Newly built. First-class in every respect. All modern conveniences. Large Sample Rooms.

Rates $1.50 per Day Special Weekly Rates.

Queen's Hotel, Trout Lake, under same management.

LUMBERING INDUSTRY

A Busy Season for the Mills in This Locality.

The lumbering business in North Kootenay this season has been exceptionally brisk. At Revelstoke the Fred Robinson Lumber Co. has put out a large cut, also at Comaplix. The Revelstoke Lumber Co. has also made a considerable cut for a new concern.

The Columbia River Lumber Co.'s mills, with headquarters at Golden, has cut about 10,000,000 feet. Their mills at Golden, Beaver and Kault are still running full time.

At Palliser Hon. W. C. Wells's mill has shut down owing to low water in the Kicking Horse preventing driving logs, but has cut 3,500,000 feet this season.

Even the small mill at Ottertail, owned by Reilly Bros., has turned out a lot of lumber and has still quite a pile alongside the track.

Next season's operations will see the lumber output of this section still further increased.

ENTERTAINMENT.

Visit of The Boston Entertainers.

On Thursday next the Boston Entertainers will appear at the opera house, Revelstoke. The party consists of Cyrus Brownlee Newton, the noted humorist and comedian, and Miss Jean Durell, the brilliant entertainer. The piece will be the beautiful comedy: I. "A Pair of Lunatics"; II. "A Happy Pair."

CYRUS BROWNLEE NEWTON.

Of Mr. Newton, we publish the following golden opinions:

San Francisco Examiner: "Cyrus Brownlee Newton captured his audience immediately. As an entertainer he possesses extraordinary ability. He has few equals and no superiors."

Supt. Anderson, of the California schools said: "Newton is peerless. He can make his audience laugh or cry. He seems to enjoy making his audience laugh. As a man he is as noble as he is funny."

The Sydney Bulletin, the best critic of the Southern Cross, says: "Of Newton we must say he is a typical 'Yankee.' He possesses the dash, brilliancy and rich droll humor common in his countrymen. He is fresh, unique, refined and original. He keeps his audience in a continuous roar of laughter. He has made a deep impression here as a comedian of the first rank."

MISS JEAN DURELL.

San Francisco Call: "Jean Durell's talent created quite a stir in this city."

Ebell Club, Oakland: "Miss Durell's impersonations were wonderful. On every side praise of her skill and astonishment at her powers of mimicry and delineation of character is heard."

General Black of Chicago: "Jean Durell, is one of the best public entertainers who has ever visited Chicago. Have heard many but none are so captivating and charming in my opinion. She is equally good in pathos or humor, and can keep an audience in tears or convulsed with laughter at will."

San Francisco Examiner: "Jean Durel, late of Chicago, has a clever knack of rattling off dialects, and the people who crowded the Auditorium of the Y. M. C. A. last evening so thoroughly appreciated her skill in this line that an ovation was given her at the conclusion of her original sketches."

Prices of admission have been fixed at: Reserved seats 75 cents, body of hall and galleries 50c, children 5c.

INDUSTRIAL NOTES.

W. Cowan intends putting in a small dynamo to operate the city telephone system. The dynamo will be run by water power from Long's creek.

Sawyer Bros. have started work on their electric light system for Ferguson and expect to have it in operation by Dec. 1st. D. Dunbar has the contract for erection of power house.

W. M. Lawrence's establishment is very busy, having orders for putting in eight furnaces. The firm is also manufacturing a new design of air tight heater, which is one of the best on the market. Several of these heaters have been made and are on exhibition at the store.

LABORS CALL.

The Voice, the best labor paper of the Dominion, endorses the stand taken by us on the Arbitration bill, and says:—"We very much fear that in its action on the Railway Disputes bill and its platform on compulsory arbitration the Trades Congress of Canada has shown a material weakness and done serious harm to the labor cause. The harm has been done in condemning the very principle that organized labor in Canada previously stood for. For be it known that compulsory arbitration is wider in the field of its benefits than are the furtherest bonds of organized labor.

Complaints are made at Winnepeg about the meal rate on the C. P. R. dining cars being advanced to $1.

EVA MINE SOLD

Stamp Mill to Be Erected.

The Eva mine, a full and accurate description of which recently appeared in our colums, has been sold by the Imperial Development syndicate to a company being organized by A. F. Rosenberger as the Calumet and British Columbia Gold Mines Limited, with a capitalization of $500,000. It is intended to erect a ten-stamp mill, and ten acres of land have been acquired from the owners of the Camborne townsite as a mill site. A tramway will connect the mine with the mill. One hundred thousand shares have been taken up in Rush City, Minn.

The company has secured an option on a third of the townsite of Camborne.

GOLDEN.

Mining Operations Actively Going On in This Vicinity.

There is not a man out of work about Golden, largely due to mining activity there. On Ice river O. D. Hoar, manager for the Laborers' Co operative and a Chicago company, is pushing development work on the properties respectively held by these companies. Work is also being pushed on the Good Luck, a copper-gold property on Canyon creek held by the former company.

The Laborers' Co-operative is having a smelter site cleared and proposes establishing a Vulcan smelter at Golden. They have purchased a large assay outfit which is in charge of Mr. Turner.

This company is not confining its operations to mining, but proposes large building operations and running a daily newspaper at Golden, with a view to keeping the shareholders posted as to the company's operations. This latter part of the scheme will no doubt become a subject of comment in the mining press as the report was hardly credited when it was given out, and is in fact still regarded with doubt by many who can hardly credit that a legitimate mining company would adopt such a scheme. Nevertheless we are assured the scheme is to go through. If it does there will be lively times ahead.

THE MINING INDUSTRY.

W. A. Galliher M. P., Takes Action.

W. A. Galliher M. P., has issued the following circular to mine-owners:

"Owing to some divergence of opinion as to the best means to be adopted for the encouragement of silver lead mining in British Columbia, I desire that the mine-owners fix a time and place for the discussion of this subject and also as to the admission into Canada free of duty of all mining supplies and machinery not manufactured in Canada, and the lowering of duties on certain other mining machinery manufactured in Canada.

I shall be pleased to attend any such meeting in order that I may have their views thereon to aid me in my endeavour to bring about conditions most favorable to the mining industries in my constituency.

I might add that the views of the Boards of Trade and smelter men and some of the representatives of large silver lead mines in my riding on the question are already before the government.

I would like this matter to be taken up in earnest by the mine-owners and to be advised of the time and place of meeting."

THE MINES.

The Beatrice is being acquired by Minneapolis capitalists.

Guerre Bros. report a 3½ foot vein assaying well in gold, silver, and lead on Isaac Creek.

There is excitement at Trout Lake over the discovery of free gold within half a mile of the town.

Another rich strike of placer gold has been made on Little Bull river. There is considerable excitement at Fort Steele in consequence.

Rich discoveries of platinum in ores in Similkameen district are reported. On two claims assays show three ounces of platinum to the ton.

J. Shaw has been informed that grey copper has been struck on the Relieve and Retrieve claims on Carnes Creek, on which considerable development has been done this season.

The Double Eagle have let a contract to the B. C. Riblet Co. of Nelson for the erection of the aerial tram at the Silver Cup and the work has been started. The cost will be $20,000.

J. V. Armstrong, who returned from Ferguson Wednesday, reports great activity in that camp. Cable tramways are being installed at the Silver Cup and Triune, and mining operations are active at the Nettie L.

A MOUNTAIN MYTH.

Prof. Collie Gives Mountaineers A Shock.

Since the days of the Palliser expedition British Columbia has had the reputation of owning two of the highest peaks of the Cordilleran chain in Mts. Brown and Hooker, whose giant heights were said to rise to an attitude of between 13,000 and 14,000 ft. Mountaineers have endeavored to locate these giant peaks, and this season Prof. Collie, the eminent mountaineer and geologist, came out determined to solve the problem. Taking his bearings at Laggan his expedition went along the Bow Valley and took the old trail toward the Yellowhead Pass. They located Mts. Hooker and Brown, but to their astonishment found them no higher than some of the other mountains in the great range, their altitude being only about 9000 feet.

SILVER CITY.

A Relic of the Past--Once a Flourishing Burg.

Once there rose on the C. P. R. line at the foot of Castle Mountain a city that flourished for a time and looked as if it had come to stay. It was named Silver City, on account of the discovery of silver-bearing ores in the vicinity It grew till there were 200 buildings there. Now all that remains consists of an old lime kiln, four log cabins, three of which are occupied by the section men, and one by Joe Smith, a French-Canadian who was the pioneer of Silver City. Joe knows the mountains around like a book, but remains when all else has departed and when he himself recognises that the glories of the town in which he took so much pride have faded for ever.

FALL MILLINERY

A Handsome Display at Reid & Young's Store.

Last Thursday Messrs. Reid & Young opened up this department in connection with their business under the management of Miss Ward who has just arrived from Toronto and Montreal after attending the millinery openings in these cities.

The latest creations in the milliners' art and styles that are to be the rage this season were on display at their show rooms and were universally pronounced, both in style and price, to do credit to the city, and equal to anything to be seen in the larger cities of the west.

The low wide brimmed hats are to be the prevailing fashion. They are raised on the head with narrow firm bandanx, this combined with the broad outline giving a graceful pose and a more picturesque effect than it was possible to obtain from the top heavy creations that have been the prevailing style of late years.

The materials used in making are largely felt, beaver and plush. In trimmings paradise birds wings and plumes are lavishly used in combination with ribbons, laces, chenilles etc., making up most effectively. The colors are varied as usual, the soft pleasing tones and shades are used which rest harmoniously upon the soft felt background.

Green, blues, sapphires, a new red, brown and castor are much in evidence. Everything was selected by Miss Ward personally and the ladies may depend upon the very newest styles in the market that will be fashionable for fall and winter.

BANKING.

C. P. R. stock has dropped to 137¼.

Money is tight in the east and has caused heavy liquidation of stocks.

The Bank of Ottawa have established branches at Emmerson, Man., and Prince Albert.

A. E. Phipps, manager of the Imperial Bank of Canada here, has gone to the Boundary to report on the field for a new branch of the bank.

John A. Munroe, ledger keeper at the Bank of Commerce at Kamloops leaves for the Victoria branch. His position will be filled by Mr. Mason from Victoria.

Banks are crowding into Manitoba and the Northwest. The Commerce opened at Elgin, Man., the Union at Birtle, Man., the Dominion at Boissevain, Man. Within the past three months over twenty branches have been opened by Canadian institutions in entirely new territory, while altogether over 40 have been opened where banks previously existed.

We have not advanced the price of our tobacco. Amber smoking tobacco, Bobs, Currency and Fair Play chewing tobaccos are the same size and price to the Consumer as formerly. We have also extended the time for the redemption of Snowshoe tags to January 1st, 1904.

The Kootenay Mail

FRIDAY, OCTOBER 3, 1902.

Says the Globe: "The Tories are very unlucky fellows. They created the west, created the commerce of Canada, and created all the industries of Canada. But, strange to say, all these prosper more under Liberal than under Conservative rule. No sooner do the Tories go out than the west begins to fill up, factories are enlarged and work day and night, and Canadian exports increased at the rate of $14,500,000 a year."

When the new school building is completed steps should be taken to establish a high school here. During the last three years a number of scholars who had completed their course at the city school have had to be sent to other points to complete their education. When the present school trustees took office they announced their intention of endeavoring to make Revelstoke a first-class educational centre and will no doubt do their utmost to bring that about.

London financial advices show that in withdrawing the B. C. loan for the present Hon. J. D. Prentice, provincial treasurer, acted with more than ordinary shrewdness in the best interest of B. C. The Daily Mail says: "The continued drooping of Consols is not reassuring to investors. During the month of August they saw a steady stream of realization. Yesterday they closed at 93¼ and apparently the lowest is not yet reached. Consequently all leading investment stocks suffer."

LARDEAU RAILWAY RATES.

Complaint is made by local manufacturers that the Lardeau railway is offering unfairly competitive rates against them to Trout Lake, with the result that business hitherto done with this city is going to Nelson. One firm goes so far as to say that the Lardeau railway has no fixed schedule, but carries freight to Trout Lake at rates varying as much as 50 per cent on the same classes of goods. If these statements are correct then the C. P. R. should take steps to have this unjust discrimination put an end to and place the business men of Revelstoke and Nelson on the same footing.

FREIGHT RATES.

Revelstoke is treated most unfairly by the C. P. R. in regard to railway rates. From its geographical position this city should be the principal distributing centre of Kootenay, but it is put at great disadvantage by the operation of the C. P. R. freight system. Nakusp, Nelson and other Slocan points are favored with much lower rates than this city though in some instances the C. P. R. has to do twice the work of haulage. This is grossly unfair to Revelstoke and it is time the business men combined to take up this freight tariff question and demand a reduction to the basis of Nakusp and Nelson.

A COMMERCIAL ASSOCIATION.

Something should be done to have a recognised organization representing the commercial interests of Revelstoke. The Board of Trade is practically dead, and there is nothing to take its place. The Dominion freight commissioner visited this city last year and although the commercial interests here have a serious grievance against the C. P. R. freight rates that official was allowed to enter the city and leave it under the impression that Revelstoke was a sort of railway paradise. Only two or three weeks ago the English Editors did Revelstoke the honor of selecting it as a point to stop off and put in a day. Notice was sent to the city of their proposed visit, but there was no body to take up the matter, arrange a meeting and reception and supply information which could not have failed to have been of material value to the mining and lumbering interests of this section. These eminent visitors had a right to complain of the discourtesy shown them, and cut out the city from their itinerary. The Dominion government immigration agent at Winnipeg wants a collection of ores from this section but there is no association to take the matter up and provide an exhibit which could not fail to be of great value as advertising the mineral resources of the district. These are only a few instances of the many which are constantly occuring, and which require a recognized association, with an energetic secretary, to deal with them and to promote the best interests of the city and district. We trust some active spirit among us will take up this matter and endeavor to organize an association on the lines suggested.

THE CITY COUNCIL.

The city of Revelstoke this week enters on a new career as owner of its own franchises and deriving the benefits therefrom. The acquisition of the water and light will provide the city with an assured revenue which will greatly assist in effecting civic improvements. The city is to be congratulated on having in office this year the best mayor and council it has ever had. Splendid work has been done for the city in the acquisition of the water and light plant and in civic improvements, with still greater benefits in contemplation. That is the way to promote the true interests of the city. The vote on the water and light bylaw was a substantial endorsement by the citizens of the policy and administration of Mayor O'Brien and his aldermen, of which they have every reason to feel proud.

THAT NORTHPORT MILL.

The owners of the Big Bend timber limits know their own business best, but it would appear they are taking a risky course in establishing their sawmill at Northport. There is little doubt the customs tariff will be revised, and one feature of the change will probably be provision for an export tax on logs and iron ore to compel the establishment in Canada of the industries for treating the raw products of the country. The Provincial Legislature could also probably find a means of improvising special taxation on lands such as the Big Bend timber limits, where it is proposed to export the raw material out of the country. This has been the policy of the Dunsmuir government, and an excellent policy it is. If the policy can be applied to such a case as that of the Big Bend limits it should certainly be done.

ARBITRATION.

The labor organisations have fought for years for the principle of compulsory arbitration, and their demands in this have been embodied in the legislation of New Zealand and the provinces of Australia with marked benefit both to labor and capital. It now comes as a surprise to find the Trades and Labor Congress of Canada going back on this old and high standard of unionism, and when Delegate Jackson, of Toronto, entered a protest against the proposal to strike out the compulsory arbitration clause from the constitution the wonder is that he did not meet with greater support. As it was the clause was amended to make arbitration voluntary. It was this very expression "voluntary" which proved the greatest stumbling block in the original Australian law. A corporation rarely wants to arbitrate if it can avoid it.

THE ARBITRATION BILL.

The stand which we have taken on the duty of the labor organizations to Sir William Mulocks's arbitration and conciliation bill has been endorsed by no less an authority than the arbitration committee of the Winnipeg labor party. The committee, in its report, characterised Sir William Mulock's efforts as a distinct gain to labor, as recognising a principle for which organized labor had long contended, but of course condemned the proposal to take from labor its present strike rights, and proposed that the system apply to organized bodies of labor instead of individuals. These suggestions of the Winnipeg labor committee are fair and right and should be adopted instead of turning down the measure wholesale as has been by some of the railway unions.

RALPH SMITH.

Ralph Smith, M. P., has been a credit to the labor party and has immensely strengthened its influence in Canada. The complaint made against him by the unions of Phoenix was a lying, mean and contemptible document, and if it really represented the intelligence of the men who drew it up that intelligence was about the meanest in British Columbia. The best answer to it was that after full investigation, the Trades and Labor Congress, who know Mr. Smith's work best, should have adopted a resolution expressive of the appreciation of the long services of Mr. Smith in the cause of labor, and confidence in the integrity of his motives and his fidelity to the interests of the wage-earners of Canada during a long public career."

A COMPLAINT.

Editor KOOTENAY MAIL.

SIR:—Please allow me space through the columns of your valuable paper to reply to a letter I received from Chief Bain as follows:

"I have been instructed by Ald. Taylor to inform you to return to Fred. Fraser, gold commissioner, 25 yds. wire taken from pest house fence, or pay cost of same, as government has assumed cost in connection with smallpox case."

Now I consider it time the truth should be made known concerning this fence as several parties seem to be interested. As many of your readers will no doubt remember, the council rejected my tender on the fence in the summer of 1901, and continued paying ground rent and advertising same until snow came, so fence was no use till spring, when I would likely need it. Some time last April the city clerk, C. E. Shaw, asked me if I was going to take fence. Informed him I would soon take it away. On May 1st I looked over it; it seemed to be all on the ground, then on May 3rd I went to finish taking down the fence but found it quarantined, a shack built, and the 4x4 posts from several rods of fence were missing from the road side. On or about June 4th I notified the city clerk I was taking down fence, and would pay for it in three days. On June 7th I called at city office to settle for fence. Mr. Shaw referred me to the Chairman of P. W. committee, owing to some change being made. I went to T. E. L. Taylor and explained to that gentleman that since my tender had been accepted by the city the wire had been cut into five times, by order of the city, some posts were missing, and considerable damage done to fence. In reply Ald. Taylor said there had been some extra wire added, also some shiplap left over from building shack, and that I had better take fence as it stood and shiplap and pay city $15.00 as per tender, as he, (Mr. Taylor), considered that would be about a fair deal to make it right with me for damage to fence, also the $3.00 the city promised to pay me for taking it down.

I said "Very well let it go at that". I paid him $15.00 and have the receipt. The following week I teamed the fence and shiplap home.

Now in conclusion, I thank you Mr. Editor for space in your paper, and trust your readers will use judgment in this matter, be fair and peaceably inclined. I sign my name to what I write and certify it is correct.

Yours very truly,
A citizen and rate payer,
R. TAPPING.

HELP FOR MOTHERS

Baby's Own Tablets Are What You Need When Little Ones Are Cross, Fretful And Sleepless.

If a child is cross" fretful, and sleeps badly, the mother may feel absolutely certain that some derangement of the stomach or bowels is the cause. And she can be just as certain that Baby's Own Tablets will put her little one right. These Tablets cure all the minor ailments of little ones, such as indigestion, constipation, simple fevers, diarrhoea, worms and teething troubles. They are guaranteed to contain no opiate and can be given with absolute safety to the youngest and most feeble child. Every mother who has used them speaks of these Tablets in the warmest terms. Mrs. E. Bancroft, Deerwood, Man., says:—"I have used Baby's Own Tablets for stomach and bowel troubles, for simple fevers and teething, and I think them the best medicine in the world. They always strengthen children instead of weakening them as most other medicines do."

You can get Baby's Own Tablets at any drug store, or by mail post paid at 25 cents a box by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

A SNAP TO THE RIGHT PARTY

Owing to a change in business and our inability to properly attend to it, we will lease to any industrious person the Aylwin market garden, Union bay, for a short or long term, at an extremely low rental. The gardens embrace five acres, and are planted with 300 fruit trees—plums, cherries and apples—200 will be bearing next year; 300 currant bushes, 200 blackberry bushes, 100 gooseberry bushes, 200 rhubarb roots and 10,000 strawberry plants. All yielding good crops. Ample ground for garden truck under the hoe. No chinese gardens to compete with. This is a rare opportunity. For terms, etc., apply to

C. & H. AYLWIN,
New Denver, B. C.

RIPANS

For twenty years I had been a sufferer from bronchial troubles accompanied with a hacking cough. At times suffered from extreme nervous prostration. About four years ago I began taking Ripans Tabules, and since then I have used them pretty constantly. I rarely retire at night without taking my Tabule and I find they keep my digestive organs (which naturally are weak) in good order, and they also allay my tendency to nervousness and make me sleep.

AT DRUGGISTS.

The five-cent packet is enough for an ordinary occasion. The family bottle, sixty cents, contains a supply for a year.

A GOOD RECORD.

The Government Have Done a Large Amount of Permanent Work This Season.

Thanks to the excellent administration of Fred. Fraser, government agent, the government have done more permanent work this season for the money than in any previous season. Freighters are hauling six tons to the load, as the result of improvements to the Lardeau roads, and the heaviest machinery is moved over them. Ore is being taken over these roads cheaper than ever, because teams can take five to six tons to the load.

Three hundred dollars has been put into the cut off at Trout Lake; and $1000 in improving the Camborne-Beaton road. The trails through the district have been kept in fairly good shape.

All this work has been done at an expenditure of $6000 out of the grant of $14,500, and another $4000 will be used by December. There will still be funds in hand for the Canoe River trail and other works besides providing for the rush of trail repairs required each spring. Mr. Gamble, C. E. Public Works Engineer, and H. C. Killeen, road Superintendent, have both congratulated Mr. Fraser on the efficiency and economy of his work in the riding.

Of the expenditure the greatest proportion, $2,562, was spent at Trout Lake, and $2,429 in other portions of the Lardeau, and $2,334 at Revelstoke end. Of this amount $150 has been put into a road to connect Big Bend road with the lower town and the work will be completed next season.

CITY COUNCIL.

Regular meeting held Friday. Present: The Mayor, Ald. Taylor, Manning, McLeod, Hume.

CORRESPONDENCE.

Mrs. Willis asking for two-foot walk and improvements in Boyle Ave.—Ald. Manning urged clearing ditch and moving light. The requests were reasonable.—The Mayor considered the flume should be cleared and light fixed.—Works Committee to do work.

Road superintendent authorising use of government road grader.—Machine to be obtained.

R. Tapping complaining of claim for wire he paid for and referring council to Hon. Jos. Chamberland (?) secretary of state for colonies (laughter)—Ald. Taylor explained the only wire sold Mr. Tapping was the original lot.—Ald. McLeod agreed.—Resolved to require Mr. Tapping to pay claim.

H. E. Gillis enquiring re city loan of $65,000.—Information supplied.

C. J. Aman, J. M. Graham, J. Spurling applying for position assistant to city clerk.—C. J. Aman was appointed.

WORKS.

The following tenders were received for gravel: J. C. Hutchison 74 cents per yd., R. Sampson 90 cents, J. M. McCallum 73, J. Kernahan 60 cents west of Boyle Avenue and $1.00 east of Boyle Avenue.

The Mayor said W. Fleming had reported good gravel could be got back of Righton's shack and back of his stable, but the former was private property, and the latter was wet. He considered they could get enough gravel from cutting the high places in Douglas Street and near Robinson's mill.

It was decided to grade and gravel one trunk road through the city, namely First St. from freight shed to City Hotel, Government Road to post office, Second St. to brewery, brewery to Nettle's, Douglas St. and first two blocks of McKenzie Ave.

As there was a misunderstanding about the points from which the gravel should be taken it was decided to call fresh tenders.

FIRE APPARATUS.

Ald. Manning reported re ladder carriage for brigades.

Ald. McLeod, chairman of F. W. and L. Committee, reported the stoves at No. 1 hall in good condition and they had two roof ladders, the acid tanks should be ordered.

Ald. McLeod was instructed to get the necessary ladders made for both halls and order tanks.

SIDEWALKS.

In reply to Ald. Manning, Ald. Taylor said Mr. McCallum had not fixed the sidewalk, but must do so before being paid.

CITY SCALES.

The Mayor said the committee had decided to have the scales set on a rock foundation. The work would be started immediately.

GENERAL.

Ald. Taylor drew attention to the danger to the public from people leaving ditches for water pipes across the street unprotected.

Ald. McLeod urged the high sidewalk should be lowered or railed.

The Mayor suggested moving the old school building to the vacant lot next No. 2 hall for city offices.

We have not advanced the price of our tobacco. Amber smoking tobacco, Bobs, Currency and Fair Play chewing tobaccos are the same size and price to the Consumer as formerly. We have also extended the time for the redemption of Snowshoe tags to January 1st, 1904.

THE EMPIRE TOBACCO Co. LIMITED

WANTED — A TRUSTWORTHY gentleman or lady in each county to manage business for an old established house of solid financial standing. A straight, bona fide weekly cash salary of $18.00 paid by check each Wednesday with all expenses direct from headquarters. Money advanced for expenses. Manager, 310 Caxton Building, Chicago.

DEAFNESS AND CATARRH.

The remarkable reports published by the Drouet Institute show that nearly one-half of the people who are deaf attribute the cause of defective hearing to colds in the head or to the extension of catarrh from the nose and throat to the ear. The general opinion that such forms of Deafness are incurable is also the subject of comment in these reports, and the strongest argument against this opinion is contained in the fact that the Institute is able to publish the records of from 30 to 40 cured cases each month. That these cases are of the most obstinate form is shown by the following —Mr. Robert Allan was deaf for 16 years. The deafness came on after a cold in the head and gradually grew worse. The nose and throat were affected by catarrh, and there were occasional noises in the ears. The complete cure resulting from the Drouet Treatment is confirmed as follows:—

Pow, Innerton, Stromness,
Orkney, Scotland.
March 29th, 1902.

Dear Sir.—Just a few lines to let you know that I am keeping all right still. I am telling lots of people of my cure, and they think it is a wonderful thing. I do not know how to thank you for the trouble you have taken. Yours truly,

R. ALLAN.

Those who are interested in deafness or diseases of the ear, nose and throat, can obtain a free copy of the "Journal for the Deaf" with a "Supplement" containing detailed accounts of upwards of 40 cases cured during the past month by addressing the Secretary, Drouet Institute, 72, Regent's Park-road, N.W., London, England. Each Journal is accompanied by a Patient's Report Form which enables applicants to receive full particulars for applying the treatment at home. Any advice by correspondence is absolutely free.

CATARRH

In this damp climate everybody is more or less troubled with catarrh in the head. One of the newest remedies is called the

PERFECT
Catarrh Cure

It is composed of two bottles—one for internal and the other for external use, and will effect a cure as near as any medicine can. It is sold only by the

CANADA DRUG AND BOOK CO. LIMITED

At $1 per Bottle.

Try for yourself and be convinced.

MARRIED.

MOORE-YOUNG—On Sept. 25th, at 6.30 p. m., by Rev. Mr. McLean, of Nova Scotia, at the residence of Mr. and Mrs. J. A. Morrison, Beaver, B. C., Miss Hilda Young, youngest daughter of Rev. J. Young, Norfolk, Eng., to John T. Moore, of Beaver.

LOCAL & GENERAL.

M. Pettipiece has succeeded W. Fleming as city foreman.

The city taxes have come in better this year than ever before.

Vernon fair was only a partial success through lack of exhibits.

At a last meeting of Lodge Loyalty Sons of England there were two initiations.

Emile Zola, the celebrated French author, was found dead suffocated by fumes from a stove.

The city council propose to strike off the voters list all ratepayers who have not paid their taxes.

The KOOTENAY MAIL prize at the Kamloops Fair was won by Mrs. J. Herod for the best oil painting by the exhibitor.

The Ledge says Charley Abrahamson has a Siberian apple tree behind the Central Hotel that yields 400 lbs. of fruit in a season.

In the Supreme Court suit of F. B. Wells vs. Sunshine Limited claim for commission on sale of Silver Cup a commission has been issued to take evidence in London.

The Ladies Auxiliary of the hospital will meet in No. 2 fire hall Tuesday next, Oct. 7th, at 4 p. m. Election of officers and other business will be transacted. A full attendance is requested.

The storm on Thursday, Friday and Saturday was general, snow extending along the railway from Calgary to Twin Butte. There was a depth of three inches of snow at Glacier.

The city council have decided to grade the streets of the city, and will obtain the loan of the government grading machine at Enderby for the purpose. The result will be a great improvement to the streets of the city.

We regret to learn that Mark Hyatt's scow and logging outfit was sunk in the river at Priest Rapids last week. A lot of supplies was destroyed. Mr. Hyatt succeeded in raising the scow and is now portaging the plant past Death rapids.

W. G. Watson is making great improvements at his dairy ranch. He is building two new stables, one of which will be used for the dairy cattle and the other for the rest of the stock. The former will be 22 ft. by 26 ft. and will be lighted by electricity.

At last meeting of the hospital directors the tender of Taylor Bros. & George for the supply of groceries for the ensuing year, was accepted. Messrs Phipps, Atkins, and J. L. Ruttan, of Kaulo, were elected directors, the Kaulo mill having accepted the terms of the local hospital.

The Canadian Real Properties Ltd., of London, Eng., intend bringing under cultivation, by irrigation, some six or seven thousand acres of valuable arable land within a very few miles of Kamloops. The land will be subdivided into small holdings. Fruit growing will have special attention.

Conductor Hopgood astonished the residents of Glacier on Saturday by presenting Dr. Schaffer, of Philadelphia, who has been a guest there for some weeks, with several apples from the Kamloops fair. The apples were grown at Tranquille and were magnificent specimens of fruit, rich in color, and weighing 1 lb. to 1¼ lb. each.

A settler from the Northwest Territories informs us they are looking forward there to the building of the Canadian Northern railway to the Pacific Coast. He says that west of the Pine River Pass there are magnificent stretches of rich agricultural land, with a finer climate than the Territories and that so soon as the railway spans the Pass there will be a great influx of settlers into north-eastern B. C.

This has been a wonderful season for tourist traffic in the mountains and appears to be the forerunner of even greater things next year. J. Stevens, of Lacombe, traversed the mountains between Laggan and Yellowhead Pass twice this season with large pack trains and parties of tourists. He describes the country as barren of timber and game and consisting entirely of rugged mountain snow and ice.

Tens of thousands of dollars were lost in Toronto on Monday by the drop in C. P. R. stock.

Social and Personal

Rev. E. Hogg, of Golden, has left for the east.

J. Shaw resumed his duty as night officer on Tuesday.

Miss Allen is now in charge of the Telephone Exchange.

Mrs. W. J. Lauder has gone to Goldfields to join her husband.

Miss Valentine returned yesterday from a week's visit to Kamloops.

Rev. C. A. Procunier had a most successful day's fishing on Saturday.

Miss Dunn has again joined the staff of Taylor Bros. & George, Limited.

Premier Dunsmuir passed through on Wednesday on his return from England.

Miss Dent, who has been attending normal school at Vancouver, returned home Sunday morning.

C. D. Morris, of Rogers Pass, has been appointed a Justice of the Peace and was sworn in on Monday.

Bert Howe returned on Tuesday night from spending a very pleasant vacation traveling through the States.

Supt. Bradley, W. Cowan and P. Leveque, returned from French Creek on Wednesday accompanied by Mr. Mavis M. E.

J. R. Tweddale, formerly of the Imperial Bank, has been appointed accountant to the firm of McKinnon & Sutherland, Ferguson.

J. W. Bennet left for Vancouver on Wednesday to attend the Socialist Convention there as delegate from the Revelstoke association. He will return Sunday.

The marriage of Gilbert R. Northey, formerly of this city but now of Camborne, and Miss Dell Wooley, was solemnized at Rossland. The Rev. A. M. Sanford performed the ceremony. After the ceremony Mr. and Mrs. Northey departed for Camborne.

An interesting event took place on Thursday, 25th inst., at Beaver, at the residence of Mr. and Mrs. J. A. Morrison, when Miss Hilda Young, daughter of the Rev. J. Young, Norfolk, England, and John T. Moore, of Beaver, were united in wedlock. Rev. A. MacLean, of Pictou, performed the ceremony.

On Wednesday, at the residence of H. Parsons, the marriage was celebrated of H. A. Morris, with Miss Alice Hanbury. Rev. C. A. Procunier officiated and 25 guests were present. Miss Amy Hanbury was bridesmaid and S. D. Crowle acted as groomsman. In the evening a social gathering was held at Mr. Parsons' residence to celebrate the event, when a splendid address was given by Rev. C. A. Procunier, and speeches and songs by Miss Edwards, Messrs. H. Edwards, W. G. Watson, H. Parsons, W. Farrell, and A. Smith.

RAIL AND STEAMER

The Imperial Limited will be run daily next season.

An immense new tank is being put in at Castle Mountain.

At the annual meeting of the C. P. R. on Wednesday the board of directors was re-elected.

The C. P. R. has offered to establish a fast Atlantic service for a subsidy of $1,325,000 a year for 10 years.

The C. P. R. water supply at Laggan and Field went wrong this week and engines had to run to Hector for water.

The Dunsmuir government have decided to build a steamer at Nakusp for use in connection with dredging operations. The steamer will be 85 feet long. Two scows will also be built.

The C. P. R. intend taking in hand their own coal supply. They have had prospectors out this season exploring east of Banff and have struck coal on which they are sinking test shafts.

Owing to the anthracite strike coal is so scarce in the east that the C. P. R. corralled the output of the Anthracite mines and for a time it looked as if there might be a serious shortage in the supply for the west, but the company's requirements are now about filled.

New section houses have been built at Eldon and Castle Mountain, the two C. P. R. stations east of Laggan. A telegraph office is to be put in at Castle Mountain and not before required as the run between Laggan and Banff is too far without telegraphic communication and has resulted in much inconvenience to the trainmen. The instrument will be placed at the section house.

The new track which the C. P. R. have constructed between Ottertail and Field to avoid the Ottertail hill is completed with the exception of ballasting, laying track at east end and putting finishing touches on two bridges. An excellent grade has been obtained. The new bridge over the Ottertail is a pigmy compared with the old one. The new piece of road will be open for traffic in the course of a month.

Inspector Miller and Bridge foreman C. Fraser, returned last week from Montreal, where they have been to give evidence in the case brought against the C. P. R. by the men who were engaged in the east to work on the snowsheds during the strike of last winter. The evidence showed that the plaintiffs left the company's services voluntarily and judgment was given in favor of the defendant company.

WANTED — A TRUSTWORTHY gentleman or lady in each county to manage business for an old established house of solid financial standing. A straight, bona fide weekly cash salary of $18.00 paid by check each Wednesday with all expenses direct from headquarters. Money advanced for expenses. Manager, 340 Caxton Building, Chicago.

Sunday School as usual at 2.30 p. m.

Evensong at 7.30 p. m.

The plans for the new C. P. R. Hotel at Kamloops have been completed. The building will cost $40,000, and construction will commence next spring.

Railway men have reason to be proud of the Pacific Division of the C. P. R. as compared with conditions further east. The harmony, goodwill, efficiency of service and loyalty of the employes west of Laggan is in marked contrast to that east of the summit where there are instances of good and deserving men being treated as dogs with the result that there is a want of sympathy with the officials whom the men regard as tyrants. The result is that in some respects the service in that section is demoralised. It is a living example of the value of a company having its affairs in the hands of good officials as is the case generally on this division, whereas there is continually trouble east of Laggan.

Railroad Watches . . .

Waltham and Elgin, Hampden and Hamilton, 17 and 21 jewels. Vanguard, Elgin Veritas, Crescent St., Father Time, C. P. R. Special, B. W. Raymond, Appleton Tracey, 181 Special. Send for prices.

LYTTLETON BROS.

Watch Specialists, Vancouver, B. C

The Camborne Miner says:—"The Criterion mine is putting in its own water-works. Seven hundred feet of piping was packed to the mine on Thursday last, together with hot water reservoirs and a bath-tub.

Never has the shortage of power been felt so much on the Pacific Division of the C. P. R. as at present. Sidings have been blocked with cars and at Golden, Field, and Laggan the blockade was especially bad. In order to get the road cleared up as much as possible, Supt. Kilpatrick has been staying at Field this week with good results and by a rearrangement of the crews the work on the big hill has been much expedited.

EUROPEAN AGENCY.

(ESTABLISHED 1814)

WE wish to open accounts with all bona fide Colonial buyers who are not already on our books, and on receiving precise details of their exact requirements, we shall be pleased to forward quotations for any European or American goods. Our reference books contain several million names, and our extensive connection enables us to make special terms with the most suitable wholesale manufacturers of each class of goods, so that even after adding our shipping commission of 1½ to 5 per cent (according to amount) our prices still compare favorably with those of the manufacturers.

We supply goods made specially to any style, quality or price; and on receipt of indent, with full and clear instructions, and remittance of cash, or produce to cover, our knowledge of the trade enables us to place the order at once in the best hands, and the goods are promptly forwarded.

We make up sample cases of most goods from £5 upwards; and, as we utilise our long experience in choosing such goods as are most likely to suit the market for which they are intended, we confidently recommend buyers to order these sample cases, for by doing so they will obtain the latest and most taking novelties.

Consignments of produce receive careful attention and we give advances to any extent.

Prompt and painstaking attention to the interests of correspondents, together with exceedingly moderate charges, and plain and straight forward dealings, have enabled us to maintain for the greater part of a century, a reputation which we value too much to allow it to be tarnished by the unsatisfactory execution of a single transaction. Address:

WILLIAM WILSON & SONS,
MERCHANTS AND MANUFACTURERS' AGENTS
25 ABCHURCH LANE, LONDON, E. C
Correspondence Invited.

Home Grown Vegetables

CABBAGE, CARROTS,
POTATOES, TURNIPS, etc

Don't fail to give me a chance to fill your order. I can supply you with farm produce of better quality at lower prices than you can procure from anyone else.

S. D. CROWLE,
Revelstoke.

Notice of Sheriff's Seizure and Sale.

NOTICE is hereby given that under and by virtue of a warrant of Execution issued out of the Small Debts Court of Rossland, B. C., holden at Rossland, and directed to the Sheriff of North Kootenay, against the goods of David Orr, I have this day seized and taken in Execution, all the interest of the said David Orr in the Mineral Claims, the "Cyclone" and "Cresent", situated on Great Western Mountain, and the "Cresent" situated on Goat Mountain, in the Lardeau Mining Division of West Kootenay. And I give notice that I will on

THURSDAY OCT. 16th, 1902,

at the hour of two o'clock in the afternoon at the Court House, in the City of Revelstoke, offer for sale publicly, all the interest of the said David Orr, in the said Mineral Claims or such part thereof as shall satisfy the said Execution.

Dated this 23rd day of September, 1902.

JAMES TAYLOR,
Deputy to the Sheriff of North Kootenay.

NOTICE.

In the matter of the "Companies Act 1862 to 1893" and in the matter of the Lillooet, Fraser River and Cariboo Gold Fields, Limited, in liquidation.

THE creditors of the above named Company are required, on or before the 22nd day of October, 1902, to send their names and addresses and the particulars of their debts or claims verified and the names and addresses of their Solicitors, if any, to M. le Vicomte du Peloux and Mr. R. C. Wyatt, College Hill Chambers, College Hill, London E. C., England, the duly appointed Liquidators of the said Company, or to J. V. Armstrong, Revelstoke, B. C., their agent, and if so required by notice in writing, to come and prove such debts or claims at such time and place as shall be appointed in such notice, or in default thereof they shall be excluded from the benefit of any distribution made before such debts are proved.

Dated the 6th day of September 1902.

M. DU PELOUX,
R. C. WYATT,
Per their Agent, J. V. Armstrong.

NOTICE.

In the matter of the "Companies Act 1862 to 1893" and in the matter of the Sunshine Limited, in liquidation.

THE creditors of the above named Company are required, on or before the 20th day of October, 1902, to send their names and addresses and the particulars of their debts or claims verified and the names and addresses of their solicitors, if any, to Charles Hill, College Hill Chambers, College Hill, London, E. C., England the duly appointed liquidator of the said Company, or to J. V. Armstrong, Revelstoke, B. C., his agent, and if so required by notice in writing, to come and prove such debts or claims at such time and place as shall be appointed in such notice, or in default thereof they shall be excluded from the benefit of any distribution made before such debts are proved.

Dated this 4th day of September, 1902.
