CITY COUNCIL

The City Council met in regular session on Monday evening Mayor Gulley presiding and in attendance were Aldermen Morrison, Peterson, Smith, Lofstad and Forshaw.

Considerable correspondence was dealt with and instructions given. The lighting committee in reply to criticism from the finance chairman concerning the continued increase in the monthly power consumption explained that the loss of power had not yet been accounted for. The Mayor appointed a committee to be headed by himself to consult with Mr. A. Legault and city clerk was asked to arrange for the interview.

A serious break in the Twin creek 8 inch iron main was reported to be under good temporary repair and a recommendation that provision be made for 8 lengths of new pipe in the estimates next year. Final papers and documents were received from the Battleford Realty Company and found to be in order, the Mayor and City Clerk being authorized by the Trustee and Council to complete the transfer of the real estate to the city.

The streets committee recommended building a fence in front of Lot 7 on Copper St. The work was ordered to be done.

The City Clerk was instructed to remind the Provincial Department of Public Works that the city lots asked for by that Department to form a cut-off from Louisa to Government streets were still available and it is highly desirous that this improvement be made in view of still another automobile accident happening on this dangerous corner last Sunday.

BEAVERDELL BRIEFS

Mr. and Mrs. S. E. Mulhern, of Penticton, are spending their honeymoon in town.

Mr. M. Anderson, of Greenwood, is the guest of her niece, Mrs. C. E. Nordman at the Sally Mine.

Sister Ursula and Sister Alice, of the Sacred Heart Hospital, Rossland, were visitors to camp on Tuesday.

Jack Morrison has returned from Greenwood where he has been receiving medical aid for an injured hand.

Mrs. Saunders, Goldie Saunders and Tommy Crowe went to Penticton during the week to attend the wedding of Miss Loma Saunders.

Friends of B. E. Taylor will regret to learn he is returning to Rochester as he has not yet fully recovered from his recent operation.

A number from Beaverdell were visitors to Greenwood over the week-end and were pleased with the prospects of the old town booming again.

THE PRESIDENTIAL ELECTION

Local radio fans were "at home" Tuesday night and all tuned in to get the results of the U. S. Elections.

Hoover seems to have outclassed the Democratic candidate and at 8 o'clock Tuesday night the New York World, Democratic newspaper conceeded the Election to Hoover.

Incomplete returns to date show Hoover has 413 Electorial votes. This figure indicates how the election went, as 266 of these votes are required by the successful candidate. New York and Virginia were two States which, contrary to expectations, gave Hoover a majority.

MIDWAY NEWS

The painters have not yet finished their job on the Farmers' Hall.

J. R. Ferguson returned home on Thursday from a visit to Penticton.

F. Nystrom has returned home from visiting his daughter at Wenatchee.

Born.—In Grand Forks Hospital to Mr. and Mrs. E. A. Erickson of Midway, a son.

Miss Mary Barker was the guest of Mr. and Mrs. Joseph Richter during the week-end.

The telephone wires are sagging badly in town. This is said to be a sure sign of a late Fall.

Owing to greatly increased business the Hotel Debumme has been compelled to increase its staff. Many of its patrons are soliciting vegetables, etc. around town. Citizens would be well advised to keep their chickens and turkeys under lock and key overnight, as these very active gentlemen are adapts at making mulligan.

Midway is now well equipped with Gas Stations, has a free air station and a hot air station, some distance west of town. It only remains for some prominent citizen to put Midway on the map by establishing a "Free" Gas Station. It is estimated that there would be sufficient parking spaces on the flats east or west of town, at least in Winter to accomodate cars waiting to be filled.

Miss Gladys Brereton and scholars of Ingram Bridge School gave a very pretty Hallowe'en Concert on Wednesday evening, October 31st. The stage was attractively decorated with Hallowe'en novelties. The scholars each did their part well and thoroughly enjoyed doing it. Great credit is due to them for the work and time spent to make the evening such a success. H. Bruce was door manager and Juan Puddy stage manager. The proceeds amounted to $15.00 which will be sent to the crippled children's Solarium in Vancouver.

The teachers of the Midway School Miss Galbraith and Miss Barker, gave the scholars a very good time on Wednesday last (Hallowe'en.) After playing all kinds of games they were entertained by their teachers assisted by Mrs. Galbraith, Mrs. Hawkes, Miss Annie Thomet and Miss Alice McMynn to an ample supper, consisting of all good things to eat such as pumpkin pies, jellies, whipped cream, home made candles—and—lots—of—our—delicious things too numerous to mention. Needless to say the kiddies were all delighted and returned to their homes feeling much better for their outing.

The meeting of the Midway Institutes (men and women) was held in the Hall on Saturday last. The meeting was opened with the Lord's Prayer after which the Institute Ode was sung. This Ode was adopted at the last Confernce and is as follows:

A goodly thing it is to meet
In friendships circle bright,
Where nothing stains the pleasures sweet
Nor dims the radiant light,
No unkind word our lips shall pass
No envy sour the mind,
But each shall seek the common weal
The good of all mankind.

A clock was purchased from Mr. White of Greenwood, by the members and presented to the Midway School. Mrs. R. D. Kerr on behalf of the School Trustees thanked the members for their very useful gift.

Mrs. Joseph Richter gave a very interesting speech on the work of the Institutes throughout the Province, after which a delicious tea was served.

JAMES HALLETT MAKES JUMP WITH PARACHUTE

James Hallett, well known local boy, is making a name for himself in Portland, Oregon. On October 28th he made his first parachute jump at the Rankin field.

To make the jump James stood out on the wing and fell backwards. This made him go head first but as soon as the chute opened he righted himself and floated down. He landed safely on the ground but the chute caught in a tree. He jumped 2300 feet and landed in one minute and forty seconds.

Fay Carter, aviatrix, who made a jump at the same time landed in telephone wires, but did not get hurt. It was her second jump. She is Oregon's first lady flier.

In writing to his mother, Mrs. Ellen Hallett, Jimmy says:

"Twice in one week I got my name in the papers here. The first one was a front page article. It was a good jump and there was a large crowd watching. When you land you stand up, get introduced and then the cheers."

LAST CHANCE SOLD

The Last Chance mine one of the best known properties in this district was sold on Monday to C. F. Law of Vancouver, who represents a prominent business man of that city. Some time ago Mr. Law secured the Stramberg and Brawders interests and this week he took over James Poggi's interest.

It is the intention of the new owner to unwater the mine and when finished plans for development will be decided on.

The Last Chance is on the Phoenix hill and in the area where the 50 claims were taken up by R. Crowe-Swords recently.

NEW SYNDICATE MEET

The first general meeting of the newly organized Beaverdell Wellington Syndicate Ltd. was held in the registered office at the King Block in Greenwood last Saturday eveniing.

Practically a full attendance of shareholders were at the meeting and all were well satisfied with prospects ahead. A full Board of Directors was appointed in the personnel of A. J. Morrison, E. Nordman, G. S. Walters, G. S. Boug and J. Hallstrom. The directors held a subsequent meeting and appointed as officers President, A. J. Morrison; Vice-President, E. Nordman; Secretary, G. S. Walters.

Hallowe'en was celebrated by the school children on Wednesday evening, October 31st., when they gathered for a merry time at the Basketball Hall.

The members of the Junior Red Cross of Miss Axam's room presented a spooky Hallowe'en sketch entitled "The Schoolroom Imps," which was well received. Following this was the Grand March when the judges, Mrs. J. Reid, Miss Nellie Knight and Rev. A. Walker, selected the following prize winners:

Insertion date for "ad" is telephoned across continent

Material for an advertisement to appear in a Vancouver newspaper was recently sent from New York by air mail. No insertion date accompanied the advertisement, but a long-distance telephone call from New York saved the situation.

In paying tribute to the telephone service on the call, the newspaper said:

"The message came through as clearly as if the conversation were between two points within a few city blocks of each other.

PREMIER CALLS FOR TWO MINUTES' SILENCE

Rt. Hon. W. L. Mackenzie King gave out the following announcement in Ottawa on Friday last:

"In accordance with arrangements for the observance of Armistice Day sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two-minute silence at 11 o'clock on Sunday, November 11. It is suggested that wherever possible church services should begin at such hours as may be convenient in order to insure that there should be a pause in the service at 11 a.m. for the observance of the period of silence."

NEWS FROM THE CAPITAL

Victoria, B.C., November 3.—It isn't more than a fortnight ago that critics of Conservatism and all its works, led by the Vancouver "Sun", were demanding action of Director-General Tolmie. Now the cry is that he is going too fast!

Less than ten days ago protest was made against his several reservations of judgment on matters of import put up to him. Now the charge is that he is too hasty, too precipitate, too headlong in his course. He probably is not greatly surprised; he has been too long in politics to dream of pleasing everybody and all at the same time.

There has, at all events, been no slow motion on the lot at Victoria this past week. The order has been for "Action", with at least half the principals in the foreground and no one monopolizing the spotlight overlong.

Firstly, the axe has been falling and humankind's proneness to morbidity has given dismissials or resignations in high places attention disproportionate to other and more important developments.

W. H. MacInnes, Official Administrator, has been dismissed—vulgararly "canned." So has Factory Inspector Stewart. Ditto Mr. Dougherty, head of the Insurance Branch—and Chairman M. B. Jackson K. C. and his eight associates of the Game Board; while Assistant Purchasing Agent Major Hamilton has resigned, allegedly by suggestion.

As to the Administrator, no complaints are heard, the prevailing comment being that "the old government should have done it long ago"—in which connection it is recalled that when Mr. MacInnes was Civil Service Commissioner and his official head was demanded by David Whiteside and other Liberal members, Premier Oliver agreed that he had earned his then promised dismissal. He was released as Civil Service Commissioner, and forthwith installed in an office more remunerative than the Premiership!

The Department of Insurance is being merged for economies with the Registry of Companies, explanation of Mr. Dougherty's conje. The Game Board, conspicuously political, vanishes as a foregone conclusion in game policy reconsruction on pre-election outlines of Pooley in this connection.

Mr. Stewart admittedly was active in partizanship, although a public servant, so can voice no complaints.

As for Major Hamilton, strong pressure is being exerted to save his official scalp, a leading Conservative member, Major H. Despard Twigg, leading the rescue squad, which has at last achieved a definite promise of government re consideration.

The proportion of changes in official personnel is, however, but in ratio of one to three as compared with the first three months' period after the Liberals attained office.

And it is stressed as curiously significant that Deputy Ministers and Private Secretaries, individual selections of the Department heads, occupying posts of peculiarly confidential character, are virtually unchanged since the dawn of the Tolmie regime, although these particular officers more than any others as a rule share the fate—as the fortunes of their respective chiefs.

Could more positive testimony be had of Hon. Dr. Tolmie's sincerity in assuring government employees that there would be no decapitations save for cause?

The most self-effacing and at the same time one of the hardest working and admittedly competent ministers is Hon. F. P. Burden, who holds the heavy portfolio of Lands, Forests and Waterpowers. He has been too strenusously occupied to do much talking, but his works are eloquent for him. Under his diplomatic guidance, complex problems that had threatened to precipitate grim battle for a Public Utilities Commission at the meeting of parliament, seemingly have been solved satisfactorily with concessions by the West Kootenay Light and Power Co. that will permit control of rates being brought beyond controversy within the jurisdiction of the Water Board.

Hon. Mr. Burden also has been active in seeking solutions, with his confrere of Agriculture, of the Sumas and Okanagan jigsaw puzzles; and his investigations of the status and prospects of Kootenay lowlands redemption already has resulted in a definite offer by private interests to undertake the reclamation of between 50,000 and 60,000 fertile acres in the Kootenay Flats near Creston. This scheme necessarily involves international negotiation in certain phases, but the indications are that it can be satisfactorily carried through.

The Land's Minister's next big task will be to equitably decide between the Treasury interests and the special arguments of the timber industry whether or not increases in royalties shall automatically become collectable under existing legislation, or further concessions be made to operators in the timber industry.

In his joint capacity as Minister of Mines and of Labor, Hon. W. A. McKenzie continues to justify expectations. No longer can it be charged that these departments, or either of them, do not function. With respect to mining, promotions of any questionable bona fides, he acts on the instant of voiced suspicion; and in the case of one mine already, misrepresentations have been officially exposed before high-pressure could make inroad on the cash of possible investors.

Whether the course taken by the Department of Agriculture in seeking to secure the lifting of New Zealand's embargo on the importation of breeding foxes is sound policy or the reverse is debatable, but the governmental action at least meets the wishes of breeders here who look toward this sister Dominion for a quick-profit market. If British Columbia is to develop a fur-farming industry second to none—and for this food and climatic conditions, etc., naturally fit the province—it cannot be done by stocking competitors for the larger business in fur of the years to come.

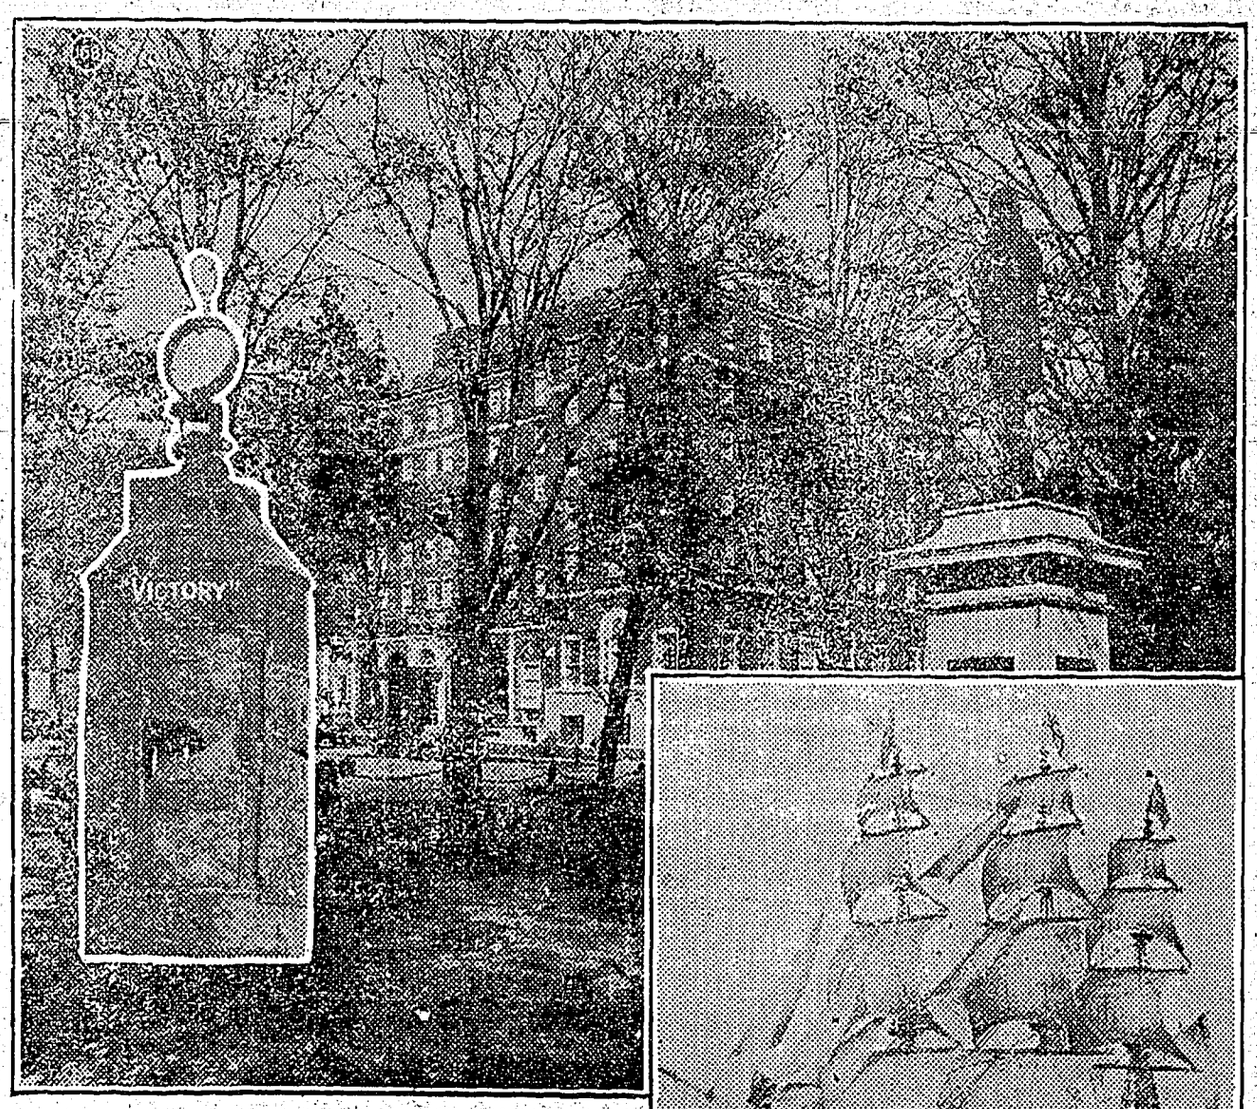
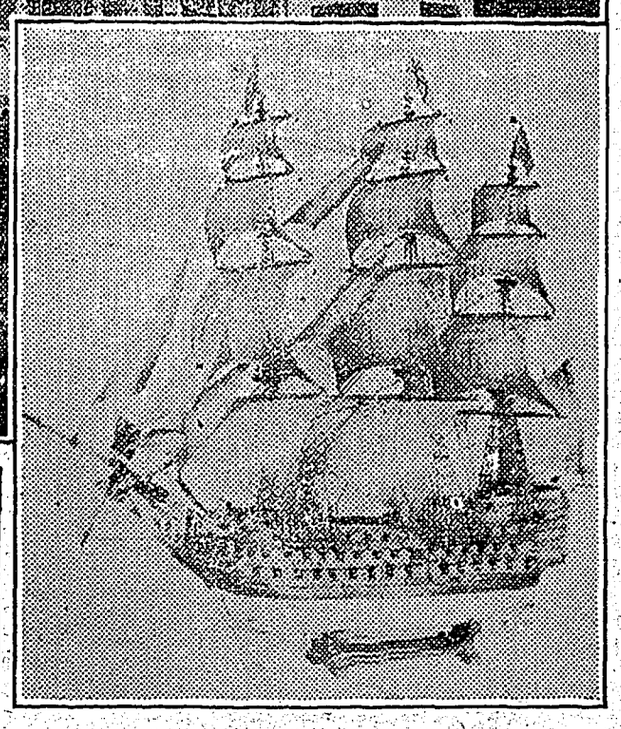
The Lord Nelson at Halifax



Citizens of Halifax take very justifiable pride in the fact that in bringing to fruition their dream of a new modern hotel, they have created a beautiful hostelry which, while still too new to have many valued associations, has an atmosphere redolent of those days of grace in which their city had its beginnings. The Lord Nelson, but recently opened, has a charm not usually associated with a modern institution of its kind and a decided nautical touch. The grill, for instance, is named the "Ward Room," and as one sees the sailor suited waitresses moving about the tables one half expects to hear the "Ship Ahoy," or "Light on the starb'd bow, sir." Lanterns help to foster the ship-board illusion, and, one of these lanthorns, pictured above, has very close associations with the sea. When Lord Nelson lay dying in the cockpit of H.M.S. Victory, while the great old ship heaved in the rollers off Cape Trafalgar on October 21, 1805, this lamp illuminated the scene as the doctors strove to save a life the loss of which was one of England's greatest.

A bust of Nelson, an original from the Royal Naval Institute at Greenwich, and an exceptionally fine piece of work, stands in a corner of the lounge, facing a model of his flagship. In the main dining-room, too, a very fine oil shows the admiral on deck and his men running up a signal of victory.



The Lord Nelson is, however, a little more than an art centre. It is a very modern hotel of 200 rooms facing the Halifax Public Gardens. Its public and convention rooms are exceptionally well planned and appointed. The design is Georgian, simple and beautiful. While it has been built as the result of a community effort, the Lord Nelson is operated by the hotel department of the Canadian Pacific Railway, which company has considerable interest in it. It will, therefore, compare very favorably in service and all essentials with the great Chateaus and other hotels of the company.

JOHN JOHNSON

John Johnson, whose appointment to the position of manager of the Chateau Frontenac, Quebec, is announced to be effective November 1st. Mr. Johnson joined the staff of the Chateau Frontenac as clerk in 1920, and became assistant manager in 1924. He succeeds B. A. Neale, who is appointed to the Royal York Hotel, Toronto.

Here and There

(166)

Employment officials at Regina state that out of the 6,000 British harvesters brought to Saskatchewan, at least 75 per cent, will remain in the West to become permanent Canadian citizens.

A 700-pound sea cow was shot the other day on the shore of Sea Cow Pound, Prince Edward Island an inlet which once swarmed with these gregarious, aquatic mammals but which are now a rarity. The animal was bought by a Summerside manufacturing concern which, used the hide for leather, the flesh for fox meat and the fat for lubricating oil.

A wool pool in Alberta is now a possibility. Premier Brownlee met a number of representatives of the industry in this province the other day and the subject was opened up in a preliminary way. It will likely come before the executive council for further considerations in the future, the Government being interested in all co-operative efforts by way of advising and encouraging.

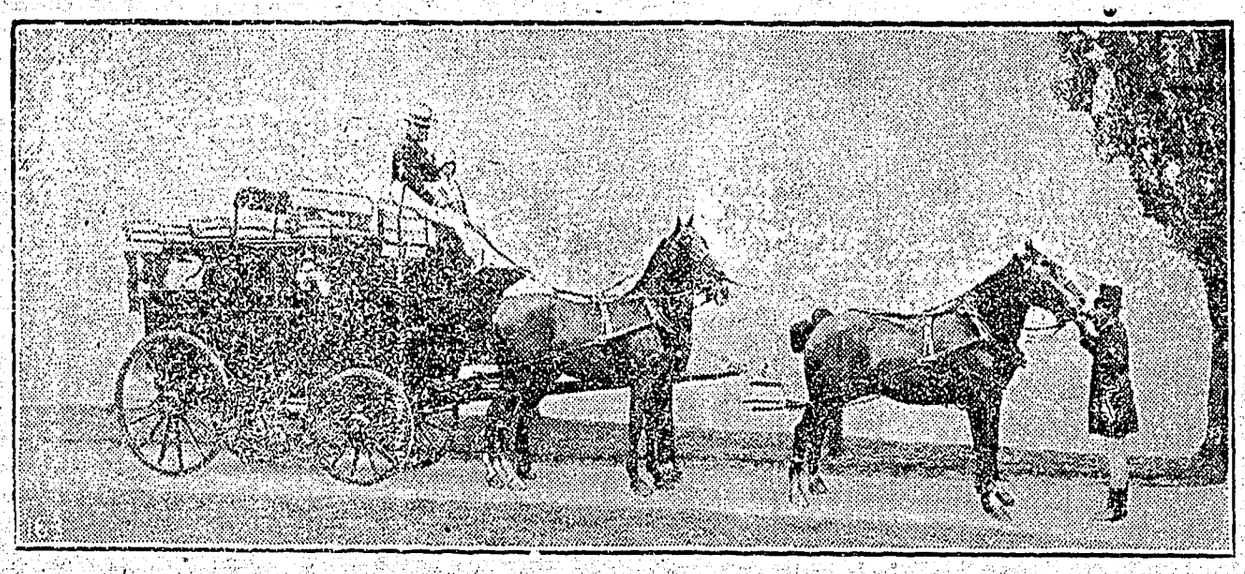
The Department of Public Works, at Ottawa, will shortly invite tenders for the first part of the public undertakings, designed to make Prescott, Ont., the transfer terminal for lake traffic. The ultimate outlay at Prescott is estimated at approximately $5,000,000, covering rail facilities, docks and elevators. It is understood that plans are now being prepared for the railway layout in which both the large railway companies are concerned.

The Lord Nelson Hotel, containing 200 rooms and decorated in the Georgian style, has just been opened in Halifax, Nova Scotia, facing the city's beautiful Botanical Gardens. The opening ceremonies were marked by a dinner given by the Board of Trade to E. W. Beatty, chairman and president of the Canadian Pacific Railway. Up to date in every particular and quietly and tastefully decorated in the period of design recalled by its name, the new hotel will fill a long felt want in the province.

Snow and dog teams are lacking in "His Destiny" a seven reel film produced by British Canadian Pictures Limited of Calgary, stated Guy Weadick, general manager of the company. The mountain scenes shot around Banff and Lake Louise are the finest backgrounds possible for an outdoor picture, he said. The Governor General and Lady Willington appear in the part showing the Calgary Stampede, and 800 horses are used in a round up scene in this all Canadian film.

An interseting and remarkable feat in railroad engineering is now being effected on the main line of the Canadian Pacific Railway near Toronto. Span by span the old steel bridge built in 1888 is being dismantled and replaced by heavier girders resting on new concrete piers without causing any interruption in traffic. During a six hour interval in the train schedule during the daytime tracks and ties are ripped up, an old span removed, and a new section weighing 45 tons is swung into place by a great crane especially constructed for the purpose. The short gap left between the new and the old spans is temporarily filled by special girders, new ties and track are laid by gangs of workmen, and the bridge is open to trains again. Preparations are then made to tackle the next of the thirteen spans.

Tally Ho! For the Royal York Course



This old-time stage coach will run twice daily from the new Royal York Hotel, Toronto, to the new Royal York golf course, which is under construction in the beautiful Humber Valley area. The coach originally belonged to Major-General Sir Henry Pellatt, C.V.O., K.C.M.G., and will be used for the conveyance of guests of the Canadian Pacific hostelry, who will call after the approved fashion of a by-gone day at the Old Mill for the refreshment of man and beast. The route will be via the Lakeshore Boulevard, Sunnyside and the Humber Boulevard.

Lord Nelson at Halifax Opened

Above, the Lord Nelson viewed as from the Botanical Gardens. Inset is a very charming corner of the lounge, showing the bust of Lord Nelson in the corner. Mr. E. W. Beatty was the guest of honor on the formal opening.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, in speaking as guest of honor at the banquet which marked the official opening of the Lord Nelson Hotel at Halifax, referred to the tourist attractions of Nova Scotia as being second to none on the continent. This from as well travelled a man as the head of the World's Greatest Travel System was a decided appreciation. "In addition to the opportunities for sport which are unsurpassed and attract tourists from both the United States and Canada, you have the historic associations such as typified by the Evangeline legend which the Canadian Pacific and Dominion Atlantic Companies have successfully preserved and featured. It seems to us only right that the railway which came into existence as a fulfilment of one of the terms of Confederation should encourage such travel to your cities and other historic places," he said. "That travel has grown apace during the last few years and it was because of this fact among others that at the solicitation of your business men we joined with them in the building of this hotel. It is for the same reason that we are building a modern hotel with other tourist facilities at Digby."

The Lord Nelson Hotel, while operated under the direction of the Canadian Pacific Railway is the result of a sincere effort on the part of the people of Halifax who have long been working for a modern hostelry which would adequately take care of the business which offered in the city. It is situated in the heart of the city and fronting on the Botanical Gardens that have helped to make this old city famous.

Within and without, the appearance of the hotel reflects great credit on its architects and builders. In building and in decoration it is Georgian in character, and throughout the hotel and particularly in the public rooms, a most successful effort has been made to express the period recalled by the historic name associated with it. Immediately inside the front doors is a handsome and spacious lobby, which at once gives the keynote of Georgian decoration. The hotel offices are here as also are other public services such as elevator lobby, telephone room, cigar shop, etc.

The mezzanine floor and ladies waiting room leads up from this, and on one side of the lobby is a short flight of steps leading up to the assembly lounge. In this room and in the adjacent assembly hall the attempt to recapture the atmosphere of two hundred years ago has been particularly successful. The chief feature is the fine fireplace over which is an excellent copy in oils of the full length portrait of Lord Nelson which was painted shortly before his death. In one corner stands a fine copy of the well known bust of this hero, and on the center table is a splendid model of his ship "The Victory."

The end of this room opens into the assembly hall which is large enough to seat about 250 people comfortably. At one end is an ample stage with the usual dressing rooms and disappearing footlights.

Leading from the other side of the lobby up a short flight of marble steps is a foyer, and beyond that the main dining room. On the floor beneath the lobby are a series of fine shops opening on the street, and here also is the spacious grill, which in keeping with the nautical flavour notable elsewhere in the building, is termed "The Ward Room".

Its woodwork is of oak and its ceiling crossed by hewn beams. It is lit by ships lanterns of brass and by candelabra designed from binnacle lights and ships steering wheels. The furniture also is of stout oak. Other features of this floor are a barber shop, beauty shop and the usual public services.

The bedroom floors include a number of fine suites of which the Royal Suite is an outstanding example. Like the other its character of decoration is in keeping with the rest of the hotel. It consists of sitting room, dining room and two bedrooms, and its furnishings include some fine examples of early Georgian. The bathrooms and general plumbing and heating arrangements throughout are up to the most modern standard as also are all the facilities for public service.
