The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

FIFTEENTH YEAR — PHOENIX, B. C., SATURDAY, JUNE 20, 1914 — NUMBER 49

CHAMPION BEATS ALL COMPETITORS

Middleweight Grapler and Wife Give an Excellent Exhibition.

Last Monday evening in the Miners' Union Opera House Clarence Eklund, champion middleweight wrestler of Canada, and his wife put up an excellent exhibition, and the audience voted it one of the best entertainments in its line ever seen here. The affair opened with some very clever bag punching by Mrs. Eklund, and she and her husband gave a splendid exhibition in wrestling. Mrs. Eklund gave her husband a good hard tussle during the time they were on the mat, and showed that she was up in the game.

The main event was when Eklund took on four local men, J. Pitpladdy, Glen Hoover, Barney Mullin and Herb Neil. He disposed of Pitpladdy in seven minutes; Mullin in three minutes; Hoover in seven minutes, and Herb Neil in eleven minutes. In the case of the last man, Neil was not thrown even in the eleven minutes, but was winded and quit. Eklund and Neil are scheduled for another match to take place at the Christina lake picnic next Monday. Eklund acknowledged that this was a harder bunch of men than he usually has to tackle, and they were all much heavier than himself. D. A. Vignaux was the referee.

Another good match is to be pulled off here next Wednesday night, when Eklund will wrestle with Andrew Hill, a Finlander. The match is for a purse of $50, and the winner to take all gate receipts. The style will be catch-as-catch-can, and the fall to be governed by Police Gazette rules. It is for the best two out of three falls.

On the same evening Mrs. Nellie Eklund will wrestle with Miss Eva Nelson, the match to be to a finish. This should prove a good drawing card, and the ladies of Phoenix are cordially invited to attend and witness it. The preliminaries will begin at 8:30 o'clock sharp.

Sold Rocket Motor Car

W. J. Mitchell has just returned from Greenwood and Phoenix, B. C., where he delivered a Rocket cyclecar to Roy Conners. This was the first cyclecar ever sold in eastern British Colnmbia. Mr. Mitchell made the trip to Greenwood via Deer Park, Clayton, Loon Lake, Springdale, Chewelah, Colville, Marcus, Rock Cut and Grand Forks. He claims to have averaged better than 38 miles to the gallon of gasoline.—Spokesman-Review.

Jolly Spinsters' Ball

Not to be outdone by the Phoenix Bachelors, the members of the Jolly Spinsters' Club will demonstrate their ability as entertainers by giving a dance in the Miners' Union hall next Friday evening, June 26th. The Ironsides orchestra has been engaged to furnish the music, and free ice cream and cake will be served. The ladies extend a cordial invitation to everyone, and they particularly request the bachelors to forget about being lonesome and come. The ladies are to be commended for their enterprise, and they should be given every encouragement.

The Scandinavian Aid and Fellowship Society decorated the graves of their departed members and friends in the local cemetery last Sunday, it being Decoration Day.

Delvo-McLaughlin

The wedding of John McLaughlin and Miss Katherine Delvo, both of Phoenix, took place at Spokane on Monday, June 16th. The ceremony was performed by Justice S. C. Hyde at the court house. Mr. McLaughlin is a foreman at the Granby, and his bride was for several years a resident of this camp.

MRS. NELLIE EKLUND
who will wrestle Miss Eva Nelson Wednesday evening at Opera House

Odd Fellows' Session

Last week was a busy one for the various branches of the Odd Fellows' order in grand session at Victoria. It was by far the greatest grand lodge session ever held in the province. Besides the regularly appointed delegates from Phoenix there were several visiting members from here. In the appointment of officers J. F. McDougall of Phoenix was chosen for the office of district deputy grand patriarch of the Encampment, and the Degree of Chivalry was conferred upon Mrs. O. D. Bush, of the local Rebekah lodge.

Harry White, of Cranbrook, the newly elected grand Master, filled the appointive offices with the following:

Grand Chaplain—Rev. W. S. A. Crux, New Westminster.

Grand Marshal—W. G. Barrie, Prince Rupert.

Grand Conductor—W. H. Laird, Moyie.

Grand Guardian—R. H. Neelands, Grandview, Vancouver.

Grand Herald.—I. R. Lawrence, New Westminster.

Officers were elected for the ensuing term by the Rebekah Assembly as follows:

President—Mrs. Jennie Grant, Victoria.

Vice-President—Mrs. A. Butterfield, Vancouver.

Warden—Miss Eliza Gilchrist, Ladysmith.

Treasurer—Mrs. Kate Simpson, Victoria.

Secretary—Mrs. F. A. Walker, Victoria.

On her retirement from the presidency Mrs. A. E. Parker, of Cranbrook, was presented with a cut-glass vase, while Mrs. Walker, who has prominently indentified herself with the Rebekahs, received a suitable acknowledgement of the appreciation of her fellow workers.

Street Grading Work

Alex McDonald has been awarded the contract for cutting down the grade on the street leading to the C.P.R. depot. In places the grade is as steep as 22 per cent, and the intention is to cut it down to an average of about 12 per cent. Work has already begun with three teams and about eight men.

There are a million automobiles running in the United States.

B. C. Mining

The Hewitt mine made a car shipment of ore last month, the first of the regular shipments since the mill was put in operation.

Some 300 men are now employed at the mines in Ainsworth camp and the Bluebell across the lake from the town of Ainsworth, so things are flourishing there.

The crosscut tunnel on the Apex is in about 500 feet, and it is expected the ore body will be reached within the next hundred feet. The rock is very hard. Two shifts are being worked.

Chas. Connell of Rossland, interested in Summit camp, has left for the Tulameen country. He has some very promising silver lead property which requires shipping facilities to become a wealthy producer.

A petition signed by mining men and business people of Hope and others directly interested in the progress of Summit camp, has been forwarded to the Minister of Public Works, asking that the trail from the Coquihalla river to Summit camp be re-opened as early as possible.

A large reel containing five miles of steel cable for the tram at the Surprise mine came to Sandon Friday. It took all Saturday to get it from the car to the wagon, and it took eight horses and six men three days to get it as far as the old brewery site. The Surprise is using the old Last Chance tram and is putting in a new cable.

Rod McCrimmon and E. Stewart have secured a one-year lease on the Black Prince and Canadian Queen claims in the Silver Standard group at New Hazelton. In the early days there was considerable work and some good ore exposed. They will work on the shaft and tunnel that have already been started and they hope to have ore to ship this summer or fall.

Last week, through Patsy Clark, the Standard company acquired the Alpha and Anacortes claims. The Alpha was owned by McKenzie & McNaught, and lies north of the Standard, with the Surprise Fractional lying between. The Anacortes was owned by James McNaught, and adjoins the Standard and Surprise on the west. The amount of the purchase price has not been given out for publication. The Standard people have been after these claims for some time. They own the Robin and Page on the east, and it is not improbable that they will eventually purchase the Echo and Tiger group north of the Alpha, and the Lost Bear west of it. —Slocan Record.

For the first five months of the year 149,529 tons of ore have been received at the Trail smelter. This exceeds the ore receipts for the same period of last year by about 7000 tons. Rossland shows an increase, and shipped 108,172 tons as compared with 99,708 tons for the same period of last year. Nelson shows a considerable falling off in ore production so far this year, the production amounting to 22,745 tons for the first five months, as against 37,632 for corresponding period of last year. Slocan and Ainsworth show a substantial increase, the shipments so far this year reaching 91,924 tons as against 71,489 tons for the corresponding period of last year. East Kootenay shows a falling off, having shipped this year only 7406 tons as compared with 16024 tons for the same period of last year.

The international polo cup, emblematic of the world's championship, will cross the ocean again, having been won by the English team in the second game of the series by a score of 4 to 2¾.

Starts Third Furnace

The Granby Consolidated company has blown-in the third furnace at the new Hidden Creek smelter, thus placing the plant in full commission. Shipments of matte have been going forward steadily for several weeks.

The ore at Hidden Creek is largely self-fluxing, only 4 per cent coke being used there as against 14 per cent at the Grand Forks smelter. Precious metal values are said to be high enough to off-set the cost of the freight haul across the continent. Both the Canadian Pacific and the Grand Trunk railroads are competing for the freight business.—Boston Commerical.

Neither Teamed Scored

The football game played here last Sunday between the Phoenix and Motherlode teams ended in a tie, neither team scoring. The game was not overly fast, but still some of the playing was very good at times.—Following is the lineup of the teams:

Motherlode—Muscadinne, goal; Hutt and Bray, right and left backs; Corrigan, Carlson and Cameron, right, center and left back; Loraine, Johns, Purden, Weiry and Jones, forwards.

Phoenix—Faulkes, goal; Oxley and A. Dutton, right and left backs; Fisher, Wallace and E. Dutton, right, center and left half backs; Bellis, Clark, Pritchards, Porter and Manning, forwards.

Referee, McDonald, of Grand Forks. Linesmen, Luxen and Cross.

New Pastor Arrives

Rev. J. H. Hobbins, accompanied by his wife, arrived here last week from Vancouver to become pastor of the Phoenix Methodist church. He will conduct hervice here every Sunday morning at 11 a. m. It is understood Mr. and Mrs. Hobbins will make their home in Greenwood, and that Mr. Hobbins will also be pastor of the Methodist church in that city.

CELEBRATION AT CHRISTINA LAKE

Big Crowd Expected to Attend the Joint Picnic Next Monday.

Good weather next Monday is now all that is required to make the Eagles and Scandinavian Aid and Fellowship Societies' picnic at Christina lake the greatest event in the Boundary this year. From present indications there will be a record crowd from here to spend the day on what is probably the prettiest inland body of water in the province. An excellent program of sports has been prepared, which will furnish enjoyment for both the old and young. There will be races for the boys and girls, and for the young ladies and the married ladies, a fat man's race, swimming race, rowing races, walking the greasy pole, a mile running race, and even a race for the old men. There will be a baseball match between the Phoenix and Grand Forks teams. And a wrestling match between Clarence Eklund and Herb Neil. Eklund agrees to throw Neil three times in an hour for a purse of $100. Good prizes are up for all of the events.

Emil Carlson is marshall of the day, and the following are the chairmen of their respective committees: Dance committee, John Morrison; sports committee, A. H. McPherson; police committee, A. O. Johnson; boat committee, Harry Sewell; refreshment committee, John E. Anderson; conductor, Algot Larson.

In all probability the Granby and Rawhide mines will close down on that day.

Special train will leave C. P. R. depot at 7 a. m. sharp.

Messrs. O. Lachmund, general manager, and R. G. Hargreaves, purchasing agent of the B. C. Copper, returned home last Monday from Penticton, covering 107 miles in 4 hours and 15 minutes.

SATURDAY, JUNE 20, 1914.

There is no policy like a paid up one.

Someone suggests changing the name of Alberta to Oilberta.

Phoenix has over 20 automobiles, or one for about every 60 of its population. Can any city in Canada beat it?

In future all hockey printing at the Greenwood Ledge office must be paid for in advance. We presume there's a reason.

Abe Martin says that the feller who used to borrow your wheel barrow now has a son who owes nine dollars for spark plugs.

Before following the advice of a man who tells you how to run your business, it might be well to have a look at the way he is running his own.

It was Mark Twain who once said, "I tell you boys that every proposition that sounds good is not a good sound proposition." The advice is still sound.

There is one oil stock promoter in Calgary who will probably be good in future. The other day he was fined $300 for selling stock before his company was properly registered.

The C. P. R. will sue the owners of the Storstad, and the owners of the Storstad will sue the C. P. R. This, however, will not be of much benefit to the hudreds of poor devils who lost their lives in the disaster.

Some people in Rossland bought stock in the Piedmont Oil company at Calgary from a traveling agent, paying $1 and $1.25 a share. Imagine their surprise when they learned that the same stock was selling in Calgary at 45 cents.

Between Phoenix and Eholt is a fair sized body of water known as Loon lake. It is believed that fish would thrive there if the place was once stocked. The Dominion government would no doubt gladly supply the fish from their hatchery for this purpose if the proper representation was made.

The organization of a first aid class in Phoenix is a step in the right direction. All who can spare the time should take in the lectures. This is a subject in which people generally have too little knowledge. The government is doing its part in placing this pulmotor, which has been duly proven, within the reach of the miners, and the physicians are giving their time and energy to make the classes a success. The mining companies are entirely in sympathaty with the work. It is, therefore, up to the members themselves to see to it that the classes are well filled.

A deplorable situation exists over at Butte. The miners' union of that camp with its 9,000 members is divided against itself. More than 2,000 of these men have refused to recognize the union further. The trouble apparently originated through the heavy assessments levied against the members as benefits for the Michigan copper mine strikers. Some of the miners were said to be paying as high as $8 to $10 a month in assessments. More than $200,000 has been sent from Butte to Michigan. Although the strike in Michigan has been called off, the assessments were continued. At the election just held those who rebelled against continuing to pay these assessments were denied the privilege of voting. This internal strife amongst the members of the W. F. of M. in its largest union is to be regretted, as it knocks asunder their motto: "In union there is strength."

Lives in Solitude

The loneliest road in Ireland runs from Minna to Costello, along the shore of Galway Bay. Sheer moor, quite treeless, bleak beyond words, hardly a stone cabin in sight, and no path but that straight mail road. More sterile than Donegal, more pitful than Clare, the strange net work of grey land and grayer waters constitutes the country of Iar Connacht.

In the heart of this Irish wilderness a solitary lodge shows white against its surrounding patch of green.

Here, behind locked gates, J. Bruce Ismay, former head of the White Star Line, lives in solitude and broods over the Titanic disaster.

Every little seepage starts an oil boom all its own.—Lethbridge Herald.

To a Girl Engaged

"How," asks "Engaged" can a girl be sure the man she loves means all he says?"

The cold, hard fact about it is that she cannot. Neither can he. Solomon, who knew a lot, said all men were liars, and human experience in the centuries since hasn't produced many reasons to change the verdict.

Not necessarily wilful and deliberate liars—let's give them that benefit. But let us also be candid. A man in love is like a man in drink—he is too intoxicatsd to be responsible for all he says.

Do you suppose there ever was a man in love, from Adam down, who didn't swear by all the deities that he would never let the woman take in washing to support him? Yet the washtub supports almost as many homes as the pick and shovel.

Circumstances change, when a fellow gets down to earth, after his emotional tour of the stars, is apt to be practical and matter of fact. If he remembers his ecstatic promises at all, it is vaguely. The wise women doesn't presume upon them. She just marks of the discount to profit and loss, and thanks her luck if there is enough left to make the basis of a working agreement.

No, dear, you can't believe all that Romeo tells you; but you can judge him fairly well on form. Is he kind to those around him? Has he a good clean record in the responsibilities surrounding him at present? Has he good men friends who believe in him and trust him? Back of the froth and embroidery of his impassioned chatter do you detect the rudiments of plain horse sense? Has he shown gumption in tackling the business of making a living for two or more?

If so, and you really love the chap, and would be willing to pare potatoes for him until death do you part, then we guess it's all right.—Exchange.

Coming Events

Sized Up About Right

It is reported that the C. P. R. is losing $75,000 a month in District No. 3, with Nelson as headquarters. Last year it was reported that the C. P. R. was losing a million dollars a year in B. C. The C. P. R. figures the wrong way. The B. C. lines are a part of the entire system. If the entire system pays, the B. C. roads must pay as part of that system. If the entire road does not pay, shut'er down, and give us back the pack train.—Greenwood Ledge.

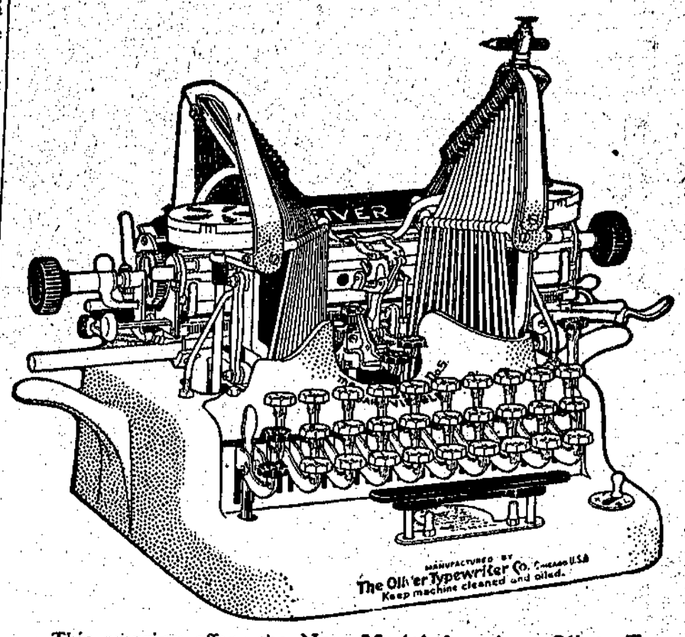
Seventeen Cents a Day Buys an Oliver Typewriter



This amazing offer—the New Model American Oliver Typewriter No. 5 at 17c. a Day—is open to everybody, everywhere.

It is our new and immensely popular plan of selling Oliver Typewriters on little easy payments. The abandonment of longhand in favor of clean, legible, beautiful typewriting is the next great step in human progress. The American Oliver, with the largest sale of any typewriter in existence, was the logical machine to take the initiative in bringing about the universal use of typewriters. It always leads!

Clerks on small salaries can now afford to own Olivers. By utilizing spare moments for practice they may fit themselves for more important positions. A small first payment brings the machine, then you save 17c. a day and pay monthly.

HAVE YOU A BAD SORE?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal YOUR sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's skin. Zam-Buk.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—30690.

The battle of Waterloo was fought on June 18th, 1815.

The Ogilvie Flour Mills company own 27 elevators in Alberta.

Orangemen will hold a big celebration at Creston on July 13th.

Many of the old vacant buildings in Greenwood are being torn down.

The B. C. government's grant for education is over a million dollars annually.

Grand Forks is planning to erect a new fair building at a cost of about $8,000.

Prisoners in the Cranbrook city jail are being fed at an average cost of 13 cents a meal.

The C. P. R. has been asked to build a railway station in the west end of Grand Forks.

The municipal census of Edmonton shows a pupulation of 73,000. That of Calgary is 80,000.

The Grand Forks band has been engaged for the celebration at Republic on the Fourth of July.

Chief Minty has appointed a night watchman for New Hazelton in the person of Canstable Mead.

Tracklaying on the new C. P. R. cutoff to the Granby smelter at Grand Forks has been completed.

The Grand Forks football club will give a smoker in the opera house in that city next Tuesday.

A series of moving picture films will be taken of the Chahko Mika celebration at Nelson for Pathe's weekly.

In one day at Calgary on the oil exchange 25,057 shares changed hands, the money paid over amounting to $79,106. This was a record.

P. Burns, the meat king of Calgary, signifies his intention of attending the oldtimers' reunion at Nelson during Chahko Mika week.

The Royal hotel at Prince Rupert, which has been in the hands of a receiver for some time past, has been sold to an out of town purchaser for $40,000 cash.

Two hundred and twenty-seven oil companies, with a total capitalization of $200,000,000, have been incorporated under the laws of Alberta since the big oil excitement.

A. Campbell, a contractor recently of Salmon Arm, owned a quarter section of land near Calgary and sold it recently for $65,000. The land was in the oil belt.

After being in the water 35 minutes and given up by the doctors, Kenneth Southern, aged three years, who fell into a well at Port Arthur, was resuscitated by a pulmotor.

For the benefit of travelers from Nelson to Spokane over the C. P. R., dining cars have been placed on trains No. 1 and 2 from Yahk to Spokane on the Spokane-International line.

Pat Connolly, claimant of the world's heavyweight wrestling championship, defeated Americus in Vancouver last Saturday night in straight falls. He won the first fall in 54 minutes.

Three hundred thousand dollars' worth of gold bullion, the first shipment of the season from the Fairbanks district in Alaska, was received at Seattle on the steamship Humboldt last week.

Harry K. Thaw, the man who slew Stanford White and was adjudged to be suffering from brainstorm when he did it, is having a nice time trout-fishing in the mountains of New Hampshire.

Paris this week was struck by the worst storm in the history of that ancient city. It caused loss of life and enormous damage to property. Rain flooded the streets and caused the bursting of sewers.

John N Allen, police constable at Kamloops was shot dead last Saturday morning. He had apparently been attacked by tramps, and his body was found just at the entrance of a shack which he had apparently gone to search.

Sir William Macdonald's donations to the Macdonald college of agriculture at Montreal now total $7,000,000, according to figures given out by Dr. Harrison, the principal, at the annual convocation of McGill universary for presenting degrees in medicine, music, science and agriculture.

The C.P.R. is suing the owners of the Storstad to recover two million dollars for the loss of the Empress of Ireland, and the owners of the Storstad have a counter claim of fifty thousand dollars for damages done to their vessel. The owners of the Storstad claim the Empress was at fault, alleging there was negligence in her navigation.

Mr. Dingman, owner of the only oil-producing well in the district, makes the following statement to the newspapers in Calgary: "I have absolutely no interest in the matter any more than an ordinary citizen. The shares of my company are not for sale, and I have no interest in knocking Dingman. Only I think that following the general depression last year people should not be carried away by the mania of speculation."

Buy at Home

Kersmith & Kickshaw deal in wax and Chinese eggs and carpet tacks. They are good sports in every way; they cough up money every day to make the town a better place in which to live and push your face. They hire a dozen clerks or more, who wait on patrons in their store. Our cross-roads burg, they would upbuild, and see it with glad people filled, and to that end they blow their scads like truly patriotic lads. But when we need of eggs a few, we send away to Timbuctoo; and when a carpet tack we wish it's shipped from Ypsilanti, Mich. Each has the notion in his dome that things are best away from home, and so we order hods and hats, and humming-birds and Maltese cats from strangers in some town remote, who would not know us from a goat. We ship away our hard-earned kale, and get our fourth-rate junk by mail. Say, are we seers, or are we fools? Those strangers don't support our schools or keep the pedler on his beat, or help to pave Commerical street. They do not paint the village pump, or build a fence around the dump. If our old burg were blown away the wouldn't care a bale of hay. Kersmith & Kickshaw ought to get the local trade, already yet.—Walt Mason.

The Sensative Spot

Whether you are a salesman with a desire to interest customers, a religious or political worker, or merely a friend, you will find that there is a chord in every human being that responds to the right king of a touch. The secret of friendliness lies in the ability to find these chords and make them vibrate.

In all our dealings with our fellows it is necessary to touch their interests if we wish a response. The successful politician is the one that promises the people the thing that they want most, and that makes good, at least, to some extent. The successful religious worker is he who can put others to work at tasks that appeal to them.

"The Zone" Is the Name

The Midway at the Panama-Pacific Exposition will be know as "The Zone." For ice cream sundaes try the frigid; go to the temperate for lemonade, chicklets, chocolates, chewing gum and fresh roasted peanuts, and the tropic for hot tamales, tabasco sauce, chile-con-carni and Mexican war souvenirs.—Province.

Emil Carlson and Harry Sewell are over at Christina lake today getting everything in readiness for the big celebration there Monday. Danny Deane will also go down and make the necessary preparations for serving lunch on the big day.

Prof. W. B. Marks is in Spokane and has charge of Prof. Boulay's dancing school, while the latter is away on a vacation. Prof. Marks is an old timer in the Boundary and last winter conducted dancing classes both in Phoenix and Grand Forks.

The new No. 7 Oliver typewriter is silent in its operation, but sonorous in its bid for pepularity. It is being swept ahead on the tide of popular approval to its proud place far in the forefront and to the highest pinacle in the typewriter using world. Call at the Pioneer office and inspect this machine. G. Kay, agent.

Tonight at the Miners' Union Opera house a moving picture, depicting the life of Jesus Christ from the manger to the cross in five reels will be shown. The rental of these films will cost the management $35 alone, so it can be seen that the attraction is a special one. This makes it necessary to advance the price of admission slightly. James Cochrane, the popular baritone, in on the program for a couple of selections.

Ed Strand, the general organizer of the Scandinavian Aid & Fellowship Society, (S. H. & E. F.) throughout the United States and Canada, will be in Phoenix on or about June 22nd, and most likely take part in the Eagle-Scandinavian picnic at Christina lake on June 22nd. He will work in the interest of the organization in this province for a time. He will leave Phoenix shortly after the picnic for Vancouver, where he will meet John Dybhavn, the president of the B. C district, now resident at Prince Rupert.

Kootenay in Early Days

A. D. Wheeler, writing in the Nelson Daily News on some of his early experiences around Ainsworth on Kootenay lake, gives many reminiscenses that are of interest at the present day.

In those days he says there were the usual freaks among prospectors who would only work in certain formations. There was the forked stick, dip compass, magnetic ball and spiritualistic medium prospectors, and one man was so sensative to ore indications that he had to sit down and rest or else fall from dizzy sickness the instant he set foot on a ledge.

In the early days of the Ainsworth camp an expert was sent in by the Northern Pacific railway company. After sizing up the situation he reported to his superiors that he could handle all the tonnage that country could produce with a wheel barrow. That engineer still carries an advertisement in the mining journals. Today the camp is a big producer and has a payroll of $30,- a month.

Theodore Roosevelt spent a week around Ainsworth in 1887. He was young and energetic, and particularly interesting in his conversation. He shaved with a safety razor, the first seen in that part of the country. The old Hendryx steamer Galena was making weekly trips to Bonners Ferry at the time and a shipment of ore was being sent out by her. Roosevelt helped to load, working as hard as anyone, but never slackened in his line of talk. He was a most versatile and interesting visitor.

John F. Stevens, a young locating engineer, drifted in from the completed Canadian Pacific railway; later he joined the Great Northern staff and went on up to the general management of that line; then to the Rock Island and eventually under President Roosevelt's appointment took charge of the Panama canal, and is the man responsible for developing the wonderful system Goethals found in force there.

First Aid Class

The first aid class organized in Phoenix by Dudley Mitchell, on behalf of the department of mines, is now well established and the members are making favorable progress. The first lecture was given by Dr. Millar yesterday morning, and the second was by Dr. Ritchie last evening. These lectures are given every Friday, in the mornings from 10 to 11, and in the evenings from 8 to 9. The pulmotor and breathing apparatus to be used in the Granby mine arrived yesterday.

M. H. O. Milk Tests

Samples of the milk delivered to the citizens of Phoenix for the month of May have been tested by the city medical health officer. Following is the result: McKay, 3.40 per cent fat. Hannam, 3.80 per cent fat. Tromblay, 3.40 per cent fat. The total of solids in each case was normal.

Evan Rowlands Hurt

Evan Rowlands was quite seriously hurt while working in the mine last Friday night. He had an arm broken, several teeth knocked out and his tongue badly cut. He was confined to the hospital for a for several days, but is again able to be out and around.
