The Hunter-Kendrick Co.

ARE YOU LOOKING

CAMPBELL'S CLOTHING

For a Handsome, Well-Made Suit or Overcoat for this Winter?

SOMETHING to give you a marked personal appearance. That will wear well and look well while worn.

You will find it in our stock of Clothing, and you will appreciate more and more the quality of materials—fit, style and workmanship—each and every day you wear it.

We carry the best two brands of ready-to-wear Clothing made in Canada.

FIT-REFORM & CAMPBELL'S

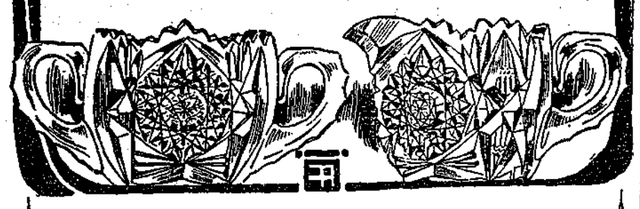
EXAMINE THEM AND YOU WILL CERTAINLY AGREE WITH US.

Hunter-Kendrick Co.

Libbey CUT "THE WORLD'S BEST" GLASS

LIBBY'S GLASS IS THE BEST IN ITS LINE

And is only one of the many items to be found in our stock that will compare with the best anywhere.



YOU NOW HAVE THE HOLIDAY SEASON before you, and no doubt want to get through it with as little worry as possible. We have a LARGE STOCK ON HAND, and NEW GOODS COMING IN. Our prices are reasonable, as you will find by comparison, in fact, we are in a position to fill orders from all Eastern Jewelry Catalogues, and save you postage, and ofttimes more.

WATCH THIS SPACE FOR PARTICULARS LATER.

E. A. BLACK, JEWELER

ANNUAL REPORT OF GRANBY

Produced 21,126,926 lbs. Copper Against 16,410,576 lbs. in 1907, Average Cost 10.24 Cents.

ASSETS AND LIABILITIES, JUNE 30, 1908.

ASSETS.

Cost of land, real estate, machinery, buildings, dwellings and equipment		$15,238,437.57
Stocks, Bonds and Bills receivable		1,008,012.68
Fuel and store supplies		185,324.41
Cash and Copper		421,625.01
		$16,853,399.67

LIABILITIES.

Capital stock	$15,000,000.00	
In the Treasury	1,500,000.00	
Issued stock 135,000 @ $100	$13,500,000.00	
Dividends held for Liquidator	1,323.67	
Accounts and bills payable	896,895.23	
Surplus	2,455,180.77	
		$16,853,399.67

The following are salient features of the annual report, together with those of three previous years:

	1908	1907	1906	1905
Pounds copper	21,126,926	16,410,576	19,939,024	14,237,622
Ounces silver	300,593	257,378	316,947	212,180
Ounces gold	40,139	35,083	50,020	42,884
Gross	$3,790,184	$4,521,549	$4,751,059	$2,749,145
Charges, etc.	3,183,662	2,596,612	2,927,442	2,036,496
Net profits	606,522	1,924,937	1,823,617	712,640
Dividends	675,000	1,620,000	810,000	.....
Surplus	*68,478	304,937	1,013,617	712,649

*Deficit.

Included in charges is $228,999 for depreciation. Crediting surplus after charges, $354,424, with $228,999 depreciation, the amount earned on the stock for the year would be $583,423, of 1.32%.

Surplus of $2,775,758 was carried over from previous year.

The average price received for copper was 13⅓ cents a pound, against 22.21 cents in 1907.

At the annual meeting of the Granby Consolidated Mining, Smelting and Power Company, Limited, held in the New York office last week the retiring board of directors was re-elected; also W. A. Nash, vice G. F. Baker, jr. resigned. At a subsequent meeting of the directors the retiring officers were also re-elected. The annual report of the company was submitted to the shareholders and unanimously adopted.

In his address to the shareholders, President Langeloth said:

The new Victoria shaft and surface equipment, including crusher, electric hoist, belt conveyor, etc., have now been in operation twelve months, and have given satisfaction, both in quantity of ore handled and economy of cost.

The Curlew tunnel was connected by an upraise with the workings of the Gold Drop mine, and the ore output now comes through this tunnel, the temporary outlet over another property having been abandoned. At the mouth of the Curlew tunnel, a complete equipment of ore bins, large crusher, motor and conveyor belt for loading have been installed. The tunnel is also equipped with an electric haulage system, consisting of electric locomotive and cars, motor generator set, etc. Electric haulage was installed on the 400-ft. level of the Granby mines, which connects the Victoria shaft with all the lower workings. This latter consists of a 75 h. p. electric locomotive and 20 steel cars, each having a capacity of about six tons. They are self dumping and automatic in every way and were put in service about January 15th of this year.

The mechanical devices now in operation, such as hoists, shafts, belt-conveyors, mine cars and electric locomotives are able to handle about 5000 tons of ore daily. The mines shipped to the smelter a total of 858,432 tons during the past year against 644,549 tons during the previous year. The ore mined was not as good as in the previous year, carrying about 1 lb. less of copper and 10 to 12c. less per ton in gold and silver. The extraction per ton of ore on the average was 23.42 lbs. copper, 0.2865 oz. silver and .0454 oz gold; as compared with 24.43 lbs. copper, 0.3088 oz. silver and .0503 oz. gold in 1906–1907; and 24.30 lbs. copper, 0.3107 oz. silver and .0513 oz. gold in 1905–1906. During the summer months a lower grade ore was shipped, due to mining the glory holes on the surface, which are low grade and which cannot be mined during the winter months. Consequently the ores will average richer in winter and spring and poorer in summer and fall. The quantity of ore developed by diamond drill has been larger than the ore extracted.

During the entire past year improvements were made at the smelting plant among the most important being the erection of additional ore and coke bins, which increased the ore storage capacity to about 13,000 tons, while the total storage capacity of coke will be about 8,000 tons in bins, besides that stored on the ground. Further improvements for increased coke storage are contemplated.

The old flue dust chamber having been found too small and in the way of enlarging the present blast furnaces, a new steel flue dust chamber immediately back of the furnaces and on a higher level than the previous one was erected, and the brick flue leading from the steel flue chamber to the stack was enlarged. The charging system was greatly improved by installing larger locomotives and larger charge cars.

As indicated in the last report, it has been decided again to enlarge the furnaces, which have worked very satisfactorily. This will be done successively. One of the furnaces is now being so enlarged, and if found satisfactory, the remaining seven will be rebuilt as fast as practicable.

The old wooden blowing engine building has been removed and replaced by a new one of steel and brick, and enlarged sufficiently to accommodate two large rotary blowers of 100,000 cubic feet per minute capacity. All former blast pipes will be replaced by larger ones.

The converter building and converters have also to be enlarged, in order to take care of the proposed increased quantity of matte. This will be done by extending the present steel building 80 feet in length. Three large and modern electrically operated converter stands will be installed, replacing one of the present small stands, and when completed there will be two old small stands and three large new ones. A new 40x40x42 blowing engine will be installed driven by 500 h. p. electric motor, to take care of the large converters. When completed, the converter plant will have a capacity to turn out 35 to 40,000,000 lbs. of copper per annum.

All new construction, with the exception of the ore and coke bins, has been either of steel or of steel and brick, thereby greatly lessening the fire risk. It is estimated that all the above improvements will be finished next year, when the benefit from large and continuous tonnage may be expected.

The plant and equipment have been kept in a high state of efficiency and all repairs and minor improvements have been charged to current expenses.

In consequence of a great many changes made at the mines and the smelter, some machinery together with the buildings containing it became obsolete, and a careful re-appraisement shows that there should be written off for depreciation at the mines about $115,000 and at the smelter about $45,000. In addition it is estimated that further changes will amount in a depreciation to the extent of about $45,000 at the smelter during the coming year, and your Board has thought it wise also to write this amount off during the business year ended June 30 1908, making the total written off for depreciation about $205,000.

The total tonnage of Granby and foreign ore amounted to 882,611 dry tons, against 665,915 tons in the previous year, and there were produced 21,126,926 lbs. of copper against 16,403,497 lbs.

The cost per lb. of copper produced, after deducting the value of gold and silver, was 0.1024c. against .1014 and .0835c. in the two previous years.

Smelting operations were greatly interfered with by the construction work and frequent vexatious interruptions. During mid-summer of 1907 the smelter still suffered greatly from a shortage of coke. From November 15, 1907 to January 1, 1908, the entire plant was shut down. At that time, an adjustment of wages, in harmony with those ruling in neighboring camps, was affected.

PYTHIANS ENTERTAIN GRAND CHANCELLOR

At the Local Lodge on Tuesday Evening.

Tuesday evening, Oct. 13th the Brethren of Phoenix K. of P. lodge, No. 28, received an official visit from H. A. Brown, of Revelstoke, Grand Chancellor of the British Columbia Grand Lodge.

On addressing the brethren, Mr Brown said that it afforded him great pleasure to visit Phoenix lodge, he had been travelling throughout the Province, and marvelled at the rapid growth of Pythianism; he also remarked on the spirit with which Grand Forks had got together, after losing their hall and paraphernalia, not forgetting to make mention of the fact that the Fernie lodge had met with a similar misfortune, but were gradually getting together again. In conclusion Mr. Brown, congratulated Phoenix lodge on the efficiency of its membership, and the progress it had made.

Rev. Mr. Lundie delivered a carefully prepared address on Pythagoras, the thread of which dealt with the early teachings of Pythianism, which was instructive and interesting. He received a hearty round of applause for the able manner in which he treated his subject. J. Hammar and A. J. Stendal, of Grand Forks, also gave short addresses, and among the visitors were F. W. Maxwell of Washington and J. Alexander of New York.

An excellent supper was then served in the hall, and much credit is due the managing committee for the manner in which the affair was brought to a successful issue, everyone apparently enjoying themselves.

The Grand Chancellor and friends from Grand Forks left Wednesday morning for Greenwood, where Mr. Brown addressed the Pythian brothers of that city.

YALE-CARIBOO ELECTION, NOV. 12

Proclamations Out Announcing the Polling Day.

The proclamations are out for the election in Yale-Cariboo. The nomination will be held in Raven's hall, Kamloops, on Saturday, the 24th day of October and the elections on Nov. 12, almost three weeks later. The official count of the returning officer will be taken on Dec. 3.

CONSERVATIVE ASSOCIATION

Elects Officers—Will Open Committee Rooms Next Monday Evening

A general meeting of the Phoenix Liberal-Conservative association was held in the Brooklyn hotel on Saturday evening. The routine business of the association was transacted followed by election of officers for the ensuing year, as follows: President, W. R. Williams; Vice-President A. B. Hood; Secretary, W. X. McDonald; executive committee—G. W. Rumberger, D. Oxley, D. Gunn, Jas. Marshall, John Pierce, J. Walsh, Robt. Brown, W. H. Docksteader, F. Graham, O.N. Galer, J. O. Church, W. J. Pierce.

It was decided to open committee rooms on Monday, Oct. 17th, in the store now occuppied by Munro & Libby, Knob Hill avenue. All friends of the Conservative cause welcome.

Early in August a disastrous fire broke out in British Columbia, laying waste an area estimated to be 70 miles in length, and 5 to 10 miles in width, and doing great damage to the properties of the Crow's Nest Pass Coal Company, from which we receive our coke and in which we are large stockholders; besides, a great many bridges belonging to the Canadian Pacific and Great Northern were destroyed, and the supply of coke for a period of two or three weeks was cut off, necessitating the closing down of one-half of the furnaces. Since September first the smelter is again in full operation.

Almost immediately after issuing our last annual report a most severe panic broke out, and among other disastrous consequences the consumption of all metals decreased very materially and prices showed a heavy decline. Of the different metals, copper was among the heaviest sufferer, due perhaps, to the abnormally high prices that ruled throughout the greater part of 1907, and which had not been known before, except when the copper mining industry in this country was in its infancy. Prices fell from about 25c. to close to 12c. and showed very little recovery during the first six months of the present year, due to the great falling off in the consumptive demand for home trade. Fortunately, Europe was a continuous buyer, thereby preventing large accumulations of stock. Of late, the demand for home trade has shown great improvement, and if this continues, as appears to be the case, it may be confidently hoped that prices will show a further improvement.

The enormous decline in the price of copper and the marked influence on the cost by reason of the difficulties with which the smelter had to contend, permitted the declaring of only two dividends, viz.: one of 30% on September 30, 1907, and one of 20% on June 30, 1908.

THE CAMPAIGN IN PHOENIX

Opened on Monday by Duncan Ross

Discusses Political Issues of the Day--Scores Mr. Bowser

The Dominion political campaign in Phoenix was opened on Thursday evening, when a meeting was held in the opera house in the interests of Duncan Ross, the Liberal candidate, John McInnis, M.P.P., also being a speaker.

The opera house was well filled, probably 400 being present, including a sprinkling of ladies. P. H. Cosgrove, president of the local Liberal association, presided over the meeting, and on the platform with him, besides Mr. Ross and Mr. McInnes, were Robert Horrell, Phoenix, and Messrs. McDonald, Ridpath and Dill, of Greenwood.

Mr. Ross gave a very clear cut address, of about an hour and three-quarters, dealing with the issues of the campaign in which his constituents were interested, and did not shrink from answering queries propounded by some of the audience. His explanations, were convincing, at least appeared reasonable to a good proportion of his hearers.

After introductory remarks the speaker referred to the campaign being carried on by the opposition in which he said scandal cry was the chief weapon used. The government was charged with giving away large tracts of land to political friends. The speaker quoted figures to show that Conservatives were the real offenders, enumerating many instances of gifts of fifty thousand square miles by the late Tory Government when in power. Only the highest bidder had secured limits from the present Government and the records would prove it, and the Borrows' land deals were discussed. He defended the steamer Artic's trip; investigation had proved there was no squandering of money in equipping it.

As to the deferred elections in Yale-Cariboo Mr. Ross said the Government held elections to suit themselves and not to suit Conservative friends, and in his mind protected the interests of the Conservative party the speaker could see no advantage for the Liberal candidate in Yale-Cariboo. Although in the campaign a month ahead of Mr. Burrell the speaker found it impossible to get over the constituency, 175,000 miles in extent, by even Nov. 12th, and how his opponent could hope to reach a reasonable portion of the electorate before Oct. 26th was a mystery. Aside from this, however, it was impossible for officials to reach the 200 polling places, many of which were isolated, and post notices in time to have the election on Oct. 26th.

The cry of a white Canada by the Conservatives was ridiculed by Mr. Ross; the Oriental question had been an issue during the entire regime of the Conservative party. A tax of $50 on the Chinese immigrants by the Conservative government had been increased to $500 since the Liberals came into power. He denounced Hon. W. J. Bowser for trickery in connection with the importation of Orientals, and read Mr. Bowser's denial to charges made and the challenge to meet on Greenwood or other public platform during the Dominion campaign. "I repeat the charges," said Mr. Ross, "and am prepared to prove them. I have been in the constituency two months now and would like to meet Mr. Bowser. If my charges are true, then he has no right in public life; if the charges are not true, then I have no right in public life; if the charges are true, the Law society should take away Mr. Bowser's gown for unprofessional conduct." Mr. Ross accused Mr. Bowser of being solicitor (and drawing up contract) for a company organized to import 50,000 Orientals for the C.P.R., and which he published in the Vancouver Province two days previous to the last provincial election, purporting to be a scheme by the Canadian government for securing cheap labor for the G.T.P. railway, and which, the speaker said, was so well concocted that even staunch Liberals believed it and voted Conservative.

The Grand Trunk Pacific was dealt with at length, its great possibilities in developing the Dominion, the shortest transcontinental route, by 250 miles, and accused the Opposition of hostility to the road. He also referred to the Government's policy of railway competition, and exampled the Boundary. Better terms and other issues discussed and the speaker concluded with an appeal for the support of the electors.

John McInnis, Socialist M. L. A., followed Mr. Ross, speaking for about an hour. He had been invited to speak for an hour, but said he would not be able to go into the principles of Socialism in that time. He congratulated each of the parties in having candidate in Yale-Cariboo of irreproachable character. He touched on several issues, and made a strong appeal for support for Charles Bunting, the Socialist candidate.

The meeting closed with cheers for Sir Wilfrid Laurier and the King.

GREAT NORTHERN OFFICIALS ON TOUR

General Manager on Annual Trip of Inspection.

J. M. Gruber, general manager, St. Paul; A. H. Hogeland, chief engineer, St. Paul; E. L. Brown, general superintendent, Spokane; L. C. Gilman, general counsel, Seattle; accompanied by branch Supt. Morgan, Resident Engineer O. S. Bowen, and a number of local superintendents, composed a special party of Great Northern officials who arrived on a special train Thursday afternoon and spent a couple of hours in town.

General Superintendent Brown stated that the trip was one of inspection of trackage, the general manager being on his annual round of inspection of western lines. The party had just come from Keremeos, the present terminus of the V. V. & E., and when asked when track-laying would be continued from Keremeos west, Mr. Brown said it was a question he could not answer.

When the Pioneer asked for a list of the improvements contemplated at Phoenix we received a rude jolt in Mr. Brown stating that none were required. This statement, however, he said, referred to trackage facilities, in connection with which the party were here. His attention was drawn to some of the most important improvements needed at the depot, but being a genial experienced railroad man the general superintendent evaded a definite answer. Although invited to wait and view the landscape of the local G. N. headquarters by moonlight, the party took precautions and left at 5 p. m.

BOUNDARY ORE TONNAGE.

Oct. 17. '08

The following table gives the ore shipments of Boundary mines for 1900, for 1901, for 1902, for 1903, for 1904, for 1905, for 1906, and 1907, as reported to the Phoenix Pioneer—

Mine.	1900	1901	1902	1903	1904	1905	1906	1907	1908	Past Week

HUMAN MISERY

IN THE HOME

A vast amount of human misery is endured by thousands of men and women, who are never really well. Headache, sickness, nervous depression, dislike of food, sinking sensations, with distressing dizziness and weakness, make life a daily misery to such sufferers. And the cause is indigestion — a stomach that starves the body, because it cannot digest sufficient food to keep it well, and leaves the mind weak, irritable, depressed. To such unhappy ones Mother Seigel's Syrup brings a message of hope, brings the ready help to health, brings the quiet, strong sense of confidence which only health can give—health re-made and regained, through sound digestion. Take it daily after meals.

Price 60c. a bottle. Sold everywhere. A. J. White & Co. Ltd., Montreal.

The London Financial News, commenting on the announcement that the Canadian Government is on the point of issuing a £5,000,000 three and one-half per cent loan at par, points out that for the last eight months of 1908, $142,845,000 has been supplied for the development of Canada, almost all from England. British capitalists are giving eloquent demonstration of the faith that is in them as to the future of the Dominion.

John Ashworth, president of the Manchester Geological and Mining Society, who was one of the British capitalists touring Canada on Mining Institute's excursion, expresses the opinion that British Columbia will be the great centre for Old Country investments. He says he has found many opportunities for investment, which he will recommend to capitalists.

Yale-Cariboo has about twenty more polling places than it had in 1904.

Ten more days—and political obituary notices will appear; a few will remain in pickle for a couple of weeks longer, Yale-Cariboo among them.

Polling for the Dominion election in Yale-Cariboo and Kootenay constituencies will take place the same day—Nov. 12th.

The three political parties will now round up their forces and conclude the struggle in the Boundary. The gun majors are now getting in good fighting humor and political excitement in Phoenix may yet run high.

B. C. MINING

The tunnel on the Society Girl mine, Moyie, is now in 300 feet.

Trail smelter handled 9,220 tons of ore last week, a record for the Consolidated company.

It is estimated that by the end of this year Hedley camp will have produced two millions of dollars since its inception.

A revival in mining operations at Kamloops is reported. Some good looking ore has been located on the Copper King.

A mining deal of some importance was put through at Kaslo last week, when the Rio was sold. The property is a rich silver-lead prospect.

W. F. Robertson, provincial mineralogist, who has just returned from the Ingenika, in the Findlay district, says there are many prospectors but very few finds.

The Hidden Creek Mines Co. have made the final payment upon the large gold-copper property which Mr. M. K. Rodgers bonded last winter on Observatory Inlet. A compressor plant was installed about two months ago.

Big Publicity Campaign Planned.

The next big publicity campaign of the Western Canada immigration association is to be devoted to British Columbia. It will result in settling thousands of Americans from the middle west in the Kootenays, the Okanagan and in the Fraser river valley. The agricultural and fruit-growing possibilities of the province are to be exploited as they never have been before.

"The association intends to expend $5000 in advertising British Columbia in one American magazine alone. It started the influx of Americans to the prairie provinces and will do the same for British Columbia. When the movement was launched Calgary had 7000 people. Today its population is 27,000. Mr. Emerson Hough, a noted writer, is preparing a serial entitled Sowing, dealing with the prairie provinces and British Columbia. He was out here some time ago. His work will later be issued in book form. As it deals with foreign immigration he went to Europe to secure some of his data."

World Record Rock Drilling.

McNicol and Pickens, miners of Butte, established a world's record for rock drilling by driving a hole 56 5-8 inches, 1-0 inch bits, into a solid block of granite in 15 minutes at the Spokane Interstate fair competition. The performance, which was witnessed by 20,000 men, women and children, netted them $750. McNicol weighs 215 pounds, while his partner is 15 pounds lighter. They used 20-pound sledges. One of the features of their work was the dexterity displayed in changing drills, this being done without missing a single stroke. The best previous mark was 55 inches, drilled by Bradly and Frathey of Spokane, five years ago. Other teams in the contest this year were: McGilvray and Erickson of Silverton, B.C., 52 7-8 inches; Naylor and Anderson of Burke, Idaho, 43 3-4 inches, and Johnston and Dunn of Silverton, B.C., 43 1-8 inches.

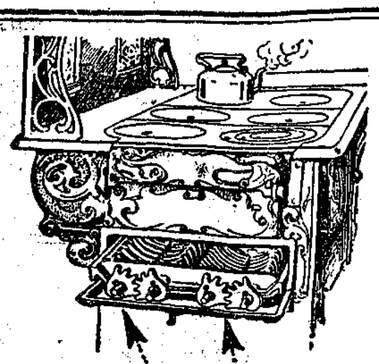
Westward Ho!

This magazine seems to know no limit to its powers of expansion and improvement; and the October issue is certainly its best. The fiction alone runs to nine short stories covering the sentimental, the tragic, the comic, the philanthropic, the serious, and the amatory. Among them are the "The Dalton Case," by Arthur Davies, an author of already attained celebrity; "Beneath the Old Poke Bonnet," by Agnes Lockhart Hughes, whose works, both prose and verse, are always appreciative and sweet; "A Fifty Thousand-Dollar Laugh," by Billee Glynn, whose name is synonymous with humor and pathos; "Black Hawk Hank," by Mrs. Ruth Everett; "The Dollar and the Cross," by J. DeQ. Donehoo; "The Measure of His Love," by Isabel B. Macdonald; "The Truth of Pretence," and others.

There are two excellent articles, one by Bonnycastle Dale on "The Opening of the Season," and on one the "Alpine Club of Canada," by S. H. Mitchell. Under deversified articles we find "Simon Fraser," by E. O. S. Schole field, Librarian of British Columbia, whose intimacy with the subject has enabled him to give to the public a splendid memoir of the celebrated explorer; "Prince Rupert," by Rosaland W. Young; "The Morale of Clothes," by Madame D'Alberta; "Mural Decorations," by Claude W. Gray, A.R.C.A., "B. T. A. Bell," by William Blakemore.

Try the Pioneer job department for your next order of printing.

The oven does the baking, the fire-box controls the oven heat, and the grates hold the coal or wood that produces the heat, so THE GRATES are important.



Sask-alta Range

Double Duplex Grates

"Sask-alta" Double Duplex Grates are made in four pieces, each grate shaken separately. Ashes over one grate can be shaken without wasting good fuel over other grate. No poking necessary, thereby saving fuel. Dampers at both ends of fire-box secure perfect drafts. When grates are inverted for wood a patent clamp retains them in position. The easiest-working way is the surest-serving way — and that's "Sask-alta" way.

HUNTER-KENDRICK CO., Ltd., Local Agents

Editors vs. Doctors.

The following composition was prepared by a school boy who had been instructed by his teacher to write an essay on editors: I don't know how the newspapers came to be in the world, and I don't think God does, for He's got nothing to say about them in the bible. I think the editor is one of the missing links we read about and stayed in the bushes until after the flood, and then came up and wrote the thing up, and has been here ever since. I don't think he ever died. I never saw a dead one or never saw one getting licked. Our paper is a mighty good one; but the editor goes without underclothes all winter and don't wear pain socks and pa ain't paid his subscription since the paper started. I asked pa if that was why the editor had to suck the juice out of snowballs in winter and go to bed when he had his shirt washed in summer. About then pa took me out in the woodshed and licked me awful hard. If the editors make mistakes folks say they ought to be hung; but if a doctor makes any mistakes he buries them and people dassent say anything, because doctors can read and write Latin. When the editor makes mistakes there is lawsuits and swearing and a big fuss; but if a doctor makes one there is a funeral, cut flowers and a perfect silence. A doctor can use a word a yard long without him or anybody knowing what it means; but if the editor uses one he has to spell it. If the doctor goes to see another man's wife he charges her for the visit; but if the editor goes he gets a charge of buckshot. When the doctor gets drunk it's a case of too much boose, and if he dies it's the jim-jams. Any college can make a doctor, but an editor has to be born.

Marysville		5,730
Total	35,915	1,367,683

The Banking Situation a Year After the Panic

A sequel of the panic was the suspension, within a radius of 200 miles of New York, of a score of banks and trust companies with deposits of more than $200,000,000 and depositors numbering from 75,000 to 100,000. Included in this number were large and small merchants, little tradesmen, corporations, and persons living on their incomes. In New York City alone all but three of the fifteen failed institutions have resumed operations and released a large share of deposits. Two of those to be liquidated have declared dividends of 100 and 90 per cent. This return to depositors of their money has been one of the most signal instances of the sound foundation of the country and the needless severity of the crisis of last October. Never in a panic period have their been so few bank failures, while in the history of no country have creditors been so readily granted a large part of their claims. With such promptness of payment a great number of persons will question the need of a gauranteed bank-deposit law.—From "A Year of Business Recovery," by Charles F. Speare, in the American Review of Reviews for October.

It was one of Uncle Sam's big military posts. They were trying a new steel bullet. Near the officer of the day stood Mose Jackson, his family servant, and general roustabout of the camp.

"Captain," ventured the negro, "I heahed de Colonel say dem new bullets shoot five miles!"

"Yes, Mose, they certainly will," answered the officer.

"Foh Gawd, Cap, I spec' all ye need ain de genl'man's address!"

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed *free* on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days *insist* on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound.

If sick consult the Doctor, *free* of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

I OWE MY CURE TO ZAM-BUK

HAD PILES FOR 13 YEARS!

PAIN SO BAD AT TIMES HE FAINTED

One of the best points about Zam-Buk is that it cures chronic cases of piles as well as those of more recent standing. Captain A. W. Strachan, R.E., of St. Catharines, (Ont.), a man who has served his country in India, China, Japan and Egypt, says:

"Nobody has suffered greater agonies than I have through piles. For near 13 years this terrible scourge afflicted me and at times the pain was almost too much for me to bear—especially while enduring the heat and fatigue of foreign duty.

"I think I tried almost every remedy known in India, China, Japan and Egypt. While in India I was in the hospital for three weeks with bleeding piles, and thought I would be compelled to give up the Service.

"I have had to fall out when on the march as I could not endure the pain any longer. Once I was picked up on the field for dead—the pain from the piles was so great that I had fainted.

"An Army officer told me about Zam-Buk having cured a friend of his, so I decided to give it a trial. From the first annointing with this great herbal balm, I was relieved, but even after using one box I hardly dared to hope it would cure me permanently. I had got so much relief from it, however, that I decided to persevere, and by the time I had used several boxes, to my great joy I was completely cured.

"Zam-Buk is worth its weight in gold. It has cured me and given me now over six months of perfect ease—something which I have not had for thirteen long years! I trust this statement of mine will lead other sufferers to try Zam-Buk and prove its great healing virtue."

What Zam-Buk is, and What it Cures

Zam-Buk is composed of the essence and extracts of healing herbs. It contains no animal fat or mineral poison. It never goes rancid like other ointments, never stains, never clogs the pores of the skin. It heals cold sores, eczema, chapped hands, ulcers, badly poisoned wounds, scalp sores, open sores due to blood poisoning, itch. It heals lacerations, bruises and all skin eruptions and diseases. All druggists and stores sell at 50c a box, or post free from Zam-Buk Co., Toronto, for price.

Free Box

This Coupon and a 1 cent stamp sent to Zam-Buk Co., Toronto, will obtain for you a sample box. Mention this paper.

Zam-Buk

"RUB IT IN"

PROVINCIAL.

There are a number of cases of typhoid fever at Fernie.

W. A. Galliher, ex-M.P., will open a law office in Vancouver.

The first church at Keremeos has just been opened for services.

The steamer Port Simpson had a narrow escape from destruction.

A new saw mill will be erected at Nelson by the Porto Rico lumber company.

Dr. Fletcher, Dominion entomologist, is now in the province inspecting the Indian orchards.

Dan. Cameron was sentenced by a Nelson magistrate to two months in jail for ill-treating horses.

The Okanagan Telephone Co., of Vernon, is extending its line North to Armstrong and Enderby.

William McGibbon, a recent arrival from the Old Country, committed suicide at Nelson on Sunday night.

Leigh S. J. Hunt, of Seattle is acquiring fourteen sections of timber on Kennedy lake, Vancouver island.

The second convention of the Eastern B.C. Sunday school association will be held in Revelstoke Oct. 27th to 29th.

Charles M. Newkirk, a well known rancher of the Nicola country, died last week. He was a veteran of the American civil war.

George A. Walkem, a prominent Vancouver man, found guilty of a criminal charge has been sentenced to nine months in jail.

In the Dominion elections the returning officer's fee is $60 with 8c. a mile for travelling expenses. Special constables on election day will receive $1.50.

A trolley line from Vancouver to Portland has been surveyed. In a very few years Vancouver will have tram line connections with San Francisco.

It is now announced that the sale of Prince Rupert townsite lots will not take place until next spring, and that they will probably be disposed of in the east.

It is estimated that orchards in the neighborhood of Grand Forks produced 60 carloads of fruit this season. About forty carloads of the fruit was marketed outside of the valley.

The Harmsworths, of London, publishers of the London Times, Daily Mail and other newspapers, are buying 150 sections of timber limits on Vancouver Island, 35 sections having already been bought in Quatsino district.

Ordinance has been published placing a duty of fifty cents per gallon on porter, ales and beer imported into the Yukon Territory. This does not apply to Canadian or British products.

An absolute denial was given out from the offices of the White Pass and Yukon railway to the rumor that the C.P.R. was negotiating for the purchase of the Northern company.

A young man named Colpits had his arm shot off last week at Cumberland by a companion who took him for a deer. How long will it be before the burden of proof is thrown on the man with the gun?

John McCutcheon, of Chilliwack, one of the oldest pioneers of British Columbia, saw his first electric light and electric car at New Westminster last week, as he made his first trip to the city in thirty years.

To form a big international hockey league, composed of towns of Nelson, Spokane, Calgary and Edmonton is the plan which has been launched by J. L. Bell of Calgary and August Wolf, publicity man for the Spokane chamber of commerce.

A deal has been closed for 30,000 acres of crown granted timber lands at the junction of the Columbia and Kootenay rivers, John Murray of Vancouver and J. S. Deschamps of Rossland selling to Wisconsin capitalists. The price was about a quarter of a million dollars.

Buster's Philosophy.—XLVI.

Resolved, that burgling is no more dishonest than other forms of thievery, but it is more dangerous. You may sell a man stock in a mine that doesn't exist, you may borrow money you never expect to pay back, you may run up butcher's or grocer's bills that you'll never pay, you may lie or cheat or waste your employer's time and still be respected. But just indulge yourself in a little second story work and you for the jail. Taking advantage of a man in business is just as much a sin and is lots meaner than burglary.

When you tell a business story with cold type, see that the work is done in an artistic way, so that it will attract attention, and be convincing.

WE ALL USE PE-RU-NA IN OUR HOME

Who is best able to judge of the value of Pe-ru-na? The housewife who has used it in her home for years, or prejudiced, sensational writers who have never used Pe-ru-na in their lives? It will not take any fair-minded reader a minute to decide which is the best evidence. The mothers of the United States believe in Pe-ru-na. The half million women who praise Pe-ru-na receive no pay for doing so, and the half dozen editors who disparage Pe-ru-na get big pay for doing so. Which is the best evidence?

MRS. ANNIE TESCH.

Now Eats and Sleeps Well.

Mrs. Annie Tesch, 337 23rd Avenue, Milwaukee, Wis., writes: "When I wrote to you for advice, my *health was a total wreck.* I could not sleep and thought I would die, as there seemed to be no help for me. But I followed your advice and took Peruna and Manalin.

"I am now cured. I can eat and sleep well, and enjoy life.

"*I never will be without Peruna,* should any of us be sick."

Catarrh of Worst Form.

Mrs. Amanda Long, 7237 Seeley Avenue, Chicago, Ill., writes:

"I believe that I am cured of catarrh of the worst form and of long standing.

"I was almost a total wreck. I tried almost everything and doctored with a number of doctors, but they did me no good.

"I tried Peruna as a last resort, and by the time I had taken one bottle I could see that it was helping me, and so I continued taking it. I can say now that I have not felt the slightest symptoms for three months, and I think there is nothing like Peruna. I still keep it in the house, and think there is no medicine like it. I cannot praise it too highly, and bless the day that I learned of it."

Mrs. Judge J. F. Boyer, 1421 Sherman Avenue, Evanston, Ill., writes that several complications united in pulling her down, and she thanks Peruna for new life and strength.

Pain in the Stomach.

Mrs. Mois Parizeau, Ste. Julie de Vercheres, P. Q., Canada, writes that she suffered five years with pain in the stomach. The pains extended through her body, and she also had difficulty in breathing. Her husband heard of Peruna and bought five bottles. This treatment virtually cured her.

MRS. J. C. RUSSELL.

Acute Indigestion.

Mr. John C. Russell, 810 County Street, Portsmouth, Va., writes regarding his wife's case as follows:

"I thought it would be doing but justice to your great medicine to tell you what it has done for my wife.

"Two years ago the doctor called at our house, on an average, three times a week, in attendance upon my wife, who was suffering from acute indigestion. Her suffering was so great that nothing but morphine would give her relief.

"While on a visit to some friends in Norfolk she had an attack and I prepared to go for the doctor, when our friend proposed Peruna. I gave her a dose, repeating it in a half hour, and her pains passed away. Since that time my wife has gained thirty pounds.

Gained Thirty Pounds.

"We are never out of Peruna. When the children or I have a cold we take some of mamma's Peruna. I find it has cut my doctor bills down to almost nothing."

Sore Throat for Years.

Mrs. C. Dashel, 894 Irving Avenue, Chicago, Ill., Curator Natural History Society, writes:

"I am glad to be able to recommend Peruna for chronic sore throat. I had been troubled with sore throat for years, but could find nothing to help me. I had an awful gagging in the morning and was subject to dizzy spells. I could not draw a free breath and life had no pleasure for me. My throat was dry and parched.

"I supposed I was doomed to spend the rest of my days in this condition, when I heard what good Peruna had been to others, so I tried a bottle of it. After using it I was much better and six bottles of it cured me.

"I cannot say too much for Peruna, and I hope that some poor sufferer like myself will see this and give it a trial."

MRS. C. DASHEL.

Pe-ru-na for Her Children.

Mrs. Alice Bogle, 803 Clinton St., Circleville, Ohio, writes:

"I want to inform you what Peruna has done for me.

"I have been afflicted with catarrh for several years. I have tried different medicines and none seemed to do me any good until I used Peruna. I have taken six bottles and can praise it very highly for the good it has done me.

"I also find it of great benefit to my children."

SALE OF CROWN-GRANTED MINERAL CLAIMS FOR DELINQUENT TAXES IN THE ROSSLAND ASSESSMENT DISTRICT.

I HEREBY GIVE NOTICE that on Monday, the 2nd day of November, A.D., 1908, at the hour of 12 o'clock, noon, at the Court House, in the City of Rossland I shall offer for sale at public auction the Crown-granted mineral claims hereinafter set out, of the persons in said list hereinafter set out, for the delinquent taxes unpaid by said persons on the 30th day of June, 1908, and for costs and expenses, including the costs of advertising said sale, if the total amount due is not sooner paid.

A Hallowe'en social will be given in the Presbyterian church on Friday evening, Oct. 30th, under the auspices of the Ladies' Aid. Refreshments will be served and a musical and literary program rendered.

Good reports of the Carney Copper property, in which a large number in the Boundary are interested, continue to come from Idaho mine experts Read the Carney Copper ad. in this issue.

The finest leaves from Ceylon tea plantations are contained in "Salada" Tea. It is packed in sealed lead packets to preserve its delicious flavor and aroma. Sold by all grocers: never by peddlers or in bulk.

The impromptu benefit dance given in the Phoenix hospital on Monday evening passed off very successful and those present had a pleasant time. Owing to the short notice given, however, together with disagreeable weather, the attendance was not as large as it would otherwise have been. The Pioneer has been asked to thank those who kindly made donations and assisted in the dance.

Oyster cocktails at the Brooklyn bar—oysters fresh daily.

Order your wood from McIntomineny. Phone B 32.

"The Holy City," with Harold Nelson as Morius, will be played in Phoenix opera house on Oct. 24th

Phoenix hospital beg to acknowledge the following donations to the hospital: Dr. Dickson, dressing carraige; W. S. Macy, fruit and vegetables; J. R. V. Dunlop, magazines; Mrs. Silas Smith, magazines.

We are pleased to note that A. B. Hood, manager of the E.T. Bank at Grand Forks, and formerly of Phoenix, who has been laid up with typhoid fever, for some five weeks is now progressing favorably.

A benefit dance for Milton Fisher, who was injured in the mines here some time ago, will be given in Miner's Union hall on Thursday evening of next week. The use of the hall is being donated by the Union. Mr. Fisher has been the victim of a series of misfortunes and now being unable to work an effort is being made to secure special medical treatment for him.

Born—at Grand Forks, on Oct. 12th, to Mr. and Mrs. Donald McCallum, a son.

Mr. Justice Martin will hold the civil and criminal assizes at Greenwood, commencing Thursday, Oct. 22nd, at 11 a.m.

The B.C. Copper company's smelter treated 11,665 tons of ore this week, as follows: Mother Lode, 9,645; Oro Denoro, 1,518; other properties, 502.

The Grand Prairie hotel at Carson, about three miles from Grand Forks, was totally destroyed by fire on Monday afternoon. The hotel was one of the old land marks in the Boundary, and was owned by John McLaren, who conducted the business.

"HOLY CITY" COMING.

Beautiful Play Will be Presented Here Next Week.

"The Holy City," Clarence Bennett's wonderfully successful Biblical drama, seems destined to take a place among the classic of the American stage. Each year that it is presented it is witnessed by audiences of increasing size. Its popularity does not seem to give any indication of waning and eager demands are nearly always made for a return engagenent.

The play is staged with a lavish splendor that is almost barbaric in its magnificence. The costuming is rich and a delight to the eye. The company presenting the play is recruited from among the best known metropolitan players and is capable and thoroughly efficient.

"The Holy City" will be presented at Phoenix opera House on Oct. 24th.

CURLERS REORGANIZE FOR SEASON.

Elect Their Officers at a Meeting on Friday Evening.

A meeting of local curling enthusiasts was held at the Hotel Brooklyn on Friday evening, and the Phoenix Curling club was reorganized for the season with the following officers: President, Capt. Smith; Vice-President, Dr. MacLean; Secretary-Treasurer, R. J. Gardner, managing committee, C. H. Reeves, P. W. George, G. L. McNicol, Capt Smith and R. J Gardner

General prospects for the winter were discussed and it was decided to have the rink repaired and and the spectators' room enlarged and made more comfortable. General indications for the "roarin' game" in Phoenix this winter look bright, there being some thirty old members in town and a good selection of suspects for new members.

Public School Examinations.

Geography, Third Class—John Craig 89; Emlyn Pierce, 87; Bessie Heidman, 81; James White, 79; Francis Larson, 74, Alton Matheson, 70; Jessie Pierce, 64; Alma Hendrickson, 63; Murial Knott, 54; Arthur Walters, 54: Ruth Swanson, 40; Annie McKeown and Joseph Miller absent.

History, Fourth Class—Frank Tinetti, 73; John McDonald, 70; Grace McKenzie, 69; Harry Swanson, 50; Eliz. Nelson, 42; Eddie Swanson, 30.

Midway Murder Suspect.

A. W. Jennings, charged with being implicated in the Midway murder, appeared for a preliminary hearing in Greenwood on Tuesday. A Mrs. Rose, who lives across the line from Grand Forks, gave some incriminating evidence, but little weight is being attached to it. There were two other minor witnesses, but the accused was remanded till today to allow the crown to secure evidence. Constable Docksteader left for Idaho on Wednesday in connection with the case.

The Devil At College.

Arthur Swanson, for several months an assistant in the Pioneer office, writes from Coeur d' Alenne college to say that we were in error in stating that he is studying electrical engineering, as he is only taking a preparatory course. The ex-devil reports college life as far in advance of sticking type and has abandoned the editor's path as a route to paradise. He gives his daily routine as follows: 6.30 a.m., out of bed; 7.00, breakfast; 8.45, algebra; 9.30, chapel; 9.45, latin; 11.00, rhetoric; 12.00, lunch; 1.15 p.m., physical geography; 1.45, school over ("for me and two other scientific kids who don't want to be a minister or doctor"); 3.00, music lessons; 6.00, dinner; 7 to 10, study; 10.15, back to roost.

BUSINESS ANNOUNCEMENT

Having taken over the Drug business of W. A. Thrasher, I beg to announce to the people of Phoenix and vicinity that the same is being carried on in the old stand. Specialising in PURE DRUGS, CHEMICALS, PATENT MEDICINES, REQUISITES OF THE SICK ROOM, PERFUME, TOILET ARTICLES, I hope by keeping a constantly replenished and selected stock to be able to fill the wants of all customers in these lines. Anything not in stock will be secured on short notice for customers. By carrying only the first quality of goods, giving special care to Prescription Work, courtesy and strict attention to business, I hope to merit a continuance of the cordial patronage extended to my predecessor

GROCERY DEPART.

THIS WEEK we wish to talk to you about

TEA AND COFFEE

Perhaps there is not another article in the line of Groceries that affords the same chance for deception and adulteration, especially is this true of ground coffees.

We buy all our Coffees direct from the Importer, and grind them fresh for you when ordered. Our Teas we buy direct from the Gardens.

In this way we are always sure of getting PURE, WHOLESOME TEA AND COFFEE, and we send them out as pure as we get them.

One of the biggest proofs we have to offer you lies in the fact that our TEA AND COFFEE BUSINESS IS GROWING EVERY MONTH, and we have several people buying our Tea and Coffee who do not favor us with the balance of their Grocery business.

TEAS

Our Special - 50c lb.
Tea Lady - - 75c lb.
Tetley's Tea 60c lb.
Ram Lals - - 65c lb.
Tartan Tea - 50c lb.

Try a pound of our Special Tea, we claim this to be the biggest value in the list.

COFFEE

Chase & Sanborn, 50c
Tartan - - - 50c
Red Gate - - 50c
Braids - - - 50c
Big Four - - - 35c
Special - - - 35c

Our COFFEE BUSINESS has grown to such a size that we have ordered an up-to-date electric mill, and in the near future will grind all our Coffees by electricity.

FRUITS

Fancy Apples, $1.75 box
Fancy Pears, $2.00 "
Crab Apples, $1.50 "
Peaches, - $1.50 "
Plums, - 25c. basket

CARNEY COPPER ORE

Looks good to Mr. Geo. Hewston Coeur d' Alenes Mining Engineer and Expert Mineralogist

In a letter from Mr. Hewston under date Oct. 12th, 1907 this best known expert Mineralogist and Mining Engineer of the Coeur d' Alenes says; "I have seen some of the GALENA ORE from the CARNEY and IT LOOKS VERY GOOD. I have put in a great deal of time tracing the dike which the CARNEY WORKS HAVE TAPPED and may have a property to swing along the same dike in a short time.

For full particulars call on or write **J. L. MARTIN, PHOENIX, B. C.**
