MORRIN, THOMPSON & CO.

SPEND MILLION IN PHOENIX

New Smelter and Extensive Program of Development Has Been Mapped Out.

"We expect to build a new smelter in the Boundary at an early date," said Mr. Samuel Newhouse, Wednesday to the Pioneer man. "The present smelter which the Dominion Copper Co. owns at Boundary Falls, recently acquired in a deal for the Montreal & Boston mines, is not adapted for economical operation. It has no ore bin room, or coke bin room, and is lacking in room for a slag dump. The slag dump room should be sufficient to last 25 years at least in building a smelter. We have not yet decided where the smelter will be constructed, but it is likely to be either at Greenwood or Midway, inducements being offered by both places.

Mr Newhouse is the managing director of the Dominion Copper Co., Ltd., and made the trip to Phoenix with a party of New York men who are interested, travelling in a private Pullman coach, formerly Jay Gould's car. While the party was here, the members visited the company's Brooklyn, Stemwinder, Rawhide and Idaho mines in this camp, being accompanied by the resident manager, T. R. Drummond, as well as the smelter at Boundary Falls. When in Phoenix they were also shown over the Granby mines by Supt. Hodges. The full personnel of the party was as follows:

Those in The Party.

Warner Miller, formerly United States senator from New York state, president of the Dominion Copper Co.; John M. Shaw, of the banking firm of J. B. Russell & Co., New York, treasurer of the Dominion Copper Co.; Maurice and Alvin Untermeyer, brother and son of Samuel Untermeyer, of the firm of Guggenheimer, Untermeyer & Marshall, the famous New York corporation lawyers; Samuel Newhouse, of Salt Lake city, one of the most successful mining operators of the west, who spent a cool million on the Cactus mine, in southern Utah, before getting one cent in return, and is also one of the owners of the Highland Boy and Utah Combinations; W. M. Donald, of the banking house of Donald, Grant & Co., New York, and one of the governors of the New York stock exchange; John C. Mannion, a mining man of New York, who has large South African mining interests; C. L. Constant, a prominent mining engineer, of New York; M. M. Johnson, chief consulting engineer o. the Dominion Copper Co., and W. C. Thomos, smelter superintendent for the same company.

Full Force in Ten Days.

Mr. Newhouse and Mr. Untermeyer were the leading spirits in the reorganization of the Dominion Copper Co., which now owns some of the best properties in the Boundary, located in this camp. The visit was for the purpose of looking over the properties, and deciding on initial steps for the extensive operations which the company is about to undertake here.

When asked as to when active operations at the properties were to be undertaken, Mr. Newhouse said: "Inside of ten days systematic development will be under way at the Brooklyn, Stemwinder and Rawhide mines, and we shall employ just as large a force as we can to advantage. Considerable work must be done before the properties are ready to maintain an output of 1,000 tons of ore per diem, the amount which we expect to ship when our preparations are all completed. This means the deepening of the Brooklyn shaft, and extensive work at the Stemwinder and Rawhide, the latter being, of course, a quarrying proposition."

Referring to the new machinery equipment which it has been fully decided to install, Mr. Newhouse said:

"We shall not decide on this equipment for a few weeks yet at least, and of course it will take some time to manufacture and install it. About the first of September I shall send a competent engineer here, Mr. Gerald B. Street, who will make a complete survey of the company's properties, deciding the strike of the ore bodies, etc. Then we will know where to install the large central plant, from which the several mines will get the necessary power. To make this survey will require a little time, and when it is completed, the directors will decide just what will be done."

May Operate the Present Smelter.

"It is possible," continued Mr. Newhouse, "that we may decide, after considering everything, to blow in the present smelting plant at Boundary Falls and operate for a short time—a few months—for you know we must study our ores and determine the best smelter practice of treating the same. As I say, there is a possibility of our doing this. In any event, however, we have practically decided to build a new smelter to treat our ores at a point yet to be determined."

It is understood that the company is ready to spend a million dollars in the Boundary.

Senator Miller stated that all details of the transfer from the Montreal & Boston has been completed, and that ample capital is in the treasury for all purposes, to carry out the extensive programme outlined by the directors. A meeting of the board is to be held on their return to New York, when the head office will be transferred from Toronto to New York, and a number of important matters settled.

Morris Untermeyer, a member of the legal firm above referred to, and himself counsel for the Dominion Copper Co., stated that the members of the party were greatly pleased with the company's properties which they had examined. They had matters now in shape where they had plenty of money to spend on them, and they intended to spend it to the best possible advantage, and with the least possible delay.

The party left over the Great Northern Wednesday, intending to visit the Portland Exposition before returning east.

BRING SUIT FOR $17,440

Munroes Against Montreal & Boston.

Latter Will Bring a Criminal Action.

In connection with the visit this week of the officials of the Dominion Copper Co. to Phoenix, a pretty legal fight is brewing between Munroe & Munroe and H. T. Pemberton of the Montreal & Boston Consolidated, and the officials of the Dominion company, which assumed certain liabilities of the former company in taking over the properties. In an interview in the Spokane Spokesman-Review this week, Maurice Untermeyer is quoted as follows:

"There is a serious legal question in connection with the company's affairs as they now stand," said Mr. Untermeyer, who is general counsel for the company, "and you may quote me as follows: We found that certain employes of the former company, who were representing the company in a fiduciary capacity, have been dipping their hands into the treasury. An action for accounting has been commenced against one H. T. Pemberton. Actions for accounting will be taken against these parties and criminal proceedings instituted. A. M. Whiteside of Greenwood, is the company's local attorney and has these matters in hand. No efforts will be spared to bring these people to book."

Suit has already been commenced by Munroe & Munroe against the Montreal & Boston for the sum of $17,440, which evidently the new officials of the Dominion Copper Co. have declined to pay. There is no doubt but that Mr. Untermeyer will fight this suit to the bitter end, and if he carries out his intentions there will soon be other actions at law pending, with interesting developments to follow. The new company's operations, however, will not be affected in the least. Warner Miller and Leopold Herrmann, both of New York, are president and secretary, respectively, of both the Montreal & Boston Consolidated and the Dominion Copper Co.

J. A. Morrin returned to Midway Tuesday, taking with him Alex. Strachan and a crew of four carpenters to erect the firm's new store building there.

Rev. C. Wellesley Whittaker, went over to Rossland Tuesday to attend the annual financial district meeting of the Methodist church, and will be there till Monday next.

W. T. Choate, C. P. R. agent at Eholt, is acting as dispatcher at Nelson for three months. E. H. Tretheway, relieving agent, is at Eholt in Mr. Choate's place.

Patrick Welch, the railway contractor, was in the city this week. He has recently received a $2,000,000 contract on the Alaska Central railway, and has sent his brother, Martin Welch, to that icy country.

HOTEL KEEPERS ARE ORGANIZED

Dead Beats Will Not Have Easy Time.

Those interested in the hotel business in Phoenix have formed an organization to be known as the Hotel Keepers Association of Phoenix, with the following officers: President, James Marshall; 1st vice-president, John A. McMaster; 2nd vice-president, M. H. Roy; treasurer, R. V. Chisholm; secretary, David Oxley. There are about 15 members, every hotel in the city being represented.

The association was formed for the purpose of conserving the interests of the members. Regular monthly meetings will be held and extra meetings on call, and those who have made a practice of beating hotels are likely to find themselves brought up with a sharp turn should anything of the kind occur hereafter.

Delighted With the Granby.

This week George F. Peck, of Grand Rapids, Mich., was a visitor here, on his way to the Portland Exposition. Mr. Peck is a shareholder in the Granby Co., and stopped at the smelter before coming to Phoenix. Here he was shown over the mines by Supt. Smith. To a Pioneer man he expressed himself as simply astonished at what he had seen of the company's operations, which he said were away beyond what he had imagined, although he is a regular reader of the Pioneer. He was particularly impressed with the economy with which ore was extracted and treated at the smelter, and left on Wednesday feeling that the visit was well worth while, and that his investment was an excellent one.

Mr. Peck, who is a prominent grocer in the Michigan city, was accompanied by a friend, Henry F. Walch, a gentleman who enjoys the distinction of having been a United States court stenographer for more than 40 years—one of the oldest in the service—having used the first typewriter that was invented.

All Over the Boundary

W. H. P. Clement, of Grand Forks, has been appointed county court judge of Kootenay, vice Andrew Leamy, deceased.

Mrs. B. F. Petch died at her home in Greenwood last week Friday, after an extended illness, having been in the hospital for some months.

At the meeting of the Boundary Creek license commissioners, held at Midway last week, no new licenses were granted, those having applications in withdrawing them. Several transfers, however, were passed favorably upon.

Last Saturday night John Mitchell, dairyman at Eholt, committed suicide by shooting himself at his home. He had been drinking quite heavily and became despondent Mrs. Mitchell was absent at the time but returned on Sunday. Monday Dr. Kingston, coroner, of Grand Forks, was in Eholt, but decided that an inquest was unnecessary, under the circumstances. Mitchell had resided at Eholt for several years.

Sketch for New City Hall.

Mayor Rumberger and Aldermen Brown, Marshall and Carson were present at this week's meeting of the city council. A bill of $6 from the Rossland Engineering Works was paid, and one of $26 from the Phoenix General Hospital, for care of James Hicks, was turned down, it being claimed that Hicks was not a city patient.

Trades License Amendment by-law was read a second time, and a sketch by H. A. Wright for a new city hall was submitted to the council. The mayor was requested to consult with Mr. Wright further and secure plans for the new building for approval. An estimate of $4,000 for its cost has been made.

Rev. E. P. Flewelling, formerly vicar of the Church of England in Phoenix, but who has spent the last two years in Dawson, is reported to have accepted the rectorship of the Church of England in Greenwood.

Mrs. W. B. Willcox left for Seattle Tuesday, where she will visit her mother and afterwards take in the Portland Fair. She was accompanied by her little daughter Elizabeth.

A. H. Sheppard returned this week from a five weeks' prospecting trip in the Cascade range. He located half a dozen golden and silver claims about 40 miles northeast of the head of Butte inlet, and may return to that country. He left yesterday for Spokane to place his two boys in school.

Chief Engineer J. H. Kennedy, of the V., V. & E., went out on the Gt. Northern Thursday, bound for Ottawa, where he will appear before the railway commission on August 29th. He made the trip from Princeton to Phoenix in a little over two days, using special teams most of the distance. Chief Engineer Hoagland, of the Great Northern, is continuing on through the Hope mountains.

DON PEDRO PLEASED THEM

Chicago Party Were Visitors Here.

Was Their First Trip to the Boundary.

Last Wednesday a party of four Chicago gentlemen completed an examination of the properties of the Chicago British Columbia Mining Co., which are located in Skylark camp, about two miles and a half from Phoenix. In the party were John Gerts, vice-president of the company, who is a piano manufacturer; Nic Kuhnen, treasurer, a wagon manufacturer; Theo. T. Mueller, in the employ of the city of Chicago, and Louis Warneke, a prominent business man in the Windy City. They were met here by Harry H. Shallenberger, the manager of the company, who showed them over the property.

On their return the visitors expressed themselves as more than pleased with the resullt of the development thus far at the high grade mines of the company. They had never been in the Boundary before, and stopped off here while out west on a trip to the Portland Exposition. Mr. Gerts, who last year erected a building in his home city that cost $200,000, stated that the visit was a most interesting one to him, and he was glad to have been able to see the company's mines.

The ground owned consists of the Lake, Idola, Yellowstone fraction, Crescent fraction and Don Pedro, 177 acres in all. Considerable work has been done on the Lake claim, where there is a 165 foot shaft, with crosscuts and good ore. But lately the work has been going on at the Don Pedro, where ore is being stoped from a 90 foot drift in the 80 foot shaft that is expected to give better than $100 per ton in gold, silver and copper. A shipment to the smelter will soon be made.

WILL BE READY IN SIX MONTHS.

New Three Compartment Granby Shaft.

J. P. Graves, general manager of the Granby Co., came up from Spokane Thursday with Mrs. Graves and Supt. Hodges, and will return probably today. While here Mr. Graves went over the company's mines with Mr. Hodges and Mr. Smith, and discussed further enlargements and improvements for the properties.

He stated that the new three compartment shaft will be completed in about six months, in time for the installation of the extensive head works equipment, for which specifications are now being prepared and tenders invited. Meanwhile the exploration of the 400 foot level is steadily going on with crosscuts and drifts, and the winze from the 300 foot to the 400 foot level is also being steadily sunk to the 500 foot level, some distance of this incline being already attained,

Boundary Mining Notes

The Skylark was among the high grade shipping mines this last week.

A car of ore was hauled from the Mavis this week for shipment to the smelter.

Knight & Stone are doing diamond dirlling at the Nickel Plate mine, Camp Hedley.

Ore hauling from the Crescent mine to the C. P. R. at Greenwood, was started this week.

At the Emma the main incline shaft is now down 150 feet, where croscutting is going on.

Six furnaces are now in blast at the Granby smelter, and by September 1st No. 7 will be blown in and No. 8 shortly thereafter.

It is reported that more than $7,000 was realized from a two car shipment from the Providence mine recently, or an average of over $190 per ton.

On the Gold Bug the tunnel is now in about 330 feet, being driven by days labor since the 300 foot contract was completed by Martin McHale.

Last week a Byron & Jackson centrifugal pressure electric pump was installed at the 400 foot level of the Old Ironsides mine by Electrician Lane. The pump is operated by a 75-h.p. Westinghouse motor, and has a capacity of 300 gallons per minute against a 500 foot head. It was furnished by the Canadian Fairbanks Co., Ltd.

The British Columbia Copper Co, is now operating five separate groups of mines as follows: Mother Lode group, Deadwood camp, S. C. Holman, superintendent; Emma, Summit camp; Sunset group, near Princeton, Foreman Morrison in charge; Apex group, back of Hedley, Foreman Hall in charge; Grant group, near Chesaw, Harry Johns in charge.

SHORT STRIKE IN THE CROW'S NEST

Coal Miners Were Out But Two Days.

Last Saturday the miners employed by the Crow's Nest Pass Coal Co., at Fernie, Michel and Morrissey, quit work at the call of President Sherman, of the United Mine Workers of America, the reason given being that the company had repeatedly broken the explicit agreement made but a few months ago. Blacksmith's wages had been cut, among other things.

Supt. Drinnan, however, met a committee of the miners, and agreed to their requests until the return of General Manager Lindsay, who is now away on a trip to England, when the entire matter will be gone over by both parties.

Considerable concern was felt lest the strike might be extended, and again affect the smelters of Kootenay and Boundary in the coke supply, and thereby cause a shut down of the metalliferous mines. This danger, however, has been averted for the present, and it is believed that the matters in dispute will be satifactorily arranged.

Granby officials have found it necessary this week to have men watch the bush fires from the Bonnington power line right of way. Thursday a hose line was stretched from the compressor building, as a matter of precaution. The fire that has been burning in Skylark camp for some weeks, is working up this way and doing much damage to standing timber.

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of Boundary mines for 1900, for 1901 for 1902 for 1903 for 1904, and 1905, as reported to the Phoenix Pioneer—

MINE.	CAMP.	1900	1901	1902	1903	1904	1905	Past Week

CULTIVATING THE PHOENIX SPIRIT.

If there is a place in the different mining sections of British Columbia that has made more substantial, steady, reliable progress in the last five years than Phoenix, we have yet to hear of it. We had what is commonly known as a boom here some years ago, and we experienced the settling down—to say nothing of settling up—time that followed it. We know exactly what that sort of thing means, and having tried both we are satisfied that the good old method of natural growth is the most satisfactory, in the long run, to all concerned.

But do the residents of this little city, situated nearly 5,000 feet among the clouds, realize what nature has done for them in its entirety? We think we do, sometimes, but the chances are that we fail to grasp its full significance—to understand what it means for the years to come. We have all heard the stories of our large mines, again and again. Some of us have seen them and examined them, and yet failed to appreciate their lasting worth as an industrial backing for decades to come to the country in general.

In all communities there are, and always will be, individuals who are unable to make good, no matter how favorable the conditons may be. Such people have resided in Phoenix. But the man who mixed sufficient capital with his brains, in a business way, in Phoenix has made a success of it, as he always does wherever he may cast his lot.

What is needed is the greater cultivation of the Phoenix spirit—the belief that we have the backing that will some day make this one of the most famous and prosperous mining camps in the west. The handwriting is on the wall, and it cannot be evaded, whatever we, in our humble opinion, may think about it.

Phoenix has a climate second to none. The summers and autumns are all that could be desired, not too warm or too cold. The winters are sometimes a trifle long, but when it comes to comfort, the mercury is usually from ten to twenty degrees higher here in winter than in other places in the district. And then, we get some value out of our winters, for we have enough of them so that winter sports can be enjoyed to the full—which is one of the compensations for their length.

Residents of Phoenix have much to be thankful for, and they should show it by always saying a good word for the place, by patronizing home institutions whenever possible—in this way showing their faith in the ultimate greatness and importance of the place, which is now settled beyond peradventure. Cultivate the Phoenix spirit.

MOTES AND BEAMS.

Duncan Ross, M.P., on his return from Ottawa, immediately proceeded to stir things up through the columns of his paper, the Greenwood Times. Mr. Ross made certain charges against the Boundary Creek license commissioners and against George A. Fraser, M.L.A., in connection therewith. As to their truth or falsity we are not authoritively informed, and doubtless the gentlemen interested will be able to take care of themselves, and in due time it will be known how little or how much ground there was for the charges.

But in the meantime, stories come from the Okanagan which place Mr. Ross himself in anything but a favorable light before the electors who sent him to Ottawa. If the tales are true, Mr. Ross has some explaining to do himself, and it remains to be seen whether he can do it to the satisfaction of his constituents, especially those resident in or near Penticton.

A. H. Wade, postmaster at Penticton, had been a faithful servant of the postoffice department, we are told, for twenty years, and has recently been dismissed from the service. This was done in spite of the fact that out of a possible 125 signatures, 115 of them were put down petitioning Mr. Wade's retention in office. Mr. Wade's official superiors are free to testify to his faithfulness, integrity and general fitness for the position. Not a word has been breathed as to his dereliction of duty. He was merely dismissed, and that was all there was supposed to be to the matter.

Whether the dismissal was because Mr. Wade had moved the postoffice from his old building to a new one—a move approved by the postoffice department—or whether he did not see eye to eye in politics with Mr. Ross, is not stated openly. The average man, however, will incline to the latter as the real cause, and residents of Yale-Cariboo generally will be glad to hear what Mr. Ross has to say about the matter.

STRICTLY BUSINESS

Write advertising as though you expected it to be believed.

The better a man advertises the more he will be able to advertise.

The danger of over advertising is much less than that of under-advertising.

If there's anything in your store you think people ought to buy, tell them so and tell them why.

No man can run a good paper in a poor town. Are you helping to make your local paper a good one?

A merchant should not think that even his best customers are so familiar with his goods and prices that they know all about it without being informed.

B. C. MINING

Rossland shipments last week were 6,120 tons, or 213,213 tons for the year.

The second furnace at the new Sullivan silver-lead smelter, at Marysville, has been blown in.

W. R. Ingalls, the recently appointed Dominion zinc expert, will commence his investigations of the Kootenays on September 1st.

Eric Stevenson, lessee of the Old Crown Point mine, near Rossland, has let a contract for hauling 5,000 tons of ore. When the last ore was shipped from this mine, years ago, the freight and treatment were $9.50 per ton, and are now $3.50.

Card of Thanks.

We wish to express our heartfelt thanks to the many friends who so kindly assisted us at the time of the recent passing away of our little daughter, Reeva May.

PERCY WILKINSON,
MRS. P. WILKINSON.

Coming Events.

Cranbrook Labor Day celebration—Monday, September 4th.

Nelson Fair opens Sept. 20th and closes Sept. 23rd.

Dominion Exhibition at New Westminster opens Sept. 27th and closes Oct. 7th.

Spokane Interstate Fair opens Oct. 9th and closes Oct. 25th.

The Lewis and Clark Fair at Portland will close Oct. 15th.

TENNESSEE COPPER PRESIDENT. A VISITOR IN PHOENIX.

Was Escorted by J. E. McAllister, of the B. C. Copper Co.

J. Parke Channing, president of the Tennessee Copper Co., was a visitor in Phoenix last Saturday, being accompanied by J. E. McAllister, superintendent of the British Columbia Copper Co.'s smelter at Greenwood. Mr. McAllister had charge of the Tennessee Copper Co., previous to accepting his present position, more than two years ago. Mr. Channing also visited the properties of the British Columbia Copper Co., and the smelting works of the Granby Co. at Grand Forks.

In the last few years the Tennessee Copper Co. has forged to the front as a producer of copper. Last year above 8,000,000 pounds of refined copper were produced by the company, this year it is likely to be about 10,000,000 pounds, and next year, owing to improvements and enlargements, it is expected to be close to 20,000,000. The company's mines and smelter are located at or near Copperhill, Polk county, Tennessee, and employ about 700 men. The mines are developed to a depth of some 600 feet, and have nearly 3,000,000 tons blocked out, the ore being low grade, running from 2% to 4% copper. The smelting plant was designed by Mr. Channing, and consists of three water jacket blast furnaces, with a capacity of some 1,500 tons of ore daily. The company operates its own line of railway from mines to smelter, which are close to the state line of Georgia.

Mr. Channing was much interested with what he saw of the practice of mining and smelting in the Boundary, of which he had previously heard a good deal.

COLEMAN'S RECORD COAL OUTPUT.

International Mine Ships Fourteen Hundred Tons Saturday.

Coleman's big coal mine made a great record for itself Saturday, surpassing all previous figures for a day's output by a single shift, says the Frank Paper. The output amounted to 1400 tons, all of which was taken by the C. P.R. This was done without in any way robbing the mine, as with each ton of coal taken out more ground is being opened up, so swelling the reserves of the property. The company is exceedingly pleased with the way things are going at its mine, and Manager Galer states that were three shifts working an output of 3000 tons of coal per day could be maintained with equal ease.

In addition to the coal being shipped, there is a certain quantity being handled daily through the coke ovens, the output of which is sent to British Columbia points. With the new coking seam being opened, the company is preparing plans for the early construction of 100 additional coke ovens, giving a total of upwards of 200. These when finished will be worked to the limit.

The situation at Coleman is steadily improving and there is every assurance that the town has a prosperous future.

Eastern Excursions via Great Northern R'y.

The Great Northern railway is offering round trip tickets from Phoenix to the following points, good for ninety days at the following rates: St. Paul and return, $55.10; Chicago and return, $66.60; Omaha and return, $58.25; Kansas City, Mo., $60.85. Selling dates, August 24th and 25th, and Sept. 16th and 17th. H.A. Jackson, G.P.A., Spokane, Wash.; M. M. Stephens, agent, Phoenix, B.C.

Popular and Picturesque.

The only thing necessary to make the Denver and Rio Grande the most popular, as it has ever been known the most pleasant and most picturesque way to cross the continent, has come about. This is the establishment of through sleeping car service.

In connection with the O.R. & N. a through Pullman Standard Sleeper is now run from Portland to Denver, leaving Portland at 8.15 p.m., arriving at Salt Lake at 8.40 a.m. the second morning, leaving Salt Lake at 3.50 p. m. and arriving at Denver 4.20 p m. the following day. This schedule gives passengers seven hours stop over in Salt Lake, affording an opportunity to visit the Mormon capital as well as a daylight ride through the grandest scenery in the world.

For reservations in this car and for illustrated booklets picturing the scenery contiguous to the Denver & Rio Grande, proving it to be the "Scenic line of the World," write to W. C. McBride, General Agent, 124 Third street, Portland.

COPPER

The new edition of the COPPER HANDBOOK lists and describes 3,311 copper mines and copper mining companies, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most condensed and get-at-able form.

There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of Copper and everything pertaining to the metal.

It is the World's Standard Reference Book on Copper

Every Miner, Prospector, Investor, Banker, and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morrocco, and the book in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or may returned within a week of receipt and the charge cancelled. THE PHOENIX PIONEER

And Boundary Mining Journal

Is published in the heart of the greatest and most productive gold-copper camp in the Dominion of Canada.

In five years more than 2,500,000 tons of ore have been mined and smelted here, with a valuation of over $12,500,000. And the industry is only in its infancy.

The greatest mines of the Boundary are at Phoenix—not one or five miles distant, but in front of, behind and beneath the Pioneer office. Consequently, from our vantage point we believe the Pioneer can give you the best, latest and most reliable news of the mines and smelters of the Boundary.

The Pioneer is worth $10 per year—but it costs only $2, if the coin comes with the order. Make all orders payable to the

Pioneer Publishing Co.,

W. B. WILLCOX, Manager. Phoenix, British Columbia

To make the best Bread you must have the best Flour.

When the dough is flat, sour, heavy, will not rise,—when the bread is soggy, tasteless, indigestible—then you have cheap and inferior flour.

You may use pure fresh yeast, faithfully adhere to the old-time successful bread making traditions, the methods usually successful—but the baking turns out badly—simply because you have not used the right kind of flour.

Royal Household Flour is purified and sterilized by electricity, it is therefore uniformly pure and wholesome.

And because it is thoroughly purified it will yield a sweet, wholesome, light sponge that will bake into flaky, deliciously flavored, nourishing bread or pastry.

It is really the only absolutely pure flour you can get.

Guaranteed by its makers and Branded

Ogilvie's Royal Household Flour.

Do You Want A Copy?

There are a few copies left of the Midwinter-Number of the Pioneer. They were held for a special order, but were never claimed, and will be disposed of to the first comers.

The issue contains 32 large pages and cover with nearly 100 illustrations, thoroughly describing the large mines and smelters of the Boundary.

Just the thing to send to friends far away, telling them of the Boundary and of Phoenix.

The Pioneer spent a thousand dollars in publishing this number, but you can get them, while they last, at 25 cents each.

ADDRESS,

The Phoenix Pioneer,

PIONEER BLOCK, PHOENIX, B. C.
'PHONE NO. 14.

THE OBSERVATORY

THINGS TALKED OF AT HOME AND ELSEWHERE

Lowery's Claim is scheduled to make its appearance once more shortly, being published in Nelson. The colonel is a free lance, and many a man does not agree with some of his ideas, but the majority are glad to read what filters from his upper stope as the spirit happens to move.

Piscatorial devotees in the Boundary may or may not be interested in receipts for properly cooking the finny specimens, but here is one, going the rounds, said to be excellent for cooking a squaw fish: Boil the fish for six hours; fry it for two hours; then stretch it on a board; then nail the board to the side of a building and let the sun shine on the fish for three days; then take the board down; remove the fish from the board: throw the fish away, and then eat the board.

A baseball editor with decided religious tendencies originates the following: "The devil was the first coacher. He coached Eve when she stole first. Adam stole second. When Isaac met Rebecca at the well she was walking with a pitcher. Sampson struck out a good many times when he beat the Phillistines. Moses made the first run when he slew the Egyptians. Cane made a base hit when he slew Abel. The prodigal son made a home run. David was a long distance thrower, and Moses shut out the Egyptians at the Red sea. The game was called when the flood came on account of wet grounds.

The Greenwood Times remarks that no one has yet signified his intention of starting a daily paper at Midway, although one paper, the Star, is now in the field, to say nothing of the report that another one will soon appear, a complete second newspaper plant being now on the way.

Midway will doubtless be a good field for one weekly paper, but when it comes to a second one, why that is crowding the mourners a trifle. The promotors of the new weekly must have an idea that newspaper publishers enjoy a bed of roses; that money comes easy to the man who drives the quill, and that, therefore, they will make an effort to secure a share of it in the rejuvenated railway town. They may need the money, but if so, they are taking the longest and hardest way to get it. Ask any publisher in the Boundary about it. As to a daily, the publishers of both the Greenwood Times and the Grand Forks Gazette could give some heartfelt pointers along this line, both of those papers having tried the experiment to their financial cost.

Sam Coulter, who has become famous in Nelson because he was the bone of contention, as fire team driver, between Mayor John Houston and a majority of the city council, is once more at his old work. It is, perhaps, needless to remark that the doughty John has been out of the city for a few weeks. On his return municipal affairs in Nelson are more than likely to assume their wonted liveliness—and Mr. Coulter may be discharged for the tenth time. Later.—Mr. Coulter has finally cut the knotty problem by resigning.

It has been remarked in Phoenix lately that more important parties of mining men from the east have visited the Boundary this year than ever before in the history of the country. Which is another way of saying that men of means are awakening to the really excellent opportunities here for the legitimate investment of capital. The best days of the Boundary are undoubtedly right ahead of us.

According to the nomenclature of the west 22 good Indians were made a few days ago near Spence's Bridge, on the main line of the C.P.R., when that terrible landslide came down and overwhelmed the little Indian village nestling at the foot of that particular mountain

The Golden Star asserts that "The Phoenix Pioneer is boosting that place as a summer resort," and comments that "Phoenix would make a better cold storage." Come, now, Peck, we'll wager some of our delinquent subscribers against an equal number from the Golden printing palace, that official records will show that for the last year, or last five years, the average temperature in Phoenix has been lower in summer and higher in winter than in any other town in the Kootenays on the C P.R.

Don't overlook the fact that the Phoenix Pioneer makes a specialty of fine job work—the kind that you, mayhap, have been looking for.

THE PIONEER'S Little Biographies of Boundary Mining and Smelting Men

II.

HARRY H. SHALLENBERGER.

Harry H. Shallenberger, the subject of this Little Biography, was born at Brownsville, Penn., near Pittsburg, on February 13, 1867, and started west when 13 years of age, living for a few years at Streator, Ill. In 1882 he struck out for the far west, reaching Spokane, in the neighboring state of Washington, in that year, where he followed the calling of contractor and builder for eight or ten years.

In common with many Spokaneites he had heard much of British Columbia, and in 1893 he decided to try his fortunes in the mining districts. In the summer of that year he reached what is now the Boundary country, having previously prospected over the ground where Rossland now stands. The party which he organized to visit the Boundary country consisted of R. G. Mack, who later located the well known Athlestan mine in Wellington camp. Bruce White, of the Slocan Star mine, and J. C. Hass, M. E., who joined the Shallenberger party at Christina lake. They came over the Dewdney trail to the Boundary proper, there being no railways, wagon roads or other trails in those days, having to cut out the Dewdney trail all the way from Rossland to Boundary creek. The party stopped first at Boundary Falls, where the smelter is now located, that being the only settlement in this section at that time. Before this Mr. White left and went back to the Slocan.

The first location made by Messrs. Shallenberger, Mack and Haas was the Crescent, two miles from Greenwood, in Providence camp, this being in August, 1893. This claim is now owned and operated by Mr. Shallenberger and Col. T. L. Dickason and associates, of Chicago. The Crescent is one of the several high grade properties of this camp, that have recently come to the front, and has several hundred feet of development work done, Mr. Shallenberger being in immediate charge. It has three shafts, ranging from 16 to 125 feet in depth, with some crosscutting, and having ore that runs $100 in gold, copper, silver and lead. Ore is being shipped to the smelter this week from the Crescent.

Mr. Shallenberger also located several other promising properties among which are the Yellowstone fraction, the Crescent fraction and the Idola, in 1895, which, with other claims, he sold to the Chicago British Columbia Mining Co., in 1901. These claims are now also being developed under the supervision of Mr. Shallenberger, with most encouraging results. The main shaft on the property is down 165 feet, with 100 feet of crosscutting, with considerable ore, a 20-foot vein having been encountered in sinking, with copper and gold values. The property has a good machinery equipment, and work is being carried on farther up the hill on the Don Pedro where, in a 90 foot drift from an 80-shaft a good ledge has been found, and from which a shipment will shortly be made.

Mr. Shallenberger is known as a careful and conservative mining man, who has taken advantage of his opportunities to study the mineral zones of the Boundary thoroughly. He lives at the Crescent mine with his wife and child, where good bunk and boarding houses have been erected.

If you wish your friends in the east to know what is going on in the Boundary, just send them the Pioneer for a year, and you will completely cover the ground.

MISS MARIA DUCHARME.

Every Woman in America is Interested in This Young Girl's Experience.

PELVIC CATARRH WAS DESTROYING HER LIFE. PE-RU-NA SAVED HER.

Miss Maria Ducharme, 182 St. Elizabeth street, Montreal, Can., writes:

"I am satisfied that thousands of women suffer because they do not realize how bad they really need treatment and feel a natural delicacy in consulting a physician.

"I felt badly for years, had terrible pains, and at times was unable to attend to my daily duties. I tried to cure myself, but finally my attention was called to an advertisement of Peruna in a similar case to mine, and I decided to give it a trial.

"My improvement began as soon as I started to use Peruna and soon I was a well woman. I feel that I owe my life and my health to your wonderful medicine and gratefully acknowledge this fact."—Maria Ducharme.

All correspondence strictly confidential.

Mining at Spokane Fair.

E. E. Alexander of Spokane has been appointed superintendent of the department of mines and mining at the Spokane Interstate Fair which meets this year October 9 to 15. He is conversant with all the mining districts and camps within 300 miles of Spokane. He has the necessary energy and information to make this important department better than ever before.

A handsome silver cup will be given as a trophy for the mining camp which sends the best display of minerals. There is only one condition for competitors for this prize—the display must be allowed to remain at the fair as a portion of the permanent mineral exhibit. Besides the silver cup, diplomas will be awarded the best specimens of mineral or ore.

Mr. Alexander will personally visit many of the important camps and secure new exhibits or additions to exhibits now at Spokane. The railroads will carry exhibits for this department free of charge. Those received prior to the opening of the fair will be placed on exhibition at the Chamber of Commerce rooms at Spokane.

SIR WILLIAM IS FIRST.

Veteran Stock Breeder Enters Thoroughbreds for Dominion Exhibition.

"Sir" William Ladner, the veteran breeder of thoroughbred cattle in the Delta, and a well known old-timer of British Columbia, has the honor of being the first exhibitor to make entry in the live stock show of the 1905 Dominion Fair at New Westminster.

Since the announcement that the great national exhibition would be held in New Westminster this fall Sir William has been very active in stirring up interest in the exhibits and now he has set the pace for stock breeders by entering forty-one head of Shorthorns.

Sir William, who is vice-president of the Royal Agricultural and Industrial Society, under whose auspices the big exhibition is being held, will ride one of his finest looking horses on the grounds, and will be a picturesque figure among the notables who will be seen in New Westminster during the fair.

ALL GOOD THINGS must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for.

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

FREE—"A Test in Pronunciation," instructive and entertaining for the whole family. Also illustrated pamphlet.

G. & C. MERRIAM CO., PUBLISHERS, SPRINGFIELD, MASS.

WEBSTER'S INTERNATIONAL DICTIONARY

An Editor's Poser.

There is a little paper published in the penitentiary of Minnesota—The Prison Mirror—which propounds the following questions: Why is it that from the first inception of our paper to the present time we have not had an editor in our midst? Other professions have been represented. Of preachers we have had enough to furnish sustenance to an African chief for a year; of doctors, enough to depopulate a state; and of lawyers, enough to establish a good sized colony in hades. But editors, not one.

Foresters' Meeting.

For the above occasion at Buffalo, N.Y., Aug. 22nd to 26th, 1905, the Great Northern railway is offering round trip tickets at the following rates from Phoenix, B.C.: $82.50, children between the ages of five and twelve, half fare.

Selling dates, August 14th and 15th, going transit limit 10 days; final return limit ninety days.

Stop overs will be allowed in both directions west of Chicago. H. A. Jackson, G.P.A., Spokane, Wash.; M. M. Stephens, agent, Phoenix.

An Atlas for $1.00.

The Great Northern Railway has issued an Atlas of 56 pages containing up-to-date maps of Iowa, Wisconsin, Minnesota, North and South Dakota, Montana, Idaho, Washington, British Columbia, Oregon, Kansas, Missouri, Nebraska, Wyoming, Colorado, Alaska, Hawaii, Japan, Philippine Islands, China, the United States and of the World.

In addition to this the Atlas contains valuable statistical information relative to the states named above, is printed on the very best quality of paper, shows the lines of the Great Northern Railway, and is in every way a commendable work.

This Atlas will be distributed at the actual cost of production and will be sent to any address upon receipt of $1.00. Address, F. I. Whitney, Passenger Traffic Manager, Great Northern Railway, St. Paul, Minn.

C.P.R. Rates to Portland Fair.

The C.P.R. have placed on sale at Nelson, Rossland, and all stations on Boundary section return tickets to Portland at $23.75, good for 30 days. Corresponding rates are made from all Kootenay points. Tickets are good via either Columbia river or Slocan routes. Also good via Vancouver and the superb new steamship, Princess Victoria, to Seattle. For berth reservations and further particulars apply to local agent or write to J. S. Carter, D. P.A., Nelson.

NOTICE.

In the matter of the "Land Registry Act," and in the matter of the title to Lot 10, Block 17, Map 60, Old Ironsides Addition to the City of Phoenix, in the Province of British Columbia.

WHEREAS the certificate of title of John Alexander Murray, being certificate of title numbered 14728a to the above hereditaments, has been lost or destroyed and application has been made to me for a duplicate thereof.

NOTICE IS HEREBY GIVEN that a duplicate certificate of title to the above hereditaments will be issued at the expiration of one month from date hereof unless in the meantime valid objection to the contrary is made to me in writing.

W. H. EDMONDS,
District Registrar of Titles.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

The Druggist is Boyle.

Souvenir Jewelry at Dey's.

Pabst is the only beer, and is always pure.

Dey, the Jeweler, guarantees all repairs.

Dey, the Jeweler for Enamelled Souvenirs.

J. L. Martin will buy International Coal shares.

For Lowney's chocolates see Boyle, the Druggist.

You've tried the rest, now try the best—Pabst beer.

September 10 to 14, Dr. Mathison, dentist, Bank block.

After trying all others, good judges always come back to Pabst beer.

Prescriptions properly prepared from pure drugs.—Boyle, the Druggist.

For prescriptions put up as the doctor orders, take them to the Thomas Drug Co.

C. E. Legg visited the 2nd Relief mine, near Erie, last week, in which he is interested.

Prescriptions quickly and carefully compounded from freshest drugs by Thomas Drug Co.

Just received, Enamelled Souvenir Brooches, Hat Pins, Sash Pins, and others. G. E. Dey, the jeweler.

Made in the largest brewery in the world, Pabst beer has the largest sale in the world. There's a reason.

Phoenix Socialist League meets Tuesdays, 7.30 p.m., Miners' Hall. Readings from Socialist authors given. Discussion invited.

James J. Hill was looked for in Phoenix this week, but did not materialize. He will likely visit this camp, however, in the course of a month.

This week the work of putting on about 70,000 lath in the new Brooklyn hotel, was completed, and the plastering will be actively under way on Monday.

Snowshoe Lodge, No. 46, I.O.O.F., is negotiating for the purchase of a plot of 40 lots in the city cemetery, and it is understood that other societies will do likewise.

George C. Hodge, district manager of the B. C. Telephone Co., who was in the city Wednesday, says that the company is considering the installation of a telephone exchange at Midway.

This week the Miners' Union force, employed in the excavation for the new opera house and hall, have been working double shift on the rock cutting. Another week should see that part done, and ready for the superstructure, the lumber for which is daily arriving from the Danville sawmill.

Engineer McAllister, of the C.P.R., who with his force of some 15 assistants, has been located at Hartford Junction for a week or two, came into Phoenix Wednesday. He is surveying all lands contiguous to the company's right of way, especially as regards mineral claims, etc.

A short time ago the private Pullman coach used by Prince Henry and also by President McKinley, was in Phoenix. Still later the Pullman that W. K. Vanderbilt used was here also. This week the Dominion Copper Co. officials were here in the coach that Jay Gould formerly travelled over the country in. Next.

We have received a copy of the prize list for the Nelson Fair which is to occupy three days this year, commencing Sept 20th. The cash prizes for poultry amount to $235, and for fruits $363, besides meduls, diplomas and the silver cup valued at $100. Vegetables and field produce also occupy a prominent place. We also note that prizes are offered for school work and work done by children under fifteen years. For bread alone $50 has been donated by several of the largest flour manufacturers.

Phone your order to Boyle, the Druggist.

Old newspapers for sale at the Pioneer office.

Goods delivered anywhere. Boyle, the Druggist.

Dr. Simmons, dentist, Balmoral hotel September 9 to 12.

The best is the cheapest—especially in drugs of all kinds. See the Thomas Drug Co.

A meeting of the local school board will be held at the city hall next Thursday evening for the purpose of selecting a new teacher for the junior department.

Lost—Fox terrier, marked brown and white, answers to name of Dabo. Disappeared August 21st. Reward if returned to O. B. Smith, Jr., at Granby mines office.

The British Columbia Telephone Co. construction gang is now located at the Winnipeg mine, and will reach the place where the famous mines of the Boundary are located in about two weeks or less.

The C.P.R. painting gang, which has been here for a week or two, has been doing necessary work of this kind around the station and yards—using up some of the white lead on which the duty has recently been raised to 30 per cent.

John D. Clark, a young man who was at the Gold Drop for two or three years, was caught between two trolley cars in Vancouver last Tuesday week, and received internal injuries from which he died at the Vancouver city hospital the following Sunday.

Owing to being held at Marcus and at Cascade for customs, the Great Northern passenger train rarely arrives here on time now. If it should get here as per schedule, the railway would probably have some sudden deaths to answer for, the shock would be so great.

Phoenix Miners' Union, No. 8, will hold its semi annual election of officers next Saturday, from 1 to 8 p.m. Among the nominations already put in for secretary are the names of Archie F. Berry, the present incumbent, and John Riordan, formerly holding the office, now of Chicago. There will evidently be a spirited contest.

L. A. Campbell, manager of the Bonnington Falls power concern, now building its high tension hydro-elecric line into the Boundary, was here Wednesday, and went over much of the work under contract hereabouts. He states that excellent progress is being made by the contractors, Elliott, Woodard & Logue, at this end.

Interest in the Royal bowling alleys continues unabated, David Oxley now having the highest score yet made in the Boundary, so far as known—256. Thursday evening a team consisting of Strutzel, Oxley, Martin and McNicol, played MacColl, Crawford, Brewer and Docksteader, the latter coming out ahead with 1827 points in three games, while the former had 1797, thus losing by 30 points.

Last week Friday Mr. and Mrs. Percy Wilkinson were bereaved by the loss of their two and a half year old daughter, Reeva May. The little one, who was subject to spinal trouble, was taken at eight o'clock in the evening with convulsions, and in spite of all that could be done, passed away about eleven o'clock. The funeral was held Sunday afternoon, Rev. C. W. Whittaker officiating, the burial taking place in the Phoenix cemetery.

The Phoenix public school opened Monday with Principal Thornber in charge of the senior room and Miss Campbell teaching the juniors. Miss Moffatt, of Greenwood, who has been junior instructor for a couple of years, resigned to accept charge of the school in Anaconda, near Greenwood. Miss Campbell will take her place until a successor is engaged.

COMING AND GOING

Wm. Zimmerman left this week on a trip to Penticton.

John McRae took a business trip over to Nelson this week.

Wm. Yolen Williams has been taking a trip recently into the Fort Steele country.

W. D. Boyce returned this week from a two months' trip to Markdale, Ontario.

Ralph Smailes, of Greenwood, returned from a trip to Victoria last Tuesday.

F. M. Elkins, the New York Life man, of Greenwood, was a visitor here this week.

John A. Swanson and family will start today for several weeks' outing at Curlew lake.

Supt. J. E. McAllister, of the Mother Lode smelter, started Wednesday on a trip to the east.

Wm. Spier, manager of the Eastern Townships Bank at Grand Forks, was here last Tuesday.

George E. Mosser, of Spokane, of the Northwestern line, made his first visit to Phoenix this week.

The bachelors will give a dance at Miners' Union hall next Thursday evening. Music by Reynolds.

W. A. Nicholls, a mining broker of Spokane, spent a day in the city this week, and also visited the Granby smelter.

E. P. Shea returned last week Friday from a trip to the Seven Devils country in Idaho and to Pendleton, Oregon.

George Hall, who left for Brandon, Man., last Tuesday, was given an at home by his Methodist friends the previous evening.

Little Doris Birnie went to Grand Forks Thursday, where she joined her aunt, Mrs. F. M. Kirby, on a several weeks' trip to Vernon.

A. H. B. MacGowan, M.P.P., of Vancouver, was a visitor in the city yesterday, conferring with his local fire insurance agent, D. J. Matheson.

Mr. and Mrs. S. N. Holman and Miss Holman, father, mother and sister of Supt. S. C. Holman, of the Mother Lode mine, who have been spending the summer at the mine, returned to Spokane yesterday.

Capt. George Smith, one of the locomotive engineers at the Granby mines, and L. Y. Birnie returned Monday from an extended camping and fishing trip up the main Kettle river. They report the fishing as excellent. The return trip from Canyon City to Midway, a distance of some 50 miles, was made in a boat of their own manufacture at the former place.

Rev. T. Albert Moore, secretary of the Lord's Day Alliance of Canada, spoke in the Methodist church Thursday evening to an audience of about 25, and gave an interesting address. At the close of the address, Richard S. Hall was elected president of the local branch, to fill a vacancy, Hugh Reed being the secretary-treasurer of the organization. Mr. Moore's home is in Toronto, and he is making a tour of the country.

Sitting Around The Camp Fire

of the Prospector, the Eastern Shoe Man could hear many things necessary for him to learn if he would make Boots to suit the work of these hardy pioneers.

The old Prospector, were he to make his own Boots, would incorporate into them only the best leather that money would buy. He would make them with a keen eye to service and comfort.

Here is where the "LECKIE BOOT" leads the world. They are made "out west" by a western firm, for western people—made by a firm which understands western conditons.

Look for the trade mark—AN ALL LEATHER BOOT WITH THE LETTER L ON IT—stamped on the sole of every pair.
