The Phœnix Pioneer

AND BOUNDARY MINING JOURNAL.

[redacted]

ELEVENTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, APRIL 30, 1910 No. 23

IMPORTANT
ANNOUNCEMENT

We will take over the business of the HUNTER-KENDRICK COMPANY, LIMITED, of Phoenix, on MONDAY, May 15, 1910.

This is the most important business announcement ever made in the Boundary, and the buying public of Phoenix and surrounding district will benefit thereby. It will mean a big cut in prices. We can buy cheaper and will sell cheaper by doing a large volume of business with less proportionate expense.

Reduced Quotations

Look for the list of our reduced quotations in Groceries and Provisions in this space next week.

The big cut in Prices will mean more money for you and more for us.

MINING CHANCES IN THE SIMILKAMEEN

Opportunities That the Rustling Crowd Misses

"Professional boomers and legitimate prospectors have overlooked a good thing in the Similkameen mining district," according to R W. Northey, who says the district has ample ore and conveniences to make a great mining country. Writing from Olalla, Mr. Northey says:

"In the daily papers I see numerous statements concerning the sale or bonding of some copper properties in the northwest, more particularly in the Portland Canal district on the north coast of British Columbia. Here vast sums are being paid for undeveloped mineral claims situated somewhere in the neighborhood of a rich strike. All this reminds me of the Rossland boom of '95, '96 and '97, and in that boom I dare say some investors will be lucky enough to put their money on a winner, while others will content themselves with the reaping of an abundant crop of experience.

"Here's another instance of the old saying that distant pastures look greener than the fields close at hand. This section, the Similkameen, might have had a boom in '97-'98 if it had been accessible at that time, when the boom microbe was travelling westward from Rossland through the Boundary, but was diverted southward to Republic camp. There were not even wagon roads in this district then, the trails often being the creek beds at low water, and the only entrace from east or west being via the Dewdney trail; while north and south there were only deer tracts leading no where in particular.

"Here steadily at work grinding out dividends is the richest gold mine with the busiest stamp mill in Canada. The Nickel Plate stands first on the list of Canada's gold mines, and there are others just as good in the immediate vicinity, notably the Kingston. Then the gold-copper propositions are many. Some of these are low down and close to the railway; all of them are easy of access, easy to work and easy to buy or bond, while I have no doubt that most of them are capable of placing their owners on easy street if worked under proper conditions. Such conditions include the installing of machinery, which is beyond the present owners, who are prospectors and poor men.

"Last week I saw an assay certificate of a sample of ore from a claim situated four miles north of Keremeos on the Great Northern railway. It went 17.2 per cent. copper. About $3000 worth of work has been done on this claim by the owner, who has held onto to it for 16 years but is asking quite a moderate price for it. The ledge is well established and disclosed in three or four places for about 2000 feet with an average width of from 8 to 10 feet. On another claim, close by, the copper contents went $76.50.

"Here, then is a mining district that has never had a boom, it has been overlooked by the professional boomsters. Yet we have every facility and every feature necessary to the making of a rich mining country—high-grade ore bodies of fair size, 90 per cent. of the ores self-fluxing, easy of access, timber and water on the spot, coal close at hand, easy terms of purchase and situated on the main line of the Great Northern railway from Spokane to Vancouver when the Hope Mountain section is completed."

A BIG MERCANTILE DEAL CONSUMMATED

Morrin-Thompson Take Over Hunter-Kendrick Business

The most important mercantile deal in the history of the Boundary country has just been consummated in the purchase of the Hunter-Kendrick company's business in Phoenix by the Morrin-Thompson company. The consolidation will involve an annual business of about a quarter of a million dollars.

On May 15 next the Morrin Thompson company will take over the grocery and hardware business of the Hunter-Kendrick company, and will later take over the dry goods business as well.

Morrin-Thompson & Co. will continue their business in the lower town as well as their acquisition in the upper town, and expect that with their increased volume of business to buy cheaper and, together with the reduced expense under one management, to effect a considerable saving for the buying public of Phoenix.

May Lease Northport Smelter

Thomas Kiddie made a trip to Northport, Wash. lately in connection with the proposed leasing of the Northport smelting works to a syndicate which has been talking of operating the works on a custom basis. Nothing definite has yet been arranged, however.

The orchestra dance Thursday evening passed off very successfully. There was a good attendance of young people and the orchestra rendered many selections of new music.

Boundary Mining Notes

Reinforcements of timber have been placed in the tunnels between the Brooklyn and Idaho mines under Dominion avenue to prevent any possible cave-in.

Diamond drilling has been temporarily suspended on the Summit group of claims recently bonded by the Granby company. The drill will resume operations on Granby hill.

A contract has finally been signed between the British Columbia Copper company and the New Dominion Copper company, whereby the latter will ship for experimental purposes 25,000 tons of its ore to the Greenwood smelter. Shipping will commence from the Rawhide mine.

The next regular meeting of the directors of the Granby Consolidated Mining, Smelting and Power company takes place at the New York office of the company on Tuesday, May 3rd. General Manager J. P. Graves will be present and make a report and it is probable some important announcements will be made.

The ore shipments from the Granby and Snowshoe mines show somewhat of an increase over those of last week, though those from Mother Lode are small on account of having been closed by the labor trouble, representing only one day's shipment. The shipments for the week and for 1909, together with the smelter treatment follows:

	Week	Year
Granby mines	24,474	426,050
Snowshoe	3,310	61,250
Mother Lode	800	140,905
Oro Denoro	175	4,590
Sally		32
Golden Eagle		120
	28,759	632,947

SMELTER TREATMENT

Granby	21,175	405,966
B.C. Copper		139,060

B. C. COPPER CO. RESUME OPERATIONS

Forces at Works Gradually Increasing

The British Columbia Copper company properties are again all operating. At Mother Lode mine there is a force of 25 men at work and at the smelter about 35. Ore shipments have commenced from the mine but as yet none of the furnaces at the smelter have been blown in.

The strike situation appears to have resulted in a split of the union employees of the company. W. Davidson, district organizer for the Western Federation of Miners, made an effort to get the men to go to work and was instrumental in having a referendum vote taken The votes counted on Tuesday gave a small majority against going back to work, 81 voting in favor and 86 against.

The company commenced employing on Wednesday and the force is gradually increasing, a number of the union men going to work.

Rifle Association

The following was the result at the Rifle range Sunday:

D. Whitton	3	3	4	5	4	3	3—26
Chas. Wootton	4	3	4	4	4	3	—26
G. Kay	3	4	4	2	4	5	3—25
Jim Trumper	3	4	4	3	3	3	5—25
Walter Ross	3	3	4	3	4	3	4—24
H. Dowdle	4	3	4	4	4	3	0—22

The annual meeting of members of the Phoenix general hospital will be held in the office of the Phoenix Electric Light company on Wednesday evening, May 4th, at 8 o'clock.

Grace Cameron in Nancy

One of this season's great play successes is a play called "Nancy," which was written by C. H. Kerr, author of "The Beauty Doctor," "Little Dollie Dimples," etc. This piece will be presented in this city for one night, May 6th, and comes with a great company, headed by the peerless comedienne, Grace Cameron. The play is delightful and refreshing, full of heart interest and highly diverting comedy situations. Miss Cameron with the theatre and stage in absolute darkness, with the exception of the red glow of an old cook stove. In this particular scene, the dramatic situation is so intense that even though there is not a word spoken for nearly two minutes, you can hear a pin drop or a breath taken unusually strong by any members of the audience. During the action of the play Miss Cameron will sing several selections of the swingy order, and also of the big calatura variety. The supporting company is one of superior excellence, comprising such well known names as Pheobe Cardownie, Jack Raymond, Christopher Nelson, Frank Watters, and many others. The scenic, mechanic, and electrical effects are particularly elaborate, and the production will be shown here in its entirety, the same as in all the metropolitan cities. One of the most pleasing effects in "Nancy," the new comedy in which Miss Grace Cameron will be seen at the opera house, Phoenix, on Friday, May 6.

PROMINENT NEW YORK METALLURGIST HERE

On Visit to Granby Smelter and Mines

James B. Herreschoff, a prominent metallurgist of New York, is a visitor in Phoenix, the guest of the Granby company. Mr. Herreschoff is superintendent of the Nichols Copper company, which is an important factor in the copper world, controlling a large number of producers. Its chief business is the refining of copper, handling 400,000,000 pounds annually—equalling about a third of the output of the United States or twenty per cent. of the world's product. All of the Granby's blister copper goes to the Nichols refinery, which is located on the outskirts of Brooklyn.

Mr. Herreschoff, who travels considerably in the interests of this company, said he had come to the Boundary to see the Granby smelting plant and mines. He visited the smelter on Thursday and was shown the mines yesterday by Superintendent O. B. Smith and commented on the wonderful advancement which had been made at the properties since his last visit in 1903.

Asked as to his opinion of the future price of copper, Mr. Herreschoff said it was difficult to figure on an advance and smilingly remarked that the price could not go much lower. However, history repeats itself, he said; a high price tends to greater production and a smaller consumption, while a low price curtails the output and stimulates consumption. Although demand for the red metal has not yet increased sufficiently to counteract the output, it will assuredly come, consumption will exceed production and the rise in the copper market follow. Mr. Herreschoff does not look for the success of any merger to control the output of copper; such a merger is largely newspaper discussions.

Sheep Creek District

In the southern portion of Nelson mining division there are three mining camps—Ymir, Salmo and Erie—in which mining is carried on with little intermission throughout the year. Ymir used to be far and away the most important part of the district, but since the suspension of production at the Ymir mine, it has not been so prominent, though last year the Yankee Girl group made a substantial showing with a production of more than 3000 tons of ore containing approximately 4500 ounces of gold and 23,000 ounces of silver. This mine continues to be productive. Lately another, the Iona, has also come into notice, and preparations are being made for a resumption of work on the Dundee, after a long period of inactivity, following the destruction of its surface works by fire some years ago.

In Erie Camp, the Second Relief and Arlington gold mines have both contributed to the annual production of the district, but the former has not been so successful latterly as during several earlier years. The Arlington's production while not large, is fairly uniform year after year, approximately 3000 ounces of gold and 6000 to 7000 ounces of silver.

William Oxley, who has been connected with the Granby mines for the past five years, leaves next week for South America to take a position with a mining company operating near Valparaiso, Chile.

90 CLAIMS BONDED BY MANN SYNDICATE

Mining Operations in Portland Canal District

The proposed mining operations of Donald D. Mann and his associates in the Portland district will be carried out on a scale of magnitude unparalleled in the history of lode mining in British Columbia.

It has been announced that thus far ninety mineral claims have been bonded, the latest acquisitions being groups at Maple Bay and Goose Bay, in the same district. The various properties comprise straight smelting and concentrating ores, the values being in nearly every kind of metal, chiefly gold, copper, silver and lead. It is not expected that all the claims will "make good," but wherever there is a chance of making a mine development work will be maintained and payments on the bonds continued. In so large a number, many of which have not even been carefully examined, there is bound to exist the usual percentage of "wildcats."

Ownership in the bonds or options will be vested in a new corporation recently incorporated at Toronto and styled the Pacific Coast Mining & Development Co.

The mining operations of the company in the North will be under the direction of H. E. Knobel, M.E., who personally examined many of the properties last fall.

R. S. Fraser returned from Spokane on Saturday but little improved in health. He intends leaving shortly to spend the summer on his ranch near Spokane.

Boundary Side Lights

The street sprinkler at Grand Forks has opened its season.

Duncan Ross has purchased a residence in Victoria.

"Busy Bees" is the name of a new ladies organization at Cascade.

J. F. Royer, liveryman of Grand Forks, is leaving for Saskatchewan.

Greenwood assize court for May has been cancelled, there being no docket.

Joseph Bassett, proprietor of Hartford hotel, is on a tour through eastern Canada.

George R. Naden, formerly of Greenwood, is running for alderman at Prince Rupert.

The district meeting of Methodist ministers and officials takes place in Grand Forks on May 3.

James Grier, recently of the Greenwood Ledge will shortly start the publication of the Slocan Record at New Denver.

The Kettle Valley Rifle association at Grand Forks is equipping a new range. Butts will be erected at distances up to 1000 yards.

Investigation has been initiated at Victoria with a view to selecting a site near Phoenix for a district isolation hospital for the joint use of Phoenix, Grand Forks, Greenwood and Mother Lode.

On account of the demand for men all over western Canada and particularly in northern British Columbia, miners promise to be scarce through this district this summer. Many hardy prospectors are packing their grub stake to the new mineral fields at Portland Canal while others are trekking to ranch lands.

A big agricultural fair is promised for Midway this fall. Representatives from Greenwood, Midway, Rock Creek, Myncaster, Bridesville, Sidley and Beaverdell, interested in the organization of the Southern B.C. Fair association, decided on holding the initial show at Midway. It was considered the most suitable point by ranchers of the West Fork, who were enthusiastic in promoting an annual fair. The provincial government will make an appropriation of $500 which will be supplemented by an equal amount raised locally and will be distributed in prizes.

Christena Lake

Everything points to a big season at Christena lake this summer. The popularity of this natural beauty spot of the Boundary as a summer resort last year started the whirl of excitement for this outing season. A large number of new locations have been secured and cottages will be erected.

Among the improvements at the lake this year will be a $1200 dance pavilion which will be built at once. Dancing is always popular among the holiday visitors and arrangements have been made for an orchestra.

Ole Johnson has also commenced the construction of a sixteen-roomed addition to his hotel.

Excitement will run high here on May 1st. A big boat race will be pulled off between Elmer Ness and John B. Mitchell for a side bet of $50. Both the contestants are well known, and several other bets have already been made on the outcome.

Belasco's St. Elmo

Willard Holcomb's dramatization of Augusta Evans' novel "St. Elmo" was presented by the Alcazar touring company in Phoenix opera house on Friday evening of last week to a large and appreciative audience. The company was one of exceptional merit for Phoenix and it is seldom an attraction in the local playhouse has given such general satisfaction. While the dramatist has taken considerable license from the printed story, the play was of a high tone and entirely an enjoyable stage version. St. Elmo is an exceptionally strong character and in its portrayal Charles E. Gunn fully sustained his ability as an impersonator with magnetic personality. In the role of Edna Earl, the blacksmith's granddaughter, Miss Gerda Nelson was eminently successful, being naturally talented for the presentation of the peculiarly attractive heroine. While the entire caste was good, Bellew Baldwin as the Rev. John Hammond and Louise Brownell as Agnes Powell were conspicuously successful in difficult roles.

The show was in every way a success and the theatre-goers of Phoenix may look forward to other attractions in charge of Frederick Belasco.

Tuesday's Fire

A dwelling on west Dominion avenue, owned by Alex. McDonald, was badly gutted by fire Tuesday afternoon. The fire got considerable headway in the roof of the building before the arrival of the brigade and took some time to extinguish. D. L Parker and family, who had been living in the house for some time had just moved out. The fire is said to have been caused by some small boys who were playing about the building.

The Finest Flavoured Tea

"SALADA" is hill-grown tea—grown on plantations high up on the hills in the Island of Ceylon. The leaf is small and tender with a rich, full flavour.

"SALADA"

13A

is always of unvarying good quality. Will you be content with common tea when you can get "SALADA"?

Black, Mixed and Natural Green, 40c, 50c, 60c and 70c per lb.

The Granby—Miner's Grit.

S. H. C. Miner was the man whose grit and money or credit made Granby. He was at that time both younger in years and experience than he now is—otherwise Granby might never have been made—at least by him. It is neither here or there how he came to put his money into a British Columbia mining speculation, or whether Graves or White was the individual who provided the persuasion. Suffice it to say that Miner was in at the birth, and that he was the man who provided the wherewith to make of Granby the most successful mining proposition in British Columbia.

As already intimated, the big consolidation began with a mine or prospect known as Knob Hill and another one known as Old Ironsides. They were, and are, located at Phoenix, B. C. As work progressed, it became evident that failure would be the outcome unless smelting facilities could be provided close at hand. The result was the organization of the Granby Smelting company. The smelter was erected on the Kettle river, at Grand Forks, some considerable distance from Phoenix. Later were taken in a number of other companies, representing a considerable territory of ground in which copper existed, or was supposed to exist, in paying quantities. In the end, the proposition became a formidable one, and had it not been for Mr. Miner's large financial resources would probably never have succeeded.

A great deal of high grade copper ore was being shown in Montreal, those times, as coming from mines situated in various districts of British Columbia. The ore coming from the properties forming the Granby group was of low quality. Evidently the virtues of this high grade ore had been expounded upon to the detriment of the Old Ironsides and Knob Hill, for Mr. Miner was wont to remark somewhat testily, that those high grade propositions would be dead and buried long before his low grade proposition had reached its zenith. In support of his contention, he would refer to the experience of well known copper mines, such of Rio Tinto, and the results certainly confirmed his contentions. The advantages of Miner's low grade proposition was that mining became quarrying. The values were disseminated in such a manner that picking and grading were abandoned, and it was decided that the old mountain should be removed and shoved into the smelter. The steam shovels simply scoop it up in sections, and in the subsequent operations the mineral is saved and the residue finds its way back to the dump. Had it not been for certain self-fluxing qualities attending the scientific mixing of the ores, the ultimate outcome would have been problematical. As it was, one difficulty after another was surmounted, but not until Mr. Miner had personally backed the proposition, it is said, to upwards of $1,000,000. Then came the consolidation of various properties into the Granby Consolidated Mining, Smelting & Power company, with a capitalization of $15,000,000, of which $13,363,030 was paid up. Mr. Miner was president and Jay P. Graves vice president and general manager.

The first dividend was paid December 16, 1903, and consisted of 1 per cent. At the following annual meeting, for the year ending June 30, 1904, Mr. Miner resigned the presidency, having been identified with the property for seven years. He still remained one of the largest shareholders at that time. The fact is, Jim Hill and his Great Northern Railway interests had obtained control, Hill's object being to make the mine serve as a source of supply of freight for his railway.

The par value of the Consolidated company's shares was originally $5. The mines have had many ups and downs during their ten years of operation, and the stock of the Consolidation has experienced many fluctuations, as dividends were declared and became doubtful or were passed altogether. During 1904, the stock sold down to 25 per cent of its par value. In 1907, the shares having been converted into $100 shares, the price reached 151, being the record point. Recently the shares remaining in the treasury were underwritten at 85, and the stock this week broke to 37.—Toronto Saturday Night.

BUNLIGHT SOAP

ALL OVER THE WORLD thousands of housewives use Sunlight Soap in preference to any other, because it cleanses the clothes more thoroughly, and at half the cost without injury to hands or fabric. Follow directions.

JOE'S GOSPEL OF ENLIGHTENMENT

Speaking at Whitefield tabernacle, in London, recently, Joe Martin said that it was not desirable that Canadians should come here "begging for titles," and suggested that a heavy import duty be placed on titles taken into Canada. Mr. Martin also stated that in Canada temperance had made greater progress than in any other country, but, unfortunately, here widows and orphans held brewery and distillery shares, and Church of England clergymen took the platform in the drink interest. The laws of Canada were made with regard to the general welfare of the people, and there was not in Canada, happily, the same distinction of class as here. The hospitals, too, were not conducted as charitable institutions, and the patients received attention as their right; the poor were looked after in a similar way, there being no such thing as a workhouse for the Canadian.

Homesteading Information.

The eighth edition of the homestead map of Manitoba, Saskatchewan and Alberta, corrected to January 1st, 1910, for which there have been many inquiries from all parts of Canada and the United States, has been issued by the department of the interior. This map, in addition to showing all the railways, post offices, and new surveys up to date shows at a glance, by systems of the colouring used, the progress of settlement from year to year, the homesteads of the year 1909 being shown as on the previous additions in special red color, also all the timber berths and grazing leases. The map is of special value to all persons having interests in the prairie provinces. All lands disposed of are shown in various colors, and the uncolored portions show the land yet available for settlement.

Many vocalists attempt Scottish songs but Jessie Maclachlan lives them. She will be heard in Phoenix on May 11th.

PROVINCIAL.

Merritt has a daily train service.

Cranbrook will form a rifle association.

The Prince Rupert Empire now issues a daily edition.

Cranbrook's new 24-hour electric plant is now in operation.

McKenna & Johnson will have the first hotel in Fort George.

A pair of Fernie youths have broken loose in the amateur hold-up business.

The little steamer Alberta has been considerably damagaed by fire at Riondel.

Revelstoke is looking forward to the erection of a $100,000 hotel in the business section of the city.

It is proposed to erect a special wing for the treatment of tuberculosis cases in connection with the Nelson general hospital.

The Vancouver land boom has reached its limit, and real estate deals, excepting for inside property, are at a standstill for the present.

A party of English tourists in charge of F. W. Frier, editor of The Colonizer, will leave England April 23rd and will visit every part of British Columbia.

The C.P.R. is expected to start in earnest this year to complete the Arrowhead and Kootenay railway to connect the main line at Revelstoke with the Crows Nest road via the Lardeau.

Fernie has decided to raise $10,000 for street improvements, $7,000 for schools, $6,000 for electric light extensions, $1,000 for water extensions, $2,700 for surface drainage, and $41,000 for sewers.

The Princess Charlotte cut nearly a minute and a half from the record held by the Princess Victoria for the run between Victoria and Seattle when she made the distance in two hours, fifty-seven and a half minutes on Saturday.

Optimism at Rossland.

There are many people in Rossland who have little or no idea of the excellent work being carried on along the Columbia and Kootenay road. Where, not so very long ago all was wilderness or brush, there are now springing up beautiful cultivated lands, giving promise of being exceedingly valuable profit-making properties in a very few years to come. The outlay represented must be many thousands of dollars, the ultimate value is well nigh incalculable.—Rossland Miner.

To Command Niobe.

Commander William Balfour Macdonald, son of Senator Macdonald of Victoria, has been appointed to the command of H.M.S. Niobe, bought by Canada and due at Halifax on July 10, to form the nucleus of Canada's navy. He is a native son of Victoria.

PROVINCIAL CONFERENCE

The annual conference of the Methodist church of British Columbia will take place in Nelson in May. The conference will be held in Trinity Methodist church, commencing Thursday, May 12, and will continue for a week. Prior to the official opening, two days will be given to stationing and other committee work.

Lovers of good shows should not fail to bear in mind the fact that Jessie Maclachlan and her grand Scottish concert company will be in Phoenix on the evening of Friday, May 11. Miss Maclachlan is recognized as "Scotland's Queen of Song," and is a master both in English and Gaelic compositions.

FELL ON THE STOVE.

BABY IS BADLY BURNED

The young daughter of Mrs. T. S Dougall, 523 Flora Avenue, Winnipeg, was arranging some of her doll's washing on a clothes rack, beside the stove, when she fell, and her hand, being thrown out to try and save herself, came in contact with the side of the hot stove. She sustained a serious burn, and her screams brought her mother quickly to the spot.

"I sent to the druggist for the best remedy he had for burns," she says, "and he sent back a box of Zam-Buk. He said that there was nothing to equal it. I applied this, and it soothed pain so quickly that the child laughed through her tears. I bound up the hand in Zam-Buk, and each day applied Zam-Buk frequently and liberally, until the burn was quite cured.

"The little one was soon able to go on with her play, and we had no trouble with her during the time the burn was being healed. I would recommend all mothers to keep Zam-Buk handy for emergencies of this kind."

All druggists and stores sell Zam-Buk at fifty cents box. Post free from Zam-Buk Co., Toronto, for price, and you are warned against harmful imitations.

CANAL ACROSS THE PRAIRIE

"Sooner or later," declared Louis Coste, engineer of the International Waterways committee, before a subcommittee on the Conmee bill at Ottawa, "Canada will demand the construction of a canal from Lake Superior right through to Edmonton. If such a canal is not built in the course of time I believe Canada will lose the grain carrying trade of the country."

Coste was giving evidence on a bill to incorporate a company to build a canal from Lake Superior to Lake Winnipeg. From an engineering standpoint, he said, the scheme was feasible. It would be possible to build a canal along the proposed route 40 feet wide and containing seven feet of water.

Coste said there was no objection to the scheme by reason of the route being for some distance along international waters. He believed the Americans would fall in with the proposal of building the canal, because American territory would be developed.

Juvenile Bostonians Coming

Music lovers and admirers of light opera have a musical treat in store for them in the visit to this city of the Juvenile Bostonians, which will give one performance here Monday May 2.

This musical aggregation comes to Phoenix with the highest recommendations and is composed of 20 clever little girls ranging in age from 12 to 18. They render the very best of musical numbers and their repertoire includes many of the latest high class musical comedies and comic operas. All of the parts are taken by the little girls, some assuming the male roles and others the female parts and the voices of all have received the very best training that it has been possible to give them. All of the productions are mounted in a most lavish style, careful attention being given to every detail. In fact it is one of the cleverest and most unique attractions that will appear in Phoenix this season.

Some new whistly airs are introduced with the Juvenile Bostonians that take like wild fire. The Moonbeam Quartette is a feature and renders some new songs that should be heard to be appreciated. This company will appear here in the latest musical comedy "Berta's Billion."

WOMEN'S BEAUTY

It Can Never Be Perfect Without Luxuriant Hair

A head of luxuriant hair is sure to be attractive. But nature has not crowned every woman with glorious hair. Some very lovable woman she has treated rather scantily in this respect.

For instance, there are tens of thousands of women in Canada to-day who have harsh, faded and lustreless hair, who are unattractive simply because they do not know that nowadays even the whims of nature can be overruled by the genius of science.

If you are a woman without beautiful hair do not permit your attractions to be hidden because of this slight misfortune.

Go to-day to John Love and buy a large bottle of Parisian Sage for 50 cents use it each night, and you will notice the harsh, repulsive hair disappear, and in its place will come soft, silky, bright and luxuriant hair.

Parisian Sage is guaranteed by John Love to cure dandruff, itching of the scalp, and stop falling hair in two weeks, or money back.

Phoenix Railway Timetable.

Probably no ballad singer on the concert stage has ever been able to touch the hearts of her hearers quite so completely as Jessie Maclachlan, and her voice has, certainly lost none of its charm. She was recalled again and again, and the audience could hardly be persuaded to let her leave the stage.—Toronto Mail and Empire.

COLUMBIAN COLLEGE.

Founded 1892—Incorporated 1893.
NEW WESTMINSTER, B.C.

Provides a Christian home for students of both sexes at moderate rates Has a preparatory class for junior students, doing grade public school work Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a Practical Business Course and gives Diplomas. Gives a liberal education in its Collegiate Course and in the Ladies' Course for M.E.L. and M.L.A. In University work, can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in int affiliation.

For fuller information and terms write Rev. W. J. Sipperell, B.A., B.D., Principal; or Rev. J. P. Bowell, Bursar.

TALES FROM THE WONDERFUL WEST

A Dear Little Girl
At The Rink
Sat Down Just as Quick
As a Wink:
Said She "I don't See
Why They Giggle at Me,
It is Very Polite—
I Don't Think!
I'll Just Sling The Old Skates
Out of Sight
And Stay Home With My Mother
At Night;
I Will Learn Light House Keeping
with

Royal Crown Soap

And May Soon Have a Home of My Own
Don't You Hope:
That Will Beat Roller Skating
All Right."

COPPER

The New Edition of the

COPPER HANDBOOK

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its greater bulk. It is filled with FACTS of vital importance to Vol. VIII, issued May, 1909, contains 1600 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents; Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book On Copper.

TERMS are the most liberal. Send no money, but order the book sent to you, all carriage charges prepaid on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

PRICE is $5 in buckram with gilt top, or $7.50 in genuine full library morocco.

WRITE NOW to the editor and publisher,

Horace J. Stevens

36, SHELDEN BUILDING, HOUGHTON, MICH., U.S.A.

BLOW IN FIFTH COPPER FURNACE

At Trail the Canadian Consolidated is just blowing in a fifth copper furnace, bringing up the treatment capacity to 1500 tons a day. The output for the year ending June 30 next should be about six million dollars, fifty per cent. of which represents gold. The refinery continues to ship most of its silver to China, although an increasing quantity is being absorbed by the Ottawa mint for coinage purposes. All the new silver coins in circulation are made out of British Columbia metal.

The Canadian market for pig lead is increasing rapidly and the supply is coming almost entirely from Trail. One result has been that export shipments to China and Japan are becoming less each year. At the present rate of increase of consumption due to the remarkable growth and development in the western provinces, it will only be a short time before the entire pig lead production of Canada will be used at home.

Fatal Battle at Rupert

C. Heaton, better known as "the Colorado Kid," was fatally injured by Detective McKenzie in a street fight at Prince Rupert, during which many bullets were exchanged. The trouble arose over a "blind pig" arrest.

$335,000 IN LEAD BOUNTIES

The sum of $335,000 one third of a million, has been paid out during the year ending March 31st—or rather for that year, because the shipping mines had till April 15 to get their final statements in—in lead bounties in Canada. All of this sum comes to British Columbia, and in fact, to the properties shipping to the smelter at Trail, of the Consolidated Mining and Smelting company, as nowhere else in Canada is lead mined or refined. Of the bounty, 60 per cent. was paid from month to month, on the claims presented by the shipping mines, the remaining 40 per cent. being held back till the end of the Dominion fiscal year, March 31, and paid upon the actual returns of the smelter.

Claim-Jumping at New Camp

An Alaska boom camp which is already creating tremendous excitement has sprung up at the mouth of the Salmon river, about two miles from Stewart on the Alaska side of the boundary line. About 1000 lots have been staked by squatters and there promises to be a merry war over claim-jumping.

Trout Lake is now open for navigation and the C.P.R. is accepting freight and passengers for that service.

B. C. MINING

There is considerable mining activity at Sandon. Some five leads have been struck on the Standard, and work will shortly commence on the Payne property.

The working force of the Big Ledge near Nakusp is to be increased to thirty men shortly. The Big Ledge is an immense zinc ore proposition of low grade variety, the surface showings of which can be traced for miles.

Conditions at the mines in Middlesboro are improving all the time. The C.P.R. is bringing in more empties with the result that more coal can be shipped. About three hundred men are at work and the payroll last month reached over $21,000.

A. W. Aldridge, manager of the C.P.R. Mines Department, is at the coast closing a deal for the purchase of coal interests of the Western Fuel Co. of Nanaimo, as an offset to the acquisition of the Dunsmuir mines by the Canadian Northern.

BOUNDARY & KOOTENAY 1909 ORE RECORD

Shipments and Smelter Receipts Per Year to Date.

Ore shipments from the various mines of Boundary and Kootenay, and the receipts of ore at the smelters of Southeastern British Columbia for last week and for 1910 to date are as follows:

SHIPMENTS.	WEEK.	YEAR.
Boundary	33,818	608,425
Rossland	5,525	81,236
East Columbia River	5,236	105,771
Total	44,574	795,432
SMELTER RECEIPTS—		
Granby	23,408	402,789
B.C. Copper Co.	6,675	144,960
Trail	10,017	161,125
Total	40,100	708,874

Great Interest Awakened

"The building of the Grand Trunk Pacific and Canadian Northern railways has awakened very great interest in the agricultural and mining possibilities of British Columbia throughout Eastern Canada and the United States. There will be a large influx of new comers this year. The majority of them will locate on ranches or engage in fruit-growing," said John E. Langan of Chicago in a Vancouver interview.

PE-RU-NA PROMPTLY RELIEVES

A Case of Dreadful Suffering Which Had Continued For Months.

An Account of a Remarkable Recovery Given By Mr. Alfred Wood, Teacher of a Private School at Launceston, Tasmania.

MR. AND MRS. ALFRED WOOD.

Mr. Alfred Wood, who has a private school at 29 Frederick street, Launceston, Tasmania (Australia), has been a teacher for 37 years under the Educational Department of Tasmania. He writes, concerning his wife's case, as follows:

"My wife was suffering for months from gastro-enteritis, and was given up by her medical attendant.

"By good fortune I was induced to try Peruna in her case, and I can truthfully state that from the first dose her *dreadful suffering* ceased; and after taking five bottles she is *permanently cured.*"

HOW does Peruna make such extraordinary cures as above recited?

By simply arousing the *forces of Nature* to throw off the diseased action.

Peruna contains no magic and does not operate in any mysterious way, but it does *help Nature to combat disease,* and thus many times comes to the rescue of the patient in some important crisis.

There is always a time in the course of any disease when a little help goes a great way.

Just as the scales are beginning to descend, when one ounce more would determine the fate of the patient, a little lift will turn the scales in favor of the patient.

Peruna is a handy medicine to have in the household.

It helps many diseases by *imparting a natural vigor* to the whole system.

As a tonic or catarrh remedy, its reputation is well established all over the world.

As a remedy for *stomach and bowel disease,* the fame of Peruna is undoubtedly destined to become greater than that of any other medicine in the world.

A great many cases like that above referred to have found Peruna of untold value when no other help seemed of any avail.

Pe-ru-na For Indigestion.

Mr. Donald Robb, Jr., 16 Wright Ave., Halifax, Nova Scotia, member Independent Order of Foresters, writes:

"While on a visit to Boston, I must have eaten something that did not agree with my stomach, as a terrible case of *indigestion* followed.

"*Peruna was recommended* to me and after using three bottles I was *entirely cured.*

"I therefore recommend Peruna to any one suffering with stomach trouble."

Mr. Chas. Brown, Hogersville, Tenn., writes:

"A friend advised me to take Peruna for indigestion and it cured me in a short time."

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

FIELD MINE SOON TO SHIP

The Monarch mine at Field is being actively developed and is turning out well. Instead of being worked from the face of the cliff on Mt. Stephen as formerly, a tunnel has been run 300 feet and a raise then made 400 feet up to the ore, large rooms of which have been discovered and will afford an immense tonnage. The recent ore discoveries are of almost pure lead, pure sulphide or galena, there being hardly any zinc but the ore carries 6 ounces to the ton in silver. The compressor is being operated by gasoline. The mine will shortly start shipping to Trail smelter.

The Exodus to Canada

A New York exchange says: "Since 1903, 300,000 persons have gone to Canada from the United States as settlers; 200,000 have been farmers and farm laborers. In the same six years entries were made from all sources for 189,913 homesteads under Canadian laws, more than 36% being taken by homesteaders from the United States. The exodus from this country to Canada is now estimated to run at 100,000 persons a year, who take $100,000,000 with them.

If there is a chance to boom business, boom it. Don't put on a long face and look as though you were on the sick-list. Hold up your head, smile and look for other things.

HOTEL FOR SALE

I offer for sale the choicest hotel property in Phoenix. The building contains fifty rooms, also three stores, all in good condition, located in the business centre, corner of Knob Hill avenue and First street. Terms given to the right parties. Apply to owner,

D. Oxley, Phoenix.

PROPOSED BIG C. P. R. TUNNEL

The C.P.R. have under consideration altering their line through Rogers Pass and running up the Beaver valley to a proposed tunnel under Mt. Sir Donald, coming out at Glacier. The tunnel would be four to five miles in length and it is stated would soon save its cost in the maintenance and construction of snowsheds, besides avoiding the danger of slides in the pass A factor in the problem is that the time is at hand when all snowsheds and the extensive crib-work connected with some of them would have to be wholly renewed in any case.

"Lettergrams"

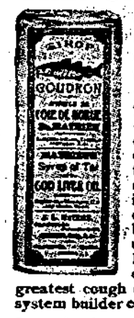
Local telegraph companies have commenced the handling of "night lettergrams" to all points in Canada and the United States to which their systems extend. Fifty words in plain English, code and cipher prohibited, will be handled at the standard day rate for a ten-word day rate message, and one-fifth of the standard day rate for a ten-word day rate message will be charged for each additional ten words or less in such night lettergrams These lettergrams will be delivered, or mailed, to the addresses on the next ensuing business day.

Gigantic Land Scheme

A gigantic new land scheme is about to be performed near Nakusp, whereby 400 acres of land will be cleared at Sunnyside, six miles south of the town, at the foot of the lake and within sight of Nakusp. The Arrow Lakes Orchard company are bringing in a huge land clearing machine, operated by steam, and work will be commenced within a week or two.

The popular Juvenile Bostonians will appear in Phoenix opera house on Monday, May 2nd.

Consumption May Follow That Cold.



Colds are the beginning of most tubercular troubles.

Mathieu's Syrup of Tar and Cod Liver Oil arrests the disease, cures the cough, dissipates the cold, soothes and heals the inflamed and diseased tissue and builds the system up.

It is beyond all question the greatest cough and cold cure and system builder combined.

Large bottle 35 cts from all dealers.

J. L. Mathieu Co. Props., Sherbrooke, P.Q.

Distributors for Western Canada, Foley Bros., Larson & Co., Vancouver, Edmonton, Winnipeg.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Joseph Small left Monday on a trip to England.

Ernest Miller of Grand Forks was in town yesterday.

F. C. Buckless of Greenwood was in town Tuesday.

There will be a dance in the Scandinavian hall tonight.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B.C.

House and lot for sale on Spion Kop; Apply to O. Hanson.

C. J. McAstocker left Tuesday for Nelson on a week's holiday.

Expert watch repairing at Black's jewelry store; satisfaction guaranteed.

William VanWaggener left on Monday on a month's visit to Saskatchewan.

Mrs. C. Avory arrived Saturday from Grand Forks to take up residence here.

Sunday last was a summer day in Phoenix, mercury going up to about 80.

A. D. McKenzie visited his ranch near Keremeos for a few days last week.

Mrs. Arthur Webster spent a few days of this week with friends at Cascade.

John McIvor and James Park left Tuesday morning for the Portland Canal district.

Brighten your rooms with wall paper, now selling at reduced prices at A. Almstrom's.

Fresh strawberries—the first of the season—were served at the Brooklyn last Saturday.

Born—In Phoenix, on Wednesday, April 27, to Mr. and Mrs. O. B. Smith jr., a daughter.

Water in the lake is gradually raising. There has been a rise of 6 feet in the past two weeks.

Mrs P. J. Cooke returned to town last week after an extended visit at her former home at Granby, Quebec.

Lifebuoy Soap is delightfully refreshing for Bath or Toilet. For washing underclothing it is unequalled. Cleanses and refines.

John Picthall was at Boundary Falls for a few days this week pumping water into the 100,000-gallon tank at the smelter.

The Sacrament of the Lord's Supper will be administered at the close of the Methodist Service next Sunday (tomorrow) evening.

P. J. Cosgrove was nominated for the board of school trustees on Wednesday, and being the only nominee was declared duly elected.

Don't fail to hear Craighall Sherry in mirth-provoking sketches and impersonations—with the Jessie Maclachlan company, May 11th.

Eric Jackson will leave today for the northern coast. He will spend the summer prospecting in the Portland Canal district for a mining company.

G. W. McAuliffe was in town from Hedley this week. Mr. McAuliffe leaves shortly to spend the summer on his ranch at Cahality, near Kamloops.

Members of Snowshoe lodge, No. 46, and Phoenix Rebekah lodge, Independent Order of Odd Fellows, to the number of about fifty, attended special anniversary services at the Methodist church on Sunday evening. The Rev. R. W. Hibbert delivered an eloquent and forceful sermon, taking his text from 1 Samuel 18:1, and read from the parable of the Good Samaritan. He dwelt on the three link emblem of the order—Friendship, Truth and Love—and the exalted teachings of Odd Fellowship and referred to the splendid work being done in the cause of humanity. He exhorted members to live up to the principles of the order.

Charles H. Flood was in town from Fife for a few days this week.

To rent—four-roomed dwelling, close to Granby; apply C. A. Ross.

George Johns has again taken a position at the Rawhide mine.

W. Oxley is visiting friends at Curlew, prior to leaving for Chile.

Mrs. F. Boyce and son Frank spent the week-end in Grand Forks.

Miss Nellie Ingram returned Thursday evening from Halcyon springs.

Furnished rooms to rent, Aetna rooming house; apply to A. Webster.

Born—In Phoenix, on Wednesday, April 27, to Mr. and Mrs. J. Oliver, a son.

A. D. McKenzie has disposed of his interest in the Dominion hotel to A. Schulli.

Mrs. W. Bellis returned last week from an extended visit to her home in Wales.

The Grace Cameron opera company will play an engagement in Phoenix on May 6th.

A new sidewalk is badly needed along the business section of Knob Hill avenue.

Mr. and Mrs. P. Tinnetti and family returned Saturday from an extended visit to Spokane.

Palmer J. Cooke leaves today for the Portland Canal district where he will prospect for a syndicate.

J. J Strutzel returned Saturday from a trip to the coast, having been inspecting the Pemberton district.

Large and attractive lines of wall paper being cleared at bargain prices at A Almstrom's, McRae store.

A W. Worgan of Hedley, representing non-tariff insurance companies, was in town for a few days this week.

It has been decided that annual instead of semi-annual examinations for admission to a high school, will be held on the last three school days in June.

If you are thinking of building or require building material of any kind—lumber, shingles, lime, brick—call on me for figures. Phone A44. C. A. Ross.

Daniel Draisey, who has been undergoing medical treatment in Vancouver for some months, is progressing favorably and will probably return to Phoenix next week.

The operetta, "Bertha's Billion" presented last night, gave an opportunity to the juveniles for the introduction of many popular and catchy musical numbers. Babe Mason as Bertha, the bewitching little Swiss girl, who has inherited a fortune and refuses to leave her kind friends to take a trip to America, led all others in the amount of applause received, and in the number of encores.—Edmonton Journal.

Mr. and Mrs. L. J. Stalls leave today for Spokane, where they will take up residence. Mr. and Mrs. Stalls have been residents of Phoenix for a number of years and have a large circle of friends who will regret their departure.

It is intended to form a lodge of the daughters of Rebekah, I.O.O.F., in Grand Forks. Next Wednesday evening, May 4, a dozen or more candidates from that city will have the degree conferred on them by the Phoenix lodge.

Every day is "Tag Day" with the dog catcher now who has a monetary interest in decorating every canine with the official badge of liberty. Dog owners who wish to prolong the life and liberty of their pets should make their peace with city clerk without delay.

Chief N. Lemieux of the public works department is to be congratulated on the great improvement made in the appearance of the city streets this week. The clean up has made a wonderful change and we hope residents will fall in line and extend the clean-up idea to their premises.

Randolph Stuart, who has just severed his connection as editor of Greenwood Times, was in town on Tuesday saying good-bye to old friends prior to leaving for Alberta in the course of a couple of weeks. Mr. Stuart helped G. W. Ramberger drive the stakes of the first camp in Phoenix over 17 years ago.

Advertising Talk

To make your advertising pay you must put your best thought into it.

It is just as important that you do this as it is that you devote your best efforts to any other vital part of your business.

Newspaper advertising is conceded by America's most successful merchants to be the most profitable of all.

If you desire to reach the people of Phoenix and the Boundary country with a word picture of the goods you have for sale the best medium by which you may do so is

The Phoenix Pioneer

GET THE HABIT

BUY AT CARSON'S

Everything new, stylish and up-to-date. A storeful of just the Clothing you want, and everything worth your buying in Hats and Furnishings. The wide range of new styles, the great variety of Clothing, the sumptuous tailoring, and the absence of fancy prices combine to make this store of unusual interest to men. We make a specialty of

Clothing that Looks Well
Clothing that Keeps its Shape
Clothing that Fits Comfortably

Clothing that does not shrivel at the seams or creep up the arms. Clothing that is made of thoroughly shrunken fabrics, carefully trimmed, and with the hand-work that is usually found in custom-made garments.

Clothing that presents the maximum correctness in style, presented in all the various forms that are right this season, and in the broadest possible range of fabrics, plain and fancy.

Boy's Suits

We have just a splendid range of Boy's Suits to our stock. All our boys' garments are liberally cut, allowing plenty of freedom; solidly tailored, allowing plenty of straining, and all moderately priced.

N. J. Carson & Co.

FURNITURE

A glance at our windows and displays will give you ideas and suggestions as to how to make you Home more attractive and comfortable. Its satisfying to get such real Bargains as we offer.

Call and have a look at our new Stock of RUGS JUST IN.
