The Kootenay Mail.

Vol. 8.—No. 32. REVELSTOKE, B. C., NOVEMBER, 15, 1901. $2.00 Per Year.

Union made goods are our specialty.
New and fair price is our system,
Into our store then pop and see
Overalls, jumpers, **ALMOST FREE**
Never forget if you missed 'em.

Many a man from a freight caboose,
And after the dust from the engine,
Desires a good suit or a fine pair of shoes,
Even hundreds of things we can't mention.

Goods that are **UNION MADE** have we,
Often we've seen you speeding
Out of the railroad yards to come
Down to our store to purchase some
Stamped with the Union reading.

TAYLOR AND GEORGE

always carry the best stock of

Ladies' Dress Goods, Men's Furnishings,
Boots and Shoes, House Furnishings

Warmth Means Health.

It's time now for you to be looking out for winter's warm things. These cool days of fall will be bad for health.

Comfort Counts.

It is wise to provide comfortable things for cold weather, and the prudent women will have these ready. You will find in this store warm goods for warm clothes. Fur garments and all the novelties which will add to the beauty and protect the health through the rigors of winter.

Ladies' Electric Seal Caperine with high storm collar and long fronts lined with heavy satin $12

Caperine of Electric Seal Alaska Sable trimmings with high storm collar, satin lining, special $15

Scarf of Electric Seal shaped with eight tails, special $9

Child's White Lamb Skin Collar and Muff with Gauntlet Mitts, special $3.75

Stocking Time.

We have abundance of quality here and a variety of prices which will enable any woman to buy just what she wants in the way of hosiery.

Ladies' Black Cashmere Hose full fashioned, warranted fast black, regular price 35c. our price 25c

Keep Warm.

Now its time for Blankets and we are ready for the cold. If you are not ready now its time you were getting ready. Here we have fine comfort-giving Blankets, long enough to tuck under your feet without exposing your shoulders. You get these Blankets at such reasonable prices, just at the beginning of a season when Blankets will play a big part in the "Comforts of a Home."

White Blankets, assorted borders, full double bed size, on sale at .....
$3 50, $4, and $4 50 a pair

Sole Agents for P. D. Corsets.

REID & YOUNG,

Mail Orders Receive Prompt Attention.

LABOR'S CALL.

In a row between strikers and scabs at Northport, a man was killed in the shooting.

The Miner says that many railway workmen are coming in from the Lardeau and leaving for the east.

T. J. Graham has been offered the appointment of organiser of the B. of R. T. U. and will probably accept.

The C. P. R. have a notice in their Winnipeg shops that any man leaving the service cannot be again taken on.

The cigar-makers International Union has a credit in hand of $1,004,030, the membership is 33,955, and 91,543,000 union labels were issued in four years.

At the Crow's Nest coal mines wages paid carpenters are from $3 00 to $3 50 per day, mechanics, $2.75 to $4.00, miners on contract from $3.00 to $5.00 per day of eight hours.

Premier Dunsmuir has intimated to the men working in his mines that he will be glad to see them form a union covering all his properties and will be ready at all times to discuss with the representatives of the union any grievances they may have.

The Miner's Union and the Trades and Labor Council are petitioning the Dominion Government for amendment of the alien labor law so as to secure its effective enforcement by the Dominion Government. Mr. King, deputy minister of labor, is now in Rossland investigating the position.

A writer in the Voice charges the C. P. R. with a breach of agreement in regard to the late trackmen's strike, in that they have refused to reinstate a trackman at Clearwater. The writer also says that no satisfaction can be obtained from J. Lennon, Vice-president of the union, and insinuates that Mr. Lennon considers the interests of the company rather than that of the trackmen whom he represents.

BUSINESS NOTES.

R. Tapping has been appointed agent for the Pelham Nursery Co.

Angus McDonald has opened a store at the Dawson townsite on Tenderfoot Creek.

J. Guy Barber has imported a beautiful assortment of ladies' furs in anticipation of the coming hospital ball.

H. W. Edwards, taxidermist, is moving to the portion of F. B. Wells's building near the railway station lately occupied by the customs office.

The Revelstoke Collection Agency has been started in the city with B. R. Campbell as manager. This institution will meet a business requirement and Mr. Campbell's well-known reliability will be a guarantee to those placing accounts in his hands for collection that their interests will receive the best of attention.

CAMBORNE

A Coming Town.

Cory Menhinick is one of the pioneers of Fish Creek, and while some of his friends describe him as a "lucky beggar" we are rather inclined to think his success is due to his shrewdness, for whether it is a townsite or a mineral claim, the good judgment of his selection is everywhere apparent. A Cornishman to the backbone, Mr. Menhinick has perpetuated in this new land several of the names so familiar to cousin Jack, whether in the field of story or the mine.

Camborne, with its great school of mines, is one of the features of old Cornwall, and Mr. Menhinick, regarding the plot of land now known as Camborne as possessing the advantages which go to make a successful townsite in a mining camp, secured it for that purpose. By the preparation of maps and plans showing the townsite, and its relation to the mineral discoveries on Fish river, Mr. Menhinick did much to bring the district into prominence, and no one of ordinary observation could visit Camborne without being most favorably impressed by its surroundings, and with a knowledge that here is the Key to the Fish Creek mineral district.

Situated on a level piece of land, at the junction of Fish river and Pool creeks, Camborne forms a convenient point for branching off to the different camps, and already the trails to the Gold finds and adjoining properties now known as the Camborne Group, on the right bank of Fish river, to the Eva, on the left bank, to the Imperial and Oyster groups between Fish river and Pool creeks, to the Wide West properties up Pool creek, and to the Beatrice all have a common centre at Camborne, making it a convenient supply point for the leading camps in the district.

The past season has seen considerable activity at Camborne where several new buildings have gone up, and new businesses have been started. The hotel accommodation is fairly good. The original hotel, known as the Pendragon, a well-known Cornish title, is owned by Mr. Menhinick, and is run by the lessee, M. Buchanan. This hotel has stabling accommodation attached.

The other hotel is the Eva, built and owned by J. A. Gray, who is getting it into shape to afford first-class accommodation for next season's business. This hotel contains eight single bedrooms and a dormitory with sleeping accommodation for twenty men. Mr. Gray is also agent for the Revelstoke, Trout Lake and Big Bend Telephone Company who connected their system with Camborne during the past season, and the local telephone office has been found a great convenience for the many mining men who have visited Camborne. Mr. Gray has placed an order with the Fred Robinson Lumber Company for 5000 feet of timber with which to complete his hotel.

The Fred Robinson Lumber Company have under consideration the establishment of a mill at the townsite.

A. A. Clark, well known in Revelstoke, where he was formerly in charge of the hardware department of Bourne Bros. establishment, has a well-stocked general store.

Another general store, well equipped in every respect, is conducted by Messrs. Drew and Murray, under the title of Drew & Co. In addition to the store proper they have a commodious warehouse.

Messrs. Brantford & Hill have good livery stables and can supply saddle or pack horses. Their pack trains have had a very busy season taking in supplies to the mining camps.

Among the leading properties operating near Camborne are the Camborne group, the Oyster group, the Imperial and Eva groups, the Wide West, in charge of J. A. Darragh, the Eclipse, in charge of H. Douglas, of Detroit, and the Beatrice. The latter property expects to ship $100 ore. On each of these properties considerable development work has been done with most encouraging prospects. H. O. McClymont, of Rossland, is also interested in a property near Camborne on which a good strike has been made.

A barber's shop has been started by J. Hill.

Camborne is about 1800 feet above sea level and is connected by wagon roads both with Comaplix and Thomson's Landing.

Mrs. Drew is a successful poultry breeder, having very complete poultry houses and yards, with a stock of about 80 fowls.

The soil at Camborne is rich, and capable of growing anything. In Messrs. Drew & Co.'s garden we saw a crop of vegetables that would be a credit to any garden.

Camborne has been surveyed into lots by Mr. Devereau, P. L. S., of Comaplix, and the title has been obtained, so that purchasers of lots will have no difficulty in procuring their titles. H. S. Wallace, of Rossland, recently bought the controlling interest in the townsite, and is pushing its interests ahead most vigorously. He has appointed agents at Camborne, Rossland, Revelstoke, and other points, Mr. J. D. Sibbald being agent for Revelstoke.

Among the lions of Camborne are its big cedars and with pardonable pride the residents take visitors to see these monsters of the forest. One tree which we saw measured had a girth of 30½ feet. Another sight is one cedar tree driven clean through the trunk of another by a snowslide—a most remarkable occurrence and one that could hardly be credited without being seen.

CURLING CLUB.

Annual Meeting---Election of Officers.

The annual meeting of the Revelstoke Curling Club was held last evening at the Revelstoke Hotel, President H. A. Brown in the chair, and A. J. McDonnell acting secretary. The financial statement for the past year showed the club to have a balance of $30 assets over liabilities. The officers elected for the ensuing year were as follows:

Hon. Pres.—T. Kilpatrick, Esq.
President—G. S. McCarter.
Vice Pres.—Dr. Carruthers.
Secy.-Treas.—A. E. Phipps.
Executive Committee—A. J. McDonnell, A. McRae, A. M. Pinkham, C. B. Hume, D. M. Rae.

The fixing of membership fees and all other arrangements were left in the hands of the executive committee.

A committee was appointed to ascertain from the Rink Co. on what terms ice could be had for the coming season.

Mr. Brown asked what the club would charge ladies for the privilege of curling, a number of the ladies having signified their intention of forming a ladies club. The matter was referred to the executive.

The prospects for a good strong club in Revelstoke this winter are exceedingly bright, a number of new members having already been secured.

A vote of thanks to the retiring president was passed, after which the meeting adjourned.

Sons of England.

The Sons of England had a successful gathering on Tuesday night on the occasion of the visit of Rev. Fiennes Clinton, Supreme Grand Supervisor of the district. Chief Watson presided and after refreshments a good programme was presented, including songs by Bros. Carruthers, Baker, Grogan, Edwards, Shaw, Parsons, Skinner, recitations by Bros. Watson and Stevenson, and instrumental selections by Bros. Savage and R. M. Smythe. The toasts were the Grand Lodge coupled with the name of the visitor, the Ladies coupled with the name of Bro. Shaw, Absent Brethren, Lodge Royalty coupled with the name of Chief Watson.

Carpet Bargains—Good desirable carpetings, full rolls, fresh and clean at R. Howson and Co's. Call and see them before purchasing elsewhere.*

CORRESPONDENCE

Redistribution.

To The Editor:

Sir,—When the Tribune descended to personalities in replying to my criticism of its so-called redistribution measure, it indicated that the arrow had pierced its armour and gone to a vital spot, rattling its editor, and placing the Tribune at its wits end to defend its ungainly foundling, thus turning honorable argument into a personal squabble.

The Tribune's unkind and sarcastic references to "Pot Holes," its reflections on North Kootenay as a wilderness of dead stakes and square miles, comes with a very bad grace from the representative of Nelson riding. That great pap-fed constituency has probably more dead stakes and abandoned pot holes to the square mile than any other mining camp in Kootenay.

Nelson riding mining camp is a graveyard of baffled aspirations, baulked ambition, ruined prospects, blighted hopes and wasted treasure, grid-ironed with a plethora of railway lines, wagon roads and trails that afford cheap and competitive transportation, enjoying the advantages of a smelting reduction works within its boundaries, with the investment of millions of capital in its numerous ledges, combined with years of hardship and toil by thousand of miners and prospectors, how many self-sustaining, productive, and dividend-paying mines, has it got to its credit? and per contrast, how many abandoned shafts, deserted drifts, gopher cross-cuts and yawning pot holes adorn its mountain slopes?

Like the stars of the heavens they are beyond computation. What great record has Nelson riding made as a field for lucrative investment in mining properties that its representative should feel warranted in casting slurs on North Kootenay?

The Tribune is most unfair and tyrannical in its discussion of a redistribution measure. It cannot tolerate other people's opinions or brook any interference to the carrying out of its pet hobby—the appointment of 12 representatives for the section within its sphere of influence, so as to be in a position to control the destinies of British Columbia. Its allegation that under the Joe Martin agreement only one member was to be allotted to Kootenay, and that given to Revelstoke riding, is wide of the mark. Slocan was to have additional representation, as well as Revelstoke and Boundary. One member was to be taken from Lillooet-Cariboo and two from Vancouver Island, which at that time was a tolerably fair apportionment.

The Tribune has no justification for stating that my idea of fairness is to give 13,000 people eight representatives, while 41,000 should only be allotted the same number. Its great plea is population. The areas, interests and welfare of large portions of the province, that contain a sparse population, are not considered. The Tribune however fails to point out that population in a mining camp is largely superficial and transitory. Miners migrate like crows from one cornfield to another, and a large proportion of prospectors and miners are ready at a moment's notice to pull up stakes and turn their attention and energies into new territory.

This will also apply to mining capital for investments.

The advent of railways into the mining camps of Trout Lake, Fish Creek, and Big Bend will stampede thousands of people out of Southern Kootenay into that territory. The centre of population will follow the star as it rolls onward into the great northern wilderness, so called. Heaven protect us from the passage of a presumptive redistribution measure that will practically disfranchise this section of the country and place us at the mercy and domination of the Tribune's combination.

The Tribune goes into hysterics over coast domination and union club politicians, yet the country in his sphere of influence has fared sumptuously at their hands. The whole resources of the province have been expended in the effort to open up that territory. Millions of acres of land grants, and bonuses have been absorbed by railway companies, and the treasury coffers of both governments have been tapped and drained of heavy sums to give it railway communication with outside points.

There is nothing in the cry of coast domination except it may be the rabid howling of the ingrate whose avaricious maws would not be satiated if the coffers of King Solomon were expended within their domains. All roads must lead to their Jerusalem (Nelson) and all people pay tribute to their merchant princes, or there is tribulation abroad in the land. Victoria and Vancouver, proud, haughty, aspiring cities of the Pacific, whose representatives have been generous in their efforts to give substantial and effective aid in the opening up of the great interior, dare hardly look sideways through the Hope Mountains at the busy camp and wealth of mineral that is opening up, without being reprimanded and courtmartialed.

Redistribution on a fair and equitable basis is badly wanted, but redistribution with a view of disfranchising large areas of country, with a view of placing the destinies of this province into the hands of calamity howlers and avaricious sectionalists is not wanted.

Yours respectfully,
J. M. Kellie.

RINK COMPANY.

Annual Meeting of Shareholders.

The annual meeting of shareholders of the Rink company was held at the Hotel Revelstoke last night. The following were elected directors for the ensuing year: F. Robinson, H. J. Bourne, H. A. Brown, I. T. Brewster, and C. F. McDonald. The balance sheet showed a profit on last season of $480 over expenses. It was decided to do away with season tickets, and to make a special effort to ensure a successful season both for skating and curling.

STANDARD BASIN.

Discovery of Rich Ore.

J. M. Scott, secretary to the Prince Mining and Development Company, has just received assays of the last samples from the second chute of ore struck in No. 2 tunnel. These give copper 17 per cent, silver 96 ozs., and gold $1.60, a total value of $115 per ton. This is the first ore rich in silver which has been struck on the property.

RAIL AND STEAMER

The local shops have been busily engaged getting the snow ploughs and rotaries in shape for winter use.

The switchmen on the Denver and Rio Grande have struck, and the company say they won't be taken on again.

A new corporation, with Jim Hill at the head, has been formed to operate the Great Northern, Northern Pacific and Union Pacific.

Contractor Carlson informs the Kootenaian that the Lardo railway will be completed in from three to four weeks. The track is laid for 10 miles and the grading is finished except four miles.

It will no longer be necessary for applicants for masters' certificates in the Kootenays to go to the Coast for examination, as Capt. Fraser has been appointed examiner of masters and mates at Nelson.

T. J. Graham informs us that the C. P. R. have now got the external work on their snowsheds completed and in good shape for winter. There is still a good deal of inside work to do but this can now be gone on with free from inconvenience.

The surroundings of the C. P. R. shops should be lighted, as the shop hands find it very difficult to get about these dark nights. The Company will be asked to have lights placed outside their shops so that the men can find their way out of the yard at night without risking injury by groping their way in the darkness as has now to be done.

The Kootenay Mail

FRIDAY, NOV. 15, 1901.

GET your name on the voter's list this month if you want a vote at the forthcoming city election.

THE Canadian Manufacturers Association have paid a high compliment to the liberal cabinet which has so ably conducted the destinies of Canada, by banquetting Sir Wilfrid Laurier and his colleagues.

WE have received many congratulations on the article in last issue of the KOOTENAY MAIL condemning the practice of denouncing the city and its finances, when, as a matter of fact, Revelstoke is financially one of the soundest cities in the province.

AS the opening of a new road to connect the Big Bend road with the city will soon be taken in hand, it is suggested to us that the new road should serve the double object of giving access to the Big Bend road and providing the city with a gravel pit which will be urgently required for street improvements. This double purpose can be served by constructing the road to cross the railway near the cemetery.

THE booing of Lord Roberts at Nottingham shows how ungrateful the British public sometimes are towards those who render them great service. When Lord Roberts went to South Africa all was chaos, and nothing but disaster met the British arms. By his able strategy, Lord Roberts turned the fortune of war in a comparatively short time, and the scene at Nottingham can only be characterized as that of base ingratitude towards one who has rendered magnificent service to the nation.

PRETTY strong indignation is expressed in the city at the action which has been taken by T. Taylor, M.P., to side-track a deserving officer like Fred Fraser, whose claims were presented to Hon. W. C. Wells, on his recent visit here, by so thoroughly representative a deputation as that which waited on him. If Mr. Taylor is going to lend himself to such hole-and-corner work, he will soon find that the public sense of right and justice towards the civil service will show itself in a very marked manner.

THE Nelson Miner very truly says of the country to the south of Revelstoke: "The Lardeau has this advantage, the ores are of such high grade and the ground is not hard and these qualities make it possible for poor men to develop mines. Enough ore can be taken out during the operations to not only pay for the work, but to leave a profit, and in this respect the section has advantages over nearly all the other mining districts of the province. The smelter returns from the Triune and other shipping mines have been extraordinarily large and stamp the section as one of great merit."

GUBERNATORIAL APPOINTMENTS.

The time has come when the Home Government would do well to make a new departure in the system of appointment of the Governor-General. Instead of limiting these appointments to the British aristocracy, it would be good policy to open the highest position in the Canadian and Australian coniedcracies to leading statesmen of these important portions of the empire. As is the presidential chair to the people of the United States so should the chair of British governor-generals be to the people of these dominions, the highest position in the land, open to public men whose services to their country should entitle them to the greatest honor within the nation's gift.

IMPERIAL TRADE.

Sir Wilfrid Laurier touched the pulse of imperial interests, when, in addressing the Canadian Manufacturers Association last week he said: "I am sure I am speaking the sentiments of everyone here when I say that in my humble opinion, at all events, the life, the security of the British Empire, depends upon the exchange of commodities sent from all parts of that great institution. If we can suppose a condition of things—and it is not a hard supposition to make, it is possible to harbor it—if we can suppose that there will be mutuality and freedom of exchange between the three hundred or four hundred millions which compose the British Empire, we shall have seen the greatest commercial development that the world has ever witnessed.

A WORTHY PREMIER.

IN responding at the banquet tendered him by the Canadian Manufacturers Association, Sir Wilfrid Laurier said: "For a great many years the United States has received the best of our bone and sinew. Now a change has taken place, and we are going to receive the best of the bone and sinew of the American States. For a great many years our young men have emigrated to the United States. Now the yeomanry of the United States are emigrating by shoals to the virgin soil of the Northwest Territories, and they will be well received, they will not be treated like outlanders and deprived of civil and religious rights. On the contrary, we will be glad to receive them, to share with them what we have, to take possession of our soil, to make them British citizens, and to make them feel that British institutions are infinitely superior to the much-vaunted institutions of the American Republic.

ANOTHER LINK WANTED.

The time has come when the Australian colonies and New Zealand should combine with Canada in the establishment of a first-class steamship service, to bring into closer relationship these important sections of the empire. For years New Zealand and New South Wales have contributed a heavy subsidy to the San Francisco mail service, with the result that an important market for American manufactures has been created in Australia. The United States takes little from Australia, whereas Canada would be a large purchaser of Australian products. In British Columbia, for instance, a splendid market exists for Australian and New Zealand frozen mutton, for dairy produce, sugar, etc., while, as the fruit season in the antipodes is exactly opposite from that in this country, there would also exist an excellent market for Australian fruits. Mr. Mills, managing director of the Union Steamship Company of New Zealand, is at present touring through Canada, interviewing the Canadian Pacific and other officials with a view to the promotion of a service such as that we advocate. The money now spent by New South Wales and New Zealand on the Frisco service would meet the requirements, and these colonies would get exactly the same service via Vancouver as they now get via Frisco, without any greater burden on their finances. It seems absurd that these colonies should go the length of forging a link in the chain of empire by shedding the blood of their sons in South Africa, and breaking the same link that they have forged, at so much cost by spending as much money in maintaining the present foreign service. The remarks of Sir Wilfrid Laurier, which we publish in our leading columns, as to the unification of the empire, should be the aim of every statesman, and of every colony. This matter is one of the first that should be taken up by the new Australian federal parliament. An Australian-Canadian federal mail and steamship service would form one of the strongest links in the chain that binds the empire together.

FRAIL LITTLE ONES.

Their hold upon Life is Slight and Mothers have a Great Responsibility.

Every baby—every little one—requires constant care and watchfulness, and when a trifling illness unfortunately, the remedy should be promptly applied. The little ones are frail. Their hold upon life is slight. The slightest symptom of trouble should be met by the proper corrective medicine. Baby's Own Tablets have a record surpassing all other medicines for the cure of children's ailments. They are purely vegetable and guaranteed to contain no opiate or poisonous drugs such as form the basis of most so-called "soothing" medicines. For sour stomach, colic, simple fever, constipation, all bowel troubles, the irritation accompanying the cutting of teeth, sleeplessness and similar symptoms, these Tablets are without an equal. They act directly on the organs which cause the trouble, and greatly but effectively remove the cause and bring back the condition of perfect, hearty health. Every mother who has used these Tablets for her little ones praises them, which is the best evidence of their great worth. Mrs. David Duffield, Ponsonby, Ont., says: "Baby's Own Tablets are a wonderful medicine. I think they saved my baby's life, and I gratefully recommend them to other mothers." Ask your druggist for Baby's Own Tablets. If he does not keep them send 25 cents direct to us and we will forward a box prepaid. We have a valuable little booklet on the care of children and how to treat their minor ailments, which we will send free of charge to any mother who asks for it. The Dr. Williams Medicine Co., Brockville, Ont.

Gold Commissioner.

(Trout Lake Topic.)

"The appointment of Fred Fraser as Gold Commissioner will be a popular one not only because he is a thoroughly efficient officer with the details of all the work of the government office thoroughly at his finger ends, but will be a step in the direction of placing the civil service on a more satisfactory basis by adopting the seniority system as against the "spoils system" of which there has been enough and to spare on both sides of politics in the province. To the "seniority system" neither side of politics in the Revelstoke Riding can object for it has been advocated by them both and the fact that the appointment was asked for by deputation of both sides points to an implied wish that in future the integrity of the civil service will not be sacrificed to satisfy the demands of party politicians."

That Throbbing Headache.

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cts. Money back if not cured. Sold by Canada Drug and Book Co.

WANTED — SEVERAL PERSONS OF character and good reputation in each state (one in this county required) to represent and advertise old established wealthy business house of sound financial standing. Salary $18 weekly with expenses additional, all payable in cash each Wednesday direct from head offices. Horse and carriage furnished, when necessary. References. Enclose self-addressed stamped envelope. Manager, 316 Caxton Building, Chicago.

$25,000 OUR GRAND $25,000 Ornithological Contest.

Something entirely new and interesting. Read what you are to do. You may get $1,000. Our contest is to see who can make the largest list of names (or kinds) of birds from the following list of letters:

W D O O O C K Q U L I A P R T A R I D G
E S P N I E L V E B R D I M W A D O H T L

We will recognise as a bird anything belonging to the feathered tribe, whether it is a Hen, Crow, Singer or any other kind. You can use any letter as many times to make a name as it appears in the list of letters above; for instance Woodcock, Plover, Snow Bird, etc. To any persons who can make a list of 25 or more different names of birds, we will give absolutely FREE a beautiful Prize value $1,000 or less.

BIG PRIZES AWARDED DAILY.

When you have made out your list fill out the line on the bottom of this advt. and send to us with a Stamped Addressed envelope, stamp of your country will do, then if you are awarded a prize you can if you desire get the prize by becoming a subscriber to THE WOMAN'S WORLD. We shall award a prize to every person who sends the name of 25 Birds, and our gifts will be as follows: For the best list, received each day, a Gold Watch; for the second best solution each day a beautiful Imported Tea Set; for the seven next best solutions each day, a Kourah Sakih Diamond and Ruby Ring; for the next best solution, a Gold Piece; and for all other correct solutions, Prizes of Good Value. These Prizes will be forwarded daily, you will not have to wait a long time in uncertainty before you know the result. There is no element of lottery in our plan, it makes no difference whether we get your solution late or early in the day. All you need is to post this advt. to us, and on the day it reaches us, if your list is the best, you shall have the Gold Watch or if second best the beautiful Tea Set and so on—We guarantee that we will award you a prize. There is absolutely no opportunity for deception on our part—we cannot afford it. We want to get 1,000,000 well satisfied subscribers, and for that reason we don't want you to send any money until you know exactly what prize you have gained by answering the puzzle. As soon after 1 p.m. each day as possible, the examiners will judge the lists to the best of their ability, and will designate the prizes. We will write to you at once notifying you what prize has been awarded you, then if you are satisfied, you can send your subscription to THE WOMAN'S WORLD and your prize will go by return of post carriage paid. To a person of narrow ideas it seems impossible that we should be able to make such a gigantic offer, but we have the money, brains and reputation, we know exactly what we are doing, and if we can legitimately gain a million subscribers by this grand idea we know that this million of well pleased subscribers can be induced to recommend THE WOMAN'S WORLD to all friends, thereby building up our circulation still further. We are willing to spend $25,000 in this contest in building up a big subscription list, and when this money is spent we reserve the right to publish a notification that the contest has been discontinued. Don't delay until it is too late. The contest will continue until January 1st, 1902.

We give A Bonus Prize of $250 independent of all others to the person who sends in the list gotten up in the best and handsomest manner. Our Committee will decide on award prizes daily, but the special $250 prize will be awarded in March, 1902. Any bird's name found in the dictionaries accepted.

WHO WE ARE.

THE WOMAN'S WORLD is a thoroughly reliable concern, we are known to do exactly as we advertise. As to our reliability we refer to any Advertising Agent or business man in London.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. F. C. Wells of Villa Ridge, Ills., writes: "Your trial bottle of Asthmalene arrived in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave chained with a raw sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle."

Rev. Dr. Morris Wechler.
Rabbi of the Cong. Bnai Israel
New York, Jan. 3rd, 1901.

Drs. Taft Bros. Medicine Co.

Gentlemen: "Your Asthmalene is an excellent remedy for Asthma and Hay Fever and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, no morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y. FEB. 1, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your own sign on your own windows on 130th St. New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the 1st of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this dreadful disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901.

I was troubled with Asthma for 22 years. I have tried numerous remedies but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full size bottle and I am ever grateful. I have a family of four children, and for six years I was unable to work. I am now in the best of health and am doing business every day. This testimony you can make use of as you see fit. Home address 235 Rivington street.

S. RAPHAEL,
67 East St. New York City.

TRIAL BOTTLE SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

H. COOK & CO. PROPRIETORS.

CITY COUNCIL.

Weekly meeting held Friday, present: The Mayor, and Ald. McLeod, Abrahamson, McCarty, Bourne, and Taylor.

CORRESPONDENCE.

Water, Light & Power Co., stating rate for firehall lights would be raised from 50c. to 75c. per month.—Clerk to notify company that some are not all night lights.

Same, making reduction of $31 in hydrant rental for August, disclaiming responsibility for shortage of water and blaming city council for same, as by reason of the action of the council the company had to endure not only the obloquy of citizens, but had also suffered considerable loss in consequence. Hydrant rental must in future be paid monthly, instead of quarterly.

Government, claiming value of tools supplied for work done two years ago.

Water, Light & Power Co. intimating that contract with city for supply of water and light had expired.

T. Steed, asking that dirt piled on his fence by city employes be removed, also stating drain had been left open and was dangerous—Referred to Works Committee.

FIRE PROTECTION.

Petition asking that No. 1 fire hall be put in good condition, or a central fire hall built, also that fire alarm system be put in proper condition, and failing attention to these matters the petitioners would be forced to take proceedings against the city.

The Mayor said the fire system should be put in proper condition.

Ald. McCarty undertook to have this done. As to the No. 1 fire hall, he would rather see a new building erected than the present building repaired.

In reply to the Mayor, Ald. McCarty said if the citizens wanted a central fire hall they should let them have it.

Ald. Abrahamson said the city could not stand a double system of fire protection. They might as well have a double set of officials. He could get the present No. 1 fire hall fixed up for $300.

Ald. Taylor suggested fixing the No. 1 fire hall sufficiently for winter. He objected to erecting a tower on a building that did not belong to the city.

Ald. McLeod endorsed Ald. Taylor's views and said something should be done as the hall was in terrible shape.

The Mayor said the first council was in favor of a central fire hall.

Ald. McCarty and Taylor considered a new fire hall should be built in the lower town.

Ald. Bourne saw no reason why a central fire hall should not answer the requirements of the city and instanced Nelson.

Ald. McLeod said they had a duplicate system at Kamloops.

In reply to Ald. Abrahamson's suggestion, that a by-law be taken to shift No. 1 fire hall to a central position, Ald. Taylor said 10 to 1 would vote against it.

Ald. Bourne said they would not be justified in spending money on a property which did not belong to the city, which was the position of No. 1 fire hall.

Ald. McCarty suggested that the Works Committee examine the building. If it could be put in shape for a small sum let it be done at once, and if they wanted a fire hall like No. 2 let it be submitted to the people.

The Mayor said if no resolution was passed in regard to the petition he would instruct the clerk to reply that the council was incompetent to act.

Ald. Bourne urged a suggestion to the petitioners to petition for a by-law (as was done in the case of No. 2 fire hall) to give them a similar fire hall.

Ald. McLeod wanted to see the lower town receive a fair share of the city's expenditure.

Ald. Abrahamson said he would vote against a by-law to build a similar fire hall at the lower town as the city could not afford a duplicate system. He urged a by-law for central fire hall be introduced.

Ald. Bourne, McCarty and the Mayor supported Ald. Abrahamson's suggestion to submit a by-law for a central fire hall to the ratepayers.

Ratepayers asked light near Geo. Bell's residence on Doyle Ave.—Agreed to.

STREET IMPROVEMENTS.

Ald. Abrahamson asked what the council proposed to do regarding improvements of streets and crossings, and the chairman of the Works Committee was instructed to attend to the matter.

In reply to Ald. Abrahamson it was stated the light on Charles St. had been deferred, as there was only one petitioner and Ald. Nettle had undertaken to bring in a larger petition.

Ald. Bourne pointed out a light was required at the back of the railway station.

The clerk was instructed to have lights put in at Charles St. and Robson Ave. and to write to C. P. R. calling attention to necessity of a light at back of station.

OPEN BRANCHES IN ENGLAND.

Slater Shoe Company Decides on Expansion.

"They don't appreciate Canadians sufficiently in England, we are all Americans," said Mr Chas. E. Slater, president and general manager of the Slater Shoe Company, as he chatted freely about his business trip to European centres. He has only lately returned from a trip to London and Paris, made with the object of extending the Company's foreign business, with the result that he is convinced that the only way to permanently secure a share of the British trade is to open a series of Slater Shoe Stores, on the same special system of selling and advertising to the consumer direct, as had made the Slater Shoe so well known and popular in Canada. He spent about six weeks investigating the shoe trade and noted the tremendous trade of the London Shoe Co., and of dozens of others who have as many as from 75 to 300 retail branches in different parts of the Kingdom. The English companies do their boot and shoe business largely on the multiple system; that is, a firm like Manfield or, Lily & Skinner own many branches, but selling all kinds of boots instead of one special make or kind. There are no English manufacturers specializing like the Slater Shoe Company, making Goodyear welted goods alone, which are bound to replace the hand made shoe, as soon as their merits become properly known to the public.

"It is hard to realize the possibilities of the immense business there is to be done over there," said Mr. Slater and we would be foolish not to take advantage of the opportunity. We can land goods in England in less time, and for considerably less cost for transportation than we can in British Columbia, and just think for a moment of the difference in population." The Canadian field is limited, as is well shown by the export leather business. The tanners of Canada shipped nine million pounds of sole leather to England last year. The English manufacturer is fast losing ground in his own country. There is no duty on boots and shoes going into England, and this, coupled with the Government rebate to manufacturers in Canada, of 99 per cent, on foreign material used in manufacture for export, made it plain sailing for his company. This rebate applies to Bermuda and Australia as well as in other countries with which Mr. Slater arranged for agencies while in London, which is, of course, the centre of the shipping trade of the world.

Trade conditions, especially in boots and shoes, were very different from those in Canada. As a rule the stores are smaller, as also were the stocks carried. There the retailers carry a mess of all kinds of stuff, packed into one shop, as well as displaying so many different kinds of goods in the windows (using almost every inch of space), that it is bewildering to purchasers. No extensive advertising was done by the retailers. Asked if a factory might be successfully operated in England on a basis similar to here, Mr. Slater said, the conditions were such that in his opinion it would be out of the question for a good many years to come.

The labor unions work to the disadvantage of the English manufacturer when taking into consideration the increase in imports. For instance, the workmen are prohibited from making more than a specified number of boots per day, and are very arbitrary on the question of the introduction of new and improved machinery. Plenty of workmen were idle, and he believed that general decadence had set in throughout the manufacturing industries. To use his own words, "there are rafts of American and German goods of all kinds elbowing the English made goods out of business." He was compelled to smile at the utter lack of appreciation of Canadian industry, brains and enterprise, in England. Whatever prestige American business men had gained in the English market reflected to the credit of Canadians, because the average Britisher did not discriminate at all between Canadians and Americans.

In Paris, too, he saw an opening for Canadian shoes, but all that and the many elements of the opening of branches were details that would follow in due course.

The nucleus was formed; the initiatory stages were completed for the Slater branches in England, and he felt confident of a great success awaiting their efforts.

Great Luck of an Editor.

"For two years all efforts to cure eczema in the palms of my hands failed," writes Editor H. N. Lester of Syracuse Kan. then I was wholly cured by Bucklen's Arnica Salve." Its the world's best for eruptions, sores and all skin diseases. Only 25 cts at Canada Drug and Book Store.

Trail is agitating for a bank.

The Indians predict a mild winter.

The County Court will sit at Revelstoke on December 4th.

See my new stock of ladies' furs—J. Guy Barber.

F. McCarty has been again on a visit to the Okanagan valley this week.

The streets of the city are getting into very bad state for vehicle traffic.

Mrs. Skinner has purchased A. W. McIntosh's building and lot on Third street.

The opening of the Imperial bank at Ferguson is delayed owing to the non-arrival of the safe.

Messrs. Abrahamson Bros., of the Central Hotel, have gravelled Front Street at their own expense.

Everything in the grocery and bakery lines, fresh and at reasonable prices, at A. N. Smith's.

Owing to pressure on our space we have to hold over till next week's issue the continuation of our "Big Bend article.

At the meeting of the city council on Friday night, Ald. McCarty said he expected to see Revelstoke a very lively town next summer.

The growth of the KOOTENAY MAIL in advertising popularity surpasses that of any other paper in North Kootenay.

Tom Hamilton, manager of the Ashcroft Hotel, committed suicide on Wednesday by taking morphine. He was well-known in Revelstoke.

All advertisers who desire to cover the field must use the paper that is read in the homes of the people. That paper is the KOOTENAY MAIL.

If you are going to paper a room or the whole house you might as well have the latest pattern in paper. You can get them at the Canada Drug and Book Co. any time.

The British Government announce their intention to take more vigorous measures for the suppression of the South African war, and will send out 1000 more cavalry.

A brand new line of silverware of the "Merriden-Britannia" make—the best silverware in the world—knives and forks, sterling silver novelties, etc. at J. Guy Barber's.

Big shipment of drugs just received. You can get anything you want in that line at the Canada Drug and Book Co., if they have not got it they will get it for you.

This is your only chance before Christmas to have a first-class photograph at R. H. Truscott & Co's studio. Open positively only until evening of Nov. 28th. See our up-to-date samples.

For $2.50 we will send you for a year the KOOTENAY MAIL and the Ladies Magazine of Toronto, together with three of Gibson's famous drawings as a premium. The KOOTENAY MAIL.

P. Peterson has successfully ripened grapes on his property on Front Street for the last two seasons. This year he had a fine crop of fruit. The variety of vine which yielded the crop is the Concord.

At Friday night's meeting of the city council, Ald. McLeod rubbed it into some Alderman who, he said, went round the city asking the ratepayers to vote against the recent street improvement by-law.

As the city takes over the schools from January 1st, a new school board will have to be elected. The present trustees, Messrs. Howson, Graham and Lindmark, will offer themselves for re-election.

Collins and Carsden have taken a contract from the Revelstoke Lumber Company to take out logs on the Company's limit at Carnes Creek this winter and went in last week to start work, taking up a boat-load of supplies.

Mrs. Dunsmuir, widow of the late Hon. R. Dunsmuir, has entered proceedings against Hon. Jas. Dunsmuir for the delivery of 4,998 shares in the Dunsmuir company and connected with the estate of the late Alex Dunsmuir.

Edgar Bloomfield, of Vancouver, offers for sale five second-hand Sullivan rock drills, complete with hose. As these can be secured at a bargain the opportunity is a good one for those mining companies who propose putting in power drills in the district this season.

At the city council meeting on Friday night Ald Bourne said the cost of lighting the city was now $100.00 a month; and an Alderman jocularly remarked that instead of taking over the Water Light and Power Company's assets, that Company should take over the city.

There is a great deal of hemlock growing in this section of country and though it is generally credited with limited use, J. Lewis, foreman of the Fred Robinson Lumber Company's mill at Comaplix, informs us that it is a better timber than any other for use under water, such as in the construction of docks and breakwaters.

We have received the November number of the Ladies' Magazine with which is incorporated the Canadian Home Journal. It contains a number of interesting articles on "The Woman who writes for the Papers," "The Flower of November," "When a Woman says No," being the opinion of a bachelor, "The Talented wife of a Canadian Senator," "What Women are Doing," Fashion Notes," Short Stories, etc.

Owing to the unfit condition of No. 1 Firehall and the necessity for economy in the city finances, Ald. Abrahamson will introduce a petition at the meeting of the city council tonight to place before the citizens a by-law to raise $6,000, of which $3,000 shall be used for building a central firehall, $1,000 for purchase of equipment including horses, and $2,000 for the purchase from the Farwell estate of the block for which the city has already a contract.

MINING NOTES

The Ruth is reported to have made a very rich strike.

A compressor plant is being put in at the Duncan mines.

The Topic says eleven properties will be working this winter at Trout Lake.

A movement is on foot at the coast to form a provincial association of mine operators.

Boundary shipped over 1000 tons a day last month, the Granby mines leading with over 20,000 tons.

A body of high grade iron ore, 40 feet in width, has been located on the Lord Roberts claim near Rossland.

The American, bonded from Abrahamson Bros. and T. Taylor, M. P. P. continues to improve under development.

The Rossland Miner says the strike is practically at an end and that all the producing mines will shortly be fully manned.

Ore is being shipped from the Baltimore, a grass-root discovery of September last, on Woodberry creek, and which runs high in silver.

We are informed that on the Eclipse claim, on Pool Creek, near Cumborne, there is a body of ore 19 feet in width which will assay $50 per ton.

The Golden Nugget property on Taylor creek carries high values in gold. It is owned by the Consolidated Copper Company of Minneapolis, who intend pushing development.

A trial shipment of 5½ tons of ore from the Silver Glance, on Bear Creek, owned by Kaslo parties, gave a return of $12.30, or over $200 a ton. The lead is 18 inches in width and has been traced for 100 feet.

The Topic says that the smelter returns from the Cromwell give a return per ton on 10,250 lbs. ore of 5.18 ozs. gold, and 21 ozs. silver. The shipment gave a profit of $60 per ton after deducting cost of freight and treatment.

The number of claims recorded at Comaplix from January 1st to beginning of October, and covering the Fish Creek recording district, was 301. This large number of locations is largely due to the boom in the early part of the season over the free gold properties near Camborne.

F. McCarty says that in his travels he finds immense interest taken in the opening up of the Big Bend, and he feels sure that the placing of a steamer on the upper river will result in a large influx of traffic to that section. Vancouver people who own claims there have also told him that when transportation is improved, as it will be by the running of the steamer, they will take steps to actively develop their properties.

SOCIAL AND PERSONAL.

T. J. Graham came in to the city on Monday.

J. Savage has been appointed caretaker of the city schools.

W. B. Pool and D. Ferguson came up from the south last night.

Mrs Brown, of Second street, left today for Washington State.

L. H. Buck is engaged at present on some railway surveys at the Coast.

A. G. Fraser has been appointed postmaster at Thomson's Landing.

Miss. McConnell, sister of Mrs. B. A. Lawson, is at present visiting friends in Toronto.

B. Gayman, of the C. P. R. Telegraphs, returned last night from his holiday trip.

At the meeting of the Epworth League on Monday night E. Wilson gave an adress on temperance.

Jas. I. Woodrow has received a cable announcing the safe arrival in England of Mrs. Woodrow and children.

W. George, of the firm of Taylor & George, left for the coast on Sunday to procure a stock of goods for the Christmas trade.

Mr. and Mrs. J. B. Smith came in from New Denver last evening and will remain till Monday. They are guests of Mrs. Kernahan.

The Ladies Auxiliary of the Hospital have rendered splendid services to that institution and have reason to feel proud of the work they have done.

W. McGowan, formerly of the Molsons Bank, here, and lately employed in the Calgary office of the bank, has resigned his position and gone west.

A dramatic club has been formed at Trout Lake, with Mrs. Jowett, president; F. T. Abey, sec-treas., Mesdames Elliott, and Abey and J. D. McInnes constituting the committee.

Mr. Diamond of the Kootenay Lumber Company's store at Comaplix has a nice boathouse with a supply of Peterborough canoes which are the delight of his neighbors in the boating season.

The friends of Mr. and Mrs. P. Stacey will regret to learn of the serious illness of one of their sons. On Thursday Drs. Carruthers and McLean had a consultation on the lad's condition.

Mr. and Mrs. Kincaid moved into their new home on First Street on Monday last, the building which Mr. Kincaid purchased from Mr. Kilpatrick having been thoroughly renovated and improved.

H. J. Pratt, district manager of the Mutual Life of New York, has been in the city for some days and has appointed A. E. Kincaid local agent for the company. Mr. Kincaid will make a successful representative.

Joseph McNamee, an old trapper of the Big Bend, returned from Vancouver Island, where he has spent some time trapping. He has discovered that the Big Bend beats the Coast for fur and will again spend the winter in his former haunts up the river.

Mrs. R. Howson went to Salmon Arm this week to visit the family of her brother, John Campbell, who died at Kamloops on Sunday last, and was buried on Tuesday. Mr. Campbell was well known in Revelstoke. He leaves a wife and four children.

Astounding Discovery

From Cooperseville, Mich., comes the discovery of a pleasant tasting liquid that when used before retiring by any one troubled with a bad cough always secures a good night's rest. "It will soon cure the cough too," writes Mrs. S. Himmelberger, "for three generations of our family have used Dr. King's New Discovery for Consumption, and never found its equal for coughs and colds." It's an invaluable life saver when used for desperate lung diseases. Guaranteed bottles 50c and $1.00 at Canada Drug and Book Co. Trial bottles free.

SAVE YOUR SHOWSHOE TAGS.

The most popular brand of Chewing Tobacco in Canada today is "Pay Roll" Every plug of "Pay Roll" bears a "Snowshoe" tag. Consumers should save these tags as valuable presents are given for them. When you buy "Pay Roll" Chewing Tobacco, ask your dealer for our new illustrated premium catalogue.

Tags are good up to January 1st 1904.
