TIES

We are showing the most tasteful and latest styles in Ties.

C. B. HUME & CO.

Agents for Giant Powder Co and Bennett Fuse.

AROUND THE RAILWAY YARD

Personal Paragraphs Pertaining to Railway Men Picked up By the Herald Man on His Daily Rounds.

The C. N. R. expects to have their line through to Fort Frances in a month.

J. R. Crudge, C. P. R. agent at Kaslo is away on a holiday trip to Montreal.

C. P. R. traffic receipts for the week ending October 21, were $809,000; for the same week last year, $598,000.

Ed. Spence, the C. P. R. blacksmith who disappeared from Winnipeg nearly three weeks ago has not yet turned up.

Miss Duncan, who for the past six months has held down the ticker at the Calgary city telegraph office, has been transferred to Montreal and leaves on the 1st.

Passengers on the C. P. R. report passing the debris of a wreck near Swift Current. A whole string of freight cars containing mixed freight were badly smashed.

W. P. F. Cummings, C.P.R. steamship agent at Winnipeg, who has been ill for some time past with typhoid fever has almost recovered his usual health. He is back on duty again.

J. Franks, formerly of the Milestone division of the C. P. R., has been appointed chief clerk in Superintendent Mason's office in Winnipeg. Mr. Lockhard, who has vacated the position, will accept a position in Minneapolis.

The engineers and firemen of the Canadian Pacific Railway had deputations in Montreal last week discussing with the management a new schedule of wages. The old one expired on August 1st last. General Superintendent Timmerman is representing the western section.

J. Uvila, section foreman at Ducks, accidently shot himself in the abdomen on Sunday while fixing his gun. Supt. Kilpatrick immediately on receipt of the news from Dr. Proctor, telegraphed orders for a special locomotive to convey him to Kamloops hospital.

Mr. Wm. Stitt, assistant general passenger agent of the C.P.P., left Winnipeg last week for Montreal in connection with his new Australian duties. It will be decided in a few days whether Mr. Stitt will leave for Australia this fall or not. It is likely that he will leave about Nov. 11.

Owing to the increased demand for freight cars, the C. P. R. are putting forth every effort to bring every available car into service. The shops in Winnipeg are doing all they can in repairing, while at Perth, Ont., work on 1,200 cars is being rushed and the cars are being turned out at a rate of 10 a day. At the Hochelaga shops 20 new first class passenger cars are being built, as well as six sleepers and two parlor cars.

The Toronto Mail and Empire publishes the following Montreal dispatch: "An emphatic denial is given at the general offices of the Grand Trunk to a dispatch which has emanated from Winnipeg to the effect that Mr. W. H. McGuigan, the general superintendent of the Grand Trunk, is about to be appointed general manager of the Canadian Northern railway at an early date. Mr. McGuigan, it is stated, has no intention as far as is known of leaving the Grand Trunk service."

Capt. Troup, manager of the C. P. N. company, has announced that the company has arranged to add two new steamers to its fleet—one for Victoria-Vancouver service, capable of twenty knots an hour and with accommodation for 700 passengers; the other will be for the northern route to replace the wrecked Islander. It will be capable of the same speed and will be 280 feet long by 42 feet beam. Both vessels will be built for the company and will therefore not be available for about a year.

Plans for the new C. P. R. station building at Deloraine are now being prepared in the C. P. R. engineer's office. The foundation of stone will be placed in position at once, and the building proceeded with at an early date, which, when completed, will be a duplicate of the very handsome and commodious station at Carman. All modern improvements will be introduced for the comfort and convenience of travellers to this flourishing and important town on the Pembina branch of the C. P. R.

—Now is the time to leave your orders for fall and winter overcoats Best of workmen and material. R. S. Wilson.

Census of Yale-Cariboo.

The following census returns are complete as received at the census bureau. The population of Yale-Cariboo by provincial districts and ridings is.

EAST KOOTENAY DISTRICT.	
North riding	1,938
South riding	5,962
Total	7,900
WEST KOOTENAY DISTRICT.	
Revelstoke riding	3,003
Slocan riding	5,321
Nelson riding	7,102
Rossland riding (estimated)	7,603
Total	23,029
YALE DISTRICT.	
Rossland riding (estimated)	7,000
East Yale riding	4,030
North Yale riding	5,837
West Yale riding	2,049
Total	18,716
LILLOOET DISTRICT.	
East Lillooet riding	789
West Lillooet riding	970
Total	1,759
CAIBOO DISTRICT.	
Estimated (returns not compiled)	2,500

From the returns compiled W. A. Galliher, M. P., of Nelson represents 51,601 people, with Cariboo to hear from.

Car Dashed to Pieces.

SANDON, Oct. 24.—A serious accident occurred on the Kaslo & Slocan railway at 1:15 to.day. A coach with two passengers ran away from the Last Chance siding on the Cody switchback, and was totally demolished near the foot of the grade, which commences at the Payne office. As is the general custom, the Kaslo & Slocan started up with a couple of box cars and one coach. At the Last Chance siding the coach was left on the main track, while some switching was done. The air brake was set and the hand brake screwed up tight, but when the air worked off the tension on the hand brake was too great and the chain broke. The car started before the trainmen noticed it and Mrs. Winters and child, of Cody, the only passengers on board, unable to get off, found themselves rushing to almost certain death. The coach shot down the steep grade to a sharp curve near the bottom of the hill, where it left the track and was dashed against the rocks. Although the car was completely demolished the passengers escaped without fatal injuries.

THE CAMBORNE GOLD GROUP

Five Thousand Feet of a Tunnel on the Free Milling Quartz Lead all the Way Across the Group.

A. F. Rosenberger, manager of the Northwestern Development Syndicate is in town today. He has made arrangements for the immediate commencement of a tunnel which is intended to be run across the Camborne group from the point where the trail up Menhenick cuts the lead 5000 feet in length to the Goldfinch. The tunnel will run on the lead all the way and starts where the lead is thirty feet wide on the surface. The Menhenick creek falls are close by the mouth of this tunnel and will furnish power for the drilling machinery, which it is the intention to instal and also for the Oyster group and any other properties in the camp which may wish to utilize it.

Gets Two Years.

Judge Walkem sentenced Sangala, the Nakusp section foreman, to two years in the penitentiary on Monday last. The prisoner's wife was much affected at the sentence and tried to plead in broken English for her husband. After sentence was passed Kubala, the interpreter, remarked "He goes to jail for nothing." The judge advised him to hold his tongue and added that Kubala would be tried for perjury if he understood English better.

City Council Meeting.

(Continued from Saturday's issue)

Ald. Abrahamson pointed out that the city had paid $900 for the fire-alarm system as well as for poling it and never yet in the three years had it been of any service whatever. No kind of wire would be of any use with the present insufficient number of poles. He had an approximate estimate from Mr. Cowan for a new system to be strung on the electric light poles which he would ask the clerk to read. He advised putting the system under the care of the electric light staff and paying a small sum to have it continuously and properly looked after. Another thing was that the fire hall on Front st. was entirely useless. We are already paying a very heavy insurance, and if things were allowed to run on in the way they are now we are liable to find our fire insurance cut off altogether. The council would be responsible if a second Sandon catastrophe occured in Revelstoke.

The secretary read the following from W. Cowan: 5 miles of W. P. iron wire, $175; Installing apparatus and stringing wire, $100; Pole rental of electric light poles per year 25c.; Cost of maintenance should not exceed $10 a year, outside of supervision. Mr. Cowan promised that should the company be entrusted with the installation and care of the city fire alarm system the city could at all times depend on getting the best possible results that can be obtained from the present apparatus.

Ald. Nettle moved, seconded by Ald. McLeod that the Mayor write the city engineer of Kamloops, making full enquiries in reference to the fire alarm system and particularly enquiring in what respect the alarm has been altered by the authorities of that city since its installation by Mr. Dier.

On the question of No. 1 fire hall Ald. Abrahamson strongly advocated the establishment of a central fire hall. Then with one man and a team the hose reel could be at either end as fast as it can now with two fire halls. At present with a double set of expenses we had no proper fire protection at all. One hall and one brigade would give us something for our money. Would it not be more sensible to establish such a system?

Ald. McLeod thought it would not be wise to move No. 2 fire hall into the centre of the city and make it a central hall. Of course two halls and brigades were more expensive than one, but the scattered shape of the town demanded two firehalls.

Ald. Nettle thought it would be better if No. 2 fire hall had been originally built in the centre of the town but he was distinctly opposed to going into a big expense to move it now.

The Mayor would like to see a full council to discuss this most serious matter. Eventually it would have to come to a central hall but he saw very little use in the present discussion.

Ald. Abrahamson said the council was responsible for the raise of one-third in the insurance rates. During the whole year nothing had been done. Agents had already refused to take some insurance and the ratepayers were the ones who were suffering.

Moved by Ald. Abrahamson seconded by Ald. Nettle that the finance committee report as to the financial condition of the council, and the public works committee on the relationship between fire hall lots and fire purposes and probable cost of removing fire hall No. 2 on city block on Second st. opposite schoolhouse.

We Are Home Providers

IN DRY GOODS, CLOTHING, BOOTS AND SHOES, MEN'S FURNISHINGS.

THERE are few home wants that cannot be supplied at this Store. This particularly applies to the above sections. Try us and see for yourself how completely we have anticipated your needs. When you come you will be surprised at the wealth of choice our widely assorted stock affords, and your surprise will rise to perfect amazement as you behold the beauty of design and finish, and note the worthiness of the immense quantity of goods we place before you. If you are a judge of values there will be much satisfaction in reviewing our prices.

EVERYTHING MARKED IN PLAIN FIGURES.

Your verdict must be that everything is a money-saver.

Bargains Everywhere...

THIS STORE HAS BARGAINS Six Days in the week. Our Bargains are Seasonable and in every case up-to-date. You will find economics in all the Departments. Supposing it is Boots and Shoes, Clothing, Dry Goods or Gent's Furnishings, —in fact these lines are all sold to you at our Dry Goods Prices.

WEDNESDAY, OCTOBER 30, 1901.

FIRE PROTECTION.

The question of the fire protection of this town, which is now, though late in the day, occupying the attention of the council, is one which cannot reasonably be allowed to dilly dally along any longer. There are two items which require immediate attention—the fire alarm system and the state of affairs at the No. 1 station. The town has already expended an amount, in the neighborhood of $1500 on a fire alarm system, which has been nothing but a source of annoyance and trouble ever since it was installed. If it is to be rendered efficient, there is no doubt at all from the experience of Kamloops, which has been through exactly the same mill, that insulated wires have got to be put in and properly poled. Our wires are naked and sagging about between poles, some of them as much as 275 feet apart. Then again there should be somebody responsible for seeing that the system is constantly in first-class working order once it is put in shape. A fire alarm system should never be five minutes out of repair. Mr. Cowan has made a very reasonable offer covering the entire ground, which will give us a real alarm system for our money, and the HERALD considers that the city cannot do better than to put the matter into his hands. We know perfectly well what the trouble is with the system. The only thing to be done is to go to work and get it fixed and kept fixed.

Then there is the condition of affairs down town. There is supposed to be a No. 1 brigade and a No. 1 fire hall. Really there is neither the one nor the other. The brigade has never had a meeting or turn out since last spring. The members are not to blame. They have no place to meet in. The hose reel and chemical engine are stored in the old No. 1 fire hall, which is rapidly falling over against the new Chinese joss house. There is no tower and consequently no feasible way of drying the hose. The old Gold Hill building was purchased last spring or was not purchased last spring, nobody seems exactly to know which. At all events the idea was to convert it into a No. 1 fire hall and those relics of antiquity, the old fire saws, are hanging on the wall thereof as the outward sign and symbol of this inward intention of the council unto this day. Also various small odds and ends of equipment are stored within. But as the floor is three inches below the sidewalk, the hose reel and chemical cannot be kept in it. There is no accomodation for the brigade. No rooms for any members to sleep in so as to be on hand in case of an alarm at night. The roof leaks and the building is generally uninhabitable and useless for fire hall purposes. Its whole appearance irresistibly suggests a policy of "let 'er slide." There was as far back as last March money voted to put the place in such shape that the reel and chemical could at all events be run in and out of it. It has never been expended. Perhaps the public works committee did not consider that it was worth while expending even that trifling sum on a building, the ownership of which was a conundrum. But that is no reason for leaving that end of the town without any fire protection at all. They pay their taxes down there the same as other people.

Because there is no use blinking and balking at the situation any longer. The question has got to be taken up for permanent settlement. There has either got to be one central fire hall for the whole city or else a fire hall built down town. A central fire hall would lessen the double expense entailed by two stations, two sets of equipment and two brigades. It would, however, certainly necessitate the purchase and upkeep of a team of horses and the wages of a man to be constantly on hand to look after and drive them. Of course the team could be utilized in other ways for city work. But the idea of using them for scavenging purposes at night, would, if adopted, hardly tend to lower insurance rates in town. If the team is not right on hand at night, we might just as well not have it at all and the central fire hall idea had better be given up. The chief objection, however, to a fire hall in the only part of the town which can be considered its geographical centre is that very few live around that quarter who would be reached by an alarm. Still, if a hired teamster with a team was always on hand and some of the brigade sleeping in the hall at night, there would be quite sufficient on hand to make a start for fire and they would very soon find themselves joined by plenty of others, when they arrived at the scene of the conflagration.

If, however, the people of this town prefer to keep up the present system of two fire halls, common sense and common fairness demand that they shall carry it out. Two fire halls does not mean one fire hall at one end and none at all at the other. Those who dislike the idea of moving our one available fire hall from its present position to a more geographically central site, must consent to help pay for the erection of another one in the west end of the town. Ratepayers and councillors may talk till they are black in the face, but no amount of talking will make one fire hall into two.

ROD SPARED, WINDOWS SMASHED.

The healthful and elevating amusement of window breaking has been greatly in vogue for some time past among the rising generation of Revelstoke. Not only do the boys themselves consider any empty house fair game for target practice but there are even some parents, who appear to regard it as the inalienable right of their male progeny to heave half a brick through the window panes of a vacant domicile. The sport culminated the other day in the usual place where this form of recreation generally does wind up sooner or later, the police court, where two youthful culprits were paraded for throwing stones through the windows, not of an empty house, probably there were none left unbroken, but of some cars standing in the C. P. R. yard. The class of youths, who commit this sort of depredation, is through the absurdities of the Canadian code in handling juvenile offences very difficult to deal with. There is nothing for the magistrate to do but to let them go with a warning, which passes off their minds like water off a duck's back or else send them to jail. To send them to jail is to run the almost certain risk of converting a boy, whose offence may be merely the outward expression of his over exuberant spirits, into an incipient criminal. No magistrate wants to have such a burden as that on his mind, so the practical result is that the boys are released and fresh gaps continue to make their appearance in the windows. If the court was allowed to inflict a good round fine, with the option of remitting it, if the parent, out of whose pocket, it would of course have to come, consented to administer then and there in the presence of the magistrate a reasonable amount of salutary correction with the old fashioned birch rod, the landlords of uninhabited tenements would be able to sleep in peace.

In the County Court of Kootenay Holden at Fort Steele :—

NOTICE IS HEREBY GIVEN that on the 17th day of October, 1901, it was ordered by His Honour J. A. Forin, Esq., of the said Court, that James Ferguson Armstrong, Official Administrator of the County of Kootenay, be administrator of all and singular the Estate of William E. Ross, of Ferguson, B. C., deceased, interstate.

Every person indebted to the said deceased is required to make payment forthwith to the undersigned.

Every person having in possession effects belonging to the deceased is required forthwith to notify the undersigned.

Every creditor, or other person, having any claim upon or interest in the distribution of the personal estate of the said deceased is required within thirty days of this date to send by registered letter addressed to the undersigned, his name and address, and the full particulars of his claim or interest, and a statement of his account, and the nature of the security, (if any) held by him.

After the expiration of the said thirty days the Administrator will proceed with the distribution of the estate, having regard to those claims only of which he shall have had notice.

Dated at Fort Steele this 17th day of October 1901.

JAMES FERGUSON ARMSTRONG,
Oct. 26-td. Official Administrator.

Notice of Assignment.

NOTICE IS HEREBY GIVEN that Alexander McLean, carrying on business at the City of Kamloops and at the City of Revelstoke, both in the Province of British Columbia, as dealer in boots and shoes and gent's furnishings, has by deed dated the 15th day of October, 1901, made under the provisions of the "Creditor's Trust Deeds Act," and amending acts, assigned all his personal estate, credits and effects which may be seized under execution, and all his real estate to John Thomas Robinson, residing at the said City of Kamloops, Real Estate Agent, in trust for the purpose of paying and satisfying rateably and proportionately, and without preference or priority, the creditors of the said Alexander McLean their just debts.

The said deed was executed by the said Alexander McLean, the assignor, and by the said John Thomas Robinson, the trustee, on the 15th day of October, 1901, and the said trustee has undertaken the trusts created by the deed.

All persons, firms or corporations, having claims against the said Alexander McLean are required to forward and deliver same, duly verified, to the said John Thomas Robinson, trustee, at his office, Victoria street, Kamloops, B. C., on before the 14th day of November, 1901, and all persons indebted to the said Alexander McLean must pay the amount of such indebtedness to the said trustee forthwith. After the said 14th day of November, 1901, the trustee will proceed to distribute the assets of said estate among the parties entitled thereto, having regard only to the claims of which he shall then have had notice.

And further take notice that a meeting of the said creditors will be held at the office of John T. Robinson, the said trustee, Victoria street, Kamloops, B. C., on Thursday, the 31st day of October, A. D., 1901, at 2 o'clock in the afternoon, to decide as to the best manner of disposing of the said estate.

Dated the 17th day of October, 1901.

NOTICE TO CREDITORS.

NOTICE IS HEREBY GIVEN, in pursuance of the Creditors' Trust Deeds Act, 1901," that John Vincent Perks, of the City of Revelstoke, in the Province of British Columbia, Hotel Proprietor, has by deed, bearing date the 10th day of October, A. D., 1901, assigned all his real and personal property, except as therein mentioned to John Drinkwater Sibbald, of the said City of Revelstoke, General Agent, in trust for the purpose of satisfying ratably and proportionately and without prejudice or priority, the creditors of the said John Vincent Perks, the Assignor, and the said Trustee has undertaken the trusts created by the said deed.

All persons having claims against the said John Vincent Perks are required on or before the tenth day of Novembeg, A. D., 1901, to send to the said Trustee full particulars of the same duly verified, together with the particulars of she security, if any, held by them.

AND NOTICE IS HEREBY GIVEN that after the said tenth day of November, 1901, the said Trustee will proceed to distribute the assets among those creditors whose claims have been lodged with him and that he will not be responsible after said date for the assets so distributed, or any part thereof, to any person or persons, firm or corporation, of whose debt or claim he shall not then have received notice.

A Meeting of the Creditors of the said John Vincent Perks will be held at the office of John Drinkwater Sibbald, First Street, Revelstoke, British Columbia, on Saturday, the twenty-sixth day of October, A. D., 1901, at the hour of two o'clock in the afternoon.

Dated at Revelstoke, B. C., this 12th day of October, A. D., 1901.

J. M. SCOTT, Revelstoke, B. C.
Solicitor for the Trustee.

NOTE AND COMMENT.

The Victoria Post quotes the Mail's sensation over the Northport saw mills but it gives the business a turn which we are open to bet our esteemed never intended: It says "it is worthy of notice that this industry of these Pittsburg capitalists would have come into competition with the business of the Hon. W. C. Wells. The C. P. R. seems square enough to go in for neutral (mutual?) back scratching."

There's lots of funny things in this world and one is how it is the C. P. R. can pay at Vancouver about the 13th or 14th of the month but cannot get around to Revelstoke till after the 20th. Another is, even if owing as we suppose to the mysterious force of backwardation, it takes a C. P. R. cheque from eight to ten days longer to get to Revelstoke from Montreal than it does to Vancouver, how is it the company at all events cannot make a definite date, the 20th, 21st or whatever they like and say we pay at Revelstoke on that day month in and month out. It does not really matter an awful lot to an employe once the the first month or so is passed what day he is paid on, but it does matter quite a lot to people, who have given a little note, which has been made to hit about pay day if the said pay day comes along on the 26th instead of the 21st of the month.

Old Man We—For goodness sake! A thousand pardons! Hon. W. C. Wells, M. P. P., Chief Commissioner of Lands & Works, came to town on Saturday. We don't know what he wanted here, but the Mail does. This great and good man is at present the bright, particular star of the Mail's existence in this vale of tears. Hon. W. C. Wells, M. P. P., Chief Commissioner of Lands & Works occupies the same position in the Smail's horizon as "Hewitt Bostock Esq. M. P.," used to hold down in the Golden Era's limit of vision. They used to keep a galley full of the magic symbol ready set in the Era office. It was what the comps call "a pick up." Alas, poor Bostock! we didn't know thee very well, but we do wish to goodness the Conservatives had had savey enough to corral thee on their side of the fence. when thou first didst come to this province.

As we were saying Hon. W. C. Wells M. P. P., Chief Commissioner of Lands & Works, like another Yankee Doodle, came to town on Saturday. The Smail received the joyful tidings by wire the day before and by the fortune of heaven it was the day of publication. It hastened to prostrate itself at the feet of its revered string on to the present administration. As Confucius says: "Better is a silken thread on one Grit minister than a lead pipe cinch on the Tory balance of the cabinet." Such a shine as the boots of the Hon. W. C. Wells M. P. P., Ch. Comm. of Lands & Works got from the Smail is not before on record. Regardless of the fact that it had already lavished at least half a bottle of the Best Nonsuch Patent Glysterine on Ald. McLeod's little tootsie-wootsies, it fairly bathed the pedal extremities of the Hon. W. C. Wells M. P. P., C. C. of L. & W. with the lustruous brilliantine. Let him polish away, Wells. Do you mark the mud on poor old Bostock's highlows?

ANOTHER PHASE OF THE QUESTION.

The HERALD has frequently denounced the two prevalent practise of sending money out of town to pay for goods purchased at departmental stores in eastern cities. There is however, another side to the story. The wage earners and professional men and their wivesare not the only pebbles on the beach. Some of the business men themselves, who are ready enough to enjoy seeing Timothy Eaton's customers roasted in the paper, are by no means clear of blame in this matter themselves. The tramp painter here today and off on the drunk tomorrow, is just as likely to get a job lettering a sign as tradesmen living right in town and paying their monthly store bills. The smooth and casual visitor with some fake advertising scheme, no matter how worthless, catches the shekels every time, which promptly retire shivering into their cosy little nest in the safe, if the local editor hints at an increased advertising space in the home paper, whose sole aim and object and raison d'etre it is to help build up the town and district in which Mr. Merchant is doing business. A slight reduction in rates in job work in favor of the Vancouver printer get him the contract, in spite of the fact that he buys no drygoods or provisions and builds no houses in Revelstoke. Consistency thou art a jewel!

The Editor's Table.

The HERALD begs to acknowledge the receipt of the report of the second annual meeting of the Canadian Forestry Association held at Ottawa last March. The report contains many valuable papers on the science of forest preservation. It would be a good idea for Sir Henry Joly, who is president of the association, to try and get a meeting held in B. C. Among the few, half a dozen, members of the association in this province the HERALD is glad to see the name of the Fred Robinson Lumber Company.

The Kamloops Wawa, the September number of which has just reached us, is probably one of the most remarkable productions in the journalistic field of Canada. It is printed partly in English and partly in Chinook, the latter in shorthand characters for the benefit of the Indians. The number was printed at the Sentinel office and is quite a curiosity in its way.

—Order your fall and winter suit from R. S. Wilson.

Hugh Smythe has purchaased a quarter section in the Salmon Arm settlement.

Capt. D. Paul Hughes of the Duquesne Mining Co. came in from Pittsburg on Monday's No. 1.

John Campbell of Salmon Arm, was taken to the Kamloops hospital on Sunday suffering from typhoid fever.

The voting on the debenture bylaw takes place tomorrow in No. 2 fire hall from 8 a. m. to 4 p. m.

Ed. Corning, proprietor of the Hotel Climax, left for Kentucky on Monday on a visit to his mother.

A couple of freight cars got off the track yesterday morning on the Arrowhead branch and occasioned some delay to the traffic.

—$20 tweed suits to order for $15 at Cressman's for the next fifteen days.

J. Sanderson will probably start for the scene of the new placer strike in the Horsefly camp before the end of the week.

—You can buy $5 pants for $3.50 to order at Cressman's for the next fifteen days.

D. Jenkins, who disposed of his shoemaker's business on First St. to L. Schnider last week, left on Monday for Victoria.

Last Wednesday the C. P. R. purchased from W. Abrahamson the right of way across his land adjoining the Trout Lake Townsite on the north.

—See Cressman's $15 suits and $3.50 pants to order. Same price as you can buy them in the east for.

Insp. Wilson of the Education Dept. broke his left arm through an upset while driving in the Boundary district.

Friday next being All Saints Day there will be a celebration of the Holy Communion in St. Peter's church at 7:30 a.m. and Evensong at 8 p.m.

Chas. M. Field, insurance agent, returned on Saturday night from an extended trip, which took in Calgary, Edmonton and other Alberta points.

Hon. W. C. Wells, who was here on Saturday, went on to Montreal to fix up a deal for the construction of the Coast to Kootenay railway, says the Inland Sentinel.

Messrs. Reid & Young have secured the services of Chas. J. Wood, an expert window dresser, whose attractive window dressing will be a good advertisement for the firm.

E. L. Kinman has completed his portion of the Thomson's Landing wagon road and was in town on Monday settling up matters in connection with the construction.

The memorial service for the death of the late Hon. N. Clark Wallace will be held in the Orange Lodge Room Oddfellows' Hall, at 3:30 p. m. next Sunday. The order of service will be published in our next issue.

F W. McGregor returned on Monday night from Golden, where he had been working on J. Kernaghan's contract on the Imperial Bank building. Mr. McGregor has been laid up in his house since his return.

A fire occured in the bakery on Front St. occupied by Norman Lauder about midnight on Sunday. Its origin is not known. One corner of the building was burnt before the flames were extinguished by No. 1 brigade, who turned out to the fray like men.

Rev. Jas. Turner will preach the missionary sermons in the Methodist church next Sunday morning and evening. Subscriptions and collections will be in aid of the missionary fund at both services. Mr. Turner was the first resident minister in Revelstoke.

ALL SORTS

All sorts and conditions of men require all sorts and conditions of medicine. We have the very best for each man's need. The weather necessitates attention to the health, and many simple remedies there are which we can give you, saving you, perhaps, a severe illness.

G. F. CURTIS,
The Druggist.
TAYLOR BLOCK, - - McKenzie Ave

John Sanderson, the well known old time Big Bend placer man, thinks from the names of the parties which have been attached to the discovery of rich placer in the Horsefly district, that there must be a solid foundation for the story. He is thinking of taking a trip in there himself.

J. Guy Barber has opened up a beautiful line of the celebrated Hawkes' cut glass made at Corning N. Y. The much coveted grand prize at the Paris Exposition of 1889 was awarded to this glass. Its great beauty and artistic merit will be a revelation to Mr, Barber's customers.

W. M. Brown, the popular proprietor of the Columbia House, took over on Saturday evening the Victoria Hotel. Mr. Brown will keep both houses running for the present. He is too well known as a hotelman to make it necessary for the HERALD to sing his praises but everybody knows that under his charge everything at the Victoria will be kept in first class shape and as comfortable and pleasant for his guests as they make it.

The Revelstoke, Trout Lake & Big Bend Telephone Co. have taken out the old Stromberg-Carlson long distance series of telephones and are replacing them by the new multiple bridging instruments, the strongest made. By Saturday night they will be all installed in the various offices of the company's system in the Lardeau. With the repairs which the local manager, E. L. Kinman, is now making, the service will be the most complete and satisfactory to be obtained in the whole of Kootenay.—Trout Lake Topic.

Mr. Tapping has requested the HERALD to state that the accounts current in town about Mrs. Tapping's illness and mental condition are much exaggerated and indeed untrue. He feels that his private affairs have been unwarrantably discussed by those who ought to have known better and their action has given much pain to himself and Mrs. Tapping. We are glad to learn from him that Mrs. Tapping is considerably improved in health, and intends before long, under the advice of her regular medical attendant to pay a visit to her relatives in Banff.

Last Sunday the parishioners of St. Peter's enjoyed a visit from Rev. Mr. Fortin, rector of Lewiston, Me., who had been attending the Episcopal convention in San Francisco and came back this way in order to see his brother Frank Fortin, manager for Brackman & Ker in Rossland, whom he had not seen for 17 years and who came up here to meet him. The reverend gentleman assisted in the services and preached the sermon both morning and evening. His discourse in the morning was on the Christian virtue of Steadfastness and in the evening on Reality in Religion and both were very interesting addresses containing much plain talk and many striking passages.

LEWIS BROS.
Real Estate, Insurance & Financial Agents, Revelstoke

MANACER OF ST. EUGENE

Says The United Smelter Trust are Back of the Marysville Smelter and Refinery.

J. C. Drewry arrived in Nelson last week from Rossland. He is on his way to the True Blue mine at Kaslo, and from there he will go to the St. Eugene and Great Dane properties. Mr. Drewry is of the opinion that the recent activity of the Canadian Pacific Railway people with respect to the establishment of a refinery is in no small measure due to the commencement of operations in the Marysville smelter, which according to the statements of the men interested in this smelter scheme will keep the C. P. R. people guessing for some time. Already he said it was intimated that the United States smelter trust was interested in the venture and it would not be very surprising if this should prove the case, nor would it be unwelcome, since it could be counted upon as having the effect of stirring the C. P. R. people up. Mr. Drewry said he was aware that the question of tonnage had been the stumbling block in the way of the refinery project, but he thought this difficulty would be removed by the 1st of January. The present arrangement between the United States lead producers and the smelter trust expires then, and the outlook was not considered favorable for a renewal of the present arrangement. On the contrary, it looked very much as if there would be a conflict. The present arrangement works to the disadvantage of the British Columbia mines, so that if it is upset it cannot but work out to their advantage. If the lead producers of the United States started in to fight the smelter trust it would be but reasonable to suppose that the trust will do what it can to put the United States producers into competition with the lead producers of British Columbia and Mexico. This would give an added value to the British Columbia lead and something along this line was necessary before the management of the St. Eugene would consider the question of shipping. The company was not experiencing any difficulty with respect to the marketing of its product, but it did not consider the present quotations sufficiently inviting and could afford to wait in view of the prospect of better prices. The St, Eugene mill is now in shape to turn out 100 tons of concentrates. This means an ore tonnage of over 400 tons per day, so that the property becomes a factor in determining the probable lead output of the year.

Goldfields Townsite.

Geo. F. Goldsmith, one of the owners of the new townsite of Goldfields in the Fish River camp, was in town last Monday for the purpose of arranging with some outside parties a deal for an interest in the property.. Mr. Goldsmith told a HERALD man that nothing definite had been done in this matter so far. It is the intention of the present owners to have the ground surveyed immediately and a plat of 400 lots laid out and placed on the market in the shortest possible time. A local agent for the sale of Goldfields lots will be appointed in Revelstoke in the near future.

COING INTO IRON MINING

The C. P. R. Bonds 18 Iron Claims Near Jim Wardner's Town in East Kootenay.

News has been brought to Spokane that the Canadian Pacific Railway company has entered the mining business and has bonded 18 iron claims, taking in practically the whole of Iron mountain, located about 10 miles north of Wardner, B. C. The bond is for $100,000, of which $10,000 was paid down, the balance falling due in one year.

On the strength of this purchase the residents of Wardner and the vicinity are expecting a smelter. Iron mountain is only about 30 miles from Fernie, on the Crow's Nest, and from this source coal could be secured easily, while a spur 10 miles long from Wardner would give transportation direct from the mountain. However, the smelter is merely a supposition, as the railroad officials have made no announcement as yet of any such enterprise.

J. Y. Kesler, who had some mining properties near Wardner, has just returned to Spokane and brings the news of the purchase made by the Canadian Pacific. Iron mountain has been prospected and the claims located and relocated for the past 10 years or more. All prospectors have been looking for gold, and when assays did not give high values in the precious metal the prospectors generally dropped their claims, only to have them relocated by a newcomer.

Most of the claims were relocated for the last time last spring. Assays then showed that the ore ran 60 per cent in iron, with high values in carbon. There were 18 claims in all, each owned by a separate individual. The railroad company secured a bond on the entire group of 18 in one lump for $100,000, with $10,000 down.

They agree to keep 10 men at work all the time during the year, according to the terms of the bond, and have already placed laborers on the ground. It is reported that machinery has also been ordered and will be on hand in a short time.

THE PERFECT DRESS—

Many men have many minds in the matter of dress—but the dictates of fashion must be considered.

We make the clothes you want, correct in style, of the best material, and in a faultless manner.

There's real distinctiveness in the garments we make.

Our stock is the largest and best assorted in the city

Your Patronage Solicited J. B. CRESSMAN,
The Art Tailor, Mackenzie Ave.

FURNITURE !!

WE ARE OPENING UP OUR SECOND CAR! In a day or two we shall have everything in line, when we shall be pleased to see you. Our goods have all been made to our order. They are not old warehouse worn goods that are shipped out here and palmed off as new—the same as many goods that come out here, and sold at millionaire prices. WATCH THIS SPACE NEXT ISSUE!
