No mining camp in the Boundary is attracting more attention than

PHOENIX

If you wish to receive the mining and general news of this camp and the Boundary, subscribe to the PHOENIX PIONEER.

The Phoenix Pioneer.

During the year 1900 160,000 TONS OF ORE were shipped from the mines of

PHOENIX

For the first five months of 1901 over 90,000 tons of ore were shipped, or at the rate of 200,000 tons annually.

Devoted to the Interests of the Boundary Mining District.

VOL. III. PHOENIX, BRITISH COLUMBIA, SATURDAY, NOVEMBER 23, 1901. No. 2.

The Big Store

BIG CLOTHING SALE

FOR TWO WEEKS.

250 Suits to be Sold for Less than Cost.

$10 to $12 Suits for $ 7.00
$15 " " 12.00
$18 to $20 " " 12.00
$25 Satin Lined " " 15.00

This is a splendid opportunity for the City of Phoenix and outlying districts to purchase High Class, and Up-to-Date, Perfect-Fitting,

Ready-to-Wear Clothing

at Greatly reduced prices. These Suits and Prices are open for inspection. Come and have a look——If not satisfied with one look have another.

P. S....We are the Sole Agents for the Fit Reform Clothing and by this you can have a Tailor Made Suit for the same price as ready made. Come and examine samples and leave your orders.

Also Four Dozen Shirts

at $1.75 Closing Out at ONE DOLLAR.

THE HUNTER-KENDRICK CO., Limited

General Merchants, Knob Hill Avenue, Phoenix.

We carry the only complete stock of Merchandise in the City.

Morrin, Thompson & Co., Store News

Received this Week.

2 Cars of Potatoes from Covert's Ranch

1 Car Vegetables—Onions, Beets, Carrots, Parsnips, Turnips, Rutabagas, and Cabbage.

1 Car of Tartan BRAND

Canned Goods including Gallon Pie Fruits in every variety of fruit put up.

These gallon goods are solid Pack, and you do not pay for water, as in some other brands we know of.

200 Boxes of Apples:

Spys, Wolf River, Ganos' Pippen, Kings, Etc., all good keepers and Choicest Stock.

Remember our stock of Butter, Eggs and Cheese, etc. is always fresh and up to the mark in quality.

Everything in HARDWARE.

We want you to feel at home in our stores.

HOSPITAL LADIES' AID SOCIETY

Will Give a Ball on Wednesday Evening, December 11th.

At an enthusiastic meeting of the ladies of Phoenix, held in the Hardy-McKenzie hall on Tuesday, Nov. 19, 1901, it was unanimously decided to form a society to assist the Phoenix General Hospital. This society is to be called the Hospital Ladies' Aid Society, and the following officers were elected:

President, Mrs. W. J. Porter; vice-president, Mrs. J. F. Hemenway; secretary-treasurer, Mrs. J. B. Boyle; executive committee, Mrs. J. E. Mills, Mrs. M. W. Crane, Miss Edith Hawthorne, Mrs. W. J. Barlow and Mrs. J. A. Morrin.

All present were enrolled as members. The society then met and decided to hold a ball on Wednesday evening, December 11th, 1901, proceeds to go towards equipment of the new hospital. It was felt by those present that such a public institution was worthy of the hearty support of the entire community, and that a ball in aid of the hospital fund would be well patronized. The appointment of a ball committee was left to the president.

A meeting of the ladies interested in the hospital was held Thursday at the home of Mrs. W. J. Porter, and the following committees were appointed to take charge of the ball:

Music — Miss Hawthorne, Mrs. Crane and Mrs. Cramer.

Supper—Mesdames Gillis, Morrin, McAuliffe, Hackett and Bigelow.

Printing and Advertising — Mesdames Hemenway, Dermody and Boyle.

Decorations — Mesdames Miller, Dunn, Reardon, Jagger, Cochrane and Barlow.

Reception — Mesdames Barlow, Crane, Morrin, Duncanson, Boyle, Crawford, Hemenway, Porter and Miss Hawthorne.

Floor—Mayor Rumberger, Dr. R. B. Boucher and J. F. Hemenway.

Look Out for the Firemen's Ball.

Just as the Pioneer is going to press it has been decided to give a ball for the benefit of the Phoenix Fire Department. It will take place on the evening of December 12th, Thursday, at Miners' Union Hall. As nearly every man in the city is interested in seeing that nothing needed is wanted for the department, the ball will doubtless be a success. Further announcement in the matter will be made later.

Lost—100 School Desks.

The trustees of the Phoenix public school have been wondering what has become of the 100 patent school desks that have been ordered and supposed to have been shipped from Vancouver two or three months ago. They were intended for the new school building, and have been very much needed. This week, however, Secretary Matheson received notice from the superintendent of public instruction that the desks had actually been shipped on the 9th inst., and should arrive in Phoenix any day.

Mr. Matheson also wishes to call the attention of parents to the fact that the appropriation for the Phoenix school for the next year will be based on the attendance for the last quarter of this year, and that therefore it is particularly necessary, if sufficient is secured from the government to pay the cost of conducting the school during 1902, that the attendance for the balance of this year should be as large as possible.

Strike in the Jewel Mine.

It was reported this week that a new body of gold quartz ore was struck in the Jewel mine of Long Lake camp, belived to be on the lead that the prospecting shaft has been sinking on for some time past. Owing to the rapid raise in the hill, the lead where now encountered will give about five hundred feet backs. This greatly enhances the value of the Jewel mine, which already has a large quantity of ore, said to average in value about $12, blocked out in the old workings. Gilbert Mahon, manager of the mine, left for England last week.

New Laundry Will Open.

Next Monday the White Star Laundry will be open for business in the basement of the V. & N. telephone building, opposite Black's hotel. E. R. McLellan & Co. are the new proprietors, who are experienced in the business, and are already known in Phoenix. Firstclass work is guarenteed, goods being called for and delivered free. Telephone No. 64, or leave orders at Laird's barber shop in the upper town.

Wednesday Evening's Council Meeting.

Last Wednesday Alderman, Marshall, Punch, Roy, and Morrin, and Mayor Rumberger were present at the weekly meeting of the city council, when the following bills weae ordered paid: Pioneer Pub. Co, $10; C. P. R, $1.15; V. & N. Telephone Co., $3.95; N. D. Palorcia, $2.10; P. C. McCarthy, $12.

The chief of police was appointed as fire and chimney inspector, and he was ordered to see that all houses within the limits of the city complied with the city fire by-law.

STARTED UP

Golden Crown Compressor Is Now Running.

FORCE OF 14 MEN EMPLOYED AT MINE

Superintendent Duncanson is Operating at the 35-Foot, 100-Foot and 300-Foot Levels —J. L. Parker Sampling the Property.

Development on the Golden Crown, adjoining the Winnipeg, about two miles and a half from Phoenix, is now in full swing with a small force of men, which will be increased as they can be used. As the mine is on low ground, compared to the properties around, it, there was a large amount of water in the workings, and it took a little longer than anticipated to get it free of the water. This, however, was accomplished last week, and men set at work retimbering and fixing up the workings in several places where needed.

This work has now been largely accomplished, and early this week the compressor was started for the first time in a year. Superintendent Duncanson has one or two machine drills in operation, the work being done on the 35-foot, 100-foot and 300-foot levels. This week the force of men employed numbered 14, but it is anticipated that this will be increased as fast as they can be used to advantage.

J. L. Parker, having about finished his work of examining the Winnipeg, has been employed to examine the Golden Crown, and advise concerning the future development of the property. This work he is now doing. Some excellent ore bodies are known to exist in the Golden Crown, from which there have already been shipped about 2,250 tons of ore. This ore was shipped, however, at a time when the freight and smelter treatment rate was $7.50 per ton. As the rate is now acout $3.50 per ton or less to either of the smelters, the difference between this and the old rate would represent a considerable profit in itself.

The mine is equipped with compressor, pumps and hoist, and was the first mine in the Boundary country to put in a cage. It also has a well constructed ore bin, to which the C. P. R. track has been run. Those best acquainted with the property believe that the Golden Crown will prove to be one of the leading shippers in the Boundary in the course of time.

Notice to the Ladies of Phoenix.

TO THE LADIES OF PHOENIX:—At a meeting held Tuesday in the Hardy-McKenzie hall, to discuss ways and means of raising funds for the equipment of the Phoenix General Hospital it was decided to form a permanent Ladies' Aid Society to be called "The Hospital Ladies' Aid Society."

Those ladies who have not already enrolled as members are cordially invited to do so at the earliest opportunity.

Membership rolls will be found at both drug stores.

MRS. J. B. BOYLE,
Secretary-Treasurer.

GETTING READY FOR HOCKEY.

Arrangements Made for Practice Nights at the Rink.

With winter now fairly on us, the hockey enthusiasts are making definite arrangements for the season's sport. This week, Corner & Prendergast, proprietors of the rink, have been getting the structure in shape, and in another week should be nearly ready for business. A committee from the hockey club met the proprietors Thursday and arranged that the club should have exclusive use of the rink three nights in the week from 7 to 8 o'clock.

There seems to be no doubt but that a Boundary hockey league will be organized before long, as there are rinks or will be in Grand Forks, Greenwood and Phoenix, and many enthusiasts of the game live in each place. In addition to this, it is more than likely that a curling club will be established here, as there are a number interested in that sport also.

The members of the hockey club are also talking of giving a dance about the 20th of December. Mr. Ewing, the treasurer, says that he is not too busy to enroll the names of any of those who wish to become members of the club, and he will be glad to see any such at the Eastern Townships Bank.

Is a Sad Story.

Last Wednesday a man named Tatro died at the Greenwood hospital of typhoid fever, after an illness of several months. A year ago his wife died leaving him with eight children, the oldest 15 years of age. He had been ranching on Anarchist mountain. The remains were taken out to his old ranch home for burial by a kind hearted neighbor, who will also probably take care of the large family left, the youngest only twelve months old.

MR. BOSS IN PHOENIX.

But He Has Little to Say About the Brooklyn.

J. E. Boss, who makes his home in Toronto, and who arrived in camp last week, will stay in the Boundary for perhaps a month, making his headquarters in Phoenix.

As is well known, Mr. Boss is one of the large shareholders in the Dominion Copper Co., owning the Brooklyn group of claims, and his visit here at this time is in connection with those properties. But to all inquiries on the subject, Mr. Boss turns a deaf ear. He simply has nothing to say as yet. He was willing this week to talk on any and all other subjects with a representative of the Pioneer, but when it came to the Dominion Copper Co. affairs, he was as mum as an oyster.

The Dominion Copper Co. is what may be called a close corporation, nearly all the stock being owned by Wm. McKenzie, D. D. Mann, Robert Jaffray, James Breen, G. W. Rumberger and J. E. Ross, there being almost no small stockholders whatever. It is the general belief among well informed mining men that the company owns some of the very best mining claims in the Boundary, and the development of the last year under the management of Mr. Breen has only strengthened this belief.

Lately W. H. Thomas, engineer for the B. C. Copper Co., owning the Mother Lode mine and smelter, has been making an exhaustive examination of the properties of the Dominion Copper Co., and is yet engaged with his assistants in securing samples from the different properties. What the result of the sampling and examination will be is not yet known, and it may be a few weeks before anything is given out in the matter. But there seems to be no doubt but that some sort of a deal is now on. Mr. Breen is expected in camp shortly, and after that something definite may be divulged.

Mr. Boss was instrumental, three years ago or more, in getting the Dominion Copper deal through, by which the Brooklyn, Idaho, Stemwinder, Montezuma, Standard and Rawhide owners either sold outright to the new company or took shares in the corporation. A year ago, when Mr. Breen took the mangement and a vigorous policy of development was inaugurated, Mr. Boss was again in evidence. The other day when Mr. Boss arrived in camp, Joe Taylor, who profited by the first deal, was heard to remark: "Joe Boss is in town again, and Joe always precedes the coming of money into this camp."

BOUNDARY MINING NOTES.

This week the Winnipeg once again enters the list of shippers over the Phoenix branch of the C. P. R.

Walter H. Aldridge, superintendent of the Trail smelter, has been taking in the smelters of the Boundary this week.

For the past week the ore treated at the Granby smelter amounted to 4,724 tons, making a total of 261,539 tons to date.

Ore is now being hauled from the Ruby mine at Boundary Falls to the siding for shipment to the Greenwood smelter.

The latest in regard to the date of when the Granby smelter will be ready to increase the treatment, is that it will be on or about January 15th.

A boiler was placed in the Stemwinder shafthouse this week, and the mine is being pumped out to permit of it being sampled by the Greenwood smelter people.

J. H. Wardner, of Grand Forks, has been awarded a contract for hauling six tons of ore daily from the Alhambra mine, near Nelson, Wash., to the Granby smelter.

Last week the new assay office at the Winnipeg, in charge of Mr. Widdowson, was completed and is now in use. It is complete in every detail, with laboratory, balance room, etc.

Shipments from the No. 7 mine, Central camp, have been discontinued for the present, owing to the bad roads. Work is being continued in the raise, drifts and in the deepening of the shaft.

Neil Cochrane, who had charge of the Oro Denoro, in Summit camp, till that property suspended operations, spent several days in Phoenix, this week, looking over some properties in the north belt with a view to interesting capital.

It is reported that another deal is on for the sale of the Standard Pyritic smelter at Boundary Falls, between Greenwood and Midway. The Sunset people are said to be in the field again, as they have a considerable tonnage of ore ready for shipment.

The Greenwood smelter owners in New York have signed a contract for the treatment of the matte of that concern by the new converter nearing completion at the Granby smelter at Grand Forks. The matte shipments from Greenwood will now average from 20 to 25 tons per day, which amount will be doubled in January. Paul Johnson, manager of the Greenwood smelter, went over to the Forks late last week to make arrangements for the sampling of the matte.

AT SNOWSHOE

Many Improvements Going on At This Mine.

TEN CAR SPUR HAS BEEN FINISHED

Ore Bins With 400 Tons Capacity Will Soon Be Finished—New Buildings are Now About Ready for Use.

Probably no mining property in the Boundary has shown as much progress in the last two or three months as the Snowshoe mine in this camp, as far as surface improvements are concerned. Not only has there been a large lot of surface work done in the way of stripping to get at the large amount of decomposed ore which is known to exist there, but new buildings have been put up at a cost of many thousands of dollars for the accommodation of the men and officials of the Snowshoe Gold and Copper mines, Ltd., owning the group.

Recently the new boarding house and the bunk house, so called, were finished by the contractors, with accommodations for about 75 men. A commodious residence for Foreman Trevorrow and office were also built, while in the course of a month the residence for Superintendent Astley will also be completed, the work now being well advanced. A car load of furniture is now on the way for furnishing these buildings.

In addition to this the company is now putting up ore bins 32x12x13 feet in size, with an approximate capacity of 400 tons. These ore bins are located on the ten-car railway spur just put in by the C. P. R., and it is fully expected that there will be a considerable output of ore as soon as the smelters can handle it.

Development of the property underground goes on steadily, both at the 100-foot level from the main shaft and in the lower workings of the railway tunnel, with excellent results. This week A. J. McMillan, the managing director, came over from Rossland and spent several days at the property.

Inspector of Time Locks.

C. A. Farr, inspector of time locks for Mossman & Co., of New York City, was a visitor in the city on Thursday, inspecting the lock on the safe in the Eastern Townships Bank here. Mr. Farr makes these inspections once a year, to see that the locks are in good working order, the guarantee of each being for one year. From Phoenix he went to Greenwood and Grand Forks.

As an instance of the need of an inspector, last week the time lock of the Grand Forks Investment Co. would not work, and it made all kinds of trouble for that concern, an expert having finally to be brought from Spokane to straighten it out. It was found that the lock had not been cleaned for about five years.

Bank to Move Next Week.

Some time the latter part of next week the Eastern Townships Bank will move from the location occupied for a year and a half on First street to the new quarters prepared for the bank in the Bank block, just being completed by Messrs. Graves and Williams. For the present the old fixtures will be used, but in a short time new oak fixtures, which have been ordered in Toronto, will be installed, when the Phoenix branch will have one of the finest banking rooms in the Boundary, with a large fire proof vault attached.

Recently this banking concern opened another branch in Quebec, in the town of Windsor Mills, making 15 branches all told. They are all in the province of Quebec, with the exception of the two in British Columbia—at Grand Forks and Phoenix.

Joe Durham is now occupying his new blacksmith shop on upper Dominion avenue.

EAGLES' BALL A GREAT SUCCESS.

Miners' Union Hall a Blaze of Glory Tuesday Evening.

Last Tuesday evening the local lodge of the Fraternal Order of Eagles gave their first ball at Miners' Union Hall, and it was an undoubted success in every way. The decoration committee, headed by the worthy president, Victor Monnier, had spent considerable time and about $150 in beautifying the hall, which was festooned with electric lights and bunting, from end to end. The tickets were unique in their way, being badges with the insignia and seal of the order thereon. Nearly 500 of these were printed, and most of them were sold. Mrs. Maggie Dungan was awarded the prize for selling the largest number of tickets, 160, and Mrs. Abbott secured second prize, the prizes being $10 and a $5 gold pieces.

Prof. Paul Kauffmann's string orchestra of three pieces furnished the music for dancing, and it was of the best. About midnight a lunch was served at the Miners' Exchange hotel, opposite the hall. The committee on prizes decided that the award for being the best waltzers present should go to Harry Aronson and Miss Bergman.

Those on the floor committee were Messrs. McAuliffe, Marshall, Drisoll, Wallace, Tracy, Shea and Aronson, and they took every pains to see that those present had a good time. Among the large number that attended were several from Grand Forks and Greenwood.

PHOENIX FIRE DEPARTMENT.

Issues General Instruction and Information to the Public.

This week the Phoenix Fire Department, by authority of the city council, prepared and had printed a large card with general instruction to the public, and containing other information, such as the code of fire whistles, location of hose houses and location of hydrants, etc.

The fire alarm will be given by the whistle in the Old Ironsides compressor house, which is connected night and day by telephone with the city offices. The whistle signals are as follows:

For Granby Co Works: Three long whistles, repeated.

For Upper Town: Three long whistles and one short, repeated.

For Lower Town: Three long whistles and two short, repeated.

Location of Hydrants—2 Granby Co. bunk house; 1 Ironsides avenue and Second street, s.w. corner; 1 Ironsides avenue and First street, s.w. corner; 1 Knob Hill avenue and School street, n.w. corner; 1 Knob Hill avenue and First street, n.e. corner; 1 Victoria avenue, opposite east side of hospital; 1 Dominion avenue and Montezuma, n.w. corner; 1 Dominion avenue and Phoenix, Morrin-Thompson corner; 1 Dominion avenue, Black's hotel; 1 Dominion avenue, Miners' Union Hall; 1 Standard avenue and Banner street, n.w. corner; 1 Brooklyn avenue and Idaho street, s.e. corner.

Laders, ropes, buckets, etc., must not be taken from stations or fires except on authority. Any person found interfering with apparatus will be prosecuted.

Spectators will refrain from dictating orders or in any way interfering with firemen or apparatus.

If outside assistance is needed officers will call for volunteers.

Please be careful about hose lines. Do not drive across or kink them.

The following are the officers of the fire brigade: Jno. F. Hemenway, chief; P. C. McArthur, secretary; J. E. Thompson, assistant chief.

Hose Co. No. 1—J. C. Goupil, captain; A. P. McKenzie, lieutenant.

Hose Co. No. 2—L. Y. Birnie, captain; Thos. Corner, lieutenant.

Next Tuesday evening the ladies of the Presbyterian church will give an Oyster Supper and Entertainment at the church, and extend a hearty invitation to all the friends of the work to be present and have a good time. The program will begin promptly at nine o'clock. Among others who will take part, E. Wentworth Monk will give a recitation.

PHOENIX BRANCH ORE SHIPMENTS.

The following table gives the ore shipments of Phoenix Branch and other Boundary mines for 1900, for the past week, for 1901, and the total to date:—

	1900	Week	1901	Totals
Old Ironsides, Knob Hill and Victoria	64,533	4,627	203,746	268,279
B. C. Mine	19,494	920	40,490	59,939
Golden Crown	2,250	....	....	2,250
Winnipeg	1,076	80	745	1,865
Athelstan	1,200	....	550	1,750
Snowshoe	297	30	1,293	1,590
Brooklyn	150	....	....	150
R. Bell	....		560	560
Totals, tons	89,000	5,657	247,384	336,383
Mother Lode, Deadwood,	5,340	2,396	76,689	82,029
Sunset, "	....	....	395	395
No. 7, Central	....	....	940	940
King Solomon, Copper	....	....	1,250	1,250
Jewel, Long Lake	...	....	290	290
Other Boundary mines	3,230	...	500	3,730
Grand Totals, tons	97,570	8,053	327,448	425,017

ABOUT 375,000 TONS.

It now appears that the ore output of the Boundary for the year 1901 will be about 375,000 tons, against a little less than 100,000 tons in 1900. Up to date the shipments run up to 325,000 tons for this year, and the output for the balance of the year will probably be about 50,000 tons. This will give an average of something over 1,000 tons per day for the entire year, including Sundays—on which days, by the way, but little work is done nowadays by the large shipping mines in this section.

Every ton of this ore has been treated in smelters within the province, and has thus given employment to a large number of workmen. While it is a fact that this ore is nearly all of it of a low grade, there seems to be no reason to doubt that every ton of it has yielded a profit to the mine owners.

An increase of 275 per cent in twelve months is certainly one that can be pointed to with pride by residents of the Boundary, as it shows the steady progress of the district in the most tangible of ways. The story of the tons is one that looks well in print, and also sounds pleasant to the shareholders in properties that have contributed to the grand total of the tonnage.

There is every reason to believe that the output for the year 1902 will be a distinct advance over that for this year, as both the smelters are actually doubling up their capacity now, and will double their output in January next. This being the case, is there any doubt about the ore output for 1902 being between 800,000 and 1,000,000 tons?

Another interesting fact in this connection, is that nearly or quite three-quarters of the tonnage for this year went out over the Phoenix branch of the C. P. R., and two-thirds of the tonnage originated from mines in the heart of Phoenix. Is better evidence wanted of the assurance of one of the most populous mining and smelting communities growing up here in the Boundary in the near future?

GOOD FIRE SERVICE.

Last week's fire, which occurred in the most thickly built up portion of the city, on Dominion avenue, and at a point where it is most difficult to fight the fiery element, was pretty conclusive proof of the efficacy of the water system of Phoenix for fire protection. It would not have been easy to have picked out a worse point for difficulty in coping with the flames than the one where they started. The buildings happened to be of the unplastered variety, and were veritable tinder boxes. The nature of the location can be understood when it is remembered that much of the insurance held in that block had recently been cancelled.

Notwithstanding the bad location, when the fire brigade got to work the members, aided by a splendid water system, had the fire under control in a comparatively short time, both hose companies responding with the least possible delay to the alarm given by the mine whistle.

Up to the present the insurance companies, in requiring high premiums could readily justify the demand by pointing to the entire lack of fire protection. But this is no longer the case, and the inspectors should in all fairness take into consideration that we now have an excellent water supply, with plenty of pressure, together with the necessary paraphernalia to fight fires. Had it not been for the new water system, last week's fire would have undoubtedly swept that entire block, entailing thousands of dollars damage. Water there was in plenty, and the fire literally drowned out from the two powerful streams turned on it. The demonstration was certainly most satisfactory to those who were there that the new water system had already saved more than its entire cost to the residents of this city.

EDITORIAL COMMENTS.

One by one the newspapers of the interior are waking up on the redistribution question, but the coast press continues mum on this important question.

Le Roi shares in London have been going down the line at a lively rate. It is little wonder, when one remembers the manipulating going on both in Rossland and London.

The miserable press service supplied by the C. P. R. Telegraphs to British Columbia dailies continues to be as poor as ever. This is one of the advantages of a monopoly.

President Roosevelt is distinctly a man of his own opinions, as he has already shown to those disposed to criticise him. He will probably make one of the best presidents that the neighboring republic has ever had.

If you wish to vote at the municipal election in January you must see that your name is on the voters' list before the first of December, and also that all taxes of whatsoever kind—not excepting the much evaded road tax—are paid.

Much interest is manifested in the Boundary as to the intentions of the Dominion Copper Co. Nothing is given out, but the Mother Lode smelter people are still sampling here, and it is believed that a deal for the treatment of the ore is pending. It will probably be a month before an announcement is made.

Close upon the Vancouver News-Advertiser's announcement that permission had been requested by the lieutenant-governor to fill his cabinet at once and meet the legislature at the usual time, came the denial of the story by the Colonist, the premier's personal organ. The Colonist should know, but the question is: Does it?

The Victoria Post and the Victoria Outlook, two bright weeklies, have combined under the title of the Post-Outlook. The former was noted for its opposition to the present government and the C. P. R., and the latter's strong point was the Mongolian question. It is said that David B. Bogle, an old Rosslander, will edit the combination.

E. J. Smith, secretary of the British Columbia Society for the Prevention of Cruelty to Animals, has been forming branches of the society in the interior lately. While there is probably less need of the society in the mining districts than in the more populated coast towns, still the work is an excellent one, and should be encouraged.

Golden riding with a population of 1,938, secured appropriations this year for public works amounting to $61,400, while Rossland riding, with a population of 7,603, had an appropriation for the same kind of work amounting to $32,025. But then, Hon. W. C. Wells, minister of lands and works, lives in Golden riding, and it is no wonder the newspapers of that section think Mr. Wells is just about right.

Premier Dunsmuir expects to take a trip south shortly. With Mr. Wells in Ottawa and Mr. Prentice in England, the government of British Columbia will then be represented by the one remaining minister—Hon. D. M. Eberts, acting premier, acting president of the executive council, acting head of the council of public instruction, Attorney-General, acting minister of finance, acting minister of education, acting minister of mines, acting chief commissioner of lands and works, acting provincial secretary, and acting minister of agriculture. What a farce!

Advertising is not advertising unless it puts the reader or looker into a mood to buy your goods.

STRICTLY BUSINESS.

The secret of business is constant advertising.

Advertise as though you had confidence in your goods and the people will have confidence in you.

There is an old saying that fools make fashions and wise men follow them, but in advertising it is just the other way.

Advertising prestige is hard to gain, but very easy to lose. All you have to do to lose it is to quit advertising for a little while.

No part of your business requires more attention than advertising, because advertising is the most important part of your business.

Nine times out of ten a business man who does not advertise hasn't got anything worth having or seeing. He is asleep to his and the camp's interest.

Capital comes before advertising. There are plenty of good things lying about. All they need to make them successful is the money with which to advertise and sell them.

The merchants of Springfield, Massachusetts, have decided that the best and most profitable means of business publicity is the newspaper. In order that they may be able to buy more newspaper space they have agreed "not to advertise in any way but in the regular publications."

WHAT THE EDITORS SAY.

You can tell a man by the way he advertises.—Ledge.

Provincial politics have once again reached an interesting stage and the boosters are on the boost.—Slocan Drill.

The medical business has suffered also by the hard times, but with the hockey season at hand the surgeons are quite hopeful as to the future.—Nelson Economist.

Railways are needed to develop this province and governments and legislatures should instead of placing barriers in the way make it as easy as possible for bona fide companies to build.—Greenwood Times.

Does the department of mines intend going on with the School of Mines at Rossland this winter? If not, why not? And if so, now is the time to advertise (at the usual rates) and let the people know about it.—Revelstoke Herald.

In the case of Hon. Mr. Dunsmuir it has been shown that misfortunes never come singly. He has forfeited the confidence of the country, suffered loss by accidents in his mines, become involved in an unusual lawsuit and now, they say, he has been requested—in other words commanded—to fill up his cabinet or step down.—Vancouver World.

ABOUT GREENWOOD SMELTER.

Will Have Capacity Doubled in January Next.

A Greenwood correspondent sends out the following: Some time in January the second blast furnace for the local smelter will be ready to be "blown in" and the capacity of the plant doubled. With the two furnaces in operation about 900 tons of ore and fuel will be handled daily. The smelter was blown in Febuary 18th of the present year. From that date to October 31st it has treated 91,715 tons. To come down to months, the last two will suffice to give an idea of the daily tonnage treated. During September the total amounted to 11,823 tons, or a daily average of 393 1-10 tons. For October the total was 12,660 tons, being an average of 408 tons per day.

It was on the 18th of October that Paul Johnson, M. E., manager of the smelter, believed he established a world's record for a single blast furnace of the size in use here. On that day 504 tons of ore, coke and slag was run through. Of this amount 450 tons was ore. Considering that the furnace was designed for a nominal capacity of 225 tons each 24 hours, the daily averages quoted above are most creditable.

Look on the Bright Side.

You get out of life just about what you are. If you smile, people smile back at you. If you frown, you will find plenty of persons to do the same. You can have sunshine or dark clouds, as you will, says an exchange.

A sunny disposition around a business establishment is a God-send. It is the best kind of an advertisement. It does more to draw trade and to hold it than most anything else. The business of today isn't the seizing of an individual and compelling him to buy your goods, as was once the idea of merchandising. On the contrary, it is making your display of whatever commodity you may manufacture or handle so attractive and offering it under such advantageous conditions that the customer will do the initiative and you simply meet his wants.

Trickery of any kind doesn't pay in business today, whatever it may have done in former days.

The man who dosn't treat a child with due consideration, and in whose place of business the toddling infant can't buy to as good advantage as the full grown person, doesn't understand the first principle of business.

Wanted At Once.

If you have any clean cotton rags bring them to the Pioneer office, and get cash for them. Good price paid for the first lot brought in.

House and Lot for Sale.

For sale 4-room house and lot on Knob Hill avenue, between First and Second street. Apply to owner.

ALMOST READY FOR POWER PLANT.

When Completed to Phoenix Line and Plant Will Cost $150,000.

J. Roderick Robertson, manager of the London & B. C. Goldfields, controlling the Cascade power, has returned to Nelson from Cascade and Phoenix, where he has been looking over the construction work in connection with the large power plant which the Cascade Water, Power & Light company is installing at that point.

He reports good progress as being made in all of the work with the exception of one piece being under contract, and the indications are that the company will be in readiness for the machinery before the Westinghouse people will be able to supply it. When completed the plant and lines of the Cascade company will represent an expenditure of close upon $450,000, the expenditure for copper alone being considerably over the $100,000 mark, owing to the length of the lines which the company has arranged to build and to the further fact that much heavier copper is necessary as the line is carried further from the power house.

When the company is ready for business, as it expects to be in about a couple of months, it will have machinery installed capable of developing 3,000 horse power, so that its capacity will be equal to that of Bonnington Falls plant, but the plant at Cascade has been so constructed that with the addition of the extra machinery its capacity can be increased to 6,000 horse power. The company aims at supplying power to all important points in the Boundary such as Phoenix, Greenwood and Grand Forks, and the present outlook is that it will have a profitable market at the outset for all the power that it can generate.

BRITISH COLUMBIA MINING NOTES.

Rossland's ore shipments for last week reached 5,060 tons.

Slocan lake ore shipments for last week amounted to 67 tons.

The Transfer group, near Slocan City, has been bonded by Sidney Norman for $40,000.

The Slocan-Chicago Mining Co. has been organizing to work the Chicago claim, on Cody creek in the Slocan.

Oscar Szontag took charge of the Northport Smelting & Refining Company's plant as manager last Monday.

Eighty men are employed at the Arlington mine near Slocan City, and the snow is reported 18 inches deep on the divide.

Edward Kennedy, who was shot on the 9th at Northport by a Joplin smelterman named Stark, is slowly improving.

It is stated on which is believed to be good authority that the building of a lead refinery in Canada is now assured, and that it may be located at Nelson.

A meeting of representative of silver-lead mines in British Columbia is to be held in the office of the London & B. C. Goldfields in Nelson, B. C., on Wednesday, the 4th day of December next.

Information received from Carmi, up the West Fork of Kettle river, states that the Rambler is working 7 men, the Butcher Boy 3 and the Carmi 8, and that all are developing satisfactorily.

The combined output of the Rossland and Boundary Creek district for the year to date exceeds in amount the total tonnage of ore produced in British Columbia during 1900. These districts have already produced something like 560,000 tons of ore. The total output of the province last year was 554,000 tons.—Post-Outlook.

B. C. MINES AVERAGE UP WELL.

Compare Favorably with Those of Colorado.

A glance through the list of dividend-paying precious metal mines in the Western states and territories shows that the mines of British Columbia average fairly well with those of Colorado, which is one of the greatest precious metal mining states in the Union. So far this year, the precious metal mining companies of Colorado have paid $3,887,757 in dividends on a share capital of $61,266,657. This is 6.3 per cent. on the capital. When the fact is taken into consideration that two companies (the Portland and Stratton's Independence) paid $1,507,504 of the dividends on a share capital of $8,500,000, the showing made by Colorado is not as good as that made by British Columbia. And what is more, for every mining company in Colorado that paid a dividend this year, two have not paid a cent. Yet people will say that British Columbia makes a poor showing when compared with other mining countries.—Nelson Tribune.

NOTE AND COMMENT.

Joseph S. Carter, the genial passenger agent of the C. P. R., with headquarters at Nelson, was a visitor in Phoenix last Tuesday, on one of his periodical trips through this part of his territory. Mr. Carter is one of those men who make friends for Canada's greatest railway wherever he goes, even if he cannot give every town he visits all that is wanted. He says the railway's passenger and freight business in Boundary is steadily increasing and must be most satisfactory to the directors of the company. This week two improved high-backed coaches were placed on the Boundary railway.

Mr. Carter also stated that work trains are now running across the new bridge, over the Columbia river, at Robson, and that some time in January it was expected that passenger trains would be using the bridge. The long trestle on the east side is being filled in, and the finishing touches being put on the long structure.

The case of Waterman vs. the City of Greenwood was up last week before the Supreme Court at Vancouver, on appeal, and the appeal was dismissed. The plaintiff, who owned a hotel, sued the city of Greenwood for $5,000 damages, alleging that he had been damaged to that extent by overflow of Boundary creek, caused by improper grading of streets. The case was brought on for trial some months since before Mr. Justice Drake and a jury. The jury found a verdict for the plaintiff for $3,000 damages. The defendant appealed from the verdict and the court upheld the verdict of the jury and dismissing the appeal with costs in favor of the plaintiff. The costs to the city of Greenwood will run up to probably $1,000 more.

The following is published as a correct list of the many titles of the Duke of York, who recently made a tour of Canada:

His Royal Highness; George Frederick Ernest Albert, Duke of Cornwall and York, Duke of Rothsay, Prince of Saxe-Cobourg and Gotha, Duke of Saxony, Earl of Carrick and Inverness, Baron of Renfrew and Killarney, Lord of the Isles and Great Steward of Scotland, K. C., P. C., K. T., K. P., C. I. M. G., G. C., V. O., L. L. D., D. C. L., Etc.

LIVE BUSINESS MEN,

Their Names Always Found in the Local Newspaper.

If you want to find out who the live business men of any town are you have only to peruse the local newspaper and you will find their names, says the Midway Advance. Anyone carrying on a business of any kind, no matter how small, in a town where a newspaper is published will, if alive to his own interests, advertise his business. Take the successful business man and ask him to what he attributes his prosperity, and in nine cases out of ten the question will meet with the same reply: To advertising. Thousands, on the other hand, who have at some time in their lives been engaged in business, but have been unsuccessful, can attribute their failure to the fact that their names never decorated the advertising colums of a newspaper.

There is a time in the history of every town when it may not be necessary to advertise, that is when a town is so small that it only contains one business house of each kind, but this is only in exceptionally new places, and most of the towns of even this comparitively new province have passed that stage, and the business man of almost any town finds that he is not the only pebble on the beach, that "There are others." Let once competition be engaged in, in any line of business and it is the utmost folly for anyone of them to expect to be successful without advertising.

The local newspaper is the best means by which the public is made acquainted with the names of the live business men of a place; of course you will find men in nearly every town, who call themselves business men, that do not advertise, but they are dead as far as the business world is concerned. In this age of keen competition in every conceivable line of business, such people have to give way, sooner or later, to men of business methods who are abreast of the times.

P. Burns, the meat king of West Kootenay, and the man who advertises in every paper in his territory, is the way an exchange describes him The more he advertises the more sure he is of never losing his kingdom.

LICENSE TO AN EXTRA-PROVINCIAL COMPANY.

"COMPANY'S ACT, 1897"

CANADA:
PROVINCE OF BRITISH COLUMBIA.
No. 222.

THIS IS TO CERTIFY that the "Snowshoe Gold and Copper Mines, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company, to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in England.

The amount of the capital of the Company is £50,000 divided into 250,000 shares of £1 each.

The head office of the Company in this Province is situate at Rossland, and Anthony John McMillan, Managing Director of the Company, whose address is Rossland aforesaid, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 25th day of October, one thousand nine hundred and one.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The following are the objects for which the Company has been established:—

(1) To adopt and carry into effect, with such, if any, modifications or alterations as may be agreed on, subject, if prior to the statutory meeting, to the approval of such meeting, the agreement with The British Columbia Copper Land and Mining Syndicate, Limited, referred to in clause 3 of the Articles of Association of the Company.

(2) To acquire mines and mining rights in British Columbia, and other countries or places, and any interests therein and rights over the same, and any concessions, grants, rights, powers and privileges in respect thereof, and for any such purpose to prospect, examine and explore any such countries or places, and to employ and equip expeditions, commissions, experts and other agents, and to work, develop, carry out, exercise and turn to account the properties and premises so acquired;

(3) To work and trade in all kinds of natural products of the countries or places where the business of the Company shall for the time being be carried on, and to effect the full development of all commercial operations in connection therewith;

(4) To search for, win, get, quarry, reduce, amalgamate, dress, refine and prepare for market auriferous and, quartz, ore and other mineral substances, whether auriferous or not, and precious stones, and generally to carry on any metallurgical operations which may seem conducive to any of the Company's objects;

(5) To buy, sell, effect and deal in bullion, specie, coin and precious metals;

(6) To develop the resources of and turn to account any lands or rights over or connected with land belonging to the Company, or in which the Company is interested, and in particular by clearing, draining, fencing, planting, cultivating, building, improving, farming, irrigating, and grazing, and by promoting immigration and emigration, and the establishment of towns, villages and settlements;

(7.) To carry out, establish, construct, maintain, improve, manage, work, control and superintend any roads, works, tramways, railways, bridges, harbours, reservoirs, water-courses, wharves, embankments, hydraulic works, telegraphs, telephones, sawmills, smelting works, furnaces, factories, warehouses and other buildings, works and conveniences, and to contribute to or assist in the carrying out, establishment, construction, maintenance, improvement, management, working, control or superintendence of the same;

(8.) To carry on all or any of the businesses or miners, smelters, quarry owners, quarrymen, saw-mill proprietors, timber merchants, metal founders, workers and converters, engineers, machinists, gas makers, shipbuilders, proprietors of vessels, carriers by sea and land, wharfingers, dock owners, warehousemen, storekeepers, farmers, horse and cattle breeders and dealers, stockmen and provision merchants;

(9.) To manufacture buy, sell, repair, alter, treat, prepare for market, and deal in all kinds of plant, machinery, apparatus, tools, utensils, products, materials, articles and things necessary or useful for carrying on any of the above businesses or operations, or usually dealt in by persons engaged therein;

(10.) To carry on any other businesses, whether manufacturing or otherwise, which may seem to the Company capable of being conveniently carried on in connection with any of the above specified objects, or calculated directly or indirectly to enhance the value of or render profitable any of the Company's property or rights;

(11.) To apply for, purchase, or otherwise acquire, any patents, brevets d'invention, licences, concessions, and the like, conferring an exclusive or non-exclusive or limited right to use, any secret or other information as to any invention which may seem expedient to utilize for any of the purposes of the Company, or the acquisition of which may seem calculated, directly or indirectly, to benefit this Company, and to use, exercise and develop, or grant licences in respect of, or otherwise turn to account the property, rights and information so acquired;

(12) To purchase or otherwise acquire and undertake all or any part of the business, property and liabilities of any person or company carrying on business which this Company is authorized to carry on, or possessed of property suitable for the purposes of the Company;

(13) To enter into any arrangement with any Government or authorities, supreme, municipal, local or otherwise, and to obtain from any such Government or authority all rights, concessions and privileges that may seem conducive to the Company's objects or any of them;

(14) To enter into partnership or into any arrangement for sharing profits, union of interests, joint adventure, reciprocal concessions or co-operation with any person or company carrying on or engaged in, or about to carry on or engage in, any business or transactions which the Company is authorised to carry on, engage in, or any business or transaction capable of being conducted so as to directly or indirectly benefit this Company, and to take or otherwise acquire and hold shares of stock in, or securities of, and to subsidise or otherwise assist any such Company, and to sell, hold, re-issue with or without guarantee, or otherwise deal with such shares, stock or securities;

(15) Generally to purchase, take on lease or in exchange, hire or otherwise acquire any real or personal property, any rights or privileges which the Company may think necessary or convenient with reference to any of these objects, or capable of being profitably dealt with in connection with any of the Company's property or rights for the time being, and in particular any land, buildings, easements, licences, patents, machinery, ships, barges, rolling stock, plant and stock-in-trade;

(16) To establish and support, or to aid in the establishment and support of associations, institutions, or conveniences calculated to benefit employees or ex-employees of the Company or its predecessors in business, or the dependents or connections of such persons, and to grant pensions and allowances, and to make payments towards insurance, and to subscribe or guarantee money for charitable or benevolent objects, or for any exhibition; or for any public, general or useful object;

(17) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, or debentures, debenture stock or other securities of any other company having objects altogether or in part similar to those of this Company;

(18) To promote any company or companies for the purpose of its or their acquiring all or any of the property, rights and liabilities of the Company, or for any other purpose which may seem directly or indirectly calculated to benefit this Company;

(19) To invest and deal with moneys of the Company not immediately required, upon such securities and in such manner as may from time to time be determined.

(20) To lend money to such persons and on such terms as may seem expedient, and in particular to customers of and persons having dealings with the Company, and to give any guarantee or indemnity as may seem expedient;

(21) To obtain any Provisional Order or Act of Parliament for enabling the Company to carry any of its objects into effect, or for effecting any modification of the Company's constitution, or for any other purpose which may seem expedient, and to oppose any proceedings or applications which may seem calculated, directly or indirectly, to prejudice the Company.

(22) To raise or borrow or secure the payment of money in such manner and on such terms as may seem expedient, and in particular by the issue of debentures or debenture stock, whether perpetual or otherwise, and charged or not charged upon the whole or any part of the property of the Company, both present and future, including its uncalled capital, and to redeem, purchase or pay off any such securities;

(23) To draw, accept, indorse, discount, execute and issue bills of exchange, promissory notes, debentures, bills of lading, warrants and other negotiable or transferable instruments or securities;

(24) To remunerate any parties for services rendered, or to be rendered, in or about the formation or promotion of the Company, or the conduct of its business;

(25) To do all or any of the above things in any part of the world, and either as principals, agents, trustees, contractors or otherwise, and either alone or in conjunction with others, and either by or through agents, sub-contractors, trustees or otherwise

(26) To sell, improve, manage, develop, exchange, enfranchise, lease, mortgage, dispose of, turn to account, or otherwise deal with all or any part of the property or rights of the Company;

(27) To register the Company in British Columbia, and to take all other steps requisite or expedient to enable the Company to carry on its business in British Columbia;

(28) To establish and maintain local registers, agencies and branch places of business, and procure the Company to be registered or recognised in any part of the world;

(29) To do all such other things as are incidental or conducive to the attainment of the above objects, and so that the word "Company" in this clause shall be deemed to include any partnership or other body of persons, whether incorporated or not, incorporated, and whether domiciled in the United Kingdom or elsewhere, and so that the objects specified in each paragraph of the clause shall, except when otherwise expressed in such paragraph, be in nowise limited or restricted by reference to or inference from the terms of any other paragraph or the name of the Company.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

Wheeling Mineral Claim, situate in the Kettle River Mining Division of Yale District. Where located: In Greenwood camp.

Take notice that I, George W. Rumberger, Free Miner's Certificate No. B 40,368, for myself and agent for John Mulligan, Free Miner's Certificate No. B 40,235, intend sixty days from the date hereof to apply to the mining recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above named claim.

And further take notice that action, under Section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 9th day of August 1901.
39-48 G. W. RUMBERGER.

Notice of Application for Transfer of Liquor Licence.

NOTICE IS HEREBY GIVEN that at the next sitting of the Licence Commissioners for the City of Phoenix I intend to apply for a transfer to W. N. Dunn of the licence which I hold to sell liquor by retail in the Phoenix Hotel, Phoenix, B. C.

Dated this 8th day of November, A. D., 1901.
—3 HARRY NASH.

DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership heretofore existing between Joe M. Taylor, Jr., and myself, under the firm name of Rumberger & Taylor, is dissolved from this date.

Dated at Phoenix, B. C., the 1st day of October, 1901. G. W. RUMBERGER.

APPLICATION FOR TRANSFER OF LIQUOR LICENSE.

NOTICE IS HEREBY GIVEN that I will make application to the Board of License Commissioners of the City of Phoenix at its next meeting for a transfer of the Liquor License now held by me to sell liquor by retail in the Victoria Hotel, situate on Ironsides avenue, on Lots 15 and 16, Block 11, Old Ironsides Addition to the City of Phoenix to Joseph N. Gillis.

Dated at Phoenix, B. C., this 24th day of October, 1901. J. BIRKMAN.

The Local Grist.

Dr. Mathison, dentist, Greenwood Both phones.

Several inches of snow fell this week.

See Morrin, Thompson & Co.'s change of adv.

H. C. Shaw, the Greenwood solicitor, was a visitor in camp Tuesday.

Born, to the wife of Isaac H. Hallett, of Greenwood, on the 17th inst., a son.

Alfred McMillan returned to Rossland Saturday from a visit to the Snowshoe.

V. Monnier went to Spokane yesterday, where Mrs. Monnier is spending the winter.

R. A. Jones, engineer of the new water system, returned Tuesday from a two week's trip to Spokane.

A prize of $5 is offered for the best verse submitted for a Christmas card. See McRae Bros. & Smith.

Note the change of ad made by the Hunter-Kendrick Co. this week. It will be worth your while.

For down-to-date commercial printing, you can get the best of satisfaction at the Pioneer Job Office.

On account of lack of material, no progress has been made on the new Congregational church this week.

G. N. T. Hill, accountant of the Canadian Bank of Commerce, at Greenwood, was a visitor in town last Sunday.

The inside finishing for the second story of he Bank block is now being done, and the structure will soon be complete.

A Christmas entertainment for the children of the city will be given at Miners' Union hall Monday evening, December 23rd.

Wm. Campbell McDougall, a well known mining man of Olalla, B. C., was recently married to Miss Mary L. Harding, at Port Dover, Ont.

About five miles of the pole line for the Cascade power people have beeu built out of Phoenix to a point below Fourth of July creek.

Next Thursday evening, Thanksgiving eve, the K. of P. of Greenwood will give a dance, for which they are making extensive preparations.

A. B. W. Hodges, superintendent of the Granby smelter, Grand Forks, spent last Sunday in Phoenix—the first visit to the camp for months.

Smith Bros. now have the roofs on the six cottages they are erecting for the Granby Co., and no time will be lost in plastering and finishing them.

Mrs. W. S. Ross and son Guy, the latter having been ill with scarlet sever in Spokane for some time past, are expected to return from that city some time next week.

Chas. D. Hunter, local manager for the Hunter-Kendrick Co., left by Wednesday's train for his monthly trip to the company's branch house at Sandon in the Slocan.

Isaac Berkman, formerly manager of the old Victoria hotel, left on Monday's train for San Francisco, via Spokane and Vancouver. He will engage in business in the California city.

Rev. George Kinney has been giving lectures to the boys at the Winnipeg mine on the "Making of a World." They have asked him to lecture on "Socialism," which he will probably do shortly.

This week Peoenix Miners' Union No. 8 was made defendant in a suit in the Supreme Court for $10,000 damages claimed by August Jackson owner of the Central hotel, which he alleges was boycotted by the union. The Pioneer is informed that no such boycott was ordered by the union.

Hose Co. No. 2 had its first meeting last Wednesday evening at the office of McArthur & Monk, and arranged to have regular practice every other Sunday afternoon at 2 o'clock, beginning tomorrow. Arrangements were made also to give each man his place in the hose team.

The tender of Bunting & Dempsey of Greenwood was recently accepted for the erection of a small school building at Anaconda.

The city of Greenwood has formally decided to pay the $3,000 damage verdict recently obtained against the municipality by Mr. Waterman, in the Supreme Court.

Alexander Henderson left on Wednesday for Vancouver. Tuesday evening he was given a send-off by King Edward Lodge, A. F. and A. M., of which he is a prominent member.

A plan is being matured for the giving of a minstrel show by local talent in the near future. There is some first-class talent in the camp, and such a show will be well worth the price of admission.

E. J. Carpenter's splendid production of the celebrated play "Quo Vadis" with a large cast, elaborate scenery and magnificent stage effects will be seen at Greenwood, Wednesday, December 4th.

Every man in Phoenix should secure a ticket for the hospital ball, to be given on the evening of December 3rd. The proceeds are for the furnishing of the institution—the only general hospital in the Boundary country.

Rev. W. A. Robins, of Greenwood, having returned from his vacation, the local vicar of the Church of England, Rev. E. P. Flewelling, will resume services at 8, 11 and 7:30, as formerly, begining tomorrow.

The organ for the Church of England has arrived from Toronto. It is expected that the new church building will be ready for use some time about the middle of December. Contractor Corner is now pushing the work as fast as possible.

This week has been a record breaker in the number of travellers that have visited Phoenix, which some persons think indicates better times. Drummers now come straight to Phoenix first in taking in the Boundary, and then touch other towns.

P. Burns & Co. recently bought out their opposition in Calgary, Hull Bros. & Co., the transaction including two important business blocks in that city. The Burns corporation now virtually controls the meat business of British Columbia and Alberta.

Contractor McPhail has received orders to go ahead with the grading work on the Hartford Junction loop, and has been getting his mem ready this week. The work of grading on the Knob Hill spur extension is almost or quite completed.

Smith Bros., contractors, have the frame work up for the second of the two 100,000 gallon tanks for the domestic water supply. The tank is 30 feet square inside, and 16 feet high. The pipes for the water system have all been laid and covered to the lake, and the pumping station is being built.

This week the electric light people got out and dug holes for 30 poles, and the work of setting them is now going on. A line is to be run up Second street to the corner of Grev Eagle avenue, as well as on Brooklyn avenue. A number of 32 candle power lamps will be placed on the poles in the business part of the city.

Church Services Tomorrow.

Methodist—Service tomorrow evening at 7:30 o'clock at Miners' Union hall. Sunday school at 3 p. m. Rev. G. Kinney, B. A., pastor.

Church of England—Services will will be held as usual at St. John's mission, in Hardy-McKenzie hall, Dominion avenue. Holy Communion, 8 a. m.; Matins at 11 a. m., and evening service at 7:30. Rev. F. P. Flewelling, vicar.

Congregational—Preaching service in the evening at 7:30, at dining room of the Old Ironsides hotel. Rev. David H. Reid, missionary in charge.

St. Andrews' Presbyterian Church Service tomorrow at 11 a. m. and 7:30 p. m. Sunday school and Bible class at 3 p. m. Rev. J. M. Millar, M. A., pastor.

Catholic—Father Bedard will hold mass at 10 a. m. tomorrow at Miners' Union hall.

ALL OVER THE BOUNDARY.

The Grand Forks News has been made the official paper of that city.

Dr Westwood has been appointed district coroner at Grand Forks, vice Dr. Standly Smith resigned.

There is talk of the establishment of a lodge of the Fraternal Order of Eagles at Grand Forks.

The work of Tiernay & McPhail, the contractors for the C. P. R. at Eholt is about completed.

Last week Friday was payday on the Republic-Grand Forks railway, when $42,000 was dispursed.

Twenty men are employed on the farm of W. H. Covert in the Kettle river valley, above Columbia.

The provincial government is inviting tenders for the erection of a public school building at Deadwood.

Grand Forks is to have a skating rink this winter, with an ice surface 150x50 feet, which will cost about $1200.

Tracklaying on the Republic-Grand Forks railway is expected to reach Nelson, Wash., by tonight, where the material yards will be established by Chas. Ferguson, the contractor.

Bert McIntyre, who has been in the hardware business in Calgary, Rossland and formerly with the Wynkoop-Stevens Trading Co., Phoenix, has accepted a position with the Canadian Pacific railway company in Nelson.

It is announced that the promoters of the Vernon & Midway railway have made arrangements to proceed with the surveys, and it is stated that survey parties will be in the field within 30 days, working both ways from Carmi, on the West Fork of Kettle river.

Miss Anna Moffatt, daughter of Mr. and Mrs. R. H. Hutchens of the Mother Lode mine, was married Tuesday morning to George W. Trehune. The ceremony was performed by Rev. Dr. McRae of the Presbyterian church in the presence of some friends.

According to papers published in Grand Forks, Greenwood and Rossland, Judge Leamy, has rented houses in each place, and will make each his official headquarters during his term of office of county court judge. Few men can afford three separate establishments.

Frank Edward Tebo, C. P. R. agent at Cascade was married Monday at Nelson to Miss Bethaina Kearnan of Simcoe county, Ontario. The ceremony took place at the residence of W. L. Tebo of the C. P. R. telegraph service in Nelson and a brother of the groom, and was preformed by Rev. J. H. White.

What Smith Curtis Said.

Mr. Smith Curtis desires the Pioneer to state that the interview with him in the issue of 9th inst. is inaccurate in stating that Hon. Mr. Wells refused to take off the reserve on the C. & W. land reserve for "private reasons," the fact being that Mr. Wells refused to state his reasons, although he said he had one. Also in stating that John Houston, M. P. P. for Nelson, voted against redistribution in the House; the fact being that he voted for it the first session, but last session he lacked the courage to do so, but showed his hostility to it, and his implied acquiescence in the Dunsmuir policy of refusal by shirking the vote.

SITUATION WANTED

As Waitress by two competent and reliable young ladies. Inquire of Mrs. Haegerman, Dominion House.

Lost, Strayed or Stolen.

One bay horse, about 14 hands high, with brand of W Z on left fore leg. Suitable reward will be paid for information leading to its recovery. Notify the Phoenix Pioneer or the office of the Winnipeg Mines, Ltd.
