Agents for Giant Powder and Bennet Fuse.

Wash Goods

These days we are paying special attention to our Wash Goods.
New Organdies, Dimities, Laces, Muslins, Printed Palards, etc., are here in profusion and we hope to see you make a selection while the stock is complete.

New Millinery

You will find us ready for the Holiday season. New showings of Ladies' Sailor Boateys and ready-to-wear Hats.

Parasols

Some very pretty designs and no two alike. Pure White India Silks, Printed Taffettas, etc.

Gloves

We have a novelty in a Fowne's Wash Silk Glove in Cream and White.

Millinery Dept.

Ladies Ready-To-Wear Hats, 4 different lines, entirely new goods, a genuine bargain, will be sold SATURDAY, regular price $1.50, FOR 75c.

C. B. HUME & CO. LIMITED.

THE DREDGE.

Scow to be Built at Revelstoke for Removal of Debris.

The dredge Nakusp, which is now lying at Revelstoke pending repairs by the contractors, Polson Iron Works, is fitted with powerful machinery. The crane will dig a channel to a depth of 24 ft. The hoisting gear is fitted with cast steel gear wheels. The boiler and engine can develop 110 h. p. There is a windlass each side of crane for hauling dredge over rapids. Fire and testing pumps and hose reel are provided. When at work the dredge is supported by three adjustable spuds, one on each side and another at stern. There is a well equipped kitchen and dining-room for eight men on lower deck, but these will be raised to the upper deck to provide room for blacksmith shop and storage of wood.

In the pilot house is a bath supplied by hot and cold water. Comfortable quarters are provided for the captain, engineer and crew. Capt. Kane is dredgemaster and C. J. Wilkes engineer.

On Thursday Capt. Kane received instructions from Dominion Engineer Keefer to have a scow built at Revelstoke for removal of debris thrown up by dredge and the work will be put in hand as soon as lumber can be obtained.

CITY COUNCIL.

Regular meeting held last night. Present: The Mayor, Ald. Foote, Law and McLeod.

CORRESPONDENCE.

R. Tapping, complaining damages to cellar of Willis' house, corner Boyle avenue and Victoria street. Referred to works committee.

Supt. Kilpatrick and E. J. Coyle, referring city to C. P. R. reduced rates for round trip via Kootenay points.

R. Gordon, re powerhouse requirements. To be procured.

CHINESE LAUNDRIES.

The committee appointed to fix boundaries of area within which Chinese laundries be excluded reported as follows: Area included within Fifth street, Connaught avenue, Kootenay, King, Douglas and Hanson streets to city boundary, and the bylaw passed its third reading allowing as alternative blocks 107 and 108 for the erection of such laundries. The bylaw stops laundering clothes by sprinkling water from the mouth.

REPORT.

The works committee reported against repairing fences broken by the snow plough, it being considered if the city was to be held liable for such damages it would be better to exercise its power to compel owners of property to keep sidewalks by their holdings free of snow.

GENERAL.

The tax sale bylaw was read a third time.

The works committee was instructed to lay water pipes to cemetery.

The assessor was ordered to prepare assessment roll.

Ald. Law and the Mayor considered the cost of electrical installation should be cut down to cost and the work even done without charging the time, seeing the city had to pay the time of the men anyhow.

Ald. Foote and McLeod considered Moscrop Bros. had as much right to do legitimate business as the city, and it was not fair to cut charges so it would not pay them to do the work. Ald McLeod said it would be as fair for three or four men to combine to drive him out of town as for three or four men in that council to combine to drive Moscrop Bros. out of business. Fire, water and light committee to report.

Resolved to fix Railway avenue to give Colarch access to his property.

ARROWHEAD.

From our own correspondent.

Two new dwelling houses are being put up and more talked of.

Mr. Conroy has left to take up his residence in Revelstoke.

Mrs. Robertson visited here for a few days last week.

James Ludgate left for Ontario to visit his family.

The Fred Robinson Lumber Co. will be shipping timber from 23-mile board to Revelstoke next week.

LUMBERING.

Great indignation is expressed at Vancouver by government placing a pulp reservation on a large area of timber.

On Monday the upper portion of the boom at the Revelstoke Lumber Co's. mill broke and several hundred logs got away. J. McMahon, fearing the outrush would also carry away his boom, cut it in the middle, stringing in the outer end so as to protect the logs he had in. Mr. McMahon has another boom at Arrow lake, so that the Revelstoke Lumber Co's. logs would be caught there.

The Crow's Nest Lumber Co. had a million feet of logs burned at Wardner; fire caused by spark from railway engine.

THE LAND GRANTS

Honorable W. C. Wells Saved the Province.

Eberts flatly contradicted the statement of Wells that Taylor wired him from Montreal suggesting a change in the subsidy of the British Columbia Southern to the Columbia and Western and of his replying "Impossible."

In the opinion of the Attorney-General, the C. P. R. has a good chance of recovering from the province in connection with the non-delivery of the grants. He did not remember telling Taylor what Dunsmuir had told him.

Dunsmuir interjected he did, and Eberts replied he thought Dunsmuir was mistaken.

"Why were the grants cancelled?" asked Mr. Duff.

"Because Mr. Dunsmuir believed the story," was the reply.

"Did he?" asked Mr. Duff.

"Well he said so," responded the witness.

The transfer of these two blocks to the Columbia and Western was officially registered at the time the patents were signed and sealed.

The trend of Helmcken's cross-examination was to show that he was favorable inclined toward the railway company's position while in the Turner government when, in the last days of that administration a memorandum had been prepared by then Premier, for submission to His Honor, although four days before, Turner had received his dismissal. That on return to power of the government of which Eberts was a member in 1900, the settlement of the B. C. Southern railway was first taken up and Eberts was simply carrying out the favorable leaning that had previously been shown.

It was 5.30 when Helmcken's examination of Eberts was brought to an end by an unexpected difficulty. He asked Eberts to reconcile his action in introducing legislation in 1901 to deprive the Kaslo & Slocan Ry. from testing its rights in the courts, with his own actions in condemning Bill 16 of this session as unjust, why should one course be fair when one company was concerned and the reverse when the C. P. R. was affected? Helmcken urged.

Clifford ruled the question not permissible and was supported by A. W. Smith, while Helmcken, McPhillips and Green pressed the question as a fair one. Clifford flatly refused to accept the mandate of the committee majority and said the only way he could be forced to do so would be by appeal through the speaker of the legislature.

President Shaughnessy, Secretary Oswald and C. P. R. Solicitor Creelman gave evidence, Oswald stating he had the grants in the company's vault for a night, and was asked by McCaul why he did not get a receipt from Wells and "When did you concoct this story?"

BEATON.

From Our Own Correspondent.

Mr. Guntuman has moved into his new house and is rapidly finishing it up.

Wire fencing is being used in the village as it is much cheaper than lumber.

Messrs. Beaton and Hillman have taken a contract to furnish piling for the Complix mill and are working at it.

The steamers are now coming up to the summer landing to the satisfaction of the passengers and freighters.

J. Croft is building a new frame house next to Mr. Beaton's and expects to have it ready to move into next week.

The exhorbitant price asked for lumber at present will deter many from building and improving their places till the mill men become more reasonable.

Messrs. Beaton and Hillman have completed their second contract for taking out timber for the Arrowhead sawmill, and it has been boomed and sent to Arrowhead.

Beaton is rapidly becoming a garden town. About thirty gardens will be planted this year. Most of them will be done next week. The young orchards that were set out last year seem to be doing well. All the trees seem to be growing and many will blossom this year. Five years from now we should supply the home market with fruit.

We regret to have to report that the angel of death has again visited our little town. Mrs. Doig's little boy, Eddie, two years old, was taken ill with tonsilitis last Friday, and died Saturday evening, in spite of all that good nursing and medical skill could accomplish. The residents did all in their power to assist and comfort the bereaved mother. Rev. Mr. Solley held a very appropriate funeral service this morning, after which the remains were forwarded to Revelstoke for interment. This makes the sixth child that has died in the Lardeau this spring. The disease seems to affect the throat or chest. The doctors state the disease seems to poison the system so rapidly that a child who is stricken with it is beyond hope before the doctor can arrive. We trust no more of the children will contract the disease as six is a big loss out of a population of about 30.

THE PAYNE MINE.

Interesting Treatment of Zinc Ores by New Separator Plant.

At the annual meeting of the Payne company the manager reported on the recent strike in the low level tunnel: "The vein is wider and shows a higher grade of ore in the floor than in the roof of the drifts. Its average width is 21 feet, showing in several places swellings of the vein." 8,700 tons ore are in sight.

"The new magnetic separator plant put up by the company will be running by June. It will have capacity of 40 tons zinc ores per 24 hours. It comprises roasting furnace, magnetic separators, screens, elevators, zinc rolls, etc. The finished product, which will run approximately 60 per cent in zinc, and 16 to 20 ounces in silver, will contain only a small percentage of iron and less than 2 per cent lead. On this the manager remarked:—

"With the prospect of being able to produce 6,000 tons, or more of zinc from the present ore reserves in the mine during the next 18 months, I am able to predict a bright future for zinc and it will readily be seen that the revenues from this by-product from now on will be an important factor to contend with."

LABOR'S CALL.

The International machinists, have re-elected Jas. O'Connel president and declared for an eight hour day and a nine-hour day in railway shops.

In giving evidence before the labor commission, president Bolding, Victoria trades and labor council, was in favor of compulsory arbitration but didn't think the time was ripe yet.

The strike bill introduced by the Victoria Legislature resulted in complete surrender of the striking government railway employes, who will thus have to leave the labor unions and come under the classification of civil servants.

Manager Seabrook, formerly of the Albion Ironworks, Victoria, told the labor commission he would sooner deal with union men than non union men providing outside agitators left them alone. He believed in unionism because under it all shops had to give the same wages, and this better enabled contracts being made.

A "non-union" man is a man who has not belonged to a union; an "unfair" man is a man who, while not belonging to a union, injures a union man by taking his job in time of trouble; a "scab" is a man who has been a union man and broken his obligation to his union. It is common to hear even union men use the loathsome word scab when it ought not be used.

Labor organisations have turned the tables on employers in the United States by the use of injunctions. A fortnight ago unions of Omaha obtained an injunction against employers to restrain them from discriminating against unions, and now the labor unions of Denver have got an injunction restraining the citizens alliance from threatening or intimidating unions or subscribing funds to break them up. It is expected the strikes there will involve 15,000 men.

Writing of the debate in the Commons on the abitration bill A. B. Lowe, of the trackmen, writes: "Ralph Smith nailed the argument by suggesting to Charlton the inquiry whether more strikes were not caused by capitalistic tyranny than by foreign or any other agitators. I tell you we were proud of our two labor men in the House and believe me, they are setting the space for other M. P.s on both sides. May the House long have both Smith and Puttee, and may many other constituencies have such honest, able labor representatives in our next parliament.

MALAKWA.

From Our Own Correspondent.

We had a visit from R. E. Christison.

Mrs. E. Erickson and sister paid Revelstoke a visit.

John Smith is making a fine job of his new log house.

We are looking for the new hat for the 24th for sure now.

Our weather here is very refreshing—never a day without a shower.

Mr. Parr was in and gave us another of his very interesting addresses and services.

A school meeting was held on the 9th to elect a trustee in place of G. Anderson, resigned. R. Bruhn was elected.

With the fine hunting our young and old sportsmen are having—1 killed and 1 lost being the record—the rent in the broken heart will be healing.

The strike is having its effect here. Freight is not arriving, and what is; or what is supposed to have arrived, is missing, and has taken up the time of the secret service men. But as the clown says "Oh here we are again." Some freight, which has been lost since February turned up the other day, clearing the bad name we were gradually having drawn over the settlement.

The Vernon assizes, at which J. M. Scott acted as crown prosecutor, were exceptionally heavy. Two men were sentenced to ten years each for rape, and one prisoner was sentenced to death for murder.

Also 80 acres unimproved land near Salmon Arm station, price $600 on easy terms.

LEWIS BROS., Real Estate Agents

The Kootenay Mail

UNION LABEL

SATURDAY, MAY 23, 1903.

Now that a meeting of the local branch of the Provincial Mining Association has been called it would be well if as many attended as possible to formally organise the branch.

The Ozonagram declares the Kaslo and Slocan Railway Company got a steal from the province similar to that attempted by the C. P. R. on East Kootenay lands, and urges the matter be investigated and the rights of the province insisted on.

Editor Lowery, of the Ozonagram, says: "I am probably the only newspaper editor in B. C. who does not ride over the C. P. R. on a pass." Therefore Lowery can console himself with the fact that the editor of the KOOTENAY MAIL does not travel on a C. P. R. pass.

The provincial government should push on with the completion of the Big Bend trail as soon as possible to Canoe river. There is no work in the district more urgently required. The revenue which the government is now getting from the Big Bend between Beaver and Revelstoke for timber fully justifies the work. The bulk of the people who have taken up timber limits in that section have done so with a view to operating them, and the government should leave no stone unturned to have this important section of country opened up.

MONOPOLY AND TYRANNY.

The Labor Commission has already done much good in exposing the tyrannical relations existing between the Dunsmuir collieries and their employes. Indeed the conditions are relatively little better than those shown by the anthracite commission to exist in Pennsylvania. Miners in the Dunsmuir employ bought lots and built houses in one townsite under assurances of permanency. These assurances were broken in the most unscrupulous manner, a new town established by the company, and the men forced to live there or quit work. When employment is monopolised as in this case the effect is necessarily serious to the men. It amounted practically to confiscation of the men's property by the company. The company even went so far as to threaten to burn their houses about their ears. No wonder Chief Justice Hunter told the company they were under serious obligation to clear themselves of such charges. That the company failed to do so is an admission of the truth of the charges. Is it any wonder the employes were driven to desperation to obtain some protection, and that they welcomed the assistance of a strong organisation like the Western Federation of Miners. The evidence shows the Dunsmuir companies deliberately courted and brought about the existing strike by gross wrong to their employes. The Dunsmuir companies have obtained great privileges from this province, and they owe a duty to their employes and the people. If they will not fulfil that duty honorably and fairly then there is only one course open, and that is for the legislature to expropriate the Dunsmuir land grant and mines, paying fair compensation therefor. If the legislature applied to the Dunsmuir companies the same principle these companies have applied to their employes they would expropriate the mines and land grant without any compensation whatever. Two wrongs do not make one right, and because the Dunsmuir companies have done wrong no one proposes to wrong them in return. If these companies are not, however, faithful to their trust, some means must be found of taking out of their control entirely the immense power they now possess and exercise so badly.

THE CITY FINANCES.

While it is admittedly important that Revelstoke should have a first-class water supply as soon as possible it is absolutely impossible to do any more at present than improve the existing service by getting in as many more streams as possible along the existing course of supply and enlarging the reservoir. Since the affairs of the city have been in the hands of Mr. O'Brien they have been conducted with a business acumen which has vastly improved the condition of the city. One of the first things the present mayor did after entering office was to obtain a full report on the best means of obtaining a first-class water supply. As the result of that report there is no doubt the best source of supply is Eight-Mile creek. But that involves an expenditure of $80,000, and the city cannot face it at present. While a splendid stroke of business was done in securing ownership by the city of the water and light supply, and the venture is a great financial success, it must be remembered that the $65,000 of debentures issued to acquire the property has never yet been taken up by capitalists, and is still in the hands of the city who temporarily financed the matter through Molson's Bank. With that issue still on hand it would be clearly absurd to attempt at present the financing of the Eight-Mile creek scheme. The city is growing steadily, and there is every prospect that within the next two years the population will be doubled, thus increasing the revenue and the security to capitalists. No doubt the water and light debentures will be taken up ere long. Until then it would be folly for the city to undertake the large water supply scheme, and the council is acting well in limiting present expenditure to the improvement of the existing system, a plan promised by the mayor in September last. As matters stand the affairs of the city are under conservative and careful administration, consistent with serving public requirements as far as possible, and every well-wisher of the city will support the council in such a policy.

THE STATE AND THE COAL-FIELDS.

A progressive policy is required in British Columbia as regards the coalfields. The great industries of the country, including railroading, smelting and manufacturing, are dependent on the coal supply. In the case of the Dunsmuir mines the coal mines have been shut off so as to force the workmen out of the union of the Western Federation of Miners. Nobody except a tyrant will deny the workers the right to organise for their own protection, and no tyrant should be allowed to control coal mines or any other franchise so intimately bound up with the public interest. The whole is greater than its part. The state is more important than the individual or corporation. No individual or corporation can be permitted to pursue unchecked a course detrimental to the state. Therefore the state should be in a position to take the place of the individual or corporation where necessary by acquiring these coalfields and having them operated in the public interest.

DEATH RAPIDS.

While plans are being perfected for the construction of a tramway at Death rapids to connect steamers running on the upper and lower river the season is passing. There are immense quantities of supplies to be sent into the upper portions of the Big Bend as soon as can be done. It will take some time to build a steamer for the upper river and transportation facilities sufficient for present requirements could be provided in a few weeks by the provincial government building a wagon road on the west bank of the river past the rapids and by boats being used beyond. The work is easily and cheaply carried out. We trust if there is to be an election the estimates will be passed first so that there shall be no hindrance to the progress and development of the country as in 1900, and that provision will be made for this work and also for completion of the Canoe river trail.

UNFAIR DISCRIMINATION.

The Sentinel complains bitterly of the discrimination against Kamloops by the C. P. R. Our contemporary says:—

"Take for example a recent case of a merchant who ordered a large consignment of goods from the east. The C. P. R. freight charges from shipping point to Kamloops amounted to $532.21, but had that same shipment been consigned to Vancouver, 250 miles more of a haul, the freight charges would have been only $321.80. So that for a haul of 250 miles less, an increased freight charge of $210.40 was paid. That such a state of affairs should exist is scandalous; it is a positive disgrace to the C. P. R., and it is a shame that we should be obliged to endure unjust treatment of that sort."

Speaking at Nelson recently J. L. Parker, manager of the North Star mine, paid a high compliment to the Canadian smelters. He said he had seen discussion in the press about the relative charges made by home and foreign smelters and he could inform the meeting the charges by the home smelters were less than those of the United States plants and as such was the case he thought the home smelters deserved every consideration at the hands of lead mining men. He had gone into the matter exhaustively and with the greatest care and found that while the charges at Nelson and Trail were $24 a ton those in the States amounted to $27.75, a difference in favor of the home smelters of $3.75 per ton.

Rt. Hon. Joseph Chamberlain is doing more for the development of the British nation than any statesman of the century. In a speech delivered last week he declared for reciprocity within the empire, and against other nations, and declared such a policy consistent with the free-trade policy of the mother country. He pointed with pride to the splendid manner in which Canada, under the Laurier government, had led the way in a preferential tariff policy, and urged that the mother country should reciprocate and promote the adoption of such a policy by other portions of the empire.

Some of the big eastern papers, and in this province the Nelson News, are demanding an insolvency law. No more dishonest or rotten law has ever been placed on a statute-book. A bankruptcy law is a repudiation law. The bankruptcy laws in Britain and the Australian colonies are responsible for more frauds than all other laws combined affecting trade. Canadian trade and commerce is thriving well under existing laws. Let well alone.

The party who will not arbitrate a dispute is trying to get away with something that does not belong to him. The C. P. R. is that party in the U. B. R. E. strike, and the Dunsmuir company occupies the same position in the Vancouver island strike, for they rejected all overtures for arbitration from the labor commission. A compulsory arbitration law is the only means of bringing tyrants to time whether these be employers or employes.

Warrant Every Bottle.

If troubled with rheumatism, give Chamberlain's Pain Balm a trial. It will not cost you a cent, if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frost bites, quinsy, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price 25 and 50 cents. For sale by all druggists.

THE LAND GRANTS

Opinions of the Free and Independent Press.

(Vancouver World.)

"Hon. Mr. Wells comes through his cross-examination with honors."

"Sir Thomas Shaughnessy will have some little difficulty in convincing the British Columbia public that George McL. Brown was all at sea in stating in official correspondence that there had been no delivery of the patents for blocks 1,593 and 1,594, either manual or otherwise. The railway knight will also have some strenuous work in making it clear to the general public that he would relinquish such valuable documents without so much as taking a pencilled receipt therefor."

(Clarion.)

"Bribery is only possible when a bribe giver meets a bribe taker. Then legislation may go through "as drafted."

(Ozonagram.)

"Wells says that the crown grants never left his hands.

"Shaughnessy says the crown grants lay in the company's safe over night.

"By comparing which statements it appears that somebody is out on a limb.

"From the standpoint of an ignorant observer it is difficult to judge which is the perjurer. But it may as well be remembered that Shaughnessy had once already when he said that he had never heard a whisper about the plot to bribe the legislature by parcelling out the land grant among the mercenaries. And it may as well be remembered that Shaughnessy stuck to his lie until Prior called him down.

"Up to the hour of going to press it would seem that the points are on Shaughnessy. Further investigation may prove that besides being president of the C. P. R. he is a liar."

(Grand Forks News-Gazette.)

"A deliberate attempt to prejudice public opinion against Hon. Mr. Wells, commissioner of lands and works is being made by unscrupulous correspondents of influential Kootenay newspapers in connection with the alleged deal to hand over Columbia & Western railway land grants to a private corporation. We submit that an impartial analysis of the evidence as published in the coast press will entirely exonerate the chief commissioner of any culpability in the matter. Far from implicating Mr. Wells in any dishonest deal, the evidence, on the contrary, goes to show that his efforts to secure better terms from the C. P. R. resulted in saving for the province lands of enormous potential value. Mr. Wells performed a plain duty when he indignantly declined to profit by his official position and deserves commendation for his promptness in notifying the first minister. If Mr. Wells had ever favored a corrupt transaction it is unlikely that he would have withheld the crown grants, and insisted as a condition of their surrender that the C. P. R. should build the Columbia & Western railway extension from Midway to Spence's Bridge. We predict that Mr. Wells will be absolved by the committee from any act of wrong doing and that his political reputation will be greatly enhanced. In private life Mr. Wells has always had a reputation for probity and integrity and these traits, we feel confident, he has ever had uppermost in the administration of his department."

(Nelson Tribune.)

"Wells, however much he may be censured for trying to keep the deal quiet after he had blocked it, must be given credit for returning the crown grants to the province, for had he been what his enemies say he is, the crown grants would now be in possession of the Canadian Pacific Railway company."

"The investigation of the Columbia & Western land grant deal has disclosed two facts. One is that in August, 1901, three members of the Dunsmuir government, namely, Turner, Eberts and McBride, arranged with George McL. Brown, the executive agent of the Canadian Pacific Railway company, to turn over to the company 600,000 acres of land in Southeast Kootenay in lieu of 900,000 acres earned by the company for building sections one and three of the Columbia & Western railway. Wells, who was not in Victoria when the deal was arranged, says the proposal for the exchange came from Brown. Dunsmuir was in California. Prentice was on the sick list. About a month later Turner resigned to accept the job of agent-general in London, and Dunsmuir invited John C. Brown of New Westminster to join the government. This action so incensed McBride that he resigned his position with the understanding that Eberts would do likewise. Eberts held on, however, and two days after McBride's resignation, an order-in-council was passed authorizing crown grants to be prepared for the 600,000 acres of land in question.

"Mr. Wells had the interests of the province in view throughout the negotiations he was conducting."

"It has been apparent from the start that Wells was to be made the scapegoat. The Eberts, Canadian Pacific railway crowd have no use for him; the McBride opposition have less, and Premier Prior by getting rid of him, would be able to strengthen his hands for the leadership of the Provincial Conservative party. Yet Wells is the only one of the whole bunch, with the exception of Prentice, who has stood for the people's interests against the interests of the Canadian Pacific and its friends in the legislature. His motives for doing so may have been for his worldly advantage, but, if so, it is strange that when the members of the government, even Dunsmuir himself, were willing to turn the crown grants over in order to save the government from threatened defeat, Wells sidetracked them. Wells will be made to go, but the people of Northeast Kootenay will return him to the legislature by an overwhelming majority, merely to show that they believe in fair play, and have utter contempt for the Victoria and coast cowards, and that feeling is not confined to Northeast Kootenay. It is just possible that party lines may be swept aside in Kootenay, and the Boundary, and men elected pledged to support no man for premier who lives in either Vancouver or Victoria."

A telegram from Victoria says: "The general opinion here is that Wells saved the land to the province and the effort to make him the scapegoat will fail."

At the sale of the property of the Davenport Gold Mines Limited at Burton, W. Beech, of Rossland, was the buyer for $225.

A CHANCE FOR CLEVER PEOPLE

It should be easy for people who drink delicious Blue Ribbon Tea to say something that will induce their friends to try it.

$500 in Cash Prizes

Twenty-five cash prizes will be awarded in order of merit to those sending in the best advertisements for Blue Ribbon Tea.

First Prize	$200.00
Second Prize	100.00
Third Prize	40.00
4th to 13th Prizes, $10 each	100.00
14th to 25th Prizes, $5 each	60.00
	$500.00

CONDITIONS:

1st. No professional ad. writer, nor any one connected directly or indirectly with the Blue Ribbon Tea Co. may compete.

2nd. Advertisements must not contain more than 50 words, and shorter ones are preferable.

Competitors should be careful to write name and address plainly on each ad.

3rd. Cut the labels off the ends of the packet and inclose them with each batch of advertisements.

4th. The competition closes June 1, 1903, and all competing advertisements must reach one of the following addresses on or before that date.

Blue Ribbon Tea Co., Winnipeg, Man.
Blue Ribbon Tea Co., Toronto, Ont.
Blue Ribbon Tea Co., Vancouver, B. C.

5th. No one person shall be awarded more than one of the main prizes, but the same advertisements may win a weekly and afterwards a main prize.

6th. In case of a tie, decision will be based on all the advertisements submitted by the competitors in question.

Mr. H. M. E. Evans, of the Winnipeg Telegram, has kindly consented to judge the advertisements and award the prizes.

All advertisements that fail to win a prize, but which are good enough to be accepted for publication will be paid for at the rate of $1.00 each.

Unless expressly requested to the contrary, we will consider ourselves at liberty to publish the names of prize winners.

A good advertisement should be truthful and contain an idea brightly and forcibly expressed. A bona fide signed letter with address and date from one who has tested the tea is a good form. An advertisement for an article of food should not associate with it, even by contrast, any unpleasant idea. The best advertisement is the one that will induce the most people to try the article advertised.

Seek your inspiration in a cup of Blue Ribbon Tea and the money is yours.

The best way to get it is to use printer's ink.

Have your printing of the best.

That helps advertise your business and brings the cash.

Send out advertising circulars or leaflets with every parcel That brings the cash.

The best results are got by sending your orders for printing to the

J. A. Miller & Co., Revelstoke, B. C.
Walter Bews, Revelstoke, B. C.

A STRONG APPEAL.

Demand for Better Titles to Hydraulic Ground.

The father of the Provincial Mining Association, J. B. Hobson, is determined the legislature shall not be allowed to shelve the demand for amendment of the mining laws without vigorous protest. Mr. Hobson has addressed a letter to members of the house, in which he says:—

"The members of the Provincial Mining Association of British Columbia and the public generally are greatly disappointed at the action of the mining committee of the legislative assembly in refusing to consider at this session the remedial mining legislation recommended by the large convention held in Victoria on the 25th February last.

"We contend that the remedial legislation asked for by the Mining Association should be adopted for the purpose of encouraging the prospector to enter the deep alluvial fields of the province. It is he who must be credited with being the discoverer and pioneer demonstrator of the value of all mining regions throughout the world. But he is practically barred from entering the British Columbia placer fields for the reason that he cannot locate, prospect and hold a deep placer claim on terms within his means. Why should he not be entitled to the same fair consideration at the hands of the legislature as is shown the mineral prospector, and secured in as good a title under crown grant of his placer claim, which may be all he has to leave to his wife and children as the result of many years of hardship, privation and hard work? He may have expended the whole of his means and possibly many years of labor, in attempting to demonstrate the value of his claim, and should be permitted to hold it under a good title that he may have time to interest capital to assist him in carrying on development work, or sell to the investor for a sum that will remunerate him for his investments and his years of hard work.

"The prospector should not be discouraged; the miner should not be frozen out, and the investor should not be unduly deterred from aiding development.

"The insecurity of title is acting prejudicially against the influx of capital, which operates against British Columbia, as the neighboring district of California offers the greater security of patents under the United States laws, which are preferred to our leasehold system by the Canadian, British and United States capitalists.

"It is, in these days of large undertakings impossible to induce capital to enter a small concern, hence large areas of land held under indubitable titles are demanded, and if this province is to hold its own with other countries in the working and development of its immense alluvial deposits, the areas granted or acquired must be extensive and warrant the expenditure of immense sums of money for machinery and water service systems and ditches, which are practically useless when the ground is worked out, and it will not pay to haul away the the machinery.

"By evolution, the shallow placers give way to hydraulic placers, which in their turn send large products of gold circulating through the channels of trade and commerce, and finally give back the soil to the orginal forestation for the future."

How the Cocaine Habit Starts.

Generally from using catarrh snuffs and ointments containing this deadly dope. It is well to remember that the only direct scientific cure for catarrh is Catarrhozone, which cures by the inhalation of medicated air. Simply breathe Catarrhozone, and it will cure all forms of Catarrh, Bronchitis, Asthma, Lung Troubles and Deafness. Every breath from Catarrhozone Inhaler soothes, heals and relieves. Permanent cure guaranteed even though other remedies failed. Try Catarrhozone, price $1.00; small size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

DR. HAMILTON'S PILLS CURE BILIOUSNESS.

RAIL AND STEAMER

C. P. R. will let a contract next month for building new station at Golden.

The Intercolonial has dismissed the engineer and conductor responsible for the recent accident at Windsor.

Forty-seven longshoremen brought to Montreal from England by the Canadian Pacific, having refused work were arrested.

The minister of railways has got the Intercolonial in good shape. In discussing the question of the government road handling the Grand Trunk Atlantic seaport traffic Mr. Blair said "from the present state of the road and the improvements taking place, that we would be fully equal to the capabilities of the Grand Trunk at any time and under any circumstances."

The Great Northern has conceded an increase of 15 per cent. to trainmen and conductors. Manager Ward receded from his offer of three per cent. double-headers, and agreed to district the road, and confine the bulk of the two-engine trains to the mountain divisions. With this understanding the men receded from their demands for a complete abolition of the system, and the strike difficulty ended.

Of Sir William Mulock's arbitration bill the representative of the railway order says: "As the legislative representative of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen, the Order of Railway Conductors, the Brotherhood of Railway Trainmen and the Order of Railway Telegraphers, I have consented to the bill as it is now introduced, and hope that all concerned will make the necessary use of the bill, if the occasion ever arises, and also that it will be interpreted according to the ideas and intentions of the minister, and as I believe the bill is intended to operate, and serve, my only wish is that it will be the dove of peace to bring about conditions where sometimes we have war and enmity to each other."

THE STRIKE.

A sample of the labor the C. P. R. is bringing here was seen Saturday when four of the company's importations were run in by Chief Bain and fined by R. Gordon, J. P.

President Farwell, of the Machinists, is very wrothe with the MAIL because we published a letter signed "Fair Play" in last issue setting forth the company's side of the controversy. Bob met the editor the other day and complained about the reference to the machinists. "I'm no scab" said Bob, and proceeded thenceforth to dig up his vocabulary. From the way Bob can talk on the Chinese question, we knew it was pretty extensive, but had no idea it was so big till we heard it. Bob must have been supplementing his education under the tuition of some of the choice scabs recently imported from the east. A good grit like Bob should not forget himself so far.

Referring to the attempt of the C. P. R. to goal President Estes and some of the strikers the British Railway Review says:—

"Canada it must never be forgotten, is a part of the British Empire. Canada sent her contingent to fight for 'equal rights for all white men in South Africa.' Truly, as Bruce Glasier declared the other day, 'In the name of freedom we demanded Empire, and in the name of Empire we demand slavery.' How true, how emphatically true, ring Lowell's words in these days:

"Those who make black slaves of niggers
Want to make white slaves of you."

Lazy Livers and Sluggish Kidneys.

When these organs fail to perform their proper functions, the blood becomes poisoned and suffering and disease commence. This can be avoided by keeping your vitality at high water mark, the blood rich and pure by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness Pain in the back and Sick Headache disappear at once when Ferrozone is used. Get it today. Price 50c at Druggists, or N. C. Polson & Co., Kingston, Ont.

DR. HAMILTON'S PILLS CURE BILIOUSNESS.

THE MINES.

Granby smelter will put in two gravity trams.

Vancouver Board of Trade urges better titles to placer ground.

Judge Martin is publishing a book on the mining laws of the province.

Four feet of solid ore, rich in silver, has been struck on the Empress mine at Bear lake.

H. Estell and J. Moore have located three copper-gold claims on the Columbia river near Surprise rapids.

Miners licenses expire May 31 and everyone should remember it as many claims have been lost by neglecting this.

J. F. Warner has bought the Philadelphia Co.'s stamp mill at Sheep creek for the Monashee mine at head of Fire valley.

The C. P. R. will provide the Morrison mine with shipping facilities by constructing a spur 6,200 ft. long. The ore is similar to Rossland.

Six feet of ore has been struck on the Speculator. Two paystreaks carry native silver. A paychute a foot wide has been struck on the low level.

The Mining Association is circulating a petition urging parliament to amend the mining laws as recommended by the association and the crown granting of placer claims.

D. G. Forbes, manager of the Silver Cup and Nettie L., protested against the action of the executive of the mining association on the lead question and threatens to withdraw his support from the association.

With the two new furnaces being installed before end of June Granby smelter will have a capacity of 2,200 tons a day. The electric plant is to be enlarged by a 25 h. p. and three 100 h. p. motors now being manufactured by the Westinghouse Company.

Granby smelter has organised the International Coal & Coke Company under Washington laws with $3,000,000 capital to acquire coal properties at Blairmore, to assure a coal and coke supply for the smelter. A. C. Flumerfelt is president of the new company.

A. M. Symons claims to have on Pingston creek one of the biggest zinc properties in the country. He informs us the ledge is 25 to 300 ft. wide, and a man can walk on it for eight miles. It is located 8½ miles from the lake. At a depth of 200 ft. there is a body of clean zinc ore showing for a width of three feet. This ore will average 30 to 39 per cent zinc. Accompanying the zinc is three to four feet of low grade galena carrying two to five ozs silver, $1 to $5 in gold, and 13 per cent lead. Mr. Symons estimates he has 5,000 tons of ore in sight.

The United States Sulphide Smelting Furnace company of Toledo, O., has been organised to operate a process of pyritic smelting. The results of this combination are by this method the most successful ever discovered, as it has been proven a success by some twenty month's experience in Mexico with two commercial plants. This system is going to revolutionize the treatment of refractory ores. Figuring the cost of this new method and comparing same with any other known system is but one-third that of any other known method and the saving of all the values in the ore cannot be improved on.

The Life Giving Virtues of Paine's Celery Compound

Rescued a Lady Who Was Drawing Near the Grave.

The Life Building Medicine That Wives and Mothers Need in May.

Paine's Celery Compound does a wondrous work for sick and half dead women in May. The conditions of winter have been detrimental to the health of women and girls everywhere; they have declined in nervous vigor, the blood is reeking with impurities, the excretory organs do not perform their work, and the digestive machinery is sadly out of gear. The human machine must be cleansed, repaired and strengthened in May. Paine's Celery Compound does the work surprisingly fast, and gives a guarantee of permanent health and long life. It is the one spring medicine that truly nourishes, regulates and invigorates the entire nervous system from the brain to the minutest nerve filament. It gives a full, rich supply of energizing blood, it clears the muddy, unhealthy skin, it gives an increase in weight and more refreshing sleep. Whatever be your condition, unhappy sufferer, we give you a blessed assurance of a new and lasting health through the use of Paine's Celery Compound. Mrs. Flora S. Brantley, Levis, P. Q., writes thus: "Eighteen months ago I was terribly afflicted with daily headaches and was despondent, nervous and weak. Medical assistance and patent medicines failed to bring me relief. My sufferings increased, and I was told I would not get better again. I was suffering so much that I was satisfied to die if it was God's will. A neighbor kindly suggested the use of Paine's Celery Compound and, to please her, I consented to try it. The first few doses seemed to send a feeling of new life into my blood, and I went on using the compound. I have taken five bottles and can honestly say I am fully cured. I am sleeping well, appetite in good condition, getting back lost flesh, and feel as active as a girl of fifteen. I think my cure is a permanent one. I thank God for Paine's Celery Compound; it saved my life to my husband and children."

If you are in need of free medical advice, write to Consulting Physician's Department, The Wells & Richardson Co., Limited, Montreal, Que. All correspondence is sacredly confidential.

THE BEST EVER.

The company which will present "A Wise Woman," the latest musical farce at the Opera House, Friday, June 5, has a really wonderful array of well known people enlisted in the ranks of the organization. The management do not believe in the too common system of "one or two giving the whole show," but have organized what is undoubtedly one of the strongest farce comedy casts ever brought together.

Just What You Need.

Chamberlains Stomach and Liver Tablets are just what you need when constipated; when you have no appetite and feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by all druggists.

GRAZING REGULATIONS

For Manitoba, the Northwest Territories and the Railway Belt in British Columbia.

Leases for grazing purposes are issued for a term of twenty-one years, and the rental is at the rate of two cents an acre per annum, payable half yearly in advance.

Lands included in a grazing lease may be withdrawn for homestead entry, sale or railway purposes, but no rental is charged on such lands from the date upon which they are withdrawn from the lease.

A lessee of grazing lands is not entitled to the hay thereon, but he may, upon application to the agent of Dominion Lands within each year, the first permit to cut on his homestead, what ever quantity of hay he may require for his own use, free of dues, the department reserving the right to issue permits to other applicants.

Applications for grazing leases should be made to the Secretary, Department of the Interior, Ottawa.

P. G. KEYES,
Secretary Department of the Interior.

DIED.

Doe—At Beaton, April 16, William Edward, two year old son of Mrs. S. Doe.

IN THE GREEN ROOM

May 23rd—Harry Lindley Co.
May 25th—Hall of Nelson Co.
May 26th—Miss Patton and Sutherland.
June 2nd—Local.
June 8th—Wise Woman Co.

Since Avenue day the ever popular Harry Lindley with a good company, as been playing at the opera house tonight he puts on "The Telegram," a excellent comedy described as "the finest piece on earth," and giving the audience 275 laughs in 24 hours.

At his closing performance on Saturday night Harold Nelson referred in highly complimentary terms to the visit of Harry Lindley and advised the people to patronize him. Harry Lindley was a credit to the Canadian stage with his clean, good work.

At Kamloops the Harold Nelson Co. had splendid business this week playing to large audiences every night. The company re-appear at the opera house, Revelstoke, on Monday night in Damon and Pythias, under the combined auspices of the ladies Guild of the hospital and the K. of P.'s.

Don't forget the splendid attraction to be provided for you at the opera house on the evening of Victoria Day, Monday next, May 25th, when the Harold Nelson company will reappear for one night only, playing "Damon and Pythias." This entertainment is under the combined auspices of the ladies Guild of the Hospital and the Knights of Pythias. No better company has ever visited Revelstoke than the Harold Nelson company, and it is hoped the entertainment will result in a large addition to the funds of the ladies Guild. Mr. Yule, the splendid comedian of the company will appear in his best pieces.

TO CORRESPONDENTS.

"Fairer Play," "A Close Observer," "Workingman." Your letters replying to "Fair Play," received too late for this week's issue.

LOCAL & GENERAL.

A lacrosse match is being arranged for the local club for Victoria Day, Monday next.

M. J. Henry, of Vancouver, sold 900 trees to British Columbia fruit-growers this season.

Chief Bain arrested on Thursday a man named Townley, who is wanted by the police of Calgary.

The Athletic association proposes arranging a splendid program of sports for the City for Dominion Day.

At the police court on Thursday, before R. Gordon J. P., J. E. Wood was fined $15 and costs for assaulting a lady.

S. Nelhan has the best showing of strawberries in the city. His currant bushes are as much as 8 ft. in height and heavily fruited.

C. Turnock has put in four acres of oats for Ed. Adair, who is thus setting a good example in promoting small farming in the district.

T. Taylor, M. P., thinks the Prior government will be reorganized, the estimates passed, and an election on party lines held in fall.

A verdict for $200 damages was given at Rossland in the libel action by H. Simpson against the Miner for insinuating he fired his premises.

Walter Harris, cook at the Criterion Hotel, Cariboo, died Friday by shooting himself. The body was brought to Revelstoke for interment Sunday.

Several visiting residents are offering their present houses for sale with a view to securing more extensive grounds and building larger residences.

The Cariboo Water Supply Company Limited is incorporated with a capital of $25,000. We recently published the list of provisional directors.

The new bridge over Pool River at Cariboo is completed. It's a fine structure, 200 feet long, with a 60 foot span. The work was done under supervision of T. J. Graham.

Two cases were brought before Messrs. Gordon and McLaughlin Tuesday, charged with theft and receiving two shoes from Messrs. Stephenson. He was sent for trial. T. O'Neill, some time in the shops and lately acting as bartender, fined $15 or 30 days in gaol for being drunk and disorderly, and in another case of the same kind the offender was fined $10 or 15 days in gaol.

A meeting of local branch of Provincial Mining Association will be held tonight.

The C. P. R. will erect eight new section houses on the Mountain and Shuswap division this season.

J. McMahon's shingle mill is turning out 35,000 shingles a day. The mill is in charge of William McMahon.

Simon Johnson was brought to the hospital yesterday suffering from a severe gash in the foot, sustained at the Revelstoke Lumber Co.'s No. 1 camp in the Bend.

In the case at Nelson assizes against Skales, assaulting a police officer at Camborne, A. M. Johnson obtained a postponement until the next assizes, bail of $1,500 being granted.

T. Jones, an employe of the Yale-Columbia Lumber Co., came to the hospital by the south train yesterday, suffering from a gash on the forehead and nose by being hit with a pole.

Owing to shortage of supplies Supt. Bradley is obliged to close down the Duquesne Mining company's operations on the Blue Jay at Smith creek till July when work will be vigorously prosecuted.

A. G. S. McCarter returned from Nelson assizes last night, the grand jury having thrown out the bill against Burbidge, for whom he appeared. The civil cases in which he appears come on next week.

Several citizens are making great improvements to their houses this spring. Dr. Cross, E. B. Lewis and W. Tomlinson have had the grounds surrounding their new homes laid out in splendid style.

The Golden Star is informed two unknown trappers were probably drowned in the Columbia river at Surprise rapids, as their punt and supplies have been found in the river. Two men, not since heard of, and who came from Boundary, left Beaver in August.

At Camborne last week before Fred. Fraser and B. E. Drew, J.'s P., C. K. Scales was charged with assaulting Constable Sumner while in the execution of his duty. The officer was making a search of Scales's premises premises for stolen goods when the assault took place. Prisoner was committed for trial.

A hitch has arisen over the proposed recreation ground on McKenzie avenue. At the meeting of the city council last night the Mayor stated that Messrs. Lewis Bros. agents for the Smelter townsite, had gone right back on their own proposition after the council had gone to much trouble by appointing committees to examine the ground and to arrange with the Athletic association, and after the council had accepted the proposition. The aldermen supported the statement made by the mayor and severely criticised what they termed a gross breach of faith.

A Farmer Cured of Rheumatism.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Bayder, of Pattens Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by all druggists.

ATHLETICS.

FOOTBALL.

The Revelstoke Football Club will play a game with the Scotchmen on Monday at the gun club grounds before the lacrosse match which starts at 3.30. The people should turn out and see both games and have an afternoon's enjoyment. The lacrosse boys promise to put up a good game and so do the footballers. James Allen, one of Scotland's best players, will appear before the Revelstoke people on Monday for the first time and give a good account of what they can do with the ball.

The game will be played under the new rules and when Kamloops comes here for that cup they will have a hard time to lift it, as Revelstoke intends to keep it and get the Fulton cup also. Good luck to them both. Turn out on Monday and see the boys.

Grafts.

Editor KOOTENAY MAIL:

Sir,—In your publication of May 9th I see where your Nakusp correspondent tells of a hold-up game played at times in his city by parties having worthless articles to get rid of. Thinking it is such easy money he would like to put J. P. Morgan on to it.

If he wishes J. P. to fall into something easy, why not start him in with a government dredge? Talk about your grafts; its dead easy, especially on the Columbia river, where the sand shifts so much it is hard work to fill up the steamboat channels.

I am etc.,
ANTI-GRAFT.

Beaton, May 18.

Startling Difference in Complexion

Many coin and wart cures contain caustics and acids, but Putnam's Painless Corn and Wart Extractor is entirely vegetable in composition, never hurts, acts quickly, and is sure to cure. Try it.

INDUSTRIAL NOTES.

The Enterprise Brewing Co. have engaged the services of a first-class brewer named Gallivan, of Hamilton, Ont. He will arrive next week and will have charge of the company's brewing operations for this season.

O. H. Allan has his brewery behind the Wine and Spirit Co's. warehouse all ready for starting operations as soon as he receives his license from the customs department.

Sir Thomas Shaughnessy passed through Revelstoke Monday en route to Victoria. Supt. and Mrs. Kilpatrick met him at Laggan and accompanied him west.

Sir Thomas Shaughnessy passed through Revelstoke yesterday on his return east, accompanied by General Supt. Marpole. The president's special made the run from Vancouver to Laggan in 6½ hours less than express time.

VERY FORTUNATE.

"A Wise Woman," the three-act musical comedy by Wilfred Clarke, who is also responsible for that great success, "Oh! Susanah!" has been secured for the Opera House Friday, June 5. This is a fortunate booking for Manager Tapping, and one worthy of special notice as the attraction is to be seen in but very few one night stands this season, its time having been almost entirely booked in the larger cities of the country. This is strong evidence of the strength of the company.

CHURCHES.

CATHOLIC.

Advices from Rome state Vancouver has been created an archbishopric with Bishop Orth as archbishop.

METHODIST.

At the conference Rev. Jas. Turner, of Kamloops, was elected president.

PRESBYTERIAN.

One Sunday evening Rev. W. C. Calder referred in highly complimentary terms to the stand taken by the mayor and aldermen of Revelstoke in providing recreation ground etc. for the city. He said he cared not what denomination these men were of, they were doing their duty, and the citizens should support them by their ballots.

Diarrhoea Weakens the System.

and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared specially for stomach and bowel troubles. As a radical cure for Cramps, Colic, gas in the stomach, Summer Complaint, Nerviline excels everything in the medical line, is an indispensible household staple, and costs only 25c. Buy a bottle today.

TRY DR. HAMILTON'S MANDRAKE PILLS.

BANKING.

S. H. C. Miner, president Granby Smelting Co., has been appointed a director of the Eastern Townships Bank.

F. T. Walker, manager of Royal Bank at Greenwood, has been appointed manager of a Vancouver branch of the bank.

Molsons Bank has issued two handsome $5 and $10 notes which mark a new era in bank-note design. The intermingling of black with two color printings, green and brown, the latter containing vignette work, makes these notes new in conception and execution. The work exhibits exquisite detail and finish, and the bank is to be congratulated upon having made such a successful departure from the usual forms.

WANTED—FAITHFUL PERSON TO TRAVEL for well established house in a few counties, calling on retail merchants and agents. Local territory. Salary $1021 a year and expenses, payable $19.70 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Enclose self-addressed envelope. Standard House, 315 Caxton Bldg., Chicago.

DOMINION PARLIAMENT.

Hon. Mr. Prefontaine gives notice to amend fisheries act.

On second reading of Sir William Mulock's arbitration bill, W. A. Galliher, M. P., spoke in favor of it.

An amendment to supply was proposed by Dr. Roche against dominion officials taking part in elections. Dr. Roche asked they leave politics or the service. The amendment was defeated by 22 to 71 against.

In the railway committee on the Grand Trunk Pacific charter, W. A. Galliher endorsed the proposal that the road start at the city of Moncton in order to create a situation which would insure carrying Canadian products by the Grand Trunk Pacific to a Canadian port.

The redistribution committee decided Vancouver and Victoria will be self-contained constituencies, not going beyond municipal limits, and having one member each. There will be four members for mainland and three for island, to be known as Vancouver, New Westminster, Kootenay, Yale-Cariboo, Victoria, Nanaimo and Cassiar.

Mr. Scott, M. P., has introduced a bill requiring manufacturers to brand their products "pure wool," "mixed goods" or "shoddy" according to their composition, and tailors and clothiers making up goods from such material must label accordingly. Dry goods merchants or tailors buying goods not so marked are liable to a penalty of $50 to $1,000.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situated in East Kootenay District, B. C.:

Commencing at a post planted on the east bank of Canoe River, about 1½ miles up from the mouth, and marked J. H. Grojean's south-west corner, thence east 160 chains, thence north 40 chains, thence west 160 chains, thence south 40 chains to initial post.

Dated this 24th day of April, 1903.
J. H. GROJEAN.

NOTICE.

TAKE NOTICE that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated in East Kootenay District, B. C.:

Commencing at a post planted on the east bank of Canoe River, about 2½ miles up from the mouth, and marked H. Grojean's north-west corner, thence east 160 chains, thence south 40 chains, thence west 160 chains, thence north 40 chains to initial post.

Dated this 24th day of April, 1903.
R. GROJEAN.

NOTICE.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated in West Kootenay District, B. C.:

Commencing at a post planted about 1 mile west from the mouth of Canoe River and about 1 mile north of the Columbia River and marked E. Nagle's south-east corner, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to the place of beginning.

Dated this 2nd day of May, 1903.
E. NAGLE.

NOTICE.

NOTICE is hereby given that application will be made to the Parliament of Canada at the present session thereof for an Act incorporating the Columbia River Improvement Company.

1. To construct, build, maintain and equip piers and other works at or near the point where the Columbia River enters the Upper Arrow Lake in the District of East Kootenay, British Columbia, and to use booms in connection therewith.

2. To construct and maintain piers, slides, dams, booms and such other improvements on the said river above Upper Arrow Lake, or any of its branches, or any other rivers or streams emptying into said lake, as may be required to facilitate driving, rafting, collecting and sorting timber or saw logs, and to levy and collect tolls and dues upon such said timber and logs.

3. To acquire, own and operate dredges, scows, barges and tugs for the purposes aforesaid, or any of them and to remove rocks, dredge and remove shoals, bars and other impediments in the way of driving and protecting said timber.

Dated this 19th day of March, A. D. 1903.

SUPPLEMENT TO THE

Kootenay Mail.

A ROUGH TIME.

A Mallett Raises General Disturbance.

On Tuesday a man named A. Mallett so maltreated a Japanese woman on Douglas street that she is in a precarious condition. S. Needham, hearing the woman's screams, went to her assistance, and Mallett attacked him, biting off a piece of his ear. Mallett then ran away and meeting young Allan on horseback threw him off the horse and mounting it himself started up the Big Bend road to get away from the police. Constable Upper was promptly after him on his bicycle and overtaking him the two had a tussle in which the constable proved the victor. Chief Bain was also soon on the spot to assist, and Mallett was locked up after assaulting both police officers.

DEATH RAPIDS.

It is represented to us by persons interested in the opening of the upper river that the best plan to secure immediate facilities for transportation beyond Laporte is to get the provincial government to build a wagon road on the west bank past Death Rapids, and so enable transportation to be carried on pending the building of the proposed tramway. We are informed two and a half miles of road would answer the purpose and that the work presents no difficulties.

A meeting of lumbermen was held at the Hotel Revelstoke Saturday to arrange for importing men from the east to supply the necessary labor for the mills this season.

The Yale-Columbia Lumber Company has commenced the erection of a new sawmill at Cascade with a daily capacity of 40,000 feet. Dry kilns, planer, trimmers, lath and other machines are to be operated.

LUMBERING.

A BIG DEAL.

On Saturday Messrs. C. M. Ward and Barton, of London, England, who represent English capital and are connected with the irrigation scheme at Kamloops, returned from Trout Lake, whither they had been to inspect the extensive timber interests recently taken up by W. Cowan, the investment having been brought under their notice by W. de V. le Maistre. They were accompanied on the return journey by Messrs. Cowan, Le Maistre, J. Abrahamson and F. B. Wells, the two latter gentlemen being directors of the Trout Lake Townsite Company.

The visitors were much pleased with their trip and with the investment offered in the lumber business, and arranged to take over the Clink mill, now being operated to supply immediate local demands, pending the erection of a large mill. Arrangements for taking over the limits and building the mill will be completed on the return of Messrs. Ward and Barton to England.

The visitors were handsomely treated by the Trout Lake Townsite Company, who in consideration of the great value of a large lumbering industry to the townsite, arranged to grant the new company about six acres of land to be used as a millsite.

The local gentlemen interested are thus likely to reap a good reward for their investment, while the purchasers will secure one of the largest and most valuable blocks of timber to be found in Canada. The establishment of the industry on a large scale will make Trout Lake one of the most prosperous townsites in the west.

The Pingston Creek Lumber Company will shortly begin the erection of their mill on A. M. Symons' ranch, on the shore of the lake. The mill will be operated by water power. A gentleman who knows the company's limits informs us they have some of the best lumber to be found in the district.
