POLITICAL MEETING.

Addresses by Conservative Leaders

Leaders of the conservative party addressed a meeting at the Opera House on Friday night. There was a good attendance. J. M. Scott, president of the local conservative association, presided.

The first speaker was

H. A. POWELL,

ex M. P. for Westmoreland. He asked his audience to look at the work of the conservative party. It had a broad policy while the policy of the liberals was not so. The work of the conservative party was shown in confederation, transportation as the Intercolonial, C. P. R. and canal systems, and the national policy. They were preparing to carry out an imperial and reciprocal policy. In the infancy of the liberal party not one feature of that policy had met with the support of the liberal party. Liberals had been in power since 1896. They had no right to be in power. (laughter) They had circumstances in their favor—the Klondyke rush, and the influx from the States. They heard from the liberals that they were responsible for the present commercial prosperity. He claimed with Mr. Borden to have saved the country $750,000 on the Drummond railway. (cheers) He accused the liberals of political perfidy and the spoils system. They were returned to power on the promise they would introduce a free-trade policy, but failed to do so, and in again returning them to power Canada failed in her duty in 1900. He accused the liberals of making fraudulent election returns, and instanced his own case where Sir Wilfred Laurier came upon the scene and he was buried beneath 300 to 400 French votes. (Cheers.) He accused the liberals of suborning the public treasury. The Intercolonial railway service was "stuffed with the scum of the country." He condemned the immigration of Doukhobour and Galician. He urged the stoppage of Mongolian immigration, though the conservatives had allowed them to come in. Mr. Powell varied his oration by a few witty stories.

R. L. BORDEN,

leader of the party, was greeted with hearty cheers. His manner favorably impressed his audience. His speech was that of a thorough gentleman, fair to his opponents, cautious in his utterance, responsible in his conclusions, promising nothing yet criticising fairly and justly. He said he brought them a message of hope and confidence in the future—hope that this province would be won back to the conservative party. The liberals had gone into power on a policy of free trade as it is in England and prohibition as it is in Maine, but had given them free trade as it is in Maine and prohibition as it is in England. (laughter) Sir Wilfred Laurier told them protection was a curse and made a reduction of 2 per cent on general commodies but increased the revenue by $1,000,000 from tobacco and $300,000 from sugar. Then Sifton and Tarte held different views on the liberal policy. The conservatives wanted fair and adequate protection for every Canadian industry—for the farmer, the miner, the fisherman, the laborer. The conservatives also supported a policy of preferential trade within the empire. Sir Wilfred Laurier had promised this but when he went to England he told the people there that Canada wished to give Britain a preference in return for the splendid freedom accorded to Canada and did not want anything in return. He had also procured the subvention of the German and Belgian treaties with the result that Canada was now met in Germany with a discrimination tariff. He advocated encouragement of smelting and refining in this province. (cheers).

ORIENTAL IMMIGRATION.

In reference to Oriental immigration Sir Wilfred Laurier had telegraphed to Vancouver at the 1896 election "The question of Chinese immigration is not a question in the east, and the opinion of western liberals will prevail." Yet the only result of the accession of the liberals to power had been the increase of the poll tax from $50 to $100, and there were as many Orientals as ever coming into the country. The Chinese could not be assimilated with our population and such immigration ought to be restricted, if not brought to a standstill for the present. (cheers) If the conservatives were returned to power the wishes of the people would be observed so far as it was in their power to do so. (cheers.) Of course there might be imperial interests to which some consideration should be given, but he knew of no imperial interests which did not affect Australia, New Zealand and Natal. If they must consider imperial interests the imperial government must also regard Canadian interests. (cheers.) He would insist on Canadian rights and that they should be respected by the British authorities. (cheers.)

PUBLIC APPROPRIATIONS.

The public works of this province should receive generous appropriations from the government. Internal communication should be put on the best basis possible. (cheers.) The amount contributed by the treasury should be far greater than in the eastern provinces. (cheers.) The present government would only do work where it would do the most party good. Their visit to this province would give them knowledge and experience they had not had in the past. (cheers.)

He concluded by urging the young men to take an interest in public affairs. If they could not join the conservatives let them join the liberals and assist in remedying the evils of which he had complained.

Mr. Borden resumed his seat amid cheers.

E. F. CLARK,

of Toronto, was the next speaker. He began by condemning the conservative press as not being representative of the views of the party. He admitted the conservatives were responsible for the introduction of the Chinese but Sir John McDonald considered they were required to build the C. P. R. That time had now passed and they had Mr. Borden's pledge to stop their further importation. [cheers.] He condemned the action of the government on the Alien labor law, and said Mr. Puttee, of Winnipeg, was the only liberal member who supported an amendment to make it more effective. Hon. R. W. Scott, secretary of state in the Laurier government, had declared it was not the intention of the government to enforce the bill. That was the kind of treatment given the working men of the country by the government. [cheers.] He advocated high protection. If the States barred out Canadian lead and other products then raise the tariff to shut out their products. [cheers.] He characterised Sir Wilfred Laurier as a traitor to his country.

The meeting concluded with cheers for the King and Borden.

CONSERVATIVE CONVENTION.

C. Wilson Elected Leader and John Houston President.

After we went to press Saturday the following business was done:

It was resolved to introduce party lines in local elections. C. Wilson was re-elected leader. A vote of confidence was passed in Mr. Borden as leader of the conservative party and thanking him for his visit.

OFFICERS.

The election of officers resulted as follows:

Hon. President, R. L. Bordon, K. C.

President, John Houston, M. P. P., Nelson.

Vice-Presidents, A. S. Goodeve, Rossland; J. R. Seymour, Vancouver; J. A. McKelvie, Vernon; T. S. Annandale, New Westminster; A. E. McPhillips, Victoria.

Treasurer, F. S. Barnard, Victoria.

The appointment of Secretary was left in the hands of the Executive.

NEXT MEETING.

Revelstoke was selected as the next place of meeting.

THANKS.

A hearty vote of thanks was tendered R. McBride, retiring President.

EXECUTIVE.

An executive was appointed as follows:

G. S. Russel, Victoria; J. T. Robinson, Kamloops; J. R. Seymour, Vancouver; R. L. Reid, New Westminster; R. F. Green, Kaslo.

THE PLATFORM.

The platform adopted included affirmation of the platform of 1899 as regarded roads and trails, ownership and control of railways, development of agriculture, with the following additions: Taxation of mines on percentage of net profit, government ownership of telephones, reservation of coal areas to allow of state-owned mines, reforesting of pulp lands and preservation of timber, exclusion of Asiatic labor, increased grants from dominion, increase of duties on lead and lead products, arbitration and conciliation.

SCHOOL BUILDINGS

Examined on Behalf of the Government on Wednesday.

On Wednesday Mr. Wilson, architect, of Victoria, examined the new school buildings on behalf of the government and at the instance of the city council. The architect in charge, J. B. Henderson, of Grand Forks, was present. A portion of the wall was taken out and Mr. Wilson pronounced the masonry work well done, but did not express any further opinion pending his report to the government.

The school trustees hold substantial bonds from the contractor and have every reason to believe that the contract is being well and faithfully carried out.

Smith Bros., the contractors, and the workmen employed on the building declare the foundation would carry a four storey wall.

WATER AND LIGHT.

Purchase Endorsed by the City.

The poll on the bylay for the purchase of the Water, Light and Power Company's plant by the city took place on Wednesday, with the result that the bylaw was endorsed by 85 votes to 9 against. The mayor and council are to be congratulated on the result. Arrangements have been made with Molsons Bank to pay over the money to the company and take over the plant as from October 1st.

Architect Rattenbury has been examining the C. P. R. hotels on the Pacific Division with a view to enlarging and re-modelling them.

SENATOR TEMPLEMAN

Visits Revelstoke and Big Bend Accompanied by Mr. Galliher.

Hon. Senator Templeman, who represents British Columbia in the Federal Cabinet, arrived in Revelstoke on Monday night with a view to ascertaining the requirements of this section of the Province. He was accompanied by Mr. Galliher M. P., who, although still lame from his recent accident, and requiring the use of crutches, persisted in accompanying the Senator in order that the requirements of his large constituency should be thoroughly made known to the Minister.

On Monday night several liberals met the Senator and Mr. Galliher at W. M. Lawrence's residence. The party was handsomely entertained by Mr. and Mrs. Lawrence and Miss Grant.

On Tuesday Senator Templeman went up the Columbia River on the steamer Revelstoke to ascertain the nature of the improvements necessary to put the river in first class shape for navigation.

Those who accompanied Hon. Senator Templeman and W. A. Galliher M. P., up the river were: Supt. Kilpatrick, F. McCarty, A. E. Kincaid, F. Fraser, J. M. Kellie, A. McRae, W. M. Lawrence, D. McDonald, J. Leamy, J. J. Foley, Miss Edie Fraser. Owing to falling water the steamer could only get to steamboat riffle, two miles this side of Boyds. Note was taken of the character of the improvements required. The party speak in the hightest terms of the courtesy and attention shown them by Capt. Forsland, Purser Troup, and the crew of the s. s. Revelstoke, and thoroughly enjoyed the trip. The party even did some amateur placer mining, returning with good colors of gold. On their return to the city on Wednesday Senator Templeman wired Hon. J. I. Tarte, Minister of Public Works, urging the necessity of improving the river in view of the great resources of the Bend and the large development of traffic there.

Mr. Keefer, Dominion engineer, has also been instructed to have the river examined immediately and the work put in hand.

BIG BEND MICA.

Report of T. W. Bain.

Chief Bain, who has been in charge of assessment work on the Big Bend mica claims during his holidays, reports the showings of mica as wonderful. There are six quartz leads all showing mica. Mr. Bain was delayed in development by the fact that he had to cut eight miles of trail to get to the claims, which are above timber line. Development work consisted of three open cuts and the mica improved vastly with depth. From one cut six tons of mica was taken out and 950 lbs packed out to Golden.

Mr. Bain says a good wagon road can be got to these properties from the Columbia River and the only way to bring out the mica is by Revelstoke. To go out to Golden a glacier and high summit have to be crossed.

The trip out and in was very rough, the whole packtrain being down sometimes, and one horse dropped into the river.

MURDER AT FIELD.

A Stone Mason Killed by an Italian.

Field was shocked Tuesday by the murder of a stone-mason named Gordon, who was employed as one of the crew employed by the C. P. R. Gordon was fooling with the Italian named Durant after breakfast, when the Italian pulled a revolver and shot Gordon in the breast. Gordon died in an hour.

Dr. Cross left for Field Wednesday to hold an inquest.

LACROSSE.

Revelstoke v Kamloops.

Kamloops came over to Revelstoke Saturday last to play the return match for the Fulton cup and won by 2 to 1. The first goal was secured by Kamloops within 2 minutes of the start before either side had settled down to hard play, after which Revelstoke played a grand game and looked like winning easy. Melville was playing a grand game and in the second quarter evened things up. No scoring took place till the last quarter and about 5 minutes before time Kamloops put the ball through and won as stated above. Revelstoke played a better combination than Kamloops but was weak at home points.

The C. P. R. will oppose the Canadian Northern crossing their track at Emerson, Man.

A brakeman named W. Gairns met with a horrible death at Sumas. As he slipped and fell with one arm and one leg over a rail an engine severed his limbs and he died shortly after.

The Kootenay Mail

FRIDAY, SEPTEMBER 19, 1902.

Sir Wilfred Laurier has failed in trying to please his conservative friends. He is too French for Powell, too British for Borden and too successful for Clarke.

The Calgary Herald has an excellent article on state ownership of railways, telegraphs and other public franchises, and endorsing the views expressed by Sir William Mulock.

In view of the great differences in opinion among mine-owners as to the best remedy for the depression in the silver-lead industry Mr. Galliher M. P., will ask them to hold a meeting to decide on the legislation they want and instruct him accordingly.

The Rifle Association is to be congratulated on the success which it has achieved since it inauguration. Many members are taking a keen interest in the shooting, and altogether it is proving a valuable attraction to the young men of the city as well as to several of riper years.

It does not augur well for the success of the conservative party in this riding that there is strong dissention within its ranks. Many leading Conservatives inform us they refused to have anything to do with the recent convention for reasons which are good and defensible.

The leader of the conservative party forgot, in his speech on Friday, to point out that Britain cannot grant Canada a preferential tariff without discriminating against other portions of the empire equally entitled to consideration. Even a conservative should be reasonable.

E. F. Clark M. P., was not warranted in the attack he made on Friday on the conservative press of the province. The Colonist, News-Advertiser, Columbian, Kamloops Standard, Vernon News, Revelstoke Herald, Rossland Miner, Cranbrook Herald, Fernie Free Press, and others make a goodly array of conservative papers, which, for the most part are progressive and well conducted conservative journals. If the liberal papers are better and more influential than the others that is not the fault of the papers mentioned.

STATE OWNERSHIP.

Sir William Mulock, Postmaster-general and Minister of Labor is the advanced thinker of the Laurier government. He said not only ought the government to own the telegraph lines and railroads, but every concern or corporation which requires a franchise, and his views will be endorsed from one end of the country to the other. When asked whether this was not a step towards socialism, his reply was; "Well, what is the matter with socialism, if it is on a good foundation?"

Following up his subject he said: "Some of the advantages of a government ownership of telegraph lines is, in the first place, that it insures secrecy and unless there is state ownership there is no pledge that messages given to the companies will be secret; again, under a government ownership there is always a cheaper service, which is an advantage to the people.

"In the matter of railroads there is the same advantage of a cheaper rate and good rate and a good service. Look at the matter in another light: What right has a railroad to hold a town at its mercy by saying that the line will not run through that place or make it accessible unless the officials of that road are satisfied or so desire?"

"Certainly a government ownership means an end to these conditions and a betterment of the service. If the government owns a railroad there is an end to discrimination either in the matter of where a road shall run, or how it shall run, or as to rates and tariffs.

"Matters are at the present day looking towards government ownership, and I believe a time is coming when there will be complete government ownership."

DISGRACEFUL CHARGES.

After listening to the address of Mr. Powell, ex M. P. for Westmoreland, on Friday, we don't wonder at his admission that his constituents snowed him under by 300 to 400 votes. Mr. Borden should have left him at home. A man who will characterise a responsible body of civil servants, like the Intercolonial employes, as being the "scum of the earth" as Mr. Powell did here on Friday, is certainly not a fit and proper person to represent them in parliament. Perhaps Mr. Powell thought as he was away from home he could say such things with impunity, but it is the duty of the Intercolonial employes to deal with such a disgraceful charge. Again, his assertion that the Canadian post office staff is being recruited from criminals is another insult to a large and hard worked body of civil servants, and we dont believe Mr. Powell would dare to make these charges in the east where the parties referred to are known. His charge of election frauds is on a par with the rest of his irresponsible and reckless statements, while he is one of the men who strives to set class against class judging from his insulting references to the French Canadians.

A PROSPEROUS CITY.

The city of Revelstoke has never seen a period of greater prosperity of a sound character than at present time. This prosperity is largely due to the opening of the Big Bend and the development of Fish Creek. Both sections of country will show greater progress as time goes on and their progress will be reflected in the continued prosperity and advancement of Revelstoke. To the citizens who were so enterprising as to provide the steamer Revelstoke for the up river trade this city is under a deep debt of gratitude for it must be some time before the steamer can prove a paying venture. Yet this means of communication is serving to open up a country rich in lumber, minerals and agricultural resources. A prosperous back country makes a prosperous city.

AIDS TO MINING.

Hon. Senator Templeman has got hold of one of the most important aids to the mining industry in proposing the removal of customs duty on mining machinery and requisites such as powder, candles, steel rails and milling and reduction plants. Last week the North west Development Syndicate was mulcted in $2000 duty on its milling plant. That is not the way to encourage mining. Owing to the high tariff mine-owners have to pay just double what they should for powder, candles, tram rails, etc., and by wiping out the duties on these items mining could be carried on so much more cheaply. If Senator Templeman will follow up this matter till he has these duties wiped off the statute he will render an immense service to the mineral industry of this province.

Conservatives speakers on Friday night showed queerly contradictory ideas. They accused the liberal party of stealing their policy and then condemned the policy which they characterized as a posthumous child of Sir John A. Macdonald, dangled on the knees of Sir Wilfred Laurier.

ARBITRATION AND CONCILIATION.

If ever there was a Minister of the Crown who is sincere in his desire to improve the conditions of the masses that man is Sir William Mulock, Postmaster-general and Minister of Labor. There has been a good deal of discussion in our columns lately regarding his arbitration and conciliation bill, and we have expressed regret that the Brotherhood of Locomotive Engineers and other railway organisations should have turned it down. Their defence is that as it stands the bill is class legislation, but the principle would meet with their support if applied to all disputes between labor and capital. That seems a fair argument. It loses its force however when viewed in the light of federal powers.

By these powers the dominion can deal with transportation, but not with civil rights which must be governed by the laws of each province. Arbitration laws for the regulation of other classes of labor must therefore emanate from the provincial legislatures—the federal body having no control over such matters. Sir William Mulock's bill therefore deals with the only phases of arbitration and conciliation over which the federal parliament has jurisdiction. This information was news to us, as it will be to the railway organisations, but it demonstrates Sir William's anxiety to promote the best interests of labor as far as it lies in his power to do so. Sir William had visited the Australian Colonies where these arbitration laws are in force with satisfaction to employers and employes. Seeing the beneficial operation of these laws he resolved to give the railway systems of Canada an opportunity of adopting them. He brought in his bill, with the stipulation that it be held over till next session and he meantime disseminated among the unions, copies of the bill that it should be fully discussed and understood before being dealt with by parliament. Now this is a fair and square course on the part of Sir William and does not justify the suspicion already expressed by the brotherhoods that this is a covert method of getting the best of them. We still think the railway employes ought to support Sir William in the introduction of this measure, and should advise the government of any amendments they can suggest to make it more satisfactory and workable. In this way they would show that appreciation of his efforts which is certainly due to Mr. Mulock.

ALIEN LABOR LAW.

At Friday night's meeting a good deal was said about the alien labor law, but the speakers were not sufficiently fair to tell the facts about it. The amendment to the law was made as desired by the labor members, Messrs. Ralph Smith and Putter, who asked that the remedy should be placed in the hands of the men affected. It remains yet to be proved that the law is a failure. During the trackmen's strike no attempt was made by the men affected to enforce the law. During the miner's strike the law was promptly and successfully enforced by the striking miners. Of course it is not perfect by any means and Mr. Galliher M. P., has in view an amendment which, if adopted, would appear to make it thoroughly workable. To say as was said on Friday night that the Laurier government amended the law to make it ineffective is absolutely untrue. Let truth prevail among conservatives as well as liberals.

A reprehensible practice only too common is that of using foul language. It is impossible to go to an athletic gathering without such language being forced on the visitor. Even boys of tender years get into the abominable habit. The use of such language comes within the criminal law, and it would be well if an occasional offender were given a warning in the police court.

Mr. Croysdale, who represented B.C. silver-lead interests at the meeting of the Manufacturers Association at Halifax, has a big order on hand for the protective tariff which he considers necessary to enable B. C. lead to compete with the American article. He wants a duty of 36 per cent on pig lead, 45 per cent on lead pipe and shot, and 45 per cent on white lead.

The visitors to the city hospital cannot fail to be impressed with the generous work done by the Quadrille Club, the Epworth League, and the Ladies Aid of the Presbyterian church, who each furnished wards in the institution. Their work has been of great assistance to the directors, and a credit to the several societies.

A prominent member of the conservative convention assures us the reports from the coast as to Hon. Col. Prior pushing for the leadership were untrue. Our informant states Hon. Col. Prior distinctly stated that he placed himself entirely in the hands of the convention.

The Nelson Economist does not see much advantage in party lines in the local house, where it reckons parties are so evenly balanced that the liberals have 18 members, the conservatives 17, and there are two doubtful.

Boundary conservatives vanished before Senator Templeman, who visited the boundary last week. Only eight turned up to the meeting called to elect delegates to Revelstoke convention, and nothing was done.

The conservative speakers accused the liberals on Friday night of having varied ideas on the tariff, but no one has accused the conservatives of being guilty of having an idea on it.

WHEN DOES DEAFNESS BECOME INCURABLE.

The unfavourable opinions expressed by Aurists in long standing cases of Deafness, no doubt prevent many afflicted persons from seeking relief for ear diseases and defective hearing, but according to a late number of "The Journal for the Deaf" in justice to the latest forms of treatment, it is high time these opinions were reversed. As evidence in support of this assertion, the Editor issues a "Supplement" containing upwards of 40 cases Cured by a special method, the Drouet Treatment, and points out that many of these cases were taken under treatment after other means had failed. Perhaps the most interesting case is that of Miss A. E. Burrows, who had defective hearing for nearly 30 years, which had increased during the last five years until the Deafness was extreme. The patient attended a celebrated London hospital for a twelve-month and also a private specialist for eighteen months.

It would doubtless be wronging her previous medical attendants to say that they did not devote to her case the best prescriptions they could formulate, and when we consider side by side the facts that on one hand two years and a half of treatment administered by Aurists, of presumably the highest skill, gave absolutely no satisfactory results, and on the other hand that a perfect cure was effected by the Drouet Institute in less than a quarter of this time, it is impossible not to draw the conclusion that the Drouet treatment is the most successful method. It is only necessary to read the patient's last report to feel satisfied that the cure is of a permanent character.

167, Verney-road, Rotherhithe New-road, London, England, April 28, 1902.

Dear Sir,—I am sorry I did not write to you before, but I thought it best to try first and see if the cure was permanent, as after trying so many doctors and the ear hospital I was afraid to make too sure about it, but it is quite a relief to say that it is cured.

Yours truly,
A. E. BURROWS

Those who are interested in deafness or diseases of the ear, nose or throat, can obtain a free copy of the "Journal for the Deaf," with a "Supplement," by addressing the Secretary, Drouet Institute, 72, Regent's-Park-road, N. W., London, England. Each Journal is accompanied by a Patient's Report Form, which enables applicants to receive full particulars for applying the treatment at home. Any advice by correspondence is absolutely free.

RIPANS

For years I had been a sufferer with chronic stomach trouble, pressure of gas and distress of my bowels. I contracted what the doctors pronounced a low type of malaria. I could not take solid food at all, and only a very little of the lightest diet would create fever and vomiting. The druggist sent me a box of Ripans Tabules, saying he sold more Ripans than anything else for stomach trouble. I not only found relief, but believe I have been permanently cured.

AT DRUGGISTS.

The five cent packet is enough for an ordinary occasion. The family bottle, sixty cents, contains a supply for a year.

SILVER LEAD.

Mine-Owners Differ as to a Remedy

While Hon. Senator Templeman was on his tour of the Slocan he paid particular attention to the views of mine owners on the silver-lead question. Some argue for an increased tariff on the importation of lead and lead products, but others are opposed to that method and consider it will only make matters worse. As an alternative these ask that the tariff be taken off dynamite, tram rails, candles assay supplies and other commodities largely used in mining.

Senator Templeman is disposed in favor of the latter view from the representations made to him.

EVANGELISTIC CAMPAIGN

The Week's Services.

Rev. G. W. Kerby preached at the Methodist Church on Sunday morning, taking for his text Luke XII, 13. His subject being "The Gift of the Spirit." The sermon was followed by a testimony in which many took part.

In the afternoon at the men's meeting in the opera house a large number of men responded to the invitation to be present and Mr. Kerby gave an address on "The Artificial Man" dealing with several types of the Artificial man: The tailor-made man or the contrast of clothes vs. character; the money-made-man, or the contrast of Cash vs. character; the college-made-man or the contrast of Culture vs. character, the Ecclessiast-college-made-man, or the contrast of Creed vs. character; the society-made-man, or the contrast of class vs. character; and finally the Christ-made man or the real genuine character.

In the evening the Opera House was filled with a deeply interested congregation. The Evangelists sang with telling effect two duetts, while the Congregational singing was led by a strong Union Choir. There was a swing of victory in the whole service that must have been encouraging to all.

Mr. Turk chose for his text "Who is on the Lord's Side" 31, 26. The sermon was a call to decision. There were two sides at the base of Mt. Sinai, Gods side and the side of idolatry. There are two sides today. We have on one side a pure press—on the other a press corrupt. On one side the church, on the other side the world. Then temperance and intemperance, Christian Socialism, and Anarchy, the Home and the Streets. The need of the hour was for men to decide for the good and against the bad.

There were many reasons why men should be on the Lord's side. It was safe, right and the side which must finally conquer. "For right is right as God is God, and right the day must win."

A large number remained for the after service and several manifested their desire to join the Lord's side.

FUTURE MEETINGS

Friday night 19th.—At the Opera House—An illustrated Sermon on "Circles of Influence," young peoples and students night with an invitation to everybody.

7.30 p. m.—Union Service in the Opera House conducted by the Evangelists. Special music. Public cordially invited.

The Union Services will continue in the Opera House every night next week up to Thursday. Thursday evening the 25th. will be the closing service of the series. The evangelists leave on Friday the 26th. for New Westminster.

BANKING.

On Sept. 2, 1897, the average price of shares of the Dominion, Toronto, Imperial, Standard, Nova Scotia, Ottawa and Hamilton Banks was 199: On September 2, 1902, the average price of these shares was 240, or a gain in price of 41 points, or over 8 points per annum. The average percentage of reserve to capital of these banks, which are instanced because of their being banks of moderate capital, with high proportions of reserve to capital, was, on Sept. 2, 1897, 78.47 per cent., while on Sept. 2, 1902, the proportion was 98.2 per cent.

The Molsons Bank is branching out at Winnipeg, having bought the Bird Block, corner of Bannatyne and Main Street, for $90,000.

The Metropolitan Bank opens at Toronto with a working capital of $1,000,000.

Money must be short of demand in New York, call rates being 7 to 7½ per cent.

BABY'S OWN TABLETS.

For Weak, Sickly and Fretful Children at all Ages.

If the children's digestive organs are all right, the children are all right. They will be hearty, rosy, happy—and hungry. Get the little ones right, and keep them right by the use of Baby's Own Tablets. This medicine cures all stomach and bowel troubles, nervousness, irritation while teething, etc. These Tablets contain no opiate or poisonous drugs and mothers who try them once will not be without them while they have little ones. Mrs. D. E. Badgley, Woodmore, Man., says: "When our little girl was about six months old she caught a bad cold, and was much troubled with indigestion and constipation, and very restless both day and night. One of my neighbors brought me some Baby's Own Tablets and in a few days my little one was regular in her bowels and rested well. I found the Tablets so satisfactory that I now always keep them in the house and have since found them valuable when she was teething. I can truly recommend them for the ills of little ones."

Children take these Tablets readily, and crushed to a powder, they can be given with absolute safety to the smallest infant. The Tablets can be obtained at all drug stores, or you can get them post paid at 25c. a box by writing direct to The Dr. Williams' Medicine Co., Brockville Ont., or Schenectady, N. Y.

H. Briggs, of the Kamloops sawmill, died from injuries received on Sunday by falling over a rock.

A woman has been arrested in Chicago on a charge of cremating live babies in her kitchen range.

Kamloops has passed a by-law prohibiting Sunday labor, also the public indulgence in sports on that day.

A Dane named Anderson, who worked on the Beatrice, has been taken in charge as mentally deranged.

Sir Wilfred Laurier's friends intend to give him an enthusiastic reception at Quebec on his return from Europe.

J. G. Thompson, accountant of the Crows Nest Coal Company is so ill at Fernie that he is not expected to recover.

Terrible forest fires have been experienced on the Coast. Seattle was in darkness and much damage done on Vancouver Island.

In spite of the large number of buildings which have been erected in Vancouver, it is practically impossible to secure a rented house.

At the Anglican Synod Rev. Cannon Welch, of St. James Cathedral, Toronto, declared he would never read a Bishop's appeal in the Cathedral.

The Columbian and News-Advertiser, representative Conservative organs, express satisfaction with the result of the convention held at Revelstoke.

We acknowledge receipt of the annual report on the Provincial Library which is conducted by Librarian E. V. Schofield as an up-to-date institution.

Mr. Mills, who is erecting the tramway at the Triune, fell off the platform at the company's office, cutting his head and being rendered unconscious.

At the Cossack station in Russia the father of every baby girl born gets 50 strokes with the knout. If some Revelstoke fathers lived there they would have a hard time.

The forest fires in Oregon and Washington have resulted in terrible loss of life and property. In the Lewis River district of Washington the charred bodies of 38 settlers were found.

Station Agent Donnelly, of Albert Canyon, has been in the hospital suffering from a severe attack of typhoid fever. His housekeeper was also taken ill with typhoid at the Canyon last week.

On Friday R. Tapping presented R. L. Borden and party with a sample of roots and grain grown by him, and at which the visitors expressed their astonishment to see such fine samples of vegetable growth in the west.

Messrs. Harvey McCarter and Pinkham have taken steps to appeal the decision of Chief Justice Hunter in favor of the defendants in the case of Turner vs. Cowan et al. in which J. M. Scott and E. P. Davis acted for defendants.

On Monday a team belonging to W. Fleming bolted in McKenzie Avenue. The driver, Frank Gunner, was dragged in front of the wheels and the wagon passed over him breaking one of his legs and severely cutting his head. He was removed to the hospital, where Dr. McLean attended him.

The attendance at the city schools shows a steady increase and averages 210.

The Globe rightly says the mining interests must be consulted in any revision of the tariff.

Chief Bain resumed duty on Monday. During his absence his duties were ably carried on by A. E. Kincaid.

Rev. C. A. Procunier, A. McRae, and R. A. Upper got some large trout at the mouth of the Tamtum yesterday.

D. Forbes, of Molson's Bank, has gone east on an extended trip in the course of which he will visit Toronto and Montreal.

The Voice, the Labor journal of Winnipeg, reprints the opinions of the KOOTENAY MAIL on Sir William Murlock's arbitration and conciliation bill.

Rev. G. R. Turk and G. W. Kerby B. A. have had a most successful mission at Revelstoke. Their visit has been attended with good results in the city. A special feature has been the splendid singing which has characterized their services.

Religious refugees from France are coming to Canada. One of them, Father Lizeau, of the Jesuits, said at Montreal:—"I would not hesitate to even say that if the Government of France is allowed to pursue its present course of action, by the end of 1903 the doors of every Catholic Church in France will be closed."

Ald. Hume and Manning complain that our reports of the Council meeting on Friday were not sufficiently full to fairly explain their meaning. They wish it understood that they were not expressing their personal views, but merely representations made them by ratepayers. It is true the report was not a full one as the space given was all we could spare and we reported what appeared to be the salient points of the discussion.

The Vernon News accuses us of being responsible for the statement that there is a good deal of discontent arising out of the practice carried on in the Okanagan valley of fencing more land than is actually owned and says some one has evidently been stuffing the Mail. We hope our contemporary will make the amend honorable as we never heard of or published such a statement. What we complained of was the practice of buying up big states prevailing in the Okanagan, with its attendant depopulation of the country. We can give our contemporary the names of these land monopolists if it does not already know them.

Social and Personal

GROCERY OPENING.

Taylor Bros. & George Limited add New Branch to Business.

The popular firm of Taylor and George has been incorporated under the title of Taylor Bros. and George Limited, and E. Taylor joins the firm. Contemporaneous with the change, the firm is extending its business so as to make it one of the leading business establishments of Kootenay. The whole of the Taylor block will be used for the firms business. The store formerly occupied by G. F. Curtis has been handsomely refitted and the dry goods stock removed there. The portion of the building hitherto used for dry goods is being converted into the grocery department, and will be opened on Monday with a first-class stock of groceries.

A large warehouse has been built on the C. P. R. track and is also being filled with a large stock. The firm are buying their grocery stock in car lots so as to be able to give their customers the best prices.
