The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 600 men and has a monthly pay roll of over $50,000. Two railroads afford access to the city.

THE PHOENIX PIONEER

Devoted to the Interests of the Boundary Mining District

The Phoenix Pioneer is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, Opera House, schools.

SEVENTEENTH YEAR — PHOENIX, B. C., SATURDAY, MAY 27, 1916 — NUMBER 46

Granby Consolidated

When Granby closes its fiscal year on June 30 it will have earned during the twelve months in excess of $20 a share, according to preliminary estimates. April profits approximated $600,000 before fixed charges compared with $470,000 in March. Profits for the first four months of 1916 were close to $1,800,000.

There was treated at the Hidden Creek smelter during April 76,000 tons of ore which was well up to the highest tonnage yet put through that plant. The four furnaces will be maintained in continuous operation to insure maximum of production.

The aglomerator which has been in operation for some time, has been giving a good account of itself by adding to the copper output at Anyox. This equipment has demonstrated its ability to extract four pounds of copper from each ton of flue dust at a minimum of cost.

Thus far Granby directors, despite record breaking earnings, have taken no steps toward increasing returns to stock holders above $6 a year. It would not be surprising, says the Montreal Financial Times, should the management decide to pay out a larger dividend at the next disbursement to bring the return to stockholders up to at least $8 for the fiscal year.

Plan K. P. Initiation

Arrangements are being made with the view of securing D. O. K. K. to initiate a class of Pythian Knights. It is intended that the members from Grand Forks and Greenwood will participate. Many here will remember the event of nine years ago when the Spokane Temple, El Mabaraz, visited. Among the prominent victims were Ernest Miller, M. P. P., Judge Williams and Mayor Matheson, who crossed the burning sands. At that time eighty-eight members went through.

The weather? As ever. Fine!

Obituary

There died in Phoenix hospital Sunday, after a lingering illness, Julius Steel Carson, aged 53 years. Funeral services were conducted at both the church and grave side by the Rev. A. M. Lloyd, a large concourse of sorrowing friends following the remains to their last resting place. The pallbearers were: D. J. Matheson, G. W. McAuliffe, Geo. Rogers, Jas. Marshall, J. E. Thompson and A. A. White.

Deceased was born near Guelph, Ont., and was a tailor and cutter by trade, sustaining a reputation as a workman second to none. Following the sale of his business in Kansas he embarked in the tailoring business in Rossland, in 1895 forming a partnership with Geo. W. McAuliffe in Phoenix.

Mr. Carson was keenly interested in mining ventures, and spent much of his vacation time in prospecting, at his death being interested in several claims on the north fork of the Kettle river. Failing health compelled him to relenquish business cares some 15 years ago, this period being devoted to mining interests and anything tending to the betterment of the community in which he lived—particularly the cause of union labor. The deceased served as an aldermon in Phoenix, being returned several times.

Quiet and unassuming, yet with a will of his own, the late Mr. Carson typified a stamp of man rare today. His many qualities are best summed up in the words: "A double c, o, r, d, e, r, m, a, n."

The survivors to mourn his loss are two sisters, Mrs. (Dr.) Godfrey and Mrs. Hare, in Toronto, also Mr. and Mrs. J. Carson, of this city.

According to Ottawa dispatches Alberta has raised 2650 men—more than her proportion of the 500,000. British Columbia is only 2100 short, and Manitoba and Saskatchewan are only 7017. Ontario has yet to raise 41,590, Quebec 15,000, and the Maritime provinces 36,000.

Press Gallery, Victoria

(Special to Phoenix Pioneer)

Although workers in the Liberal ranks were in the heart of the plugging plot in the Vancouver by-election, they had the astounding audacity to engage Charles F. Reddington, manager of the Thiel Detective agency, Vancouver, to watch the Conservatives for pluggers. One of his men operated in the Conservative committee rooms. Reddington said that no evidence was found that any plugging was planned or attempted by the Conservative party. Reddington said he was employed by M. A. Macdonald and J. T. Scott. Hugh S. Jones, Vancouver, said that Scott, who seemed to be the chief factor in the plugging campaign, lived at his house and sometimes went by the name of Stewart, and this statement corroborates the evidance of Mrs. Annance, who said that under the name of Stewart Scott had phoned her up from a telephone number which Jones said was his. Frederick Moore, proprietor of the Robson rooms, stated that Herbert Pearce, one of Scott's workers, had rented two rooms from him on election day, allegedly for the purpose of using while fisher men signed up for work in Prince Rupert. The contracting fisherman was introduced to Moore as Johnston, but he was told later he was Jack White. It will be remembered that the Seattle pluggers said that they operated from the Robson rooms, in charge of Jack White. Annance also gives White [illegible] was one of the men working for Annance at the Columbia [illegible] for the day. He had been instructed to meet White at the Calumet rooms, if Annance was not there, but he did not see White. Eldridge helped Annance get twenty men for the work on election day. Annance gave them tickets to plug on. Eldridge said that the name on his ticket was "Flannigan." He told the committee that he informed the several Liberals of his engagement with Annance. Some evidence regarding the funds of the provincial Liberal association was given by A. M. Pound, the treasurer. Mr. Pound declared that as far as he was concerned he had nothing to hide with respect to the expenditure of money. He said he did not know much about Scott as he was not employed by the provincial association but by the provincial organization committee, of which M. A. Macdonald is chairman.

Confirmation of much of the story told by John J. Sullivan on the witness stand last week was then given by F. W. Welsh, a conservative candidate in Vancouver. He said that he had been informed by Sullivan in two wireless messages from the Seattle boat that the pluggers were on their way to Vancouver from Seattle. He immediately got into touch with the police and the immigration officials. The matter had been mentioned to Hon. Mr. Bowser on election day, said Welsh, and the Premier expressed the wish that if it could be shown that these men in Vancouver were there for plugging purposes they should be arrested. A curious thing about the situation is that the Albany rooms, in which a number of the pluggers were kept, is above Welsh's grocery store. He did not know, however, until two or three days after the election that the impersonators had been busy so near him.

Card of Thanks

R. Vick and family take this opportunity of expressing their heartfelt appreciation of the kindness extended to them in their hours of trials and tribulations.

B. C. Mining Items

Dean Chapel properties are being investigated by the Granby.

Greenwood smelter is treating 1400 tons of ore daily, 1000 tons being custom ore.

Samples from the Great Ohio assay 80 oz in silver and 1½ per cent copper.

Forty head of horses are freighting supplies to Copper Mountain and Voigt's camp.

It is reported on good authority that the Dauphin mine at Olalla is to be opened up. It is but three miles from Keremeos.

D. P. Cosgrift and D. McLean have staked claims near Morrison lake. They believe that district will develop a big lowgrade silver-lead mine.

Father Godfrey, of Old Hazelton, has leased the St. Marie group in Howson Basin to Chisholm Bros. who have a shaft down 80 feet, exposing a good vein of bornite.

Cobalt takes its name from the German Kobold, meaning goblin. The name was given it by the miners because of the fact that the mineral in which it occurred contained arsenic and which frequently made them sick when they mined it.

The official certificate of the assay of the ore found on Rocher de Boule mountain, a short distance from Hazelton shows that the values are as follows: Gold, $87.20; silver, $2.77; cobalt, $110; making a total of $199.97, which is exclusive of the 54.5 per cent of arsenic. Alex. Sharp, M. E., who examined the property for Toronto, Mr. Hosking and Mr. Smith, states that this is the first time cobalt has been associated with high gold values.

Benefit Smoker Tonight

Tonight's the night members of Phoenix Miners' union and the Fraternal Order of Eagles give a tithe of their bounty when they tender a smoker to a brother, Wm. Nicholson, a blind member of their respective orders.

The event will be held in Union hall and is to enable Nicholson to embark in business at Kimberley. In that town the members of the union will erect for him a building in which he will conduct a small pool room and cigar store, thus enabling him to earn a livelihood.

For the information of those who do not know Nicholson, be it said he should be an example to many who are blessed with all their faculties, yet are ever complaining. A merry laugh and hearty handshake, combined with a keen perception of the duties of a union man and lodge brother has endeared him to all. Failure to make this smoker a success tonight will stamp the benefits held out to non-members by the above orders as a lie, a sham and fool's vision. Now let each do his part.

Patriotic Society Notes

Proceeds from the Edith Cavell pictures were $112.55. Paid to the miners' union for telegrams, express on advertising material and films advance, $15.02; printing 400 admission tickets, $4.00; advertising, $4.00; operating pictures, afternoon and evening, 4.00; Dominion Exclusives, Limited, for film, $30.00. Leaving a balance of $55.53.

A raffile of goods at Thursday's meeting metted $2. Parcels to the number of 20 were also forwarded to the soldiers in the trenches.

At the dance on June 1 a rug will be raffled. It is a beautiful piece of work and it is trusted that appreciation of the donor's efforts to assist a good cause will be shown by a handsome return of tickets sold. Tickets, 25c; rug on view in Black's window.

Weekly Copper Letter

Lake [illegible] sold this w[illegible] the last quart[illegible] cents a pound. [illegible] copper for immed[illegible] ports differ [illegible] all the way from 30 to 31 [illegible] with 29½ to 30 cents quoted for July.

The export movement continues rather slow; but apparently this is due largely to congestion in shipping, the recent rapid advance in the price of cash copper in London indicating the existence of an acute scarcity. Electrolytic is now selling there at £158 a long ton, which is equivalent to 34 cents a pound at the prevailing rate of exchange.

Regardless of how fast or how slow the production of copper has increased in the past the price always has been relatively high when world-wide business conditions were prosperous. For illustration, in 1895 the world's copper output was less than 750,000,000 pounds and the average price that year was only 10.70 cents a pound. It was a period of world-wide industrial depression. In 1915, however, when the world's output was almost three times that of 1895, copper sold at an average of 15.70 cents a pound.

Hears From Phoenicians

N. J. Carson received word this week from his son, Harry, to the effect that the medical corps, of which he is a member, are [illegible] to leave for St. Jean. He saw Mr. McDonald and J. Kempston. The latter he says is holding fine but claims [illegible] life. They [illegible] cation as dated "Somewhere in France."

Phoenicians would do well to remember that under the dominion fishery laws governing fishing in Canada no person is allowed to take more than 25 trout a day from lakes, rivers and streams.

Ever Ride a Motor Cycle?

The motor cycle bug has bit in Phoenix, and the humble pedestrian upon turning a corner is reminded of Chinese New Year when the sons of the Celestial empire take delight in exploding long strings of firecrackers.

The amateur, upon learning to ride one of the demons, should first take out a life insurance policy, fill his hip pockets with tools and remove such items as headlight and other falldalls. Grab the beast by the horns, trundle it into the road, touch the thing that works the flim-flam on the flap-doodle with your off hoof and then spring upon the seat. After you have been going for about three minutes you will have reached that stage of confidence where you know the undertaker has turned back to wait for a telephone communication from you that all arrangements are off. In 23 minutes you'll be in Eholt buying a bracer for the return trip; in another 30 minutes you'll be back in Phoenix, covered with dust and looking like you were just dragged through a knot hole. After this you can take the tools out of your pockets and place them in the tool box, refilling the vacancy with a road map and pocket flask—both handy articles.

To Attend Convention

Snowshoe lodge, No. 46, I. O. O. F., have appointed D. Stafford and A. Broomfield delegates to the grand lodge, which meets in Vancouver next month. W. S. Cook and F. T. Baines are the alternates. The delegates from Phoenix Rebekah assembly will be Mrs. O. Deane and Mrs. W. S. Cook. Mrs. Cook is being recommended for the office of district deputy.

Andrew Hayburg and Alex. Roth were guests at the Knob Hill hotel Wednesday. Both are prosperous ranchers at Molson and have considerable acreage under cultivation in wheat.

Misery in Back, Headache and Pain in Limbs.

Dear Mr. Editor—For more than a year I suffered with misery in the back, dull headache, pain in the limbs, was somewhat constipated and slept poorly at night until I was about ready to collapse. Seeing an account of the wonderful qualities of "Anuric," prepared by Doctor Pierce, of Buffalo, N. Y., I sent for a box, and before using the whole box I felt and still feel improved. My sleep is refreshing, misery reduced and life is not the drag it was before. I most cheerfully recommend this remedy to sufferers from like ailments.

Yours truly, W. A. ROBERTS.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists of Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anuric" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Dr. Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

I know of one or two leading druggists in town who have managed to secure a supply of "Anuric" for their customers in and around this city. If not obtainable send one dollar by mail to Dr. Pierce for trial package or 50 cents for full treatment.

EDITOR.—Please insert this letter in some conspicuous place in your paper.

SATURDAY, MAY 27, 1916.

With the publication of this issue "The Phoenix Pioneer" goes to join other mining camp journals who are not dead but only sleeping.

However foolish this move might be considered by a number of our loyal supporters is immaterial to us; but as self preservation is the first law of human nature, we take this means of protecting ourselves from the machinations of a clique who for the past five years have played politics in Phoenix.

Apart from politics, a newspaper represents more to a community than a thing to be taken off a high shelf, the dust blown off it when required by a few and then returned. That we have shown more faith in Phoenix than many in whose power it lay to sustain us during the last five years goes without saying.

Delinquents on our books will please accept this as an intimation to pay up that we may hasten the day when we can hang our coat in another man's shop. Too long have we fed upon husks. May that day be soon when we step forth a man among men, head still erect with feet that scraped to none.

Easy? Oh Yes!

Editing a newspaper is a pleasing business if you can stand it.

If it contains many advertisements the subscribers claim they take up too much space.

If there is a scarcity of advertising it is unpopular and the people won't have it.

If we attend church regularly they say we do it for effect.

If we stay away from church they say we are monstrously heathenish.

If we accept an invitation to a wedding they say we are invited to write it up.

If we are in the street much they say we neglect our business.

If we avoid going on the street they say we don't hustle around after news.

If we are single the[illegible] we are too hopel[illegible] ged.

If we [illegible] y say it is a pity [illegible]

If [illegible] man who brought [illegible] family the friends of [illegible] never forgive us.

If we, out of the goodness of heart, omit anything on the subject, the man's enemies are disappointed, and we are branded as white-livered cowards.

Should we report a concert and not give everybody taking part a flattering write-up, we are liable to have the few remaining hairs yanked out of our devoted head.

We are liable to receive these raps and many more, and we are always ready to receive visitors whether accompanied by a dog or not. Of course we do not claim there is any work in running a newspaper. Everybody knows its a snap.

Unionists Flock to Colors

According to statistics gathered by the department of labor, Ottawa, 11,977 trade unionists have been enlisted in Canada down to the close of 1915, while 459 British reservists rejoined their regiments from the ranks of trade unionists. As many union branches have not reported, it is estimated that the foregoing figures should be increased by approximately 1,000. Ontario is credited with approximately 4 per cent of the union enlistments. Local branch unions in Toronto reported 2137 recruits and 83 reservists, almost one-half of the enrollments and more than one-fifth of the total reported from all parts of the Dominion. Nova Scotia with 1507 enlistments; Alberta trade unions furnished 1505 members as recruits and 51 reservists; Manitoba contributed 1423 enlistments of whom 1208 were from Winnipeg. Other provinces stand as follow: British Columbia, 1348; Quebec, 625; New Brunswick, 496; Saskatchewan, 435, and Prince Edward Island, 63.

Progressing at Alice Arm

Alice Arm, situate 15 miles inland from tidewater, is rapidly developing. Alice Arm puts in from Observatory inlet, the latter connecting on the North with Granby bay, on which the town of Anyox and Granby smelter are situated. Among those operating in Alice Arm camp are Garfield Con. Mines Co., Nevada; Stillman Bros., Seattle; United Metals Co., Tacoma. The ore is high-grade, containing ruby silver and chalcocite. Most of the development is from shafts, some of which have reached a depth of over 600 feet. Along with the high grade, are greater bodies of milling ore. Some of the development has reached a dep h where heavier hoisting machinery is required. United Metals Co., of which Dr. A. E. Severance, Tacoma, is president and treasurer, probably will make some shipments of high grade ore this year.

The Chicago Exploration Co. is making improvements at Alice Arm to facilitate mine development in that camp. Among these will be the construction of a 16-mile wagon road from tidewater up Kitsault river, and a dock at the town of Alice Arm. This company is said to be closely affiliated with the Goldfield Con. of Nevada.

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden.

To restore that strength and stamina that is so essential, nothing has ever equaled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way.

If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion to-day. At any drug store.

$200.000 FOR MINE ROADS

Government to Aid In Developing Premier Industry.

The government's bill to appropriate $200,000 toward building roads and trails to mineral claims makes effective another of the proposals for assisting mining, which Hon. Lorne A. Campbell announced when he was appointed to the portfolio of mines. It is entitled "An Act to Grant Special Aid for the Development of the Mining Industry of the Province."

Aid in road construction is to be given in cases where examination of a prospect shows that such expenditure of public money is warranted. On a favorable report, up to 50 per cent of the cost of the road, trail or bridge may be paid by the government. While no official announcement has been made in regard to the details of the operation of the act it is pointed out by members from mining districts that in many cases prospectors who have promising mineral claims, but are unable to operate because of lack of transportation facilities, can meet their 50 per cent share of the cost by putting up the labor. From experience it is known that prospectors and other small operators will willingly meet half the cost of the construction, either by supplying the actual cash, or by providing labor or supplies, or both. The bill which provides for the $200,000 grant for assisting in the development of the mineral resources of the province in this way reads:

"Whenever it is shown to the satisfaction of the minister of mines that development work on a mineral claim or group of mineral claims in any mining district has proved the existence of mineral or ore bodies in quantity and of commercial value sufficient to warrant an expenditure of public moneys for the construction of roads, trails and bridges to facilitate the operation and development of such mineral claims, the minister of mines may authorise the expenditure of so much of the publ.c moneys as may be required by the minister of public works for the construction of such trails, roads and bridges.

"The minister of mines may, with the approval of the minister of public works, authorize an expenditure of public moneys toward the making of trails, roads and bridges in and to any mineral district for the purpose of facilitating the exploration of the mineral resources of such district, such expenditure not to exceed 50 per cent of the cost of construction, and may, where such trails, roads and bridges are made by any person or corporation having undeveloped mineral claims or mining interests in such district refund to such person or corporation a portion not exceeding 50 per cent of the cost of construction.

"There is hereby appropriated out of the consolidated revenue fund of the province the sum of two hundred thousand dollars to be expended and applied by the department of public works for the purpose authorized by this act."

PILES.

You will find relief in Zam-Buk! It eases the burning, stinging pain, stops bleeding and brings ease. Perseverance, with Zam-Buk, means cure. Why not prove this? All Druggists and Stores—50c box.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years renewal for a further term of 21 years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, rescinded by Chap. 27 of 45 George V. assented to 12th June, 1914.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for. —88575.

Granby Shipments

The following are the monthly shipping figures from the local Granby mine to the Grand Forks smelter:

October	96,430	
November	82,187	
December	94,475	
Total	1,034,786	

Mine Products 581.1000

R. E. Landis, superintendent of the Marcus division, and J. Walsh, trainmaster, who succeeds C. A. Manthe arrived in Phoenix on a special car Monday on a tour of inspection. The former superintendent, F. D. Kelsey, has been transferred to the eastern district. Business is reported to be better on the Marcus division now than at any period during the past six years, due in no small measure to the opening of mining properties.

In proof of the part played by the mining industry in the building of railroads it has been figured out that in a 1000 ton train of cars loaded with freight in the proportion in which the country's freight tonnage is divided, would carry in tons as follows: Mine products, 581; manufactures, 145; forest products, 105; farm and ranch products, 103; merchandise, 38; miscellaneous, 28.

THE PHOENIX PIONEER Sent to any part of the Dominion for $2.00 a year.

Concentrates

It costs $1 a ton to crush oats at Vernon.

Quicksilver is quoted at $100 per 75 lb. flask.

Refined platinum is quoted at $83.88 an ounce.

There are 400 votes in Anyox and 200 in Alice Arm.

John Bradley is developing his claim at Arlington lake.

Last year's tax rate of 31 mills will prevail in Cranbrook.

A purebred stock association has been formed at Penticton.

Republic's street carnival to raise baseball funds netted $180.

Last month Port Alberni shipped 116 cars of lumber to Alaska.

A new school will be opened at Trout Creek, Okanagan valley.

Mrs. Swanson is the first lady in Princeton to own and drive an auto.

It is almost impossible to rent a house in Trail, while bedroom rent is $20.

Ontario is paying $18 a ton for potatoes in carload lots from Grand Forks.

Butter is down to 25c a lb. in Ghesaw. The lower the price the higher the smell.

The political heeler has donned his glad rags in Kaslo and is work his jaw overtime.

Three acres of broom corn, as grown in the Okanagan, will produce 1200 brooms.

Tom Hansen, of Rock Creek, celebrated the arrival of a new heir to the estate last week.

The editor of the Hope Review has sold his alarm clock and invested the proceeds in tobacco.

Vancouver has ten funeral directors whose ledgers read: "From now to kingdom come."

Three hundred years ago—to be exact, April 23, 1916, William Shakespeare died at Stratford-on-Avon.

Choice sockeye salmon in ½ lb tins is now quoted at $20 a case as against $6 and $8 prevailing in the past.

Tom Longboat, the famous Indian Marathen runner, is now a corporal in the 180th Sportsmen's battalion in Toronto.

Axle grease is now selling at 15c a pound. Twenty years ago butter and axle grease sold at 10c a pound in Manitoba.

Sir Herbert Ames stated this week at Toronto that 6,000 Americans had enlisted in the Canadian expeditionary forces.

The first shipment of red spring salmon to reach Prince Rupert this year sold for 8½c a lb. In former years it realized 4c.

The pillars supporting the Coquahalla hotel at Hope have been painted white. This does not refer to church members.

Recently at Curlew $203.10 was raised in 20 minutes to paint and enlarge a church. Must be quite a few camels in that town.

Seventy-seven B. C. druggists are firing lead pills at the Huns. The remainder are at home shooting off their mouth over prohibition.

In March 1911, J. H. Hawthornthwaite purchased a $30,000 block in Victoria. He is probably the richest socialist in this province.

The wonders of parcel post are yet to be exhausted, but the postman has still to be born who can deliver a beefsteak and a bulldog at the same time.

The skin of the white or Beluga whale is being shipped in tens of tons from B. C. whaling stations to eastern shoe manufacturers. It is satiny, poreless and almost waterproof.

W. C. Leacy, customs officer at Roosville, died last Monday of pneumonia. For a number of years he was constable at Elko, and well known around Sandon, Kaslo, Creston and throughout the Pass.

Transportation of ore at Franklin camp will be cut $7.50 to $9 a ton. Ed. Cleghorn is supposed to have signed a contract for transportation of 1000 tons from the Union mine and 250 tons from the Maple leaf group at $5 a ton to Lynch creek with auto.

DANCE

Thursday June First

Miners' Union Hall

UNDER THE AUSPICES OF THE WOMAN'S PATRIOTIC SOCIETY

An Energetic Committee has spared no efforts to make this dance the best in the history of the organization. The Program lists your old favorites, not forgetting the stately Sir Roger de Coverly, French Minuet and Virginia Reel.

COME ONE — COME ALL

and enjoy the dreamy gliding Waltz, brisk Quadrille, and ever-popular Polka, to the strains of the Ironside Orchestra.

ADMISSION:

Ladies or Gents. 50c.

INCLUDING REFRESHMENTS.

Local and General

Free miners' licenses expire next Wednesday.

Ground squirrels are much in evidence here.

Wanted—A fire escape for the Phoenix public school (?)

Two houses on New York townsite for sale; one six-roomed house on Brooklyn avenue for sale. Apply G. W. McAuliffe.

Hans White went trout fishing Sunday but caught nary a one. Next to George Ellis, Hans is the most truthful man in Phoenix.

Zack Watson came over the hill from Greenwood and smiled on and with acquaintances here Monday. He has lived 17 years in Greenwood.

Mrs. H. F. Tilton was in receipt of a letter this week from Hugh Manning who is in the trenches in Flanders. He writes that he is very much alive, and not dead as supposed.

Pending collection of accounts the job department of "The Phoenix Pioneer" will be continued. Those desiring printing should avail themselves of this opportunity. Fresh shipment of stock on hand.

Adolph Sercu, better known as "Forpaw," left for Spokane on Wednesday morning. He is suffering from blood poisoning in his arm and intended consulting a specialist, but for some reason was not permitted to cross the line and returned.

Orchestral Society

The adjourned meeting of the Phoenix orchestral society was held at St. John's vicarage on the first of the week, R. Morris in the chair; also present Rev. A. M. Lloyd, E. Eugen, J. T. Jones, T. H. Roberts, J. T. Evans, A. Turano, C. Olson and Morrison.

Following constitute the officers: Rev. A. M. Lloyd, president; W. R. Morris, secretary-treasurer. Committee, Messrs. Evans, Olson, Morrison and Roberts. Conductor, Rev. A. M. Lloyd.

It is the society's intention to rehearse on Friday nights at 7.30 p. m., beginning the 26th of the coming month, in union hall. There are openings for violin, flute oboe and clarionet players.

HALCYON HOT SPRINGS SANITARIUM

OPEN ALL THE YEAR

Water---Sure Cure For Rheumatism
