The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

THE PHOENIX PIONEER

Devoted to the Interests of the Boundary Mining District

THE PHOENIX PIONEER is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

FIFTEENTH YEAR — PHOENIX, B.C., SATURDAY, MARCH 21, 1914 — NUMBER 36

Provincial Library 12/13

ERNEST MILLER, M.P.P. HOME FROM SESSION

Through His Efforts, a $4,000 Grant Secured for Phoenix, in Lieu of Mineral Tax.

Ernest Miller, M. P. P. for this constituency, has returned to his home at Grand Forks from Victoria, where he was attending the session of the legislature. Mr. Miller has been untiring in his efforts on behalf of his constituency. Through his efforts a grant of $4,000 was given Phoenix. This was granted by the government to the city in lieu of the two per cent mineral tax which is collected from the mines of this camp, and which is paid to the government direct. The money is to be used by the city for school and other purposes. This is the second grant of the same amount received, and due credit must be given Mr. Miller for his good work in bringing the matter before the government and securing the magnificent appropriation.

Proposed Boxing Contest

Negotiations are pending for a boxing match between Charlie Lucca of Rossland and Billy Biner of Phoenix. It will be a 20-round contest, and will take place about April 20th. Lucca met Young Maxwell at Nelson Wednesday night and the match ended in a draw, and at Trail a few weeks ago he knocked out Barney Mullen. Biner is a clever boxer, and has won quite a reputation in the ring.

Club Changes Hands

This week the Phoenix Club changed hands when Ted. Deichert and Bernie Morris took over the business from N. J. Deichert. The Club will hereafter be run under the firm name of Deichert & Morris. N. J. Deichert and wife have gone to Spokane.

B.C. Mining

The Harris Mines at New Hazelton have shipped the second carload of ore for the season.

The Clothier brothers have taken a three year lease on the Silver Cup mine near New Hazelton, and work is to be started not later than August first. Twenty per cent of the net profits is to be paid to the owners.

The hauling of ore from the Union mine, Gloucester camp, to the steel head is being suspended for a few weeks on account of the bad condition of the roads. It will probably be some time in May before the roads will be in satisfactory condition for teaming again.

The Hedley Gold Mining company, operating properties and reduction works at Camp Hedley, on Thursday declared the regular quarterly dividend of 30 cents the share on the issued capitalization of 120,000 shares or $36,000 and an extra dividend of 20 cents the share or $24,000 making a total of $60,000, according to reports received from New York. Hedley paid $360,000 in dividends in 1912 and the same amouut in 1913 and has disbursed to date among its stockholders $1,224,000. The present declaration will bring the total payments to $1,284,000 or $10.70 the share, 70 cents more than the par value.

Was 20-Round Draw

Young Maxwell of Great Falls, Mont., and Charlie Lucca of Rossland fought a 20-round draw at Nelson Wednesday night, before quite a number of fight fans in Nelson and from the surrounding district. Bob Naif of Cranbrook was referee. Maxwell easily demonstrated that he was a better ring general than the little Rosslander. He has improved wonderfully since he fought Lucca in Rossland six weeks ago, at which time he lost the decision.

HIDDEN CREEK SMELTER "BLOWN IN" LAST MONDAY

Rapid Development of Copper Deposits—Ore from other Mines will be Shipped to Anyox Instead of Going to Tacoma—Employment to Be Given 800 Men.

As was stated in last week's issue of the Pioneer, the Granby's Hidden Creek smelter was successfully blown in last Tuesday. The following statement from F. M. Sylvester, general manager of the company, appeared in the Vancouver Sun of March 17th:

The first fires which will smelt the ore of the property of the Granby interest at Granby Bay, where for months the 2,000-ton smelter has been building, were started last Monday, F. M. Sylvester, the manager, receiving word at Vancouver that the smelter had been successfully "blown in," and all was running in good order in preparation for the continuous smelting of the wonderfully valuable body of copper ore known as the Hidden Creek property.

Mr. Sylvester announced that the company will employ on the start some 400 men to run the smelter and a similar number in the mine.

Granby, as the company's holdings in this district are known, has been the busiest spot on the north coast for several months, a force of men at times exceeding a thousand having been at work on the smelter, building ore bins, wharves, store buildings, and a typical mining town. While this work has been done, mining operations were progressing steadily on the great body of copper in the Hidden Creek group and each report received in Vancouver was more encouraging than the last. It has been reported, though not officially, that there is ore enough blocked out in the mine to keep the smelter going for twenty years.

The Hidden Creek property had a varying career for some years before it finally attracted the engineers of the Granby company.

A thorough examination of the copper bodies was made with diamond drills, and their depth determined beyond a doubt. Since starting the undertaking more than a year ago, the company has spent an enormous sum of money, not only on the smelter property and the mine, but on dams and harbor improvements.

Goose bay, as the point was known before it became Granby, is an arm of Portland canal. The valuable copper claims in the districts have gone up considerably since the smelter neared completion. The Granby company is reported to have options on several of the largest showings, including the Bonanza, a showing which, on the surface, was said to equal the showing of the Hidden Creek.

The fact of the blowing in of the Granby smelter was received with joy by mining men, for it means the rapid development of valuable copper deposits all along the mining territory of the north coast. While the company, no doubt, will be busy for some time preparing for the steady work of smelting its own ores, it, no doubt, before long will be in shape to handle ore from other mines in the district, and make much less expensive the trial shipments which have been sent from the north to the smelter at Tacoma for some years.

As a result of published announcement that the Granby smelting company's new 2000-ton daily capacity smelter at Hidden Creek, has been blown in and was operating satisfactorily, Granby stock has advanced $4.75 a share on the Spokane exchange, closing at $89.75 bid and $91 asked. The issue was also the active market feature of the Boston exchange, where it scored an advance of $2 a share and closed at $89.50 bid. Sales of 2500 shares were reported on the Boston boards, of which 500 went at $90, and the call closed with the security in active demand.

Eagles Have Big Dance

Maintaining their excellent reputation for entertaining, the members of Phoenix Aerie Fraternal Order of Eagles gave a most enjoyable dance in the Miners' Union hall on the evening of St. Patrick's Day, March 17th. It was the thirteenth annual dance given by this aerie, which means that the order has been in existance in Phoenix for that number of years. Both numerically and financially it is one of the strongest in the city. At the dance Tuesday evening nothing was overlooked to give the people a good time. The orchestra consisting Chas. King, piano; Tim Silas, violin; Al Almstrom, clarionet; and Gus Biner, trombone, was all that could be desired and every number played was encored. Green dresses, green ties and green ribbons were there in profusion, and everyone was Irish for the time being. The floor was ably looked after by the committe from the lodge, consisting of J. E. Thompson, Barney Cosgrove, J. Morrison, D. A. Vignaux and Wm. Biner. It was the largest crowd in attendance at a Phoenix dance this winter. Supper was served by Danny Deane in the banquet room.

Football Club Meeting

There will be a meeting of the Phoenix football league held in the Union store Sunday afternoon at 2:30 o'clock, when all interested should make an effort to be present.

Would Sure Be Drawing Card

The people of Nelson have been anxious for a real sweet drawing attraction at their Opera House. Possibly the Doukhobors will furnish that fetching attraction. The she Douk cannot be blamed for taking part in those pilgrimages, for it is impossible that she can be less graceful in the nude than dressed. Should the Douks decide to honor the Nelson carnival, well, Klonas nesika klatawa!—Slocan Record.

PROPOSED RAILWAY TO FRANKLIN CAMP

Spur to Connect with the Kettle Valley Line from Grand Forks —Expert to Report.

"It is expected that within a short time the provincial government will send a representative to Franklin camp district, on the north fork of the Kettle river to look into the mining situation there," declared Ernest Miller, M.P.P., while in Vancouver on his way to Grand Forks.

"Owners of mining property there have made representations to the government urging the extension of a spur line to the Kettle Valley railway from Grand Forks to Franklin camp, and we believe that a report of a government expert on the development prospects will result in the railway construction desired."

He spoke favorably of mining prospects of Franklin camp and Kootenay-Boundary generally.

Hockey Smoker Tonight

A good time is promised this evening at the Miners' Union lodge room, when the smoker in aid of the Phoenix Hockey Club will be held. A good program has been arranged, and refreshments will be served. There will be two good sparring exhibitions between local celebrities, songs and instrumental selections. The program will start at 8:30 p.m. sharp.

Ore Tonnages

Following are the tonnages of ore output of the Granby mines and smelter for week ending Mar. 14:

Granby	22,490	383,016

SMELTER TONNAGES

Granby	23,475	276,047

There has been a good attendance at the Miners' Union moving picture shows during the week. Some excellent films have been shown each night.

The Copper Situation

Lake and Electrolytic copper are again on an even parity at 14⅜ cents in carload lots. The decline in Lake reflects the increased production of that grade of copper, indicating that the mines are again producing at about a normal rate. Casting copper is quoted at 14⅛ and 14¼ cents.

The decreased visible, supply, as shown by the February statistics, has created an impression in the trade that firmer prices may be expected shortly, if there is no further recession in general business.

It must be admitted by even the most optimistic that the recession in general business is effecting the metal markets and is reflected in decreased consumption of copper.

The large exports is the most encouraging feature of the present copper situation. The easier monetary situation in Europe in enabling consummers to lay in supplies of the metal and the lower prices quoted here is another inducement which is more appreciated abroad than by domestic consumers who, in looking for the lowest price, generally wait until their opportunity to get cheap copper has gone.

"Billy" McMorris in Town

W. G. McMorris dropped into Phoenix this week and surprised many of his old friends. Years ago Billy lived at Nelson, where he worked first as a Linotype operator and later became manager of The Daily News under the late F. J. Deane. It was he who engineered the deal for the turning over of that paper to the present owners. He afterwards moved to the coast and became interested in some valuable coal lands on Graham island.

"When Dreams Come True"

"Jack" Hamber was cooking for a bunch of miners in a coal camp near Edmonton at a salary of $70 a month until last week, when a forgotten relative in Glasgow, Scotland, died and left him $400,000. Hamber left for Scotland at once. "There's a lassie in Scotland who will be glad when she learns that our dream of a home in the foothills of the Canadian Rockies is about to be realized," he said. "I am going over especially to tell her the good news, and she will return with me as Mrs. Hamber. Probably my mother will join us. If not, I shall arrange matters so that she will be comfortable the rest of her life."

Professional Hockey

The hockey teams of the Boundary have for two or three years past been edging towards professionalism, but this year went the whole hog and gave the district such a dose of professionalism as it is hoped will cure them from this particular brand of fatuity for many moons to come. Grand Forks and Phoenix are said to have struck the liveliest gait at it, with Greenwood a lusty tail-ender, and curious to relate that although Greenwood's pro. payroll was the smallest of the three their team was putting up the best brand of hockey at the end of the season. Some Phoenix players were said to be in receipt of a weekly stipend of $100.—Hedley Gazett.

There is a good opening for a dentist at New Hazelton.

Spring Clothing

We beg to announce that we have just received a large consignment of the most up-to-date Spring Clothing; modern styles and the latest patterns. Old friends who have made this their chosen Outfitting Establishment know of the goodness of our Clothes, and they will come to us again this Spring of their own accord. SATURDAY, MARCH 21, 1914.

A perplexing subject in hockey circles—does 1-0 double the score?

Considerable real estate is being turned over on the prairies this spring, but it is mostly being done with the plow.

Feminine fashions are getting too far into Canadian finance, with its hobble bonds, slit dividends, futurist illusions, and common stock high upon a date tree trimming.

Vancouver boasts that she has practically as much sunshine as Victoria and quotes statistics to prove it. Victoria had in 20 years only seven hours per annum more than Vancouver.

The man who has enemies amounts to something in this world. He is a live man. People don't fall out with a corpse. A live man can swim against the tide, a dead un floats with it. You can write "pudden head" on the tombstone of a man who died and left no enemies. God bless our enemies. We love them.—Chesaw News.

The parcel post in the United States is already having a telling effect on the business of the express companies. One company has already gone to the wall, and some others may follow. The United States Express company, *the one just gone into liquidation, had been in business for 60 years. In the past five months the company went behind $32,000.*

Dear to the heart of every son of Erin is the 17th of March. Of all the nationalities coming to America none assimilate and take on the ways of the country any more quickly than do the Irish, and none will shed their coats and fight for their dearly beloved native land more readily should occasion arise. Therefore, it is only natural that St. Patrick's Day be duly observed by the "wearing of the green" and by appropriate festivities.

Boys who smoke cigarettes are like maggotty apples. They drop long before the harvest time. They rarely make failures in after life, because they never have any after life. The kid who commences to smoke before the age of seventeen never reaches the life of the world. When other boys are taking hold of the world's work he is concerned with the doctor, the overtaker and lastly the undertaker.—Exchange.

In these days when money will buy mostly anything, it is refreshing to hear of a judge who cannot be swayed in his decisions by coin. Down at Portland last week Judge Stevenson sentenced a millionaire club man to five days at hard labor on the city rock pile for speeding. Expecting to be let off with a fine, Barker pleaded guilty to speeding his automobile 50 miles an hour within the city limits. Without comment the court pronounced sentence, and almost before the prisoner knew what had happened he was being led away, while the judge called up the next case. Barker's plea of guilty precluded an appeal and latter he was led from the jail to the rock pile.

More Boys Than Girls

During the next twenty years it is probable that many more boys will be born than girls, and it is expected that this disproportion will be large enough to make up for the over supply of women. That there are too many women in the world is very evident.

As a scientist points out, the younger that a woman is when she gets married, the more likely that most of her children will be girls. Recent investigations have shown that where women have become mothers at 19 years or younger, there was an average of 44 girls to 29 boys born. In the case of women who were between 19 and 24 years of age when married, the figures showed an average of 53 girls to 45 boys. From 36 to 42 the proportion was 52 boys to 41 girls, and between the ages of 42 and 48, it was 64 boys to 27 girls.

Our grandmothers married when they were 17 or 18 years of age. During the last ten years the average age of marriage has advanced to 24 or 25. Thus in future a larger percentage of boys will be born.

The larger the number of girls the greater opportunity a man has to make his choice. Where women are few, a man is more likely to take advantage of the first opportunity, lest other chances should not arise. The high cost of living also tends to prohibit early marriages.

Rockefeller's Sweetheart Dying

Mrs. Emma Saunders Cummings, John D. Rockefeller's first sweetheart and the woman who years ago *introduced him into Cleveland society, is reported near death at her St. Louis home, according to word received by Cleveland relatives.*

Young Rockefeller and the girl met in the Euclid avenue Baptist church. The girl invited him to a function at her home and introduced the future oil king to her friends.

"Bringing out John", was a bit of a task, according to Mrs. Cummings, because he wanted to save his pennies instead of buying clothes.

George Westinghouse Is Dead

George Westinghouse, a foremost figure in the world of engineering and inventor of the air brake bearing his name, died in New York at his residence of heart decsase. He was in his 68th year.

Mr. Westinghouse became an inventor at the age of 15, when he produced a rotary engine. Four years later he construced a device for replacing derailed steam cars. Then, when 21, years of age, he sought the financial backing of the late Commodore Cornelius Vanderbilt for his now famous air-brake, perfected after three years of labor.

"Do you mean to tell me you can stop a railroad train by wind?" demanded the commodore.

"Well, yes, inasmuch as air is wind, I suppose you are right," spoke the youth.

"I have no time to waste on fools," said the commodore, thus abruptly termining the interview.

Cyclone Taylor Married

Fred Taylor, the Vancouver hockey player, was quitely married at Ottawa to Miss Thursea Cook. Frank Patrick acted as best man, and only the immediate relatives of the young couple were present. The Vancouver club presented them with a cabinet of silver. Mr. and Mrs. Taylor will reside in Vancouver.

The Doctor's Wife

Doris Blake says the girl who contemplates marrying a physician would do well to enter upon the life with at least some understanding of what a successful wife of a physician should be. A medical man is better unmarried than unwisely wedded, for experience has proved that in his case a wife must either be a help or a hindrance to him in his work. It is essential that such a woman should possess rare tact, patience and self control. She must also be a clever manageress—since it is generally necessary for her to make a dollar do work that appears to have cost three. People often see no necessity to pay their medical bills with the regularity that they pay their grocers. Many doctors who are regarded as being "very well off" often have much difficulty in getting hold of actual cash. Even so, the wife must manage so that appearances are maintained.

The greatest bane of the doctor's life—and of his wife's also—is his not having an hour of the day or evening which he can call his own. It is most necessary for a doctor's wife to be thoroughly trustworthy, discreetly silent and absolutely dependable. Her position will most certainly make her acquainted with many facts about things and people which must not be made common knowledge.

Athletes are Expensive

Analyzing those figures for athletics at Harvard we dig out the facts that it costs $1100 to train an oarsman a season, $1000 to put a football man in shape, $300 to condition a baseball man, $300 a track man and $200 a hockey player. All of which has been proved cheap at the price.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Better Take the Paper

An exchange gives the following account of what happened to a family too stingy to take their home paper. He says:

"We once knew a man who was too stingy to take the newspaper in his home town, and always went over to borrow his neighbor's paper.

"One evening he sent his son over to borrow the paper, and while the son was on the way he ran into a large stand of bees, and in a few minutes his face looked like a summer squash.

"Hearing the agonized cries of the son, the father ran to his assistance, and in doing so ran into a barbed wire fence, cutting a handful of flesh from his anatomy and ruining a $4 (sale price) pair of trousers.

"The old cow took advantage of the hole in the fence, got into the cornfield and killed herself eating green corn. Hearing the racket, the stingy man's wife ran out of the house, upsetting a four gallon churn full of cream into a basketfull of kittens, drowning the whole flock. She slipped on the cream and fell down stairs, breaking her leg and a $19 set of false teeth. The baby, left alone, crawled through the spilled cream into the parlor and ruined a $40 carpet. During the excitement the daughter eloped with the hired man, taking the family savings bank with them."

Jack London, the author, will probably be a candidate for governor of California at the next election. He will run on the Socialist ticket.

J. G. McCallum, formerly a hardware dealer and contractor of Cranbrook, died in Vancouver last week of heart failure at the age of 65.

J. B. de Tache, a newspaper publisher of St. Hyacinthe, Quebec, has been appointed King's printer at Ottawa to succeed the late Charles Parmlee.

Jack Johnson who was to have engaged in wrestling matches with Jess Pederson and others in Gothenberg, has been forced to leave Sweden owing to the hostile demonstrations against him.

The new lighthouse at Cape St. James, the southern extremity of the Queen Charlotte islands, is now in operation. The light tower is built on solid concrete. The powerful light can be seen for 24 miles at sea.

Three hundred men left Vancouver within two days for northern lumber camps of British Columbia. This is confirmation of the statement made a few days ago that the lumber business was reviving. Many of these men have been idle in Vancouver for some time. The men leaving were jubilant as children going to a picnic.

It is possible that Alfred Shrubb, the famous English distance runner, will take up his residence in Victoria this year and devote some of his spare time to the training and coaching of Victoria's track and field athletes. Shrubb is now living in Toronto, but has made it known that he would not be averse to going west were he assured a good business opening. In his time Shrubb was one of the greatest distance runners the world ever knew, and to this day many of the records he set years ago are unbeaten.

The Pacific Great Eastern railway, which is now building a line northward from Vancouver to connect with the Grand Trunk Pacific, will start work within a fortnight building southward from Fort George to meet the Vancouver end, now under construction. Contracts have been awarded for the first 100 miles south from Fort George. As fast as men are released from construction on the Grand Trunk Pacific they will be put on the new line, and by fall it is expected 10,000 men will be employed. The first 100 miles has been divided between Carlston, Griffith and Burns-Jordan, contractors.

He's Only a Printer

"He is only a printer." such was the remark I heard from one who is of the aristocracy—the codfish quality, according to my idea.

"Only a printer." Thousands of the most brilliant minds of this country were and are found in the publishing houses and upon the great papers, working at the case. It is not every one that can be a printer—brains are absolutely necessary.

Who was the earl of Stanhope? He was only a printer. What were Prince Edward William and the Prince Napoleon? Proud to call themselves printers. The late czar of Russia, the crown prince of Prussia and the duke of Battenburg were printers. William Caxton, the father of English literature, was a practical printer. C. P. Morris, N. P. Willis, Innis Gates, Charles Richardson, James Parker, Horace Greeley, Charles Dickens, James Buchanan, Simon Cameron, Schuyler Colfax, were all printers—and practical ones at that. Mark Twain, Amos Cummings, Bret Harte, Artemus Ward, Petroleum V. Nasby and Sit Lovingood were all printers. Numbers of the United States senate and members of congress were practical printers.—Judge W. A. Anderson in the Sacramento Bee.

Scotland's Poor Train Service

Pat Doran, a C. P. R. conductor at Cranbrook, has returned recently from a trip to Scotland, and he says that railroading in that part of the world is a joke, as compared to the methods in practice in the United States and Canada. There they operate their trains entirely by block system, and there are no train orders, as used here. The rolling stock, both the motive part and the transportation equipment, is much inferior to ours, and their dingy, ill-smelling and poorly lighted and ventilated side door compartment cars are a disgrace."

The Gun and the Book

Man who "totes" a pistol is sure to use it sooner or later, but such is the perversity of human nature that the same man may own a Bible 25 years and never use it once.—Courier-Journal.

Local and General

Richard Case has gone to Oroville.

Joe Kelly left for Rossland last Saturday.

Mrs. McKissic left Monday for Spokane.

Try McKay & Knight for quality oranges.

Fred Wilkinson left Monday for Butte, Mont.

Miss Laura Earl returned Wednesday from Spokane.

Mr. and Mrs. Ryan returned from Spokane Wednesday.

Wanted—A girl to do housework. Apply Phoenix Dairy.

D. J. McDonald and family returned Monday from Spokane.

Automobiles and vehicles are again being used around Phoenix.

James McNulty left Thursday for the Similkameen country.

A. O. Johnson left yesterday for Christina lake to spend a few days.

The "Little Store" New Zealand butter, 2 lbs. for 75 cents. McKay & Knight.

O. D. Bush, proprietor of the Brooklyn hotel, spent Tuesday and Wednesday in Nelson.

N. W. Sweetser, mining engineer for the Granby company, left for Grand Forks Thursday.

For Rent—Nicely furnished housekeeping and sleeping rooms. Apply to Mrs. Malissa Puddy.

Miss McEwen, teacher in the public school, spent the week end at her home in Grand Forks.

Chas. McKay was down to Grand Forks Tuesday evening to play at the St. Patrick's Day dance.

Gordon McLeod returned Thursday from Bellingham and is again at his old job at the Brooklyn hotel.

Chas. Moore, on the staff at the Big Store, has been ill for several days and has been confined to his room.

The Oliver Typewriter has won international fame as the perfect writing machine for every line of business.

The store of quality from Grocery [illegible] three dozen for $1. Local agents [illegible] McKay & Knight.

Alex McDonald returned this week from Hidden Creek, where he has been working for the Granby company.

Ed Ferguson of Nelson was in Phoenix during the week on behalf of the new Liberal daily newspaper to be established there.

C. E. Van Riper, L. S. Davidson, Jack Rickers, John McPherson and Arthur Walters were down to Spokane during the week.

This is the earliest spring in the history of Phoenix. The snow is practically all gone from the sidehill on the north side of town.

Miss Spurgeon was up from Orient, Wash., during the week on a visit with her brother, James Spurgeon, fireman on the Great Northern.

Dr. D. J. Millar left this week for North Battleford, Sask., to see his sister, who is quite ill. He will be away for a couple of weeks at least.

D. Lynch and sons, who have been operating a diamond drill outfit here during the winter, left Thursday for Republic, Wash., having completed their work in the Phoenix camp.

Harry Elsmore, president of the Phoenix Miners' Union, was over to Nelson the first of the week conferring with A. Shilland, of Sandon, the district secretary-treasurer of the W. F. of M.

A. Macneil, barrister of Fernie, was over through the Boundary this week and was in Phoenix Tuesday. Mr. Macneil is attorney for the Western Federation of Miners.

H. Hartley, former city clerk, has returned from a two weeks' visit on the coast. The trip proved very beneficial to his health, and he is looking and feeling better than for some time.

On the evening of St. Patrick's Day big dances were given in the three principal cities in the Boundary—Phoenix, Grand Forks and Greenwood. A Phoenix violinist led each orchestra.

For Sale—The "Little Diner" seven stool lunch car; established business, prominent location, only night lunch in city. Good reason for selling. M. P. Wetherell, Box 565, Grand Forks, B. C.

At Greenwood on St. Patrick's night the Greenwood people turned out to a dance given in aid of their hockey club. The best of music was furnished by the following musicians: Albert Biner, violin; Mrs. C. H. Knight, piano, and W. N. Murray, cornet. A big crowd was in attendance, who were thoroughly satisfied with the music and the evening's enjoyment.

Calgary-Fernie Railway

Engineers are in the field surveying a route for the Calgary and Fernie railway. This proposed line has been in the limelight a good deal recently at Ottawa. Work is to start within twelve months and the line must be completed within three years. The route is now understood to be ready for the contractors to start construction. Connections with the Calgary-Fernie route at Fernie would enable the Great Northern to tap a vast agricultoral country which at present is served only by railways running east and west.

Killed by High Voltage

At Calgary Monday evening Wm. Woods, age 40, standing on the wet floor of a stable, reached up to turn on the electrict light. Instantly he fell dead.

Almost simultaneously Charles Cotter, aged 20, was killed in exactly the same way in a bakery some blocks distance.

Robert Taylor, a boy of fourteen, turned on the light in the bathroom of his home. His right foot and right hand were badly burned and he will probably be maimed for life.

Justice Clement Guilty

The supreme court of Canada at Ottawa has banded down a decision upholding the judgement of Mr. Justice Cassells in which Mr. Justice Clement, of British Columbia was declared to have committed fraud in charging expenses from Grand Forks while he was living at Vancouver.

Advcie to Printers

Don't be afraid to add a reasonable profit to your cost. Look at the automobile men, and profit by their example—but perhaps not so much as they. It is said a certain American automobile company adds a 150 per cent. profit to the cost of their wheels, and yet the printer is afraid to add 20 per cent. to the price he pays for his paper, and handles it for nothing.—THE PRINT SHOP.

Hans Schmidt Reprieved

Hans Schmidt, slayer of Anna Aumuller and sentenced to die in the electric chair at Sing Sing during the week of March 23, was granted a stay of execution by the filing of a notice of appeal by counsel.

For Sale—the Cottage Hotel

If you are looking for a snap, I am now in a position to fill your wants. The property is a paying proposition, guaranteeing at least $100 per month to the purchaser over and above running expenses. For further particulars consult M. H. Kane, and he will prove it. Box 191, Phoenix, B. C.

Bloodless Operations

CHIROPRACTIC SPECIALIST. DAVIS BLOCK
GRAND FORKS, B.C.

This weather promotes Coughs

Those who have trouble in shaking off a cough should note that Mathieu's Syrup of Tar and Cod Liver Oil not only soothes the irritation of the bronchial tubes, and promptly stops the cough, but being a splendid tonic and healer it soon enables the system to permanently throw off the cold and restores the mucous membranes to their normal healthy condition.

Mathieu's Syrup of Tar and Cod Liver Oil has won, by its merit, the largest sale in Canada of any medicine for coughs — see large bottle, sold everywhere.

J. L. MATHIEU CO., Prop., Sherbrooke, P.Q.

Winter's Cough Cure

For that nasty tickling Cough, or sore bronchial tubes, this Cough Syrup fills the bill.

Nothing but the balsam from Pine trees, with a desirable medium, and absolutely free from opiates.

50c. a Large Bottle

QUANCE, The Druggist

Prof. Marks Coming

Prof. Marks begs to announce to the public of Phoenix that he intends, at an early date, to open a dancing class, giving instructions in all the latest dances, and will make a specialty of

Tango and Hesitation Waltz

The Tango and Hesitation Waltz are two of the most popular dances that have ever been introduced in the ballroom, and as the citizens of Phoenix have always set the pace in amusement of this sort, the opportunity now offered should not be overlooked.

For further particulars, consult Chas. McKay or A. A. White.
