SPECIAL REDUCTION

SALE

Beginning today and during the month of June, we will offer our

Entire Stock

OF

Men's Suits

AT A

10 Per Cent Discount

This is not a sale of old or shop-worn goods. It includes our new spring stock which we have just opened up—made by the best clothing houses in Canada. :: :: :: ::
We are very heavily stocked with Men's Clothing this spring, and owing to the recent shut-down at the Mines our sales in this department have not been what they should; hence we have decided to take this means of reducing our clothing. :: :: :: :: :: ::
Our suits range in price from $15.00 to $30.00 and comprise a great variety of the most popular patterns and fabrics. :: :: ::
See to it that you are among the first to take advantage of this offer. :: :: :: :: :: ::

The HUNTER-KENDRICK CO. LTD.

WALL PAPER

We make no idle boast, when we say that we have the finest selection of WALL PAPER ever shown in Phoenix, and at prices to suit every one, ranging from 25c. to $1.00 for a double roll, comprising all the best shades in Ingrains, Light and Dark with the new Scenic Borders in Landscape effects to go with them. We have them in Silk and Brocade effects, in Panel effects, Flowered effects, and the effect they will have on your Parlor, Sitting Room, Bed Room or Dining Room will be marvelous, and for the finishing touches to the wood work, we have

VARNISH STAINS

in Oak, Golden Oak, Antique Oak, Dark Oak, Rosewood, Cherry, Walnut and Mahogany.

In art enamels we have White, Sky Blue, Pink, Red, Green, and Black and a full line of Floor Paints, and House Paints in all the best shades.

Morrin Thompson & Co.
GROCERS AND HARDWARE MERCHANTS

Boundary Mining Notes

Development is soon to be resumed on the Bay mine in Skylark camp.

At the Granby's Curlew tunnel the contractors are now in nearly 800 feet.

Good miners are still wanted in the Boundary, and a big bunch of them can get employment very quickly at top wages.

Work continues in the deep workings at the E. P. U. mine by the Boundary syndicate that started on it last fall.

The 100 steel ore dumps that have been ordered by the C. P. R. for use in the Boundary traffic, will be of 50 tons capacity, instead of 30 or 40 tons each, as at present.

While most of Boundary's mines were quiet during May, the Providence, the banner high grade producer of the district, was shipping regularly about a car load per week.

Men are steadily coming into Boundary, attracted by the high wages and steady work offered, and things are pretty nearly in normal shape once more as regards output.

Drills are now working steadily at the Cariboo mine, Camp McKinney, and it is estimated that there is a year's supply of ore ahead for the mill, ten stamps of which are just beginning to be dropped this week.

Shipments have been going out from the Snowshoe all this week at the rate of some 300 tons of ore or more daily, which rate is to be increased before long. Some 70 or 80 men are now employed at this property.

The large double drum hoisting engine installed last winter at the Dominion Copper Co.'s Idaho mine, is being used regularly, and that mine is now in the steady shipping list. An immense tonnage is being developed in the Idaho.

Reports from the B.C. Copper Co.'s Lone Star and Washington group, just across the Boundary line, are to the effect that the property is steadily improving, and is likely to prove a big thing. It is being operated under a bond with a dozen men.

One of the really large copper ledges in the Boundary is being opened up on the Greyhound mine, Deadwood camp, by L. H. Moflatt, of Rossland, manager of the Rathmullen Mines, Ltd. Thus far the work done has been decidedly encouraging.

An electric hoist is being installed at the Diamond fraction and Texas, adjoining the Providence. Like all the high grade mines surrounding Greenwood, the Greenwood City Water Works Co. is supplying the power from its new Boundary Falls plant.

At the LeRoi mine, six miles from Camp McKinney, recently bonded by a Phoenix syndicate, the ledge has been opened up over 300 feet in length and some 80 feet in width thus far. Many think that this copper property may turn out to be one of the largest mining propositions in the Boundary.

In a letter to the shareholders, President Tuttle, of the Athlestan Gold Mining Co., Ltd., of which the Dominion Copper Co. owned a large block of stock, stated that arrangements had been made for the taking in of the remaining Athlestan shares outstanding by the Dominion Copper Co. at the rate of ten shares of Athlestan to one of Dominion. This arrangement, it is understood, has been practically assented to and carried out by the Athlestan shareholders, so that the Dominion Co. now owns the Athlestan outright. The mine is located in Wellington camp, being the best thought-of property there.

Oroville 10—Phoenix 8.

Baseball teams in the Boundary have attained great efficiency of late, and the match of our local team with that of Oroville last Sunday was an example of good ball playing on the part of Phoenix up to the end of the first inning, when the score stood 7-2, in favor of the blue and white. Truly, a good enough margin to warrant the Phoenix fans to "root" for joy, and exult in that measure of glee that only comes of what we term a "cinch."

But after the first inning, Uncle Sam's boys just played methodical and careful baseball, with the result that at the close of the ninth inning they stood the victors by 10 runs to 8. The utmost goodfellowship prevailed between the two teams and the clubs' partizans before, during, and after the game was over, a very noticeable and appreciative instance being the Stars and Stripes and the Union Jack being bunched together, and carried around Midway.

Phoenix lost the game and probably $1,000, but that was all. They gained the hearty good will of everybody in Midway. Oroville, as well as Phoenix, are anticipating gladly the next encounter between the two teams. There is plenty more sport in the Phoenix club, and also plenty more money to follow them wherever and whoever they play.

HAS RETIRED $200,000 BONDS

Dominion Copper Preparing for Dividends.

Company is in Strong Financial Position.

A report from Boston regarding the Dominion Copper Co., gives the following interesting information:

Almost simultaneously with the retirement from net earnings of $200,000, or 20%, of its outstanding mortgage bonds, the Dominion Copper Co., Ltd., is doubling its production of copper.

On Monday the long anticipated blowing in of the Dominion Copper Co.'s new big furnace will take place, and the company should double its present output, resulting in estimated net earnings of at least $100,000 per month.

The company's plant will now have a capacity of 1500 tons per day and, allowing for shut-downs, etc., the average tonnage treated will be at least 1200 tons per day. With this output of ore the management expects a production of 9,000,000 pounds of copper per annum.

During the past year the operation and development work at the mines has been changed from steam to electric power. Most of the machinery at the mines has been replaced with new. The smelter has been rebuilt, its capacity doubled and changed from steam to electric power. The economies in the operation which will result from these improvements should enable the company to make its copper at a cost of inside 9 cents per pound; it is expected that better than 8½ cents will be reached. With copper at 25 cents per pound the company should earn 25% on the par value of its stock, after retiring each year $100,000 of its outstanding mortgage bonds from net earnings and after providing for all fixed charges. With copper at 20 cents per pound, the company should earn 17% on the par value of its stock.

June 1, the company retired from its net earnings, $200,000, or 20%, of its outstanding mortgage bonds.

After paying for the building and installation of the new big furnace, together with all the other improvements at the mines and smelter, besides retiring the $200,000 bonds, the company has on hand over $400,000 in cash. This strong financial showing will enable the company to go on a dividend basis at once.

In anticipation of the present large tonnage now being inaugurated, the company has spent a large amount on development work during the present year. The Rawhide, Brooklyn and Idaho mines, situated in Phoenix camp, and adjoining the properties of the Granby Co., will furnish 700 or 800 tons of ore per day, the balance coming from the Sunset and Crown Silver properties, in the Deadwood camp, adjoining the Mother Lode, the principal producer of the British Columbia Copper Co.

Title to the Athlestan mine is now vested in the Dominion Copper Co. Several thousand tons of this ore, averaging $6 to $8 per ton in gold, have been run through the Dominion Copper Co.'s smelter. Exploration and development work is now in progress, and ore from this property will be shipped within the next two or three months.

The company does not contemplate being satisfied with an output of 1200 tons per day, and M. M. Johnson, the chief engineer of this company, has been instructed by the board of directors to prepare plans for an additional 1500-ton-per-day smelter capacity. The cash on hand is more than sufficient to install this additional capacity, without the issuing of any additional capitalization, and without using any of the net earnings from operation of the present capacity, but allowing these earnings to go to the shareholders in dividends

All labor disputes in both the Boundary district and the Crows Nest Pass district have been amicably adjusted, so that there is nothing in sight now to prevent the mines of the Boundary from running to their full capacity.

Big Furnace Blown In.

Manager W. C. Thomas, of the Dominion Copper Co., was in camp Thursday, and was interviewed by the Pioneer man.

"We blew in the new large furnace at the smelter last Saturday night," said Mr. Thomas, "and it is getting down to work in a satisfactory manner. On account of being short of men we had to blow out one of the other furnaces, and at the same time will take advantage of this to make some repairs on that furnace. The new furnace, I am fully satisfied, will come up to all that is expected of it as soon as the men understand it and get used to operating it. As men are coming in all the time, we should be able to have all three blast furnaces in operation new very shortly.

"Yes, we are working all our mines now, but we need good miners, that is, capable machine men. We have plenty of muckers, but, in fact, all the mines need miners. They are gradually coming along, as fast as they hear of the increase in wages lately granted.

"No, we do not anticipate the least trouble in supplying the 1,400 tons of ore daily needed at our smelter when all three furnaces are in blast. The Rawhide can easily supply 20 cars, the Idaho ten cars, and the Brooklyn, if we need it, can supply another ten cars per day. Some people think the Brooklyn is practically worked out, but we will show them different. Besides this we are getting ore from our Sunset and Mountain Rose mines. At the Sunset our 5-drill compressor is being installed, and we shall also put in a small electric hoist there."

COMING AND GOING

William J. Porter left Tuesday for a short visit to Vancouver.

E. T. Wickwire, of Greenwood, was attending to business in Phoenix on Wednesday.

Mrs. Dr. Mathison came up from Greenwood Tuesday to attend the bachelor's ball.

Noble Binns, of Trail, spent a couple of days in the city this week, looking after his business interests here.

Rev. G. W. Ross, of Grand Forks, was here over Sunday, filling the Presbyterian pulpit in the absence of Rev. Lundie on his vacation.

W. S. Macy came in from Spokane Monday and spent the week in camp, looking after the needs of his big family at the Granby hotel.

Capt. George A. Smith, who has been at the Cariboo mine, Camp McKinney, all winter, came down this week and will remain here.

A. D. Morrison, of Grand Forks, was visiting his store here this week, and made some changes, giving the place one of the prettiest show windows in the Boundary.

W. C. Ashley and wife, of Seattle, who have been visiting their daughter, Mrs. L. Y. Birnie, for a week, left for home Thursday, intending to stop at Wenatchee on the way.

John A. Miller left for Rossland last Saturday, to take up his duties in charge of development work at the California-Giant mines, recently consolidated. Mrs. Miller went this week.

President Colgate Hoyt, and Vice-President B. B. Lawrence, of the British Columbia Copper Co., after spending a week in the Boundary inspecting the property of the company, as well as other mines and smelters, left early this week, on the return to New York.

Edgar W. Fox, accountant at the Snowshoe mine, left yesterday for Spokane, and will be married tomorrow to an estimable young lady of that place. When the newly wedded couple return a week or two later, they will make their home at the Snowshoe.

Frank White, formerly with the Eastern Townships Bank here, but now with the Canadian Bank of Commerce in Vancouver, was here this week, visiting his brother, Milt. White, of the Granby mines force. He says the bank has a force of 30 clerks now at its Vancouver office.

Death of Mountain Rose Miner.

Wednesday's C.P.R. train brought in a miner from the Mountain Rose mine, William Clark, suffering from quinsy. He grew rapidly worse, affecting his heart, and at 2 a.m. the next day he passed away. His brother-in-law, E. R. Shannon, of Grand Forks, arrived that day, and yesterday took the remains to Grand Forks, where the funeral was held.

Clark was a young man, being but 19 years of age, and had been ill but two or three days. He was a son of one of the oldest residents in the Boundary, "Seattle" Clark, the locator of the well known Seattle mine, up the North Fork.

Was a Meritorious Show.

Moore's Concert Co. gave entertainments on Wednesday and Thursday at the opera house, and there were almost universal expressions of satisfaction by those who attended. One of the best and most popular features of the entertainment was the moving picture and illustrated song part. Those were undoubtedly the best moving pictures ever seen here, being exceedingly clear and life-like. Mr. Moore will not use electricity for these pictures, in the places he visits, preferring to pay a high price for the gas which he imports direct from Omaha, thus, as he claims, getting superior results. After each entertainment a dance was given, and the music was certainly appreciated by the large number that tripped to its strains.

MACHINE MEN STILL NEEDED

To Drill in Mines of Boundary.

Managers Generally Report Shortage of Miners.

Nearly every mine manager in the Boundary states that there is still room for a number of first-class machine men at the several properties, which, for the most part, are yet working short-handed in this regard. It is understood that there are plenty of muckers applying for work, and that there is no scarcity for that kind of labor, but good machine men are in demand at nearly all the large shipping properties.

This is due to the fact that, not only is the average output, maintained before the coal strike in the Crow, now being reached, but all the mines are ready to increase the output materially over that of a couple of months ago.

Boundary mine managers are today paying the top price for machine men, the agreed on scale being now $4.00 per shift of eight hours underground. When it is remembered, also, that the price of board has not been raised, as far as the Pioneer has been able to ascertain, this rate of pay should not only attract plenty of miners but the best miners in the west. Probably no camp in the western part of Canada or the United States pays a better scale than the Boundary.

Making Ice by Machine.

The first ice making machine to be installed in the Boundary, so far as known, has just been set at work by Biner & Sons in the plant of the Phoenix Brewing Co. This plant is of the latest pattern with all modern improvements, costing the brewery several thousands of dollars. It is intended primarily for keeping the great vats of beer at the right temperature, but is also used for the manufacture of ice. The first artificial ice was placed on the market this week by Biner & Sons, and being made from the clearest spring water, is a fine article. The concern also a short time ago installed a beer filter, and it is universally admitted that the Phoenix brewery is now turning out the best beer in the Boundary, where there are four other breweries.

It is understood that F. P. Buck is arranging to take in some more claims in the Phoenix Amalgamated group in this camp, on which work is to be started within a few weeks.

Latest Prices in Metals.

NEW YORK—Copper, electrolytic, $22-75 @ $23.25; lake, $24.00 @ $24.50.
Bar Silver, 66⅞
Lead, $5 75 to $5.85

GAMBLING COST $50 AND COSTS

David Oxley Fined by Police Judge.

Monday evening Chief of Police Gunn arrested David Oxley and five others for gambling in the Summit hotel. After being postponed, the case came on for hearing before A. S. Hood, the acting police magistrate, Wednesday afternoon, Mr. Oxley being represented by J. P. McLeod, solicitor, of Greenwood. He pleaded not guilty. The judge allowed the others to go on suspended sentence, but found Mr. Oxley guilty, and fined $50 and costs, or 60 days in jail. It is understood that Mr. Oxley intends to appeal the case.

Strict orders have been given in the past to stop all gambling in the city, and it seems to be the intention of the police commissioners to see that the orders are carried out to the letter.

COURT OF REVISION TO BE ON JULY 15

To Listen To Assessment Objections.

At the last meeting of the city council there were present Mayor Matheson and Aldermen Birnie, Porter and Carson. A number of routine communications were read, and the following accounts were considered and ordered paid:

Volunteer firemen	$7 00
Hotel Brooklyn	2 40
Hunter-Kendrick Co	41 25
Morrin, Thompson & Co.	11 50
B.C. Telephone Co	11 10
J. B. Boyle	8 01
Wright, Cannon & Co	8 00
Ed. Cusick	2 00
John McLeod	3 00
Total	$94 26

The date for the annual municipal court of revision was set for Monday, July 15th, at 10 a.m., at the council chamber, when objections, if any, to the city assessment for the year 1907 can be made. The members of the court of revision were appointed, as follows: Aldermen Porter, McKenzie and Birnie.

The city clerk was directed to inform the light and water company that, if certain hydrants were not put in proper shape, the city would decline to pay for their use.

Contractors Tierney and Gallagher, on the C. P. R. and G. N. new railway spurs for this camp, respectively, have the grading now well along, and hope to see it pretty well finished in another six or seven weeks.

Work on the canal of the Rock Creek Irrigation Co. is being rapidly pushed, and water is being turned on as fast as it can be used to advantage. By the end of the month water should reach McCallum's ranch, about four miles from the dam, which is on Rock creek, above its confluence with Kettle river.

The Finest Flavored Tea is

Blue Ribbon

Because it is "Hill" tea, grown on plantations high upon the hills in the interior of India and Ceylon. The leaf is small and tender, with a rich and most exquisite flavor. Ordinary teas grown in hot moist lowlands, where the leaf is abundant and cheap, but is rank, coarse and ill flavored.

It pays to ask for Blue Ribbon.

Railway Shortcomings and Otherwise.

As a perusal of its files will show, the Pioneer has never hesitated to criticise either the C.P.R. or Great Northern railways in the past, if this paper believed they deserved such criticism. Nevertheless, we believe in giving credit when it is due. In last week's issue of the Kootenaian, published at Kaslo, we find the following:

"About the only stuff that the Great Northern ever comprehended the transportation of, is wheat. Jim Hill and his gang have got so used to hauling wheat, that they think there is nothing else in the world to haul."

This criticism is doubtless brought out by the belief, which may be a fact, that the Great Northern does not give a satisfactory service in that part of the Kootenays. It would not surprise us any if such was the case; but at the same time, it may be borne in mind that the Great Northern has been operating its Kaslo & Slocan railway and its Kootenay steamer line for years at a loss. This in turn was caused by the decadence, unfortunately, of the mining industry in that locality—but which, we are pleased to note, is once more looking up and improving.

But let us see whether Uncle Jim Hill does know anything about hauling ore, judging from what he has done and is doing in the Boundary district, for instance.

For years the C.P.R. did all the ore hauling—and all other kinds, for that matter—in the Boundary; in short, it had a "lead pipe cinch" on the business. Month in and month out, for instance, the Granby Co. alone used to pay the C.P.R. $1,000 per day and more for its freight bills, to say nothing of the other mines, smelters and numerous other sources of revenue. This was nice for the C.P.R., and that corporation seemed to think it came by it by divine right. As a result, no more accommodation was given than was forced out of the railway. As a sample, the city of Phoenix had to fight, tooth and nail, first to get a passenger service and then a mail service over Canada's greatest railway, for months after ore trains were running here regularly.

At first the C.P.R. charged 75 cents per ton for hauling ore say 25 miles. Then it came down to 60 cents, 50 cents, and 37½ cents per ton under pressure. About this time, Jim Hill and his railway building coherts loomed up to the horizon, and while it was difficult for the C.P.R. officials to believe their eyes, he was soon laying his bands of steel right into Phoenix camp—he was after some of this rich ore tonnage, with blister copper, coke and general tonnage on the side. Then the C.P.R., or a little before that, reduced its ore hauling rate to 25 cents per ton, finally a reasonable figure.

Something over two years ago, Jim Hill, after completing his rails to Phoenix, without government grant or subsidy of any kind, but buying every foot of his right of way outright, began hauling ore and doing it in a business-like manner. He needed no pointers from the C.P.R., he used no slow, though powerful, Shay side-geared locomotives.

When Jim Hill started hauling Phoenix ore, he sent some of his Michigan iron ore steel dumps, which held 50 tons each, to this district. But they would hold but 35 tons of Boundary ore, no matter how heavily they were loaded. So Mr. Hill at once gave orders to build a string of steel dumps that would hold 50 tons of Phoenix ore—and they are in commission today on the Phoenix run.

Some people may think that Jim Hill does not know how to haul anything but wheat, but residents of Phoenix, who see the ore trains going out every day on both C.P.R. and Great Northern, can readily perceive that Mr. Hill is today, hauling ore away from here at less cost per ton mile than his big competitor, who has been in the business seven years. Jim Hill runs longer trains, with greater tonnage, with less employees and less power than the C.P.R. If the C.P.R. could throw away its Shay engines without any one being the wiser, especially in Montreal, some day they would all go over the dump of oblivion—and the railway would eventually be ahead of the game.

And so we say, that Jim Hill knows something about hauling ore as well as about hauling wheat. As a matter of fact, whatever his shortcomings may be, Mr. Hill has always been a creator of traffic wherever he has run his lines. In British Columbia, his Supt. R. C. Morgan has indeed a difficult problem, with the many branches and towns to serve with satisfactory freight and passenger service—some of which branches are anything but profitable, owing to the existing local conditions.

Perhaps the best proof that Jim Hill knows what he is about in hauling ore is the fact the C.P.R. has taken a leaf from his notebook, and has today on order 100 steel ore cars for the Boundary service—which should arrive here some time on this earth, or before the mines of the Boundary have shipped their available million tons of ore, more or less.

Torments of Tetter and Eczema Allayed.

The intense itching characteristic of eczema, tetter and like skin diseases is instantly allayed by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale by all druggists.

Church Services Tomorrow

Methodist—Sunday School at 2:30 p. m. evening service 7:30 p. m. Thursday evening, prayer meeting and choir practice. A cordial invitation to all these services. Rev. J. Wellesley Whittaker.

St. Andrews' Presbyterian Church Preaching Service tomorrow at 7:30 p. m. Sunday school and Bible class at 10:00 a.m. A cordial welcome to all. Rev. Samuel Lundie, Pastor.

Catholic—Church of Our Lady of the Good Counsel.—Divine Service every 2nd and 4th Sunday of each month. Holy Mass, 10 a.m. Sunday School, 2:30 p.m. Vespers and Benediction, 7:30 p.m. Father J. A. Bedard, O.M.I., Pastor.

PROVINCIAL.

Moyie has decided to celebrate Dominion day this year.

British Columbia now leads Nova Scotia in manufactures.

Rossland city is giving ten days' notice of a delinquent real estate tax sale.

Miners at Moyie have been granted a raise, and the miners in the Ymir district are asking for $4 per day.

The little mill town of Wardner, in the Crow, was badly scorched by fire last week, the loss being estimated at $20,000.

The Southern Okanagan Land Co. intends to irrigate some 20,000 acres, and is preparing to subdivide 400 acres of its Penticton lands.

Ex-Judge Alex. Henderson, who resigned from the bench in the last provincial campaign to enter politics, has been rewarded by being appointed commissioner for the Yukon.

A new magazine is to make its appearance about June 20th at Vancouver, to be called Westward Ho. Wm. Blakemore will be editor and Percy F. Godenrath business manager.

Charles Camsell, of the Dominion Geological Survey, is on the ground again this year in the Similkameen, where it is expected that he will continue his work in the locality of Bear creek.

Hon. Frank Oliver has returned to Ottawa from a visit to Edmonton. Later on he expects to make a trip to the Pacific coast on matters connected with his department, visiting Nelson, Rossland and the coast cities.

Word comes from the Cariboo that trappers and Indians arriving in Quesnel from outlying districts report a very poor catch of fur, the reason assigned being the excessive snowfall and the bitterly cold weather of last winter.

Loggers have been so active in the coast camps, that it has been decided to close all the camps of the B. C. Loggers' Association on June 29th, throwing out about 2,000 employees. Too many logs for the market is the reason assigned.

The Nest Egg mine at Rossland has been leased by Edward Webb, of the B.C. Land and Improvement Agency, Ltd., London, England. Mr. Webb will immediately begin operations on the Nest Egg, which has not been operated since the fall of 1897.

Kamloops is to have two hangings this summer, one, James C. Dale, on July 18th, for killing Joseph Cell last October at the Carmi mine; and the other Sam Luck, on August 5th, a Chinese cook, who killed a waiter at J. B. Hobson's Bullion placer mines.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family; nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrohoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, billiousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but $1.25. For sale by all druggists.

MOTHER SEIGEL'S SYRUP

Will make you bright, strong, and healthy; it tones and invigorates every organ of digestion, cleanses your blood of all impurities and gives new life to your entire system. It CURES ALL STOMACH TROUBLES.

Price 60 cts per bottle. Sold everywhere. A. J. WHITE & CO., MONTREAL.

EXAMINATIONS FOR INSPECTORS OF STEAM BOILERS AND MACHINERY.

EXAMINATIONS for the position of Inspectors of Steam Boilers and Machinery, under the Steam Boilers Inspection Act, 1901, will be held at the Parliament Buildings, Victoria, commencing on MONDAY, JUNE 24th, 1907. Application and instruction forms can be had on application to the undersigned, to whom the former must be returned, correctly filled in, not later than JUNE 17th. Salaries, $110 and $125 per month

JOHN PECK,
Chief Inspector of Machinery,
New Westminster, B. C.

Encyclopaedia Britannica, 26 vols, for sale at less than half cost. Inquire at Pioneer office.

OLLA PODRIDA

Don't knock! It's the work you do and not the way you stew, that counts.

Mr. Dooley: "As Shakespeare says, be thrue to ye'ersilf an' ye will not thin be false to ivry man."

All legitimate and well-conducted businesses have a story to tell that should interest the public, and which their proprietors need not be ashamed of.

The greatest pleasure in the world is the pleasure of putting salt on the tail of an idea—Elbert Hubbard.

DON'TS FOR BUSY MEN.

Don't loaf.
Don't kick.
Don't croak.
Don't knock.
Don't lose time.
Don't be a wrecker.
Don't get in the way.
Just boost.

WANTED IN THE BOUNDARY.

Yes;
Earnest Reader, your guess
Is fine indeed.
What we need
In the Boundary,
To show up our copper foundry,
And to overspread the land,
Like a grand old mustard plaster,
And faster
Than the story
Of the elopement
Of the doctor with the judge's wife,
Is a life
Size imitation
Of more capital
For our mines.

New?
Perhaps to you,
But not to all.
Story's pretty long,
But we could make a song,
And sing
The praises
Of a measure of that sort
Accompanied by the pianoforte,
Till the welkins ring,
And make music
That would simply rate
As great.

The goods—
Here they are,
In the woods,
On our hills and in our dales.
When
Two thousand men
Are busy in our mines
And smelters,
There's something doing
In these lines.
It's worth while
To smile
And take a hand.
There's chances yet
You can wager
All you've got,
And then some.
Come in
And get
Out of the wet,
With a run for your money,
Honey.
Good ones there are,
And not far,
Either.

Profits you can land
If you have the sand,
And some dough
Mixed with brains.
It's not
The only hot
Pebble on the beach,
But it's in reach.
Say,
If what you designate
As information is wanted.
You may
Read the Phoenix Pioneer,
Nothing daunted,
Then you'll be it.

THE COPPER HANDBOOK

(New Edition Issued November 15, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper.

The mining man needs the book for the facts it gives him about mines, mining and metal. The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Printing That Counts

A creditable job of printing on the stationery you use, is like a good suit of clothes when one is doing business—first impressions count.

If you use a rubber stamp on your letter heads or envelopes, you will be put down as of the rubber stamp calibre. If you are a business man, and use no printed stationery, it is natural to suppose that your business is not of sufficient importance to require it, and your credit likewise.

If you wish Modern Stationery, gotten up by competent workmen, worked on the best of stock, imported or domestic—stationery that does not have the earmarks of the Cheap John printery, we can furnish it from the only print shop in the Boundary operated by electricity.

We know that business men of Phoenix have sent to Spokane, Chicago, Detroit, Hamilton, St. Louis, Omaha and other places, in the past, for printing that could have been done right here—and probably in better style. We'd charge a little more, of course, just as the merchant must charge more than Cheap John Tim, of Toronto—and its worth a little more. Besides, if you spend your dollars here for printing, you have a chance to get them back some day through the Pioneer and its employees. If you spend them in the East, you'll never see them again. We have print shop facilities that no other office in this section possesses. Come and see us.

DR. PRICE'S CREAM Baking Powder

Made from pure, grape cream of tartar

Makes home baking easy. Nothing can be substituted for it in making, quickly and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry. Insures the food against alum.

Pure, Healthful, Reliable

PRICE BAKING POWDER CO. CHICAGO

NOTE.—If mixtures called baking powder are offered you at lower price, remember they are mostly made from alum, a metallic acid deleterious to health.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

The Secretan Syndicate.

In 1880 the world was producing 153,959 tons of copper. Scientists at this period were just beginning to comprehend the tremendous possibilities latent in electrical phenomena, and electricity as an industry had not begun to make itself felt. From 1880 to 1888 production gradually rose till in the latter year the world was producing 258,026 tons. In 1888 only thirteen small electric railroads were constructed in the United States, so, whilst the electrical demand had become a factor, it was comparatively small The consumption of copper, however, it will be seen, was gradually advancing.

M. Secretan, a Paris financier, formed, in February, 1888, a syndicate intended to monopolize the copper output, the step being considered feasible in view of growing consumption. Arrangements were made with leading copper mines of the world for their total product, the syndicate, backed by the Comptoir d' Escompte, France's largest bank, guaranteeing to take such output at satisfactory prices. The venture seemed destined to succeed, the price of copper jumping from 11 to 17¾ cents per pound within one month.

The syndicate paid much less than the latter price to the mines supplying it with copper, and, by buying all copper offered by other than the mines controlled, kept the price for one year at 17 cents. M. Secretan was in advance of the world's progress, however. Copper then was more of a luxury than a necessity; it could be used, but could also be dispensed with, and the first effect of the high price maintained was more restricted use by consumers.

The syndicate had to buy the copper it had contracted for, whilst it had to store, in lieu of selling it. M. Secretan, moreover, failed to realize that no previous abnormal demand for copper had raised prices and brought out "invisible supplies." The price maintained had this effect, and copper that had accumulated for ages before was secured by dealers all over the world and by them consigned to France for disposal to the syndicate; it was buried beneath a flood of the red metal. In December, 1888, the funds and credit of the syndicate were exhausted. The great Camptoir d' Escompte, containing the savings of millions of wage-earners of France tottered in the resultant panic. The copper god called for a victim and M. Deufert-Rochereau found a suicide's grave. The Bank of France and Government of France, aided by the Rothchilds and a syndicate of bankers, rushed in and stemmed the impending tide of ruin. The call was close, but the bank was ultimately saved.

Copper dealers, whilst syndicate prices were being maintained, scoured the world for surplus copper supplies; enormous stocks were thus bought, but the collapse of the syndicate left them stranded at enormous loss.

This reserve supply of the accumulated product of centuries had, however, to be finally absorbed; actual copper production was continuing at an increasing ratio and prices gradually declined till, in 1894 the metal was selling at an average of 9, 52 cents per pound, the lowest price it has ever touched. Then it began to rise. To rise in the face of an ever increasing production.

Copper was feeling the stimulus of Electricity.—Business and Finance.

In a Class by Itself

It is quite true FERROL is an emulsion of Cod Liver Oil and a particularly good one at that. But it combines Iron and Phosphorus with the Oil, and these are just what are needed to make the emulsion perfect and they are just what all other emulsions lack.

FERROL

is unique because
It combines Iron and Phosphorus with Cod Liver Oil.
It is pleasant to take and easy to digest.
It holds the record for increasing the weight (95½ lbs from the use of 25 bottles).
The formula is freely exposed and its bona-fides are vouched for by eminent analysts in Canada, the United States and Great Britain.
It is endorsed by prominent physicians of all schools.
It is used in all the leading Hospitals, Sanitariums and other Public Institutions.
The London (Eng.) *Lancet*, after careful analysis in its own laboratory, fully endorses it.
We are prepared to substantiate all the above statements.
FERROL is the embodiment of health, strength and vitality, and

"You know what you take"

THE OBSERVATORY

THINGS TALKED OF AT HOME AND ELSEWHERE

And still the wonder grows whether or not the Laurier government will be only too glad to take advantage of the delays in the construction of the Grand Trunk Pacific railway, to work in another general election before very much is done on the extreme western end. Things are certainly looking that way, and there is enough jockeying being done over the Pacific terminus to build several roads.

Vancouver is to have another weekly paper next week, when John P. McConnell, an experienced newspaper man, will start the Saturday Sunset. With the whitening bones of a dozen or more uncalled-for weeklies staring him in the face in Vancouver, Mr. McConnell knows exactly what he is up against. The field is there all right, and we look to see something worth while in the Saturday Sunset.

For a while a few of the Liberal papers of the province were much exercised because Premier McBride had not sent them a special cablegram from London, stating just what he had done in the better terms presentation to the colonial secretary. These same papers should bear in mind that Premier McBride has made good with every matter he has taken up since he entered politics in this province, and the chances are more than even that this will be no exception to the rule, and that, as a result, a greater measure of justice will be done to this province in future at Ottawa.

The Haywood trial at Boise is, more than anything else, in the public eye, and the sickening testimony of Harry Orchard in connection with the score of murders he has had a hand in, only serves to discredit all the more the details told by him. It is a ten to one shot that there will yet be some surprises before this now famous trial is over.

John Dorsey, formerly of the Boundary, has started north to the Bulkley valley, and among his other ictas on this trip, he carried along a printing press and a sack full of type, the Bulkley Pioneer to be issued from its own heath soon, instead of from Vancouver. John will do things when he gets his hand in at slinging ink.

D. W. Higgins, the doyen of British Columbia journalism, who has occupied the editorial chair of the Vancouver World for the last eighteen months, has retired. Whether Mr. Higgins was responsible for the World's alleged news during political campaigns or not, that paper has made splendid progress in the last two years.

When the shut-down at the Phoenix mines occurred last month, a certain prominent merchant of this place had a pleasant experience. As fast as the men received their pay, they came around, to the last one, and settled their accounts with this merchant—not a single one pulling out and leaving him in the lurch. Not only that, but a man who had been absent a year, came back, walked into the store and said he would be on hand the first payday to settle up his old account. That speaks pretty well for that merchant's accounts.

Here is what the Cranbrook Herald thinks of a man who sends his printing away when there is a well fitted office in the home town:

"The man who sends his printing out of town when there is a printing office here that has spent thousands of dollars to build up a fine plant and pays the men good wages, would make his own mother eat at the second table and refuse her the use of a napkin."

Colic and Diarrhoea.

Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all druggists.

Buster's Philosophy.

Resolved, that painting is a very pleasant pasttime, and often profitable, too. Some paint landscapes, some portraits, others flowers, and some faces. Ladies paint faces well, while some simply grab the rouge pot and dip-salve and dab away. Paint disguises a good many things; bad complexions but not bad dispositions—no one can disguise a bad disposition, because "as a man thinketh so he is," and it shows in his face.

Reward Offered.

If any one knowing anything of the effects of Walter Jewsbury, formerly employed in the mines of this camp, will notify A. Jewsbury, Victoria, B.C., he will be suitably rewarded.

TWO BEAUTIFUL WOMEN WHO ESCAPED SPRING CATARRH BY TAKING PE-RU-NA.

Spring Fever Is Spring Catarrh—Nothing Robs One of Strength Like Spring Catarrh.

Miss Nellie Condon.

Pe-ru-na Is a Fine Tonic For a Weary Woman.

A Letter of Praise.

Miss Nellie Condon, 450 7th Avenue, Brooklyn, N. Y., writes:

"I consider Peruna the ideal spring tonic.

"For the past five years I have taken it at this time of the year and find that it enables me to endure the variable weather of the spring and the trying heat of the summer."

Peruna affords the most prompt and permanent relief in all cases of nervous prostration, caused by systemic catarrh, as verified by many cures on our records.

Gained Eighteen Pounds.

Mrs. Hattie Hamilton, R. F. D. 2, Sparta, Ky., writes: "I have taken two bottles of Peruna and commenced on the third.

"I did not really need the third one, but thought it best to take another bottle.

"I have always weighed 102 pounds, but since I began taking Peruna I weigh 120 pounds for the first time in all my life, and I am now 33 years old.

"Your medicine has surely done me a great deal of good and I have recommended it to several others who have begun taking it.

"My mother, who is 76 years old, had grown so weak she could scarcely walk.

"She took two bottles of Peruna and is fleshier and is looking well."

Mrs. Hattie Hamilton.

A Spring Tonic.

ALMOST everybody needs a tonic in the spring. Something to brace the nerves, invigorate the brain, and cleanse the blood. That Peruna possesses such qualities is beyond all question.

We have on file thousands of letters which testify to the curative value of Peruna in cases of nervous depression and run down conditions of the system.

A Typical Letter.

Mrs. Rhoda Stufflebeam, Bunch, Iowa, writes:

"For years I suffered with catarrh of the throat and bronchial tubes.

"I doctored with different physicians, but kept getting worse all the time.

"This spring I took a cold which settled on my lungs. I had such a cough I could not rest at night. My friends, and I myself thought I had consumption.

"A friend advised me to try Peruna. I bought a bottle and wrote to you for advice. Before I had taken one bottle, my cough was better so I concluded to give it further trial.

"I followed your directions as closely as possible, and thanks to you and Peruna, I am a well woman to-day."

Peruna never fails to prevent spring catarrh or nervous prostration, if taken in time.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind.

Peruna is perfectly harmless, if taken according to the directions on each bottle. So used, it can be taken any length of time without acquiring a drug habit.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

There are a multitude of homes where Peruna has been used off and on for twenty years.

Such a thing could not be possible if Peruna contained any drugs of a harmful nature.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

There are a few cases of mumps in camp.

Nine patients are now being cared for at the hospital.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C

Woodchoppers wanted. Inquire of J. J. Bassett, Hartford Junction.

Prescriptions carefully prepared by Thrasher's Drug Store—'Phone 16.

See Miss McDonald, milliner, for sewing machines and supplies.

A man is known by the time he keeps. Morrison, the Watch Adjuster.

Sewing machines to rent at $3 per month. See Miss McDonald, milliner.

For sale cheap, two five-foot showcases with tables to match. Apply to E. A. Black.

Eric Brage was taken from the Granby mines Thursday night, suffering from a broken leg.

Subject for Sunday evening at the Methodist church will be, "As a Man Thinketh in His Heart, So is He."

The Ladies' Aid of the Methodist church are planning for an ice cream social on Thursday next, June 20th. A good program promised.

The Dominion Copper Co. has repaired Dominion avenue where the cave took place months ago, as requested by the city council.

The corner storeroom in the Anderson-McArdle building, opposite the Granby office, has been rented by Noble Binns for storage purposes.

Work was started this week by H. A. Munroe on the double apartment house being built by George Hewson on Knob Hill avenue, much of the lumber having been delivered on the ground.

At the earnest request of the congregation here, Rev. C. Wellesley Whittaker has decided to remain for the summer and supply the pulpit, permanent arrangements to be made for a minister later.

Dr. George S. Gordon, who recently left Phoenix for the coast, sailed on the C. P. R. liner, Empress of India, last Tuesday for Japan. He will make one trip as the ship's surgeon and see the land of the Mikado, returning in August.

This week the machinery for the new steam laundry installed by the Phoenix Steam Laundry Co., Ltd., was started up by A. D. McKenzie, the manager, and the plant is being rapidly gotten in shape for the large business which it will undoubtedly have to handle.

Frank Knott has purchased the seven room residence in which he has been living for the last three years, on upper Knob Hill avenue. The seller was H. R. Blunt, formerly a resident of Phoenix, where he was the first city engineer, but is now a resident of northern India.

Monday night a drunken brawl occurred in the Bellevue hotel, necessitating the attention of the police department. When everything was cleared away and settled before the police judge the next day, Lawrence Morrison and Emanuel Jack were assessed $10 and costs each, and one McKelvey was treated likewise for interfering with an officer.

P. Burns & Co., Ltd., now have their refrigerating plant installed and in operation in the building recently erected in Phoenix for the transaction of the firm's growing business. There will be no difficulty in future in keeping the supply of meat in the warmest of weather. The plant is operated by electricity, furnished by the local lighting company.

Thursday evening an unusually heavy blast on the G. N. railway grade shook things up pretty well about town, scattering rocks all over the city, and breaking some windows nearly half a mile distant. Contractor Gallagher will, of course, make good any damage done by his men, but he will be up against it if any fatalities occur. One piece of bull granite from that blast struck the telephone cable in front of the E. T. Bank, necessitating repairs thereto yesterday.

Dr. Mathison, dentist.

Hannam's milk suffers no addition or subtraction.

Dr. Mathison, dentist, Bank Block, June 10th to 14th, inclusive.

Before buying your furniture elsewhere, call on R. J. Gardner.

Jupiter Pluvius has been doing a lot of business of late, and the crops will profit not a little as a result.

Joe Taylor, an aged old timer of this camp, was taken to the hospital Thursday, with one side paralyzed.

The Knights of Pythias and Rebekahs will hold semi-annual elections at the next regular meetings of those orders.

Tomorrow the Danville baseball team will play a return game with the Phoenix nine here, the game to be called at 2 p. m.

The minstrel show which is booked to appear here on July 2d is all colored, and there are a whole bunch of the dusky fun makers in the company.

Miners' Union opera house, under the skilful manipulation of A. G. Evans, begins to look as though it had just been transported direct from the Emerald Isle.

Mrs. A. Spelhough and George McDonald were married at Republic, Wash., June 7th, and have returned to Phenix, where they are keeping house on upper Knob Hill avene.

Tuesday evening the bachelors of Phoenix gave an invitation dance to their friends at Miners' Union hall. Biner and James furnished the music, which was excellent, as usual, and the mazy was enjoyed until an early hour the following morning.

Boundary Side Lights

Grand Forks merchants now close at 6 p.m., instead of 6.30, as heretofore.

For the month of May Greenwood had an attendance of 72 pupils in its public school.

Died, in Greenwood, Wednesday, June 4th, Mrs. M. A. Pope, aged 72 years. Funeral last Friday afternoon.

Greenwood's school board is spending $1,350 in fitting up another room in the public school of that place, for use after the summer holidays.

The proposed issuance of a pamphlet by Greenwood's board of trade, giving facts about the Boundary, is a step in the right direction. It should be pushed along.

The lodge of Rebekahs in Greenwood has elected the following officers for the ensuing term: N.G., Mrs. D. McHunter; V.G., Mrs. W. B. Fleming; R.S., F. E. Brown; F.S., Mrs. Boak; Treas, A. E. Braithwaite.

A. E. Rainey, of Grand Forks, better known as Lord Arthur Rainey, died Sunday evening at the Cottage hospital in that city. He has lived in Grand Forks, where he was in the cigar business, for five or six years.

Following are the new officers of Boundary Valley Lodge, No. 38, of Greenwood: N.G., A. E. Braithwaite; V.G., Frank Spearing; R.S., R. J. Sanders; F.S., G. B. Taylor, P. G, re-elected, tenth term; treas., E. Foyle Smith, P.G.

James McRae, of McRae Bros., Ltd., left last Saturday for a visit to his old home near Sarnia, Ont., and may take in the much boomed Cobalt and other camps before he returns, later in the season. It is many years since he was in the cent belt.

Wednesday G. E. Fawcett, customs relief man from Ottawa, who has been taking the place of Wm. Delahay while the latter is away on a vacation to South Wales, was called back to Ottawa by telegraph. C. W. Whittaker was sworn in as collector this week, and will act till the return of Mr. Delahay at the end of August. Mr. Fawcett expected to go to Lethbridge, where collector John Kennedy has been made inspector for Alberta, but the orders were changed the day Mr. Fawcett started.

NELSON, BRITISH COLUMBIA.

Among the Railway Men.

Announcement is made in coast papers that the V. V. & E. has established railway service from Oroville to Keremeos, in the Similkameen.

No mail clerks have been lost on the C.P.R. in this section this week, as far as reported. As a result, mails have been received regularly over that line.

D.C. Coleman, the new superintendent for the Kootenay-Boundary division of the C. P. R., was here Tuesday for the first time, in his private caboose, on a trip of inspection.

Wall & Creelman have been awarded the contract for the erection of the new Kettle Valley railway depot at Grand Forks. This is the same concern that built the bridge over the Kettle river for the railway company.

W. P. Tierney & Co. are now working on the twentieth mile of grading on the Kettle Valley lines extension up the North Fork of Kettle river, and 12 miles of track have been laid to the second crossing of the stream.

The special eastern excursion rates advertised by the C.P.R. for June, have been extended to July 2, 3, 4, August 8, 9, 10, and September 11, 12 and 13. The Great Northern will also give an extension of time to about the same dates.

Beginning last Sunday the Great Northern greatly improved the service on the Marcus-Molson run by putting on a new chair and cafe car. This is something that has long been needed by travellers into the Boundary from the south, and will be appreciated.

E. V. Johnson, government engineer from Ottawa, this week completed the inspection of the first section of the Kettle Valley railway extension up the North Fork of Kettle river, and it is understood he was well satisfied with the work thus far done. By the 1st of September steel is expected to be laid as far as Lynch creek.

No Raise in Rates of Board.

There has been considerable talk of making a raise in the rates of board by some of those in the business in Phoenix, but thus far no action has been taken in the matter. W. S. Macy, who boards some 200 men at the Granby hotel, when it is well filled, was seen this week, and asked what he intended to do about this matter. He stated that he should not raise the boarding rates, no matter what others did. The price is the same now as it has been for the last eight or nine years, namely, one dollar per day for board alone. It is, therefore, not likely tnat the local hotels will increase the price of board, particularly those that are catering for the trade of those employed in the mines.

Do Not Neglect the Children.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by all druggists.

Expert Watch Reparing

Remember—if your timepiece once gets into the hands of an inexperienced watch repairer it's future good conduct is seriously endangered.
