Vol. 9. FORT STEELE, B. C., SATURDAY, JUNE 27, 1903. No 26.

WILD HORSE CREEK.

First Drew the Attention of Miners to the Kootenays—Has Been a Constant Producer for 39 Years.

Wild Horse creek has been, from the first, the gold mining centre of the Kootenay district. Its auriferous character was discovered in 1864, and it was this discovery which first drew the attention of miners to the Kootenay country. Since 1864, placer mining has been continuously carried on. Where it reaches the Kootenay, Wild Horse creek is, at low water, a swift stream of about forty feet in width by one in depth. For about two miles from its mouth, it occupies a deep trough, which it has excavated in the silty and gravelly terrace deposits of the main valley, and this part of its course is now much obstructed by tailings washed down from the mines above. Further up, the valley is narrower, with steep banks, which show many exposures of rock, and high and very steep mountains rise above it on both sides.

The portion of the valley in which successful mining operations have been carried on, is about two miles only in length, and extends north-eastward into the Hughes Range, from the base of the mountain slopes. The "bed-rock" was reached at no great depth below the bed of the present stream, in this part of its course, and was found to yield much coarse gold; nuggets valued at $100 being frequently obtained. Endeavors to reach the channel of the old river further down, have so far been unsuccessful. The mining has consequently, now, for some years, been confined to the "side ground", consisting of narrow, terrace flats, which border the stream, and irregular sheets of gravel and detrital matter which lie upon the slopes. Of late years, the mining has fallen almost altogether into the hands of the Chinese. There is still much of this "side-hill ground," that is now worked to advantage by modern hydraulic appliances.

The gold obtained is valued at $18.25 per ounce. No platinum, silver or galena has been found with the gold in the sluice boxes, magnetic iron and sand being its usual associate.

The gold of Wild Horse creek is evidently of local origin. Gold bearing quartz veins have been located on the main stream, Boulder creek, East Fork and other tributaries. The gold now found concentrated in the bottom of the valley has apparently been derived from the wearing down of a great mass of schistose rocks with their quartz veins many of which are of such size as to pay for working.

Mining has been carried on since its discovery in 1864. This year, operations are being carried on on a larger scale than ever. The Thompson Company, having secured a lease of a large portion of the Invicta ground, and are now operating with a force of 12 to 15 men. A six-inch giant is used in breaking down the gravel bank.

The lower portion of the Invicta ground is operated by the Run Quon Company, who have two six-inch giants in operation.

The Nip and Tuck ground has also been leased to a Chinese Company, who are operating with modern hydraulic appliances.

Several small Chinese outfits, and individual miners are sniping along the bed of the stream, and benches, taking out gold, which will average three to five dollars per day to the man.

It is estimated that $17,000,000 to $20,000,000 in gold was taken out in the early sixties, and since that time the yield has fallen to about $10,000 per year, in 1902 the yield amounted to nearly $25,000, and it is expected to reach $50,000 in 1903.

Are You on the List?

Only a short time now remains for intending voters to place their names on the voters' list and to register. The court of revision will be held on August 31st, and it is advisable to register at once. If you want to vote and use your right of franchise, register at once.

IMPERIAL BANK OF CANADA.

Annual Meeting of Shareholders at Toronto.

The annual general meeting of the shareholders of the Imperial Bank of Canada was held at the head office of the Bank at Toronto Wednesday.

The 28th annual statement was read, and showed that the net profits for the year ending May 31st, 1903, was $482,128.12. The bank has paid a dividend for the year, of ten per cent., and after adding $100,000 to the rest account from the profits of the year, carry forward at credit of profit and loss account $160,356.27.

The rest account now amounts to $2,636,312; while the paid up capital is $2,983,896.

Mining Notes.

Fort Steele prospectors are surveying promising placer fields in the vicinity of the St. Mary's river.

Report has it that operations are to be resumed on the Tiger Poorman group of mines, situated on the divide between the North Fork of Wild Horse and Sheep creek.

The government intend opening to location the East Kootenay coal and oil reserves.

The annual meeting of the North Star Mining Company was held at Montreal on Wednesday.

A number of Fernie business men have taken up a large quantity of coal lands at the head of Elk river.

A number of Fort Steele mining men have located a large number of coal claims on Fording river, north of block 1588. The coal is said to be of a superior quality.

Wm. Myers has resumed work at the Watson mine. This is a silver-lead property, has a good showing of ore, and with transportation would become a producing mine. It is situated on Victoria gulch a tributary of Wild Horse creek.

Albert Banks, manager of the Kootenay Perry Creek Mining Company, is at Montreal this week purchasing necessary machinery for the development of the mine.

The Dominion government has not yet taken any action to redress the silver-lead industry, and the mine owners of Kootenay have taken no steps to reopen the mines. The season is already far advanced, and unless something is soon done, the output of the Kootenays for 1903 will be the lowest in its history.

SALE OF PERRY CREEK MINES

Badger and Red Mountain Group Sold for $12,000.

The owners of the Badger and Red Mountain group of claims have given an option on all their properties on Perry creek, to Frank Byron, of Frank, Alberta. The properties are the Badger, Red Mountain, Perry Creek and Custer mineral claims.

In giving the option Mr. John Sherwood, principal owner of the group, stipulated that a small cash payment of $500 should be made upon the signing of the option, and the balance $11,500 paid on the 25th day of July, 1903. A bill of sale of the property has been placed in escrow at the Canadian Bank of Commerce.

This deal when consummated will be the most important which has ever taken place in the vicinity of Perry creek.

The Badger and Red Mountain group is one of the best known properties in the Fort Steele district, and is no doubt the best developed property in the vicinity of Perry creek.

Mr. Sherwood has performed a large amount of development work on these claims; and has shown by his work, the faith he has in Perry creek. The surface deposits being composed chiefly of decomposed rock and carbonates, the mineral bearing quartz itself being a very soft formation as far as uncovered, the formation seems to be granite and augite, the trend of the main lead has a bearing of 20 degrees east of north, and seems to cross the creek about two miles above the old shaft. Mr. Sherwood has run nearly three hundred feet of tunnels and drifts on these claims. The ledge has an average width of 6 to 8 feet, gradually spreading out as depth is obtained. Assay returns show values from $20 to $180 in gold, and there is no portion of the ledge matter that does not carry gold in paying quantities.

King Edward's Birthday.

London, June 26.—The birthday of King Edward (who was born November 9, 1841) was officially celebrated today, it having been decided, as announced in the London Gazette some time since, that his Majesty's natal day was to be observed in London and on the home stations on June 26, this being the anniversary of his coronation and altogether a more suitable time for a military display than in November. On the other hand, as was the case last year, foreign stations will celebrate it on Nov. 9, the actual anniversary of his Majesty's birth.

The chief feature of today's celebration in London was the trooping of the colors on the Horse Guards' Parade here. This picturesque ceremony, once so common, has of late years been reserved for particular occasions and it never fails to attract a great crowd of spectators. Today it was attended by his Majesty in person, accompanied by a brilliant escort, which included many notabilities

International Railway Congress.

Brussels, June 27.—The International Railway Congress met today and was formally organized. The delegates were formally received by M. Liebaert, Minister of Railways, Posts and Telegraphs. The business sessions will commence Monday and continue through the week. The discussions will cover a wide range of subjects relating to improvements and developments in railway traffic and management.

Thirteen governments are represented at the present congress and in addition there are representatives present from leading railway companies throughout the world. The railways throughout the United States are officially represented by William F. Allen of New Jersey. The invitation to hold the next meeting of the congress in Washington has been accepted and Mr. Allen will use his best endeavors among the delegates here to secure a large attendance.

Silver-lead Quotations.

New York, June 26.

Bar Silver	52¾
Mexican dollars	41
Lead	4.12½

Market Conditions.

Nominal prices for copper are unaltered, but large quantities are constantly offered, and sales occur frequently at a full half cent lower figures.

Lead was reduced one-fourth cent to 4¼. Trade limited.

Coal and coke conditions and prices unchanged.

Local News.

J. McKechnie, Fernie, was in town on business Friday.

A large number of Matrons visited the public schools Friday

Have you registered? If not you should do it now.

R. Little was down from Wild Horse Thursday.

Government Agent Armstrong went to Fernie on official business Friday.

Mr. and Mrs. E. C. Smith were down from their St. Mary's river ranch Sunday.

The feature of the past week has been timely showers, followed by good growing weather.

J. P. Larsen accompanied by his brother C. Larsen has returned to Steele from Phoenix.

Wm. Forsyth came down from the Wild Horse creek mines Friday.

Barrister Thompson, Cranbrook, was at Steele Thursday on legal business.

C. H. Powell left Friday on a visit to his old home in Kansas. He will return in about four weeks.

Mrs. Florence M. Huntley and Mrs. Thomas Beck, Fernie, were registered at the Imperial Friday.

Northwest crop reports as gathered by the C.P.R. show a most favorable condition of affairs.

Russia is preparing for eventualities. The volunteer fleet has been ordered to keep themselves prepared to fight before the summer is out.

MATTERS POLITICAL.

Rounding Up Liberals—Courts of Revision — Conservatives Organizing.

R. E. Beattie and W. F. Gurd were at Wardner Wednesday, rounding up Liberals, and forming a Liberal Association.

An extra to the Provincial Gazette was issued on June 22, contained a proclamation fixing the date for holding courts of revision throughout the province.

These courts of revision will be held on August 31st. After August 14th no applications will be entered on the present lists now in course of preparation. Registration is to be suspended from August 14th to August 31st. On the latter date all objections against the retention of any names on the lists will be heard, and disposed of. This proclamation, therefore, allows a little over seven weeks in which to register.

There are rumors afloat that R. F. Green may seek election in the Slocan riding in the coming campaign.

S. S. Taylor is the nominee of Liberals in Nelson. His opponent is likely to be John Houston, and if so its all off with Taylor.

The Conservatives are organizing all over the province and preparing for the coming campaign. A convention of delegates from the whole province will assemble shortly in Vancouver and a plan of battle arranged. The Conservative motto is "Protection, Progress and Prosperity;" with the first secured and the other two will follow.

Among the Craft.

A regular monthly meeting of North Star Lodge A.F. and A.M. was held on Wednesday June 24, St. John night. A large number of the craft were present.

The 32nd annual communication of the M.W. Grand Lodge of British Columbia was held in Vancouver last week.

It was decided that the next place of meeting would be Rossland.

P.M., W. R. Ross, of North Star Lodge, has been appointed D.G.M. of Southeast Kootenay.

Pay Day at Coal Mines.

Saturday last was pay day at the Crow's Nest Pass Coal Mines and the magnificent sum of $115,203.80 was paid out at the three collieries for the month of May.

The pay list for each colliery was as follows.

Michel	$ 43,156.50
Coal Creek	42,950.30
Morrissey	29,097.00
Total	$115,203.80

This marks an epoch in the history of the Coal Company as it exceeds any previous monthly payment by about $10,000.

St. John's Church of England.

Services will be held in the Church of St. John the Divine every Sunday evening at 7:30, except on the third Sunday in each month when the service will be held at 11 o'clock a.m.

Holy Communion will be administered at the close of the service.

Strangers are welcome.

PRESBYTERIAN CHURCH.

Divine Worship will be held in the Presbyterian Church every Sabbath morning at 11 o'clock.

Sabbath School every Sunday at half past two o'clock.

Choir practice every Thursday evening at 7:30 o'clock.

Pastor: T. McCord.

Royal Visit to Norrland.

Stockholm, June 27.—Much interest is manifested throughout Sweden in the visit of King Oscar to Norrland, the largest and most northern province of his dominions. His Majesty, accompanied by a large suite, will leave the capital tomorrow for Boden, where he will inspect the defenses and then proceed to Norvik. The elaborate ceremony of opening the Ofoten railway will take place during the coming week, following which the King will embark on the ship Heimdal.

NEWS OF THE WORLD.

Sir Thomas to Dine with Roosevelt—Phenomenal Find of Gold No Welcome for King Edward

President Roosevelt has invited Sir Thomas Lipton to lunch with him at the White House.

A phenomenal find of gold quartz has been made in the Lardo district. The vein is ten inches in width, and specimens run $100,000 to the ton.

Dispatches from Ladysmith state that the strike of the coal miners there and at Comox have been settled. There is rejoicing among the mines.

Members of the Dublin corporation have decided by a vote of 25 to 3 not to give an address of welcome to King Edward on the occasion of his visit to Ireland.

The United States European squadron is at Kiel, and was given a most enthusiastic welcome by the Germans.

Santos-Dumont, has made a tour of Paris in his "No 9" airship.

Foreign diplomats have been instructed by their governments to leave Belgrade.

The British minister to Servia has been instructed to withdraw from Belgrade, when "Red Peter" arrives.

Wetaskiwin, N.W.T., has been visited with a most disasterous fire, the loss is estimated at over $200,000.

Shamrock III.

Boston, June 24.—Taken all in all Shamrock III is a beautiful yacht. She tends less to the scow type than either of the two previous challengers and infinitely less than American boats. She is so built that she will not pound in any kind of weather. Rough estimates indicate that she will have to give the American yacht time allowance.

A prominent yachtsman after looking at Shamrock III underbody, went over Shamrock II hauled out in the yard for a comparison says: "It seemed to me that there is much more of the elements of speed in the last challenger than are shown in the present one. Had the Shamrock II's run been carried out wider giving her a straighter side to sail on, she might have made Columbia sing a different tune two years ago.

From remarks that are gathered from different people who were looking over Shamrock III it would appear that the general opinion is that she is a beautiful boat, but there did not seem to be any indication of loss of faith in the Reliance.

The Prospector.

ESTABLISHED 1897

A. B. GRACE,

PUBLISHER AND EDITOR.

THE PROSPECTOR, is published every Saturday, and has a guaranteed circulation larger than any other paper in East Kootenay. It is all home Printed and contains double the news of any other paper in the district.

As an advertising medium it is unexcelled.

Devoted to the upbuilding of Fort Steele, the development of the vast mineral resources of the East Kootenay mining district.

Subscriptions, ... $2.00 per year

Advertising rates made known on application.

Contributions are solicited from all parts of the district, but all matter intended for publication must have the writer's signature.

The Prospector.

SATURDAY, JUNE 27, 1903.

THE convention for nominating Conservative candidates for this riding will be made up of delegates chosen by the electors of every town in the riding, and at a central place and on the same day that all other nominations are made throughout the province.

* * *

Every Conservative in Southeast Kootenay owes it to the party to do everything he can do to nominate and elect a man who will show no favoritism in public affairs, nor grant exclusive or special privileges to person or persons, and who will perform his duties, and place at all times the best interests of the district above personal or party advantages.

* * *

Certain grit newspapers are assiduous in their endeavor to discredit the McBride Government.

* * *

Premier McBride has won the confidence of the people of Southeast Kootenay by openly making the statement that not another foot of land in Southeast Kootenay can be obtained by the Canadian Pacific.

* * *

The much talked about blocks 4593 and 4594 in Southeast Kootenay are in the possession of this province, and in due and proper time will be thrown open to the public by the McBride government, notwithstanding the pipe dream published by the Vancouver World.

* * *

The statistical book of Canada for 1902 has been received from the Department of Agriculture at Ottawa. The records are full and complete and give a clear businesslike understanding of the growth and progress of the Dominion and the several provinces.

* * *

There is but one good satisfactory way to build a young town, and this way requires it to be built by the people who call it their home.

* * *

Conservatives are entering the provincial election fight in the cause of good government.

* * *

Nothing is wanted but capital and acquaintance with mining and the best methods of the reduction of ores to bring South East Kootenay to the front as one of the principal mining camps of British Columbia.

WANTED — FAITHFUL PERSON TO TRAVEL for well established house in a few counties; calling on retail merchants and agents. Local territory. Salary $18 21 a year and expenses payable $19.70 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Inclose self-addressed envelope. Standard House, 315 Caxton Bldg., Chicago.

Branch Office, 625 F St., Washington, D. C.

Conservative Platform.

(Adopted at Revelstoke, September 6th, 1902)

1. That this convention reaffirms the policy of the party in matters of provincial rights and against the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows:

"To actively aid in the construction of railways throughout the undeveloped portions of the province and the building of provincial trunk roads of public necessity.

"To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no franchise should be granted to any railway company which does not give the government of the province control of rates over the road, together with the option of purchase.

"To actively assist by aid and by the development of the agricultural resources of the province."

2. That in the meantime and until the railway policy above set forth can be accomplished, a federal railway act be passed giving freedom to construct railways under certain restrictions, granting lands, subsidies to the extent of one-half the provincial subsidies, with a commensurate mileage in lands, and allowing the importation of rails free of duty.

3. That the government township system should be brought into force as a first step in the adjustment of public utilities.

4. That a portion of every coal area in the province should be reserved for the people, and that such areas should be taken up under a system which will prevent speculation and secure development of the district by compelling actual settlers to purchase fuel.

5. That the development and conservation of the forests of the province should be given serious attention, and that steps should be taken for the general conservation of forests by guarding against the wasteful methods of cutting lumber.

6. That the development and conservation of the fisheries of the province should be given serious attention, and that representations for the protection of the salmon fisheries of the province should be vigorously pressed upon the Dominion government.

7. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any motion introduced for such a purpose.

10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for an amicable adjustment of such disputes between employers and employees.

11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable by means of taxation on the said raw products, subject to rebate of the same in whole or part when manufactured in British Columbia.

Conservative Conventions.

At a meeting of the executive of the Provincial Conservative Association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay-Boundary division is made up of the following provincial election districts: Revelstoke, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Slocan, Grand Forks, Greenwood, the City of Rossland and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:

(a) In city electoral districts, one delegate for every fifty and fraction of fifty votes polled at the provincial election held in 1900, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.

(b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1900, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.

2. The election of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts. If the city is divided into wards. At such public meetings only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to vote for delegates.

3. Two weeks notice shall be given of such public meetings at which delegates are to be elected, and nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations, through resolutions to be made at a designated central place in each electoral district and on the same day.

4. Notice of the date of public meetings for the election of delegates to nominating conventions, the appointment of such sites, and the place and date of nominating conventions, in the several electoral districts shall be published by the member of the executive of the division in which the electoral districts are situated, and issued over the name of the president and secretary of the Provincial Conservative Association.

A meeting of the provincial executive will be called at Vancouver within a month and the date for holding district nominating conventions will then be fixed.

JOHN HOUSTON,
President of the Provincial Conservative Association.

Nelson, June 8th, 1903.

MINERAL ACT 1896.

(FORM F.)

CERTIFICATE OF IMPROVEMENTS.

NOTICE.

Mammoth and Big Three Mineral Claims.

Situate in the Fort Steele Mining Division of East Kootenay District.

Where located: On Quartzite Creek.

Take notice that I, Thomas F. McGuire, F.M.C. No. B 10,235, acting for myself and as agent for Walter Van Alstyne, F.M.C. No. B 10,236, Alex. G. Robertson, F.M.C. No. B 10,237 and Wm. G. Johnston, Free Miner's Certificate No. B 10,238, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 30th day of May, 1903.

THOS. F. McGUIRE.

NOTICE.

Take Notice that sixty days after date I, the undersigned, intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described lands in East Kootenay: Commencing at a post planted at the north east corner of Lot 1474, group 1, and with north west corner of Lot 1474 and south west corner of Lot 1473 and south east corner of Lot 1473 thence north 80 chains, thence west 40 chains, thence south 80 chains, thence east 40 chains to the place of beginning containing 320 acres.

Louis Lachance

Moyie, B.C., June 3rd, 1903. 24

NOTICE.

Notice is hereby given that 60 days after date I intend to apply to the Commissioner of Lands and Works to purchase the following described lands, situate in East Kootenay, B.C.: Commencing at a post planted at the southeast corner of L. 4590 at the C.P.R. Meridian line about one-half mile west of Elko and about ¾ of one mile west of village 267 and on the north side of the land of way of the C.P.R. railway, thence north eighty chains, thence east forty chains, thence south eighty chains more or less to the said right of way thence in a westerly direction along said right of way forty chains more or less to the place of beginning containing 320 acres more or less.

JOHN MOFFAT.

Date Elko, B.C., May 14th 1903. 24

NOTICE.

Notice is hereby given that I the undersigned intend in thirty days after the first publication of this notice or as soon thereafter as application can be heard, to apply to the Assistant Commissioner of Lands and Works at Fort Steele for a License to prospect for Coal and Petroleum upon the following described lands in East Kootenay: Commencing at a post on Beaver Creek about one mile south of its junction with Kish-e-nch-na creek marked George Christian Rose's southeast corner post, thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to the place of beginning containing 640 acres.

George Christian Rose, Locator
Geo. A. Cameron, Agent

Located May 29th, 1903. 24

NOTICE.

Take notice that I claim the sum of $12.50 for keep of our bay mare, with white stripe on face, branded circle O and 70, the property of Thomas Bevens, and if that sum is not paid within thirty days from date, I shall sell said mare at public auction.

ANDREW BAXTER, Fish Lake.

Dated June 1st, 1903. 23

MINERAL ACT, 1896.

FORM F.

CERTIFICATE OF IMPROVEMENTS.

NOTICE.

Morning Fraction Mineral Claim.

Situate in the Fort Steele Mining Division of East Kootenay District.

Where located: On Huckleberry Hill.

Take notice that I, James A. Harvey, Free Miner's Certificate No. B 69533, acting for myself and as agent for Robert O. Jennings, Free Miner's Certificate No. B 69534, and John H. Kink, Free Miner's C. No. B 73923, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 5th day of June, 1903.

MORRISSEY MINES TOWNSITE

An Auction Sale of Government Lots will be held at the office of F. M. McLeod in the townsite on Thursday July 2nd, at 10 o'clock in the forenoon railway time.

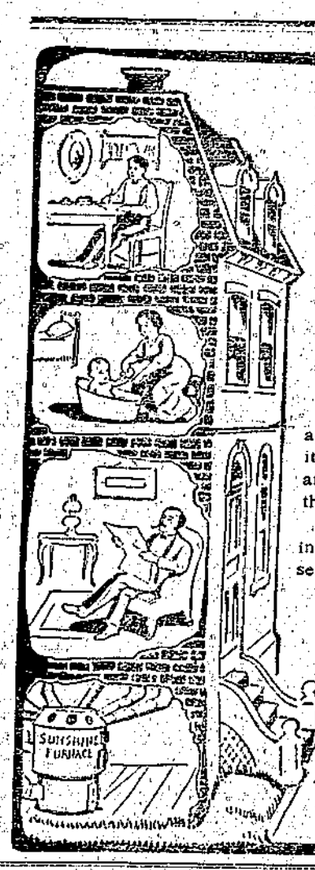
Terms one third cash, one third six months, one third twelve months.

An upset price has been placed on each lot.

A fee of ten dollars will be charged the purchaser for a Crown Grant.

J. F. ARMSTRONG,
Government Agent.

Fort Steele, B.C., June 18, 1903.



Uniform Heat

Reading comfortably on the ground floor,
Bathing baby comfortably on the second floor,
Writing comfortably on the third floor.
This, in short, is the story of every house heated with a

"Sunshine" Furnace.

The Regulators that divide the warm air are so constructed, and the pipes which carry it to the different registers so arranged, that any quantity of heat desired can be forced to the different rooms or flats of a house.

The "Sunshine" is the only furnace made in which hot-air pipes to first floor do not rob second and third floor pipes.

Burns coal, coke and wood equally well.
Sold by all enterprising dealers.
Write for free illustrated booklet.

Firing Blasts in Mines.

The use of electricity in firing blasts in mines, below as well as above ground, is becoming quite universal among the more progressive element in mining. Numerous mines have already installed the required apparatus, and reports are to the effect that it is surprising that this was not done long ago. The main features of electric blasting are safety to the miners and results accomplished. Seldom does a charge fail to fire. The entire round of holes are exploded at the same time, thus securing the combined strength of the explosion. The cost of installation is trivial.

Future Price of Zinc.

According to a number of the best posted producers of the Joplin district zinc ore is upon the eve of another volcanic action. It is their claim that the production has not kept pace with the demand. A year ago the price of zinc ore was rather discouraging to the producer and had the tendency to restrict prospecting and production, and as a result operations were retarded and the output at this time is feeling the inertia. The recent rains have also affected the production to such an extent that another upward movement in price is bound to result. Buyers seem to share this prediction, as is shown by their anxiety to secure all available ore.

Mining Timber.

One of the largest items of expense to a mining company is that of timber for both underground supports and surface equipment. So large does this one item amount to that many of the mining companies hold vast acreage of timber land and operate large saw mills with which to reduce the forests to a commercial commodity. This branch of the mining industry has increased wonderfully of late and the demand for saw mills and appliances has become very large. Most of this class of machinery is supplied by eastern firms. It would be well for the manufacturers of saw mill machinery to give the mining papers more attention.

Immense Opportunity

For Getting a Beautiful Watch and Chain Free.—No Money Required.—Every Man, Woman, Boy or Girl has the same Opportunity under our System

In order to have Dr. Arnold's English Toxin Pills placed in the hands of all persons suffering from bad health we make the following most liberal offer:—

If you will send us your name and address and agree to sell for us twelve boxes of Dr. Arnold's English Toxin Pills at 25c. per box, we will give you ABSOLUTELY FREE A BEAUTIFUL WATCH AND CHAIN in either Ladies or Gents size, or your choice of twenty other premiums such as fine sets of Jewelry, Rings, Violins, Mandolins, Tea Sets, Sateen Skirts, Cameras, etc. Remember we DON'T WANT ANY MONEY until after you sell the Pills and you don't have to sell any more than 12 boxes to get the premiums. This is a bona fide offer from a reliable concern that has given thousands of dollars worth of premiums to agents all over the country. Remember also that Dr. Arnold's English Toxin Pills are a well known remedy for all diseases of the kidney and bladder, Bright's disease, diabetes, rheumatism, nervous troubles, and female complaints, and are for sale by all first class druggists and dealers in medicines in all parts of the world. You have only to show them to sell them. You are not offering something that the people don't know. Our watches are the regular standard size for Ladies and Gentlemen in Nickel or Gun Metal Cases with handsome illuminated dials, and reliable time-keepers, watches such as no lady or gentleman need be ashamed to carry and they will be sent absolutely Free to all who sell only twelve boxes of those wonderful Toxin Pills. Write at once and be the first in your locality to get one of those beautiful watches and chain. As soon as we receive your letter or post card we will send you post paid twelve boxes, together with our Illustrated Catalogue and beautifully colored card with your name and address on as our authorized agent. Bear in mind that you will not be asked to sell any more than 12 boxes and we DON'T WANT ANY MONEY until after you have sold them. We bear all the expense and are only making this liberal offer as a method of advertising Dr. Arnold's English Toxin Pills. Don't delay, write at once and earn a beautiful present for yourself for Christmas.

Thirty days after date, I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in Southeast Kootenay: Commencing at a post marked H. Parrott's southwest corner post, planted beside the southwest corner post of H. Demer's pre-emption located about four miles north of Cranbrook, B. C., thence north 40 chains, thence east 160 chains, thence south 40 chains, thence west 160 chains to place of beginning, containing 640 acres more or less. Dated this 25th May, 1903.

22 H. PARROTT.

Why you should buy

FAIR PLAY CHEWING TOBACCO

Because it is the best quality,
Because it is the most lasting chew
Because it is the largest high grade 10 or 20c. plug,
Because the tags are valuable for premiums until January 1st, 1906.
Because we guarantee every plug, and
Because your dealer is authorized to refund your money if you are not satisfied.

THE EMPIRE TOBACCO CO., LTD

The Prospector.

SATURDAY, JUNE 27, 1903.

LOCAL NEWS.

Register your vote.

Emil Banks came down from the Dardanelles mines Thursday

George Judd returned from a visit to Spokane Wednesday.

F. L. Dalzeel, Fernie, was at Steele on business Tuesday.

G. F. Pawnell was in from Fish Lakes Tuesday.

Rev. T. McCord, Wardner, was in town Thursday.

J. C. Walker, Fernie, was in town on business Saturday last.

Right now the weather is lovely.

B. E. Taylor, Kimberley, was in town Monday.

Fort Steele strawberries are now on the market.

John Ewin, an old time prospector, has gone to the Elk river valley in search of coal.

R. L. T. Galbraith, Indian agent, was at Windermere this week on official business.

The Windermere stage arrived on time Thursday, with three passengers.

Mr. and Mrs. Bennett, Marysville, were the guests of Mrs. T. Armstrong Tuesday.

E. O. Cohoon, Toronto, was registered at the Imperial Tuesday.

John Sherwood and and F. Byron returned from Perry creek Wednesday.

A. B. Fenwick has purchased the Inman residence on Rocky Mountain Avenue.

Frank McCabe, a "coal baron" from Wardner, was in town Thursday.

The weather of late has been quite warm, with occasional showers.

Dr. King and M. King, Cranbrook, were at Steele Sunday last.

H. F. Collett returned from a visit to Windermere Saturday last.

L. W. Palmore will take charge of the Morrissey Mines post office, soon to be established

Quite a number of our young people had a delightful ride to Wild Horse creek Saturday last.

Saturday last was pay-day at the Kootenay Central railway office in Steele.

The irrepressible Dave Elmer, of Moyie, was registered at the Imperial Sunday last.

Over two hundred names were placed on the voters' list during the past week.

A. B. Fenwick was up from the ranch Monday. He predicts a heavy crop, and lots of mosquitos.

The voters' list has been cancelled and everyone should see that they get their names on the new list.

Editor Simpson of the Cranbrook Herald, Mrs. Simpson and her mother Mrs. Phelps, and M. Billings, were Fort Steele visitors Sunday last.

The Kootenay river after many ups and downs, is running quite steadily at a stage nearly three feet below the highest mark reached this year.

The outside fellow with the inside information appears to be taking a good deal of superfluous interest in the Kootenay Central railway situation.

The public school closed for the mid summer vacation on Friday. Parents and others interested were present and inspected the work of the scholars

Fred Simpson, editor of the Cranbrook Herald, has concluded to become a good "Canuck" and applied for the necessary papers which will make him a British subject.

NOW IS THE TIME TO INVEST IN

Morrissey Mines, B.C.

Speaking of the causes underlying what may be almost called a real estate revolution in this section, I might say that the process has been one of anything but artificial inflation. True, the revolution has come with comparative suddenness, but this is due the progressive policy of The Crow's Nest Pass Coal Company, to which it is indebted for such a powerful impulse.

The company's expenditures in this section's interest are now counted by the million instead of by the dollar. This is an era of great development in the Crow's Nest Pass. The marvel is not that the stimulus is here, but that it was delayed so long. The rise is substantial, and there is not the least likelihood of anything in the nature of a relapse.

On the contrary, developments will proceed and values will ascend in an accelerating ratio.

There can be no more significant sign of the coming prosperity in the Crow's Nest Pass, than the plans which the coal company are now putting into effect for greater development of their properties, and the enormous demand for the product of their mines and coke ovens.

As the population increased in Pennsylvania with the development of the great coal properties there, so will it increase in the Crow's Nest Pass.

Only those who have watched the development of the coal and coke industries in other sections, can grasp the certainties of a future not far off, and are taking advantage of the conditions here by investing at the right time in the right place.
