to any railway company which does not give the government of the province control of rates over lines bonused, together with the option of purchase.

"To actively assist by state aid in the development of the agricultural resources of the province.

2. That in the meantime and until the railway policy above set forth can be accomplished a general railway act be passed, giving freedom to construct railways under certain approved regulations, analogous to the system that has resulted in such extensive railway construction in the United States, with so much advantage to trade and commerce.

3. That to encourage the mining industry, the taxation of metalliferous mines should be on the basis of a percentage on the net profits.

4. That the government ownership of telephone system should be brought about as a first step in the acquisition of public utilities.

5. That a portion of every coal area hereafter to be disposed of should be reserved from sale or lease, so that state owned mines may be easily accessible, if their operation becomes necessary or advisable.

6. That in the public land leases provision should be made for reforesting and that steps should be taken for the general preservation of forests by guarding against the wasteful destruction of timber.

7. That the legislature and government of the province should persevere in the efforts to secure the exclusion of Asiatic labor.

8. That the matter of better terms in the way of subsidy and appropriations for the province should be vigorously pressed upon the Dominion government.

9. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any *motion introduced for such a purpose.*

10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for the amicable adjustment of such disputes between employers and employees.

11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable, by means of taxation on the said raw products, subject to rebate of the same in whole or part when manufactured in British Columbia.

CONSERVATIVE CONVENTIONS.

At a meeting of the executive of the Provincial Conservative Association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay Boundary division is made up of the following provincial election districts: Revelstoke, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Slocan, Trail, Greenwood, the city of Rossland and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:

(a) In city electoral districts, one delegate for every fifty and fraction of fifty votes polled at the provincial election held in 1900, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.

(b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1900, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.

2. The election held of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts, if the city is divided into wards. At such public meetings, only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to a vote for delegates.

3. Two weeks notice shall be given of the public meetings at which delegates are to be elected, nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations throughout the province to be made at a designated central place in each electoral district, and on the same day.

4. All notices of the date of public meetings for the election of delegates to nominating conventions, the appointment of delegates, and the place and date of nominating conventions in several electoral districts shall be prepared by the member of the executive of the division in which the electoral districts are situate, and issued over the names of the president and secretary of the Provincial Conservative Association.

A meeting of the provincial executive will be held at Vancouver within a month, and the date for holding district nominating conventions will then be fixed.

JOHN HOUSTON,
President of the Provincial Conservative Association.

Nelson, June 5th, 1903.

Slater Shoe Advertising

Wearer's Satisfaction

Short talks by the Slater Shoe ad man. No. 4.

—Because the "Slater Shoe" is widely advertised;

'because a hundred thousand dollars has been spent in making it known;

'the makers could not afford to risk the entire loss of this expensive reputation by turning out shoes which do not in every particular back up the makers' advertised claims.

So that the wearer secures through "Slater Shoe" advertising assurance that the shoe is not skimped in the hidden parts, that wear-worthy materials are used throughout, that the shoe must give entire satisfaction,

'because an advertised shoe which does not satisfy, is subject to ten times as much criticism as a shoe which merely wears but does not make distinctive claims of superiority, such as those made for the "Slater Shoe."

And this large advertising expenditure, besides forcing the makers to maintain the quality of the "Slater Shoe," reduces selling cost, increases factory out-put—permits specializing, with all that means in economy of making.

The Slater Shoe

Made in Canada 40 years. Goodyear welted.
For men $4.00 and $5.50.
For women $3.50 and $5.00.

CAMBORNE.

"Coolgardie" Smith, of Greenwood, visited the camp this week to investigate.

The first bicycle was seen in the streets of Camborne during the past week.

C. T. Diamond is building a house on the terrace near Mr. Beck's residence.

It is understood a police officer will be appointed with headquarters at Camborne.

G. Lemon intends building a store with 50 ft. frontage opposite the McDowell block.

W. Stevenson has arrived to open a jewelry store.

The Reception is under excellent management since being taken over by Arthur Evans.

H. A. Heavener, of Nelson, has opened a tobacco and cigar store next Campbell's drug store.

J. Ennest's Hotel Criterion was so crowded last week he had to refuse beds to numbers of visitors.

R. Strangeways has the contract for a dwelling and two storey store to be built about opposite the Hotel Criterion.

The home built on the terrace by L. E. Beck is one of the neatest in the town, the lots having been cleared and cultivated.

The residence recently erected by C. Sumner is a beautifully finished house inside and would do credit to an older town.

B. E. Drew's garden is again well stocked with crops of vegetables. The garden stuff raised here last year by Mr. Drew was wonderfully fine.

The Miner office has a fine collection of samples of ores of the district in the window, and these should attract the attention of visitors to the mineral wealth of the section.

The government have had the new bridge across Pool creek repaired since the fires, but the street requires clearing and forming. A well graded road has been made to the Eva mill site.

T. J. Henry, formerly foreman of the Silver King mine at Nelson, is building a cottage on Lexington avenue. R. Strangeways has the contract for this, and F. Goldsmith's restaurant.

D. Orr intends enlarging the Camborne Hotel as soon as he can get lumber by connecting the bar portion with the building he bought from J. A. Darragh. He is running a good dollar-a-day hotel.

Andy Craig's livery stables will be when completed, amongst the finest and best equipped in the interior. The building is 60 ft. long by 30 ft. wide with roomy hay loft, and water laid on. An addition is to be put on for accommodation of rigs. Baker & Lemon are the contractors.

Since taking over the Eva Hotel, Messrs. Levesque & Thew have effected great improvements. A cellar has been provided the full size of the building. An addition 14x18 ft. is being erected for a sitting room. The building has been thoroughly renovated, neatly painted and papered, and the bar fitted up in first-class style. The dining room and bed-rooms are under charge of Mrs. Thew.

One of the neatest buildings in the town is that in course of erection as a store for C. T. Diamond. This building is being erected by Rev. Jas. Outram, the celebrated mountaineer, on lots he purchased from the Townsite company. Baker, Lemon & Co. have the contract for the building which is 65 ft. long by 28 ft. wide.

The Camborne Water Supply Company Limited are arranging to put in an efficient water service for the town. They have had the pipe line, reservoir site, and reticulation service surveyed by Green & Clements, of Nelson. The levels show a fall to the town of close on 300 ft. from the reservoir, so that, when the system is put in, there will be no town in the province with such efficient water power or fire protection.

Building operations in Camborne are greatly delayed owing to the shortage of lumber. The Calumet and B. C. and the Ophir-Lade companies require immense quantities of timber for their stamp mills and tramways, and there is a heavy building demand to be supplied as well. Owing to the bush fires, the Harbor Lumber Co. have been unable to get in logs, with the result the mill has been running short time instead of over time, as it should be to meet the demand.

The McDowell block, in the lower portion of which A. G. Fraser has opened his general store, is being fitted upstairs as a public hall. This will give a good room 30x50 ft. A raised dais has been built to accommodate the onlookers at a dance. The ceiling is 14 ft. from the floor, thus affording a good room for concerts or lectures. Two ante-rooms 12 ft. square are provided. The stairway is roomy and placed at a low angle. When opened the hall will be a great public convenience to Camborne and a credit to the town.

The Ladysmith strike was declared off at an open mass meeting held on the Green at Ladysmith on Monday. The men went back on the old terms.

A GUARANTEED CURE

For all Forms of Kidney Disease.

We the undersigned Druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak kidneys:—

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three to six bottles effect astonishing and permanent cures. If not relieved and cured, you waste no money.

Walter Bews, Revelstoke, B. C.

BEATON.

G. Lux has lost a lot of his fencing by the high water.

D. T. Ball, our new store keeper, is getting in his stock of goods and will open in a few days.

H. Needham got the telephone again into working order Monday after it had been out of business for several days by storm and flood.

A. G. Fraser has a pretty site for a home here on two acres of land which he took up, overlooking the rapids near the mouth of Thomson creek.

This point can boast of the earliest strawberries of the season, Mr. Beaton having been able to regale his friends on Sunday with a splendid supply of this fruit grown in his garden here.

Andy Craig is having a busy time transporting passengers, baggage and express to Camborne. He has one of the finest four-horse stages on the road and it is in charge of a first class driver P. Sinnett, formerly of Sloan.

Miss Jennie Price had her arm broken in two places at the Prospector's Exchange hotel on Saturday, by another girl accidentally striking her as she jumped into bed. Dr. Lazier came down from Camborne to set the limb.

Mrs. Needham's garden is one of the beauty spots of Beaton, with its wealth of flowers and small fruits. Here is to be seen one of the prettiest creepers in the district in the carefully trained woodbine that so effectively lends its kindly shade.

One of the most pleasant and successful picnic parties ever held in the district was organized by Mesdames Fowler and Sumner and Miss Lade, of Camborne, and took place here. The visitors came in mostly in rigs supplied by Andy Craig. The lovely spot between the bridge and falls on Thomson creek was selected for the occasion, swings were erected, tables fixed up, the creek provided excellent fishing, the scenery afforded variety for the camera fiend, and the shade of the trees in a cool summer day, and with a crowd of happy smiling faces made an ideal combination, which must have satisfied the ladies who arranged the treat with the success that attended it. Among the guests were Mr. and Mrs. Evans, Mr. and Mrs. Thomson, Mr. and Mrs. Fairhall, Mr. and Miss Beaton, Mrs. Schmock, Mr. and Mrs. Orr, Mrs. Ennest, Mr. and Mrs. Tobin, Mr. and Mrs. Strutt, Mr. and Mrs. Craig, Mr. and Mrs. Graham, Mr. and Mrs. Gunterman, Mrs. Needham, Mr. and Mrs. Porter, Mesdames Reynolds, Fraser, McDonald, Misses Valentine and Thomson, Capt. Davey, Messrs. Henry, Rear, Christie, W. and J. McMillan, H. Nellis, A. A. Clark, Dickinson, Bullard, Campbell, Faulkner, A. and C. Mackay, T. Downing. Mrs. Needham kindly sent over some flowers. There was an excellent supply of refreshments.

Too Great a Risk

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhœa Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

ARROWHEAD.

From our own correspondent.

H. K. Livingston visited Revelstoke Wednesday.

Gold Commissioner Fraser was in town Wednesday.

Several farms on Cranberry creek were badly flooded.

George Boyd has moved into Arrowhead from his farm.

The Dekew mill has shut down on account of high water.

James Ludgate is expected to return from Ontario Saturday.

The water in Arrow lake was within two feet of high water mark of '96.

Two cars of machinery for the Ludgate mill arrived Wednesday from Brantford.

Mrs. J. J. Foley is still laid up at Halcyon Springs with rheumatism and is improving very slowly.

The water has receded two feet in Arrow lake and the train is now able to make Arrowhead from Revelstoke with freight.

Nervous and Sleepless.

There is just one cure and that is plenty of food for the blood and nerves, which is best supplied in Ferrozone, than which no blood builder, nerve tonic or strength producer is better. Ferrozone promotes healthy digestion, which results in improved nutrition. The blood grows rich and red, furnishes stability to the entire system, and the store of nerve force and energy increase daily. A rebuilding of the constitution, new spirits, health and strength, all come from the use of Ferrozone. This marvelous renovator is sold by Druggists for 50c. a box, or six boxes for $2.50. By mail from Polson & Co., Kingston Ont.

NAKUSP.

From our own Correspondent.

The weather has been very cold this last few days.

Mr. and Mrs. Scott went to Halcyon Springs Wednesday.

Misses La Dell and Scott are again billed here for Saturday evening.

The people of the town intend having sport on July 1st for the children.

The lake has gone down sufficient for the mill to resume work Tuesday.

The tugs Irene and Columbia were busy on Monday removing driftwood from the lake shore.

There will be an excursion and strawberry festival on the night of July 1, in aid of the Presbyterian church.

True and Unfailing Help for Suffering Women.

PAINE'S CELERY COMPOUND

The World's Medicine for the Cure of Female Troubles.

A large share of the evils and sufferings women are liable to result from special female weaknesses, and diseases. From the girl entering womanhood to the woman who arrives at the Grand Climacteric or "Change of life," there are troubles, ailments and irregularities—too often borne in silence—which undermine the health and result in disease. Where such conditions exist, Heaven help the poor sufferers to fully realize their perils and dangers!

It is well known that ordinary medical treatment too often fails to build up the delicate nervous system of women, and give necessary tone and strength to the important female organs. The experience of years' medical testimony and letters from tens of thousands of cured women, point to Paine's celery Compound as woman's friend and life giver. Jessie M. Ross, Quyon, P. Q., says:—"It affords me much pleasure to testify to the great good that Paine's Celery Compound has done for me. I was completely run down in health and a victim of female weakness, and after using three bottles of Paine's Celery compound I was completely cured. It is the best blood purifier I know of, and I recommend it to all who are troubled as I was."

FIRE VALLEY.

From our own correspondent.

Mrs. G. B. Old and son arrived home from Revelstoke Friday.

Mr. Martin of Rossland spent a few days in the Valley last week.

The ranchers along the lake shore have commenced shipping strawberries.

E. J. Bangs is clearing out the logs on the Fire Valley and Kettle River trail.

Miss Kirby, who has been spending a few days with friends in Revelstoke, has returned home.

F. Williamson, manager of the Cherry Creek Mining company, came down from Monashee mountain and left for Nelson on the 18th.

Lightning Remedy for Cramps.

Some people have cramps pretty often, others only now and again. But when you do have them it's a mighty quick relief you want. Polson's Nerviline is as sure as death to relieve cramps in five seconds—it's instantaneous, just a few drops in sweetened water and the pain is gone. Buy a bottle of Nerviline to-day and keep it handy. Nerviline is a common household necessity and only costs 25 cents.

GOLDFIELDS.

R. Perry states he is arranging for a brewery to start business here.

This townsite has become quite deserted. Messrs. Diamond and A. G. Fraser, who each had stores here, have closed them and moved to Camborne, and the Northwestern Hotel being also closed, leaves not a single business of any kind here now. A new hotel, the Goldfinch, is about to be opened, however, by J. W. Roberts, formerly of Roberts's ranch at Nelson.

CARD OF THANKS.

Editor KOOTENAY MAIL.

DEAR SIR—Will you kindly allow me space in your paper to thank the kind friends at Rogers Pass for their thoughtful farewell and the purse which they presented to my daughter and myself. We spent five very pleasant years at Rogers Pass and were very sorry to leave the many friends we had made there. We shall always appreciate their kindness and remember their gift as a token of the respect in which they held us. Again thanking them for their kindness,

Yours very truly,

MRS. WILLIAMSON.

Toothache Cured in One Minute

Saturate some batting with Polsons Nerviline and place in the cavity of the tooth. Rub the painful part of the face with Nerviline, bind in hot flannel, and the toothache will disappear immediately. Nerviline is a splendid household remedy for Cramps, Indigestion, Summer Complaint, Rheumatism, neuralgia, and Toothache. Powerful, penetrating, safe and pleasant for internal and external use. Price 25c. Try Nerviline.

DR. HAMILTON'S PILLS FOR BILIOUSNESS.

LUMBERING.

A steam launch will probably be built by the sawmill company at Trout Lake for handling their logs on the lake.

The Harbor Lumber Company, limited have started the improvement of Fish creek for logging operations, and have a gang at work removing the big jam in the canyon above Beaton. Up to Saturday seven cases of dynamite had been used on it without much effect.

One hundred and twenty-one licenses to cut timber on government land were issued during the month of May, sixty-six of them being renewals. These licenses represent a revenue to the government of $12,100. During the past week eleven licenses were applied for. Thus, in spite of the fact that all timber limits must be surveyed before they are staken, there is no diminution, but an actual increase in the demand for licenses.

A Purely Vegetable Corn Cure.

Putnam's Painless Corn Extractor is entirely vegetable in compound, never stings or makes sore spots. Insist on "Putnam's," it cures in one night.

R. SAMSON.

GRAZING REGULATIONS

For Manitoba, the Northwest Territories and the Railway Belt in British Columbia.

Leases for grazing purposes are issued for a term of twenty-one years, and the rental is at the rate of two cents an acre per annum, payable half yearly in advance.

Lands included in a grazing lease may be withdrawn for homestead entry, sale or railway purposes, but no rental is charged on such lands from the date upon which they are withdrawn from the lease.

A lessee of grazing lands is not entitled to the hay thereon, but he may, upon application to the agent of Dominion Lands, obtain each year the first permit to cut on his leasehold whatever quantity of hay he may require for his own use, free of dues, the department reserving the right to issue permits to other applicants.

Applications for grazing leases should be made to the Secretary, Department of the Interior, Ottawa.

P. G. KEYES,

Secretary, Department of the Interior.

TIME TABLE

IN THE GREEN ROOM.

July 1st—Willing Workers.

Antonia Dolores gave a very high classed song recital at the Opera house Wednesday evening. It is to be regretted that so many music lovers missed this splendid opportunity of hearing one so talented as Mdlle Dolores. She was ably assisted by John Prouse, baritone, and Clarance Newell, pianist.

The Clara Mathes company favored Revelstoke again with a visit. The opening piece, "The Royal Spy," on Saturday night was very well played, Miss Mathes taking the title role. Monday evening "Nell Gwynne" was given, Miss Mathes again appearing in the title role, in which she showed her ability as an actress. Tuesday evening "In the Reign of the Emperor" was presented to a packed house. Miss Mathes has given special attention to the vaudeville specialties and may consider herself very fortunate in having one with such a splendid bass voice as Harry Rowe in her company.

Some steps should be taken to keep better order in the gallery. For some time past there has been a crowd of young men and boys in the ends and middle of the first gallery who persist in responding to performers. This is very trying to both the performer and an appreciative audience. Wednesday night during Mdlle. Dolores's "Echo Song," some little wretch, in the back of the gallery, kept disturbing the audience by an attempt at echoing. These men and boys should not be allowed to carry on so ungentlemanly.

LOCAL & GENERAL.

Judge Forin held a sitting of the county court Wednesday, there being nothing of importance on the docket.

There is said to be a great scarcity of mine labor at Trout Lake and Ferguson, where we are assured 40 to 50 good men could readily find employment.

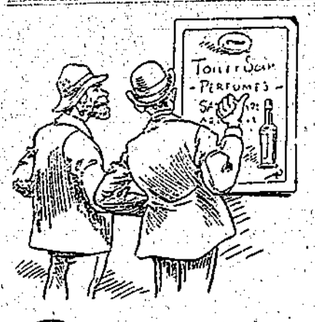
Calgary now has a labor paper, "The Bond of Brotherhood," which will be published weekly and devoted to the organization and education of the worker.

Government Agent Fraser has taken steps to improve the Beaton-Camborne road, and good work is being done by the foreman at the south end, T. J. Graham.

During the large fire at Wetaskiwin, N. W. T., on the 23rd, the Clara Hanmer theater company lost all their effects. The fire broke out at 2:30 in the hall where the company had given a performance.

The pupils of the first division of the public school held a picnic last Saturday and during the day took advantage of the occasion to make a presentation to their teacher, Principal Miller, in the form of a valuable leather portfolio.

At the Epworth league last Monday evening short papers on "Missions" were read by Mrs. Bews, Miss Smith and Mrs. Campbell. A meeting of the executive will be held at the residence of Mrs. Bews next Tuesday evening to arrange the quarterly programme.



SOME SUMMER SUGGESTIONS

A COOL PLACE
A NICE DRINK

These are what you find at the

RED CROSS SODA AND ICE CREAM PARLOR

J. A. MILLER & CO.

The members of the Methodist choir will celebrate Dominion Day by the holding of a picnic, the destination of their outing to be decided upon Tuesday evening, which they are invited to spend as the guests of the pastor, Rev. C. Ladner, in the sampling of his strawberries.

Officers of the local division of the U. B. R. E. received a wire on Tuesday stating that a settlement of the strike had been arrived at and authorizing the return to work of all strikers. Nearly all helpers have already resumed their duties, and it is understood the clerks who wish to take up their former positions will do so the beginning of the month.

Rogers Pass lost its oldest resident this week in the person of Mrs. Williamson, who comes to take up her home in Revelstoke. Before leaving the people of Rogers Pass gathered together and gave her a farewell. About 50 people were present and C. D. Morris, in a few chosen words, presented her on behalf of those present with a well filled purse. Mrs. Williamson was quite surprised but thanked them very much for their kindness.

A statement of the proceeds of the English Church Sunday school entertainment shows gross receips $110, expenses $32.55, net amount $77.45. A very suitable and handsome bookcase 10x4 feet, with three sliding doors of glass, has been purchased from Mr. John E. Wood, and fixed up in the ante-room of the church. At an early date the books will be carefully chosen by Rev. C. A. Procunier and Sunday school teachers, for which there are ample funds.

Since the passing of the resolution by the council last meeting to provide open air concerts by the band, subscription lists have been circulated both in upper and lower town and the coming week will doubtless see band stands erected on the corners opposite the city hall and Central hotel in the respective districts. Pending erection of the stands the first entertainment will be given this evening on the vacant lot opposite Molsons bank, weather permitting.

At the Revelstoke Lumber Co's No 1 camp in the Big Bend a man named Olson sustained a severe injury Tuesday forenoon. While engaged piling brush he tripped and fell striking on a double-bladed axe, which he had left stuck in a log, causing a nasty cut in the side under his right arm. The steamboat not being expected that day, that question of bringing the injured man to the hospital arose, and this was solved by the arrival at noon of Jack Dicey who volunteered to bring him down, in a row boat. Leaving the camp at 12.45 they made a splendid run reaching the canyon at 4.50, where they were fortunate in making connections with the stage and the disabled man was landed at the hospital shortly after 17 o'clock. At latest reports he was progressing favorably.

The Best Liniment.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

RAIL AND STEAMER

Steamer Revelstoke resumed her regular run to LaPorte this week.

The C. P. R. traffic receipts for the week ending June 21, were $948,000; for the same week of last year they were $735,000.

Freight is again being carried over the Arrowhead branch but the boats may run to Revelstoke for passenger service a few days yet.

Harold Clarke, night foreman in the Revelstoke yards, received slight injuries to his head Thursday morning from being struck by a timber projecting from a car.

Mr. Armstrong, of Glacier, who has been in charge of the extra gang all winter, has been made assistant roadmaster for the summer. John Anderson, of Albert Canyon, takes his place at Glacier.

The C. P. R. is going to appeal to the full cabinet from the decision of the railway committee of the privy council on the railway crossing question in the case of the Vancouver Western & Yukon railway at New Westminster.

A Great Nothern train, consisting of 60 loaded coal cars, got beyond the control of the engineer Monday at Spokane and tore through the city at a frightful speed, finally jumping the track. Three perons were killed, and nine injured, and one is missing. Three buildings were also wrecked.

If it's a bilious attack, take Chamberlain's Stomach and Liver Tablets and a quick recovery is certain. For sale by all druggists.

WANTED—FAITHFUL PERSON TO TRAVEL for well established house in a few counties, calling on retail merchants and agents. Local territory. Salary $18 a year and expenses, payable $10.50 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Enclose self addressed envelope. Standard House, 315 Caxton Bldg., Chicago.

BUSINESS LOCALS.

Go to W. Smythe's to have your wheel repaired.

Ice cream, soft drinks and cider at the City Bakery.

You can save money by insuring with H. N. Coursier.

Read C. B. Hume & Co's. advt. on first page of this issue.

R. H. Trueman will be in studio until Saturday, June 27th.

A store and livery business are advertised in our colums for sale.

Florida Water, 25 and 50c a bottle at the Canada Drug & Book Co.

Visitors to Camborne should take A. Craig's stage from Beaton. Quickest route, best service.

Leave your orders for pies of any kind—meat, mince or fruit—at the City Bakery.—A. E. Bennison.

See that your printing bears the union label. The KOOTENAY MAIL is the only union printing office in North Kootenay.

Travellers visiting Revelstoke will find the best accomodation at the Central Hotel. Abrahamson Bros. o

Kodaks, Cameras, Chemicals and all supplies, very large stock to choose from, at the Canada Drug & Book Co.

Reserve your calendar orders for 1904 till the representative of the Kootenay Mail calls to show you our samples.

Why send east for your loose-leaf day book and ledger fillings, when the work can be done as well at the KOOTENAY MAIL office?

W. Smythe is agent for the Cleveland, Gendron, Massey-Harris, Rambler and the famous Heyslop bicycles. See him when you want a wheel.

When you come to Revelstoke hail the Central Hotel bus to take you to a good hotel. Abrahamson Bros. Props.

All kinds of Cleveland fittings and Dunlop tyres at W. Smythe's bicycle repair shop. Rambler bicycle $40, one of the Cleveland wheels.

When you want to get to Camborne in speed and comfort, look out for A. Craig's stage line when landing at Beaton.

If you want the purest of Drugs in your prescription take them to the Canada Drug & Book Co. They have lots and only keep the best.

High-class presswork is our specialty. We have the reputation of doing the best printing in Kootenay.—The KOOTENAY MAIL Publishing Company, Revelstoke.

J. Maley opened his store in the Samson block this week and has now on exhibition and for sale a fine assortment of potted plants, strawberries and early vegetables.

A. M. Craig still conducts the feed, livery and freighting stables at Beaton, and his saddle horses and light and heavy conveyances for hire at all times. His daily stage for Goldfields and Camborne meets the steamboat on its arivel and departure.

No district is so well covered by one newspaper as Revelstoke riding is by the KOOTENAY MAIL. Any man picking the best paper for advertising any article, high-priced, low-priced, medium-priced, and wanting the best value for his money, will select the MAIL every time.

THE MINES.

Work has been resumed on the Triune.

A Vancouver company is starting work on the Nettie L hill.

One hundred men are now actively employed in the mines and stamp mills at Camborne.

Three deals of importance are on in the Fish creek country and all look as if they were coming off.

It is stated the Nettie L has now a body of concentrating ore developed showing a width of 50 feet.

Walter Campbell has a promising gold location on the hill above Beaton. If rich enough to mine it would be a remarkably convenient property to operate.

V. Enoch is doing development work for Cory Menhinick on the Eulie one of the handiest properties at Camborne. The lead is large and has given values of $14.50 in gold.

In sinking the foundations for the Oyster-Criterion stamp mill a curiosity was found in the shape of a granite boulder, heavily charged with molybdemite. There is no granite formation in the vicinity.

The whole of the treasury stock of the Beatrice placed on the market has now been taken up, the last lot being under option to capitalists who will have an examination made of the property and on a favorable report will give it strong backing. Beatrice shares will be marked up to 35c.

Messrs. McKay Bros. and Strutt get values of $11.50 per ton in gold and $40 in silver on the Jumbo and Mammouth claims which they have located above the Northwest Development syndicate's property on Fish creek. The same partners own the Jim Hill group, a silver-lead property on Lexington mountain and the Sir Wilfred on Pool creek, within a mile and a half of Camborne, and from which property they have had assays in gold running up to $1,500.

Social and Personal

J. A. Magee has gone to Okanagan.

F. Fulmer has returned from Chicago.

Conductor Ogilvie went in to Fish Creek Monday.

J. O. Piper, of Trout Lake, is on a visit to the city.

Ed. Adair returned from Winnipeg Sunday evening.

D. McRae came up from Arrowhead Tuesday evening.

Hewitt Bostock, of Ducks, was in the city Thursday.

H. N. Coursier returned Monday from Lardeau points.

J. H. MacDonald, of Comaplix, was in the city this week.

F. C. Elliott, of Trout Lake, spent yesterday in the city.

J. Kellett, of Arrowhead, was in the city Saturday evening.

Mr. and Mrs. J. P. Kennedy returned from the Springs Monday.

T. Taylor, of Trout Lake, was a visitor to Revelstoke Monday.

George Boyd, of Arrowhead, spent a few days in the city this week.

W. Cowan left for Lardeau points Monday, returning Wednesday.

Miss Pettipiece leaves this evening for Vancouver on a visit to her brother.

J. M. Doyle left for Trout Lake and Ferguson Sunday, returning Wednesday.

W. D. Armstrong has gone to Trout Lake to accept a position with J. O. Piper.

Mrs. T. H. Dunne left on Thursday for Wilmer, to visit her daughter, Mrs. Scovil.

M. Carlin, of the Columbia River Lumber company, was in the city yesterday.

Charles Helman came in from Calgary Tuesday evening and went south Thursday.

Capt. R. W. Troup, of the steamer Victoria, Trout Lake, came up from the south Sunday evening.

Mrs. R. Simpson of Wigwam, was brought to the hospital Wednesday to receive treatment for a tumor.

T. Graham came in from Golden Wednesday evening and left yesterday for Ymir to take his position with the Ymir mines.

Miss Robinson, who has been on a visit to her sister, Lieut Robinson of the Salvation army, left yesterday morning for Fernie.

Mrs. R. Trimble, who has been visiting her sister, Mrs. E. Trimble, for the past week, will leave for her home in Kamloops this evening.

The Willing Workers of St. Andrews church will hold a bazaar and entertainment afternoon and evening of July 1 in Selkirk Hall.

A. G. Street, manager of the stamp mill for the Ophir-Lade company's property at Camborne, has moved his family from Rossland to Camborne.

Mrs. J. Caley returned from the coast Sunday accompanied by her two sons, Bert and Arthur, who have been attending school at New Westminster.

Rev. W. J. Dey, uncle of A. McRae, Mrs. Bain and Miss McRae, visited his relatives here for a few days this week upon his return from the coast.

G. Knapp was confined to his room for a couple of days this week suffering from tonsilitis, but has now sufficiently recovered to be around again.

Mrs. Needham, of Beaton, is one of the best artists with the camera in North Kootenay. She has a splendid collection of pictures taken on the North Arm and vicinity.

T. D. Pickard, of Fairview, spent Sunday in the city looking up old acquaintances, returning home on No. 1 that evening. Mrs. Pickard passed through Sunday on her way east.

Mr. and Mrs. Stewart, of Hamstead, Ont. spent a few days in the city this week the guests of Mrs. R. Hyland. Mr. Stewart was in attendance at the Presbyterian general assembly recently held in Vancouver.

A large number of Revelstokers took advantage of Sunday's trip down the river to the Halcyon Hot Spsings. The trip was a very enjoyable one in spite of the inconvenience of having to fast from early morning to 8:30 p. m.

N. M. Shepherd, baker and confectioner, of Trout Lake, arrived last night to meet a lady from England to whom he is to be married. His many friends at the lake unite with us in wishing the young couple every happiness.

Thursday evening the Salvation Army held a nationality service, the members parading for the open air meeting in costumes representing various nations and the service at the barracks also being along those lines. At the close of the meeting a coffee and pie social was given, the barracks being crowded.

CHURCHES.

METHODIST.

Dr. Maggs, who for the past two years has been in charge of the Methodist college at Montreal, conducted the evening service in the local church last Sunday.

The morning service will be taken tomorrow by Rev. Clarence Mackinnon, and the evening by the pastor, Rev. C. Ladner.

PRESBYTERIAN.

Rev. Clarence Mackinnon, B. D., will officiate in St. Andrews tomorrow evening at 7.30. The communion will be dispensed at the morning service.

Rev. Henry Dickey, of Windsor, N. S., occupied St. Andrews pulpit last Sabbath morning, and Rev. W. J. Dey, M. A., of Simcoe, Ont., uncle of Alex. McRae, postmaster, in the evening. Both services were very well attended and the ministrations of both gentlemen highly appreciated.

Jas. Reighly leaves next week with three or four men to spend the summer in development of the Jordan Pass properties.

TROUT LAKE.

Business has been excellent in Trout Lake City so far this season.

J. J. Langstaff is moving the Topic plant to the building beyond the Oddfellow's Hall.

Kirkpatrick & Hillman are getting in a lot more horses from Kaslo to meet the increasing demands of traffic.

Trout Lake City has shown great improvement during the past year, several handsome residences being built.

J. C. Curry is resigning as postmaster and is going out of business. B. C. Murray is being appointed in his stead.

Owing to high water the mill had to be shut down, but Manager Henderson got the planers started up again Tuesday.

The Oddfellow's Hall is the finest building here and has proved a great public convenience since being built. It would do credit to a larger town.

The steps taken by Government Agent Fraser to protect the town from threatened damage by the high water of the Lardeau river was the result of a telegram from T. Taylor to Premier McBride.

J. Rady is making good progress with his lumbering contract for the local mill. His camp is about five miles down the lake. He has already built a shoot a mile and a half long to deliver the logs in the lake.

A heavy storm took place on the lake Friday. Capt. Troup ensured the safety of the Victoria by running her out off the lake. A boat-house was wrecked. The warehouses of the Great Western and C. P. R. had their backs broken, and C. B. Hume & Co's. warehouse was under water.

The hotel-keepers here are very indignant at being charged $100 for their licenses for the half year, while all over the rest of the riding the fees charged were same as last year. The matter was represented to T. Taylor who forwarded the complaint to the attorney-general, and it is expected the excess levied will be refunded.

Great inconvenience has been caused by the closing of the Lardo railway for the past fortnight by the washing out of the permanent way. The merchants had not yet received their spring supplies and large quantities of freight are en route. C. B. Hume & Co. Ltd. have two carloads of supplies under shipment, also a car of powder. All supplies will probably have to be reshipped from Lardo to Thomson's Landing and taken in over the wagon road.

Matters political are taking active shape. Both liberals and conservatives are organized, and names are being put on the roll. This is part of Kaslo riding now. Hon. R. Green will be the conservative candidate and John Keen will be strongly supported by the liberals, though Goodenough and McAnn are also mentioned for the liberal selection. Taylor is using his influence in support of Green. J. Gordon, of the Balmoral Hotel, Ferguson, may be brought out as the socialist candidate.

Some anxiety was caused by a report that the C. P. R. did not intend to reopen the Lardo railway this season on the grounds that the damage done was such as to involve heavy expenditure for repair, that all the ore ready for shipment had been hauled out, and that the rest of the season's traffic would not be sufficient to be profitable. These reports were given color by the arrival of Capt. Troup with instructions to tie up the steamer Victoria, making the last run Wednesday. T. Taylor saw Capt. Gore, who assured him these reports were untrue, and that the line would be repaired just as soon as the water fell sufficiently to enable this to be done.

George Goldsmith went up from Beaton last week with supplies to start work on the Scout group on Boyd creek, but when he reached the crossing he found the high water had carried his boat away and as the trail on the east side of Fish creek has never been completed, he had to return to get lumber packed up to build another boat. This is a fair sample of the loss and inconvenience to which prospectors and those interested in mining property on upper Fish creek and tributaries are put for want of a proper trail on the east side of the creek.

MAIL CONTRACT.

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 7th August, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, as required each way, between Revelstoke Post Office and Canadian Pacific Railway station, from the 1st September next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Revelstoke and at the office of the Post Office Inspector.
