THE EVA DEAL

Statements of Michigan Men Refuted

Baseless Charges Against Mr. Rosenberger and the Mines Exchange.

In last issue we referred to the reasons given by Michigan men for throwing up the Eva deal. We are now in possession of all the facts, and in a position to absolutely refute the charges made against Mr. Rosenberger and the Mines Exchange.

THAT $100,000 RAKE OFF

existed only in the imagination of the people who so recklessly made the statement. Such an arrangement does not exist, and never existed. All that was coming to Mr. Rosenberger, or the Mines Exchange, was the ordinary commission paid to a mining broker or agent who negotiates a deal, and there is positively

NO OTHER COMMISSION OR RAKE-OFF

paid to any person whatever, except the under-writers pro rata for the amount of stock they underwrite, and which is given in consideration of their guaranteeing the sale of the first 100,000 shares of the stock at $1 per share. This is honest and just enough in all conscience.

THREW DOWN THE GAUNTLET.

When the Michigan men, who are responsible for these false reports, made them, the Mines Exchange took the unchallengeable course of inviting them to investigate every scrap of paper that had any bearing on the deal. This invitation was accepted and the papers examined in the presence of C. D. Hanchett of Hancock, and R. W. Hannington of Nelson, acting as a committee. These papers were found in first-class shape and exactly as represented.

EVA STOCK SELLING WELL.

A telegram has been received from Calumet, Mich., placing a big order for treasury stock in the new Calumet and British Columbia Goldfields Company.

PERSONAL CALUMNIES.

It is to be regretted that some of the Michigan visitors should not have stopped at mere misrepresentation but went so far as to calumniate men who have done much for the Fish Creek camp. The following letters show how unwarranted were the statements and reports circulated in this direction:

Nelson, B. C. Nov. 11, 1902. Having heard that certain statements are being circulated in Michigan to the effect that we do not approve of the manner in which the Calumet and British Columbia Gold Mines, Limited had been floated to handle the Eva property or of Mr. Rosenbergers' methods in handling said flotation we the Directors of the Imperial Development Syndicate, owners of the Eva, emphatically deny any such statements emanated from us either collectively or individually and further wish to state that we have every confidence in the success and bonafides of the Calumet and B. C. Gold Mines, Limited and in Mr. Rosenberger's integrity and honesty. Having been informed also that Mr. Fletcher, Mayor of Nelson, had made certain statements to certain of the Michigan delegation while here, reflecting on the character of Mr. Rosenberger, a committee of our Directors interviewed him today and he emphatically stated that he believes Mr. Rosenberger to be perfectly honorable, upright and honest in his connections with this deal and knows of nothing reflecting in any way on his character or business integrity, and that all statements to the contrary are false and malicious.

Signed:—
E. C. Arthur, M. D.
W. W. Beer, Financial Agent.
J. Laing Stocks, Duncan United Mines Limited.
Harry Bird, Broker and Agent.
Capt. T. J. Duncan.
P. Lamont, Pres. Canada Drug and Book Co.
A. L. McCullough, City Engineer.
A. H. Gracey, Mgr. Imperial Dev. Syndicate.
W. P. Tierney, Railroad Contractar.

Nelson, B. C. Nov. 11 1902. I have been informed that certain reports are in circulation in Michigan as having been made by me derogatory and damaging to the character of Mr. A. F. Rosenberger. I hereby state I believe Mr. Rosenberger perfectly honorable, upright and honest in his connection with the Calumet and British Columbia Gold Mines Limited flotation and I know nothing reflecting in any way against his character or business integrity.

McCULLOUGH CREEK.

Filing of Titles

J. Saunderson Brings in Gold.

The Revelstoke and McCullough Creek placer company have completed and recorded their title to the ground. The documents consist of powers of attorney to N. H. Caesar and Davis Marshall and McNeill acting for parties in England interested in the Ophir, bill of sale from C. B. Hume and W. M. Brown for the Columbia and Last Chance claims in consideration of 25000 fully paid-up shares; bill of sale from J. D. Sibbald of interest in Ophir for $4,583 cash and 33,333 paid-up shares; bill of sale from C. E. Wood of Barnwell, England, in consideration of $22,917 in paid-up shares.

J. Sanderson, who has been working on the Ophir, on McCullough Creek, on behalf of the Revelstoke and McCullough Creek company, came in Tuesday and brought in nearly seven ounces of coarse gold, obtained by himself and another man from 20 feet of ground in two days washing. Mr. Sanderson, who has had 40 years experience in placer mining in B. C. and who was one of the pioneers of Cariboo, says the ground could not look better and he is sanguine of results. He had expected to clean up 12 to 15 ozs. but their tunnel caved in owing to the heavy overlying boulders and want of timbering.

He considers they were working in an old channel and thinks pay ground will be found here for a width of 200 feet.

CITY SCHOOLS.

A Remarkably Complete Building.

On Wednesday afternoon Messrs. Bennett, Floyd, and Dickie, school trustees, paid a visit of inspection to the city schools, being shown over the building by the architect J. B. Henderson. Even the tower was scaled and the little group was full of admiration of the growing city spreading beneath. Trustee Floyd made an effort to get even higher but found he had to wait till his wings develop.

The trustees were well pleased with the completeness of the design and equipment of the building, and the excellence of the workmanship, and congratulated the architect on the result. The four big furnaces for heating the building are in place and being used to dry the plastering. They are so arranged that only two, or the whole battery, can be used according to the temperature. The ventilation is exceptionally well arranged, the foul air being drawn off from each room and collected in a brick chamber, whence it is drawn outside. Should the draft not be sufficient at any time an auxiliary heater is provided in the chamber to create an artificial draft and so supply the building throughout with pure air under all atmospheric conditions.

The sanitary system looks to be a splendid affair.

The basement affords ample accommodation for a noon-hour play room in stormy weather. Recess cloak rooms are provided for the teachers, and cloak rooms for the pupils. Two wide stairways lead to the upper floor, thus providing ample means of exit in case of fire or panic.

The building is well lighted. The second floor is a fine addition to the building 70 feet long by 35 feet wide, with 15 feet ceiling. It may come in well as an assembly room or could be subdivided if required in the future for classrooms or a high school, as it is also thoroughly heated and ventilated.

The trustees, the architect, the contractors, Smith Bros., and the subcontractor, Mr. Wilson, are all to be congratulated on this fine public building with which the city is now provided.

THE NAKUSP MURDER.

Henry Rose to be Executed.

OTTAWA, Nov. 12.—The Cabinet decided that Henry Rose, who murdered John Cole, in Nelson, B. C., by striking him with a club, will be hanged on the 21st instant. The petition for clemency has been refused, and the law will take its course.

The Swedish Government has decided to substitute electric power for steam on its railways. The power will be generated by the magnificent water powers of the country.

WIRELESS TELEGRAPHY

To be Established Across Canada: Stations at Revelstoke and Kamloops.

The government will control wireless telegraphy in the States.

J. N. Greenshields, solicitor for the Marconi Company, says a system of wireless telegraphy is to be established from the Atlantic to the Pacific coast, with stations at all principal points, including Revelstoke and Kamloops. Press messages will be half the C. P. R. rate and commercial messages 60 per cent less.

TROUT LAKE.

Meeting of Townsite Company. Great Improvements in Contemplation.

Last week a meeting of the townsite company was held at Trout Lake City. F. B. Wells and J. Abrahamson attended from Revelstoke, and J. F. Hume from Nelson. The company also held a meeting with the citizens at which matters looking to the improvement of the townsite were discussed, and it was arranged to build considerable length of sidewalk in the spring, and to cut down the brush along the lakeshore so as to allow an uninterrupted view of the lake.

The citizens expressed themselves as well satisfied with the outlook.

C. P. R. officials have stated that, owing to the unexpected development of traffic, it is the company's intention to complete the railway from Gerrard to Trout Lake City as soon as possible.

The big lumbering enterprise promoted by W. Cowan begins to assume tangible form. Tenders are called for 1,500,000 ft. of logs to be supplied this winter.

As showing the big transportation business six or seven warehouses have been, or are being, built on the waterfront. These are owned by the C.P.R., C.B. Hume & Co., Ltd., Masterson and Griffith, Double Eagle and Great Western Companies.

Since T. Taylor, M. P. P., has taken charge of C. B. Hume & Co's. store there has been a big increase of business.

LUMBERING.

1,600,000 Feet of Logs Blocked in the River.

The snowstorm had the effect of bringing the river driver to town on Tuesday. The eddies are frozen over and it was felt that any further attempt to drive the river was useless unless a spell of warm weather sets in. There are 1,600,000 feet of logs in the river below Boyd's ranch and this immense pile of lumber was destined to the Revelstoke Lumber Co. and the Fred. Robinson Lumber Company. The Revelstoke Lumber Company are determined to spare no effort to get the logs down and their drivers will make another attempt to get a fair proportion at least of their drive through.

THE DELINEATOR

The Christmas Number Received—A Great Publication.

We are in receipt of the Christmas number of the Delineator. To do justice to this number, which for beauty and utility touches the highest mark, it would be necessary to print the entire list of contents. The book contains over 230 pages, with 34 full-page illustrations, of which 20 are in two or more colors. The magnitude of this December number, for which 728 tons of paper and six tons of ink have been used, may be understood from the fact that 91 presses running 14 hours a day, have been required to print it; the binding alone of the edition of 915,000 copies representing over 20,000,000 sections which had to be gathered individually by human hands. The Delineator may be obtained from the local agents, Taylor Bros. & George, Limited.

Several hands have arrived from the east to join the staff of the C. P. R. shops.

The Kootenay Mail

FRIDAY, NOVEMBER 14, 1902.

The Camborne mail service requires attention at the hands of the Postal Department. In its present condition it is utterly inadequate to the requirements of the growing Fish Creek camp.

Says the Winnipeg Commercial: "The idea of government railways seems to be gaining ground in Canada. Recently the contract was let for the first government railway in Ontario."

The Fort Steele Prospector endorses the stand taken by the KOOTENAY MAIL in pressing for a reduction of C. P. R. freight rates. Our contemporary remarks: "A governmental commission to regulate rates, with power to enforce its decrees, is a much needed institution in this district."

An urgent requirement of the city is the establishment of the commercial office of the C. P. R. Telegraphs at a point convenient to the business section. The present office is most inconveniently located for business purposes. At Kamloops the telegraph office is in the heart of the business portion of the town, and Revelstoke is entitled to a similar convenience.

Canada continues to advance with wondrous strides. The Dominion finances for four months of the year ending Oct. 31 show a net improvement over same period last year of over $4,000,000, taking ordinary and capital expenditure. For the four months the balance of revenue over ordinary expenditure is $9,500,000, or taking capital outlay into account $6,500,000.

Sir William Mulock, Postmaster-General, is to be congratulated on the success of his administration which has resulted in the deficit of $800,000 a year in the postal department being wiped out and a surplus in its stead; and this in view of the fact that the letter rate was reduced from three cents to one cent and the all British rate from five to two cents.

RAILWAY FREIGHT RATES.

Geographically Revelstoke is to the C. P. R. what Spokane is to the Great Northern. Spokane is the great entrepot of Western Washington, Idaho and South Kootenay. The Great Northern has made it so because the geographical position demanded it, and Spokane is, on account of the new freight schedule accorded that city, in a position to undersell Seattle and Portland. Now if the C. P. R. would place Revelstoke where the Great Northern places Spokane, the company could make this the greatest inland commercial city in the Province. The geographical position of Revelstoke demands it, and until this is done the city labors under a gross injustice at the hands of the railway company. Why should Revelstoke have to pay a freight rate two and a half times greater than that in force to Vancouver? This rate does not affect the merchant or trader alone. It affects everyone dependent on the city for supplies as these excessive rates are charged on the goods and the consumer has to pay them.

STICK TO YOUR TOWN.

We regret to see union men in this city patronizing an establishment like the T. Eaton department store in Toronto, which is fighting unionism and trying to cut down the wages of its printers to $10 a week. Union men should be considerate. They know that in time of trouble the local merchants have stood loyally by them, and are entitled to fair coonsideration when all is going smoothly. But it is not alone to union men we speak. There are others who send their cash out of the city for goods they can get just as well in their own town. Often these goods don't suit and have to be returned. This costs money. When such expenses, freight and delay are compared with prompt service and personal selection of goods in the home town, there are few but will find it pays them better to buy at home and to stick to their own town.

HIGH TARIFF FALLACY.

Some people, in the hope of benefitting the silver-lead industry, advocate a rise in the tariff to shut out foreign lead. If Canada could consume all the lead produced in British Columbia that would be all right, but the fact is the total lead consumption of Canada is only a fifth of the production of the province. What is to become of the other four-fifths for which there is no possible home market? Is it not a more rational policy to take the tariff off machinery, tools, and supplies used in mining to reduce the cost, so that Canada can compete in the world's market for the sale of its surplus. Won't this place the silver-lead industry on a more permanent basis than by merely attempting to monopolise an insufficient home market.

AN INSULTING SUGGESTION.

The Rossland Miner insults the mining industry by holding it up as a pauper which must depend on state charity. Our contemporary has the audacity to remark:

"The mining industry can no more afford to pay a tax upon its product than it is able to pay boom-time prices for labor and supplies."

It is an insult to the intelligence of the community among whom the Miner circulates that such a charge should be made against the mining industry, and we are satisfied that no mine manager or mine investor of spirit would endorse such a miserable sentiment. The mining industry must and can bear its share of the taxation of the country, and only the meanest intelligence in the community would suggest otherwise.

The fight which the C. P. R. enginemen put up against the income tax was backed by good argument. They pointed out that the extra salary they earned was by arduous overtime, that they were under great disabilities owing to the heavy insurance and lodge expenses they had to carry, and that the proposed manner of levying the tax was unfair and contrary to the intention of the legislature. Mr. Clouston, of North Bend, ably represented the engine men, while C. Wilson K. C., fought the legal aspect of the cause without cost to the men, who feel under a great debt of gratitude to him and to Mr. Clouston.

The Ledge gives several instances of how a protective tariff injures the home consumer by stating McCormick binders selling at $125 in the States are sold in Sweden for $62. American nails, selling at $4, are sold for $2.75 in Sweden. In Canada with even the present moderate tariff, Canadian saws are sold a good deal cheaper in the States than here, while Massey-Harris binders, costing $150 in Canada, are shipped 16,000 miles to Australia and sold there for $138 after paying freight.

There is a desire evinced among the citizens that now the city scales have been installed the council should make compulsory the weighing of such commodities as coal, thus assuring to the consumer his full measure and satisfying the coal dealer that he has given full value. The scale fee was fixed at the city council meeting on Friday and arrangements made for a checker and having the scales looked after.

It does not look much as if the tariff is too low. American wall paper manufacturers propose to transfer their industry to Canada.

POLITICS.

Persistent rumors are circulated that Premier Dunsmuir will resign and be succeeded by Hon. D. M. Eberts, who, it is said will make a purely conservative cabinet as follows: Premier and attorney-general, D. M. Eberts; finance minister, R. G. Tatlow; commissioner of lands and works, R. F. Green; provincial secretary, A. E. McPhillips; minister of mines, R. McBride; president of the council, C. Clifford.

Hon. Jas. Sutherland, Minister of Marine and Fisheries, has been appointed Minister of Public Works in succession to J. I. Tarte. British Columbia and the west can depend on their interests receiving close attention at the hands of Mr. Sutherland.

It is stated Hon. D. M. Eberts proposes to repeal the re-distribution act of last session and reduce the Kootenay representation.

At a meeting of the Provincial Progressive party at Vancouver Hon. T. R. McInnes was elected president and Chris Foley vice-president.

Hon. R. Prefontaine M. P. of Montreal, has been appointed Minister of Marine and Fisheries.

Sir Richard Cartwright has been created an imperial privy councillor

AFTER 3 YEARS.

Mr. Joseph Rochette Released From Rheumatism,

Suffered Much Agony, His Appetite Failed, and his Strength Left him Hope for Similar Sufferers.

Only those who have suffered from the pangs of rheumatism know how much agony the sufferer has at times to endure. The symptoms often vary, but among them will be found acute pains in the muscles and joints, the latter sometimes much swollen. At times the patient is unable to dress himself, and the slightest jarring sound aggravates the pain. Liniments and outward applications cannot possibly cure rheumatism; it must be treated through the blood, and for this purpose there is no medicine yet discovered can equal Dr. Williams' Pink Pills. When given a fair trial these pills never fail to cure even the most stubborn cases of rheumatism. Mr. Joseph Rochette, a well known resident of St. Jerome, Que., in an interview with a reporter of L'Avenir du Nord, offers strong proof of the value of Dr. Williams' Pink Pills in cases of this kind. Mr. Rochette says:—"For nearly three years I was a great sufferer from rheumatism. The pains seemed at times to affect every joint, and the agony I endured was terrible. Sometimes I could scarcely move about, and was unfitted for work. The trouble affected my appetite, and in this way my weakness increased and my condition became more deplorable. I tried a number of remedies, but nothing helped me until I was advised to take Dr. Williams' Pink Pills, and then relief came. Gradually the pains left me, my appetite improved and I became greatly strengthened. Before I had taken a dozen boxes my health and vigor was such that I felt better than I did before the trouble began. I have not since had an ache or pain, and I feel convinced that Dr. Williams' Pink Pills are the best medicine in the world for rheumatism."

Dr. Williams' Pink Pills are sold in every civilized land, and their enormous sale is due entirely to their great merit as a medicine. They cure all such troubles as rheumatism, sciatica locomotor ataxia, partial paralysis, nervous headache, kidney ailments, neuralgia, and the weaknesses that afflict so many women. Do not let any dealer persuade you to try something else which he may say is "just as good." See that the full name "Dr. Williams' Pink Pills for Pale People" is on the wrapper around every box. If in doubt, send direct to The Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be mailed post paid at 50c. per box, or six boxes for $2.50.

COMMERCIAL.

Pacific cable rates are fixed at 56 cents a work.

FINANCIAL.

The Canneries Combine has declared a dividend of 7 per cent.

Canadian customs revenue for October was half a million more than for same month of previous year.

The Dominion Permanent Building and Loan Association for which Lewis Bros. are local agents, recently purchased the business of the old Provincial and Loan Association. The representatives of the Dominion recently visited Revelstoke to examine Company's risks and investments and give Revelstoke the credit of saying that they have had fewer losses here than in any city in the west.

BANKING.

The Union Bank at Arcola was burned but valuable papers saved.

The Bank of Commerce will erect a handsome brick building at Nelson.

J. C. Telford of Hamilton, Ont. has been appointed manager of the Bank of Hamilton at Kamloops.

A. W. Strickland, accountant of the Bank of Montreal at Greenwood, will be transferred to Rossland in a similar capacity.

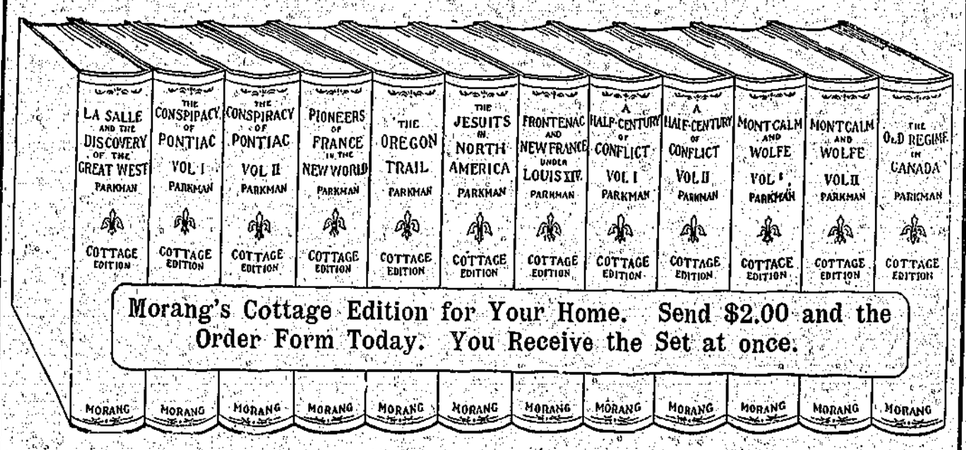
The New Parkman

The expensive editions of Parkman's works have disappeared. It is some time since we sold out the last sets of the Frontenac edition.

The great demand for Parkman still continues. Canadian readers must have Parkman. Every Canadian home wants Parkman.

In response to this demand, we now announce the new COTTAGE EDITION, printed from beautiful, clear type, on good paper, strongly and handsomely bound in cloth.

The new Cottage Edition contains the complete text, as finally revised by the great historian. All the last additions and notes are included. It also contains the entire series of maps and 30 historical engravings.



Morang's Cottage Edition for Your Home. Send $2.00 and the Order Form Today. You Receive the Set at once.

CANADA'S HISTORIAN

The works of Francis Parkman are the only books of Canadian history that have become classic. Parkman is the only historian of Canada who ranks with the world's greatest historical writers.

Parkman's books are not dull, dreary records of mere facts and dates. They are full of life and romance and color. They tell the story of the Canadian past truthfully, vividly and completely.

The pioneer statesmen, soldiers, missionaries, mingling with red savages in the wilderness, are living characters in Parkman's pages.

The mighty drama of the colonization of Canada, and the fifty year's struggle between France and England for possession, is Parkman's wonderful theme.

MORANG'S Cottage Edition

This new and beautiful edition of the great historian's work is complete in 12 volumes, averaging about 450 pages each, size of cover, 5½x8 inches.

It contains 30 rare historical engravings and 21 fine engraved maps.

It is printed from large, clear type on paper of good quality.

The price for the complete set is $20.00.

To get the set send us $2.00 with attached order form, signed and filled out.

The books will go to your address immediately, and you will afterwards remit to us $2.00 monthly until paid for.

FIELD.

The Theft From The C. P. R. Hotel.

4000 Men To Be Employed.

The theft of some $350 was in cash from the safe of the C. P. R. Hotel. The combination of the safe was not properly closed, and the thief had thus an easy job. Suspicion fell on a Chinaman, on whom devolved the duty of sweeping out the office in the morning, but it was a difficult matter to work up any evidence. It was however thought he had sent the plunder to a friend in Vancouver and a search warrant was applied for, and a Chinese laundry visited by the police. No trace of the missing money could be found.

It is now practically decided that the C. P. R. will make a start in the spring with the new piece of road at Field to do away with the "big hill." The new piece of road will be run as a loop up the north fork of the Kicking-horse. Much of the work will consist of cutting through solid rock and will take a large force of men. The new route will give a 2½ per cent grade between Field and Hector. It is stated the C. P. R. will bring in 4000 men from the east for the work so that Field should be one of the most busy places on the road while the work lasts.

SALMON ARM.

Mr. Blake sold his ranch to a Chinese.

Kirkpatrick Bros. have purchased Mr. Coughlan's ranch.

Mrs. Burritt, of Roger's Pass, has been stopping over at the Arm prior to leaving for Vancouver.

The Presbyterian manse is nearing completion. In about two weeks Rev. Mr. Gold and family expect to take possession.

John Armstrong has left ranching life and gone to be an apprentice in the C. P. R. machineshop at Revelstoke.—Province correspondent.

Jos. Harbell's house is progressing satisfactorily. The lathing is soon to commence. When finished it will make a valuable addition to the valley.

Logging camps are beginning to attack the forests once again. One has gone in at Mill Siding under Mr. Ruttan; Peacock is again to the front at Blind Bay; Norman McLeod has an army of men east of Sicamous.

Local sportsmen, three deep, are promenading the lake shores. Ducks, geese, snipe, all find safe hiding places. It is a great pity that settlers and hunters should so forget themselves and the law as to shoot grouse wholesale and ship them for profit.

FIRE VALLEY.

(From Our Own Correspondent.)

Deer are very scarce this fall and prices firm in consequence.

Funk Bros. have had the misfortune to loose a valuable horse.

The new Minister, Mr. Campbell, is expected in, and will hold service at the post-office.

Mrs. G. Old is at present at the Hospital at Revelstoke, and we understand has had a successful operation performed.

Mr. Upper, Chief License Inspector and friends, were here last week on official business and a little shooting as a side issue. Result, bunch grouse.

The Thunder Hill camp people who have been anxiously waiting the arrival of row-boat from Nakusp with powder, had their hopes realized on Tuesday.

NAKUSP.

From our own Correspondent.

P. McCallum has the machinery all on the dredge and boiler set.

Mr. and Mrs. G. T. Moir returned Wednesday from their trip east.

Our first snowstorm came on Thursday. It fell about 6 in. and was very cold on Saturday.

A family has moved in here from the Territory in connection with working the sawmill.

M. McCarthy who has been relieving Mr. Moir as C. P. R. agent, while he was east, leaves today.

J. Dougal returned from Field where he has been working on the C. P. R. telegraph gang for this last month.

The Yale-Columbia Lumber Co. is just finishing 10 sleighs to be used in their logging camp down the lake.

Three of our sportsmen went out last week to see if they could bag a deer or cariboo, but returned as they went with out seeing any, and looked rather blue.

TESTING THE HEARING.

"The Journal for the Deaf," contains in the July number a description of the proper way to test the hearing, written in such clear language as to be of the utmost value to those who suspect that their hearing power is dimishing. There are also a series of plain talks on the prevention of ear diseases, the care of the ears, and a description of the new treatment for deafness, the Drouet Method, which is gaining a great reputation for restoring the hearing in cases where other forms of treatment have failed. A free copy of "The Journal" may be obtained by addressing the Secretary, Drouet Institute, Regent's Park-road, London, England. A special feature of the "Journal" is the enclosure of Patient's Report Form, by means of which anyone can obtain full particulars and free advice as to the use of the treatment in their own case.

THE MINES.

The Frank mines are ready to ship coal.

The Triune aerial tram is now completed.

The Stemwinder will resume in December.

The Black Warrior has temporarily shut down.

A new graphite mine is being worked on Rideau Canal.

The Giant has struck ore on the low-level crosscut.

Boundary shipments will this year exceed those of the past two years.

War Eagle and Centre Star have increased their shipments to 600 tons a day.

A strike of eighteen inches solid ore was encountered on the Blue Bird group.

An ore chute 12 feet wide has been struck on the Copper King at Mt. Sicker.

The B. C. mineral exhibit of the Glasgow exposition is to remain in Britain.

The mineral output of British Columbia this year will be $3,000,000 over last year.

The Pilot Bay smelter will probably be utilized for the concentration of zinc ores.

The Trail smelter is again reported sold to the Gooderham-Blackstock syndicate.

Republic mine is selling $100,000 of bonds with a view to resuming operations.

The Giant, on Woodberry Creek, has been bonded to Sweny and Stevenson, of Kaslo.

The Spokane Smelting & Refining company is to become a purchaser of Kootenay ores.

S. S. Fowler, superintendent of the London and B. C., is an advocate of higher tariff on lead.

The Crows Nest Coal Co. will reorganize and issue $2,000,000 of bonds to develop the mines.

With their new ovens the Crow's Nest Coal Co. will be able to turn out 650 tons of coke a day.

The Velvet is shipping ore averaging $20, and a rich streak running 5 ozs. gold has been met with.

R. W. Hannington is now in charge of the Northwestern Development Company's office at Nelson.

Work has been suspended at Michel the trouble arising over the discharge of Evans, president of the union.

Jim Wardner has successfully floated at St. Paul, the Thunder Hill property at the head of Fire Valley.

H. N. Coursier has been appointed broker for Revelstoke for the Calumet Company which will operate the Eva.

D. J. Kennedy, foreman for the N. W. Development Syndicate at Goldfields has left the service of the company.

The Ymir Gold Mines will be reconstructed to provide more capital for development by an assessment of 3s. per share.

D. G. Forbes, superintendent of the Great Western, has applied for 300 feet square of the foreshore of Trout Lake for erection of ore sheds.

A strike showing 100 ozs. silver and 20 per cent. zinc was made in the lower tunnel of the Molly Gibson at a vertical depth of 600 feet.

Eastern advices state the flotation of the Calumet Company, for the operation of the Eva at Camborne, is meeting with great success.

Trail smelter deducted 10 per cent from the silver values of the Capella at New Denver—the heaviest silver deduction in B. C. smelting.

It is expected Raymond Allen will have the water from the Camp creek ditch turned on this week to wash up on the old channel, which looks so promising.

The following claims have been located on Keystone Mountain: Black Bear by W. Haley, Crown and War Eagle by P. R. Peterson, Silver King by J. Soards.

A recent arrival from the Bend informs us that Gus Lund's claim in Ground Hog Basin is looking exceptionally well as the result of recent development work.

The Northwestern Development are making great improvements at Goldfields, and among others are building a new and commodious bunkhouse for the company's employes.

The Kootenian says: "John Carton brought samples of ore from the Great Britain property which gave assays: Mountain View, 32 oz. gold, 141 oz. silver, 7.5 per cent copper.

Old Cariboo is again coming to the front. On the Point Company's claim on Lightning Creek $3000 was taken out in six days. Some of the old channel wash ran an ounce of gold to the bucket.

Dan Mann is accompanying Pittsburg parties to British Columbia who are going to test a few low grade properties with a new smelting process. If successful Mr. Mann will put in a smelting plant to treat ores of North Star mine.

Manager McKenzie says of the Le Roi: "There is far more high grade ore in the mine than was at first estimated. The main stopes are left untouched at present. There is more than one vein in the Le Roi and the main vein is as good as ever it was, it is untouched, but will be shipped later on."

At the annual meeting of the Hall Mines Co. it was reported that development work had failed to locate further ore bodies, and experts advised the limit of the ore bodies had been reached. The mine was then leased to M. Davys who had $40,000 of ore in sight. The smelter paid a profit of $25,000 for the year.

INDUSTRIAL NOTES.

Winnipeg parties are negotiating for the Genelle sawmill at Nakusp.

G. O. Buchanan will move his mill plant from Duncan city to Creston.

J. McMohan brought in his driving gang from the Big Bend on Tuesday.

R. Samson intends putting a force of men on to cut firewood next week.

H. Nash, hardware merchant of Sandon, is introducing an acetylene gas lighting system of his own device.

W. Fleming intends going thoroughly into the wood business and has bought a sawing plant at Vernon.

Pine has gone up to $20 a thousand in Ontario, hemlock from $16 to $17 and other timbers show 15 per cent advance.

Having purchased the timber at Ramsay's Ranch the Fred Robinson Lumber Co., have put in a winter camp there.

The Slocan Ontario Lumber Co. has been granted a bonus of $6000 by Slocan city. 100 men will be employed in this industry.

Sawyer Bros' sash and door factory is terribly rushed with orders, the resources of the factory being taxed to the utmost capacity.

The tailoring industry is exceptionally brisk in the city at present. J. B. Cressman is employing 11 hands and R. S. Wilson's staff is fully employed.

Sawyer Bros. have completed the installation of their electric light plant at Ferguson with the exception of the wiring, which will be shortly fixed and the plant put in operation.

S. McMahon's blacksmith shop and carriage factory is full of orders. Sleighs with covers are being turned out for Bourne Bros., Taylor Bros. & George Limited and Revelstoke Wine and Spirit Company.

Rowland Brittain reports during this week 551 patents were issued, Canada getting six. R. H. Casswell and W. E. Burns received this week their U. S. patent on the improved milk strainer, reference to which was previously made.

The Revelstoke Lumber Co. are making improvements to their mill. They have enlarged the building to give more working room, and have arranged to add moulding machinery, which will be in operation in spring. The mill is also being lighted by electricity. A big log drive is now being brought down the river.

MISERABLE NIGHTS.

What to Do When Baby Is Fretful and Sleepless.

It is wrong to take up a wakeful baby from the cradle and walk it up and down the floor all night. It demoralizes the infant and enslaves the parents. Baby does not cry for the fun of the thing; it cries because it is not well—generally because its stomach is sour, its little bowels congested, its skin hot and feverish. Relieve it and it will sleep all night, every night growing stronger in proportion. Just what mothers need is told in a letter from Mrs. E. J. Flanders, Marbleton, Que., who says:—"I cannot say too much in favor of Baby's Own Tablets. They have worked like a charm with my baby, who was very restless at night, but Baby's Own Tablets soon brought quiet sleep and rest. I shall never be without a box while I have a baby." Baby's Own Tablets cure all minor ailments of little ones, and are guaranteed to contain no opiate or harmful drug. They are sold at 25 cents a box by all dealers, or you can get them by mail, post paid, by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

There has been a fuel famine in the city this week. Owing to the busy season, and the sudden advent of winter no wood had been got ready, and though there are about a dozen firewood dealers at work Sam Croft has been the only one who could attempt to fill an order. With five coal merchants in the city it has also been impossible to get coal. The anthracite region was not in it with Revelstoke although this city has a dozen coal mines within a radius of 300 miles.

NEW BUILDINGS.

CITY COUNCIL.

Monthly meeting held Friday. Present: The Mayor, Ald. Law, Manning, McLeod, Hume, Taylor, and G. S. McCarter, city solicitor.

CORRESPONDENCE.

C. M. Field asking why supplies for No. 1 Brigade had not been provided, why J. Shaw was required to resign and T. Bain was not?

It was stated requirements were under order. Regarding Mr. Shaw's position, the Mayor said Mr. Shaw had to act as policeman and the police commissioners considered he had all he could do to attend to that. Mr. Bain did not belong to No. 2 brigade but was ex officio chief of both brigades.

T. B. Baker, offering on behalf of St. Peter's church to purchase wing of school building.—Referred to Works Committee.

R. Tapping, drawing attention to dead fall on Boyle Avenue and condition of end of sidewalk.—Ald. Hume considered that sidewalk should have been extended right through.—Referred to Works Committee.

R. Gordon asked 40 cords wood for powerhouse.—Tenders to be called.

Messrs. Dunne, Willis and Paget, asking light be placed on Boyle Avenue.—Six lights to be put in on McKenzie Avenue between Railway and Second Street and also at point referred to in above letter.—Ald. McLeod urged that lights be placed on Third Street.

GRAVEL PIT.

The Works Committee was instructed to attend to making gravel pit by court house safe against accident.

TAX BYLAW.

The tax bylaw passed at last meeting was re-considered, and it was resolved to amend the schedule as follows; Insurance agents $5 per half-year, companies not to be taxed separately, telephone company $10 per half-year, fur dealers $50.

GENERAL.

Ald. Taylor asked free light and water for drill hall.—Granted.

Ald. McLeod also asked free light and water for hospital.—Granted.

It was decided to fix water-trough at Fleming's and to put roof over the city scales.

The question of charges for use of city scale was discussed. The rate was fixed at 25 cents. Ald. Taylor thought this rate too high but Ald. Manning said that was the rate in the east. A. Grant was appointed weight clerk.

It was decided to call tenders for clearing sidewalks.

RAIL AND STEAMER

Inspector Muller expects to have the snowsheds completed this week.

Jim Graham has been appointed night car checker at the C.P.R. depot.

Great Northern telegraphers may strike as their wage schedule has been refused.

John Anderson has been acting roadmaster during W. S. Newman's holiday.

Len Solloway is moving to the Coast and will run between Vancouver and North Bend.

A. C. Bird, third vice-president of the St. Paul road, contends their freight rates are too low.

H. McSorley, who had laid off for about ten days owing to illness, resumed his run on Monday.

10,000 tons coal stored in the Grand Trunk yards at Niagara Falls took fire and has been burning two weeks.

G. Buchanan sues the C. P. R. for timber taken from his limits for construction of the A. and K. railway.

Engineman J. Purvis left on Sunday for Vancouver to join the all-Canadian football team which is to proceed to England to uphold the honor of the Maple Leaf.

Here is a chance for the B. C. judges to send Jim Hill and the Great Northern railway where they sent Editor McAdams for contempt of court. On Sunday the railway company defied the Supreme Court injunction and completed its link into Grand Forks.

The C. P. R. audit clerk Johnson, who was charged at Montreal with advising conductors as to dates of spotters' visits, was found guilty of conspiracy, with a recommendation to mercy. The evidence is stated to have implicated several conductors.

The C. P. R. have more law-suits on hand over the men they brought from the east to work on the snowsheds during the strike last year and Messrs. Foster, Winsor, Miller and Fraser have again gone to Montreal to give evidence.

Negotiations with Grant Hall, master mechanic, and a committee of Pacific division carmen are off. As a result, trouble is threatened at any time, not only on the Pacific division, but may be followed by the western and eastern divisions of the C. P. R., the latter of which has just been organized, and is expected to come to the rescue of their western brethren.

Corporation of the City of Revelstoke

NOTICE.

THE ATTENTION OF OWNERS OF PROPERTIES in the city on which taxes are in arrears is directed to Section 50, Sub-Section 155, of the Municipal Clauses Act, which provides that where taxes are in arrears for two years a sale may be held for the collection of the same, and at such sale all taxes then due on the property may be included.

As the collection of these outstanding taxes is necessary to meet the ordinary expenditure of the city, the Council may be compelled to put in operation the power conferred by the above enactment.

GRAZING REGULATIONS

For Manitoba, the Northwest Territories and the Railway Belt in British Columbia.

Leases for grazing purposes are issued for a term of twenty-one years, and the rental is at the rate of two cents an acre per annum, payable half-yearly in advance.

Lands included in a grazing lease may be withdrawn for homestead entry, sale or railway purposes, unless rental is charged on such lands from the date upon which they are withdrawn from the lease.

A lessee of grazing lands is not entitled to the hay thereon, but he may, upon application to the agent of Dominion Lands, obtain each year the first permit to cut on his leasehold whatever quantity of hay he may require for his own use, free of dues, the department reserving the right to issue permits to other applicants.

Applications for grazing leases should be made to the Secretary, Department of the Interior, Ottawa.
