ELEVENTH YEAR — PHOENIX, B.C., SATURDAY, OCTOBER 15, 1910 — No. 47

GRANBY WILL INCREASE OPERATIONS AT SMELTER

Two More Furnaces to Be Blown In—Report Presented at Annual Meeting of the Company

There is every indication that the new directorate of the Granby company intend to pursue a progressive policy in connection with the company's properties and a considerable expansion may be looked for in the course of a few months.

On Monday next two more furnaces will be blown in at the Granby smelter, when six of the battery of eight furnaces at the big reduction works will again be in operation. This means that the shipments from the mines will again take a jump and operations return to their former normal condition.

Under a proposed plan of expansion it is not improbable that the entire battery of eight furnaces at the smelter will be in operation by the first of January next.

At the annual meeting of the Granby Consolidated Mining, Smelting and Power company in New York last week the management presented a very comprehensive report to the shareholders covering operations not only for the year ended June 30, 1910, but for previous years since the organization of the company. The report incorporates some interesting remarks by Pres. Langeloth, General Manager Graves and also the much discussed report of Otto Sussman which was submitted to the board of directors last March, and which caused the perpendicular drop of $50 per share in the price of the company's shares.

The production for the year ended June 30, 1910, was as follows:

22,750,111 lbs. of copper sold at 12.91 cents.
355,749 ozs. of silver sold at 52.33 cents.
48,804 ozs. of gold sold at $20.

Total gross proceeds	$4,099,925	
Working expenses at mines and smelter, freight, refining, selling, etc	$3,343,149	
Foreign ore purchased	191,828	3,534,978
Net profits		564,946
Surplus from previous year		2,698,687
Total surplus		3,263,634
Less dividends paid	270,000	
Less discounts on shares sold	202,434	
Less interest paid	60,674	
Less allowance for depreciation	266,154	799,263
Net surplus June 30, 1910		2,464,370

The cost per ton of ore including all expenses was $2.79. The cost per pound of copper after deducting gold and silver values was 10.3 cents.

There has been expended on new construction and equipment at the smelter $53,633.

The mine development totalled 13,267 linear feet; diamond drill development, 6438 feet. Granby ore smelted amounted to 1,175,548 dry tons; foreign ore smelted, 21,829 dry tons.

We make the following comparison with previous years:

	1910	1909	1908	1907
Copper, lbs	22,750,111	21,901,528	21,126,926	16,410,576
Silver, oz	355,749	335,521	300,593	257,378
Gold, oz	48,804	45,761	40,139	35,083
Gross	$4,099,925	$3,983,536	$3,790,184	$4,521,549
Charges, etc	3,534,978	3,302,402	3,183,662	2,596,612
Net profits	564,946	681,134	606,522	1,924,937
Dividends	270,000	270,000	675,000	1,620,000

The balance sheet compares as follows:

Assets:	1910	1909
Cost of land, machinery, etc	$15,253,514	$15,452,996
Stocks and bonds	962,622	981,503
Fuel and store supplies	264,603	136,800
Cash and copper	1,011,970	600,459
Total	17,492,711	17,171,759
Liabilities:		
Capital stock issued	14,849,565	13,500,000
Dividends held for liquidator, etc	2,191	1,428
Accounts and wages payable	176,584	971,644
Surplus	2,464,370	2,698,687
Total	17,492,711	17,171,759

(CONTINUED ON LAST PAGE)

NUMBER SEVEN MINE IS NOW A SHIPPER

Week's Output of Mines Shows Substantial Increase

As stated in last week's Pioneer shipping commenced from the Consolidated's Number Seven mine in Central camp, the ore going out over the new tram line to Boundary Falls, then via C. P. R. to Trail smelter. Only a small tonnage has been sent out as yet, however, the output to date amounting to 170 tons.

The total ore shipments from Boundary mines took a jump this week, Mother Lode and Rawhide being largely responsible for the increase.

An interesting feature of the tonnage returns this week is that the British Columbia Copper company's smelter treated more ore than that of the Granby, by reason of the former's increase. This is the first time in the history of the properties that this has occurred. But as the Granby will blow in two additional furnaces next week its returns will probably soon jump out of reach of its Boundary competitor.

Following are the returns of the output of the mines and smelters of the Boundary district for the week ending Oct. 15 and for year to date:

Granby	13,646	895,534
Mother Lode	9,503	276,163
Rawhide	2,800	6,700
Snowshoe	2,340	119,925
Oro Denoro		9,339
Jackpot	329	9,852
Number Seven	170	170
Golden Eagle		120
Sally		32
	28,788	1,317,835
SMELTER TONNAGES		
Granby	13,175	819,073
B.C. Copper Co.	13,490	273,488

Busy at Napoleon

At the British Columbia Copper company's Napoleon development work is now being pushed on a large scale. Sixty teams and scrapers are employed stripping the immense ore body. The big reduction works is nearing completion and the out side crew has been supplemented by the addition of 40 men.

Boundary Mining Notes

It is expected that the shaft in the Combination property near Greenwood will be down 100 feet in the course of a month, when drifting will commence to strike the ledge.

W. A. Pickard was in town this week from the Riverside mine and reports an important strike on the property. The company has decided not to sell any more shares at present.

A fine showing of quartz has been struck in the Argo tunnel at Greenwood.

BIG REDUCTION IN THE COPPER OUTPUT

A Reduction of 10 Per Cent in the Past Three Months

Boston—The decrease of over 20,000,000 pounds in the American surplus of copper as shown by the September statement of the Copper Producers' Association—a development the importance of which is emphasized when it is recalled that the mine curtailment has not yet had time to show itself in refinery statistics—has resulted in bringing down the world's surples to a little over 359,000,000 pounds. This figure compares with a high mark of 401,000,000 pounds as of date July 1, the reduction in the following three months having amounted to 10%.

It is clearly to be seen that the world's surplus—and the consumption on the other side of the water is at its best—will be further substantially reduced during the remaining months of this year as the October and November statements should begin to show the result of the 15% curtailment in mine output which has now been in effect between 30 and 60 days. From a statistical standpoint, therefore, the position of copper is likely to show a striking betterment between now and the first of January.

Business Change

L. Y. Birnie has disposed of his plumbing and tinning business to J. H. Matthews and will leave shortly for Medicine Hat, Alberta, where he has purchased a large hardware business.

Mr. Birnie returned Monday after closing the deal for the Medicine Hat business, which is the most extensive of its line in that city, and is now preparing to move with his family. The departure of Mr. and Mrs. Birnie from Phoenix will be regretted by a large number of friends. During their residence of a dozen years in this city he has been a prominent business man and has served on the city council at different times, while in the less strenuous life he has been the worthy right bower of Sir Isaac Walton, an enthusiastic curler, a marksman of note, and a motorist with records. Mrs. Birnie has been active in social circles.

J. H. Matthews returned to town Wednesday after spending some months at Revelstoke and has already taken over Mr. Birnie's business here, with which he was formerly connected. "Harry," as he is popularly known, is welcomed back by his many friends, who will wish him prosperity in his new undertaking.

Saving Electricity

Tungsten lamps are coming to the front because they save electricity. In appearance, their only difference from the ordinary carbon filament incandescent lamp is that the filament is constructed of tungsten instead of carbon. But in actual use, it has been proved that they use only about one-third as much current as a carbon lamp to produce a light of the same illuminating power. True, their first cost is greater (approximately three times as much), but this is counterbalanced by the saving in current effected. They have one weak point however. That is the ease with which the delicate tungsten filament is broken. On this account great care has to be exercised in installing them, and it is for this reason, too, that they cannot be economically used as portable lamps. Yet, when carefully handled, they have a long leose of live. In England, where they are used more extensively than here, it is quite common for them to last 3,000 hours, and one instance is on record where a tungsten lamp burned continuously for over 15,000 hours. Even when allowance is made for more frequent breakage, the tungsten lamp shows a saving over the carbon of about fifty per cent. That is an economy not to be despised and points to the much greater use for stationary lighting purposes.

Breaking the World's Tipping Record

Canadians usually associate the custom of lavish tipping with American millionaires, believing that the latter hold the record for the munificence of the gratuities. But, as a writer in October Busy Man's points out, the record does not belong to an American but to a Canadian. An ex-cabinet minister of the Dominion, recently returned from a tour of the European continent, left behind him an astonished and gasping procession of servants. He had presented tips to an amount that amazed these people, accustomed as they were huge tips. And he was ably seconded, it seems, by a fellow-countryman, a young multi-millionairer Much more interesting information about tipping is to be found in the same article.

National Apple Show

The success of the first Canadian National Apple Show to be held in Vancouver, Oct. 31 to Nov. 5, is now assured, and there is every indication of a large attendance. The C.P.R. will issue reduced rates from all parts of the Dominion. For the Boundary district the dates are: Good going from Oct. 28 to Nov. 2, good to return to Nov. 9, single first-class fare for return trip.

Brakeman Stalk of the C.P.R. had his arm badly crushed while coupling cars at Fisherman on Wednesday. He was taken to the hospital at Grand Forks.

Notice

Notice is hereby given that I will apply for a transfer of the Hotel License in the name of Summers & Schulli for the Dominion Hotel, Phoenix, to Antonio Turano at the next sitting of the license commissioners for the city of Phoenix.

Dated at Phoenix, B.C., this 7th day of October, 1910.

JAMES SUMMERS.

NOTICE

Liquor Act, 1910

Notice is hereby given that on the first day of December next, application will be made to the superintendent of provincial palice for renewal of the hotel license to sell liquor by retail in the hotel known as the Hartford Hotel, situate at Hartford Junction, B.C.

Dated this 8th day of October, 1910.

JOSEPH J. BASTETT.

In the County Court of Yale, Holden at Grand Forks, in Probate in the Matter of John F. Thomas, Deceased.

Notice is hereby given that by Order made herein on the 4th day of August, 1910, it was ordered by His Hon. Judge Brown that A. C. Sutton, Official Administrator, be administrator of all and singular the estate of John F. Thomas, late of Phoenix, B.C., deceased, intestate. Every person indebted to said deceased's estate is required to make payment forthwith to the undersigned, and every person having in possession effects belonging to deceased is required forthwith to deliver same over to undersigned.

Every creditor or other person having any claim upon or interest in the distribution of the estate of the deceased is required before the 8th day of November, 1910, to send by registered mail addressed to the undersigned, his name and full particulars of his claim or interest and a statement of his account, verified by statutory declaration, and the nature of the security (if any) held by him.

After the said 8th day of November, 1910, the administrator will proceed with the deitribution of the estate having regard to those claims only of which he shall then have had notice.

Dated at Grand Forks, B.C., the 1st October, 1910.

A. C. SUTTON,
Official Administrator,
Grand Forks, B.C.

BABIES SORES

Every mother should realize that the skin of her baby is so tender that the secretions of the body often lead to rashes, eruptions, etc., all of which may be removed by Zam-Buk. Scores of restless, crying babies, upon examination, are found to be suffering from some form of skin irritation or "heat." Don't let the little one suffer when Zam-Buk will cure!

Mrs. L. Hood, of 475 Alexander Avenue, Winnipeg, says: "I have proved the value of Zam-Buk when applied to children's sores. Some nasty sores broke out around my baby's mouth, and despite all the preparations used, they refused to heal. I took him to St. Boniface hospital and he remained there for two weeks. At the end of that time he was no better, and we again took him home. I was then advised to try Zam-Buk and obtained a supply. The effect of the first few applications was very gratifying, and I continued with the use of the balm. A little perseverance resulted in a complete cure."

Mrs. E. Cocker, of Yorkton, Sask., says: "My little baby girl had a bad running sore all over her little chin. A few applications of Zam-Buk healed the sore in such a perfect manner that no scar was left behind."

Scores of similar cases could be quoted. Zam-Buk is absolutely pure—contains no rancid animal fats, no mineral coloring matter, no astringent poisons. It is the ideal balm for baby.

Zam Buk cures eczema, rashes, ringworm, chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores, and all skin injuries and diseases. 50c. box, all druggists and stores, or Zam-Buk Co., Toronto, for price. Don't take the risk of using harmful imitations!

THE PHOENIX PIONEER
and
Boundary Mining Journal

ISSUED WEEKLY

Subscription, 2.00 per year
2.50 to United States

T. ALFRED LOVE, Publisher.

SATURDAY, OCTOBER 15, 1910

The Pioneer has before referred to the necessity of a 24-hour telephone service in Phoenix. Occasion for a night service is demonstrated every day, and the lack of it causes much inconvenience at times. A continuous service would be particularly valuable to the mining companies and to many of the business men of the city as well, and there is no reason why a city of the size and importance of Phoenix should be limited to the schedule of rural hamlets in the matter of telephoning hours. The B. C. Telephone company is prepared to inaugurate the night service if telephone users will guarantee the increased expense. If those interested in continuous telephone hours would only get together there is no doubt but that a satisfactory arrangement could be made. Let us have an up-to-date service.

The city of Phoenix is very fortunate in the supply of water which has been obtained by the waterworks company tapping the Brooklyn and Idaho mines, especially when it is taken into consideration that many of the surrounding cities are at present facing a serious problem in the matter of water for domestic purposes. The water in the lower levels of the Brooklyn and Idaho has been tested by Government Analyist Fagan and pronounced as excellent. There is almost an unlimited supply of it for general purposes and the company are now considering installing an electric pump to replace the old air pump which at present forces the water into the city mains. It will at least be a matter of congratulation that a supply of water other than that in Marshall lake has been secured.

The vacancy in the provincial cabinet has been filled by the inclusion of William R. Ross of Fernie, who accepted the portfolio of lands. The Hon. Price Ellison, who for the past year filled that office with such conspicuous ability, has become minister of finance and agriculture.

Advertising is something like fishing; a person always imagines he would have caught more on the other side of the stream.

DELIVERED TO ALL PARTS OF THE CITY

Notes of the City

Mrs. McCormick left Thursday morning for Seattle.

T. Roderick has returned from a visit to coast cities.

Miss Kate Bell returned from Spokane on Monday.

A. B. Hood was in the city from Grand Forks on Thursday.

Miss McGrade and Miss Sutherland left on Tuesday for Spokane.

Police Magistrate South of Vancouver was a visitor in the city this week.

Mrs. Dawson returned yesterday from a visit with friends at Kettle Falls, Wash.

Died—In Phoenix, on Oct. 5th, the infant son of Mr. and Mrs. W. Berryman.

Barrister Miller of Grand Forks was in town on Wednesday on professional business.

W. S. Macy was in town from Spokane for a few days this week calling on old friends.

Mr. and Mrs. T. Baldwin returned on Monday from a two weeks' visit to Spokane.

Mrs. McKelvey and son Lawrence left yesterday on a three months' trip to Spokane and points in Montana.

A. W. Wright of Nelson, the well-known real estate agent, was in the city this week looking over the field.

O. B. Smith, P. Boyles and E. H. Hyde were among the visitors at the Spokane fair who returned Monday evening.

Archie McDonald and son Angus have returned after spending some months doing assessment work on claims at Sandon.

J. B. Boone of Chewelah, Wash., was in town for a few days this week on business connected with the Dominion Hotel, which he formerly owned.

Wm. P. Folger of Spokane, insurance adjuster, was in town this week adjusting claims in connection with the recent fire.

Mrs. and Mrs. James Strain and daughter, of Winona, Minn., who had been on a visit to Mrs. Strain's brother, J. W. Nelson, of Greenwood, left here Thursday morning for their home.

Mrs. N. J. Carson entertained at tea yesterday afternoon in honor of Mrs. L. Y. Birnie, who is leaving town shortly. Mrs. Birnie was made the recipient of a beautiful set of sterling silver for the table.

A quiet wedding took place at St. Savior's church, Nelson, on Tuesday, October 11, when Edmund Ernest Campbell, assistant engineer at Granby mines, Phoenix, was married to Miss Nora Lefurgey, of Ottawa, Ontario, the ceremony being performed by the rector, Rev. Fred H. Graham. After the ceremony the young couple left on a visit to coast cities and will arrive in Phoenix in about ten days to take up residence on Granby street.

Initial Fair a Big Success

Grand Forks did itself proud in the fall fair and poultry show held in that city last week, the first fair ever held in the Boundary. It was a conspicuous success from every standpoint and the management of the event is to be congratulated. The exhibition was not only a revelation of the wonderful resources of the Boundary district to visitors but to residents as well and reflected great credit on the part of the exhibitors.

The fruit exhibit was magnificent and would have made a creditable showing at any of the national fruit shows, the quantity being large and all of first quality. The poultry show was also good, particularly good; the mineral exhibit was on a par with that of more pretentious fairs, while the display of ladies' work and art was of a superior quality. The ring and other attractions of the fair provided other enjoyment for those in attendance, and taking the initial fair as a criterion this annual show at Grand Forks will soon take rank with provincial exhibitions.

Watch Phoenix Grow

Born—In Phoenix, on Tuesday, Oct. 4, to Mr. and Mrs. J. E. Thompson, a son.

Born—In Phoenix, on Wednesday, Oct. 5, to Mr. and Mrs. W. Berryman, a son.

AND TAKE NOTICE that at a Court of Revision to he held on the 7th day of November, 1910, at the Court House, Grand Forks, B. C., at 10 o'clock in the forenoon, I shall hear and determine the said objections, and unless such named persons or some other provincial voter on their behalf satifies me that such objections are not well founded, I shall strike such names off the said Register.

S. R. ALMOND,
Registrar of Voters.

Dated this 10th day of October, 1910.

Hardware Headquarters

Hunter's Supplies

The hunting season is now in full swing and we have the requisites to help you bring home the game. Don't take chances with old dangerous weapons, buy a new gun. We have a good assortment of up-to-date sure hitters; also ammunition, cleaning rods, oils, etc.

Heating Stoves

This is the time of the year that chilly evenings make a warm cosy room particularly attractive. We have a nice selection of heaters, one of which burning in your room will go a long way to making your hours of rest more enjoyable. We have the Heaters in several sizes.

Morrin-Thompson Co.

FRESH GROCERIES AND PROVISIONS

DOMINION HOTEL

Under New Management

The Dominion Hotel is located in the heart of the City and has every accommodation for both tourist and resident boarders. It is the nearest Hotel to Granby mines and is the home for miners in Phoenix, everything being modern and Dining room in connection.

Having taken a lease on the Dominion the undersigned will endeavor to merit all patronage. Call and see us.

TURANO BROTHERS

Local and General

The Union hotel at Eholt is being renovated.

D. R. McElmon will open a cigar store in Eholt.

Dry wood in car lots for sale; apply to J. Trombley, Phoenix.

The sitting of the fall assizes at Greenwood has been cancelled.

Greenwood imposes a tax on shows and as a result they get none.

Kid Lewis of Eholt is again breaking out as a pugilistic challenger.

A large consignment of Christmas goods is already en route for A. Almstrom.

For sale, best wood business in town; small capital required. Enquire P.O. Box 211.

It is stated the Hunter-Kendrick company will shortly open a hardware store at Merritt.

There is said to be about two score of applications for the vacant position of chief of police.

The Greenwood hockey club is signing a number of last season's stars for the coming season.

Five-roomed house for sale, good well water; Golden Eagle addition; apply to R. Wilkinson.

Dr. Kerr has been appointed physician for the Kettle Valley construction camps with headquarters at Midway.

The work train which is filling in bridges on the C.P.R. lines in the Boundary are now working at the bridge at Fisherman.

A. O'Brien of Spokane was the winner of the piano raffled by Miss McDonald Thursday evening. His number was 198.

For sale, house and lot, on New York townsite; well adapted for chicken ranch or cattle; clear title; apply to T. H. Richards.

None of the claims for the work on the old Midway & Vernon grade have yet been paid. The claims are said to be badly tangled.

For rent, nice suite of rooms for housekeeping, at the Biner block, centre upper town; best location, good water. Inquire on premises.

Werner's five-piece orchestra has been engaged to render music for the annual Thanksgiving dance being given by Snowshoe lodge, I.O.O.F., on Monday evening, October 31.

Grand Forks fruit growers are shipping a car load of apples for exhibition at the first Canadian National Apple Show to be held in Vancouver, Oct. 31 to Nov. 5. The car will contain a varied selection of the fruit grown in the Kettle valley.

The Dominion hotel, which has been under several managements during the past few years, has again changed hands, A. T. Turano taking a lease on the hostelry from James Summers. Mr. Turano has taken possession and a transfer of the license is being applied for.

D. J. Darraugh, ex-chief of police, left Thursday for the west fork of the Kettle river to start operations on his coal property.

Several camps have been established for the construction crews along the west fork from Midway. There are about 100 men at work on the grade now.

Work has commenced on the remodelling of the building recently purchased by the Methodist church from L. Y. Birnie. Considerable money will be spent on it, but when completed will make a handsome edifice.

For Thanksgiving Day, Oct. 31, 1910, the Canadian Pacific Railway company are authorizing a rate of fare and one-third for the round trip. Tickets will be on sale October 28 to 31 inclusive, final return limit November 2, 1910.

In its write-up of a dance given in Grand Forks recently the Gazette said: "Of the music too much praise cannot be showered on the musicians, Messrs. Werner and McKay of Phoenix, whose reputation is well known to the dancing community of Grand Forks, suffice to say that their efforts to please were duly acknowledged by the repeated encores, to which they liberally responded."

Charles Smith, 18 Main street, Kenora, Ontario, writes the Pioneer as follows: "I should esteem it a favor if you would assist me in locating the present address of my brother Herbert. His parents and I are very anxious to hear from him, and any information that will lead to his present address will be very thankfully received. When last heard of he was around Nelson working at one of the mines as engineer."

King Edward Lodge No. 36

A. F. and A. M.

Regular communication at 8 p.m. Second Thursday of each month. Emergent meetings as called; Masonic Hall, McHale Block.

W. S. Cook, Secy. R. S. Fraser, W.M.

I.O.O.F. Snowshoe Lodge No. 36

Meets every Monday Evening at Miners' Hall. Visiting brethren cordially invited.

J. P. McKenzie, Noble Grand.
W. A. Pickard, Fin. Secy.
T. A. Bean, Record. Secy.

FRATERNAL ORDER OF EAGLES

Phoenix Aerie No. 158

Meets in Union Hall, Friday Evenings. Visiting brothers are always welcome.

J. Thornton, W.P.
Orrin D. Bush, W. Secy.

K. of P. Lodge, No. 28

Phoenix, B.C.

Meets Tuesday Evening at 7.30. Sojourning brothers cordially welcomed.

Gordon Thompson, K. of R.S.
J. W. Hannam, C.C.

The Big Store

Is The Centre of Attraction These Days

New Goods are pouring in on us daily from European American and Canadian manufacturers. We handle nothing but the best products of these countries, they carry with them **Style, Finish and Durability.** You cannot afford to pass us up when buying your Fall and Winter supplies.

We are Sole Agents for the Stanfield's, Hewson's Watson's and Knit-To-Fit Underwear; also the Celebrated Hewson's and Knit-to-Fit Sweaters for Ladies', Children's and Men's Wear.

We are making a Special showing this season in—

Gloves, Mitts, Sox, Overcoats, Suits, Blankets, Comforters, Dress Goods Flannelettes, Wrapperettes, Hosiery, Infants Wool Jackets, Mittens, and Booties. Ladies' Top and Underskirts.

Prices and values throughout the store are better than ever.

We take Special Orders for Men's Suits and Overcoats.

The **Hunter-Kendrick Co.**

HEAVY DRAYING

If you require any Heavy Teaming or Hauling done, let us do it for you. That is our business, and we have the equipment to execute all orders satisfactory.

First-Class Wood

We also have a supply of first-class Cordwood, short or long, and can deliver it on short notice. 'Phone your order to

Mclroy Bros. PHONE 34 **Phoenix, B.C.**

The Secret in Gents' Dress

It costs little to dress well. The whole secret is in buying your CLOTHING & FURNISHINGS from Thomas Brown. Call and see how good you would look in a smart suit of clothes. We can fit you from cellar to garret.

Thomas Brown Gents' Furnishings Upper Town

GRANBY WILL INCREASE OPERATIONS AT SMELTER

(CONTINUED FROM FIRST PAGE)

President Langeloth says in part: The directors have adopted the policy of curtailing production during the prevalence of low prices for the metal.

Throughout the winter operations were limited to seven furnaces and from the middle of March to the end of the fiscal year only six were operated. Notwithstanding this curtailment of output, the cost of operation showed a gratifying improvement. The average cost per ton of ore for mining, smelting, transportation and refining was $2.79, as against $3.20 for the previous year; on the other hand, the recoveries of copper, silver and gold are rather below those of previous years.

On Jan. 4, 1910, the directors decided to capitalize a portion of the expenditures incurred during the last few years properly chargeable to capital account. Accordingly, 13,500 shares were offered to shareholders at $85 per share. The directors underwrote this issue without commission or compensation, and they took and paid for the portion not subscribed for by other shareholders.

Last January, upon the resignation of the local manager, A. B. W. Hodges, it was determined to have the property examined by an independent engineer. The work was entrusted to Dr. Otto Sussman. A committee of the board met him at the mines where it was found that his tonnage estimates corresponded closely with those made by the company's engineers.

Extensive exploration work is now going on at the property with a view to developing additional ore bodies, and options have been taken on outside properties where exploration is also being carried on. The Crow's Nest Pass Coal Co. has resumed the payment of dividends, declaring 1% on the capital stock, payable Aug. 10. The prospects for a profitable business are very encouraging.

Vice-President and General Manager Jay P. Graves submits a report which we abstract as follows:

A report has been made upon the property by Mining Engineer and Superintendent O. B. Smith, Jr., and upon the smelter at Grand Forks by Superintendent W. A. Williams. These reports have been prepared at my request for the information of directors and shareholders. They are conservative, and in my opinion in accordance with the facts. The values to be secured from the ore in sight must be calculated by the average secured in the better than 6,250,000 tons of ore which the mines at Phoenix have mined and smelted in the past.

The faith we have in our finding ore with depth as our development proceeds is as great as it was upon the day we started development work upon the Knob Hill and Old Ironsides claims. The mines have never been prospected below our present workings of 600 feet with the exception of one diamond drill hole put down on the Victoria claim about four years ago. This hole was put down 600 feet below the 300-foot level and encountered mineralized material and some ore.

Since some doubt has been expressed that ore would not be found below the present working level, machines have been ordered and contracts let and the work is now in progress, towards the prospecting of the lower levels. This work will be vigorously prosecuted. There has been criticism and discouraging statements about the future of the property from the commencement of our work in 1895. Notwithstanding, the company has gone forward and today has a successful record of the extraction of over 6,250,000 tons of ore, having paid a greater price for its labor than any other large copper property on this continent; having paid, because of its inaccessibility, larger freight charges than has been paid by any other company equally distant from markets, and has distributed to its shareholders $3,778,630 in dividends.

Today it has as good an up-to-date smelting and converting plant as is in operation; has ore developed of over 6,400,000 tons, and that above the 500-foot level of its workings; the mines are well equipped for handling the work, with two railroads serving us economically; and of the mineral claims in Phoenix camp, not one half the area owned has been prospected. We have not prospected the present ore bodies at depth.

We own a large and representative interest in the Crow's Ness Pass Coal & Coke Co., from which the company draws its coke supply upon favorable terms. The Coke Co. owns 240,000 acres of coal mines said to contain the largest deposit of coal in the entire West owned by one company.

The company is free from debt and has over $900,000 in cash and copper. With its good working organization, with such large property interests, with a company free from debt, a large cash reserve, and with the coming sooner or later of higher prices for copper, I see nothing but the brightest future for the Granby Co., provided the properties now owned are developed under progressive, vigorous and intelligent management.

The tonnage of Granby ore treated and the metal recoveries for a series of years have been as follows:

	Dry tons shipped	Copper per ton lb.	Silver per ton oz.	Gold per ton oz.	Cost per tons exc. mktg.
1901	172,258	31.49	.4406	.1003	$4.77
1902	296,162	27.23	.2952	.0808	4.08
1903	290,133	24.58	.2772	.0717	3.75
1904	514,387	22.87	.2619	.0608	3.35
1905	551,304	24.68	.2688	.0599	3.14
1906	796,528	24.30	.3107	.0513	2.87
1907	644,549	24.43	.3038	.0503	3.28
1908	865,030	23.42	.2865	.0454	3.11
1909	963,510	21.90	.2730	.0435	2.85
1910	1,178,853	18.70	.2281	.0370	2.50

The Difference in Clothes

It is the easiest thing in the world to buy poor clothes. They prevail to a much greater extent than that of the well-tailored, individual and distinctive kind. The poor kind is the easier to make and the profits thereon are larger. But when it comes to satisfaction, that is, wearing quality, perfect workmanship and faultless fashioning, it is **ONLY THE GOOD CLOTHES MAKE A RETURN ON YOUR INVESTMENT,** and these are features we can conscientiously claim for the clothes we sell.

You can't get anything but good clothes at this store, even though you spend as little as $10.00 for a garment. Our **$17 Suits,** for instance, contain the best quality of fabrics and workmanship that has ever been produced in this country for that sum of money, and the patterns are as diversified as the higher priced lines.

We have in stock a full line of Men's Furnishings, Coat Sweaters, Gloves and Mitts, Shirts, Ties, Collars and Underwear in all lines.
