The Phoenix Pioneer

AND BOUNDARY MINING JOURNAL.

TENTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, JUNE 5, 1909 No. 28

CONSOLIDATED'S NEW FURNACE BLOWN IN

Largest Copper Furnace in Canada

The largest copper furnace in the Dominion of Canada, 42 inches by 25 feet, was blown in by the Consolidated Mining and Smelting Co., at its Trail smelter Friday. This gives the company four large copper furnaces, with a capacity of 1800 tons per day, for smelting ores from the Snowshoe mine, Phoenix, and Rossland mines.

Mechanical feeders are being installed on the large lead furnace. This furnace has the distinction of smelting more ore and producing more bullion daily than any other lead furnace on the American continent. It makes as high as 98 tons of bullion in 24 hours and the refinery is producing as high as 75 tons of pure lead daily.

The Consolidated company has been reaching out and acquiring some of the best mines in East and West Kootenay, and within the past few weeks has been trying to secure another valuable property in the Boundary.

Last week another silver-lead property was added to its holdings when the company took a bond on the Alice mine, near Creston. This mine has been lying dormant for several years. The ore has little or no zinc in it and is said to make a splendid flux. The mine has been worked to a considerable extent, and a 50-ton concentrator was built some years ago. There is said to be considerable ore blocked out in the mine at the present time. It will be another feeder to the Consolidated company's smelter at Trail.

C. P. R. RUNS SUNDAY TRAINS TO PHOENIX

New Schedule Goes Into Effect Tomorrow

That the Canadian Pacific Railway company were considering the requests from Phoenix for an improved railway service was stated by the Pioneer some weeks ago. This is borne out in the new schedule which goes into effect on the C.P.R. tomorrow.

Commencing June 6, Phoenix and other points in the Boundary will be given a Sunday train, was the information given to the Pioneer by G. R. G. Bagnall of Nelson, the popular travelling passenger agent, when in the city on Wednesday. Although the details of the new schedule are not to hand as yet, the Sunday train will be the feature of the changes for the Boundary. The regular running schedule of the train to Nelson will only be slightly changed, leaving Phoenix at 1.25 p.m. daily and arriving at 5 p.m.

The Sunday train into the Boundary will be an experiment by the C.P.R. during the summer months, and if the traffic warrants it the service will no doubt be continued. The Sunday train will give local residents an opportunity of spending the week-end at Christena lake, which is becoming so popular this season.

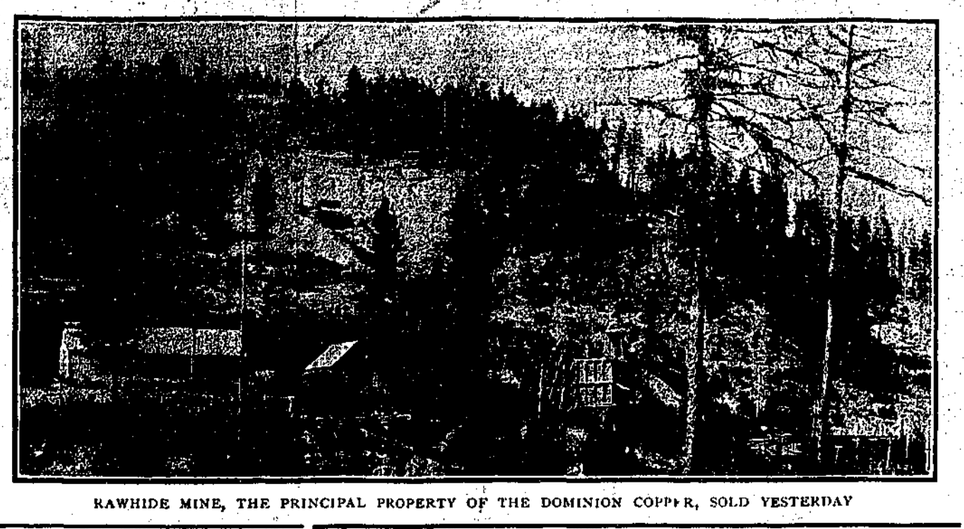
Rev. Mr. Strachan's Leaving

Rev. G. E. Strachan, who was appointed by the B.C. Methodist conference to Graham Island, preached a forceful farewell sermon in the Methodist church to a very large congregation. On Monday evening a farewell social was given in his honor, a large number of the adherents of the church being present to show their appreciation of his services during the past year.

Since the announcement of Rev. Mr. Strachan's removal the members and adherents of Phoenix Methodist church have petitioned very strongly to have him remain here. A. N. Powell of Nelson will represent the Methodist conference at a special meeting in the church next Monday evening, and it is quite possible that Mr. Strachan will be reappointed to Phoenix.

Six Months in Jail

Kobazebuz Uco, an Austrian, appeared before Judge Hood on Wednesday evening on a charge of vagrancy. A fine of $50 was imposed, or six months in jail. He was taken to Nelson jail yesterday.



RAWHIDE MINE, THE PRINCIPAL PROPERTY OF THE DOMINION COPPER, SOLD YESTERDAY

DOMINION COPPER MINES SOLD

Charles Hayden, New York, Buys Properties Intends to Operate

(Special to the Pioneer)

Vancouver, June 4—Charles Hayden, of New York, was the only and successful bidder this morning at the sale of the Dominion Copper properties at Phoenix, his bid being $261,500. Moses Weinman represented Hayden at the sale to-day. Hayden intends to operate the properties.

Vancouver, May 28—The properties of the Dominion Copper company at Phoenix and Boundary Falls were not disposed of this morning by Thos. Shirley at the board of trade rooms and an adjournment was made until Friday, June 3, when they will be again offered for sale.

The highest and only bid made for lot A, which comprises the plants of the Rawhide, Brooklyn, Stemwinder, Idaho and Mountain Rose mines, the stores of the Sunset mine, the smelter inventory, the smelter buildings, real estate, equipment, etc., was only $150,000. This bid was made by Moses Weinman, who appeared on behalf of the reorganization committee of the bondholders.

After patiently waiting for a quarter of an hour for a higher bid Mr. Shirley declared that there could be no sale and passed on to lot B, which consists of the supplies at the Phoenix mine. Mr. Weinman was again the only bidder. His offer was only $5000 and no sale was made.

Those present were Robertson & Whiteside, who appeared on behalf of the official liquidator; J. H. Senkler, representing the National Trust company; J. E. McAllister, manager of the B.C. Copper company, whose mines are located at Greenwood, and D. G. Robertson who appeared for a New York syndicate.

The liabilities of the company are in the neighborhood of $900,000.

Carney Copper Continues to Improve

A letter under date May 31st, from Mr. Miller, secretary Carney Copper Co. at Mullan, Idaho, says: "I enclose express receipt for box of ore samples, I took yesterday from the face of the drift on No. 1 tunnel level, which has now attained a vertical depth of 100 feet. Mr. Bran, (former president of Snowstorm mine), accompanied me. We have sent a sample to be assayed. The ore we had run a week ago, which went 6½ % copper, was not as good as that now being taken from the mine. Mr. Cole has now drifted on this ore chute 25 feet, and it has been getting better all the way. In the face there is a foot of fine ore like the samples and the quartz is giving way to ore as the drift advances. There is more or less ore all through the entire face of the drift." Mr Martin will be pleased to have all who are interested call at his office and inspect the samples.

E. E. Campbell Receives Promotion

E. E. Campbell, who was employed with the Dominion Copper company in Phoenix last year, but left a few weeks ago for the Ontario silver mining district, has recently been appointed to the position of general superintendent of the Everett-Cobalt Silver Mining company. The company have 800 acres of mining ground, and some 200 to 300 men men are employed to rush development to prove before the snow flies. His many friends will be pleased to learn of Mr. Campbell's important appointment.

Meacham Raab

A quiet wedding was celebrated in the city on Tuesday evening, June 1st, when Paul Meacham, of the Phoenix Steam Laundry, was united in marriage to Miss Kate Raab. The ceremony was performed by Rev. Mr. McKee, of Greenwood, in the presence of intimate friends of the contracting parties.

MINERS' WAGES

In response to a message re the unpaid wages of Dominion Copper miners, the PIONEER received the following wire from Chas. Hayden, New York, Chairman of the reorganization Committee of the New Dominion Copper company:

"I consider workmen's wages the most sacred of all debts and prior to everything else, and should certainly consider that they should be paid in cash in full.

"CHAS. HAYDEN."

MINERS' UNION BUYS CEMETERY LOTS

Money Will be Spent in Improvements and Beautifying City Cemetery

The city council held its regular session in the city hall on Wednesday evening, Aldermen Marshall, Hillier Deane, McKenzie and Rogers being present.

In the absence of Mayor Rumberger Alderman James Marshall was appointed acting mayor, on motion of Aldermen Hillier and Deane.

A communication from the Western Firemen's association requested the council to send a delegate to the annual convention in Edmonton. The C.P.R. wrote re agreement for the installation of a hydrant near the C.P.R. depot. Dr. J. D. McLean made application for the position of city medical health officer.

Messrs. R. Silverthorn and H. Reed appeared before the council on behalf of Phoenix Miners' Union re the purchasing of lots in the city cemetery. On motion of Aldermen Rogers and Hillier the Miners' Union is allowed to purchase blocks 6 and 7, 20 lots in block 25, and 20 lots in block 26, at the Standard rate. It is intended that the money paid by the Union for these lots will be spent in building a road through and generally improving the cemetery.

The following accounts were passed: B. C. Telephone, $11.00; Phoenix Pioneer, $3.40; H Hartley, $1.00; D. McDougall, $4.00; B. C. Gazette, $5.00.

Mrs. Robert Fraser left Wednesday on a visit to her former home in Nova Scotia.

THIEVES OPERATE THROUGH STORM

Get Away With Suits and Shoes

During the severe electric storm on Tuesday evening the store of P. W. George was entered by thieves who carried off four suits of clothes and a supply of shoes. Entrance had been gained by breaking a rear window and the burglary was committed before 11 p.m. One suit was taken from the large window in the front of the store where a light was burning.

The same night Birnie's hardware store was entered. As nothing in particular is missing it is thought the burglars were endeavoring to get into Brown's clothing store, immediately above the hardware.

Sneak thieves have been operating very successfully in Phoenix during the past two weeks, the store-house of the Hunter-Kendrick company having been entered, and no less than a dozen clothes lines have been stripped. Although the local police have secured several clues, no arrests have been made. It is believed the thieves have decamped.

Alberta Locators Lots

Some weeks ago the Pioneer commented on certain Calgary lots being offered for sale without a satisfactory title being furnished. The Pioneer wishes to state, in fairness to the Alberta Locators, that the article in question had no reference to the lots which they were selling. The Alberta Locators, on the contrary, appear to be a highly reliable firm and are offering lots with titles clear and satisfactory.

Boundary Ore Shipments

The ore shipments from Boundary mines for the past week and year to date follows:

	Week	Year

Grand Forks Flooded

The heavy rains of the past week caused such a flow in the Kettle river as to overrun its banks, and much property in Grand Forks city is under water. The water in the river is higher than it has been for many years.

CONSIDER REMOVAL OF PUBLIC SCHOOL

Granby Co. Gives Three Lots for Site

The present location of Phoenix public school is so close to one of the ore crushers of the Granby mines that the noise from the crusher has greatly interfered with the work of the teachers. The increased attendance of pupils has also made the enlargement of the building a matter of immediate necessity.

In response to communications with the government re the removal of the school building to a more suitable location in the city, Inspector of Nelson represented the educational department at a joint meeting of the city council and school board on Tuesday evening.

O. B. Smith, superintendent of Granby mines, who was present to represent the company, was voted chairman of the meeting.

The conditions requiring the removal of the school building, together with the plans for enlargement and probable cost, were dealt with in detail.

Mr. Smith, for the Granby company, offered to give three lots on Victoria avenue for the location of the school and grounds. The school board considered this offer a highly satisfactory one. The total estimated cost for removal and enlarging of the school will be some $5,000.

Inspector Deane was furnished with several views showing the proximity of the present school to the crusher and other details of the proposed change and will lay the matter before the educational department.

Local Option League

Daniel Spencer, superintendent of the Local Option League of British Columbia, gave an open air address from the Methodist church platform on Thursday evening. Mr. Spencer is touring the province for the purpose of arousing interest for the local option cause and organizes leagues at each of the important points. At present there is no law on the provincial statutes providing for the taking of a local option vote, and the objects of the local option league are to secure such legislation, and put same into effect when obtained.

Balmoral Hotel Changes

E. P. Shea, who recently secured a lease of the Balmoral hotel, has purchased the stock of J. A. McMaster, and will take possession on Monday. Mr. McMaster will resume the management of the Union hotel at Eholt.

ADJOURNMENT OF FORECLOSURE SALE

Of Dominion Copper Requested by Protective Committee

(U. S. Investor, N. Y.)

That there will be no Untermeyerization of Dominion Copper appears to be a matter of doubt. The sale of the property under foreclosure on account of default on the $800,000 on bonds outstanding was to have occurred on Friday. An effort was made to have it adjourned, however, on account of representations made by local attorneys for the Protective Committee, to the effect that if given a very small amount of additional time they will have enlisted the support of practically all of the shareholders and a large proportion of bondholders, and that they will hence be in a position to bid on the property and both creditors and security holders will be greatly benefitted thereby.

It is understood that the Protective Committee of Dominion Copper bond and shareholders through local counsel retained in Vancouver, British Columbia, have presented a strong case in their request for an adjournment of the sale.

A very large proportion of all the outstanding stock of the company has been deposited under the Protective Committee's plan with the agreement to pay an assessment of $1 per share, and a considerable amount of the bonds of the company have also been deposited with the Protective Committee. In view of these facts it is understood that, if a sale has taken place, before confirmation of this sale an injunction and appeal will be asked for, in view of the fact that the purchase of the property by the Protective Committee, which would be possible in a comparatively short time, would be to the best interest of all security holders and creditors of the company.

The deposits of both bonds and stock under the announced plan of the Dominion Copper Protective Committee have exceeded the expectations of all the friends of the plan, and have dismayed the managers of the rival Reorganization Committee.

During the past week or ten days, both in the office of the Protective Committee and at the Empire Trust Co., the designated depository, there has literally and actually been an avalanche of deposits. The issuing of regular receipts had to be abandoned and temporary receipts issued instead. The Trust Company is now several days behind in issuing receipts and it is, of course, impossible to approximately estimate the amount of deposits which have been received.

The Protective Committee originally had the

CO-OPERATION OF 300,000 SHARES

out of a total of 500,000 shares of stock outstanding, and it is known that over 100,000 shares of stock, which had not heretofore co-operated with the Protective Committee have come in since the announcement of the Protective Committee plan. Of the $800,000 of bonds outstanding the deposit of $500,000 was claimed by the Reorganization Committee. It is understood that the Protective Committee has on deposit about $200,000 of the bonds and that this amount will be largely increased, when the final figures can be made, there is no question, on account of the large number of orders received by the committee from bondholders who have heretofore deposited their stock with the Reorganization Committee, authorizing the recall of their bonds from that committee in order that they may be deposited with the Protective Committee.

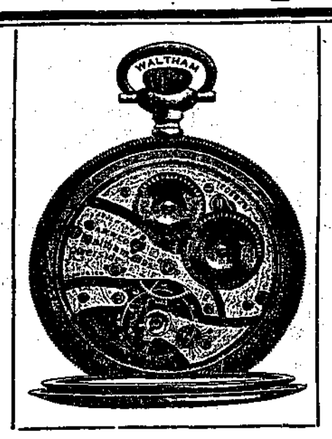
It appears that the Protective Committee's plan, which was most unique in its general idea of reinstatement of all security holders upon an eminently equitable basis, has aroused the most enthusiastic co-operation of security holders, and that the disinterested investors in Dominion Copper, who had in desperation and on their belief that the plan of the Reorganization Committee was the only one available, deposited their securities with the latter body, are to a very large extent

NOW DEMANDING THE RETURN

of their securities from the Hayden, Stone & Co. committee in order to deposit them with the Protective Committee.

There, of course, has been considerable hesitation on their part because of the statement of the Reorganization Committee, that it had on deposit a majority of the bonds and would buy in the property in any event, and that the people who did not co-operate with them would simply be left out in the cold. When it is generally known what the amount of deposits of the Protective Committee are, and that this committee has received deposits and pledges of several hundred thousand dollars in cash, and that there is every likelihood that this committee will be the final purchaser of the property, it is generally believed that there will be a stampede on the part of security holders who have deposited their bonds and stock with the Reorganization Committee.

Watch Repairs



NOW is the time to get your Watch put in first-class shape. We carry a complete line of genuine material for all makes of Watches, made by the factory that made the Watch, and have a complete outfit of tools to execute all repairs. Charges reasonable; also, we have a complete stock of Watches always on hand—all grades and prices. . . . . .

An Optimistic Stock Market

With the gradual betterment of industrial conditions,—a betterment more obvious during the last half of May than at any time since the panic of nineteen months ago, with the decision of the Supreme Court showing the great coal railroads a way out of perplexity, and with the promise of fair crops for this year, there has come a remarkable rise in the price of securities on the New York market. The average price of twenty leading railroad stocks had risen by the Middle of May to $126.13 per share, within measurable distance of the highest figure of 1907, which was $131.85. The marvelous gain in confidence, since the panic is shown by the fact that these same representative railroad stocks sold on November 21, 1907, at an average price of $81.41 per share.

The shares of industrial companies show an even larger percentage of gain over panic times. The twelve leading "industrials" quoted on the Exchange sold on November 21, 1907, at an average price of $53, as against a high price in that year of $96.37. By May 8 last the figure had risen to $91.56 per share. In other words, our stock market prices have risen to figures very near the highest known to this generation. Such a rapid and complete recovery after a great panic with world-wide unsettlement and industrial depression, is very remarkable. As we go to press signs are multiplying that the stock market has again proved itself an accurate prophet of industrial happenings. The General Electric company says its business for this year will be the largest in its history; the stock of unused copper is apparently the smallest carried at any time in two years: the railroads are giving larger orders for cars and steel rails; the prices of steel products which broke so badly less than two months ago are already stiffening up, and the still plants are working at more than 70 per cent of their capacity; railway reports show gains on gross earnings from 5 to 25 per cent. over the corresponding months of last year, and net earnings, in many cases, of even greater betterment; bank clearings throughout the country show a very great increase indeed; and Western grain-raising States have made a good spring for plowing, and ample moisture. In the fact of these cheering industrial prospects, money remains exceedingly cheap, with demand loans at less than 3 per cent. for sixty days; so that there is the fairest opportunity for expansion.—**American Review of Reviews for June.**

B. C. MINING

A whole carload of St. Eugene ore has been shipped to the Seattle exposition.

The owners of the Red Cliff copper-gold group on Portland Canal will expend about $25,000 in development work this summer and have already sent a small force of miners to the property.

The report is current that the coal miners at Ladysmith, Union, Wellington and Cumberland on Vancouver Island may join in the strike in sympathy with the striking miners of the Nicola district.

The tailings from the St. Eugene concentrator at Moyie are being utilized by the C.P.R. for ballast. Some 400 tons per day is carried off in the the mill flume, and the tailings are said to be the finest ballast.

The latest strike on the Golden Belle mine at Sheep Creek has shown an assayed value from a large sample of $10.25 per ton. The Kootenay Belle mill and mine at this camp is again under operation by J. L. Warner and his associates.

The Alice mine near Creston has been bonded by its owners, an English company represented there by T. G. Proctor to R. H. Ley and Charles E Sherwin of Riondel. The property has been worked for some years by its present owners and was previously held by John Hampson.

Harry Small Dead

The announcement of the death of Henry Albert Small at Revelstoke on Saturday, one of the best known commercial travellers in the province, was received with general regret by his many friends. Known from coast to coast, having been connected with the Dominion Commercial Travellers association for 35 years, his memory will be cherished for his genial characteristics among all who knew him. He was 66 years of age and for the past few years had been the Kootenay representative of W. J. McMillan & Co.

A Fugitive from Justice

John Carlquist, a saloonman of Cobleman, is a fugitive from justice with murder on his soul, according to the Creston Review, which states that Carlquist was accused by a boarder of being rolled. Carlquist, it is stated, shot the man and dragged his body to a nearby saloon. The act was witnessed and the alleged murderer fled.

Quarter Million for Timber

A deal involving $250,000 was put through Monday by which C. D. McRae of Calgary, a well known timber king, transferred his 63 timber limits up the North Thompson river to a syndicate of Toronto men whose names are withheld for the present.

PROVINCIAL.

Robert Hollaway, a Kamloops pioneer, is dead.

The Imperial bank has opened a branch at Moyie.

The sale of Prince Rupert lots aggregated over $,100,000.

The C.P.R. will improve its road between Rossland and Smelter Junction.

The home of Dispatcher D. Moore, Cranbrook, was gutted by fire on Sunday.

Sturgeon 9 feet long and weighing 350 pounds have been caught in the Kootenay river.

Work has commenced on street improvements in Fernie to cost the city $10,000 this year.

A Royal Humane Society's medal has been awarded Lionel Sharp, of Vancouver, for saving a boy's life on April 15th.

A picnic party near Rossland on Victoria Day, numbering the unlucky thirteen, were chased from their rendezvous by two bruins.

Col. Robert Stevenson of Princeton was separated from $40 in cash and $550 in negotiable paper by a pickpocket in Seattle last week.

A Rossland woman has been in court with nine different charges against her for stealing flowers from residences and the cemetery.

The summer service of the C. P. R. will start June 6, when the trains leaving Montreal in the morning and stopping at Calgary, will run to Vancouver.

An educational institution to be known as Bishop Latimer college is to be opened in Vancouver by the evangelical branch of the Anglican church.

Plans are in preparation for the construction of a railway from the shore of Kootenay lake, at the end of Dewdney trail, up to the Bayonne mine, some 21 miles.

The grand jury at New Westminster suggested to Mr. Justice Irving the advisability of some kind of legislation whereby barristers would be prevented from charging excessive fees to clients.

George Walker, who was sentenced at Vancouver last October to several years' imprisonment for counselling in an illegal operation, has been freed from the New Westminster penitentiary and has married Mrs. W. H. Burns, a nurse of Victoria, to whom he was engaged at the time of the trial.

One of the biggest contracts signed up so far this year for apples for fall delivery is for 2000 boxes to be shipped by Henry Hartman to a Minneapolis firm. He is to receive $2.50 a box. The indications are that this fall will see the biggest prices for apples ever received.—Princeton Star.

Through a hitherto unknown pass in the valley of Squamish river, a railway grade of 1.6 per cent. has been discovered, surveyed and located. This low grade is the maximum existing from tidewater on Howe Sound to the town of Lillooet, a distance of 124 miles.

The Grand Trunk Pacific pack train with fifty horses, loaded wtth provisions and general supplies, left Kamloops on Tuesday by the North Thompson wagon road en route to Tete Jaune Cache. The supplies are intended tor the use of the survey parties now engaged in locating a line on the east side of the valley.

BOUNDARY & KOOTENAY 1909 ORE RECORD

Shipments and Smelter Receipts For Year to Date.

Ore shipments from the various mines of Boundary and Kootenay, and the receipts of ore at the smelters of Southeastern British Columbia for last week and for 1909 to date are as follows:

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds *himself* regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

NOTICE.

NOTICE IS HEREBY GIVEN that thirty days after date I intend to apply to the Superintendent of Provincial Police, Victoria, B.C., for a hotel licence for the Union hotel at Eholt, B C.

JOHN A. McMASTER.

Eholt, May 1st, 1909.

NOTICE

Notice is hereby given that, thirty days after date, I, Joseph J. Bassett, of Hartford Junction, B.C., intend to apply to the Superintendent of provincial police, F S. Hussey, of Victoria, for the renewal of a retail liquor license for the Hartford Hotel, at Hartford Junction, B C.

Joseph J. Bassett.

Hartford Junction, B C., May 15, 1909.

NOTICE

NOTICE IS HEREBY GIVEN that the Vancouver, Victoria and Eastern Railway and Navigation Company have deposited in the office of the Registrar of Titles for the District of Yale, at Kamloops, a plan, profile and book of reference showing the proposed location of a branch of the line of their railway to connect the main line with the International Boundary, near Myncaster, on Lot 470 and that it is the intention of the Vancouver, Victoria and Eastern Railway and Navigation Company to apply to the Board of Railway Commissioners for Canada, at Ottawa, under Section 222 of the Railway Act, four weeks after the first publication of this notice for the necessary authorization under the provisions of the Railway Act, for the construction of such branch line of railway in accordance with the plan, profile and book of reference so filed.

Dated this 11th day of May, 1909.

A. H. MACNEILL,
Solicitor for the Vancouver, Victoria and Eastern Railway and Navigation Company

This advertisement was first published in the Phoenix Pioneer on the 15th day of May, 1909.

DR. PRICE'S Cream Baking Powder

Made from cream of tartar derived solely from grapes, the most delicious and healthful of all fruit acids.

THE JOURNEY TO NECHACO VALLEY

Interesting Facts Concerning the Trip to the Norhern Interior

A correspondent of the Victoria Times, writing from Fraser lake, says:

A trip to the Nechaco made at any time of the year with a load is not an easy one. It is especially hard during the spring months, when the roads are good for neither sleigh or wagon, and no feed along the way. The writer, accompanied by his wife, left Ashcroft en route on March 3. It took us 32 days of hard travelling to make Fraser lake, 380 miles from Ashcroft. We shall not soon forget some of the experiences. A short account may prove instructive to readers and profitable to some intending settlers.

The first thing of importance for such a journey is the selection of a team of horses. The long hills, steep pitches and mud holes will wear out any team that is not of the best. Here we made our first mistake. We had a good team, but not one suitable for such a long journey. They were not well matched. One horse, high-strung, pulled three-quarters of the load the first half of the way. The other horse, slow and easy going, pulled nearly all the load and the other horse the latter part of the way, for we had to finish the trip with one horse. A team that can be depended upon to pull steadily all that they are able, and at times a little more, is an absolute necessity. We have several nerve-racking memories of getting stuck on pitches none too wide, with a precipice on the lower side. Having to unload or back down such a grade is not an easy nor a pleasant job The wrecks of old wagons and in one or two places the bleached bones of horses did not tend to soothe our nerves.

Again, every wagon for the Cariboo road should be fitted with brake and chock block. Of course, one can tie a wheel going down a steep hill, but it is a nuisance. And there are long grades, where a brake is a great help to the horses. Going up the steep hill it means a great deal of work to keep a block always at hand—our narrowest escape from disaster on the whole trip was in not having such a block that would work automatically.

As regards the load, only what is absolutely necessary should be taken. If the settler does not leave unnecessary things at home he is certain to leave them by the way. For the average team, unused to such work, a ton is load enough as far as Quesnel. Any weight is too much from Quesnel to Fraser lake. The writer is aware of the fact that the freighters take an average of two tons per team from Ashcroft to Quesnel. But they have things down to a science. They have excellent horses, used to the work. They always use a double wagon with four or six horses on the long hills and bad roads; they drop one wagon and put all their horses on the other. They have everything fitted up for safety and convenience.

Probably most settlers plan to camp out along the way, as it comes rather high to stop at the roadhouses At any rate during the trip from Quesnel to Fraser lake he will have to camp out whether he plans it or not, as there are no roadhouses. This is pleasant in warm weather, if the flies are not too bad, which they are sure to be if the weather is warm. We camped out every night except one. There are pleasanter things than camping out along the Cariboo road in March, with the thermometer near zero.

Quesnel is a divisional point for such places as Bakerville, and the Nechaco. It was also the divisional point for our load, as we had to leave the greater part of it in care of the Hudson's Bay company. We had yet 160 miles to go. We were given the comforting assurance that the hills—and there were many of them—were bare, while much of the level road had two feet of snow. It was fit neither for a wagon or sleigh. However, we started with both.

Fortunately, coming in with the sleigh we found the lakes in excellent condition. They gave us 35 miles of splendid sleighing. The rest of the journey was made over good, bad and indifferent roads—one day making 20 miles and the next only two. We completed the trip from Quesnel to Fraser lake in fifteen days.

The first impressions of the Nechaco are disappointing—extremely so if one has read and believed half what has been written by land speculators. A large part of the country is mountainous and hilly. Large stretches of the level land are covered with a heavy growth of jack pine and poplar—which, to say the least, is not easy to clear. The open areas are practically all taken up and held vacant by the speculator, the greatest drawback to the country. They have greatly misrepresented the country. The climate is not a part of an earthly paradise. There are several degrees of frost every night. This is April 26 and not an unusually late spring.

Living is so high as to almost prohibit the settler bringing in his family. Compare these prices with those obtaining outside: Flour, $7 per sack, sugar, 20c. pound, potatoes, 4c., butter 75c, oats 6c., etc. The smaller things are ever higher comparatively. These prices are not excessive as the transportation rates make them necessary. Nor can one depend on game to keep the cupboard full. Of large game there is practically none. Ducks, geese and grouse are fairly plentiful, but are very wild on account of being hunted at all times by the Indians. Fish are said to be plentiful during certain seasons.

And worst of all, land is scarce. It might almost be said there is none to be had. After what is held by the land speculators, the residents and the mountains, very little is left and that little is back from the beaten trails and lakes. However, with the aid of an old resident and a location fee, some fairly good quarter sections can still be found. Some one is sure to ask: "What about those large pre-emption reserves for the pre-empter?" A conservative estimate would be that not more than 2% of the land reserved by the government will ever be settled. At least half of that is already taken up. The 98% is mountainous. The reserves could not have been put on in worse places. The foregoing is a statement of facts not given in any knocking spirit, but largely for the information of the intending settler.

On the other hand a great deal could be said in favor of the country. The soil is good—there is no better in Canada. It is capable of producing enormous crops. The long days in the summer make up for the shortness of it. The growth is very rapid. Fruit has never been tried, but if it proves a good fruit country land will be valuable. In fact it needs only a railway and a market to make the Nechaco a prosperous, if not indeed, a wealthy country. For the one our hopes lie in the Grand Trunk Pacific; for the other we look to Prince Rupert.

NOTICE.

In the matter of the Land Registry Act in the matter of the Titles to part (50 by 90 feet) of Lots 7, 8 and 9, Block 18 (Map 60), Old Ironsides subdivision, Town of Phoenix.

NOTICE IS HEREBY GIVEN that duplicate certificates of title to the above hereditaments will be issued at the expiration of one month from the date of the first publication hereof, unless in the meantime valid objection to the contrary is made to me in writing.

W. H. EDMONDS,
District Registrar

Land Registry Office,
Kamloops, B.C.,
May 27th, 1909.

MAY COPPER SALES EXCEED PRODUCTION

Bright Prospects For Advancing Market

Sales of copper for the month of May are reported from New York to be greater than those of any month during the past two years. Based upon figures for the first half of May it is estimated that the month's sales will total 125,000,000 pounds. If that prove correct May sales will be considerably in excess of the month's production. The production for last month (April) was 113,574,292 pounds with deliveries of 112,656,121 pounds a production excess of about one million pounds. With May sales running ahead of production, surplus stocks will be called upon to make good the deficiency—which may be interpreted as auguring favorably for the future of the copper metal market.

Earl Grey to Visit Kootenay

S. E. Oliver has been at the head waters of Toby creek, East Kootenay, preparing the camping ground for Earl Grey and his party next September. The governor-general will spend the month fishing and hunting.

The Bell Trading Co., a Nelson grocery, was recently systematically robbed. On Monday Constable Young produced the alleged thief, a former employee named Grant, aged 18. Young hid himself in the store and caught Grant.

PILES FOR FOUR YEARS

Only those who suffer from Piles can know the agony, the burning, throbbing, shooting, stabbing pains which the ailment causes, and the way it wrecks the sufferer's life.

Zam-Buk is blessed by thousands who used to suffer from piles, but whom it has cured. One such grateful person is Mrs. Elizabeth Taylor, of Greenwood Avenue, Toronto. She says:—"For four long years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'remedies' and doctor's prescriptions but got no ease. Zam-Buk was different to everything else I had tried, and it cured me I am grateful for the cure, and as I have never had piles once since, I know the cure is permanent."

Another thankful woman is Mrs. E. A. Gardiner, of Catalina, Trinity Bay. She says:—"In my case Zam-Buk effected a wonderful cure. For twelve years I had been troubled with blind, bleeding, and protruding piles I had been using various kinds of ointments, etc, but never came across anything to do me good until I tried Zam-Buk, which cured me. That this may be the means of helping some sufferers from piles to try Zam-Buk, is the wish of one who has found great relief."

Zam-Buk is a purely herbal balm and should be in every home. Cures cuts, burns, bruises, eczema, ulcers, blood-poisoning, prairie itch, sunburn, blisters, sore feet, summer sores, and all diseases and injuries of the skin, etc. All drugeists and stores at 50c. box, or from Zam-Buk Co., Toronto, for price.

The Fair at Seattle

Beginning in 1905 with a plan to spend $100,000 for an "Alaska Fair," the exposition that opens at Seattle on June 1, 1909, speedily expanded into a "World's Fair," costing $1,000,00, and displaying $50,000,000 worth of exhibits. This is typical of the way things grow in the Pacific Northwest. It is one of the reasons why the Alaska-Yukon Pacific Exposition was worth building and will be worth seeing. It shows what is new, what is undeveloped. Other expositions have aimed to exhibit accomplishment; the Alaska-Yukon Pacific, on the other hand, is an eye-opener to opportunity and potentiality ready for development. —Review of Reviews.

Buster's Philosophy.—LXXII.

Resolved, that I want to beg parents not to beat their children—because it hurts parents worse than it does the children. Yes it does, because when parents lose their tempers and get angry it makes them sick and it poisons their systems. If you forgive the little fellow you will teach him how to forgive. Anybody can be brutal but only great and good people can forgive. Love begets love. If you love your child he will love you. When people strike their children they are cowards. Well, thank goodness, the world is growing better, people are learning the power of love. If I ever beat anything it wont be a child, I will beat the band. I'd rather beat my hotel or my butcher than a child.

Mrs. Thomas Sheppard and her brother-in-law, Emmett Bolden, both of Bellingham, canvassers for a photographing concern, were drowned in the Fraser river, near Chilliwack, on Saturday.

ONE OF THE HAPPY HOMES IN CANADA WHERE PE-RU-NA IS USED IN THE FAMILY.

A Great Many Mothers Have Discovered That a Few Doses of Peruna Given at The Right Time Prevent Much Sickness.

The fatality of acute diseases during hot weather among children, is well-known to the medical profession. From year to year the average practicing physician changes his tactics and his remedies. One year the physician uses certain remedies with confidence and enthusiasm. The next year he is liable to adopt new remedies. But through all the changing vicissitudes of the medical profession in their treatment of infantile ailments, Dr. Hartman has clung with unwavering confidence to Peruna. Thus it is that Peruna has become a household word in many thousand families. In catarrhal derangements of the bowels resulting in summer complaint, diarrhoea and sometimes cholera infantum, a few doses of Peruna given in the early stages check the disease before it has reached a threatening severity. Many mothers, from Canada to Mexico, give cheerful testimony to the benefit of Peruna in the many catarrhal ailments to which the family is liable, both summer and winter.

MY DOLLY IS WELL TOO.

MRS. ETTA BOOMER AND DAUGHTER

Mrs. Etta Booker, Dundurn, Sask., N. W. T., Can., writes: "I suffered with internal catarrh until I wrote to Dr. Hartman, and after taking treatment as he advised I can say I am now cured of this most trying affliction, for which I am truly thankful. I think Peruna the best medicine for catarrh. I never felt better in my life than I do at present."

In a later letter Mrs. Booker says: "I can truthfully say from experience Peruna is a most wonderful medicine, and in the case of my little daughter, Elsie Booker, it did all I could wish for, and I am entirely willing that you may publish a testimonial in regard to her cure."

Ailing Children.

Mrs. Schopfer, 5920 Prescott Ave., St. Louis, Mo., writes:

"In the early part of last year I wrote to you for advice for my daughter Alice, four years of age. She was a *puny, sickly, ailing child* since she was born. She had convulsions and catarrhal fevers.

"I was always doctoring until we commenced to use Peruna. She *grew strong and well.*

"Peruna is a wonderful tonic; the best medicine I have ever used.

"I was in a very wretched condition when I commenced to take Peruna. I had catarrh all through my whole body, but thank God, your medicine set me all right. I would not have any other medicine.

"*Peruna cured my baby boy* of a very bad spell of cold and fever. He is a big, healthy boy fifteen months old. I have given him Peruna off and on since he was born. I think that is why he is so well.

"I cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it."

Child Now Healthy.

Mrs. G. W. Heard, of Howth, Texas, writes to Dr. Hartman in regard to her baby girl, Ruby:

"My little girl was two years old this January. She had some *derangement of the bowels.* She was a mere skeleton, and we did not think she would ever get well.

"She had been sick three or four months, and after giving her less than one bottle of Peruna she was sound and well.

"I found the Peruna splendid for *wind colic,* with which she was troubled when she *began to improve in strength and appetite.*

Now she has a good appetite and is a picture of health."

Baby With Indigestion.

Mrs. J. M. Brown, Dunnegan, Mo., writes:

"My little daughter, three years old, was troubled with a very bad cough, which remained after an attack of catarrhal fever, which was a great deal worse at night. She would wake up out of her sleep and cough until I feared she could not stand it. Nothing that we gave her seemed to do her any good.

"I then concluded to send for Dr. Hartman's book, entitled 'The Ills of Life,' which I promptly received. I at the same time commenced giving her Peruna. She has taken one bottle in all, through which she has obtained a complete cure.

"She also since her birth was *troubled with indigestion,* but since she has taken Peruna she can eat almost any kind of food without any bad results.

"*She is now as well and happy* as any little girl can be. When our friends say how well she looks, I tell them Peruna did it. I shall always be a friend of Peruna, as I consider it the best medicine for coughs and indigestion we have ever tried, and will recommend it to any one similarly afflicted."

Child Benefited by Pe-ru-na.

Mrs. Fritz Roethe, Pinckneyville, Ill., writes:

"I feel real well, and am glad I am able to say this. One of my children had a *fever for five months,* nothing would help him. The doctor said it was malarial fever, but his medicine did not help him at all.

"I then gave him Peruna, and it helped him immediately, and so far he has not had another attack of it.

"When I wrote to Dr. Hartman I was unable to do my housework, now I am entirely relieved."
