The Big Store

News Department.

Julia Marlowe Shoes for Women.

Slater Shoes for Men.

Lion Brand Clothing for Boys.

All wool clothes, double knees, double sewn seams, buttons that won't pull off, neat patterns, perfect fit, prices right. It will be a pleasure for you to see your boy fitted out in one of our new Lion Brand Suits.

Royal Brand Clothing For Men

Something out of the common run of clothing. Stylish cut, perfect fit, and the very latest patterns. Costs no more than the ordinary and looks like a suit. We are very proud of our clothing this year.

Serge suits, tweed suits and worsted suits, single and double breasted suits, two piece summer suits. Extra pants and fancy vests.

See our windows for White Cat underwear and Black Cat hose.

The Hunter-Kenkrick Co., Ltd.

Grocery Dept.

Lettuce, New Cabbage, Young Onions, Cauliflower, Spinach, Radishes, Oranges, Lemons, Strawberries and Bananas

all at the lowest market prices.

Watch our window from now on for the choicest lines of fruit as they become obtainable.

New Zealand Butter 40c per lb.

Big shipment preserved Peaches, Pears, Raspberries and Strawberries, 40c per glass. They are extra fine.

HARDWARE DEPT.

Paints and Varnish Stains,

all colors in handy sized cans

Poultry Net, 3, 4 and 5 feet wide.

Agate Wall Finish

now in. This is a much superior article to Kalsomine or Alabastine being much easier applied and making a much more durable and better looking finish, 5 packages 50c.

A visit to our store will convinee you that you are ahead to make this your main dealing place.

MORRIN, THOMPSON & CO.

WORKING FUND OF $250,000

Being Provided For Montreal & Boston.

Some of the Plans of the Reorganization.

The following is the latest regarding the reorganization of the Montreal & Boston Consolidated, which appeared recently in a Boston financial journal:

It is proposed to issue $700,000 first mortgage 6 per cent. bonds which are underwritten at 80, and to change the par value of the stock from $5 to $1, giving present stockholders one share of new stock, par $1, for every share of old stock, par $5.

The capitalization of the new company will compare with the old as follows: Present capitalization, bond, six per cent.; stock, 1,300,000 shares, par $5. New capitalization, $700,000; 2,600,000 shares par $1.

Of the above 2,600,000 shares, 1,000,000 go to the old stockholders, 1,400,000 as a bonus with the $700,000 bonds on the basis of 200 shares of stock with every $1,000 of bonds, and 200,000 shares for reorganization expenses and as a bonus to Munroe & Munroe creditors.

As the creditors of Munroe & Munroe have 310,000 shares of stock, they get as stockholders 1½ shares of new stock for each share of old.

Mackenzie & Mann, the original owners of the Dominion group, have underwritten $300,000 of the new bonds, and they will be represented on the board of directors of the new company. The directors will be divided between them and representatives of the creditors and underwriting syndicate. The stock will be placed in a two years' voting trust. One trustee will represent Mackenzie & Mann, a second the creditors and underwriters, and these two will select a third.

There will be a 10 per cent. sinking fund provision for the bonds after the expiration of two years. The bonds are callable at par after two years. They will offered to stockholders at 90 with the same stock bonus as underwriters secure.

The proceeds of the bonds will be used to pay all the indebtedness due on the Dominion group of mines and on other properties, all floating debt and leave a cash balance of $250,000.

Immediate steps will be taken to enlarge the smelter from two to four furnaces, build a converting plant and electrically equip the mines upon which development work will be pushed.

SOMETHING OF THE ROSSLAND MERGER

Estimate of Basis of the Amalgamation.

A. J. McMillan, managing director of the LeRoi and Snowshoe companies, was in Nelson this week, and he was credited with saying something regarding the proposed amalgamation of the large Rossland properties with the Snowshoe mine in Phoenix camp. In Rossland, however, on his return, he denied that he had be interviewed at all in Nelson. Here is what the Nelson scribe wrote:

"Although Mr. McMillan was reticent as to details of the amalgamation beyond the assertion that it was certain to go through and that the Northport smelter will be closed, the following details are on excellent authority, and it will be found in the sequel that with a little adjustment as to the relative shares of the Gooderham properties and of the LeRoi they are substantially accurate.

"The capitalization is stated at $10,500,000. Of this sum $2,000,000 is to be the working capital. These are fixed amounts. The shareholders of of the LeRoi get $3,000,000 in shares; Centre Star, $2,400,000; War Eagle, $2,000,000; Trail smelter, $1,000,000; Snowshoe, $100,000. These are the terms to which Director Waterlow is stated to be willing to accede on behalf of the LeRoi and Snowshoe and Director Blackstock is willing generally to accept on behalf of the War Eagle and Centre Star. The manager of the amalgamated properties is to be W. H. Aldridge, of Trail, on a salary of $10,000 a year. The name of the new combine has not been divulged nor has it probably been settled. The terms of agreement also include the treating of all the ore of the properties concerned at Trail."

Boundary Mining Notes

A small force has been put to work on the Twin claim, a portion of the Greenwood townsite being on the Twin.

The long tunnel on the Betts and Hesperus is now in 350 feet, and it is the intention to drive that much farther.

The long tunnel on the Golconda, Deadwood camp, is now in about 375 feet, and will be in 500 feet in a couple of months more.

An important find was made this week on the Bonnie Belle, near Greenwood, two feet of good galena being struck in the shaft. The claim is owned by Robert Wood.

June 29th is the date selected for the visit of the Institute of American Mining Engineers to Grand Forks and Phoenix. An effort is also to be made to get the party to visit Greenwood.

Owing to the illness of Messrs. Waterlow and Blackstock, matters regarding the amalgamation of the Snowshoe mine with the large mines of Rossland are at a standstill for the present.

President F. L. Underwood, Engi W. H. Thomas and Manager F. Keffer, of the B. C. Copper Co., who have been on a ten days' trip into the Similkameen, returned Thursday, and the first two will leave for New York today.

Coal miners at Fernie are negotiating with the management of the Crow's Nest Pass Coal Co. for a new contract to take effect on the 1st of June, when the present two years' contract expires. As yet the two parties have not come to an agreement.

A find of importance is reported from the Bonetavista group, on Hardy mountain, near Grand Forks, owned by W. E. Capron. Four feet of quartz, said to run high in gold, silver and copper, were uncovered, attracting some attention to the group.

Last week Friday a few men employed at lining the converter shells at the Greenwood smelter, in the absence of Manager Keffer and Supt. McAllister, declined to labor longer for $2.75 per day and walked out. They asked 25 cents per day more, which was granted.

Owing to repairs at the company's smelter, the Brooklyn mine was shut down for two days this week, but is now outputing from 400 to 600 tons daily once more. As this mine works every day in the year, this was the first rest the employees had had for nearly nine months.

A new slag hauling locomotive was received this week at the Granby smelter, making six steam locomotives now in use at mines and smelter by this company. The two extra large furnaces and blowing engines for the enlargements have also arrived at the reduction works.

Manager Shallenberger, of the Crescent mine, now being activly operated, in Skylark camp, two or three miles from Phoenix, expects to start work shortly on a wagon road connecting the mine with the Great Northern Phoenix branch, so that shipments of ore may go over that line. The road will be a little over a mile in length.

Fred Whitwell has been working steadily for months on his Maori group on Providence creek and feels much encouraged at the present showing of an eight foot lead, with good values in the bottom of his shaft. It is close to the Great Northern branch to Phoenix, so that transportation is assured when shipments are ready.

KENNEDY-ASHLEY WEDDING

Quiet Home Ceremony Wednesday at the Birnie Residence.

Wednesday morning a quiet home wedding took place at the residence of L. Y. Birnie on Knob Hill avenue, when Horace E. Kennedy and Miss Florence Selina Ashley were united in the holy bonds of matrimony. Both bride and groom are residents of Seattle, where the groom is in business, the bride being a sister of Mrs. Birnie. Rev. E. C. W. MacColl, of St. Andrews Presbyterian church, tied the nuptial knot, those present being Mr. and Mrs. Birnie, Mrs. F. M. Kerby, of Grand Forks, W. C Ashley, of Waterville, Wash., the father of the bride, Mrs. MacColl, Miss Gray, the bridesmaid, and Judge Williams, who was best man. Little Doris Birnie was the maid of honor.

The bride was attired in white poplin silk with duchess lace, and carried a boquet of bride's roses, the bridesmaid being also dressed in white, and the house being decorated with roses and other flowers. After a wedding breakfast served at Mrs. Birnie's home, the happy couple took the Great Northern train for Spokane and other points amid a shower of rice, and will be at home after May 15th at the Hotel Newport in Seattle.

BONDED THE DENERO GRANDE

McArthurs Sell to the Jewel Company.

Goes to Purchasers on Basis of $30,000.

It is reported this week in Greenwood that another important sale of mining property is practically completed. The property is a half interest in the Denero Grande, adjoining the famous Jewel to the south, in Long Lake camp, a few miles from Eholt, and containing the Jewel true fissure vein. The parties selling are C. J. McArthur and his mother, Mrs. Mary McArthur, the latter holding a quarter interest through the administration of the estate of the late John McArthur, her son. The Jewel Company, registered at London, England, and represented there by Gilbert Mahan, own the other half interest and has secured a year's opinion to purchase the McArthur interest for £250. If satisfied with the property, and there is little doubt that such will be the case, they are to pay at the end of the year the sum of £3000, full purchase price for the McArthur half interest.

The Denero Grande was staked in 1895, four months after the Jewel was located. The discovery stake on the Jewel was not on the vein at present being developed and mined but on an outcrop to the east. The vein discovered when the Denero Grande (meaning in English "good money") was staked is the famous vein of the Jewel, and so Mr. McArthur claims to be the discoverer.

The Jewel is developed to a depth of 320 feet and has been proved to be one of the best claims in the Boundary. The vein can be traced on the surface for over a mile and is of an average width of two and a half feet. Considerable ore has been shipped from the property.

BONDED McKINLEY GROUP FOR $150,000

Franklin Camp Claim Taken At That Figure.

A report from Grand Forks says that at a general meeting of the shareholders of the McKinley Mines, Limited, owning the McKinley and Hanna mineral claims in Franklin camp, which was held there Tuesday, a working bond for $150,000 was granted Miles M. O'Brien, Jr., of New York, as trustee for Boston and New York capitalists. The life of the bond covers a period of 18 months from April 1.

The McKinley mine, it is claimed, has one of the largest gold-copper showings in British Columbia. The development work to date consists principally of open cuts, and at present 12 men are employed. A tunnel is being driven to tap the ore body at a depth of 125 feet. The ore is self fluxing in character and values are said to average $10 per ton.

George A. McLeod, general manager of the company, in an interview stated that he negotiated the deal during his recent trip to New York and Boston. The bond has been acquired by a group of capitalists, who propose to undertake the development of the claims on an extensive scale. Twenty other claims in the same camp, water rights, and a townsite of 320 acres have also been transferred by Mr. McLeod to the eastern syndicate. The deal is expected to result in the opening up of the rich mineral resources of the North Fork of the Kettle river.

E. T. Steele, a mining man from Spokane, was in the city yesterday, taking a view of the big mines.

Thursday, May 11, is the date selected by the Phoenix Base Ball Club for a dance, to be given at Miners' Union hall.

W. H. S. Torney, the retired Eholt merchant, who is soon to visit his old home in the Emerald Isle, was in the city Monday.

O. H. Becker, of Nelson, travelling freight agent for the C.P.R., who was here Thursday, says that he considers the Boundary the most prosperous section of southern British Columbia at present.

HAVE MANY MEN ON BALLASTING.

Gt. Northern Putting Phoenix Extension in Good Shape.

For several days the Great Northern has had a large force of men at work in and around Phoenix ballasting the track and placing it in the best of condition. Half a dozen large locomotives and train crews and about 100 laborers are engaged in the work, which was started at the Phoenix end, gradually working down towards Grand Forks, and it is anticipated that two or three months will be required to complete the work.

As no gravel suitable for the purpose was obtainable along the line in this neighborhood, it is secured at a point near Laurier, close to the Boundary line, but so far no international complications have arisen over the matter. A steam shovel is used to load the cars at that point and the trains of 20 to 25 gravel cars are unloaded by the aid of a huge plow which runs the entire length of the train, and is worked by a cable from the engine.

WOLFARD GROUP INCORPORATED

To Develop Large Body of Ore.

Spokane Men Are the Financiers.

Lake D. Wolfard, of Spokane, was a visitor in the city yesterday, coming up from the group of claims named after him, which are being actively developed, and are located near the Betts and Hesperus group, three miles and a half in a direct line from Phoenix.

The Wellington Copper Mining and Smelting Company has recently been incorporated to take over this group, with a capital of $75,000, and the following officers: President, Lake D. Wolfard; vice-president, Edward Evans; secretary and treasurer, Bert A. Wolfard. Capt. A. L. Rogers is the general manager of the company, and has charge of the immediate development of the properties. The group comprises the Wolfard, St. Lawrence, Silverton and V. A. claims, the Great Northern extension to Phoenix running over the ground of the latter property. This will afford excellent transportation facilities when the property is prepared to commence ore shipments.

Mr. Wolfard has been working on the claims for several years, and is convinced that he has today one of the largest undeveloped ore zones in the Boundary. Some $5,000 or $6,000 have already been spent on the property, and on the surface the ore body has been proved to be 700 feet long and 400 feet wide. At present a tunnel is being driven, which is in 110 feet. It is a low grade ore carrying gold and copper values, and is high in iron.

At present a force of five men is employed, which it is intended to increase, and later to put in an air compressor, a half mile wagon road now being in process of building to connect with the Phoenix-Grand Forks wagon road. The property is located but half a mile from the Betts and Hesperus, and Mr. Wolfard thinks he is fully justified, with the development so far accomplished, in believing that he has one of the really big things in a mining way in the Boundary country.

ASSESSMENT OF CITY IS $277,375

Roll Completed For Year of 1905.

Over $30,000 Less Than For Last Year.

This week property owners in Phoenix have received notices showing the amounts for which they are assessed for 1905 on land values and improvements, the total assessed valuations being $277,375, against $308,255 for 1904. The reduction this year is due to three causes—to the burning up of some buildings this last winter, the removal or demolition of some structures on the V. V. & E. right of way, and a reduction of the assessed value by the city assessor, D. J. Matheson.

The assessment, according to sub divisions, is as follows:

	Imp.	Land	Total
Rumberger	$ 46,400	50,875	97,275
Old Ironsides	65,100	89,050	154,150
Dominion Copper	4,700	21,250	25,950
Totals	$116 200	$161,175	$277,375

As the property of railways, under the Municipal Clauses Act, is exempt from taxation, about $30,000 must be deducted from this total of $277,375, leaving the total at $247,375. Figuring on a basis of 20 mills on the dollar this means that the city will lose about $600 this year in taxes on railway lands.

The most valuable property in the municipal limits is the Bank block, which, with two and a half lots, is assessed at $18,400. The lowest assessment is on residence lots in various parts of the city, which are rated at a minimum of $100 each by the assessor.

Some slight changes in the assessment roll may be made by the court of revision, but they are not likely to affect the total materially. Last year the tax rate was fixed at 18 mills, with a discount for prompt payment.

Work Not Yet Started

Last Saturday Patrick Welch passed through Phoenix on his way to Spokane from an inspection of the line west of here where the Great Northern is soon expected to start construction. Altogether he drove 300 miles, from Republic to Hedley and Princeton and return. The rest of the contractors who went with him returned the same day to Spokane, but had nothing to say, for the simple reason that no contract had as yet actually been let. Peter Sims, partner of L. E. Shields, has been expected in Spokane daily, however, together with Chief Engineer Hoagland, and announcements are expected every day, when there will be a rush of contracting outfits into the Similkameen.

OPPORTUNITY FOR PHOENIX.

Once a year the Spokane Chamber of Commerce aims to have an excursion of the business men of that enterprising and growing city to some point of importance within say a couple of hundred miles of Spokane. On these excursions from one to two hundred business men are glad to be included, often taking their wives, for the purpose of familiarizing themselves with the potentialities of the surrounding districts. This year there is already some talk of the excursion taking in British Columbia.

Right here is an opportunity for the enterprising citizens of Phoenix to extend an invitation to the Spokane Chamber of Commerce to visit this camp, and see for themselves the district in which so many Spokane people are interested. It is a fact that Spokane capital has done much to build up the mining districts of British Columbia, and it is doubtless equally true that additional capital can be secured from Spokane to develop mining properties in the Boundary if those who furnish it can be assured of a fair return for money invested. And no one in this section doubts for a moment that chances for favorable investment are as great as ever in this section.

These being admitted facts, every encouragement should be given to the idea to bring say a hundred or more hard headed business men into the Boundary. This would be quite a proper subject for the Phoenix Board of Trade to take up and encourage to a successful conclusion. Such an excursion could be arranged to include Republic, Grand Forks, Phoenix and Rossland, in all of which sections Spokane capital is heavily interested. It would also be quite the thing for the city council of Phoenix to encourage the matter in a financial manner when the time arrives to act.

The suggestion has been made to appoint a postoffice inspector for the Kootenay-Boundary district, with a residence at Nelson, or some central point. The ramifications of the mail service in this part of British Columbia, with its numerous stage, rail and steamboat routes, are sufficient to keep a man busy most of the time. Doubtless, if this was done such a thing as requiring from two to four days for mail to pass between Greenwood and Phoenix would be relegated where it belongs—to innocuous desuetude.

PEOPLE ARE GUESSING.

Where the next strike in a high grade Boundary mine will occur.

When the C.P.R. will make a move on its road into the Similkameen.

When there will be a mail service on the Great Northern to Phoenix.

Who is really behind the new smelter enterprise proposed for Midway.

How many weddings will take place in Phoenix in the next month or two.

Whether Jim Hill will always secure the bulk of ore tonnage from Phoenix.

Who is really the power behind the throne in the Montreal & Boston Consolidated.

Whether the Great Northern will take the Midway or Republic route to reach Oroville.

How long it will be before the Snowshoe mine will resume steady operations.

How much will be left of Rojestvensky and his armada when Togo gets through with him.

Whether the attempt to use Chinese and Japanese labor in the sawmill at Salmo will be successful.

Sciatic Rheumatism Cured.

"I have been subject to sciatic rheumatism for years," writes E. H. Warden, of Wilton Junction, Iowa. "My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful liniment." For sale by all druggists.

WHAT EDITORS SAY

CERTAINLY NOT.—Bowling is the fad among the young, middle-aged and old men of Greenwood at present, says an exchange. We hope it is not the flowing bowl.—Vancouver World.

NEMESIS WAS SURE.—The body of an insurance agent was found at the bottom of a cliff 125 feet high. Retaliation overtakes everybody, sooner or later.—Belleville Intelligencer.

BOO-MAN ROOSEVELT.—If our provinces get quarrelling over Hudson Bay and disturbing the neighbors, first thing we know Boo-man Roosevelt will come up and take it away from us.—Montreal Star.

GIVE LOWERY THE CREDIT.—Canada will soon be making money. The mint will be a reality before long. Eleven years ago we began agitating a mint for Canada, and our efforts have at last been rewarded, although the chances are we will never do much business with it.—Fernie Ledge.

STRICTLY BUSINESS

Dark clouds do not always signify storm any more than slow returns signify an advertising failure.

A trolley car with the "juice" off, like a business minus the advertising appropriation, soon comes to a standstill.

It's about as easy to run an ocean steamer with a sewing machine treadle as it is to build up a lasting business without advertising.

Watering the lawn once will not keep it green all summer—advertising once won't make any noticeable difference in the annual profits.

There are some kinds of advertising that will pay any man who is doing business. No man can bring too much common sense and business insight into the advertising field.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

B. C. MINING

Rossland ore shipments last week were 6,395 tons, making 108,952 tons for the year.

It is understood that the 40-stamp mill of the Nickel Plate mine at Hedley will be increased to 100 stamps this year.

The I. X. L. Mining company has been organized in Spokane to operate the I.X.L. on Silver Cup mountain in the Lardeau.

Work is to be resumed at the Cliff mine, Rossland, with C. E. Simpson as manager. The mine has not been operated for a year.

The Lardeau Mining Review says the Silver Cup is shipping six cars of lead concentrates and 20,000 to 30,000 ozs. bullion per month.

The proposed amalgamation of the big Rossland mines with the Snowshoe mine in the Boundary will result in a saving of $1 or $1.50 a ton in costs of handling ore.

G. O. Buchanan, distributor of the Dominion lead bounty, states the operation of the Sullivan mines will bring the output of lead in B. C. to 24,000 tons annually.

About the middle of July the new steel tipple of the Crow's Nest Pass Coal Co., costing $200,000, will be completed. It replaces the wooden structure recently destroyed by fire, and will contain 850 tons of steel.

"The War Eagle and the Centre Star are each making money," says James Cronin, general manager of the two properties, who has been in charge of their affairs since the first of the year. Mr. Cronin says the mines are now making money on $9 ore.

Similkameen Dividend.

The statement is made by the Nelson News that a dividend of $30 per share has been declared upon Hedley City Townsite company's stock. The townsite is sitated on the Similkameen river, immediately below the Nickel Plate mine, and was staked by F. A. Devereux, C.E., in 1900. Subsequently it was stocked and put on the market, most of the shares being disposed of in the old country, although the original owner, F. A. Devereux, still retains the majority of the stock held in the province.

Have You Heartburn?

It's quite common with people whose digestion is poor. Immediate relief follows the use of Nerviline. Stomach is strengthened, digestion is made perfect, lasting cure results in every case. Use Polson's Nerviline once and you'll never be without it because every type of stomach disorder is conquered by a few doses. One 25c. bottle of Nerviline always convinces. Sold everywhere for the past fifty years.

OLLA PODRIDA

There's just one thing
You must acquire
If you would set
The world afire,
And that's to know
The thing to do
To make the world
Run after you.

The fellow who tries to do something, and not somebody, is the chap who has the money after the scramble is past.

If you bestow a favor, forget it, but if you receive one it is wise to remember.

Lazy people are termed easy going, but it is a misnomer. It is hard to get 'em started and worse to keep 'em at it.

People who are around looking for trouble don't need a search warrant.

Wanted.

Men and women in this county and adjoining territories, to represent and advertise an old established house of solid financial standing. Salary to men $21 weekly, to women $12 to $18 weekly with expenses advanced each Monday by check direct from headquarters. Horse and buggy furnished when necessary; position permanent. Address, Blew Bros. & Co., Dept. A, Monon Bldg., Chicago, Ill.

Sir James Watson's Opinion.

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhozone." No case of Catarrh can exist where Catarrhozone is used; it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhozone because it goes to the source of the trouble along with the air you breathe. Catarrhozone is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Catarrhozone which alone can cure Catarrh.

THE PHOENIX PIONEER

And Boundary Mining Journal

Is published in the heart of the greatest and most productive gold-copper camp in the Dominion of Canada.

In five years more than 2,500,000 tons of ore have been mined and smelted here, with a valuation of over $12,500,000. And the industry is only in its infancy.

The greatest mines of the Boundary are at Phoenix—not one or five miles distant, but in front of, behind and beneath the Pioneer office. Consequently, from our vantage point we believe the Pioneer can give you the best, latest and most reliable news of the mines and smelters of the Boundary.

The Pioneer is worth $10 per year—but it costs only $2, if the coin comes with the order. Make all orders payable to the

W. B. WILLCOX, Manager. Phoenix, British Columbia

A SATISFACTORY RECORD

Extract from Montreal Gazette, 24th February, 1905.

"The Eastern Townships Bank has issued a little pamphlet containing the report of the forty-sixth annual meeting of the bank, and also a comparative statement of the business of the institution for the last forty-five years. The growth of the bank in the last fifteen years has been most marked. While the capital was increased by a million during this period, the reserve fund has grown from $550,000 to $1,500,000; deposits have increased from $2,233,790 to $9,821,026, or almost 300 per cent.; the circulation from $782,204 to $2,237,835, another increase of almost 300 per cent.; loans have almost doubled, going from $6,022,018 to $11,423,021, while assets immediately available, A MATTER OF MUCH IMPORTANCE TO THE BANK'S CUSTOMERS, have grown from $602,098, in 1890, to $4,688,504, an increase of 675 per cent. in the fifteen year period. The branches of the bank thoroughly cover the Eastern Townships, and, in addition, it has three in Montreal, one in Winnipeg and two in the Boundary district of British Columbia."

COPPER

The new edition of the COPPER HANDBOOK lists and describes 3,311 copper mines and copper mining companies, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most condensed and get-at-able form.

There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of Copper and everything pertaining to the metal.

It is the World's Standard Reference Book on Copper

Every Miner, Prospector, Investor, Banker, and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or may returned within a week of receipt and the charge cancelled. Miners' Inch in B. C.

For mining purposes in B. C. the "inch" of water is said to be defined as follows:—the quantity of water that will pass through an orifice two inches high by half an inch wide made in a two inch plank, the water to have a constant head of seven inches above the upper side of the orifice; and every additonal inch of water means as much as will pass through the said orifice extended horizontally half an inch. In cubic measurement, one inch of water shall mean a flow of water equal to 1.68 cubic feet per minute.

Collection of Flags.

New Westminster, B.C., April 27.—The gallant Union Jacks that floated for years above the navy yard as well as those that proudly told the nationality of His Majesty's torpedo boats, attached to the Esquimalt naval base, as they traveled the seas far and wide, will all float above the Dominion Fair grounds during the eleven days of the great national exhibition which is to be held here from Sept. 27 to Oct. 7th.

These flags, like other property of His Majesty, after the British government had decided to abandon Esquimalt, were sold at public auction, and Mr. E. J. Fader of this city, who was present at the sale and who purchased one of the torpedo boats, also bought up, on behalf of Mayor Keary, the whole stock of flags. The whole collection weighs 300 pounds, and in it there are flags that have been in every part of the world where British warships go.

How to Get Consumption.

Ninety per cent. of the "lungers" contract consumption by allowing power of resistance to fall so low that a favorable condition for the development of the bacilli is provided. In a healthy system consumption can't take root. But where there is weakness and debility, there you find tuberculosis. For developing strength and building up the weak, nothing equals Ferrozone. It makes the blood nutritious and the nerves enduring. The way it converts food into nutriment, the appetite it gives is surprising. Just what the man verging into consumption needs,—that's Ferrozone. If tired and weak don't put off. Fifty cents buys a box of fifty tablets—at all dealers.

Prof. Hepburn Remembered.

The Vernon News thus pays its compliments, is a feeling manner, to one who was not unknown in the Boundary a few months ago:

"Another dancing master has come to town who announces his intention of starting an 'Academy of Ideal Dancing.' It is to be hoped that his repertoire of dances will not include the famous glide for foreign parts, which was the most unpopular 'stunt' in his predecessor's programme."

A Fine Publication.

The 1905 issue of "Oregon, Washington, Idaho and Their Resources," issued by the passenger departments of the Oregon Railway and Navigation company and the lines of the Southern Pacific in Oregon, is now ready for distribution, 50,000 copies having been issued. The book contains 88 pages illustrated by 21 full page first class half tone cuts and a number of smaller ones. The book contains condensed information about towns and cities along the O. R. & N. and the Southern Pacific lines. The facts and statistics are based on conditions as they are, and those features of the work make it of great value to people of the east who are looking to the Pacific northwest for homes and business locations.

Four cents in stamps sent to A. L. Craig, general passenger agent of the Oregon Railway & Navigation company, Portland, Oregon, with the address of an eastern friend, will ensure its being sent.

NOTICE.

In the matter of the "Land Registry Act," and in the matter of the title to Lot 10, Block 17, Map 60, Old Ironsides Addition to the City of Phoenix, in the Province of British Columbia.

WHEREAS the certificate of title of John Alexander Murray, being certificate of title numbered 4738 to the above hereditaments, has been lost or destroyed and application has been made to me for a duplicate thereof;

NOTICE IS HEREBY GIVEN that a duplicate certificate of title to the above hereditaments will be issued at the expiration of one month from date hereof unless in the meantime valid objection to the contrary is made to me in writing.

W. H. EDMONDS,
District Registrar of Titles.

Land Registry Office, Kamloops, B. C., April 28, 1905.

THE OBSERVATORY

Things Talked of at Home and Elsewhere

The impending building of new railways in this part of British Columbia is absorbing the interest of a large number of persons. When a bunch of well known railway contractors take the trouble to go over a proposed route, it is quite evident that something is about to happen that is worth while. This is what L. E. Shields, Pat Welch, John Porter, and half a dozen other lights in the railway constructing firmament did last week, driving altogether something like 300 miles, from Republic to Oroville and Hedley, Princeton, etc., and returning by way of Phoenix, as well as by way of Grand Forks.

Up to this writing no announcements have been made regarding new construction, but any day is likely to bring them forth, and to see a great inrush of men and material to crowd the building of the new extension of the Great Northern from the Boundary into the Similkameen district. And in the meantime those who wish to get in ahead of the railway are not in the least idle, be it remarked.

An exchange tells the story of a reverend gentleman who stopped at a farm house one day for dinner. While eating, the lady of the house inquired his business, and he replied: "I am hunting for the lost sheep of the house of Israel." She left the room and in a few minutes returned with her husband to whom she said: "This man is hunting lost sheep and I'll bet that old long wool ram that's been around is his." "No, sister, you do not understand me. I'm hunting sinners; those for whom Christ died." "And is he dead?" she queried. "Yes," replied the minister surprised at her ignorance. "And buried, too, I reckon." "Oh, yes, long ago." "There now, old man, I told you we'd be in ignorance for not takin' the newspaper."

The question always comes up: What is a gentleman? Some say he is a man with a silk hat, and others a man with a smooth tongue. But men connected with a newspaper trade have a canon of their own. "Mr. Editor," said a patron one day, "how is it you never call on me to pay for your paper?" "Oh," said the man of types, "we never ask a gentleman for money." "Indeed!" the patron replied, "How do you manage to get along when they don't pay?" "Why," said Mr. Editor, "after a certain time we conclude he is not a gentleman, and we ask him."

Says the Toronto News: "A correspondent informs us that he will continue to take our paper because of matters to which he strongly objects. He desires to have his blood warmed up by a healthy exasperation. This is good sense. We welcome him to our list of readers, and will endeavor to accentuate the objectionable features to which he refers."

A Bilious Headache

Is one of the meanest things in the world. To prevent biliousness use Dr. Hamilton's Pills, which keep the system clean and pure, regulate the bowels, give tone to kidneys and liver. You'll never have a headache, you'll never have a sour stomach, but you will have vigorous bracing health by taking Dr. Hamilton's Pills. Your druggist sells Dr. Hamilton's Pills, 25c. per box or five boxes for one dollar.

Boundary Doing Well.

The year 1905 promises to be a highly satisfactory one for the Boundary country. For the first three months of the year a new record has been made in ore shipments, more smelting has been done than in any similar period of the country's history, and the prospect is that the pace will be kept up throughout the year. The tonnage output has steadily increased and if kept up at the present rate will show a total output of more than 1,000,000 tons for the 12 months.

Most of the fine records have been made by the low grade properties. It required many years to put these producers in shape, but the work now being done shows that the people connected with them in the earlier stages were justified in the having confidence in them. They have long since passed the experimental period and are properties that will continue to produce regularly and with handsome returns to those fortunate to have financial interest in them.

It is the low grade properties that have brought the Boundary district to the front, but the high grade mines are making a better showing every year, and there is every reason to believe that many of them will become permanent shippers and in time furnish an important part of the ore output of this remarkable mining district.—Spokane Spokesman-Review.

THE TRIUMPHS OF PE-RU-NA INCREASE.

Thousands of Unpublished Testimonials on File.

Thousands of Chronic Ailments of Women Cured Every Month.

Disguised Internal Catarrh the Enemy of Women.

Miss Della Stroebe, Rural Route No. 1, Appleton, Wis., writes: "For several years I was in a run-down condition, and I could find no relief from doctors nor medicines.

"I could not enjoy my meals and could not sleep at night. I had heavy dark circles about the eyes.

"My friends were much alarmed. I was advised to give Peruna a trial and to my joy I began to improve with the first bottle. After taking six bottles I felt completely cured. I cannot say too much for Peruna as a medicine for women in a run-down condition."—Della Stroebe.

MISS DELLA STROEBE, Rural Route No 1, APPLETON, WIS.

Pe-ru-na, the Only Internal Systemic Catarrh Remedy Yet Devised.

Prominent Cases in Illustration.

Mrs. W. F. Hoffman, 601 North 6th street, Kansas City, Kans., writes: "For eight months I suffered with bearing down pains, dizziness, and wretched headaches. The doctors called it by different names, but all agreed that I had female trouble, which was really the cause of my illness.

"They prescribed for me, and I took their medicines, but kept getting worse, until a friend told me I would never get well until I took Peruna.

"Within a week after I started to take it I felt much better and I continued taking it for two months with almost marvelous results.

"I am without an ache or pain, feel ten years younger, and feel that I owe my life and happiness to Peruna."—W. F. Hoffman.

MRS. E. M. MERALD, 128 W. 28th St., INDIANAPOLIS, IND.

MRS. W. F. HOFFMAN, 601 North 6th St., KANSAS CITY, KANS.

Mrs. E. M. Merald, 128 W. 28th St., Indianapolis, Ind., member of A. D. Streight Circle of the Ladies of the G. A. R., writes: "I am to-day enjoying perfect health, thanks to Peruna. For nearly four years I suffered with ovarian troubles.

"The doctor insisted on an operation as the only chance to get well, but I had always dreaded an operation and strongly objected.

"My husband felt disheartened as well as I, and when a friendly druggist advised him to bring me a bottle of Peruna he did so, and I started to use it.

"In a short time my health began to increase, and my aches and pains diminished. Within eighteen weeks I was like another being, in splendid health.

"Words fail me when I try to tell you how glad and grateful I am."—E. M. Merald.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

All correspondence held strictly confidential.

MRS. M. BRICKNER, 99 11th St., MILWAUKEE, WIS.

Mrs. M. Brickner, 99 11th street, Milwaukee, Wis., writes: "I have strong faith in the efficacy of Peruna to cure the ills peculiar to women. A short time ago I found my condition very serious.

"I had headaches, pains in the back and frequent dizzy spells, which grew worse every month.

"I tried two remedies before Peruna, and was pretty discouraged when I took the first dose; but my courage soon returned as I could see that I was being benefited, and in less than two months my health was restored."—M. Brickner.

A reward of $10,000 has been deposited in the Market Exchange Bank, Columbus, Ohio, as a guarantee that the above testimonials are genuine; that we hold in our possession authentic letters certifying to the same. During many years' advertising we have never used, in part or in whole, a single spurious testimonial.

Every one of our testimonials are genuine and in the words of the one whose name is appended.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets.

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. She never tires of telling her friends and neighbors about the good qualities of these Tablets.—P. M. Shore, Druggist, Rochester, Ind. The pleasant purgative effect of these tablets makes them a favorite with ladies everywhere. For sale by all druggists.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious disease. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds, can be had for a trifle? For sale by all druggists.

Best Cough Medicine for Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventative and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by all druggists.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

Pilot mineral claim, situate in the Greenwood mining division of Yale district.

Where located—in Providence camp.

Take notice that I, Isaac H. Hallett, as agent for Thomas Roderick, Free Miner's Certificate No. B80401, and James Marshall, Free Miner's Certificate No. B80429, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of improvements.

Dated this 25th day of January, A. D. 1905.

I. H. HALLETT.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Dr. Mathison, dentist.

The old reliable, Boyle, the druggist.

J. L. Martin will buy International Coal shares.

Quality first, price next; Boyle, the druggist.

Dr. Simmons, dentist, Balmoral hotel May 9 to 12.

Prescriptions our specialty, Boyle, the druggist.

Supt. Hodges, of the Granby Co., visited Spokane this week.

Morrin, Thompson & Co. have a full stock of screen doors and windows.

W. S. Macy returned Sunday from a week's visit at his old home in Walla Walla, Wash.

John McRae went to Nelson Thursday to order holiday goods for next winter's trade.

The Bank of British North America is opening a branch at Hedley, in the Similkameen.

Work is now actively in progress on the new building for L. Y. Birnie on Knob Hill avenue.

H. P. Dickinson, of Rossland, agent for the Giant Powder Co., Con., was in the city Wednesday.

No inconsiderable demand for small farms has sprung up in and around Grand Forks this spring.

Last Monday night the Presbyterian church edifice at Midway was totally destroyed by fire, with some insurance.

Mrs. Hilda Smith has started work on a cottage on Golden Eagle avenue, not far from the Montreal & Boston offices.

The Catholic church in Grand Forks was recently improved with a new bell, which came from Baltimore, Maryland.

The quarterly meeting of the Methodist church was held Wednesday evening, Rev. Knox, of Greenwood, being in attendance.

Danny Deane has leased the Marsh building on Victoria avenue, and will conduct it in connection with his Metropolitan cafe.

Mrs. W. B. Willcox and little daughter Elizabeth returned Tuesday from a several weeks' visit in Seattle and Spokane.

W. G. Gaunce, of Greenwood, was called to Seattle by wire on Wednesday, his daughter being very low in a hospital there.

On the evening of the 4th of May, Snowshoe Lodge, No. 46, I. O. O. F., will give an at home at the lodge hall in Hardy block.

J. C. Haas, M.E., who is working the Golconda, and W. T. Smith, of the Republic group, passed through the city Thursday on the way to Spokane.

Next Monday four female members of the Salvation Army from Nelson will hold forth at the Methodist church with both brass and string instruments.

The topics in the Presbyterian church tomorrow will be in the morning: "Faith's Olivet," and in the evening: "Love's Galilee." An anthem by the choir.

The Easter Monday ball given by the Catholic Ladies' Aid at Miners' Union hall, was enjoyed to the full by an immense crowd of dancers. Reynolds' orchestra furnished excellent music, and the ladies estimate that, when returns are all in, their treasury will be enriched by about $250.

Mrs. W. C. Ashley, of Waterville, Wash., arrived here late last week with Mr. Ashley, to attend the wedding of their daughter to H. E. Kennedy. A telegram from Pemberton, North Dakota, however, to the effect that another daughter was seriously ill, called Mrs. Ashley to that point the day after her arrival.

Boyle is the druggist.

Any of the local mining shares for sale. E. H. Mortimer.

Hazelwood butter on sale at Morrin, Thompson's.

Descriptions and prices of Mason & Risch pianos can be had from Mortimer, the agent.

Honey in Combs, one-half, one, two and one-half, and five pound packages at Morrin, Thompson's.

Have you a shipment that wants clearing through the customs? If so, get Mortimer, the broker, to attend to it.

Miss Struve has received another consignment of hats, and invites the ladies of Phoenix to call and inspect the same.

Wedding invitations and announcements promptly executed in the latest styles in the Pioneer Job Department.

Deeds, Mortgages and Bills of Sale made out and recorded. Ed. H. Mortimer, Notary Public.

Dr. Mathison, dentist, will be at his office, Bank block, from May 10th to 14th.

Wanted at the Pioneer office, clean cotton rags. Bring them along and get your money.

H. S. McChesney, advance agent for the Steel & Vreeland Concert Co., was in the city Thursday, arranging for the appearance of the company here on May 6th and 8th.

The Phoenix Athletic Association now has over 40 names on the membership roll, and is still growing, a good deal of interest being taken in the work of the organization.

Married—In the Catholic church, Grand Forks, on Monday, April 24th, at 8 a.m., Joseph Bone and Miss Valdez Duford, both of that city, Rev. Father Pacuel performing the ceremony.

Last week the ratepayers of Greenwood voted on the by-law to raise $15,000 by issuing debentures for the extension of the water system. Not a single vote was recorded against the measure, it being unanimously endorsed.

Last Monday a fifteen pound chunk of chalcopyrite from the Brooklyn mine glory hole went through the door and side windows in Morrin, Thompson & Co.'s store, narrowly missing a bystander and doing about $30 in damage.

It is now currently reported that the contract for the extension of the old Kettle Valley line from Republic to Spokane, a distance of 140 miles, will be let on or about the first of June. The company is now known as the Spokane and British Columbia Railway.

John Riordan, formerly secretary of Phoenix Miners' Union, No. 8, who recently moved to Chicago, to accept a position in the head offices of the American Labor Union, has been made general secretary of that organization, vice Clarence Smith, resigned.

Tuesday the C. P. R. extra gang, which has been busy for a couple of weeks improving shipping facilities at the Brooklyn mine, completed the work and pulled out. The tail of the spur was lengthened 300 feet, and an 800 foot side track was put in at the ore bins.

Next week Saturday and Monday the Steele & Freeland Concert Co. will give an entertainment at Miners' Union hall. The press speaks well of the company wherever it has appeared, this being its seventh tour. All the latest illustrated songs and moving pictures will be given, including the Russo-Japanese war and many other subjects. Mr. Freeland has secured several valuable patents on his moving picture machine, which it is claimed do away with objectionable features heretofore noticed.

Easter was observed last Sunday by special services in the Presbyterian church.

Another instructor has been added to the public school teaching staff at Grand Forks.

Mrs. Morkill is once more occupying the superintendent's residence at the Snowshoe mine.

For the present, at least, with four aldermen out of the city, there can be no meetings of the city council.

George E. Dey left yesterday for Vancouver and Victoria for a short visit with his father and mother.

T. L. Simmons, an engineer on the government railway commission at Ottawa, was shown the mines of the camp yesterday by his brother, Dr. H. S. Simmons.

The Steel and Freeland Moving Picture Illustrated Concert, at the M. E. Church last evening, was a great success, and without a doubt the best of the kind ever seen here. There were fully 1500 people present, and many had to be turned away.—Spokane Chronicle. This show will appear here Saturday and Monday, May 6th and 8th.

Programme For Managers.

Following is the programme for the Managers' concert to be given at the Presbyterian church, next Wednesday evening:

1. Instrumental Duet, Mrs. Boucher and Mr. Cramer.
2. "You'll Remember Me," Messrs. McCurrach, Crawford, Brown, Whiteside.
3. Solo, "Mary of Argyle," P. McCurrach.
4. Recitation, "How Baptiste Came Home," J. E. W. Thompson.
5. Solo, "Queen of the Earth," R. Horrell.
6. Instrumental Duet, Mrs. Boucher and Mr. Cramer.
7. Solo, "The Sweetest Story Ever Told," G. D. Turner.
8. Quartette, "Just a Song at Twilight," Messrs. McCurrach, Crawford, Brown, Whiteside.
9. Duet, "Larboard Watch," Messrs. Turner and Horrell.
10. Instrumental Duet, Messrs. McAuliffe and Hudson.
11. Refreshments.

Miss MacColl, Accompanist.

Church Services Tomorrow.

St. Andrews' Presbyterian Church, Service tomorrow at 11 a. m. and 7:30 p. m. Sunday school and Bible class at 2:30 p. m. Rev. E. C. W. MacColl, B. A., pastor. A cordial welcome to all.
