The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

THE PHOENIX PIONEER

Devoted to the Interests of the Boundary Mining District

The Phoenix Pioneer is published in the highest municipality in Canada, and the city has a population of 1,500, and possesses first-class hotels, opera house, schools

FOURTEENTH YEAR — PHOENIX, B. C., SATURDAY, NOVEMBER 16, 1912 — NUMBER 18

LEGISLATIVE ASSEMBLY LIBRARY NOV 19 1912

The Granby Consolidated

Few mines in the province can show the steady improvement that characterizes the operations of the Granby mine here in Phoenix, and still fewer can point to such splendid results. For some months the hum of the wheels of the big compressor has never ceased, while the flow of ore from the mine to the smelter in Grand Forks has been equally incessant. The high average in daily shipments is steadily maintained and the reserves of ore blocked out and in sight, while enormous, are actually being added to as the skillful system of development is proceeded with. This latter has all along been the Granby's strong forte, and remarkable success has attended the mine management in keeping development years ahead of the output. In this connection it is quite in order for us to state that even if development was wholly to cease, the supply of ore now blocked out is ample enough to keep their full battery of eight furnaces employed for seven years to come.

In the matter of labor-saving devices for the economical operation of the property the big company is immeasurably ahead of any mine in the province, and any device of value is eagerly seized upon and as promptly installed. The prospecting by diamond drill which has now been going on for years has greatly assisted the company's engineers in determining the extent of the ore bodies, and further explorations at depth are now being prosecuted.

A Four-Inch Paystreak

A communication received this week by Jas. Marshall and Thos. Brown from their partner, A. Shilland, of Sandon, in charge of the work on the Dunedin, contained the pleasing intelligence that further drifting had added another inch to the rich silver-lead paystreak, which was struck on their property only a short time ago, samples of which gave a return of 217 ounces in silver, 70c. in gold and 76 per cent. in lead; equivalent to $183 per ton.

Sad Cable Message

F. J. Harbinson, manager of the local establishment of P. Burns and company, on Monday last was in receipt of a cable from Belfast, Ireland, announcing the passing of his father, Rev. Wm. Harbinson, Presbyterian clergyman of that city. Although advised a day or so before that his father had been stricken with a paralyetic seizure, the news of his death on Sunday came as a great shock. The deceased gentleman, who had passed the alloted span by eight years, is survived by his widow, four daughters and seven sons. One of the latter is in the Presbyterian ministry in New Zealand, two are members of the medical profession in England, two others are grain importers and shipowners in Ireland, while another follows the profession of engineer. One of the daughters is married and a resident of Johannesburg, South Africa.

Lineman Taken to Spokane

T. Kelly, lineman with the South Kootenay Power and Light company, who was so severely injured last week, while engaged in repairing the high-tension lines near the the Rawhide mine, was taken to Spokane on Wednesday, the injury to his spine having necessitated special treatment. Although severely burned by contact with the wires, the most serious injury seems to have been occasioned by his fall from the pole. Every endeavor was made by Dr. Verrall and E. Gibson to insure the maximum amount of comfort on the trip and in spite of his suffering the patient was wonderfully cheerful and bore up extremely well. Mr. Gibson accompanied him to Spokane, and was joined at Grand Forks by Dr. Orme of Greenwood who saw the patient safely in the hospital.

The Roumanian army is to be immediately raised to its full strength of four hundred thousand men.

B. C. Mining

The deputy mining recorder at Hope has issued a license for dredging operations covering five miles of ground immediately above that town.

New ore finds are reported to have been made in the St. Eugene mine at Moyie, and it is considered quite within the bounds of possibility that that famous property will again loom largely in the public eye.

Word has been received here, says the Kootenain (Kaslo), of a strike on the Ajax, in Ferguson camp. Particulars cannot be obtained as to the magnitude of the new find except that it is a very high grade galena and that two miners have no difficulty in knoking down a carload of ore a week. This would indicate that the find is an important one. Parties who are interested in the property are rather disquieted by a recent decision reached to the effect that the C. P. R. will shut off the steamer service on the Trout Lake on December the first, instead of waiting until the ice forces a shutdown of navigation for the winter. They claim that they are in a position at the present time to make a little money while the metal prices are at a good figure and that if they cannot get out their ore within the next two or three months that they may not stand such a favorable chance at a later period to get any reward for their season's development.

Mat Trewhella made a shipment of 25 tons of oxidized ore from the Phoenix last week. It was taken from a vein ten feet from the one from which he has made the previous shipments. He believes that both are feeders from the same ledge and that they will unite at depth into one large ledge. The oxidized seam carries from ten inches to a foot of ore that seems to be of high grade. Mr. Trewhella did not care to hazard a guess as to the value of the shipment, but said he believed the ore will run high.

When it is considered that Mr. Trewhella had no capital beyond his energy and his capactiy for work when he took hold of the Phoenix under a lease. He has done remarkably well, as, besides making a profit, he has demonstrated that the Phoenix will, with a not very great expenditure, make a mine. Recently the owners were offered a considerable sum for the mine but refused it, and said it was not for sale.—Rossland Miner.

W. B. Dornberg, manager of the Treasure Mountain mine, came down from Tulameen and Summit camp, or Leadville, as it has been rechristened, and left yesterday for Spokane headquaters of his company. He has been very busy getting winter supplies packed to his camp, many tons of which are required. Some very fine samples of galena ore, assaying $200 per ton, have been shown, making the prospects of this country extremely bright. The Treasure Mountain people are deserving of every success, and no doubt it will come to them for the energy and courage they have shown in developing to the present stage. In the tunnel now being driven ore will be tapped at depth and the body explored as to extent. If Treasure Mountain does not prove to be a high class mine it will be a disappointment to many well known mining men of repute who have visited the property out of pure curiosity, and others, who have investigated its tonnage possibilities in behalf of railroad companies.—Similakmeen Star.

B. C. Copper Treatment

The B. C. Columbia company's smelter treated 15,255 tons of ore this week, as follows: Mother Lode, 7,996; Rawhide, 6,700; Napoleon, 473; Belcher, . . .; others, 86.

Death of Archie McMillan

A telegram on Thursday to Wm. Prendergast, announced the death which occurred the previous day, at Grassy Lake, Alberta, of Archie McMillan, formerly of Phoenix. The cause of death is given as typhoid. Mr. McMillan, who was employed as blacksmith by the Granby company, left Phoenix about a year ago for Alberta, where he established a business at Grassy Lake, and where on December 27th he was married. While in Phoenix he made a host of friends who greatly regretted his leaving the town, and who now sincerely mourn his untimely crossing of the great divide. Much sympathy is expressed for the bereaved widow and baby. Mr. McMillan was prominent in the affairs of the local Presbyterian congregation and was a member of King Edward Lodge A.F. & A.M., among whom he was held in high esteem.

Phoenix Athletic Association

This week, the newly-organized Phoenix Athletic association, which is now in excellent shape, began the work of arranging the teams who are to contest in the series of local league matches. Arrangements so far completed provide for three teams representing the Granby office, the machine shop and one from the city, with possibly another from the Rawhide. Already the first "defi" of the season for a basket ball game has been thrown out by the city team and as promptly taken up by the office champions. The match takes place on Tuesday. Practice in the club rooms has been constant of late, and judging by the progress made, a stubborn and interesting game is anticipated.

Progress on New Rink

Although somewhat hindered by the severe storms of the past week, good headway was made on the rink building, and already the structure is assuming form. The erection of the big arches is now centreing attention, and up to the present four of them have been hoisted and placed in position. Now that everything is in running order, Mr. Connell expects, if the weather permits, to raise the remaining eleven at the rate of about one a day. In our issue of last week it was inadvertently stated that the dimensions of the skating sheet was 70x190 feet. This should have read, 170x70.

The injuries sustained by Harry Sewell and J. Wilson, in the skip accident on Friday of last week did not necessitate their rentention in the hospital at first, but as a precaution the former has been ordered back for a few days and the latter is recovering rapidly at his home. Both the injured men had extremely narrow escapes, and are heartily congratulating themselves that the consequences were not more serious. H. Sewell's injuries consist of injury to his nose, some bruises and a general shakeup, while J. Wilson came off with a severe skaking and minor cuts on the head.

Canada's Duty

"In this time of great national development we are leaning almost entirely on the motherland for the development of our resources. Almost every municipality in the country, as well as the governments of the Dominion and of the provinces, are looking to London for money and still more money. When we are inviting capital to our shores, our people surely should be prepared to give it the protection to which it is entitled. We are awaiting the prime minister's statement with a great deal of keenness, and we feel certain that when it is presented to the house we will not be disappointed, and that it will command the support of every right-thinking Canadian from the Atlantic to the Pacific.

SKI JUMPING TO BE MADE MORE POPULAR

New Ski Course to be Considered at Tonight's Club Meeting

A. O. Johnson, the energetic president of last season's ski club, is once more to the front in organizing for the coming season. Thirty experts have already signified their intention of joining. Tonight, Saturday, a meeting for the purpose of forming the new season's club will be held, when the matter of the new ski course, which it has been suggested should be situated in close proximity to the rink, will be taken up and a committee appointed to meet the rink management. The club have also decided to make an effort to popularize and make more general the use of skis among the people of Phoenix and merchants of the city have announced their intention of keeping them in stock. All interested are invited to be present at the meeting.

The Greenwood Curling Club has elected the following officers: President, Norman McLeod; vice-president, J. L. Coles; secretary, P. H. McCurrach; managing committee, Dr. McLean, Capt. Gordon, K. C., B. Frith and J. D. McCreath. The club will have ten new members this season.

Boundary Ore Tonnages

Following are the returns of the output of the Granby mines and smelters for the week ending Nov. 10th, and the B.C. Copper company for the week ending Nov. 3rd, and year to date:

Mother Lode	7,640	402,513
Rawhide	6,844	216,623
Napoleon	513	11,174
Belcher	...	1,331
Others	234	11,639

SMELTER TONNAGES

Granby	22,465	1,073,912
B. C. Copper Co.	15,255	580,180

Copper Market

The copper market is holding steady. Sales of Lake have been reported at 17⅝ cents within a few days and there is still a small quantity to be had at that figure from small producers who were not in a position a month or so ago to contract for future delivery when the price was a fraction higher.

Most of the large producers are sold ahead to the end of the year, and some have booked orders for delivery in the early part of 1913. The smaller producers, however, who cannot conseratively gauge their output for more than a few weeks ahead, market their product at irregular intervals, or after it is actually in sight.

A sale of half a million pounds of electrolytic copper at 17.15 cents is reported from New York which was taken by a metal brokerage concern. This is evidence that the buyers' and undoubtedly they are in a position to judge of conditions, have confidence in ultimately higher prices.

The trade generally anticipates an increase in the visible supply of copper to be shown by the producers' association statistics for October. As the largest consumers already have supplied their requirements for the balance of the year, they are inclined to wait until the end of the year before making heavy purchases for next year's account.

From all quarters reports of a rushing business on the part of electrical manufacturers are coming in and, unless there is an unexpected and decided slump in buisness during the next few months, there will be a big demand for copper towards the close of 1912.

The Canadian Northern liner Royal George has been abandoned to the underwriters. Notice to this effect was cabled to London yesterday by Vice-President D. B. Hanna, who has charge of the steamship department.

SOME SNAPS IN THE GROCERY DEPARTMENT

St. George Cream, large cans, 10c.
Pink Salmon, 2 Tins for 25c.
Australian Mutton, per tin, 15c.
Corn Beef, per tin, 15c.
Kelowna Tomatoes, 2 tins for 25c.

Additional Reductions

Fancy Dry Onions, 8 lbs. for 25c.
Fancy Apples, 5 cents per lb.
Gold Coin Butter, 40c. per lb.
10 lb. boxes Macaroni, 85c.
Icing Sugar, 2 lbs. for 25c.

This is the only store in Southern British Columbia which is constantly making reductions in price, this is due to the fact that we buy in large quantities, and deal direct with the Manufacturers.

MORRIN-THOMPSON & CO.

Overcoats and Suits

Fresh Stock of Overcoats, Suits, Hats, Ties, and the the latest "Curtiss" Collar

Every day brings new evidence that our Clothing and our methods are attracting men of critical taste—men who know quality in fabrics, perfection in tailoring, correct style and accurate fit.

Our Overcoats and Suits

are essentially garments of quality, and represent the highest stage of perfection known to the art of fine tailoring. Call and we will prove it.

Large Assortment of Penman's Winter Underwear

The Underwear without a fault—They fit—they wear better—No difference in cost—but much in quality, in economy and in comfort.

We carry a fine line of "Ames-Holden" and "McCready Shoes. See Them.

Why not call and inspect our New Stock of FURNITURE, CARPETS, RUGS, LINOLEUMS, SOFAS, TRUNKS, VALISES, and other articles too numerous to mention.

DR. PRICE'S CREAM BAKING POWDER

A Pure Cream of Tartar Powder

Dr. Wm. Sedgwick Saunders, Medical Officer of Health of the city of London, Eng., was good enough to say that a long and universal experience has proved a cream of tartar powder the most efficient, safe and economical, making food which could not be deleterious to the most delicate stomach.

In England the sale of baking powder containing alum is absolutely prohibited.

WHEN BUYING BAKING POWDER, READ THE LABEL.

Concentrates

Electric light rates in Nelson are to be reduced.

The weather at Merritt is so fine that tennis is still being played.

On November 7th, the price of fresh eggs rose to 75c. per doz.

James Hawthornwaite has returned to his island home after a lengthy trip to the old country.

The Watson hotel in Rossland has been turned into an isolation hospital for scarlet fever patients.

The Great Seal of Canada for the reign of George V has just been received at Ottawa from the London Mint.

Sir Richard McBride was recently the recipient of a basket of fine Nicola lake trout. They were sent by H. H. Matthews, government agent at Nicola.

A Kelowna resident sent a charge of No. 7 shot after a chicken thief the other day. The midnight visitant, however managed to get away but left the sack of chickens behind him.

A movement has been started by the Progress club of Vancouver to erect a statue to Captain George Vancouver, the British naval commander after whom Vancouver is named.

The roadhouse of J. R. Tracey on the Salmon river, near Stewart, has been destroyed by fire. Nearly half-a-ton of provisions belonging to Bunting Bros, were also prematurely cooked.

Sir Richard McBride, who has been in Ottawa on provincial business, recently left for California. Before leaving the capital he called on the ex-premier, Sir Wilfrid Laurier, and paid his respects.

A small bottle containing a letter written in both Japanese and English has been picked up on the beach of Graham Island, one of the Queen Charlotte group. It was thrown into the water a year ago near Japan.

The competitive plans and designs for the statue of Queen Victoria which the government intend to erect on Parliament hill, Ottawa, were opened last week. There were over forty submitted, all parts of the empire being represented.

A thrashing machine for the benefit of wife beaters is to be immediately installed in the Toronto jail, following the new method adopted by the police department of giving short sentences accompanied by the lash. Two offenders are shortly to be experimented on.

The owners of the Victoria sealing fleet are threatening to place their vessels under the German flag and evade the treaty recently signed at Washington, which agreement prohibits pelagic sealing in the north Pacific for a period of fifteen years.

All the British naval colliers have been ordered to the Levant. A fleet of torpedo boats is at Malta.

Two men answering the description of those who murdered Chas. Acheson, and who held up and robbed Carl Brophy and Fred Dayton at Kamloops, a short time ago, have been arrested at Savona by the provincial police. They admitted being in Kamloops on the night of the murder.

An innovation has just been introduced at the sitting of the judicial committee of the Privy Council. An empty chair stood at the head of the table when their lordships were in session, intended to remind them that the King formerly presided over their deilberations, but now the Lord Chancellor has substituted a horse shoe table and the red chair has disappeared.

Mr Justice Clement recently made some severe comments in imposing a sentence of ten years in the penitentiary and twenty lashes upon William Morris, who was found guilty with Jack Elder of being concerned in a "holdup," and who on the following evening drew a gun and shot Detective Campbell in the thigh in an attempt to avoid arrest. Elder escaped with a sentence of three years and five lashes.

J. W. Chambers, millwright at the Western Pine Lumber Company mill on Smelter Lake at Grand Forks, was instantly killed a few days ago. While passing one of the large pulleys his coat was caught in the wheel and before assistance could be rendered he was drawn into the pulley and his body badly mutilated. Deceased was about 40 years of age and has been working at the mill for only a month. He leaves a wife and family residing in Ontario.

Sir Thomas Lipton, who is paying his first visit to Vancouver, interviewed by a press representative, referred to his intention of challenging again for the America cup. The distinguished sportsman stated that while he did not want any favor, in fact, would not take any if it was offered, he did want an equal chance with the Americans. Under the present conditions and rules which governed the great event it was no honor for a country to hold the cup. It did not represent sport.

The Dominion financial statement for the month of October shows that Canada's prosperity continues unabated. Consolidated revenue for the month aggregates $14,758,946, an increase of over two millions over October last year. For the first seven months of the fiscal year, the aggregate revenue was $96,137,597, against $76,291,178, an increase of $20,000,000. The revenue for the year will increase all records and promises to reach the $160,000,000 mark. During the month of October the net debt was decreased by $4,022,000.

A WONDERFUL CASE

Three Months in the Hospital And Came Out Uncured

Zam-Buk Cured Him in a Few Weeks

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer, of St. Andrew's, N.B., says:

"I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial.

"Almost as soon as applied Zam-Buk stopped the itching and the irritation, and the pain was gone, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured.

"Since then Zam-Buk has cured blood poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated."

For eczema, blood poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal.

50c. box all druggists and stores or post free from Zam-Buk Co., Toronto, for price. Refuse imitations.

Big Jump In Fur Prices.

It is an undoubted fact that furs are becoming more expensive every season, and the present one is no exception, as may be seen by a few instances given here.

A seal jacket which eighteen years ago cost $200, today will fetch almost $750, while chinchilla has risen 300 per cent. during the last ten years. Ermine, astrachan, musquash and mink have risen about 100 per cent in the same period.

With the great increase in price of the best furs, imitations have come greatly into vogue, and certainly of all imitations musquash—which nowadays can stand alone on its own merits—is easily first favorite.

So closely does "seal" musquash resemble genuine seal that not even an expert can tell the difference without a fairly close examination, and there is little doubt that many a lady who treasures her seal coat is really taking pride in a musquash.

Coney skins, practically rabbit skins, are also extensively used as seal substitutes, and they are as good an imitation today as musquash was ten years ago.

The fleet which is assembling off Constantinople comprises 14 battleships, 22 cruisers, 15 destroyers and six auxiliaries.

United States Mining Laws

What constitutes a valid mineral location under the preseut mineral laws of the United States as applied by the land office, is a question which even the department officials seem to be unable to answer.

No sooner has the man seeking a patent familiarized himself with the latest ruling handed down by the department, and complied with its requirement, than another application is discovered, and further discouraging restrictions applied.

This policy of restriction, which is driving the prospector from the hills, and preventing the develobment of the public domain, will occupy a prominent place in the deliberations and discussion of the delegates to the fifteenth annual session of the American Mining Congress, which meets in Spokane, Washington, during the week of November 25-29.

The following ruling made in connection with a case arising in the Tintic district, of Utah, aroused considerable discussion in that district at the time it was delivered, and is of interest at this time for the reason that a rehearing of the case is reported as having been denied. The particular portion of the ruling to which objection has been taken is as follows:

"The exposure, however, of substantially worthless deposits on the surface of a claim; the finding of mere surface indications of mineral within its limits; the discovery of valuable minerable deposits outside the claim, or deductions from established geological facts relating to it, one or all of which matters may reasonably give rise to a hope or belief, however strong it may be, that a valuable mineral deposit exists within the claim, will neither suffice as a discovery thereon nor be entitled to be accepted as the equivalent thereof.

"To constitnte a vailid discovery upon a claim for which patent is sought, there must be actually and physically exposed within the limits thereof a vein or lode of mineral-bearing rock in place, possessing in and of itself a present or prospective value of mining purposes; and befor patent can be properly issued or entry followed thereon, that fact must be shown in the manner above stated."

If this ruling were to be followed literally in all cases, it is probable that there would be comparatively few mining locations to which title could be granted by the government.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Progress?

Under the caption "Useless Parents," the New York World has the following editorial, and while the parents of "Young Canada" may be apt to roll their eyes and piously thank God that they are not as other parents are, there is sufficient in the article to afford even them considerable food for thoughtful and serious reflection:

"A Bayonne school teacher having sharply reproved her girl pupils for using rouge and face-washes and ordered them not to wear colored hosiery to school, the objects of her censure are preparing to take up the case with the board of education.

The incident is illustrative of the progress made in public interference with the personal affairs of everyboby even children. What with requiring allegiance to the flag by schoolboys, and determining the color of the hosiery and complexion of schoolgirls, New Jersey is setting new standards of progressiveness in school regulation.

But where are the parents that these children have to appeal to a board of education to decide how they ought to dress for school? Have they been wholly eliminated? There were once old-fashioned American mothers who would have as soon thought of calling in a town board to pass on the quality of their pies as to permit a body of school officials to say what was proper for their daughters to wear. They would not have allowed the question to arise in the beginning.

Is the type extinct? Has the shirking of home responsibilities proceeded to such length that all parental authority is now delegated to town boards and governmental bureaus?"

Borrowed Plumes

The present system employed in British Columbia in the matter of naming mining claims requires the serious attention of the department of mines, and immediate steps should be taken to do away with the present pernicious system of duplicating and even triplicating the names of claims. If things keep on as they have been in the past, the confusion arising from our present antiquated methods will be, to say the least, indescribable and possibly serious. Already we have far too many "Le Rois" and "War Eagles," etc., and heaven alone knows how many more will be added to the list at the end of another ten years. What makes matters much worse is that in many cases the reasons underlying the majority of repetitions are not honorable and are but a veiled attempt to deceive the investing public into sinking their capital in an enterprise which has little to recommend it except the name. Power should be given to the government mining officials to refuse to record any claim under a name which is already on the list. To draw a parallell, we can imagine the chaotic condition of affairs that would result if the vessels of the mercantile marine of Great Britain were as carelessly named as are the mining claims in this province.

Royalty in Heaven

Sir Frederick Wedmore, a well-known art critic, has published a most interesting volume of 'Memories,' in which he tells some good things about interesting people whom he has met. One of the best stories is that of the late Queen Victoria, and her statement that she 'would "not" meet David,' She evidently championed Bathsheba. The story runs thus:—

'In some such terms as the following, Laby Southampton felt herself to be inspired to address the Queen one day: 'Do you not think, ma'am one of the satisfactions of the future state, will be, not only our own reunion with those whom we have loved on earth, but our opportunities of seeing face to face so many of the noble figures of the past—of other lands and times? Bible times, for instance. Abraham will be there, ma'am; Isaac, too, and Jacob. Think of what they will be like! And the sweet singer of Israel. He, too. Yes ma'am. King David we shall see.' And, after a moment's silence, with perfect dignity and decision the great Queen made answer, 'I will "not" meet David!"

Capt. Popoff

In these elementary days of airships, when columns of space are devoted to the doings of the modern sky pilots and what they are going to do in revolutionizing the science of war, one finds it difficult to repress a sense of fiendish glee in reading that a certain Captain Popoff has ventured a little too near the Turkish artillery aud paid for his temerity with his life. Perhaps if a little more attention was directed towards finding out some peaceful use for the air machine we might feel more kindly disposed towards them, but after all is said and done, we must all agree that the name of Popoff was not a fitting cognomen for the pilot of an airship.

A Drastic Law

McGill has lost fourteen of her American students who went there to study medicine, owing to the law passed recently by the New York State Legislature. The new law prohibits graduates of the medical faculty of McGill from taking their state board examination, by passing which they can alone become eligible to practice in that state, unless they also have secured a degree from one of the American colleges.

The New York law not only affects all Canadian colleges, but graduates of all universities outside the United States, and also those of about eighteen of the smaller American colleges. The law goes into affect in 1913.

A Woman Should Know

That neglected coughs and colds—especially in children—lead to consumption. Prevention is better than cure; and Peps spell prevention!

Peps are small pastilles containing pine fumes and certain highly beneficial medicinal preparations condensed into solid form. As soon as you put a Pep on your tongue, these healing essences turn into vapor, and are breathed down direct to the lungs, air vessels, and breathing-tubes.

You—or your child—may have a troublesome cough. Perhaps it is especially bad at night! Take a Pep before going to bed—your cough will not trouble you! Your lungs are perhaps a little weak, and going from the warm house into the cold air outside makes you cough? Just before going out, put a Pep into your mouth—there will be no coughing! Your throat feels "stuffed up." Your chest feels tight, and your breathing troublesome? Peps will put matters right for you very quickly.

Peps, while quickly turning to vapor as soon as put into the mouth, will retain their goodness indefinitely, if kept dry. Each little Pep pastille is packed in an air-tight wrapping, which is easily removed, and they are packed in neat tin pocket boxes. They are not sticky, and may be carried loose in the pocket, or glove, or muff.

Peps are a sure cure for coughs, colds, bronchitis, asthma, sore throat, "smoker's throat," laryngitis, catarrh, "clergyman's throat," and all disorders, and ailments of the throat, breathing-tubes, and lungs. Peps contain no opiate, no poison.

All druggists and stores 50c. box, or direct from Peps Co., Toronto, for price. Mail this article and 1c. stamp, and a sample packet of Peps will be sent you. Address Peps Co., Toronto, or 52 Princess St., Winnipeg.

YOU PAY WHEN CURED

Drs. K. & K. TAKE ALL RISKS

Cured by the New Method Treatment

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indiscretions, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

James G. McKeown

Local and General

Mr. and Mrs. M. Sokol left on Monday for Fernie.

Mrs. E. E. Campbell spent a couple of days this week in Spokane.

Mrs. McLaughlin of Eholt came up for a short visit on Wednesday.

R. Forshaw arrived in the burg during the week from New Denver.

Gordon McLeod returned from a short visit to Nelson on Saturday.

Mr. and Mrs. Jas. Macaulay were visiting in Grand Forks on Wednesday.

Born—At Greenwood, on Friday, November 8, to Mr. and Mrs. Adams, a son.

Mrs. R. Lindsay leaves this morning for Montreal, en route for her home in Scotland.

Theo. Biner, proprietor of the Colin hotel, Grand Forks, was in town for a few days this week.

John Donaldson, the well-known merchant of Columbia, was a visitor in town on Thursday.

Miss M. McDonald, who has been visiting for a few days in Nelson, returned to town on Tuesday.

Jas. E. Carter, C.P.R. agent, returned to town on Monday from a short business visit to Nelson.

Andy Fletcher, one of the oldest pioneers in the province, is under medical care in the General hospital.

George Heidman, formerly shift-boss in the Granby mine, came in on Saturday from his home in Vancouver.

Ed. Finlay, of Kennewick, Wash., was in town for a few days this week visiting his sister, Mrs. H. R. McCoskrie.

Mrs. Ed. Black, who has been under special medical treatment in Spokane, returned to town on Tuesday much improved in health.

G. W. Wooster, treasurer of the Granby company, came up from the Forks on Saturday, and stayed in the camp over Sunday.

New arrival in Phoenix: "What is that man doing. He has some difficulty in walking with those two planks tied to his feet."

W. H. Bambury, who has been engaged in building operations in Grand Forks, for the past two weeks, returned to town on Monday.

Mrs. N. J. Carson left on Thursday, for Brandon, having been called away by the news of the serious illness of her mother.

Superintendent E. Hibbert, accompanied by Frederic Keffer, drove up from the Mother Lode mine, on Thursday, and went over the company's Rawhide property.

H. Hartley, the municipal scribe, went to Spokane on Tuesday for the purpose of consulting an occulist, his eyes having of late been giving him considerable trouble.

Miss F. M. Edwards of the nursing staff of the Phoenix hospital, who resigned her appointment a couple of weeks ago, leaves today for Vancouver, where her relatives reside.

F. Hayhurst, in charge of the clearance sale of Edwards' house-furnishing store, says that next week will be the last opportunity for great bargains. The goods are cut to less than cost.

Wm. McKay, who has been spending some time on his ranch near Danville, returned to town on Tuesday. Mr. McKay had some difficulty in making the camp as there is absolutely no sleighing outside of the city.

The dance, on Tuesday, given by the King and Dyer orchestra, was largely patronized by the dance devotees of Phoenix, who emphasied their pleasure in both the music and lighting effects by repeated calls for encores.

Mrs. Dan Gunn, who has been the guest of Mrs. McKinnon for some time, left on Friday for her home in Rossland. Mrs. Gunn was formerly a resident of Phoenix when Mr. Gunn occupied the position of chief of police.

Wm. Tinney returned to town on Tuesday after a few months spent on the coast. Bill was engaged as shift-boss at the Brittania mines, Howe Sound, and after visiting other places decided there was no place like Phoenix, and accordingly headed this way.

John Marshall, formerly with the Cranbrook Co-operative company, arrived in town during the week for the purpose of taking over the position, as manager of the dry goods department of Morrin, Thompson and Co. Mr. Marshall comes highly recommended and previous to his Cranbrook appointment held a similar position in Glasgow, Scotland.

The bandboys of the city band are out for the cash. They make no secret of the fact either. The aforesaid cash is required to help provide them with uniforms. To start the ball rolling, so to speak, they have arranged a dance for next Thursday (American Thanksgiving) when several novelties, including a lottery dance, will be features of the evening's program. The Ironsides orchestra have been secured to supply the music, and during the evening the entire band will contribute selections. All who have the interest of the band at heart should take advantage of this opportunity and help.

A. Erskine Smith, managing director of the Red Cliff Mining Co. has been in Stewart the best part of the week. He reports that J. L. Parker, a mining man of well known ability, is at the company's property making an exhaustive examination as to value, quantity of ore blocked out, etc. Mr. Parker is employed by the Red Cliff Mining Co. and his professional report will no doubt be placed before a meeting of the company, to be held in Vancouver Nov. 14th. With this knowledge and detail at hand the company will be in a position to determine what course to take. There has been talk of a smelter being built on the canal. This, and the consideration of outside capital offering, will probably be discussed at the meeting. J. M. Turnbull, the representative of the Consolidated Mining & Smelting Co. of Canada, is in company with Mr. Parker while that gentleman is proceeding with his examination. The fact that men of such standing in the mining world are in that district is in itself a very gratifyitg fact.—Portland Canal Miner.

HOUSE FOR SALE

The property known as the Biner block; best location in town; four suites of three rooms each; well furnished for housekeeping; all rented. Lower floor can be used for any kind of business; very cheap, part cash, rest terms; no encumbrance; clear title; a money-making chance to right party. See owner on premises.

DOCTORS FAILED. RESTORED BY PERUNA.

Catarrh of the Lungs Threatened Her Life.

Miss Ninette Porter, Braintree, Vermont, writes: "I have been cured by Peruna.

"I had several hemorrhages of the lungs. The doctors did not help me much and would never have cured me.

"I saw a testimonial in a Peruna almanac of a case similar to mine, and I commenced using it.

"I was not able to wait on myself when I began using it. I gained very slowly at first, but I could see that it was helping me.

"After I had taken it a while I commenced to raise up a stringy, sticky substance from my lungs. This grew less and less in quantity as I continued the treatment.

"I grew more fleshy than I had been for a long time, and now I call myself well."

NYAL'S BEEF IRON AND WINE

This is a delicious tonic worth trying. We never ask anyone to buy the second bottle—they always buy it without asking.

Delicious in taste, it contains iron to enrich the blood, peptonized (digested) beef to feed the tissues and choice wine as an appetizer. If you feel worn-out, tired and run down, you need a tonic; you couldn't fine a better one than this. We sell a great deal of it—like all Nyal remedies it is of highest quality. We can sell you cheaper kinds, but you will be glad you paid a **$1.00 for Nyal's.**

At Spokane, with three Eastbound and Westbound coast trains daily—The Oriental Limited Spokane through to Chicago without change; The Oregonian through to St. Paul, both trains making connections for all Middle West and Eastern points.

The South Eastern Express, Spokane through to Kansas City without change, making connections for Denver, St. Louis, Omaha, etc.

These three trains all Electric Lighted throughout, Standard and Tourist berths, dining cars with best of service.

Call or write and let us figure out your route, fare, etc.; all information gladly furnished.

W. X. PERKINS, Agent.

DO YOU WANT TO MAKE MORE MONEY

IN placing your Newspaper Advertising, place the greatest value on the paper with the greatest influence on its readers.

¶¶¶

Use the medium that is watched for every week by the people of your community.

Spend the money with the paper that is read with interest. It reaches the people and you know that you're getting into the homes of the people you want to reach.

¶¶¶

Quality has not yet become popular, but the day is not far distant when this will be one of the main features of Newspaper Advertising. In the meantime business men, who have faith in quality, are reaping huge returns.

¶¶¶

Remember first, last, and always, that circulation counts; that quality of service gives quality in returns. The high priced medium pays. Like the high priced servant, you will find money well expended.

¶¶¶

You can make more money by selling more goods; you can sell more goods by advertising in The Phoenix Pioneer, whose constituency is the Boundary district.

¶¶¶

The way to test the truth of this statement is to send us the copy for your ad. right away. The experience would not be an expensive one, and satisfactory results are assured.

¶¶¶

We use the most modern type and machinery money can buy, combined with thorough workmanship—a combination which enables us to do the best work at a moderate cost.
