Govt Library

The Mining Review.

VOL. 5.—NO. 39. SANDON, B. C., SATURDAY, MARCH 15, 1902. $2.00 PER YEAR.

Town Jottings.

New Denver has a population of 368.

Kitchener is now bound to either capture Dewett or bust.

Rob McKenzie lost his eyes at an Alberta mine the other day.

American Boy stock is quoted at 8 cents; Payne 30, Rambler-Cariboo 88.

Boston has a strike with 25,000 railway and marine transportation hands.

It is reported that Gassie Thompson is going to build an addition to his hotel.

A. Haller that used to keep the K. & S. hotel at McGuigan is now at Portland, Oregon.

It is rumored Bernard McDonald will again be appointed consulting engineer of the Le Roi.

Every one around town feels we are on the eve of better times, but no one can give an absolute reason for the faith that is in him.

The Silverton miners' union is going to play hob with the British government for making that Anglo-Japanese treaty. See if they don't.

All these papers that had it "a foregone conclusion" Bodwell was going to carry Victoria, are now trying to explain why their conclusions did not conclude.

It is likely that a lawn tennis club will be formed and the skating rink will be used as a tennis ground during the summer months. There are a number of parties back of the undertaking.

The Rev. Mr. Purdy, who has occupied the Presbyterian pulpit for the last two months, has decided to leave the first of April and take the theology course in Manitoba college, Winnipeg.

Mrs. Hale, mother of Mrs. Barton of this city, died in Vancouver on Sunday last. The deceased had been in poor health for some time, though not seriously ill, and her death was unexpected.

Fred Loudon was killed in his cabin at the Molly Gibson last week, and Chris Sherbert extricated himself after 36 hours of marvellous exertion, as a result of a heavy snow slide near the mine.

During the last three years or so our tinhorn parliamentarians knew just the legislation this country wanted. They passed it, and now the trouble is to find the man it has made rich. Let that man put up his head till we see the curiosity.

It is going hard with the Nelson papers. On the heels of the collapse of the Tribune comes the announcement the Crow's Nest Coal Co. want to sell the Miner. Organs don't appear to pay unions or any one else.

Sandon is pestered just now with an overdose of cats who engage in fierce battles nightly and raise a "hellabelou" loud enough to wake the dead. Judging from the howling and hissing, shooting and swearing of the past few nights, the nuisance is likely to be abated before long, and many a catship prowling around in the blissful ignorance that he possesses nine lives is likely to terminate his happy career with one.

Last Wednesday's storm was the wildest this year.

Rossland ore shipments this year to date are 55,928 tons.

Grand Forks' "hot air" line is now carrying passengers.

In New York silver is quoted at 54½, copper at 12½ and lead at 4⅜.

You may fish trout after the 15th of March, that is if yon can catch any.

H. J. Robie has sold out his tailor business at Nelson, and has removed to Kelowna.

Ping-pong has not broken out in Sandon yet, but we suppose the craze will extend even to our quiet retreat.

The Montana Gold Mining Co. at Deerpark are going to put up a 50-ton concentrating plant.

The Granby smelter at Grand Forks is now treating 1,000 tons of ore a day, and so far this year has handled 334,000 tons.

Mrs. McKinnon left for Grand Forks this week with part of her millinery stock, which she will open up in that city.

Important strikes have recently been made on the Monarch and Paradise mines, Windermere district, and excitement is running very high in consequence.

Mrs. R. McDonald and child, who have been on a visit to her mother at Edmonton, N. W. T., for some months arrived home a few days ago.

A fine stock of Ferry's famous garden and flower seeds at Cliffe's bookstore. It may be forcing the season a little in the hills, but it is always better to be ready in time.

The Rev. Mr. Purdy returned from his long visit south on Monday, and is now again doing business at the old stand. The Rev. Mr. McColl, of New Denver, held his appointments here on Sunday.

When sending outside for your clothing try the Wallace-Miller Co. of Nelson. They have the largest stock of western goods at eastern prices in the country. Give them a trial; the distance is short, safe, and satisfaction guaranteed.

Reco hotel arrivals.—T F Whiting, Berlin; W J Twiss, Kaslo; D Gavin, Vancouver; C H Reeves, P D Shier, G W Hughes, Alamo; H B Deveber, New Denver; A Milloy, Rossland; W R Wilson, O H Becker, C F Miller, Nelson; R Machim Victoria.

The city council met on Monday, and the Mayor and Aldermen Cameron, Stein and Jalland were present. Tenders for lumber for flume read as follows: G. O. Buchanan, f. o. b., $16; Yale-Columbia Lumber Co., $12 and D. J. McLachlan, $11.50. As there were some conditions McLachlan could not meet, the Yale-Columbia offer of $11.50 net cash was accepted. The report on G. M. Sproat's assessment was laid over till next meeting. The mayor reported the city solicitor had offered to collect G. M. Sproat's taxes at 10 per cent on first $500 and 5 per cent on additional sums. Motion of Jalland and Cameron the Canadian Bank of Commerce was instructed to return all vouchers hereafter on the signature of the clerk only. Adjourned.

Dr. Power is rapidly recovering from his attack of acute rheumatism.

Mr. Trueman, the photographer, closed his shop here on Monday for a time.

Thirty-four voters are trying to qualify on a $200 lot in Slocan. Six dollars worth of earth is a big holding for a voter.

The Indians up at Fort George are threatening to drive the Hudson's Bay officials out of the fort and run the ranch themselves. They are a daring outfit.

The Boer General Delarey has captured General Lord Methuen with some 400 men, four guns and all their baggage. The Boers are bound to be game to the last ditch.

The Rev. Roberts, of New Denver, will preach in the Methodist church at the morning and evening services tomorrow.

Gus Almgren, who has been running the Miners' restaurant so successfully, has taken charge of the Filbert cafe and will conduct it on first class lines. Gus' increasing patronage speaks volumes for his knowledge of the culinary art. Meals from 25 cents up.

Feichtl's comic players appeared before a good audience in the opera house last night, and rendered a very pleasing and lengthy programme. The company are above the average run of troupes travelling in these parts, and have receceived well deserved and flattering press notices all over the country. They appear again tonight with an entire change of programme.

Many Sandonites will probably remember "Dr." Lynch who came over here from Rossland during the bonspiel to look up a location, and posing as a professional hockey player from Winnipeg was asked to referee the great Sandon-Kaslo match that never came off. It now transpires the dandy little fellow is in heaps of trouble, with charges of obtaining money under false pretences, giving another person's fur coat as security, cheque raising and other misdemeanors hanging round his head.

Mrs. May F. Fraser, wife of Captain Fraser, of the Kokanee, died very suddenly Thursday at 4 a. m. A son was born to Mrs. Fraser last Sunday from which she had almost recovered, but yesterday she took a turn for the worse and succumbed this morning. Mrs. Fraser was formerly a Miss Parr, of Vancouver. She had been a resident of Kaslo and Nelson for several years past. Much sympathy is felt for Captain Fraser and the little children who are left to mourn her loss.—Kootenaian.

The Points Competion for the Spring Cup by the Kootenay Curling Association has been cancelled. Poor ice during the bonspiel caused this competition to be dropped from the programme on the understanding that each rink should contest with one another on their own ice and send in their score reports to the secretary here. At present Sandon is the city in the association that has a sheet of curling ice, and it was considered unfair to other places to try conclusions, consequently the cup was packed up and returned to Barney Archibald, of Nelson, who won it last year by 22 points.

Mines and Mining.

The Antoine is expected to start up shortly.

The Rambler's shipments this week were 105 tons.

The Silver Glance shipments for last week were 15 tons.

The Surprise made the second shipment last week, amounting to 22 tons.

C. P. Hill has bonded the Turn Over and Run Over mines at Ymir for $50,000.

The Slocan Star from appearances is going in for a big business this summer.

Ninety-five tons of ore were shipped from the Whitewater mine for the week.

Duncan McPhail has sold a sixth interest in the Silver Glance to H. O. Johnson.

From 15 to 20 men are working steadily at the Idaho mine, though no shipping is being done.

The Carbonatets No. 2, Spring creek, sent another shipment of ore amounting 15 tons to Nelson last week.

The Red Fox mine has been shipping regularly since the first of the year. For last week 22 tons of ore were sent out.

The Highlander concentrator at Ainsworth will resume operations shortly, after which regular shipments will be made.

A 200 foot tunnel is finished at the Rabbit Paw mine, and now ore of a good quality is found in three of the workings.

The ledge at the Silversmith continues improving all the time, and is affording much encouragement to the people of the Slocan Star.

It is understood the Noble Five mortgage deal will be settled up one way or the other on the 20th of May and that the mine will resume regular work on the 1st of June.

Strike at the Hewett.

The rich strike made on Tuesday at the Hewett, near Silverton, is looked upon as one of the most important finds in the history of the dry ore belt, as the ledge has so far been proved to be rich and strong at depth. For some time past work has been progressing on the long tunnel in order to tap the ledge at depth. At a point 1,000 feet from the portal of the tunnel at a vertical depth of 800 feet the ledge was encountered, and it is said to be 2½ feet in width.

Sandon Ore Shipments.

The following are the ore shipment from Sandon for the week:

Mine.	Tons
Sunset	40
Reco	40
Last Chance	40
American Boy	20
Total	140

For the eastern holidays, the K. R. & N. Co. will sell tickets at fare and one-third for round trip. Selling dates March 27th, 28th and 29th, good to return up to and including April 2nd. These rates apply only on these lines.

The Mining Review.

SATURDAY, MARCH 15, 1902.

BETTER FRANCHISE.

We have the courage to say what we know two-thirds of the people of the province also know, but many of them lack the courage to say, that nothing short of property qualification for the elector will save the country, and the sooner it is secured the better for all. During the last five or six years, more especially, every representative of the Local House, and every candidate appearing for election has looked one hundred and one ways to secure in elections the floating vote of the country. In contests pledges in secret and in private have been made to that vote that have not been carried out, and legislation has been passed to secure the vote and retain it, that the fathers of it knew when passing it would prove a curse to the country. That's the picture, and property qualification is the only cure. At Ottawa an alien labor law was passed at the instance of the irresponsible labor vote, without duly considering the consequences of its enforcement. When the men who passed it were brought face to face with the consequences of its enforcement, as was the case during the Rossland strike, they shrank before it as a morning glory in the summer's sun. Ralph Smith, that great mouther for labor votes in election times, was, at least by circumstances, asked to enforce it, but like the sheep before its shearers he was dumb. He is looking for a seat in Laurier's cabinet, and, of course, he could not say aught to jeopardise his chances. Smith Curtiss, the tinhorn premier from Rossland, was per see asked to enforce it, but not a word of enforcement. Every man in the country with an ounce of sense in his head knew that if it was enforced it would have proved the death knell of independence in the country. The irresponsible Coeur d'Alene vote, that does not care for either God, man or devil, would have roamed over the country lord of the manor, and the mine manager who would not do as it might dictate would in an instant find his mine locked up and his head in the business waste basket. If then it was known when introduced, as it certainly was, that in operation it would prove impracticable, why was it passed? The answer is to prove a vote-catcher, and hence the consequences.

By property qualification for the voter, we don't mean he should be wealthy. We simply mean some interest in the country to constitute him a resident, a permanent situation, an interest in a mine or other property, a house and lot if not worth more than $100, the son of a permanent settler 21 years of age—it must mean something to show he is not a "nomad of the plain."

We have never found fault with any eight-hour law that would not destroy the liberty of the subject, such, for instance, as they have in Australia and New Zealand; we never object to legislation that limits labor to reasonable hours and allows the laborer time for mental and physical recreation; we always endorse such wages as the industry employing will allow after paying running expenses and reasonable interest on investments; but we known no country can prosper and be of service to either employer or employee when either class can place the pistol to the head of the other and demand conditions under the protection of legislation that are impracticable. The writer has no axe to grind; he is not looking for votes or special favors from either employer or employee. He simply desires such conditions as will enable the country to grow and prosper as nature designed it to do, feeling that in the march all deserving subjects will be sure to secure an honest living. If the country had a responsible electorate with sufficient foresight to sit on all tinhorn politicians seeking seats in parliament, and the electors sufficient judgment to know those most willing to promise are the least likely to perform, there is no reason why the next few years in our history should not be the brighest period in its rapid advancement.

EASY TO FIND

When you find a medicine that makes your regular food taste good, when you find a medicine that strengthens a weak stomach—then you know you're going to put some flesh on.

Scott's Emulsion does these things. We recommend it whenever the system needs more flesh. If you are thin and able to eat begin regular doses. That's your part. Scott's Emulsion will do the rest. Not flabby—but solid flesh.

We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto.

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swarts, of Sub Station C. Columbus, O., Box 103, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints at once, the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had *given up to die*, thinking that I could not be cured. Then one of my neighbors said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles in about six weeks, I was weighed, and found I had gained twenty-seven (27) pounds. I am as stout and healthy to-day, I think, as I ever was."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

It was a pleasure to the Editor of this paper to pick up Friday last in Nelson $75 in subscriptions to this paper from people who have read it for the last two years; and to be at the same time told by many of them it contained the most sensible articles of any paper that came into their hands. This paper has no quarrel with labor unions of any description; they have just as good right to exist as have organizations of capital; but the one class must keep its place as well as the other. When capital is paying its way and making a fair interest for its owners, considering the nature of investment, it has no right to crowd down labor to double its profits; and for the same reason labor, when fairly well paid by struggling industries, has no right to throttle business houses, etc. and drive a country to the verge of ruin, as some of the Coeur d'Alene miners have not only tried to do but have actually with B. C. during the last two or three years. To properly develop latent resources in any new country, profits and chances must be divided between capital and labor. In the late struggle at Rossland; the business men took the sensible view of the matter. They took the reins of government into their own hands, supported fair play, and to-day Rossland is reaping the benefits—it is the best business place in the country, while towns like Sandon ridden by one element are down in the dust. It appears to us it should not require two eyes in the head of any business man to see this.

It now transpires that the assets of the Nelson Tribune will not pay more than 30 or 40 cents on the dollar of its liabilities. This is the paper it must be remembered that has during the past four years striven strenously to show mine owners how to run mines. John Houston never tired telling them the mines should be run as the Tribune was run, up to the neck in unionism, and paying (we beg pardon promising to pay only as some $3,000 is now due in wages) the highest wages in the country. There is a limit to the wage scale that any industry can pay—mines and newspapers included—and the man who promises more can only make his promises good by swindling innocent creditors.

NOTICE.

Notice is hereby given that I intend to apply at the next sitting of the board of license commissioners for the City of Sandon, to be held after the expiration of thirty days from the date hereof, for a transfer of the retail liquor license now held by me for the Star Hotel, situate on Reco Avenue, in the City of Sandon, on block 4, West Kootenay district, to Michael Kirlin, of the City of Kaslo.

ARCHIE FULMORE.

Dated this 15th day of January, 1902.

Wanted—A Husband.

Handsome American lady, independently rich, wants a good, honest husband. Address, Eric., 193 Washington street, Chicago, Ill.

To the Deaf.

A rich lady cured of her Deafness and Noises in the Head by Dr. Nicholson's Artificial Ear Drums, gave $10,000 to his Institute, so that deaf people unable to procure the Ear Drums may have them free. Address No. 14525, the Nicholson Institute, 780, Eighth Avenue, New York, U. S. A.

Farmers' Names Wanted.

Send us the names and postoffice addresses of ELEVEN FARMERS who have land to clear or who use a STUMP PULLER, and we will mail FREE to your address, a copy of our STORIES of the GREAT NORTHWEST, now going to press. Write plainly, and address the W. SMITH CRUB BREC O., LA CROSSE, WIS.

Engineers, Firemen, Machinists

and electricians send for 40-page pamphlet containing questions asked by examining board of engineers to obtain Engineers' license, address Geo. A. Zeller, publisher, 18 S 4th st., St. Louis, Mo., U. S. A.

Spokane Falls & Northern R'y.

Nelson & Fort Sheppard R'y.

Red Mountain Railway.

The only all rail route between all points east, west and south to Rossland, Nelson and intermediate points; connecting at Spokane with Great Northern, Northern Pacific, and O. R. & N. Co.

Connects at Rossland with the Canadian Pacific Railway for Boundary Creek points.

Connects at Myer's Falls with stage daily for Republic.

Buffett service on trains between Spokane and Nelson.

Effective November 10th, 1901.

LEAVE	Day Train.	ARRIVE
9:20 a. m.	Spokane	7:15 p. m.
12:25 p. m.	Rossland	4:10 p. m.
9:40 a. m.	Nelson	6:45 p. m.

H. A. JACKSON, G. P. & T. A., Spokane, Wash.

G. K. TACKABURY, Agent, Nelson, B. C.

COAL!

Everybody Wants the Best Coal.

Try Lethbridge Coal, then you will have the best and cheapest. This coal will make the hottest and brightest fires, besides it is easily handled, as it is very clean. We have it for all kinds of grate.

E. A. Cameron.

Wood's Phosphodine,

The Great English Remedy. Sold and recommended by all druggists in Canada. Only reliable medicine discovered. *Six packages guaranteed* to cure all forms of Sexual Weakness, all effects of abuse or excess, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. Mailed on receipt of price, one package $1, six, $5. *One will please, six will cure.* Pamphlets free to any address.

The Wood Company, Windsor, Ont.

Wood's Phosphodine is sold in Sandon by E. F. McQeen and F. J. Donaldson, Druggists.

The Canadian Northwest

HOMESTEAD

REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or Northwest Territories, excepting 8 and 26, which has not been homesteaded, reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, of any male over 18 years, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situate, for if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for ordinary homestead entry.

HOMESTEAD DUTIES.

Under the present law homestead duties must be formed in one of the following ways, namely:

(1) By at least six months, residence upon and cultivation of the land in each year during the term of three years;

(2(If the father or the mother (if the father is deceased) or any person who is eligible to make a homestead entry, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the law as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his first homestead, on a certificate for the issue of such patent countersigned in the manner prescribed in the Dominion Lands Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtain ng patent may be satisfied by residence on the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the law as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENTS.

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homstead Inspector. Before making application for the patent the settler must give six month's notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION.

New-arrived immigrants will receive at the Immigration Office at Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them; and full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary at the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad or any other corporatiods and private firms in Western Canada.

M. L. GRIMMETT, LL. B.
Barrister, Solicitor, Notary Public, Etc.
Sandon, British Columbia.

NOTICE.

To John H. Gray and to any and all others to whom he may have transferred his interest in the Pansy and Violet mineral claims situated on Payne mountain, in the Slocan Mining Division of West Kootenay District, British Columbia:

Take notice that I, D. E. Sprague, a co-owner in each of the said Pansy and Violet mineral claims, have expended $102.50 in doing and having recorded the annual assessment work on the said Pansy mineral claim for the year ending July 29th, 1901, as required by section 24 of the Mineral Act, and $102.50 in doing and having recorded the annual assessment work on the said Violet mineral c aim for the year ending August 9th, 1901, as required by section 24 of the Mineral Act, and that if within ninety days from the date of the first publication of this notice you fail or refuse to contribute your proportion of the said expenditure, being one-eighth of the amount expended in respect of each of the said mineral claims, amounting to $12.80 in respect of each of said claims, together with all costs of advertising, your interest in the said claims will become vested in me the undersigned, under the provisions of section 4 of the "Mineral Act, Amendment Act, 1900."

The address for payment of the said moneys to me the said D. E. Sprague is, care of McAnn & Mackay, Barristers, Kaslo, B. C.

Dated the 11th day of March, 1902.

D. E. SPRAGUE.

Wall Paper! Wall Paper!

ENGINEER,
AND PROVINCIAL LAND SURVEYOR.
SANDON, B.C.

Alta Lodge, No. 29.
A. F. AND A. M.
Regular Communication of the lodge. Meets first Thursday in each month at 8 p. m. Visiting brethren cordially invited.
JAMES M. BARTON, Sec'y.

ASHNOLA!

A CITY OF WONDER, PROGRESS AND PROSPERITY.

The Smelting Centre of the Similkameen Valley. Backed by the payrolls of two gigantic coal companies and the Copper and Kennedy mountain mines.

Surrounded by the following resources, coal, gold, copper, silver and fine agricultural countrys. Large herds of cattle, fruit in abundance with a climate almost southern and all that could be asked.

Ashnola is owned and backed by the payroll of the Similkameen Valley Coal Company, Limited, which is a guarantee in itself of its success. The equipment and development of their coal mines, installing of water, electric light and power plants are already arranged for. The development of the Ashnola Coal Company's mines by the Toronto capitalists who have established their payroll at Ashnola, make it the coming city of the interior of British Columbia.

Lots in Ashnola are Safe Investments.

In blocks 1 to 4 and 13 to 20 the price will be advanced 25 per cent per month until May 1st, 1902, and 10 per cent in the remaining blocks. The present price is from $50 to $225, 25 per cent cash, 3, 6 and 9 months without interest.

Arrangements are already completed for 38 buildings, including cottages for the employees of the company at Ashnola. This work will be under full headway by May 1st. The company's stock is now selling at $1, 10 per cent down, balance in 9 equal payments.

For further information apply to

The Mining Review.

SATURDAY, MARCH 15, 1902.

The Bluesneak says that Mr. Wilson mentioned that Mr. Cliffe was the party responsible for the failure to hold the school election on time. As usual the sneak is a liar; we defy him to prove Mr. Wilson said any such thing. He simply said Mr. Robinson sent out letters to all old secretaries asking them to call the attention of the authorities to the new law, and that Mr. Cliffe, if he got a copy, should have handed it over to the authorities. Mr. Cliffe explained he did not receive such a letter, and in any event there was no section of the law that left any responsibility upon him in the matter, in which Mr. Wilson fully concurred. As McAdams was not at the meeting and got his information from interested parties only, he had better call on them again, for a revision of their story. And why should Mr. Cliffe have informed the city clerk as to his duties? He gets $15 a month more salary than the city clerks of Slocan, Phoenix, Columbia, &c., for similar duties. He has applied for the position of police magistrate and the council has endorsed his application because of his superior knowledge of the law. He is paid for all this. Then why should Mr. Cliffe have advised him gratis, and especially when he would not be thanked for his trouble? He has advised the councils of last and present years some of their members are sitting in direct contravention of the law and liable to a penalty of more than they are worth, but it avails nothing. When the Bluesneak takes it upon itself to condone every fracture of the law committeed by the officials, he and they must bear the consequences.

The Bluesneak is growing in statesmanship. He attacks the representatives of the Boards of Trade who assembled at Kaslo and particularly G. O. Buchannan for asking for "protection from the American Smelting Trust which pays $3.50 for lead in the Coeur d'Alene." The intelligence of some people, who are even editors, is surprising. After reading the proceedings, as we presume he did, McAdams cannot see it is not a duty on leads raw or refined the Board of Trade is asking for, but one on lead manufactures. Any one with an ounce of horse sense knows that lead refined bringing 4 1-8 cents to the trust will never in any form enter Canada as a competitor in our markets; but every one who takes the trouble to learn we have no manufactories of any magnitude in Canada, must understand, the manufactured article must be imported to the prejudice of our mining industries. No doubt the readers of the Bluesneak must be edified when their great instructor is unable to discriminate between pig lead and paint leads, lead piping, tea lead and other manufactures. A newspaper in the hands of such an educationist is like the proverbial gold ring in the snout of a guinea pig. Upon this foundation the literary Goliath gives his readers a five-column leaded leader. It is little wonder so many of them die of leaded constitutions.

We call the attention of our readers to the clothing advertisement of that large Nelson House, the Wallace and Miller Co. That firm knows, if some of our local dealers who are bulldosed by a certain element do not know, that this paper is on the right road for the country's advancement, and they are disposed to support it. This paper has always been the advocate of the highest wages industries can pay after covering running expenses and reasonable interest to investors; but it knows full well if our industries are not given a chance to get on their feet, there is nothing in the country for labor or anything else. There are some who can see no further than catering to the wiles of labor, no matter how extravagant they may be, for the almighty dollar it brings in immediate trade. This paper advocates the measures that bring ultimate success to all, the capitalist, the dealer and labor itself. Many see things as we see them, the man with the trepanned brain never.

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken in your rest by a sick child, suffering and crying with pain of cutting teeth. Send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor, little sufferer immediately. Depend upon it, mothers, there is no mistake about it. Certificates of Improvements.

NOTICE.

Summit Fraction and Surprise Extension Mineral Claims,

Situate in the Slocan Mining Division of West Kootenay District. Where located: At the head of McGuigan creek, and near the Surprise.

TAKE NOTICE that I, W. J. H. Holmes, acting as agent for William Kent, Free Miner's Certificate No. B 37661, intend, 60 days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action under Section 37 must be commenced before the issuance of such Certificates of Improvements.

Dated this 13th day of October, A. D. 1901.

W. J. H. HOLMES, P. L. S., Agent.

Hall Wins the All Comers.

The finals in this contest were concluded this week. On Tuesday evening Hall defeated Grimmett by the narrow margin of one in an evenly contested match. It was anybody's game from start to finish, Hall scoring first and Grimmett evening up. As a result at the close of the twelfth end the score was even, 10 to 10, and another end had to be played, everything looking promising for Grimmett to win out, but Hall's last shot wicked into the "T," scored one point, and shattered M. L's. chances to pieces.

This left the final between Hall and Scott. They played the following evening and Hall defeated his opponent by a score 13 to 8. At the conclusion Mr. Scott heartily congratulated his successful opponent, while cheers were exchanged between the victors and the vanquished.

Four handsome and expensive traveling cases, presented by the Sandon Curling Club, accompany the cup, and these coveted prizes were carried off by Fred Ritchie, 1st; Byron Cliffe, 2nd; Alex. McMillan, 3rd, and A. E. Hall, skip.

This is the second cup captured by Mr. Hall this season, and the fact that two—the Grand Challenge and the All Comers are the most coveted of all the cups competed for, shows he is deserving of all praise for the enthusiastic manner in which he carried on the contests.

McGuigan Basin Shippers.

Most of the mines in McGuigan Basin are working and making regular shipments, the smaller ones just shipping occasionally. For last month the Rambler shipped 505 tons, the Sunset 20, Surprise 40, Washington 50, and the Red Fox 20. It is expected that the output of most of these mines will be greatly increased in the near future. The Rambler has been making heavy shipments for some time back and will double the output. The Washington will also follow suit. The month's output represented a tonnage of 695 tons, which is one of the best month's shipments for some time back.

Twelve Mile can boast of another shipping property, while the division has one more to add to its list of producers. On Saturday evening the Slocan brought down five tons of ore from the Paystreak claim, it having been taken out under lease by Sid Cooper and Jack Aitchison. The Paystreak is situated on the south side of the creek, about three quarters of a mile from the lake, and is owned by A. M. Rogers, S. Cooper and L. Hillman. The principal work done on it was a 30 foot tunnel driven on the vein, and in this was exposed a nine inch chute of ore, carrying high values, in which gold predominated The ore shipped was stoped from the tunnel and will yield good returns. It was sent to the Nelson smelter for treatment.—Nelson Miner.

Ottawa, March 10.—In the supreme court today the hearing of the case of Briggs vs. Newswander, et. al., was taken up. The plaintiff, Briggs, claims specific performance on two agreements in relation to mineral claims on Kaslo creek in British Columbia, known as the Ben Hur, Two Kids, Monarch, Cork and Dublin locations. The court threw the appeal.

IT'S BUSINESS

To be well dressed. To know that you are dressed in a smart, stylish suit gives you confidence in yourself and enables you to better transact your business.

Our big business has been built up on HIGH CLASS CLOTHING, the BEST BOOTS AND SHOES men can manufacture. In our buying for spring our aim was to have the best $15.00 suits ever offered, and we have them. Your tailor will ask you $30.00 or $35.00 for the same suits, and you cannot buy them ready to wear elsewhere at any price.

WHY?

Because we buy direct from the mills in England and Scotland and manufacture all our clothing—spent thirty years in learning how.

We have everything that a man or boy wants to wear from the sole of the foot to the crown of the head.

A carload of Trunks and Valises just arrived—values; call and see. Prices to suit all.

Take a trip to Nelson and save your expenses by purchasing your outfit from

MENS' OUTFITTERS

Baker St. Nelson, B. C.

Dominion of Canada.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories, and the Yukon Territory.

COAL.

Coal lands may be purchased at $10.00 per acre for soft coal, and $20.00 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at such rates as may from time to time be specified by order in council shall be collected on the gross output.

QUARTZ.

Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $10.00 per annum for an individual, and from $50.00 to $100.00 per annum for a company, according to capital.

A free miner having discovered mineral in place may locate a claim 150 x 1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100.00 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500.00 has been expended or paid the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory of an area not exceeding 100 acres

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

PLACER MINING, MANITOBA, AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

Placer mining claims generally are 100 feet square; entry fee $5.00 renewable yearly. On the North Saskatchewan river claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill, or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

DREDGING IN THE RIVERS OF MANITOBA AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10.00 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.00.

DREDGING IN THE YUKON TERRITORY.

Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date Rental, $100.00 per mile for first year, and $10.00 per mile for each subsequent year. Royalty, ten per cent on the output in excess of $15,000.00

PLACER MINING IN THE YUKON TERRITORY.

Creek, gulch, river and hill claims shall not exceed 2,0 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim, and each person in his or its employment, except house servants, must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consist of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee is $15.00. Royalty at the rate of five per cent charged on the gross output of the claim, with the exception of an annual exemption of $5,000.00.

No free miner shall receive a grant of more than one mining claim for each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners, not exceeding ten in number, may work their claims in partnership, by filing notice and paying fee of $2.00. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying fee.

Work must be done on a claim each year to the value of at least $200.00, or in lieu of work payment may be made to the mining recorder each year for the first three years of $200.00 and after that $500.00 for each year.

A certificate that work has been done or fee paid must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notices in the Yukon Official Gazette.

HYDRAULIC MINING, YUKON TERRITORY.

Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more may be leased for twenty years, providing the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining: and does not include within its boundaries any mining claims already granted. A rental of $150.00 for each mile of frontage, and a royalty of five per cent on the gross output, less an annual exemption of $25,000, are charged. Operations must be commenced within one year from the date of the lease, and not less than $5,000.00 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated land for agricultural or building purposes

PETROLEUM.

All unappropriated Dominion lands shall, after the first of July, 1901, be open to prospecting for petroleum Should the prospector discover oil in paying quantities he may acquire 640 of available land, including and surrounding his discovery, at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order in council.

JAMES A. SMART.
Deputy to the Minister of the Interior
Ottawa, Dec. 25th, 1901.

NOTICE

The Sandon Water Works and Light Company hereby give notice that it will at the expiration of four weeks from the first publication hereof, apply to the Lieutenant Governor in Council, pursuant to the provisions of the "Sandon Water Works and Light Company Act 1896" for:

I Authority to divert (200) two hundred miners inches of water from Sandon creek immediately below the present concentrating works of the Slocan Star Mine, to wit, at the location of each dam now constructed one on the east fork of Sandon creek and the other one on the west fork of Sandon creek below the said concentrator.

II. Also authority to divert (200) two hundred miners inches of water from Carpenter creek (South Fork) at a point about 650 feet above the point where the North Easterly boundary of the Victor mineral claim, being Lot 3184 crosses the said Carpenter creek (South Fork) and about 750 feet above the crossing of the Kaslo and Slocan Railway on the said Carpenter creek (South Fork) the said point of diversion being a point below the point of diversion of the water supply for the Reco Mines and Noble Five Mines concentrator.

Dated at Sandon, B. C., this 4th day of March, A. D. 1902.

THE SANDON WATER WORKS AND LIGHT COMPANY
J. M. Harris, President.

First publication hereof on the 8th day of March, A. D. 1902.

H. BYERS & CO.

16-2-1 Reco Avenue, Sandon.

The following is taken from the letter head of a Dawson City hotel and shows that the old time humorous character of the west has not altogether vanished: "Sour Dough Hotel, 1333 Icicle avenue, best hotel north of Mexico; first class in every particular. Every known fluid, water excepted, for sale at the bar. Private entrance for ladies by ladder in the rear. Rates: One ounce per day; Indians and Niggers charged double. Special rates to ministers and the gambling "perfesh." House rules:—Guests will be provided with breakfast and dinner, but must rustle their own lunch. Spiked boots must be removed at night. Dogs not allowed in the bunks. Candles and hot water charged extra. Towels changed weekly. Crap, chuck luck, stud horse poker and black jack games run by the management. Dogs bought and sold. Insect powder for sale at the bar."

The unexpected to many has happened in Victoria. Mr. Bodwell, whose election according to two-thirds of the press of the country was a "foregone conclusion," was defeated by Col. Prior, Dunsmuir's new minister of mines, by 54 majority. This of course means several things—that "Joe" Martin is one of the happiest men in the country, that Dunsmuir is now likely to pull through the session without defeat, that railway building though at too high a price to the people is likely to become a certainty that James Dunsmuir will become a Sir, and that Joseph becoming too arrogant will take another tumble, and that trouble will follow ending in another election and throwing him as flat on his back as before.

Bro. Wilcox of the Phoenix Pioneer has a deck load of that green eyed monster jealousy. Things he is too light in the head to do himself, he does not want to see done by any one else. G. A. Dana or Horace Greely would not take a stand like that. We sympathise with our brother in his chronic affliction.
