AND BOUNDARY MINING JOURNAL.

NINTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, JUNE 27, 1908 No. 32

Library Legislative Assembly JUN 30 1908 VICTORIA, B. C.

FOR YOUR

CONVENIENCE

We have laid in a complete stock of

HOT-WEATHER SPECIALS

Your health and comfort should be considered these warm days, and we are fully prepared to cater to your every need.

Lipton's Lime Juice, cooling and healthful. Quarts, 60 cents; Pints, 35 cents.
Welch's Grape Juice, the pure and unadulterated "Fruit of the Vine." Pint bottles, 40c.
Lipton's Potted Meats, in great variety, 20c.
Heinz Sweet Mixed Pickles, 50c.
Heinz Sweet Gherkins, 50c.
Heinz Dill Pickles, 3c. each.
Heinz and Van Camps Pork and Beans, Large, 35c.; Small Size, 20c.
Clark's Lunch Tongue, 40c.
Aylmer Chicken or Turkey, 40c.
King Oscar Sardines, 20c.
Albert Sardines, 15c.

Arriving daily from Macy's ranch, we have fresh Strawberries. Picked from the vines in the morning, and delivered to us the same evening. These berries are large and firm, with a piquancy of flavor which is unexcelled.

Next week, Raspberries will be shipped to us under the same conditions. Phone us your orders, and they will receive careful attention.

HUNTER-KENDRICK Co., Ltd.

Curlew Butter

We are selling more of this Brand every day, and we are safe in saying it is by long odds the BEST Butter that comes to town.

We are sole Agents in Phoenix for the Curlew Creamery Co., and will handle no other brick Butter besides Curlew this season.

In order to get the Butter in perfect condition during the hot weather the Creamery people are now arranging for an Ice Chest on the Express into Phoenix, and on arrival here we immediately put it in our Refrigerator, so that it reaches your table in perfect condition—in fact there is none of it over forty-eight hours old when placed on sale.

35c. per pound

If you have not yet tried this Butter, we ask you to get one pound of it, for we feel sure you will become a steady butter customer in consequence.

Season's Fruits

We have made arrangements with the owners of Cliff Farm, near Marcus, Wash., for handling their entire crop, and they advise us that prospects were never brighter for a big output. The following is an extract from their last letter to us:

"We will have, as near as we can figure, 150 boxes of Cherries, assorted varieties, 100 boxes Plums, 100 boxes Italian Prunes, 100 boxes Hungarian Prunes, 100 gallons Currants, 100 gallons Gooseberries, 50 crates Strawberries, 50 crates Raspberries, 150 boxes Peaches, and 600 boxes Fancy Summer and Fall Apples. We will ship you nothing but first grade and quality, nicely packed, and will pick, pack and ship to you within 24 hours, so all perishable fruit will reach you nice and fresh."

In addition to the above, Mr. Morrin will be sending us from time to time Fruits and Vegetables from our Branch at Peachland, B.C., so that we consider we are in position to look after your fruit business this summer. Better drop in some time soon, and get one of our blank order forms, and fill it in with what you think you will require, and you will have no more trouble about your supply of Fruit.

MORRIN, THOMPSON & Co.,
Grocers and Hardware Merchants.

BROOKLYN AND RAWHIDE BUSY

Smelter Blows in First Furnace To-day.

Dominion Copper Officials Visit Their Mines Here.

The whistle at the Broolyn mine tooted loud and long last Monday morning—and a musical note sounded through the camp. It announced the resumption of the Dominion Copper company, after a close-down of nearly eight months, and caused much jubilation in Phoenix.

At the Rawhide mine yesterday Superintendent Rundberg said there were about 65 men employed, and the force would be increased to 100 early next week. Shipping would commence on Monday.

Three machines are operating and about 25 men at work at the Brooklyn, and C.P.R. cars will be loading ore there today.

The Sunset mine will be shipping ore by Monday. There are about 25 men already employed and in the course of a couple of weeks will be employing 150 men.

It has been decided to have the ore at the Mountain Rose mined by contract, and the contract will probably be let today by Superintendent Rundberg.

At the smelter yesterday everything was in readiness to blow in, with a force of about 40 men employed. The first furnace will be blown in this morning.

H. H. Melville, of New York, vice-president of the company, was welcomed to the camp last Saturday evening, numerous surface blasts at the Brooklyn mine being discharged in his honor. He made the official announcement that the company would resume operations this week. M. M. Johnston the company's consulting engineer, arrived from Salt Lake on Monday evening and was accompanied by T. A. Provot, a director.

On Tuesday the visiting officials, accompanied by Manager P. F. Rossa and Superintendent Chas. Rundberg, made a general inspection of the company's mines and compressor plant, taking lunch at the Rawhide. Interviewed by the Pioneer at the Hotel Brooklyn on their return, Mr. Melville and Mr. Johnston said they had found things at the mines and smelter in good shape to resume without little delay. As the company closed down last fall without cleaning up at the smelter, said Mr. Melville, operations are being resumed under favorable circumstances. There is a good supply of both fuel and ore to keep the smelter running until the shipments of ore commence from the Rawhide.

They also considered the prospects for the company operating on a substantial paying basis are bright. Last summer a new giant furnace, with a capacity of some 700 tons daily—among the very largest in Canada—was installed, thus enlarging the smelter battery of two small blast furnaces to some 1200 tons daily. The new furnace has mechanical feed devices, somewhat similar to those of the Granby and B. C. Copper company smelters, but the two old furnaces have still been fed by hand. The old furnaces are being blown in first, while some new trackage for the electric feed cars and other equipping is being done to the new furnace. This will perhaps require a couple of weeks and when the new furnace gets running the two old furnaces will be blown out to allow of the electric feed system, and trackage, being installed to each of them. When these details are completed, said Mr. Johnston, the smelter will be in good shape to treat ore economically.

At the mines, they said, work would just be taken up where it was left off last fall, and continued. At the Rawhide the ore is mined largely from glory holes or tunnels—there is no hoisting—and ore will be ready for shipment in a few days. The Brooklyn will require considerable cleaning up, as a result of the cave in, which occurred last October, filling the lower levels considerably. Shipping will be done through the temporary chute erected until the ore bunkers, which collapsed with the cave-in, can be rebuilt, which may not be for some weeeks. Shipping would also commence as soon as possible from the Sunset, in Deadwood camp, and the Mountain Rose in Summit camp.

Asked if there was any change in the company's officials Mr. Melville stated that W. C. Thomas had resigned from the position of manager, and that P. F. Rossa had been appointed as successor. Mr. Melville left for Seattle and Mr. Johnston for Spokane on Tuesday and expect to return in a fortnight when operations have reached normal.

Boundary Side Lights

Oroville defeated Grand Forks 20-2 at baseball last week.

Strawberries grown in the valley are now on sale in Grand Forks stores.

The population at Mother Lode is growing. Three babies arrived last week.

Greenwood defeated Midway at baseball in the latter city last Sunday afternoon.

The Grand Forks Sun reports new potatoes being large enough for table use in the valley.

Bert Logan is a Fire Warden on the north fork of the Kettle river. His duties consist in guarding the properties there of the C.P.R. against destruction by fire.

On Tuesday, June 16th, John Washkosks was married to Miss Julia Lavonture, both of Greenwood. The ceremony was performed by Rev. Father, Bedard, O. M. I., at the church of the Sacred Heart.

The S.F.&N. freight, consisting of nine cars was wrecked at Addy, on June 19th. Two hoboes, stealing a ride were injured, one receiving a broken leg and the other having his arm dislocated.

J. D. Gillis, provincial school inspector was in Grand Forks last week, in response to the petition of the residents of the farmers at the west of the city for the establishment of a separate school district. It is expected that the petition will be granted.

R. D. Fullerton, principal of the high school at Grand Forks has resigned and will be succeeded by J. H Keller. Mr. Keller is a graduate of Toronto university and has been a high school teacher for the past 18 years, and was for 9 years principal of the Sherbrook academy.

LIGHTNING STRIKES GRANBY COMPRESSOR

Arresters Unable to Cope With Force of Current.

The electrical storm which passed over Phoenix on Friday evening of last week played great havoc at the compressor plant of the Granby company. The two large 700-horse power motors received a bolt of lightning and were temporarily disabled, a great deal of the coil in each of the motors being burned out. Although equipped with arresters and circuit breakers designed specially to prevent such accidents, these were were unable to cope with the force of the electrical current. One of the motors was able to be restarted temporarily, which, with the assistance received from the Dominion Copper company's compressor by tapping its air main to the Rawhide, the machinery at the Granby mines were able to continue with but slight interruption.

A dozen mechanics were busy with the other motor until late Sunday night when it was again placed in commission. The second motor underwent repairs on Monday and Tuesday and was again running as usual on Wednesday.

E. Lane, of Grand Forks, and A. Hillier, the company's electrical engineers, who were in charge of the repairing, had the air current breaks replaced by oil breaks. The oil breaks are expected to act as a greater preventative against such occurrences.

SPLENDID RECEPTION AT ROSSLAND

Excursion To Rossland was Thoroughly Enjoyed

The excursion under the auspices of the Scandinavian Aid and Fellowship Society, Phoenix, returned from Rossland at 1:40 a. m. yesterday, the train having been delayed a short time by a rock slide near Cascade.

The excursionists are most enthusiastic about the splendid reception accorded them by citizens of Rossland, and at their enjoyable trip generally. They were met at the depot and escorted to the Union hall. The procession of the lodges is said to have been the most spectacular parade ever seen in that city. The feature of the parade was three little Phoenix girls attired in the national colors and carrying their respective flag,—Edna Swanson, representing Sweden; Francis Larson, Norway; and Seagre Elmgreen, Denmark. These were preceeded by a large Union Jack and followed by the Phoenix lodge's beautiful new banner. Grand Forks and Trail lodges were also represented in the procession.

At the Union hall an address of welcome was delivered by Mayor P. R. McDonald, and speeches made by Smith Curtis, E. S. Winn and C. Erickson, the organizer. After a special dinner served at the Cliff hotel the afternoon was spent in sports at the picnic grounds.

C.P.R. OFFICIALS IN BOUNDARY

Drive From Penticton to Midway to View Route for Future Construction.

G. J. Bury, general manager of the C.P.R. lines between Winnipeg and the coast was in the Boundary on his way through the Okanagan and Kootenay sections a tour undertaken, Mr. Bury says, for the purpose of bringing him into closer touch with the conditions and wants of the country and people. While Mr. Bury recognizes the need of railways for the opening up of the country he had no information as to the continuing of the coast line west of Midway nor of the connection between Cranbrook and Fort Steele and Golden. There is a great deal of railway building in the prairies and for this year the Canadian Pacific are apparently merely improveing their track along this section of the province against the day when it will have to accommodate a far heavier traffic than is the case at present.

Mr. Bury was accompanied by T. T. Busteed, general superintendent, Vancouver; G. S. Wilson, superintendent of telegraphs; and J. C. Gore, superintendent of B. C. lake and river steamers. The party drove from Penticton to Midway, a distance of 100 miles, and the Penticton Press states that such a trip foreshadows the construction of the C.P.R. between these two points.

DIAMONDS ARE STOLEN

$12,000 Worth Disappear from Operator's Office, Rossland

Twelve thousand dollars worth of diamonds, used for drilling purposes, disappeared from the office of Stone & Knight, Rossland, and the police, so far, have no clue to the thieves.

Knight & Stone have a contract for drilling work on the Centre Star and have their office on Centre Star ground, under the company's offices. On Saturday night at 11:30, when going off shift, the men, in charge left $12,000 worth of black carbon diamonds in a concealed place in the wall of the office. The door of the office was locked and the key placed on a shelf or ledge outside the door.

Sunday morning at 11 o'clock it was discovered that the diamonds had all been taken.

Boundary Mining Notes

James McGregor, of Nelson, provincial mine inspector, was in camp for a few days this week inspecting Boundary mines.

Eight men are now working on the Woodburn claim of the recently incorporated Phoenix Mining, Smelting and Development company.

Miners started work on Monday on the tunnel being driven on the Lucky Shot, the property of the recently formed development company of the same name.

A report comes from Rossland that C. Beisel superintendent of the Snowshoe mine here, will return in about ten days to prepare the mine for resumming.

Herb Smith who has been in this camp for some years, left yesterday for the Dominion Copper company's Sunset mine, where he will be in charge of the compressor.

The B.C. Copper company's smelter treated 10,110 tons of ore this week, distributed as follows: Mother Lode, 6,215; Oro Denoro, 3,218; Napoleon, 619; Lone Star, 58.

Cecil Martin, who is a student in mining engineering at Pullman college, arrived home last week, and is taking a position in a local mine to study practical operation during the vacations.

N. W. Sweetzer, J. Darr and W. Lindsley, all students at Pullman in mining engineering, arrived in camp last week, and will spend the vacation in the mines here obtaining practical experience.

At the Mother Lode mine an emergency hospital or first aid depot is being erected for use in case of accidents. The new building will be equipped for taking measures toward relieving injured men until the arrival of doctors and ambulance.

GRANBY CO. SPEND $500,000

In the Improvements at Mines and Smelter.

Large Tonnage Enables Company to Make Profit.

Improvements to facilitate the production and reduction of ores at the Granby mines and smelter, completed and in progress for the year, represent an expenditure of $500,000 according to Jay P. Graves, general manager of the Granby company, after an inspection of the properties here last week.

"The additions and general improvements made and in the course of completion this year are all in the line of decreasing the cost of operation," said Mr. Graves. "We have built a new dust chamber of steel in place of the underground dust chamber. The new dust chamber is entirely above ground and is provided with an endless chain system for conveying the dust to one end of the chamber where it is collected to be converted into briquets for resmelting. Other late improvements include steel buildings over the furnaces and blower room. An addition to the concentrator building has been made and new air compressors and a converter have been installed. The number of crushers has been increased from two to four. Each of the crushers has a capacity of 15,000 tons of ore in 10 hours.

"Although the copper market is not strong a large amount of our tonnage enables us to realize a profit. To maintain a profit after figuring the outlay for operation and fixed charges, we have found that it is necessary to make every improvement possible to decrease the cost of production and it is for that reason that the improvements have been made."

Formal Opening Tomorrow.

The management of the new Finnish hall have arranged for a splendid program for its formal opening which takes place tomorrow and Monday.

The program tomorrow commences at 2 p.m. Addresses will be delivered by the famous Dr. Titus, of Seattle; Martin Hendrickson, of Astoria, Oregon; J. L. Nieme and John McInnis, M.P.P. There will also be solos and recitations, and James' Orchestra will render several selections during the afternoon. Supper will be served from 5 to 7 p.m.

The program for Monday will start at 10 a.m. with speeches by Dr. Titus and Martin Hendrickson. In the evening a dance will be given in the hall, for which James' orchestra has also been engaged.

Generous Donation.

The treasurer of the directors of the Phoenix hospital received a cheque this week for $25 from the Hamilton Powder company, through their provincial manager, E. W. Monk, of Nelson.

Latest Prices in Metals.

NEW YORK—Copper, electrolytic, $12. 62½ @ $12.87½; lake, $12.87½ @ $13.00.
Bar Silver, 54⅝
Lead, $4.47½ @ $4.52½.
Spelter, $4.55 @ $4.60.

The Kilties Are Comin'.

The Kilties band, the world-renowned Scottish concert band, now on a tour of the world, will be seen in Greenwood, on Monday, July 6th, for one performance only. This organization, which holds a world-wide reputation, will leave Vancouver in July en route to Australia, South Africa and the Orient, and it is undoubtedly the largest aggregation of artists ever launched on such a journey, and is especially augmented by the Clan Johnstone troup, the world's greatest dancers and pipers, who on several occasions have appeared by royal command before His Majesty King Edward VII., and the late Queen Victoria; the celebrated male choir, the champion boy piper of the world, and the two giant drum majors, each over seven feet tall. The management feel that this is easily one of the most notable band engagements ever offered the public, and have consequently made arrangements for the auditorium, where the crowd could best be accommodated, and where the programme can be rendered to best advantage. Seats can be reserved at Harry James' store, Phoenix.

BOUNDARY ORE TONNAGE.

June 27, '08

The following table gives the ore shipments of Boundary mines for 1900, for 1901, for 1902, for 1903, for 1904, for 1905, for 1906, and 1907, as reported to the Phoenix Pioneer—

Nelson has a new weekly newspaper the Kootenay Liberal, published by the Liberal Publishing company, the first issue appearing last week.

It was thought when the present proprietors acquired the Nelson Daily News the paper would possibly be conducted along fairly independent lines, and as such could have done excellent service in building up the southern interior of the province and undoubtedly been a financial success. But the News has become an organ of the Conservative party, and it is hardly to be expected that the Liberals of Kootenay, who for so many years had a fearless exponent in the News, could remain long without a party paper under such circumstances.

The Liberal is being issued as a weekly for the present, but will probably become a daily later on. The following is an extract from an editorial in its first issue: "Why is The Liberal here? It is here because recent events have made it necessary for a large section of the political community to secure journalistic voice. It is here because The Daily News—once the pride and boast of western liberalism, is now a conservative party organ. It is here because it is not well for such a tory paper to dwell in a city alone, lest it subtly pervert the views of a too credulous people. It is here to support the fundamental principles of liberalism, to interest, amuse and instruct its readers, to prevent the electorate of the Kootenay from taking a too one sided view of questions of the hour, and generally, to play its part in life so that throughout the length and breadth of this district it will be a welcome as well as a helpful guest in many a home."

Westward Ho is to hand for June, with increased brightness and every page is interesting. It has completed its second volume.

Penny postage between United States and Great Britain will become effective on October 1st. The rate will be the same as between Great Britain and her colonies, one penny, or two cents, per ounce.

"United Canada," which is usually well informed on political matters, says that Hon. Mr. McBride will be a K.C.M.G. on the King's next birthday. There's nothing to good for British Columbia's premier.

The Standard of Empire, the new London weekly, has been well received throughout the Dominion. The following was Earl Grey's congratulatory letter: "I offer you sincere congratulations upon the opening number of Standard of Empire, and wish success to this plucky endeavor to meet a want which is widely felt in all parts of the Empire."

After vacation the Union Jack is to fly from every school in British Columbia. Dr. Young, the minister of education, has decided that the youths of the province require a schooling in loyalty, and the hoisting of the flag will include a ritual ceremony and the singing of the National Anthem daily. The flying of the flag is a good idea, but pupils can utilize their time at school to better advantage at arithmetic and English than in loyalty ceremonies.

B. E. Walker, president of the Canadian Bank of Commerce, says the crop outlook in the west, from the reports received by the bank, is good. The natural result of a good crop, he intimates, will be that money will be easier, municipalities will find themselves able to sell their bonds, and some of them perhaps will take advantage of this perhaps to plunge into improvements on the old large scale. This will not be justified, he says, for the country needs caution as well as crop.

Next Wednesday will be Canada's birthday. She will be 41 years old with the healthy growth of one in her teens.

Canada.

Hail to the Great Dominion,
Her flag in splendor flies
Upon the winds' wild pinion
'Neath blue Canadian skies;
And when the breezes bear it
Aloft on tower or flood,
It wakes out kingly spirit,
It stirs our Viking blood.

Our Fathers of our nation
Have builded sure and strong
On broad and deep foundations
Of valor, truth and song;
They came while yet 'twas morning,
They throned the true and best
And bonds and barriers scorning,
They dared the dauntless west.

Our might shall melt the mountains,
Our commerce gird the seas,
Our forests, fields and fountains
Give music to the breeze.
Here Scotland's purple thistle
With England's rose shall stand,
The fluer-de-lis shall listen
To the harp of Ireland.

Never may blight of battle
Or thundering steel girt host,
Sword-clang or war-drum's rattle
Disturb our peaceful coast.
The bulwarks of our own land
God and the right shall be
Our Canada the homeland
Our power and liberty.

Build then a flaming alter
And with its sacred fire
Of love and praise exalt her,
The land of our Desire.
Oh happy consummation,
Oh destiny sublime,
To be a righteous nation,
The standard for a time.

—Albert D. Watson, Toronto.

WIND ON THE STOMACH
HEADACHE
CONSTIPATION

Wind on the stomach is just the bad gas that rises from undigested food. Constipation comes of sluggish liver, and the impurities in your blood cause headache. Mother Seigel's Syrup cures all these by strengthening stomach and liver, and enabling you to digest your food.

Are Cured by MOTHER SEIGEL'S SYRUP.

Price 60 cts. per bottle. Sold everywhere. A. J. WHITE & CO., Ltd., MONTREAL.

ROVINCIAL.

A new wagon road is being built from Laggan to Roger's Pass.

A weekly stage is now running between Hazelton and Aldermere.

The Okanagan Mounted Rifles at Vernon, recently organized, is 88 strong.

E. Boyce committed suicide at the Central hotel, Revelstoke, a few days ago.

A brick yard is being started at Princeton by L. P. Gow, late of Rossland.

Sir Charles Hibbert Tupper anuounces that he is out of politics for good.

Grand Forks is paying its mayor $250 a year. The alderman get nothing but abuse.

Fifty-eight candidates were initiated into the Orange order at Summerland a few days since.

A daily steamship service between Prince Rupert and Port Essington has been established.

Steps will be taken at once to deport one thousand Hindus who are out of work in Vancouver.

Amy Buchanan was made to pay a peddler's license of $50 for selling corsets in homes at Victoria.

The plans of Prince Rupert townsite are being examined by the provincial executive this week.

The formation of an association embracing all the salmon canning factories on the coast is spoken of.

Owing to the prevelance of smallpox, compulsory vaccination will be the rule after the summer vacation.

Nine million feet of timber ran amuck down the Slocan river, owing to the bursting of a boom. Loss $60,000.

C. B. Bratton, agent of the Metropoliton Insurance company at Victoria, was arrested on Saturday charged with incendiarism.

Two British Columbia men have received honors at McGill this year. They are E. H. Funk, of Rossland, and C. T. Wilson.

A prominent resident of Revelstoke has been threatened by the Black Hand, the dreaded secret society of Italian anarchists.

A new industry is contemplated for Nanaimo in the shape of a company for the manufacturing of fine coal and dross into briquettes.

An old timer in West Kootenay, Frank Wood, who used to live in Sandon, is now running for the United States senate in Florida.

Free text books are to be supplied to students of the public schools of the province after holidays, involving an initial outlay of $30,000.

The Rossland city council has declared Thursday, July 16, a civic holiday, that day being the anniversary of the founding of the Miners' union.

A big grizzley bear was killed near Jedway with a 32 caliber revolver by Dr. Jordon, of Vancouver. It took eight shots to put bruin out of business.

A Kamloops delegation waited on the Government to urge that Kamloops instead of Revelstoke be made the base for a road to Tete Jeune Cache for use in carrying supplies to the Grand Trunk Pacific.

Captain J. E. Gilmour has placed a $5,000 order with Weller Bros., Victoria, for the furnishings of his new hotel at Prince Rupert. Captain Gilmour's hotel is the first to be erected there, with the exception of the G.T.P. house.

CUSTOM'S BROKER

MR. C. V. MUTART ST. CATHARINES

CURED of ITCHING PILES

Mr. C. V. Mutart is a Customs Broker and Insuranc Agent at St. Catharines, Ont. He writes the Zam-Buk Co. as follows: "I have been a sufferer for years with itching piles. I have spent many dollars on advertised remedies for Piles but got no relief. A friend of mine advised me to try Zam-Buk. I had but little faith in any remedy to cure me, but tried one box and I got relief at once. I have used four boxes and am completely cured. I cannot thank you enough for such a wonderful curative salve. I have recommended Zam-Buk to my friends and they too were cured."

ZAM-BUK Sold by all druggists and stores, 50c. or the Zam-Buk Co., Toronto

An upeavel occurred in a coal tunnel at Fernie last Friday night and three miners lost their lives. They were pinned to the roof of the mine by the upheavel.

The first wireless telegram received from any of the steamers plying across the Pacific Ocean came to the Victoria station last week, when the Japanese steamer Tango Maru reported from approximately 300 miles off the coast of Vancouver Island on her way from Yokohama.

Mistaken for a bear while he was crawling up a steep slope on his hands and knees last Sunday morning Richard Grummett, a logger, was shot and fatally wounded by B. F. Blakeslee, his partner, at Bear Bay, at the head of Bute Inlet.

The steamer Prospector arrived at White Horse, Yukon, a few days ago, having $2,000,000 in gold aboard, after the longest voyage en route she has made on the river. She had a difficult trip in ascending both Thirty Mile and Fifty Mile rivers, and was stuck on sand bars for several days. The Prospector had twelve passengers, among them George Reed, of Fairbanks.

For a consideration of over $250,000 J. S. Emerson has disposed of a half interest in his lumbering business to Messrs P. D. Roe and Robt. Abernethy. The property involved in the transfer includes the Emerson cedar mill at Port Moody, the four tugs, Erin, Shamrock, Evergreen and Afton, and logging business scattered at various points along the coast between Vancouver and Brougton island.

C. D. Rand, who will sell the provincal governments lots at Prince Rupert is said to be strongly in favor of disposing of the same by private sale. He considers that at a public auction exorbant prices would be paid. Pursuant on this the Conservative association at Prince Rupert has passed a resolution unanimously in favor of selling the province's share of lots by public auction, the sale to take place at the townsite.

IN THE TRAIL OF A TRAVELLER.

(Being the third installment of some observations made by the former editor of the Pioneer, while enjoying a vacation.)

From Portland, Maine, to Portland, Oregon, is certainly a far cry. A number of years ago, before we became inoculated with the western fever, we had occasion to visit the former place on business. Maine was a prohibition state, and so everything was presumably "dry" within the state boundaries, but as a matter of fact, the drug stores did a remarkable business in special physicians' prescriptions. In reality we found that "wet" goods could be had in the very hotel in which we made our headquarters—even though we were not in search of the damp goods counter.

We are reminded of the above experience of 20 years ago by a recent visit to Portland and other Oregon points. An election had just been held, local option being up and several counties had had a "dry" majority vote, though Portland (Multnomah county) has not yet followed its Atlantic namesake in this regard, being still as wet as any one could desire—both hydrographically and spiritually. Just the same, over half the population of Oregon has voted dry and every year sees accessions to the the prohibition ranks. The situation is one that admits of a good deal of speculation and that does not make the brewers, hop growers and liquor dealers show any large amount of hilarity. Before we got out of Oregon, we went through some of the dry counties, in one of which, Tillamook, they have 150 inches or over 13 feet of annual rainfall. So it is both dry and wet there at the same time.

Of all the cities on the North Pacific slope, Portland impresses us as being the most solid and permanent in every way. This is largely because it is the oldest city in the territory mentioned, has many millionaires and its now energetic residents have now awakened to the vast heritage of which it is the commercial headquarters. Of course, Seattle, Spokane and Tacoma are securing big chunks of Portlands former trade; still Portland's trade is steadily increasing and growing, and strangers get a most favorable impression of this webfoot town, which gained such an impetus from the successful Lewis & Clark exposition of three years ago, and where the extensive traction facilities are yet so inadequate.

We happened to reach Portland at the time of the annual Rose Festival, and it was well worth taking in. Such a profusion of blooms it was never our good fortune to see before. There were parades of all kinds, in which vehicles were fairly smothered in roses, while public buildings and business houses generally were decorated profusely with every conceivable kind of roses and other flowers. In the automobile parade, the several hundred cars were covered from headlight to tailboard with blooms that we in the Boundary would almost call exotics.

One auto came from Spokane, and was decorated with thousands of Spokane grown roses, another came all the way from Los Angeles under its own power to attend the festival. It was a scene not to be forgotten.

While we were in Portland the Pacific Coast Ad Men's Association held a meeting there. Among the attendants was Percy F. Godenrath, of Vancouver, B. C., now the manager and publisher of Westward Ho, a monthly magazine. Percy is well known in the Boundary, being at one time a resident of Greenwood. His friends will be pleased to hear that he is making good and apparently doing well in Vancouver.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive *free* booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

COPPER HANDBOOK

(New Edition Issued March, 1908.)

SIZE: Octavo.
PAGES: 1228.
CHAPTERS: 25.
SCOPE: The Copper Industry of the World.

COVERING: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

THE MINER needs the books for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.

THE METALLURGIST needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

THE COPPER CONSUMER needs the book for every chapter it contains. It tells what, and explains how and why.

THE INTESTOR IN COPPER SHARES cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: $5.00 in buckram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

WRITE NOW to the editor and publisher.

Buster's Philosophy.—XXX.

Resolved, that lessons is all right in the right time and place, but the trouble with us is that we do things out of time and out of season, then wonder why they do not succeed. If a man wants to be good, let him be good when some poor cuss needs help and kindness. That business of putting on your best clothes and going to church on Sunday isn't being good. Being good is knocking off the interest, reducing the rent or raising salaries. A kind word to the poor agent at your door is better than giving a stained glass window. Come let's think, the pomp of a prelate will look like thirty tents in heaven.

No. 2,104.

"COMPANIES ACT, 1897."

CERTIFICATE OF INCORPORATION.

I HEREBY CERTIFY that "The Phoenix Mining, Smelting and Development Company, Limited," has this day been incorporated under the "Companies Act, 1897," as a Limited Company, with a capital of one million dollars, divided into one million shares of one dollar each.

The Company is specially limited under section 56 of the above Act.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 1st day of June, one thousand nine hundred and eight.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been incorporated are restricted to the matters mentioned in section 56 of the "Companies Act, 1897," and amendments to, and are:

(a.) To obtain by purchase, lease, hire, discovery, location or otherwise, and hold within the Province of British Columbia, mines, mineral claims, mineral leases, prospects, mining lands and mining rights of every description, and particularly the mineral claims situate in Wellington Camp, in the Grand Forks Mining Division of Yale District, British Columbia, and known as the Woodburn and Woodburn Fractional Mineral Claims, and to pay for same either in cash or fully or partly paid stock in the Company; and to work, develop, operate and turn the same to account, and to sell or otherwise dispose of the same or any of them, or any interest therein:

(b.) To dig for, raise, crush, wash, smelt, assay, analyze, reduce, amalgamate and otherwise treat gold, silver, copper, lead ores or deposits and other minerals and metallic substances and compounds of all kinds, whether belonging to the Company, or not, and to render the same merchantable, and to buy, sell and deal in the same or any of them:

(c.) To carry on the business of a mining, smelting, milling and refining company in all or any of its branches:

(d.) To acquire by purchase, lease, hire, exchange or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights-of-way, water rights and privileges, mills, factories, furnaces for smelting and treating ores and refining metals, buildings, machinery, plant or other real or personal property as may be necessary for or conducive to the proper carrying out of any of the objects of the Company:

(e.) To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any canals, trails, roads, ways, tramways, bridges and reservoirs, dams, flumes, race and other ways, water-courses and aqueducts, wells, wharves, piers, furnaces, saw-mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works and appliances, warehouses, buildings, machinery, plant, stores and other works and conveniences which may seem conducive to any of the objects of the Company, and, with the consent of the shareholders in general meeting, to contribute to, subsidise or otherwise aid or take part in any such operations, though constructed and maintained by any other company, or persons outside of the property of the company, and to buy, sell, manufacture and deal in all kinds of goods, stores, implements, provisions, chattels and effects required by the Company, or its workmen or servants:

(f.) To build, acquire, own, charter, navigate, and use steam and other vessels for the purposes of the Company:

(g.) To take, acquire, and hold as the consideration for ores, metals, or minerals sold, or otherwise disposed of, or for goods supplied or for work done by contract or otherwise, shares, debentures, bonds, or other securities of, or in any other company, the objects of which are restricted as herein aforesaid, and to sell or otherwise dispose of the same:

(h.) To enter into any arrangement for sharing profits, union of interests, or co-operation with any other person or company, carrying on or about to carry on any business or transaction which a company specially limited under section 56 of the "Companies Act, 1897," and the amendments thereto, is authorized to carry on:

(i.) To purchase or otherwise acquire and undertake all or any of the assets, business, property, privileges, contracts, rights, obligations and liabilities of any person or company carrying on any part of the business which a company specially limited under the Companies Act, 1897," and amendments thereto, is authorised to carry on or possessed of property suitable for the purposes thereof:

(j.) To borrow or raise money for the purposes of the Company, but that the amount so borrowed or raised shall not, without the sanction of a general meeting of the Company, exceed one-quarter of the amount of the paid-up capital for the time being, and for the purpose of securing such money and interest, or for any other purpose, to mortgage or charge the undertaking, or all or any part of the property of the Company, present or after acquired, and to create, issue, make, draw, accept and negotiate perpetual or redeemable debentures or debenture stock, promissary notes, bills of exchange, bills of lading, warrants, obligations and other negotiable and transferable instruments:

(k.) To distribute any of the property of the Company among the members in specie:

(l.) To sell, improve, manage, develop, exchange, lease, mortgage, dispose of, turn to account, or otherwise deal with the undertaking or the whole or any part of the property and rights of the Company, with power to accept as the consideration any shares, stocks or obligations of any company, the objects of which are restricted as aforesaid:

(m.) To do all such other things as are incidental or conducive to the attainment of the arising objects.

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

Pe-ru-na Should Be Kept In Every Household

Where There Are Little Children.

Peruna should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But, have Peruna on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the affections of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna, if taken according to printed directions, is perfectly harmless. It can be used any length of time without acquiring a drug habit. It does not produce temporary results, but it is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

Mrs. F. Brockman, 818 Meade street, Appleton, Wis., writes:

"I have never had a return of the catarrh, which had made me so miserable and unhappy before I began taking Peruna.

"I would not be without it in the house, now.

"I have a baby boy, two years old, to whom I give Peruna for a cold, and my husband also takes Peruna.

"I thank you and wish you well."—Mrs. F. Brockman.

No Doctor Required.

Mr. Edward Otto, 927 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Peruna. It has done great work in my family, especially for my oldest boy. We had doctored with three or four different doctors and they did not seem to do him any good.

"We gave up hopes of cure, and so did they, but we pulled him through on Peruna.

"We had several doctors and they said they could do no more for him, so we tried Peruna as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

There are a multitude of homes where Peruna has been used off and on for twenty years.

Such a thing could not be possible if Peruna contained any narcotics.

The Benefit Which the Children of the United States Have Received From Pe-ru-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Peruna, for it is in the tender years of youth that slight ailments are liable to develop into lasting disease, thus blasting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Peruna are speaking from their experience.

These children brought up to believe in Peruna from the start, will, when they become heads of families themselves, use Peruna with unquestioning faith.

A Child's Life Saved.

Mr. G. H. Farmer, New Martinsville, W. Va., writes:

"Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong.

"We know that our little son's life was saved by your wonderful medicine, Peruna, and we shall always praise Peruna and use it in our family when needed.

"Should we have any more catarrhal trouble in our family, we shall always write to you for treatment."

—G. H. Farmer.

Medical Advice.

For free medical advice, address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

All correspondence held strictly confidential.

Mrs. J. C. Sterling, 128 Brown Avenue, Norfolk, Va., writes:

"My little boy, Meredith, suffered with indigestion so badly he could not eat anything without it making him very sick, so I thought (as many others have) that I would try Peruna, and it worked like a charm.

"Now he eats anything he wishes, and I would not be without it for anything.

"My other little boy, Alfred, two and a half years old, has taken it and received as much benefit from Peruna as his brother.

"I hope my testimonial may be of some benefit to others, as I feel as though I cannot praise it enough."—Mrs. J. C. Sterling.

Mr Howard Andrew Sterner, Muddy Creek, Pa., writes:

"I have Peruna in my house all the time and won't be without it. It is good for children when they take a cold or croup. It cured my baby boy of croup.

"I have introduced Peruna into six families since I received your last letter, and four have seen relief already."

—Howard Andrew Sterner.

Pe-ru-na Protects the Entire Household.

As soon as the value of Peruna is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of catarrh will be prevented.

When Sickness Comes to the little Ones

It Is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick.

Her sympathy is deeper than that of any other member of the family.

The mother looks forward with dread to the torrid heat of summer, thinking of her children and the many liabilities to disease that are before them.

Spring and summer are sure to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Peruna is the best friend she has in time of illness among the children.

A Multitude of Mothers

Have discovered that Peruna is their stand-by, and that in many of the ailments of spring and summer to which the children are subjected, Peruna is the remedy that will generally quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Peruna quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Every mother who has not tried Peruna in her family should familiarize herself with Dr. Hartman's booklet, The Ills of Life. This booklet should be in every family. It gives most valuable advice as to the use of Peruna for the various catarrhal diseases so general to-day.

Peruna is a household remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peruna has.

The Mothers Hold Pe-ru-na in High Esteem,

Not only because it has cured them of their various ailments, but because it promptly rescues the children from the throes and grasp of catarrhal diseases.

We have in our files many testimonials from mothers whose children have been cured by Peruna. However, the large majority of mothers who use Peruna, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Peruna that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

B. C. MINING

The St. Elmo mine, at Rossland, is being worked under a lease.

The St. Eugene mine at Moyie is installing a number of Peerless drills.

Placer mining in the Big Bend country above Revelstoke is looking up.

The report of the Le Roi Two mine for the month of May, issued from the London office of the company, reveals that the output was 2,410 tons.

Hydraulic mines on Downie creek, on French creek, and on McCullough creek, in the Big Bend district, north of Revelstoke, will be worked this year. Fifteen men are already at work on French creek.

Work on construction of the Golden Zone stamp mill, near Hedley, has been progressing satisfactorily. The owners of the Golden Zone are cutting a trail from the mine to connect with the end of the wagon road.

Work on the North Fork coal mines near Granite Creek, Similkameen, has been temporarily suspended, some 15 or 16 men having been laid off. The coal measure there has been developed enough to show that a vast quantity is ready.

Sam Hunter, of Kaslo, and Ole Larsen, of Whitewater, who owns the Mayflower and Hilltop, on Sheep Creek, near Salmo, have some good ore. Assays have given 16 ounces gold, 64 ounces silver, and as high as 7 per cent copper.

Mr. F. C. Laird, of Willow River, Barkerville, has left for the East for a few weeks. Mr. Laird says his confidence in his mining property on Willow River is greater than ever and expects shortly to make a splendid return from same.

Gold has been discovered in what looks like paying quantities on Caldwell creek, which empties into the north arm of Burrard Inlet, about 12 miles from Vancouver. Six claims have been staked and recorded by Messrs. McLeod and A. Bradley.

Charles Farrell, of Moyie, is placing the stock of the Society Girl on the market. The company is capitalized $1,000,000 and the par value of the shares is $1 each. The Society Girl property adjoins the St. Eugene on the east, and lies just over the hill from the upper workings of that mine.

A big mining deal was consummated at Whitehorse the latter part of last week when the Grafter copper mine, one of the most valuable mining properties of the district, passed into the hands of the Tyee Copper Company of Ladysmith, one of the biggest mining and smelting companies of the Pacific Coast.

Considerable inconvenience was caused at the sitting of the supreme court at Victoria by the absence of two of the judges in the interior. Chief Justice Hunter said: "There are not enough judges to go round."

Mining Records.

Following are the locations, certificates of work, bills of sale, etc., recorded in the Goverment office at Grand Forks, B. C., of the Grand Forks mining division, from May 28 to June 8, inclusive:

RECORDS OF LOCATIONS

Marther fraction, Summit camp, Mike McDonnell; Gracie, about 1½ miles east of Coryell on the C. P. R. track, R. McRae and Edward Wiseman; Climax fraction, Frankin camp, A. J. Fee.

CERTIFICATE OF WORK.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

School closes next Tuesday.

G. W. Rumberger was in Moyie last week.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C.

You can get a bargain in China any time at Thrasher's Drug Store.

The Great Northern from Spokane was four hours late Wednesday evening.

Born—In Phoenix on Tuesday, June 23rd, to Mr. and Mrs. P. W. George, a son.

Miss Z. Oxley left Wednesday morning on a visit to friends at Curlew, Wash.

R. P. Williams, of Rossland, representing the Canadian Rand Drill company, was in town over Sunday.

We have the genuine Alwin Go-carts, also a nice line of Rattan Go-carts and Carriages—at Binn's the furniture man.

Buttercup ice-cream is perfection—in daintiness, flavor and richness. Try it for yourself—at the Phoenix Bakery, Knob hill Avenue.

Mrs. Lindsay and Mrs Freeborn, who have been on a visit to their aunt, Mrs. D. Oxley, left on Wednesday for their home at Curlew, Wash.

Absolutely all packet teas and most bulk teas show the grocer a larger profit than "Salada" but few of them show as much satisfaction to the consumer.

For sale cheap—all household furniture, including Book Cases, Bedroom Suites, Lounge, Cook Stoves, Heating Stoves, Cupboards, etc. Apply to Mr. or Mrs. M. M. STEPHENS.

W. Rose, a student of Knox college, conducted services in the Presbyterian Church last Sunday evening. Mr. Rose preached at Eholt in the morning and Denoro, in the afternoon, and walked between the appointments.

Since the C.P.R. has started running on its summer schedule, the train leaves the depot about an hour earlier. The hill to the station has been made in a hurry quite freqnently during the past week by some intending passengers.

You will be in Nelson on the 1st of July. Don't fail to drop into the Queen Studio and see some of the latest effects in photography. It's going to be a hot time and you will find our reception room a nice cool place to sit down and rest.

A number of complaints have been made to the Pioneer of the delay in the mails reaching the post office when trains are late, which they frequently are. An instance of this occurred this week. Wednesday's mail which reached the Great Northern depot at 10 p.m. was not delivered at the post office until 9 a.m. Thursday. These mails should reach the post office promptly when the office opens at 8 a.m.

The local football enthusiasts have been practising diligently during the past few days and have picked a good team to go after the purse at Greenwood on Dominion Day. The following will be the Phoenix team: Goal, R. Pritchard: full backs, W. Williams, W. Oxley (captain); half backs, D. Parry, W. Hyslop, W. Pedon; forwards; F. Connelly, R. Thomas, E. Bayliss, D. Evans, Whetton; reserves F. Beck, F. Edwards.

Midway K. of P. Officers.

Midway Lodge No. 36, K. of P. last Tuesday evening elected their officers for the ensuing six months, the officers elected were: C. C., H. Eldridge; V. C., C. Bubar; K.R. & S., S. G. Stook; M.F., D. Tamblyn; Prelate, H. Stevenson; M.A., P. Heilscher; M. of W., E. Oldendorff; I.G., P. Holden; O.G., C. Melville.

Try This Bovril Recipe.

Into a small enamelled pan put two tablespoonfulls of Bovril, a tablespoonful of bread crumbs, two ounces of butter, and a squeeze of lemon juice. Season with pepper and salt. Thoroughly mix the whole together, and then spread on thin slices of bread. This is a simple recipe, but provides a really nutritious and very appetizing "tit-bit" for picnics, afternoon teas and all "al fresco" meals.

Bovril is the quintessence of beef—it drives away hot weather lassitude and gives vigor and tone to the whole system. Added to canned meats, pork and beans, etc., it makes them ever so much more tasty, appetizing and nutritious.

The 8 and 16 oz. sizes are more economical than the smaller bottles.

"Utopia," clear Havana cigar, at James'.

Last Sunday was the longest day o the year.

Before buying your furniture elsewhere, call on R. J. Gardner.

Prescriptions carefully prepared at Thrasher's Drug Store—'Phone 16.

G. W. Rumberger returned on Tuesday from a trip to Regina, Sask.

Mr. and Mrs. George Roberts left on Saturday on a visit to Spokane and Collville, Wash.

O. N. Gaeler returned on Wednesday from attending the Masonic grand lodge at Victoria.

For rent—Three nice roons, housekeeping suite, in Biner block; good water, good location.

Reserved seats for the Kilties band concert at Greenwood are on sale at Harry Jones' store.

The local fire department had a good practice on Thursday evening. They may possibly go to Greenwood on Dominion Day.

$5.00 reward will be given for information that will lead to the conviction of the person or persons who destroyed Thrasher's hand sign.—W. A. Thrasher.

The long summer evenings are here; to keep cool and be comfortable you should have a lawn or verandah chair. Binns, the Furniture man, has a fine selection.

Miss Rossa Coutts leaves on Monday for Nelson, where she will join the other winners in the Daily News' popularty contest in a trip to the Dominion fair at Calgary.

To rent—2 three-roomed houses on Brooklyn avenue (one furnished); four-roomed house, New York townsite; four-roomed house, Golden Eagle, apply to D. J. Matheson, agent.

Lost—Between Presbyterian church and No. 4 tunnel, Phoenix, on Tuesday, a Waltham watch, with celluloid cover case. Finder will be suitably rewarded on returning to Pioneer office.

Our new store on Knob Hill avenue is now open with a complete line of confectionery, oranges, apples, bananas, and all kinds of pastry found in a first class bakery. W. J. Prendergast.

About twenty members of King Edward Lodge, No. 36, A.F. and A.M., Phoenix, drove to Greenwood on Sunday and attended a Masonic service in the Anglican church there. Rev. F. V. Venables preached an eloquent sermon to the order, and the visiting brethern were royally entertained by the local lodge in the afternoon.

Al Taylor, of the Granby compressor, returned on Monday from a two weeks' trip to Spokane and Wallace, Idaho. Mr. Taylor says he met Mr. and Mrs. W. B. Willcox at North Yakima, and that the former editor of the Pioneer has invested in a fruit ranch near that city. They were on their way to their fruit farm at the time.

Whittaker--Shearer.

Yesterday at 1:30 p. m., the wedding took place at 885 Richards street, of Rev. C. Wellesley Whittaker and Lucy Edith, youngest daughter of Mr. and Mrs. J. A. Shearer. Rev. W. H. Barraclough B. A. assisted by Revs. A. K. Sharp and B. H. Balderstone, B. A., performed the ceremony. The bride was beautifully gowned in white silk, and the bridesmaid in white organdy. The bride was supported by Miss Mary Shearer of Seattle, while Rev. A. E. Stephenson, brother of Rev. Dr. F. E. Stephenson, well known in missionary affairs throughout Canada and the United States, acted the part of best man. In the absence of the bride's father, Rev. A. Magee gave the bride away. Immediately after the ceremony about fifty guests sat down to the wedding dinner. The numerous presents and cheques testified to the popularity of the young couple and the decorations in the various rooms were beautifully arranged. Rev. C. W. Whittaker has been a member of the British Columbia Conference of the Methodist Church for about seven years, during which he has rendered efficient service in various parts of the province as well as Yukon Territory. After they return from their honeymoon trip to Seattle and coast points, Mr. and Mrs. Whittaker will take up their residence at Mountain View.—Vancouver Province, June 18th.

COMMITS SUICIDE IN VANCOUVER

Former Phoenix Miner Ends His Life Through Despondency.

The body of Hans Edwardson, formerly a miner in this camp, was found last Sunday in Stanley Park, Vancouver. The body was lying half concealed and its condition when found would indicate that it had been lying there for some months.

Edwardson worked in the mines here for about two years, leaving about March 1st for the coast. He was a member of the Western Federation of Miners here and was in good standing when he left. He was a native of Norway, about 27 years of age and unmarried.

It would appear that Edwardson was out of work and becoming despondent ended his life. A revolver with one chamber empty was found nearby.

Appointed Assistant Dispatcher

C. A. Arnott, who has been C.P.R. agent here for some time, has been appointed to the position of assistant train dispatcher at Nelson, for the summer months, and left for that city on Tuesday, accompanied by Mrs. Arnott. While we congratulate Mr. Arnott on his promotion, we regret to loose him in Phoenix. Mr. Arnott was not only a thoroughly competent agent, but a most courteous and obliging official, with whom it was a pleasure to do business He was as painstaking in giving information as if he owned the road and was trying to make it popular. However, James Carter has been appointed a successor, and in him, we have no doubt, the C.P.R. will continue to have an efficient agent at Phoenix. F. Hall arrived from Nelson on Wednesday and is Mr. Carter's assistant.

Carney Copper Wins Out.

A wire yesterday from J. L. Martin, president of the Carney Copper company, who is in Wallace, Idaho, states that decision has been given in favor of the company in the suit brought against it by the former owner of the mine. This will be interesting news to many Shareholders of Carney Copper in the Boundary.

WAUKESHA A COMING CITY

Sparks Bros. have acquired a large holding in land in the Big Bend wheat country on the main line of the Great Northern railway to Seattle, 76 miles southwest of Spokane.

The best indications for oil in the state of Washington, are said to be on the property. A 16 inch standard rig drill has been purchased to drill 2500 feet, capacity 5000 feet. Former drilling of 315 ft. showed a 10 ft. vein of lignite coal and 5 foot stratum of fine clay. C. A. Wilkins, of Spokane, claims there is the best of prospects in the showings. On the property purchased is a waterfall of 118 ft. which engineers have estimated at 8000 to 10,000 horse power.

With a big wheat country, water power of Lake creek falls, and main line of great Northern railway, as well as the fruit land of Crab Creek valley, the prospects for the support of a town are of the best.

We want to place these lots of the new town of Waukesha, Wash., individually in Washington, British Columbia and Oregon, as an incentive and advertisement for people to build. Look it over; fifty lots left on business street; 100 lots left in residential part.

WAUKESHA OIL CO.

Brooklyn Hotel — Dean's Hotel

The following article appeared in the Spokane Spokesman-Review of December 25, 1907.

Believing that a large portion of Lincoln county lying north of Odessa is underlaid with a lake of oil, Sparks Brothers and local capatalists have bought outright 12,080 acres of land, and have taken options and leases on 1800 acres more for the purpose of making a thorough exploration for oil. A contract has already been placed for a standard rig drill in the east, and it is expected to have the equipment on the ground and in operation in less than 60 days. Work will start in less than two weeks on building bunk houses and making other preparations. The drilling outfit will be in charge of a corps of expert drillers from the Pennsylvania oil fields.

Before the land was bought or leased the country was carefully prospected by oil experts. Bores that have been made on the property show that at 300 feet there is a stratum of lignite underlaid with a five-foot stratum of fire-clay. These strata are exactly the formation in the oil fields of Pennsylvania. There are also springs on the land which bear a large per cent of petroleum.

Machinery for boring has been ordered at a cost of $6000, capable of sinking a shaft 5000 feet. Below 200 feet the bassalt rock disappears and there is a deep stratum of gravel, while the sub-strata are comparatively soft. It is believed that the explorations will also discover natural gas, such as is found in the Kansas and Pennsylvania oil fields, probably in such quantities that it can be piped to Spokane.

On the land bought there is a perpendicular waterfall of 118 feet in Lake creek, which engineers have estimated will develop 10,000 horsepower at a minimum flow. The creek is fed by a chain of small lakes. There is also a minera spring on the land spouting a stream of water six inches in diameter, and having medicinal properties similar to those of Waukesha, Wisconsin, springs, from which it takes its name.

Grand Forks is said to be up against a suit for damages arising from the electric current of the city having been cut off one day last week and causing a loss of $60 at the brewery.

Something New

We have procured a small quantity of the FIRST LOT OF COINS struck by the new Canadian mint, at Ottawa. These are put up as Souvenirs, and make beautiful Hatpins, Fobs, etc. Call and inspect them. . . . Also SIGNET RINGS, PLAIN BAND RINGS, etc., made to order on shortest notice.
