Our Annual

STOCK-TAKING SALE

In Dry Goods Department.

In order to clean up our shelves and tables before taking stock, and to make room for new spring goods we are offering the following lines at greatly reduced prices:

Ladies' tailored tweed Walking Skirts,

Regular $10.00	Now $8.00
9.00	6.75
7.00	5.00
6.00	4.75

Complete line of Ladies' LONG and SHORT KIMONOS ranging from $1.00 to $3.75 in value, now offered from 60c. to $2.50.

A few Ladies' all woll DRESSING SACQUES, were $3.50, now $2.25.

LADIES' GOLFERS—Regular $3.50, Sale $2.25.

Full range of CHILDS FELT SLIPPERS, Regular $1.00, Sale 75c.

Childs CARDIGAN RUBBERS, Regular $1.75, Sale $1.00.

Misses WHITE BEARSKIN CAPS, Regular $1.50, Sale $1.00.

Ladies' DRIVING MITTS, Regular $1.50, Sale $1.00.

Misses DRIVING MITTS, Regular $1.00, Sale 75c.

ODD CORSETS, in values ranging from $1.00 to $2.50, now on sale at 50c.

LADIES' AND CHILDREN'S COATS AT LESS THAN COST PRICE

The Hunter-Kendrick Co.

1908

We wish to thank our many Customers for their Liberal Patronage during the year of 1907, and to express the hope that, by careful attention to business, we may merit a continuation of their Valued Favors during the year just beginning.

We wish you all joy and prosperity, today and every other day of the year--whatever of success and happiness comes to you will make us glad.

Cordially,

Morrin Thompson & Co.
GROCERS AND HARDWARE MERCHANTS

Boundary Mining Notes

The Providence Mining Co. is advertising for bids for an issue of $50,000 in bonds.

Yesterday was payday at the Granby mines, but, as work did not start till December 26th, the amount distributed was comparatively small.

Hedley Miners' Union No. 161, it is understood, has accepted the lower wage scale which went into effect on January 1st, being that now in force in Phoenix, with some exceptions.

Granby had six furnaces in operation this week, and expected to get the entire battery of eight furnaces in blast by the end of the week, the ore shipments now running about 2,500 tons per day, soon to be increased to 3,000 tons or more daily.

The office force at the Mother Lode has been let out and the telephone removed. The office force of the B. C. Copper Co's smelter has been reduced to the minimun, and watchmen are about the only ones seen now at mine and smelting works.

At the Granby mines the force has been steadily increased and there are now about 450 men employed, which number is being added to daily, as the smelter is able to eat up more ore with additional furnaces being blown in. There are several men in camp for each position, with a long waiting list.

It is understood to be the definite intention of the Dominion Copper Co. to carry out the plans made just before the shut down at the smelter in October, namely, to convert the two old and small furnaces into one larger furnace—undoubtedly the largest yet made in Canada. This is said to be the view of M. M. Johnson, the consulting engineer, and will doubtless be carried out as soon asa resumption is decided upon.

Wm. Spier, western inspector of the Eastern Townships Bank, was here Tuesday, and thence went to Midway, Keremeos and Spokane, on his way to Winnipeg and Sherbrooke. He expects to have headquarters at Victoria, where a branch of the bank is likely to be established. He has been with the bank 25 years.

B. C. COPPER AND DOMINION

Unfounded Rumors as to Resumption.

Nothing Definite Yet From Either of the Companies.

With the Granby Consolidated operating at full capacity, and employing from 800 to 1,000 men, the question is frequently asked, when will the B. C. Copper Co. and Dominion Copper Co. resume operations. This week the Pioneer representative asked this question of J. E. McAllister, manager of the B. C. Copper Co.

In effect Mr. McAllister said that it was his understanding, on advices from the eastern office of the company, that, when the conditions generally were right, the company would once more resume mining and smelting. The company, he said, had no interests to look after but those of the shareholders, and when the directors were satisfied that their best interests were best served by so doing, work would be again started.

Since the close-down in November, Mr. McAllister had been assured by the C. P. R. that there would no longer be any difficulty about plenty of ore dumps, nor regarding motive power to move ore, blister copper, etc. He also felt satisfied that there would be some concessions in the price charged at the collieries for coke by the time they were ready to start operations again. The labor situation was clearing itself, and there was a feeling that the price of copper would be, at least, a little better after awhile. But he was satisfied the company would not resume till all the conditions were propitious. The margin at present in handling the low grade ores of the Boundary was too close to permit of anything but the harmonious working together of all interests of whatsoever kind, in order to make a profit.

When the B. C. Copper smelter started again, Mr. McAllister expected the Snowshoe, in Phoenix camp, also to do likewise, as the latter had a contract to furnish ore to the former, when resumption would take place he could not say, or even guess.

The annual meeting of the British Columbia Copper Co. is expected to be held late this month or early next month in New York, following which there should be something known.

Dominion Copper.

This week there have been many rumors current about the resumption of operations by the Dominion Copper Co. In the absence of W. C. Thomas, the manager, who has been spending the holidays in Salt Lake City, Utah, nothing definite can be stated, except that no announcements have been made officially. Supt. Rundberg, of the company's mines, was unable to set a date for resumption, but thought he would know something after the 15th.

Two weeks from next Monday the annual meeting of the Dominion Copper Co. is to held in Phoenix, and whether that will have any bearing on the conditions as regards resumption, remains to be seen.

Looking at the whole matter in its broad light, it would seem that a few weeks will see some move made for resumption by both of these companies, if, indeed, something is not heard sooner. At any rate, there prevails a general air of expectancy in the matter.

To the Ratepayers

OF THE

City of Phoenix.

Ladies and Gentlemen:—

At the request of many ratepayers and citizens of Phoenix, I have decided to offer myself as a candidate for Mayor of this city, at the forthcoming election, to be held on Thursday, January 16th.

I have been closely indentified with the growth and the upbuilding of the city of Phoenix, and I believe that our Mountain City has a more prosperous future than any other mining town in the province of British Columbia.

I feel that a sound and stable government is more necessary today in this city than it has ever been before, and the interests of the business men and the workmen in the mines need greater safeguards than hitherto. It is the duty of every citizen of this city of ours, irrespective of party affiliations or sectional feelings, to guarantee this. By these methods alone can confidence be again restored and prosperity returned.

I wish to lay all party politics aside, believing it is best to depart from all political lines, and to unite as citizens to improve our present condition.

It is to be regretted that the city's finances during the last 12 months have been so deplorably managed that only a stronger and more devoted administration will be able to place them on the solid foundation that they have heretofore enjoyed.

There are a few measures I wish to express myself on very plainly, and if elected, will endeavor to carry out; namely:

1st. I propose to exclude all professional gamblers from the city, and will not countenance the term "Wide Open Town" to be applied to Phoenix.

2d. To conduct the affairs of the city on the most economical basis consistent with good public service.

3d. To reduce the indebtedness of the city as rapidly as possible, without burdening the ratepayers with unusually high taxation.

4th. To reorganize the Fire Department and encourage the volunteer firemen to take a greater interest in raising the efficiency of this department, thus guaranteeing to property owners greater safety against loss by fire.

5th. To keep the city in as sanitary condition as possible, thus avoiding the dangers of sickness and epidemics.

These are a few of the matters which I will use all my efforts, if elected, to bring about, and I confidently look forward to your general support in trying to carry out these measures.

G. W. RUMBERGER.

Notice of Annual Meeting.

Notice is hereby given that the regular annual meeting of the members of the Phoenix General Hospital, will be held in the office of J. L. Martin, Bank Block, Phoenix, B. C., on Thursday evening, January 16, 1908, at eight o'clock, for the election of new officers and the transaction of such business as may come before the meeting.

V. M. SHERBINO,
Secretary.

Dated at Phoenix, B. C.,
January 8, 1908.

Latest Prices in Metals

Spelter, $3.00 @ $4 00

CITY ELECTION WARM AGAIN

Matheson and Rumberger Will Run.

Last Year's Opponents For Mayor Lining Up.

Things municipal are beginning to take on a more interesting aspect, as the date of the annual city election draws nigh. It has been known that the present incumbent of the mayor's chair, D. J. Matheson, was not specially anxious to hold the office another term, though he might be persuaded to run again. G. W. Rumberger, who was mayor of Phoenix for seven consecutive terms, and who for the first time was beaten by Mr. Matheson last January, has definitely announced that he will be a candidate once more, and it may be assumed will make a hard fight to win. In this case, it is now known that Mr. Matheson, just to be sure of some gaity among the municipalities, will enter the battle of the ballots, which takes place on the 16th of January.

For aldermanic timber many names have been mentioned, but none of them have yet been definitely announced—at least as far as the public is concerned. However, it is likely that at least six men can be found who can qualify and who are willing to serve the city without money and without price for the year 1908. As next Monday is nomination day, and election on the Thursday following, the campaign will be short and sharp, and undoubtedly have some surprises for a number, as such elections always do. Each man will have a bunch of friends who is sure he can win—but some one will be left, that is certain.

The city voters' list of 305 names will be closely scanned from this on, but on account of the many changes and absentees since the registration closed, he is a bright one who can analyze it with any degree of satisfaction.

Boundary Side Lights

The rink in Grand Forks will be opened as soon as the weather permits.

Greenwood has 394 names on its voters' list this year, and Grand Forks 521 names

Notwithstanding the prevailing quietude in Midway, Christmas was celebrated for the little folks.

The contest is still on in Grand Forks, as to whether the Grand Forks hotel should be granted a license.

Ties cut by miners, smeltermen and others in the Boundary are being delivered along the C. P. R. right-of-way.

Cascade has a Frenchman, so it is said, who can make 100 ties per day. At any rate, he'll not have to walk the ties.

Grand Forks hockey club was reorganized last week, with the following officers: President, J. S. Jost; secretary-treasurer, Chas. Haverty; manager, Roy Curran. Games will be played with clubs in other Boundary towns.

Curlers Are Getting Busy.

At a meeting of the members of the Phoenix Curling Club, the following rinks were chosen, to play games through January and into February:

Skip	Strutzel	Sherbino
Vice	Dr. McLean	Gibson
2nd	A. Strutzel	McMaster
Lead	LaBelle	Berger
Skip	George	Strachan
Vice	Delahay	Hunter
2nd	Thompson	Lackie
Lead	Perkins	D.J.M'D'n'ld
Skip	Gardner	Marshall
Vice	McCammon	Hyslop
2nd	Hower	Matheson
Lead	Corbett	Biner
Skip	McNicol	Roderick
Vice	McCracken	Campbell
2nd	Thrasher	Geddes
Lead	Gunn	Carter
Skip	Morrin	Reeves
Vice	Stephens	Rumberger
2nd	Mathews	Cosgrove
Lead	Fairweather	Bouterious
Skip	O. B. Smith	Brown
Vice	Birnie	Macy
2nd	J. L. Martin	Bowers.
Lead	Willcox	Halsey

More interest in curling is being taken this year in Phoenix than for some time before, and the club expects to send one or more rinks to the bonspiel of the Kootenay Curling Association, to be held at Nelson January 20th. Pither & Leiser, of Victoria, have very kindly donated a handsome silver cup, suitably engraved, for local competition, the cup now being on exhibition in the window of the secretary, R. G. Gardner,

Following are the results of the games thus far won in the local competition.

Skip Sherbino	beat	Skip Strutzel,	7-10.
" Strachan	"	" George,	8-10.
" McNicol	"	" Roderick,	12-13
" Morrin	"	" Reeves,	5-15
" McNicol	"	" Strutzel,	8-12
" Sherbino	"	" Roderick,	8-12
" George	"	" Morrin,	5-14
" Strachan	"	" Reeves,	5-15
" Strutzel	"	" Roderick,	5-15
" George	"	" Reeves,	11-12
" Morrin	"	" Strachan,	8-12
" Gardner	"	" Roderick,	8-13
" McNicol	"	" Marshall,	3-11
" Smith	"	" Brown,	6 14

W. C. Thomas, manager of the Dominion Copper Co., is expected to return to the Boundary from Salt Lake some time next week.

R. P. Williams and H. P. Dickinson, both of Rossland, selling machinery and powder, respectively, were here Thursday for the first time this year.

Alderman William J. Porter, who has been down at Vancouver for some weeks, is expected to return in time for the municipal election next week.

Manager G. M. Fripp, of the British American Trust Co., of Grand Forks, is likely to be the next mayor of that place.

Mayor Bunting will probably be elected in Greenwood next week for another term, by acclamation—if a dark horse does not crop up.

The Flumerfelt prize for the high school, given for the best essay on the Grand Forks electoral district, has been awarded to Bert Reid.

Following are the new officers of Harmony Lodge, A. F. A. M., recently installed at Grand Forks: W. M., J. A. McCallum; S. W., H. C. Kerman; J. W., D. McCallum; Treas., P. McCallum; Sec., W. J. Cook; S. D., J. McKie; J. D., W. Huffman; Tyler, T. Haliday.

Progress and Results at Boundary Mines in 1907

[CONCLUDED FROM LAST ISSUE.]

Other Boundary Camps.

Comparatively little has been done at the several other Boundary camps this year, outside those mentioned below.

Franklin camp, at the headwaters of the North Fork of Kettle river, about 40 miles north of Grand Forks, has some excellent prospects. Most of the work this year has been done on the Maple Leaf group, where some machinery has been installed. But this property, and and the well known McKinley, Gloucester and others are all handicapped by being so far from transportation. This, however, is gradually being remedied, the Kettle Valley railway having a charter to build to and through Franklin camp, and this year having actually completed 20 miles of construction and track-laying. When the road is completed it will be a great stimulus to this camp.

The Golden Eagle mine, on the North Fork of Kettle river, is being developed by a small force, after being idle for some years, and has recently made test shipments to the Granby smelter. The Little Bertha, also up the North Fork, has also been developed.

A number of other properties of no little promise in this district have had considerable work done thereon, but as yet none of them have reached the steady shipping stage. Nevertheless, there can be but little doubt that some good mines will be developed in the North Fork section.

Long Lake camp has one mine at work, the Jewel, where a small force is kept busy, there being an adequate machinery plant. It is understood that the Scotch owners of the property will make some shipments of the gold ore this winter over the snow, the mine being located about 6 miles from Eholt, the nearest railway point.

Camp McKinney this year has had more activity than for several years, the famous Cariboo having been operated under lease by a syndicate of residents of Phoenix. This mine has paid more than have a million in dividends in the past, being a free gold producer, with a full equipment of machinery, stamp mill, etc., and having extensive underground workings, the present lessees having sent out some gold bricks and shipped a car of concentrates. It is yet hoped that the property will redeem the good name which it had for many years.

Nothing has been done in Wellington camp this year, which in the early days of the Boundary had several shipping mines. It is understood, however, that the Dominion Copper Co., which owns the Athlestan group in this camp, will once more, in the not distant future, operate the property, it being a gold producer with good values, and having already shipped over 10,000 tons of ore, even though two miles from the nearest railway siding of the C. P. R.

On the West Fork of Kettle river a number of high grade mines have been worked to some extent this year, and some shipments have been made, notwithstanding the 40 mile wagon haul to the railway at Midway. The Sally and Duncan were among these, and are said to be looking well with development. They are close to the surveyed route of the Midway & Vernon railway, confidence in the ultimate building of which is still strong, notwithstanding the many delays in getting the project on its feet. When it is built, it will open up an extremely rich mineralized territory, and many good mines will undoubtedly be on the shipping list, the ores of but few being now able to stand the heavy expense of a long wagon haul. The Riverside mine, near Rock creek, has also shipped a few carloads this year.

On each side of Greenwood is a high grade ore belt, which in past years has given good results, the gold and silver ore giving all the way from $60 to $200 per ton by the carload. This year not as much has been accomplished as previously, from one cause or another.

The Providence mine shipped some 700 tons of high grade ore, but has not been in operation for some months. It is understood to be the intention of the Chicago owners to sink the present 600-foot shaft to the 1,000-foot level and equip the property with larger machinery.

The Skylark is another mine that has made another good record in the past, being owned by a Phoenix company, and having practically been paid for by ore taken from the mine. The coming year should also see this mine in operation once more.

In Skylark camp the Crescent mine has been idle most of the year, awaiting a long-delayed shipment of machinery. This is now installed and the property is working, with the best electrical equipment of any mine in the high grade class in the Boundary. The property is a silver and gold producer.

During the year the Strathmore has been operated almost continuously, the results having been quite satisfactory to the Chicago owners of the property.

Considerable work has been done on the Bay, the Elkhorn, the E. P. U. and a number of others that are well known in the high grade section.

During the year the LeRoi mine, located about five miles from Camp McKinney was bonded by a syndicate from Phoenix, and considerable development was done, giving a most encouraging showing.

BOUNDARY ORE TONNAGE.

January, 11, '08

The following table gives the ore shipments of Boundary mines for 1900, for 1901, for 1902, for 1903, for 1904, for 1905, for 1906, and 1907, as reported to the Phoenix Pioneer—

Now that a timber reserve has been placed on unstaked areas, it will be a sad blow to some of the coast newspapers, who have been running columns and pages of timber notices for the last year or two.

With Granby once more operating at full force, the opinion prevails that a few weeks more will see the other three large Boundary copper producing companies doing likewise—especially if the price of copper would improve a little.

Sir Wilfrid Laurier states that he is bound to respect the wishes of British Columbians regarding the restriction of Oriental immigration, even if he does not agree with the views of the exclusionists. If Canada's premier will now work out a plan of exclusion, it will show his respect more than any number of telegrams sent to Liberal newspapers.

James J. Hill is a much criticised man, as in fact are all men in the public eye. But let us give the devil his due. Some months ago Mr. Hill said that the country was going ahead too fast, and could not stand the pace, advising a general slowing up. Those who took his advice and prepared for stormy financial weather are now thanking their stars that they did so. The storm came, and did incalculable damage. Now, then, Mr. Hill is taking another brush and is painting a more pleasant picture. If he is as good a prophet as he was in the other instance, he will have scored once again and in a way that will certainly be pleasant.

A. J. WHITE & CO., Montreal.

Hon. Rodolphe Lemieux, of Ottawa, who went to Tokio, to secure the suppression of Japanese immigration to British Columbia, is homeward bound, having practically accomplished nothing. While he was away the "Solid Seven" Liberals in the Dominion house, took a whole day to explain their attitude on the question, in order to square themselves with their constituents, with a Dominion election in sight. They also accomplished nothing. Meantime, the Japs continue to pour into this province, and another Japanese riot occured in Vancouver, the storm center, the Japs themselves being the aggressors this time. We do not want the Japs, but apparently we cannot help ourselves under the present treaty. The question, apart from politics, grows more and more perplexing.

B. C. MINING

Kaslo miners' union has opened a free reading room.

Trail smelter last week received 4,289 tons of ore.

A 4,000-foot tunnel for the Krao mine, at Ainsworth, is proposed.

Rossland ore shipments for the first full week of 1908 were 5,980 tons.

By the explosion of the Hamilton Powder Co's works at Nanimo, a few days ago, a loss of $40,000 was entailed

Sands from near Quesnel, tested in New York, give about three ounces of platinum to the ton, and can be made to pay if they can be concentrated.

Harry Howson, who owns large copper mining interests in the *Telqua* valley, is said to contemplate extensive development during the next season, employing at least one hundred miners.

On Jan. 15 a meeting of the Canadian Institute of Mining Engineers will be held in Nelson. The particular object of the meeting is the founding of a British Columbia branch of the institute.

For Baby's use—and every toilet purpose as good a soap as "Baby's Own" cannot be bought for as little money.

Albert Soaps Ltd. Mfrs., Montreal. 1-07

Beware of imitations and substitutes accept none but the genuine "Baby's Own."

By February additional transportation facilities for marketing the product of the Crow's Nest Pass coal mining district, will be increased by the opening of the Great Northern extension from Fernie to Michel, which is 23 miles long.

Work is being pushed upon the Canada zinc plant at Nelson. The building is practically completed and little remains to be done but the assembling of the machinery. The works should be turned over at the beginning of February and the plant in operation shortly afterwards. Arrangements have been made for the reception of ore.

The Blue Bell mine, up on the Kootenay lake, has now nearly finished its system of develpment. At the end of June last development of the ore in the mine ceased and the management directed its energies to the erection of machinery for milling the ore. This involved the fluming of water for several miles, the building of a 200-ton mill and the assembling of a power plant, both of the latter being worked by hydraulic power. Within ten days, the machinery having been completed, the mine will start developing its ore bodies again.

THE OBSERVATORY

THINGS TALKED OF AT HOME AND ELSEWHERE

A. S. Hood received word this week of the death of his oldest brother, Alexander John Hood, at Yarmouth, Nova Scotia, on December 30th Deceased enjoyed the distinction of being the oldest postmater in the Dominion of Canada, having been in that position since 1862, or over 45 years. He was advanced in age, and had seen the work of the post-office grow from where he only required a few shelves in the back of a small store, to the fine stone and brick building in which his business for the Dominion was conducted in that quaint old town on the Bay of Fundy, at the time of his decease.

The editor of this g. f. j. nearly had a faint one day this week, when a subscriber walked into the santum sanctorum and actually attempted to pay again for his subscription, which was already paid up till next summer. Of course, he was advised as to the true state of affairs, and the editor had some difficulty in persuading him to pocket his two cold cold plunks once more, but finally succeeded.

Incidentally, we might remark that this case is somewhat different from others, for we have some subscribers who have been taking the Pioneer for five years and yet the idea of liquidating in coin of the realm seems never to enter their heads. It will not always be thus, however, as we have a plan to bring them to time shortly, if they do not let us hear from them more shortly. The Pioneer is never sent to any one that we know does not care for it and who has paid up arrears. Lately several hundred dollars worth of accounts were sent out, and many have responded, but for the sake of the typographical artists who produce the Pioneer—and who find they must eat like other people—it is hoped the balance will send along the amounts due very soon.

People are wont to think that justice is sometimes pretty swift in Canada, and they have reason. Last week Friday James Turner and John McCann were brought before the police magistrate charged with stealing chickens, etc., from D. L. McIntominey and others. They elected for a speedy trial and got it, beginning at 1.30 p.m. By 2.30 they had been sentenced to three months in Nelson jail, and were on the way to the station to be taken there. Both men were well known characters about the camp. Constable Docksteader worked up the case, with the aid of Constable Dodd, of Arrowhead, whom he had asked to be sent here to assist. If the men had had trial at the county court, they might have received five years at hard labor. This will be a lesson to poultry thieves.

BOVRIL

Contains the life-sustaining elements of

B E E F

Beef extracts contain only the flavor and stimulating elements of beef—the nutritive values are lost in the making. Baron Liebig, the inventor of beef extracts, admitted that. He said "It is but a condiment and stimulant, containing no matter capable of sustaining life."

That is where BOVRIL differs from beef extracts.

BOVRIL does contain the nourishment and life-sustaining elements of beef as well as its rich flavor.

BOVRIL gives strength and nourishment to the invalid. With its help you can make left-over scraps into delicious consommes, bouillons and soups with very little trouble.

BOVRIL is the true economist in the home kitchen.

Your grocer sells BOVRIL. 15

LAND ACT.

Similkameen Land District, District of Yal.

TAKE NOTICE that SAMUEL DUNDEE, Belfast, Ireland occupation, Merchant, intends to apply for a special timber license over the following described lands:

No. 3.—Commencing at a post planted about 60 chains east from the south west corner post of No 2 location, and on its south side line, marked SAMUEL DUNDEE'S north-west corner post; thence east 40 chains; thence south 160 chains; thence west 40 chains; thence north 160 chains to the point of commencement, and containing 640 acres, more or less.

SAMUEL DUNDEE,
C. Dundee Agent.

Dated, 6th November, 1907.

A pencil mark here is a reminder that your subscription to this paper is now past due, and the publisher will appreciate your prompt attention.

SIMILKAMEEN LAND DISTRICT.

DISTRICT OF YALE.

TAKE NOTICE, that Colin McRae of Deadwood, British Columbia, miner, intends to apply for special timber licenses over the following described lands, all situate in the Similkameen Division of Yale district, Province of British Columbia:

Location No. 1.—Commencing at a post marked "Colin McRae's N. E. corner" planted about 20 chains north of Wallace Creek, a tributary of Boundary Creek, and about 3½ miles north of the north-west corner of Paul Meyer's pre-emption, Lot 696; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement, containing 640 acres, more or less.

Located October 31st, 1907.

Location No. 2.—Commencing at a post marked "Colin McRae's E. N. E. corner" planted at the north-west corner of said Location No. 1; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st October, 1907.

Location No. 3.—Commencing at a post marked "Colin McRae's S. E. corner" planted at the north-west corner of said Location No. 1; thence west 80 chains; thence north 80 chains; thence east 80 chains; thence south 80 chains to the point of commencement, containing 640 acres more or less.

Located the 21st of October, 1907.

Location No. 4.—Commencing at a post marked "Colin McRae's S.E. corner" planted near the north-east corner of said Location No. 3; thence west 80 chains; thence north 80 chains; thence east 80 chains; thence south 80 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st October, 1907.

Location No. 5.—Commencing at a post marked "Colin McRae's S.W. corner" planted near the north-east corner of said Location No. 3; thence east 80 chains; thence north 80 chains; thence west 80 chains; thence south 80 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st day October, 1907.

Location No. 6.—Commencing at a post marked "Colin McRae's S. E. corner" planted near the north-east corner of said Location No. 4; thence west 80 chains; thence north 80 chains; thence east 80 chains; thence south 80 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 7.—Commencing at a post marked "Colin McRae's S.E. corner," planted about one mile north of the north-east corner of said Location No. 5; thence north 160 chains; thence west 40 chains; thence south 160 chains; thence east 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 8.—Commencing at a post marked "Colin McRae's S.E. corner," planted about ½ mile south of the north-west corner of said Location No. 4; thence west 160 chains; thence north 40 chains; thence east 160 chains; thence south 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 9.—Commencing at a post marked "Colin McRae's N.E. corner," planted near the south-east corner of said Location No. 8; thence west 160 chains; thence south 40 chains; thence east 160 chains; thence north 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 10.—Commencing at a post marked "Colin McRae's S. E. corner," planted about ½ mile south of the south-east corner of said Location No. 9; thence west 160 chains; thence north 40 chains; thence east 160 chains; thence south 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 11.—Commencing at a post marked "Colin McRae's N. E. corner," planted near the south-east corner of said Location No. 10; thence west 160 chains; thence south 40 chains; thence east 160 chains; thence north 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 12.—Commencing at a post marked "Colin McRae's S. E. corner," planted about ½ mile south of the south-east corner of said Location No. 11; thence west 160 chains; thence north 40 chains; thence east 160 chains; thence south 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 13.—Commencing at a post marked "Colin McRae's N.E corner," planted near the south-east corner of said location No. 12; thence west 160 chains; thence south 40 chains; thence east 160 chains; thence north 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Location No. 14.—Commencing at a post marked "Colin McRae's N E. corner," planted near the south-west corner of said Location No. 2; thence west 160 chains; thence south 40 chains; thence east 160 chains; thence north 40 chains to the point of commencement, containing 640 acres, more or less.

Located the 21st of October, 1907.

Dated at Greenwood, B.C., this 16th day of November, 1907.

COLIN McRAE,
November, 1907. Applicant.

LAND ACT.

FORM No. 9.

FORM OF NOTICE.

Similkameen Land District, District of Yale.

TAKE NOTICE that I, Charles Dundee, of Rossland, occupation, mining, intends to apply for permission to purchase the following described land:

Commencing at a post planted about 50 yards east from the Columbia and Western Railway, and about ¼ mile south from Fife Station, on said railway, thence north 20 chains; thence west 20 chains; thence south 20 chains; thence east 20 chains to point of commencement, and containing 40 acres, more or less.

CHARLES DUNDEE,
Name of Applicant

Date, 23rd November, 1907.

Many housewives think it cheaper to buy than to bake. That is because their baking isn't successful every time. Their failures run the cost up. Get

Royal Household Flour

and follow directions. The result will be light, wholesome bread or pastry every time. You pay a few cents more for Royal Household, but those few cents buy certainty and purity. Your grocer can supply you.

Ogilvie Flour Mills Co., Ltd.
155 Montreal.

OLLA PODRIDA

Yes, business is good if your advertising is "good."

You should—if you are a merchant—be getting enthusiastic just now about your advertising plans for the new year.

Every low priced article in the store is an "advertising argument" and should have its place in a convincing ad.

If the year's retrospect is not wholly pleasing, turn to the year's prospect and plan an advertising campaign.

The much lauded, "power of the press" is never more usefully employed than in assisting a worthy store to become bigger.

It would be a "happier new year" for you now if you had spent twice as much money as you did spend on newspaper advertising during the old year.

The public responds "in kind" to store advertising. If it is big, important, full of signifinance to thrifty people—it will pull, it will impress, it will create trade, accordingly.

When a store begins to receive adequate advertising it begins to show signs of "arriving."

FROM THE ANTILLES.

Chamberlain's Cough Remedy Benefits a City Councilman at Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble, and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain a other bottle." For sale by all druggists.

Buster's Philosophy.—XV.

That oil and water will not mix. The oil is good and the water is good, but God didn't make them to mix. You're not to blame because you don't like the society of some one who bores you. Tige has it in for cats—he can't help it. He says cats are not on the level. But Tige is a dog and must be excused. When people act that way it is inexcusable. When you don't like people, stay away from them. Remember, you may not please them. If you want a person to like you, you just try to like them, and they will like you—it works.

Cut this out and take it to any drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. These tablets are far superior to pills, being easier to take and more pleasant in effect. They correct disorders of the stomach, liver and bowels.

COLUMBIAN COLLEGE.

Founded 1892—Incorporated 1893.
NEW WESTMINSTER, B.C.

Provides a Christian home for students of both sexes at moderate rates. Has a preparatory class for junior students, doing grade public school work. Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a Practical Business Course and gives Diplomas. Gives a liberal education in its Collegiate Course and in the Ladies' Course for M.E.L. and M.L.A. In University work, can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in int affiliation.

For fuller information and terms write Rev. W. J. Sipperell, B.A., B.D., Principal; or Rev. J. P. Bowell, Bursar.

1,642,500 TONS FOR THE YEAR

Proposed Output for the Granby Co.

Optimistic Interview With Gen. Man. J. P. Graves.

"At the outset of the new year, as an indication of the harmonious relations between the Granby interests and their employes, you may say that we will not only start the new year operating at full capacity, but further than that, in view of the exceptionally promising outlook for 1908, we plan to greatly increase the capacity of our plant, the largest copper smelting plant in Canada, and, with the exception of Anaconda, the largest on the continent."

This statement relative to conditions in the Boundary district was made by J. P. Graves, vice-president and manager of the Granby company, to a Spokane paper last week.

"At full capacity from now on we will be turning out at the Granby smelter from 3,000 to 3,5000 tons of ore daily," continued Mr. Graves.

"This is out present full capacity and there is every indication that we will be running at full capacity from now on until the middle of next summer.

"So exceptionally encouraging is the outlook in the Boundary country that I think I may safely say that by the middle of next summer we will be in such a position as to feel in every way justified in increasing our capacity by at least a thousand tons a day. This will bring the Granby smelter up to a total capacity of fully 4,500 tons daily.

"Our present aggregate monthly output is 100,000 tons, or about 1,450,000 tons a year.

"By increasing our output, as I said, to 4,5000 tons a day, we will be turning out 1,642,500 tons a year.

Carney Copper.

Consolidateds and wild cats may tremble and fall,
Administrations change and operators grumble;
Reactionists and pessimists, croakings may pall,
Now, just read this through and then "take a tumble."
Experts have judged of the outcrop of "CARNEY,"
Yes, samples of ore show abundance of metal;
Call on J. MARTIN, who'll give you no blarney,
Of course, if you'd like time in which to settle
Personally, I've no doubt he'll be there to greet you,
President, tho' he be, on the square he will meet you;
Easy as your other scheme seems, just drop her,
Remember the best thing of the day's "CARNEY COPPER."

—"Hopeful."

Cash $20	A Grand Forks Friend
Donation Copper Co.	Full Set Boiler Tubes
Cord Wood	P. Buckless

DOES THIS INTEREST YOU?

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:—

One ounce Fluid Extract Dandelion;

One ounce Compound Salatone;

Four ounces Compound Syrup Sarsaparilla;

Mix, shake well, and take in teaspoonful doses after each meal and again at bedtime.

Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

LAND ACT.

Similkameen Land District, District of Yale.

TAKE NOTICE that SAMUEL DUNDEE, of Belfast Ireland, occupation, Merchant, intends to apply for a special timber license over the following described lands:

No. 1.—Commencing at a post planted about ¾ of a mile east of the Columbia and Western Railway, from where it crosses Sutherland Creek, and about ¾ of a mile south from said creek and marked SAMUEL DUNDEE'S north-west corner post; thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 80 chains to the point of commencement, and containing 640 acres, more or less.

SAMUEL DUNDEE,
C. Dundee Agent.

Dated, 6th November, 1907.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

Copper and Civilization.

The place that copper now occupies, and has occupied in the past, as a factor in bringing about civilization is, perhaps, little appreciated unless we go back and follow up the facts, says the Daily Mining Record. We read of man in the stone, age, half savage, but possessed of some skill in the manufacture of implements out of stone. Next came the age of bronze, and it is here that the influence of copper was first felt, bronze being an alloy of copper and tin. During the bronze age, by means of this alloy, man became quite proficient in the working of the metal into weapons and utensils. The age of bronze is not past, and bronze is still, and probably always will be, one of our important alloys.

The application of unalloyed copper to the manufacture of all kinds of utensils and ornaments became quite general before we have any record of the appearance of iron. When iron did come into the field it did not drive copper out. Each had its place. When brass, an alloy of copper and zinc, was discovered, it became the most important alloy, and today its value can hardly be overestimated. At the present time copper, both pure and alloyed, is playing a more important part than ever in industrial life, and is the means of our enjoying many of the comforts that, without it, we would not know. The reason for this is in the development of electrical science and industry. Copper, through its high electrical conductivity, its abundance and cheapness, has naturally been universally chosen as the best medium for the conduction of electricity. It is beyond question that the electrical industry could not have been developed to anything like its present extent without copper. We talk over copper wires; electricity for our electric lights is brought over copper wires; our trolley wires are copper; every electric generator and motor is dependent on copper; in fact, it may be said that every electrical apparatus is dependent in some way on copper.

If we felt the influence of copper only in the benefits we derive through elecricity, this would be sufficient to keep it in its high place. But when we think of some of the other uses to which it is put, its importance can be realized more than ever. Large quantities of sheet copper are used in building, for making cornices, covering roofs, etc. Brass is used on every hand—in watches, clocks, signs, grills, locks, door knobs, and things too numerous to mention.

Has Its Uses.

The hammer is a useful tool,
And if you ever doubt it
Just try to build a chicken coop
Or picket fence without it.
But if you use the iron sledge
For other kinds of knocking,
Go tapping at your neighbor's faults,
Results are sometimes shocking.

Do not be a knocker,
Kind, impatient sir—
Hammer out for every one
Sharpened, as it were.
Though you'r armed for business
With a tinner's kit,
You can hardly ever
Make a three-base hit.

There's nothing wrong about it if
You're listed with the toilers
And hooping barrels is your trade
Or building iron boilers,
But if you only wield a pen
And toy with words and grammar
It isn't very bright in you
To use it as a hammer.

Do not be a knocker
As through life you pass,
If you're looking out for faults,
Get a looking glass.
Throw away your hammer
And your friends surprise.
Do some boosting if you're
Needing exercise.

—Nashville American.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

Monte Grand & California Fraction mineral claim, situate in Greenwood Mining Division of Yale District.

Where located—Greenwood Camp.

TAKE NOTICE that I, Forbes M. Kerby as Agent for John Mulligan, Free Miner's Certificate, No. B2021, intend, sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further Take Notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 27th day of June, A. D., 1907.

THE COPPER HANDBOOK

(New Edition Issued November 15, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper.

The mining man needs the book for the facts it gives him about mines, mining and metal. The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Catholic—Church of Our Lady of the Good Counsel.—Divine Service every 2nd and 4th Sunday of each month. Holy Mass, 10 a.m. Sunday School, 2:30 p.m. Vespers and Benediction 7:30 p.m. Father J. A Bedard, O.M.I. Pastor

For any disease of the skin we can recommend Chamberlain's Salve. It relieves the itching and burning sensation instantly and soon effects a cure. This salve is also invaluable for sore nipples. For sale by all druggists.

John McInnes, M. L. A., went over to Rossland on Thursday, and was to speak there last night.

Hockey Boys Organizing

Wednesday evening a meeting of those interested in hockey was held, and the Phoenix Intermediate hockey club organized, with the following officers: Hon. Pres., G. W. Rumberger; Hon. Vice-Pres., Dr. W. H. Dickson; president, Claud McAstocker; vice-president, J J. Strutzel; secretary-treasurer, Gus. Biner; manager, Stanley Graham; acting-captain, L. McKelvey; committee, A. E. H. Clark, Chas Lackie, Jas. Pierce.

It is the intention of the club to arrange for games in Grand Forks and Phoenix at as early dates as possible.

Why Suffer from Rheumatism.

Do you know that rheumatic pains can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by all druggists.

Miss Marjorie Martin returned to Spokane last Sunday, after spending the holidays with her parents here.

Miss Rose Wall, after spending the holidays with her sister at Trail, returned in time to take up her duties last Monday.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C.

Before buying your furniture elsewhere, call on R. J. Gardner.

Prescriptions carefully prepared at Thrasher's Drug Store—'Phone 16.

Sewing Machines from $10 up, see Miss McDonald.

Old newspapers for sale at this office at 25 cents per 100.

If you owe your subscription to this paper, please pay up.

For sale, one dozen pullets. Apply to Mrs. W. B. Willcox.

The influx of miners to this camp has abated somewhat this week.

The Moyie miners declined to accept the award of the arbitration commission.

Late popular music at 25 cents per copy; McKinley edition, 10 cents. One week only at H. James.

Officers elect of Snowshoe Lodge No. 46, I. O. O. F., will be installed at the regular meeting to be held next Monday evening.

Tony Turano returned Tuesday from a trip to Vancouver, Seattle and Spokane, and met a number of old Phoenicians in all three places.

Last week Friday the Fraternal Order of Eagles installed officers for the current term, the list being as already printed in the Pioneer.

Tomorrow evening a dance will be given at Miners' Union hall in aid of St. John's mission of the Church of England. James orchestra will furnish the music.

The Ladies' Aid of the Presbyterian church announce an Old Fashioned New England Supper, to be given on Friday evening, February 14—St. Valentine's day.

A good audience greeted "The Bonnie Brier Bush" Monday evening, notwithstanding the increase of prices. It was one of the best productions ever seen in Phoenix, according to the opinion of many. One feature was a piper who could actually play a tune.

HAD A PROFITABLE MEETING.

At Annual Gathering of Miners at Greenwood Last Week.

Delegates from Phoenix to the annual meeting of District No. 6, W. F. M., held at Greenwood last week, from Wednesday to Saturday, report having had an interesting and profitable gathering. The officers elected for the ensuing year were: President, Chas. Bunting, of Grand Forks; vice-president, B. E. Taylor, of Moyie; secretary-treasurer, A. Shilland (re-elected) of Sandon. The next meeting will be held at Moyie.

A number of amendments to the constitution were offered and adopted.

A number of matters have been referred to the local unions for approval or rejection. Among these is the question of co-operative stores throughout the district; old men's home for superannuated and disabled members of the union.

The convention determined to use its undivided power to elect its own representative in Yale-Cariboo and Kootenay districts at the forthcoming Dominion elections.

It was decided to open negotiations in the near future with the United Mine Workers of America with the view of forming an industrial alliance with them.

William Davidson of Sandon was recommended to the officials of the Western Federation of Miners to succeed Earnest Mills, ex-board member of District No. 6, who was recently appointed secretary-treasurer of the Western Federation of Miners.

Public school reopened, after the holidays, last Monday.

Second-hand Sewing Machines of all makes, for sale, see Miss McDonald.

Local politics are beginning to sizzle to some extent, with the municipal election next week.

Sunday evening's address at the Methodist church will be, "For Whom and What Will You Vote."

N. Binns has just received a fine lot of fancy rockers, if you want one come quick, as they are going fast.

It will pay you to see N. Binns if you are wanting Furniture, as he has now a full stock in most lines.

Phoenix Bakery is selling 18 loaves of bread for $1. What's the use of baking when bread is that cheap?

A dance was given by Miss O'Brien, of Greenwood, at the hall Tuesday evening, there being a small attendance.

The annual at home and congregational meeting of St. Andrews' Presbyterian church will be held Friday evening, January 17th. Everybody invited, and the ladies of the church will serve light refreshments without charge.

COMING AND GOING

Oliver Blair returned Sunday from spending the Christmas holidays at his former home, St. Charles, Iowa.

Mrs. A. D. McKenzie and her father, Mr. Clark, returned Monday from Bellingham, where they spent New Years.

Miss Kate Clark returned late last week from Trail, where she had been spending the holidays with relatives.

Mrs. C. E. P. Watts, of Nelson, has been spending the week in the city, being the guest of Mrs. C. A. Arnott.

Chief of Provincial Police Hussey, of Victoria, was a visitor here the latter part of last week, on a tour of the interior.

R. T. Lowery, of the Greenwood Ledge, was in camp on Tuesday, for the purpose of calling on his old friend, E. P. Shea.

W. S. Longhurst, of Sherbrooke, Quebec, arrived late last week and assumed his new position as manager of the Eastern Townships Bank here. He has been with the institution for a number of years.

Last Meeting of City Council.

Wednesday evening the last meeting of the 1907 city council, before their successors take office, after election, was held at the city hall, there being present Mayor Matheson and Councilmen Birnie, Roderick and McKenzie.

George D. Turner was appointed city auditor for 1907, at a salary of $50, and directed to report as soon as possible on the city books. The city treasurer was authorized to pay the Bank of Montreal $1,000 on account of the city's indebtedness to that institution, and it was decided to send the petition from the council, regarding the securing a portion of the two per cent mineral tax for ores mined in the city limits, to the city solicitor, to put in shape and send to the government. The following accounts were ordered paid by the finance committee:

M. M. Stephens	$5 65
E. T. Bank	26 75
Phoenix Elec. Lighting Co.	109 85
A. Almstrom	1 95
Morrin, Thompson & Co	8 25
B. C. Telephone Co.	11 00
Mrs. Peacock	15 00
Mrs. Graham	32 50
Pioneer Pub. Co.	39 00
Total	$249 95

Since the resumption of work at the Granby all the Boundary copper stocks have strengthened in price, and we look for a sharp rise very soon. The Market on all stocks is more active than it has been for weeks. Use the wires at our expense on any of the above.

On Wednesday, January 22, the Ladies' Aid of the Methodist church will give a social. Watch for the programme.

Percy W. Johnston and wife and A. Shilland, of Sandon; Wm. Davidson, ex-M. L. A., of Sandon, and J. A. McKinnon, of Rossland, were among the delegates to the district miners' meeting held in Greenwood last week, who visited Phoenix early this week.

Child Died From Scalding

On Wednesday Agnes, the two year old daughter of Fred and Mrs. Connolly, living in the Joe Black residence in Golden Eagle addition, fell into a pail of boiling water, and received burns from which the little one died Thursday morning.

Mrs. Connolly had left the pail on the floor, and when her back was turned, the child stumbled and fell into it, being horribly scalded, from her neck to her heels. She was removed to the hospital at once, and Dr. Dickson called, who did everything possible for the little one's sufferings, but she passed away about 24 hours afterwards, never recovering from the shock. The funeral is to be held today.

Installation of the Rebekahs.

Wednesday evening Phoenix Lodge No. 17, Daughters of Rebekah, held its installation, the officers for the ensuing term being installed by Mrs. W. S. Cook, district deputy, as follows:

N. G., Mrs. James Marshall.
V. G., Miss Matilda Losche.
Rec. Sec., R. D. Mitchell.
Fin. Sec., Mrs. W. S. Cook.
Treasurer, Miss Emma Losche.
Warden, Miss Blanche Perry.
Conductor, Mrs. Wm. Searle.
R. S. N. G., Chas. McCague.
L. S. N. G., Mrs. R. Silverthorne.
R. S. V. G., Miss Emma Losche.
L. S. V. G., Miss Margaret Vincent.
O. G., R. Silverthorne.
I. G., J. F. McDougall.
Chaplain, Mrs. Wm. Pickard.

Chamberlain's Cough Remedy a Safe Medicine for Children.

In buying a cough medicine for children, never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and there is no better medicine in the world for these diseases. It is not only a certain cure for croup, but when given as soon as the croupy cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or harmful drugs, and may be given as confidently to a baby as to an adult. For sale by all druggists.

New Officers for I. W. W.

Wednesday evening the new officers for Phoenix Public Service Union, No. 155, I. W. W., were installed for the ensuing term, the list being as follows:

President, L. S. Griffin.
Vice-President, John Riordan.
Treasurer, James Weir.
Secretary, George W. Rogers.
Conductor, Angus Sutherland.
Warden, E. Cusick.

Municipality of the Corporation of the City of Phoenix.

ELECTION NOTICE

Notice is hereby given to the electors of the Municipality of the Corporation of the City of Phoenix, B C, that I require the presence of the electors at the City Hall, Dominion Avenue on 13th day of January, 1908, at 12 o'clock noon for the purpose of electing persons to represent them in the Municipal Council as Mayor and Aldermen and School Trustees.

The mode of nomination of candidates shall be as follows:

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the returning officer at any time between the date of the notice and 2 P M on the day of nomination and in the event of a poll being necessary, such poll will be open on the 15th day of January, A. D 1908, at the City Hall, Dominion Avenue, of which every person is hereby required to take notice and govern himself accordingly.

Persons qualified to be nominated for and elected as Mayor of the Corporation of the City of Phoenix, B. C., shall be such persons as are male British subjects of the full age of twenty-one years, and are not disqualified under any law, and have been for six months next preceeding the day of nomination the registered owner in the Land Registry Office, of land or real property in the city of the assessed value, on the last assessment roll, of one thousand dollars or more, over and above any registered judgement or charge and who are otherwise duly qualified as municipal voters.

Persons qualified to be nominated for and elected as Aldermen for the Corporation of the City of Phoenix, B C., shall be such persons as are male British subjects of the full age of twenty one years, and are not disqualified under any law, and who have been for six months next preceeding the day of nomination the registered owner, in the Land Registry Office, of land or real property in the city, of the assessed value, on the last municipal assessment roll, of five hundred dollars or more, over and above any registered judgment or charge, and who are otherwise qualified as municipal voters.

QUALIFICATIONS FOR SCHOOL TRUSTEES

Any person qualified to be nominated and elected as School Trustee shall be such persons as are householders in the School District, and are British subjects of the full age of twenty one years and otherwise qualified to vote at an election of school trustees in the school district.

Given under my hand at Phoenix, B. C., the 2nd day of January, 1908.

M. M. STEPHENS,
Returning Officer.
