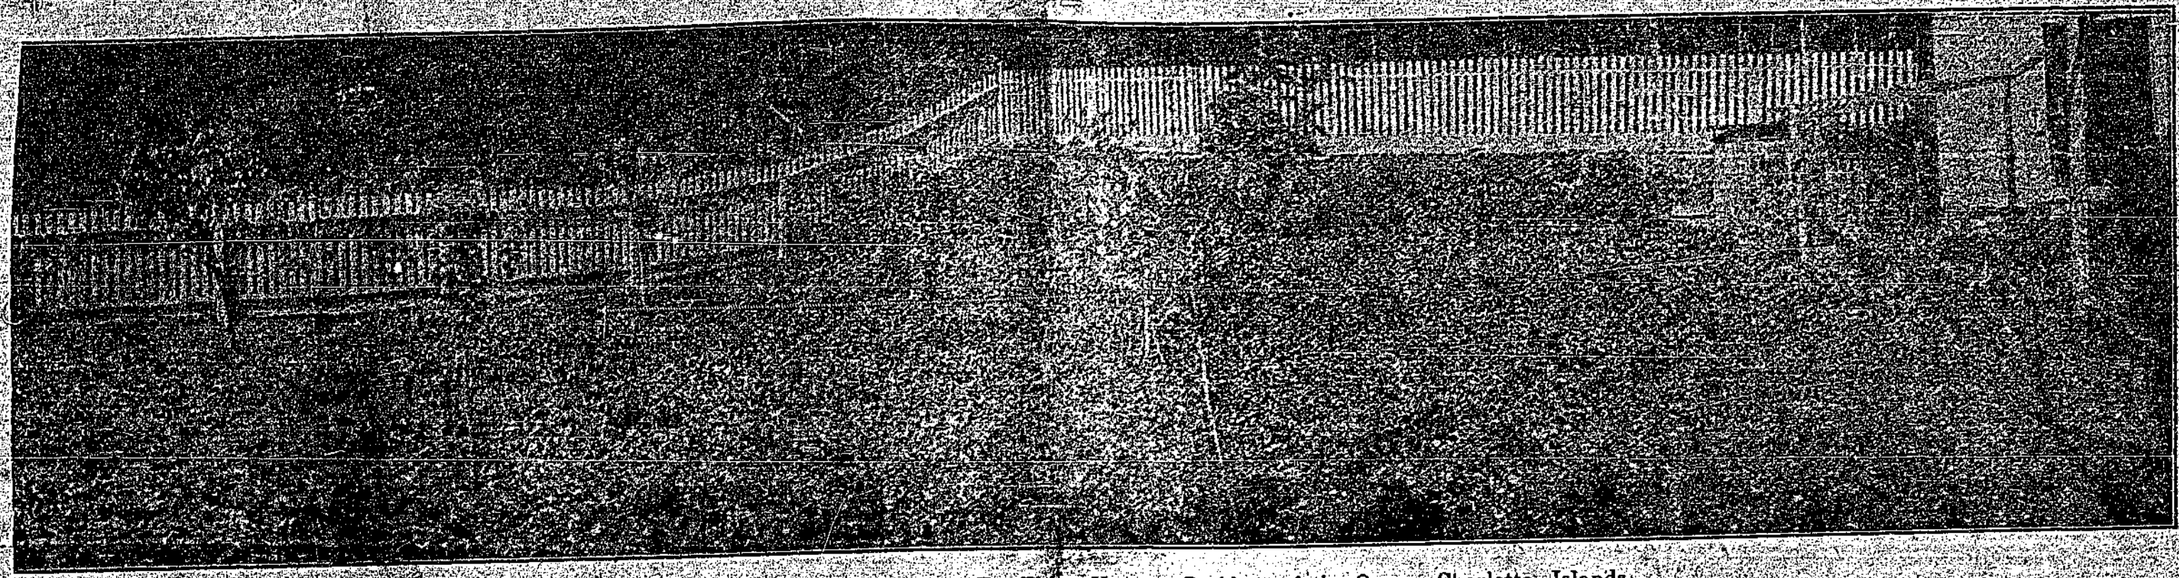
VOLUME 1, NO. 30 MASSET, B.C., THURSDAY, APRIL 10, 1913. PRICE TEN CENTS

WANT PIONEER IN RACE FOR LEGISLATURE



Magistrate Harrison in his Garden—For Thirty Years a Resident of the Queen Charlotte Islands.

MAGISTRATE HARRISON MAY BE WM. MANSON'S SUCCESSOR

In the event that William Manson, M.P.P., is given a job with the provincial government, there is liable to be a lively time in the Skeena district which he represents, and the Queen Charlotte islands, according to the best information obtainable, are going to advance to the Conservative organization the name of Magistrate Charles Harrison as a candidate of the Conservatives of the district.

It is more than probable Mr. Harrison would accept though, in doing so, he would be forced to give up several lucrative government positions, which he is averse to doing for the honor of the position which at best is an empty honor, judged by the success of the the present incumbent.

However, concensus of opinion is that Mr. Harrison would be the logical condidate. There is not the slightest doubt that, backed by the Conservative organization, he would win. It is more than probable, also, that, were he to run as an independent, he would win, for no man in the north is better known and none is more respected. He has a very wide grasp of affairs, political and business, intelligent to a higher degree than the average man attains, and, in addition, is a forceful and witty speaker.

The fact that he has lived for thirty years on the Queen Charlotte islands, in itself would commend him as a candidate to voters of this district who have received so little attention from Manson.

Manson, it is said by the way, is slated for some lame duck job or other in Victoria. From his inability to hold his constituents together, he has outlived his political usefulness, he is to be suitably rewarded. Therefore, it must pay to be a good dog. Some weeks ago it was suggested that William Manson, "our William," was to be rewarded by a job as "auditor-general," which has just been created. It would be hard to imagine our William as a watchdog of the B.C. treasury. But, to give him due credit, he is a good bookkeeper, but when that is said, that is all. As a member he is next to worthless, insofar as is concerned what he has done for the Queen Charlotte islands.

Giving Manson his due, he is honest, upright, forgiving of his enemies and is all those other things a pure and good citizen of British Columbia must be to go to heaven. But, as said before, as a representative he does not measure up to the standard.

LAUNCH FOR MAYER LAKE

Speedy Craft to be Placed on Pretty Lake by Surveyor.

Owing to the rapid settlement of the Mayer lake district, and the demand for a speedy craft to take the settlers from one end of the lake to the other, Frank Rice, P.L.S., it is reported, has decided to put on a capable of making about eight miles an hour.

Died at Prince Rupert.

Mrs. Alice Bell, a daughter of Ben Chapman, of the Masset reserve, died in the Prince Rupert general hospital a few days ago. The young woman was taken suddenly ill, before the last trip of the steamer Prince John, and it was decided to move her to Prince Rupert, to undergo an operation, from the effects of which she did not survive. The remains will be brought to Massett for interment.

To Contractors.

Tenders are wanted for the clearing of two blocks at Graham Centre. Full particulars from C. M. Adam at Garham Centre.

Homestead relinquishment near Graham Centre, 160 acres fine land, log cabin, garden cleared. Full particulars from C. M. Adam, Graham Centre.

J. K. Anderson, Tow Hill merchant, made a flying trip to Masset.

Dr. C. A. Graves was called to Tow Hill last week on account of the illness of Mrs. J. E. Hammond.

John Abrahamson was in town this week.

Fritz Rampmaer of the Woden river district was a Masset visitor Saturday.

$40,000 FOR IMPROVEMENTS

Government Agent Finishes work of Estimating.

ROADS, TRAILS, BRIDGES

Mayer Lake Will Have Six Mile Wagon Road.

Of the $80,000 allotted to the government on the Queen Charlotte islands this year, the northern end of Graham island will receive approximately $40,000, according to E. M. Sandilands, government agent, who, after a four days' inspection trip to this vicinity, departed Tuesday on his return to Queen Charlotte City.

The most important undertaking will be a wagon road from Queenstown to Mayer lake. The distance will be six miles. Off this wagon road trails will branch to the homes of settlers.

The Delkatlah bridge is assured, and this work will be undertaken very soon. Among the other work will be a cutoff at Tow Hill, about six miles, part of which will be a wagon road. The Nadu river hill will be cut down and the road and trails extend about a mile and a half. About the same work will be done in the Woden river district.

A trail around the first jam in the Yakoun river will be build for the settlers on the skid road. A seven-mile trail will be built from Kundis bay to the Nadu.

While the Delkatlah bridge will be the largest there will be other bridges over the Hi-Ellu, Sand Creek, Spence creek aud White river.

No work is contemplated in the Naden harbor district this year. An appropriation expected for the Sewal district it is understood, has not yet been arranged for.

Returned to Winnipeg.

James W. McCrea, head of the Queen Charlotte Land Co., of Winnipeg, expects to leave for home on tomorrow's steamer. Several of the settlers who came in with him will remain.

Several head of the best cattle owned by A. Vanderbom have been purchased by James White.

TODAY'S STEAMER BRINGS SETTLERS

Will Mark the Actual Commencement of Rush of Settlers.

MANY PRAIRIE PEOPLE

Every Month Until Fall Expected to See big Crowds Come.

Today's steamer, the Prince John of the G. T. P. service, besides inaugurating the new schedule of a weekly mail, passenger and freight boat, will also bring a score or so of settlers, who make up the first of the summer rush to the Queen Charlotte islands. They will be but the beginning, according to all reports, of an influx of settlers which will continue till early winter, and perhaps after that. Most of the newcomers have been advised to make the trip by the land promotion companies new operating here, and will probably first visit Sewall and Mayer lake districts before looking about elsewhere.

WILSON FOR DELEGATE

Owner of Delkatlah Towasite has Been Appointed to go to Prince Rupert.

At the meeting Saturday night of the Masset Inlet farmers' institute, Charles M. Wilson, of Delkatlah, was appointed to represent the institute at the Northern British Columbia Agricultural association.

SPENDS SUMMER HERE

Well Known Land Owner Will Build Summer Home.

S. D. Sewail, of the Star Realty Co., after whom the new townsite of Sewall was named, will spend the summer at Sewal, and has let a contract for the construction of a fine residence. Mr. Sewall plans to go south tomorrow, but to return during the month with Mrs. Sewall.

Mr. Christie, accompanied by Capt. McIntosh, arriaed from Prince Rupert on a launch specially engaged for the trip. They are looking over Mr. Christie's property on the west side of Masset inlet.

GRAHAM ISLAND POSSIBILITIES GERMAN HAS UNIQUE PLACE

That preempting land on Graham island has unusual possibilities, outside of the mere holding of the land for a Crown grant, is proven in the case of Fritz Rampmaer who has taken a place at the mouth of the Woden river, in what is said to be one of the most beautiful spot on the whole of the Queen Charlotte islands.

Ordinarily, the preemptor improves his place first, with a cabin, then probably with a woodshed or chicken coop. Rampmaer goes further than this—much further, in fact, for he, unlike probably any preemptor ever heard of, has lately added a Catholic house of worship, an unique, log built little church, which is under the charge of Rev. J.B. McDonald.

Rampmear came to Graham island about three years ago, and finally selected for his preemption the mouth of the Woden river, about eleven miles from Masset. While, of course, he made this selection merely because after a study of the soil, he decided it was the best place he could find, others soon afterward saw great possibilities in the location for a townsite.

But Ramqmaer, before he can plat a townsite there, must first put in the necessary time making his home there and also do considerable in the way of improvement. This he has done and then some, for no other preemptor, probably in the world, can boast the improvement which the little German does—a Catholic church, a grocery store, several comfortable dwellings, besides his own place, and all on his preemption.

The Woden river residents are looking forward to having a postoffice soon, too, and this more than likely will also be located on Rampmaer's preemption. The Woden district has grown rapidly during the past months, and it is estimated there are some thirty residents and families. A water power is to be harnessed there in the near future and this opens up additional possibilities, all following a general scheme of improvement of not only the district, but Rampmaer's preemption, the adding still more to the unique position in which Rampmaer finds himself.

PLANS FAST LAUNCH

Real Estate Operator Getting Touch of Speed Mania.

R. B. Entwisle, the real estate man, is planning construction of a fast launch, designed to make the trip from Masset to Queenstown in a shorter time than is consumed by the launches now on the inlet. The contract for the hull is to be let to S. S. Oliver, the boat-builder.

Annie D. in Commission.

The gasoline schooner Annie D., which formerly belonged te Andrew Brown of the Masset Indians will be used during the season as a fishery protection boat.

J. H. Park, president of the East Coast farmers' institute, was a Masset visitor last Saturday, and addressed the meeting of the directors of the Masset Inlet institute.

A. Vanderbom and family plan to leave on today's steamer for the south.

Famous Indian Canoe Builder Lives.

The report, anent the death of Richard Neylands, one of the famous dancers of the Masset band, is entirely incorrect. Neylands, besides being an exponent of the light fantastic, is also a canoe-builder, and is very much alive. He is manufacturing a "dug-out" canoe, across the inlet, and expects to take part in many more feasts and dancing bouts before crossing the great divide to the Happy Hunting grounds.

Walter Purkis, secretary of the farmers' institute, was in town this week from his ranch.

Henry Brun and Isaac Chapman, of the B. C. Fisheries, arrived in Massett recently on the launch Rydah, They are engaging fishermen for the company.

Frank Meldon of Queenston arrived in Masset last Saturday for a short visit.

Masset Townsite

As an investment promising a large increase in value Masset property is now very low.

As a location for sawmills, boat building and kindred industries Masset desires investigation.

To parties who have the knowledge to conduct such appropriate lines special inducements will be given to locate at Masset.

Real Estate dealers who can handle a portion of the Masset Townsite will find this worth investigating.

Masset is now the business centre of all the development of Graham Island.

The announcement of E. M. Sandilands, government agent, that work on roads and trails will be under way early in May, is received with a great deal of interest. It seems a shame that the government this year cannot afford to spend more money on the improvements, but settlers of Queen Charlotte islands have learned by experience to be thankful for small favors. It must be remembered that the Skeena district, of which this group of islands is a large part, is a big district, and it requires a lot of money from year to year. Of course at this time almost all of government interest is centered in, or immediately contiguous to, the thrifty city of Prince Rupert. While this, perhaps, is as it should be, settlers of these islands cannot help harking back to the fact that from these islands the government derives in revenue of various sort, something like half a million dollars annually. Last year there was expended on roads, trails and bridges on the Queen Charlotte islands the paltry sum of $52,000 —and stranger still, is the attitude of the government representative, who, in stating the astounding fact, actually seemed to believed that it were a sum of considerable size. Imagine! Half of that sum was put into improvements on the northern end of Graham island. At that rate in ten years it might possibly be seen where the money was spent. Little judgment is shown in building a trail, or a road, which is of practically no use. Better to build well, and strong, for the future than to dabble here and there and half finish work Fifty two thousand dollars spent on one road would probably make a showing for permanence, but distribute that money here and there, without regard to a uniform scheme, and the good it might do is wasted. The average settler seems to believe, and rightly, too, that the government should send an engineer here to lay out a plan of road and trail construction, and let each year's appropriation be expended with a view to forwarding the general scheme.

Not a district last year, nor this year, will see anything like the money really required for its improvement. Rather the idea seems to take as little money as possible, dig and grade here and there, so as to make a large showing. It is a fact that money has been spent in the Skeena district in places needing it far less than does the Queen Charlotte islands. One of the best road-building jobs in these parts was the road from the beach to Delkatlah—and there is but one preemptor who uses it, and he only part of the time. This road cost, it has been said, something like $4,000. It is a pretty fair road, but the same money expended in some other district, would have been of vastly more benefit. However, those at the head of things on the islands do the best they can with the meager means given them. Half a million dollars—the sum which the government gets annually in revenue from the islands,—wouldn't make more than a few scratches against the tremendous amount of work required. And in return the government would be well repaid for it would greatly increase settlement in the fairest part of the Province. The same amount of money that is being spent on an automobile road into the mountains, were it to be spent on the Queen Charlotte islands, would prove of greater good to the Province than its expenditure as is now being done.

Interest in the agricultural exhibition for this fall should not be allowed to wane. It will mean a high order of publicity for Graham island—the kind that cannot be bought with dollars and cents. Publicity is needed more than anything and nothing more effectual could be circulated than the results of an agricultural show. The Grand Trunk Pacific railway would be willing to take the prize specimens and exhibit them in the railway offices.

SAWMILL HAS BEEN SOLD

North American Timber & Holdings Co. the Purchasers.

For several weeks there has been a report in circulation that the sawmill and extensive timber holdings of the Moresby Island Lumber Company at Queen Charlotte has passed into other hands. Definite information from an outside source says the report is correct, and that the purchasers are the North American Timber & Holdings Company, of Chicago. This is said to be a very strong concern, and where their operations are carried on they are on an extensive scale. The deal will undoubtedly mean a big thing for Queen Charlotte, and in fact for the whole southern portion of Graham Island. The sawmill is located right in the town of Queen Charlotte, and the timber limits are close at hand. Everything is in shape for the new company to commence operations in short order.

Notice is hereby given that H. Holland, R. Rupe, W. Hudson, F. Portmore of Woden river will apply for a license to use water in Woden river which flows in a n.w. direction through s.e. ¼ 792. and empties into Masset inlet and will be used for industrial purposes on the land described as n.w. ¼ 792. This notice was posted on the ground on the 10th day of march 1913 the application will be filed in the office of the Water recorder at Prince Rupert Objections may be filed with the said water recorder or with the Comptroller of Water rights, Parliment buildings, victoria. B. C. H. Holland R. Rupe W. Hudson F. Portmore.

Synopsis of Coal Mining Regulations

COAL Mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the agent or sub-agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. i. the coal mining rights are not being operated, such returns should be furnished at least once a years.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the department of the Interior, Ottawa, or to any agent or sub-agent of Dominion lands. W. W. CORY,
Deputy Minister of the Interior.
