LIMITED.

Millinery and Dressmaking Parlors Second Floor

## THE CABINET.

*Reconstructed With F. J. Fulton President of the Council.*

The cabinet was reconstructed Thursday when F. J. Fulton of Kamloops was sworn in as president of the council, and portfolios arranged as follows:

Premier McBride, minister of mines and provincial secretary.

Hon. R. F. Green, chief commissioner of lands and works.

Hon. Charles Wilson, K. C., attorney-general.

Hon. R. G. Tatlow, minister of finance.

Hon. Mr. Wilson is the only member who will have to be re-elected. President of the council draws no salary and does not require to seek re-election.

## CAMBORNE GROUP.

*Meeting of Northwest Development Syndicate.*

At the annual meeting of the above syndicate, Judge Curtis, the new president, occupied the chair. The following board of directors was elected: Captain Thomas Maslin, G. Marini, Edward Ulseth, John B. Curtis, Joseph Hermann, Isaac W. Frimodig, W. S. Cleaves, Fred Roehm, George Fax and Harry Northey. Mr. Curtis is the only member elected from the old board. Edward Bath, W. Frank James and Daniel Fither were elected auditors. Next annual meeting was fixed for October 31, 1904, at Laurium. The general office was changed to Calumet.

W. B. Anderson urged importance of raising $10,000 required by Tuesday to satisfy labor claims and thus redeem the Goldfinch from sale under liens. The company would be in a position to present a business proposition to the Rosenberger Prospecting syndicate. Several speakers urged importance of at least meeting the $10,000 debts. It was stated Peter Holman of Hancock and 20 associates are prepared to form a pool and raise the $10,000 immediately if the stockholders fail.

A. F. Rosenberger since the recent meeting of stockholders has secured from the owners an agreement to take entire payment of $23,750 in stock provided the company is reorganized along lines be laid down. If a new company is organized the labor and supply creditors would extend the payments 30 and 60 days provided a part payment is made Monday. This extension is made on condition of reorganization and the resumption of work at an early date. Rosenberger and associates are prepared to make payment if an agreeable arrangement can be made with the new directors.

We are advised that matters are progressing towards a satisfactory settlement.

## MARIDOR-GOULDING.

*A Great Attraction Coming Next Monday.*

The Maridor Goulding Company will appear at the opera house Monday and Tuesday nights under the auspices of the Band, and it is to be hoped a goodly number will turn out to show their appreciation of the Band, who will materially benefit by the entertainment, besides enjoying a programme that is well spoken of by the press of the various towns where it has been presented.

Of the company's visit to Nelson the News says: "The Maridor-Goulding entertainment last night proved to be a delightful novelty. The two little girls Hazel Raymor and Mildred Bassett were very pleasing in dance and coon songs, Hazel's Egyptian dance being very taking. Miss Goulding, the English cornetist, was the star of the evening, and it is a pity that she did not give a greater number of selections, as her exceptionally fine playing of this, the greatest of all wind instruments, was much appreciated. Her military selections which she played in uniform made a special hit. Miss Maridor's performance was very good considering that she has been under the doctor's care for two days."

J. Anderson has completed the laying of 80 lb. steel this season over 30 miles of track from five miles east of Sicamous to Mowitch.

## THE EVA.

*Excellent Clean-up—Practical Evidence of Value of Fish Creek Gold Belt.*

J. Knox, M. E., general manager of the Calumet and B. C., and J. A. Magee, one of the directors, came out Thursday with the month's clean-up of the Eva stamp mill.

The mill ran 498 hours (just under 21 days). 705 tons of ore were milled, and this included a quantity of schist running only from $1 to $2 a ton in gold. This schist would not ordinarily be milled, but had to be put through to get it out of the way.

The quantity of gold brought out was 385 ounces troy weight. In addition 44 tons of concentrates were saved, which will probably give good values. The result of the Eva run for three weeks therefore is between $6,500 and $7,500, and will approximate an gold yield of about $10 a ton.

The management of the Eva and the shareholders of the Calumet and B. C. are to be congratulated on the eminently satisfactory result. The manager, Mr. Knox, was determined this trial run should be a fair test of the company's property without any picked quartz and we feel sure it is. The effect will be to create renewed faith in the orebodies around Camborne, and Fish creek should shortly become one of the most active mining sections of the province.

## THE MINES.

Silver is at 59¼.

A stamp mill has been started at the Gold Cup at Ymir.

Several Rossland mines propose to put in concentrating plants.

The Josie has paid $100,000 in profits during the last nine months.

A 200 ton concentration mill is to be put in at the Iron Mask at Kamloops.

Owing to claim jumping at Poplar it is feared there may be some shooting there.

Three feet of rich ore have been struck on the Last Chance near Sandon.

Two new furnaces have been blown in Granby Smelter, making six in all now working.

J. L. Retallack contradicts the reports that the smelters are raising freight and treatment rates.

Fernie and Michel mines are blocked with coal and coke which cannot be shipped owing to C. P. R. shortage of cars.

The appeal case of Sandberg v. Ferguson, over the claim staked in Triune Basin, was dismissed by the full court at Vancouver Thursday, Judge Martin's decision being thus upheld.

G. Waterlow, one of the directors of the LeRoi and Snowshoe, reports the former as looking promising and expresses himself well pleased with the outlook for the Snowshoe.

The conciliation committee appointed to endeavor to settle the Lottie mine trouble failed to arrange and thousands of people are now leaving Butte, many coming to British Columbia.

The Rossland Miner fears serious trouble on account of disputed recording and staking at Poplar and suggests the government should appoint a commission to inquire into and settle the disputed cases to avoid useless litigation and see the men entitled to the claims get them.

R. G. McLeod, formerly of Comaplix, secured a 60-day bond on the Spyglass group on Poplar Creek for $35,000. The lead is three and one-half feet wide, the paystreak from six to fourteen inches. In the paystreak the unusual sight is seen of native gold and native silver lying side by side in the quartz.

At Trout Lake yesterday E. Lange charged with disobeying orders of Gold Commissioner Fraser to remove certain stakes from the Lucky Jack at Poplar, was sentenced by local justices to three month's hard labor at Nelson. Lang was also found guilty of stealing ore from the same claim, and committed for trial. R. Hodge Ferguson, solicitor of Great Northern Mines, prosecuted, and A. H. Macneill, K. C. of Rossland, defended.

The mill being erected at Trail for treatment of War Eagle ores is rather in the nature of an experiment, with a view to ascertaining the best plant suitable for a big plant. The mill as at present arranged will be capable of treating 200 tons a day. The building to accommodate the plant is to be 195 ft. by 360 ft., and will be 85 feet in height. The building will be roofed with galvanised iron. The concrete foundations for the building and machinery are nearly completed. A store will be built adjacent to the mill and will be 126x100 ft.

A telegram from Victoria says public works of urgency and necessity have been stopped throughout the province as the banks refuse the McBride government further credit. The government is now devoting its energies to the destruction of crows, for which it offers a bonus of 5c per head. Scandalous!

## GUY FAWKES DAY.

*Celebration by L. O. L. and True Blues.*

The members of the True Blue and L. O. L. 1658 are to be congratulated on the very pleasant entertainment provided for their many friends in connection with the Guy Fawkes celebration of the 5th inst. The supper was all that could be desired and was thoroughly enjoyed by the large number who from six till nine o'clock were thus entertained.

An excellent programme of music, recitations and addresses was listened to with interest and enjoyment by the large company that remained for this part of the evening's pleasure. Among those who took part were Mrs. Bews, Mrs. O'Brien, Mrs. Tweddale, Mrs. Lee, Miss Riddell, Miss Swift, Messrs. Bennett and Revds. W. C. Calder and McIntyre of Sandon. The chairman, Eli Adair, stated in the course of his remarks that the proceeds would go towards the new orange hall. It was expected the provincial celebration of July 12th, 1903, would be held in Revelstoke, and the corner stone of the new building would be laid. A very pleasant evening was brought to a close by singing the National Anthem.

## ARROWHEAD.

*Reid & Young's Store Building Destroyed.*

Jas. Hawley's cottage will soon be finished.

The building boom is in full swing in this rapidly growing town.

E. J. Kerr has made extensive improvements to the Arrowhead Hotel.

Mr. Pitblado has the addition to his pretty little cottage nearly completed.

Capt. L. Fraser is adding to his cottage. The contract is in the able hands of James Farmer.

Mrs. Columbus is occupying their new residence, Mr. Columbus being engaged with the Big Bend Lumber Co's. camp up the river.

Mr. and Mrs. Kimberley have taken up their residence in the house formerly occupied by J. D. McPherson. Mr. McPherson is acting as pile driver foreman for the Big Bend Lumber Co.

Harry Cook of the Big Bend Lumber Co. has finished his cottage, and is only awaiting the arrival of Mrs. Cook from the east to once again start housekeeping after a long spell of bachelorhood.

We were glad to see the genial face of Andrew Anderson again last week. Mr. Anderson left hurriedly last August for Norway owing to a cable gram announcing the serious illness of his aged mother. Unfortunately Mr. Anderson arrived in Norway too late to see his mother alive.

The many friends of Mr. and Mrs. Livingston will be glad to hear that Mrs. Livingston has returned to Arrowhead after some weeks spent in the Revelstoke hospital. Mrs. Livingston is rapidly regaining her usual health, and Mr. Livingston is wearing "the smile that won't come off."

On Thursday evening about 5 o'clock a heavy squall struck Arrowhead. Though it did not last over five seconds it had force enough to lift Messrs. Reid & Young's new store entirely off its foundation and deposit it a complete wreck twenty feet from its former position. It is extremely fortunate that no one was passing at the time or the urgent need of an emergency hospital would have been demonstrated once more.

Speaking of an emergency hospital, the accident that happened to Chas. Donoher of the Big Bend Lumber Co. shows more plainly than anything that this is a matter that should be pushed forward with the utmost speed. On Thursday evening Mr. Donoher was returning to the boarding camp, and catching his foot between two rails fell and broke his leg above the ankle. As it was comparatively late in the evening Mr. Donoher lay on the track calling for help for some time, when Mr. Taylor of S. S. Rossland, hearing him, went to his assistance and with the help of some of the men from the camp carried him to the Big Bend sleeping camp where he lay in extreme pain all night and until the arrival of the train at 10 a. m., when Dr. Sutherland came and placed the broken limb in plaster prior to his removal to the Revelstoke hospital. Had we had the emergency hospital Mr. Donoher would have been spared many hours of suffering. With the many industries now in progress here any moment may bring forth a serious accident that may result in the loss of a valuable life owing to the want of a professional man or skilled nurse who knows what to do and how to do it.

## BAD WASHOUT.

*Engine of No. 2 Dumped into Fraser.*

No. 2, due here Monday morning, met with an accident which interrupted traffic for three days. The accident occurred about 8 o'clock Sunday at a point four miles east of North Bend, and was due to a washout. The Engineer saw the hole and promptly applied the brakes, after which he and fireman jumped. The engine pitched into hole and rolled down the bank, a distance of 150 feet, into the Fraser River. The express car, which was next to the engine and tender, remained with one end overhanging the washout hole. No one was injured. A temporary bridge had to be constructed across the yawning chasm.

We are opening up the finest lot of

UNION LABEL

SATURDAY, NOVEMBER 7, 1903.

It is to be hoped the directors of the C. P. R. will authorise the erection of a new railway station at Revelstoke during the coming year as it is urgently required. The present station is altogether behind the times, affording decent accommodation neither for the employes nor the public.

The hospital staff at Revelstoke is earning a high reputation for the splendid success attending its administration and surgical operations. The medical staff have had to deal recently with several most intricate cases, the results of which have been much more successful than they themselves had dared to hope for.

Hats off to Monsignor Sbaretti, the Papal delegate to Canada, for his utterances at Winnipeg, when he said "the great problem of the West is the assimilation of races; and to bring about this end I urge Catholics to manifest a reciprocal appreciation of the merits of those not in their household of faith. By a hearty appreciation of civic, social and domestic virtues outside the church," he continued, "we can effectually help to lay the foundation of a God-fearing, justice-loving community. I have great faith in the future of the country, but I should not have it did I not feel sure that the corner stone of the future edifice will be justice and truth."

Now is British Columbia's growing time. A vigorous policy and a vigorous government are the needs of the hour. Now that so many thousands of miners are leaving Butte, Montana, an effort should be made to attract many of them to this country. They are amongst the most intelligent miners and prospectors the world over and their immigration to British Columbia would be a great aid to the development of our mineral wealth.

## A CREDITABLE STAND.

In taking the stand that he will only accept as his advisers men of high moral character and clean lives Lieut.-Governor Joly will earn the esteem and affection of the great majority of the people of this province. Every good citizen will thank from his heart our governor for the stand he has taken towards placing public life on a higher plane. We regret to see that Joseph Martin should have attacked the governor for the stand he has taken, and this attack comes with bad grace. The best men of both parties will back up the lieutenant-governor both at Victoria and Ottawa.

## UTTERLY WRONG.

It is matter of regret that a section of the press and public men of Canada should attribute improper motives to Lord Alverstone regarding the decision in the Alaska Boundary matter. It is safe to say that gentleman, from the fact that he holds the highest judicial position in the gift of the nation, acted on the evidence, and had good ground for his decision. His action is endorsed by many prominent men who have studied the problem, and so high an authority as Sir Sanford Fleming declares that in the decision Canada has got all that is coming to this country. The people of Canada have a grand heritage as it is. Let them develop it in a proper manner and in the interest of the whole people, and there will be no necessity for the wild jingo talk of Gourley and some of his ilk. These are the men who would like, by their braggart language, to make wars, but who would take very good care to get as far away as possible from the scene of trouble if it came.

## PUBLIC PROGRESS.

We should like to see an effort made to induce the government to take up the question of constructing an electric tramway from deep water on the north arm of Arrow lake to Camborne. The sooner construction and operation of the public works required to open up the country are vigorously undertaken by the government the better. There is no better point at which to begin the work than Fish creek. That section has wealth undreamed of, and the work could be extended up Fish creek and to Pool and Mohawk creeks as occasion requires. Another matter that should have attention is the construction of a government smelter and refinery on Arrow lake where the ores would be treated at cost. British Columbia demands men with big ideas and the ability to carry them out. The days of a peanut policy have passed and the sooner the government goes in for a straight policy of development by construction of railways, tramways, smelters etc. the better will it be for the country and the more rapidly will the great resources of this province be developed.

## THE LUMBER INDUSTRY.

The information which we have recently published regarding the lumber industry shows the necessity for the people backing up the demands of the lumbermen for a duty on American lumber to prevent Canada being made a slaughter market for the United States. We have in this district lumber enterprises second to none projected by such firms as the Harbor Lumber Co., Big Bend Lumber Co., Revelstoke Lumber Co., Pingston Creek Lumber Co., Yale-Columbia Lumber Company, Columbia River Lumber Company and others. These companies will employ hundreds of men and the great industries they are building up will do much to develop the country, add value to city and rural property, create a local market for our farmers, provide new customers for our stores, make more demand for houses and industrial establishments.

Revelstoke and Arrow lakes form the key to hundreds of miles of water along which are located forests which will supply timber for these great mills for many years to come. Western Canada is filling up with people to make the best of markets for the products of these mills provided these markets are retained for our own workmen and captains of industry. Reasonable aid to these industries is not a matter of conservatism or liberalism but of the general interest of the country as a whole, and when the time comes for the people to record their voice on such questions we trust that from British Columbia will go out a united voice for advancement, progress, and safe-guarding of home markets for such home products as lumber.

## THE McBRIDE GOVERNMENT

The McBride government has started in with the most incapable and unscrupulous administration yet seen in the province. In fact the existing state of things is not a patch on the worst days of the corrupt Turner regime. The public credit is in the most serious condition, and the new government has shown itself absolutely incapable of handling the position. A career of intrigue has set in at Victoria. It began with the humbug over John Houston's appointment to a cabinet position. John was to have it and then he wasn't. Premier McBride recommended Houston and when he got a slap in the face by the lieutenant-governor refusing the recommendation on legitimate grounds, instead of resigning and fighting his position like a man, he simply sneaked away with the excuse that no doubt the lieutenant-governor was right. We believe he was, but it is most discreditable to McBride that he should have endeavored to advise his honor to do an act of which he is now ashamed. What sort of an adviser is that to be entrusted with the government of the country?

Then we have the attorney-general, who ought to stand for right and justice, lending himself to a piece of low-down trickery over the Fernie election. If the liberal candidate there had the mostevotes the people have a right to know it. If he had not, the liberal party will loyally accept the verdict against them. But instead of allowing a fair count the government schemed to have ballot-boxes sent to Victoria and then refused to give them up so there may be a recount. This Fernie election savors right through of public scandal. The returning officer was a partner of Ross, the government candidate. He rejected certain ballots, which were plainly marked for Smith, the liberal, and then after making his declaration shipped the ballot-boxes to Victoria instead of holding them to allow a recount by the county court judge. The returning officer then placed himself beyond the reach of any writ in the matter. What the public have a right to know is whether he deliberately acted wrongfully in the matter to assist his law partner to obtain and retain the seat, and then sought to avoid the remedying of any wrong. At all events he has a most able coadjutor in Attorney-General McPhillips, the man who has been trying to impress on the legislature in his speeches some hundreds of times that he had a conscience. In view of the miscarriage of justice at his hand over the Fernie election, and for the condition of things for which he would appear to be largely responsible, the public would like a little more information about Mr McPhillips's conscience, and the liberal members will not be doing their duty if, when the house meets, they do not insist on a most searching investigation of the affair. We dont see what right a rejected candidate like McPhillips has anyhow to hold the position of attorney-general and lend himself to the defiance of the best interests of the people.

## BEATON.

### *High Jinks at Hallowe'en.*

From Our Own Correspondent.

Beaton has always been noted for being the most law-abiding town in Kootenay. We have long boasted that none of our residents ever appeared in a police court at Beaton. But since Beaton was the ugly duckling in the last provincial election all this seems to have changed.

After the result of the election became known, a number of Mr. Taylor's admirers fired off a considerable quantity of powder. Now Mr. Mailloux claims that someone took a box of powder from the Hamilton Powder Co's. magazine, and entered suit against George Goldsmith for firing off the powder. Fred Fraser was here last Saturday to try the case, but as Mr. Goldsmith had not been found the hearing was adjourned to next Saturday. Most of the young bloods are the happy possessors of a blue paper as witnesses in connection with the case.

On Hallowe'en the youngsters were out on mischief bent around the town. The next morning we noticed Andy Craig's buggy on top of the old Pioneer Hotel, and a number of small buildings out of their proper positions.

On Hallowe'en a high wind carried the freight sheds and Joe Mailloux's residence, which are erected on floats, out into the lake. After drifting nearly all night the unwilling admiral and his flotilla went ashore at Whiskey Point. Later it is reported that some miscreant cut the ropes, and $100 reward is offered for his or her apprehension. We can scarcely believe that anyone in Lardeau would be base enough to endanger the lives of two people and a large amount of valuable freight.

Mr. Crawford has erected a new bunk-house for his men on Craig street, east of his livery stable.

Mr. Croft has finished his new house and is getting in a supply of wood for winter.

Beaton, Nov. 3.

The Master Mechanic's Pure Tar Soap heals and softens the skin, while promptly cleansing it of grease, oil, rust, etc. Invaluable for mechanics, farmers, sportsmen. Free sample on receipt of 2c for postage. Albert Toilet Soap Co., manufacturers, Montreal.

## ILLECILLIWAET.

(From a Correspondent.)

Vic. Carlson intends giving a dance shortly to which we are all looking forward.

Our mayor, Mr. Mooney, continues to take a fatherly interest in our town, which would be lost without him.

Judging from the number of births here lately, the population of Illecilliwaet would seem to be increasing daily.

V. Carlson and A. Steele have come in from the south and intend doing considerable work this winter on mineral properties in which they are interested.

A grand farewell dance was given to Miss Griffith, who has been on a visit to her sister. In fact it was one of the most successful gatherings we have had here.

This is a great place for sport. G. Schulli and W. McLellan secured two mountain goat at Ross Peak where goat are plentiful. On the following day the same sports took a dozen trout from a pool not 50 yards from the Windsor Hotel.

## NAKUSP.

From our own Correspondent.

Mrs. Manuel, of Field, was in town a few days last week.

The Maridor-Goulding Co. is billed here for Friday evening in Abriel's hall.

The Yale-Columbia Lumber Co's. mill is shut down just now on account of having no logs in the boom.

Saturday evening being Hallowe'en there were quite a few tricks played round town by the young folks.

Mrs. Martin and family returned on Sunday from the east, where they have been visiting friends for the last six weeks.

Mr. McKissock and son have left here for Comaplix, where they are to build two barges for the Harbor Lumber Co.

While pulling out S. S. Minto on to ways for repairs on Thursday, and while making fast the ropes and cables, one of them broke allowing the stern to swing round warping the cradles, but doing no damage to the boat.

*Better than a plaster.*

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back, or pains in the side or chest, give it a trial and you are certain to be more than pleased with prompt relief which it affords. For sale by all druggists.

### NOTICE.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, viz.:

Situated on Summit creek, Kootenay river, about 13 miles up the creek and beginning at a post marked J. Mulhearn's northeast corner running thence west 40 chains, thence south 160 chains, thence east 40 chains and north 160 chains to point of commencement.

J. MULHEARN.

# KOOTENAY MAIL SUPPLEMENT--Nov. 7th.

## Social and Personal

W. H. Humphreys left Sunday for Okanagan.

T. Taylor, M. P. P., left Wednesday for Poplar.

Mrs. D. McCarthy and family are visiting Burton.

Miss McIntyre, of Sandon, is on a visit to Revelstoke.

Jno. Laughton returned from Ferguson on Saturday.

Mr. Jacobs, of the Mining Record, was in the city Monday.

C. R. Skene will go to Kamloops to handle a lumbering contract.

Mr. Lockwood, inspector for Molsons Bank, is on a visit to the city.

Dr. A. P. Procter, of Kamloops, was elected president of the B. C. Medical Society.

Miss Smith, daughter of Mr. S. Smith, returned home from Vancouver yesterday.

Messrs. Stuart McDonald and E. Moscrop have moved into their nice new homes on First street.

St. Andrews Willing Workers contemplate a Scotch concert for St. Andrews night, the 30th inst.

Miss Hobbs has been appointed to the staff of the city school and will enter on her duties January 1st.

G. S. Waterlow of London, England, and who is a director of the LeRoi and Snowshoe companies, spent Monday in the city.

The ladies comprising the various committees of the Hospital Guild are leaving nothing undone to make a success of the ball.

Pauline, the 12-year old daughter of Mr. and Mrs. Sayer Smith, underwent an operation at the hospital Sunday for an advanced case of appendicitis.

Ernest Adair was married on Thursday at Calgary to Miss Alcock, and they have the best wishes of the bride groom's friends here for their future happiness.

The marriage of Judge Spinks, of Vernon, and Miss Clapham took place at Christ church cathedral, Victoria, Wednesday. F. J. Fulton, M. L. A., of Kamloops, supported the groom.

E. Corning is on his way back to Revelstoke and expects to arrive about the 16th. His mother had sufficiently recovered to be able to move to the residence of another son in Chicago.

At the Epworth League Monday a consecration meeting was held, led by Miss Dent, who gave an interesting paper on "Lessons from the Life of David." "Elijah" will be the subject of meeting next Monday, several members reading papers on the old Patriarch.

J. J. Foley leaves next week on a visit to Toronto, going by the Crow's Nest Pass route. He will probably spend the winter in California. The good wishes of Mr. Foley's many friends go with him on his well-earned holiday. G. S. McCarter has been appointed his attorney to look after his business interests here.

At the Shakespearian Society meeting on Tuesday at the vicarage A. E. Hagger was appointed critic as E. A. Haggen had written stating he could not act. The evening was spent in study of first act of "Much Ado About Nothing." Mrs. Haggen provided refreshments. The society is a great success, showing a steady accession of membership.

Mrs. John Palmer gave one of the most enjoyable parties that have been held in the city on Hallow'een night. About thirty attended. The old Scotch practice of "ducking" for the apples created great fun. There were games and songs. Potato cake, fruit cake, sweets and refreshments were served, with the finding of the secrets which tell of future fortunes. At midnight all joined hands and sang "Auld Lang Syne," "good night" being said with the "Auld Scotch grip."

On Saturday the marriage took place of R. Hodge, the well-known solicitor of Ferguson, and secretary to the Great Northern Mines, to Miss Woodward, who resided for about two years in Revelstoke and made many warm friends here. The ceremony was performed at the residence of Mr. and Mrs. W. Macdonald, of Ferguson. A wide circle of friends of the bride and bridegroom will join with us in wishing them a long and happy wedded life.

The wedding took place at Vancouver Wednesday of Engineer Purvis to Miss Helen Dunn, formerly of Revelstoke. Mr. and Mrs. A. E. Solloway of Revelstoke, attended the wedding. The best wishes of their old friends in Revelstoke are conveyed to the bride and bridegroom. The ceremony was performed by Rev. H. L. Roy of Christ church, at residence of the bride's brother-in-law, L. T. Solloway, Harwood street. Miss Frances Evans, of Dawson, cousin of the bride, was bridesmaid, while Alexander Purvis, brother of the groom, was best man. Mr. and Mrs. Purvis, who were the recipients of a large number of presents, left on the Seattle train en route to Portland on their honeymoon trip and on their return will take up their residence at Field.

## RAIL AND STEAMER.

The C. P. R. has decided on building a million dollar hotel at Winnipeg.

Eugene Clark, C. P. R. car repairer, was killed at Calgary by being caught between cars.

The C. P. R. will keep open this winter their hotels at North Bend, Glacier and Field.

The yard at Revelstoke is being laid with 80 lb. steel, making it uniform with the rest of the permanent way.

Supt. Kilpatrick has received instructions from headquarters to make all possible retrenchment in C. P. R. expenditure for the coming winter.

No. 2 was cancelled Monday on account of the engine going through a washout at Lytton. The engineer and fireman escaped without injury.

Mr. Leach, of Montreal, has been appointed C. P. R. resident engineer at Revelstoke in succession to Mr. Kendall, resigned. Mr. Leach entered on his duties this week.

The C. P. R. has inaugurated a daylight service on Trout lake, the steamer reaching Trout Lake City at 4.45 p.m. The service will be dropped when the lake freezes.

The committee of the western and central C. P. R. divisions of engineers have gone to Montreal armed with the poll of the members which was unanimously in favor of the new schedule demanded.

A C. P. R. official says the operating expenses for September, amounting to $2,734,735, were so heavy that there was a decrease in the net earnings as compared with September of last year, amounting to $208,488.

The Columbia river route will be kept open till the ice commences to interfere with the steamers, when it will be dropped till spring, and all passengers, baggage and freight transferred by Nakusp and Slocan lake.

The C. P. R. firemen's demand of 40 per cent increase in wages is creating an interesting position, as it is believed the company intend to fight. Men are being sent from Toronto and eastern points to prepare for trouble.

Mr. Gutelius, chief engineer of the C. P. R., went over the mountain division last week in company with General Supt. Marpole and Supt. Kilpatrick and expressed his satisfaction at finding the roadbed in first-class shape.

The C. P. R. have been making fresh surveys of the yard in the city this week. It is understood that much more yard accommodation is required and will have to be put in, also that fresh application will be made by Supt. Kilpatrick for a new railway station at Revelstoke.

Passenger trains along the C. P. R. will be illuminated by acetylene entirely. Experiments with it which have been in progress for some time have been so entirely satisfactory that its general use has been ordered. A plant to generate the gas for recharging the storage tanks will be put in at Vancouver yard.

Rudolphe Forget, the leading Montreal broker, predicts that in five years' time Canadian Pacific stock will sell at a higher figure than any other road in America has ever sold before. To this a leading Montreal financier adds: "Well, I believe in it. If our immigration keeps up at the clip it has been setting this year Canada is not only in for a big improvement, but another great boom. Most of the roads in the States have reached the limit. They have tapped their resources. The C. P. R.—well, it's in its infancy. It's not out of long clothes yet. I'm a bull on C.P.R. and a bull on Canada."

Subscribe NOW for the Mail.

## POLITICAL.

The four Victoria seats won by the liberals by such large majorities have been protested.

Premier McBride proposes to introduce at the session called this month a million dollar loan bill.

There is great indignation at Fernie over the action of Attorney-General McPhillips in preventing the Fernie recount.

John Houston says: "If every member who got drunk were excluded from the house, they would not often have a quorum."

The Laurier government will have another big surplus, as the revenue for the first four months of the financial year is $2,046,000 over same period of last year.

Referring to Premier McBride, John Houston, speaking at Nelson, said: "I had discovered he was not above deliberate lying, and I don't believe the people of British Columbia want a liar for a premier."

The Bishop of Columbia declares his satisfaction with the principle laid down by the lieutenant-governor that he has a right to refuse on moral grounds his sanction to a man's cabinet office holding.

H. Wright of Yorkton went to the coast for a portfolio. He said: "I have got just as much brains as either Fraser, Fulton or Tom Taylor, and if there are any portfolios going begging, I don't see why I should not put in for one of the."

Mr. R. G. Tatlow says—"I have been frequently asked if the government can carry on business. I have not the slightest doubt in my own mind the government is going to carry on business, not only through the next session but for the next four years."

The Laurier government's preferential tariff policy is bearing good fruit. South Africa has agreed to accept the policy with the result that Canadian goods will now have the benefit of the preferential tariff with that country, thus forging another link in the chain of Empire.

Hon. R. G. Tatlow has added another great plank to the conservative platform, the destruction of crows in Vancouver, for which the overburdened public treasury is to pay 5c a head for dead crows. Great national policy, isn't it, when main roads in Kootenay are in impassible condition?

A trial order will convince you that it pays to have your printing done at the Kootenay Mail office, Revelstoke.

# THE BIG BEND.

## *Progress in Lumbering, Placer and Lode Mining, and Ranching.*

(Continued.)

CARNES CREEK.

Several claims have been located on Carnes Creek. The ore is mostly arseno-pyrite, carrying occasional high values in gold and some copper. The property on which the principal development work has been done is the Carnes Creek Consolidated, and Messrs E. McBean and J. P. Kelly have also done a large amount of work on their property.

CARNES CREEK CONSOLIDATED.

The Carnes Creek Consolidated Gold and Mining Company was organised in Revelstoke in 1898 by I. T. Brewster. A great many Revelstoke people are interested in it. The following are the officers:—F. McCarty, president; C. H. Temple vice-president; J. M. Doyle sec-treas; Directors W. Cowan, T. Kilpatrick. The Company was organised with a nominal capital of $1,000,000 in a million shares of $1 each of which 600,000 were allotted to the treasury.

I. T. BREWSTER, ORGANISER OF CARNES CREEK CONSOLIDATED.

THE TRAILS.

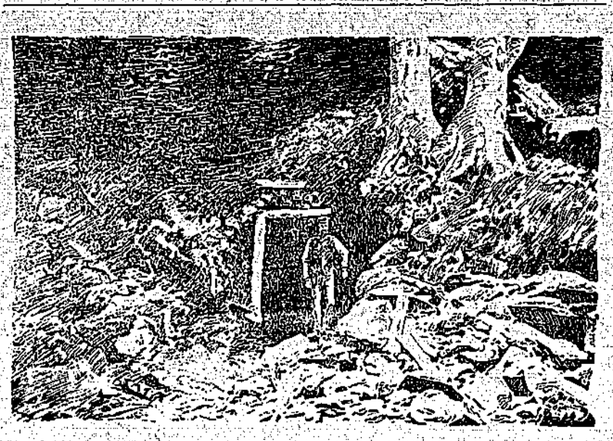
The property is one of the most convenient locations in the district and has been under development for some years. It is located on the mountain between the north and south forks of Carnes Creek. A trail about seven miles in length connects the property with the river and the Big Bend trail. The trail to the mine is one of the best in the district. The property includes eight claims with an area of 360 acres. Four miles on the main trail up the north fork trail branches off, and this leads to the millsite of 155 acres which has been located and purchased by the company.

The millsite is at an elevation of 2,600 feet above the sea level. We are informed a good wagon road can be got along Property Gulch to the millsite.

From the junction of the trails the main trail up Carnes Creek descends to the crossing of the north fork, and a steady climb of three and a half miles takes the visitor to the point at which the trails leading to the company's properties have their junction. The east trail goes the Salisbury, the extreme claim of the company's group while the north trail leads to the camps and workings on the Roseberry.

THE SALISBURY.

The formation consists mainly of alternate deposits of lime and schist, the latter being largely of the graphitic variety, and the ore bodies occur in the schist or at the contact of the schist and limestones. The principal



TUNNEL ON SALISBURY CLAIM OF CARNES CREEK CONSOLIDATED GROUP.

orebody is that extending from the Roseberry across the summit of the mountain to the Salisbury, and this appears from the development on the Roseberry to occur in a fissure formed in the graphitic schist with the hanging wall in proximity to an intrusive dyke, which has resulted in contorting of the schists. The strike of the formation is N. 75 W. with a northeasterly dip of 62.

On the Salisbury claim a tunnel has been driven to develop that portion of the group. There are no outcrops visible here and the tunnel has been run in the direction of the dyke, in which two streaks of ore show. The tunnel has encountered a large amount of arsenical iron float, but has not, as far as run, reached rock in place This tunnel is at an elevation of about 5,500 feet. An open cut has been run for 25 feet and the tunnel for 26½ feet. Mr. Brewster informed us that samples from this float ran $14 in gold. Several open cuts have also been run by way of exploration.

The Imperial claim of the group parallels the Salisbury and is located westerly on the same surface indications as the ferruginous dyke.

On the summit of the mountain this dyke carries a quartz lead 2 ft. wide with a strike of N. 63 W. and carrying free gold. It dips 45 S. W. This lead occurs between graphitic schist on the hanging wall and argillaceous schist on the foot wall. Another quartz vein occurs on the contact with the me but no work has been done on it. These leads also outcrop on the west side of the mountain towards the north fork.

Decending the summit towards the Roseberry several quartz stringers are seen outcropping, also a quartz lead five feet wide occuring between lime and graphitic schists.

The dyke on which the principal ore body has been encountered is traced by open cuts from the Salisbury to the Roseberry claim, the tunnel on the Salisbury being about the same level as that on the Roseberry.

DEVELOPMENT.

The development of the Roseberry consists of open cuts and two tunnels. No. 1 tunnel has been run on the lead and shows a well-defined footwall of graphitic schist, with a dyke on the hanging wall having a strike of N. 63 W. and dip of 67 S. W. The vein is 14 inches wide where opened and widened in 12½ ft. to 3 ft. The ore occurs in streaks. 25 ft. in the tunnel leaves the footwall and runs partly in the dyke, where there is six inches of solid ore, which is followed. 35 ft. in a winze was sunk 15 ft. and the ore chute narrowed to an inch or two at the bottom. Ten feet further the ore chute narrows to three inches, and in another 25 ft. runs out and comes in again. At the winze the course of the tunnel is altered into the graphitic footwall. On the south side a crosscut has been run 15 ft. in schist and lime, and on the north side another crosscut has been run into dyke matter and shows a little ore.

This tunnel is 121 ft long. The face is in white quartz, showing ore over a few inches. From the surface exposures the dyke on which this tunnel is run is 50 ft. wide. There are ten tons of ore on the dump which is said to give high assays, the values running from $17.50 to $230 per ton in gold.

No. 2 tunnel is 100 ft. below No. 1. A crosscut was run 117 ft. to the lead, which was then drifted on southerly for 510 ft. An ore shed 100 ft in length was built at the mouth of this tunnel and there is about 100 tons of ore on the dump. The ore from this tunnel shows a new feature, so we of it being bespangled with chalcopyrite. A tram has been laid the length of the tunnel and a hot air system of ventilation fixed. The formation traversed in crosscutting is lime, dioritic dyke matter, graphitic schist and shale. The ore encountered in this tunnel is from a few inches to four feet wide, and it looks as if a chute of copper ore were coming in from below. The persistently high gold values are an encouraging feature of the property. 250 lbs. of ore shipped to Pellew-Harvey & Co. for sampling returned 1.1 ozs. gold, or $22 per ton. That firm reported in favor of cyanide treatment for this ore. No doubt the system would do for the iron ores, but the rest appears to carry too much copper to be amenable to that system. The property requires development at greater depth to ascertain the prospective value of the copper intrusion, as it may lead to a body of ore similar to those found in Standard Basin, which lies over the summit. The dykes on Standard Basin appear to extend through this section of country.

There is plenty of timber and water power on the property and a good camp is ready for use. The company have expended about $30,000 on the property, and it is one well worthy of further investigation. The camp is about 5000 ft. above sea level.

RELIEF AND RETRIEVE.

These two claims are owned by I. Shaw, J. A. Stone, Guy Barber and R. N. Doyle. They are located on a ferruginous dyke further up the mountain than the Salisbury. Development work consists of open cuts of 25 feet and 10 feet, and a tunnel of 25 feet. For the first nine feet the ground through which the tunnel is driven is much decomposed. The rock passed through shows iron sulphurets freely and it is stated these carry about $6 in gold. It is difficult to say what the width of the dyke is owing to the amount of slide rock, but it appears to run from 60 to 100 feet, and lies between lime beds with metamorphic schist on the hanging wall. The tunnel is at a point 6,128 feet above sea-level. The dyke has a strike of N. 40 W. with an easterly dip of 48 N. E. The tunnel has been extended since our visit.

THE ABERDEEN.

J. M. Kellie's claim, the Aberdeen, lies about 1,000 feet below the Carnes Creek company's ground on the north fork of Carnes creek, and it is said to have a fine showing of ore, but we were unable to see it owing to a storm setting in. The location is supposed to be on the extension of the Carnes Creek company's ore body. A tunnel has been run 100 ft. to develop a fine showing of ore exposed in an open cut, but has not yet reached it.

EAST FORK.

There are several locations on the east fork. Considerable development has been done and there is a fine showing of ore. The J. & L., Dundee, and Eli are owned by J. P. Kelly and L. T. George. The lead on the J & L is 2½ ft. wide, and carries six inches of solid gold-bearing arseno-pyrite on the footwall, with ore scattered over the rest of the vein, and lessening towards the hanging wall. On the footwall is calcareous shale, with mica-schist on the hanging wall. The ore is well exposed in a bluff. Development work consists of an open cut 15 ft in length. The main lead strikes N. 53 W. with a northerly dip of 42. On the upper side is another small vein, showing four inches of solid ore, and on which an open cut has been run. At a point 400 ft. above the work already referred to, another open cut has been run 20 ft. on the main lead, and shows three inches of solid ore, with two and a half feet of concentrating ore. 75 feet further up thirty feet of development work has been done, half open cut and half tunnel. The lead is here two feet wide, with well-defined walls showing gouge on each side and carrying solid ore over the entire width of the lead. Ore runs into the hanging wall as well. There is two and a half tons of good-looking ore on the dump. The lead is exposed up the mountain side for a vertical depth of 750 ft.

ANNIE M.

This property is jointly owned by E. McBean and J. P. Kelly, who have done a lot of work on it, with the result that it shows the largest orebody yet developed on Carnes creek. The first open cut has been run 35 ft. and shows two paystreaks of two and three inches in width respectively. 500 ft. further along the lead another open cut has been run for 15 ft. and shows 20 inches of ore. A ton of ore is on the dump. 250 ft. from the lower boundary of the claim a crosscut tunnel has been run for 110 ft. At 80 ft. from the portal ore was encountered, and cross cut 30 ft. to a well-defined footwall. The true width of the lead is about 7 ft. with lime on footwall and schist on hanging wall. There is ore almost the entire width but it is much decomposed by oxidisation. The values run from $6 to $7 in gold so that the ore appears to be of payable grade if future work should prove it in sufficient quantity, for there is no better situated property so far as economical mining is concerned. Great depth can be got on the orebody, the claims are splendidly situated for transportation, there is abundance of water-power at hand, and plenty of good timber on the ground. The altitude is the lowest of any mining location in the district, being only 3,250 ft above sea-level.

The tunnel displays excellent mining. There are two tons of ore on the dump. Another open cut shows a foot of ore with paystreak of three inches.

Above the Annie M is the 98, also owned by Messrs. Kelly and McBean. The prospects of this portion of Carnes creek warrant further development and investigation. The formation consists of limestone, interbedded with schists, and the ores occur at the contacts of the two classes of rock.

## *NEW PATENTS.*

Rowland Brittain, Patent Attorney of Vancouver, reports:—

F. H. Macey received this week a French Patent on his automatic Railway Switch.

W. D. Muir, the well known baker, of Vancouver, has received a U. S. Patent on improvements in bread baking ovens.

Mr. Muir's oven belongs to that class known as "continuous" in that the heat is maintained by flues, in distinction to those which are heated by a fire kindled within the oven itself, and which require to be swept and cleaned out between the bread charges. Mr. Muir's improvement has been directed to the provision of an oven proper or bread chamber separated by thin metal partitions from the wide shallow flues extending across the entire width and length of the oven; such flues being so arranged that the furnance and ash pit doors are at back end of the oven and outside of the room in which bread is made and handled, so that it is not exposed to the dirt and dust incidental to firing and flue cleaning. The invention further comprises an oven draw plate on to which the bread may be transferred from a steam heated prover table without handling of the loaves, and similarly, after baking the draw plate is run out by mechanical means and transfers the bread without handling on to a table placed for its reception. The whole arrangment has been carefully considered to render baking more perfect and uniform and to reduce the amount of handling to which it is customarily subjected. The invention is installed in Mr. Muir's Mount Pleasant bakery and has, we are informed, given complete satisfaction.

## *A Timely Suggestion.*

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you get the best. It always cures. For sale by all druggists.

## NOTICE.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, viz.:

Situated on Cultus creek, Kootenay lake, and beginning at a post marked Mary Porisseau's northwest corner about two miles above the forks, running east 40 chains, thence south 160 chains, thence west 40 chains, thence north 160 chains to point of commencement.

MARY PORISEAU,
Nelson, B. C., Sept. 22nd, 1903.

## LOCAL & GENERAL.

R. Tapping is adding a supper room to the opera house.

Fifteen footballers were killed in the wreck on the Big Four on Saturday.

The regular meeting of the city council lapsed last night for want of a quorum.

E. Schmitz, the union labor candidate, has been elected mayor of San Francisco.

A. W. Edge is putting up a 5-roomed house on the Abrahamson addition at Trout Lake.

The Talent Society have decided to add a verandah and storm porch to St. Peter's church.

McClellan, the Tammany candidate, was elected Mayor of New York by 70,000 majority.

The Harold Nelson Co. will appear at the opera house, Revelstoke, on Nov. 16th and 17th.

H. A. Brown has made one of the finest lawns in the city at his new home on Victoria road.

Trout Lake City will shortly be lighted up by electricity supplied by the new sawmill plant.

The importance attached by the government to the Camborne-Beaton road is that since the election one man appears to be regularly employed on it.

The Arrowhead public hall company had a meeting the other day when J. J. Foley was re-elected president, B. F. Gayman secretary-treasurer and G. T. Newman manager.

Yesterday morning the firebell rang out an alarm, the cause being the woodwork in Ald. Law's house catching fire through an over-heated stove. Little damage was done.

An appeal against Judge Forin's decision dismissing the garnishee summons issued by Mrs. Jowettt against a boarder not paying board was allowed by the full court at Vancouver.

The city police are kept busy. In addition to handling a number of drunks they had the son of a real live lord in the coop this week for vagrancy, besides a case of alleged larceny.

The quarterly meeting of the Lord's Day Alliance will be held in the Presbyterian church on Wednesday next at 8.30 p. m. All interested in the society's work are cordially invited to be present.

Judge Forin has fixed the following county court sittings: Jan. 6th, Revelstoke; 7th, Golden; 11th, Nelson; 14th, Rossland; 19th, Kaslo. For Trout Lake first sittings have been set for May 25th.

On his return from his trip last week Gen. Supt. Marpole told the Province: "The Kootenay and Boundary districts are enjoying great prosperity, and there is not a cloud of possible trouble in the sky."

Mayor O'Brien, who returned Saturday from a trip to Fish creek and Lardeau points, describes the Camborne-Beaton road in frightful condition. He found Trout Lake City and Ferguson very brisk.

Hallowe'en pranks were carried too far on Saturday night, when several windows in the new school were broken. Windows were also broken in private houses. This is carrying jokes too far and every effort should be made to discover the offenders and punish them severely. If lads are taught to believe they can destroy property wantonly this way and go unpunished it will have a bad effect on their future lives.

## RED CROSS DRUG STORE.

J. A. Buckham, having acquired the above store, is putting in a first class stock of

DRUGS AND STATIONERY

A fine assortment of Bulbs for sale at a bargain.

New stocks ordered to arrive.

PRESCRIPTIONS CAREFULLY PREPARED

The Dominion government have resumed work on improvement of the upper river, a crew having left Thursday for seventeen-mile riffle, where the first work will be done.

At last night's meeting of the Socialist League last night a discussion took place on "The Class Struggle," the subject being introduced by B. F. Gayman. G. W. Bell made the speech of the evening.

It is generally supposed that hotels can open bars after polls close on election day, but the Rossland magistrate holds the bars must be closed all day and fined several saloon-keepers who opened after the poll closed.

Bourne Bros. have purchased W. Fleming's lot next their warehouse on Second street. The deal was put through by Lewis Bros. The same firm also arranged the sale of E. Kimberley's house on Fourth street to E. Bourne.

We have received from J. F. Leonard, formerly of Salmon Arm, now of Beavermouth, a copy of his waltz "Lights of the north." The piece is very pretty and displays accuracy of ear in the composer and considerable tunefulness. Copies will be placed on sale at the local book stores.

The Illecillewaet settlers are mad over the way they were "had" before the election with the promise that their road should be fixed up and their bridge which was swept out replaced. They were put to work on it a few days before polling, and immediately after the election the work was stopped.

Says the Rossland Miner: "A good newspaper should be the pride of every citizen in the community where it is published. There is no other institution which constantly, through thick and thin, cloud and sunshine, stands by the people and their interests as the local paper. There is nothing which so ungrudgingly gives its time and talents to the local good as the local home paper. Stand up for it and it will fight for you to the very last ditch."

### Wakeful Children.

For a long time the two year old child of Mr. P. L. McPherson, 59 N. Tenth St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by all druggists.

## SHOOTING.

### Prize List of the Rocky Mountain Rangers.

The following are the prize winners in the Morris club shooting: Corp. Hanson first, Pte. Bolton second, Sergt. Ringer third, Lt. Com. Brown fourth, Corp. Fleming fifth, Corp. Spurling sixth, Pte. Burger seventh, Sergt. Hart eighth, Pte. H. Jamison ninth.

## CHURCHES

REVIVAL MEETINGS.

The revival services held by Rev. W. E. Christmas at the opera house Sunday at Ald. McMahon's residence in afternoons and at Methodist church during the evenings of the week have been well attended. The rev. gentleman is a powerful speaker.

METHODIST.

Rev. W. E. Christmas will preach in the Methodist church on Sunday morning 11, afternoon 3, and evening 7.30 o'clock. Mr. Christmas leaves for the east Monday.

SALVATION ARMY.

Special services will be held in the Salvation Army hall Saturday, Sunday and Monday, conducted by Capt. Shanby, of Spokane. Sunday evening will be the memorial service of the late Mrs. Booth-Tucker. Monday evening a stereopticon service. Don't fail to come.

## LABOR'S CALL.

There is trouble with the C. P. R. boiler-makers at Montreal. 20 men were laid off and it is said the company are importing men from England to take their places.

President Mitchell has ordered a strike of Colorado Fuel & Iron Co's. men, involving 18,000.

The American Federation of Labor is prosecuting Vicksburg citizens who drove their organiser out of the town.

The Western Federation of Miners and the United Mine Workers of America are planning a merger for the purpose of combating all opposition to organized labor.

## LUMBERING.

T. J. Graham has taken a loggin contract on Deep creek for the Arrowhead Lumber Co. and has put in hi camps.

R. G. McPherson, M. P. for Burrard, points out the excellent effect the application of the preferential tariff, which the Laurier government has arranged with South Africa, will have on the lumber industry of British Columbia.

## BUSINESS LOCALS.

Piano for rent. Apply to Lewis Bros.

Order your hard coal from H. N. Coursier.

Four good cottages to rent. Apply Lewis Bros.

Dr. W. J. Curry, resident dentist, Loughead block.

W. Fleming has arranged to open a butcher's shop on First street.

Cash must accompany all coal orders from this out.—J. C. Hutchison.

Macdonald & Monteith are unpacking a fine stock of glassware. Come and see it.

The St. Leon Hot Springs has been opened and is now ready to accomodate visitors.

Remember the hospital ball on November 20th. Gentlemen's tickets $2, ladies $1.

For Sale.—A bargain. House, furniture and three lots. Well situated. Apply to H. N. Coursier.

Travellers visiting Revelstoke will find the best accomodation at the Central Hotel. Abrahamson Bros. Props.

Ladies and gents purses and pocket books all styles and prices. The newest kinds always at Canada Drug & Book Co.

When you come to Revelstoke hail the Central Hotel bus to take you to a good hotel. Abrahamson Bros. Props.

A 25c. bottle of cream of witch hazel will keep your hands and face from getting sore and chapped. The Canada Drug & Book Co. make it.

Macdonald & Monteith draw attention to their stock of ready-made clothing. Another car each of vegetables and groceries has been unloaded.

Guy Barber has opened up a fine stock of new goods including silver mounted oak trays, sterling silver manicure sets, liquor sets and sterling silver novelties.

For a hard cough, one that you can't get rid of, try the tasteless preparation of cod liver oil, it will case you $1.00 a bottle at Canada Drug & Book Co's.

In my opinion any one who has anything to sell and stays out of THE KOOTENAY MAIL brands himself by that one thing as being several decades behind our progressive age.

Why keep tripping yourself up with that old carpet when you can get a splendid new carpet square, Oriental Turkish pattern, which will keep your floor warm for the winter, for a few dollars at John E. Wood's.

The drug stores of the city have arranged so that on Monday, Wednesday and Friday of each week one of the stores will be open each night until 9 o'clock. Dont wait till closing time before you start on your errands.

It is coming winter and you will want to dry your clothes inside. We have extension clothes horses, also horses without clothes, if you would prefer that particular brand.—John E. Wood, the People's Furniture House.

R. Samson finds his firewood business so rushing he has 12 men cutting cordwood, and brought in this week from Okanagan valley a first-class team of horses to add to his draying outfit. He expects to have to add still another team.

Another large shipment of bed springs and mattresses just in. You want a good mattress for the winter, and a good mattress without a good spring is no good—you want one that will stand the strain, we have a special brand. Come and see us.—John E. Wood, the People's Furniture House.

Miss Lennox, B. A., has opened the Business College in the city building on Second street. This college will be a first-class institution and should be liberally supported by the young people. Miss Lennox also gives tuition in advanced subjects, and is now arranging classes in Latin and French for which subjects names of intending students should be handed in.

Do you want the news of the approaching session FREE? Subscribe for the Victoria Daily Times, for 1904, and receive the paper free until the end of this year. This offer is for cash-in-advance subscribers to the Daily ($5.00) or the Twice-a-week ($1.00.) Full and impartial reports, half-tone cuts of members, cartoons and corridor gossip. Four page colored comic supplement every Saturday. Remit to the "Times," Victoria.

## FIRE VALLEY.

(From our own correspondent.)

Wm. Calder left for Nelson on the 1st.

Miss Lingley has gone to spend a few days in Nakusp.

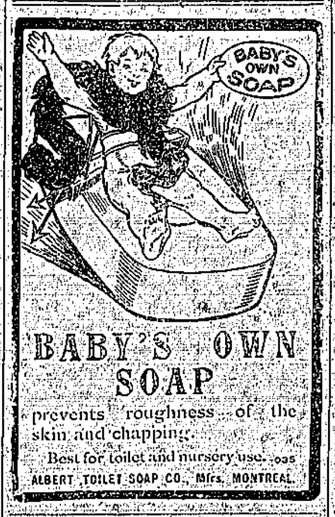
Mr. Genelle returned to Nakusp Wednesday after spending a few days in the Valley hunting and looking up timber.

A serious accident occured at the logging camp of Wm. Calder. The little boy of Mr. and Mrs. Tone, while at playing fell, striking his face on a claw hammer and it is thought he has seriously injured one eye. His parents have taken him to Nelson for medical attention.

The conductors intend taking up the dismissal of several of their number without cause.

### Spent Over $2,000 Doctoring.

Mr. Joseph Pouinville, of Stillwater, Minn., after having spent over $2,000 with the best doctors for stomach trouble, without relief, was advised to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man to-day. For sale by all druggists.



BABY'S OWN SOAP

prevents roughness of the skin and chapping.

Best for toilet and nursery use. 095

ALBERT TOILET SOAP CO., Mfrs. MONTREAL.

Tenders for a License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED TENDERS addressed to the Timber and Mines Branch Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 363," will be received at this Department, until noon on Wednesday, the 2nd day of December, 1903, for a license to cut timber on the following described lands, comprising Sections 10, 11, 12, 13, 14, 15, 22, 23 and 24, in Township 22, Range 4; Sections 7 and 18 in Township 22, Range 3, and those portions not covered by Timber Berths Nos. 333 and 71 of Sections 1 and 12, in Township 21, Range 3, all West of the 6th Meridian, containing an area of twelve square miles, more or less.

The regulations under which a license will be issued, also printed form of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster.

Each tender must be accompanied by an accepted cheque on a chartered bank in favour of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

No tender by telegraph will be entertained.

CORLEY G. KEYES,
Secretary.

Department of the Interior,
Ottawa, October 19th, 1903.
