The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

LEGISLATIVE LIBRARY Provincial Library APR 28 1914 VICTORIA, B.C.

STANDARD MINE PAYS AN EXTRA DIVIDEND

Company Has Paid Stockholders $200,000 this Year—Paying in all $1,275,000.

The directors of the Standard Silver-Lead Mining company, the Finch-Campbell-Clark corporation, exclusively a Spokane concern, operating the Standard lead-silver property, near Silverton, B.C., at a meeting this week decided to declare an extra dividend of $50,000 in May, doubling the regular monthly disbursment of 2½ cents the share.

March earnings of the company were $80,300, and there was $320,000 in the treasury on April 1. The April disbursement of $50,000 reduced the reserve to $270,000, but it is believed the April earnings will be as great, if not greater, than for March, which will make the treasury fund approximately $350,000 on May 1. The company has paid to stockholders $200,000 to date this year, making the grand total $1,275,000.

Reports received from the mine state that development is being continued on the No. 7 and No. 8 levels, and a new ore shoot has been encountered recently in the No. 5 level, which had been prospected to the No. 4 level. It appears to parallel the vein from which shipments have been coming for a number of months.

Work on the No. 8 level is being confined principally to widening the tunnel previously driven through the Emily Edith claim and preparing the bore for service as a main working tunnel when the ore bodies are opened in it.

Olson-Johnson

Nels Johnson and Miss Mary Olson, both of Phoenix, were married last Saturday at Nelson by Rev. C. W. Corey at the residence of E. Matberg. Mr. and Mrs. Johnson have taken up their residence at Granby place.

The Granby Consolidated Mining, Smelting and Power Company, Ltd.

New York, April 23, 1914.—NOTICE IS HEREBY GIVEN, that an Extraordinary General Meeting of the company will be held at the branch office, No. 52 Broadway, New York City, on Wednesday, May 13th, 1914, at 11 o'clock in the forenoon, for the purpose of authorizing the Directors from time to time at their discretion to raise, borrow and secure the repayments of money for the purposes of the company, at such times, and in such amounts, in such manner, and upon such terms and conditions and all respects as they may determine, provided that the total amount owing by the company in respect of moneys raised or borrowed, otherwise than by issue at its shares of first mortgage, six per cent gold bonds, shall not at any time exceed the sum of three million dollars.

The Register of Transfers will close at 3 p.m. first, and reopen at 10 a.m. May 14th, 1914, by order of the board of directors.

NORTHRUP FOWLER, Secy.

Odd Fellows' Anniversary

Tomorrow, Sunday, April 26th, will mark the 95th anniversay of the founding of the first lodge of the Independent Order of Odd Fellows in America. All members of the order in Phoenix will attend service at the Presbyterian church at 7:30 o'clock in the evening, when a special service will be conducted by Rev. R. J. Munro, the pastor. The Odd Fellows are requested to meet at the lodge room in the Miners' Union building at 6:45 to procure regalia and to march from there to the church in a body.

The mills of Belfast, Ireland, employ nearly 30,000 women.

Insurance Case Settled

All day last Saturday the court room in the city hall was crowded with people listening to the evidence taken in the insurance case being tried before Police Magistrate John Mulligan. This is the case in which Chas. S. Morris, a traveling accident insurance agent had garnisheed several persons in Phoenix for the amount of the first premiums on their policies. The payment of the amounts was contested on the grounds that the agent misrepresented the case to them. They contended that the agent represented to them that in case of their meeting with a fatal accident the premium paid would be $500. After their signing the agreements with this understanding, so they claim, when their policies were issued the amount payable in case of a fatal accident read $100. R. J. Clegg, of Rossland, represented the plaintiff, and A. S. Black, of Greenwood, the defendants. Monday evening Magistrade Mulligan rendered his decision, allowing the plaintiff judgment for $6.75, and charging him with the costs of the case, amounting to $5.

Regardless of the amount the agent stated would be paid by the company in case of death, the fact remained that the men attached their signatures to practically a promissory note, and were liable for the amount, and the only way in which the agent could be dealt with would be to have him charged with obtaining money under false pretenses.

Death of Colin A. Campbell

There was genuine sorrow in Phoenix last Monday when it became known that Colin A. Campbell had passed away at the local hospital that morning after suffering only a few days with appendicitis. He had been a resident of this camp for the past ten years, and was employed continuously at the Granby mine, for some time holding a position as motorman. He was well liked and held in the highest esteem by everyone. Deceased was born at Glencoe, Nova Scotia, 35 years ago. He leaves a wife and three children.

The funeral took place Wednesday morning. The remains were escorted from the undertaking parlors in Phoenix to the Catholic church at Greenwood, where services were held, and interment took place at the Catholic cemetery near that city. The funeral was attended by a large number of people both from Phoenix and Greenwood.

Wednesday Night Dance

A good jolly crowd and the finest kind of dance music, furnished by Chas. McKay and Mrs. C. H. Knight, were the outstanding features of the dance given by Prof. W. B. Marks in the Miners' Union Opera house Wednesday evening. The tango was danced several times as was also the hesitation waltz. Prof. Marks intends leaving in a day or two for Princeton, where he will start a dancing class and also look after some mining interests which he has in that locality.

Chas. Davidson Hurt

Last Tuesday while working around a diamond drill machine at the Granby, Chas. Davidson was quite seriously injured about the head and neck. The collar of the sweater he was wearing caught on the head of a revolving bolt and he was drawn into the machine. His left ear was nearly torn off, and he received some bad cuts and bruises, and will be unable to work for a few days.

Premier Borden stated in the house of commons, Ottawa, Wednesday, that all the necessary precautions to insure the safety of lives and property of Canadians in Mexico would be taken.

B. C. Mining

The Sally mine near Beaverdell shipped 17 carloads of ore this winter.

The Van Roi mine near silverton is again shipping concentrates to the Trail smelter.

Up to the present this year over 100,000 tons of ore have been treated at the smelter at Trail.

The Standard silver-lead mine at Silverton is said to be the most profitable mine in British Columbia.

The B. C. Copper company is considering the leasing of five claims near Oroville, from the 49th Parallel Mining company.

The Standard mine at Silverton has donated a fine set of mineral and rock specimens to the University of Alberta at Edmonton.

Work is to be resumed shortly at the Rambler-Cariboo mine in the Slocan, melting snow now giving sufficient water to operate the compressor and mill machinery.

George Clothier is contemplating opening an assay office in Prince Rupert. Mr. Clothier is one of the best known mining men in the province.

The company owning the Monarch lead-zinc mine, situated near Field on the main line of the C. P. R., appears to be in financial difficulties, a number of men having obtained judgment against it.

The Topsy, Nugget, Tenderfoot and several adjoining claims on Poplar creek have been bonded to Victoria and English investors. Rich gold samples were taken from the surface of the tenderfoot vein when it was discovered several years ago, when the camp had one of the biggest mining booms ever known in the province.

Louis Johnson, manager of the Union mine in Gloucester camp, states that he has received the assurance of Ernest Miller, M. P. P. for Grand Forks, that the wagon road from the northern mining camp to Lynch creek, the nearest railway at present, would be put in first class condition for hauling ore as soon as the weather permits.

A six inch vein of high grade silver ore has been encountered in a crosscut tunnel being driven from the lower workings of the Black Prince mine, near Slocan City, with the object of cutting the Two Friends' vein. The crosscut had been driven 50 feet when the new find was made. It is calculated that about 25 feet more driving is required to reach the vein ahead.

Last week the ore was struck in the east crosscut of the No. 10 level of the Star mine at Sandon. The ledge is about three feet in width, and was run into about 700 feet from the main crosscut, or deep level tunnel. The ore has been drifted on for about fifty feet, and looks promising. The west drift from the deep level has been in ore for some time.—Slocan Record.

At the annual meeting of the shareholders of the Crow's Nest Pass Coal company held at Tornoto recently the report presented showed a balance of $47,456 as the net profit on the year's operations, which was a smaller amount than for the previous years. Some shareholders called attention to the fact that during five years only two dividends had been paid, and those of only one per cent each. They asked that a dividend disbursement be made, but all that the president would do was to promise consideration of their request.

Card of Thanks

I wish to thank all my dear friends who have so kindly helped and sympathized with me in my sorrow for the loss of my beloved husband.

MRS. C. A. CAMPBELL.

Anyox Smelter Working Good

Granby stock has been conspicuously weak the past few days, says the Boston Commercial, probably wholly the result of profit taking sales by those who bought it at much lower prices. This stock, it must be remembered, advanced more than $70, and the first important reaction it had was the one of the past two weeks.

It is understood that Granby's new Hidden Creek smelter is working satisfactorily, or as nearly so as any entirely new plant could be expected to, and that within two or three months the company's output will be double what it has been recently. When this profit taking movement in the stock is over it probably will be a good purchase for a further substantial advance.

Motorcycles and Motor Cars

Business in automobiles and motorcycles continues to flourish in Phoenix. This week a new Ford car was delivered to Valentine Ingram, and three new motorcycles arrived in town. Those who are getting motorcycles were O. D. Bush, of the Brooklyn hotel, Albert Biner, of the Phoenix brewery, and E. A. Black, the jeweler. Biner's machine is an "Indian" and the others are "excelsiors."

Sid Jennings, manager of Morrin, Thompson & Co.'s lower store has purchased an "Exelsior" from E. A. Black.

Dr. H. E. Griffith, the dentist, is purchasing a new Overland car, and it will be brought up from Spokane next week.

C. P. R. Medical Association

At a meeting in Revelstoke, attended by employees and officials of the C. P. R., an association was completed for a medical system on the co-operative plan backed by the company. A board of management was appointed and the body in turn will elect officers. More than 6,000 employees will be eligible for participation in the benefits of the new organization.

DOMINION FINANCES IN SOUND CONDITION

The Year's Budget Is In the Fullest Sense of the term a People's Budget.

The third budget of the Borden government is in every respect and in the fullest sense a people's budget. The story of financial stability of trade expansion, and of the splendid manner in which the Dominion of Canada passed through a year of world wide financial stringency was gratifying to the people of Canada and a lasting credit to the Borden government.

Despite the financial depression of the past year, Hon. Mr. White was able to present, in his speech, a statement which shows that the position of the Dominion was never better, and that the present finance minister has ably and skilfully brought the ship of state safely through a period of commercial difficulty. The revenue for the year was $163,000,000, and the expenditure $126,500.000, leaving a surplus of revenue over and above the amount required for expenditure upon current account of no less than $36,500,000.

There are a number of important features in the finance minister's pronouncement which are of special interest. There is the announcement that the revenues have been and will be in the coming year sufficient to meet all expenditures.

Land for Settlement

Hon. W. R. Ross, minister of lands, has announced the opening for preemption of a number of areas in various parts of British Columbia. On May 1st there in the Cranbrook and Fernie land divisions will be opened to settlers at the offices of the government agents in these places. These tracts aggregate over 10,000 acres, the bulk of which is logged-off land.

Spring Clothing

We beg to announce that we have just received a large consignment of the most up-to-date Spring Clothing; modern styles and the latest patterns. Old friends who have made this their chosen Outfitting Establishment know of the goodness of our Clothes, and they will come to us again this Spring of their own accord. That Yukon Topic

The movement in favor of bringing the Yukon Territory under the supervision of the government of this province is arousing a certain amount of opposition from some irresponsible quarters. The Dawson civic league (whatever that may be) is among the opponents of the suggested change, and recently voiced its sentiments in a broken winded and labored resolution dealing with the matter. One clause of this masterpiece is particularly worthy of attention. It reads as follows:

"Whereas, the laws respecting mining and other matters in British Columbia are different from and wholly unsuited for the Yukon, and would discourage miners, investors and others in this territory."

This is surely a gem or a joke, and the people of this province would like to know what class of mining is now going on in the Yukon that has not had its counterpart for years in British Columbia. If it refers to placer operations, B. C. can point to its northern districts. If it is a case of quartz or coal mining, let us introduce the Dawson civic league to the annual report of the Hon. the Minister of Mines. There is also something to be said in favor of the provincial mining laws in the almost entire absence of litigation dealing with that industry. Scarcely a case is heard in our courts. This, and the oft-repeated assertions of many of the most prominent mining engineers of the United States that the laws governing all kinds of mining in British Columbia are the most liberal and squarest in the world, should do something towards allaying the fears of our friends in the Dawson civic league.

On their own showing, their case exhibits an extraordinary weakness and in spite of the fact that the resolution was moved by a Conservative it undoubtedly betrays the cloven hoof. We may now confidently expect something like the following:

"Whereas, we (a number of political chameleons who have lately allied ourselves with the Conservative party for the purpose of securing our own personal ends) together with a swarm of recent office holders who have been dispossessed of our positions by Governor Black for reasons best known to that gentleman and ourselves; do most strenuously object to any change in the system of government now in vogue in the Yukon Territory; and

"Whereas, we feel certain that this portion of His Majesty's dominions is assured of a 'grand destiny,' if left to govern itself,

"We, the above mentioned disgruntled ones, wrongfully deprived of our 'graft' by the Borden government, do respectfully and humbly pray for the return of those conditions which marked the early period of the Yukon development; and

"Whereas, our share of the said 'graft' did not quite reach the standard set by the early Laurier pioneers, we consider the action of the Conservative government has been ill-advised. We miss the whirl and gaiety of the dance halls, the click of the roulette wheel, the joyous whoop of the half-soaked sourdough, the commercial caresses of of the painted ladies of the underworld, whose dives once furnished the election campaign funds for a Manitoba constituency, and last but not least, the extra pinch from the 'poke' for securing the claims which ought to have been recorded months before we allowed them to be so; and

"Whereas, our feelings are harrowed and our souls grieved by the painful honesty that now surrounds us, and faced as we are with the awful prospect of working for a living (even the janitor has been bounced), we humbly pray that nothing will be done until 1925, when we expect (providing we do not starve to death in the interim) to have another opportunity of working the people."

P. S.—Dear Borden: If you could see your way clear to reinstate only half of us, your anxiety over that $35,000,000 naval gift would be at an end. They would undertake to provide a dreadnaught for the British navy every two years. Of course you will regard this P. S. as strictly sub-rosa, as we have never heard the last of that wretched Brandon affair.

It is easy to be optimistic and laugh at the misfortunes of others if you have none of your own.

The Chinese domestic problem does not bother the people of Phoenix. There has never been a Chink in the camp.

Several real estate transfers have taken place in Phoenix this spring, which is a good healthy sign that business conditions are all right here.

Princeton has three banks, and all of them carry advertisements in the local paper. Phoenix has one bank, but it has never spent a fortune on printers' ink.

Tribute to Cy Warman

Cy Warman, who died in Chicago last week, was a native of Illinois and was born in 1855. Warman had always wanted to run a locomotive, so he went to Colorado and learned the work. For a time he ran an engine on the Union Pacific, and then went to Denver aud worked as a reporter. The poet met Miss Marie Jones. It was she who inspired his verse for "Sweet Marie," a song which afterwards became a great success. The following poem appeared in the Rocky Mountain News some years ago, which Warman had written one day after an especially strenuous "run." It has caused many an old railroader to smile and cry:

WILL THE LIGHTS BE WHITE

Oft when I feel my engine swerve,
As o'er strange rails we fare,
I strain my eye around the curve
For what awaits us there.
When swift and free she carries me
Through yards unknown at night
I look along the line to see
That all the lights are white.

The blue light marks the crippled car.
The green light signals slow;
The red light is a danger light,
The white light, "let her go."
Again the open fields we loam.
And when the night is fair,
I look up in the starry dome
And wonder what's up there.

For who can speak for those who dwell
Behind the curving sky?
No man has ever lived to tell
Just what it means to die.
Swift toward life's terminal I trend,
The run seems short tonight;
God only knows what's at the end—
I hope the lamps are white.

—Cy Warman.

Drew Right Conclusion

"Is that a man or a deer in that thicket?" enquired the hunter.

"I guess it's safe to call it a deer," opined the guide. "If it had been a man he would have taken a shot at us by this time."

Money by any other name would be as hard to get.

GURNEY-OXFORD

Gurney-Oxford Baking Worthy of the Art of a Chef

The average woman abhors having to spend all her time in the kitchen striving to accomplish some new dish in baking. But when she can have a range like the Gurney-Oxford, cooking becomes a pleasure and a fascination because of its consistent assured success.

The heat of the whole range is controlled by one lever, called the Economizer, with remarkable ease and effect.

The oven is entirely surrounded by a perfectly even heat of any degree required for any kind of baking. Pans of biscuits, light rolls, or cakes, all cook evenly with a delicate, golden brown crust without having to be constantly changed around next the heat as in other ranges.

This perfect Gurney-Oxford oven encourages a woman to attempt delicious and unusual recipes of her own invention. Her reputation for being a "splendid cook" is at once established.

The Gurney-Oxford Economizer regulates the exact degree of heat which is directed through the oven by the Divided Flue Strip with perfect evenness in every corner. The fire is held low on a Special Reversible Grate which burns every coal to a white ash. There is a lift-up Broiler Top to expose the full fire, and a smooth polished surface that requires no black lead. The Warming Closet is big enough and strong enough to hold a whole dinner service.

This Gurney-Oxford is the range for women of to-day.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

The average length of life in Sweden is slightly more than 50 years, which is very high.

Caruso is to receive $3,000 a night for singing at the Metopolitan opera house, New York.

The new Catholic church to be erected at Penticton will cost $5,000 and the house for the priest $2,500.

Premier Borden will probably make a tour of the western provinces the latter part of the summer.

It is said that the best social set in Ottawa and most of the society girls of that city are cigarette smokers.

E. G. Rooke, formerly news editor on the Nelson Daily News, has taken charge of the Mail-Herald at Revelstoke.

The court of revision of the voters' list in the Greenwood electoral district will be held at Greenwood on May 18th.

J. S. T. Alexander, government agent at Fernie, has been transferred to Victoria, and George F. Stalker will take his place.

From February 10 to March 31, 337 parcel post packages were received at the Trail post office and 228 packages were dispached.

"Jack" Johnson, the negro pugilist, will return to Chicago, so he says, for the retrial of the charges against him under the Mann act.

Last year the people of the United States spent more for chewing gum than all the Christian religious denominations gave for foreign missions.

Alterations are being made in the Rossland post office building to cope with the increased business due to the volume of parcels passing through the mails.

The C.P.R. will put the Princess Charlotte and the Princess Victoria on the Vancouver-Alaska route as soon as the new steamers, Princess Irene and Princess Margaret, reach Vancouver from Europe.

Hon. Coderre, minister of mines, told the House of Commons at Ottawa the other day that fourteen investigating parties will be in the field this year examining further into the mineral resources of Canada.

Justice Harry Grimes, of Ritzville, Wash., is not particular about having a courthouse built of brick and stone in order to accommodate him in the dispensing of justice. In fact he is so democratic that he holds court in his livery stable.

A manuscript found in the possession of a resident of New Zealand has been proved by the curator of the Burns museum at Ayr, Scotland, to be either the original or a copy in the poet's own handwriting of the famous poem, "Scots Wha' Hae."

Miss Billie Burke, the actress, is to be married shortly to Florenz Ziegfeld, a New York theatrical manager. Ziegfeld married Anna Held in Paris in 1907. They separated two years ago and in 1913 Miss Held was granted a divorce in the New York supreme court.

In Keiv, Russia, a temperature which amazed the doctor and broke the thermometer, is recorded in the case of a girl patient in one of the hospitals. The girls was suffering from typhus fever, and her case attracted special attention when a temperature of 112 fahrenheit was recorded, bursting the thermometer. According to all previous experience life at such a temperature is unknown, or even impossible.

Unnecessary Torture

We have little sympathy for "Gyp the Blood" and his confederates, who paid the penalty for their crimes at Sing Sing last week. They deserved death; but in the name of our common humanity surely the murderers need not all have been herded into one cell and led out one after the other to the chair of death. The last man must have suffered the penalty aeveral times over in the agonies of anticipation, unless he was a mere clod of clay.—Victoria Times.

Hiding the Ears

The girl of today hides her ears. This is well, as it may save her from hearing some unpleasant things about the parts just mentioned. Fashion is always making queer demands. Today it dictates that girls must cover their ears and let their ankles take care of themselves. To our plain, homespun way of thinking, it would be lots better if they were put on the reverse English.—Judge.

Why He Drowned

Reilly—"Pat was drowned yesterday."

Fitzpatrick—"Couldn't he swim?"

Reilly—"Yes; but he was a union man. He swam for eight hours and then quit."

Yes, they are neat!

And they're just as comfortable as they look. I have worn this kind for years and I never knew what *hose satisfaction* was until I got them. You should try Penmans Hosiery—they retain their shapeliness—set snug to foot and limb and *wear much longer* than ordinary hose. *Penmans Hosiery* is made for men, women and children, in *cotton, cashmere, silk* and *lisle*—in any weight and all popular colors. Look for the trademark

Mrs. E. Nelson arrived in Phoenix Monday from South Bend, Indiana, to join her husband, who is employed as mining engineer at the Granby.

A. B. Godfrey, district superintendent of the B. C. Telephone company, with headquarters at Nelson, was in Phoenix and through the Boundary this week on a tour of inspection.

For Sale—Hatching eggs, Wyandottes, Minorcas, White Leghorns, Brown Leghorns, Indian Runner ducks and Pekin ducks. Apply at ranch. Robt. Forshaw.

Lawrence McKelvie has returned from San Francisco where he was spending the winter. McKelvie is one of the best hockey players in the country, and during the season of 1913 played with the Phoenix team.

N. W. Sweetser left Weednsday morning for the Belcher camp, near Republic, Wash., where D. Lynch is at present doing diamond drilling on some claims under bond to the Granby Consolidated company. The ore on the property is a gold bearing iron ore and is used for fluxing.

Alfred Miller, representing the Reading Camp association, with headquarters at Victoria, was in town this week. The object of this association is to procure the best college students from the east and place them in positions throughout this province in lumber camps and other places where they can teach those of their fellow workmen who have been less fortunnate in getting an education.

"I very much fear," says Senator Thomas, "that the keen desire of young Americans to go to war before many months will find satisfaction, and unless society finds some way of putting down the troubles between capital and labor, Mexico will not be the only country torn by internal warfare."

Hockey Smoker at Trail

At Trail a few nights ago a smoker was given at the Star theater for the hockey boys, who now hold the Boundary-Kootenay championship. Everyone had a good time, with plenty of refreshments on the side. J. H. Schofield, M. P. P., was chairman, and the program was a varied one. During the evening Mayor Dockerill, on behalf of the citizens, presented each hockey player with a handsome gold locket and fob. Each locket bore the inscription, "Presented by the citizens of Trail, 1914," on one side, while the other was adorned with two raised hockey sticks with the legend, "Interiorior Champions of B.C., 1914." A substantial collection was taken up.—Trail News.

Trouble in Colorado

Serious labor troubles are now raging in Colorado. A dispatch to Denver from Trinidad states that in the Ludlow mining camp about 80 men, women and children, besieged in the Empire mine near Augiler, with the mouth of the stope caved in by dynamite explosions, faced death by suffocation. Not a house or stick of overhead workings was left standing in the camp. The mine tiple had been burned, but the interior of the mine had not been fired. In the battle there last Monday 21 were killed and 14 of the bodies have been identified. Many of those murdered were women and children.

FOR SALE.

EGGS FOR HATCHING—from my great laying Pen of S. C. White Leghorns.

$2.00 Per Setting.

F. J. HARBINSON, Phoenix, B.C.

Transfer of Liquor Licence

To the Board of Licence Commissioners, Phoenix, B. C.:

TAKE NOTICE that I intend to apply to the Board of License Commissioners for the City of Phoenix, B.C., at their next sitting, for a transfer of the Liquor License for the Butte Hotel, in the name of Luciani and Vichary to Angelo Luciani.

Geo. Vichary.

Dated at Phoenix, B.C., this 15th day of April, 1914.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Drill Hall, Kamloops, B. C.," will be received at this office until 4.00 P. M., on Thursday, May 7, 1914, for the construction of the aforesaid building.

Plans, specification and form of contract can be seen and forms of tender obtained on application at the office of Wm. Henderson, resident architect, Victoria, B. C.; on application to the Caretaker of Public Building, Kamloops, B. C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, April 8, 1914.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—59225.
