PRINCE RUPERT AS IT IS TODAY

As Seen By a Phoenix Resident

Murdock McIntyre Gives An Interesting Account.

Murdock McIntyre, proprietor of the Palace livery, returned late last week from a prospecting trip to Calgary, Edmonton and Prince Rupert, spending a few days at the latter place. Mr. McIntyre is not quite decided, but will probably take a shipment of horses to Vancouver or Prince Rupert late in the fall.

Speaking to the Pioneer man, of the new Grand Trunk Pacific terminus, Mr. McIntyre says it will no doubt have a great future, but its present is an uninviting one. The townsite itself is as yet a bog, the land having a thick mossy surface, and the landscape of the embryo city resembles an Indian village in a march. There are no houses, but hundreds of tents are scattered about in all directions, while it is almost impossible to walk without waders, there being no sidewalks or paths of any kind. The essential requirements of a person going to Prince Rupert are an oiled suit, a tent and a canoe—as well as a good supply of cash, with which he can afford to take a suburban camp residence for some months, until the townsite lots are on the market.

The only hotel accommodation is filled to overflowing. There is a large new company hotel, but it will not be opened until the townsite is thrown open, perhaps some time this fall. Prices for supplies are high, and the one or two general stores there do a big business.

It rained almost continually during his stay, and navigation at Prince Rupert in any direction was invariably via the water route, as almost any point could be reached in a canoe. Mr. McIntyre thinks, however, that when the townsite is surveyed and drained, it will be an excellent one, but the mossy nature of the soil holds the water at present.

The first horses seen in the new town were taken in two weeks ago by the railway contractors, and so treacherous is the soil that planks had to be laid from the boat to the stable for the horses to walk on.

But the outside world knows more about Prince Rupert than the people living there. There is no apparent development, and the residents greet new arrivals quizzically to learn what the latest news of their place is—or to discover what they themselves as citizens have been doing to make their city a metropolis. The controlling heads of the "new city of the west" live far from the G.T.P. terminus. The great ideal survey, grand Waldorf Astoria, great chartered banks, and forty-story blocks that are pictured on the Prince Rupert landscape to the outside people, are but dreams in the imagination of financial and realty agents in offices many miles distant.

There is yet no appearance of practical development to people visiting the town. Every morning scores of boats with survey parties and prospectors leave for up and down the Skeena river and its tributaries, but no information can be elicited from them as to the objects or results of their searches—they are filed with the controlling heads elsewhere.

From Vancouver to Prince Rupert is a pleasant 50-hours' ride on the boat, the route being inland the greater part of the way, and only touches the ocean in two or three places. Boats run from Vancouver every second day, and each is heavily loaded with fortune-seekers bound for the much-advertised railway terminus. It is estimated that already over a thousand men are now looking for openings in the town where there are none, and with little prospects of any until townsite lots are opened.

The gateway to the city is rather an attractive one, and it is proposed to build a wharf three miles in length along the water's edge. There are frequent heavy fogs, however, that may be somewhat of a hindrance as a port for ocean liners entering. It is stated that townsite lots will be held at $2,000 when placed on the market.

While there Mr. McIntyre met James McCague and Wm. Hannah, former residents of Phoenix, and states that they have prospects of something good in the future city.

Mr. McIntyre paid a visit to the Empire office to get seeing the exchange copy of the Pioneer, but Editor Houston stated that his copy of the Pioneer was so much in demand it was invariably stolen from the office before he got reading it himself.

Some 50 government lots were auctioned at Hosmer last week, and brought from $300 up to as high as $2,000 apiece.

COMING AND GOING

Alex Strachan left on Thursday, with California as his destination.

Chas. Sidney Johnston, city engineer for Greenwood, was here Thursday.

Mrs. D. Gunn and Mrs. I. Corrigan spent Wednesday with friends in Greenwood.

George W. Rumberger went over to Halcyon Hot Springs Saturday, to spend a few days.

James McGregor, of Nelson, provincial mine inspector, was in camp two or three days this week.

Richard Silverthorne and family moved to Cascade last week, where Mr. Silverthorne has secured employment.

Mrs. Charles H. Flood returned Tuesday from spending two weeks with her sister at Moyie, and being much improved in health.

Harry Small, the dean of British Columbia's commercial travellers, was here from Vancouver Thursday on one of his customary visits.

W. B. Willcox, Mrs. Willcox and daughter Elizabeth were calling on friends in Greenwood yesterday, prior to leaving for the coast.

Mrs. J. A. Morrin leaves Saturday to join Mr. Morrin, who is now living at Peachland on Lake Okanagan, in charge of his firm's business there.

W. C. Thomas, manager of the Dominion Copper Co., has been visiting in Spokane this week, while waiting for orders to start operations for his company.

After attending the Conservative convention at Vernon, Brother Lowery, of the Greenwood Ledge, is back in the Boundary, and viewed the sights of Phoenix yesterday.

Walter G. Watson, electrician for the West Kootenay Power and Light Co., left Phoenix Thursday for Greenwood to relieve the electrician at that place on account of sickness.

Ernest Spragget, of Grand Forks, road foreman for Grand Forks riding, was here Wednesday for the first time this year, and he was told of the bad condition of the road from Grand Forks, beyond the Winnipeg mine.

Mrs. A. E. Bodey, of Hillyard, Wash., accompanied by her two children, spent Sunday in town with her husband, Engineer Bodey, of the Great Northern. They purpose taking up residence in Phoenix in a couple of months.

E. W. Fox, for the last year or more, head accountant at the Snowshoe mine, left for Spokane on Thursday, where he has accepted a similar reponsible position with F. O. Berg. Mr. Fox made many warm friends while living in Phoenix.

Engineer McDougall, of the Consolidated Co.'s Snowshoe mine, left on Saturday to take charge once more of the company's Richmond-Eureka mine, near Sandon, which is getting to be an important shipper of silver-lead ore to the company's Trail smelter.

PRINCIPAL SIMPSON BUYS ORCHARD LAND

Secured 26 Acres of Valuable Land at Grand Forks.

While spending the Easter vacation in Grand Forks, John Simpson, principal of Phoenix public school, took occasion to investigate the land opportunities in the valley, which resulted in him securing 26 acres of splendid fruit land of the old Newby ranch from Neil McCallum and James McArdle, of Grand Forks.

For the choicest part of this land, which is of unusual richness, Mr. Simpson paid $175 per acre; for the balance, which is pasture land, he paid a much lower figure. The land extends from the new hundred-acre nursery now being started by Messrs. Tweedle & Brown, to Ward's lake, from which it is separated by the C.P.R. track. Three railways—Great Northern, Canadian Pacific, and Spokane and British Columbia—border on the land, and it is within 15 minutes walk from the C.P.R. station. The land is entirely cleared, and has been cultivated for several years, producing such heavy crops of wheat that the scythe had to be used in some places for cutting purposes, the heaviness of the crop causing the grain to lodge.

In purchasing this land just when he did the Phoenician principal is said to have stolen a march on a prominent business man of Grand Forks, who was also after the same land.

Just what he purposes doing with his newly acquired property Mr. Simpson has not made known, but he has no doubt secured some choice fruit land, and during the summer vacation will superintend its cultivation as a fruit ranch.

Spelter, $4.60 @ $4.65.

TWO MEN MEET DEATH IN MINE

Distressing Accident on Sunday Afternoon

C. B. Martin and K. G. Smith Killed While Barring Ore.

Last Sunday afternoon a distressing accident occured in the Granby mines, —the first in many months in this camp—by which Christopher B. Martin and Kingsley Greenlough Smith lost their lives. No one was a witness to the fatality, so that it will probably never be known exactly how it happened, though it seems evident that they fell from the bench on which they were working in Stope No. 61, on the 300-foot level, going down about 25 feet to the muck pile below. They were found by Charles Nelson, muckerboss, and William Tatham, shiftboss, and others and although a cry had been heard immediately before, when they were finally found life was instinct.

Martin and Smith were said to be the best of miners, and had gone to work on the four o'clock shift, the fatality happening about 5.15 p.m. Martin was well known all over the Boundary, having been here five or six years, in different camps. He worked with John Swanson 19 years ago in Michigan, and also worked for him on his first job in the Boundary. He was a married man, the wedding having taken place but five or six months ago in Fairview, his wife being yet in her teens. He was a native of New Zealand, and 40 years of age.

Smith had been employed here two or three years, and was a native of England, being 48 years old. Both had been members of Phoenix Miners' Union No. 8, and Martin was also a member of the Eagles.

The coroner's jury was empanelled Wednesday by A. S. Black, the coroner, consisting of the following: Andrew Johnson, Joseph Trombley, Murdock McIntyre, J. L. Martin, C. H. Flood and W. B. Willcox. The bodies were viewed and the scene of the accident was visited in the No. 61 stope at the 300 level of the mine, and testimony was taken for about six hours. The company was represented by David Whiteside, of Grand Forks, and the widow of Martin by J. P. McLeod, of Greenwood.

The men had been working on Sunday afternoon on a bench, some 25 feet above the muck pile below, and in some way had evidently lost their balance and been precipitated below, possibly one dragging the other down.

There were no witnesses to the fatality, but the shiftboss, Wm. Tatham, and muckerboss, Charles Nelson, who had found the remains, were called among others, to tell what they could about the matter. Mine Inspector James McGregor, who was here, was also called, and G. B. Larson and Murdock Campbell, barmen who worked on the opposite shift from deceased in the same locality.

The last two thought the bench had disappeared and fallen since they had worked there on Saturday, but their shiftboss, Henry W. Heidman, stated that, while there may have been some rock coming down, the bench on which the deceased worked was still there. The jury brought in a verdict of death from accidentally falling at the place refered to.

Largest Funeral in Phoenix

Wednesday afternoon the funeral was held of Martin and Smith, and it was the largest funeral ever held in this city. The Granby mines were closed as well as nearly every business concern in the city. Rev. Leech-Porter, Church of England clergyman, officiated, the services being held in Miners' Union opera house, no other place being large enough. The building had many hundreds at the services, the Eagles' quartette rendering appropriate music. The obsequies took place under the auspices of the Fraternal Order of Eagles and of the Miners' Union, there being about 850 persons in the funeral cortege as it wound its way to the Eagles' cemetery and the city cemetery, located a mile or two below Phoenix. Members of both orders turned out in larger numbers than on any former occasion.

Murray Comedy Co. Coming

The Murray Comedy Co., as its title implies, is noted for its fun production. Hearty laughter is the best tonic known, and this company is noted for its capacity to produce this sort of medicine. The company begins an engagement in the Phoenix opera house next Thursday, May 7th, when the attraction will be "My Nephew's Wife"; Friday night, "A Runaway Match"; and Saturday night, "Winning a Woman." Every comedy is in three acts, with specialties instead of the usual intermission.

Subscribe for the Pioneer and get the latest Boundary news.

Boundary Side Lights

Italians are said to be busy shooting grouse on the Mother Lode grade.

The Grand Forks band has started giving open air concerts in their city.

F. M. Elkins, of Greenwood, left last week on a three months' trip to England.

John Rogers and Henry Couture left Grand Forks for the Findlay river district last week.

F. Keffer and Mrs. Keffer, of Greenwood, have gone on a visit to their ranch near Marcus.

Martin Burrell will deliver an address at a farmers' institute meeting in Grand Forks next Tuesday.

Constable Jenson is a new appointee at Eholt, by the provincial government. He is spending some time at government headquarters at Nelson.

P. Burns & Co. have installed a new refrigerator plant at Grand Forks with a capacity of two cars or forty tons, the largest one in the interior except the one at Nelson. The plant is operated by electricity.

Greenwood's board of trade is preparing a pamphlet on the resources of the Boundary which will be an excellent advertisement of this section. Some 10,000 copies will be printed in good shape, and distributed where they will do the most good.

P. Burns & Co., Ltd., have erected temporary quarters on the site of their slaughterhouse recently destroyed, a couple of miles south of Greenwood, and are now doing business there as usual. J. B. Desrosiers had charge of putting up the new building, he having also recently completed the installation of a refrigerating and ice making plant in the Grand Forks branch, similar to that put in Phoenix over a year ago.

Special Train to Rossland.

On Monday, May 25, Phoenix Lodge No. 47, better known as the Scandinavian Aid and Fellowship Society, will charter a special train to proceed to Rossland, where a friendly visit will be made to the Rossland lodge of the same order—these being the only ones in British Columbia. The Rossland lodge is preparing to hold a big picnic that day, in which they will be joined by their Phoenix brethren, the train also taking a goodly contingent from Grand Forks, Greenwood and Trail. It is expected that at least 100 will take advantage of the special rates that will thus be offered, and later a visit may be made to Phoenix by members of the Rossland lodge.

D. McDougall in Goldfield — Phoenix Still Looks Good.

Duncan McDougall, a property owner in Phoenix, and up to a few weeks ago a resident for a long time in this camp, got the wanderlust, and started west and south. Writing to a friend here, Mr. McDougall says he stopped in Seattle and other places—in fact, was in a number of camps—but in no place did he find as many men employed as in Phoenix, compared to the resident population of each. He had an opportunity to go to Alaska, but a 275 mile walk to Fairbanks did not look good to him, even to secure work, and he trekked further southwards. He does not speak very favorably of Goldfield, where he is now, and did not expect to remain there for any extended length of time.

TIP TOP IN GOOD ORE

New Company Being Organized.

Drifting Proceeding at the 125-Foot Level.

One of the mines in the high grade belt that has been steadily working along for some months, having little said about it, is the Tip Top, in Skylark camp. The property is located in the vicinity of the Bay, Mavis, Skylark, and other well known claims in that camp, and so far the development has been decidedly encouraging.

The main perpendicular shaft of the Tip Top is now down about 150 feet, and drifting has been started at the 125-foot level, the drifting being now in about 30 feet. Those in charge say that the face is in ore of a good grade, and they are confident that they have a property in the Tip Top that, with adequate development, will join the steady shipping column.

H. V. Fuller, one of the large owners of the Bay, which has shipped such valuable carloads of gold ore, is also interested in the Tip Top, and is now in the east, in connection with Tip Top matters. A new company is being formed at Lincoln, Nebraska, to work the property and secure the capital necessary for development. The company will likely have a moderate capital, of about $25,000. The Tip Top is equipped with an electric hoist, and the mining can be done in an economic and expeditious manner. Seven men are now employed on the property, two shifts being steadily worked.

PRESENTATION TO W. B. WILLCOX

Late Editor of Pioneer the Recipient of Chain and Locket.

A pleasant event occured at the meeting of King Edward Lodge No. 36, A. F. and A. M., in their temple on Thursday evening, when W. B. Willcox, late editor of the Pioneer, who had been treasurer of the lodge for the past three terms, was made the recipient of a gold chain and locket. The locket bore the Masonic emblem and was beautifully engraved as follows: "Presented to Bro. W. B. Willcox by members of King Edward Lodge No. 36, A. F. and A. M., April 1908." The presentation was made on behalf of the members by the worshipful master, T. Roderick, who in kindly words expressed their regret in his departure from Phoenix and asked him to accept the gift as a slight token of the esteem in which he is held by members of the lodge. Mr. Willcox, who was taken by suprise, replied in a few well-chosen words, thanking the members for their kind expression of good fellowship, which he would prize very highly, and it would ever recall the pleasant associations of King Edward Lodge though he be distant from Phoenix.

Pioneer Publishing Co., Phoenix, B.C.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C.

Old newspapers for sale at this office at 25 cents per 100.

Before buying your furniture elsewhere, call on R. J. Gardner.

Second-hand Sewing Machines of all makes, for sale, see Miss McDonald.

Prescriptions carefully prepared at Thrasher's Drug Store—'Phone 16.

"Old Frank" has taken charge of the Dominion Barber Shop. Give us a call.

Come and get first choice of Baby Carriages and Go-Carts at Binns, the Furniture Man.

The subject for Sunday evening at the Methodist church will be, "The Good Samaritan."

Charles A. McClung, of Phoenix, has taken the management of the Windsor hotel in Greenwood.

The Boundary Moving Picture show, which went out on the V. V. & E., returned last week, and this week gave another entertainment in Greenwood.

We are selling out at 50 cts. on the dollar. Our Ice Cream parlor will open May 2nd, Hazelwood ice cream at 15 cents a dish. Sodas and drinks. Ellis Store.

Copious rains this week have played havoc with the little snow remaining on the hill tops hereabouts, to say nothing of making trouble for the railways all through this section.

The Dominion Copper Co. has fenced some of its property on Dominion avenue, in case there should be a cave in the workings of the Brooklyn mine during the spring thaw.

"Sis in New York," which was billed to appear here Wednesday evening, did not appear, for the simple reason that the washouts on the C.P.R. prevented its arrival from the Kootenays.

What are our local baseball enthusiastics doing these days? The other towns in the Boundary have organized and are now ready for the season. Phoenix has plenty of material for a champion nine and should be in shape for outside contracts as soon as possible.

Sewing Machines from $10 up, see Miss McDonald.

You can get a bargain in China any time at Thrasher's Drug Store.

House-keeping rooms to rent; apply to J. McIntosh, Old Ironsides avenue.

Charles Hagan this week took charge of the Knob Hill hotel, on First street.

The public library has just secured a new selection of fifty books for circulating.

It will pay you to see N. Binns if you are wanting Furniture, as he has now a full stock in most lines.

H. James and A. Strutzel furnished music for the I. O. O. F. ball at Grand Forks on Tuesday evening. They report having had an enjoyable time.

Chas. Biesel, of the Snowshoe, tried to get to Trail and Rossland Monday by the C.P.R., but had to return. Wednesday he made another effort over the Great Northern.

Evan Owens met with a serious accident in the Victoria shaft last Friday. He was barring down ore when a large piece fell on him, throwing him down into the chute, breaking four ribs and one of his legs. He is now progressing satisfactorily in the hospital.

W. R. Williams left on Tuesday for Vernon to attend the Yale-Cariboo Conservative convention, held there on Thursday, being a delegate from Phoenix Conservative association. Owing to the washouts on the C.P.R. near Farren, he went via Keremeos and was accompanied by delegates from Grand Forks and Greenwood associations.

Owners of realty in Phoenix have this week been favored with notices from the city assessor and collector, showing what their property is assessed at for 1908. Those having objections can present them in writing at the meeting of the court of revision, date of which will be settled by the city council and announced in the Pioneer.

As expected, the ball given in the Miners' Union hall on Monday evening under the auspices of the Phoenix Rebekah Lodge, I. O. O. F., passed off as one of the most pleasurable dances of the season. There was a good attendance, good music, and all present appeared to enjoy themselves, the dance going merrily until nearly two o'clock.

Sunday being the 87th anniversary of the organization of the Independent Order of Odd Fellows, Snowshoe Lodge, No. 46, will attend the Methodist church in a body, a sermon appropriate to the occasion being delivered by Rev. C. Wellesley Whittaker. Members of the lodge are requested to meet at the hall at 7 p.m. Visiting brethern cordially invited.

Every dwelling house ought to be thoroughly aired every day, and those who can afford sufficient bedclothing to keep them warm at night ought to sleep with their bedroom windows open. If the open window habit were commoner there would be fewer coughs and colds; for colds are in a great majority of cases produced by breathing impure air. The main reason why people are troubled with colds less in summer than in winter is that while sleeping they breathe fresh air in summer and tainted air in winter.

The man who cannot use advertising in his business has no business to be in business—and generally isn't.

Public Library Dance.

Arrangements here have been made for a grand ball to be given under the auspices of the public library on the evening of Tuesday, May 12th. The management are endeavoring to secure funds to add new books to the library and hope to make the dance a success financially as well as otherwise. Gentlemen's tickets will be $1.00, and ladies attending are invited to contribute a book to the circulating library.

Boundary Side Lights

Grand Forks ladies have formed a rifle club, with Magistrate Cochrane as patron.

Greenwood took in $4,365 in the first quarter of 1908, and expended $1,309.

H. Donan, C. P. R. car inspector at Grand Forks, has been transferred to Vancouver.

Al. Faulkner, Ben Peterson and Hugh McKay, of Greenwood, have left for Bulkley Valley, where they staked claims last summer.

Miss Veale, matron of the Grand Forks hospital, has resigned and leaves shortly for her home in the east. She is being succeeded by Miss McKnight, late of Strathcona, Alta.

About $3,000 has recently been spent on the wagon road between Greenwood and Midway, cutting out a couple of railway crossings below Boundary Falls. For which all teamsters will be thankful.

Greenwood rifle association has reorganized with a membership of 35 and the following officers: Captain, W. G. McMynn; secretary-treasurer, K. C. B. Frith; committee, B. Logan, A. D. Hallett and J. S. Birnie.

Percy Hallett, of Greewood, left last week for the coast, being a partner in the Western Tobacco Co. recently incorporated. Before leaving he was the guest of honor at a smoker given by the Greenwood fire brigade and orchestra.

I. Robert Jacobs, who was in the cigar business in Greenwood in the early days, was a visitor in the district this week. Mr. Jacobs was one of the early birds in Cobalt, and made his pile there, his mine being known as the Kerr-Lake Jacobs, and being one that was not in the wildcat class, but a dividend payer. This last winter Mr. Jacobs spent in Venezuela, and says that that is no country for a white man to live in, as President Castro and his satdellites want everything and so far pretty nearly get everything.

COMING AND GOING

Mrs. L. Y. Birnie went down to Grand Forks yesterday.

Principal Simpson returned from Grand Forks on Monday.

Mrs. J. L. Martin went to Spokane yesterday for a visit of a week or ten days.

Mrs. O. N. Galer spent a day in Grand Forks this week, visiting Miss Daisy Hodges.

Mrs. C. A. Arnott went to Spokane on Thursday on a visit to her home for a couple of weeks.

J. H. Thomas, of Nelson, was in town on Thursday visiting his brother, Ralph Thomas.

Mrs. J. E. Bell went down to Spokane yesterday, expecting to return Monday or Tuesday.

John A. McMaster, proprietor of the Hotel Balmoral, expects to leave today on a trip to Vancouver.

Murdock McIntyre, who has been sizing up conditions at Prince Rupert, is expected to return this week.

Charles H. Flood returned Thursday from a week's trip to Moyie, where he left Mrs. Flood with her sister.

Joseph H. Graham and son Stanley, have gone to their ranch in Alberta, where they will spend the summer.

William Manly, of the Great Northern, whose title is inspector of transportation, spent a day in camp this week.

H. F. W. Behnsen, M.P.P. for Victoria, was a visitor in town for a few days this week shaking hands with old friends.

Miss Kate McKenzie, teacher of the school at Paterson, near Rossland, spent Easter Sunday with her parents in Phoenix.

Col. Lowery, of the Greenwood Ledge, being a good Conservative, spent the week taking in the Vernon convention.

Miss Wall, who is on the teaching staff of the Trail public school, was visiting her sister here, Miss Rose Wall, this week.

Mrs. W. B. Willcox went to Grand Forks Thursday to visit Mrs. A. B. W. Hodges a day or two, before leaving for Spokane next week.

Ralph Coutts, Miss R. Coutts, Miss Pierce and the Misses Graham attended the Odd Fellows' ball at Grand Forks on Tuesday evening.

John McRae returned Tuesday from a fishing trip up the West Fork of Kettle river. D. C. McRae, his brother, accompanied him.

Mrs. George L. Elkins and daughters returned late last week from spending several weeks with her parents, whose home is at Lebanon, Oregon.

G. W. Rumberger and W. R. Williams started Monday for the Vernon convention, but could not get through and had to return from Cascade.

Mrs. Wm. Searle left on Tuesday for Grand Forks, where she will visit for a few days while en route to Morrisey mines to join her husband there.

Mrs. O. B. Smith, Jr., returned Wednesday evening from a month's visit in Victoria, being met at Spokane by her brother-in-law, Frank Smith.

Rev. C. W. Whittaker returned Tuesday from spending several days in Nelson, coming via Marcus, on account of the C.P.R. Boundary line being out of business.

Angelo Schulli, the militant proprietor of the Maple Leaf hotel, is off for Butte, where he expects to have an interesting interview with some of his erstwhile boarders.

Alderman William J. Porter has arrived here from Vancouver, and will attend to his business affairs here, in connection with his extensive mining interests, for a few weeks.

J. J. Strutzel, accountant at the Granby mines, went to Medical Lake Wash., Monday, accompanying his wife and son, Mrs. Strutzel being troubled with rheumatism.

H. W. Sharp, representing Sharp & Irvine, brokers, of Spokane, was in town this week, having come from the Kootenay country, where, he says, business is looking up.

Page Boyles, of Boyles Brothers, Spokane, diamond drill contractors, arrived early this week, to begin boring once more at the Granby mines. His last work was done at the Holden mine, in the Lake Chelan country, Washington.

TOLD OF FORMER PIONEER EDITOR

Remarks Made by a Number of This Paper's Exchanges.

Kettle River Journal: W. B. Willcox, who has for eight years published the Phoenix Pioneer, has sold out the paper to T. Alfred Love, of Winnipeg. Mr. Willcox, who has published the best weekly in the Boundary district, states that he will not enter active business at present, but will take a rest for a few months.

Grand Forks Gazette: W. B. Willcox has sold the Phoenix Pioneer to T. Alfred Love of Winnipeg. Since it was founded by Mr. Willcox, eight and a half years ago, it has built up a reputation for itself second to no other weekly in the province. It is an easy matter to follow the development of mining in the Boundary during that period by taking up files of the Pioneer. The news it has given has always been authentic, and its items have been widely quoted by mining journals.

Lowery's Ledge: T. A. Love has bought the Pioneer from W. B. Willcox. Being a practical printer he should make a fortune in Phoenix. Mr. Willcox will rest a while and then follow the crowd along the coast. Beach made a great deal of money in Phoenix and always got out a good paper. He was diplomatic enough never to take anybody's side, except Willcox's. In consequence he never had to keep a fighting editor and leaves the camp with a bag of money, a whole skin and the best wishes of nearly everybody.

Kane Sells "Prince Rupert"

Capt. Matthew McPhatter, of Vancover, and Dr. Paton, of Winnipeg, have purchased the rival townsite of Prince Rupert, near the G.T.P. terminus, from George T. Kane. They claim the Government has no power to change the name of their town because it happens to be a rival of the railway town, and they will take the matter to the courts. The consideration of the deal is about $200,000. Wharves will be erected and a town laid off immediately.

At the general meeting in London of the Ymir Gold mines, Ltd., Oliver Wethered stated that S. S. Fowler, who was the first manager of the property, was strongly of the opinion that sooner or later the vein for which search was being made would be found.

The Phoenix Pioneer is the only paper in the Boundary that prints all the news of the Boundary—and prints most of it FIRST. Sent to any address in Canada or Great Britain for $2.00 per year, or to any other part of the world for $2.50. Now is the accepted time.

ZAM-BUK SAVED THIS MAN'S FINGER!

Mr. William C. Edwards, Peter Street, Toronto (late steward Elks' Club), sustained a severe cut on the middle finger of the left hand. Blood poisoning ensued and the finger caused him excrutiating agony. He says: "My hand was so swollen and painful that I had to carry it in a sling for some months. I was under the care of a well-known doctor in Toronto for several weeks. The wound got no better, and one day he said my finger would have to be taken off. The pain from the wound was terrible and was extending right up the arm. I consulted another medical man and was treated by him for some weeks longer. He then suggested that the finger be opened and the bone scraped. At this stage a friend advised me to try some Zam-Buk which I did. I bathed the wound and applied Zam-Buk as directed. Next morning the wound began to bleed. It was a healthy sign so I continued with the treatment, and in a weeks time I was able to discard the bandage. A little more perseverence and Zam-Buk cured the wound completely."

Zam-Buk Cures cuts, burns, chafings, itch, eczema, running sores, ringworm, piles, bad legs, poisoned wounds and all skin diseases. All druggists and stores, 50c., or postpaid from Zam-Buk Co., Toronto.

CO-OWNERS' NOTICE.

To OLIVER STEEN, of Farran's Point, Ontario, and J. S. C. FRASER, of Rossland, British Columbia

YOU ARE HEREBY NOTIFIED that I have expended $100.00 in labor and improvements on the "Laura B" Mineral Claim, situate in Greenwood Camp, in the Greenwood Mining Division of the District of Yale, as will appear by the Certificate of Work recorded October 8th, 1907, in the Office of the Mining Recorder for the said Greenwood Mining Division, in order to hold such Claim for the year ending October 11th, 1907, and that I have also paid $2.50 for recording such Certificate of Work:

And if at the expiration of 90 days from the first publication of this notice you fail or refuse to contribute your proportions of the expenditures required under Section 24 of the Mineral Act, to hold said Claim for the year above mentioned, together with all costs of advertising, your interests in said Claim will become vested in the subscriber (a co-owner) under Section 4, of the Mineral Act Amendment Act, 1900:

The amount due from you, OLIVER STEEN, on account of such work, and recording the Certificate thereof is $25.62, and from you, J. S. C. FRASER, is $8.54.

Dated at Phoenix, B. C., the 23rd day of January, 1908.

D. L. MCINTOMINEY.

—24.

NOTICE.

NOTICE IS HEREBY GIVEN that, thirty days after date, I, JOSEPH J. BASSETT, of Hartford Junction, B.C., intend to apply to the superintendent of provincial police, F. S. Hussey, of Victoria, for the renewal of a retail liquor license for the Hartford Hotel, at Hartford Junction, B.C.

JOSEPH J. BASSETT.

Hartford Junction, B.C., April 21, 1908.

COPPER HANDBOOK

(New Edition Issued March, 1908.)

SIZE: Octavo.
PAGES: 1228.
CHAPTERS: 25.
SCOPE: The Copper Industry of the World.

COVERING: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

THE MINER needs the books for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.

THE METALLURGIST needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

THE COPPER CONSUMER needs the book for every chapter it contains. It tells what, and explains how and why.

THE INTESTOR IN COPPER SHARES cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: $5.00 in buckram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

WRITE NOW to the editor and publisher.

Horace J. Stevens

39, SHELDEN BUILDING, HOUGHTON MICH., U.S.A.

5,000 Facts About Canada.

The 1908 edition is out of that most useful and valuable booklet, "5,000 Facts about Canada," compiled by Frank Yeigh, of Toronto, who is widely known throughout the Dominion as an authority on things Canadian. Nearly 25,000 copies were sold of the 1907 edition, the demand coming from every part of this Continent and the British Empire. The idea worked out, that of a concrete fact in a sentence, is an excellent one, the data being arranged under such self-indexing titles, as area, agriculture, banking, commerce, finances, mining, railways, wheat fields, etc. The wealth of material contained in small space is a revelation to even a well informed Canadian of the standing and resources of the country. The book is published at 25 cents a copy by The Canadian Facts Publishing Co., 667 Spadina Avenue, Toronto.

Hospital Donations.

Cash $20	A Grand Forks Friend
Dominion Copper Co.	Full Set Boiler Tubes
Wood	F. Buckles

PROVINCIAL.

Vancouver now has an auto fire engine.

Fernie's assessment roll is $867,300 for 1908.

It is rumored that a newspaper is to started at Creston.

A game preserve is to be established on Vancouver Island.

Settlers are moving into the Nechaco valley through Ashcroft.

Keremeos and Kaslo will celebrate Victoria Day—May 25th.

New Alberni, on Vancouver Island, has a barber shop on wheels.

The K. of P. grand lodge will convene at Victoria on May 14th.

Kaslo merchants will close on Thursday afternoon during the summer.

Eastern oysters are now being successfully raised off Vancouver Island.

Moyie is putting on long pants. It is shortly to have a small debts court.

The Bank of Montreal has secured a site for its building at Prince Rupert.

Naramata, the youngest town in the Okanagan, has just built an opera house.

Three Japs were fined $10 and costs each for shooting robins at Revelstoke recently.

Five hundred fruit farmers are coming from England to locate in British Columbia.

Penticton is talking about incorporation, and will probably do so in the near future.

A boy of four years fell into the creek at Trail recently and was carried down stream.

Cranbrook is making a bid for outfitting parties going to the Findlay river district.

The fruit growers along the west arm of Kootenay lake are putting in a telephone system.

Peter Carrol, chief of police at Nelson, was summarily dismissed by the council recently.

Justice Drake died at Victoria last week. He came to Victoria from England in 1863.

A motor boat race will take place during the regatta this summer from Seattle to Vancouver.

Nelson's city and light and power sub-station was partly destroyed by fire last Saturday morning.

A special house has been added to the St. Paul hospital at Port Moody for consumption patients.

Great preparations are being made for the Dominion exhibition to be held at Calgary from June 29 to July 9.

Six thousand imported fruit trees were destroyed at Vancouver last week because they could not pass inspection.

D. Wagena, a Los Angeles capitalist, has purchased 5,000 acres of timber lands on Howe sound, near Vancouver.

Two houses were wrecked at Trail recently by a landslide. Two men who were in the houses at the time had a narrow escape.

Sawmill men believe that two months' time will see the advent of a slowly rising market for logs, which have been very low in price all winter.

One thousand one hundred acres of land were sold in the Okanagan last week for $75,000. This is the old Mission ranch and has pear trees on it 40 years old.

J. Coombs, of New Westminster, whose wife was the victim of an accident last week, died suddenly three days later, his demise being directly due to the shock sustained by seeing his wife run over by a rig he was driving.

Mr. Van Arsdol, chief engineer in charge of the western division of the G.T.P., is on his way north. He was preceded by several assistants. He will inspect the surveys made from Kitsalas canyon on the Skeena river to Hazelton and Bulkley valley, as well as the proposed cutoff from the Skeena river via the Copper river route, before recommending the final adoption of a route. The Copper river route, it is said, will effect a saving of 80 miles.

METHODS OF MINING AND TIMBERING . . .

BY W. H. STORMS.

The only thoroughly practical and exhaustive treatise on this subject.

TEACHES HOW TO TIMBER AND WORK MINES.

A Novice Can Understand It.

TIRED ALL DAY, EVERY DAY.

Thousands of Women Write Dr. Hartman to Complain That They Never Feel Wholly Rested, That They Are Always Tired.

MRS. T. TRENER, Albion Place, Notch Road, Paterson, N. J., writes:

"I suffered five years with my spine and pains in my back.

"I consulted you, fortunately, and in fourteen weeks was cured by the use of Peruna and following your advice.

"I can now do my own work. I cannot thank you enough. I cannot tell you how happy I am. No family should be without Peruna."

Suffered Years With Pain.

Mrs. Ida Germain, 531 Manhattan Ave., New York City, writes:

"For many years I suffered with pains in the pelvic organs. I was unable to find relief, as no doctor could help me.

"I read of your wonderful Peruna and decided to give it a trial. I took it for some time and obtained much relief.

Strong Again.

"Now I am strong again and have a good appetite. Peruna has relieved me of a chronic ailment, and I therefore recommend it to all women."

Always Tired and Weak.

Mrs. E. A. Connolly, 3227 Garner St., Kansas City, Mo., writes:

"I have suffered for years with stomach trouble, so that I could eat hardly anything. I was tired and weak all the time.

"This was caused by indigestion and female trouble. I suffered agonies and was afraid to be left alone.

Completely Exhausted.

"At times I was afraid to stand on my feet and to attempt to do any housework was out of the question.

"One day I read an advertisement of Peruna and its wonderful cures and I decided to try it.

New Life and Vigor.

"My husband brought home one bottle and before that bottle was half gone I felt new life and new vigor.

"That tired, hopeless feeling left me, I began to eat and my food nourished me. I could walk and do my work without fainting.

Peruna's Wonderful Work.

"I took several bottles during the summer and fall and cannot praise it enough for the wonderful work it did for me.

"When I feel tired or nervous from any cause, a few doses of Peruna cure me.

"I hope every man and woman who suffers will give Peruna a trial and be as grateful as my husband and myself."

Doctored a Year.

"Miss Anna McGinn, 161 Plain St., Providence, R. I., writes:

"I wish to let you know of the good your medicine has done for me. I had what the doctors called heart trouble. I had been doctoring for a year before I tried your Peruna. I suffered the most with pain in my head.

A Friend Advised Peruna.

"One day a friend of mine told me of your Peruna, so I got a bottle. After a week's use of it I began to feel better.

"At first I could not eat, sleep or work, but I have at last found that the medicine that would cure me was your Peruna.

A New Woman.

"My face has a good color now. I am a new woman. I thank you very much."

Followed Dr. Hartman's Advice.

Mrs. Viola Marshall, 420 West Mason street, Springfield, Ill., writes:

"Two months ago when I sought your advice, I had gotten so weak that I had to lie down most of the time.

Praising Peruna.

"I began taking your Peruna and now I feel like a new woman.

"I shall never cease praising Peruna, nor thanking Dr. Hartman for his kind advice."

PELVIC CATARRH CAUSES MANY AILMENTS.

There are so many women who are tired all the time. They get up in the morning tired and drag themselves around wearily all day.

They have pain in the back and dragging sensations which seem to weigh them down as though carrying a burden.

Many women are undoubtedly suffering with systemic catarrh. The proper remedy for them to take is Peruna.

The catarrh has invaded the whole abdominal and pelvic organs. Through mucous discharges they are losing vitality every moment.

The food they eat and the sleep they get is hardly sufficient to keep up with the incessant drain on their vitality.

The only hope for betterment in their cases is the complete removal of the catarrh.

For this Peruna is recommended by Dr. Hartman. It relieves catarrh wherever located in the human body—in the thorax, abdomen or pelvis.

The partial failure of the wheat crop in the Northwest provinces last year has not in the slightest degree acted as a check upon immigration. On the contrary, the increase for the eleven months from the first day of April, 1907, to the end of February, 1908, has been 38 per cent compared with the corresponding period last year. During the eleven months the total number of immigrants into Canada was 246,990 or 52,917 more than during the same period in the previous year, while the immigration from the the United States numbered 55,093. It is estimated that 70,000 of Uncle Sam's citizens will immigrate to Canada during 1908.

By simply glancing at the well drawn cartoons in the Vancouver Province, one could tell that it is a Tory sheet. They do not do a thing to Sir Wilfrid Laurier, either. That they hit home is seen by the attention given them by the Grit press of the province. The truth always hurts most.

There is talk that those in the confidence of the provincial government are favored when it comes to deals in the northern part of the province. If this is a fact, Premier McBride should put a stop to it without delay. This sort of thing will not help him or his party with the electorate at large.

An encouraging feature of the Government statement of Canadian chartered banks, recently issued at Ottawa, is the fact that the month of March shows an increase of $8,000,000 in deposits. The aggregate deposits are still $22,000,000 below the total of a year ago, but it is extremely satisfactory that the tide has turned in such a decided fashion, and that funds instead of being withdrawn, are once more coming in. Deposits in Canadian bank branches outside of Canada likewise increased to the extent of $7,225,000 during March. There has been a corresponding increase of Canadian call loans in the United States, and our banks were able to extend their accomodations to Canadian commercial houses by nearly $4,000,000. That the money situation continues to ease abroad is indicated by the announcement that the Rothschilds of London will take $40,000,000 of Pennsylvania Railway four per cent. bonds. For the first time in many months an American corporation is thus able to raise money by means of an ordinary long term loan.

At a convention of labor and other bodies, held in New York on April 6th, to inquire into the number of unemployed in the United States, and the reason for their idleness, Mr. Samuel Stodel, a representative of the Industrial Workers of the World, declared that a reasonable estimate of the number of unemployed in the United States at present, would be at least 4,750,000. He stated, also, that matters were getting worse and not better. While it is impossible to substantiate these figures, yet it seems certain that the number of unemployed is abnormally large, and the prospects at present are not very encouraging.

Possibly one of the best evidences of progress in British Columbia is the additional interest being taken in fruit raising and farming generally. While mining remains the premier industry of the province, agricultural pursuits in general are being followed more and more in our rich valleys, and with timbering and fishing also adding millions per annum to the output, the province is indeed a much blessed land.

No announcement has yet been made what the Grand Trunk Pacific proposes to do about the bogus Prince Rupert, located about ten miles from the Pacific terminus, and which has stolen a march and legally secured the *bona fide registration of the already* much advertised name. That there will always be two Prince Ruperts, is hardly to be thought, nor yet that the railway will let the matter go as it looks. Changing the name of the terminal city is one method of dealing with it, and buying out Geo. T. Kane's Prince Rupert is another. Meantime, those returning from the north country assert that either one is a splendid place to keep away from—till fall, at least.

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for *free* booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and, through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Buster's Philosophy.—XXV.

Resolved, that I have been guilty of asking Tige to do something that I wouldn't have done myself. Well, that is one of our inconsistencies—we ask things of our friends that we wouldn't be willing to do for them. Come, let us try to be a little more reasonable; this world is a pretty fine place to live in, and we should keep up with the rest of it by being kind and cheerful to every one, and too honest to ask a favor—especially a favor we can't return.

WIND ON THE STOMACH
HEADACHE
CONSTIPATION
Wind on the stomach is just the bad gas that rises from undigested food. Constipation comes of sluggish liver, and the impurities in your blood cause headache. Mother Seigel's Syrup cures all these by strengthening stomach and liver, and enabling you to digest your food.
Are Cured by MOTHER SEIGEL'S SYRUP.
Price 60 cts. per bottle. Sold everywhere

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

The March copper production by the Butte district was nearly 10,000,000 pounds more than that of February, the total for March being 18,127,250 against 8,438,750 in February. All of the Amalgamated mines, with the exception of the Neversweat of the Anaconda company, and the Parrot of the Parrot company, resumed operations on the first of March after a long shut down. Starting with a few hundred tons of ore daily, the production of ore has gradually and daily increased until the end of the month when some of the mines reached their normal output. The smelter at Anaconda did not start up until about the middle of the month, and it began to turn out copper on the 18th, but has not yet reached its capacity of production, which is about 18,000,000 pounds a month. The big concentrators were started about the first of the month.

The March output of the mines gives the following averages reduced to days:

Companies	Tons ore	Pounds copper a ton	Total dly. lbs. copper
Boston & Mont.	3,000	70	210,000
Anaconda	2,500	65	162,500
Butte & Boston	300	62	16,600
Washoe	315	60	18,900
Parrot	50	80	4,000
Trenton	150	60	9,000
North Butte	800	100	80,000
Butte Coalition	400	80	32,000
Original	550	70	38,500
Miscellaneous	150	75	11,250
Totals	8,215		583,750

These averages are based on mine outputs and assays and not on any smelter returns. The North Butte company, during the latter part of the month, had practically reached the capacity of its shaft and is now shipping 1,200 to 1,350 tons a day, of which half is first class and half second class.

New Machines for Making Blister Copper

The Copper Queen in Arizona has installed a new and remarkable machine, the function of which is to properly turn out the blister copper or Bessemer block in bars of approximately uniform weight.

The old plan, and which was thought to be quite up to date, consisted of running a long truck full of moulds under the converter and filling them one by one, then running the trucks to the rear, prying the copper out, allowing it several hours to cool, then handling it laboriously up to the car door.

The new machine is constructed on the plan of a merry-go-round, on the circle frame of which are fixed 29 moulds. The moulten copper is brought from the converters by the big crane in a large ladle and set over the rim of this wheel or mould system. The wheel is then revolved under the hands of a skilful engineer. As fast as one mould is filled, the engineer moves the other under the spout. On the opposite side of the wheel from the spout there is a tank of water, and when the full moulds arrive at this point, they have cooled sufficiently to form a casing over the metal. If not, a jet of cold water assists in cooling it, and then the bars are automatically dumped into this tank, in the bottom of which is an elevator system which carries them over and lands them on a platform on a level with, and within a few feet of the car door. The bars go plunging into the water every ten seconds, and usually glowing hot the effect is of rare interest to a student of mechanics.

Only Two Bits Per Month.

The cost of having us send the Pioneer to any part of the world, for a short time, is only 25 cents per month. Leave names and addresses at the Pioneer office.

INK THINKS

The robin sang a merry lay,
Rejoicing o'er a balmy day,
Song sparrows thrilled the vernal note.
The bard left off his overcoat,
And blue-birds in the mountain tree
Poured forth a flood of melodee.
The sun illumed a sapphire sky,
'Twas Spring, and happiness was nigh,
And then, and then—it snowed.

•

"Get the habit"—the cleaning-up rake.

•

A wireless to Ink Thinks states that Jim Hill has decided to again operate the Sunday train, so that interested Phoenicians will be able to spend Sundays with sweethearts down the line. Jimmy was a boy once himself.

•

Economy is the practice which makes us do without something we don't want now, in case we should some day want something which we probably won't want.

•

Money may be "hard cash," but it's harder when you have none.

•

Slocan is growing rapidly. The Mining Review says: "Four at a birth was an unusual event which happened at the Slocan hospital on Monday. The lady is the second wife of Mr. Thomas Cat. The doctor's services were not required."

•

The report that the hanging-wall had been stolen from the Lucky Boy, a few miles northwest of Phoenix, appears to have been unfounded, a careful survey a few days ago revealing it still in tact.

•

Uncle Jim Hill, the railroader, lives on Summit avenue—metaphorically as well as geographically.

•

We're never fully satisfied,
Each season finds us glummer;
In winter time we sigh for spring,
In spring we weep for summer.

•

And now it's suggested that the next thing will be the "weeping husband" parasols to cover the "merry widow" hats.

•

There never has been a time when good cheer was a drug in the world's market.

•

Selfishness is a quality everybody has—except you.

•

As a rule the girl who jilts a young man does him a great favor.

•

Gamblers never lose hope. It can't be bet against anything.

•

You can kill time, but it will come back and haunt you.

Spread Out!

In politics I'm a—never mind,
And you are a—I don't care,
But, anyway, I am rather inclined
To suspect we are both unfair;
For I have called you a coward and slave,
And you have dubbed me a fool and knave.
(Yet, perhaps I was right; for you surely abused
The right of free speech in the names you used!)
In business you figure—a profit, I guess,
And I charge you—as much as I dare;
And I grumble that you ought to do it for less,
And you ask if my price is fair.
But if I sold your goods and you sold mine,
I doubt if the prices would much decline.
(Though I must insist that I think I see
Where you'd still have a little advantage of me!)
In religion you are a—who cares what?
And I am a—what's the odds?
So why have I sneered at your holiest thought,
And why have you jeered at my gods?
For, thinking it over, I'm sure we two
Were doing the best that we honestly knew.
(Though, of course, I cannot escape a touch
Of suspicion that you never knew too much!)—Ex.

B. C. MINING

Nicola coal is now being sold in the coast cities.

Thirty years ago gold was panned on Findlay river.

The iron mines on Quatsino Sound are to be developed.

There seems to be little prospects of the Marysville smelter resuming operations.

The Maggie mine, near Ashcroft, is to resume operations on a considerable scale.

The mint at Ottawa has already bought 250,000 ounces of silver from the Trail smelter.

It is reported that a Seattle syndicate will operate Weaver Creek placer mines this summer.

Since the establishment of the lead industry in Canada the American product no longer enters the country. While a limited amount of English refined lead is sold in Canada, the product of the mines of British Columbia now leads in the home market and is winning first place in the markets of China, Japan and Australia. British Columbia is able to compete with Australian refiners and more than a year ago the invasion of the Australian market began.

American capitalists have [illegible] an option on the [illegible] the Warren farm on Salmon [illegible]

The big strike which was made lately on the Aurora near Moyie has been creating a good deal of favorable comment.

Ore from the Sunset mine, [illegible] the Coeur d'Alenes is now being treated at the smelters at Trail and Grand Forks.

The Toronto Telegram is responsible for the statement that J. J. Hill has now a controlling interest in the Crow's Nest Pass Coal company.

James McEvoy, chief engineer and land commissioneer of the Crows Nest Pass Coal company, has resigned his position to accept a responsible one with the German Development company, which owns and is about to develop extensive coal areas in the neighborhood of Calgary.

The Montana mine owners associations, composed of 300 active operators and shippers representing a combined capital, of $1,000,000, have secured control of the Idaho Smelter and Refining company's Panhandle Smelter at Sand Point, and will likely also use some B. C. ores.

The small sum of two bits (25c) per month takes the Phoenix Pioneer to any postoffice on earth.

HIGH-GRADE
Job Printing
. . . . BY THE . . . .
Phoenix Pioneer

As in any other calling, trade or profession, the Printing business always has some in it that produce work a little better than the ordinary and a good deal better than most of them.

Such an establishment is that of the PHOENIX PIONEER, where the endeavor is to turn out the *BEST QUALITY OF WORK* that can be done with paper, type and ink.

The best evidence of our success is the fact that we are and have been busier than other offices in this district, and are producing work that other offices do not attempt. Only the most competent workmen are employed, with the result that a high standard of efficiency is secured—and at no increase in cost to the customer.

With a complete equipment, from Presses and Type to Punching, Perforating and Wire Stitching machines and the best grade of stock obtainable, we are in position to give prompt attention to orders for

Mining Forms and Blanks — Business Stationery
