TWELFTH YEAR — PHOENIX, B.C., SATURDAY, MAY 20, 1911 — No. 26

THE CITY COUNCIL PASSES RESOLUTION

Send in Strong Protest Against Any Increase in Salaries.

The city council met in regular session Wednesday evening with Mayor Matheson, Alderman Cosgrove, Ross, McKenzie and Rogers present.

The session was, in some respects, out of the ordinary, and the wiseacres around town have been predicting a stormy session. However nothing transpired to mar the serenity of the members, nor did the onlookers receive all they hoped for. Alderman Rogers' resolution caused some little stir among those who were not on the inside, but as the resolution had been cocked and primed in advance of the meeting, the members were not in the least pertrubed when the motion was made and the resolution was passed without amendment. The following are the proceedings in detail:

Phoenix Electric Light Co.	$112.00
James Marshall	5.95
L. McElroy	89.25
Phoenix Pioneer	25.15
B. C. Gazette	5.00
D. J. McDonald	10.00
H. Hartley	12.19
Vancouver Rubber Co.	94.75
J. G. McKeown	1.00
D. Mussatto	1.00
B. C. Telephone Co.	10.70
Morrin-Thompson Co.	10.70
Total	$377.69

The city clerk was instructed to write to E. Miller, M.P.P. drawing his attention to the dangerous condition of the road between Fourth of July creek acd Phoenix; also that part of Grand Forks riding between Phoenix and Greenwood, and ask that he use his efforts to have the same repaired.

The following is the resolution that was presented by Alderman Rogers and seconded by Mr. McKenzie:

"That in the opinion of the city council of Phoenix, the order in council passed whereby the salary of the police magistrate was raised from $300 to $600 a year, is unjust to the taxpayers of this town, for the following reasons:

1. If Phoenix is compelled to pay $600 per year to the police magistrate, it will be paying in proportion to the revenue of the city more than any city of the same class in the province as shown by the following:

	Revenue	Salary P.M
Kalso	$24,000	300
Greenwood	38,594	300
Kelowna	57,500	300
Rossland	70,666	900
Grand Forks	79,326	600
Phoenix	24,000	600

Therefore in proportion to revenue, Greenwood should pay $960, whereas it only pays $300. Kelowna pays $200, whereas it should pay $1,480. Rossland pays $900, whereas it should $1,750. Grand Forks, pays $600, whereas it should pay $1,750. Kalso's revenue is the same as Phoenix, $300 and should pay $600.

2. During the year ending March 31st, 1911, there were only 36 sittings of the police court held, or three sittings per month.

3. W. R. Williams, J. P., was police magistrate of Phoenix for over six years at a salary of $300 per year, during which time the receipts from the police court were more than three times what they are today, and must have involved on him three times the amount of work.

4. The mayor and aldermen serve without salary.

5. The revenue of the city does not warrant paying the police magistrate more than $300 per annum, as all the money raised is required for fixed expenditures.

6. There are several qualified citizens who would accept the office at $300 per year. Therefore be it

Resolved, That the lieutenant governor in council be asked to reconsider the salary of the police magistrate, as the city council considers it an injustice to the taxpayers of Phoenix to have to pay the increased salary; and that copies of this resolution be sent to Premier McBride, W. J. Bowser, attorney general, and E. Miller, M.P.P.

Passed by the council of the corporation of the City of Phoenix, this 17th day of May, 1911.

H. HARTLEY, City Clerk.

The chief of police as sanitary inspector of the city, was instructed to notify all people whose premises are in an unsanitary or dirty conditon to have the same cleaned up forthwith.

The council passed a resolution authorizing the mayor and city clerk to sign a deed conveying the old school site in exchange for lots in the present location.

Man Wanted At Greenwood

Re Xarier Violette, known as Cogrette is wanted at Greenwood Violette is about 65 years old, 5 feet 6 inches high, weighs 165 pounds and his occupation is that of a cook or cookee. He is probably employed in a lumber or railway construction camp. If located please report to I A. Dunsmuir, chief constable, Greenwood, B. C.

Al. Almstrom returned Wednesday from a trip to coast cities.

B. C. SMELTER WILL NOT CLOSE

Plant Is Now Running on Coke from Pennsylvania.

"We never had any intention of closing down either the smelter or the mines of the British Columbia Copper company," said Manager E. E. Warren. "We have enough British Columbia coke on hand to last us a month, but we are not using it at all. The smelter is running entirely on Pennsylvania coke and will continue to do so, at least until an end of the coal strike is in sight.

"So far from slacking up in our operations we intend to push development work faster than ever, both on our producing mines and the properties we have under bond. Meanwhile, the company will continue payment of its regular quarterly dividends."

Mr. Warren is a very young man to have so responsible a position as that of general manager of so important a company. In the boom days of Rossland, [illegible] junior in the profession of mining engineering, he was a member of the hockey team which held the championship of British Columbia. After his removal to the Boundary country he organized and captained the Phoenix team, which gave the Nelson and Rossland clubs a hard contest for the championship at several succeeding carnivals at Rossland. Manager Warren ranked just as high a few years ago among the amateur athletics of Canada as E. E. Warren now does among its mine managers.

Boundary Ore Tonnages

Following are the returns of the output of the mines and smelters of the Boundary district for the week ending May 20, and year to date:

Granby	17,845	438,224
Mother Lode	7,330	128,635
Jack Pot	811	12,596
Rawhide	4,600	74,586
Athelstan	915	1,121
Lone Star	428	1,166
Napoleon	807	1,303
Total	32,736	657,631
SMELTER TONNAGES		
Granby	17,845	438,224
B. C. Copper Co.	13,459	232,812

Victoria Day Celebrations

Greenwood will hold a celebration on the 24, an attractive program has been arranged and a base ball tournament with $175 in prizes. There will also be some good attractions at Christena lake.

E. E. Campbell Receives Degree

Every citizen in Phoenix who enjoys the acquaintence of Ed Campbell will be elated to learn of his recent good fortune, and by the way which is deserved and well earned. On the 10th day of May Mr. Campbell was granted the degree of Master of Science by the McGill University of Montreal, thus proving conclusively that he is master of his protession. Mr. Campbell has for several years been assistant engineer of the Granby company, and in that capacity has conclusively shown his worth and thorough proficiency. His opinions on mines and minerals has at all times been taken for granted, and his keen perception, sound knowledge and years of service in the company's employ, is proof positive of his genuine worth. Mr. Campbell is now on his way to the Hidden Creek mine where he will remain for some time as assistant engineer to Benjamin Lawrence of New York, who is now engaged in making a detailed report on the mine which will be submitted to the directors at an early date.

GRANBY OPERATIONS CEASE NEXT WEEK

Development Work to be Done During Shut Down.

O. B. Smith, superintendent of the Granby mines, has just returned from a trip of inspection to the Hidden Creek property and speaks very optimistically of the outcome of their holdings.

When asked in regard to the situation at Phoenix, he said: "The Granby mines will cease shipping ore about the middle of next week, on account of shortage of coke at the smelter in Grand Forks. We hope to carry on some development work during the close down, but just what this development will be, and how much, I cannot say at the present time."

Hard Times Dance.

The hard times dance given at the Miners' Union hall Thursday night was a success in every particular. The dance was given for the benefit of Charles Shaw, the blind miner, and quite a neat little sum was realized for this worthy purpose. A number of unique costumes were seen in the hall, Mrs. H. Bakke carrying off the first prize for the best hard times costume worn by a lady, Geo. Rogers capturing the first prize for gentlemen. Werner's orchestra furnished the music, and lunch was served by Danny Deane in the hall. The dance broke up at 2 o'clock, and those in attendance claim to have spent an enjoyable evening.

HAD FAINT HEARTS IN BYGONE DAYS

On Four Separate Occasions Sir Wilfrid Spoke on Reciprocity

At intervals from 1866 to 1896, there were those who would have liked a return to reciprocity. In the earlier years they were many in number. The memory of the easy trade situation from 1854 to 1866 and of the distress which followed 1866 still survived. Our people had grown up in the belief that reciprocity was what Canada wanted, and it was difficult to overcome that belief. It was also difficult to turn their minds to new channels of trade and to the conviction that Canada would be better without reciprocity. But the United States itself accomplished this task. Our overtures to that government were rejected with scant courtesy, their tariff wall against us was built higher and higher, and we were compelled to find new markets.

In 1879 the Macdonald government established the national policy of protection to Canadian industries, including farming and farm products. This was in accordance with the clearly expressed will of the people at the general election of 1878. It was a complete change of the policy which, up to that time, Canada had been living under—had been dying under, some thought. Trade then was still depressed, the belief in reciprocity as the only remedy remained in many minds; the fear of the consequences of incurring greater hostility in the United States, still existed.

To quiet this fear and retain the support of those who still thought reciprocity the true remedy, the Government inserted in the National Policy Act a clause providing for reciprocity in natural and farm products, should the United States make a similar provision. Overtures were made to the government at Washington on the subject, with no result other than to convince our people that they must in future work out their own destiny in their own way and find their own channels of trade.

The results of the National Policy thus established are well known. Factories and tall chimneys sprung up all over Canada. The building of the Canadian Pacific railway was vigorously pushed to completion, trade revived—new channels for it were found, and the Canadian National sentiment, which previously was at a low ebb, and which is now so splendidly strong, began to assert itself.

In the election of 1878 many supporters of the Reform party then led by Alexander Mackenzie, supported the Conservative policy of protection, and the Mackenzie Government was defeated. But in 1896, these men in large numbers supported the Liberal party—because that party had abandoned it free trade policy and given assurances that the National Policy would be respected should they be returned to power. The election of 1896 did not involve the issue of free trade as against protection.

The Laurier Government took office in 1896, and in 1897 Parliament repealed the clause in the Act of 1879 under which reciprocity might have been established with the United States, and confirmed and improved the National Policy of protection established by the Macdonald government in 1879. In 1898 a preference of 25% was granted to Great Britain and in 1900 the British preference was increased from 25 to 33⅓ per cent. On four separate occasions since 1897 Sir Wilfrid Laurier spoke upon the question. In 1899, the year after the last abortive attempt to secure reciprocity, he said:

"If we know the hearts and minds of our people at present, I think I am not making too wide a statement when I say that the general feeling in Canada is not in favor of reciprocity. There was a time when Canadians would have given many things to obtain the American market. There was a time when the market of the great cities of the Union was the only market we had, but these days are past and over now. We are not dependent on the American market now."

DR. PRICE'S CREAM BAKING POWDER

A pure, wholesome leavening agent, which makes the biscuit and cake of highest healthfulness at medium cost and protects the food from alum, which is the greatest dietary danger of the day.

Spokane's 18th Interstate Fair $36,000 to be Given in Prizes

It is surprising how many fruit and poultry raisers and ranchers in general overlook the easy money to be won at the various Fairs and Exhibitions held in the Inland Empire. We have just received a copy of the 1911 premium list issued by the Spokane Interstate Fair, which contains an unusually generous list of cash prizes, amounting in all to about $36,000. This money is really to be given away as prizes on live stock, agricultural products and other exhibits and, doubtless, much of it could be won by exhibitors in this locality if they would take the trouble to send in exhibits.

The Spokane Fair management do all they can to induce exhibitors to come in, the railroads and express companies make special reduced rates on exhibits, and every question which might arise is carefully explained in this premium list, and yet only a very small percentage of the people who might exhibit successfully, do so. Possibly the fact that the prizes for this 18th Annual Spokane Fair have been very largely increased may interest new exhibitors this year. We notice that the apple prizes alone amount to $1458.50; an increase of $800 over the amount offered in 1910, and other departments also show substantial increases.

Copies of this particular premium list may be had free by addressing Robert H. Cosgrove, secy., 217 Hutton Block, Spokane, Wash.

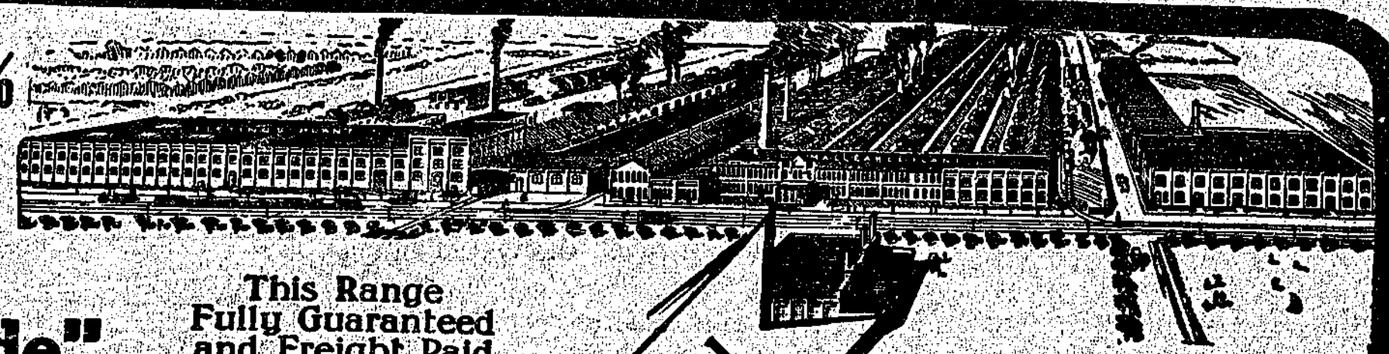
Save over 35% of the purchasing price on your range by buying a "Dominion Pride" direct from the factory



This Range Fully Guaranteed and Freight Paid

$41 to $49

WHY WE ARE ABLE TO SAVE YOU SO MUCH MONEY.

We make the Ranges and place them in your Kitchen. There's only one transaction and one reasonable profit made on the whole transaction. You don't have to pay a factory profit—then a jobber's profit—a retailer's profit—store rent and clerk hire—and expenses of travelling salesmen. Our great "Factory to Kitchen" Plan enables you to buy the best Range for the same price that the wholesaler and jobber would have to pay—and LESS than the retail dealer could get it for—and on better terms too.

"DOMINION PRIDE" RANGES

would cost from $69 to $78 if sold by retail stores. Our square deal way of dealing direct with you—and saving you all the profits made on ordinary ranges—enables you to have a "Dominion Pride" Range for $41 to $49.

"Dominion Pride" Ranges are made of best Blue Polished Steel and Malleable Iron. Polished steel does not need blacking—simply go over it with a cloth and it will stay fresh and bright. Malleable Iron will NOT warp, crack or break, as cast iron will. Malleable Iron is used by railroads for car castings, and by Farming Implement Makers, because of its superior strength. Cast Iron Ranges are cheap—even at their best—and expensive for you at any price because they soon go to pieces. "Dominion Pride" Ranges will last a lifetime because they are built right, of the right materials, by people who know.

SAVE OVER 30% OF YOUR FUEL

"Dominion Pride" Ranges have proved this by actual tests. Whether you use wood or coal "Dominion Pride" will cut down the cost of fuel by almost one-third. COLD rolled steel plate ovens, sectional iron lining Fire Box with air chambers—double walled flues, interlined with asbestos—extra heavy grates—all help to make "Dominion Pride" the most economical Range you can buy.

WE GUARANTEE THEM—ABSOLUTELY

Over 6,000 of our RANGES are in use in Toronto alone, and many thousands more in other parts of Canada. You get a Range that has proved its superiority in every way when you buy a "Dominion Pride," and our guarantee holds good for a year. This guarantee means everything to you—because you have an enormous factory and an old established Canadian Company back of the guarantee. Here's another point about "Dominion Pride" Ranges that is missing in Ranges bought at retail stores. You can always get new parts if you need them.

WE PAY THE FREIGHT—RIGHT TO YOUR STATION

Our price—direct from our Factory to your Kitchen is this—a "Dominion Pride" Range 8-18 or 9-18 top, with high closet shelf or elevated tank or flush reservoir, with zinc sheet to go under Range, 8 joints of blue polished steel pipe and 2 elbows—delivered to any railroad express station in Ontario, Quebec, New Brunswick, Nova Scotia or Prince Edward Island—for $41—$5 to be sent with order, balance to be paid when Range is delivered at your railroad station. OR delivered to any railroad express station in Manitoba, Alberta, Saskatchewan or British Columbia—$49

If not convenient to pay cash we will arrange to accept your Note.

Our illustrated booklets tell the whole story of "Dominion Pride" Ranges, and explain the details of our "Factory to Kitchen" plan of saving you money. At least, write for the booklets. You'll find them wonderfully interesting. Send to-day.

Local and General

Greenwood has 25 cases of measles.

Page Boyles left Saturday for Hidden Creek.

The 24th of May will be celebrated at Bridesville.

Checkers, chess and crib boards at Almstrom's.

For Rent—Small cottage. Inquire at Cottage hotel. 23tf

Fancy goods, souvenirs, baskets at Almstrom's, Phone 42.

Fresh supply of hand-made Chocolates at Love's drug store.

For Sale—General household goods. Enquire of Mrs. A. G. Howe.

Mrs. John Miller and family left Monday for Vancouver.

Dry wood in car lots for sale. Apply to J. Trombley, Phoenix.

E. G. Warren, manager of the B. C. Copper company is in Vancouver.

Mrs. Robt. Fuller and children left on Saturday for the Old Country.

Free miners' license expire on the 31st of May in British Columbia.

Geo. McDonald, returned Monday from his ranch at Salmon Arm.

Lynn, the famous Boundary hockey player left for Vancouver Saturday.

Jimmy Britt, Boundary's famous lightweight, left Friday for Calgary.

Horses imported from the United States must weigh 900 pounds or over.

No more cuss words. Call and see the latest collar buttons at Almstrom's.

Duncan McInnis has added another addition to his house on Ironsides ave.

Wall paper, like ladies' fashions, change. Almstrom has the latest style.

John Ferguson, left on the C.P.R. Monday for Shuswap, where he intends to take up a ranch.

Mrs. Sam Matthews, who has been ailing for some time, was taken to the hospital Thursday.

Almo Geddes, who has been attending college at New Westminster arrived home Thursday.

Dan McInnis, one of the old timers in the Boundary, left Monday for Steamboat Mountain.

Tillie Gresl, sister of Mrs. Dan Biner, from Olympia, Wash., arrived in Phoenix Thursday on a visit.

The Greenwood-Phoenix tunnel is now in 2000 feet, and working two shifts a day, six days in the week.

Seeds! Seeds! Just arrived, a large assortment of fresh vegetable and flower seeds at Love's drug store.

John McLeod, proprietor of the Aetna boarding house, left Monday morning for Steamboat Mountain.

The city council has instructed the chief of police to order property owners to clean up their premises forthwith.

Ed. Rowland, for some time foreman of the Boundary Creek Times, Greenwood, is now located at Calgary.

Tim Baldwin is building another six-roomed house on Spion Kop, to replace the one destroyed by fire last winter.

G. W. McAuliffe, who has been running a tailoring establishment in Phoenix for some time, left for his ranch Monday.

For Sale—16-foot gasoline launch and half interest in boathouse at Christena Lake; cheap for cash. W. A. Williams, Grand Forks.

Rev. Mr. Hibbert, having returned from conference, will conduct the regular service in the Methodist church tomorrow evening.

We are pleased to announce that E. A. Black, who has been sick for a time is now recovering, and will be able to attend to his business next week.

Bob Kerr paid a visit to Phoenix this week and left Friday morning. He will take the run between Marcus and Nelson.

E. E. Campbell, mining engineer for the Granby company, left Tuesday morning for the Hidden Creek property, where he will remain for some time.

George McDonald left Thursday for the Hidden Creek properties, where he will work as diamond setter on the mines recently bonded by the Granby company.

Ralph E. Pope, an experienced tinsmith and plumber, has opened a shop in the building adjoining E. A. Black, the jeweler. 'Phone No. 10 for your next order.

The Grand Forks Gazette is one of best papers in the Boundary, and while the editor, J. L. Meikle, in his last issue says he has only a Canadian education, he makes a mighty good bluff with the quill.

The Nibo Comedy company doubled back to Phoenix Friday morning and left on the Great Northern for Grand Forks where they played Friday and Saturday nights.

Arthur Butterworth, who has been employed at the Consolidated company properties for some time, left Wednesday for Calgary. His large circle of friends wish him success in his new field of labor.

Fred Fredricks, who has been employed as teamster at the Granby works for some time, left last week for the coast. He will be gone for about six weeks. William Donnelly will officiate in his absence.

J. L. Martin, formerly of Phoenix, has left Spokane for Mullan, Idaho, where he has taken charge of the Carney mine. A contract for 600 feet of tunneling and crosscutting has been let, and will be pushed as rapidly as possible. Mr. Martin expects the Carney Copper will be on a shipping basis by the time the contract is completed.

SATURDAY, MAY 20, 1911

Making counterfeit money and printing stock certificates for fake stock companies belong to the same category of crimes and ought to be regarded and punished by law. There is no difference between the two methods of stealing. The printing of stock certificates ought to be the duty of the government, the same as printing postage stamps and greenbacks, and these certificates should be issued to companies of known reputable enterprise which the government should investigate upon application for same. By this method not only would the public be protected against a lot of swindling concerns, but the legitimate stock companies be able to secure ready money to further develop properties that possess real merit. The elimination of the wildcat methods would do more toward bringing the mining industry into her own than any other one thing. Foreign capital has been buncoed so often that men with money hesitate to invest until they know a sure thing is in sight, and even then are afraid they are getting the proverbial "gold brick."

Tattlers are confined to no particular class of society. They belong to all classes and operate in all. We find them among the rich and the poor—"upper ten" and the "lower million," in the church and out of it. They are poor souls who have no higher ambition than to be well informed in regard to other people's private business; to retail scandle to their neighbors and exult in fiendish triumph over the wounded feelings and bruised hearts of their innocent victims.

It has been estimated by farmers in the United states that reciprocity with Canada will cost the American agriculturists $115,000.000 yearly. It is claimed that it costs $12.71 per acre to produce wheat and that reciprocity would mean sales at a loss of $1 per acre.

Getting up in the world is like getting ap on a cold frosty morning out of a warm bed—both require a lot of self denial and a whole lot more of self-will. Such is the cruel laws of success.

Had a Wide Circulation.

Jim Sweeney, who runs a newspaper in Pennsylvania, seeking to increase his fortune wrote to a prospective advertiser, setting forth in attractive fashion the value of his paper as a medium of publicity. The advertiser was captivated by Sweeney's letter, but desirous of more specific assurance before he invested his money, he wrote to the publisher, saying that he had not heard of the Trumptown Sentinel. "Where does it circulate?" he asked. And Sweeney wrote back: "The Trumptown Sentinel circulates in Europe, Asia, Africa, North and South America, and it's just about all I can do to keep it from going to hell."

13 WEEKS IN HOSPITAL

Came Away No Better and Then Two Boxes of Zam-Buk Worked Complete Cure

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer of St. Andrews, N. B., says: "I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. I tried various remedies but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial, and although I had little hope of it doing me good, I took the advice. Almost as soon as applied Zam-Buk stopped the itching and the irritation. I persevered with the balm, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was cured."

For excema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, sore feet, blisters, insect stings, poisoned wounds, cuts, burns, bruises and all skin injuries and diseases, Sam-Buk is without equal. Zam-Buk Soap should also be used for washing all wounds, eczemous patches and sores. All druggists and stores sell Zam-Bnk at 50c box and Zam-Buk Soap at 25c per tablet, or from Zam-Buk Co., Toronto.

INSPECTOR McGREGOR AGAINST RECIPROCITY

Says Canada Can Stand Alone and Needs No Assistance.

Mine Inspector McGregor was in Phoenix for several days the fore part of the week making his usual rounds of the various mines in the Boundary. Mr. McGregor has a broad knowledge of the mines and mining conditions in British Columbia, as his position of mine inspector has thoroughly fitted him to pass judgment on conditions in general, and his opinions are taken as authentic on all things touching the mining industry. He is native born and has spent his entire life in this province, having been reared on Vancouver Island in the days when the land where now stands the thriving city of Vancouver could be had for the taking up, and where the sole occupants were the wild and untutored Indians, of whose language Mr. McMcGregor has a vast understanding. He reports conditions in the mining fields as being bright, and says while the outlook all over the province was never better, greater things are in store for British Columbia, both as to the growth of the various towns and cities as well as the agricultural sections.

"Canada," says Mr. McGregor, "needs no reciprocity. She is amply able to take care of herself. There was a time when we desired succor and the United States turned a deaf ear to our entreaties, but that time has long since gone by, and now that the U. S. can use us to her advantage, she makes overtures to take that she was unwilling to give. We are not the suckling we once were, and while at one time would have been glad to derive a portion of our sustenance from the southern fount, we now turn that self-same deaf ear and with positiveness unmistakable proclaim, 'nothing stirring.' We now have milk and honey of our own and have grown large enough and strong enough to walk alone unaided by the offices of our southern neighbor. We have the territory and the resources and are getting the population; what more could we ask for?"

Mr. McGregor left Tuesday to inspect other mines in the Boundary and will be in the district for several days.

POINTED PARAGRAPHS

Trains will be running into Porcupine by July 1 over the T. & N. O. railway.

John Munro, late of the provincial police force has been appointed warden at the Nanaimo jail.

The smelter at Trail is now receiving coke from Pennsylvania, 2000 tons being on the way.

The milk supply at Rossland has been tested by experts and found to average about 3 per cent butter fat.

Gold, silver and copper have been discovered in Iceland and a rush of prospectors is expected to begin at once.

The C. P. R. has begun the construction of a line between Montreal and Toronto, via Smith's Falls and Belleville.

The spring clean-up in Alaska is now in progress. It is believed that the gold output will be in excess of $5,000,000.

Thos. Taylor left Victoria today on his second inspection tour of the season. He will be in the Boundary about June 1.

The mines at Republic are shipping ore to the Trail smelter owing to the Granby's inability to treat same for lack of coke.

People up in Alaska are dumping British Columbia coal into the sea. It's a sinch that none of it comes from the Crow's Nest Pass.

Grand Forks has a new curfew law. All citizens under the age of 21 are supposed to be snugly tucked up in bed by 9 o'clock or spend the night behind the bars.

On June 1st the census enumerators will commence their work of taking the census and there will be many questions asked which will seem impertinent, but it is a violation of the law to refuse to answer them and will cause you trouble.

D. E. Andrews, of Sandpoint, Idaho, has lived for the past 20 days on milk alone. The first week he lost 17 pounds in flesh, and after that time gained it all back and four pounds to the good. He drank 16 quarts daily and will continue the diet for a month.

Recently published reports of the game laws of the province refer only to non-residents of British Columbia or persons who have not resided in the province for six months. Residents of B. C. can hunt and fish in the province during the open season free of all license fees.

T. E. Hall, manager of the Chilliwack Steam Laundry has disappeared, and along with him went considerable of the concern's cash. This is the second time a laundry manager has disappeared from Chilliwack, and the people of the town seem to be getting used to it.

ROBIN HOOD FLOUR

A money-back guarantee in every sack.

ROBIN HOOD FLOUR — MADE IN MOOSE JAW

Not So Hungry After All.

A traveling man was telling about an exciting experience in Russia. His sleigh was pursued over the frozen waste by a pack of at least a dozen famished wolves. He arose and shot the foremost one, and the others stopped to devour it. But they soon caught up with him, and he shot another, which was in turn devoured. This was repeated until the last famished wolf was almost upon him with yearning jaws, when—

"Say, partner," broke in one of the listeners, "according to your reckoning that last famished wolf must have had the other 'leven inside of him."

"Well, come to think it over," said the story teller, "maybe he wasn't so darned famished after all."

A $100,000 Home.

Jay P. Graves is building a residence on his ranch eight miles from Spokane to cost $100,000 when completed. It will be the finest country estate in the Northwest. Mr. Graves' ranch contains 100,000 acres in a high state of cultivation.

NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation has been approved by the Lieutenant-Governor in council fixing the minimum sale prices of first and second-class lands at $10 and $5 per acre respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provisions of section 34 or 36 of the "Land Act" and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications.

WILLIAM R. ROSS,
Minister of Lands.

Department of Lands,
Victoria, B. C. April 3rd, 1911.

HIDDEN CREEK IS LIKELY PROPERTY

Jay P. Graves is Favorably Impressed With New Mine.

"My inspection of the Hidden Creek mine was too hurried and casual to enable me to make any statement regarding the merits of that property, more especially as it now is being subjected to a thorough examination by the Granby company's engineers and Benjamin Lawrence of New York, who specially represents our eastern directors and shareholders," said Jay P. Graves, vice president and general manager of the Granby company, at his office in the Terminal building, Spokane, when interviewed by a Spokesman-Review reporter.

"The location of the property is absolutely ideal. It is situated on Goose bay, a beautiful enclosed harbor, which branches off Observatory inlet. The mine is on a hill having an elevation of about 1500 feet, a mile and a half from the water front. The company owns mineral claims amply covering all of the ore exposures and veins and some 2000 or 3000 acres of land lying between the mine and the water front.

"Hidden Creek, which flows through our land, has a fall of 400 feet, and is capable of furnishing all the necessary power for the operation of both mine and smelter. It already supplies power for the machinery with which the property is equipped. There is abundance of timber on the company's holdings, as well as a small sawmill.

"The members of the Granby staff, who accompanied me north and remained with Mr. Lawrence to make a thorough examination of the mine, also will definitely determine before they return the location of the smelter with which we propose to equip it, provided that the property proves to be satisfactory in every way. I expect to have reports from Mr. Lawrence, W. Y. Williams, our consulting engineer; O. B. Smith, manager of our Phoenix mine, and Wake Williams, manager of our smelter, to take east with me to submit to a directors' meeting in New York in about three weeks.

"The smelter will be on deep water, so that the slag can be got rid of economically. The new tunnel with which we are now tapping the mine at a depth of 800 feet will have its portal about one mile from the site of the ore bunkers at the smelter. The company is employing two diamond drill crews and a large force of miners in drifting and crosscutting the ore bodies."

Talking of his trip Mr. Graves said: "The inland waterway from Seattle to Alaska is the most wonderful in the world. It is a revelation to a man who does not know that country to travel for such a distance in an ocean steamer through waters that remind one more of lakes and rivers than of the sea.

"British Columbia is prosperous and experiencing a surprising and rapid development. Vancouver is crowded. I failed to wire ahead for a room before leaving Prince Rupert, and it was with the greatest difficulty that I got a place to sleep the night I spent there on my return. Prince Rupert also is a busy city and will have another period of expansion this summer.

"The contrast between business conditions in British Columbia and Alaska is most marked. In the latter country business is stagnant, the people are utterly discouraged and the flow of capital for the development of natural resources has absolutely ceased. Alaskans are so greatly incensed at the delay of the government in dealing with the opening of coal lands that I should not be at all surprised to hear of more Cordova coal parties unless action is taken promptly that will result in the opening of coal lands in that country on some basis that will permit of the operation of coal mines.

"During my entire trip I enjoyed the finest of spring weather. The Granby boys who wintered at the mine tell me that it was never as cold there as at Grand Forks. The snowfall was considerably heavier, but, except in the woods, it has all gone off. It is broad daylight at the mine till bedtime at this season of the year. One can read comfortably till after 10 o'clock."

The place that gives a man his living is entitled to his best efforts to advance everything calculated to benefit the place and the community.

MISTER MAN

We want to talk to you about Fit-Reform Clothing.

Fit-Reform Garments

are made in the large tailoring establishment of E. A. Small & Co., of Montreal, who are by long odds the biggest and best tailors in the Dominion, and who were the first in Canada to inaugurate the system of selling hand-tailored clothing through the merchant.

Fit-Reform Clothing

is positively hand-tailored goods, and is made by Union Labor—this is true of the ready-to-wear goods as well as the made-to-order stuff. "No sweat shop product can come into this store."

Fit-Reform Clothing

is sold by only one store in a town, at prices fixed by the Manufacturers. We could make far more money handling other brands, but we could not give you the value, and it's you that counts in the long run.

Fit-Reform Clothing

is sold exclusively by us in Phoenix, and in fairness to yourself you should see the new samples before placing your order for a suit with anyone—call in and examine the clothes—get our prices, and then decide where you will buy, and don't take our word for the fit, just ask anyone whom we have sold to.

NOW LISTEN—Here is a little guarantee which goes with every suit we sell—Ready-to-Wear or Made-to-Order—and as far as we know you cannot get the same deal elsewhere.

"If you should be dissatisfied at any time during one Year after receiving a Suit from us, with the Fit, Price or goods, we will cheerfully refund your money. SEEMS FAIR ENOUGH, DOESN'T IT.

Morrin, Thompson & Co.

You Are Losing Money

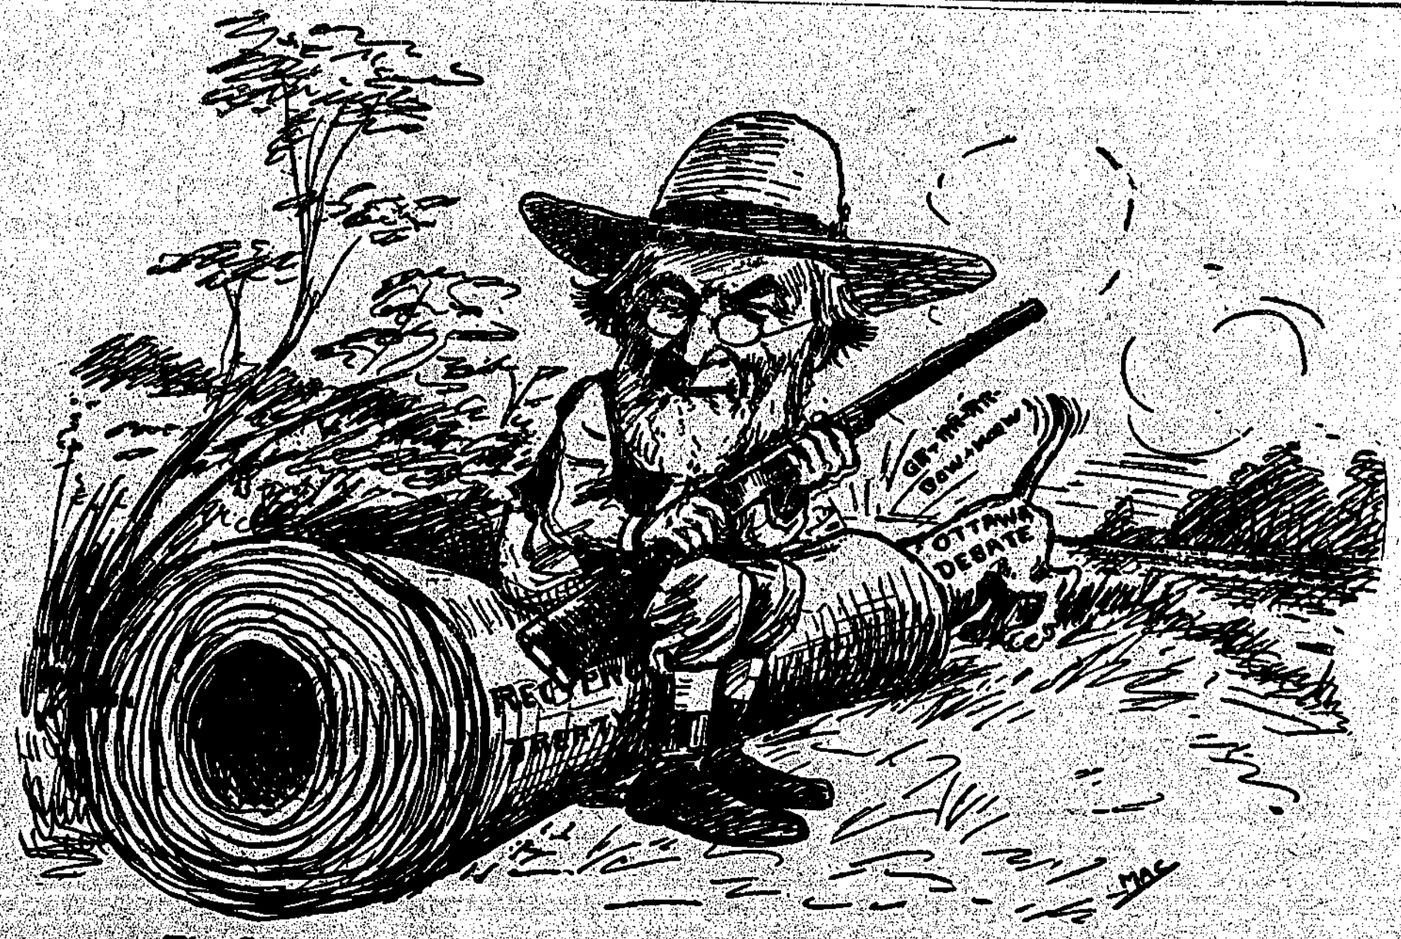
day by day if you fail to investigate the merits of our Beer.

Wholesome Beer

properly brewed and of proper age is the only kind to buy. It costs more to produce a pure palatable beer than a Beer of inferior quality. We do it though, and don't charge extra for it. For A1 BEER best quality, ours takes the lead.

PHONE 23

PHOENIX BREWING CO., LTD.



The Country—Go after Him Towser, I'm Watchin' my End of the deal.

Local and General

Miss M. Stalker left this week for Oxbow, Sask.

Mrs. J. E. Thompson and family left this week for Oxbow, Sask.

For sale—at The Pioneer office, clean newspapers, put up in bundles, at 25c.

The Phoenix Brewing Co. received two carloads of malt and a large consignment of Bohemian hops.

The Girls' Sewing Guild of the Methodist church purpose holding a sale of work in the classroom of the church on Wednesday afternoon. They will also serve afternoon tea. Friends are invited to attend.

Rev. John Knox Wright, of Vancouver, secretary of the B. C. Branch of the British and Foreign Bible Society, is expected to address a meeting in the Methodist church on Thursday evening at 8 o'clock. All welcome.

At a meeting of the School Board, this week, J. W. Hannam was elected by acclamation as trustee in the place of T. A. Love who resigned a few weeks ago. It was desirous of the board to obtain a member who was a married man and permanent citizen, and in Mr. Hannam they have obtained a man who has all these qualifications, is considered a stable citizen, and should make a faithful and efficient trustee.

The seisure of a cow was made by the local customs collector this week. The owner was fined to the extent of value of the cow and duty. This should be a warning to others, in bringing dutiable goods across the line.

For Sale—At once, the Christena Lake property of Mr. A. B. W. Hodges, consisting of one acre of ground and bungalo; property has 200 feet water frontage. A bargain; terms reasonable. Apply to W. A. Williams, Granby Smelter, Grand Forks, B. C.

A smoker will be given in the Miners' Union hall this evening for the benefit of Charles Shaw, the blind miner. This is a worthy cause and the hall should be packed to the doors. There is one thing that can be said about miners that can hardly be said about any other class of laboring men, and that is they never forget one of their members in distress who needs assistance. The hand of mercy with its financial aid is always extended and misery alleviated wherever found in their ranks.

Partnership

An excellent opportunity for a man who is trustworthy and ambitious to learn the jewelry business. Capital required $600 to $800 which will be fully secured. For further particulars Apply to—J. A. HARTLEY, Jeweler and Optician, Ladysmith, B. C.

Clocks Clocks

If you are looking for a present for that friend of yours about to be married, you will find nothing nicer or more appropriate than one of our Mantel Clocks.

Prices, $9.50 to $13.50 each

Also a nice line of Gilt and Bronze Clocks, very reasonable. Call and Look Them Over.
