The Phoenix Pioneer

AND BOUNDARY MINING JOURNAL.

TENTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, JUNE 12, 1909 No. 29

B. C. COPPER CO.'S RECORD APRIL RUN

Said to Have Laid Copper in New York at Lowest Figure

News comes from the head office in New York that the British Columbia Copper company was able to lay its copper down in New York during the month of April at the lowest cost which it has thus far reached, namely, 7.963 cents per pound. The lowest cost reported prior to this was 9.999 cents. The net profits for April were reported $32,813 on a production of 659,959 pounds of copper.

The British Columbia Copper company has not yet reached the stage where it is entirely independent of fuel and labor troubles, and since May 5 the properties of the company have not been able to operate on account of lack of fuel for the smelter, occasioned by the coal miners' strike in Eastern British Columbia.

Although a concilliation board has been at work endeavoring to secure a settlement of the strike troubles such a point has not yet been reached, so the resumption of operations at the British Columbia Copper properties is at least a month distant.

Martin-Vincent

A quiet wedding was solemnized by Rev. J. T. Ferguson at St. Paul's manse, Nelson, on Wednesday, June 9, when Marcus Martin of Moyie, formerly of Phoenix, was married to Mrs. Margaret Vincent, sister of Mrs. D. Martin of Phoenix. The newly married couple will reside at Moyie.

Boundary Side Lights

Great growth has resulted on ranches in the valleys as a result of the recent rains.

Born—In Greenwood, on Sunday, June 6, to Rev. F. J. and Mrs. Rutherford, a daughter.

The survey party working for the C.P.R. on Boundary creek has been moved to Arrow lake.

Mrs. W. B. Fleming is a delegate from Greenwood Rebekah lodge to the grand lodge at Vancover.

A marriage license has been issued to J. C. Castleman and Miss Lilian Burkmar of Boundary Falls.

Neil R. Morrison and Miss Christena McMillan, former ressdents of Greenwood, were married in Toronto on May 26.

W. Elson and A. E. Braithwaite are representatives from Greenwood I.O.O.F. lodge at the meeting of the grand lodge in Vancouver this week.

The Kettle Valley railway, which runs up the West Fork, has secured right-of-way into the city of Spokane, and it is expected that construction of the line is a matter of the near future.

V. D. Curry, government lecturer, will give an address on irrigation at a meeting of the Farmers' Institute in Grand Forks next Monday. He will address meetings on the West Fork later.

On Tuesday a special C.P.R. train ran from Brilliant to Grand Forks carrying 100 Doukhobors to the land near the latter city lately purchased by Peter Veregin for his countrymen at a cost of $10,000.

George Heatherton, secretary of Greenwood Miners' union, has been appointed delegate from the union to the annual convention of the Western Federation of Miners to open in Denver, Colo., on July 12.

Boundary Valley lodge, No. 38, I.O.O.F., Greenwood, has elected the following officers: Noble grand, A. Logan; vice-grand, W. E. Spankie; recording secretary, S. Rowe; financial secretary, G. B. Taylor; treasurer, A. E. Braithwaite.

Twenty three pupils wrote on the Entrance examination in Greenwood last week, presided over by Inspector Deane of Nelson. Phoenix sent nine candidates; Greenwood, five; Midway, five; Eholt, two; Deadwood, one, and Ingraham, one.

SMELTER FUMES IN SUPREME COURT

Important Case to Fruitgrowers Heard at Rossland

A lawsuit of considerable importance to fruitgrowers in all mining districts was heard in the supreme court at Rossland last week before Justice Martin. The plaintiff in this action, E. C. Smith, a fruitgrower at Trail, sued the Consolidated Mining and Smelting company for temporary and permanent damages to his fruit crop and fruit trees, alleged to have been caused by injurious flames issuing from the company's smelting works at Trail. A great array of expert witnesses for both sides was examined, among them being Professor French of Moscow, Idaho, for the plaintiff, and D. M. Robertson, nurseryman, New Westminster, for the defendent.

The case was enlarged for a day in order for his lordship to visit Crystal Springs ranch and observe conditions at close range. Judgment has been reserved.

L.O.T.M. Commander Here

Mrs. J. C. Kemp, deputy supreme commander of the L.O.T.M. for British Columbia, arrived in town Thursday on a visit to the local hive. Mrs. Kemp will be at home from two to five o'clock this (Saturday) afternoon at the Hotel Brooklyn to all present or former members of the local hive who wish to call. Mrs. Kemp came from Vancouver on a special visit to the hives at Revelstoke, Nelson, Trail, Rossland, Grand Forks, Greenwood and Phoenix and reports an increasing interest in the Maccabees order. She will leave for the coast again on Monday.

Mining Records

The following are the locations, certificates of work, bills of sale, etc., recorded at the office of the Grand Forks mining division for the past week:

CERTIFICATES OF WORK.

Sure Thing, Summit camp, G. R. Pierce; London Prize, McCrae Creek, Wilford et al.; Burlington fraction, Greenwood camp, Jackson et al.; Eureka No. 2, Wellington camp, Edwards et al.; Guston fraction, Wellington camp, Edwards et al.; Silver Moon fraction, Wellington camp, Thos. G. Edwards; Bell fraction, Greenwood camp, F. M. Kerby; Blazer, Greenwood camp, F. M. Kerby; Bow, Greenwood camp, F. M. Kerby; Boxer fraction, Greenwood camp, I. Kerby; Dreadnaught, Franklin camp, Thos. Livingstone for two years; Lockport, Summit camp, for three years, James F. Cunningham; May Day fraction, Wellington camp, Rumberger, et al.; Pacific fraction, Wellington camp, W. J. Porter; E. P. fraction, Brown's camp, Pringle et al; All Fraction, Burst Basin, Fred Kettner; Nero, Burst Basin, Fred Kettner; Togo, Burst Basin, Fred Kettner.

LOCATIONS

Black Eagle, Christena Lake, Wm. Rutledge; Emma, Paulson, Jno. Lepesh; Dempster fraction, Christena Lake, Henry I. Dempster; Balmoral fraction, Hardy mountain, Jno. A. MacMaster.

CONVEYANCES

All Ida, Brown's camp, Joe Pringle to I. Lindholm; All Lone Star fraction, Pathfinder camp, R. Lindholm to I. Lindholm.

CERTIFICATES OF IMPROVEMENNS

Monarch fraction, Greenwood camp, the Granby Consolidated.

Clothesline Thieves Caught

The police last night gathered in three Austrians, suspected of petty thieving and stripping clothes lines. Whole stores of supplies were found in their cabin near the C.P.R. depot.

Newman Brothers, the convicted bandits of the Bridesville hold-up, left Greenwood Friday in charge of a constable for the New Westminster penitentiary.

Notes of the City

Presented With Locket

Rev. George E. Strachan, who has been pastor of the Methodist church in Phoenix for the past year, left Thursday for Graham Island, one of the Queen Charlotte islands, where he has been sent by the Methodist conference. On Tuesday evening Mr. Strachan was made the recipient of a gold locket with the three-link emblem by Snowshoe lodge, No. 46, I.O.O F., of which he is a member. The presentation was made on behalf of the lodge by John McInnis, M.P.P., who in a neat speech referred to the loss the lodge would sustain in Mr. Strachan's departure, and asked him to accept the locket only as a momento from the members of the lodge who, individually, regretted his leaving. Mr. Strachan expressed in well-chosen words his appreciation of the locket, and said it would ever keep green the warm fellowship of the members of Snowshoe lodge. Mr. Strachan will reside at Skidegate, but will have five other appointments on Graham Island.

The King's Hotel

The King's hotel is the name which adorns E. P. Shea's new hostelry, and the pioneer names, the Balmoral and the Bellevue, pass from existence. The King's hotel is the Balmoral and the Bellevue joined and renovated throughout, the work of which will require a couple of weeks to complete. Mr. Shea is being assisted by W. R. Williams as manager and they purpose having one of the commercial headquarters of the Boundary when the work of refurnishing and refitting of the King's is completed.

Consider Methodist Church Appointment

Rev. R. Newton Powell, of Nelson, chairman of the Methodist district, and Rev. F. J. Rutherford of Greenwood attended a meeting of managing board and adherents of the Phoenix Methodist church here on Tuesday evening regarding the recent appointment of the conference depriving Phoenix of a resident Methodist minister. The present arrangement was allowed to stand with the understanding that a special appointment be made for the Phoenix church in the early fall.

Will Picnic at Newby Lake

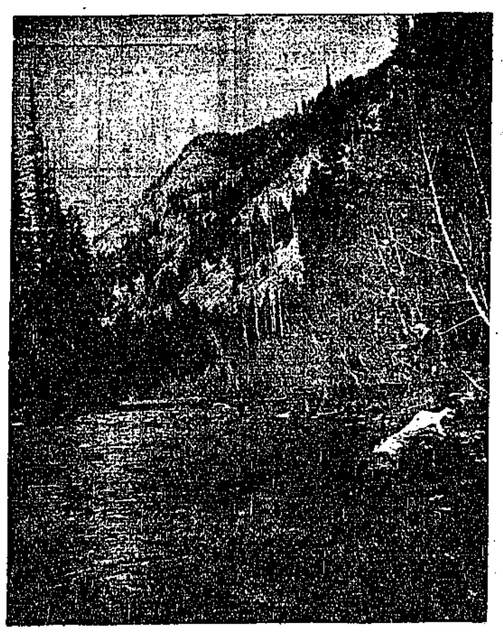
The second annual picnic of the Boundary lodges of the Scandinavian Aid and Fellowship Society of America will take place at Newby lake, Grand Forks, on Thursday and Friday, June 24 and 25. It is the intention to run excursion trains from Rossland, Midway and Phoenix to the lake where an attractive program of sports, etc., will be given. The success of the society's picnic at Rossland last year was such as to result in them making an annual event of their picnic gatherings.

Hackett Gets Third Interest

The superior court at Spokane has decided that Andrew Hackett, once a resident at Phoenix, is entitled to one third interest in the Carbon Hill Coal and Coke Co. on a judgment against that company for $100.000. Hackett was associated with George Scott and Henry Matthewson in acquisition of coal lands at Lethbridge; his partners afterwards formed a company and shut him out, and this judgment is result of his action to recover his share.

Knights of Pythias Officers

At the last meeting of the local lodge Knights of Pythias the following officers were elected for the ensuing term: Past Chancellor Commander, R. J. Gardner; chancellor commander, R. H. McCracken; vice-chancellor, W. X. Perkins; Prelate, Jas. Bateman; M. of W., R. J. Gardner; K.R.S, F. C. Graham; M. of F., S. Lundie; M. of E. G. Kay; M. at A., H. Reed; I.G., J. B. Appleby; O.G., Ed. Flannagan.



FISHERMEN'S HAUNTS, WEST FORK

REORGANIZING PLAN DOMINION COPPER

Property Transferred to New Dominion Copper Co.

The following is the proposed plan under which the reorganization committee of the Dominion Copper company are now working. The committee, which purchased the property at the foreclosure sale, will transfer it to the New Dominion Copper company which will issue the following securities: $500,000 of 6% ten year income bonds, convertible into stock a par, $5 per share; 250,000 shares of common stock of a par value of $5 per share. Present bondholders will take new stock for their bonds on the basis of 210 shares of new stock for each $1000 bond. This will absorb 168,000 shares of the new stock. Creditors will receive 20,000 shares of new stock in the proportion of 20 shares for each $100. Present stockholders upon turning in their present stock and subscribing at par for the new bonds on the basis of $100 of bonds for each $100 of present shares will receive in addition to the bonds subscribed for 10 shares of new stock for each 100 shares of present stock, this calling for 50,000 shares. Underwriters will receive 12,000 shares of the new stock which will account for the entire 250,000 shares.

As stated in the last issue of the Pioneer the properties of the Dominion Copper company were sold at Vancouver on the 4th inst. for $261,500, Charles Hayden of New York being the buyer. Mr. Hayden is chairman of the reorganization committee of the bondholders, who control $645,000 of the $800,000 issued by the former company. They intend to form the New Dominion Copper company and commence operations as soon as possible.

Before the bidding commened Mr. Thomas Shirley, the auctioneer in charge of the sale, stated that the reserve bid for lot A would be $250,000 and for lot B $10,500.

Lot A comprised the plants of the Rawhide, Brooklyn, Stemwinder, and Mountain Rose mines; the stores of the Sunset mine; the smelter inventory and the smelter buildings, real estate and equipment. Lot A comprised the supplies of the Phoenix mines.

Mr. M. Weinman, who appeared for Mr. Hayden, was the only bidder. He bid $251,500 for lot A and $10 500 for lot B.

Mining at Rossland

A contract has been let for the downward extension of the Le Roi No. 2 mine at Rossland from the 900 foot to the 1200 foot level. The dimensions of the tunnel will be 7 x 16. It is expected that the work will be done at the rate of about 75 feet a month. The shaft will be used not only to exploit the ledges in the Josie but also the Le Roi ledge which dips into the Annie territory from the Black Bear at the 1200 foot level.

A ledge two or three feet in width and which has been uncovered for a distance of about 300 feet has been reached on the War Eagle at Rossland. The ore is a heavy sulphide carrying gold and good values in copper.

Phoenix Orchestra Goes to the Lake

The fame of the excellent music furnished by the Phoenix orchestra for dances has been spreading, and has resulted in the orchestra being secured for an engagement at Christena lake, the occasion being a special complimentary ball to be given at the popular resort's pavilion this evening. The orchestra is headed by Fridolph Werner, pianist, with C. McKay, violin, A. Almstrom, clarinet, and G. Biner, trombone, forming a quartette. They will return tomorrow.

BOUNTIES FOR PESTS

Coyotes, Big Horned Owls, and Golden Eagles to be Exterminated

Notice is given in the B.C. Gazette that, beginning May, 1909, a bounty of $3 will be paid on every coyote killed within the province, on a certificate of a justice of the peace that such animal was killed by the person claiming the bounty, and that the skin of such animal was produced by him. The government agent, or other official paying the bounty, shall punch a hole in the left ear of the animal, the hole to be not less than one-quarter of an inch in diameter; and any such hole in any ear of any skin shall disqualify any such skin from the bounty.

Notice is also given that from May 1, 1909, a bounty of $2 will be paid for the destruction of each big-horned owl, and of $3 for the destruction of each golden eagle within the counties of Cariboo, Vale and Kootenay.

Both legs of each golden eagle, upon which bounty is claimed, must be produced intact to the provincial game warden, A. Bryan Williams, J.P. of Vancouver, by the person claiming the bounty.

Every person applying for bounty shall furnish the provincial game warden with an affidavit to the effect that the bird upon which the bounty is claimed was killed within either of the aforsaid counties.

Boundary Mining Notes

Thursday was the regular payday at the Granby, and Tuesday will be payday at the Snowshoe. About $45,000 is distributed among the employees of the mines.

A company will be formed to develop the Buster mineral claim on the West Fork. A lead 18 inches wide and 12 feet deep has been uncovered on the property.

Another machine has been put to work at the Snowshoe mine and the force slightly increased. The shipments of the past week, 2,950 tons, is the largest weekly tonnage from the mine this year.

The timbers are ready and preliminary work about completed for the tramway to be constructed on the south slope from the Phoenix Amalgamated. The tramway will convey the ore from the mine to the C.P.R. spur from Hartford Junction.

H. V. Fuller purposes running a tunnel to tap the vein of the Bay mine at depth. With the numerous proposed tunnels to be run to tap leads of highgrade properties at depth, the big hill will in time become riddled with bore holes.

Good reports come from the Rambler property on the West Fork. A vein has been struck the ore of which is said to assay some 980 ounces in silver. A force of men were put to work this week and it is the intention to ship several car loads of ore as soon as it can be got out.

Fred S. Peters, foreman of the LeRoi mine at Rossland, was in town for a few days this week, having a look through the Granby and Snowhoe. Mr. Peters is off on a holiday trip and is visiting the prominent mining camps, leaving here on Thursday for the Coeur d'Alenes. The resumption of operations at the LeRoi is looked for in the near future, and this would mean the blowing in of the smelter at Northport.

R. C. Raven, a prominent mining engineer representing English capital, was in camp yesterday making an examination of the Lucky Shot with a view to securing the property. Mr. Raven has just returned from the West Fork, where the company which he represents have taken a bond on the Bell claim and are now running a tunnel to develop the property. The company is already heavily interested in New Ontario mines and are now investigating prospects in the Boundary.

SILVER SHIPMENT TO THE ORIENT

Trail Smelter Sends $55,000 Worth to China.

Another large shipment of silver was made from the Consolidated company's smelter at Trail to Hong Kong, China, comprising fifty-four bars of the precious metal which averaged 1,1025 ounces in weight. These shipments from the Trail smelter have been going on at intervals for the past eight or nine months. The silver, which is of a very high quality, will be refined for the Hong Kong and Shanghai bank at Hong Kong. There was about $55,000 worth in the consignment sent this week.

The City Parliament

Acting-Mayor Marshall, Aldermen Deane, Hillier, McKenzie and Rogers were on hand at the regular session of the city council on Wednesday.

The city clerk was instructed to require the payment of all unpaid dog taxes forthwith, and prosecute any owner of canines neglecting to contribute to the city treasury.

The Board of Works were authorized to visit the cemetery and decide upon the improvements to be made, and call for tenders for the completion of the work.

George D. Turner was appointed auditor of the city books.

Local Boat Club

A boat club with headquarters at Christena lake is a probable organization among local enthusiasts of acquatic sports. O. B. Smith, W. S. Macy and L. Y. Birnie are the prime movers and have already secured a site at the lake, and a club house is in course of construction. Mr. Birnie was in Nelson this week and secured a gasoline launch and boats for the club.

Boundary Ore Shipments

The ore shipments from Boundary mines for the past week and year to date follows:

	Week	Year
Granby mines	19,970	429,561

A valuable suggestion has been put forth by R. W. Brock, head of the Canadian geological survey, toward an inventory of promising mineral claims. The idea is to have local centers, such as boards of trade, recording offices, local branches of the mining institute, etc., "at which a prospector could file a statement giving an exact description of the location of his claim, his address, dimentions of the ore body and character and value of the ore." These records would be sent to the Provincial Department of Mines and the Federal Department of Mines, so that those seeking mines or information regarding promising claims could readily obtain such data. The suggestion commends itself.

The re-organization committee, which purchased the Dominion Copper mines last week, announce that they will operate the properties as soon as practical. The resumption of operations at the Dominion Copper properties has occurred so often in the past that an announcement of the operating company being on a solid financial basis would be more welcome news. The reorganization committee has secured the Dominion properties for $261,500, and there appears to be no reason why the New Dominion Copper should not be able to operate the mines profitably.

Copper appears to be advancing on a solid foundation. More of the red metal was sold to domestic consumers last month than in any month since January, 1907. Every advance in copper is a boost for the Boundary, and with fifteen-cent copper probable in a couple of months, the outlook for business activity in Phoenix this fall is decidedly bright.

Although he has a desire to withdraw from the field of political activity forever, Sir Wilfrid Laurier is said to have acceded to the wishes of the Liberal party and will remain as their leader until after the next general election, which will take place in 1912.

The fine of $20 imposed on a local saloon-keeper for selling liquor on Sunday is an intimation from the city commissioners that the law of closed bars on Sundays must be recognized.

Twenty-nine divorces were granted in one day by the Spokane county supreme court. Uncle Sam's courts will soon be unmarrying people faster than his preachers can tie them up.

MINING ACTIVITY IN CROW'S NEST

Great Development Throughout District

E. Jacobs, of Victoria, returned Tuesday from a trip along the Crow's Nest railway as far as Taber, Alberta. He visited a number of coal mines and was shown through the St. Eugene concentrating mill at Moyie.

As few mines, other than those of the Crow's Nest Pass Coal company, were mining coal there was not general activity at the collieries. The Alberta Railway and Irrigation company is erecting a big steel tipple and installing heavy plant and machinery at No. 6, a new mine, situated about four miles from Lethbridge at which development of the coal seam was one lately commenced. The Diamond mine, distant by road about twelve miles from Lethbridge, is preparing for shipment of coal, to be commenced after the C.P.R. company's big steel trestle bridge over Belly river at Lethbridge shall be completed, about September next.

In the Blairmore Frank district the Canadian-American company was operating, but other coal mines in that district were idle, except at the West Canadian Collieries company's new mine near Blairmore where development work is in progress and shipping facilities are being provided.

At the Corbin mine, on the south fork of Michel, B.C. the entry is in a big mass of coal, up to 160 feet in thickness. The main tunnel is in 1,200 feet, and 300 tons of coal are being shipped daily.

The Crow's Nest Pass company is steadily preparing for a much increased output of Coal at both Michel and Coal creek collieries, the further development of the coal seams and additions to equipment being with this end in view.

The St. Eugene is producing between 500 and 600 tons of lead-silver ore a day, nearly all of which is concentrated in the mill. Here, too, plant is being added to and operations are on an increasing scale.

Throughout the districts visited Mr. Jacobs found many evidences of substantial progress, which will be even more noticeable after labor difficulties shall have been overcome and work resumed in the coal mines.

Best Dakota to Winnipeg

Winnipeg, June 7.—A large party of business men from Grand Forks and other North Dakota towns arrived today by river route. This was the first trip made from Grand Forks to Winnipeg by steamer in 28 years. Objects of the trip are to impress congress with the feasibility of the Red river as an avenue of commerce. Canada in the last three years has spent $2,500,000 on the Red River north of the boundary.

A New Resort

The C.P.R. proposes to build a large new hotel at the head of Lillooet Lake and to make the place a resort that will be known as the Pasadena of British Columbia. Warm Chinook breezes blow all through the winter months at this point and it is said that the spot will make one of the finest resorts on the continent.

G. N. R. Buys Land at Princeton

A deal of more than ordinary significance has recently been completed between the Great Northern and the Vermilion Forks Mining company at Princeton. It consists of the purchase of 13½ acres of land on the west boundary of the townsite, near the proposed Tulameen tunnel, by the railway company.

The British Columbia Cow

The British Columbia cow gives 1000 lbs. more milk per year than does her sister in eastern Canada and the butter produced from her milk is of a better quality than the eastern product. This is briefly the statement recently made by R. W. Hodson, live stock commissioner for the province.

Tunnel Completed

The tunnel designed by the Canadian Pacific railway to obviate the four per cent. grade on the big hill between Field and Laggan was virtually completed last week, when workmen from both ends of the bore met in the centre. The tunnel is five thousand feet long, and cuts down the grade to a little over two per cent. It cost a million and a half dollars.

The Pioneer makes a specialty of commercial printing.

PROVINCIAL.

Moyie will celebrate Dominion Day.

The electric power house at Kelowna was destroyed by fire.

Victoria's big race meet opened auspiciously on Saturday.

Another of the Black Hand gang has been gathered in at Fernie.

The floods of last week did much damage in many parts of the province.

The Mundy Lumber company's mills at Three Rivers was burned on Monday.

The provincial government has granted $500 to the Revelstoke Mountaineering club.

During the floods of last week two men were drowned near Fernie and two at Waldo.

Phillips, who shot Rawl Siebert at Okanagan Ferry last July, has been arrested at Victoria.

Charles Diamond, one of the best known characters in East Kootenay, was drowned in the river near Moyie.

An increased demand for lumber from the prairies has distinctly improved the mountain lumber situation.

The city of Revelstoke has decided to take over the gas producing plant recently installed after a thirty days' run, which proved satisfactory.

W. F. Burton and Warburton Pike, both noted hunters and celebrated naturalists, of Victoria, will explore Triangle island, north of Vancouver island.

A man named Ryan struck a companion named Ward with an axe at the Cassiar cannery last week in a dispute over who should build a camp fire. The assaulter took to the woods and has not been caught.

The Diamond Vale colliery, in the Nicola Valley, has been closed indefinitely. Recently the men being two months in arrears on their pay, walked out. Two days later they received their cheques, and were then told that the mine was closed.

Dr. Proctor, chief surgeon of the Pacific division of the C.P.R. has inaugurated a system of placing a tin case of first aid materials in the conductor's van of every passenger train. The outfit includes tourniquets, morphine and strychnine tablets and dressings for wounds.

The Metal Miners

Metal mining is the one industry that has made British Columbia famous. Had it not been for the discoveries of mines in Kootenay and Yale districts between 1890 and 1895, British Columbia would today be a province peopled by a few stock raisers and lumbermen. The working of the mines near Nelson and Ainsworth, the discoveries in the Slocan, at Rossland, and in the Boundary, brought people to the province. These people were not all miners. Some of them were born on farms and knew how to work. They cleared land, planted vegetables that grew to perfection. Next they planted fruit trees, that in time produced fruit that won prizes in competiton with fruit grown in other lands. They built sawmills that made lumber from timber growing in districts that looked inaccessible. They developed water powers that are among the largest in the world. They built cities that are the equal of those built in older-settled countries. They built school houses and churches. They were good citizens, and became part of the permanent population of the province. They did not encourage the immigration of Asiatics and they did not employ those who were in the country. British Columbia owes much to metal mining.—Prince Rupert Empire.

Lever Brothers, Toronto, will send you free a cake of their famous Plantol toilet soap, if you mention this paper.

BOUNDARY & KOOTENAY 1909 ORE RECORD

Shipments and Smelter Receipts For Year to Date.

Ore shipments from the various mines of Boundary and Kootenay, and the receipts of ore at the smelters of Southeastern British Columbia for last week and for 1909 to date are as follows:

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

The Copper Market

The developments in the copper metal market during the past week have been of a favorable nature, prices having advanced substantially and the volume of business having increased largely. The buying has been very heavy throughout and has resulted in advancing the price of Lake to 13⅝ to 13¾ cents a pound while the quotation on electrolytic is now 13⅜ to 13½. Even at these prices there is not much copper to be had as most of the leading agencies are sold up ahead for two or three months and they are anxious to quote prices on distant deliveries. We know of one Lake producer who refused 13⅝ cents for a good sized block of the metal this week and there are others who are practically doing the same.

The heavy buying is due to the fact that the large consumers have discovered finally that general business is improving rapidly and that the supply of copper is none too large. They have been buying from hand to mouth for some time but now that they see signs of prosperity ahead they are anxious to lay in supplies. In trying to do so they find that copper is not so plentiful as they thought it was and the advancing prices are the result of their efforts to make up for lost time. With the producers in such an independent position as they are at the present time there is every reason to expect 15 cent copper within a few months, possibly sooner than that. This is the opinion of the best posted copper men in the business and they have been right for a long time.—Copper Curb.

The Brass Bed and the Copper Mine

What becomes of all the copper? Especially in New England, where many families draw part of their income, from the dividends of copper mines by the Great Lakes, there has been anxiety as to the enormous output. Until lately there has been little sign of the stringing of enough new wires for the trolley lines, electric power, electric light, telegraph and telephone companies to play the part in copper consumption they did before the 1907 crisis put a stop to most new construction.

Last month the hint was given by William A. Paine, president of the "Copper range," and identified with half-a-dozen other successful mines, that it is not generally appreciated how much copper is taken by new demands,—as in the brass beds popular only a few years since.

How long since there were subway cars in New York to be sheathed with copper? Modern office buildings to be walled, faced, roofed, and ornamented with copper sheets, cornices, and grille work? automobiles and motor cars to use more than 10,000,000 pounds a year, largely in the form of brass? railroad terminals like the Pennsylvania's which alone has already bought 1,000,000 pounds?

From the brass tube in the high pressure locomotive boiler to the little brass clips so convenient with office papers, this copper alloy is called for in an increasing number of million pounds every year.

On the tenth of last month were published the April figures for the United States, Canada, and Mexico—at the record breaking rate of 3,785,809 pounds a day. This copper boom has been going on for eighteen months. The big mines have been running 100 per cent. capacity. Yet the increase in the "stocks of copper on hand" for April was less than a million pounds. In former months this year it ranged from nine to twenty-two millions.—Review of Reviews.

B. C. MINING

The payroll at the St. Eugene mine, Moyie, last Thursday was $40,000

Strikes on the Golden Belle, Mother Lode and Kootenay Belle at Sheep creek were reported during the past week.

The Ferguson mine at Ferguson and the North Star at Kimberly, east Kootenay, appeared on the shipping list last week for the first time this year.

The Noble Five mine in the Slocan will shortly resume operations. The property was one of the big shippers in the early days, and is owned by Lieutenant-Governor Dunsmuir.

The bondholders of the Summit mine at Sheep creek are waiting for snow to clear away to commence extensive development operations. There is sufficient ore in sight to pay for many months work with a large staff.

The Canadian Metal Co. is going into voluntary liquidation at a meeting to be held in Nelson on June 12th. S. S. Fowler will be appointed liquidator. A new company is to be formed, known as the New Canadian Metal Co., with a capital of $1,100,000.

Another gold brick was brought to Nelson this week from the Nugget mine. Its value is about $8,000 partly representing a 20 day run of the mill. The whole proceeds of the run would not go into the brick mould, the surplus being about 18 ounces, which would bring the total value of the product of the run up to $8,350. This value from a four stamp mill in the same number of days has probably never been equalled in this province.

Gold on Graham Island

Following upon the news of placer gold strikes on Moresby island, discoveries of a prominent character although less sensational, are now reported from the east coast of Graham Island, also in the Queen Charlotte group. Miller and Spence at Orlando river, have two claims and panned out $10 the day of staking. Gurley and his partner at Cape Fife, cleaned up over $100 in ten days. Both are convinced that their properties will pay an average of $10 a day to the man when work is properly under way. The blanket and cyanide process is in vogue and about 80 per cent. of the gold is saved although it is exceedingly fine.

OUTDOOR SPORT & ZAM-BUK

Every athlete, every ball-player, every swimmer, every canoeist, every man or woman who loves outdoor life and exercise, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood-poisoning. Next, its soothing properties relieve and ease the pain. Then its rich herbal balms penetrate the tissue, and set up the wonderful process of healing. Barbed wire scratches, insect stings, skin diseases, such as eczema, heat rashes, ringworm, babies' heat sores, chafed places, sore feet—all come within Zam-Buk's power. It also eases and cures piles. All druggists and stores.

1908 Mineral Production

A preliminary report on the mineral production of Canada in 1908 has just been prepared by the Department of Mines, and as compared with the revised figures of 1907 shows an increase of half a million dollars in value of output. The report says:

A preliminary review of the mineral production in Canada in 1908 shows a total mineral output valued at slightly over 87 million dollars as compared with a little less than 87 million dollars in 1907.

The industry has therefore in the aggregate more than held its own, despite the large decreases in the prices of the metals. That this falling off in the prices of the metals has been an important and serious question for the metal-mining industries will be better realized when it is stated that had copper, silver, lead and nickel maintained as high average in 1908 as in 1907, their total production in Canada in 1908 would have been worth 8 million dollars more to the producer than was actually the case.

NOTICE

I hereby give notice that thirty days from date I intend to apply to the Board of Licensing Commissioners for the City of Phoenix, B.C., for a transfer of the license now held by me for the Bellevue Hotel to the Balmoral hotel, the said Balmoral hotel to be known in future as the King's hotel.

E. P. SHEA.

Phoenix, May 7, 1909.

APPLICATION FOR RENEWAL OF LIQUOR LICENSE

Notice is hereby given that thirty days after date I intend to apply to the Superintendent of Provincial Police for a renewal of the liquor license held by me for the Union Hotel at Eholt, B.C.

Dated at Eholt, B.C., May 14, 1909.

JOHN A. MCMASTER.

Sick Twenty-Years, Had Given Up All Hope.

Po-ru-na Relieved After All Else Had Failed.

Chronic Internal Catarrh.

Many an invalid is dragging out a miserable existence with catarrh of the internal organs. There is no disease equal to this in producing complete wretchedness, absolute despair, haggard misery, and stubborn weakness.

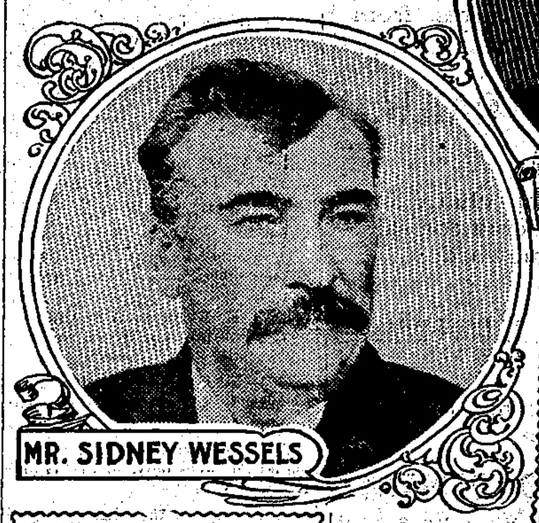
An army of this sort of victims have one by one discovered that Peruna could be relied upon to relieve such cases.

One man tells another man, and in this way the news spreads until in all parts of the country are to be found men who have been permanently liberated from the thraldom of internal troubles.

Many cases of catarrh of the stomach, kidneys and other abdominal organs have reported themselves as permanently relieved.

We give below testimonials which illustrate the benefit of Peruna in these cases.

MR. ABNER N. KEEP



MR. SIDNEY WESSELS

Grown Young Again.

Mr. Abner N. Keep, Vineland, Ontario, Can., writes: "For over twenty years I was a sufferer from catarrh and had tried almost everything I could hear of. I doctored with physicians in Philadelphia and Buffalo, besides with specialists in Nebraska, but did not get relief.

"Finally, after being exhausted in health and funds, I decided to try Peruna. This was after moving to this country two years ago.

"One bottle of Peruna gave relief. After taking five bottles I was sound and well.

"I am eighty-two years old and feel as good to-day as when I was in my thirties.

"I give this for the benefit of the afflicted in general, as I am but one of many in this country who know what it is, to contend with sickness and pay out the last dollar in doctor bills."

Appetite Returned, Enjoys Meals.

Mr. Sidney Wessels, Meritton Ontario, Can., writes:

"I have been troubled with dyspepsia and indigestion for twenty years, during which time I tried different doctors, but did not get the desired results.

"I have been compelled for weeks at a time to give up work, being completely prostrated. I had to confine myself to a milk diet, as nothing would remain on my stomach.

"I had about given up, thinking my case incurable, when I heard of Peruna and decided to try it.

"One bottle made a great change, and after using another bottle of this wonderful medicine, I had complete freedom from pain, my appetite had returned and I could again enjoy my meals. I believe Peruna is the grandest medicine under the sun."

Mr. Robert E. Hanvey, Treas. Knights of Industrial Freedom, also a well-known writer and lecturer, writes from 118 Lincoln St., Chicago, Ill., as follows:

"I was in good health until about four years ago, when my back became lame and sore. The pains kept increasing with severe twitches and slow, exhaustive aches. Urine was highly colored and passed with great irregularity.

"I knew this must be inflammation of the urinary organs.

"Having read of Peruna I decided to try it.

"I found relief from the pain within ten days. The aches gradually diminished, and it was a blessed relief I can assure you.

"Within three months I was well once more. My appetite had returned, nervousness and irritability were things of the past, and for over two years now I have been a healthy man."

Mr. H. L. Emory, Vice Chancellor and Master of Arms, K. P.'s, of Omaha, Neb., writes from 305 North Sixteenth St., the following words of praise for Peruna as a tonic. He says:

"It is with pleasure I recommend Peruna as a tonic of unusual merit. A large number of prominent members of the different orders with which I have been connected have been cured by the use of Peruna in cases of catarrh of the stomach and head; also in kidney complaint and weakness of the pelvic organs.

"Peruna tones up the system, aids digestion, induces sleep, and is well worthy the confidence of sufferers of the above complaints."

Peruna has saved many people from disaster by rendering the kidneys service when they were not able to bear their own burdens.

Local and General.

Mrs. Hawkins left Thursday for Spokane.

John Graham of Rossland is on a visit to his home here.

Tanglefoot and fly poison pads at Love's drug store.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B.C.

J. E. W. Thompson returned from Peachland on Wednesday.

Edwin A. Munroe of Midway was a visitor in town on Tuesday.

Buy your summer suit at the Big Store and save ten per cent.

For sale—A house on New York townsite, apply to A. Holm.

Before buying your furniture elsewhere, call on R. J. Gardner.

Mrs. Lyons of Mother Lode is visiting her mother, Mrs. Walters.

The Misses Buckless of Greenwood visited friends in town on Tuesday.

Household ammonia, extra strong, large bottles, 25c., Love's drug store.

Rev. S. and Mrs. Lundie left Wednesday for Trail on a visit to friends.

Mr. and Mrs. S. T. Ryan of Spokane were guests at the Brooklyn this week.

Dr. Simmons, dentist, will be at his Phoenix office, bank block, June 10th to 13th.

Dr. J. K. Barrett of Winnipeg was a guest at the Brooklyn for a few days this week.

C. J. McAstocker and Jos. Burby returned Wednesday from a short trip to Nelson.

Special discount sale on Men's clothing for one week only, at the Hunter-Kendrick Co's store.

As a result of the change in train time, mail for the east now closes at the post-office at 12.25 p.m.

Poor tea is poor economy—use "Salada" and you will appreciate the excellent qualities of high-grade tea.

W. S. Longhurst of Grand Forks, formerly of the Eastern Townships bank, Phoenix, has been appointed manager of the branch at Keremeos.

A large consignment of Bourbon whiskies just received at the Brooklyn —"Jessie Moore," "Old Kentucky" and "Private Stock," all famed American whiskies.

The Lyceum comedy and opera company gave two very enjoyable entertainments in the opera house on Thursday and Friday evenings of last week. Miss Myrtle Deloy, the female baritone, sang to advantage in several operatic selections, the Deloy comedians furnished mirth provoking situations, while Spaulding brothers, acrobats, and St Julian, an upside-down dancer, were all artists.

The date for the raffle of Mrs. A. S. Vand's piano has been left in charge of A. O. Johnson of the Central hotel.

R. H. Carmichael, manager of the Eastern Townships bank at Keremeos, formerly of Phoenix, was married on June 2nd.

The Ladies' Aid of the Methodist church will give an ice cream social in the church on Wednesday evening, June 16th.

Harry Pleasance returned from Spokane this week, but as yet is little improved in health. He will probably go south in the course of a few days.

Conductor Kerr is back on the local run of the Great Northern after a short holiday. He is an enthusiast on the beauties of the Christena lake district.

Mrs. D. Draisey went to Spokane on Monday to see Mr. Draisey, who has been confined in a Spokane sanitarium for some months on account of weak eyes.

The proprietor of the Stemwinder hotel appeared before Magistrate Hood on Tuesday evening on a charge of selling liquor after hours on Saturday night and was fined $20 and costs.

The closing-out sale of the entire stock at the Wm. Hunter Co.'s store still continues, and the reduced prices is proving a big attraction for the buying public.

T. Collins has sold his tonsorial business to A. Krause, who takes possession on Monday. Mr. Collins intends leaving for the Similkameen or Okanagan country.

If you are thinking of building or require building material of any kind —lumber, shingles, lime, brick—call on me for figures. Phone A 44. C. A. Ross.

At a meeting of the license commissioners on Wednesday evening E. P. Shea was granted a permit of a license for the King's hotel until a transfer of the license from the Bellevue hotel can be secured.

Mr. and Mrs. Hugh Reed, who left Phoenix a few months ago and have been visiting various points in eastern Canada, left Lennoxville, uebec, this week for Lacombe, Alberta, where they will reside on a ranch.

Rev. R. W. Hibbert, M.A., B.D., the newly appointed minister in charge of the congregations of Phoenix and Greenwood Methodist churches, arrived from Penticton this week. Mr. Hibbert will preach in the Methodist church, Phoenix, tomorrow (Sunday) at 7.30 p.m.

Accidents are constantly occurring in the most unexpected ways. However careful you may be you cannot avoid them. Insure yourself or your family, or your property, against loss by fire, accident or sickness. D. J. Matheson represents the best companies.

New I.O.O.F. Officers

The semi-annual election of officers of Snowshoe lodge, No. 46, I.O.O.F., took place on Monday evening, the following being elected for the ensuing term: Noble Grand, J. C. Tait; vice grand, W. K. Hyslop; recording secretary, W. A. Pickard; treasurer, R. Silverthorn.

Ball in Aid of Hospital

The Phoenix Hive of the Ladies' of the Maccabees purpose giving a ball in aid of the Phoenix general hospital in the near future. The ladies will spare no pains in making it an enjoyable event in every particular and are desirous of securing the co-operation of miners and citizens generally in making the ball a financial success. The general hospital does not receive the public support that such an institution is deserving of, and it is hoped that this effort of the ladies will meet with a cheerful response from every person in Phoenix.

Men's New suits selling for the price of old ones, at the Big Store.

Native Copper in the Carney Copper Mine

J. L. Martin, President of the Carney Copper company, received a box of very fine ore from the mine at Mullan, Idaho, this week. It is intermingled with copper glance and one sample shows some NATIVE COPPER. This ore is from the 100-foot level in tunnel No. 1. There is fully 18 inches of this ore that averages 6½ to 10½ per cent. copper, 4 to 6 ounces silver and a little gold. The rest of a face of a 5x7 drift is heavily mineralized and carries some good ore. Inquiries for stock have begun to come in from Spokane, where the news of the strike has just reached inside circles. It will be impossible to buy any stock in Phoenix for some time, except a block which Mr. Martin has under option, as the shareholders recently held a meeting and unanimously agreed to, and have signed an obligation to not sell their stock or offer it for sale at less than 15 cents per share, for a year. Such ore as these samples represent is rarely seen, and it is worth anyone's time to drop into Mr. Martin's office and examine them.

LATER—A letter from the secretary last night states that they are preparing to commence shipping.

NOTICE

All accounts owing the Wm. Hunter Co., Ltd., must be settled on or before June 16th, 1909. After said date all unpaid bills will be entered in court for collection.

THE WM. HUNTER CO., LTD.
