THE PHOENIX PIONEER, is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

FIFTEENTH YEAR — PHOENIX, B. C., SATURDAY, FEB. 28, 1914 — NUMBER 33

COMPANY HAS PAID $5,048,778

Above Amount Disbursed by Granby in Dividends Since Incorporation.

The dividends of the Granby company to date make a total of $36.50 a share, or $5,048,778 that the company has paid out since in corporation.

Granby Smelting has strengthened by reports that improved weather conditions at Hidden Creek assure the beginning of operations there soon, advanced $2 in the bidding of the Spokane board, but the issue failed to respond on the eastern exchanges and closed at $85.75 in Boston. The Hidden Creek smelter, hydro-electric power plant, railway system and ore bins are completed and ready for service, but it probably will be 10 days or two weeks before the concrete dam is finished, although pouring material has begun. General Manager F. M. Sylvester, who recently transferred his headquaters to Vancouver, has announced that the entire plant at Hidden Creek will be thoroughly tested before active operations are inaugurated, so that when ore is started through the works there will not have to be any shutdown for adjustments.

Hockey Teams Go East

Frank Patrick is busy these days arranging for a tour of the Vancouver team to Eastern Canada. The trip, as defined by the Millionaries' boss, will see the Vancouver team in action in Winnipeg, Toronto, Montreal, Ottawa, Boston and New York. They will leave today along with the Victoria champions, who are going east to battle for the Stanley cup.

Mrs. James J. Mullen will receive the first Friday in March, and not again this season.

Made Clever Capture

An arrest of quite a dramatic order was effected in town last week by Provincial Constable Stanfield, stationed here. The officer, who by the way, is also government censor of picture plays, was engaged in studying the bills relating to a forthcoming camera performance, when he was joined by a fellow arrayed in the primitive apparel of a logger.

The latter, after reading the bill and admiring the luridly colored poster, remarked to the officer that the play advertised was worthy of his patronage. The emissary of the law thought so, too, and after a study of his interrogator's face, recognized in him a long wanted fugitive from Uncle Sam's justice. The logger, after admitting the soft impeachment, was immediately placed under arrest and conveyed to Greenwood.

The accused, who is known by the cognomen of "Texas," has been in town for some time, and is wanted by the Washington authorities for his part in the robbery of a survey outfit near Curlew.

Playing Off for the Cups

The playing off for the McBride and Nelson Daily News trophies lies between the Grand Forks and Trail teams, the champions of the the Boundary and the champions of the Kootenay. The first game was played at Grand Forks last night, as the Pioneer was going to press. The second game will be played next Monday night, either at Nelson or Rossland. Last night a special train was run from Phoenix to the Forks with quite a large crowd on board. In these two final games for the cups, the decision will be rendered on the goals scored, so that in case each team wins a game, it is hardly likely that the scores would also be even.

Therefore next Monday night's game will tell the tale as to whether the Boundary or the Kootenay will hold the much converted silverware for the next year.

Mining Notes of British Columbia

The total value of British Columbia's mineral production in the year 1913 was about $30,000,000.

It is said by teamsters that the roads from Salmo to the different mines in Sheep Creek are the finest in the history of the country, enabling the teams to haul as high as ten tons on a load.

Over 50 tons of ore per day is being hauled into Salmo for shipment to Trail smelter from the Hudson Bay, Zincton and Emerald mines. W. R. Salisbury, who has a lease on the Hudson Bay, has seven four-horse teams in operation hauling ore from these mines.

Four thousand tons of silver ore are now stored in the bunkers of the Silver Standard mine, located nine miles from Hazelton, awaiting shipment south to Trail via Prince Rupert and Vancouver. These mines are proving rich and the ore is said to run at $132 to the ton.

Within the next six weeks the long tunnel of the Payne mine will reach the point to which it is projected that the object of tapping at depth the large ore bodies which have been developed in the upper levels. By March 1, the tunnel, which is being driven at the rate of about 200 feet per month, will be in about 3,200 feet.

It was the best ore yet that the Harris Boys shipped from the American Boy at Hazelton a few weeks ago. There were twenty-five tons in the car and it went to the Trail smelter. In that shipment were eight tons of ore taken from the hundred and fifty foot level, the level on which the boys have been working since. The assay returns have been received from the smelter as follows: 175.2 ozs. in silver, 33 per cent lead and .9 in gold.

Over the new Grand Trunk Pacific line to Prince Rupert, down the coast to Vancouver by steamer and eastward over the Canadian Pacific railway to Trail smelter 104 tons of ore arrived last week from the Silver Standard mine at New Hazelton, B. C. This is the third shipment to the Consolidated company's smelter to be made from this property, the two former shipments having shown that the ore from the northern mine was rich enough to stand the burden of the long haul to the smelter.

At a meeting in Montreal, the shareholders of the Canadian Goldfields Syndicate endeavored to peacefully terminate the existence of that interesting company. Nothing very definite resulted from the annual meeting of the Syndicate, at which a proposition was advanced to divide the Consolidated Smelters shares in the company's treasury among the shareholders. The proposition was discussed and was finally left to the company's solicitor's to evolve a workable scheme. The distribution of the Smelters' shares would presumably presage the winding up of the C.G.F. Syndicate. The Goldfields Syndicate was a product of the British Columbia boom of twenty years ago. Its plan of operation was to buy into operating companies, and one of these ventures was a share in the St. Uugene mine. Much against the will of some of the Syndicate, the St. Eugene was taken into the Consolidated Mining & Smelting company, and the syndicate received 4,270 shares of smeler stock, a very good bargain, as it developed, and undoubtedly proved the salvation of the company, as its stock was its most valuable asset.

Annual English Church Social

The annual pre-Lenten social and dance arranged by the vicar and Woman's Auxiliary of St. John's church, took place on the evening of Shrove Tuesday, Feb. 24, in the lodgeroom of the Miners' Union hall. After a short address by the vicar, the proceedings opened with a delightful musical program which was thoroughly enjoyed by the assembled guests, numbering about 100. The customary dance then followed, temporarily interrupted at eleven o'clock by the call to supper, provided by the ladies of the Auxiliary. The music for the dance was furnished by Messrs. Chas. King and Chas. McKay, assisted at times by the generosity of Mrs. Chas. Knight and John Finlay. The following were the other ladies and gentlemen who placed their vocal, recitative and instrumental talents at the disposal of the committee, and for whom a special vote of thanks was proposed by the Rev. L. B. Lee: Mrs. F. Richards, Mrs. Chas. Knight, Mrs. Wm. Bellis, Mrs. W. Wills, Mrs. J. A. Miller, Miss Pickthall, Miss Dora Wilkinson, Miss Kathleen Carson and Messrs. Fred Lynch, Wm. Williams, C. H. Knight and R. K. McCammon.

Presbytery of Kootenay

The Presbytery of Kootenay met at Rossland last week. Rev. J. R. Munro, of Phoenix, was appointed moderator for the year. Social service and evangelism demanded much attention, and information was to hand concerning the condition of things. The session was well attended.

Hockey Benefit Dance

A big dance will be given in the Miners' Union hall next Tuesday evening, March 3rd, for the benefit of the Phoenix hockey team. The boys should get a rousing sendoff.

Odd Fellows in Hockey Game

The Odd Fellows' hockey teams of Greenwood and Phoenix played a lively game here last Wednesday night. At the end of the third period the game stood 4-4. In the overtime played the visitors got two and the home team one. Thus the Greenwood boys came out victorious with a score of 6-5. The attendance at the rink was the best seen outside of the regular league games.

After the game the visiting Odd Fellows were entertained by the local lodge members at Danny Deane's, where an excellent spread was served. Short talks were made by several of those present when called upon by E. E. Barnes, the chairman.

Following is the lineup of the two contesting teams:

Phoenix—Pierce, goal; Dr. Millar, point; McDonald, cover point; Quance, rover; Jackson, center; Barnes, right wing; Spencer, left wing. Blundell and Sawrey, spares.

Greenwood—Halcrow, goal; E. Clerf, point; Pond, cover point; R. McMillian, rover, Murray; G. Clerf, right wing; A. McMillan, left wing. McKenzie, spare.

Chas. Davidson, referee.

Will Teach the Tango

Prof. W. B. Marks, who is at present in Grand Forks, has written to the Pioneer that he intends visiting Phoenix in the near future with a view to opening a dancing school. He will introduce the latest dances, the Hesitation waltz and the Tango. These are two of the most popular dances that have ever been introduced in the ballroom, and since the citizens of Phoenix have always set the pace in amusement of this sort, this opportunity of taking up these dances should not be overlooked. Prof. Marks has conducted dancing classes in Phoenix before, and has an excellent reputation as a teacher.

The Cranbrook Herald has installed a new typesetting machine.

Tribute to Knights of Pythias

The Knights of Pythias are so worthy an organization and their ritual so purely American that the celebration of the 50th anniversary of their foundation commands general recognition. The annual convention celebrated the golden jubilee at Washington last week, and nearly 8,000 lodges in America and Canada also did so.

The Knights deserve to be welcomed by President Wilson, and to be commended by Secretary Bryan as "one of the greatest influence to hasten the coming of universal brotherhood." Justus H. Rathbone and his five associates founded this order to practice friendship, charity and benevolence. The application of these virtues is by no means confined to members of the society as beneficiaries, but radiates at large through the community. The motto of the organization: "Be generous, brave and true," is a help to altruistic living and an inspiration to the spirit of good citizenship and social service.

It is not to be wondered at that the Knights of Pythias, according to the latest published statistics, number over 715,000 members in Canada and the United States, and that their numbers are exceeded only by those of the Odd Fellows, the Free Masons and the Modern Woodmen of America.—Spokesman-Review.

Police Court Notes

C. Hoover, of Nelson, who gave his occupation as a bricklayer, was up before Police Magistrate Mulligan last Tuesday on the charge of being a frequenter and creating a disturbance in a house in the restricted district the night previous. He assaulted one of the inmates, a woman named Ruby, and beat her. He was fined $50, which he dug up and then got out of town.

The C.P.R. tunnel now building at Rogers Pass will be fourteen miles long.

READY TO BLOW-IN AT HIDDEN CREEK

Awaiting Rise of Water—Storeroom Enlarged—to Built Post Office.

(Special to Phoenix Pioneer)

Granby Bay Feb. 26.—This week the finishing touches are beibg given to the dam. However the weather has turned cold again, with the result that the water in Falls creek is at its minimum. Practically everything is in readiness for the blow in, and as soon as the weather becomes milder, and the water at the dam rises a few more feet, active smelting operations will be commenced.

L. A. Manly returned from the south on the last G.T.P. steamer, after visiting at Victoria, Seattle, Port Mann and Vancouver.

A business meeting of the Anyox Social Club was held Friday evening, after which a goodly number attended the dance given in the Granby recreation hall.

Keen interest is taken in the Boundary hockey league here, and the Pioneer's accounts of the games are eagerly looked forward to.

Extensive improvements are being made in the Granby Company's general store. The grocery department are now in their new quarter overlooking the Bay, and it is said that the hardware store will be enlarged, and a new post office building, also butcher shop, will be built shortly.

The Chinese nation have suddenly acquired a taste for Canadian fish. They recently placed an order for 2,000 barrels of herring.

Ore Tonnages

Following are the returns of the output of the Granby mines and smelter for week ending Feb. 22:

SATURDAY, FEB. 28, 1914.

In Spokane the young people dance the "hesitation waltz" without the slightest hesitation.

As a matter of fact the "silverware" has only been "loaned" to Grand Forks. Some day it will all be back on the hill again.

The man who would "rather be a lamp post in New York" than the mayor of his own town, was probably cut out for the former.

The Granby shipments to date have passed the ten million ton mark. And there are millions of tons of ore still left in the mines at Phoenix.

Panic or no panic work at the mines in the Phoenix camp goes on without interruption, and the properties are earning handsome profits. On March 16th the Granby company will pay its regular quarterly dividend.

Terrible place is Phoenix! Full of barbarians! Yet there is no instance on record of a visiting hockey player being carried to the depot on a stretcher, or a referee being strung up to a telephone pole by a mob of discontented citizens.

In playing hockey if a team cannot win on its merits the best way is to kill off a few of the best men on the opposition team by beating them over the head, and then the trick is easy. In case the ordinary hockey sticks are not found sufficiently effective, each player could be provided with an axe. Some of the hockey players in the Boundary this season had the system down to a nicety.

The United States feels the need of a better police system, something in line with the Northwest Mounted Police in Canada. It is a well known fact that on this side of the line the criminal has a wholesome respect for the law. The police here have a way and a habit of enforcing law and obedience to law that strike terror to evildoers and plotters of crime. The train robbery on the Great Northern near Bellingham last week is not flattering to the guardians of the law of the state of Washington.

There is an agitation in Vancouver to discourage women acting as sellers in down town cigar stores. But as one of these ladies points out, many men in Vancouver today are doing work they never did before, and some are seeking in vain for work of any kind. Women as well as men have to live, and are glad to work at anything that offers to keep the banner of respectability flying above their heads. A woman must make her living, and the cigar stand offers one of these means. It is indeed hard lines when any stumbling blocks are used in depriving working women of a way of making an honest living.

While it is only natural that Phoenix regrets losing the cups, still in the interest of hockey in the Boundary it was probably the best thing that could happen. This is the opinion of most of the people in Phoenix, the very men who have been furnishing the "sinews of war." Phoenix held and defended the Boundary cup for three successive seasons, and won the McBride and Daily News cups last year, the first year they were put up. This is a good record for a hockey team in any town, and the Phoenix septette have nothing to be ashamed of. They were defeated, but they take their defeat like true sports. No fault can be found with the way in which they played. Their work was always clean, and open and above board.

The fine of $20 and costs, or a sentence of thirty days in the Nelson jail, meted out to W. G. McGregor, the Grand Forks hockey player, will undoubtedly have the effect of eliminating the rough stuff in these games. McGregor pleaded guilty to the charge, showing conclusively that he knew he was in the wrong. Sayers, his victim, will carry a scar on his forehead the rest of his life. In the playing of these games certain players have often been heard to make the threat that they "would get" some player on the opposing team. Probably one of the fastest and most gentlemanly players who was in the Boundary hockey league is Bernie Morris, who played left wing on the Phoenix team. But there were few games during the past winter that he escaped serious injury or even a complete knockout. It was known that he was a strong, hard player, and the only way to defeat him was by unfair and dirty tactics. It was seldom he ever got the opportunity of showing his ability, for he was kept covered continually and handicapped in every way possible. It is hard lines indeed when it is necessary to resort to the police court to bring these culprits to time, but it is an old saying that desperate diseases require desperate methods of treatment.

Beware of Mistakes

We all may make many mistakes. The person who makes few errors is a more valuable employee than the one who makes many, yet one should not be too greatly discouraged when an error is made, but firmly resolve that a similar mistake will not occur again.

Attention may be called at times to an irregularity, but some never have their attention directed to the irregularity more than once, and it is those that succeed. For the initial error or mistake there may be a reasonable excuse, but the repetition of an irregularity to which our attention has been called is evidence of careleesness.

Obeyed Orders

The managing editor wheeled his chair round and pushed a button in the wall. The person wanted entered. "Here" said the editor, "are a number of directions from outsiders as to the best way to run a newspaper. See that they are all carried out." And the office boy, gathering them in a large waste-basket, did so.

'PHONE 23

PHOENIX BREWING CO., LIMITED

Premier will Visit Ottawa

Sir Richard McBride will leave Victoria for Ottawa at the close of the preseat session of the legislature to discuss several matters of provincial interest with Premier Borden.

Among the questions which he will take up with the Dominion authorities in the appointment of the commission on better terms for British Columbia. Since the investigation of the case by the commissioner appointed by this province, E. V. Bodwell, K. C., was undertaken, several new problemns have arisen with regard to the settlement of this matter and Sir Richard McBride, who has been in constant communication with Premier Borden, has decided to take these new questions up directly at Ottawa.

Several other matters of urgent public importance have also arisen within the last few days and it is in order to obtain a settelement of these that the premier has decided to make a trip to the capital at this time. He will leave immediately after the rising of the legislature and he expects to be absent from Victoria for about three weeks.

Isn't it the Truth?

Hockey should be played on sportmanlike lines. The unenviable publicity given Grand Forks recently through fights and bickerings at and over games outweighs the benefits that come from winning a trophy.—Grand Forks Sun.

When the train was held up near Bellingham last week one lady, a Mrs. Bennett, showed the keen foresight of a woman by putting her money in her stocking.

C.P.R. Extension Plans

Canadian Pacific Railway extension plans this year will involve an expenditure of about eighty-five million dollars. The large amount quoted, however, is said to be spread over a number of years, and double tracking and other parts of the programme will be proceeded with conservatively as the needs arise.

At the present time there are 133 miles of double-track under way between Sudbury and Port Arthur, on the Lake Superior division which alone will cost $6,000,000; 178 miles double-track between Brandon and Calgary, to cost $5,000,000; 139 miles between Revelstorke and Vancouver, to cost $7,000,000.

In the more difficult sections along the Thompson and Fraser rivers it is double-tracking until the Kettle Valley line is ready, which will be next year, so that there will be an alternative route between Medicine Hat and Vancouver, via. the Crow's Nest Pass.

Judea is being commercialized along modern lines. A canning factor is established to can sardines on the sea of Galilee.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

The Hotel Vancouver management will be allowed to continue giving tango teas as long as liquor is not sold at those functions.

The Railway Commission has refused to permit the Canadian Northern to establish regular train service out of Calgary until such time as the temporary bridges of the railroad on the east side of the city are made more secure.

At the session of the Grand Orange lodge held at Nelson last week J. H. Armstrong of Revelstoke was elected grand master; W. G. Gamble of Matsqui, deputy grand master; W. H. Brett, of Collingwood East, grand secretary.

Daniel Guggenheim, president of the American Smelting and Refining Company, declares that the success of the parcel post has converted him to the belief that the United States government could operate the railroads, telegraph and telephone lines better than they are operated at present.

When the suez canal was originally made it had a depth of 26 feet. At various periods it has been deepened, until it reached its present depth of 32 feet. There is not a single lock between the almost tideless Mediterranean and the Red sea. The waterway remains constantly at an almost uniform depth.

Payday on the C. P. R. is an eagerly anticipated event, and each month the company pays out over $6,000,000 in cheques distributed over the system. By actual count the cheques reach a total of 120,000, and this number with the growth of the system and the consequent need of more men, ever grows.

A bill has been passed at Washington, D. C., authorizing the construction of a $35,000,000 railroad from Alaska's coast to its great coal fields. The road will be about 1,000 miles in length. It will be the first instance in the United States of the government ownership of a public utility. A great portion of the machinery used in the construction of the Panama canal will be utilized on the work.

A report from Spokane is to the effect that arrangements are being made for a through train from Spokane to Calgary. The plan is to have the train to leave Spokane at 4 or 5 p.m., and make the run in about 18 hours. It will be a first-class train, with sleepers and dining car service, and will give excellent connections from Calgary to the northern points. It will be a daily service north and south, only stopping at the principal points along the Crows Ness Pass, the divisional point at Cranbrook

McBride and Williams Tilt

In the House at Victoria the other day Parker Williams, the Socialist member, and the Premier had a friendly tilt.

Premier McBride, commenting on the announced intention of Mr. Williams to make a pilgrimage throughout the province during the coming summer, remarked that it seemed now to be fashionable for disappointed politicians to make these pilgrimages.

"Hasn't the honorable gentleman been arranging for one of these pilgrimages himself? Is he getting disappointed?" asked Mr. Williams.

"By no means," replied the premier. "I have been on fourteen of these journeys to different parts of the province and the people have always been glad to see me and have invited me to come again. If my friend could make it convenient I would like him to come along with me next time. I would like to show him some of the roads and public works and satisfy him as to the results obtained."

"I am afraid the honorable gentleman's style of traveling would hardly be in accordance with mine," said Mr. Williams.

"Well," replied the premier, "even if he does be a little exacting, I will do the best I can."

"Safety First"

In the underground maze of the Bunker Hill and Sullivan mine, the largest lead-silver mine in the world, located at Kellogg, Idaho, 80 miles east of Spokane, all trolley wires are being taken out to eliminate danger to workmen. The company, in common with other mining companies of the Coeur d'Alenes, is making a big feature of the "safety first" policy. Electric storage locomotives are being installed to haul the ore in this underground city, except in the Kellogg tunnel. Three locomotives, weighing eight tons each, already are in operation. Since the big mine instituted this policy the accident list has been materially reduced, according to General Manager Stanley Easton. The miners are admonished to be careful as they enter the mine on each shift, and a huge electric sign near the end of the Kellogg tunnel announces, "Safety First."

Gross Carelessness

"Bill's going to sue the company for damages."

"Why, what did they do to him?"

"They blew the quitting whistle when he was carrying a heavy piece of iron, and he dropped it on his foot."

You will be amazed.—WILLIAMS & LLOYD, Wholesale Jewellers (Dept. 144), 60, Cornwallis Road, London, N., England.

Local and General

Mrs. Ralph Kendall left Tuesday for Spokane.

Harry Swanson came in from Republic Monday.

J. E. Thompson was down to Nelson and Spokane the first of the week.

Mrs. O. D. Bush returned last Monday from Nelson, where she was on a visit.

Mrs. Kempston and sister, Miss Laura Earl, left Thursday for Spokane on a visit.

Mrs. Silas Smith came in from the Motherlode mine last Saturday to spend a few days.

So far this season in Phoenix none of the fairer sex have ventured forth with Tango trousers.

For Rent—Nicely furnished housekeeping and sleeping rooms. Apply to Mrs. Malissa Puddy.

D. Mussatto is opening a fruit and confectionery store in the place formerly occupied by Tony Cervo.

The Oliver Typewriter has won international fame as the perfect writing machine for every line of business.

Are you looking for a snap? The Cottage hotel is now for sale. Consult M. H. Kane, box 191, Phoenix.

Connie Benson, who played cover point with the Phoenix team, left for his home in Winnipeg last Tuesday.

For Sale or Rent—Four room house, newly painted and papered, on Brooklyn avenue. Apply to Geo. Evans.

The Grand Forks and Phoenix Junior teams played here last Friday night. Score: Phoenix, 3; Grand Forks, 2.

Last Wednesday was Ash Wednesday and marked the beginning of Lent. Easter Sunday falls on April 12th.

Barney Cosgrove and Dan O'Connell left yesterday morning for the coast. They expect to return in a week or ten days.

R. T. Lowery, editor and financier of the Greenwood Ledge, was in town the first of the week meeting his many old friends.

Gordon McLeod, the popular clerk at the Brooklyn hotel, has been in the hospital for the past week, but is now able to be out again.

A public dance will be given in the Scandinavian hall tonight, Saturday, February 28th. Ironsides orchestra will furnish the music.

Chief of Police Walter Cook was on the sick list for a couple of days during the week, and Joe Darragh was acting in his place.

"Why Women Sin," or "What Happened to Jones," which should have been played at the Opera house tonight, has been cancelled.

Pete Denda was arrested this week on the charge of running a "blind pig." For lack of sufficient evidence he was discharged.

Mrs. J. C. Tait and children left Friday for Vancouver, where they will remain for some time, and will later be joined by Mr. Tait.

Thursday night the Phoenix Juniors played a team picked up from among the boys in town. The "scrub" team beat the Juniors by a score of 4-3.

Narcisse Lemieux, employed by the city to look after the street work and to act as special constable, was taken seriously ill Thursday night and is threatned with appendicitis.

I. G. Mitchell left Monday for Winnipeg, where he will join his wife. Mr. Mitchell will go into business in in that city. Mitchell may not be seen in the west playing hockey again, so he says.

Ben Simpson went over to Vancouver this week to attend the funeral of the late Andrew McKnight. For two years McKnight was master mechanic at the Britannia mine and Mr. Simpson worked as a machinist under him.

Clyde Savage, employed at the Brooklyn hotel, is of an inventive turn of mind, and for the past year or more has been working on a hydromonoplane, which will both fly in the air and float on the water. The model is built on the scale of one inch to the foot. The planes from tip to tip measure 32 inches, and the model is 22 inches long. Practically all of the weight lies below the planes. Every part, even to the wheels, have been made by hand. In time Mr. Savage intends building a full sized machine, to be known as the "Savage Monoplane," which will be capable of carrying two passengers.

Sir. Wm. McDonald, the millionair tobacco manufacturer, is chancellor of McGill university in succession to Lord Strathcona. Sir William's donations to the college total over five millions.

Church Services

St. John's Church—Sundays: Holy Communion, 8 a.m.; Matins, 10.30 a.m.; Holy Communion and sermon, 11 a.m.; Sunday school, 3 p.m.; Evening service, 7 30. Week days: Matins, 7.30; Evensong, 7.30.

The stated services in the Catholic church are as follows: First and third Sundays in the month. Mass at 10 a.m., Sunday School at 2.30 pm.; Evening Service at 7.30 p.m. Rev. Father Choinel, pastor.

Methodist Church—Sunday school and Bible class, 2.30 p.m.; evening service, 7.30 p.m. Prayer meeting, Thursday evening, at 7.45 p.m. Rev. A. T. Bell.

St. Andrew's church (Presbyterian)—Service, Sunday next, March. 1st, at 7:30 p.m., Sunday school at 2 p.m. All welcome. Rev. J. R. Munro, minister.

PHOSPHONOL FOR MEN Restores Vim and Vitality; a Tonic—will build you up. $3 a box, or two for $5, at drug stores, or by mail on receipt of price. THE SCOBELL DRUG Co., St. Catharines, Ontario.

Cups High and "Dry"

Last Friday night, February 20, Grand Forks won the championship of the Boundary by defeating Phoenix, and thus ending the Boundary series. After the game the champions wended their way up to Danny Deane's to get a square meal, and incidentally to rejoice over their triumphant victory. In the center of the table were to be seen the Boundary trophy, as well as the far famed McBride and Daily News cups, standing there high and "dry" on the rocks of adversity, without a sign of a cloud in the dense atmosphere of hot air being peddled around by the ardent supporters of the "hungry seven." Fortunately a stranger chanced to pass that way, and observing their predicament, at once decided to quench their fevered thirsts. He was joined by two other Phoenix sports, and the trio retraced their steps to the Queen's bar, and procured a quantity of "Mumm's Extra," and returned and were allowed to enter and to fill the beforementioned cups to overflowing. They requested the thirsty ones to stoop down and drink.

After the "pilgrims" had gorged themselves they journeyed up to the C. P. R. depot, where a train was in waiting to carry them back to Grand Forks. They returned home highly delighted with the treatment accorded them by three members of Phoenix sporting element.

Ladies Play Hockey

There is no disputing the fact that ladies can play hockey just as well as the men. And more over they can give the men some pointers in playing a good clean game. Wednesday night the married and single ladies of Phoenix played two fast periods, and were anxious to play a third, but in true ladylike fashion they acceded to the wishes of the Odd Fellows, who were also scheduled to play. The ladies without exception were good skaters, and the combination work displayed was an agreeable suprise to the spectators. There was no hair pulling, or no remarks like "I'll get you yet." Sometimes in checking two ladies would come down together on the ice pretty hard, but they were soon up and into the thick of the fray again.

Palmer Cook was referee, and the ladies though the way he handled the game was just "perfectly lovely." In the two periods not a lady was put on the fence. The married ladies won, by a score of one goal, which was shot into the net by Mrs. McDonald. J. E. Carter and H. Tilton were the goal umpires.

Folling is the lineup:

Married ladies—Mrs. J. A. Miller, goal; Miss Donnan, point; Mrs. A. Hilliar, cover point; Mrs. W. L. Ritchie, rover; Mrs. H. Sawrey, center; Mrs. J. McDonald, right wing; Mrs. E. E. Barnes, left wing.

Single ladies—Miss McEwen, goal; Miss Boyce, point; Miss Mattinson, cover point; Miss Carson, rover; Miss McKeown, center; Miss McGeer, right wing; Miss Bateman, left wing.

After the game the ladies repaired to the Queens hotel and were served a nicely prepared supper by the Phoenix Sports Committee.

Important Notice

All those having an account against the Phoenix Sports Committee would confer a favor by submitting same at as early a date as possible. (Signed) E. A. BLACK, Secretary.

Prof. Marks Coming

Prof. Marks begs to announce to the public of Phoenix that he intends, at an early date, to open a dancing class, giving instructions in all the latest dances, and will make a specialty of

Tango and Hesitation Waltz

The Tango and Hesitation Waltz are two of the most popular dances that have ever been introduced in the ballroom, and as the citizens of Phoenix have always set the pace in amusement of this sort, the opportunity now offered should not be overlooked.

For further particulars, consult Chas. McKay or A. A. White.

$5,000 on Proof of Radium

Victoria, B.C.—Feb. 25.—The British Columbia legislature this evening adopted the radium bill on second reading, and as the opposition approved of the measure its passage is assured. Briefly the measure provides for the provincial government sharing in any discovery of radium in British Columbia to the extent of 50 per cent; it rewards the discoverer $5000 upon proof of discovery, and it amends the mining act so that radium will not be classed with other minerals.

Sir Richard McBride, the premier, stated that he had no doubt that there were valuable deposits of pitchblende in the province "The national governments at Ottawa and Washington," he said, "have been interested in this question, and we wish to fall into line with the legislative measures now under consideration in Canada and the United States, so far as the discovery of radium is concerned."

It is estimated that labor lost £4,500,000 by strikes in the United Kingdom last year.

McGregor Paid his Fine

W. G. McGregor, left wing of the Grand Forks champions, who was arrested last Friday night after the Grand Forks-Phoenix match for having committed an assault on Sayers of the Phoenix team by hitting him over the head with his hockey stick, was given a hearing Monday night before Police Magistrate Mulligan. McGregor pleaded guilty after hearing the charge, and the magistrate imposed a fine of $20 and costs or 30 days in the Nelson jail. The fine was paid.

Sayers was so badly injured that it was recessary for him to be assisted from the ice and placed under the care of a physican. After the game a warrant was issued for the arrest of his assailant, who was placed under a $100 bond to appear here Monday night. N. L. McInnes, of Grand Forks, went his bond.

Literal

Uplifter—My man, was it alcohol that brought you here?

Prisoner—No, gasoline; I came in de patrol wag,gin.'
