TENTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, JULY 3, 1909 No. 32

MINERS STRIKE AT GREENWOOD

Arbitration Failed in an Agreement

Miners' Union Declares Strike Against B. C. Copper

Greenwood Miners' Union on Saturday declared a strike against the British Columbia Copper company as a result of the conciliation board which recently sat in Greenwood not having come to a satisfactory agreement. The Union issued the following circular:

"Greenwood Miners' Union No. 22, Western Federation of Miners' have declared a strike against the mines and smelter of the British Columbia Copper company for the recognition of Greenwood Miners' Union, and for discrination against its members.

"On June 1, 1907, Greenwood Miners' Union and the manager of the British Columbia Copper company adopted a wage scale to be paid the employees of the British Columbia Copper company at their mines and smelter In May, 1908, the manager of the British Columbia Copper company reduced the wages of his employees. and from that time to the present has refused to submit a copy of the scale of wages he is paying his employees to the Greenwood Miners' Union and he has tried to disrupt Greenwood Miners' Union by blacklisting our active members. The properties of the British Columbia Copper company are closed down at the present time and we intend to keep them closed down until the management recognizes the Greenwood Miners' Union. At least 90 per cent. of the employees of the British Columbia Copper company before the close down, were members of the Greenwood Miners' Union. The strike committee will notify the public through the press when the strke is declared off."

The mines and smelter of the British Columbia Copper company closed down on April 30th through lack of fuel caused by the strike at the coal mines in eastern British and no intimation of resumption has yet been given out by the company.

REPUBLIC'S FOURTH OF JULY

Special Train will Run From Phoenix Leaving at 7 15 a m.

An excursion train will run from Phoenix over the Great Northern railway to Republic, Wash., Sunday, July 4th. Train will leave Phoenix at 7.15 a.m., Grand Forks at 8 a.m, and returning will leave Republic at 11.30 p.m. Fare and one third for round trip.

This will be the big day of the carnival of sports being held at Republic. Among the attractions of the morning's program will be the reading of the Declaration of Independence and a firemen's hub and hub race. A baseball tournament will be the feature of the afternoon, followed by roping contest, races, fireworks and a wrestling match.

Dominion Day Passes Quietly

Dominion Day passed off quietly in Phoenix; Granby mines operated while employees of the Snowshoe took a holiday, business generally being suspended. There being no special celebration in the Boundary a number of local citizens hied themselves in groups to the banks of the Kettle rivers, while others spent the day in shady nooks, Thursday's temperature being the highest this year to date. Fireworks were much in evidence during the evening.

Great Northern's Assessment Reduced

The appeals of the Great Northern railway and McRae Bros. were the only complaints before the court of revision at the city hall on Tuesday afternoon.

John S. Snapp headed a quartette of legal representatives of the railway company in appealing against over assessments. The court cut $19,675 off the company's assessment of $65,125. McRae Bros were given a reduction of $500 on improvements.

Memorial Services

Rev. S. Lundie will preach a memorial service to the Knights of Pythias in the Presbyterian church tomorrow evening. The members of Phoenix lodge, No. 28, will attend in a body, and cordially invite all sojourning Knights to accompany them.

K. of P. Joint Installation

A joint installation of Phoenix, Grand Forks, Greenwood and Midway lodges, Knights of Pythias, will take place in the Knights of Pythias hall, Midway, on Monday evening, July 19th. A number of candidates will be admitted to the Pythian mysteries.

THE GRANBY AS A SPECULATIVE STOCK

Prospects for Resuming Payment of Dividends

The Granby company should soon be in a position to output 40,000,000 pounds of copper per annum, says the Boston News Bureau. It has completed the enlargement of four of its eight furnaces, and now has a smelting capacity of 3200 tons of ore per day. The enlargement of the remaining four furnaces will be done at once, and when completed Granby will have a daily smelting capacity of 4000 tons.

With only 135,000 shares of stock, earning on this production should be nearly $9 per share on 13-cent copper, $12 on 14 cent copper and $15 on 15-cent copper.

While it is enlarging its plant and preparing its mines for a bigger production, Granby is temporarily off the dividend list, though it is now producing at the rate of about 30,000,000 pounds per annum at a cost of about 10 cents. It will probably shortly resume dividend payments.

(Boston Commercial)

Granby, viewed from a speculative standpoint, is one of the most unsatisfactory stocks on the market. It does not go up on good news or down on bad, but fluctuates without rhyme or reason on an exceedingly small volume of transactions. The fact that Granby combines the ownership of some very big mines with a thoroughly progressive management, a large and growing production, low copper costs and a very small share capitalization, should make the stock an exceedingly active and attractive speculative force. It seems, however, that a very large percentage of the capital stock is owned by 15 or 20 individuals, and they pay no attention to its market movements, neither buying on reactions nor selling on rallies.

After the par value of the stock was changed, one new $100 share being exchanged for 10 $10 shares, thus reducing the share capital from 1,135,000 to 135,000, there was for a time considerable activity. Most of those traders who bought it, however, lost money, as there was a rapid succession of labor troubles, fuel shortages, forest fires which burned railroad bridges, car famines and more labor troubles, each of which in turn made it necessary to close down the Granby smelter.

The management has worked patiently and earnestly to eliminate and overcome all of these troubles, and has gone steadily forward with the work of increasing the capacity of the smelter. By the end of this year, barring further accident, the company will be in a position to produce at the rate of 40,000,000 pounds of copper annually, at a cost of about eight and a half cents per pound, and earn $9 per share on its stock on a 14 cent copper market In view of the fact that it owns tens of millions of tons of ore of the same grade that is now being treated, such a volume of production and earnings should cause Granby stock to sell well above $150.

New Company Formed

The Copeland Mining and Development has been incorporated to develop the Le Roi property on the West Fork. The capital is $250,000 in one dollar shares and the incorporators are Dan Patterson, Walter Ross, Anson A. White, Walter Cook and Gilbert Kay, all of Phoenix. The company have an excellent showing on their property, located near Bridesville, Wash.

Boundary Side Lights

W. A. Cooper was fined $20 for gambling in Grand Forks.

Born—At Mother Lode, on June 21, to Mr. and Mrs. John Nyberg, a son.

Mr. and Mrs. M. D. McIntosh of Mother Lode mine are off on a trip to coast cities.

R. S. Ford, manager of the Vancouver Sunset, has purchased a block of fruit land west of Midway.

The notice of the incorporation of the New Dominion Copper company appears in the B. C. Gazette.

A wagon road is being constructed from the Bruce mine to the station at Midway in preparation for shipping ore.

J. Kavanaugh, a popular member of Gateway lodge I.O.O.F., was given a farewell smoker prior to leaving for the coast.

The balance sheet in connection with the recent evangelistic campaign in Grand Forks showed gross receipts of $1263.

Another shipment of 60 tons of ore has been made from the Golden Eagle mine on the North Fork to the Granby smelter.

R. K. Steven, for the past ten years manager of the Greenwood club, has resigned his position and is leaving for Vancouver.

Jos. Wilmshurst, road seperintendent in the Greenwood district for several years, has resigned his position and is leaving for the coast.

The Royal Bank has awarded a contract to Bonthron & Shannon to erect a substantial building in Grand Forks. Work will begin this month.

Mrs. Broomfield, wife of A. S. Broomfield, proprietor of the Westbridge hotel, died in Greenwood hospital on Saturday while undergoing an operation.

Work on the Greenwood-Phoenix tunnel is now in 160 feet. The seven-drill compressor from the Crescent mine has been installed at the mouth of the tunnel.

A. A. Steeves, for some years manager of the Royal bank at Grand Forks, has been promoted to the Vancouver branch. He will be succeeded by Mr. Spinks of Nelson.

Joseph Ladelo, an Austrian, 22 years of age, had both his legs broken by being run over by a slag train at the Granby smelter last week. His right leg had to be amputated.

Prospects on the Jackpot in Wellington camp continue to improve and those familiar with the property claim it will yet be the British Columbia Copper company's premier mine. Enough ore is now blocked out on the Jackpot to pay for the entire group of claims recently bonded by the company.

During last week there were recorded at the government office in Grand Forks fourteen locations, fifteen certificates of work and four transfers. The transfers were as follows: one-fifth of the Eclipse and one-fifth of the Yellow Jacket mineral claims, Franklin camp, D. Whiteside to B. Lequime; one-fifth of Yellow Jacket and one-fifth of Eclipse mineral claims, Franklin camp, P. T. McCallum to B. Lequime; all of the Wallace fraction mineral claim, Franklin camp, F. M. Kerby to D. Whiteside; all of the Jumbo fraction mineral claim, Franklin camp, H. J. Birnie to D. Whiteside.

NEW DIRECTOR ON B.C. COPPER BOARD

Adolph Lewisohn Acquires a Substantial Interest

At a meeting of the directors of the British Columbia Copper company in New York last Saturday Adolph Lewisohn was elected to the board of directors.

Mr. Lewisohn and J. Parke Channing, two prominent gentlemen of New York Wall Street, inspected the properties of the British Columbia Copper company and other local producers in April last. Mr. Lewisohn has acquired a very substantial interest in B. C. Copper, which possibly accounts for the strength of the company's stock during the period since operations were suspended two months ago.

It is stated that Mr. Lewisohn's election will probably mean an aggressive policy and a conservative management of the property.

Copper Situation Is Stronger

Notwithstanding the decline in copper in London producers claim the metal situation is stronger than it has been in months. Copper is being sold at 13¼ cents a pound but in very small quantities. The United Metals Selling company continues to hold the metal at 13¾ cents a pound.

The possible production of the Amalgamated group mines has been sold well into the latter part of August and no additional copper is being pressed for sale. A representative of a large company has stated that is was impossible to purchase 5,000,000 pounds of copper at 13¼ cents a pound, although the Metal Enchange was quoting electrolytic below 13 cents a pound.

Westminsters Keep Minto Cup

Another champion team came from the east in quest of the Minto cup, emblematic of the world's lacrosse championship, but the mug remains at New Westminster. The challengers were the Tecumseths of Toronto, last year's champions in the National Lacrosse Union. The Westminster team renewed their title as the world's champions and Minto cup holders by defeating the challengers 6 to 4 on Saturday and 6 to 5 on Tuesday, or a total of 12 to 9 goals in favor of the New Westminster team.

Doctors Desert Greenwood

Before the end of this month Greenwood will be deserted by its three medical practitioners. Dr. Oppenheimer will open an office in Spokane in the course of a few days; Dr. Spankie, senior, has secured offices in Vancouver and will move to that city, while Dr. Spankie, junior, has decided to locate in Calgary, Alberta, for the practice of his profession. This will leave Greenwood without a medical doctor.

Located at Lacombe, Alta.

Hugh Reed, formerly of Phoenix, writes the editor of the Pioneer, under date of June 23rd, as follows:

"Have not received the Pioneer since June 5th and miss it very much; please send it to Lacombe, Alberta, as I have located here for some time. This is a fine looking section of the country and I am much pleased with the prospects thus far. Wishing you and all Phoenix friends success."

BANDIT AND CONSTABLE SHOT

Train Robbers and Constable Fire on Each Other at Ashcroft

Ashcroft, June 28—A boat containing three men, suspected of being the train robbers, was seen coming down the Thompson river passing Penny's station this morning. The boat reached Ashcroft containing but two men. They were ordered by special constable Ike Decker to pull into shore and after a landing was made one of the men stepped out of the boat. Decker, who was ashore, called on him to surrender, levelling a Winchester rifle. At the same instant the man pulled a revolver, the shots being fired simultaneously and the robber fell dead. The second man, who was still in the boat, then opened fire killing Decker instantly. The murderer then escaped, heading eastward along the railway. Several posses are in pursuit of the other bandits.

Carney Copper Excites Mullan

Mr. Editor,—It is with pleasure I call the attention of your readers to the fact, that it pays to advertise when you have something worth advertising. In presenting the merits of the Carney Copper mine, through your columns, I have always been well within the facts. To verify all I have claimed for the mine, it is only necessary for you to visit the property. In his last letter to me, the secretary of the company says: "People are getting rather excited over the showing. Nearly every day there are from one to six up to see it, and they all report it the finest they ever saw. Plenty of samples will go 20 to 50%." The property has reached that stage of development which will soon place it in the shipping list, necessitating little or no advertising in the future, as any information from the property will be eagerly sought after as news.—Respectfully, J. L. MARTIN.

COAL STRIKE ENDS IN EASTERN B. C.

Operators and Workers Reach an Understanding

The officers of the Western Coal Operators' association and United Mine Workers of America met at noon on Wednesday last, and signed an agreement which will send back to work the miners at Canmore, Lethbridge, Royal, Leitch, Hillcrest, Bellevue, Lille, Coleman and Hosmer mines immediately.

The agreement completed Wednesday was the agreement which was negotiated at McLeod last March, and carries with it the "open shop."

Both parties have agreed that there shall be no descrimination either by the companies or the men against union or nonunion men. After three months of idleness and the loss to the workmen of at least a half million dollars of wages with its attending loss to the operators and the public, the miners resume work at the same terms which were offered by the operators and accepted by the men last March, but rejected by Frank Sherman, who forced the strike at a time when all parties interested expected peace.

The atmosphere, however, has been cleared and it is expected that industrial peace will prevail in the coal mining centers of eastern British Columbia and western Alberta for the next two years.

Electrolytic Copper

Boston—With no reason apparent to account for it, copper prices show fractional improvement and sellers are naming 13¾ to 13⅞ cents for electrolytic grades.

One of the sellers at the recent low prices was offered 13 cents yesterday for a large block of electrolytic, but refused to consider more business at that figure.

Annealing of Copper

The strength and ductility of copper is affected to an enormous extent by good or bad methods of annealing, according to a paper read recently by James A. Allan before the Northeast Coast Institution of Engineers and Shipbuilders. The tests made consisted chiefly in determining the number of bends backward and forward, which strips of copper heated in different ways would stand before fracture. A strip as received from the manufacturers stood 44 bends, while similar strips annealed in different ways varied from fracturing at 15 up to 73½ bends.

Sunday Games

A deputation of the Lord's Day Alliance waited upon Hon. Richard McBride during his visit to Rossland to ask for information re the enforcement of the Lord's Day Act. The premier received the deputation cordially and replied to the effect that the government of British Columbia would not stand for a continental Sabbath. He also said that in response to similar delegations from North Vancouver and Nanaimo, the government, through the attorney-general, had given permission to prosecute the case of violation of the law in the matter of Sunday games, and he assured the deputation that Rossland would be placed on the same footing.

Le Roi to Resume

Shareholders have received the following from the London office of the Le Roi Mining Co., of Rossland under date of June 10th:

"The directors having now had an opportunity of conferring with Mr. McMillan, the managing director, and Mr. Carlyle, the consulting engineer, who have returned from Canada, beg to inform the shareholders that they have now made the necessary arrangements for carrying on an extensive scheme of exploration and development, as recommended by Mr. Carlyle, and referred to in postcard of March 10th last; and work in connection therewith will be commenced without delay.

B. C. MINING

Ore carrying silver and lead values amounting to $87 per ton has been struck on the Blue Bird at Rossland.

A rich strike was reported on Golden Belle, Sheep Creek, last week, making three ledges of good free milling gold.

Enough ore is in sight in the Sullivan group of mines to make them among the largest producers in the Province.

A tramway is being built at the Aurora mine, near Moyie, to carry the ore from the tunnel down to the lake for shipment.

Work continues on the Aurora and Society Girl mines at Moyie, and they bid fair to be numbered among the large mines of the district.

The development of the placer mines of Wild Horse Creek continues and the output of yellow metal will be larger this year than for several years.

The big hydraulic mines on Perry Creek are in active operation, and it is to be hoped that when the season closes we shall see a larger yield of placer gold than in the past.

A trial shipment from a new mine named the Gold Note, located a short distance west of the Granite Poorman mine, has been shipped to Trail smelter. The ore is exceptionally rich.

H. R. Robbins, mining engineer, of Seattle, who made an examination in May of the Apex group, in the Similkameen, returned last week to take up residence at the property as director of the mine.

A payment of $15,500 was made Saturday on the Kootenay Belle, Sheep Creek, by the purchasers, J. L. Warner, F. M. Black and Dr. F. E. Morrison. This is the third payment to the owners, Thomas Bennett and H. M. Billings of Nelson.

Rio Tinto Group

J. L. Martin, writes with reference to this group of claims: On Aug. 2nd and 3rd, 1905, I had them experted by Mr. Samuel Aughey of Spokane, Washington. Mr. Aughey is an expert of 32 years experience, having operated in Colorada and the south west for a great many years. Mr. Aughey took twenty six assays from various holes, crosscuts and shafts on six of the claims. The highest assay in gold, silver, lead and copper was $18.51, the lowest was 89c.; the average of all the assays combined was $7.78. The samples were not taken as average assays from any of the four ledges, for the reason that no ledge was developed at that time to such a degree as to permit of average sampling. After describing the location of this property, and his ten page closely type written report, Mr. Aughey says, among many other interesting things: "The ledges are very large, ranging from 50 to 100 and more feet in breadth. The values at the surface average low, though some samples contain enough values to constitute them pay ore, when once the majority comes up to the same standard. This will occur at greater depth, where there will be an increase of copper and the precious metals at the expense of the iron. The iron sulphides are such, as in this zone, change to more copper as depth increases. I regard it EMINENTLY safe to open up this group of claims, with the CONFIDENT EXPECTATION of finding such bodies of sulphide of copper ore and precious metals as will leave a good margin of profit after all expenses of mining and treatment are paid." I will let a contract on this promising group of claims of from 50 to 450 feet in a few days.

H. Munroe met with a serious accident as the result of an explosion of dynamite near Kelowna on Saturday. The force of the explosion was felt for miles.

Miss Florence Alard was drowned at Comoplix on Sunday by the capsizing of a boat in which she and her brother and two others were taking a pleasure trip.

Ninety per cent. of the sawmills in the interior of British Columbia are now in operation, and the demand for lumber is very heavy east of the rockies.

J. Pierpiont Morgan, the Guggenheims, John Hays Hammond and a number of their friends will make a tour of British Columbia coastwise points in the steamer Yucatan.

The ratepayers of Vernon have passed by large majorities by-laws for $75,000 to build a new public school. The latter will cost $45,000, but the Provincial Government has promised to contribute $15,000 towards it.

Lieut.-Col. Holmes, who has been in command of the local military district for several years, will shortly retire and he will be succeeded by Lieut. Col. James Peters, of London, Ont., who has been D.O.C. of No. 1 district since 1901, but who was formerly stationed at Victoria.

The Rossland Miner has an article descriptive of the colony of Doukhobors at Waterloo, not far from the lower end of Arrow lakes. The article describes the Douks as thrifty, strong, industrious, cleanly and enterprising; in fact in every way an acquisition to the population of this fair province.

The Princess Victoria, the Lusitania of the sound, has beaten the record of the Princess Charlotte on the run from Seattle to Victoria. She took 3 hours, 4 minutes and 10 seconds. The best time heretofore was that of the Princess Charlotte, which made the trip in April in three hours, 14 minutes and 30 seconds.

Serious discontent is now spreading among the Indians of the Skeena river district, in the vicinity of Hazelton. The trouble has arisen over white homesteaders settling on Crown lands adjoining the Indian reserves. A party of settlers was met by a band of aborigines some twenty miles from Hazelton and turned back with threats of violence.

During a severe storm at Hackettstown, N.J., lightning struck the street lighting system, passing through thirty-three tungsten lamps, without burning them out.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a *secret* nostrum as a substitute for this non-alcoholic medicine of KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

In University work, can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in lut affiliation.

For fuller information and terms write Rev. W. J. Sipperell, B.A., B.D., Principal; or Rev. J. P. Bowell, Bursar.

COMMUNICATIONS

(The Editor does not hold himself responsible for the opinions of correspondents)

To the Editor Phoenix Pioneer:

Sir,—Since others and myself know that your, and I may say, our enterprising weekly is open for correspondence relative to anything that is of interest to our community, I make bold to ask of space for a subject which is at present interesting many of your subscribers, and in the near future may concern the entire plebicite of the city of Phoenix.

The subject I am interested in, as a citizen of this city, is the action, attempted and further contemplated, by the Police and License Commissioners, whereby they attempt to lessen the number of legal license holders at the expense of those who are holders of licenses in premises not so large as others, and incidentally at the expense of the other ratepayers of the town. There are 15 licenses issued for the retailing of liquors in Phoenix. These have been in force for years, granted under a similar, if not exactly, the same administration that ruled Phoenix years ago at the time these licenses were first granted.

If, as is the contention of the Police and License Commissioners, social and economic conditions have changed during these years, I contend that these conditions have changed materially for the better with regard to the community at large. Yet it seems to be the war cry of the Police and Licensing Commissioners that there are today too many opportunities for the laborer and miner to purchase liquor which, the Police and Licensing Commissioners say "They need not."

"Am I my brother's keeper"? was spoken ages ago under circumstances in which the speaker wished to get out of an obvious difficulty, yet, officials entrusted temporarily, with powers to act, which they vainly attempt to exercise for the good of the majority of whom they are the servants, are causing the same question to be asked. In a truly sycophantic manner they ask "Am I my brother's keeper"? These 15 licenses are granted so that if you or I wish to obtain refreshment at the "Queen's Hotel," or the "Tulep," "Silver," "Clover Leaf," or any other licensed house, we can please ourselves by patronizing the place which seems best suited to our desires.

So far so good, but how can reason be reconciled to the idea of cutting out about 10 of these 15 licenses to lessen the "opportunities" for the citizen to get his refreshment?

Sir, you and I and all of us know that such an enactment would no more lessen the evil of abuse, if any exists, than "sending coals to Newcastle" will wipe out an epidemic of Scarlet fever in Hartford Junction.

The Police and Licensing Commissioners, in the wisdom of their judgment, and be it acknowledged, strictly in accordance with the law, caused all bars to be closed from 12 p.m. Saturday to 5 a.m. on the Monday following.

Sir, I have seen more men under the influence of liquor on the several Sundays since the act was enforced, aye, and on our streets when children were passing to Sunday school and chapel, than I have before seen at any similar time during the four years I have been a constant resident of Phoenix.

Is this a poor attempt at moral reform, or is it a case of satisfying the personal vanity of the Police and Licensing Comissioners?

They, like ourselves, are but mortal, and if they attempt to put on the robe of immortality before they leave this "city in the clouds," they will find their subsequent journey very tiresome until they reach a much lower altitude.

Personally, as is well known, I have never been an advocate of open gambling, I am no gambler myself and never wish to be.

I have seen the sordid side of the effects of gambling in different parts of the world, perhaps to a greater degree than has been the opportunity of most in this city, and it will always be my desire, and my effort, to remove from the path of working men the chances of being systematically robbed by an organized and magesterially licensed gang of "tin horns"

One more point, and very important:—

Sir, you will notice that at least 10 of the licenses held in this city, are held by men who have spent many years of their lives, working hard in the mines of the Boundary country, nearly all have worked for years in the mines of Phoenix.

These men, by dint of hard labor and thrift, have saved some money, have been, and are respectable citizens, and invested their "all" in a legitimized and respectable business; often taking their previous amount of savings to attain to this licensed business.

No complaints are on record of their conducting their business in a disorderly fashion.

When any object of charity needs action upon, they are the very first to put their hands in their pockets for something substantial, be the charity for schools, church, sport or individual necessity. Now, It is the desire of the Police and Licensing Commissioners to either take away their licenses or make the license fee so prohibitive an amount that they will lose their "all," both capital sunk in the business and the chance of getting a fair return for their outlay.

Mr. Editor, is this fair to men, or even a fair example of British Constitutional law?

I contend it is anything but fair.

If the vote of the electorate were taken on this matter it would be found out how many friends or supporters the Police and Licensing Commissioners have and also how many are supporters of men who having worked for years underground wish to exercise their rights to demand "liberty" and "freedom, two assets as valuable to our glorious empire as to our glorious working population. It is not a very far cry to January 1910.

Thanking you,

I am Sir, Yours truly,

Charles E. King.

The National Irrigation Congress

Continent-wide interest has been aroused in the problems relating to the reclamation of arid and swamp lands, deep waterways, forestry, conservation of the country's resources, good roads and home-building to be discussed during the 17th sessions of the National Irrigation Congress in Spokane, August 9 to 14, and there is every indication the attendance will be the largest and most representative in the history of the organization.

PE-RU-NA AS A TONIC AND BLOOD PURIFIER.

Mrs. Paul Casavant Writes From 219 Monroe Street, Topeka, Kansas, Concerning Peruna. Read Her Letter Below:

In Spring and Early Summer a Tonic is Needed.

Mrs. Emily Kellogg, 5649 S. Lawrence St., South Tacoma, Wash., Gives Her Experience With Peruna. Read Her Letter Below:

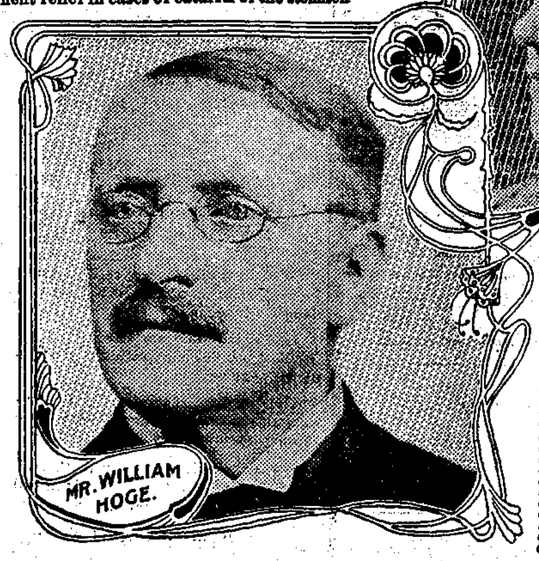
The source of good blood is fresh air and well-digested food. If anything interferes with digestion the blood becomes impure.

A catarrhal condition of the stomach prevents perfect digestion. Such a condition allows the food to ferment and decompose in various ways, instead of digesting. The blood is thus contaminated with various materials that do not belong in the blood.

This gives rise to spring fever, eruptions on the skin, general lassitude and constipation.

Peruna corrects all these difficulties by striking at the source of them. By eradicating the catarrhal condition of the stomach Peruna at once restores digestion, the blood is thereby purified, and the whole machinery of the body is put in working order.

Peruna has probably made a more remarkable record in cases of catarrh of the stomach than any other medicine. These cases are very frequent, and we have a host of testimonials in which Peruna has received lavish praise for prompt and permanent relief in cases of catarrh of the stomach



Mrs. Paul Casavant, 219 Monroe street, Topeka, Kansas, writes:

"I have found Peruna very effective in restoring my health and strength after I had been worn out and run down for a long time. I began to use it about six months ago when I was unable to leave my bed. My nervous system was shattered and I was daily losing flesh and strength. This condition was completely altered after a few bottles of Peruna had been used and I kept on using it until I was finally restored to perfect health and had gained about fifteen pounds.

"I feel so grateful for what your medicine has done for me that I am pleased to give it my hearty endorsement and shall always be glad to speak a good word for it."

Mrs. Emily Kellogg, 5649 S. Lawrence St., S. Tacoma, Wash., member of Ladies of the Maccabees, writes:

"Three months ago I had an attack of biliousness which threatened to undermine my health and strength. Luckily for me, I tried Peruna at the suggestion of my friends before it was too late. I found in a few days' time that I did not have the usual sick headache, neither did food nauseate me any longer. In two weeks' time Peruna had completely rid my system of the poison and bile, and I was in a much better condition. My skin assumed its normal color, I had a splendid appetite and I was in every way improved in health. I used Peruna for a month longer and it wrought a wondrous change in my entire system."

Tones up the System.

Mrs. William McRoberts, Waverly, Minn., writes:

"I am perfectly well of the catarrh. I took Peruna and Manalin. I recommend your medicine to every one and cannot praise it enough. It is a fine medicine to take any season of the year. Taken in the spring it tones up the system and acts as a gentle stimulant."

A Good Tonic.

Mr. Joe Leonard, Flat 3, 232 Allen St., Buffalo, N. Y., writes:

"I have good reason to endorse Peruna as I have found it a good tonic, stimulating the system and sustaining it under great pressure, imparting unusual endurance and enabling me to work much longer and harder than the system could possibly do were it not for the great powers with which it endowed me. It gives one nerves of iron."

Mr. Caleb H. Bortell, Police Officer, 212 North Paca street, Baltimore, Md., writes:

"For several years I was troubled with catarrh of the head, throat and stomach. Many times I would vomit before and after eating.

"I took seven bottles of your Peruna, and I am glad to say that it has cured me.

"I feel more like living and working, and am not bothered at all with my old troubles.

"I take great pleasure in recommending Peruna to all sufferers with catarrh, and I thank you for what you have done for me, for none but those who have suffered as I have can appreciate a great cure as I have found Peruna to be."

Splendid for La Grippe.

Mr. Frank H. Fielder, 213 Pleasant Ave., Montgomery, Ala., formerly principal of Haynesville High School, writes:

"I can truthfully say that Peruna is a splendid remedy for la grippe, and a good tonic for building up the system."

Pain in Chest.

Mrs. A. W. Gustin, 5209 Lake Ave., St. Joseph, Mo., writes: "When I began taking Peruna I had quite a severe pain and ache in the left of my chest. I suffered a great deal with it.

"I wrote to Dr. Hartman and asked him what I should do. He advised my taking Peruna, which I did. I took three bottles, and I can say I am cured.

"Thanks for kind advice and Peruna."

Mr. William Hoge, President Commercial Travelers Association, 280 Broadway, New York, N. Y., writes:

"I endorse Peruna as the most effectual remedy for catarrh I have been able to find in my travels in this country or Europe. I can truly say that I have spent thousands of dollars in this country alone trying to find a cure, and it was not until I was induced to give Peruna a trial that I obtained anything like permanent relief. As a tonic it is simply great. It ought to be in the grip of every commercial traveler on the road. It cured my wife as well as myself. We have not had the slightest symptom of catarrh for a long time."

In a later letter Mr. Hoge says:—"I have used Peruna for many years, never without a bottle in my grip. I am the youngest feeling and youngest looking man of my age in New York, which I think is entirely due to Peruna."

Hay Fever and Catarrh.

Miss Mayme E. Smith, 444 East Mound St., Columbus, Ohio, writes:

"Have used Peruna for catarrh and hay fever. The results being remarkable, I can highly recommend it to all who are suffering with the above diseases. I am happy to be able to say it has helped me wonderfully."

Eyes Red and Watery.

Mr. William S. Hearn, 1063 Segal St., Camden, N. J., writes:

"For about two years I was troubled with my eyes being red and watery, and my general health was very poor.

"Finally a friend advised me to try Peruna. I had tried almost everything else, so I purchased a bottle of Peruna and commenced to take it at once, and before I had finished the first bottle I found I was improving.

"I wrote you for special advice concerning my eyes, which I received. I continued to take the Peruna until I had used six bottles.

"Now my eyes are absolutely well, and I feel like a new man in every way.

"I honestly advise any one similarly afflicted to try Peruna."

Better than for Years.

Mrs. Mahala Reid, Corbyville, Ont., Canada, writes that she had constipation, rheumatism and kidney trouble. She took Peruna and Manalin, and is now completely recovered, better than she has been for years.

PHOENIX PIONEER

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

John Kelsey left Tuesday for Republic, Wash.

Ald. Hillier is having an addition erected to his residence.

Miss Evans has been spending the week at Christena lake.

Household ammonia, extra strong, large bottles, 25c., Love's drug store.

A number of canary birds for sale; apply to Mrs. W. A. McKay, Phoenix Dairy.

Dr. Simmons, dentist, will be at his office in the bank block, from July 1st to 15th.

Born—In Phoenix, on Wednesday, June 30th, to Mr and Mrs. Robert Evans, a son.

W. A. Thrasher of Grand Forks was in town on Sunday renewing old acquaintances.

George Webster arrived Monday from Cascade on a visit to his son and daughter here.

The remodelling and decorating of the King's hotel is expected to be completed next week.

The city clerk is advertising for tenders for the construction of roadways through the cemetery.

J. J. Bassett has improved the appearance of his hotel at Hartford Junction by the erection of a verandah.

Miss Kate McKenzie, of the staff of the Nelson general hospital, arrived Wednesday on a visit to her home here.

The closing exercises in connection with the public schools passed off very successfully on Wednesday, the children acquitting themselves very creditably.

Lost—On Thursday, between Phoenix and Boundary Falls, a lady's brown coat. Finder kindly leave at Pioneer office.

A large number from town will visit Christena lake tomorrow where a special celebration of July 4th has been arranged.

J. L. Martin left Tuesday for Mullan, Idaho, to inspect the mine of the Carney Copper company of which he is president.

A baseball match between Phoenix and Greenwood junior teams is scheduled for next Monday evening on the local diamond.

J. R. V. Dunlop has taken a position with the C.P.R. as cashier at Greenwood, and moved his family to that city on Saturday.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B.C.

Before buying your furniture elsewhere, call on R. J. Gardner.

B. Cosgrove is trying his luck as a fisherman on the West Fork.

Bert Younghusband arrived Wednesday from Lethbridge, Alberta.

The Phoenix orchestra gave an enjoyable dance in Miners' Union hall Thursday evening.

Thos. Oxley returned Saturday from Spokane, where he received treatment for his eyes.

A range for the new Phoenix rifle association has been selected on the New York townsite.

W. Mitchell, who had his jaws fractured in an accident in the mines some weeks ago, is able to be around again.

For sale—house and lot on Knob Hill avenue; price $1,000. Enquire from M. A. Knight, Golden Eagle addition, Phoenix.

For sale—I have a nice three-roomed cottage, close in, for sale cheap. Terms will be made with the right person J. L. Martin.

L. J. Stalls, who was in the hospital for nine weeks as the result of an accident in the mines, was able to be moved to his residence on Wednesday.

If you are thinking of building or require building material of any kind—lumber, shingles, lime, brick—call on me for figures. Phone A 44. C. A. Ross.

Greenwood and Phoenix junior baseball teams played another championship game on Saturday, which resulted in favor of youths at the foot of the hill.

The management of the Alberta Provincial Exhibition has the thanks of the editor for press courtesies for their big fair to be held in Calgary from July 5 to 10.

Arthur Williamson arrived in town yesterday from Vancouver, where he is in the real estate and brokerage business. His firm, he says, has made good its promises regarding the future of North Vancouver, not only has their clients reaped the benefit of their advice in Phoenix, but in many of the principal towns of the province. He says Phoenix looks good to him, and he is going to stay for a while.

Mayor G. M. Fripp of Grand Forks was in town on Monday. He was accompanied by J. M. Fripp of Woodstock, New Brunswick, whom he was showing the Boundary's great copper camp.

James Marshall, proprietor of the Hotel Brooklyn, and Mrs. Marshall left yesterday to spend a few weeks at the coast cities. They will visit the Seattle exposition and will also visit Mr. Marshall's sister at Ladysmith.

The Ladies of the Maccabees were unable to publish a statement in connection with the hospital dance this week, on account of a number of collections having yet to be made.

Dan. Thomas of Rossland was a guest at the Brooklyn hotel on Wednesday. Mr. Thomas states that the Le Roi mine is expected to resume operations in the course of a few days.

It is reported that two Greenwood youths, well known in Phoenix, who were in Spokane last week were gathered in by the police of that city for smoking cigarettes, which is contrary to a new law of the state.

George Barber, of the freight department of the C.P.R., left on Thursday for a visit to Phoenix. Before his departure several of his friends gave him a surprise farewell party at his residence, which was a most enjoyable affair.—Rossland Miner.

George D. Turner returned Tuesday from a trip to the coast, having spent a few days at the A.Y.P. exposition. Mr. Turner states that Seattle has a splendid fair and that the usual graft game was very little in evidence.

Owing to the steadily increasing cost of fine Ceylon teas such as are sold to the public under the brand "Salada," it has been found necessary to advance the prices of the teas to the grocer. Consequently the consumers will have to pay a correspondingly increased price, but undoubtedly they will be willing to do this in order to get the finest tea the world produces.

Lever Brothers, Toronto, will send you free a cake of their famous Plantol toilet soap, if you mention this paper.

CITY OF PHOENIX, B.C.

Tenders for Cemetery Road

Sealed tenders for the clearing and grading of the proposed road through the City Cemetery, will be received up to 6 p.m., July 7th, 1909.

Two roads are proposed, and separate tenders are required for each road. For plan and particulars of work to be done apply to the Board of Works or City Clerk.

The council does not bind themselves to accept the lowest or any tender.

H. HARTLEY,
Phoenix, July 1, 1909. City Clerk.
