The Mining Review.

VOL. 5.—NO. 38. SANDON, B. C., SATURDAY, MARCH 8, 1902. $2.00 PER YEAR.

They Were Easy.

Sandon Defeats the B. C. Champions of Nelson By 11 to 4.

One of the best and fastest games of hockey ever played in Sandon was held in the rink here on Wednesday evening, when the Nelson hockey team, who are the champions of British Columbia, were vanquished by the Sandon team.

There has been quite a controversy as to which team is really the better one. Sandon being defeated at the Rossland carnival by Nelson, the latter were thought to be by outsiders; but Sandonites who knew their team said otherwise. Nelson's men are heavier and may have a slight advantage in weight and endurance, but Sandon makes up her deficiency in that line by scientific playing. After Wednesday's match the Silver City team greatly strengthened themselves in the minds of many, and who still think that if given a good sheet of ice and no favor, Sandon could beat Nelson on neutral ground.

The game was scheduled for 8:30 p. m., and long before that time the gallery was crowded with an enthusiastic assembly of spectators to witness the fray. Jeff Main was chosen referee and sharp on time blew his whistle for the players to line up. At the signal to start both sides rushed things, but shortly after Hood and Howarth got the puck between them and scored first blood for Sandon amid great cheering. This was repeated in a few minutes. Then Nelson scored and were greeted with applause. It looked as if the contest was going to be a very close and exciting one, but Sandon got in its combination and kept the rubber near Nelson's goal throughout the game. Goals were scored very frequently. Nelson making some fine rushes and scoring a few times, but Hogan showed up to fine advantage, and at one time when knocked down and the stick flung out of his hand with the puck near his goal, he grabbed it with his hand and threw it into the centre. At half time the score stood Sandon 6, Nelson 3.

The second half was too one sided as Nelson only scored once while Sandon raided the green and white goal successfully five times in succession, but brilliant rushes were made on both sides. All done well; but for Sandon it is only fair to say the bulk of the work fell to Hood and Howarth.

The match was played with six on each side, the Nelson team came over one man short and Sandon evened up.

The game although a fast one was free from roughness with one or two excepetions, and when time was called the score was Sandon 11, Nelson 4.

"Hoodsie" done most of the scoring, and scooped in dollars as well as pucks. It seems the secretary of the club, who is a thorough sportsman, promised him a dollar for each time he raised the puck into the net, but limited the number to ten. As a result the genial Fred had to cash up pretty often, which he did with a smile.

Town Jottings.

Charles Anderson has become a British subject.

A couple of more feet of the beautiful on Wednesday.

James Anderson, of Whitewater, has been created a J. P.

The Rev. Mr. Ball left for his home in Trail on Monday.

The Hon. A. G. Blair is going to withdraw from the Federal Cabinet.

Silverton is have a St. Patrick's concert on the evening of March 17th.

Mr. Towgood, the brewer, went over to Slocan lake on a business trip on Tuesday.

A ball will be held at the Grand hotel at Nakusp on the 17th of March, St. Patrick's day.

Mr. Macdonald, of Ross & Macdonald, reached home from his Nova Scotian visit this week.

The War Eagle at Rossland, it is said, has been sold to an English syndicate for 2 1-2 millions.

Barney Chandler, the C. P. R. agent at Silverton, returned on Friday from eastern Canada, with his bride.

The Ladies' Aid of the Presbyterian church will give a taffy pull in Crawford's hall on Thursday, March 20th.

It is said that Gordon Hunter, K. C., of Victoria, will be appointed Chief Justice of the Supreme court of this province.

Now that the late trustee election has been investiged, it lies with the Council of Public Instruction to do as they think best in the matter.

The Rev. Mr. Green lectured on temperance in the Methodist church on Monday last, but we failed to see it has closed up any of the saloons.

The Rossland sportsmen are always much welcome in Sandon. They always take the results whether for them or against them in the best of good humor. There is nothing in the business when it is otherwise.

Mr. Tattrie has sold out his milk ranch to McKinnon Bros. and Bigney, who have been with him for some time. We understand it is his intention to return to Nova Scotia to reside. Mr. Tattrie is a wholesouled, liberal, enterprising man, and is sure to have many friends wherever he goes.

An eastern editor, who understood his business, published the following under the heading of markets recently: Young men, unsteady; girls, lively and in demand; coffee, considerably mixed; fresh fish, active and slippery; wheat, a grain better than barley; eggs, quiet, but will probably open in a few days; whisky, steadily going down; onions, strong and rising; breadstuffs, heavy; boots and shoes, those in market soled, and steadily going up and down; hats and caps, not as high as last fall, except foolscap, which is stationery; tobacco, very slow, and has a downward tendency; money, close enough to get hold of; feathers, light and going up; iron, firm; butter, growing stronger; opium, a drug on the market; advice, good, but no demand.

Mr. and Mrs. Bruce White are visiting friends in town.

Mr. White says the ledge on the Silversmith is improving all the time, which assumes a mine of large proportions.

Bob McDonald, formerly the genial proprietor of the Balmoral, who has been on tour of the surrounding districts, returned to town this week.

The Sandon Curling club are contesting for the All Comers cup and prizes among themselves. So far two games have been played; M. L. Grimmett defeating Dan McLachlan and Hall coming out one point ahead of Gomm in a close match. The series is still going on and it will be some days before the finals are announced.

There is some talk of forming a team from the Sandon and Nelson players to go to Winnipeg and try conclusions with the Stanley cup players of that city. Should the idea materialize a strong combination ought to be made up that would do credit to both towns and give the Winnipeggers enough to do to hold their own.

The Silver cup people, says the Lardeau Eagle, have out nearly 700 tons of the proposed 800-ton output, and it is reported have also struck a large new chute of ore in an unexpected portion of the mine, which if taken out will largely increase the output. The Nettie L. people are continuing work, and ore is now being rawhided down over the waggon road. Work is being prosecuted on the Black Warrior, Horseshoe, Beatrice, and a few individual properties, but of course there can be very little real activity expected for a couple of months.

The Ruth May Open Shortly.

It is reported that the Ruth mine will resume operations sometime about May 1st, when a good staff of men will likely be engaged to work this mine. This property has been closed down for over a year or more on account of the low prices of lead and silver and conditions effecting silver-lead mining generally. The Hope, one of the group, has been under steady development during the winter months, employing two or three men. Some occasional shipments have been made from the Hope when the rawhiding first started. The Wyoming, another claim of the group, is also in good condition to be opened at any time, having good showings to work on. This claim was worked last fall in a small way, only a few were then work-on it. On the lower tunnel of the Ruth is where most work has been done. It is expected that the lead in this level will be struck with about 80 feet more work. Some ore has been taken out of this tunnel and sacked and is now ready for shipment. The ore assays somelike 200 ounces to the ton. Purely development work has been done on the Ruth property until the the mining outlook took changes for the better. It is likely plans have been mapped out for future operation. Last fall theore finder went over the Ruth ground. After the mine gets running the concentrator is likely to start up to, which would make this mine a steady shipper again.

The Trustee Embroilio.

An Investigation into the Matter was Held on Tuesday.

Mr. Wilson, school inspector, came in on Tuesday, and held an investigation as to the irregularities in connection with the late trustee election the next day. At the investigation three things were established.

1. That the trustee electtons were not held on the day of the municipal elections, as the law says they shall be "when possible." The only reason given for the impossibility was the matter was overlooked.

2. It was shown that when the elections were held but five clear days' notice was given between the days of posting and the nomination.

3. That a trustee was elected who was not on the voters' list, and was not qualified to go on.

Mr. Wilson also inspected the school while here.

Mining Near Silverton.

The owners of the Dalhouise group, Ten Mile, will commence working the property as early as the snow will permit. The Dalhousie is a promising property.

The Neepawa, Ten Mile, continues to improve, and the holders of the bond consider that they have a valuable mine. The returns for a carload of ore have been received and the net returns are $300 over all expenses. The smelter figures show that the ore went 55 ounces silver, 57 per cent silicia and 1 per cent copper. The ore was taken from the ledge and shipped without any particular sorting.

A trial shipment of five tons of ore was made last week by the May, a Twelve Mile property. Its development has been known to but few people, but is proving one of the choicest things in the district. It has been worked during the winter by Brandt & Connors, of Silverton. The ore was taken from the drift. A continuous streak was followed from the outcroppings. The May is a grassroot proposition, and it adds another to the list of shipments from the division.

Sandon Ore Shipments.

The following are the ore shipment from Sandon for the week:

Mine.	Tons
Sunset	60
American Boy	41
Payne	40
Reco	22
Ivanhoe	20
Last Chance	20
Total	203

Mann & McKenzie have signed a contract to extend their Canadian Northern from Manitoba through Yellowhead Pass and on to Vancouver.

The Mining Review.

SATURDAY, MARCH 8, 1902.

FOR THE BETTER.

We are glad to see that Liberals as well as Conservatives are taking a more sensible view of commercial and industrial questions in Canada. The following resolution passed by the Associated Boards of Trade at Kaslo last week is a proof in point:

Whereas, Canada is becoming a large producer of pig lead, and its product is being sold to a very limited extent in Canada, while the bulk is being disposed of in China, Japan, Germany and other foreign countries, and Whereas, eastern Canada is today importing from Germany practically all the white lead it consumes; Be it resolved, that the Dominion government be again requested to so increase its duties as to make the manufacture of white lead and other manufactured lead possible in Canada, and so allow the producer of pig lead in Canada an additional market in his own country for his own product, and that a committee consisting of President G. O. Buchanan, W. H. Aldridge and James Cronin be appointed to go to Ottawa to place this resolution before the House.

If the entire world had universal free it might be best for all; but when it has not got it and is not likely to have it in the present generation at least, dreaming over theories and sentiments is only so much waste of time and money. Everyone knows one of the main causes of the present depression in this province is the low price of lead; and as matters stand there is no cure for it. If we had Free Trade with the United States, for instance, our mine managers would get from $3.50 to $4.00 per cwt. for lead, the same as the trust has to pay the producers there; but when we havn't it and can't get it, the next best thing we can do is to take care of ourselves, the best way we can. If we cannot get Free Trade for our raw materials, there is no reason why we should give Free Trade to the United States and other countries for lead manufactured. This principle cannot be gainsaid. By placing duties on manufactured lead, or lead products, we will manufacture our raw material and supply home demand; and in getting the raw material cheaper from our producers than the American manufacturer can get it from the trust, our manufacturers should in a very short time, be able to compete with our American cousins in any country that has fields for lead products.

This resolution is the proper thing, and the delegation should exhaust the last effort to secure a pledge from the government at Ottawa, that they will give effect to its very reasonable and moderate request.

A DIVISION OF SPOILS.

The great John Houston and the Tribune have gone under, the paper owing a debt it could never pay. We never gloat over another man's misfortunes, no matter who he may be, but none the less it would have been a service to the country if that paper had suspended three or four years ago. It was continually stirring up bad blood that Houston might make votes by it—advocating high wages, and at the same time going under, owing from $2,000 to $3,000 to its men. This is consistency surely. The sound basis for wages is always on a division of the profits, making as much as possible for the men after paying running expenses and a reasonable profit on investment.

It will yet come in the world's history that Bellamy's Equality will be the reality—that the government will hold the properties in trust for the people, and all men will work on an equitable basis, and be paid accordingly; but until the new order is introduced—while the present profit system lasts—wages must go on a division of profits, the men can no more take all and leave the capital unrecompensed, than the capital can take all and leave the men nothing.

We are glad to see the press of this country becoming more and more sensible on this point. Times are never as good as when wages are high and work is plentiful; but work must always diminish as labor demands the lion's share of the profits. When the latter is the case, it means ruin to both. Our idea is divide profits between employer and employes. Things are always unhealthy when it is otherwise.

NOW IS THE TIME

Seasons change. We can't change them. We can't prevent the coming of cold and damp airs.

But we can prevent the sore throats, the coughs, colds and lung troubles by taking Scott's Emulsion. Nothing does more to make the tender throat tough. Nothing gives such strength to weak lungs.

Don't take risks—when it's easy to be safe. Now is the season for taking Scott's Emulsion in season.

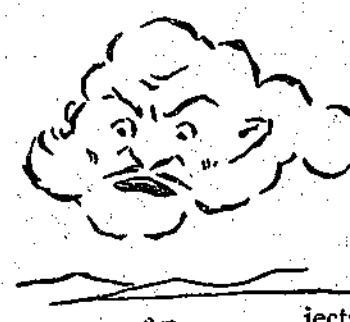
We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto.

Premier Dunsmuir has taken Col. Prior into his cabinet as Minister of Mines, and the colonel will contest Victoria with Mr. Bodwell. What the result will be it is hard to forecast: sentiment appears to be in favor of Bodwell, but Prior is a very strong man. Had Mr. Dunsmuir done something like this when he took J. C. Brown, of New Westminster, in, he would be to the front today with a strong government. As it is, we are given to the belief Mr. Dunsmuir will pull through the session without defeat. He has announced in the speech from the Throne that he is going to England, as premier, to witness the coronation of King Edward, to be knighted, we presume, and no doubt he intends to go. This means he intends to hold the premiership until after the term, at least. There are but a few members of the House who want to go to the people again, and fewer still can afford it. This is a strong reason why a dissolution is not very likely. Mr. Dunsmuir is a wealthy man, and would not be much shaken by the expenditure of a couple of hundred thousand dollars and many of the opposition members are needy. We cannot then say more than that the sight of his money bags may carry much conviction into the opposition camp. There are no controlling influences in the House, so that a representative can jump from side to side as a squirrel does from branch to branch without the slighest pretext, without being called a traitor to party.

All this means a great deal, and to our mind will keep Mr. Dunsmuir in the saddle for a few months longer at least, when virtuous indignation may then burst forth again in some other corner.

Mann & McKenzie have signed a contract to extend their Canadian Northern from Manitoba through Yellowhead Pass and on to Vancouver.

The Nelson Miner is premature in saying the Slocan Star has started up again. Many think it may not be long before it does, as a meeting of the company is to be held shortly.



When a woman is nervous her imagination gives fantastic and threatening shapes to the most familiar objects. By day she starts in fear at every sudden or unfamiliar sound. By night the furniture of her room takes on affrighting forms of ghost or goblin. You can't reason with the nerves. Neither logic nor love can quiet them. They must be nourished and then the outcry of the nerves will cease as naturally as a hungry child ceases to cry when fed.

For nervous women there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It cures the diseases which produce nervousness in women, irregularity, debilitating drains, inflammation, ulceration and female weakness. It tranquilizes the nerves, encourages the appetite, and induces refreshing sleep.

"When I began taking your medicine I was not able to stand on my feet ten minutes at a time," writes Mrs. Hattie Borradaile, of 113 Spring Street, Nashville, Tenn. "Had falling of uterus and kidney and liver disease, and was so weak and nervous I could not keep still. Would take nervous spells and almost die at times. I had several different doctors attending, but they could not do me any good. The last one I had said I would never get up again. Told him that I was taking your 'Favorite Prescription' and 'Golden Medical Discovery,' and he said, 'Might just as well take that much water each day.' But I thought I would give the medicine a fair trial. Before I had finished the first two bottles I was able to get outside the house and walk around the yard. I kept on taking the medicines and they cured me."

Dr. Pierce's Pellets cure biliousness.

NOTICE.

Notice is hereby given that I intend to apply at the next sitting of the board of license commissioners for the City of Sandon, to be held after the expiration of thirty days from the date hereof, for a transfer of the retail liquor license now held by me for the Star Hotel, situate on Reco Avenue, in the City of Sandon, on block 4, West Kootenay district, to Michael Kirlin, of the City of Kaslo.

ASHNOLA!

A CITY OF WONDER, PROGRESS AND PROSPERITY.

The Smelting Centre of the Similkameen Valley. Backed by the payrolls of two gigantic coal companies and the Copper and Kennedy mountain mines.

Surrounded by the following resources, coal, gold, copper, silver and fine agricultural countrys. Large herds of cattle, fruit in abundance with a climate almost southern and all that could be asked.

Ashnola is owned and backed by the payroll of the Similkameen Valley Coal Company, Limited, which is a guarantee in itself of its success. The equipment and development of their coal mines, installing of water, electric light and power plants are already arranged for. The development of the Ashnola Coal Company's mines by the Toronto capitalists who have established their payroll at Ashnola, make it the coming city of the interior of British Columbia.

Lots in Ashnola are Safe Investments.

In blocks 1 to 4 and 13 to 20 the price will be advanced 25 per cent per month until May 1st, 1902, and 10 per cent in the remaining blocks. The present price is from $50 to $225, 25 per cent cash, 3, 6 and 9 months without interest.

Arrangements are already completed for 38 buildings, including cottages for the employees of the company at Ashnola. This work will be under full headway by May 1st. The company's stock is now selling at $1, 10 per cent down, balance in 9 equal payments.

"Had falling of uteru and kidney and liver disease, and was so weak and nervous I could not keep still. Would take nervous spells and almost die at times. I had several different doctors attending, but they could not do me any good. The last one I had said I would never get up again. Told him that I was taking your 'Favorite Prescription' and 'Golden Medical Discovery,' and he said, 'Might just as well take that much water each day.' But I thought I would give the medicine a fair trial. Before I had finished the first two bottles I was able to get outside the house and walk around the yard. I kept on taking the medicines and they cured me."

Dr. Pierce's Pellets cure biliousness.

NOTICE.

Notice is hereby given that I intend to apply at the next sitting of the board of license commissioners for the City of Sandon, to be held after the expiration of thirty days from the date hereof, for a transfer of the retail liquor license now held by me for the Star Hotel, situate on Reco Avenue, in the City of Sandon, on block 4, West Kootenay district, to Michael Kirlin, of the City of Kaslo.

ARCHIE FULMORE.

Dated this 15th day of January, 1902.

Wanted—A Husband.

Handsome American lady, independently rich, wants a good, honest husband. Address, Eric., 193 Washington street, Chicago, Ill.

To the Deaf.

A rich lady cured of her Deafness and Noises in the Head by Dr. Nicholson's Artificial Ear Drums, gave $10,000 to his Institute, so that deaf people unable to procure the Ear Drums may have them free. Address No. 14525, the Nicholson Institute, 780, Eighth Avenue, New York, U. S. A.

Farmers' Names Wanted.

Send us the names and postoffice addresses of ELEVEN FARMERS who have land to clear or who use a STUMP PULLER, and we will mail FREE to your address, a copy of our STORIES of the GREAT NORTHWEST, now going to press. Write plainly, and address the W. SMITH CRUB BREEO., LA CROSSE, WIS.

Engineers, Firemen, Machinists

and electricians send for 40-page pamphlet containing questions asked by examining board of engineers to obtain Engineers' license, address Geo. A. Zeller, publisher, 18 S 4th st., St. Louis, Mo., U. S. A.

ASHNOLA!

A CITY OF WONDER,
PROGRESS AND PROSPERITY.

The Smelting Centre of the Similkameen Valley. Backed by the payrolls of two gigantic coal companies and the Copper and Kennedy mountain mines.

Surrounded by the following resources, coal, gold, copper, silver and fine agricultural countrys. Large herds of cattle, fruit in abundance with a climate almost southern and all that could be asked.

Ashnola is owned and backed by the payroll of the Similkameen Valley Coal Company, Limited, which is a guarantee in itself of its success. The equipment and development of their coal mines, installing of water, electric light and power plants are already arranged for. The development of the Ashnola Coal Company's mines by the Toronto capitalists who have established their payroll at Ashnola, make it the coming city of the interior of British Columbia.

Lots in Ashnola are Safe Investments.

In blocks 1 to 4 and 13 to 20 the price will be advanced 25 per cent per month until May 1st, 1902, and 10 per cent in the remaining blocks. The present price is from $50 to $225, 25 per cent cash, 3, 6 and 9 months without interest.

Arrangements are already completed for 38 buildings, including cottages for the employees of the company at Ashnola. This work will be under full headway by May 1st. The company's stock is now selling at $1, 10 per cent down, balance in 9 equal payments.

The Mining Review.

SATURDAY, MARCH 8, 1902.

Houston was the great champion of high wages in this part of the country, and see where it has landed him. Would it not have been better if he had offered just what wages his business could have paid and no more. Those who accepted would have been better off, and so would he, as they would have been paid what had been promised, and he would have been at the old stand making a living and giving one to others. Nothing now but a purchase from some corporation to support some selfish purpose, and stultify honest journalism, will ever place him in the saddle again. McAdams admires Houston's consistency, and so will any man who looks over the criticisms of the Tribune on the C. P. R., the mine managers and the Dunsmuir party for the last three years.

In every corner of the country the papers contain appeals to the people for their patronage and urging the discontinuance of orders from T. Eaton's and other so-called cheap eastern houses. In many cases the business men say they will have to leave the country if this eastern business is continued. But is not this a sad commentary on the past three years or more. During this time the labor element of the country has been fighting for high western wages, and many of the same business men who are now entering protests against the importation of goods made by labor at starvation prices, took up the cudgels for them and fought against employers for them, for the high scale of wages. There is but one rule in this matter. If labor wants western wages it must to secure public sympathy pay western prices. If it will have eastern prices it must be content with eastern wages. We think this is fair reasoning.

By looking over the city council accounts, it will be seen that our economical school board, who had their work cut out for them by the council have paid $15 of public money to a carpenter to fit up two rooms as a residence for Mr. Lovering in the school building. They could not afford a second teacher, but her salary will go all the same in other disbursements and little or nothing for it. If the people are satisfied, we are.

Dan Mann's Railway.

A Montreal despatch of recent date in regard to this railway project says:

"Mr. J. N. Greenshields, K. C., counsel for Messrs. MacKenzie and Mann of the Canadian Northern railway, returned from British Columbia last evening, where he went to interview the government of the Pacific province on behalf of Canada's second transcontinental railway. It is understood that his mission has been successful in every particular, that the extension of the road from the Yellow Head Pass to Bute Inlet is assured, and the government of British Columbia will grant $4,000 a mile for parts of the road, and $4,500 for others, or a total subsidy of $1,800,000, and a land grant of upwards of 8,000,000 acres. This proposal of the British Columbia government will be laid before the board of directors of the Canadian Northern at a special meeting to be held tomorrow. Surveyors will start out immediately to complete the survey from the pass to Bute Inlet, which lies opposite Valdez Island, which will, it is believed by present arrangements, be connected with the Dunsmuir railway to Vancouver. The distance from the Yellow Head Pass to Bute Inlet is about 400 miles, and, Mr. Greenshields says, will open up a vast country, in fact the only area of arable land in British Columbia which amounts to anything for farming, and a great expanse of ranching country. To the north of the line the immense tract is practically an unknown quantity in extent and richness."

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken in your rest by a sick child, suffering and crying with pain of cutting teeth. Send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. Certificates of Improvements.

NOTICE.

Summit Fraction and Surprise Extension Mineral Claims.

Situate in the Slocan Mining Division of West Kootenay District. Where located: At the head of McGuigan creek, and near the Surprise.

TAKE NOTICE that I, W. J. H. Holmes, acting as agent for William Kent, Free Miner's Certificate No. B 37661, intend, 60 days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims

And further take notice that action under Section 37 must be commenced before the issuance of such Certificates of Improvements.

Dated this 13th day of October, A. D. 1901.

W. J. H. HOLMES, P. L. S., Agent.

Bonspiel Concluded.

Friday evening saw the conclusion of the great bonspiel and one would judge from the laudation and complimentary remarks heard on every hand that every vistior was pleased with the treatment accorded them by Sandon. The only lamentation expressed was the mildness of the weather. As we went to press before the finals were played, we were, therefore, unable to publish the full accounts of the affair. One noticeable feature at the conclusion of the 'spiel is that the cups and accompanying prizes were very equally distributed among the competitors who participated in the contests throughout the bonspiel.

At the conclusion of the games, Friday evening, it was arranged to hold an entertainment of some kind befitting the occasion, and, accordingly a few enthusiastics of the "stane and besom" took it upon themselves to provide a smoker and supper in the Reco hotel, where everthing palatable to the taste was spread before the visitors. After the various toast were responded to and the usual merriment indulged in the patron of the association, Mr. J. C. Fraser, of Rossland, was chosen to present the prizes, which he did in a novel and complimentary manner.

The following concludes the finishing of the finals in the bonspiel.

Continuing the Oliver contest from the semi-final as stated in last week's paper, we find Hall defaulted to Wilson which left him to play off with Crawford for the cup. Crawford defeated Wilson by one point in a score of 9 to 8 leaving Wilson second.

The Hudson's Bay trophy was captured by Brown's rink of Revelstoke, by vanquishing Hall of Sandon in a score of 10 to 8.

The Tuckett in the final draw went to Fraser of Rossland after defeating Rae of Revelstoke, who put up a very plucky fight. The score in this contest was 11 to 7.

City Council.

Met Monday, all aldermen present except Ald. Duffy. Last meeting's minutes were excepted.

The report of Chief of Police Waite showed $230 collected in fines and penalties; $24 in dog taxes and $100 in scavenger collections.

Finance committee recommended payment of the following accounts:

A. Crawford	$ 6 50
City clerk	60 00
Geo. Waite	100 00
Scavenger help—two months	70 00
City clerk, supplies	3 15
City clerk, feed for team	24 85
Paystreak	10 10
Geo. Waite, telegraph, &c	11 10
A. Osborne, wood	5 00
J. E. Lovering, teacher, janitor	92 50
Miss Dalby, teacher	25 00
Walter Cliffe, janitor	7 50
J. S. Weller, work at school	15 00
Insurance	55 55
E. A. Cameron, coal	7 50
F. D. Donaldson, drugs	40
H. Byers & Co	3 05
	$497 60

The flume committee reported that a new bottom was required in whole length of structure on extension of three lengths and cleaning out of creek, all to cost about $1,570.

Mayor Cunning, Alderman Brown and City Clerk Lyons were appointed a committee to complete a statement of assessment of G. M. Sproat for years 1898 and 1899.

JEWELRY BY MAIL.

If there is a post office in your neighborhood and you have a jewelry want of any kind, we can supply it almost as well as if you visited us personally.

Dominion of Canada.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories, and the Yukon Territory.

COAL.

Coal lands may be purchased at $10.00 per acre for soft coal, and $20.00 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at such rates as may from time to time be specified by order in council shall be collected on the gross output.

QUARTZ.

Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $10.00 per annum for an individual, and from $50.00 to $100.00 per annum for a company, according to capital.

A free miner having discovered mineral in place may locate a claim 150 x 1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100 00 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500.00 has been expended or paid the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory of an area not exceeding 100 acres

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

PLACER MINING, MANITOBA, AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

Placer mining claims generally are 100 feet square; entry fee $5.00 renewable yearly. On the North Saskatchewan river claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggins, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

DREDGING IN THE RIVERS OF MANITOBA AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 00 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.00.

DREDGING IN THE YUKON TERRITORY.

Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date Rental, $100.00 per mile for first year, and $10.00 per mile for each subsequent year. Royalty, ten per cent on the output in excess of $15,000.00.

PLACER MINING IN THE YUKON TERRITORY.

Creek, gulch, river and hill claims shall not exceed 2 0 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing no fees. Entry must be obtained within ten days if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim, and each person in his or its employment, except house servants, must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consist of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee is $15 00. Royalty at the rate of five per cent charged on the gross output of the claim, with the exception of an annual exemption of $5,000.00.

No free miner shall receive a grant of more than one mining claim for each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners, not exceeding ten in number, may work their claims in partnership, by filing notice and paying fee of $2.00. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying fee.

Work must be done on a claim each year to the value of at least $200.00, or in lieu of work payment may be made to the mining recorder each year for the first three years of $200.00 and after that $400.00 for each year.

A certificate that work has been done or fee paid must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notices in the Yukon Official Gazette.

HYDRAULIC MINING, YUKON TERRITORY.

Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more may be leased for twenty years, providing the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining: and does not include within its boundaries any mining claims already granted. A rental of $150.00 for each mile of frontage, and a royalty of five per cent on the gross output, less an annual exemption of $25,000, are charged. Operations must be commenced within one year from the date of the lease, and not less than $5,000.00 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated land for agricultural or building purposes

PETROLEUM.

Al unappropriated Dominion lands shall, after the first of July, 1901, be open to prospecting for petroleum Should the prospector discover oil in paying quantities he may acquire 640 of available land, including and surrounding his discovery, at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order in council.

JAMES A. SMART.
Deputy to the Minister of the Interior
Ottawa, Dec. 25th, 1901.

NOTICE.

The Sandon Water Works and Light Company hereby give notice that it will at the expiration of four weeks from the first publication hereof, apply to the Lieutenant Governor in Council, pursuant to the provisions of the "Sandon Water Works and Light Company Act 1896" for:

I Authority to divert (200) two hundred miners inches of water from Sandon creek immediately below the present concentrating works of the Slocan Star Mine, to wit, at the location of each dam now constructed one on the east fork of Sandon creek and the other one on the west fork of Sandon creek below the said concentrator.

II. Also authority to divert (200) two hundred miners inches of water from Carpenter creek (South Fork) at a point about 650 feet above the point where the North Easterly boundary of the Victor mineral claim, being Lot 3184 crosses the said Carpenter creek (South Fork) and about 250 feet above the crossing of the Kaslo and Slocan Railway on the said Carpenter creek (South Fork) the said point of diversion being a point below the point of diversion of the water supply for the RecoMines and Noble Five Mines concentrator

Dated at Sandon, B C., this 4th day of March, A. D. 1902.

Mines and Mining.

Development work has commenced on the Highland mine at Ainsworth.

The Surprise, McGuigan basin, shipped 20 tons of ore to Everett last week.

It is reported that the Whitewater is to increase its force to 150 men this month.

For February the shipments from Whitewater were: Whitewater 450½ tons; Silver Glance 15 tons.

Three Forks shipments for February amountod to 104 tons: The Monitor shipped 83 tons and the Queen Bess 21.

The True Blue has another shipment of 500 sacks of ore ready to ship at the Kaslo wharf. This ore carries nearly 18 per cent copper.

A shipment of a car of very rich ore was made last week from the Carbonates No. 2, on Spring creek. William Pfiefer, who has a bond and lease on this property, has a small staff working at the mine. He expects that the returns will bring him close to $3,000 for the car shipped.

Work at the Silver Glance at Bear Lake is progressing steadily. The drift has so far been run in 200 feet from the face of the tunnel and some good ore has been taken out. The ore consists of black sulphates and silver, on which assays have gone as high as 1600 ounces. During the past two months three cars of ore have been shipped and shipments will continue.

The Rambler-Cariboo is looking well, and at present time development is being carried on mostly in No. 6 tunnel, at the same time sinking to No. 7. For February 25 cars have been shipped of an average value $1,500 per car. The expenses of the management will be around $13,000. Another dividend was paid last Saturday, and another has been declared payable March 30th. Both dividends are at the rate of one per cent per month.
