FALL IS HERE,

AND it suggests the need of new and seasonable Foot covering. . . . . .

We have been planning on this all through the summer, and now show the handsomest line of Footwear ever placed on display in this city. . . . . .

Our window will give you some idea of what we are doing in this direction. We feel that our line of shoes will appeal strongly to the people of good taste who require the correct thing. . . . . .

We solicit a call and early inspection of our offering. . . . . .

LILLIE BROS.
ABERDEEN BLOCK

Jane Coombs in Camille and Bleak House.

Miss Jane Coombs one of the most cultured and eloquent interpreters of female character now adorning the American stage, closed the most brilliant engagement of the season at Ford's Grand Opera House last evening. At nearly every representation standing room was in demand.

By her rare merits, personal as well as professional, Miss Coombs has made herself an established favorite from Boston to San Francisco. Beautiful and commanding in person, with a strangely sweet and carefully cultivated voice; refined, quiet and natural in her style of acting, never omitting the most trifling detail, nor availing herself of any of the usual theatrical tricks to manufacture sensations—she has won her way into the hearts of all admirers of true dramatic art. Men and women, old and young, grave and gay, all feel and acknowledge her irresistable power as an exponent of the higher walks of dramatic art. Her celebrity as an actress dates back for several years and the ablest critics in America admit that her personations are as "Gems in a Diadem of Art." She is a strict adherent to the legitimate school of art, and her successes are justly deserved. The eloquence of her features in expressing her emotions illustrates the spoken effect of the lines, and the picturesqueness, the groupings, to a very marked and unusual degre. Her whole conception of the various roles she assumes are the dramatist's ideas expressed to a letter, but intense, expressing as much by what it expresses as what it reveals. Miss Coombs is one of the few great American actresses, and she seems to avoid on principle anything that can suggest exaggeration. Her ideas are embodied with a grace of ease that speaks of studied social and physical training, as well as purely professional culture. In the strongest and most passionate characters she never verges upon the melo-dramatic, never hints at a wish for applause, never exhibits anything but dramatic metal of the true ring. She assumes a wide range of the most difficult characters, but they are all rendered with such artistic power and finish, all absolute truth that her identity is lost, and we see before us the living embodiment of the character she represents. Miss Coombs can always depend upon a warm welcome, nay, an ovation, when she visits Baltimore.—From the Baltimore Gazette.

"FOUND AT LAST"

CHARGED WITH LIBEL.

The Manager of the Montreal Herald Under Arrest.

Montreal. Nov. 13.—Chief of Police Hughes has issued a warrant for the arrest of Mr. Brierly managing director of the Herald. The city hall representative of the Herald for some time has been making a feature of city affairs and the Herald's exposures of the mal-administration alleged to exist have been creating considerable stir. The chief claims that in one of the Herald's articles he has been libelled and he says he will push the case to the bitter end. The Herald evidently is not at all frightened as it makes light of the chief's action remarking:

"If Chief Hughes proceeds with his suit it will be as good a way as any, perhaps, to go into the administration of his department; meanwhile we are indexing the various suits which the chief is bringing and trying to keep track of them. He says he has already three pending."

DEPUTY ATTORNEY-GENERAL.

Vancouver, Nov. 14.—H. A. McLean, who filled the office of deputy attorney general of Manitoba under Hon. Joseph Martin, when the latter was attorney general of that province. is expected to arrive in the city tomorrow to assume duty as deputy attorney general of British Columbia to which office he has been appointed by the Hon. Joseph Martin. Mr. McLean's salary in Winnipeg was $1900 per annum, and it is understood that his salary in his new office is $2500.

BANK OF MONTREAL.

A Satisfactory Report of the Half-Year's Business.

Montreal, Nov. 13—The Bank of Montreal half yearly statement, just issued, shows that the profits for the half year ending October 31, after deducting charges of management and making full provisions for bad and doubtful debts, were $629,118, which with the balance on profit and loss account on April 30, amounts to $1,581,328. Out of this amount a dividend of five p. c., amounting to $600,000 is payable on December 1 leaving a balance on profit and loss carried forward of $981,328, as against $952,210 for the half year ending April 30 or an increase of $29,118.

FOUGHT TO A DRAW.

Bridgeport, Conn., Nov. 14.—"Mysterious" Billy Smith and Tommy Smith, fought a 20-round bout to a draw before the Norris Atheletic club tonight.

THE RACE WAR IN THE SOUTH

Refugees From South Carolina Reach Washington

TO SEE THE PRESIDENT

It is Evident That the Whites are Acting With a Very High Hand in Wilmington and Vicinity.

Washington, Nov. 14.—R. R. Tolbert, whose family suffered so much in the South Carolina riots, had a long interview with President McKinley this afternoon. With Mr. Tolbert were three refugees from that state. They are J. H. Collins, postmaster at Ninety-Six; James Tolbert, post master at McCormick and R. L. Henderson. It is claimed that the mob ran James Tolbert away, but permitted his wife to continue the postoffice. She is his assistant. Mr. Tolbert said that R. L. Henderson had been run away from the bedside of his dead mother and was not permitted to attend her funeral All of the men are followers of the Tolbert family. Mr. Tolbert refused to disclose the object of his conference with the president. *It is said that he made a request for* interference from the White House and his party went to the post office to confer with postmaster general, Smith.

GOING TO WASHINGTON.

General Garcia and Other Cubans Will Interview the President.

Havana, Nov. 14.—General Calixta Garcia and his staff and other delegates from the so-called Cuban assembly, will remain at their Marianao headquarters until Wednesday, when they will leave for Washington. The delegates expect a satisfactory outcome of their conference with the president of the United States. The Cuban delegates, at their last session at Santa Cruz del Sur, resolved to discharge all men who have been enlisted since August 14, the date of the cessation of the hostilities and to give an indefinite leave of absence to all officers and men desirous of being dischargd from the Cuban army, provided they give their place of residence and sign a pledge to return to the ranks in case they are called upon to do so.

DISCUSSING RECIPROCITY.

The Committee of the Conference at Washington in Session.

Washington, Nov. 14.—The Anglo-American joint high commission held no meeting today, having adjourned over until tomorrow, but the reciprocity committee, composed of Lord Herschell and Messrs. Davies, Charlton, Fairbanks, Dingley and Kasson, was in session. The main attention is now being directed to reciprocity and the feeling prevails that if the parties could be brought together on it, the remaining questions would not take much time for determination, although a complete adjustment might not be reached on all of them. Hon. N. Clarke Wallace, M. P., formerly controller of customs for Canada, who is interested in the tariff adjustment, arrived here today.

HOOLEY AGAIN.

London, Nov. 14.—Mr. Hooley was before the Bankruptcy court again today and on cross examination, flatly contradicted the evidence of Sir William Merriott. He reiterated his statement that he had promised and had paid to Sir William £1600 for an introduction to the Carlton club. Sir William, Mr. Hooley added, told him that he did: "All the dirty work" for the Conservative party. Sir William suggested the giving of £50,000 by Mr. Hooley for a baronetcy and he was to get £10,000, if Mr. Hooley was made a baronet.

DEMAND CENTRALIZATION.

Madrid, Nov. 14.—Aragon has now joined with the other provinces of Spain in demanding the centralization of the government, on which subject a Catalonian deputation was received in audience by the Queen Regent today. The Aragonians, in presenting their demands, point out that the Anglo-Saxons of America, aided by the Anglo-Saxons of Europe, have obliterated half of Spain from the map.

DISASTROUS FIRE AT DAWSON

A Woman Throws a Burning Lamp at Another.

RESULT, $500,000 LOSS

A Row in a Saloon Leads to the Burning of Many Houses and Great Destruction of Property.

Victoria, Nov. 14.—Dawson City has suffered another serious conflagration. Returning Klondikers arriving in this city today by the Cottage City, bring the news that the city of Dawson has been visited by a $500,000 fire, in which 40 buildings were burned, including the new post office building and some of the best buildings in the city. The fire took place on the morning of October 14, and started in the Green Tree saloon. The blaze was started as a result of a row between two women of the town, in which one of them, known as Belle Mitchell, threw a lighted lamp at another woman. The lamp broke, the oil spread and in a few seconds the building was on fire. The fire of a year ago was caused by the same woman, who threw a lamp at a man with whom she had quarrelled A month ago she burned her own place on Third avenue in Dawson by throwing a lamp at a woman and now she has caused a conflagration by again losing her temper and wileding another lighted lamp.

The buildings destroyed by the conflagration, as given in the list published in the Klondke Nugget of October 15, were as follows:

Worden hotel, total loss, $50,000; Pattison & McGraw's, New England saloon. $4 4,000; post office building, owned by Alex McDonald, $1000; Green Tree saloon, total loss, $35,000; Empire bakery building, fully occupied, $40,000; McPherson & Johnson, stock and building. $20,000; Vancouver hotel, $25,000; John Sargent, new saloon, $2000; New York saloon store and ladies bazaar, $21,000; Case and Gilsey, $8,000; Maison Tortoni Jack Thirn, proprietor and Nellie Lewis and several others, $43,000; Hibbard, boot and shoe store and 16 small buildings, $6000; E. A. Suter, Jeweller, lost everything he had; I. Flataw, tailor, had his store in the same building with Suter, both were away, total loss, $16,000; John McDonald, tailor, stock and building, $6000, Geo. Brewett, tailor, $8000; Foley, butcher, $5000; Seattle lunch counter, total loss, $9000; restaurant, small stores, etc., on opposite side of street, $29,000.; 12 cabins occupied by demi-monde, furniture etc., $18,000; damage to buildings and by water to stocks, etc., throughout the burnt district is claimed by losers to be $100,000. Deducting 50 per cent, $50, 000, and the total is $503,000.

Of course, there is no insurance at Dawson, and the loss falls entirely upon the individuals. A number of buildings burned contained shot and shells, and occasionally when a fusilade occurred there was a scattering of the crowd, but no one was shot. No deaths resulted from the conflagration, nor was there any one fatally injured, but a number of the fire fighters received injuries as a result of the fire. Among these were: Private Mullens, of the infantry, contusions, sprains and burns; Geo. Ellis, *contusions on head and a shattered shoulder*; Dan Millen, scalp cut and skull cracked; W. A. Jones, head battered and burned; Constable Tipp, burns and spains; Private Enfield, face and arms burned; A. L. Haskins, leg badly wrenched. A number of men lost eyebrows and whiskers. The casualities were all among men who were fighting the fire.

BROKE THE RECORD.

Philadelphia, Nov. 14.—Major Taylor, the crack colored cyclist, today broke another world's record at Woodside Park. He rode for a third of a mile record of 30 1-5 seconds, made by Willie W. Windle at Chillicothe, Ohio, in the fall of 1895, and was successful in his first attempt. Taylor had quintuplet pacing. A strong breeze was blowing down the stretch. The pace was to all appearances perfect, but was not fast enough for the colored wonder, who urged the riders to go faster. The pace set carried him the third of a mile in 29 4-5 seconds. Later, Taylor tried for the three fourths of a mile figure in 1:10, held by J. S. Johnson, but the best he could do was 1:11.

TO BE GOVERNOR OF MALTA.

London, Nov. 14.—The Malta correspondent of the Daily Mail says it is reported there that Lieutenant General Sir Francis Wallace Grenfell, inspector general of the auxiliary forces, and in supreme command of the operations conducted by the Sirdar, General Lord Kitchener, for the re-conquest of Egyptian provinces inthe Soudan, will be the next governor of Mala.

NUGGETS RATTLE IN THE PANS

Auriferous Ground at Atlin Lake.

THE DIRT IS VERY RICH

McKee Creek, Which Runs Into the Lake, is the New Field and Many Claims Have Been Staked.

Victoria. Nov. 14.—The Cottage City brought 200 passengers from Alaska ports. Her passengers were mostly from Skagway and other coast cities, but there was a small scattering of miners from Cook's Inlet, Dawson and Atlin, as well as from the Stickine country. The Atlin men bring news of a new strike, a creek parallelling Pine creek, having been found which feeds Atlin lake about eight miles south of the first discovered creek. The discoverer, Robert McKee, who was one of the passengers down, took out five or six pans, the average per pan being $1. The new creek, which has been called McKee creek, after the discoverer, who is an old Arizona miner, promises to rival Pine creek. The find was made fully two months ago, but kept secret until friends could reach the scene. The discovery claim was formally recorded on October 29, and a stampede at once followed, with the staking out of 110 claims. The discovery property prospected coarse gold on the bedrock at five feet and an expert from California, Mr. Loy, was introduced as adviser. At his suggestion, work was commenced about 200 feet from the original location on a projecting dyke and at three feet from the surface, five pans of dirt were washed, returning $5 in dust and a 17 dwt. nugget, worth very close to $17. Bedrock was got at from six to seven feet, and even richer returns were obtained from the test pan. After the stampede the ground was prospected for a full mile along the creek and colors were everywhere obtained that could be heard as they dropped into the pan. The richest ground at present known is about 2½ miles from the mouth of the creek and here upwards of a dozen Victorians are among the owners of claims.

A BROOKLYN DISPUTE.

A Case Involving Ownership of Land Tried Before P. M. Crease.

The case of Regina vs. McDonald was heard at the court room yesterday afternoon before Police Magistrate Crease, who presided owing to the illness of Gold Commissioner Dennis. The facts of the case as brought out in the evidence were as follows:

Two men D. D. McDougall and A. A. McDonald left Nelson last summer for Brooklyn intending to go into partnership in the hotel business. McDonald leased lots 17 and 18, block 1, from W. Parker, the original locator of the townsite, with an option to purchase when title vested in Parker.

Owing to differences they subsequently decided not to go into partnership, but it was alleged that an agreement was made by which McDougall was to superintend the building of a hotel for McDonald on lot 17, for which he was to receive McDonald's good will of lot 18. After the building was erected McDougall obtained a lease from Parker of lot 18, the lease to McDonald not having been either surrendered or cancelled. McDougall then left Brooklyn depositing his lease with S. Barry Yuill for disposal and sale. One Peterson entered into negotiations with Yuill for the purchase of the lease and was in the act of moving a building to lot 18, when he was stopped by McDonald, the latter claiming the lot under the prior lease. Peterson satisfied himself that McDonald had prior title and purchased from him the lease of the lot.

McDougall then laid an information against McDonald for fraudulently selling the lease of the lot, knowing that the lot had been previously leased. The case occupied the whole afternoon, and at its conclusion the charge was dismissed. Mr. R. M. Macdonald appeared for the prosecution, Mr. W. A. Macdonald, Q. C., for the defence and W. A. Galliher watched the case on behalf of the crown.

ARRAIGNMENT OF AMERICAN ACTIONS

Filipinos Want the Fruits of Victory.

INSOLENCE OF INGRATES

There is Likely to Be Trouble With the Natives in the Philippines, But the Americans Will Rule.

Hong Kong, Nov. 14.—The Filipino Junta, representatives of General Aguinaldo and the Filipino government here, have drawn up what they designate as an "Appeal to President McKinley and the American people," but what is in reality rather in the nature of an arraignment of American actions in the Philippines.

The memorial says: "We, the Hong Kong representatives of our countrymen, appeal to the great and good judgment of President McKinley and the spirit of fairness and justice of the American people as it is always shown in their regard for the petitions of the weak and oppressed.

"While the fate of the islands is still undecided and we are doing all in our power to prevent a conflict between the Americans and the Filipinos, awaiting patiently the conclusion of the Paris conference, we implore the intervention of the president, supported by the will of the people, to end the slight shown our leaders, soldiers and people by some of the American military and naval officers, although we do not wish to wrong Admiral Dewey or General Otis.'

The memorial then avers that "False reports are spread broadcast alleging that the Filipinos are responsible for all friction" and points out, "that the tension is greater every day and any moment a shot may be fired by an irresponsible American or Filipino soldier, leading to great bloodshed, and we beseech the United States to help the Junta to control our own people by directing American officials at Manila to temper their actions with friendship, justice and fairness."

From the commencement of hostilities, continues the memorial "the Filipinos acceded to all the American requests, but after bottling the Spaniards in Manila, the Filipinos were completely ignored when the Americans advanced and thus deprived them of the fruits of victory. Now, after months of campaigning, the Filipino troops have been ordered beyond the suburbs, where they have no quarters and where supplies are difficult to obtain. All our launches have been seized because of foolish rumors that we would attack the Americans and when we asked explanations, we were not even answered. The Spaniards, of late the enemies of the Americans, have been shown every consideration, while the Filipinos, their friends and allies are often treated as enemies."

The memorial concludes thus: "We await the arbitrament of the peace commission with even greater interest than the Americans, because it concerns our land, our happiness and our freedom. In the meantime, we shall pray for peace and a perfect understanding with the Americans."

HIGGINS WINS

The Judge's Decision Places Him in Possession of the Esquimalt Seat.

Victoria, Nov. 14.—There was a good atendance in court this morning to hear the final result of the Esquimalt election petition. Mr. Duff, for the petitioner, informed the court that the petitioner would rest his case on the result of the scrutiny as announced by his lordship and would withdraw the charges of corrupt practices against respondent. Mr. Gordon Hunter proposed to put Hon. Mr. Pooley, Q. C., in the box to disprove the evidence of bribery given by the witness Secor against him, but his lordship said there was no necessity for doing so. Secor had contradicted himself in his evidence to which the court attached no importance and Mr. Pooley had practically no charge to refute. His lordship then made the following announcement:

That on the ninth day of July last, Mr. William Fitzherbert Bullen was not duly elected member for Esquimalt.

FRANCE TO BUILD WARSHIPS

London, Nov. 14.—The Daily Mail says this morning that the French naval construction programme for 1899 includes two battleships of 14,500 tons each, with very powerful armament and protection; two cruisers of 4000 tons each; two large torpedo boat destroyers and 11 torpedo boats.

MAJOR WALSH'S PROJECT.

Major Walsh declares his intention of taking up the project of building a railway into the Yukon from a British Columbian port, so that an entirely Canadian route may be provided. This should have been done long ago, and it is most creditable to Major Walsh that he should declare his intention ot devoting his energies to so worthy a cause. There is little likelihood of the international conference arriving at any satisfactory arrangement of the Alaska boundary dispute, putting an end to the absurdity of a foreign country controlling a portion of our coast line to which it is believed to have no valid claim. In this view, unless a railway be built from some port in northern British Columbia into the Yukon we shall have to submit indefinitely to the restrictions and inconveniences which must always apply when our traffic has to pass through a foreign and commercially hostile territory to reach our own possessions. Major Walsh, being an observant man, has personal knowledge of the disabilities under which Canadian traffic to the Yukon at present lies, and he sees the absolute necessity, if Canada wishes to derive the full benefit of her matchless gold fields, for a railway entirely independent of American control. There can be no doubt that the Yukon gold fields will be productive for many years to come, and they are certain to attract a large and permanent population, the needs of which must open up a new and important trade channel, which Canada could and should make her own. At present that trade is shared, and largely shared, by American houses in the cities of the Pacific states, and the fact that Americans claim as theirs and occupy the coast line has permitted them to open ports, on what should be British Columbian territory, from which nearly all the trade of the interior is directed.

If Major Walsh's project be successful, and he should have all the assistance possible in making it so, the result will be the founding of a Canadian city on the upper coast of British Columbia and should such a port be created, Canadians can hold the trade that should be theirs. It is hoped that Major Walsh will lose no time in getting his undertaking under way and that before this time next year British Columbia may see the competition of a line that will give her what rightly belongs to her.

WHEN CORRUPT MEN RULE.

It is hoped that Mr. Brierly, of the Montreal Herald will not falter in his attack upon the corrupt city council that has almost brought that city to bankruptcy. He may expect to be pursued by slander and vituperation but these are always the portion of the man who assails public abuses. Yet in the end he wins not only the confidence of the community whose interests he serves but the respect of those against whom his attack has been directed. Montreal was always an ill-governed city, but it is now in a worse state than ever. There must have been reckless waste of money, if not something worse, to bring the city into the condition it is in now. There is no money to pay the fire brigade, the police have to appear in the street in plain clothes for lack of money to purchase uniforms for them, and many suits are threatend to force payment of accounts long overdue. The mixed population of the city, the French element predominating, has rendered combined effort in securing creditable city government impossible. Men who in well regulated communities could have had no hope of being elected to any position, however obscure, managed to secure election to the council and in such hands it is not to be wondered at that all manner of culpable mismanagement should result. Any city that trusts its government to unscrupulous and dishonest men must come to grief.

DEVOTION TO DUTY.

During a recent lull in the Egyptian business, Lord Cromer, British representative in Egypt, was called home owing to the severe illness of his wife. He had been but a short time in England when a very serious turn of affairs in Egypt demanded his presence at his post without delay. He was ordered back and at the solicitation of Lady Cromer he set out on his return journey. He took Lady Cromer with him and passed as rapidly as possible to Cairo, and there the beloved companion of his life died in his arms. An ordinary man under such cicrumstances would have shut himself away with his grief from all business, but Lord Cromer, knowing what was expected from him by his government, was at his post giving that masterly attention to his duties which has marked his course ever since he was appointed to the position in which he has so signally distinguished himself.

THE CITY COUNCIL.

The Roman Catholics Get Two Acres—Petitions For Sewer Connection—No Placards on Electric Light Poles.

At the weekly meeting of the city council held yesterday afternoon there were present Mayor Houston in the chair, and Aldermen Hillyer, Madden Malone, Whalley, Gilker and Teetzel. The question of the amount of land in the new cemetery to be allowed to the various denominations and friendly societies was discussed at some length, the Roman Catholics being very anxious to obtain two acres. It was pointed out that the Roman Catholics bury their own paupers and that bodies would be brought from the Slocan to be buried here in consecrated ground. Eventually on motion it was decided to grant the Roman Catholics two acres, and the Knights of Pythias one acre, on the usual terms. An application was read from Charles Etter asking for the exclusive right to buy the ice from the water works reservior. It was considered inexpedient to assign the right so early so the communication was ordered filed.

A communication was read from H. J. Evans offering to present the city with 300 feet of eight inch pipe, providing they would put in a sewer in the alley way behind blocks, 26 and 27. The residents of those blocks also sent in a petition for a sewer, offering to pay a year's rates in advance.

Two other petitions for sewer extensions were also read.

The mayor pointed out that the city had already spent $8264.66 on sewers this year, and the supplies ordered would bring the amount up to $10,299.62. The sewers asked for would entail the expenditure of another $1500 and the laying of about 1000 feet of pipe.

On the motion of Ald. Teetzel the city engineer was instructed to make an estimate of the cost of the proposed extensions, and to report to the next meeting of the council.

A letter was read from J. R. Robertson asking for a side walk to the house he is erecting. It was decided to put in a crossing at the corner of Baker and Falls street.

Ald. Hillyer drew attention to the danger arising from the defective state of the side walk on Vernon street, between Josephine and Ward streets. The mayor said there were now two gangs of men working on sidewalks, and that the matter referred to would be attended to as soon as possible.

A number of accounts were then ordered paid, including an estimate for $543 in favor of Annable & Brown for removing bodies from the old to the new cemetery.

On motion of Ald. Hillyer seconded by Ald. Madden it was resolved that all bills and placards be removed from the electric light poles and that any one placing advertisements of any kind on the poles in future be prosecuted.

The mayor announced that the committee of the Board of Trade wished to meet the special committee of the city council at 7 p. m. or an hour before the general meeting of the Board of Trade.

The mayor also stated that local wholesale grocers were complaining that the C. P. R. allowed wholesale firms in Victoria, Winnipeg and other places to bring in their stuff by the car load and then distribute it to the retailers, which made it very hard for the local wholesale men to do business.

A discussion ensued on the question of rates generally and Ald. Teetzel said the only way to ensure Nelson being the distributing point for Kootenay, was to get terminal rates.

After Ald. Malone, who is going to take a trip down to San Francisco, had asked for six weeks leave of absence, the council adjourned.

THE CROWS' NEST RAILWAY.

Western Superintendent Whyte will today take over the Crow's Nest Pass line on behalf of the operating department of the C. P. R. A regular service will be put on as soon as the state of the road permits. The work of ballasting the track is being energetically pushed, but has been greatly retarded by the wet weather.

F. W. Peters, district freight agent of the C. P. R. left about midnight by special steamer for Kootenay landing to meet Mr. Whyte, and Traffic manager Kerr. The three will proceed thence to Winnipeg and will there settle the rates over the Crow's Nest Pass railway to Nelson and Kootenay points.

NOTICE.

Until further notice no passengers will be carried over the line of the Crow's Nest Pass railway between Kuskonook and Cranbrook.

BOARD OF TRADE MEETS

Several Important Resolutions Were Passed.

WILL THE C. P. R. HELP?

Nelson Wants to Be a Divisonal Point—Distributing Carload Lots—Local Freight Rates—A Mineral Colection

A very largely attended meeting of the South Kootenay Board of trade was held yesterday evening at which the president, J. Roderick Robertson, presided. Before proceeding with the business of the evening the following new members were elected, W. G. Lillie, G. A. B. Hall, F. W. Swannell, S. S. Fowler, and E. A. Crease.

The first matter which came up was a petition to the Dominion government for aid in furnishing transportation facilities for the Lardeau country. The petition set forth the natural resources of the country, and how they were retarded by lack of transportation. The board of trade decided to endorse the petition.

A long discussion on the best means of inducing the C. P. R. to make Nelson a divisional point ensued.

The mayor stated that the present council would open negotiations on the subject, which their successors in office could continue.

The proposed basis of the negotiations was that the lands of the C. P. R. should be exempt from taxation, and that they should be permitted to close the streets on the flat at the west end of the town, which they would need for yard purposes.

Mr. F. W. Peters explained that the repair shops were always situated at divisional points, but that "the extent of the shops varied with the amount of business radiating from that point."

After the mayor had pointed out that any definite proposition would have to be submitted to the people before becoming binding, a resolution was adopted to the effect that the best interests of Nelson would be advanced by making Nelson a divisional point, and requesting the council to make overtures in that directi

The question of get ing an appropriation for Fedral buildings, including a post office and custom's office was then discussed and the mayor recounted the difficulties the delegation had encountered in Ottawa this spring. The authorities only considered the population of a town and not its revenue producing capacity. He thought that Mr. Bostock had done his best for Nelson in that direction.

A committee consisting of the mayor and Messrs. Fletcher, Thompson, Grant and J. A. Turner was appointed to draft a memorial on the subject, which will be printed and sent to all the members of the house, as well as of the cabinet.

Mr. H. B. Thompson then proposed the following resolution regarding the practice of distributiing car loads of freight:

'Resolved that the South Kootenay Board of Trade beg to urge upon the Canadian Pacific, Great Northern and Northern Pacific railways the expediency of doing away with the system of distributing car loads of freight throughout the various points in the Kootenay country in small quantities, at car load rates, as this system militates heavily against the interests of local merchants to the advantage of wholesale merchants at far distant points, who are not in a position to properly conduct the jobbing business of the Kootenay country."

Mr. F. W. Peters said that his information was that the C. P. R. had been driven into it by American competition, but there was nothing in the business. He would get the management to look into it, and do his best to get it abolished. He could not speak for the other lines but did not anticipate serious difficulty in getting the matter settled.

Mr. W. H. Grant had heard representatives of two other lines speak in favor of its abolition, and the above resolution was then seconded by Mr. Martin, and carried, Mr. Peters promising to lay a copy before the management.

Mr. J. Bannerman stated that the merchants of Winnipeg and Calgary get a reduction of 20 per cent. on freight sent by them to retailers in the surrounding country, and it would be a good thing if Nelson were simi..rly situated with regard to East and West Kootenay, and the following resolution seconded by Mr. H. B. Thomson was accordingly carried:

"Resolved that in the event of the C. P. R. abolishing the distributing of car loads, the South Kootenay Board of Trade urge upon the company the expediency of Nelson being put on relatively the same footing as regards the local freight rates to points in East and West Kootenay, as Winnipeg now enjoys to all points west, and that similar resolutions be sent to the Great Northern and Northern Pacific railway companies."

A committee consisting of the mayor, and Messrs. Gibson and Fletcher was appointed to approach the post master general on the question of getting seven mails a week in Nelson, instead of the Sunday mail lying all day at Northport, and also to see Postmaster Gilker with reference to the inconvenience experienced by those wishing to buy stamps or to register letters or to get money orders, through the wicket being closed from 4:30 p. m. to 6 p. m., while the mail is being sorted.

It was also decided that the Board of Trade should acquire an exhibit of local mineral products, and the secretary was instructed to correspond with the various mine owners with regard to getting specimens.

CITY AND VICINITY

Condensed News of the Happenings of the Week In and Around Our Busy City and Kootenay.

It is intended to blow in the lead stack of the Hall Mines smelter this evening at 6 o'clock.

Mr J. L. Retallack, who has been suffering from a severe attack of fever at Spokane, and who has had a serious struggle for life is improving, although still unable to be up.

Four or five car loads of coal from the Crow's Nest Pass Coal fields are expected to arrive in Nelson today, the consignment having been loaded on barges at Kuskonook yesterday.

The ladies of the Catholic Ladies' Aid Society desire to express their thanks to the public of Nelson for their kind patronage of their recent bazaar. The net amount realized was $2,437.85.

The new public school has progressed so far that the two lower rooms will be occupied by teachers and pupils on Wednesday morning. Miss Wyckham will enter upon her duties as teacher on that morning.

It was Mr. Price McDonald, an old timer in this part of the Kootenay, who had the operation performed on him for appendicitis at Miss Crickmay's hospital on Sunday afternoon by Drs. La Rau & Forin.

A meeting of the Scotchmen of Nelson will be held this evening at the Phair hotel at 9 p. m., in connection with the St. Andrew's Society which is in process of formation. All interested in the movement are invited.

Emma Johnston, a notorious colored woman of the east end was charged yesterday before Police Magistrate Crease with being drunk and disorderly. Owing to her illness the case was remanded until Wednesday afternoon.

The Cascade Record is the latest addition to The Miner's exchange list. The paper is published by W. B. Wilcox of the Brooklyn News and P. J. O'Reilly, late of Nelson. It consists of an eight page, four column folio, with a good advertising patronage and is well filled with local news of the district.

R. Harron, representing Herrmann & Co., of San Francisco, is in town in connection with a dispute with the custom's authorities. It appears that a shipment of vegetables was wrongfully seized, and that the consignees subsequently refused to accept delivery, as the price of the goods had fallen in the meantime.

Mr. Harry Wright, clerk in the government offices at Nelson and late assistant postmaster, leaves on this morning's train via Spokane for his home in Beeton, Ont. During his absence Mr. Wright will undergo an operation for appendicitis at the Toronto General hospital, which his many friends here hope will result successfully.

COMMUNICATIONS.

MR. THOMPSON'S DISMISSAL.

To the Editor of The Miner,

Sir:—In reply to a communication in The Miner of the 10th inst., from A. E. Fauquier, permit me to say that he is trying to deceive the public wilfully, or else is ignorant of the facts in the case he is trying to bring against the Minister of Mines, re the appointment of a recorder, at New Denver. Mr. R. Thompson was only a clerk in the record office, and not recorder, as Mr. F. is endeavoring to convince the public; however, I have no doubt it would be very convienent for Mr. F. and his friends to have the privilege of appointing a recorder here, who would suit their purposes. We, the supporters of the present government are quite willing to have this matter investigated, if Mr. F. and his friends wish it. By the way, I might say that the New Denver political mum club held their last weekly meeting last night and it proved a dismal failure. By publishing this in your valuable paper you will be giving a few facts in the case to the public. Yours, etc.,

A MINER.

New Denver, B. C., Nov. 11, 1898.

THE ALBION MINE.

A deal is on for the sale of the Albion mine in the Ainsworth district to eastern parties, says the Spokesman Review and President Aldredge is engineering the deal, bnt he is not telling all its details. At a meeting of the stockholders in Spokane on Saturday he proposed that each stockholder place his stock in escrow for 90 days, he agreeing to take the same up within that time at 6½ cents per share, which is on a basis of $65,000 for the mine. The stockholders almost unanimously agreed to the proposal. The price offered represents a profit of almost 2½ cents per share to those interested in the development of the mine. The property has been developed to the extent of about $25,000, but will not be further worked while the deal is pending.

ACCIDENT ON THE C. P. R.

A fatal accident occurred on the main line of the C. P. R. on Friday last by which Brakeman Reid and Engineer Little lost their lives. The official report of the accident is as follows:

A west bound freight train left the rails about 1½ miles east of Shuswap, on a long tangent and on level track. Engine 678, Engineer Little, Conductor Powers was pulling a train of 20 loaded cars when the engine and two cars left the track with the above result. Doctors from Kamloops were on the ground within two hours after the occurrence. The track was cleared for traffic in six hours.

DELAYED N. W. ELECTIONS.

In the delayed elections in the constituencies of St. Albert and Victoria in Northern Alberta, Villeneuve defeated Maloney and Gairdner in St. Albert, and Shera defeated Fraser Tims in Victoria. Mr. Villeneuve is a son of Hon. Senator Villeneuve of Montreal and is editor of the L'Ouest Canadien, a French paper published at Edmonton. Mr. Shera is a merchant at Victoria.

A DICKENS NIGHT.

Manager Hume of the Hotel Hume Auditorium is to be congratulated upon the notable engagement, that of Miss Jane Coombs, one of the world's greatest actresses, who will appear here on Wednesday and Thursday evenings in "Camille and her marvellous creations of Lady Dedlock and Hortense in Charles Dickens' master piece "Bleak House", supported by her superb company. 1*

A NEW OPERA HOUSE.

Miss Jane Coombs and her company of dramatic artists will appear at the Hotel Hume Auditorium for two nights Wednesday and Thursday, in "Camille" and "Bleak House". Mr. Hume is going to great expense in having a stage put in and fitting up the hall with chairs, etc. The place will be made comfortable and cozy. He has one of the strongest companies on the road to open the new place of amusement. Miss Jane Coombs as Camille has been acknowledged by the public press to be at the top of the list since Clara Marro's day, and in "Bleak House" she has no rivals. 1*

A LAND OF SILENCE.

What land of silence
Where pale stars shine
On apple blossoms
And dew drenched vine
Is yours and mine?

The silent valley
That we will find
Where all the voices
Of humankind
Are left behind.

There, all forgetting,
Forgotten quite,
We will repose us,
With our delight
Hid out of sight.

The world forsaken
And out of mind
Honor and labor,
We shall not find
The stars unkind.

And men shall travail
And laugh and weep,
But we have vistas
Of gods asleep,
With dreams as deep.

A land of silence
Where pale stars shine
On apple blossoms
And dew drenched vine,
Be yours and mine!

A NEAT TRAP.

The First National bank of Parkville was the financial institution of Park county. Its stockholders included all the best business men of the town and a number of leading farmers, and the standing of the institution was all that could be desired. There is always an odd sheep in every town, and in Parkville the odd sheep was Uncle Billy Edwards. Not once in a year did any one mention his last name. It was always "Uncle Billy," and he was everybody's friend and nobody's enemy. At the time the bank was organized he was a man 50 years old. He was simple minded, lived with a relative and picked up a quarter now and then by doing an odd job. Some one told Uncle Billy about the bank, and he straightway sought an interview with the man who was to be president. In a spirit of fun the latter appointed him the First National bank extraordinary burglar catcher and promised him a salary of $10 per year. The old man was delighted, and the bank had not yet opened for business when he armed himself with a club and paraded the streets for several hours each night. Every one laughed at him, and yet he was so good natured and so zealous that no one hurt his feelings. After awhile he ceased to act as a night hawk, but he was "on deck" all day long and became a sort of fixture at the bank.

They had lots of fun over Uncle Billy's stories of the suspicious characters he had seen sneaking about and of the bank burglars who had tried to bluff him or run him off, and no one was jealous of him except the regular night watchman. About four nights a week Uncle Billy would slip out of his bed at midnight and walk half a mile to knock on the front door of the bank and satisfy himself that the watchman was awake. He was chased away time after time, with missiles following him as he fled, but he reappeared after a night or two and was not to be got rid of. One day when the bank had been open about eight months two strangers drove up in a buggy at noon. Only the paying teller and the bookkeeper were in their places. The teller was called out to talk to the man in the buggy, while the second one engaged the bookkeeper in conversation. Then a third man sneaked in to rob the open safe, and he would surely have made a big haul but for the presence of Uncle Billy, who stuck close to his elbow and gave him no chance. It was not known for a year that the thing was a put up job and that but for the old man the $15,000 lying in the safe would have been deftly abstracted. Uncle Billy had a dim suspicion that a plot had been hatched, but as nothing had been taken his talk of how he watched the stranger was put down with the rest of his vaporing.

As is the case with most country banks, the building was two stories high, with the second story finished off for offices. There were six or seven rooms, and for the first year these were rented out to local lawyers. At the end of the year the party having the rooms over the vaults moved out, and, after they had stood idle for two months, they were rented to White & Gregg, insurance and real estate agents, who came to Parkville from Philadelphia well recommended. Both claimed to be married men, but neither brought his family. They were going to try it first for a few months. Their first move was to deposit $8,000 in the bank and a box of bonds and valuable papers. Their next was to invest in 20 vacant city lots and to take $1,000 worth of stock in a woolen mill, then building. In these and other ways they made themselves solid with the business men of the town, and the public at large looked upon them as valuable acquisitions to the community.

Uncle Billy, in addition to being the "extraordinary burglar detector," carried up the fuel and swept out the offices for the lawyers, and when White & Gregg took possession he did not lose his job. They soon came to understand him, and he was allowed to come and go at will, though he was never in the way when not wanted. He was enthusiastic in their praise for the first three months, as they paid him liberally, but one day, in whispered tones and with an air of mystery about him, he asked for a private interview with the president of the bank. When this had been laughingly granted, he said:

"Mr. Davis, I am not sure about those men, White & Gregg. I shouldn't wonder if they intend to rob our bank."

"How will they do it?" asked the amused official.

"By cutting through the floor and the vault."

"But the roof of the vault is of brick and two feet thick."

"Well, I think they are going to try it. They have a saw, a crowbar, a sledge hammer and other tools in a closet up stairs. I'm going to keep an eye on 'em."

He was encouraged to do so, but so trifling did the president consider the incident that he did not speak of it to any one, and in half an hour had forgotten all about it. Not so with Uncle Billy, however. On two occasions he was sent to the express office by White & Gregg and brought them small but heavy parcels. Two or three times also he saw a stranger in their office whose looks he did not like and whom he set down for a conspirator. For the first two months the two men, who boarded at the hotel, never returned to their office after supper. After that they were frequently there for an hour or two, and as time passed on they staid later. Uncle Billy watched all these things, but kept his own counsel for many weeks. One day he again asked for a private interview, and when the president began laughing at him he said:

"It won't be long now before they will
