THE PHOENIX PIONEER is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

SIXTEENTH YEAR — PHOENIX, B.C., SATURDAY, JUNE 26, 1915 — NUMBER 50

Death of Wm. Murray

William Murray, for many years a resident of Phoenix, died on Friday afternoon, May 18th, at the residence of his daughter, Mrs. W. E. Hughes, in Spokane. Mr. Murray had been in failing health for the past two or three years, and of late had grown steadily worse, until finally on the previous Sunday, it was deemed advisable to notify the various members of his family that if they wanted to see him alive, to come at once. The funeral took place on Monday of this week at Fairmount cemetery, Spokane, in the presence of members of his family, and a numerous gathering of relatives and friends. Among the latter was a delegation of Odd Fellows who acted as pallbearers. Included in the many beautiful floral tokens covering the casket, were wreathes from the Phoenix Woman's Patriotic Society, the Morrin, Thompson Company, Spokane Lodge, I.O.O.F., Ladies' Aid of Phoenix Catholic church, and others from distant friends.

Too Much Secrecy

The need for more publicity in the matter of naturalizing aliens in Canada is becoming more apparent every day, and the necessity for amending the law on the subject should be urged on the government without delay. At present the proceedings are surrounded with far too much secrecy and there are men in the Boundary district who, if their intentions had been known, would never in this world have been able to call themselves British subjects. As the law stands at present it is impossible for any objection to be filed, for the very reason that the name of the applicant is not made public.

R. G. Hargreaves, formerly purchasing agent for the B.C. Copper company, recently arrived in England. He has been gazetted a lieutenant with the 2nd Divisional Ammunition Park.

Well Looked After

In a letter to a friend in town, W. H. Sewell, now of the 15th Battalion, writes that he was wounded in an action at Eestubert. At the time of writing he was in a Red Cross hospital at Reigate, in Surrey. "I am having the time of my life," he writes. "There are 20 nurses here looking after fifteen of us. I got wounded in the hip during a bayonet charge. They must have had twenty machine guns playing on us, but we got there all the same. When we got to their trench up went all the Germans' hands, but we never took any notice of that as they had been killing our wounded. The Saxons are a decent lot, but the Prussians and Bavarians are devils. You no doubt heard of the seven hundred Saxons who wanted to surrender. The Prussians killed nearly all of them with artillery fire. Pitpladdy was killed, and I think McQuoid and Jennings, but Sid might show up later."

Father And Son Killed

Among the deaths in Tuesday's casulty lists, appears the name of Corporal Thomas H. Betts, of Montreal, a member of the Second Reserve Army Service Corps. The cause of death is given as hemorrage. His name recalls a distressing incident that occurred during the early days of the war, when his 15-year-old son, Gordon William Betts, of the 5th Royal Highlanders, was accidentally shot and killed while on sentry duty as one of the guards of the Soulanges canal. Both of the soldiers were the brother-in-law and nephew respectively of Miss McKnight, matron of the Phoenix General hospital.

According to information received in town this week, the departure of the 48th Battalion is anticipated almost hourly. The 48th numbers among its members, quite a large number of Phoenix and Grand Forks boys, including Jim Wilson, W. Sullivan and Bob Kerr.

Mining Notes of British Columbia

A great dyke of molybdenite has been discovered seven miles from the head of Stone Lake. According to a Nanaimo engineer, G. R. B. Elliott, who recently made an examination of the property. It has a width of 400 feet, and stands out in full view for a distance of 2,000 feet. The formation on both sides is granite.

An appreciable amount of gold has been taken from the Fraser river bars and benches within the past few months by placer miners. Even the tramp element has earned money in this way.

W. Henderson, of the National Drug company, Vancouver, has received some fine samples of gold and platinum from placer holdings on the Tulameen, in which the B. C. Platinum Company, Ltd., of which as a director is interested.

A two car shipment from the Nettie L and a car from the Silver Cup are being sent down from the north end this month. Leases held upon these properties are due to expire in a short time.—Kootenain.

There is a shortage of accommodation in the shape of eating and sleeping quarters at the Cork-Province, so that for the present, at least, the limit has been reached in the number of men that can be employed. At that, there are several who are sleeping in tents. The big bunk house used at the Cork several years ago collapsed a couple of winters back.

Geo. T. Stewart arrived from the Silver Bell property on Nine Mile mountain last week, making the trip to town in three hours and a half. George brings in a very satisfactory report of the progress of the work at that mine. He is now taking out a lot of very high grade ore; three pieces which he got out on Sunday made a ton when sacked. He will be ready to ship as soon as more sacks arrive.—Omineca Herald.

The French Consul, of Vancouver, has instructions to ascertain the possibility of obtaining from British Columbia supplies of graphite for manufacturing purposes to replace the graphite hitherto exported from Austria. The information as to graphite in British Columbia is very limited. There are occurrences on Bute Inlet, near Swanson Bay, and near Agassiz, and on Queen Charlotte Islands. The latter deposits are of an amorphous character and their value is doubtful, though similar graphite is said to be successfully used in the Eastern States. The reports of the Bute Inlet occurrences date back to amongst the earliest mineral discoveries of the province, and are favorable, but the deposits have been so long neglected, and have never been examined by engineers or geologists. This is work the Provincial Bureau of Mines or Geological Survey should give attention to as soon as possible, as, if there is a possibility of these deposits having any commercial importance, the sooner it is demonstrated the better. The variety of graphite sought is of a soft, flakey, and oily character.—Mining Engineering and Electrical Record.

British Drink Figures

Recent reports from the north-east coast shipyards of Great Britain show that during periods of from five to seven weeks, the time lost owing to drink by the riveters at one particular shipyard equals 35 per cent of the normal week's work; platers, 25 per cent; and the caulkers and drillers, 22 per cent; later returns for the same yard show that by far the greater majority of the workmen are absent at starting time in the morning.

In the case of 135 fitters employed in one British submarine engine works, the hours lost owing to drink, amounted to the equivalent of a week's work for 28 men.

Hufty-Mosher

The wedding of Miss Mary Mosher, of Helena, Montana, to Wm. Frederick Hufty, son of Mr. and Mrs. W. Hufty of this city, was quietly solemnized on Wednesday, June 16th, by the Rev. Father Dom. Dorval, at Greenwood Catholic church. Only the intimate relations of the groom were present. The newly-married couple have taken up their residence on Spion Kop.

Drawing For Gramophone

We are requested to state that the drawing for the gramophone in aid of the funds of the Woman's Patriotic Society, will be held in the Phoenix Opera House, on Tuesday next, June 29th. After the drawing the names of the two ladies who have disposed of the greatest number of tickets will be announced and the prizes awarded.

Granby Shipments

The following are the monthly shipping figures from the local Granby mine to the Grand Forks smelter:

	TONS
January	42,211
February	63,091
March	69,948
April	85,382
May	100,693
Total	361,325

King George pinned the Victoria Cross on Mike O'Leary's breast last Wednesday.

The B.C. Base Hospital

Major E. C. Hart, M.D., who is in charge of the mobilization of the B.C. Base Hospital, and will eventually be in command, states that good progress is being made in the preliminary work in connection with the enterprise, although it is impossible as yet to make public the personel of the medical and nursing staffs. The establishment, he explained, would consist of 32 medical officers, one dental surgeon, two quartermasters, two buglers, 21 sergeants and staff sergeants, and 176 of other ranks. There will also be 75 nurses.

School Children's Picnic

The third annual public school picnic took place on Thursday at the New York Townsite recreation grounds. The affair was a splendid success, upwards of 250 children and their parents being present. In connection with the liberal supply of good things provided, the teaching staff wish to convey their thanks to the many who catered for the children. In this they include the local merchants who so generously donated the prizes for the various contests. The following day the school closed its doors for the summer vacation, which this year is to extend for the next eight weeks.

Chuteman Killed

Isaac Pender, a chuteman employed at the Granby's Gold Drop mine, was fatally injured on Friday morning by a fall while at work. He had only been in the camp a few weeks, and his wife and children had but recently joined him here. The inquest into the cause of death will probably be held this evening.

Statement of Pat. Society

Owing to lack of space in this issue, we have been compelled to defer until next week, the publication of the treasurer's statement of the accounts of the Woman's Patriotic society. The figures and items presented deal with the affairs of the society from the day of its inception to the present

Escape From Jail

Lawrence Thames, a cross between a Siwash and a Japanese, successfully worked his ticket of release on Tuesday by boring through the two-feet solid concrete wall of Greenwood provincial jail. What methods the prisoner employed to worm his way through the wall is not quite clear, but there is a possibility that the exit may have been made by an accomplice working from the outside. He was safely locked up the night before, but at the call for breakfast the only thing they could detect was his absence. He was about 25 years of age, wore his black hair very long, sallow complexion, unusually small hands, sallow complexion, chink-slit eyes, no moustache, dressed in dark blue suit (nearly new), wore light buttoned shoes, and at the time of his unannounced departure possessed no overshirt. His underwear was of the open-net variety. The prisoner was awaiting trial for housebreaking and threatening to slice up a resident of Eholt with a big knife. He is said to have re-entered the building and taken possession of a police revolver and cartridges.

Italians To Report

All natives of Italy, eligible for military service, whether naturalized or not, have been notified to either call personally on the nearest consul or communicate by letter. Married men are required to give particulars concerning their families, with the date and place of marriage. Transportation will be paid to and from their country. Unmarried men will be forwarded first, and the initial departure, is expected to take place not later than the 7th of next month from New York. These will most likely consist of the reservists of the Alpine regiments of infantry and artillery. Under a ruling of the Canadian Patriotic commissioners, the wives and children of Italian soldiers living in Canada will be allowed to benefit from the funds.

Alien Enemies Examined

Provincial Police Constable Geo. Stanfield has been busily engaged during the week recording the personal particulars of local resident Austrians or Germans. Up to the present the number on the register is about 115. Although the new order expressly includes the naturalized of Austrian and German origin, some of them have deliberately absented themselves, and steps are to be taken to round them up. Several of them admitted that they had secured the patents on their Alberta homesteads without the required formality of taking out their naturalization papers. Asked if there were many more who had done the same thing, one of them said there were hundreds. Taking them as a whole their general behaviour while under examination left little to complain about, although there were two or three who showed an impudent streak. What further action the government intended to take in the matter could not be learned up to the time of going to press.

Delayed Subscriptions

W. X. Perkins announces that about seventy dollars of the patriotic subscriptions promised for the month of May, by the residents of the city, have not materialized. He earnestly requests all those who have deferred payment to deposit their money at the Bank of Commerce before the end of the month. With the money already in hand and that forthcoming, the subscription for the month should total about $175.00. Mr. Perkins has already forwarded the sum of 68 dollars to the Overseas Club fund in Toronto, which has for its object the presentation of aeroplanes for the use of Canada's flying corps. It is proposed to forward the remainder to the Canadian Red Cross.

The Admiralty announce that since the commencement of the submarine blockade, there were 24,442 arrivals and sailings of ships.

The Trade at the

Big Store

During the Past Week

Has established two things very clearly. One is that a surprising number of people are interested in

Our Fresh Fruits and Vegetables.

The other fact is that our efforts to please our Customers are warmly appreciated, for which we take this opportunity of expressing our gratitude.

Cucumbers - 20c each
Tomatoes - 25c lb.
Asparagus - 2 lb. 25c.
Cherries - 30c. lb.
Hot House Lettuce 30c. "
Gooseberries - 4 lbs. 25c.

SATURDAY, JUNE 26, 1915.

When travelling through the mountainous mining districts one often sees a rough-clad mountaineer, with a horse or two loaded with provisions, camp and mining supplies, slowly wending their way up the gulch or along the mountain side. His clothes may be stained with mineral stains and candle grease, his fingers protruding from well-worn gloves, his jeans torn and his shoes resembling the sandals of biblical fame. To those unaccustomed to life in the mountain mining camps, its ways and customs, he has more the appearance of an outcast than one of the potent factors in the development of one of the province's richest and most important resources. Take off your hat to him, the prospector of the hills, the mountains and gulches, the blazer of the trails, the forerunner of prosperity, the builder of cities. He is always first on the ground, foremost in the game, the leader of all and the most deserving of all to reap the golden rewards of his toil. In his wake follows the wagon, the automobile, the roads; in short, empires of wealth spring into existence and live for ever upon the foundations he has laid.—Revelstoke Review.

The Rev. E. A. Cooke, the political cat's paw of the provincial Liberal party, is delivering a series of "non-partizan" addresses in the Kootenay. The subject of the discourses is the so-called "Crisis in B.C." We don't know Mr. Cook, or in fact anything of the crisis he wails about, but frankly we do not relish the spectacle of an ordained minister of any denomination, poking his nose into the political affairs of this or any other country. The practice has been found to be a failure in practically every country in Europe, and was once tried with equally disastrous results in Japan. It will defeat itself. We feel sure that if a poll was taken among the adherents of the communion to which Mr. Cooke belongs, asking for an endorsment of his actions, the principle would be repudiated with a vigor that would astonish him and send him back to the sphere of work for which he was ordained.

Methodist conventions might occupy their time more profitably than by passing resolutions denouncing the sending of tobacco to the Canadian soldiers at the front. It surely ought to be enough for such heartless old fogies to know that the soldiers ask for it, and who but a fossilized, sanctimonious old pharisee would deny the brave fellows anything that would in the slightest degree mitigate their dreadful lot. We are told in dozens of letters of the dreadful smell from the unburied bodies that pervades the trenches, and such being the case, no attention other than contempt, should be paid to the anti-tobacco resolutions.

The reasons for the very satisfactory turn in the illness of the king of Greece are beginning to leak out. It seems that when almost all hope for his recovery had vanished, someone telegraphed for the miraculous holy ikon of the Virgin, which at that time was disengaged and doing nothing in particular, at a place called Tiuos. Immediately on receipt of the wire the totem was rushed to Athens and placed in the king's bedroom and his recovery commenced—immediately after the operation.

Last Friday, just one hundred years ago, the sun of Austerlitz dipped below the horizon in Belgium and was never seen again. It set in much the same manner that other such suns have been and will continue to be eclipsed, amid the roar of cannon, the screams of the sorely wounded and the moans of the dying. Let us hope that before this year is out the miscalled sun of the "little Corsican" will be joined in oblivion by the now fading orbs of the Hohenzollerns and Hapsburgs.

The verdict of "wilful murder," which the jury at Kinsale returned against the kaiser, appears to be taken in Germany in much the light of a joke. But the British people have alseady one royal head to their credit, and will make little ado, when the opportune time arrives, to add another to the list. His royal relationship to the British House will cut but little figure, and with him will go the last European exponent of the divine right of a king to do wrong.

British Colnmbia has sent thousands of her young men to the firing line in France, and not a few sailors, crows a coast paper. Yes, but we might have sent more of both, particularly sailors, if this country had not been made a happy hunting ground for the scum of Europe and the Orient. At least, after we had sent our quota the boys would have had the satisfaction of knowing that the country they had left behind was, in fact as well as name a thoroughly British province.

Commenting on the action of its old enemy, William Bryan, in retiring from the U.S. cabinet, the Boston Commercial says: "The campaign of 1916 is launched. William Jennings Bryan, the perpetual candidate, presents a new platform embodying that vote-imploring trinity—prohibition, petticoats and peace."

In Rossland, in the early days, any interruption in the electric light service was generally attributed to the owls flying between the wires and short circuiting the juice. Other cities recently placed the blame on the northern lights.

The Editor's Joys

"Consider the editor," says the Sanford Tribune. "He weareth purple and fine linen. His abode is among the mansions of the rich. His wife hath her limousine and his first-born sporteth a racing car that can hit her up in 40 at.

"Lo! All the people breaketh their necks to hand him money. A child is born unto the wife of a merchant in the bazaar. The physician getteth ten golden plunks. The editor writeth a stick and a half, and telleth the multitude that the child tippeth the beam at nine pounds. Yea, he lieth, even as a centurion. And the proud father giveth him a cremo.

"Behold the young one waxeth strong and graduateth. And the editor putteth into his paper a swell notice. Yea, a peach of a notice. He telleth of the wisdom of the young woman, and of her exceeding comeliness. Like unto the roses of Sharon is she, and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor getteth a note of thanks.

"The daughter goeth on a journey, and the editor throweth himself on the story of the wedding party. It runneth a column, solid. And the damsel remembereth him from afar with a picture postcard that costeth six for a jitney.

"Behold, she returneth and the youth of the city fall down and worship her. She picketh one, and lo, she picketh a lemon. But the editor calls him one of our promising young men and getteth away with it. And they send unto him a bid for the wedding feast and behold, the bids are fashioned by Muntgummery Hawbuck in a far city. Flowery and long is the wedding notice which the editor printeth. The minister getteth ten bones. The groom standeth the editor off for a twelve month subscription.

"All flesh is grass, and in time the wife is gathered into the silo. The minister getteth his bit. The editor printeth a death notice, a cubit of poetry, a card of thanks, and he forgetteth to read the proof on the headline and the darn thing readeth 'Gone to Her Last Roasting Place.'

And all that were akin to the deceased jumpeth on the editor with exceeding great jumps. And they pulleth out their ads and cancelleth their subscription, and they swing the hammer on to the third and fourth generation.

"Canst thou beat it?"

The British and French governments are preparing black lists of all the German officers who have ordered their troops to commit atrocities in Belgium and France.

The crew of the barquentine, N. S. Castle, which recently arrived at San Francisco, from the South Pacific, report that while in mid ocean they were badly inconvenienced by fumes of sulphur.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Concentrates

Cranbrook has established a miniature rifle range in the skating rink.

Last week's display of northern lights was the first they had seen in three years at Victoria.

The Baldwin Locomotive Works, of Philadelphia, have accepted an order for 250 locomotives for the Russian government.

Tom Welsh, an Irishman and a pro-German, was arrested last week at Creston and sentenced to three months in Nelson jail.

Edwin Coulthurst, an Ontario deputy returning officer, has been declared guilty and sentenced to pay a fine of $1090 for altering the ballots from "dry" to "wet."

Up to the present the department of militia have approved of five hundred applications for pensions. Most of them are for widows and children of those kliled in action.

The birthrate in France is beginning to show the effects of the war. In Paris the births during May totalled 1850, as compared with 3890 in the same month last year.

The British government refuses to state why the offer of an American firm to supply five million shells was turned down. What deepens the mystery is the fact that the price was much below that of the ordinary contract figure.

The Dominion Department of Agriculture are recommending the housewives of Canada to store eggs, while they are cheap, by means of the "water glass." After many experiments they find that to be the most effective method of preserving them during the winter.

Judge McInnes has decided that the promissory notes given for the construction of the Y. M. C. A. building, at Vancouver, are not collectable by law as there was no consideration. More than three hundred thousand dollars in subscriptions are overdue.

Thirty-two American doctors and 75 nurses, organized in Chicago, sailed for England on Friday of last week. The doctors were stated to have received temporary commissions in the British army. Dr. James Neff, of Spokane, is in command of the detachment.

Last week a number of Swedes were busy for some hours grappling for the body of one of their countrymen who, it was supposed, had fallen into the Fraser and been drowned. The "dead" man, however, was eventually discovered drowning his sorrow at a nearby hotel."

The Hungarian Society of London, England, announces that all Hungarians feel abhorence at the cruel methods of warfare practiced by the Germans. The Hungarian people, the society adds, do not regard themselves as the enemies of Great Britain. The Hungarians are not Huns.

The German Grand Lodge of Free Masons has formally severed all former relations with Italian and French Free Masonry, in view, as it alleges, of the attitude of the Italian Free Masons, who, inspired by French sympathies, took part in the political struggle leading to the war, and thereby violated the cardinal principle of Free Masonary, which expressly forbids such methods. Toward Free Masons in other lands, the German Grand Lodge reaffirms the decison adopted at an earlier date that all relations of various grand lodges be suspended from the outbreak of hostilities.

HAVE YOU A BAD SORE?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointment. Most of these consists of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c. tablet.

Boundary District of British Columbia

RICH IN MINERAL, AGRICULTURAL AND LUMBERING POSSIBILITIES--- A MOST PROMISING FIELD FOR THE INVESTOR.

Probably no district in the Dominion of Canada possesses so great an array of potentialities as the above. The mountains throughout its entire length and breadth, are almost without exception mineraliferous, containing gold, silver, copper, iron and other valuable ores, while in a few localities there are more than surface indications of the presence of coal.

FOREST AND MINERAL WEALTH

Its forest stretches are among the richest in the province, and what is of great importance, easily accessable to river and railway. There is scarcely a square mile of it that is not either equipped with high tension wires, or which could not be reached by the expenditure of the smallest outlay. Not the least attraction from the point of view of the investor, is the sites for water power, which abound in this district.

Just at present an immense amount of interest is being directed to the recent free gold discovery in Greenwood, while in the same district is to be seen one of the best equipped free gold properties in the west, a not inconsiderable asset in these days of industrial depression and shrinkage of gold reserves. It is in this district where is situated the Phoenix and Grand Forks properties of the Granby Consolidated, together with those of the British Columbia Copper company. In the former camp, and surrounding it for miles on all sides, are acres of crown-granted mineral claims, all awaiting the advent of the investor. The title deeds to these properties, thanks to a beneficent series of mining laws, are unimpeachable, and if proof is wanted of the statement, let us point to the almost entire absence of mining litigation in the courts of the province.

AGRICULTURE AND FRUIT-GROWING CENTRE

The possibilities of the Boundary as an agricultural and fruit-growing centre are also worthy of investigation, and a visit to some of its spendidly equipped orchards will prove a revelation to the stranger. The highways throughout the Boundary makes this section of the province the motorists paradise, millions having been spent on the construction of government roads.

No locality is better served with railroads than the Boundary district. At present this section is served by two of the greatest systems on the continent, the C. P. R. and Great Northern companies, while within a few months the route to the Pacific coast will be commercially curtailed by the opening of the new K. V. V. branch of the former.

Local and General

Roy Patterson left Wednesday for Spokane.

Mrs. E. Puddy and children left Tuesday for Spokane.

Mrs. J. A. Mullen spent Thursday visiting in Grand Forks.

Miss Helen McEwen left for her home in Grand Forks on Friday.

Miss Bell Bagley left on her return trip to Prince Rupert on Monday.

Mrs. J. E. Thompson returned to town on Tuesday from a visit to the coast.

Miss Donnan, of Grand Forks, was a visitor in town for a couple of days this week.

Mrs. Mattinson and Mrs. H. Goodwin arrived home on Thursday from Spokane.

Mrs. W. D. Williams and Mrs. Pritchard were incoming passengers on Saturday's local.

Mrs. Kennedy, mother of Mrs. W. L. Ritchie, arrived last week on a visit to her daughter.

P. J. McCallum, immigration inspector, included Phoenix in his round of visits on Tuesday.

Mrs. D. Lynch, who has been visiting her daughter, Mrs. Wm. Biner, left for Spokane on Monday.

For Sale—Good horse, with saddle and harness; either ride or drive; weight 800lbs.—Apply Pete Hagberg.

Little Joe Strutzel and Jimmie Dermody leave today to spend the school holidays at Pemberton meadows.

Thursday being Dominion Day, the usual motion picture entertainment will be held on Wednesday instead.

Mrs. Roy Clarke and children left on Thursday for an extended visit to her former home at Anaconda, in Montana.

Mrs. Dave Oxley, accompanied by her sister, is paying a few days' visit to Mr. and Mrs. T. Oxley of the Queen's hotel.

The local baseball team are to meet the Danville nine on the Phoenix diamond, tomorrow, Sunday. The game starts at two o'clock.

Wanted, a boy or girl, out of school, to take job as night telephone operator; sleep in office; $20 per month. Apply manager, Phoenix.

RHEUMATISM ARRESTED
Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.
To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength.
Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Eggs for Hatching

From my selected pen of heavy laying White Leghorns.—$1.50 for 15.
F. J. HARBINSON,
Phoenix, B. C.

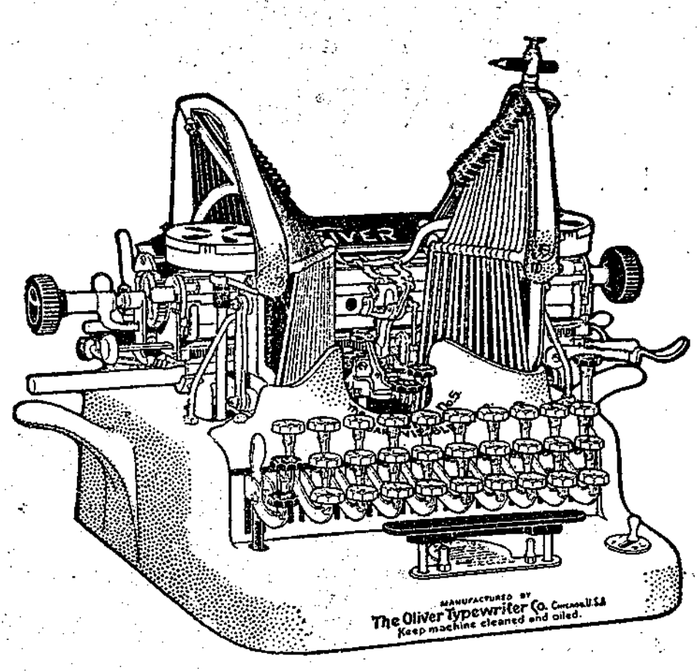
"The Silent Seven"---The Latest Model



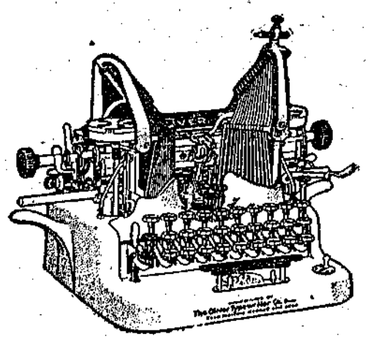
IT'S SO QUIET! Just a pleasant little tapping---just the purring of the type against the platen---that's all.

This model means Lighter Touch, Improved Base, Greater All Round Efficiency, Less Mental and Physical Effort. Speed records that have never been equalled.

The first thing which invariably strikes the attention of one examining the "Silent Seven" for the first time is the wonderfully responsive touch. No one dreamed that such a delightful touch could be embodied in the mechanism of a machine.

The new tabulator is a marvel of efficiency. The carriage slides noiselessly to the appointed place and stops without a jar—an accomplishment which will lengthen the life of the machine. The left marginal release key is now placed is just the right position to act as an anchor for the fourth finger of the operator, and no competent touch operator will have any difficulty in changing from any other keyboard to this one.

Ten year old Florence Field, daughter of Cyrus Field, Professor of Shorthand in Detroit Commercial College, wrote 59 words per minute on The Oliver after two weeks' practice.



PRINTYPE IS OWNED AND CONTROLLED EXCLUSIVELY BY THE "OLIVER TYPEWRITER COMPANY."

Can You Spend 17 Cents a day to better advantage than in the Purchase of this Wonderful Machine.

No child's education is complete without a Knowledge of the Oliver Typewriter.

Call or write for particulars to
G. Kay,
P. O. Box 234, PHOENIX, B.C.
