The Phœnix Pioneer

King Edward VII Dead!

As The Pioneer goes to Press (Friday 9 p.m.) a Special wire states that King Edward VII. is dead.

ELEVENTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, MAY 7, 1910 No. 24

Money-Saving Prices in Staples

The Portals of Opportunity to Advantageous Merchandising in Phoenix are Opened.

—READ THIS CAREFULLY—

As announced in last week's issue of this paper, we will take over the business of the Hunter-Kendrick Co. on May 15th.

We will also continue our business in the Lower Town, and we are sure that Customers will find this arrangement convenient in making their purchases.

We want to give our reasons for enlarging our business.

Everyone knows that during the past two years the prices of provisions have been on the upward trend, and it is also a fact that the Grocer is making less profit out of the high prices than he was when lower prices prevailed. The only solution that we could see was to buy nearer the point of production—to cut out the middleman's profit—and the only way we can do this is to be able to buy in large quantities, and be our own wholesalers.

By the acquisition of the Hunter-Kendrick business, we will have a large volume of business, larger than any other firm in Southern British Columbia. We will buy direct from the point of production or manufacture, and can sell our goods for less than has been possible by the two stores, and net more profit yearly for ourselves. Not only in our buying will we save money, but we can conduct the two stores under one management with a smaller proportion of expense, and still give you as good service as either store has in the past.

Remember—you will be treated just as well as if a number of stores were in opposition to us. We will accommodate our patrons to as great an extent as either of the two firms have. We will do everything to give you satisfaction, for we realise that only by doing so, and selling you goods at lower prices, can we hold your confidence, and it is only by doing the large volume of business that we can make the low prices.

We are pleased to announce that our great buying facilities, will enable us to make the following reductions effective on May 15th. The goods are now in transit. Note carefully the two store prices, and our new price, and your percentage of saving. This is only a partial list. Other reductions will be made in the future.

	Old Price	Our Price	Saving
50 lb. Five Roses Flour	$2.15	$1.90	12 per cent
50 lb. Royal Household Flour	2.15	1.90	12 "
50 lb. Robin Hood Flour	2.15	1.90	12 "
50 lb. Our Best Flour	2.15	1.75	20 "
20 lb. Sack Sugar	1.50	1.40	7 "
100 lb. Sack Sugar	7.00	6.75	4 "
10 lb. Rolled Oats	.45	.40	12 "
40 lb. Rolled Oats	2.00	1.75	12 "
5 lb. Pails Lard	1.25	1.15	9 "
10 lb. Pails Lard	2.50	2.25	10 "
Canned Beans and Corn	.15	12	15 "
100 lb. Sacks Flour	4.25	3.75	12 "
Bacon	.28	.27	4 "
Canned Tomatoes	·20	3 for 50c	15 "
Hams	.25	.24	4 "
Lemons	.50	.40	20 "
Apples	.8	.6	.25 "
Tartan Maple Syrup, per gallon	1.75	1.50	.15 "
Potatoes	1.50	1.25	.18 "

We will announce new prices on Butter as soon as our arrangements are completed with the Creameries. The above are the principal reductions, and you will notice they affect articles of every day use. You will find that your grocery bill will average an easy 8 per cent. less than heretofore.

Later on we will take over the Dry Goods and Furnishings Business of Hunter-Kendrick Co., and this, with the addition of our large Hardware Stock, will make the most complete stock under one roof in the country.

We trust to be favored with a continuation of business from patrons at both stores.

MORRIN-THOMPSON
AND COMPANY
Grocers and Hardware Merchants

WESTERN BRANCH MINING INSTITUTE

Will Meet in Grand Forks on Thursday, May 26

The eighth general meeting of members of the western branch of the Canadian Mining Institute will be opened at Grand Forks, on Thursday afternoon, May 26, when routine business will be transacted and several papers having particular reference to the Boundary read and discussed. The director of the geological survey of Canada (R. W. Brock) has courteously given permission to Messrs. C. E. LeRoy and L. Reinecke, staff geologists, to take part in the proceedings, and the former will contribute some notes on the geology of Phoenix camp, while the latter will take the West Fork of Kettle River as his subject. Other papers expected are, respectively, on the early history of mining in the Boundary, the electric power transmission system of the district, and probably some notes concerning local transportation facilities. The chairman of the branch, W. Fleet Robertson, provincial mineralogist, will endeavor to attend the meeting, arrangements for holding which are being made by the branch secretary, E. Jacobs, of Victoria. Incidentally, it may here be mentioned that as a result of action taken by the branch upon a resolution submitted at the meeting held in Vancouver on February 25, by A. G. Langely, having for its object the provision of facilities for telegraphic communication with Stewart, at the head of Portland Canal, the sum of $16,000 for this purpose has been included in the Dominion supplementary estimates and it is stated that an effort will be made to establish telegraphic communication with Stewart during the current year.

THE MUSICAL EVENT OF THE SEASON

Jessie Maclachlan Company Here Next Wednesday

There is a treat in store for the concert-going people of Phoenix next Wednesday evening, when Miss Jessie Maclachlan, one of the greatest ballad singers of her sex, will appear with her excellent company in the local opera house. She has charmed thousands with her brilliant rendering of Scottish songs and she has well earned her reputation as "Scotland's Queen of Song." There is nothing finer than her interpretation of Scottish song, and Phoenix should respond readily to the opportunity now presented to them to hear such songs as will long live in their memory.

Since her last visit to Canada Miss Maclachlan has toured Australia, New Zealand and Tasmania, and in every place visited by her on that tour she met with a perfect ovation. The press representatives were of the unanimous opinion that no artist in the last fifty years, has created so profound an impression or met with so enthusiastic a reception. Miss Maclachlan has been singing in her native land lately, and those who have heard her state that she is in splendid voice. Miss Maclachlan is supported by an all-star company, consisting of Craighall Sherry, one of the funniest of all Scottish entertainers, and he is as versatile as he is funny; Barnaby Nelson is a young tenor robusto with a magnificent voice, coupled with artistic temperament. His repertoire is extensive and varied, and whether he sings from the classics, a popular ballad or a Scotch folk song, he is sure to delight his audience. Last but by no means least, is the pianist and accompanist, Robert Buchanan, and in no small measure is the success of the concert due to his artistic and sympathetic accompaniments. Reserved seats are now on sale at T. Brown's.

All who are fond of really good singing, and that should embrace nearly everybody in the city, should endeavor to be present, and not only enjoy an artistic concert, but encourage the really good events at the local playhouse.

Dancing School

W. Bradford Marks begs to announce that he is opening a school of dancing in Miners' Union hall for one term only, and those who are desirous of taking advantage of this opportunity are requested to see him at once. It is intended to give a dance every evening.

GRANBY SMELTER IN FULL BLAST

Entire Battery of Eight Furnaces Operating

The entire battery of eight furnaces at the Granby smelter has been in operation all this week, consuming around 4000 tons of ore per day. During the week 27,675 tons ore were smelted, which constitutes a new record at the big reduction works. On only one or two occasions before have all the furnaces been in operation together, and then only for a day or two, for experimental purposes.

On Tuesday about 4,200 tons were smelted, an average of over 500 tons per furnace in 24 hours. The furnaces, however, are not being run at full capacity. It is understood that better values can be obtained by operating at normal.

Based on these returns the Granby company is making copper at the rate of 30,000,000 pounds per annum.

Boundary Mining Notes

Drilling continues at the Argo tunnel at Greenwood with prospects brightening.

The big Greenwood-Phoenix tunnel is progressing at the rate of about six feet per day.

Good headway is being made on the construction of the tramway at the No. 7 mine. A large force is now employed at the property.

R. H. Stewart, manager of the mines of the Consolidated Mining and Smelting company, was in town from Rossland this week inspecting operations at the Snowshoe and No. 7 mines.

Local promoters of the the Riverside mine on the West Fork visited the property last week and took a number of samples for assaying. The results have been highly satisfactory. The property is in shape for shipping with 500 tons on the dump, and the owners are looking forward to the construction of the Kettle Valley railway, which will run close to the property.

The returns of the British Columbia Copper company for the month of March are particularly gratifying. During that month the production amounted to 891,419 pounds of copper, 2623 ounces of gold, and 9191 ounces of silver. This is an increase in the red metal of over 200,000 pounds in excess of January and February. Silver production also increased about 20 per cent. and gold 5 per cent.

The strike situation affecting the British Columbia Copper company remains unchanged. Only a limited number of men returned to work, so that no shipments are being made from Mother Lode mine and the smelter is out of commission. At the smelter, however, the company has a score or more men at work, and is availing itself of the opportunity to make necessary repairs. A small force is working at the Oro Denoro mine, but no shipping is being done. At the Jackpot mine the regular force continues on development work.

The Granby and Snowshoe mines were the only ore shippers in the Boundary this week, the Mother Lode and Oro Denoro being off on account of the labor troubles. Following are the mine and smelter returns for the week and year to date:

	Week	Year
Granby mines	24,478	450,528
Snowshoe	3,140	64,390
Mother Lode		140,905
Oro Denoro		4,590
Sally		32
Golden Eagle		120
	27,618	660,565
SMELTER TREATMENT		
Granby	27,675	433,641
B.C. Copper		139,060

Phoenician in Alberta

Hugh Reed, formerly of Phoenix, now of Lacombe, Alberta, writing to the Pioneer to renew his subscription, under date April 8th, says: "I am still interested in the Boundery. This is a great country, I assure you; the farmers have been working in the fields since March 14. Today is like summer, and yet I often long to be back among the mountains."

Buys Land at Midway

G. W. Patterson of Vancouver has acquired 300 acres of ranch land near Midway. He intends installing an irrigation system this summer.

GREAT NORTHERN'S COAST-KOOTENAY RY.

Construction Will Be Pressed to the Limit

James J. Hill, Louis Hill, president of the Great Northern, Howard Elliott, president of the Northern Pacific and a party of eastern capitalists visited Vancouver last Saturday to look over the proposed terminal site on False creek and the situation generally. The Great Northern railway magnates stated that work on construction on the Coast Kootenay line would be pressed to the limit of the labor market. It would be only a few years before his company would have a direct Canadian line between Winnipeg and Vancouver tapping Calgary and other centres en route. He spoke most enthusiastically concerning the prospects of the province, saying his experience had taught him to expect that in the next few years there would be an unprecedented rush to this section on account of its many and varied resources; all now only waiting development and easy means of access.

As to Vancouver he said the future of the city as one of the greatest ports on the Pacific was beyond question. Within the next fifteen years he expected it to have a population of half a million people. The party left that afternoon to inspect the new property in Oregon.

Build New Warehouse

The Morrin-Thompson company commenced on Monday the erection of a warehouse on the corner of First street and Knob hill avenue. The building will be a single storey structure 25 feet wide by 50 feet long, and will be used by the company for storing their heavy hardware, building material, etc. G. W. Rumberger is superintending construction.

REBEKAHS INSTITUTE AND ENTERTAIN

Red Letter Session on Wednesday Evening

The Phoenix Rebekah lodge had a red-letter session in the Odd Fellow hall Wednesday evening, when a score of candidates were admitted, including several from Grand Forks. There was a good attendance and the local degree team were highly complimented on the splendid work put on. Miss Bacon, president of the provincial assembly, was present and gave an excellent address. At the conclusion of the lodge proceedings, refreshments were served after which those present enjoyed dancing for an hour.

Among those present were: Mr. and Mrs. E. Spraggett, Miss Spraggett, Mr. and Mrs. Taylor, Miss Miller, W. Downey and J. Falconer, of Grand Forks; Mrs. Thompson, Mrs. Fleming and Miss Murray, of Greenwood.

Mrs. James Marshall was the hostess of an enjoyable whist party at the Hotel Brooklyn Thursday afternoon, given in honor of Miss Bacon, president of the Rebekah assembly. The invitation list was confined to sisters of the order. At whist Mrs. R. K. Morrison, won the leading trophy, while Mrs. J. F. McDougall captured the consolation prize, both receiving beautiful souvenirs of the occasion. A dainty luncheon was also served.

This afternoon local Rebekahs will entertain Miss Bacon in a drive to Boundary Falls, the president remaining at Greenwood to visit the lodge there. It is expected a lodge of Rebekahs will shortly be instituted at Grand Forks.

Boundary Printers' Meet

The Boundary union printers were in solemn conclave at Grand Forks on Sunday morning—Ed Rowland representing the Boundary Creek Times; J. H. Willcox, the Greenwood Ledge; J. L. Meikle and C. D. Pearson, the Grand Forks Gazette; and G. Kay and T. A. Love, the Phoenix Pioneer. The ritualistic services were conducted by the "358" typo officiary within the precincts of the Gazette sanctum, after which the visiting knights of the stick and rule were given the freedom of the Gateway city and entertained by Messrs. Meikle and Pearson. The big reduction works were inspected, Mr. Clark piloting the visitors through the 25,000 horse power depot. A master printers' dinner followed, everything being served a la 72 point slugs, with labor-saving rules and regulations. The "post-mortem" will be held in Phoenix early in June.

BRITISH COLUMBIA REPRESENTATION

Controls Directorate of New Dominion Company

The possibility of a contest for control of the New Dominion Copper at the stockholders' meeting in June has been eliminated through the resignation of Directors Lewisohn and Julius Susman representing the Lewisohn and General Development interests.

Charles A. Starbuck, a director of the British Columbia Copper has been elected to fill one of the vacancies, while E. Summerfield will temporarily fill the other. Through the election of these two men the British Columbia Copper which has for some time owned 53% of the New Dominion, comes into complete control of the directorate of the New Dominion Co.

The directors of the New Dominion Copper now are: Newman Erb, F. L. Sommer, C. A. Starbuck, E. Summerfield, N. Bruce M'Kelvie, Judge W. W. Foster and John A. Schleicher.

Presentation to Robert Fraser

Robert S. Fraser, who has been connected with Granby mines for some years as shiftboss, and latterly has been in poor health, left on Monday to spend the summer on his ranch near Spokane. On Saturday afternoon a number of the employees at the Granby presented Mr. Fraser with a purse of gold.

Going to Peru

W. Anderson, civil and mining engineer of Vancouver has gone to Peru to report upon a hydro-electric power scheme for the Cerro de Pasco Mining company, of which A. B. W. Hodges, late of the Granby company, is general manager.

In addition to their coal and metal mines and smelter, the company owns and operates its own railroad. *It is with the view of electrifying this railroad, and using electric power wherever possible in the various industries, that the installation of a hydro-electric* plant is contemplated.

Mr. Anderson is a member of the firm of Anderson and Warden of Vancouver. Prior to going to that city Mr. Anderson was chief engineer for the West Kootenay Power and Light Co., having entered the employment of that concern when it absorbed the Cascade Power and Light Co., in which he held the position of manager and chief engineer for about eight years. Mr. Warden was also a mining engineer for the Canadian Pacific Railway for three or four years after having been engaged as engineer with the War Eagle and Centre Star mines in Rossland for three years, and with the Silver Cup mine at Ferguson, as superintendent. More recently he was superintendent engineer for the Nicola Valley Coal and Coke Co. at their Middelsboro collieries for two and a half years resigning from that position last fall to take up private practice in Vancouver.

Presented With Locket

John C. Tait left on Tuesday for Junea, Alaska, to accept a lucrative position with a mining company. On the evening prior to his departure members of Snowshoe lodge, No. 46, I.O.O.F., of which Mr. Tait was a past noble grand and active officer, presented him with a beautiful gold watch chain and a locket mounted with the three-link emblem and suitably engraved.

WILL GO OVER WEST FORK RAILWAY ROUTE

And Make a Report on General Conditions

W. P. Tierney, head of the railway contracting firm of that name, was in the city yesterday from Nelson in connection with railway matters in the Boundary. He inspected the Wellington branch which is now practically completed. The steel is laid and the ballasting crew will shortly reach the Jackpot mine.

Mr. Tierney looks for the early commencement of construction work on the west fork of the Kettle river. In order to facilitate matters when work begins G. O. Tierney and J. F. Linberg will leave on Monday and make a trip over the route to size up the situation and make a general report on conditions obtaining. It is expected the dirt will be flying in the course of a month.

Canada's Prospective Governor-General

An interesting sketch of Earl Carrington, who will likely be the next Governor-General of Canada, appears in May Busy Man's.

Perhaps it is his sincere kindliness and spontaneous geniality that constitute Lord Carrington's chief assets as a person in the public eye. In the House of Lords many a tedious debate is enlivened by his welcome merriment; on the country platforms, and at National Liberal Club banquets his jests are inimitable. Apart from the serious viewpoint of his mission—and not for a moment is that serious purpose abandoned—perhaps his special function is that of softening the asperities of provincial Radicalism, and of convincing disappointed aspirants after social fame that a peer may really be a good fellow.

In his young days, when he proved himself to be one of the most charming and pleasant young men of the court, Lord Carrington was chosen to accompany the King, then Prince of Wales, on his famous tour through India. And there, on all sides, he made hosts of friends.

In 1885, when the Earl was sent out to be Governor of New South Wales, he found the prevailing tone of Australian statesmen was one of mingled dislike and contempt for all that pertained to Downing Street, and also that they were apt to vent their dislike of the Colonial Office upon the Governors. Without any too apparent effort Lord Carrington won all hearts in Sydney, the popularity thus gained becoming a standard to which recent Governers have been expected to conform. He was long remembered as the most successful representative of the crown who had ever been sent out to Australia.

Learned men tell us that in Latin the word "editor" means something "to eat." In Canada its meaning is altogether different. It means to scratch around like blazes to get something to eat.

An advertisement is to a merchant very much what sowing seed is to a farmer. It may take a little time for the results to become apparent, but they are sure to come. The wise farmer is not niggardly with his seed, nor the wise merchant with his advertisement.

SUNLIGHT SOAP

A BASKET FULL of clean, sweet-smelling linen is obtained with half the toil and half the time if Sunlight Soap is used. Sunlight shortens the day's work, but lengthens the life of your clothes. Follow directions.

THE COMING OF HALLEY'S COMET

Halley's comet—it's tail, anyway—will be in our midst on May 18th.

None of us, not even the astronomers, know just what it will be like when we get our baptism of tail. But we do know how the blamed old thing is stepping off space in its 10,000 league boots, and therefore we can tell pretty accurately when it will arrive, and the hours we can see it and such like.

The comet rises in the east at 3.47 a.m. upon May 17, "the day before." It will then be rushing at us at a fearful rate of nearly 100,000 miles an hour, while we are at the same time speeding, at almost right angles to cross its path, at a pace over half that fast. The comet's head will then be about 12,000,000 miles from us, with its great tail of gaseous light streaming out across our orbit, or path, and steadily coming nearer to our earth. This tail will cause all the harm, if there be any, for the chances of the comet's head hitting us are, scientists tell us, less than 1 in 281,000,000.

With every tick of the clock the fiery tail will be swept 26 miles nearer us. The comet will be still facing the sun, around which it circled April 19th. Upon that date it was going at the greatest speed, 1878 miles per minute; and but 54,000,000 miles from the sun.

It will be quite dark when the comet rizes at 3.32 a.m., May 17th, and it will be a brilliant sight until the rays of the sun dims its own light. All the morning the comet will be in the American sky, disappearing in the west in the afternoon. Whether it will be bright enough for us to see it during the daylight of May 17th is a question.

Then will come the wonderful "day of the comet," for in the early morning hours of May 18th the earth and comet will pass each other. The comet will remain between the sun and the earth for 14 minutes. This will occur between 1.31 and 1.45 a.m. Washington time, which will be 2.45, and 3.00 in Phoenix, hence invisible in this country, for the western hemisphere will be turned away from the sun.

In Europe, Asia and Africa, it will be one of the greatest astronomical sights ever afforded the inhabitants of the earth. In England it will occur between 6.31 and 6.45 a.m.

But that will be merely a heavenly sight of rare wonder alike to scientist and layman. The real cause for alarm occurs when as the comet rushes between the earth and the sun the world dives into the tail and is completely enveloped by it. The constitution of that sheath of light—the tail—is by no means definitely known. Some of it is metallic vapor. That it is composed of gas of known, and perhaps of unknown properties is also

But do not be disappointed. The next evening, May 19th, the comet will appear in the western sky for a few minutes after sunset, and will be a truly gorgeous, awe-inspiring spectacle. The danger, if there was any at all, will have passed and comet watch parties will be in order. On May 20th you will probably see the comet for an hour or more, as it does not set until 8.11 p.m. Its size will still be enormous. It will be the one big wonder of the evening skies during the rest of the month, setting later and later each evening until it finally gets without the range of the naked eye.

Probably no ballad singer on the concert stage has ever been able to touch the hearts of her hearers quite so completely as Jessie Maclachlan, and her voice has certainly lost none of its charm. She was recalled again and again, and the audience could hardly be persuaded to let her leave the stage.—Toronto Mail and Empire.

PROVINCIAL.

Work will be commenced this week on the new post office at Vernon.

G. B. Casey has resigned the secretaryship of the Rossland Miners' union.

J. C. Dobson of Trail will assume the management of the Grand Pacific hotel at Kamloops.

The first agricultural fair in the Boundary country will be held this autumn at Midway.

The congregation of Christ Church, Anglican, will erect a handsome new church at Fernie.

A $120,000 fish curing and refrigerating plant is to be established at Seal Cove, Prince Rupert.

An up-to-date cement block building will be erected at Summerland on the site of the Empire hall.

The office of the deputy mining recorder for the Greenwood division has been moved to Rock Creek.

Sterling and Pitcairn have leased the Peachland fruit cannery for the season and will operate it to the limit of its capacity.

The party locating the Great Northern survey between Oroville, Wash., and Penticton expect to complete their work shortly.

Hazelton is the centre of the largest packing camp in the world. One pack train operates out of that camp with 135 animals.

John Houston's Tribune is to have competition at Fort George, E. A. Haggen, late of Revelstoke having decided to also enter the field.

Neil Mackay, M.P.P. for Kaslo, who is moving to the coast was presented with a gold watch and chain by his constituents last Saturday.

Special telegrams from the north state that the steamer Port Simpson was successfully launched on April 21, and the Hazelton on April 23.

Last season's work at the Skeena River hatchery was very successful, over four million sockeye eggs having been collected ten days earlier than in any previous year.

H. P. Latham, for seventeen years past city treasurer of New Westminster, has resigned that office to assume the local management of the National Finance Co. succeeding N. H. McQuarrie.

A Dominion order-in-council has been passed setting aside certain lands surrounding the Kootenay lakes as a forest, fish and game reserve. There is also a provision that no intoxicating liquor may be sold within the reserve

When the case against the watchman Robinson, who was charged with setting fire to the Erickson sawmill, was taken up before Magistrate J. K. Johnson at Creston, the court dismissed the information, while advising Robinson to "get out of town forthwith." The evidence did not in any way implicate Robinson.

STOMACH AGONY

Abolish the Cause, and Misery and Distress of Indigestion will Vanish

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas, biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o na, the mighty dyspepsia remedy that cures by removing the cause, they would go to a druggist this very day and get a large box of Mi-o na tablets, and start themselves on the right road to health at once.

The price of Mi-o na tablets is only 50 cents, and John Love guarantees them to cure indigestion, or money back.

Thin or lean or scrawney people will find in Mi-o na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

NOTICE

Public notice is hereby given that the Canadian Pacific Railway company (as lessee of and exercising the franchise of the Columbia and Western Railway) has this day deposited in the land registry office in the city of Kamloops in the province of British Colnmbia, plan and profile and book of reference showing proposed extension of the Wellington camp branch to be constructed by the said Canadian Pacific Railway company from Station 164-30 to Station 170-00 of the Wellington camp branch of the Columbia and Western Railway, in lot 2701 Yale district of British Columbia, and that thirty days after this notice or so soon thereafter as the application can be heard, the said Canadian Pacific Railway company intends to apply to the board of railway commissioners for Canada for approval of the said extension of the Wellington camp branch.

Dated this 7th day of April, 1910.

R. MARPOLE,
General Executive Assistant,
Canadian Pacific Railway company.

The Great Northern hotel at Kaslo dropped four feet from its supports People were sleeping in the building at the time but no one was hurt.

The report that the Canadian Pacific railway will electrify the Crows Nest Pass line is revived by the incorporation of a company capitalized at a million dollars to develop power from the Pend d'Oreille river.

Fire destroyed the Deschamps sawmill, planing mill and yards near the city of Rossland recently. The saw mill and the planer were under one roof, and the fire started on the roof of the planer, the entire plant being destroyed, together with 1,000,000 feet of dry lumber in the yards, ready for shipment. The loss is $35,000, the insurance carried amounting to $8,000

Lovers of good shows should not fail to bear in mind the fact that Jessie Maclachlan and her grand Scottish concert company will be in Phoenix on the evening of Friday, May 11. Miss Maclachlan is recognized as "Scotland's Queen of Song," and is a master both in English and Gaelic compositions.

The Agony OF PILES

ONLY those who suffer from piles know the misery it brings! It robs life of its pleasure, steals the brightness from existence, and substitutes days of dull pain and moments of acute agony. Most so called "remedies" give ease only for a time, and then—back comes the trouble and pain and misery! Zam-Buk cures Piles! And cures permanently. Proof of this lies all around you. Women and men in all stations of life have proved it—possibly some of your friends! Let it cure you!

Mrs. Wm. Hughes, of 253, Hochelaga St., Hochelaga, Montreal, says:—"I was a sufferer for years from blind, itching and protruding piles. Though my I suffered no one knows. Remedy after remedy proved useless. Day followed day and there was no relief for me—pain, loss of strength, dulness, misery, this was my experience until Zam-Buk was introduced. I know now that there is nothing on this earth like it! It cured me of piles, and once cured, I have had no return of the evil. I would like all women who suffer as I did to know that Zam-Buk will cure them!"

Besides being a specific for piles Zam-Buk cures eczema, blood-poisoning, cracked or chapped hands, ulcers, cuts, burns, bruises, scalp sores, ringworm, bad leg, frost bite, cold sores, and all skin injuries and diseases. All druggists and stores sell at 50 c. box, or from Zam-Buk Co., Toronto for price.

Zam-Buk

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS

Any available Dominion Lands within the Railway Belt in British Columbia may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased), of the homesteader, resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of 21 years, at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at a rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid.

Don't fail to hear Craighall Sherry in mirth-provoking sketches and impersonations—with the Jessie Maclachlan company, May 11th.

COPPER

The New Edition of the

COPPER HANDBOOK

The Copper Handbook contains, in this new and greatly enlarged edition, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its greater bulk. It is filled with FACTS of vital importance to Vol. VIII, issued May, 1909, contains 1500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts States, Countries and Continents; Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book On Copper.

TERMS are the most liberal. Send no money, but order the book sent to you, all carriage charges prepaid on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

PRICE is $5 in buckram with gilt top, or $7.50 in genuine full library morocco.

Jessie Maclachlan

The Boston "Journal" speaking of Jessie Maclachlan the Scottish prima donna who will appear in Phoenix on May 11th with her company, says: "Miss Maclachlan drew from her audience applause such as falls to the lot of few singers. When she gave the stirring martial air "Wi' a Hundred Pipers" the audience went wild. Men jumped on the chairs, and waved their arms, shouting like mad, and for seven or eight minutes the applause was absolutely terrific. There were fully 5000 people present."

A Turf Club has been organized at Penticton, to embrace both horse-racing and athletic ports.

Bank at Fort George

Fort George has a bank—a branch of the British North America. L. G. McHaffie, for some years manager at Hedley, is manager of the new branch; J. Munro of Vancouver is teller. In company with Inspector J. Anderson they packed their outfit into Fort George, having walked the greater part of the way. They posed as a magazine party en route and entered the northern metropolis very quiety and selected a site for the first bank in the new town.

J. M. McPhee has left Prince Rupert for Stewart to superintend construction of the bridges, wagon roads and trails which the provincial government has decided up.

Court of Revision

The court of revision, for the Grand Forks, electoral district sat at the provincial court house, Monday morning, May 2nd, the Registrar, S. R. Almond, presiding.

Objections had been filed against 85 registered voters: 79 for non-residence, 4 on account of death, and 2 for insanity.

Ernest Miller, M.P.P., was present, and represented the interests of the Conservative party, and Walter E. Hadden for the Socialists. The liberals were without representation.

Ten of the names that were objected to, were not sustained, and they still have the privilege of voting within the Grand Forks electoral district.

Land for Doukhobers

Peter Veregin, head of the Doukhobor Society, has purchased the Macy ranch at Grand Forks, containing 480 acres This brings the Grand Forks holdings of the society up to 3500 acres. The last previous purchase was the Vaughan estate, which has a water system and a fine orchard. Mr. Vaughan is removing to Chilliwack.

The Grand Forks colony has set out about 11,000 fruit trees this year, making 20,000 in all, the latter number includes 4000 Italian prune trees. In addition to the other enterprises carried on by the colony, a sawmill and grist mill is operated, and also a brickyard. There are 200 people in the Grand Forks colony, and it is said that several hundred more are shortly to be brought out.

Rev. A. E. Smyth has resigned as rector of Trail Anglican church.

B. C. MINING

The Columbia Coal Co. will use a diamond upon their properties on the north fork of Granite creek.

The Ashcroft Copper Co. will expend $40,000 this year developing their properties in Highland valley.

The zinc property known as the Big Ledge and situated in Arrow Lake mining division has been having considerable development work done.

Another seam of coal has been opened at the Extension colliery, on Vancouver island. It is near No. 4 new shaft and contains about five feet of clean coal of good quality.

The Western Fuel Company is the first to procure for use in its mines in times of need the oxygen breathing apparatus now generally recognized as a necessary part of the equipment of a coal mine.

Additional plant and machinery has been ordered for the mine and stamp mill of the Hedley Gold Mines, Ltd, operating at Hedley camp, Similkameen. This company is one of the most progressive engaged in mining in the province, and its operations are so profitable that it is on the dividend-paying list.

The Aurora Mining & Milling Company of Moyie has taken a lease on the Alice concentrator, three miles west of Creston for the balance of the year. The ore from the Aurora mine will be shipped to this newly acquired mill, and the silver-lead will be separated from the zinc. Then the silver-lead will be shipped to the smelter at Trail for final treatment, and the zinc concentrates will be sent to the Empire Zinc Company at Denver.

The publication in the The Canada Gazette of notice of incorporation of the Canadian Collieries (Dunsmuir) Limited, with an authorized capital of $20,000,000, in shares of the par value of $100 each, with head office in Victoria, B.C., is generally taken to confirm recent reports of the sale of the coal mines and other property of the Wellington Colliery Company, Limited. The personnel of the provisional directorate seems to indicate that the new organization is a Mackenzie & Mann or a Canadian Northern Railway Company enterprise.

Many vocalists attempt Scottish songs but Jessie Maclachlan lives them. She will be heard in Phoenix on May 11th.

THE MIDWAY COAL MEASURES

The announcement that the Boundary Mining and Exploration Company has encountered a five-foot seam of coal in the lower tunnel it has been driving on its property, situated four miles west of Midway, in the Boundary district, recalls the fact that it is nearly seventeen years since a commencement was made to prospect the coal measures occurring in that locality, says E. Jacobs in the Province. For about eight miles along Kettle river—from four miles west of Midway to the mouth of Rock creek—the cretaceous rocks show occasional croppings of coal. At Rock Creek the seam of coal was found to be four feet in thickness, and the quality quite up to the average cretaceous coal.

In 1893, or thereabouts, Mr. D. C. Corbin of Spokane, Washington, did some prospecting work on the coal measures nearest to Midway, but results were not such as to encourage him to continue spending money on development work, so the undertaking was abandoned. Late in 1908 two enterprising residents of the district applied for the land, formed a local syndicate and did some exploration work, while formalities in connection with obtaining a title for the property were being attended to. When the land had been secured the property was tranferred to an existing organization, viz., the Boundary Mining and Exploration Company, which thereafter sold some of its treasury stock to provide funds for the work of opening the coal seam. At the close of 1909 the company owned about 500 acres of land and had secured options of purchase on nearly 1,000 acres in the vicinity of where the formation is favorable to the occurrence of coal, and surface indications suggest that coal will also be found there. Prospecting work was commenced early in September last and operations have been practically continuous from then till now. A prospect shaft was sunk ten feet to the sandstone underlying the coal, which was five feet in thickness. The working was opened in the seam of coal for 65 feet, and it was found that the coal occurred between well defined walls. Then the driving of an adit was commenced from a point 35 feet above the flat at the foot of the hill, with the expectation of intersecting the coal seam about 150 feet below where it outcrops. At 265 feet in the coal was met with; it is five feet in thickness, and it is stated to be of good quality. From the position of this seam, and the nature of the adjacent rocks, it is thought that it is not the seam opened from the prospect shaft above, so the adit is being continued further into the hill with the expectation of finding another seam some forty feet ahead.

The surveyed line of the extension westwards from Midway of the Canadian Pacific railway passes within a short distance of and below the tunnel entrance, so shipment of coal without difficulty or much expense will be practicaole if it shall be found that there is any considerable quanity of coal here and that it can be profitably mined.

Disease of The Kidneys Brought on By Catarrh.

Pe-ru-na Made a Well Man of Me.

I Cannot Speak Too Highly of It.

Mr. George King, 453 St. Denis St., Montreal, Canada, a well-known business man of that city, writes:

"Peruna cured me from what the doctors were afraid would turn into Bright's disease, and after you have gone through the suffering that I have with catarrh of the bladder and kidney trouble, and have been cured you are pretty apt to remember the medicine that did the work.

"Peruna is a blessing to a sick man. Eight bottles made me well and were worth more than a thousand dollars to me. I cannot speak too highly of it. It is now four years since I was troubled, and I have enjoyed perfect health since. Every spring and fall I take a bottle of it and it keeps me well."

MR. GEORGE KING

CATARRH of the kidneys is a very much neglected disease.

It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs.

The slight backaches, the feelings of lassitude, and other warning symptoms of kidney disease are overlooked.

They are not serious enough to detain the patient from his regular work.

Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

INTERNAL CATARRH REACHES THE KIDNEYS.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it is once firmly seated in the kidneys it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys it is liable to terminate in Bright's disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Peruna. It reaches catarrh, no matter where it may be located in the body—whether in the more exposed membranes of the nose and throat, or whether in the remotest part of the kidneys.

That Peruna is at once the safest and most reliable remedy for catarrh of the kidneys is proven by the many testimonials written by those who have experienced its benefits.

PE-RU-NA AN INTERNAL CATARRH REMEDY.

The testimonials given here are only specimens of the many testimonials on our records, pertaining to the relief afforded by Peruna in severe cases of kidney trouble.

Kidney Disease of Long Standing.

Mr. Samuel A. Paxton, 1118 Troost Ave., Kansas City, Mo., member I. O. O. F. and National Annuity Association, writes:

"I am a well man to-day, thanks to your splendid medicine, Peruna. I was troubled with catarrh and kidney disease of long standing when I first began using Peruna. I soon found I was getting better and continued taking it for four months. It cleaned out the system, leaving me well and strong and feeling better than I have in years."

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice *free of charge* and *in absolute confidence* and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

The many and varied symptoms of woman's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed *free* on receipt of 50 one-cent stamps to pay cost of mailing *only*. Address as above.

Cure that Cough—Prevent Another

There is a double benefit in using Mathieu's Syrup of Tar and Cod Liver Oil. It *cures*, it *fortifies*; it removes the immediate trouble, drives away the cough, soothes the irritated surface, heals the inflamed membranes and at the same time, owing to its tonic properties, builds up the system as a whole.

Its results are marvellous.

A bottle in the house is a wise precaution.

SPRING SUITS

It's going to be an easy matter for you to satisfy yourself in clothing this Spring if you come here to do it. If you have any pet ideas about what you want you'll find us able to meet them.

Generous values—more than your money's worth—that's the idea were working on here. You'll learn, if you haven't already, that we make good along that line.

Our clothes — whatever their price—are a full fifth better than the clothes that come nearest to them in intrinsic value at other stores.

THOMAS BROWN

The Pioneer For Fine Commercial Printing

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

E Flannigan left Thursday for Vancouver.

Thomas Roderick is on a short trip to Spokane.

Mr. and Mrs. L. J. Stalls left Monday for Spokane.

William Oxley left on Wednesday for Valparaiso, Chile.

Bock Beer will be on sale at all the local hotels next week.

Miss Kate Smith of Greenwood is the guest of Mrs. S. Lundie.

Mrs. Hoops and family left this week for Calgary to join Mr. Hoopes.

Mrs. James Dewar is on a visit to Mrs. Rev. McKee of Grand Forks.

Mrs. William Madden left last week for Mullan, Idaho, to join her husband.

Danny Deane has commenced the renovation of the interior of his hotel.

P. J. Cooke left Wednesday for Vancouver en route for the northern coast.

C. A. Ross has moved into the dwelling formerly occupied by M. McIntyre.

Grace Hayward's "St Elmo" is booked for Phoenix opera house on May 24.

The Phoenix Brewing company's Bock Beer is now on sale throughout the city.

Trout fishing opened last Sunday and quite a number of local Sir Isaacs were on duty.

Mr. and Mrs. Danny Deane and family spent Wednesday with friends in Grand Forks.

Murdock McLeod left for Alberta on Thursday and will probably locate at Calgary.

Rev. Samuel Lundie, pastor of the Presbyterian church, is on a two weeks' vacation at the coast.

Prof. Marks has returned to town and will again give lessons in dancing at Miners' Union hall.

M. H. Kane has returned to his summer stamping grounds, in the Sturgeon Lake district, Ontario.

Rev. R. W. Hibbert attended the district meeting of the Methodist church in Grand Forks this week.

Chief Constable Darraugh is on a trip to his Rock Creek ranch. N. Lemieux is acting chief in his absence.

J. O. Ellis has leased the Stemwinder building from A. T. Turano and will shortly open a grocery store.

Mr. and Mrs. F. Jones arrived on Tuesday from Coleman, Alberta, and have taken up residence on Old Ironsides avenue.

Elmer D. Hall, proprietor of the Bossburg Herald and formerly of the Phoenix Pioneer, has purchased the Marcus Messenger.

Lacrosse has become popular in the city this season and a number of local athletes are giving daily exhibitions on the local training ground.

R. S. Fraser wishes the Pioneer to convey his thanks to employees of the Granby for their handsome gift which was greatly appreciated by him.

Billy Biner, welterweight champion of B.C., and Kid Lewis, champion of Cape Colony, have signed articles for a boxing contest here on May 23.

W. J. Rutherford, who spent the past three months in Republic, Wash., was in town for a few days this week en route to the Portland Canal district.

C. Taylor, who has been local provincial constable for the past year, left Friday for Victoria, having been transferred by the department. He will be succeeded by Thos. Bray of Greenwood.

R. J. Draisey went to Vancouver on Saturday to bring his father, Daniel Draisey, home. Mr. Draisey, senior, who has been in a hospital for some months, is improving. They arrived home Wednesday.

Harry Matthews has been spending a few days in the Okanagan looking for a business opening. He leaves shortly for Revelstoke, where he has secured a position with the Lawrence Hardware company.

R. H. McCracken will attend the Grand Lodge, Knights of Pythias, in Vancouver next week as representative of Phoenix lodge, No. 28. Mrs. W. A. Pickard will be the delegate from the local Pythian Sisters lodge.

The Grand Forks Sun is quite worried over the knowledge of the Phoenix correspondent to outside dailies concerning the location of Franklin camp on the North Fork of the Kettle river The correspondent in question has been over the territory referred to, and is probably more familiar with the distances than the Sun man.

Garrison; Bay Horse, Burlington fraction, Early Dawn fraction and Tiger fraction, all in Wellington camp, John Mulligan, ½, Eric E. Jackson, ½.

Jessie Maclachlan Concert

Craighall Sherry, the famous Scottish humorist, who is a member of the Jessie Maclachlan Concert party that appears here on Wednesday, April 11, in the opera house, is bound to appeal to all classes. This is Mr. Sherry's first appearance in Canada, but his name is a household word in Scotland. The secret of his success lies in his wonderful powers of characterization It matters not whether the subject be one of Dicken's types, a village loor, or some drawing room celebrity, he depicts it with that fidelity and keen insight into human nature that can only be accomplished by one possessed with the spark of genius. Mr. Sherry's humor is so refined, yet at the same time so mirth provoking that it takes him but a moment to establish himself a prime favorite with his audiences. He is most versatile, and his entertainment will no doubt afford keen enjoyment not only to those born in bonnie Scotland, but to all Canadians as well

W. O Miller, of Nelson, local superintendent of the C.P.R.; C. S. Moss, master mechanic, and H. B. Walkem, chief engineer, arrived in the city last night to look over the Wellington camp branch.

THE NEW REMEDY FOR

Nervous Exhaustion

Nervous Exhaustion unchecked opens the door to Neuralgia, Headache, Insomnia, Digestive Disturbances, Mental Depression, and many serious organic diseases. Early treatment with "ASAYA-NEURALL" averts these. It feeds the nerves, induces sleep, improves the appetite and digestion, and restores buoyancy of spirits. A few doses convince. $1.50 per bottle. Obtain from the following

JOHN LOVE.

DON'T PLAY WITH FIRE!

A common caution to children, but also good advice for grown men and women. You are playing with fire when you do not insure your property in Conflagration-Proof Companies represented by D. J. MATHESON.
