NOTICE

Take notice that I shall be present at noon on March 16th in the Union Hotel, Revelstoke Station, and will settle all accounts against the Orphan Boy Gold Mining Co., and that all such accounts are required to be put in by that date. Further notice is hereby given that the Orphan Boy Gold Mining Co. will not pay any account or accounts contracted by F C. Whitney.

mr3tf J. W. HASKINS.

NOTICE

As I intend to leave town, owing to ill health, about the 1st of March, I hereby request that all debts due me be settled before that date, after which they will be placed in the hands of a collector.

feb13tf W. FLEMING.

WANTED

Situation, by general blacksmith. Address "Blacksmith," care of HERALD, Revelstoke, B. C. 2tf3t

NOTE AND COMMENT.

The hands in the C.P.R. shops and yard here are very indignant at the notice given them on Monday that the company still considered the question of payment by the day or month as unsettled and under consideration. A former kick on the part of the men resulted in payment by the day for February. On this plan men, who were formerly getting say $40.00 per month and no overtime, were beginning to draw over $50.00 This seems to have caused some uneasiness in the official world of the company, with the result that the concession has been practically withdrawn. THE HERALD does not wonder that the men are worked up over the prospect of a possible reversion to the former state of affairs, and entirely sympathizes with them, as there can be no doubt that the system of day payment, where so much over time and night work is demanded is the fair and just one.

CORRESPONDENCE.

Mr. Haggen on Himself.

TO THE EDITOR OF THE HERALD.

Sir,—Is not your main objection to incorporation the strongest reason in favor of it? You urge that the first thing to be done is to clear up the land titles. Is not a corporate body, vitally interested in the question, the most powerful lever for bringing this about? In Rossland a similar difficulty exists, but Rossland is being incorporated, and you will see that the city council will soon have the question of titles settled. I agree with you that the qualification clauses of the Bill are wrong, but a resolution from the people of Revelstoke would probably have secured the desired amendment in the event of incorporation having been adopted. The majority have decided otherwise, and I, for one, believe in the minority loyally submitting to the decision to the decision of the majority.

Now, about your report of the meeting. I regret having had to over-rule your reporter's attempt to dictate the order of business as this is evidently the reason for his ill-natured report. My position as chairman was a difficult task owing to a want of knowledge of the rules of debate on the part of certain speakers, and also to the feeling displayed. On my putting the issue to the meeting no one voted for the amendment, but seven for the motion, so that the former was lost. In watching the interruptions I overlooked calling simultaneously for the negative vote, but on this being pointed out I put it as soon as circumstances would admit. About 14 voted against, so the motion was lost. Yet you go out of your way to say: "After some hesitation he consented to adopt this view of the case." You will soon find that I have very little hesitation about adopting anything that is right and in the public interest; and at the meeting in question my desire as chairman was to give all parties fairplay.

I am, etc.,
E. A. HAGGEN.

Revelstoke, March 2nd, 1897.

The Coast Line Shelved.

TO THE EDITOR OF THE HERALD:

Sir,—The two marked copies of the Victoria Colonist and the Daily News-Advertiser will no doubt already have come to your notice—if not, I think they should as your city is vitally interested in the construction of a competing railway from the Crow's Nest Pass to the Coast, and its branches. This shelving is one of the most impudent political jobs perpetrated with British Columbia as the victim of the eastern wire-pullers; and this with a Liberal government.

The writer trusts that you will take the question up in the same zealous way as the Colonist, so as to make the Dominion Government realize that British Columbia first of all belongs to the British Columbians, and that while the latter are willing to let the east participate fully of its feast of wealth and plenty, they yet insist on having a prior claim.

BRITISH COLUMBIA.

Victoria, March 1st, 1897.

THE GREAT HORN GROUP.

A Wonderful Ledge Believed to be the Mother Lode of Lardeau River.

This important group of claims is situated on the North Fork of the Lardeau River. It has been stated by experts that they believe this ledge to be the mother lode of the Lardeau River country. The ledge is from 20 to 40 feet wide, being contact of slate and lime and is traceable on the surface for seven or eight miles, having been located at one end on the Fish Creek, and at the other on the Duncan slope. There are in the neighborhood of 25 claims located on the ledge, all of which have good surface shewings. The lead is a galena proposition, carrying silver, lead and copper and a small percentage of gold. A number of the claims have been bonded to a syndicate, who intend to do considerable development work in the spring, which will no doubt prove beyond peradventure the value of the property.

DONALD.

Rich Discoveries in the Blabeerry District—Musical and Dramatic.

From Our Own Correspondent.

The Donald Amater Dramatic Club have decided to put on "Not such a fool as he looks," an eccentric comedy, in three acts, by Henry J. Byron for Easter Monday, the net proceeds to be presented to the Ladies' Aid of St. Peter's church. The following is the cast selected:

Daniel Murgatroyd, money lendor.....J. Stirrett
Fred Grantley, his clerk.....P. W. Patmore
Sir Simon Simple, bart, his ward.....S. Ruttan
Mr. Mold, his messenger.....T. H. Dunne
Felicia Craven, his neice.. Mrs. J. E. Patmore
Mrs. Merton.....Mrs C. Kimpton
Mrs. Mould, Murgatroyd's washerwoman.....[Mrs. Dunne

Messrs. Chas. Baines and W. G. Neilson purchased quarter interests in two of the Illecillewaet leading prospects last week.

We are expecting a big rush of prospectors in our town this spring, as very favorable indications have been located in the Bluewater and Blueberry districts, especially in the latter, a general assay going much higher than Illecillewaet's leading mine.

Hewitt Bostock, M. P., passed through here last Wednesday en route for Ottawa, but owing to being pressed for time he was unable to stop off.

Some of the ladies are trying to organize a Concert and Glee Club and give a series of entertainments through the summer months, charging a small admission fee and giving the surplus to a charity fund. We hope that they may be successful as we have a lot of good talent in our small town, and an undertaking of this kind would be thoroughly appreciated by the music loving public. This Glee Club together with the Dramatic Club's entertainments would make our long summer evenings far more pleasant.

Thos. Needham, who had the misfortune to loose a part of his thumb in a crane at Revelstoke the other day, is progressing favorably.

Con. Barney Nason says "it is a boy this time."

Bob Barker has joined the benedicts, and Mr. Whaley of Alton's bridge gang follows suit next week.

A musical and magic lantern entertainment was held at the Oddfellow's hall on Thursday evening to a full house, in aid of the private school here, in which the pupils took part very creditably to their teacher Miss Pitts. The drill, marching and countermarching, was quite picturesque and shewed the pains taken with these small children. Mr. L. R. Johnson, locomotive foreman, took charge of the lanterns and displayed a series of nearly 60 views, depicting a trip through greater London, and winding up with a few views of Canada. Most of the views were explained to the audience, and an enjoyable and profitable evening was spent by all.

ILLECILLEWAET.

Local and Personal Mention from Our Next Door Neighborhood.

From Our Own Correspondent.

Sandy McRae has just returned from a business trip to Donald.

The indications on the claim being opened up by S. and F. Anderson are said to be good.

The population of our town has been augmented by the arrival of Mr. Geo. Bristol and family from Palliser. We expect more comers in the near future.

Walter Scott, J. P., is around again.

We are mourning the departure of Jas. Cullen (Cassiar), who is seeking new pastures.

The tramway and concentrator at Laurie are fast nearing completion.

Honor roll of the public school. Deportment—Jessie Stewart 100; John Stewart, 99; Sandy McRae, 97. Work—John Stewart 81; Nellie Marshall 76; Breta Peterson, 72; Alice Beyer 70.

MINING SENSATION.

Secretary of "Orphan Boy" Arrested For Forgery of Stock, Which he Sold Below Ruling Prices.

Considerable excitement was manifest in mining circles, this morning, over the arrest in this city last night, of F. C. Whitney of Revelstoke, secretary of the Orphan Boy Mining Co. The warrant was issued on information sworn out by J. W. Haskins, president of the company, the charge being the serious one of forgery. It appears that Mr. Haskins had gone to San Francisco to purchase a new stamp mill for the company, and, about the same time, Whitney was married, and went on his honeymoon trip. Subsequently, he went to Spokane, and had a large number of stock certificates printed, representing nearly 35,000 shares in the "Orphan Boy," to which, it is alleged, he appended the president's name, as well as his own as secretary. These he sold, through brokers and others, at about 4 cents per share. This, alone, as then price of "Orphan Boy" stock was 15 cents, was enough to excite suspicion, as it caused the price of the genuine stock to drop fifty per cent.

On his return from the south, Mr. Haskins happened to see some of these spurious share certificates in Vancouver, and at once pronounced them forgeries, and clumsy ones at that. He then ascertained that Whitney was in this vicinity, and, tracing him up, he arrived in the city, yesterday evening, and located him here. He then swore out a warrant for Whitney's arrest, and Sergeant Dillabough executed the same, and took his prisoner to Vancouver on the nine p. m. tram.

Innocent purchasers of the forged stock will watch with interest the future proceedings.—Columbian.

ABSTRACT OF RECORDS.

From the Lardeau Mining District for January and February.

AGREEMENTS FOR SALE.

Between H. N. Boss, J. C. Wagner and G. A. Bigelow of the first part, and J. E. Boss of the second part for the Hunter & Trapper mineral Claims.

Between D. Dove of the first part and G. Clark of the second part.

Between J. Robertson of the first part and S. C. Chezum and D. R. Myers of the second part for the Kitsap mineral claim.

Between A. Erskine and R Glendinning of the first part and F. J. Smith of the second part for the Minnehaha, Quiqueon, Quixote and Algoma mineral claim.

BILLS OF SALE.

John Wright to Mrs. J. Crawford a half of one twelfth interest in the Ottawa mineral claim.

John Wright to F. T. Abey one sixth interest in the Ottawa mineral claim.

F. T. Abey to R. N. James a half of one twelfth interest in the Ottawa mineral claims.

J. S. Dolcott to B. C. Ian Houghton one ninth interest in the Excelsior and Iron Cap mineral claims.

L. P. Peterson to H. N. Boss one third interest in the Hunter & Trapper mineral claims.

H. N. Boss to J. C. Wagner one sixth interest in the Hunter & Trapper claims.

J. C. Wagner to R. Dove one sixth interest in the Hunter & Trapper mineral claims.

L. P. Peterson to J. C. Wagner one third interest in the Trapper mineral claim.

R. Dove to J. E. Boss one sixth interest in the Hunter mineral claim.

R. Dove to J. E. Boss one sixth interest in the Trapper mineral claim.

J. Dixon to D. Hackney full interest in the Iron Mask No. 2 mineral claim.

H. B. Cosar to D. Hackney full interest in the Mammoth No. 2 mineral claim.

D. Hackney to J. R. Cassin one half interest in the Carbonate King, Iron Mask No. 2 and Mammoth No. 2 mineral claims.

L. P. Peterson to H. Boss one third interest in Trapper mineral claim.

J. C. Wagner to H. Boss one third interest in Hunter mineral claim.

J. Wright to Mrs. Crawford full interest in the Dublin mineral claim.

J. Wright to F. T. Abey one quarter interest in Belfast mineral claim.

Power of attorney from J. Carlyle to C. Molson.

E. W. Nettleton to H. E. Graves one sixth interest the Goldsmith and Surprise mineral claims.

LOCATIONS.

Juvenile mineral claim located by D. G. Hackney.

Belfast mineral claim located by J. Wright.

FERGUSON.

Mining Notes From the Centre of the Trout Lake District.

They have started a winze on the crosscut at the Sunshine.

Andy Ward is packing to the Silver Cup and Sunshine claims.

Andy Craig is hauling ore from the Great Northern to Arrowhead.

The ice is good from Thomson's Landing to Arrowhead.

THE CORLISS ACT VETOED.

INSURRECTION OF GENDARMES IN CRETE.

The Mutineers Fire on Their Officers—The Incorporation Act in the Provincial Legislature—The Vancouver, Victoria and Eastern Railway.

(SPECIAL TO THE HERALD.)

WASHINGTON, March 3.—President Cleveland today sent to the House of Representatives a message vetoing the Immigration Bill. In this message, which is a very lengthy one, he first deals with the proposal to add to the classes excluded from the United States all illiterate persons over 16 years of age, save the parents or grandparents of qualified immigrants.

DEATH OF GEORGE THOMAS.

Sudden Taking Off of a Well Known and Popular Railway Man.

NELSON, Mar. 1.—Geo. Thomas, formerly baggage-man at Revelstoke and agent at Robson and Three Forks died in hospital here today of pneumonia, after a brief illness. He leaves a wife and one child, who are visiting in the east.

NELSON, March 3.—The body of the late George Thomas, of Nelson, left by express yesterday for Glen Huron, Ontario, where his wife and friends reside.

THE NEW YORK MARKET.

Today's Quotations in the Metal Market.

NEW YORK, Mar. 3.—Bar silver, 64¼; Lead, strong, brokers $3.05; exchange $3.32½ to $3.37½.

THE PROVINCIAL LEGISLATURE.

The House at Work Incorporating Rossland, Nelson and Grand Forks.

VICTORIA, March 3.—In the house today, on consideration of the report from the committee of the whole on the bill to expedite the incorporation of Rossland, Nelson and Grand Forks, Mr. Rogers moved an amendment to the effect that the borrowing by-laws which the council are for this year only to have power to pass, without submission to the ratepayers, shall be subject to the approval of the Lieutenant Governor in council. Attorney General Eberts supported the proposition, which Mr. Cotton and Mr. Semlin strongly opposed.

Premier Turner said that he thought it right that the government should have the control until the municipal act comes into force next year.

After further discussion, Mr. Rogers' proposition was defeated on a vote of 9 to 17.

Another amendment was then moved by Mr. Rogers, providing that the cities before operating their own waterworks, must acquire any such works at present existing.

Mr. Cotton showed the impropriety of such an addition to the bill, and after a non-committal address by the Premier, the amendment was defeated.

The Attorney General revived his motion negatived in committee to include lot 150 within the incorporated limits of Nelson, and this time it was adopted.

The House adjourned at 4:20 p. m.

The Bill introduced yesterday by Mr. Booth, names as the incorporators of the Vancouver, Victoria and Eastern Railway and Navigation Co., Messrs. Wm. Templeton and Wm. L. Nicol, of Vancouver, Geo. L. Milne and J. T. Bethune, of Victoria, and Alex. Ewen, of New Westminister.

THE SITUATION IN CRETE.

The Gendarmes Mutiny and Imprison Their Officers.

CANEA, March 3.—The Gendarmes composed of Albanians and Bosnians yesterday refused to go on duty and today they seized their officers and imprisoned them in the Governor's palace, the reason being it is claimed that the officers had received their pay and intended to leave the Island. The officers tried to escape and the mutineers fired upon them.

Revelstoke Markets.

Retail—Oats, $30 per ton; butter, tub, dairy 22c., creamery 23c.; potatoes $30 per ton; hay, timothy and clover, $25 per ton; wild hay, $17; beef, by the carcase, 6½c.; eggs, by the case, 23c. per doz.

REVELSTOKE HERALD,
Revelstoke, B. C.

WEDNESDAY. MARCH 3, 1897.

WILL IT WORK

The proposal of Lady Aberdeen to celebrate Her Majesty's diamond jubilee by the collection of one million dollars for the formation of the Victorian Order of Home Helpers, has not been received with enthusiasm by a large section of the Eastern press. One paper doubts the wisdom of spending a million dollars to increase the supply of Canadian nurses, who are now so plentiful that they must emigrate to the United States and be sent back C. O. D. in due course by Mr. De Barry and other immigration alienators. Another paper claims that what we really want is a society for the purpose of amalgamating men and women into one human race, leaving the "higher ideal" to look out for itself. A facetious writer in another journal suggests the formation of a Victorian Order of Henpecked Husbands as a sort of sister or brother society to the Home Helpers, with His Excellency the Governor General as President. Even the National Council of Women has not been free from criticism, and the statement has been made that its usefulness will depart with the present Governor General and his family. The Toronto Telegram has the following candid opinion, which will doubtless draw down on its devoted head the wrath of many devoted adherents of the Aberdeen movements:

"There are a great many Canadians who believe that this National Council of Women is devoid of usefulness, unless a capacity for supplying ladies with official titles and excuses for attending conventions is proof of usefulness. Canadians, or at least many Canadians, are just a little wearied at this half concealed assumption that they are an honest peasantry to be urged to a higher field of thought and action by the kindly stimulus of aristocratic patronage. The sixtieth anniversary of Queen Victoria's coronation is in danger of being turned into a burlesque by the formation of the Royal Order of Victoria Home Helpers. The idea may become a fad, but its promoters are inspired mainly by the approval of a distinguished personage, who must shortly leave the country, and when her active interest is withdrawn, the foundations of the royal order will disappear."

One thing at all events is certain. Lady Aberdeen means well, and deserves credit for her efforts to improve the condition of the people of Canada. But whether she will succeed in achieving that desirable object by the present means is altogether another question.

Mr. T. O. Davis, M. P. protem for Saskatchewan, has allowed his charges against the Prince Albert Electric Light Company for failing to hang out the necessary shingle to drop. Mr. Davis has so little faith in the great unpaid and as a rule unqualified magistracy that he has remedied the evil to the best of his ability by having himself appointed as Justice of the Peace. His antagonists may seek to deprive him of the Justice, but they should certainly make him keep the Peace.

A certain personator at South Brant on polling day, was caught in the act and chased into the Liberal committee room by a constable who found on the person of his prisoner a bottle of liquor which was pronounced by a fairly good expert to be whiskey. For the defence it is suggested with a flavour of North Western innocence that the contents of the bottle were methylated spirits and peppermint for the purpose of thawing out gas pipes. This is rather rough on the vocal organs of the prohibitive orators who frequented the committee rooms.

WAR SCARE

BILL INTRODUCED INTO THE AMERICAN SENATE

THE KINGDOM OF SPAIN

Is the Country With Which the Declaration Deals — Senator Sulzor, of New York, Behind the Movement—A Memorable Day for Yankeeism

WASHINGTON, February 26. — The Senate was storm swept today by such a passionate debate, such extraordinary demonstrations in the crowded galleries, and such dramatic personal exchanges between conspicuous figures of the Senate as to make the day one of the most memorable in the annals of the upper branch of Congress. Cuba was the theme of discussion. Representative Sulzor, of New York, introduced in the House a bill declaring war between the Kingdom of Spain and her colonies and the United States of America and their Territories, and that the President is authorized to use the whole of the land and water forces of the United States to carry the same into effect, and to issue to all private armed vessels for the United States commissions or letters of marque and general reprisal in such form as he shall think proper, and under seal of the United States, against all vessels, goods and effects of the Government of the said Kingdom of Spain and subjects thereof.

NOT READY

FOR PROVINCIAL AUTONOMY SAYS PREMIER HAULTAIN

RECOGNIZES CONCESSIONS

Made to the North West Territories in Years Past—He is Against Adhering Eastern Assiniboia to Manitoba —Will Ask for an Executive Council

OTTAWA, February 26. — Premier Haultain is in the city on business with the Government in connection with Territorial affairs. He recognizes the concessions made to the Territories in late years from the constitutional standpoint, but being asked what his view was with regard to complete provincial autonomy he replied that the Territories were not ready for it. Neither is he in favour of any portion of the Territories being added to Manitoba. He points out that all the machinery of government in the North West now applies to the Territories as a whole, and that if a portion of Eastern Assiniboia were to be transferred to Manitoba it would destroy the system of government as it now exists. Premier Haultain will ask for a change in the North West Territories Act to permit of the appointment of an Executive Council for the Territories in place of the Executive Committee, such Executive Council to be chosen by any member of the Legislature who may be entrusted by the Lieutenant Governor with this duty.

FOR THE QUEEN'S JUBILEE

Scheme to Send Over Twenty-Five Canadian Born Members of the Mounted Police — Their Splendid Mounts—A Good Ad. for Canada

LONDON, February 25.—The Canadian government is being strongly urged by friends of the force here to include a detachment of the North West Mounted Police in the representatives of the Canadian forces which it is said will be sent to London for the Queen's jubilee celebration. Twenty-five Canadian born members of this magnificent military force, mounted on their splendid Western bred horses, which Alberta can supply from her ranges in any number for the Imperial army, would be the best advertisement Canada has yet had in England.

A TUSSLE IN THE CABINET

On Matters Pertaining to the Control of the Crow's Nest Railway—Blair is for Government Construction—Others for a Transcontinental Line

OTTAWA, February 25.—It is understood that the Government's tariff bill will retain the principle of protection by placing England and other parts of the British Empire on a "most favoured nation" platform.

CROW'S NEST RAILWAY TALK.

OTTAWA, February 25.—There is a lively tussle going on in cabinet circles over the Crow's Nest Railway charter. Hon. A. G. Blair, since his visit to the Kootenay country, has become an ardent advocate of Government construction and operation of the road, and he is therefore opposed to the Canadian Pacific Railway Company securing it. On the other hand it is apparent that a majority of the Ministers are in favour of a big transcontinental company building the proposed line.

Always a Winner.

She—Are you very lucky at cards?
He—Very lucky. I always win.
She (archly)—How about love?
He (promptly)—Just as lucky. I always lose.

Expeditionary.

Giles—So he's broke again. How in the world did he go through all his money?
Merritt—He didn't. Somebody went through him.

In the Watches of the Night.

He—I wish I had a gun. Evidently that cat thinks he can sing.
She (drowsily)—Very likely. He ate the canary this morning.

That Was His Business.

First Undertaker—I had to bury a fat man to-day.
Second Undertaker—That was quite an undertaking.

The Other Way Around.

Wobbling Will—Did yer find er dawg at ther house on the hill?
Hungry Hank—He didn't give me er chance ter.

THE POWERS

CAME TO DECISION ON CRETAN QUESTION

AN AGREEMENT ANNOUNCED

Salisbury and Balfour Give the Terms to Parliament Today—The London Chronicle Excited—Greeks can do Their Own Fighting, George Says

LONDON, February 25.—In the House of Lords today Lord Salisbury replying to Lord Dunraven on the Cretan question stated that the following declaration of policy had been forwarded to the courts of the great powers by England:

1. The establishment of an administrative autonomy in the Island of Crete as a necessary condition.

2. Subject to the above condition Crete ought in their judgment to remain a part of the Turkish empire.

3. Turks and Greeks shall be informed by the powers of this resolution.

4. If Turkey or Greece should, when required, persistently refuse to withdraw their military and naval forces from the Island, then the powers should impose their decision by force upon the State so refusing.

LONDON, February 24.—A despatch to the Daily Mail from Athens says: "The Greek army is leaving Platania, fearing the capture of their guns by the foreign marines.

It is reported on good authority that the Sultan has ordered 17 divisions of the army to be mobilized for the purpose of enabling him with the regulars to put 200,000 men in the field, 80,000 each against Greece and Bulgaria and the remainder as a reserve.

The King of Greece has published a message enjoining the people of his country to remain calm and dignified and to repose confidence in the government. This message becomes necessary on account of the growing excitement since the bombardment.

Today's special despatches indicate little change in the Cretan situation. The foreign squadrons still practically blockade the island by preventing any communication with the camp.

LONDON, February 24.—Hon. George Goschen, first lord of the admiralty, speaking tonight announced that the powers had arrived at an agreement concerning Crete, which he said Lord Salisbury and Hon. A. J. Balfour would explain fully in parliament tomorrow.

The Chronicle in an article this morning in big type and a scare heading calling on the nation to take active steps in the Cretan situation. Says the Chronicle: "Organize, agitate, and denounce the dishonour of England's flag by its association with the Sultan and the coercion of Greece."

NO FOREIGN AID

CANEA, February 25.—King George of Greece has sent the following message to the Greek army: "The king in the present critical circumstances relies for aid on his nation, the officers and the army, and upon no foreign army."

THE GREAT BRITISH EMPIRE

A correspondent has compiled for the Kingston Whig the following the following array of facts to illustrate the vastness of the British empire:

Half the ships in the world are British.

The best of them can be converted into ships of war in 48 hours.

We have a million soldiers in India. Some of them have been brought to Malta.

As the sun rises, the British drum beat follows it round the world.

We can travel entirely around the world without leaving the British empire.

The British navy is as large as that of France, Germany and Russia combined.

There are 400,000,000 of people in the British empire.

It is said that our Queen would have to live another 70 years to enable her to see them all pass before her night and day for all that time.

She is the greatest Mohammedan ruler in the world.

God save the Queen is sung in 20 languages.

The total value of the United Kingdom is now said to be $70,000,000,000.

Added to this several thousand millions are invested outside of the country.

We own one fourth of the railways in the United States.

And half the railways in South America.

We own the largest part of North America, that is, Canada.

Olive Schreiner, authoress of An African Farm, says that if any big misfortune were to happen to England, 60,000,000 of English speaking people in other countries would leap to their feet.

There are 1,000 miles of tramways in the British isles.

Crœsus, of ancient times, possessed about four millions of our money.

Neither of the ancient empires, like that of Persia, Greece or Rome, were equal in size and wealth to the British Empire of today.

London is as large as New York, Paris and Berlin combined.

It is 90 miles in circumference.

There are as many inhabitants as there are in Sweden.

Each morning there are as many men go into London on business as there were who fought in Waterloo in 1815.

It costs five millions a year to provide their dinner.

Eleven millions a year are spent on charitable objects.

There are 88 hospitals.

EXTRA SESSION OF U. S. SENATE

WASHINGTON, February 25.—The President has issued a proclamation calling an extra session of the Senate to convene at 12 o'clock on March 4.

BUYING RAILS

The C. P. R. Makes a Large Purchase of Steel Rails.

PITTSBURG, February 25.—The Canadian Pacific Railway, it is stated on good authority, has purchased sixty thousand tons of steel rails. The purchase is one of the largest ever made by a single line in one lot.

Kidney Disease

Some Symptoms and Results:

A tongue with fissures shows kidney derangement of long standing.

When the gums are obscured and recede from the teeth, running sores on any part of the body, ears discharging, inflamed eyelids, salt rhenm, erysipelas, blood poisoning and most cases of dropsy and eczemas indicate refuse left in the body by inactive kidneys. Shaking palsy, a jerking of the eyes or head as seen in the aged, St. Vitus dance, locomotor ataxia and many cases of rheumatism are caused by a tension of the nerves caused in the beginning by the kidneys.

Bright's disease and diabetes, opposite conditions, have their cause in the kidneys.

Catarrh and other diseases of the bladder are caused by the kidneys doing defective work, leaving the urine in an inflammatory state.

Gravel, weak ankles, hands and feet always wet with perspiration, and many cases where there is a lack of perspiration, are abnormal conditions caused by abnormal kidneys.

Varicocele, varicose veins and milk leg originate in defective kidneys.

Curvature of the spine, in old or young, and gout are caused by deposits from the fluids of the body, which should be carried away by the kidneys.

A cough or a fever may come from congested kidneys. Constipation and female troubles may arise from the same source.

Paraplegia is often the result of weak kidneys. Paralysis of half or the whole body may have its first cause in the kidneys.

We see here quite a formidable array of troubles which may be originated or fostered by these prominent organs of excretion and and we can readily see the great necessity for keeping this avenue for the expulsion of effete matter, highly charged as it is with chemical poisons, free and open.

Preventative and curative treatment for the kidneys should be These pills are now allowed by physicians and people who should know to be the best and leading kidney pill upon the market. They can hardly be called a patent medicine because their formula has been submitted to the leading physicians and are themselves the result of years of study of one of New York's most pronounced and successful doctors.

For that dead tired gone feeling there is no tonic equal to

A person feels languid, useless, tired, fit for nothing, a feeling as if one would fall all together into a heap and it is a sign of a run down constitution. When people are that way there is only one really sure and positive tonic and that tonic is SIMPSON'S KIDNEY PILLS. Get them and take no others. Unscrupulous people will try and persuade you to take something else. Be suspicious of such persons.

FREE MINER'S PRIVILEGES

Extracts from Mining Laws of British Columbia

1. Any person over 18 years of age or any joint stock company, or foreign company, can obtain a free miner's certificate, for one or more years, paying a fee of $5.00 for each year.

2. A free miner can at any time obtain a certificate commencing to run at the expiration of his then existing certificate, by paying the regular fee and producing such existing certificate.

3. A free miner's certificate is not transferable.

4. Any person or joint stock company, mining or working on a mineral claim without having taken out a free miner's certificate is liable to pay a penalty not exceeding $25, and costs.

5. No person, or joint stock company, can hold any right or interest to or in any mineral claim, unless he or it shall have a free miner's certificate unexpired.

Should any co-owner fail to keep up his free miner's certificate, his interest becomes vested in his co-owners.

A shareholder in a joint stock company need not be a free miner.

6. A free miner, during the continuance of his certificate, but no longer, has the right to enter, locate, prospect and mine upon any waste lands of the Crown, for all minerals other than coal.

7. A free miner may hold not more than one mineral claim on the same vein or lode, except by purchase.

8. A free miner may kill game for his own use while prospecting or mining.

9. A free miner shall have all the rights and privileges granted to free miners by the "Placer Mining Act."

10. A free miner's interest in his mineral claim—save as to claims held as real estate—is a chattel interest.

LOCATING MINERAL CLAIMS.

1. A mineral claim must not exceed 1,500 feet in length by 1,500 feet in breadth.

2. All angles must be right angles.

3. The claim must be marked by two legal posts, numbered 1 and 2, placed as nearly as possible on the line of the lode or vein, and not more than 1 500 feet apart.

4. A legal post, marked "Discovery Post" must also be placed on the lode where it was discovered.

5. The line from 1 to 2 must be distinctly marked by blazing trees, cutting underbrush, or planting posts.

6. Locations made on Sunday, or any public holiday, are not for that reason invalid.

STILL IN POLITICS

GEORGE E. FOSTER'S VIEWS ON PUBLIC QUESTIONS

He Deplores the Present Attitude of the United States and Thinks it Will Lead to Retaliatory Legislation—Canadian Smelters

Rossland Miner: Hon. George E. Foster, ex-Minister of Finance, paid a visit to the Centre Star mine Tuesday, having gone through the Le Roi and War Eagle works the day previous. When he returned Tuesday afternoon from his trip he was asked to give his opinion of those great properties. "I cannot say anything at the present time," was his reply. "I am making a trip through the Bounday country and the Rossland, Slocan and Nelson districts, gaining all the knowledge I can of mines and mining from conversations and personal observations, and cannot express any decided opinions with reference to my impressions of the country until I have finished my tour. Then I shall be prepared to give my views, and from what I have gleaned up to the present I do not think they will be unfavourable to the country."

"Then for the time being you have given up politics for mining?"

"Well, one is bound to have one's interest captivated by the chief interest of the locality, and here that undoubtedly is mining. Of course I retain my interest in politics, and I have soon to return to Ottawa to take up the business of the session."

"What do you expect will be the leading question of the coming Parliamentary session?"

"As to what course legislation will take do you mean? That is as undecided in my mind,as I think it is in the mind of the Government itself," he said with a smile.

A RETALIATORY TARIFF.

"Is it likely that attempts will be made to retaliate on the United States in tariff matters?"

"I think it is. We may have the recommendations of the United States ways and means committee to Congress to guide us in that respect, but I do not look for a completed tariff to be passed by Congress during our session. The probabilities are that there will be a long discussion, if not in the lower House in the Senate. The last tariff revision took nearly two years. Of course this will take a much shorter period.

"But I think enough is known of the temper of the dominant party in the states to conclude that the tariff passed will be very closely on the lines of the old McKinley tariff. The protection which was somewhat scaled down in the Wilson bill on lumber and agricultural products, and on metals, will, without doubt, be very considerably raised. It goes without saying that wool will no longer be on the free list, and a corresponding addition will be made in the rates on manufactured articles."

DISGRACEFUL LEGISLATION.

"And what about the alien clauses of the immigration bill, Mr. Foster?"

"The alien clause is simply a disgraceful piece of legislation for any country. The thing that I most regret is that the self respect of the Canadian people will very likely drive them to legislation in kind, which I would deplore, and yet hope will not become necessary. But there comes a time when the self respect of a people can no longer permit it to be legislated against, when it must stand up for its own people and give as good or as bad as it receives.

MEANS CANADIAN SMELTERS

"In some respects the ways and means committee's proposal to restore the McKinley duty on lead will strike at the interests of United States smelters. In that respect they would rather be without it, but I am afraid the tariff will be persisted in. If it is, Canada must do her own producing and market her own product. The great bodies of ore that are developed, the coal resources we have close at hand, and the different varieties of of ore that are and will no doubt continue to be found, will make it possible to do our own smelting and refining and have all the profits that accrue therefrom."

Edward Little, a carpenter, was frozen to death in Winnipeg on Monday night.

Hon. Dr. Borden is reported to be about to resign his portfolio. Since his recent accident his health has been very poor.

Canada's trade for 1896 was $230,000,000. Her exports to Great Britain amounted to $66,000,000, and to the United States $44,000,000.

Blondin, the rope walker, is dead. He was 73 years old, was the first man to cross Niagara Falls on a rope, and never used liquor or tobacco.

One of the greatest drawbacks to the Rossland camp is the low grade ores, which under the present conditions will not pay for smelting. W.R. Rust, a smelting man of Tacoma, has been experimenting, however, and he claims that by a new method of concentrating these ores can be worked at a profit and that $6 ore would pay handsomely.

In his examination before the Parliamentary committee on Monday Cecil Rhodes stated that he did not see any difference between the cases of Crete and the Transvaal. "Except the Cretans, who have the popular sympathy of England, are foreigners claiming civil rights, whereas in Transvaal they were our countrymen seeking civil rights."

NEW MINING LAWS

Some Features of the New Companies Act in British Columbia—Registration Charges

The British Columbia Legislature is engaged in an effort to improve the law regulating mining and other companies. The Attorney General has introduced an act, containing among other radical features, a clause requiring ten per cent of the capital of a company to be paid up before a charter is granted.

There is very general opposition throughout the province to the 10 per cent clause. When spoken to about the matter the Attorney General indicated this provision would not be adhered to as there was a general expression against it.

Another provision is that every foreign company shall have a registered office in British Columbia and shall register the name of its agent or manger. All companies will be compelled to prepare a balance sheet once a year showing receipts and expenditures for the year previous and this balance sheet shall be printed. These balance sheets are to be very complete in detail.

The new rate of charges for registering companies will be one-tenth of one per cent on capitalization. Prospectuses are to be prepared with much greater care and detail than heretofore and there is a severe penalty for any false representation or deception.

Lieut. Governor Mackintosh in declining the invitation of Rossland citizens to run for the mayoralty says: "I am reluctantly obliged to decline; first, the measure of incorporation contains a proviso as to residence, rendering me ineligible. Without attempting to intrude my opinions, I would urge as an issue of paramount importance the policy of drainage and sanitary measures practically and scientifically applied; I would advise a system of rigid civic economy; the selection of faithful representatives; the exclusion of sectional and personal prejudices, and the adoption of stringent rules for the guidance and regulation of the city council. Such safeguards should ensure a future of progress and prosperity to the corporation."

CROW'S NEST

A PROPOSITION FROM THE CANADIAN PACIFIC

CONTROL IS YET DOUBTFUL

Hon. Joseph Martin Retained by the Company—Strenuous Efforts Being Made on the C. P. R.'s Behalf—Some Different Opinions Expressed

OTTAWA, February 24.—The Canadian Pacific Railway asks the Dominion Government $10,000 per mile toward the construction of the Crow's Nest Pass Railway, or a cash bonus of $5,000 per mile towards construction and a loan of $20,000 per mile at a low rate of interest.

The Canadian Pacific Railway's offer gives shippers into Rossland a concession, but this offer does not apply between Eastern Canada and other parts of British Columbia.

Hon. Joseph Martin has been retained as counsel for the Canadian Pacific Railway and his principal duty will be to interview the members of the Government and of the House and endeavour to secure a majority of the House in favour of the Canadian Pacific Railway's proposal.

No effort has been left undone to press the case of the C. P. R. and secure the assent of the Government and eventually that of the House and Senate.

The matter so far has only been discussed by members of the Government individually and not in Council, but it is understood that two leading members insist that the road must be a national road, and be built, operated and entirely under the direct control of the Government.

Another member is said to have expressed his opinion to the effect that the country should not be burdened with such an increase to the national debt.

Work on the new standard guage railway from Trail to Robson is now well under way. The contractors have started work at convenient points all along the line and upwards of 200 men are employed. The road will be ready for operation by July 1.

About Revelstoke.

The Slater Shoe at Coursier's.

Caboose No. 3213 it being fitted up specially for the Arrowhead run.

Mr. A. Stone of the Stockholm House, went south on Monday night's train.

A new lot of prints, muslins, cashmeres and serges just opened up at Coursier's.

Mr. T. A. Pippy, a Calgary builder and contractor is in town and intends to locate here.

Ten cars of ice from Banff have arrived for F. McCarty, who is busy unloading it into his ice house.

Guy Barber won the backward skating race for a quarter of a mile on Monday night at the Victoria Rink.

This paper is kept on file at the Globe Hotel, St. Paul, Minn., the best hotel in that city charging 25 cents per meal.

The s.s. Nakusp broke part of her wheel coming up on Sunday and did not start on the return trip till Tuesday morning.

Mr. Worden of the firm of Worden Bros. Calgary, fruiterers and confectioners, was in town on Monday, after shipping a carload of potatoes to Roseburg.

Today being Ash Wednesday, the first day of Lent, there was service this morning at 10:30 o'clock at Holy Trinity and evensong will be said at 7:30 p. m.

Mr. Jas. Savage recently of Kamloops arrived on Monday morning to take a position in Mr. R. S. Wilson's tailor shop and help him to handle his large and rapidly increasing business.

The C.P.R. have put up 300 tons of ice from the Three Valley lake, west of Clan William, at Arrowhead and putting 300 tons from the same place in their ice house here.

Messrs. C. H. Temple, loco. foreman, and H. N. Coursier are canvassing Revelstoke thoroughly on behalf of the Indian Famine fund. The result will appear in THE HERALD.

Mr. John Lineham, of the firm of Lineham & Stephen, Rossland, registered at the Victoria on Monday. He has returned from a trip to Toronto, where there is quite an excitement over Kootenay.

Rev. David James, of Midland, Ont., occupied the pulpit very acceptably in the Methodist church on Sunday morning and in the Presbyterian church in the evening.

Rev. Field Yolland made a stirring appeal on behalf of the Indian Famine Fund in his sermon at evensong on Sunday. Revs. J. A. Wood and R. W. Geddes also urged their hearers to contribute to the fund.

Mrs. R. P. Pettipiece and son, accompanied by her niece, Miss Mary Murray, will leave on a few months visit to her parents in Pullman, Wash., this evening, via Arrowhead.

Mr. J. M. Kellie, M.P.P., has declared himself as opposed to the new act for the incorporation and regulation of companies as it stands, but has not specified which are the details, to which he objects.

Mr. Alex Lucas, agent for the Chatham Mfg. Co. came in from the east Monday, with a view to establishing a headquarters agency for his company somewhere in West Kootenay. He is accompanied by his brother Mr. Lucas of Toronto, who is looking up a good location for starting an assayer's office. Mr. Lucas was a good deal taken with the appearance of Revelstoke.

Still opening up new goods at Coursier's.

A. S. Farwell was in town on Monday.

The latest intelligence is that Whitney was released owing to some informality in the warrant and is understood to have left British Columbia.

Rev. F. Yolland of Holy Trinity church, entertained a party numbering some twenty-five at his residence last evening. A pleasant time was spent.

Mr. R. M. Hume, who is at present in New Brunswick on a vacation, will return about the middle of the month and resume his duties in Messrs. C. B. Hume & Co's. store.

A great treat was enjoyed by those present in the Presbyterian church on Monday night to hear Rev. David James lecture on his tour through Italy. The reverend gentleman took his hearers to Milan, Venice, Naples and Rome and described with vivid effect the wonderful cathedrals and palaces and exquisite works of the painter's and sculptor's art to be seen by the visitor to that sunny land. His descriptions of Milan cathedral, the Doge's palace and prison at Venice and the Pantheon at Rome were particularly picturesque. The audience was kept in a state of profound interest and attention throughout the lecture.

On Saturday last a Mr. McCready arrived from Golden. This gentleman has, we understand, full charge of the tie and telegraph pole department of the C.P.R. At Macleod he met by appointment a representative of Mr. Peter McLaren, the owner of the Macleod saw mill, and discussed with him the question of supplying ties for a large section of the Crow's Nest Pass Ry. As a result the McLaren people were asked to put in a tender for the supply of ties. In reply to a question Mr. McCready stated that August would by no means be time enough to deliver these ties, as it was expected that the railway would be running here by that time.—Macleod Gazette

An Ottawa despatch to the Sunday News-Advertiser says: It is stated that the proposition of the C.P.R. in the matter of the Crow's Nest Pass line is for a subsidy of $10,000 a mile for the 200 miles between Lethbridge and Nelson to build the line and have it in operation by next January. Mr. Mr. Blair is said to be willing to concent to subsidising the C.P.R. company on condition that they waive the clause in their charter preventing Government interference with freight charges until the net earnings reach 10 per cent. on the capital invested. Dr. Milne, of Victoria in still here in the forlorn hope of securing an independent line from the Territories of which his projected road from Kootenay to the Coast would form part.

CRAIGELLACHIE.

Important Meeting of the Farmers of the Eagle River Valley.

From Our Own Correspondent.

Mr. F. Ried of the Valley intends opening up his mine in the spring. It is hoped it will turn out rich, as it will be a great advertisement to our Valley, which at present needs something to liven it up.

Mr. J. H. Wolsey's new house is nearing completion, which will make an addition to the Valley.

At the last meeting held by the farmers of the Eagle River Valley at the residence of J. H. Wolsey the following resolutions were passed: That a petition be drawn up and signed to be sent to the Hon. G. B. Martin Commissioner of lands and works for a road and bridge across the river for the benefit of the settlers on the south side of the river. Also to intercede with the C.P.R. to construct a spur or siding with a freight shed at or near Scots Crossing. They also resolved to meet at the residence of Mr. Wolsey the second Saturday of each issuing month to discuss general topics.

Mr. W. Miller's bridge gang is busy making preparations for the new steel bridges over the Eagle to take the place of the old wooden structures which are beginning to look rather shaky. Some of the iron work has already arrived.

The snow is going rapidly and the roads are in such a condition that it is not safe to go over them with a team. The farmers predict an early spring, and are discussing crops in general.

Rev. Mr. Geddes had a large attendance on Friday night. It is hoped that it will be kept up in future.

Miners and Prospectors.

Will find it to their interest to write for catalogues of Aparejo Harness, Saddles, ect., to CARSON & SHORE Calgary.

NOTICE

Notice is hereby given that thirty (30) days from date I intend to make application to the Chief Commissioner of Lands and Works for a lease, for twenty-one years, of one hundred acres of land, before described, for the purpose of opening up and working a "stone quarry" thereon.

Said land is situoted on the east side of Upper Arlow Lake, about three miles south of Cape Horn.

Commencing at a post placed at the north-west corner and marked "J. K.'s N. W. corner," running thence twenty chains east, thence eighty chains south, thence twenty chains west, thence eighty chains north, following lake shore to point of commencement.

JAMES KELLY.

9th February, 1897.
