THE BIG STORE

House Cleaning Time

This event takes place in every home at this particular time of the year, and it's a source of worry and trouble to the ones in connection with it, as to the best way to beautify the home for the summer months. We have helped you in the past to settle this trouble. Let us supply you again this season with something new from our well assorted stock of house furnishings.

	PER YARD
Art Sateens	20c to 25c
Reversible Cretonnes	20c to 25c
Art Muslins	15c to 25c
Figured Scrims	25c to 45c
Spot Swiss Muslins	20c to 25c
Figured Swiss Muslins	20c to 30c
White and Cream Madras	30c to 50c

MORRIN, THOMPSON & CO.

SEMI-ANNUAL STATEMENT

Operations at Granby for 6 Months

Profits Were $304,646—Copper Cost 10.4 Per Pound

The Granby company has made a report for the six months ending Dec. 31, 1909. It cost the company $2.86 per ton of ore, including all expenses, in six months, while the cost per pound of copper, after crediting gold and silver values was 10.4 cents, against 13.139 cents received. During the six months there was 6874 feet of mine development and 3496 feet of diamond drilling accomplished while the Granby smelted 572,371 dry tons of its own ores and 9368 tons of foreign ores.

The cost of 10.4 cents per pound for the last half of 1909 compares with 10 cents for the fiscal year ended June 30, 1909, and 10.24, 10.14 and 8.35 cents in the three preceding years.

Among its stocks and bonds the company is carrying some shares of the British Columbia Copper Co. at $9395 while its investment in the shares of the Crows Nest Pass Coal Co. at first cost is carried at $858,814. Giant-California Mining shares at 50% of cost are carried $45,000 while Kettle Falls Power at cost appears in the latest balance sheet at $80,677.

The second installment of 50% on the 13,5000 shares of treasury stocks offered to stockholders for subscription at 85 was payable last week. It is proposed to use the proceeds principally to meet outstanding obligations in excess of $3,625,000 incurred during the last five years for acquiring other mining properties, new plant and an interest in the Crows Nest Pass Coal Co. and for other items chargeable to capital account. Proceeds not needed for these purposes will be reserved for working capital.

The company is carrying, at 13½ cents, 1845 tons of blister copper and has cash in bank amounting $22,043.

Amt. realized on production	$2,055,564
Expenses	1,750,918
Net profits (six months).	$304,646
Previous surplus	2,698,687
Total surplus	$3,003,333
Dividends and interest	287,365
Net surplus Dec. 31	$2,715,968

Production is shown as follows:

	Quantity	Av. selling price.
Copper (lbs).	11,167,644	13.139c
Silver (oz).	172,054	51.33c
Gold (oz).	24,997	$20.00

The balance sheet as of Dec. 31 1909, is as follows:

Assets:	Dec. 31, 1909
Cost land, mach., etc	$15,505,417
Stocks and bonds	994,822
Supplies	257,554
Cash and copper	801,284
Total	$17,559,077
Liabilities:	
Capital outstanding	$13,500,000
Div. held for liquidation, etc.	120,956
Cash loan	875,000
Accounts payable	97,152
Adv. on copper	250,000
Surplus	2,715,969
Total	$17,559,077

The Queen's Hotel

The Queens is to be the name of the remodelled Summit hotel, located on Knob Hill avenue. R. V. Chisholm, proprietor of the Alexander hotel, has leased the Summit building and is having it refitted and made up-to-date in every particular, to which he will have the license of the Alexander transferred probably next week. With the Deane building adjoining, the Queen's will have the full complement of rooms required by law under one roof. The front part of the Queen's will be used as an office and pool room, the bar being at the rear. In the Queens Mr. Chisholm will have one of the best business locations in the city.

W. S. Macy of Phoenix, who recently purchased the Rockaway restaurant in Spokane, is said to be getting a lion's share of the business in the Inland Empire city.

Boundary Mining Notes

The compressor plant at the Fife mine is now in full operation and the force at the property will be increased next month.

Rudolph Linden, formerly assistant superintendent and metallurgist at the Greenwood smelter, died in Mexico a short time ago.

It is understood the B.C. Copper Co. and the C.P.R. are mixing in an interesting legal case over the railway company's right-of-way over the Oro Denoro mine. The railway runs across the outlet of the property, the location of which, it is stated, prevents the mining of a large amount of valuable ore. The C.P.R. claims legal title.

The Consolidated company have commenced preparations for the erection of the concentrator in connection with the No. 7 mine. A crew was put to work this week clearing the site for the mill near Boundary Falls and will later clear the right-of-way for the tram line to be built from the mine to the mill, a distance of three miles. The construction of the mill will commence shortly, the work being in charge of Harry Plaisance, for a number of years head carpenter at the Granby mines.

John Buckley, one of the local pioneer prospectors, has been doing assesssment work on his Carbonate claim in Wellington camp. Mr. Buckley had about 100 feet of tunneling done on the property but the grading for the C.P.R. crossing his claim covered up the results of his labor together with about 100 tons of good ore. Mr. Buckley has entered suit for trespassing against the company. The Carbonate is close to the British Columbia Copper company's Jackpot group and values aggregating $50 in silver, copper and gold have been secured.

City Parliament

The mayor and all the aldermen were present at the regular meeting of the city council Wednesday evening, though but a short session was held.

The opinion of the council was re the proposed granting of a transfer of license from the Alexander hotel to the Summit building which is being re modelled, was discussed and commented on favorably.

The city solicitor was instructed to draft a bylaw in connection with the holding of the proposed tax sale.

The city clerk was instructed to notify the water works company that all hydrants must be put in shape for immediate use.

C. P. R. TO IMPROVE TRACK TO PHOENIX

Will Expend $20,000 in Ballasting Road from Eholt

W. A. Miller, superintendent of the Canadian Pacific railway for this division; D. C. Fraser, superintendent of bridge building; C. S. Moss, resident engineer; H. W. McLeod, trainmaster; M. T Main, master mechanic, and A. Johnson, roadmaster, were in Phoenix on Wednesday, being on a trip over the Boundary lines. This was Superintendent Miller's first official visit to Phoenix since his recent appointment as well as that of some of the other officials and they availed themselves of the opportunity of calling on a number of the business places in the city and becoming acquainted, being piloted by Acting Agent Bean.

The superintendent spoke optimistically of business prospects during the coming summer and anticipates his company will expend large sums of money in the improvement of its lines. Chief of importance to Phoenix among these will be the ballasting of the entire roadbed of the C.P.R. from Eholt to Phoenix. It is expected that this will cost upwards of $20,000 and a large number of men will be employed. The roadbed will be raised about a foot with gravel and the track put in firstclass shape. A steam shovel is now at the Eholt gravel pit and operations will commence within a month. A big Shea engine will handle the gravel trains.

The dog tax collector is on his rounds. Proceedings will be taken against all residents harboring or keeping dogs without taking out the necessary license. Dogs roaming the streets and belonging to non-residents are subject to the tax of $2.

THE BIG SLUMP IN GRANBY CO. SHARES

Sold As Low As 37 on the Exchange—Now 50

Granby is at present of usurping interest. Within a few days shares dropped from 90 to 37 on the New York and Boston exchanges. The rumor that the expert examination report of the mines, soon to be made public, would show but 6,000,000 tons of ore available for stoping appears to have been largely responsible for the break.

A later despatch from New York says that, according to semi-official statements, the break in Granby was due to a misunderstanding of the latest expert report on the tonnage. The discrepancy of ore reserves is explained by saying that the ore reported by the directors meant all the ore of the mine, while that reported by the expert means the ore actually blocked out aud prepared for stoping. The stock has since risen to 50.

A New York official of the Granby is reported as saying on the 23 ult.:

"I know of no reason why the stock sold 18 points off in Boston market this morning. I do know that I purchased a lot of the stock day before yesterday at 85."

No information can be gained locally as to the cause of the decline. Within the past six months, officials of the company intimately connected with the development of the property, including ex-manager Hodges have gone on record as stating that the mines contain vast ore bodies to ensure a steady supply for years to come.

Col. N. E. Linsley, of Spokane, the engineer on whose recommendation of the properties the Granby company was incorporated, made a three days' examination of the property in December last, after which, in an interview to the Pioneer, he stated "130,000 tons should be mined and treated monthly by Granby for a very long period.

Geo. L. Walker of the Boston Commercial: "In connection with the decline a story was circulated that the management is about to issue a statement showing that an examination of the mine has revealed the fact that there are now only 6,000,000 tons of ore ready for stoping. As this is a five years' supply for its present smelting capacity, it would seem to me all that can possibly be required. I know that the company's lands have been extensively diamond drilled, and that this drilling proved the continuance of its ore body and the maintenance of its values throughout a very large area, which must contain tens of millions of tons of ore. I advise the purchase of Granby both for investment and speculation.

On the Trail to Fort George

(From the Fort George Tribune)

Percy Pinker, Charles Pinker, and S. E. VanBuskirk (of Phoenix) arrived at Fort George last Sunday. The party came from Kamloops and drove the entire distance. Included in the "settlers' effects" is a moving picture machine which was secured at Kamloops and which was used at various points along the road to advantage. Entertainments were given at Clinton, 115, 150-mile house and Quesnel. At Clinton, Percy says, the accommodations were not ample to permit all the residents an opportunity to attend and in consequence a large number were disappointed in not seeing the 6000 feet of film brought into New Cariboo by our enterprising Fort George preemptor. That the sideline was a financial success is attested by the fact that after living at Quesnel for several days they left for home with more money in their pockets than they had at the start of their trip from Kamloops. The picture moving outfit is stored in Blair & Co.'s warehouse and the theatrical exploiters are once more leading the simple life.

Among the arrivals in town this week were John McInnis and Neil McBeth of Phoenix.

Tariff War Ended

The tariff war controversy between Canada and the United States was satisfactorily settled on Wednesday, the latter granting to the Dominion the minimum tariff rates. Canada conceded to the United States a reduction of from 5 to 15 per cent. on thirteen numbers of the tariff list. Customs Officer Delahay on Thursday received notification from Ottawa of the reduced tariff, which went into effect yesterday.

A FRANKLIN CAMP BOOM

Is Predicted For This Summer

F. A. Heinze Renewing Options On Claims

Evidence of renewed activity in mining at Franklin camp are appearing daily and, as intimated in the last issue of the Pioneer, a general boom is looked for among properties located on the north fork of the Kettle river, where an extension of the Kettle Valley railway is now assured.

W. S. Hawes, a mining promoter of Butte, Montana; F. W. Mason, a mine surveyor, and Jos. Thomas, an assistant, of Coeur d'Alenes, were guests at the Brooklyn hotel on Thursday, having arrived from Franklin camp the previous evening.

Although very reticent in discussing his mission to the Boundary, Mr. Hawes admitted to the Pioneer that he was here in the interests of F. Augustus Heinze. He had spent some days at Franklin camp, in company with other American mining men, securing data, photographs, etc., with a view to renewing options on properties in that district. Mr. Hawes stated that his visit would probably result in considerable development work being done this summer in the camp, but the claims upon which operations would commence were kept secret. The party left for Greenwood to visit the recorder's office and investigate titles to properties under consideration.

That a boom in mining on the North Fork is looked for is evidenced by the following article from the Spokane Herald:

Franklin camp, British Columbia, is said to be giving more promise of renewed activity than at any time since the panic of 1907. In spite of the fact that there is still snow in the district, a number of experts have been busy examining the properties, and several owners, though non-committal, are having prospects put in shape for renewal of work.

The extreme secrecy surrounding the resumption of operations has led to the conjecture in other British Columbia copper camps that F. Augustus Heinze may have renewed his options to purchase a number of the biggest lodes of the district. At the time of becoming involved in law suites with the government Heinze held an option on many Franklin camp properties, but the options were allowed to lapse, just after the collapse of the United Copper boom.

Anticipating a hot time in Greenwood this summer, F. B. Holmes is installing an electric moter to operate an ice cream freezer.

Boundary Side Lights

The old unoccupied Miners' hotel in Greenwood was destroyed by fire last week.

About three million feet of logs are banked at Christena lake awaiting the drive on the Kettle river to Orient.

"When Your Wife's Away" is the title of a play to be given by an amateur club at Rock Creek on April 8th.

The Riverside Nurseries at Grand Forks have commenced their spring shipment of home grown nursery stock.

Dave McRae, a brakeman, assaulted a C.P.R. official on Wednesday. The police are now looking for the brakeman.

The Liberal association of Grand Forks city have appointed C. Scott Galloway, as a delegate to the Interior Liberal convention.

J. P. McLeod, barrister of Greenwood, will go to Victoria, having been appointed to the new office of Inspector of legal offices in B.C.

The Great Northern has subdivided 700 acres of the old Manly ranch, Grand Forks, into ten acre lots and placed the same on the market.

The athletic club at Mother Lode is working diligently on its new grounds which is expected to be in readiness in the course of a couple of weeks.

The tenth annual ball of Gateway lodge, No. 45, I.O.O.F., will be given in the opera house Grand Forks on April 6th. Werner's orchestra of Phoenix will furnish music for the occasion.

Representative ranchers from Myncaster, Bridesville, Rock Creek and Midway will meet at the latter place shortly to decide upon which point to hold the agricultural fair this summer.

The license commissioners of Greenwood have intimated to the hotelkeepers of that city that the number of licenses would be reduced to five in July. The license fee will probably be raised to $900 per year.

The Greenwood corps of Baden-Powell Boy Scouts has obtained permission from Premier McBride to use the title "The Premier's Own." There is an active corps in Greenwood under the leadership of R. G. Hargraves.

The Greenwood baseball club has reorganized for the season with the following officers: Hon. president, E. G. Warren; hon. vice president, James McCreath; president, W. B. Fleming; vice-president, R. J. Sanders; secretary-treasurer, J. J. Rochon; manager, J. H. Goodeve.

Start Construction

It is announced that construction work on the Canadian Northern will be started opposite New Westminster before June 1st. It is expected shortly after to have the entire section to Hope under contract. Plans for the year include the preparation of a hundred miles of roadbed on the North Thompson, grading the line from New Westminster to English bluff and construction on the island line.

April 2, '10

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of Boundary mines for 1900, 1901 1902, 1903, 1904, 1905, 1906, 1907, 1908 and 1909, as reported to the Phoenix Pioneer—

UNION LABEL

SATURDAY, APRIL 2, 1910

According to the preliminary report, the copper production for Canadian mines for the year 1909 was 54,061,106 pounds and represents a two per cent. increase over the output of the previous year. British Columbia produced 37,314,407 pounds and Ontario contributed 15,746,699 pounds.

The government has not yet completed its data for total quantity of copper contained in ore shipments, so that the above figures only indicate the contents of blister and matte produced and estimated as recoverable from ores exported.

Phoenix still maintains its preeminence in the copper production of Canada, with an output of 27,000,000 pounds or 50 per cent. of the total production of the Dominion. The value of the output was over three million dollars—and this has been recovered from rock that has been frequently termed too low grade to mine.

The preliminary table of mineral production in Canada, shows the total value of the production in 1909 to have been in excess of $90,000,000. Compared with the total value for 1908, which was $85,927,802, the production of 1909 shows an increase of a little over 5%. The actual increase or betterment in the mining industry in 1909 was, however, somewhat greater than is indicated by this comparison.

Owing to a slight change in the method of compiling statistics of the quantities of metals produced the values for 1909 are somewhat less than they would otherwise have been.

Extensive operations are about to commence at the No. 7 mine and probably other Central camp properties. Phoenix is the nearest city to the seat of operations and should be the source of supplies. At present, however, we are fifteen miles distant by wagon road and are losing the business of the camp which now goes elsewhere.

The construction of about five miles of wagon road, from Hartford to No. 7 mine, would bring Central camp within seven miles of Phoenix and ensure for the merchants of this city a large amount of business now going to other supply points. A good grade can be secured for the proposed five miles of new road, and there is no doubt but that the Canadian Consolidated company would contribute liberally for a short route between the Snowshoe and No. 7 mines.

If the merchants will get together and make a reasonable contribution, supplemented by assistance from the Consolidated company, there is no doubt the Government agent will undertake the work. Let us have a short route to Central camp—and let us have it soon.

Trade **Asaya-Neurall** Mark

THE NEW REMEDY FOR

Nervous Exhaustion

Whipping an exhausted nerve system with alcoholic stimulants only shortens the road to physical collapse. The only remedy is Food, Rest and nerve repair. "ASAYA-NEURALL" is and makes possible this cure. It feeds the nerves, induces sleep, improves the appetite and digestion; and soon full nerve vigor is regained. $1.50 per bottle. Obtain from the local agent.

JOHN LOVE.

PROVINCIAL.

Kaslo city council is taking steps to stop gambling in that city.

The erection of a C.P.R. roundhouse at Trail is under consideration.

The Pacific Coast Lumber mills at Vancouver have been sold to English capitalists for $600,000.

Kaslo's mayor declared Thursday a public holiday for the purpose of having a general clean-up of that city.

J. Bolanger, Fred Bolanger, and Nat Babcock have been committed for trial in connection with the recent holdup at Fernie. Constable F. Varlow furnished bonds to also appear at the trial.

The Great Northern railway expects to reach Penticton this year from Oroville, Wash. This line will be about forty miles in length, and it is stated will be constructed within the present year as it is comparatively easy to build.

A traveller of the Canadian Lumber company at Toronto was fined $50 at Trail a few days ago for violating the Traders license bylaw. There is no reason why Phoenix should not have a similar bylaw and secure a revenue from the many erstwhile hawkers of merchandise in this city.

The order has gone forth from the public works department of the provincial government that public works will be begun on April 1st. This will enable much more to be done in the season than formerly towards the completion of works projected.

D. D. Mann, vice-president of the Canadian Northern railway, is expected to come through to Victoria direct, from Toronto, to take in hand arrangements for the immediate inauguration of operations on both mainland and island sections of the C.N.R.

"Lithographic liars", was the alliterative title bestowed upon realty wild catters by Ald. Hepburn, of Vancouver a few days ago, in condemning the fake real estate boomers of the Terminal city. A motion was unanimously passed by the city council, requesting the attorney-general to take steps in the matter.

NEW VEIN FOUND WAR EAGLE MINE

A second great strike has just been made in the famous old War Eagle mine at Rossland, B.C., now the property of the Canadian Consolidated company. Like the last, it is an entirely new ore body, hundreds of feet north of the War Eagle vein proper, and like it, too, is exceedingly rich.

The first big strike was made nearly a year ago in a crosscut driven 500 feet to the north from the 11th level, 1650 feet from the collar to the shaft. The ore shoot then found has been tapped on both the ninth and tenth levels, and has been proved so far to have a heighth of 375 feet, a length of 400, and a width approximating 50. Aside from its great size, its most notable feature is the extraordinarily high grade of ore it contains, shipments for months past having averaged $40 per ton in gold, and about four per cent copper, much higher values than were ever obtained for a similar tonnage from either the LeRoi or War Eagle mine during their palmy days of bonanza production.

BOUNDARY & KOOTENAY 1909 ORE RECORD

Shipments and Smelter Receipts For Year to Date.

Ore shipments from the various mines of Boundary and Kootenay, and the receipts of ore at the smelters of Southeastern British Columbia for last week and for 1910 to date are as follows:

SHIPMENTS.	WEEK.	YEAR.
Boundary	35,193	465,664
Rossland	5,089	59,860
East Columbia River	6,526	82,809
Total	46,808	608,333
SMELTER RECEIPTS—		
Granby	23,582	308,958
B.C. Copper Co.	8,360	110,285
Trail	9,559	122,125
Total	41,501	541,368

CANADIAN-UNITED STATES TARIFF WAR

(Boston News Bureau)

A tariff war between Canada and the United States begins on April 1, 1910. On that day all imports from Canada to the United States will have a surtax of 25 per cent clapped on and Canada will retaliate by imposing an additional duty of 33 1-3 per cent on all imports from the United States. Moreover, Canada will impose a prohibitive duty on pulp and pulp-wood and all American paper mills depending for raw material on Canadian woods must go out of business or secure their raw material from the Maine woods, the Pacific states or from Newfoundland.

The owner of pulp-wood in New England will greatly benefit by this tariff war, but the New England people that use Cape Breton coal may have to pay a higher price than now. In fact, Cape Breton coal will be shut out entirely from America's market during this tariff war.

On the other hand, Pennsylvania and Ohio coal will be shut out from Quebec and Ontario. The Cape Breton coal mines will obtain an overwhelming advantage by the added tax on American coal. Hitherto British Columbia coal, on account of its superior quality, has had supremacy in the market of the great western states of California, Oregon, Washington, Idaho and Montana, during the new tariff war these western states will be forced to get their coal and coke from far distant sources of supply or be satisfied with inferior fuel. New Zealand and Great Britain coal mines will probably get the American markets lost by British Columbia.

The smelter trust and the lead trust ought also to reap a golden harvest from shutting out of Canadian lead ores during this tariff war.

The trade between Canada and the United States already amounts to $290,000,000 a year. America sells $190,000,000 worth of merchandise to Canada and buys $100,000,000 That would be about the relative trade for 1910. During the tariff war America will buy perhaps $50,000,000 worth from Canada and sell her $50,000,000. To a man up a tree it looks as if the United States will be immensely the loser in the proposed tariff war. France, England and Germany will get the Canadian trade lost to the United States unless American houses build factories in Canada to hold their markets.

Canada is a great and growing nation with almost boundless virgin resources of forest, soil and mines. Her population is growing at the rate of 500,000 a year and her commerce at the rate of $100,000,000 a year. Canada has a great and wondrous future and of all countries of the world, the United States should cultivate the most friendly commercial relations with Canada. Free trade between the United States and Canada would be of incalculable advantage to both countries, but with that out of the question, reasonable trade reciprocity should have long since been established.

Instead of that, the Aldrich tariff has brought about a tariff war that is bound to do no end of damage to the commerce of the United States with the great young Dominion. It is doubtful if President Taft can obviate this unnatural and disastrous tariff war. A special act of Congress may be necessary before commercial peace and harmony can again be established between the United States and the Dominion and that will take time. Meanwhile, Canada will have established new trade and commercial relations and the United States may find its trade balance disastrously affected by the statesmanship that has brought about this tariff war with Canada.

COMET WILL BE DAZZLING

Halley's comet may now be seen on nights when conditions are favorable with the aid of an ordinary field glass. Prof. E. C. Pickering, director of the Harvard Observatory, says: The comet is at present in the twilight region. It is in the line of the sun, and its brightness is dimmed by the lustre of the great centre of the solar system. Besides, it has not yet attained its greatest size. When it makes a traverse of the sun it will have attained its maximum brilliancy. That will be on May 18. It will be visible all through April, but will be at its brightest in May. About that time, if clouds do not obscure it, it will be a dazzling sight. About a third of the heavens will be colored with a fiery gold. Its great flashes of light will play from one part of the heavens to another, and the scene will be remembered for generations. Halley's comet has been noted for its brilliant displays. There is absolutely no danger to the earth from the comet. The earth is going to shoot through its tail like a cannon ball through our atmosphere. The idea that any harm will come from the poisonous gases is ridiculous. When the comet is nearest the earth we shall be 14,000,000 miles away.

Trail will purchase a supply of shade trees to beautify the streets of the city.

Discontinuing Papers.

Anyone who does not want to receive a publication will have no trouble in discontinuing it, if you notify the publisher that you don't want the paper any longer—provided you owe nothing. Don't continue taking the paper until you are pressed for payment and then "swell up" and say you "never subscribed for it." No publisher wants to force anyone to take his paper, if he does not want it—at the same time he expects those who take his paper to pay for it just the same as they pay any other debt.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies *are* needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature R. V. Pierce M.D.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine OF KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

The Pioneer For Fine Commercial Printing

THE DOMINION COPPER COMPANY

The threatened litigation against the management of the Dominion Copper Co., the predecessor of the New Dominion Copper Co., promises to be a long-drawn out affair, and not until late in the summer does there appear to be any chance of suit being brought in the United States.

Dissenting security holders of the Dominion Copper Co., through the liquidators appointed by the court of British Columbia, applied to that court some time ago for leave to bring suit in New York against certain former directors of the company, but the petition was denied although permission was given simultaneously for a renewal of the petition.

It is upon this renewal clause of the court's decision that the holders of Dominion stock are basing their likelihood of finally getting the court's permission to bring suit in this country—probably in the New York supreme court. Counsel for the petitioners, just now, is in Europe, but will be back within a month's time when he will immediately take up the matter again with the British Columbia court.

One of the charges, we understand, to be brought against the former management of the company, is in connection with the issue of bonds, and the allegation will probably be made that they were issued at 40 cents on the dollar, and redeemed at 80 cents.

PARISIAN SAGE CURES DANDRUFF

If it don't John Love Will Give You Your Money Back

Yes, Parisian Sage, the most invigorating hair restorer, cures dandruff and grows hair. The women of Canada, who have luxuriant hair, know it does, and that is why thousands of attractive women throughout the land are regularly using it.

For years this almost marvelous grower of lustrous and beautiful hair was confined to the elite of Europe and New York City, but about two years ago it was given to a select list of druggists, and today can be obtained in any city or town in America where society women of refinement dwell.

Parisian Sage is the most delightful hair tonic in the world. It makes the hair soft, lustrous and luxuriant in a few days. It is perfumed most daintily and is not sticky or greasy. It stops falling hair, cures dandruff and itching scalf in two weeks or money back.

John Love sells it for 50 cents a large bottle, and guarantees it, or direct, all charges prepaid, by Canadian makers, Giroux Mfg. Co. Fort Erie, Ontario.

THE CAUSE OF HIGH LIVING

After all why are eggs 60c. a dozen? Why are there "boycott" against meats? Why has the price of living increased so tremendously in the last few years? Some blame the wholesalers and retailers for avarice; but balance their expenses against their profits and are they getting tremendously rich? Some blame the farmer for antiquated and unproductive methods.

J. W. Sangster writing in The Home Journal, April Number, gives as the main reason the exodus from country to city which has left entirely inadequate help upon the farm. He says it is a lonely old man, in a lonely farm house, who talks. His family are all gone. Here is the reason the cost of living is so high. Inquiry reveals the conviction that the old farm could be made to produce three times what it does if the labor were there to make it.

He presents an interesting, readable, logical argument that must convince any disinterested reader that no class of persons can be blamed, the cause lies in the trend of present day industrial life.

It is doubtful if the subject could be anywhere presented in this light to be of more value than in the Home Journal, probably closer to modern Canadian life and conditions than any other magazine.

LID ON TIGHT AT GRAND FORKS

At the recent meeting of the police and license commissioners for the city of Grand Forks, the chief constable was directed to enforce the following instructions:

1. No liquor shall be sold in any saloon or hotel bar in the city between the hours of 11:30 p. m. of each day and 6 a. m. of the following day.

2. All saloon and hotel bars must be closed from 11:30 Saturday evening until 6 a. m. the following Monday.

3. No liquor license holder shall permit gambling in any form to be carried on in or about his premises.

4. All premises in respect of which a license to sell shall have been granted shall be kept in a perfectly sanitary condition, and shall be subject to inspection at least once each week.

5. No frosting will be permitted on the windows of any bar-room and when bar-rooms are closed pursuant to clauses 1 and 2, all screens and blinds shall be removed from the windows, and at night all bar-rooms shall be lighted up.

6. No person shall sell liquor to any intoxicated person.

7. No liquor shall be sold on Sunday by any holder of a bottling or wholesale liquor license.

8. No liquor shall be sold minors.

Dice shaking in cigar stores and elsewhere will be stopped.

The Opportunity of Youth.

Ignorance would tear down existing institutions and breed riot and anarchy where there is now law and order. It makes no discoveries, no inventions, nor does anything to better the condition of the human race. It goes from the cradle to the grave in a random way, with no pilot, no objective point, and its frail bark is often wrecked in this temptuous sea of life. It fills the land with vice and crime, builds jails, alms houses and penal institutions, and is the servant of nature. Our school is here to counteract all this evil influence and to make it possible for every young man and young woman in this town and vicinity to fit themselves for some useful and highly profitable calling in life and that the world may be better for their having lived in it.

FAMISHING MEN ON LONG TRAMP

Vancouver, March 26.—Their supplies stolen by Cree Indians in the wilds of the Rocky mountains and with every one of their 44 horses dead of starvation, 22 men belonging to a Canadian Northern survey party, headed by engineer C. F. Hanington, arrived in Vancouver today after having fought their way to civilization through midwinter snowdrifts. On their return trip from Yellowhead pass, where they had been at work, the engineers discovered that their caches of supplies had been rifled. The horses perished of starvation on the trip into the Rockies, the animals finding it impossible to dig their food from beneath the frozen crust of the snow.

March 2, when 192 miles northeast of Kamloops, the 22 men found that all that lay between them and starvation was five pounds of bacon. On that they marched over the snow for two days to Blue river, where 50 pounds of flour was given them by a trapper. Twenty-nine miles further south a cache of 100 pounds of flour was found. This flour was made into bannocks which were equally divided among the men, who struggled on over the windswept ice drifts of the North Thompson river, 90 miles to the head of a government wagon road.

At this point a settlement was reached and two days' rest taken. So famished were the men on reaching the settlement that they consumed five bushels of potatoes at one meal.

WAS TAKEN SICK FROM CATCHING COLD PE-RU-NA RELIEVED.

MISS ERNESTINE BOUVARD, Duck Lake, Saskatchewan, Can., writes:

"At the close of 1903 I took sick as the result of catching cold. I became very weak and could not do anything.

"I consulted a doctor who had me take various kinds of medicine, but I did not find any relief from my suffering. At the advice of a friend, I wrote to you and you advised me.

"After I had taken two bottles of Peruna there was noticeable improvement. I combined the use of Peruna, Manalin and Lacupin and after taking several bottles of each I find myself entirely cured.

"I can certify that it was through your medicines that I recovered my health. I advise every one who is similarly afflicted to obtain Dr. Hartman's advice and be benefited."

Mrs. Wilda Mooers, R. F. D. No. 1, Lents, Oregon, writes:

"For the past four years I was a wretched woman, suffering with severe backaches and other pains, leaving me so weak and weary that it was only with difficulty that I was able to attend to my household duties.

"I used different remedies, but found no relief until I had tried Peruna.

"Within two weeks there was a change for the better, and in less than three months I was a well and happy woman.

"All the praise is due to Peruna."

Peruna is not a local remedy, but an internal systemic remedy. It will relieve catarrh in its most obstinate form.

LOVE'S DRUG STORE

SPRING SUITS

It's going to be an easy matter for you to satisfy yourself in clothing this Spring if you come here to do it. If you have any pet ideas about what you want you'll find us able to meet them.

Generous values—more than your money's worth—that's the idea were working on here. You'll learn, if you haven't already, that we make good along that line.

Our clothes — whatever their price—are a full fifth better than the clothes that come nearest to them in intrinsic value at other stores.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTERREST TO PHOENICIANS.

V. M. Sherbino returned Monday from Vancouver.

New line of bulk perfumes, popular odors; at Love's.

Firstclass dry wood, any length, for sale; phone E32.

Prof. Marks has opened a dancing school in Grand Forks.

C. D. Hunter went to Vancouver Thursday on business.

Jeff Davis of Grand Forks was in the city on Thursday.

Furnished rooms to rent, Aetna rooming house; apply to A. Webster.

The two junior rooms of the public school will reopen on Monday next.

Special line of atomizers being cleared at cost at Love's Drug Store.

Mrs. J. Weir returned Monday from an extended visit to friends at Eholt.

Expert watch repairing at Black's jewelry store; satisfaction guaranteed.

Miss J. McKenzie attended the teachers' convention in Nelson this week.

Magistrate Hood returned Monday from a trip to Victoria and other coast cities.

Dr. and Mrs. W. H. Dickson returned Monday evening from a week's visit to Spokane.

Photographic views of Phoenix and of the two recent funerals on sale at Love's Drug Store.

J. E. Thompson, of the Morrin-Thompson company, went to Spokane Thursday on business.

Dr. Simmons, dentist, will be at his office in the bank block, Phoenix, from April 10th to 13th.

Mrs. Harry Nash returns home to Molson, Wash., today after spending a week in town with Mr. Nash.

J. A. Morrin, of Morrin-Thompson company, returned to Peachland Tuesday after a short visit in the city.

Ernest Miller, will be tendered a complimentary dinner by the citizens of Grand Forks in that city this evening.

Misses Tupper and Murray of Phoenix school went to Nelson on Tuesday to attend the provincial convention of school teachers.

J. H. Matthews returned Wednesday from a ten days' trip through Idaho. He expects to locate across the border shortly.

E. Spraggett was in the city yesterday and anticipates an early commencement in the improvements to roads in this district this year.

For sale, the property known as the Biner block, centre upper town; best property in city to right person; prices very reasonable; enquire of owner on premises.

J. J. Strutzel, accountant at the Granby, will leave for the coast today for a two weeks' vacation. During his absence C. Smith of Grand Forks is acting accountant.

About sixty couples attended the Easter dance given by Werner's orchestra Monday evening. The five-piece orchestra furnished splendid music and all present had an enjoyable evening.

The marriage of E. J. Smith and Miss Kate Noble, both formerly of Phoenix, took place at the latter's home in Victoria, on Thursday, March 17th. Mr. and Mr. Smith will reside at National, Nevada.

All lovers of music in Phoenix will be pleased to learn that Miss Jessie MacLachlan, the Scotch prima donna, and her talented company have been booked for an engagement at Phoenix opera house early in May.

A special meeting of the members of Phoenix Rifle association will be held this (Saturday) evening at the city hall at 8 o'clock. All members are urged to be present as business of importance will be transacted.

The Eileen Maguire company gave the third entertainment of Star concert course in the opera house. Miss Maguire sang the Irish selections in splendid voice though in acting as her own accompanist she sings at a disadvantage. Miss Webling and Walter McRaye called forth much applause in their humorous sketches.

The Stuttz company concluded their week's engagement at the local playhouse Saturday evening with the presentation of "The Celebrated Case." It was the best show of the week and was attended by a large audience. The Stuttz company are now playing on a circuit with Rossland, Trail, Republic, Grand Forks and Phoenix, and will return here in the course of a month.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B.C.

Mrs. T. Lyons of Mother Lode spent a few days in town this week, the guest of her parents, Mr. and Mrs. Walters.

Lifebuoy Soap is delightfully refreshing for Bath or Toilet. For washing underclothing it is unequalled. Cleanses and rifles.

FINALE OF THE BONSPIEL

Winners of the All Comers' Competition Decided on Bowling Alley

The innovation of deciding a curling event on a bowling alley was witnessed by a considerable number of local enthusiasts at the Phoenix Club on Monday evening, as a result of which a quartette of the local knights of the besom and stane are wearing new Stetsons, having achieved the distinction of being champion rink in the All Comers' competition at the recent bonspiel.

The summer-like weather which set in immediately after the third day of the Boundary's bonspiel held in Phoenix Feb. 24 to 26, made it impossible to decide the prize winners in the All Comers', won by five Phoenix rinks, on ice. Three rinks remained to play off, and by mutual consent the championship honors were decided by bowling. In the contest on the alley Gardner's quartette won easily over Birnie's and McNichol's rinks.

Following is a list of the events and winners together with the prizes won:

All Comers', open challenge: 1st prize, four Stetson hats, donated by the Hunter-Kendrick company; won by R. J. Gardner, skip, R. H. McCracken, vice, J. E. Thompson, second, and G. Kay, lead. Second prize, four pipes, donated by McRae Brothers; won by G. L. McNichol, skip, A. F. Geddes, vice, James Bateman, second, and J. Wilson, lead.

Burns' Cup competition: 1st prize, four silver butter coolers, donated by James Marshall of the Hotel Brooklyn and possession of the cup for one year; won by R. J. Gardner, skip, R. H. McCracken, vice, V. M. Sherbino, second, and W. X. Perkins, lead. Second prize, four sets of cuff links, donated by E. A. Black; won by G. L. McNichol, skip, A. F. Geddes, vice, J. J. Strutzel, second, and J. E. Carter, lead.

Smith Cup competition: 1st prize four safety razors, donated by the Morrin-Thompson company, and possession of the cup for one year; won by Grand Forks—N. L. McInnis, skip, H. W. Gregory, vice, F. W. Fripp, second, and D. D. Munroe, lead. Second prize, four pictures, donated by R. J. Gardner, won by C. M. Campbell, skip, O. B. Smith, vice, P. Boyles, second, and G. Ellis, lead.

Consolation, first prize, four sweaters, donated by P. W. George; won by Greenwood—A. McDonald, skip, J. S. Birnie, vice, K. C. Frith, second, and, J. McCreath, lead. Second prize, four boxes cigars, donated by the King's hotel; won by L. Y. Birnie, skip, T. B. Cosgrove, vice, J. H. Matthews, second, and J. Harbinson, lead.

Five handsome pieces of furniture were sent to the Phoenix general hospital on Monday by the local lodge of Fraternal Order of Eagles. They included a solid leather couch with adjustable cushions, a Spanish leather morris chair, a "sleeping hollow" rocker, and two quarter-oak rockers. The furniture was purchased with the money raised by the Eagles and originally intended for a sun parlor for the hospital. It makes a substantial gift to a worthy institution which receives too little recognition from the public generally.

PERFECT FIT, STYLISH FINISH

Are distinguishing features with the SEMI-READY CLOTHING AT CARSON'S. The fabrics are of patterns which will appeal to gentlemen of taste, and our prices are consistent with quality.

The finest productions from the makers of British worsteds are found in the

LOWER TOWN, PHOENIX

PRESENTATIONS TO Mr. AND Mrs. GARDNER

Prior to Their Departure from Phoenix This Week

On Thursday R. J Gardner, who has been in the furniture business here for some years, left for Grand Forks to open in business there. During his residence here Mr. Gardner has been one of our most genial merchants, active with local organizations, and the whole-souled nature of himself and Mrs. Gardner won for them many warm friends in Phoenix who regret their departure.

Last Friday evening the Knights of Pythias and Pythian Sisters gave an at-home in honor of Mr. and Mrs. Gardner, who had been actively identified with the orders The evening was spent enjoyably at whist and dancing, a dainty luncheon being served at mid-evening. The feature of the proceedings was an address and presentation to Mr and Mrs. Gardner, the former being made the recipient of a past grand's jewel, while the latter was presented with two beautiful pieces of depos art ware. The address expressed the regret of the lodges in losing two valued members. Mr. Gardner made a short reply thanking the donors, whom he said had ever been kindness to himself and Mrs. Gardner.

On Monday evening Mr. Gardner, who had been the mainstay of the local curling club for the past three years, was encircled by members of the club at the Phoenix Club and presented with a purse of gold and the following address, which was signed by all the members of the curling club:

"Dear Friend,—We, your associate members of the 'roarin' game' in Phoenix, mingle with you here this evening to express our sincere regret at your departure from our midst as well as our keen appreciation of your services to Phoenix Curling club. We realize we are about to lose a member whose indefatigable activity on behalf of the association has been largely responsible for the success which has attended curling in Phoenix during the past few years, and who was likewise largely instrumental in the success of the Boundary's first bonspiel in Phoenix Rivalry and goodfellowship are the first principles of curling and in these we have found you a prince. In taking your leave, we ask to be allowed to 'wick and curl in,' and that you accept this purse, not for any intrinsic value it may contain, but only as a momento from associates who have esteemed your goodfellowship. And as you 'soop it up' along the pebbled pathway of life it is our wish that you may ever be found 'tee high' on the road of prosperity."

Mr. Gardner replied feelingly, having been taken entirely by surprize, and thanked the club for their gift and for the good spirit which had ever been shown him by the members. Thomas Brown presided over a banquet which followed.

If you are thinking of building or require building material of any kind—lumber, shingles, lime, brick—call on me for figures. Phone A44. C A. Ross.

Here's A Hint!

GOOD CREAM OR MILK, such as the PHOENIX DAIRY BRAND, is the basis of a tempting meal. It makes everything taste better. Try it—and you'll always buy it. All milk is aerated before being sold.

Land Registry Act

In the matter of an application for duplicate certificate of title to lot 4, block 1, map 60, Old Ironsides subdivision, town of Phoenix.

Notice is hereby given that it is my intention at the expiration of one month from the date of the first publication hereof to issue a duplicate certificate of title to said lands, issued to Joseph Trainer, on the 21st. January, 1902 and numbered 5099a, unless in the meantime valid objection be made to me in writing.

W. H. EDMONDS,
District Registrar.

Land Registry Office,
Kamloops, B.C.,
March 17th, 1910.

NOTICE

I hereby give notice that thirty days from date I intend to apply to the board of licensing commissioners for the city of Phoenix, B C., for a transfer of the license now held by me for the Alexander hotel, to the Summit hotel, the said Summit hotel to be known in future as the Queen's hotel and to include the premises occupied by D. Deane.

R. V. CHISHOLM.

Phoenix, B.C., March 31st, 1910.

Notice To Parents

Parents having children of school age, viz. 6 years, and wishing to have them begin their studies this coming term must see that they are enrolled during next week or on Monday, April 11th. The next period of enrollment will be after the summer vacation. This rule must be strictly adhered to in order that all beginners may be started off in the same class, and thus conserve the time of the primary instructor. Children under the school age of 6 years cannot be enrolled.

Phoenix Board of School Trustees.

When the fire whistle is blowing is no time to think about insuring your house and furniture. Don't put off another day. You should also consider what company you insure in; D. J. Matheson represents the best companies.

For Sale.

I offer for sale my residence on the Golden Eagle addition, together with all house furnishings, for $1500 cash. The house is well located and has a good spring water supply piped into the building.
