THE BIG STORE

We would like to call

Your Attention

to the fact that we handle the newest and most up-to-date stock in town and by taking note of the goods referred to here, you will be convinced that it is always the cheapest to buy the best. This we have in all departments.

On our CLOTHING TABLES in the

Gent's Furnishing Department

you will find clothes, designed by the two best houses in Canada, The Royal Brand Clothing Co. and Campbell Mfg. Co.—clothes which the swellest dressers buy for correct fit, style and artistic cut.

Men's Shirts The latest in Summer Shirts just arrived.

Men's Hats We handle Christie's English Hats in light and dark Fedoras, and black stiff.

In our Shoe Department you will find the old reliable Slater. Bargains in every department, your satisfaction guaranteed.

Fresh Vegetables for Saturday

String Beans, Green Peas,
California Tomatoes,
Radishes, Lettuce,
New Turnips and Spinnach.

Strawberries are at their best now. We expect 25 cases today from Grand Forks,
$3.00 per crate.

MORRIN, THOMPSON & CO.

WM. YOLEN WILLIAMS, RETIRING SUPERINTENDENT GRANBY MINES

TRIBUTES TO W. Y. WILLIAMS

Retiring Granby Superintendent Was Appreciated.

EMPLOYEES PRESENT DIAMOND RING

Residents of Phoenix Gave Him Set of Office Furniture—Something of Mr. Williams' History.

This week William Yolen Williams severed his immediate connections with the Granby mines in this camp, the occasion being one that was deeply regretted by his host of friends, made since he first came to the Boundary, over six years ago.

Last Saturday evening Mr. Williams was asked to go up to the big Granby hotel, and when he arrived there he found the rotunda packed with employees of the company, some of them hurrying in in their digging clothes to be present. John Miller, one of the shiftbosses at the mine, read the following address, and presented Mr. Williams with a very valuable diamond ring, as a token of appreciation from more than 400 employees of the Granby mines:

TO WILLIAM YOLEN WILLIAMS:—

Sir:—We, your co-workers and co-employees of the Granby Consolidated Mining, Smelting and Power Co., cannot see these associations sundered without expressing sincere regret that that time has come.

Your uniform courtesy, kindness, consideration and manliness, at all times and under all circumstances as our superintendent, has won from us very deep respect and keen regard, which increasing years has but intensified.

In whatever place or kind your future duties lie, our best wishes attend you. We trust you will be blessed with good health, a long and useful life, find many new and worthy friends, and that in future years you can look back upon your work with as much pride as surrounds your achievements here in Phoenix, in developing from an almost trackless forest one of the most noted and greatest mines in Canada.

We ask your acceptance of this present as a slight token of our regard and as a symbol of an endless chain of friendship.

Phoenix, B. C., June, 1904.

Mr. Williams was completely taken aback at this spontaneous and unanimous expression of feeling on the part of the men, and in replying to the address, which had also been elaborately engrossed and framed, he said as much, and with no little feeling. In a short speech, he thanked the men behind the drills and others, and told how words failed to express his sentiments on this occasion. He also took occasion to give some good, sensible, fatherly advice to the younger portion of the men—words that will doubtless be remembered by the many that were within his hearing. In closing he wished them, one and all, when they came to the end of this world, all and more than they themselves could wish for in the next.

Token From the Citizens.

On Thursday of this week half a dozen of the leading business men of the town, headed by the mayor and banker, waited on Mr. Williams at his private office, where he was busy packing up. Mayor Rumberger was the spokesman, and said that the residents generally of Phoenix had wished to show their appreciation of Mr. Williams' residence here for six years, and as a small token of this confidence and esteem in which he was universally held, had arranged for the complete fitting up of his office in Spokane with suitable furniture.

Once again the genial ex-superintendent was at a loss for words to express his feelings, and said so. He also said that he did not know what he had done while a resident of this place to deserve so many hearty and practical expressions of regard as had come to him of late, as he was about to leave. However, he thanked them from the bottom of his heart, and asked for their continued co-operation in the building up of Phoenix and its surrounding mines, which he had six years ago predicted would be a place of no small importance, and which he had even greater confidence in today.

Sketch of Mr. Williams' Life.

Wm. Yolen Williams was born in Carnarvonshire, North Wales, in 1854, and at the early age of ten went to work in the slate quarries, for which that region is famous. In 1871, at the age of 17, he wanted to see the world, and landed in New York city in April, with perhaps $50 in his pocket. He was employed in the Vermont slate quarries for two years, and for a couple of years in the slate regions near Marquette, Michigan.

In 1875 Mr. Williams went back to his old home in Wales, where he stayed for three years, and then decided to return to America. This he did in 1878, being employed for a year or two at Marquette once more. Then he began to drift farther west, going to Iowa, Denver, Colorado Springs and Leadville, the latter place then in the height of its boom. He walked from Colorado Springs to Leadville, a distance of 125 miles, in three days. He stayed in Leadville for two years, till May, 1880, and received his first experience in metal mining.

Leaving Leadville he went to Santa Fe, New Mexico, near where he made his home for nearly three years at the San Pedro copper mines, being foreman there. By this time he had saved a few dollars, and successively went to San Francisco, Seattle, and then to Hope, Yale and Spence's Bridge in British Columbia. This was in the fall of 1883. By this time the Coeur D'Alene mining excitement had broken out, but he resisted it for a time, and did some work at Chewelah for Jack Squires on contract.

In August, 1884, Mr. Williams went to Anaconda and Butte, and secured work. After working just four shifts, he was in an explosion which injured his right eye permanently. The summer of 1885 he spent in Northern California in different parts, and in the spring of 1886 he went to the Coeur D'Alenes, where he remained for nine years. He was foreman and superintendent of the Sierra Nevada for five years, the group of mines being owned by Geo. B. McAulay and Mr. DeLashmut.

In November, 1895, Mr. Williams moved to Rossland, and was superintendent of the Nickel Plate mine for Scott McDonald, holding that position for two years. In September, 1897, he took charge of the California and Big Three, in Rossland camp, for O. G. Labaree. The properties closed after a while, however, and were later reorganized by J. P. Graves and S. H. C. Miner.

Then Mr. Williams was appointed superintendent of all the properties these gentlemen were interested in, including the Old Ironsides and Knob Hill group in the Boundary. This was in March, 1898, when he first came to Phoenix. Since that time to July 1st, 1904, Mr. Williams has been in continuous charge of the operations at the Granby group of mines—formerly known as the Miner-Graves syndicate properties, and has seen them developed from the merest prospects to a point where 2,000 tons of ore are shipped daily, and the mine plant having a capacity of producing 5,000 tons per day, which it will produce when there is smelter capacity to treat it.

TO SPEND OVER $75,000

On Mine Improvements in Phoenix.

AND BEFORE NEXT WINTER SETS IN

Granby Co. Arranging for Two New Ore Crushers, and Electrical Machinery for No. 3 and 4 Tunnels.

Extensive improvements additional to the mine equipment of the Granby Co., which are now being arranged for by the management, are expected to require the expenditure of between $75,000 and $100,000 in this camp before the year is out. These expenditures for improvements and machinery will be largely in connection with preparing for the extensive shipment of ore from the No. 3 and 4 tunnels, from neither of which so far has a ton of ore been sent out, for the reason that railway connections have not yet been made with those outlets.

This deficiency, however, is now being solved by the rapid construction of the V. V. & E. branch of the Great Northern, and the C. P.R., which now takes the ore supply from the upper levels, is figuring on reaching the lower tunnels of the mines. By October or November there will undoubtedly be plenty of transportation available from all parts of these properties.

Among the improvements to be made are two large sets of ore bins to receive the ore for shipping purposes from each of the two tunnels above referred to. These sets of ore bins will have an approximate capacity of some 3,000 tons each, and will have skips to elevate the ore to the ore pockets after passing through the crusher. They will be connected with the tunnel openings by tramways, the ten ton steel ore cars to be used in all probability being operated by electrically driven locomotives.

At each of these ore bunkers will be located a huge ore crusher, exact replicas of the one now in operation at the Knob Hill mine, on the upper level, which will take in a piece of ore 36x42 inches in size, and having a capacity of from 100 to 150 tons each 24 hours. These ore crushers will be driven by electric motors of about 100 h. p. each, as is the one now in operation.

It is the intention, as soon as these ore bins and crushers are ready for use, to do away almost entirely with the hoisting of ore now done at considerable expense through the No. 1 and 2 shafts of the Granby mines. Plans are now being prepared, or are already completed, for the most of the improvements, and as soon as they are approved by the Granby directorate, they will be started with as little delay as possible, and rushed to an early completion. A. B. W. Hodges, the general mine and smelter superintendent, who has assumed his official duties at the mines of the company in succession to W. Y. Williams, expects the new machinery, etc., to be in operation before winter sets in here for good, and it will doubtless mean the employment of an additional number of men at the Granby mines.

At the smelter a plan is also being talked of, and will likely be put into execution, by which the present battery of six furnaces will be enlarged to eight, giving a daily capacity of smelting one third more than at present or nearly 3,000 tons each 24 hours. This will be done by altering the self charging apparatus, an invention of Mr. Hodges', so that it will not occupy the space it now has, and thus leaving room for two additional blast furnaces. The self charging machinery would then be arranged so as to serve the entire battery of eight furnaces.

Boundary Mining Notes

Returns of $100 per ton are reported to have been received from the trial shipment of ore from the Bay claim.

Wm. Yolen Williams departed yesterday for Spokane, a large number of well wishers seeing him off at the station.

The last payment on the Gold Bug, adjoining the Defiance, is due July 14th, after which active development is to be resumed on this well known high grade claims.

Coast papers this week have resurrected the story that Great Northern interests have secured control of the Granby Co. General Manager Jay P. Graves flatly denied the story.

The new converter plant at the Greenwood smelter, which began operations last week, is working only at night time, and is giving the best of satisfaction to the B. C. Copper Co.

Not a tender was made last Tuesday at the courthouse at Greenwood, when the Winnipeg mine was offered for sale by the sheriff to pay the lein claimants, 28 in number, making about $4,500.

It is said that the Providence mine has $200,000 worth of rich ore in sight, a bank balance of $15,000, and over $20,000 in ore in transit. Another dividend is due, making $11,000 paid in this way.

The Helen, which was bonded by Alex Miller on behalf of H. N. Galer and San Francisco men, continues to show up remarkably well under the direction of W. H. Jeffrey, M. E., and inside of a month is expected to be a steady shipper.

O. B. Smith, Jr., who has been resident engineer at the Granby mines for over five years, has been appointed mine superintendent by Mr. Hodges, the general superintendent of the company. Mr. Smith, who is a graduate of the mining department of the Massachusetts Institute of Technology, of Boston, will have immediate charge of the extensive mining operations.

Last Thursday morning five furnaces were blown out at the Granby smelter for the annual clearing up at the smelter works, June 30th being the close of the fiscal year with the Granby Co. During that day these five furnaces were cleaned up, flue dust, chambers etc., and the whole put through the sixth furnace, when it was blown out the same evening. Early next week four furnaces will be blown in again and the other two a few days later, after some repairing is done. At the mines those employees that desired were given a vacation till Monday or Tuesday next, and advantage was taken of it by many to go fishing or to the Nelson celebration, or to Grand Forks.

Death of Joe Gillis.

Joseph N. Gillis, well known in Phoenix as a former resident and business man, died a few days ago at the home of his brother, in Phillipsburg, Montana, the immediate cause being what is known as miner's consumption.

Mr. Gillis spent some years in British Columbia mining districts, and was foreman of the Rawhide, when it was being worked by the Dominion Copper Co. When work on the group ceased Mr. Gillis and Mr. Forrest leased the Dominion hotel, and conducted it for a year. Then Mr. Gillis went to Sumpter, Oregon, where he was mining till a short time before his death, when he went to his brother's home in Montana and after being there a few weeks was suddenly carried off.

VISITED BY THE PREMIER

Hon. Richard McBride Here Saturday.

ACCOMPANIED BY HON. R. F. GREEN

Spent Several Hours Discussing Civic Affairs—On A Trip Through Country on Departmental Business.

Last Saturday the premier of the province, Hon. Richard McBride, accompanied by Hon. Robert F. Green, minister of lands and works, were visitors in Phoenix, and this fact gave a number of persons wishing to see them an opportunity to do so. They arrived from Victoria via Great Northern, driving up from Grand Forks, and staying over night with Mrs. Allison, of Greenwood, a sister of the premier.

On their arrival here the government officials proceeded to interview a number of citizens in regard to the late city scandal, which was recently investigated by Deputy Attorney General Hugh Archibald MacLean, who reported to the government. When asked, as he was repeatedly by aldermen and others, regarding what the government proposed to do about it, the premier stated that the matter had been given consideration, and would be settled in a short time satisfactorily. The aldermen who were as prominent as any in the effort to oust Chief Flood and Police Judge Williams, took pains to see Mr. McBride especially on this subject, giving him to understand that something must be done, or further action would be taken.

Asked as to the prospects of the approaching by-election in Lillooet, Mr. McBride expressed confidence in the return of the Government nominee. Referring to the coal and oil license applications, about which so much has been said in the press, the premier stated that the government had taken the course that was thought to be the best for the greatest number, and that it was unreasonable to expect the government to adjust rights of rival claimants of coal lands, any more than for mineral lands. There were 1,100 or more applications for licenses, and in some places they were 15 or 20 deep on the same property.

The party left the Boundary Sunday morning on the Great Northern for Rossland, proceeding thence to Nelson, and so on to East Kootenay.

After the Prize Money.

The following members of the local hose team went over to Nelson yesterday, with Manager Shea, to compete in the Dominion Day hose reel contests: Alex Munroe, W. X. McDonald, W. J. Prendergast, Jack Haverty, J. O. Church, Claude McAstocker, Harry Jackson, Palmer Cook, Bert Sandsworth, William Hower, Wm. Pierce and George Trainner.

EVERY INCH A MAN.

This week the editor of the Pioneer is called upon to chronicle what, in many respects, is anything but a pleasant duty—the departure from Phoenix and from the Boundary of William Yolen Williams, a gentleman who has been superintendent of the Granby mines for over six years. While we do this with the keenest regret, there is a little compensation in the fact that it gives us an opportunity to pay a tribute to one who is every inch a man.

After thirty years or more of steady application in the mining fields of the United States and British Columbia, the justly popular superintendent of the Granby mines thinks he is entitled to some degree of rest, in order to regain a measure of health that has not been of the best for the last three years. And not withstanding the loss of the community, no one will deny that Mr. Williams has earned a respite from the cares and responsibility of conducting the largest copper mine in the Dominion of Canada.

During his residence in Phoenix Mr. Williams, in his unostentatious, quiet manner, has earned the sincere friendship, not only of every one of upwards of the 400 men employed by his company, but of nearly every citizen of Phoenix. If a superintendent could have better looked after the interests of the men and his employers, the system of doing it has yet to be announced. That his consideration and courteous but firm treatment of his men is appreciated to the full, is shown by the magnificent present made to Mr. Williams last Saturday at the Granby hotel. That it is appreciated by the officials of the Granby Co., has been shown many times in the past. That his residence in Phoenix has been appreciated was shown this week by the testimonial presented to Mr. Williams by the business interests of Phoenix.

Mr. Williams possessed the rare qualities of securing the co-operation of the men under him, and at the same time of having them understand that he expected every man to do his duty and earn his daily wage. The men realized that they had a friend in the big hearted superintendent of the Granby mines—and his heart is as big as his body—and they took an interest in their work of making one of the greatest mines of the world. They did this, not merely for the dollars and cents, the bread and butter, in it, but because they knew, in all fairness, they would get a "square deal" as long as they were employed at Granby mines.

A few things, among the many, are worth noting regarding Mr. Williams' connection with the Granby mines. One of these was the total absence of friction between the men and the management—there never having been a labor trouble or a strike of any kind, or dispute over wages, at these mines. Another, was the fact that, notwithstanding the many adverse conditions that have prevailed in the last three years, the Granby mines have never closed down—and remain today the only properties in the Boundary that have that distinction. Mr. Williams always had the personal interests of the men at heart. He knew from his own personal experience the disadvantages with which men labored in most mining camps, and, heartily backed by the company management, it was his constant endeavor to ameliorate those conditions as much as possible, and he did so with considerable success.

While the employees and the business men will miss Mr. Williams, that gentleman can rest assured that in leaving Phoenix, he will carry with him the warmest and most sincere wishes of many genuine friends for his future welfare, wherever he may happen to be located.

B. C. MINING

There are now 300 men at the St. Eugene mine.

Jim Wardner has taken an option on some Poplar properties.

Portland parties have bonded the Cliff group, near Nelson, for $20,000.

In two weeks Sandon mines shipped 438 tons of ore, or 5161 tons to date.

Rossland ore shipments last week were 5,820 tons, or 180,125 tons for the year.

William Fleet Robertson, provincial mineralogist, inspected the Ymir mine last week.

The northwest farmers buy the sulphate of copper bye-product from Trail smelter.

A company has been formed at Nelson to work placers on Hall Creek near Ymir.

The C. P. R. is spending half a million in development of anthracite coal fields at Banff.

The Trail smelter is installing machinery for making lead pipe in connection with its lead corroding works.

The material for completing the smelter at Marysville has been contracted for, and if the material, which includes brick and cement, is delivered on time, the smelter should be operating in September.

The strike of fourteen feet of ore of a higher grade than any hitherto found in the St. Eugene mine at Moyie, is most important, and means a great deal for the future of what is claimed to be the largest lead-silver mine in Canada, if not in the world.

After more than a year of partial eclipse the well known Velvet mine, on Sophie mountain, is to rejoin the active working list on July 1st. The reorganized Velvet company has, it is stated, $300,000 available for the equipment and development of the mine.

The legal proceedings of the Giant company are now in such shape that the property will probably go under the hammer about July 15. It is intimated that certain interests are prepared to buy in the mine at Rossland at $40,000, which will more than pay all liabilities and legal costs.

James McGlone of Philadelphia, Pa., and C. E. Eberhart of Hanover, Pa., have made final payment of $11,000 on the L. B. group of claims on behalf of the Lucky Boy Mining & Milling company of Philadelphia. This is the final payment. The total amount for which the property was bonded was $23,000. The property has shipped $30,000 worth of ore since it was taken over by the company, and is in fine shape for further shipments.

PROVINCIAL.

Trout Lake is enjoying a building boom.

John Fannin, the noted curator of the provincial museum, is dead.

The Orange lodges of the interior will celebrate the 12th at Vernon.

D. S. McVannel has been appointed postmaster at Slocan City, vice R. A. Bradshaw resigned.

One wholesale house in Nelson has placed orders for over $100,000 worth of farm and dairy products for fall delivery.

Provincial taxpayers have been hustling in their remittances, so as to save their 10 percent discount allowed up to the 30th of June.

J. E. Lovering, principal of the Sandon school for three years, has resigned to enter the Methodist ministry, his first appointment being Ymir.

STRICTLY BUSINESS

Advertising is salesmanship multiplied.

A business that is not worth advertising is not worth running.

Advertising money spent right is an investment, not an expense.

The time to stop advertising is when you are ready to close up your business.

Advertising, done right, is buying business—often future business.

The merchant who can't think of anything to advertise is a dead one and don't know it is funeral time.

Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by all druggists.

OLLA PODRIDA.

Too numerous to mention — the men who know how a newspaper should be run.

Don't get gay. It is easier to keep the lid on than it is to put it back on again.

The man who drinks Scotch highballs at night is liable to hear a fine assortment of bagpipes towards morning.

If we spent less time in growlin' at the world, and more in trying to make it better, we'd pull through like a railroad train on smooth rails.

There's no use looking on life as a dream. The fellow that sends it dreaming has to lodge the bailiffs, and never has enough cash for the gass bill.

Half the trouble in this world is in thinkin' that its comin'. When it does come it's never so great but we can bear it, with the hope of shouting hallelujah by and by.

O. R. & N. Summer Book.

The handsome 1904 summer book "Restful Recreation resorts," issued by the passenger department of the Oregon Railroad and Navagation Company is just out. It tells all about the summering places of the Columbia river Valley—a brief description of the trips up and down the Columbia river, to the mountains, beaches, inland resorts and fountains of healing where they are and how to reach them. The book has a special designed front cover, printed in two colors, and the inside pages are splendidly illustrated by costly and beautiful half-tones. A copy of this publication may be obtained by sending two cents in stamps to A. L. Craig, General Passenger Agent of the Oregon Railroad and Navigation Company, Portland.

Do You Take THE PIONEER ?

You should if you don't. It gives the news of the Boundary. It works for the Boundary. It is owned by the editor and not by any clique or faction. It is worth $10.00. It costs only $2.00.

A Great Family Remedy.

And one well known in most Canadian homes is Nerviline, a perfect panacea for all internal and external pain. Mrs. M. E. Cartwright of Morris says: "I couldn't think of being without Nerviline. When I get toothach Nerviline stops it. If I get a sick headache, have a trouble with my stomach or bowels I can rely on Nerviline to cure me promptly. To break up a cold or rub on for rheumatism or neuralgia, Nerviline has no equal. It's priceless in any family." Nerviline is king over all pain and costs 25c.

A young man at Lethbridge had an open account with a local druggist for over two years. The first item on it was a box of chocolates, and the last was a nursing bottle. This ought to be a lesson to young men not to let accounts stand over too long.

Hurried and Worried All Day.

And the worst of it is you are a little run down and have mighty little chance to catch up. Everything seems like a grindstone wearing down your nerves. You are irritable and get less sleep than is absolutely necessary. Better stop before things get worse. Your best plan is to use Ferrozone for a while and give your nerves and brain a chance to pick up. Ferrozone is the finest tonic a busy man can take. It makes new blood, nourishes the body, strengthens the nerves, improves the appetite and rehabilitates the whole system. Try Ferrozone. Price 50c.

SKETCH OF A. B. W. HODGES

New Superintendent of Granby Mines.

SUCCESSOR TO WM. Y. WILLIAMS

Has Had a Wide and Varied Experience in Mining and Smelting Matters Throughout the West.

A. B. W. Hodges, who was recently appointed general superintendent of the Granby mines and smelter, is beginning his official duties at the company's mines and he will probably spend about half his time here in the future.

Mr. Hodges was born at Fond du Lac, Wisconsin, November 7th, 1862. His father, Captain Hodges, served throughout the civil war as an aid-de-camp to General Sherman, and participated in scores of engagements.

With his parents, he removed to St. Louis, Mo., in 1866. He attended the public schools till his tenth year, when he entered the preparatory school of Washington University, and was a pupil there until the Smith Academy was built, and to which he had meantime been transferred. Mr. Hodges graduated from that institution in 1882, and in the fall entered the Polytechnic department of Washington University, and graduated four years later (1886) from the mining department as Bachelor of Engineering. During these four years he took special courses in manual training and art schools.

His first position after graduating was that of draughtsman in the Water Works department of the city of St. Louis during the summer of 1886. In the fall of that year Mr. Hodges went west and for two years was employed at various mining camps in Arizona and New Mexico as assayer and superintendent of mines and stamp mills.

In October, 1886, he became chemist of the Philadelphia Smelting & Refining Works of Pueblo, Colorado; two years later he was promoted to the position of assistant superintendent of the Rio Grande Smelting Works, at Soccoro, New Mexico, and in 1893 became superintendent of the same works; he left there in 1894, and became superintendent of the Compania Metallurgica Mexicana (Smelting works) at San Luis Potosi, Mexico, where he remained one year, leaving there to become manager of the manufacturing department of the National Lead Co., at New York. Mr. Hodges remained in that position until October, 1897, when he removed to St. Louis, for the same company, as superintendent of the St. Louis Smelting and Refining Co., which he operated until October, 1898. During the next winter Mr. Hodges was engaged in special consultation work for E. H. Harriman of new York.

In the spring of 1899 Mr. Hodges was employed by the Granby Consolidated Mining, Smelting & Power Co., Ltd., to design and erect a smelter at Grand Forks. The smelter was blown in August 21st of that year, and now comprises six furnaces, with a treatment capacity of 2100 tons daily. Mr. Hodges has filled the position of superintendent of the smelting works until a few weeks ago, when the directors of the company promoted him to the position of general superintendent of the Granby mines and smelter.

Mr. Hodges will probably have to undertake next spring the erection of a duplicate smelter plant for the Granby Co., thus bringing up the capacity of the works to a total capacity of 4200 tons daily.

Safeguard the Children.

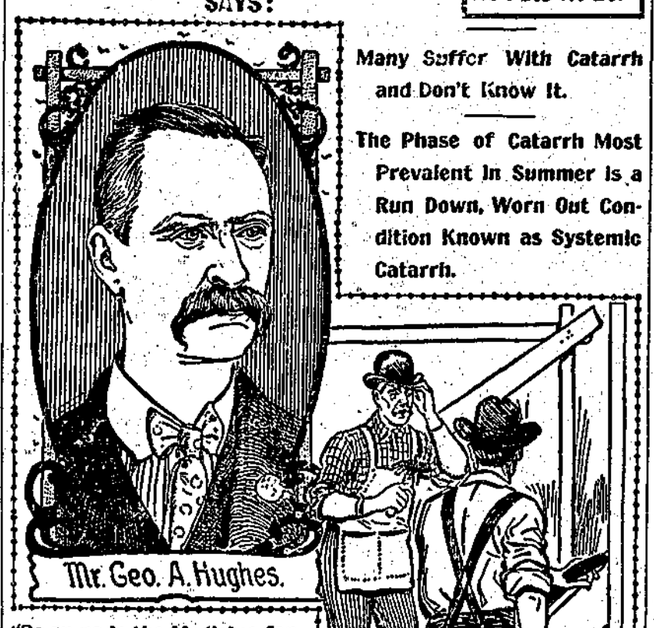
Notwithstanding all that is done by boards of health and charitibly inclined persons, the death rate among small children is very high during the hot weather of the summer months in the large cities. There is probably not one case of bowel complaint in a hundred, however, that could not be cured by the timely use of Chamberlain's Colic, Chloera and Diarrhoea Remedy. Mrs. Frank Riggs, of Frankville, N.Y., in speaking of this remedy said: "I have found it expedient to have a supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand. It has been a family safeguard and while especially beneficial to children, it is equally good in adult cases. I recommend it cheerfully and without reservation." For sale by all druggists.

A Satisfactory Pile Remedy.

Will cure the conditions causing the piles. Try Dr. Hamilton Pills of Mandrake and Butternut; their frequent use prevents piles. No case ever known where the use of Dr. Hamilton's Pills failed. Price 25c.

MR. GEO. A. HUGHES SAYS:

"I FEEL AS GOOD AS I DID AT 20."



Many Suffer With Catarrh and Don't Know It.

The Phase of Catarrh Most Prevalent In Summer Is a Run Down, Worn Out Condition Known as Systemic Catarrh.

"Pe-ru-na is the Medicine for the Poor Man."

Mr. Geo. A. Hughes, 603 Mass. Ave., Indianapolis, Ind., writes:

"Peruna has done me more good than anything I have ever taken. I am forty-five years old now, and feel as good as I did at 20. I was very thin and run down, but Peruna acted just right in my case. I am a carpenter and some times need a tonic. Peruna is the medicine for a poor man."—Geo. A. Hughes.

A Congressman Uses Pe-ru-na in his Family.

Hon. Thos. J. Henderson, Member of Congress from Illinois, and Lieutenant in the Union Army for eight years, writes from the Lemon building, Washington, D. C., as follows:

"Peruna has been used in my family with the very best results and I take pleasure in recommending your valuable remedy to my friends as a tonic and an effective cure for catarrh."—Thos. J. Henderson.

Catarrh assumes different phases in different seasons of the year. In the early summer systemic catarrh is most prevalent. That tired, all worn out feeling in nine cases out of ten is due to a catarrhal condition of the mucous membranes. Peruna cleanses the mucous membranes and cures the catarrh wherever located.

There are no remedies for catarrh just as good as Peruna. Accept no substitutes.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Be Cheerful.

There's help in seeming cheerful
When a body's feeling blue,
In looking calm and pleasant
If there's nothing else to do.

If other folks are swearing
And things are all awry,
Don't vex yourself with caring;
'Twill be better by and by.

There's help in keeping tally
Of our host of happy days;
There's never one that dawneth,
But it bringeth cause to praise.

The love that ever watcheth,
The friend that's ever near,
So through one tryst with sorrow
One needs must dwell with cheer.

When troubles march to meet you
Salute them at the door.
Extend both hands to greet them—
Their worst will soon be o'er.

Beat down their stormy bugles
With your rejoicing drums,
And, mailed in lofty courage,
Accept whatever comes.

—Ex.

It's What It Leads to

That makes Catarrh such a dreaded disease. If you have Catarrh taint, dropping in your throat, if you hawk and spit and have a stuffed up feeling in your nostrils you should use fragrant healing Catarrhozone at once and get cured. Thousands have been saved from Consumption and completely cured by Catarrhozone, so there is no reason why you shouldn't stamp out your Catarrh also. Catarrhozone will really cure you and prevent the disease from returning. It's very pleasant, just balsamic medicated vapor,—no nauseous drugs. Absolute cure guaranteed to users of Catarrhozone; it can't fail, try it. Complete outfit $1.00; sample size 25c.

A fakir with a brand new graft is working eastern Ontario. He strikes a town and locates the best attended church services, and as soon as the pastor has pronounced the benediction, he falls over in a fit. This enlists the sympathies of the people. On the inside of his coat is pinned his name and the home of his relatives, with the injunction that if he should die in one of the fits the people should have his body sent home. He finally recovers and pulls the leg of the congregation for enough money to get back home. It takes about $30. He nearly always gets that much every Sunday. Then he pulls out to another town to repeat the agonizing contortion act the next Sunday. Truly, this is an age of graft.

What Are They?

Chamberlain's Stomach and Liver Tablets. A new remedy for stomach troubles, biliousness, and constipation, and a good one. Price 25 cents. For sale by all druggists.

Oil operators are flocking into South East Kootenay in great numbers since the granting of the licenses.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Mrs. Joseph N. Gation has returned from a visit to Spokane.

D. C. McGregor, of Grand Forks, is making his home in Phoenix.

Born, in Grand Forks, to the wife of Jeff Davis, June 22, 1904, a son.

The tax rate in Grand Forks for 1904 has been fixed at 20 mills.

Mrs. L. Y. Birnie and little daughter made a trip to Grand Forks this week.

Born, to the wife of Duncan McRae, Greenwood, June 20th, 1904, a daughter.

David W. Moore, ore buyer for the Trail smelter, was in town Tuesday.

For sale, good double spring and mattress. Inquire at the Pioneer office.

Dr. Mathison, dentist, will be at his office, Bank block, from July 10th to 14th.

Judge Spinks held county court in Greenwood this week, in place of Judge Leamy.

G. A. McLeod, of the Grand Forks customs office, was one of the week's visitors in camp.

A little daughter arrived at the home of Hugh Reed, Thursday morning, on Granby Place.

Alderman James McArdle is away for a month, on a trip to his old home at Huntington, Quebec.

Last week Thursday a little daughter brightened the home of David Whiteside, at Grand Forks.

For sale, at half price, full set of Encyclopedia Britannica. Inquire at the Pioneer office.

A musical evening in the Reading Room next Thursday at 8 p. m. All are cordially invited.

For large returns and good dividends buy International Coal stock of J. L. Martin, Phoenix, B. C.

G. R. Thompson has been appointed C. P.R. agent at Cascade, Frank Tebo having removed to Revelstoke.

Harry Jones has purchased the Columbia hotel in Greenwood, and has refurnished and opened it.

Chas. Sandner is once more operating his shingle mill at the foot of Christina Lake, after a year of idleness.

Last Thursday, June 30th, the Royal Bank of Canada closed its branch at Republic, owing to the falling off in business.

Angus Cameron, for seven years postmaster at Cascade, has resigned, R. G. Ritchie having been appointed to succeed him.

William Hall, the miner who had his leg amputated two weeks ago, on account of blood poisoning, is improving slowly.

Work was started this week on the foundation for the new 25x60 block, being erected by Valentine Carson on Dominion avenue.

A disastrous fire occured at Fairview, in the Okanogan, on June 21st, destroying McDoughall & Co.'s livery stable, including a dozen horses.

R. P. Williams, of Rossland, Kootenay-Boundary agent for the Canadian Rand Drill Co. and the Jenckes Machine Co., spent last Sunday in camp.

Last Sunday the Phoenix base ball team had better luck against the Greenwood team on the latter grounds. The score was 13 to 12, in favor of the Phoenicians.

Patsy Clark the well known mining man, of Spokane, has been taking a look at some properties in Franklin camp, at the head waters of the North Fork of Kettle River.

It is said that Italians and others on the railway work are slaughtering game wholesale. If something is not done to stop it, the destruction of small game almost entirely will result.

The International Coal & Coke Co., of Coleman, Alberta, is reported to be doubling its output by shipping 6,000 tons of coal a month. The new coking ovens will soon be doing business also.

While residents of Grand Forks, Greenwood, Midway and other places hereabouts sweltered in the heat this week, Phoenicians found the climate congenial—one of the advantages of living in this salubierus altitude.

J. M. McCloskey, the blind miner, who lost his sight in an explosion at the Knob Hill mine two years ago, is having considerable success in the tour of his Columbian Comedy Co. through the Kootenays, according to report.

Saturday night a gold watch was raffled for the benefit of Victor Erickson, a disabled miner. No. 25, bought by August Erickson, won the timepiece, and nearly $200 was realized. Victor Erickson went to Spokane Monday.

Last Sunday evening Phoenix Lodge No. 28, Knights of Pythias, attended the Presbyterian church in a body, the pastor, Rev. E. C.W. MacColl, preaching a sermon appropriate to the occasion. The church was crowded.

Claud Bannantyne, formerly engineer at the Snowshoe mine, is now employed by the Dunderland Iron Ore Co., and is located at Guldsmedvik-i-Raven, Norway, at which distant point he still receives the leading mining weekly of the Boundary.

Dr. Mathison, dentist.

Granby Exchange, Housefurnishings.

Dance, tonight, at Hardy-McKenzie hall.

For International Coal stock see J. L. Martin.

Dr. Simmons, dentist, McMillan block, July 13 to 16.

Look out for bargains at the House Furnishing Place, Granby Exchange.

John Holm has gone to Nicola Lake, in the Similkameen, to attend to some assessment work.

Alderman Jas. Marshall returned Thursday from a short sojourn at Halcyon and other points.

The Great Northern Furniture Co. is getting the newest things and styles in furniture direct from the manufacturers.

Miss Kate Noble, the accommodating clerk in the postoffice, returned this week from a month's visit with her mother in Victoria.

The work of laying the steel on the Williams Spur of the C. P.R., half way between Phoenix and Eholt, has been completed.

A large number went to Grand Forks Thursday to imbibe pink lemonade and see the monkeys and elephants at Norris & Rowe's circus. The circus was well up to the average.

Last night a ball was given at Phoenix Miners' Union hall in aid of the sufferers in the Colorado miners strike, under the auspices of the Ladies' Auxiliary of Phoenix.

Our newly fitted up jail, in the old school house, had a christening Thursday night when six sons of sunny Italy, who had imbibed too much fire water, were given temporary lodgings there.

In the Presbyterian church to-morrow the topic in the morning will be: "Life and Liberty"; in the evening, "The pursuit of Happiness." A solo—"The Ninety and Nine"—Mr. P. McCurrach.

J. W. Astley, superintendent of the Snowshoe mine when it was in operation, has returned from a trip of several months to the old country. He came over from Rossland Wednesday, but could not say anything about a resumption at the Snowshoe. Mrs. Astley is still in England.

Mike Callahan was arrested Sunday at a ranch below the city by Chief Flood, and taken to Greenwood jail, charged with threatened dymamiting, two sticks of the explosive with a short fuse attached being found under a bed by the chief. He was held in $1,000 bail, which was furnished.

PROGRAMME OF THE RACE MEET.

Held at Grand Forks, August 25th, 26th and 27th.

9. Pony race, ¼ mile, 14½ hands and under, purse $50.
10. Seagram Cup, distance ⅞ mile, all ages, winner of Grand Forks Derby to carry 7 pounds additional weinht, for a cup valued at $500 donated by J. E. Seagram, of Waterloo, Ont., and $300 cash added by the association, Cup to be won two years consecutively by same owner to become private property. Purse divided.
11. Cowboy race, ¼ mile, 2 turns, purse $20; first $15, second $5; post entries; entries.

Consolation races will be run on the third day, August 27th. They will be open to horses which have failed to win prizes in the other races; purses will be appropriated from 90 per cent. of gate receipts on third day.

HORSE EXHIBITS.

Parade before the grand stand on August 5th or 26th. Liberal cash prizes will be offered in the following classes, namely:

Best thoroughbred stallion, best saddle horse, best standard bred stallion. Conditions: Four to enter in each competition, prize in each class $10.

The conditions for the horse races will be as follows: All purses divided 70, 20 and 10 per cent. The rules of the New California Jockey Club to govern. Entrance fee five per cent. of purse with five per cent. additional from winners. In all races four to enter and three to start. Entries in all events close with the secretary, Yale Hotel, August 24th, at 6 p. m.

A programme of athletic sports is being arranged.

Railway Notes.

Men still continue to come, and a large portion of them are absorbed along the line.

The tote road up Fourth of July creek to Summit camp, has been practically completed.

Nearly or quite a thousand men are now employed on the construction of the V., V. & E. railway to Phoenix.

In Grand Forks the opinion seems to prevail that the most of the immediate benefit of the new construction work will accrue directly to Phoenix.

Chief Engineer Kennedy of the V., V. & E., met R. A. Bainbridge, resident engineer at Nelson of the C. P. R., and J. Z. Choate, bridge inspector, at Oro Denoro Thursday, and arranged about the changing of the trestle at that point so that the new railway's tracks can run under it.

But little business was done at this week's meeting of the city council. The V. V. & E. by-law may be amended, and a resolution was then passed protesting against the granting of a liquor licence to August Jackson for a hotel just outside the city limits.

COURT OF REVISION.

Notice is hereby given that the first sitting of the annual Court of Revision of the municipality of the City of Phoenix will be held in the Baldwin Block, Dominion avenue, Phoenix, B. C., on Monday, the 18th day of July, 1904, at 2 p. m., for the purpose of hearing complaints against the assessment as made by the Assessor, and for revising and correcting the Assessment Roll.

D. J. MATHESON, C. M. C.

Phoenix, B. C. June 9th, 1904.

NOTICE.

Respecting Coal and Petroleum Lands in South-East Kootenay.

NOTICE is hereby given that licenses to prospect for coal and petroleum upon and under lands situated within Block 4,593, South-East Kootenay will be issued forthwith to all persons who have made proper application, in pursuance of the provisions of the "Coal Mines Act" and amendments.

The fee for each license will be $100, and all applicants who have not deposited accepted bank cheques to cover that amount are hereby required to do so without further notice.

Licenses will be issued in the following form, viz.:—

MINING LICENSE ISSUED UNDER THE COAL MINES ACT AND AMENDMENTS.

"In consideration of one hundred dollars now paid under the said Acts, and subject to the provisions thereof, I, W. S. Gore, Deputy Commissioner, acting for the Chief Commissioner of Lands and Works, license

to enter, prospect, search and work for coal and petroleum (but no other metal or mineral) upon, in and under all that piece or parcel of mineral land situate in and forming part of Block 4,593, East Kootenay District, and described as follows:

and not exceeding in the whole six hundred and forty statute acres.

"Owing to the number of applicants for licenses to prospect for coal and petroleum, and the peculiar circumstances surrounding the application for the issuance of these licenses, and the well known fact that the issuance has been unavoidably suspended for so many months, the government of British Columbia finds it impossible to determine the equitable rights of the numerous applicants. Therefore for the purpose of enabling all persons to go before the proper tribunal for the determination of their respective rights and priorities, this license is issued and accepted subject to such prior rights of other persons as may exist by law, and the date of this license is not to be taken or held as in any sense determining such priority, and further it shall not be taken or held to waive enquiry by the Courts into the proper performance of all conditions precedent as between adverse claimants; and further, on the understanding that the government shall not be held responsible for, or in connection with, any conflict which may arise with other claimants, of the same ground, and that under no circumstances will license fees be refunded.

"And the holder hereby waives any claim or demand against the Government, and expressly agrees not to take any steps or proceedings, or present any petition, to enforce any alleged claim or demand against the Government of the Province of British Columbia arising out of the issuance of this license or of any other matter or thing appertaining thereto.

"The land being under reserve from pre-emption and sale this license does not include any right other than the right to prospect for coal and petroleum.

"The duration of this license is for one year from the , 190 .

Deputy Commissioner of Lands & Works.
Lands and Works Department,
Victoria, B. C., , 190

R. P. GREEN,
Chief Commissioner of Lands & Works.
Lands and Works Department,
Victoria, B. C., 6th June, 1904.

In the County Court of Yale Holden at Grand Forks.

IN PROBATE.

NOTICE is hereby given that on the 25th day of June, 1904 it was ordered by His Honor Andrew Leamy, Judge of the County Court of Yale, that Arthur Clayton Sutton, Official Administrator in and for the Grand Forks and Greenwood electoral districts, be administrator of all and singular the estate of Herman Leuker, formerly of Phoenix, deceased intestate.

Every person indebted to the said deceased is required to make payment forthwith to the undersigned and every person having in possession effects belonging to the deceased is required forthwith to notify the undersigned.

Every creditor or other person having any claim upon or interest in the distribution of the estate of the said deceased is required before the 3rd day of August, 1904, to send by registered letter, addressed to the undersigned, his name and address and full particulars of his claim or interest and a statement of his account and the nature of the security (if any) held by him.

After the said 3rd day of August the Administrator will proceed with the distribution of the estate having regard to those claims only of which he shall then have had notice.

Dated at Grand Forks, B. C., the 27th day of June, 1904.
