THE

Big Store

SHIRT WAIST SUITS

We have just placed in stock a shipment of the very newest things in Shirt Waist Suits. The styles are all natty and the patterns pleasing. We are also showing some very dainty things in white Shirt Waists with both long and short sleeves.

STRAW HATS.

We now have all the new styles in Straw Hats. They are the coolest thing to wear and are always neat.

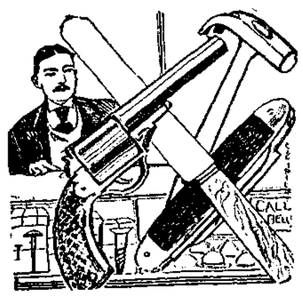
SUMMER SUITS.

Campbell's Clothing

A two piece summer suit would be very comfortable for the next few months. They are in great demand at present but we think we can supply all comers.

The Hunter-Kendrick Co. Ltd.
THE BIG STORE

Hardware Dept.



Our stock of Table and Pocket Cutlery is now larger than ever.

We give especially good value in all lines of Plated ware.

CARPENTERS' TOOLS.

Our line of Disston Handsaws and Bailey Planes is very complete We have now in stock extra handles for Bailey Planes.

BAR GOODS.

GROCERS AND HARDWARE MERCHANTS

INCREASE OF 50 PER CENT

Boundary Output So Far This Year.

The Value for Six Months is $3,000,000.

For the first six months of 1906, the output of the mines of the Boundary show a total of 633,526 tons, with an estimated total valuation of more than $3,000,000. During the same period of 1905 the mines of this section, practically the same properties, shipped 458,193 tons of ore, valued conservatively at a little over $2,000,000. In the absence of definite valuations of the products from all the mine managers, the average per ton is placed at the low figure of $5.

These figures show that the output of 1906 thus far, as compared with that of 1905 for the same period, is an increase of nearly 50 per cent, which is not a bad record, even for the Boundary, where things in a mining way are, as a matter of course, on a considerable scale.

Herewith is appended a table showing the tonnage output of Boundary mines for 1905 and 1906, by months for the first six months of each year, for purposes of comparison:

Month	1905	1906
January	68,074	104,378
February	72,671	105,429
March	90,047	112,638
April	80,102	107,798
May	80,044	100,694
June	67,255	102,589
Totals	458,193	633,526

Good Record For June.

The ore record for June is slightly larger than for May, notwithstanding the fact that the British Columbia Copper Co.'s smelter is out of commission, owing to extensive enlargement in progress at the reduction works. Granby shipped nearly 12,000 tons more in June than in May, and Dominion Copper sent out about 2,000 tons more than the previous month. Following are the figures from each property:

Mine		Tons
Granby mines		78,426
B. C. Copper Co.:		
Mother Lode	2,528	
Emma	1,291	
		3,819
Dominion Copper Co.:		
Brooklyn-Stemwinder	13,509	
Rawhide	2,141	
Sunset	4,196	
Mountain Rose	233	
		20,079
Providence		160
Skylark		85
Sally		20
June total		102,589

Sued for Professional Services.

Wednesday evening the case of Dr. Gordon vs. Thomas Iluk, for professional services, came up in the small debts court. Iluk was employed at the Brooklyn mine, and was slightly hurt in March. He was examined and the presence of a fatty tumor discovered. Iluk agreed, according to the testimony of a witness, John M. Beattie, to pay the regular fees for the operation, which was successfully performed, and which did not come under the $1 per month medical fee paid by each miner. Failing to make payment, he was sued for $75, the fees paid to assistants in the operation, and his wages garnished. Both Dr. Boucher, and Dr. Spankie testified that the tumor was undoubtedly one of long standing, and Judge Williams gave judgment for plaintiff. It is understood that the case will be appealed. Iluk is a foreigner, speaks English poorly, and for some reason was not represented at the trial by counsel.

Death of Willis Hudson.

Clifford Willis Hudson died Tuesday morning in Spokane, from blood poisoning, brought on by overheating before going in swimming. He would have been 18 years of age in September. The family lived here several years, and have the sincere sympathy of Phoenix friends in their bereavement. J. H. Hudson, the father, of the Granby mines, and J. S. Hudson, employed in the Pioneer office, went to Spokane Monday, being notified of the serious condition of the young man, arriving before he passed away. The funeral was held Wednesday at Greenwood cemetery, near Spokane.

Rossland's Celebration.

Next Monday and Tuesday Rossland Miners' Union and citizens generally will celebrate the eleventh anniversary of the founding of the organization, and special rates have been granted on both railways. A good programme of sports has been prepared and the Greenwood band will be in attendance. Quite a number will doubtless go over there from the Boundary country.

COMING AND GOING

H. A. Munro visited Spokane Wednesday.

F. W. Guernsey, of Trail, was a visitor in camp last Monday.

Dr. Robert Matheson is making a several weeks' tour of the Similkameen country.

James McGregor, of Nelson, provincial mining inspector, was here Thursday.

Dr. J. E. Spankie and Arthur M. Whiteside, of Greenwood, came up the hill on business Wednesday.

Mrs Donald J. Matheson and little son went down to the coast last Saturday, where they will spend several weeks.

J. C. Gillice and Roy A. Cook, of Nelson, representing the Allis Chalmers-Bullock, Ltd., of Nelson, were in camp Wednesday.

John W. Hannain, the dairy man, went over to the Lardeau this week to secure a number of cows, the demand for his lacteal fluid making this necessary.

Archie F. Berry, formerly secretary of Phoenix Miners' Union No. 8, but now employed at the Josie mine, Rossland, spent several days in camp this week.

O. B. Smith, Jr., superintendent of the Granby mines, returned from a trip to Massachusetts Monday, bringing Mrs. Smith and daughter, who spent the winter with her mother, near Springfield, Mass.

Frank, Andy and John Keefe, employed by the Boyles Brothers on the diamond drills at the Granby mines, left this week on a trip to Sherbrooke, Que., by way of Iowa, where they have friends.

W. C. Thomas, superintendent of the Dominion Copper Co.'s Boundary Falls smelter, made a trip to Franklin camp this week, and made examinations of the Franklin, Maple Leaf and other well known claims.

Chief Engineer Kennedy, of the V., V. & E., accompanied by Engineer Hastie, of the Spokane Falls & Northern, tramped over the hills around Phoenix one day this week, but as usual, had little to say about the object of the tramp. Mr. Kennedy does not do this sort of thing for pure fun, however.

L. A. Campbell, manager of the West Kootenay Power and Light Co., came in Wednesday evening. Electricians are now installing some of the machinery in the large sub-station of the company here, and the work of surveying and building the short lines to Summit and Deadwood camps is under way, with another to run to the Boundary Falls smelter.

MEADOW LARK AT $20,000

Phoenix Syndicate To Operate Property.

Adjoins the Well Known Skylark Mine.

This week the papers were finally signed in a deal by which the Meadow Lark claim, in the high grade belt, is taken on an eighteen months bond by Dalby B. Morkill, of Phoenix, for a syndicate which is now about complete. The figure named in the bond is $20,000, the first payment of $3,000 to be made in five months, the vendors being Wm G. McMynn, Daniel J. Sullivan and John J. Caulfield, of Greenwood: Nels J. Laplant, of Marcus, Wash., and James McNicol, of Vancouver.

Mr. Morkill has formed the Meadow Lark Mining and Development Syndicate, including besides himself, G. W. Rumberger, W. J. Porter, W. J. McMynn, J. J. Caulfield and others. It is the intention of the syndicate to begin work on the claim at once, spending several hundred dollars each month in development, and it is confidently believed that in a short time, comparitively, the property can be placed on a shipping basis. The headquarters of the syndicate will be in Phoenix.

In location the Meadow Lark has everything in its favor, adjoining the Skylark claim in Skylark camp. The latter has proved to be one of the best high grade properties in the Boundary, and is today looking better than at any time since the present company took hold of it, not two years ago.

It is a steady shipper and is more than paying its way as it goes. It is believed that the Meadow Lark has the Skylark lead, in fact, ore having been found within 60 feet of the Meadow Lark side line. There would seem to be every chance of making a profitable mine of the Meadow Lark.

PYTHIANS HAD BIG INDUCTION

Three Lodges Install New Officers.

Was Held at Greenwood on Wednesday.

Wednesday evening there were more Knights of Pythias gathered together in Greenwood than ever before in the history of that place, it being the occasion of the installation ceremonies for the officers for three lodges, those at Greenwood, Midway and Phoenix. After the opening by A. F. Thomas, the retiring chancellor commander of Greenwood lodge, and the exchanging of fraternal greetings, the installing officers, consisting of Grand Chancellor Wm. Irvine, of Nelson, acting grand vice chancellor, Wm. Brown, of Phoenix, and Chas. Dunn, of Greenwood, proceeded with the work of induction. The officers installed were:

GREENWOOD NO. 29

C. C., Martin Anderson.
V. C., Frank Steele.
P., Al. Morrison.
M. of W., W. M. Rowe.
K. R. S., A. D. Hallett.
M. of E., K. C. B. Frith.
M. of A., Fred Hoar.
I. G., Wm. Thompson.
O. G., A. F. Thomas.

MIDWAY NO. 36.

C. C., Ed. A. Allen.
V. C., C. E. Melville.
P., Foyle Smith.
M. of W., J. C. Luscombe.
K. R. S., H. R. Stevenson.
M. of F., H. Eldridge.
M. of E., S. A. Crowell.
M. of A., E. Bunting.
I. G., Fred Hilbert.
O. G., P. Heilschmer.

PHOENIX NO. 28

C. C., E J. Smith.
V. C., A. Kobloth.
P., Wm. Searle.
M. of W., E. E Jackson.
K. R. S., G. L. Elkins.
M. of F., J. A. Morrin.
M. of E., J. N. Campbell.
M. of A., G. M. Pratt.
I. G., D. A. McLeod.
O. G., Jas. Peacock.

Following the installation ceremonies an address was given by grand chancellor and a number of speeches made by several members of the order, the evening concluding with refreshments served by the Greenwood lodge. The visitors say they were royally treated by the Greenwood lodge. It was hoped to have the officers of the Grand Forks lodge there also for induction, but for some reason they were unable to come.

ODD FELLOWS HAD INSTALLATION

Two Lodges Did It at Grand Forks.

Thursday evening several loads of local Odd Fellows went to Grand Fords where a double installation of the Grand Forks and Phoenix lodges took place, the installing officer being Walter S. Cook, of Phoenix. The following officers were inducted to office on that occasion:

GATEWAY LODGE NO. 45, GRAND FORKS

N. G., David Whiteside.
V. G., George Chapple.
Rec. Sec., Frank Rowan.
Per. Sec., A. L. Clements.
Warden, Walter Haddon.
Treas., Richard Frache.
Conductor, Donald McCallum.

SNOWSHOE LODGE NO. 46, PHOENIX.

N. G., Richard Silverthorne.
V. G., John McIver.
Rec. Sec., George H. Mead.
Per Sec., Walter S. Cook.
Treasurer, Thomas Johnson.
Warden, David Speare.
Conductor, William Searle.

After the ceremony, addresses were made, and refreshments served.

Death of M. W. McKenzie.

Thursday morning Murdock W. McKenzie died of pneumonia at the Phoenix General Hospital, after an illness of but eight days. The funeral will be held from the residence of his brother, D. W. McKenzie, Granby place, Sunday afternoon, at 1:30, Rev. Samuel Lundie officiating.

The late Mr. McKenzie was employed at the Rawhide mine when taken down with a slight cold, which developed and the physician ordered him to the hospital last Saturday. Everything possible was done for him but he passed away day before yesterday. Deceased was 52 years of age, and a native of Richmond county, Quebec. He came here about a year and a half ago, and accepted employment at the Granby mines, afterwards going to the Rawhide. He lived two or three years in California before coming to Phoenix. The family have the deep sympathy of many friends. Deceased was a member of the Miners' Union.

Boundary Mining Notes

The owners of the Skylark expect to get out about three cars of ore this month

At the Biritsh Columbia Copper Co.'s smelter the new machine shop is now being used.

President Miller, of the Dominion Copper Co., Ltd, is expected to visit the company's properties here shortly.

At the 315 foot level of the Elkhorn mine, where the shaft is being sunk, excellent values have been encountered.

According to a Boston report the Granby directors, at the August meeting expect to declare another dividend, payable in September.

The pumping out of the Crescent mine has been completed, and timbering is being done preparatory to active development. W. H. Jeffery, M. E., is in charge with 15 men.

This week E. J. Wilson, representing the owners of the Grayhound, in Deadwood camp, was arranging for a bond on the property with the representatives of New York capitalists.

On Wednesday an important ore strike was made in the workings of the Strathmore mine, near Greenwood, a vein of high grade silver being broken into, greatly pleasing the management of the property.

A depth of 475 feet has been reached in the sinking of the main shaft at the Mother Lode mine, and some ore is being shipped each week and stored at the smelter. About 125 men are now on the mine force.

Contractor McArthur has completed the work of hauling the machinery, which was loaded at the Sunset mine, from the C. P. R, station in Phoenix to the Dominion Copper Co's. Idaho mine, where it is being installed.

An official of the Dominion Copper Co. says that the National Trust company of Toronto is receiving satisfactory returns from stockholders' subscriptions. He adds that all but a few hundred thousand of the $1 shares have been exchanged for the $10 stock.

A force of some thirty men is now employed at the Granby's Gold Drop mine, the daily shipments being about 250 tons. More ore bins are being erected at this property, and later it is likely that another huge ore crusher—the fourth for the Granby—will be installed at this outlet.

The credit for sharpening the steel for the winning team in last week's local Dominion Day rock drilling contest went to W. J. Pierce, one of the best men in this line in the employ of the Granby Consolidated. Morton's English steel was used, for which E. G Prior & Co., of Victoria, are the provincial agents.

Lead, $5.75 to $5 80.

WILL START UP JULY 23

So Says Manager Biesel, of Snowshoe.

W. S. Macy to Have Boarding House.

Charles Biesel, of Rossland, the new manager of the Snowshoe mine, was a visitor in camp again early this week, and made the necessary arrangements to reopen the property and begin active work thereon. It is the intention to have work started at the Snowshoe on or about a week from next Monday, July 23, and Mr. Biesel will be here himself to look after matters generally. While he was here Tuesday he saw W. S. Macy, of W. S. Macy & Co., Ltd., and Mr. Macy will open the Snowshoe boarding house on the 23d inst., and have charge of it from that time forward. This makes four mine boarding houses controlled by Mr. Macy's concern, the others being the Granby, Skylark and Pathfinder.

Just how many men will be employed at the Snowshoe is not now known, but the force will probably approximate 50 or more when things are in running order. When it was operated last by the Snowshoe Gold & Copper Mines, Ltd., there were from 75 to 100 men employed.

Mr. Biesel went to Spokane this week, after being in Phoenix. He did not know yet just where the Snowshoe ore product would be disposed of. Some of it is likely to be shipped to Trail smelter, owned by the new Snowshoe owners, the Consolidated Mining and Smelting Co., of Canada, Ltd., and some of it may go to a Boundary smelter.

The Rossland Miner of last Tuesday, had the following appreciative of Mr. Biesel:

"Charles Biesel, who for a year past has been the chief accountant and purchasing agent of the Centre Star and War Eagle mines, left yesterday for Phoenix for the purpose of taking charge of the Snowshoe mine there. The Snowshoe was lately acquired by the Consolidated Mining and Smelting Company, and Mr. Biesel has been placed in charge of its operations. Mr. Biesel is a graduate of the mining department of a German university, has had a great deal of practical mining experience, is an able man and should make a success of the Snowshoe. During Mr. Biesel's residence in this city he has made numerous friends who will rejoice to learn that he has been advanced to a more lucrative position. All of Rossland will join in wishing him the greatest possible success and commend him to the good graces of the people of Phoenix, for, he is, indeed, a jolly good fellow."

FRANKLIN TOWNSITE COMPANY, LTD.

LOTS NOW ON THE MARKET . . . . | PRICES RANGE FROM $65.00 TO $135.00 | TERMS: One-third down, balance in 6 AND 12 MONTHS

This town is beautifully situated, 42 miles from Grand Forks, on the banks of the North Fork of Kettle River, and is surrounded on all sides by the largest and richest Copper showings in British Columbia; namely, The McKinley, Gloucester, Banner, Jumbo, Maple Leaf, M. S., Victoria and many others.

The townsite streets are cleared. The Government Wagonroad has just reached the town. The Kettle Valley road is now rushing construction to this camp. The Great Northern surveyors are in the field and it is definitely announced that sixteen miles of the road will be built this summer.

A large hotel and store buildings are now in course of erection. A water works system is being installed. From one to two through stages leave Grand Forks daily.

The Dominion postoffice authorities are beginning to sit up and take notice of the miserable mail facilities between Phoenix and Greenwood, as well they might. They are now keeping tab on the amount of mail matter sent between the two cities, and it is to be earnestly hoped that it will result in a contraet being speedily let for the handling of the mail by stage, so that prompt daily service may be enjoyed. Another thing is that it is not the quantity of mail that should cut any figure in letting the contract. A dozen letters daily might be more important to the business men concerned than in other places where a dozen sacks are handled. In the meantime, we will have to get along with a letter requiring two whole days, under favorable circumstances, to go between two places of say 1500 population each, only five miles apart, and having railway connection. How long will it last?

P. F. Roosa, paymaster for the Dominion Copper Co', was here this week, distributing the monthly cheques to the employees of the company in this camp, a welcome visitor, by the way. Asked as to how the company liked the present mail service between Phoenix and Boundary Falls, he said that it was all that it should not be. "Why," said he, "do you know that it actually takes four to five days for mail to make the round trip between Phoenix and Boundary Falls, places that are only eight or nine miles apart, and connected by a railway on which passenger trains are operated every week day? That is the case, anyway, and it makes it most inconvenient for us in the transaction of important business between our offices in the two towns. It is simply fierce, and the sooner it is changed the better for trade conditions generally."

For several weeks the people of the west generally were wishing the wet weather would let up. Finally it did change, and last week it daily grew perceptibly warmer, even in Phoenix, the coolest place in the Boundary. Each day after that it seemed to grow a little hotter, though rain threatened to cool things off the latter part of the week. While residents of Phoenix thought it a trifle warm when the mercury reached 85 to 90 degrees, they can imagine the feelings of residents of Grand Forks, Midway, Cascade and Greenwood at 100 to 104 degrees in the shade, Spokane showing about the same, Portland, Ore., 105 degrees, and some Oregon towns as high as 114. The climate of Phoenix has its advantages.

It is understood that Angus K. Stuart will handle a number of the Seymour Arm copper claims, better known as ihe Cotton Belt group, which have been attracting considerable attention during the last year or two. There are now some 38 claims in the district and the owners have succeeded in getting government aid to build a wagon road to that section. Mr. Stuart was a resident of the Boundary eight or ten years ago, and was well known here. Among other distinctions, he enjoys that of having been the first subscriber to the Phoenix Pioneer, when it was launched, going on seven years ago.

There is a vein of quaint humor in the composition of Olivia Dahl, the great Norwegian singer whom Manager C. H. Gibbons is to send through the interior towns of B. C., including Phoenix, this summer. She even is able to give a new touch to the time-worn jest of the slow railway train. It was on the Esquimalt & Nanaimo division of the Canadian Pacific, which connects Nanaimo, the coal-mining centre of Vancouver Island, with Victoria, the provincial capital. The train was in a hurry and running fully fifteen miles an hour to make up lost time. Miss Dahl also was in a hurry and even this terrific speed failed to satisfy her. She proved to herself that the train was actually moving by watching the progress of the shadow of one of the telegraph poles on the plush-cushioned seat opposite her. Then she hailed the conductor.

"Conductor", she queried with a smile, "will you tell me what motive power you use on this line?"

"Why steam, Ma'am," replied the man of blue and buttons, "did you think this was an electric road?"

"No", was the prompt response, the smile still lingering, "but then I thought someone might have made a mistake and coupled on to a glacier".

A schoolmaster once said to his pupils, To the boy who would make the best piece of composition in five minutes on "How to Overcome Habit," he would give a prize. When the five minutes had expired a lad of nine years stood up and said: "Well, sir, habit is hard to overcome. If you take off the first letter it does not change 'abit.' If you take off another letter you still have a 'bit' left. If you take off still another, the whole of 'it' remains. If you take off another it is not totally used up, all of which goes to show that if you want to get rid of habit you must throw it off altogether." Result—He won it.

B. C. MINING

Ore shipments from Rossland mines last week were 5,098 tons, making 173,239 tons for the year to date.

Last week mines of Yale and Kootenay shipped 20,031 tons of ore, making a total of 871,742 tons thus far this year.

Le Roi No. 2 has declared a dividend of a shilling a share and proposes to pay a similar dividend quarterly.

The foundations for the new Heberlein roaster at the Hall Mines smelter have been completed and men are at work making excavations near the car tracks for other additions to the plant.

Seventy dollar ore is now being shipped from the Iron Mask mine near Kamloops. It is so rich that concentrating is not required, and the oonconcentrator has been closed for the present.

A record output was made by the Crow's Nest Pass Coal Co. in the month of June, the coal output having been 91,325 tons. In the same month 21,000 tons of coke were manufactured.

William Yolen Williams has been making an examination of the California mine and other properties in Rossland camp, it is said with a view to reopening the properties and putting them on a shipping basis. Mr. Williams had charge of the California in early days, it being owned by what was known as the Miner-Graves syndicate.

James H. Hawthornthwaite, socialist member in the legislature from Nanaimo, will speak at the Rossland Miners' Union anniversary celebration on July 16th, after which he will speak in the Boundary at Grand Forks, Greenwood and Phoenix.

Nelson's regatta, for which extensive preparations have been made, occurs July 27th and 28th.

Saved His Comrade's Life.

"While returning from Grand Army Encampment at Washington City, a comrade at Elgin, Ill., was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland, of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties to the south and west. I always carry this remedy, and have used it on several occasions." Sold by all druggists.

HE DUG.

He wanted a job and, like every one else,
He wanted a good one, you know;
Where his clothes would not soil and his hands would keep clean,
And the salary musn't be low.
He asked for a pen but they gave him a spade,
And he half turned away with a shrug,
But he altered his mind, and, seizing the spade—
he dug.
He worked with a will that is bound to succeed,
And the months and the years went along.
The way it was rough and the labor was hard,
But his heart he kept filled with a song.
Some jeered him and sneered at the task, but he plugged
Just as hard as he ever could plug;
Their words never seemed to disturb him a bit—
as he dug.
The day came at last when they called for a spade
And gave him a pen in its place.
The joy of achievement was sweet to his taste
And victory shone in his face.
We can't always get what we hope for at first,
Success cuts many queer jigs,
But one thing is sure, a man will succeed—
if he digs.

By L. E. Thayer.

Takes White Bear at $50,000.

A dispatch from Grand Forks states that papers were signed for the bonding of the well known White Bear group of claims in Franklin camp to E. A. Colquhoun of London, England, who will pay $50,000 for the claims. By the terms of the bond development work will be carried on continuously and payments made at stated intervals during the life of the bond, which is 18 months. This group consists of five claims called the White Bear, Black Bear, Big Cub, Little Cub and Lucky Jack. They are copper properties and are owned by G. M. Fripp, H. C. Kerman and half a dozen other Grand Forks citizens. The bonding of this group by an English company is regarded as the forerunner of more English money being invested in Franklin camp this year.

Boundary Customs Receipts.

R. R. Gilpin, customs officer at Grand Forks, makes the following detailed report of the customs receipts at the various sub-customs offices, as reported to the chief office for the month of June:

Greenwood	$2,754.29
Midway	2,321.27
Phoenix	2,112.58
Grand Forks	2,090.04
Osoyoos	382.66
Sidley	222.00
Carson	110.09
Cascade	86.06
Keremeos	1 70
Total	$10,080.69

Cheap Rates East.

The Great Northern will sell excursion tickets to the East good for 90 days return as follows: To Detroit and return $79.10, Buffalo $90.60, Pittsburg $87.60, New York $102.60, Toronto $91.40, Montreal $102.60, Ottawa $102.60, Quebec $109.60 Moncton $120.60 St. John N. B. $120.60, Halifax N. S. $129.60, Boston $103.60, Indianapolis $76.60, Cincinnati $82.60, Louisville $82.60, Cleveland $83.60.

Tickets will be sold August 7, 8 & 9th and September 8 and 10th.

M. M. Stephens, Agent

Old Chronic Sores.

As a dressing for old chronic sores, there is nothing so good as Chamberlain's Salve. While it is not advisable to heal old sores entirely, they should be kept in a good condition, for which this salve is especially valuable. For sore nipples Chamberlain's Salve has no superior. For sale by J. B. Boyle.

The Pikey Printer.

Tramping printer came to town,
(Said his name was Ikey),
Put him on an eight-point case,
Asked if we had "Pikey."

Up in Bumville, where I worked,
(Speaking now is Ikey),
Set ten columns every day,
All in good old Pikey.

Pikey is the type I set,
(Quoth the tramping Ikey)
Locals, ads and gen'ral news,
All went up in Pikey.

When I die, as die I must,
(Mournfully speaks Ikey)
Set my obit. up in type
That justifies with Pikey.

When you put my tombstone up
(Hopefully talks Ikey),
Grave on it in letters deep,
Grave in twelve-line Pikey:

Neath this sod a tramp print lies,
(Epitaph for Ikey),
Wasn't much in eight-point type,
But simply hell on Pikey.

—Inland Printer.

NOTICE.

TENDERS FOR THE PURCHASE OF A MINERAL CLAIM WHICH HAS REVERTED TO THE GOVERNMENT FOR UNPAID TAXES.

SEALED TENDERS for the purchase of the "Quien Sabe" mineral claim, Lot 1767, situated in the Rossland Assessment District, will be received by the undersigned up to 4 p. m. on Tuesday, the 31st day of July, 1906.

No tender will be entertained for less than the upset price, viz: $51.50

THE COPPER HANDBOOK

A medical book of nearly a thousand pages, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the every day man.

It is a dozen books in one, covering the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper.

It gives the plain facts in plain English without fear or favor.

It lists and describes 3,849 copper mines and companies, in all parts of the world, descriptions running from two lines to 12 pages, according to importance of the property.

The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper

The miner needs the book for the facts it gives him about mines, mining and metal.

The investor needs the book for the facts it gives him about Mining Investments and Copper Statistics. Hundreds of Swindling Companies are exposed in plain English.

Price is $5, in Buckram, with gilt top; $7.50 in full library morocco. Will be sent fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial therefore was a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is, that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels, and has never been known to fail. For sale by all druggists.

Have you seen the newest in printed stationery, linenette? It is the best yet. Stock just received by the Pioneer job department.

NOTICE.

Notice is hereby given that the first sitting of the Annual Court of Revision of the Municipality of the City of Phoenix, B. C., will be held in the Council Chamber, city hall, on Saturday, the 18th day of August, 1906, at two o'clock P. M., for the purpose of hearing complaints against the assessment made by the assessor, and for revising and correcting the assessment roll.

D. J. MATHESON, C. M. C.

Phoenix B. C., July 6, 1906.

SALE OF THE ORO DENORO

Circular Issued to the Shareholders.

Details of Transfer to B. C. Copper.

The following circular was recently sent to shareholders in the Denoro Mines, Ltd., by the officers of the company. It gives some details regarding the recent transfer of the Oro Denoro mine, Summit camp, to the British Columbia Copper Co. Ltd., and also particulars of the work done on the properties of the company during the preceeding year:

To the Shareholders:

The annual meeting was not finally held until 1st June. Notified that the British Columbia Copper Company, Ltd., would not take up its option on the Oro Denoro mineral claim because exploitation was not satisfactory, and the report of the meeting was held pending negotiations. From an inspection of diamond drill cores and from assays from 1,745 feet of drill-holes it was realized there would be no sale without a marked reduction in price. To-day a price of 15,500 of that company's shares fully paid up was agreed upon. This was the very best price that could be got.

That company is now installing splendid smelting and converting plant three times the capacity of its old one, capable of earning a profit of one million dollars yearly. After completion of plant, making large expenditures on mine development, and paying for several new properties of large prospective value, its outstanding capital will not exceed 380,000 shares of $5 each, leaving the company free from debt and with 20,000 of its shares in its treasury. It may, therefore, be expected that its shares will in eight or ten months advance to $15 or $20 each, and that, taking into account the other assets of the Denoro Company, Denoro shares should within that period realize 18c to 20c each. 13,500 of the shares paid by the purchasing company are to be pooled until 1st November next, when a distribution of them can be made. Notice of a general meeting to confirm sale is forwarded herewith.

At the annual meeting the audited accounts for the period from August 1st, 1904, to 1st May, 1906, were received and adopted. These showed cash on hand in the Bank of Montreal of $15,913.50, whereof $12,045 is in the savings department. The company has no debts except a very few current accounts, about equalled by the realisable accounts owing it. During the last half of 1904 and all of 1905 a small force carried on purely development work, and the cost of it was hardly covered by the ore taken out and sold. The tonnage shipped during the last five months of 1904 was 1,857 tons, during the whole of 1905 was 2,858, and during the first three months of 1906 was 6,320 tons. The last showed a very fair margin of profit.

Work was carried on during the winter on the Hungry Man claim, and the title obtained to one-half of it. On account of the vein being in the bed of a creek the cost of the shaft sinking was much greater than expected, due to seepage, and it became necessary to install a steam hoist and do over 100 feet of dead work, cross-cutting from another shaft and then cutting through adyke so as to drift on the vein, which is a contact one with well defined walls. The ore has been proven to a depth of 45 feet. It is 1 1-2 to 3 1-2 feet wide on the hanging wall, carrying gold values of about $20. The exposure of ore on the surface puts a considerable tonnage in sight. Further work, is of course, necessary to prove the property, but that done so far is encouraging. After obtaining expert opinion, a line of action as to dealing with and developing the property will have earnest consideration.

The directors elected were Messrs. Charles R. Hamilton, K. C., Charles E. Gillan, barrister, Duncan J. McDonald, merchant, Smith Curtis, mining, all of Rossland, B. C.; J. A. L. McAlpine, M. D., of Vancouver, B. C., and Angus MacNish, of Vankleek Hill, Ontario; Thomas S. Gilmore, of Rossland, B. C., was elected auditor.

At a subsequent meeting of the directors, Mr. Hamilton was elected president, Dr. McAlpine, vice-president, and Mr. Curtis secretary-treasurer. By order of the directors.

SMITH CURTIS, Secretary.

Nelson's annual agricultural and industrial exhibition takes place this year on September 19, 20 and 21.

Bowel Complaint in Children.

During the summer months children are subject to disorders of the bowels which should receive careful attention, as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy, as it promptly controls any unnatural looseness of the bowels. Sold by all druggists.

Don't Be Backward.

Do not hesitate to ask for a free sample of Chamberlain's stomach and Liver Tablets. We are glad to give them to anyone who is troubled with biliousness, constipation, or any disorder of the stomach. Many have been permanently cured by their use. For sale by J. B. Boyle.

PE-RU-NA KEEPS THE FAMILY IN THE BEST OF HEALTH.

This is Only One of a Million of Homes in Which Pe-ru-na Has Been a Blessing. Read This Family's Glowing Testimony.

Mr. Henry S. Campbell, 1737 S. Williams St., Denver, Col., State Deputy of Modern Woodmen, Montana, and Delegate of Builders Trades Council, writes: "Peruna has been a blessing in our home. My wife was in poor health for several years and nothing but Peruna helped her. She gradually recovered her health and became the mother of a boy which blessed our home. We call Gerald our Peruna boy. He is in the finest of health and his mother has never enjoyed such excellent health.

"I have personally found Peruna of great value to me while traveling. Getting irregular meals and often poorly prepared food ruined my stomach, but Peruna toned up my digestive organs and brought fine health to me.

"We are never without Peruna in our home and know by experience that it keeps us all in the best of health."

Peruna—Once Used in The Family, Becomes a Permanent Fixture.

A RECENT LETTER.

A recent letter received from Mr. and Mrs. Campbell is, as follows:

"We still use Peruna and in addition to our son, Gerald, who is a fat and saucy lad of 28 months, we have another son, still larger for his age. He is now ten months old and is always healthy.

"His mother says Peruna has surely made both of our children as healthy as they are, helped, of course by Colorado's healthy air.

"A bottle of Peruna is at all times a welcome visitor to our home."

A multitude of families have discovered that Peruna is their standby.

In all the catarrhal ailments which are likely to beset the various members of the family, Peruna is the remedy that brings quick relief.

No matter whether it be a catarrhal condition of the head or lungs, or a derangement of the stomach and bowels, Peruna is the remedy.

GREAT NORTHERN SUMMER EXCURSIONS.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Lowney's chocolates at Boyle's.

The old reliable, Boyle the Druggist.

Hannam's milk suffers no addition or subtraction.

New and second hand goods sold by R. J. Gardner.

Miners, attention. If you want solid comfort, stay at Hotel Brooklyn.

For Sale.—Old Miners' Union hall. Apply to John McInnis, chairman Board of Trustees.

Active development is going on at the Helen mine, where a considerable force is at work.

Archdeacon Beer will hold services in St. John's mission of the Church of England, Sunday evening, at 7:30.

When feeling like having just a wee drappe Scotch, call at the Brooklyn and have a wee taste McCallum's Perfection.

There are stores which do lots of business without newspaper advertising; with the aid of advertising they would have to move into larger quarters.

Thomas Finnigan, formerly of Phoenix, but latterly of Midway, left this week for Toronto, accompanied by Mrs. Finnigan, for expert medical treatment.

Born, July 2d, to the wife of W. B. Hilliard, at Vernon, a daughter. Mr. Hilliard was formerly a resident of Phoenix, being employed in the Pioneer office.

Matters in connection with the recent Dominion Day celebration having been closed up, Secretary McEachern expects to have a full financial report for publication next week.

Narcisse Lemieux, who is understood to be a cousin of the new postmaster-general of Canada, and is a veteran employee of the city, struck off for the Similkameen this week to look after some mining interests.

It is the enterprising business man who advertises. People know that if they want to find the largest stocks of the most up-to-date goods, they must go to the store that is a consistent, persistent user of newspaper space.

City Clerk Matheson wishes license holders to remember that all city licenses, of whatever kind, expire on the 15th, which being Sunday, renewals are due today, Saturday. Mr. Matheson will be at the city hall all day today, to grant renewals.

At the ice cream social and impromptu concert held by the Ladies' Aid of the Presbyterian church Thursday evening, a large audience was present—one of the largest of the season—and seemed to enjoy the mental and physical feast. Over $40 was taken in by the ladies.

Rev. Prof. T. B. Kilpatrick, of Knox college, Toronto, will visit Phoenix on July 25th, being in Greenwood the Sunday before. His object is to see the country and get a knowledge of the west. The Presbyterians are arranging for some kind of a gathering to meet the distinguished gentleman. No one should miss hearing him.

Danny Deane is the embodiment of hope. He now has faith that he will be able to move into his new hotel by the first of next month, notwithstanding the annoying delays from broken promises by lumber dealers, lathmakers and a few others, which have postponed his occupation of the new building about two months.

D. J. McDonald, who was formerly in the livery business at Eholt, and is thoroughly conversant with it, this week purchased the outfit of the Phoenix Livery Stable, on lower Dominion avenue, and has taken possession, from William R. Matheson. Mr. Matheson expects to take a trip back east in a short time.

Early this week Proprietor McMaster stepped out of his Balmoral hotel for a moment in the middle of the day. In that time some one of no little nerve went behind the bar, pried open one of the locked mahogany drawers and helped himself to $510, mostly in silver. Police notified, but so far no clue to the thief. A small safe now stands in the office of the hotel.

Quite latterly it appears to have grown the custom again for a few to attempt to jump their board bills on paydays. One individual was chased to Greenwood this week by Chief of Police Flood, and agreed to disgorge rather than be run in on a vagrancy charge and permitted to work for the government at the Nelson jail for a few months. The chief says that will be the program for the next offender.

Some Base Ball Records.

Following is the record of the Trail base ball team on its recent tour, as given by the Trail News:

Colville at Trail	1- 0	L
Nelson vs. Trail, at Kaslo	3- 0	L
Nelson vs. Trail at Nelson	6-10	W
Rossland at Trail	5- 3	L
Trail at Northport	9- 4	L
Northport at Trail	6-10	W
Trail at Rossland	5- 4	L
Trail at Colville	10-11	W
Colville at Trail	1- 2	W
Northport at Trail	1- 3	W
Trail at Phoenix	1- 3	W
Trail at Chesaw	1-12	W
Trail at Greenwood	3- 4	W

Boyle, the Druggist.

Dr. Mathison, dentist.

Purity first consideration by Boyle the Druggist.

Special attention given to Miners' Dinner Buckets at Hotel Brooklyn.

Prescriptions a specialty at Boyle's.

Riding, driving and work horses for sale. Stooke Bros., Land and Stock Dealers, Midway, B. C.

A cloudburst was reported between Grand Forks and Cascade last Saturday, doing some damage to railway tracks, electric and telephone wires, etc.

The Dominion fruit inspector estimates the probable fruit yield in the Kettle valley near Grand Forks for 1906 as plums and prunes, 760 tons, apples, 4,500 boxes, and two tons of cherries.

Al. Almstrom has received a new stock of stationery, including the finest writing materials, Holland Linen, English Linen, Irish Flax, Swiss Lawn, etc. Also, Moore's Non-Leakable Fountain Pen, the "Clean to Handle." Ramsey's and Webb's Chocolates, that melt in your mouth. tf

The C. P. R. has issued a handsomely printed and illustrated pamphlet descriptive of southern British Columbia. In compact form it contains a lot of valuable information and properly distributed should prove a splendid advertisement of "The garden of Canada."

Total Payroll About $200,000.

The total payroll of the mines and smelters of the Boundary for the month of June was approximately $200,000, including the railway men. Most of the mines and smelters had the monthly payday this week, the cash being distributed about as follows:

Granby Consolidated	$75,000
B. C. Copper Co.	35,000
Dominion Copper Co.	33,000
Smaller mines	15,000
C. P. R. and G. N. men	42,000
Total	$200,000

The Sullivan mine in East Kootenay is making a good profit each month, extracting and putting through its smelter at Marysville six carloads of silver-lead ore a day. The lower levels of the mine, which were recently opened up under the direction of R. H. Anderson, are developing in a most satisfactory manner, new and valuable ore shoots having been uncovered. The shoots are so large and contain such large quantities of ore that they are said to insure the mine a long lifetime of profit.

Boundary Side Lights

A Labor Day celebration is already announced for Greenwood this year.

Greenwood has a church trustee who has gone into the brewery business.

An average of 60,000 feet is the daily cut at the Yale-Columbia Lumber Co's sawmill at Cascade.

During the last six monthe the city of Greenwood received $16,147.89, and paid out $14,668.17.

Three pupils from Greenwood, Dolly Yates, Leila Rowe and Ray Parker, were successful at the high school examination recently held there.

F. L. Underwood, of New York, president of the British Columbia Copper Co., Ltd., arrived at Greenwood Wednesday, to spend a few days.

The Greenwood Ledge says that one joyful thing in the Lord's Day Observance bill is that boss printers will no longer find it necessary to pay price and a half for Sunday work.

About the first of the month the B. C. Telephone Co. will be actively at work rebuilding the company's system at Greenwood, all the preparations having been made for that purpose.

Mrs. Mary Blythe, formerly of Phoenix, and who has a ranch at Westbridge, was recently married to David McBride, a rancher of that section, by Rev. M. D. McKee at Greenwood.

Faulds Brothers, of Greenwood, won the rock drilling contest at Nelson, Dominion day, making 35 inches flat, against 31½ inches by Robert Walters and A. J. McGillivray of Silverton.

James Donohue, of Chicago, president of the Helen Mining Co., and also interested in the Strathmore and other high grade mines in the Boundary, arrived in Greenwood Wednesday, and expects to spend several weeks in this section.

Frank Hartinger, brewer, of Grand Forks, is having an interesting time with the city fathers of that town. He claims the right to sell his beer on Sunday, under his Dominion license, and the council thinks otherwise, The outcome is awaited with interest there as elsewhere.

The C. P. R. recently sold 10,000 acres of timber land near Westbridge, on main Kettle river, being in block 3637. This makes about 25,000 acres that F. W. McLane, the agent, has disposed of in this section for the C. P. R. in the last year. The land brought $3 per acre.

July 23 and 24 a moving picture San Francisco eathuuake and fire show will appear at Miners' Union opera house.

W. J. Prendergast has accepted a position at the B. C. Capper Co.'s Oro Denoro mine, and moved his family over there this week.

Pumping out the B. C. mine is being done by the B. C. Copper Co., but it will probably require another month to unwater the extensive workings of the property.

The C.P.R. is making special rates for the Winnipeg Exhibition, from July 20th to 27th, return till Aug. 2d.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial therefore was a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is, that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels, and has never been known to fail. For sale by all druggists.

Facts About British Columbia.

British Columbia is Canada's largest province.

British Columbia is 400x700 miles in area.

British Columbia is equal to 24 Switzerlands.

British Columbia has produced 100 millions in gold.

British Columbia's gold yield, 1905, 5¾ millions.

British Columbia's fishery yield, 1905, 5¼ millions.

Of this, 3¼ millions in salmon; 1-167,460 cases packed in 75 canneries.

British Columbia's Alpine regions cover 200,000 square miles.

Swiss Alps cover only 16,000 square miles.

British Columbia has 7000 miles of coast line—equal to distance across Canada and back again.

British Columbia's population estimated at 230,000.

British Columbia received first prize for fruit at London exhibition, 1905.
