The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

Phoenix Septette Retains the Boundary Championship

B. C. Mining

The purchase of Voigt camp by the B. C. Copper company has been advanced to a stage where both parties to the deal are no longer in doubt as to the issue. The formalities of closing the transaction are now progressing.

A rich placer strike 150 miles east of Atlin is reported by Hugh Molyneaux, road superintendent of Atlin. Kenneth McLaren, an old miner, and one of the discoverers of Atlin, informed the road superintendent that the strike was a good one, easy digging from three to six feet, and the creeks of fine grade, with plenty of water. The news was the cause in that district of a large number of Indians registering claims, and great excitement prevails. Already over 400 claims have been staked.

D. McLeod and A. L. McHugh visited the Silver Standard mine this week. On Tuesday Manager Haskins started men stopeing at the 150-foot level and they are working in solid ore. The first round of holes were all in ore, and it is hard to say how much more there is beyond. The tunnel which will cross-cut the big No. 3 vein is being driven along at a good rate. they have cut a couple of smaller veins en-route and are also drifting on these with encouraging results. The Silver Standard mine now has a full ten cars of ore waiting at the railway in Hazelton. It will not be shipped until a reasonable rate is furnished by the railway company. As soon as the rate is granted then heavy shipments will be made. The mine is in shape now so that immense quantities of ore can be taken out.—Omenica Herald.

Recent quotations for Hedley Gold on the Boston exchange were $30.

Officials Leave for Hidden Creek

W. A. Williams, general smelter supt of the Granby Co., left Grand Forks during the week for the Hidden creek mines. Mr. Williams has made repeated trips to the scene of operations and is chiefly concerned in the smelter construction in connection with the big nnder-taking. O. B. Smith general supt. for the company leaves Vancouver in a few days for the north.

Phoenix at Grand Forks

The first of the home and home matches which are to decide the Boundary League championship, was pulled off in Grand Forks on Monday last in the presence of a crowded audience of enthusiastic spectators. Referee Nyles of Grand Forks was on the ice, while H. Mann of the same place was judge of play. Phoenix was represented by a large delegation who travelled by special train. The game was not particularly noticeable for speed, and the ruling of the referee, who if anything erred on the side of strictness, was eminently satisfactory. Both goal keepers had little to do and individual stunts were, generally speaking, absent. The first period ended with score of 2-0 in favor of Grand Forks, the result no doubt being influenced by an injury to Moore, whose left eye was completely closed by a jab from a stick in the hands of Mc-Wha.

In the second period McKelvey and Moore secured the honors for Phoenix, and in the final period the latter scored again, while Lynne was responsible for the equalizing shot for Grand Forks. The result was a tie, 3-3.

Silver has been firmer since it became certain that the Chinese loan negotitations were likely to be successfuly concluded. India has been out of the market recently.

BEATS GRAND FORKS, 4-3; IN LINE FOR McBRIDE AND NELSON DAILY NEWS CUPS

Most Sensational Game—Dramatic Situation Arises—Two Extra Periods Required to Decide Honors—Phoenix Wins Cup Three Years in Succession.

Wednesday evening saw the finish of the big Boundary hockey issue, which has been the sole absorbing topic in all circles throughout the district for the past few weeks. From eight o'clock to midnight the streets of the town were deserted, the centre of interest being outside and inside of the big rink which was taxed to its comfortable capacity. A finer sheet of ice than that of Wednesday could scarcely be found in Manitoba and while the game was in progress the thermometer registered about zero. Grand Forks was represented by an unusually big crowd of boosters, numbers of whom arrived by the regular train, while the majority came up by special. Greenwood also showed an intense interest in the event, a large contingent from that town swelling the throng.

The spectators were prepared for some sensational hockey, but probably not one had any conception of what the evening had in store. The game, besides being unusually fast, was marked by a display of that stubborness one reads about but seldom sees, and was strikingly free from the malicious roughness that has characterized the previous games with the same team. Both the referee and judge of play were invested with similar powers, and such penalties as were imposed (and there were many) were chiefly for offences due to natural excitement. It cannot be said that the home team were up to their usual form, and in the case of Bassett, whose fever was very high, the wonder is that he contrived to play at all, let alone become the shining star he turned out to be. McKelvey was also suffering from a bad ankle, while Moore's face resembled a miniature crazy quilt, being covered with adhesive plaster. Sayers' was also on the casualty list, his injured optic proving a severe handicap. All of the aforementioned injuries being souvenirs of the lamb-like attentions of the Forks team on Monday last.

The finish of sixty minutes' hard and fast play found the ownership of the coveted silver trophy still in doubt, Grand Forks at the hands of McGregor by an almost superhuman effort managing to equalize just thirty seconds from the call of time, the score being 3-3.

As previously agreed upon, another ten minutes' play took place, but in spite of every effort and artifice neither side were able to reach their opponents net and another dramatic situation disclosed itself. The officials thereupon decided that the only alternative remaining was to fight the matter out for another ten minutes and accordingly the opposing forces, who were all flying distress signals, lined up again without leaving the ice and the puck was again in motion. The teams although almost dropping from exertion exhibited some splendid play and after 1¼ minutes of the final five minutes had elapsed the home bunch made a spirited advance, and, on a neat pass by Moore, Bassett got possession and amid the frantic yells of the Grand Forks spectators and encouraging cheers of the home supporters, the deciding goal was registered. McGregor and McKelvey were both knocked out during the last ten minutes, the former suffering from a straight body check by Moore and the latter from a blow with the puck which emptied his air chambers.

The general concensus of opinion was that the match was anybody's game, while the second period unmistakably belonged to the Forks, who throughout gave a clear-cut expostion of fine hockey. Mr. Nyles the referee filled an otherwise thankless job with dignity and the same can truthfully be said of T. S. Quance the judge of play, both officials giving universal satisfaction. Lynne, Rochon and Clarke for Grand Forks attracted considerable favorable attention, and all three may congralulate themselves on being included in such an excellent aggregation as the visitors proved to be.

Referee Nyles faced the puck at 9.18 and immediately afterwards the home bunch took it at a fast clip to the visitors' quarters where Clark was found to be anything but wanting in efficiency. Less than four minutes saw Neil on the fence. With six men Phoenix managed to keep the rubber well away from home, McKelvey and Bassett shooting three or four times. Clark also turned another of Neil's beauties. Both forces now fell into line and went through some nice passing and stick checking on mid-ice. Honors seemed about even, until a lively scrimmage to the right of Mitchell resulting in the tripping of Davidson by Lynne sent the two to the fence. Short passing on centre followed, with the whole forward lines checking and passing in splendid style. The speed now increased if anything and Rochon passed Moore like a streak of lightning and took a couple of hot shots at Mitchell which the latter handled deftly. Neil and Davidson now tried a breakaway apiece, but both were stopped a little past centre, the former by McGregor and the latter by Ross who passed behind to Mann. Clever work by Rochon drew cheers from the Grand Forks rooters and things began to look dangerous for Phoenix, when Neil, who throughout played his usual consistent game, pounced on the puck and safely conducted it past all opposition into the net. Phoenix again indulged in another exhibition of six-man hockey, but in spite of extra efforts by McGregor, Lynne and the two wings the home team held their own and no other other goals resulted. The visitors' net was under fire when the first gong sounded.

The second period was an innings for the Forks or should have been, and right here was were Mitchell proved his superiority over Clark. The Phoenix net was constantly under fire and nothing but the skill of the former saved the situation. On centre ice, Sayers, Bassett and McKelvey had their work cut out, while Moore had to be constantly on the alert for Rochon's rushes. McGregor ornamented the fence for tripping Moore, who seemed on the point of scoring a goal. Both goals were honored with visits towards the end, and neither seemed able to hold the puck for long. Moore, while actively engaged in the net unfortunately fell, enabling Rochon to send in an equalizing shot. Moore followed quickly with another for Phoenix. No other goal was scored, and the second spasm ended with a score of 2-1 in favor of the home

(Continued on Page Four)

C.P.R. Passenger Leaves Track

Tuesday's incoming C.P.R. passanger met with a slight mishap while climbing the hill near Silica, about four miles from Eholt. The accident was due to a refrigerator car leaving the track, all the other rolling stock except the engine following suit. The passengers were all conveyed into town on the engine and the track was cleared before ten o'clock in the evening.

Copper Situation

W. A. Clark says: "The copper situation is no worse than the condition which prevails in other like industries. All securities have gone down a little in the past week or two, probably caused by the unrest which seems to prevail in many different parts of the world at present. The last report of the Copper Producers' Association, showing an increase of 18,000,000 pounds over consumption last month, throws something of a damper on the situation, although there is really no occasion for this.

"Copper reserves amount to 200,000,000 pounds, only a six weeks' supply for the entire world. If the increase in production over consumption should be maintained at the rate of last month, it would take two years to effect the copper market seriously.

Practically all of the large selling agencies have advanced the price of electrolytic copper, delivered thirty days, to 15 cents a pound, an increase of about ¼c a pound from the low price since the decline started from 17¾c. A large European business is being done for the first time in months, and that, taken into connection with the domestic demand of the last few days, has greatly strengthened the copper situation. It is estimated that the total of sales, domestic and foreign, since last Friday, is at least 100,000,000 pounds, and probably somewhat larger. The European demand arose from the general better sentiment prevailing, and also because consumers abroad had stayed out of the market until the latest possible moment.

Ski-Jumpers at Greenwood

The Phoenix Ski club assembled on Sunday and proceeded on skis to Greenwood for the purpose of giving the public of Greenwood an opportunity to witness their prowess in jumping. Between two and three hundred turned out to see the sport. The boys acquitted themselves very well and jumps of 60 to 80 feet were made. Little Oscar Vick, the juvenile Boundary champion accompanied the visitors and showed up very well.

Boundary Ore Tonnages

Following are the returns of the output of the Granby mines and smelter for the week ending Feb. 23rd, and the B.C. Copper company for the week ending Feb. 16th, and year to date:

Granby	23,683	207,289
Mother Lode	6,210	53,944
Rawhide	6,083	40,635
Napoleon	820	6,063
Queen Victoria	300	4,384
Others	60	741
SMELTER TONNAGES		
Granby	24,745	184,978
B. C. Copper Co.	14,211	99,157

B. C. Copper Treatment

The B. C. Columbia company's smelter treated 14,211 tons of ore this week, as follows: Mother Lode, 6,900; Rawhide, 5,839; Napoleon, 864; Queen Victoria, 608; others, . . .

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

PROVINCIAL PARLIAMENT

Prorogation Expected Today—Liberal Concessions in the Matter of "Two Per Cent" Mining Tax—Tax on Coke Reduced from from 15c. to 10c. per ton—Tax on Branch Banks Doubled —No Sympathy for Woman's Franchise.

(Special to Phoenix Pioneer)

Victoria, Feb. 27.—With the presentation to the Legislature last Friday of the promised measure for the redistribution and reduction of provincial taxation, in accordance with recommendations of the Royal commission, and the introduction of the budget and the bills to amend the Public Schools and Health Acts, the remainder of the sessional business is now before the House. All private legislation of the year and the bulk of ministerial legislation has now been disposed of, so that no difficulty need be anticipated in reaching prorogation on Saturday. Debate upon the financial affairs of the country will be concluded and the estimates disposed of on Thursday. Mr. Place's bill to confer the franchise upon women is expected to be among the slaughtered innocents at the session's close, while Parker Williams' bill for the fixing of a minimum wage in coal mines seems fated similarly, even should it escape defeat on the principle that it is unwise to interfere with labor legislation until the Royal commission now sitting shall have completed its investigations into the problems assigned to it.

Aside from the estimates, the Taxation Act Amendment Bill remains as one of the most important and interesting features not only of the closing week of parliament, but of the whole session of 1913. Its outstanding feature is the provision for the abrogation of part VIII of the Act of 1911, which deals with the provincial revenue and poll tax.

Another recommendation of the Royal Commission which is by legislation given effect of law is that cancelling the exemption of church sites from taxation and one dealing with the special tax upon coke, which is reduced from fifteen to ten cents per ton; while, on the other hand, the taxations upon those institutions engaged in the banking business is materially increased, banks having but one central establishment in the province paying thereon an annual contribution to revenue of $1,500 instead of $1,000 as heretofore, and the taxation of each additional branch within the province being doubled being $250.00 per branch per annum in future, instead of $125 as in the past.

A clear and comprehensive definition is provided for timber lands of every grade and class, and the machinery of collection is improved and simplified in respect to the payment by timbermen to the treasury of their proportion of the cost of re-forestation and fire prevention services. As to canneries, the graduated sale of assessment prevailing heretofore in respect to one, two, three or four line canneries is entirely done away with, and it is prescribed that any person or corporation carrying on the business of canning, salting or curing salmon for the market shall pay in addition to real property tax, an annual special assessment of four cents per case (of 48 one-pound cans); a minimum charge of 75 cents a tierce on mild-cured salmon, with ten cents for each additional hundred weight on tierces exceeding the minimum; fifteen cents per barrel on pickled or cured salmon; and five cents per hundredweight on dry cured salmon.

Whale oil and other products and by-products of the whaling industry are taxed at the rate of ten cents per barrel of 46 gallons or under for whale oil, and twenty cents a ton or under on fertilizer, whale bone or bonemeal; these taxes are in substitution for all taxes on personal property used in connection with whaling business and also for the tax on income from such enterprises.

With respect to the contributions of the mining industry to revenue, it is provided by the new legislation that the two per cent tax on output shall be in substitution not only for, as in the past, taxes upon personal property used in connection with the mine, but also of income derived through its operations.

New regulations for marking gold, silver and plated goods will probably become a law. A bill has been introduced in the Senate and it will then have to pass the House of Commons Gold and silver articles offered for sale in Canada, if marked at all, will hereafter have to bear a trade-mark, and in addition "a mark truly and correctly indicating the quality of gold and silver," or a British hall mark, or the correct official mark of any foreign country correctly indicating the quality of gold or silver. In addition to this the article may bear a numeral intended to identify the article or pattern, and may also bear the name or initials of the dealer or any other mark not calculated to mislead or deceive. An article cannot be marked gold which is below nine karats in fineness.

The mark "silver," "sterling," "sterling silver," "coin" or "coin silver" shall not be applied to an article containing less than nine hundred and twenty-five thousandths pure silver. Below this the fineness of silver articles shall be indicated in decimals, as .800 or .900 silver.

Gold and silver plated ware, if bearing any mark whatever, must also bear a registered trade-mark to indicate the manufacturer. In the case of electro-plated silver ware there "may be applied a mark indicating truly and correctly the grade or quality as known to the trade of the plating," and there must also be a mark indicating the metal upon which the plating is deposited. The quality mark for the silver plating must indicate "truly and correctly the number of ounces or pennyweights of pure silver upon twelve dozen articles exactly the same in size, design and plating as the article to which the mark is applied."

The word "silver" alone, or in a total of sales, domestic and foreign, since last Friday, is at least 100,000,000 pounds, and probably somewhat larger. The European demand arose from the general better sentiment prevailing, and also because consumers abroad had stayed out of the market until the latest possible moment.

W. H. Taylor, representing Patsy Clark, the Montana millionaire mining man, is in Princeton. He has acquired some interest in mineral claims at Leadville and will, no doubt, consider legitimate propositions in any camp. Mr. Taylor will take his family there and make business excursions to camps as required.

COPPER

The New Edition of the

COPPER HANDBOOK

just published, is Volume X, for the years 1910-1911, and required nearly eighteen months in preparation.

IT HAS 1902 PAGES

containing nearly one and a half million words, or about twice as much matter as the Bible. There are 25 chapters, and the book covers the

Copper Industry of World

The book covers Copper History, Geology, Geography, Chemistry, Mineralogy, Mining Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents; Mines in Detail, Statistics of Production, Consumption, Imports Exports, Finances, Dividends, etc.

Vol. X of the Copper Handbook lists and describes

8,130 Mines AND Companies

these descriptions ranging from 2 to 3 lines, in the case of a dead company, in which case reference is made to a preceding edition giving a fuller description, up to 21 pages in the case of the Anaconda, which produces one-eighth of the copper supply of the world. The chapter giving mine descriptions, which lists the largest number of mines and companies ever given in any work of reference on mines or mining investments, has been

Fully Revised.

The new edition of the Copper Handbook is a dozen books in one, covering all phases of the copper industry of the entire world. It is used as the

World's Standard Reference Book on Copper

by the managers of the mines that make ninety-odd per cent. of the world's output of copper, and is used in every civilized country of the globe. It is filled with FACTS vital importance to

SATURDAY, MARCH, 1, 1913

A Basis For a Fair Swap

The eastern and a few western papers affect to be dismayed at the possible prospect of intervention in the affairs of Mexico by the United States. One influential organ professes to see no difficulty in the task if the affair was confined to the armies of our cousins and those of Mexico, that is, if we can possibly designate the ragged semi-civilized mobs of Mexico as an army, but the chief difficulty, it points out, is the interference that may arise from European sources. This latter contention is undoubtedly true, and probably furnishes the reason why our cousins are hesitating in the matter, although the condition of Mexico most certainly warrants some such similar acttion as that which prompted them to interfere in Cuba. But, if our relatives are wise and really contemplate an invasion of Mexico they will find their possible path made smoother by an understanding with the government of Great Britain, who with her strongly-fortified West Indian outposts would find little difficulty in enforcing a policy of "hands off." Recently the British authorities have been paying unusual attention to the defences of Jamaica and, not only have the defences been improved and the garrison increased, but a military officer in the person of Sir Henry Manning has been appointed to the post of governor.

Nations like mortals are after all very human, and it is not uncommon for one of them to demand certain territorial concessions in return for support or other material considerations, and as our cousins to the south of us are noted for their shrewd businesslike dealings, they would receive with little surprise any reasonable advances of John Bull. The assistance of the latter is not to be sneered at, but we can depend upon it that that support will not be given for nothing as long as the present British foreign secretary has charge of that department. France has paid heavily for British support during the past few years and evidently finds the sacrifice worth while, and the United States could just as easily obtain a free hand in Mexico as the French have in Algiers, by, say for instance, the cession of the recently-disputed Alaska strip to Canada. The time has now passed when John was wont to lend his support in return for such after-dinner platitudes as the "same language,"—"language of Shakespeare, Milton and Byron,"—"same institutions,"—"both nations fond of soap," and so on. John, like everyone else in this materialistic age, has become imbued with considerable of the ruling spirit and may be expected to look severely after the interests of number. one.

Canadian Mining Institute

The fourteenth general meeting of members of the Western branch of the Canadian Mining Institute will be opened at Nanaimo on Tuesday afternoon, March 4, when routine business will be transacted and several papers having particular reference to the coal mining industry will be read and discussed.

All member of the Canadian Mining institute in good standing residing in British Columbia or the neighboring parts of the United States are, by virtue of such membership, also members of the Western branch. Members are earnestly requested to make an effort to attend and are invited to contribute papers on matters relating to coal mining for reading it; also to notify the secretary that they will do so, if such be their intention.

Non-members will also be welcome to attend, and to take part in the discussion of the papers that shall be submitted to the meeting.

Legal Phrasing

There would be less bickerings in the courts of the land, and possibly the ranks of the judges would be considerably thinned if the following example of simplicity in the phrasing of legal documents was adopted. The original mortgage of record was drafted on a brick by a Babylonian Solon about the year 434 B.C. and reads:

"Thirty bushels of dates are due to Bel Nadin Shup, son of Marshu by Bel Bullistu and Sha Naby Shu, sons of Kirebti, and their tenhants, in the month of Tashri (month of harvest) of the thirty-fourth year of King Artaxerxes I., they shall pay the dates, thirty bushels, according to the measure of Bel Nadin Shun, in the town of Bit Balastu. Their field, cultivated and uncultivated, their fief estate, is held as a pledge for the dates, namely thirty bushels, by Bel Nadin Shun. Another creditor shall not have power over it."

Interdicts in Phoenix

The attention of the Pioneer has again been drawn to the numerous flagrant violations of the Liquor License Act in Phoenix. Up to the present no suspicion attaches to the holders of licenses here, but it is now an open secret that intoxicants are being supplied by others to interdicts. That the guilty parties are aware of the consequences to themselves there can be no doubt, but in the event of ignorance, we might point that the penalty for infractions of this law is now much more severe than formerly.

The big Guggenheim dredge No. 1, working at the mouth of Bonanza creek, has been almost destroyed by an explosion of dynamite. The act is ascribed to maliciousness on the part of some unknown persons.

A Woman Should Know

That neglected coughs and colds—especially in children—lead to consumption. Prevention is better than cure; and Peps spell prevention!

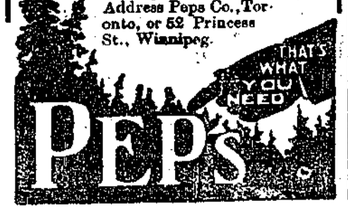
Peps are small pastilles containing pine fumes and certain highly beneficial medicinal preparations condensed into solid form. As soon as you put a Pep on your tongue, these healing essences turn into vapor, and are breathed down direct to the lungs, air vessels, and breathing-tubes.

You—or your child—may have a troublesome cough. Perhaps it is especially bad at night! Take a Pep before going to bed—your cough will not trouble you! Your lungs are perhaps a little weak, and going from the warm house into the cold air outside makes you cough? Just before going out, put a Pep into your mouth—there will be no coughing! Your throat feels "stuffed up." Your chest feels tight, and your breathing troublesome? Peps will put matters right for you very quickly.

Peps, while quickly turning to vapor as soon as put into the mouth, will retain their goodness indefinitely, if kept dry. Each little Pep pastille is packed in an air-tight wrapping, which is easily removed, and they are packed in neat tin pocket boxes. They are not sticky, and may be carried loose in the pocket, or glove, or muff.

Peps are a sure cure for coughs, colds, bronchitis, asthma, sore throat, "smoker's throat," laryngitis, catarrh, "clergyman's throat," and all disorders, and ailments of the throat, breathing tubes, and lungs. Peps contain no opiate, no poison.

All druggists and stores 50c. box, or direct from Peps Co., Toronto, for price. Mail this article and 1c. stamp, and a sample packet of Peps will be sent you. Address Peps Co., Toronto, or 52 Princess St., Winnipeg.



YOU PAY WHEN CURED

Drs. K. & K. TAKE ALL RISKS

Cured by the New Method Treatment

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indiscretions, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, barbfulness and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

DO YOU WANT TO MAKE MORE MONEY

IN placing your Newspaper Advertising, place the greatest value on the paper with the greatest influence on its readers.

¶¶¶

Use the medium that is watched for every week by the people of your community.

Spend the money with the paper that is read with interest. It reaches the people and you know that you're getting into the homes of the people you want to reach.

¶¶¶

Quality has not yet become popular, but the day is not far distant when this will be one of the main features of Newspaper Advertising. In the meantime business men, who have faith in quality, are reaping huge returns.

¶¶¶

Remember first, last, and always, that circulation counts; that quality of service gives quality in returns. The high priced medium pays. Like the high priced servant, you will find money well expended.

¶¶¶

You can make more money by selling more goods; you can sell more goods by advertising in The Phoenix Pioneer, whose constituency is the Boundary district.

¶¶¶

The way to test the truth of this statement is to send us the copy for your ad. right away. The experience would not be an expensive one, and satisfactory results are assured.

¶¶¶

We use the most modern type and machinery money can buy, combined with thorough workmanship—a combination which enables us to do the best work at a moderate cost.

The PHOENIX PIONEER

$2.00 per year, in Advance: $2.50 per year, United States

Local and General

R. V. Chisholm left on Monday for Spokane.

Miss Dickson returned on Friday to her home in Colville, Wash.

Mrs. Ed. Stanaway left on Wednesday to visit her home in Spokane.

Rev. Franklin Watson of St. Jude's church, Greenwood, left this week for Nanaimo.

For Sale—House and furnishings; near C.P.R. depot. Price $300. Apply Mrs. Suzzda.

The mayor, D. J. Matheson, left last week on a business trip to the provincial capital.

Born—At Phoenix, on Saturday, February 22nd., to Mr. and Mrs. Ezra Bellis, a daughter.

F. Falkner, inspector for the Bank of Commerce visited the local establishment this week.

Gus. Biner, formerly brewer for the Phoenix Brewing company left on Wednesday for Calgary.

Mrs. Baldwin wishes to inform the public that her residence on Spion Kop is not mortgaged.

Mike Grbich, organizing secretary for district No. 6, W. F. of M., left on Monday for Trail and Rossland.

M. Malone, district passenger agent of the C.P.R. was in town on Wednesday and Thursday of this week.

Miss M. McDonald, announces that she has secured the sole agency in Phoenix for the "Spirella corsets."

Mrs. W. Oxley returned to the camp on Saturday last from a prolonged visit to her relatives in the old land.

Fred Hurst left on Tuesday for his home in Indiana, having recently received the news of the serious illness of his mother.

Mrs. J. Campbell, after a few days visit to her mother, Mrs. Thos. Richards, returned on Monday to her home in Grand Forks.

For Sale—Log House, centrally located and in excellent repair. Will sell cheap for cash. Inquire of Axel Strand or at Almstrom's bookstore.

For Sale—Log house, 3 rooms, situated across the track from C.P.R. depot. Will sell cheap for cash. For particulars, apply John Bengetberg.

Miss Mary Rogers, who has been the guest of her brother for nearly a year, left on Tuesday morning for Vancouver for a visit of a few days, after which she leaves for the east.

W. Lindsay returned on Saturday from Nelson, where he accompanied Mrs. Lindsay and son who are now on the briny en route for the native heath o' the Lindsays.

Miss Stella Donnan of Grand Forks, lately on the staff of the Royal Alexandra hospital, Edmonton, arrived recently in town and is now attached to the nursing staff of the local hospital.

Walter Kennedy, of Greenwood, sole agent in the Boundary for the famous chocolate firm of Rowntrees, paid a business trip to the city on Wednesday. He was accompanied by Mr. Cole.

Notice.—Miss M. McDonald begs to announce that she has moved her dressmaking parlors to the bank block, room 10. All those desiring work done should leave orders at the above address.

The hockey matches are a fine excuse for those Grand Forks Japs and Chinks to come up and find out the price of real estate. The next thing on the program will be a chop suey and opium joint.

H. McIlwaine, of the Grand Forks staff, of the Bank of Commerce, who lately was transferred to Phoenix, has now been relieved by W. Blackstock of Cranbrook. Mr. McIlwaine returned to the Forks on Friday.

Fred E. Trautman, of Winnipeg, press representative of the C.P.R. company, who is on a tour of the western lines, came in on Tuesday's train and paid the Pioneer a visit. Mr. Trautman was accompanied by his son.

Jos. S. Small, one of the old-timers of Phoenix camp left on Thursday for Victoria. Joseph, who possesses a first officer's certificate and has poked his nose into every port from the Horn to Halifax, expects to tread the bridge of one of the new Pacific steam trawlers.

For Sale.—The Biner block, centre of upper town; four suites of housekeeping apartments; all furnished; always rented; adapted for any kind of business; very cheap; money-making chance of lifetime to right couple. Part cash, rest terms. Apply to owner on premises.

Last Sunday's Spokesman Review publishes the announcement of the engagement of Miss Clara Rendberg, of Spokane and Jos. V. Ingram, Great Northern station agent in Phoenix. Miss Rundberg, who formerly resided in Phoenix, is the guest of Mr. and Mrs. Jas. Ingram for a few days.

There was some talk about calling out the Greenwood patrol of the Boy Scouts on Wednesday to furnish an escort for the Boundary League president, but fortunately such extreme measures were not considered necessary and the night passed, as all others pass in Phoenix, as quietly as a midsummer night's dream.

The following was among the many replies to the query of a Californian preacher as to the qualifications of the ideal woman: "The voice of Melba, the talent of Paderewski, the figure of Venus, the grace of a sylph, the vivacity of a corphyee, eyes like the soft glow of a moonlight eve, an alabaster-like complexion, the virtue of a nun, the charm of Cleopatra, the meekness of Moses, the patience of Job, the forbearance of Lazarus, the zeal of a Trojan, the purse of Hetty Green and hair of her own." The name and address of the correspondent was not given, but they have a pretty good idea of the place he is kept in.

A splended selection of reels have been secured for next Monday and Tuesday's motion picture program. The following are some of the items: "Blackmail," a drama; war story, "For Love of an Enemy;" Indian story, "The Brave Squaw;" "The Pikerton man," "Bean not wanted," "Foxy Grandma" and a "Biting Business."

We are requested to publish the following letter by Chas. McLean, in reference to the legality of an alien holding real estate in California.

Office of the Chamber of Commerce,
Sacramento.

Sacramento, Cal.,
Feb. 21, 1913.

Mr. Chas. McLean,
Phoenix, B.C., Canada.

Dear Sir:

Your letter of recent date is at hand. In reply will say that a citizen of British Columbia or of England can buy land in the State of California.

In the event of my being able to be of further assistance, I remain,

Yours very truly,
S. Glen Andrus,
Secy-Mgr.

Steel Cars for Hidden Creek

The recent order for 50 steel self-dumping cars is keeping the machine shop staff of the Granby company pretty busy of late, and in order to expedite matters it has been arranged for day and night shifts. Thirty of the cars, which are to have an average capacity of five tons, are destined for Hidden creek mines, while the remaining twenty are for use in Phoenix.

Juvenile Hockey Match

The junior hockey teams of Phoenix and Greenwood met again on Friday evening. This was the third game of the series, the previous two having proved disastrous to the home line-up. The schedule called for four games, and as last night's proved a standoff with a score of 3-3, the honors for the season would seem to lie with Greenwood. McCammon in goal proved a strong tower of defence for the Phoenix nippers, and was strongly backed up by Chas. Hufty and Pete Miller. Almstrom on the right and Walters on the left were considerably improved from the last match, while Mussato as usual was ready to tackle anything that came along. Herb Neil refereed the game and as usual one or two of the budding hockey stars seemed to know more about the game than he did. The following was the line-up:

PHOENIX		GREENWOOD
McCammon	Goal	Taylor
Hufty	Point	Shaw
Miller	C Point	Bryant
Mussato	Centre	Storer
Walters	L Wing	Reed
Almstrom	R Wing	Smith

PUBLIC NOTICE.

Take Notice that I intend to apply to the Board of License Commissioners for the city of Phoenix, at their next sitting for a transfer of the Liquor License held by me for the Queen's Hotel, to Chisholm and Hartman.

Dated at Phoenix, B.C., this 10th day of Feb., 1913.

(Signed) R. V. CHISHOLM.

Coughing scatters germs —Stop it

Coughing increases the irritation of the already inflamed mucuous membranes and is moreover apt to carry disease to others.

Mathieu's Syrup of Tar and Cod Liver Oil promptly stops coughing, and soon, thanks to its tonic properties, effects a permanent cure.

The wonderful popularity of Mathieu's Syrup of Tar and Cod Liver Oil is specially due to its great value as a permanent lung and bronchial healer.

Sold everywhere, 35c large bottles.

J. L. MATHIEU CO., Prop., Sherbrooke, P.Q.

For headaches use Mathieu's Nervine Powders—they are useful also to chase the fever and pains which often accompany colds. 25c a box of 12 powders. 4-1-13

Phoenix Beats Grand Forks, 4 to 3

(Continued from Page One)

seven. What was to have been the final stunt started at a swift gait, and the Forks adopted a good deal of body checking, and trying all they could, neither side seemed able land a true shot. But towards the last two minutes the Forks became aggressive, and with the cup almost cinched, the home boys had the mortification of seeing the puck slip past Mitchell just 30 seconds from the call of time. This left matters a tie, the score being 2-2.

Ten minutes extra play started and although looking tired the contestants pulled themselves together and some exciting melee ensued around home. Mitchell and Clarke were very successful in saving and Grand Forks added another goal. In the second five minutes Phoenix equalized, 3-3.

Another ten minutes hockey followed, and although looking still more weary, the teams repeatedly astonished the spectators with occassional bursts of speedy play. Grand Forks made desperate efforts to top the score, while the home bunch made equally determined countermoves. After 1¼ minutes of the last lap had elapsed, Bassett on a pass from Moore sent in the deciding shot of a most eventful game. Final score: Phoenix, 4, Grand Forks, 3.

It would be safe to say that nothing like the scenes which followed the result have been witnessed in the Boundary or perhaps outside of the coast cities. The big crowd yelled itself hoarse, while hats, flags and handkerchiefs fluttered on all sides. The west gallery answered the cheers of the east, while numbers climbed the barriers and bore the victors off shoulder high to the inspiring tune of "See the Conquering Hero Comes," played by the city band.
