Spring Suits

Our Spring Suits have arrived and await your inspection.

Besides Campbell's, we have stocked a complete line of the celebrated "FITREFORM" clothing. These suits are cut in the latest style and sell themselves.

New Hats

What about your new hat? We have them in all styles, and at any price.

Soft Shirts

We are introducing this spring an entire new line of nobby American Soft Shirts—they are right up to-date, you should have a couple.

Men's Shoes

As usual we lead in the display of Men's Shoes, Fancy Vests and all other lines of Gent's Furnishings.

The Hunter-Kendrick Co. Ltd.

GREENING
} APPLES

Swift's Hams, Bacon and Lard

Tartan Brand Canned Goods and Groceries.

These goods cost you no more than others and are always reliable.

Hardware Dept.

We have just received a shipment of Fancy Glassware that should have been here for Christmas trade. We are selling this at a special price. Its worth while to look this lot over anyway. Our New Wall Papers are expected any day--better wait till you have seen them.

Morrin Thompson & Co.
GROCERS AND HARDWARE MERCHANTS

RAISED WAGES AT SMELTER

Of Dominion Copper Co. from April 1.

W. C. Thomas Now Local Manager of Company.

Beginning April 1st, the Dominion Copper Co. raised the wages of the employees at the smelting works at Boundary Falls to the level of that agreed upon last December between the British Columbia Copper Co. and its employees at the time of the difference that occurred at those works. At that time, when a new agreement was made for two years, the new scale between the British Columbia Copper Co. and its smeltermen was raised somewhat above that then being paid at the Dominion Copper Co.'s works, and the management of the latter has now voluntarily leveled up its smelter wage scale with the former. In dollars and cents it means that the men employed at Boundary Falls will now receive about $1,000 more per month than hitherto.

Announcement is also made that W. C. Thomas, smelter superintendent of the Dominion Copper Co., since the company came under the present management, has been promoted to the position of general local manager of the company, having charge of both its smelting and mining operations. T. R. Drummond, the local manager up to last week, having been transferred to the Nippissing mine at Cobalt, by M. M. Johnson, consulting engineer for both the Dominion Copper and Nippissing companies.

Mr. Thomas has made many friends since coming to the Boundary from Salt Lake City, not quite two years ago, and the appointment meets with general satisfaction from residents of the Boundary, as well as with those having direct dealings with the company.

The last carload of delayed parts and fixtures for the enlargement of the Dominion Copper Co.'s smelter, arrived at Boundary Falls this week, and the work of getting the new giant furnace in operation is now rapidly nearing completion, and early May should see it in operation, when the reduction works are expected to be running through some 1,400 tons of ore per day.

March Public School Report.

Following is the report of the Phoenix public school for the month of March, as furnished by principal Thornber:

Total daily attendance	1,698
Total actual attendance	1,662½
Average daily attendance	84.90
Average actual attendance	83.12
Pupils actually attending	96

Organizing Fire Brigade.

A meeting was called last Monday evening by Fire Chief Stevens at the city hall of those interested in the reorganization of a volunteer fire brigade, and there was a good attendance. E. A. Black was chosen secretary-treasurer of the brigade, and V. M. Sherbino was elected captain of the upper town hose team, while R. J. Gardner will occupy a similar position with the lower town team. Both captains will choose their men from those who have signified their wish to join the organization or who many yet do so. There is already a lengthy list, showing that there is much interest being taken in the matter.

A special committee consisting of J. A. Morrin, C. D. Hunter and officers of the organization, was appointed to interview the city council to secure, if possible, an arrangement for pay for firemen who turn out to fires.

M. M. Johnson, consulting engineer for the Dominion Copper Co., after spending a week in the Boundary, went out on Monday, being accompanied as far as Spokane by W. C. Thomas, smelter superintendent for the company at Boundary Falls, and now local manager.

At Boundary Mines

Close to 800 men are now employed in the mines of Phoenix camp.

At the Fremont some high grade ore has been opened up recently.

For several days now the B. C. Copper smelter has been operating two furnaces once more.

With the going of the snow, the Granby Co. may do some work on the Gilt Edge, on the north of the camp.

Development on the Bay and Tip Top claims in Skylark camp is looking well, and much is expected from these properties at no distant date.

Several days this week the Great Northern took out 50 cars of Granby ore per day. Each car holds from 50 to 55 tons of crushed chalcopyrite.

A meeting of the directors of the Skylark Development Co., Ltd., was held Thursday, when the treasurer reported having received the deed to the property.

At the Cariboo, Camp McKinney, the unwatering has proceeded to the 400-foot level, and active mining should soon be in progress at this old dividend payer.

It is said that the simple apron device lately put into operation at the B. C. Copper smelter for the feeding of air into the blast vastly increases the production of the works.

Boyles Brothers, who are now doing some boring in the lower levels of the Brooklyn mine, will also put in a few diamond drill holes at the Elkhorn, adjoining the Providence mine.

A. W. Cleveland, erecting engineer for the Canadian Rand Drill Co., came in Wednesday from Nelson, to connect up and start the new 25-drill, electric drive air compressor for the Dominion Copper Co. on the Idaho ground.

Installation of the electric hoist at the Moreen proceeds apace, but the elecric feed line from Deadwood has not yet been built. This will probably be started soon. Manager Shallenberger, of Spokane, was at the mine this week.

This week the smelter of the Dominion Copper Co. established another new record for a week's run, putting through 5,344 tons of ore in seven days. The next best week was that ending March 16th last, when 5,167 tons were smelted.

According to report, the Last Chance, in Copper Camp, is to be developed, one of the owners having bonded his partners' interests for $20,000, with the intention of starting operations in a few days. The property adjoins the Big Copper, but has had little work done thus far.

It appears as though the E. P. U. syndicate, that has been steadily pegging away on the long tunnel on that property since last fall, would soon begin to see their reward in sight. In a crosscut from the tunnel the indications this week are improving.

The Duncan mine, up the west Fork, shipped a car of high grade ore this week to the Trail smelter.

The new aerial tram from the B. C. Copper Co.'s Napoleon mine was tested this week, and is expected to be put into regular operation to the Great Northern specially built spur next week. After May 1st this mine is expected to have a daily output of some 150 tons of sulphur fluxing ore.

The Bonnington Falls power concern, known locally as the South Kootenay Power Co., is still sending current into the Boundary at 40,000 volts, the 60,000 volt rate having not yet been turned on. The new switchboard at the Phoenix sub-station of this company was being put in place this week.

George A. MacLeod and H. W. Warrington, of Grand Forks, who have been working the Grant group of copper claims near Chesaw, and shipping to the Granby smelter, last week took bonds on nearly a dozen more mineral properties in the same locality for a sum said to approximate $50,000. Machinery for operation of the properties is said to be on the program.

Owing to the condition of the money market in the east, which was affected by the recent slump in financial circles, it is understood, from a circular recently issued by the officials of the Providence Mining Co., Ltd., that the proposed increase of the capital stock of that corporation has been postponed for a time.

The Idaho mine of the Dominion Copper Co. is on the shipping list again this week, with a record of 512 tons. While the large central power plant has been under installation at the Idaho, little or no ore has been sent out for months, but from now on there is likely to be more activity at what is considered to be one of the best mines of the company.

A special meeting of the shareholders of the Morrison Mines, Ltd., owning the Morrison mine, Deadwood camp, is called for next monday, to formally transfer the assets of the company to the Dominion Copper Co. The latter company already owns the shares of the company, and the meeting is more in the way of making a merger of the companies, so that it will not be necessary to continue the life of the Morrison company.

It is understood that the bond on the Riverside, the Perkins mining property west of Midway, has been reduced from $60,000 to $15,000 by the official liquidator of the estate, A. L. Sutton, the purchasers being P. J. Dermody and associates, who did not care to continue work under the bond at the former price. The statement is also made that the heirs of Benjamin Perkins will try to set aside the bond entered into by the liquidator.

PHOENIX MEN REACHING OUT

Big Deal Pending in Copper Camp

Heavy Interests May Take Hold of 11 Claims.

It is no new thing for those residing in Phoenix, or having extensive interests here, to reach out into the other fields of effort in the mining and other lines, and again be rewarded by having success perch upon their banners. This was first shown by those interested in the Granby Consolidated. J. P. Graves, of that company, is making a success of his traction enterprises in and around Spokane. S. C. H. C. Miner, A. C. Flumerfelt, and H. N. Galer, also at one time leading men of the Granby, are now making a success of their coal mines at Coleman, Alberta. G. W. Rumberger, the father of Phoenix, has done well at Cobalt, and is sure to make his Regina investments profitable. J. L. Martin is doing well thus far in the Coeur d'Alenes. The Skylark Development Co., owning the mine of the same name, has done remarkably well with that property—and the men behind it are nearly all Phoenicians. The Cariboo-McKinney Lessees—Phoenix men, every one—have with full faith, taken hold of that once-famous, but later abandoned, Camp McKinney dividend payer, with every prospect of making it a profitable undertaking.

And, once again, a Phoenician is to the front with a mining proposition that means much to the Boundary, when carried to its fruition. Knowing that one of the highest grade copper districts of the Boundary is what is known as Copper camp, Dr. R. B. Boucher, when he went down to Vancouver a few weeks ago, took with him options or bonds on a group of eleven of the best claims in that camp, which immediately adjoin the King Solomon and Big Copper mines, properties of great merit and high values.

The doctor, who is connected also with some of the enterprises above named, has succeeded in interesting a group of the strongest capitalists in British Columbia in the matter, and in a week or two representatives will be on the ground to make a thorough examination of the properties. If the claims "stand up" under fire, as it were, there is no doubt whatever of the options being exercised. In that case, there will immediately be great activity in Copper camp, and another large addition to Boundary's payroll and ore production.

At present nothing is given out as to the identity of the new syndicate, but there is ample assurance that it has extensive resources, and can even build a large smelter, should the properties eventually warrant it—which is fully anticipated by those who know them best.

M. L. Jewell, representing the American Type Founders Co. of Vancouver, was in the city Monday.

W. D. Lawson, who has been accountant at the local branch of the Eastern Townships Bank, and was expecting shortly to go east, having been transferred to Montreal, left suddenly Monday, on receipt of telegram to the effect that his father, who resides at Toronto, is very low.

Lead, $6.00 to $6.10.

MARCH PAY UP TO $200,000

For Boundary Miners and Smeltermen

There are Now about 2,000 Men Employed.

The importance that the mining and smelting industry is attaining in the Boundary district is shown by the figures of the March payroll, which took place Wednesday at all the large mines and smelters in the district. It is estimated that over $200,000 was paid in this section in the month's wages to approximately 2,000 men employed in the Boundary mines and smelters.

As the mines and smelters are but just getting into full running order again after the delays of the winter, and as all three smelters expect, with recent enlargements, to treat a greatly increased tonnage of ore, if nothing happens to prevent, by the time summer arrives this payroll will almost inevitably be proportionately increased till it fully reaches the quarter million dollar mark per month.

Monthly wages, as a rule will average up about $100 per month per man in this district, more or less, and the following approximate figures of men employed, and wages paid for March, are on that basis:

	Men.	Payroll.
Granby Co.:		
At mines	525	$52,500
At smelter	350	35,000
B. C. Copper Co.:		
At mines	300	30,000
At smelter	125	12,500
Dominion Copper Co.:		
At mines	350	35,000
At smelter	150	15,000
Snowshoe	75	7,500
High grade mines	200	20,000
Totals	2,075	$207,500

At both mines and smelters the number of men varies from month to month according to requirements, and while the tonnage shipped in the last month has not been as large as is expected for April, because matters had not been gotten into full running shape after the necessitated curtailment of operations in the winter, not a little development work was done in advance—something which all the mine managers have in mind continually, to be able to supply the large tonnage of ore required to keep the smelting works in blast up to capacity.

Nearly $90,000 of the above amount was paid out this week in Phoenix camp alone.

Charles L. Mackenzie, a business man of Colfax, Wash., was a visitor here Thursday.

$350,000 FOR DEVELOPMENT

Phoenix Amalgamated Getting Active.

Strong Eastern Syndicate Is Taking Large Interest.

Boundary holders of shares of the Phoenix Amalgamated Copper Mines, Ltd., which owns the War Eagle group in this camp, have recently received an important notice from the head office of the company, at Sherbrooke, Quebec, indicating that there is every probability of operations being started at the company's mines within the next month or two.

The company has made arrangements with strong Boston and New York capitalists to finance the development, the plan being substantially as follows:

The company has 500,000 shares of par value of $10 each, of which amount 200,000 shares are now in the treasury. An agreement has been made for the sale of these treasury shares at $1.75 per share, giving a cash development fund of $350,000. Of this amount the syndicate agrees to pay $45,000 within 40 days after the entire capital stock is deposited in the Eastern Townships Bank at Sherbrooke, Quebec, and the other $305,000 from time to time during the progress of the work on the property of the company. In addition to this, the syndicate also takes an option on 200,000 shares of the individual stock at $1.50 per share.

It is understood that F. P. Buck, the president of the Phoenix Amalgamated, intends to visit the Boundary before the end of April, for the purpose of arranging for the beginning of operations on the property of the company, which consists of 10 claims, 210 acres, immediately adjoining the Granby mines on the south.

Boundary Custom Receipts.

R. R. Gilpin, customs officer at Grand Forks, makes the following detailed report of the customs receipts at the various sub-customs offices, as reported for the month of March:

Greenwood	$5,774.17
Grand Forks	2,351.68
Phoenix	889.42
Midway	561.63
Osoyoos	68.76
Cascade	55.06
Sidley	33.70
Carson	14.48
Keremeos	4.00
Total	$9,752.90

Last Saturday Vancouver was 21 years of age, and the price of realty there did not stop going up, either, on that account.

The present session of the Dominion parliament will be notable for the amount of dirty linen washed, if for nothing else.

Down at Victoria, while the three lonely Socialists cut but little figure when it comes to a vote, yet they seem to make themselves heard now and again—even if it is only by casting their votes with the Liberals.

And now we are told that the Grand Trunk Pacific people have stopped surveys and all other operations at Prince Rupert, the much advertised Pacific terminus of the new line. It is safe to say that another hold-up game of some sort will be sprung some fine day.

Copper prices have not been increasing of late in the markets of the world, but rather settling somewhat. However, there is reason to think they will remain at a satisfactory figure for some time to come, and thus be encouraging to copper miners everywhere.

The Vancouver World proudly states that it printed 2,985 columns of "clean" advertising during the month of March. As the World is not particular what business it puts in the clean class, it probably included the ad of the British-American Copper Mines and Smelter Co. in the lot.

Little Willie, from the Yukon, according to the press reports, has had a bunch of fat positions offered him since the electors of Vancouver turned him down so hard last February, but so far he denies the soft impeachments. However, the doughty ex-commissioner from the icy north will land something worth while yet, if he keeps at it long enough.

Rossland is probably unique among the municipalities of the province in having large mines within the city limits. For some time the city fathers of that place have endeavored to secure a portion of the two per cent mineral tax collected from Rossland mines, and at last have been successful. The government has decided to give Rossland $2,500 of this tax, and now the leader of the opposition, J. A. Macdonald, is not satisfied with it. But then Mr. Macdonald must needs be captious at anything the government does.

Things are certainly in an unsettled state in the Crow's Nest Pass coal fields, where the contracts between the coal companies and miners expired April 1st. The long session of the operators and miners at Calgary came to naught, and as a consequence there is unrest in the coal regions. It is most earnestly to be hoped, for the sake of the far reaching influence of a strike of the coal miners, that a basis for agreement will yet be found.

The British-American Copper Mines & Smelter Co., of Cleveland, Ohio, have raised the price of the dollar stock from 25 cents to 30 cents per share—and nervily tell present holders of shares that their holdings have been increased in value 20 per cent. They now print a fac-simile letter from Claudet & Wynne, engineers, of Rossland, in support of their outlandish statements regarding the wildcats, which they have not even a crown grant to; but a close reading of the report does not bear out the claims made. All is fish, evidently, that comes to their net.

Premier Laurier has sailed for London, to lay the result of the conference of provincial premiers anent better terms before the colonial secretary, and it looks as though the Grit government proposed to make an attempt to force the moiety on British Columbia. It is just possible, however, that something may be doing when Premier McBride, of British Columbia, presents the side of this province in that matter. This province never has had justice in this matter from Ottawa, and the Liberals will not put themselves out to give us justice.

The recent settlement of the threatened strike of the railway trainmen, which would have involved all roads west of Chicago, should be a source of satisfaction to every person of the hundreds of thousands who would have been affected by such a wholesale tie-up. It also shows what can be accomplished when men, employers and employees get together, determined to find some common ground for agreement regarding their relations to each other. The men did not get all they were after, and the employers did not concede all that was asked of them, and yet both sides came out of the protracted conferences with some satisfaction.

AND FOR LADIES, TOO.

When the Dealer Does Not Have Them Send for a Catalogue.

There are a few stores among the 335 Slater shoe agencies where the Slater women's shoe cannot be bought. In such cases the lady who desires the incomparable shoe may easily get it by sending direct to the Slater Shoe Company, Montreal, for a catalogue. All sizes and widths are made in a hundred of the best styles.

The same fine workmanship and cultured design is evidenced in the finish of the ladies' shoe as that which has made the name "Slater" a synonym for fine footwear. The Slater shoe for men was first perfected, but the Slater shoe for ladies has been on the market for years, and each year grows wider its circle of admirers.—Hunter-Kendrick Co., Ltd., Phoenix.

If you want anything in staticnery a little better than you can get elsewhere, get some of the steel die embossed stationery at the Pioneer office. We make a specialty of furnishing goods that the average printing office is unable to give you.

Whooping Cough.

I have used Chamberlain's Cough Remedy in my family in cases of whooping cough, and want to tell you that it is the best medicine I have ever used.—W. F. Gatson, Posco, Ga. This remedy is safe and sure. For sale by all druggists.

B. C. MINING

Excavations for the erection of the 300-ton concentraror at the Blue Bell mine, on Kootenay lake, have already begun.

A man from the Okanogan claims to have discovered diamonds in that district; one stone is alleged to be worth $15,000.

Nelson will have three big mines in its vicinity, operating with large forces this season, the Ymir, La Plata and Queen Victoria.

The now famous Star-White mining suit, which has tied up one of the best Slocan mines, the Slocan Star, is up once again for trial at Victoria.

Seven placer claims were staked in the heart of the residence district of Vancouver last week, one nugget being found valued at $15. A drain digger made the first find.

The Old Dominion group, which lies on Coal Hill, east of the Iron Mask, near Kamloops, has been bonded to Glasgow parties, who have also taken an option on the Python group.

The Canadian Geological Survey will pay further attention to the Similkameen this year. During the coming summer Chas. Camsell, who spent last year on the Upper Similkameen, will make a careful study of Camp Hedley.

Macdonell, Gzowski & Co. who have the million-dollar contract for the fifteen-mile hydraulic ditch for the Cariboo Gold Mining Company, are now ready to go on with that work as soon as the snow goes off in the mountains.

Throughout the Slocan and Ainsworth to the Lardeau, the belief in a good year is growing stronger. In Sheep Creek valley many important deals are under negotiation, the closing of any one of which will be a great stimulus to the district.

The Marble Bay copper mine on Texada Island, has been closed down as a result of a strike of the miners. Alexander Grant, the manager, says there is no telling when operations will be resumed. The strike occurred as a result of a refusal of the owners to accede to a demand from the miners for increased wages.

A Woman Tells How to Relieve Rheumatic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—Mrs Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

Weary Willie on Socialism.

BY EARLE HOOKER EATON.

A socialist, a socialist, that's what I pine to be,
With lodgings at the Waldorf while I set the pee-pul free,
With motor cars that do a mile in sixty seconds flat,
In which to run the errands of the pro-le-ta-ri-at;
With private secretaries and a valet at my side,
To help me as I toil to bring about the Grand Divide.
Sassiety is to the bad, and things is getting rank;
I want to be a socialist with millions in the bank!

I want to rise at ten o'clock and slave away till noon,
For work—I never done a stroke—"is man's most precious boon;"
And when I've sheared the coupons from a peck o' bonds or so,
I'll put in all the time that's left to give the poor a show.
There's Happy Jack and 'Frisco Pete—they've often said to me
That wealth was not divided up the way it orter be,
And I am for a divvy, though the kickers call me crank,
I want to be a socialist with millions in the bank!

I want a quiet summer home to rest in when it's hot;
A bungle-oh at Lenox er a humble Newport cot,
And when the blamed reporters come, with shy, reluctant air,
I'll tell 'em how poor father made more dough than was his share;
I'll tell how he left the coin to me one tearful day,
And how—not yet, but soon, you know—I'll give it all away.
So when the job is open, here's my application blank,—
I want to be a socialist with millions in the bank!

Who is a Mining Engineer?

Of late the mining press has devoted considerable space to the discussion of this subject. While this discussion was participated in by competent engineers and laymen throughout the world, no definite conclusion as to what or what did not constitute the necessary essentials or qualifications of a mining engineer was reached. The result was expected, and therefore not disappointing. Not with a view of a revival of this discussion, but rather as an interesting answer bearing on this query, we reprint the statement of Mr. George F. Taylor, M.E., made in a reply to the question asked in a Nevada City (California) court, "What constitutes a mining expert?" His reply was: "A thorough knowledge of chemistry, assaying, geology, mathematics, surveying, the connaisance of several languages, and of law." The examining counsel appears to have been perfectly satisfied with this answer.—Mining Reporter.

Suffered for Five Years with Kidney and Liver Trouble.

"I suffered for five years with kidney and liver trouble, which caused severe pains across the back and a blinding headache. I had dyspepsia and was so constipated that I could not move my bowels without a cathartic. I was cured by Chamberlain's Stomach and Liver Tablets, and have been well now for six months," says Mr. Arthur S. Strickland, of Chattanooga, Tenn. For sale by all druggists.

Printing That Counts

A creditable job of printing on the stationery you use, is like a good suit of clothes when one is doing business—first impressions count.

If you use a rubber stamp on your letter heads or envelopes, you will be put down as of the rubber stamp calibre. If you are a business man, and use no printed stationery, it is natural to suppose that your business is not of sufficient importance to require it, and your credit likewise.

If you wish Modern Stationery, gotten up by competent workmen, worked on the best of stock, imported or domestic—stationery that does not have the earmarks of the Cheap John printery, we can furnish it from the only print shop in the Boundary operated by electricity.

We know that business men of Phoenix have sent to Spokane, Chicago, Detroit, Hamilton, St. Louis, Omaha and other places, in the past, for printing that could have been done right here—and probably in better style. We'd charge a little more, of course, just as the merchant must charge more than Cheap John Tim, of Toronto—and its worth a little more. Besides, if you spend your dollars here for printing, you have a chance to get them back some day through the Pioneer and its employees. If you spend them in the East, you'll never see them again. We have print shop facilities that no other office in this section possesses. Come and see us.

CYANIDE PLANT FOR NAPOLEON

B.C. Copper Co. May Install It.

According to Report, to Spend $150,000 to $200,000.

It has been an open secret for some time that one of the best mines owned by the B. C. Copper Co. is the Napoleon, located five miles from Marcus, Wash., near Boyd's station on the Great Northern. While its ores have been used at the smelter largely for their sulphur contents, the gold values have gradually increased in the last year, and they are now an important constituent. The following from the Spokane Chronicle of a recent date, is interesting in this connection, especi ally if the report is reliable:

It is reliably reported that the B.C. Copper Company will install a cyanide plant with a daily capacity of 500 tons of ore at the Napoleon mine near the Kettle river, in the Pierre Lake district. The huge plant, with other improvements that will be made this summer, will cost from $150,000 to $200,000.

The Napoleon group, which consists of several claims, is two miles from Boyd's station, on the Great Northern railway. The big plant will handle ore from a big overflow dyke which shows on the surface for a width of 500 feet, and a length of 1000 feet. The ore, an oxide of iron, averages $9 a ton in gold, and will be mined with a steam shovel on a quarrying plan. The de posit has been proved to a depth of 175 feet.

Self-feeding ore bunkers will be installed, and a gravity car system will be built to carry the ore from the steam shovel to the ore bunkers From the bunkers an aerial tramway one mile long is being built to take the ore to the end of a half-mile spur, which the Great Northern will build from Boyd's station.

The mine has been shipping a large tonnage to the B. C. Smelter for the last two years. At present it is equip ped with a five drill compressor, which will be enlarged to a capacity of 10 drills. The big cyanide plant will be at the river end of the half-mile railway spur.

Cured of Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn, had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel all night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists.

Ore Tonnage for Southeast Kootenay.

The following are the reported ore shipments and smelter receipts in Southeastern British Columbia districts for the week ending April 6, and the year to date, in tons.

'ALL GOOD THINGS

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work: it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for.

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

FREE—"A Test in Pronunciation," instructive and entertaining for the whole family. Also illustrated pamphlet.

AMERICAN OFFICERS OF HIGH RANK ENDORSE AMERICAN REMEDY, PE-RU-NA.

Twenty-Eight Army Generals Send Letters of Endorsement

To Dr. Hartman, the Inventor of Pe-ru-na.

No other catarrh remedy in the world has received such unstinted eulogy from so many renowned statesmen and military men as Peruna.

Gen. O'Beirne of Washington, D. C., Writes: "As many of my friends and acquaintances have successfully used your Peruna as a catarrh cure, I feel that it is an effective remedy, and I recommend it as such to those suffering from that disease as a most hopeful source of relief."—James R. O'Beirne, 200 Broadway, Washington, D. C.

General S. S. Yoder of Ohio, Writes: "I have found Peruna to be a wonderful remedy. I only used it for a short time and am thoroughly satisfied as to its merits."—S. S. Yoder, Washington, D. C.

Brigadier-General Kirby Writes: "I can recommend Peruna to all those who are afflicted with catarrh."—D. T. Kirby, Washington, D. C.

Brigadier-General King of Confederate Army, Writes: "I unhesitatingly state that I am convinced Peruna is a medicine that will effect all the cures that are claimed for its use."—J. Floyd King, Washington, D. C.

General Smalls, Beaufort, S. C., Writes: "I have used Peruna for catarrhal trouble and find it beneficial and to be all that it promises, and freely give it my unqualified recommendation."—Robert Smalls.

General Abbott of Washington, D. C., Writes: "I am fully convinced that your remedy Peruna is an excellent tonic. Many of my friends have used it with the most beneficial results for coughs, colds and catarrhal trouble."—Ira C. Abbott, 906 M St., N. W., Washington, D. C.

Captain Yarnell of Washington, D. C., Writes: "Your medicine, Peruna, I believe to be the best medicine for catarrh on the market. I have taken only a small amount, and can see very beneficial results."—W. G. Yarnell, 2322 Lincoln street, N. E., Washington, D. C.

General McBride of U. S. A., Writes: "I have no hesitation in recommending Peruna to all persons who are afflicted with catarrhal troubles."—J. D. McBride, 450 Pennsylvania Ave., N. W., Washington, D. C.

General Noske of G. V. U., Writes: "I commend Peruna to those who are troubled with colds, producing catarrh, as a most efficacious cure and as a good general tonic."—Chas. F. Noske, 213 B St., N. W., Washington, D. C.

General Erwin's Recommend. "Many of my friends have used Peruna as a dyspepsia remedy with the most beneficial results."—John B. Erwin, Washington, D. C.

Brig. General Schell Benefited. "Peruna is indeed a wonderful tonic, and for coughs and colds I know of nothing better."—F. M. Schell, Washington, D. C.

General Duffield of the Union Army, Writes: "I have used Peruna in my family and have found it a valuable medicine, and take pleasure in recommending it to all who suffer from catarrh of the stomach or who require a tonic of efficiency."—The Cairo, Washington, D. C.

General Butler of South Carolina, Writes: "I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."—M. C. Butler.

Gen. Powell, Hecker Post No. 443, Writes: "After using one bottle of Peruna I became convinced of its curative qualities, and continued its use to date. All symptoms of catarrh have disappeared, yet I continue its moderate use as a preventive, and an old man's tonic."—W. H. Powell, Belleville, Ill.

Gen. Sebring of the Confederate Army, Writes: "I can cheerfully recommend your valuable remedy Peruna as a very excellent tonic, and also good for coughs, colds, catarrh and general debility."—W. H. Sebring, 133 W. 4th St., Jacksonville, Fla.

General Payne of Washington, D. C., Writes: "I join with my comrades in recommending Peruna to my friends as an invigorating tonic to build up the system."—Eugene B. Payne, 407 4th St., N. W., Washington, D. C.

General Talley of Pa. Vol. U. S. A., Writes: "Your Peruna has been used by me and my friends as a relief for catarrhal troubles with the most beneficial results. I am so convinced of the efficacy of Peruna that I do not hesitate to give it my recommendation."—Wm. Cooper Talley, 718 D St., N. E., Washington, D. C.

General Bigelow Cured. Gen. J. G. Bigelow, 151 C St., N. W., Washington, D. C., writes:

"Peruna has made me well and it has given me more than ordinary strength and spirit for work."—J. G. Bigelow.

General Chase, Asst. Adj. Gen'l G. A. R., Writes: "The excellence of Peruna as a cure or relief for catarrhal disturbances is well established. Many of my friends have been benefited by its use."—B. F. Chase, 28 Harrison St., Anacostia, D. C.

General O'Connor of U. V. Legions, Writes: "If you are suffering from catarrh or physical debility, immediately commence the use of Peruna. It has been of the greatest benefit and service to many of my friends."—Dennis O'Connor, 738 32nd St., N. W., Washington, D. C.

Gen. Wright of the Confederate Army, Writes: "I take pleasure in recommending Peruna. It is a remarkable medicine and should be used by persons who are in need of a good tonic and by sufferers from catarrh."—Marcus Wright, 1721 Corcoran St., Washington, D. C.

Gen. Hawley of Washington, D. C., Writes: "I have used Peruna and find it very beneficial for kidney trouble and especially good for coughs, colds and catarrhal troubles."—A. F. Hawley.

Brig. Gen. Cook, of Washington, D. C., Writes: "As a number of my friends and acquaintances have used Peruna as a catarrh cure with good results, and as I am now using it beneficially, I can safely recommend its use to persons suffering from this disorder."—Geo. W. Cook.

Gen. Middleton of Washington, D. C., Writes: "Your preparation of Peruna as a cure for catarrh as well as a tonic deserves the gratitude of those afflicted with that disease as well as physical prostration. I have been much benefited in every respect in various ways, and I feel it a duty to recommend its usefulness to my fellow citizens."—John Middleton.

General Sypher of Washington, D. C., Writes: "After suffering for years with neuralgia, I was persuaded by a friend to use your remedy, Peruna, and after giving it a fair and thorough trial, I can now cheerfully recommend Peruna to any one who is suffering with neuralgia. It is also an excellent tonic."—J. H. Sypher.

Brig. Gen. Gibson of Washington, D.C., Writes: "Peruna is not only a remedy for colds and catarrh, but also an admirable tonic and should be in every household. I commend its possession and use to all persons. Am using it myself with good results."—A. G. Gibson.

Gen. Henderson of Washington, D. C., Writes: "Peruna has been used in my family with the very best results, and I take pleasure in recommending your valuable remedy to my friends as a fine tonic and effective cure for catarrh."

Maj. Gen. Armstrong of Washington, D. C., Writes: "As many of my old comrades and friends have been greatly benefited by the use of Peruna for catarrhal troubles, I heartily join in their endorsement of its curative qualities."—F. C. Armstrong.

General Pettys of the U. V. U., Writes: "It affords me pleasure to say that some of my patients who have used Peruna as a tonic and also for catarrhal troubles, have been greatly benefited by the same. I am satisfied of the excellence of the same."—Charles Pettys.

General Legg of Washington, D. C., Writes: "I take pleasure in endorsing the many recommendations I have heard and read of Peruna, because of having had knowledge of the truth of so many of them.

"We always tell our sick and ailing friends of the remedies that we have learned, from experience, were good for us when ailing in the same way, and we do it as a duty we feel that we owe them.

"Why is it any the less our duty to advise all the people we can when we know of a good and comparatively inexpensive remedy that makes many cures, and benefits in almost all cases?

"My own little personal experience of being relieved of deafness, caused by a siege of catarrh, warrants me in advising all the afflicted to just try Peruna."—A. M. Legg.

Col. Shatswell of Washington, D C., Writes: "I commend Peruna as a most agreeable as well as effective medicine. Catarrh and catarrhal colds are checked and generally cured by a judicious use of it. It is a good promoter of digestion and is an excellent remedy for a weak stomach. It tones up the appetite and is not at all disagreeable to take."—Nathaniel Shatswell.

Captain Jackson of Washington, D. C., Writes: "I am eighty-three years old, a veteran of the Black Hawk, Mexican and Civil Wars. Some years ago I was seriously affected with catarrh of the stomach. After the use of three bottles of Peruna every appearance of my complaint was removed."

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. All correspondence held confidential.

PROVINCIAL.

Cranbrook will shortly have a terra cotta and pressed brick works.

Ratepayers of Nelson are to vote on $60,000 loan for a new school building.

Premier McBride gave a banquet to the members of the press gallery recently at Victoria.

The C. P. R.'s new steamer Okanagan, being built on the lake of the same name, will be launched April 11th.

There is a split in the provincial Socialist party, a section under the leadership of Ernest Burns of Vancouver, adopting what they call broader and more practical principles.

The Douglas Lake Cattle Company, owners of the best known and perhaps the most valuable cattle and horse ranch in British Columbia, is being taken over by a big English syndicate which is incorporated under the name of The Canada Estates, Limited, with a capital of $400,000.

The election of Benchers of the Law Society of British Columbia last week resulted as follows: E. V. Bodwell, K. C., E. P. Davis, K. C., J. A. Macdonald, K. C., Sir Charles Hibbert Tupper, K.C., R. S. Lennie, K.C., C. E. Pooley, K.C., G. E. Courbould, K.C., H. Dallas Helmeken, K.C., and L. G. McPhillips, K.C.

Nervous Prostration

IT IS WORRY THAT KILLS, NOT WORK

Work without worry usually tends to prolong life. On the other hand, worry, with or without work, is fatal, because it uses up what the Doctors call the "Lecithin," a phosphorized fat which is the chief constituent of the brain and nervous system—a waste which, if not stayed in time, means complete nervous wreck. The evident moral is "don't worry"—advice easy to give, and in these days of stress and strain practically impossible to take. The alternative is: find some way of replacing the wasted Lecithin—the phosphorized fat. This absolutely essential element will be found in its most perfect, palatable and assimilable form in

FERROL

an emulsion of Cod Liver Oil and Phosphorus (phosphorized fat) together with Iron, the recognized blood builder—making FERROL the ideal nutrient it claims to be.

For the prevention or treatment of nervous prostration FERROL is absolutely unequalled—it is safe, sure and speedy.

The formula of FERROL is freely exposed, consequently

COLUMBIAN COLLEGE.

Founded 1892—Incorporated 1893.

NEW WESTMINSTER, B.C.

Provides a Christian home for students of both sexes at moderate rates. Has a preparatory class for junior students, doing grade public school work. Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a Practical Business Course and gives Diplomas. Gives a liberal education in its Collegiate Course and in the Ladies' Course for M.E.L. and M.L.A. In University work, can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in lut affiliation.

For fuller information and terms write Rev. W. J. Sipperell, B.A., B.D, Principal; or Rev. J. P. Bowell, Bursar.

THE COPPER HANDBOOK

(New Edition Issued November 15, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper.

The mining man needs the book for the facts it gives him about mines, mining and metal. The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

Drop in English Copper.

The Montreal Herald in its issue of Thursday, March 28th, says: Great excitement has characterized the English copper market, the most significant feature being the sensational drop of £8 in the price of best selections. This makes a drop of £10 in two days.

To the initiated it is well-known that the price of speculative warrants on the London market govern sentiment in Europe, and indirectly, if not directly, cause a suspension of trade or renewed buying by European consumers. While prices of refined metal do not follow warrants closely they sympathize more or less acutely with the ups and downs of warrants. It should be noted, too, that "best selections" of English copper are not warrants, and are about equivalent to American casting grades.

Business in the local market is practically suspended, there being but very little demand, and on the other hand little pressure to sell, but at the same time electrolytic was offered at 25c for nearby delivery, and futures would be difficult to sell at 24½c. Some interests reported it would be difficult to make any appreciable sales for delivery beyond June, even at 24c.

It is believed that only relatively small quantities of electrolytic or lake copper will be available for shipment within the next six weeks, but there are some million pound lots that could be bought. In exceptional instances some copper has been sold for delivery beyond June, but these sales have been inappreciable compared with the current output.

For the month of March Butte's copper production was 30,000,000 pounds.

On May 1st, the National Copper Bank will start business in New York, with deposits of about $20,000,000.

According to its last annual report, the Utah Consolidated made its copper last year at a cost of 4.02 cents per pound—thus holding the record of the world in that particular.

The production of copper in the year 1906 as compiled by Aaron Hirsch & Son of Germany amounted to 736,711 metric tons against 697,845 in 1905, an increase of 5.6%.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Don't forget Boyle is the Druggist.

Dr. Mathison, dentist.

See the ad of James in this issue of the Pioneer.

Hannam's milk suffers no addition or subtraction.

Winter still tries hard to linger in the lap of spring.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C.

Before buying your furniture elsewhere, call on R. J. Gardner.

Prescriptions properly prepared by Boyle, the Druggist.

Burton's and Bass' Ale on draft ta the Hotel Brooklyn.

Woodchoppers wanted. Inquire of J. J. Bassett, Hartford Junction.

See Miss McDonald, milliner, for sewing machines and supplies.

This evening a number of friends of W. R. Williams, police magistrate, will tender him a banquet at the Brooklyn hotel, it being his intention to go to Regina shortly.

Murdock McIntyre has stacked up several hundred cords of wood in town, for delivery while the roads are practically impassible for either wagons or sleighs in the timber.

Joe Heinrich, the Granby miner, who met and successfully defeated all comers here in wrestling matches, was recently matched to throw five men in one match at Ritzville, Wash.

In connection with the series, "Characters that have Moulded the Centuries," the subject at the Methodist Church on Sunday will be "The Tranquil End of a Purposeful Life."

Robert Bird Kerr, for years a resident of Phoenix, and then at Oakland, Cal., and Victoria, has been making a trip through the Okanagan lake district, with a view to locating in that fast growing section.

A fire alarm last Saturday morning early brought the fire team to the Summit hotel corner in short time. Some hay was found burning underneath the store of E. A. Black, but was quickly extinguished.

Sunday evening Mrs P. L. McKelvey entertained 15 or 20 friends at the Dominion house, music being furnished by Harry James and Charles King, and ice cream being served.

Having sold the business of the Royal Billiard Parlors and Bowling Alleys to Cosgrove & McAstoker, all accounts due to March 15, 1907, are due and payable to the undersigned

R. H. KARATOFSKY.

"The Jolly American Tramp," which was billed to appear here last night at the opera house, was forced to cancel its date here, being behind in filling the dates already billed. So Manager Morrison, of the opera house, was advised on Tuesday.

Tuesday evening a pleasant event took place at the residence of Rev. R. A. Heath, rector of St. John's Anglican church, when Mr. and Mrs. Heath were met by the members of the congregation, it being the 25th anniversary of the marriage. C. L. Thomber, on behalf of the congregation, made an address and a substantial silver presentation, to which Mr. Heath made suitable response.

Some temporary and much needed repairs were done recently to the wagon road near the Snowshoe mine, but it is hoped the government will early this spring change the road so that it will avoid the mining operations at the Snowshoe, Rawhide, Gold Drop and Curlew mines. As it is now, the many crossings are more or less dangerous for teamsters, to say nothing of being a great annoyance to the operation of the mines themselves.

Option on Mining Railway.

The Spokesman-Review, of Spokane, states that J. P. Graves has taken an option on all the outstanding stock of the Chelan Transportation and Smelting Co., amounting to 420,000 shares. The company has spent some $65,000 in grading a railway from Lake Chelan, in Washington, to a group of claims called the Holden, in that district.

Mr. Graves and associates are now developing this Holden group of copper claims under a bond, and it is understood that if the bond on the one company is taken up that on the other will also be exercised, as the mines need the proposed railway of 13 miles to get the ore out of the Cascade mountains. Development of the mines is being carried on in charge of W. Y. Williams, formerly superintendent of the Granby mines in Phoenix camp, and it is understood that the development is turning out satisfactorily.

Boyle, the Druggist.

Dr. Mathison, dentist, Bank Block, April 10th to 14th, inclusive.

Sewing machines to rent at $3 per month. See Miss McDonald, milliner.

Encycloypaedia Britannica, 26 vols., for sale at less than half cost. Inquire at Pioneer office.

There will be a sale of new and up-to date millinery, in the Delahay Block, from the 6th of April till the 15th.

A cash carrier system has been installed in the local store of the Hunter-Kendrick Co., Ltd.

"Peck's Bad Boy" is booked to appear at the Phoenix opera house on the evening of May 27.

E. A. Black has been officially appointed timekeeper for the C.P.R. in the Boundary, Geo. E. Dey having resigned.

The city fire wagon, which was badly used in a collision in a runaway last fall, has been put in shape, and is now in commission once more.

The sale held by the Ladies' Guild of St. John's Church of England on Thursday, was the success that was anticipated. The dance in the evening was also well attended, and excellent music was furnished by the James and Biner orchestra. The net results were about $200.

Among the Railway Men.

Construction is being resumed on the Kootenay Central, near Golden, on a limited scale.

W. A. Ross has succeeded S. Gardner Yerkes of Seattle, as assistant general passenger agent of the Great Northern.

The opening of the new Nicola branch of the C.P.R. to the regular passenger traffic, scheduled for last week Monday, was delayed by land slides.

T. J. Gallagher, who is constructing the Great Northern Granby Victoria shaft spur, started this week on the Myncaster spur, for the accommodation of shippers in that locality.

From indications, it does not now seem likely that the Great Northern will lay steel on the V. V. & E extension further than Keremeos this year, probably largely due to shortage of labor. The tracklayers are now above Nighthawk.

According to the latest reports, not a man is now employed by the Grand Trunk Pacific at Prince Rupert, the Pacific terminal of the line, even the Japs having been let out. Another report is that the townsite will not be on the market before next spring.

Sunday morning's train from Oroville on the Great Northern struck a boulder near Myncaster, and put it out of business for a day or two, the engine being turned half way around. Engineer Jeff. Irby jumped and sustained a broken leg. South bound passengers that day did not leave Grand Forks till 6 p.m., nor reach Spokane till after midnight.

Contractor Tierney started work last Monday on the additional trackage facilities for the Dominion Copper Co.'s Rawhide mine in Phoenix camp, with about 35 men. In a week or two this force will be doubled by Foreman Maglio. When the work is completed, this mine will be in good shape for the increased ore shipments required by the additional blast furnace being installed at the company's Boundary Falls smelting works.

Uncle Jim Hill and Uncle Tom Shaughnessy vied with each other in getting their respective passenger trains late into Phoenix Thursday. Uncle Tom's train was delayed at Fisherman creek by one of Uncle Jim's ore dumps, which the former was transporting, getting off the track, and Uncle Jim himself had his usual amount of troubles on the Phoenix hill. Both C. P. R. and G. N. trains reached Phoenix about 9 p.m.

Boundary Side Lights

A bread war is reported to be on between the bakers of Greenwood.

Greenwood's new fire alarm system is now in working order, with eight alarm boxes.

Pay day, April 10th, was selected by the Greenwood city council as the date for the annual back yard assessments to be done in that burg.

A public library is proposed by the Grand Forks Athletic Association, and the aid of the city council for the project has been asked for.

The new city and railway bridges over Kettle river at Grand Forks are expected to be completed by the contractors in a couple of weeks.

Greenwood's board of trade did a good thing in deciding to issue a pamphlet, giving in condensed form all the mining and other data of the district.

A celebration by the Grand Forks fire department is announced for May 24th at the race track, and Greenwood Miners' Union No. 22 gives it out that it will celebrate Labor Day this year.

R. T. Lowery, owner of the Greenwood Ledge, has been nominated by the Slocan Mining Review for the position of King's Printer at Victoria, soon to be vacated by the super annuation of Richard Wolfenden.

If you haven't been vaccinated, or cannot produce a physician's certificate along that line, it will be done for you nowadays when you cross the line from Uncle Sam's domain into British Columbia. Small pox on the other side is the cause.

This week the spring thaw set in in earnest, and the creeks and rivers of the Boundary will soon be bank full. There are said to be several feet of snow still in the mountains all through this section, and some freshets are almost a certainty.

The Kettle River Game and Fish Protective Association has been formed at Greenwood, with the following officials: President, G. B. Taylor; secretary-treasurer, James S. Birnie; executive committee, Messrs McRae, Wright and Boak, with a member each from Midway and Boundary Falls. The initiation fee is $1.

Midway will celebrate the 24th of May this year, as it has done for the last eight or ten years. A fund of some $600 has been raised for prizes for base ball tournament, sports, etc. The Greenwood band will be engaged to furnish the music, and a special train will be run on the C. P. R. for the event. Matters are being arranged this week by the citizens of the town.

Before Acting Manager Beardsley, of the B. C. Copper Co., left Greenwood a few days ago, he was presented with an address by the assembled employees of the smelter, showing the esteem in which he had been held by the men, the address being accompanied by one of the finest travelling cases obtainable, with all the accompaniments. It was a complete surprise to the retiring official.

COMING AND GOING

W. S. Macy spent two or three days from Spokane in camp this week.

G. H. Barnhardt of Nelson, inspector of Snowshoe shipments of ore, was here yesterday.

Isaac A. Dinsmore, provincial constable of Grand Forks, was here Tuesday on official business.

Mrs. R. A. Heath expects to leave for Victoria Monday, to visit with her nephew in that city and recuperate in health.

George E. Cole, office man for the Cariboo-McKinney Lessees, at the Cariboo mine, was a visitor here last Saturday.

Dr. W. Howard Dickson and wife went down to Vancouver last Saturday, the doctor expecting to return today or tomorrow.

Miss Murray and Miss Boffey have resigned from the nursing staff of the Phoenix General Hospital, to take effect May 1st.

J. Stillwell Clute, the veteran inspector of customs, was a recent visitor to the various customs collectors' offices in the Boundary.

P. H. Burnham, district freight and passenger agent of the Great Northern at Grand Forks, was here early in the week, on business bent.

P. W. George and bride returned from Spokane last Sunday night, and have settled down to housekeeping in a cottage on Brooklyn avenue.

A. E. Booth, of Winnipeg, the traveller for a tooth carpentering supply house, was doing business with both the local dentists this week.

Jay P. Graves, general manager of the Granby Consolidated, will leave Spokane early next week for a business trip to New York and other eastern points.

Samuel Newhouse, managing director of the Dominion Copper Co., and president of the Nipissing Mining Co., was expected to sail from Europe this week.

I. Hiibner and wife returned this week from a trip to Spokane, where they went for the benefit of the health of their little daughter, who is much improved.

P. F. Roosa, paymaster for the Dominion Copper Co., was up from Boundary Falls this week, as was also George W. Wooster, treasurer of the Granby Co., up from Grand Forks.

W. H. Jeffrey, M. E., for the last year superintendent of the Crescent mine, has accepted an important position at Cobalt, and left this week with his wife for the great Ontario silver fields.

A. B. W. Hodges, Mrs. Hodges, Miss Marion Hodges and Mrs. Wake Williams, of Grand Forks, attended the dance of the Ladies' Guild of the Anglican church Thursday night, also spending a couple of days in camp.

Joseph L. Martin returned Tuesday from a week's trip to his mining properties in the Coeur d'Alene country. Development is proceeding on both the Brown Metal and Carney groups, not far from Mullan, with encouraging results up to date.

Alex. Miller, of Greenwood, was in the city Wednesday evening, on his way back from a extended trip to Cobalt Mr. Mille has secured some likely interests in Cobalt district, where he says a number of millionaires have been made already.
