EIGHTH YEAR. NELSON: THURSDAY MORNING JUNE 21 1900. PRICE FIVE CENTS

LACROSSE SEASON OPENED

Notes on Athletics.

The first lacrosse match of the season took place on the recreation grounds last night and created considerable interest. The game was lively and fairly well played while the light was good. The game was witnessed by about 300 spectators. The Citizens' band turned out to help the boys along and took up a position on the hill behind the grand stand from where they played a brief program in splendid style. About 7:45 o'clock the players lined up as follows:

DEFENCE TEAM.		HOME TEAM.
Burnett	Goal	Dillon
Thompson	Point	Vanstone
Blackwood	Cover Point	W. Greenless
P. Greenless	First Defence	J. Fraser
McBeath	Second Defence	G. Nunn
McNicholl	Third Defence	Fox
A. McDougall	Centre	Perrier
Hinderson	Third Home	Johnston
J. McDougall	Second Home	McFarland
Whittett	First Home	C. Jeffs
Marlatt	Outside Home	Rutherford
Wilson	Inside Home	Archibald

Alf. Jeffs refereed the game and took advantage of his position on the field to address fatherly advice to several of the junior players. The match lasted for three-quarters of an hour without a break and victory finally rested with the home team. The game showed beyond the shadow of a doubt that this year again Nelson will have a first-class lacrosse team. Joe Thompson was in good shape and played a fine game game. Joe has not developed body checking to any extent, but barring this he is probably as good a lacrosse man as any man in the province. Dan McNicholl, Dave Rutherford, Barney Archibald, Charles Jeffs and Arthur Perrier played their old time game, and could be depended on at every point. Jack Fox and Jack Vanstone were among the new men and played a fast game. Fox manifested a disposition to hold the ball too long and Vanstone was erratic in his passing, but both faults can be remedied with care and both men are almost sure of positions on the first team. Dick McFarlane was one of the players who started out with the intermediate team and has been practicing steadily, until he is slated as a promising player. Teddy Whittit was pronounced by referee Jeffs to be one of the neatest stickhandlers on the field. With more experience he will probably be one of the best lacrosse men in the city. All the players worked hard, and the game will go far to convince citizens that the team is in the field for keeps.

Every lacrosse player is wanted at the firehall tonight at 8 o'clock when the club meets to go into the matter of the Greenwood trip and other matters of importance.

The football club had a useful practice last night. While the lacrosse game was in progress, the footballists kicked the pigskin about on the grass plot at the east end of the grounds, and then took possession of the field when the lacrosse men had to stop on account of darkness. More than enough players were present to make two full teams, and a lively game ensued. The club is rapidly rounding into good shape, and if the members manifest the same degree of interest in the practices between now and the date of the Kaslo game they have a first-class chance of winning out despite the fact that Kaslo has all the advantage in respect to opportunities for developing team play. The management is considering the question of ordering a handsome silver trophy for the match with Kaslo. It is proposed to put the cup up for competition to be played for three times.

Those who intend going down to Spokane to see the baseball game there are reminded that the team goes down on tomorrow morning's train, which leaves the mountain station at 10:45. Those who are going are requested to take their tickets at the down town office of the railway company and not on the train, as the price of the tickets depends on the number of the supporters of the team who go down to Spokane, and those purchased on the train will not be counted. Tickets can be secured through manager Waterman if applications be made in sufficient time.

Great interest is being taken in the regatta during the Dominion Day celebration especially in the scratch fours. Eight crews have entered for this event and are practicing regularly. One crew goes out at 7:30 each morning, and the others row at intervals during the day until the evening. It is too early to attempt to pick a winner, but so far C. B. Winter's crew seems to have the advantage at present, especially in point of condition. With the other crews all settling down to hard work, however, the problem becomes more interesting, and there are sure to be some exciting races. As the club only has two fours, the first heat will be rowed on Saturday, leaving four crews to compete on Monday.

The fire department's racing team had a run on Baker street last night. All the members were out and the going was heavy so that the time was not remarkably fast.

Jim Chambers received a telegram from the secretary of the Canadian Amateur Athletic Association stating that Chambers could not participate in the amateur sports here on Dominion Day. The conditions necessary to secure reinstatement are that a list of all events in which the applicant has participated for cash prizes must be furnished together with several letters of recommendation. Such elaborate precautions may be necessary, but everyone will regret that red tape should stop Mr. Chambers taking part in any of the sports on Dominion Day.

Kumassi on Half Rations.

CAPE COAST CASTLE, June 19.—The garrison at Kumassi is still on half rations. Sir Frederick Hodgson, governor of the Gold Coast Colony, and his wife, who are besieged there, are well. The Ashanti ammunition is giving out. Three hundred natives were killed in the fight between the rebels and the West African frontiersmen under captain Wilson on June 16th.

AMERICANS TOOK NO PART

Communications Still Cut.

WASHINGTON, June 20.—The message from consul Fowler and commander Taussig at Chefoo came to the officials here as a surprise, for yesterday's advices were that Chefoo also had been cut off from direct communication by wire with the cable terminus at Shanghai. The naval authorities calculate that the Yorktown started on Monday from Taku carrying a copy of the department's instructions to admiral Kempff, which it is now believed never reached him in the original. If this supposition is correct, the admiral refrained from taking part in the bombardment of the Taku forts because of lack of instructions from his government, for the officials here say these instructions would have empowered him to unite with the other foreign naval commander if necessary.

The naval officers take comfort from the report of the French consul in Shan Tung, transmitted by consul Fowler, to the effect that the missionaries at Tsang Chow were carried off alive by the Chinese general. Hope is entertained that the missionaries were carried off to ensure their protection, an evidence that the Chinese troops at that point are not acting with the Boxers.

Owing to the vague character of the French consul's report, however, it may be said that the above inference is somewhat strained. It is said at the state department that the whole effort of the government at this juncture is devoted to the re-establishment of communication with admiral Kempff and minister Conger. This was the burden of the talk at the White House conference this morning, and the action of the United States consul at Chefoo in promptly chartering a vessel to push the government's message as far as possible has in a large part solved the problem. The Phoenix can reach Taku where admiral Kempff lies aboard the Newark and can probably get up the river to Tien Tsin, where the United States ships Nashville and Monocacy undoubtedly have arrived by now. The Solace, which embarked a full battalion of marines from Cavite about five days ago, is understood to have arrived at Chefoo on her way to Taku. It is not possible for the Solace to ascend the Pei Ho river above Taku, so that if the marines are to be landed at Tien Tsin, their original destination, they must be transhipped in small boats.

SEYMOUR IS NOW AT PEKIN

Much Hard Fighting.

LONDON, June 20.—A news agency despatch from Shanghai, dated today says: "After a march of frequent fighting with the Chinese, vice-admiral Seymour arrived at Pekin on Sunday afternoon. On five occasions the Chinese attacked the column in great numbers. There were many mounted men among the Chinese. Most of the natives were badly armed, but at times they fought with grand courage. the losses of the Chinese during the march are estimated at five hundred killed.

"The loss of foreigners was trifling. The exact state of affairs in Pekin it is impossible to describe, in view of the many conflicting reports, nothing having been received from the legations or foreigners there. Surprise is expressed at the fact that a large force of Indian troops has not been rushed here."

AN ATTACK ANSWERED.

EDITOR OF THE TRIBUNE: — I hope you will give me a few lines of space in which to protest against the agitation which the Nelson Miner is endeavoring to create over the very trivial difficulty which exists between the city council and a few men employed on the rock pile on Victoria street. With the demand made by the men I will not deal, any more than to say that it is of such a nature as should be disposed of by any body of business men in a few moments, and without any interviews or scare editorials in the press. It is plain to any business man that the publication of such silly stories and nonsense as appeared in the Miner this morning can have but one effect, and that is to damage Nelson's reputation on the outside, and impair the trade of the local merchants.

The publishers of the Miner, however, have seen fit to cast a slur upon myself. They not only question my standing as a contractor, but they further insinuate that I attempted, with others, to put up a game upon the council. That when I agreed to pay the scale demanded by the rockmen from the city, I had no prospect of employing any such men, and that in any event I knew no more about taking out rock than Joe Downs. This shows that ignorance and vindictiveness still continue to be the controlling forces of the Nelson Miner. It is not often that private business men in any community are called upon to defend themselves from any such uncomplimentary statements. It could only occur in places where questionable papers such as the Nelson Miner are published. The company with which I am connected is the largest firm of employing contractors in the city. Last season we operated three quarries in our building operations, and paid out for labor in so doing $11,000, during the whole of which time we paid for skilled labor the same wage which this season we agreed to maintain in conjunction with other contractors. When I signed the agreement this year I intended to keep it, and unless the Miner's campaign of slander prevents building operations this season, the scale which skilled labor is endeavoring to secure from the city will be paid in our quarries.

CHARLES HILLYER.

JOE MARTIN WILL OBSTRUCT

Some Political Guesses.

VANCOUVER, June 20.—[Special to The Tribune.]—Nearly all the politicians have left town for their the Victoria delegation going by premier Dunsmuir's special steamer at 2 o'clock this morning. Ex-premier Martin is out with a very sarcastic interview in which he says, when referring to the convention, that, of course, there is no law against politicians making asses of themselves.

"And they say," adds Martin with an attempt at derisiveness, "they are going to have a short session, that they will bring in no contentious legislation. They may say that, but that does not stop my part in contentious legislation. We will make the government define their position on all important questions during this short session, and will treat them just as if they were a party and not a coalition arrangement."

No further selection of cabinet ministers has yet been made. Dennis Murphy and Wells will be offered cabinet positions, it being thought better than one or two Liberals should be appointed. Joseph Hunter as commissioner of lands and works, and Green for the mines portfolio are receiving considerable support.

CONSIDER HIM HARMLESS

Kaslo View of McInnes.

KASLO, June 20.—[Special to The Tribune.]—At a special meeting on Monday night the board of trade discussed the telegram from the Rossland board, asking it to join in sending a protest to the Dominion government against the continuance in office of the lieutenant-governor, and urging his instant removal on the ground that "his continuance in office is a menace to the prosperity of the province."

President G. O. Buchanan expressed the unanimous opinion of the board when he said that this was a matter which might safely be left to the new legislature to deal with when it met next month. There was no necessity to usurp the functions of the legislature when that body would meet within twenty days. Sir Wilfrid Laurier had indicated plainly what the legislature could do, namely, pass an address asking for the removal of Mr. McInnes. He quite agreed that the governor should no longer be retained in office, but he cynically remarked that it was out of his honor's power to be a menace to British Columbia any longer. At this stage he did not think Mr. McInnes could do any further injury to the province. A courteous reply was sent to the Rossland board's telegram.

O. A. Sutherland sent in his resignation as secretary treasurer owing to complaints being sent to Ottawa to a customs official occupying the position.

The board decided to ask the Dominion fisheries department to place fish ladders at Bonnington Falls and also to send spawn for propogation in Kootenay lake. The board also appointed a committee to draft an amendment to the Companies Act so as to provide for the conversion of a non-assessable company into an assessable one without disincorporation.

M'INNES' FUTILE OBSTINACY

Turner Will Step Out.

VICTORIA, June 20.—[Special to The Tribune.]—The political crisis has about come to a head, and there seems no reasonable doubt that lieutenant-governor McInnes will be dismissed. Today private telegrams from Ottawa stated that he had been asked to resign by the federal government on the grounds of general dissatisfaction, and it was understood that sir Henry Joly of Quebec would succeed him. Tonight the governor's secretary stated that McInnes had refused to resign for, as he put it in his telegram to Ottawa, he would not recognize the right of a convention to advise the Liberal government at Ottawa how to act. This, of course, refers to the resolution passed by the great majority of the members of the legislation asking the dismissal of McInnes. As federal politics have been barred out of provincial issues this will bring things to a head, for leading Liberals are as strong against McInnes as are the Conservatives.

While returning members are inclined not to talk yet, it is learned that in view of the strenuous opposition of some of the Mainland members, Turner agrees to drop out of the cabinet after the first session, and it is generally understood that he will be given the post of agent-general of the province at London. Garden of Vancouver says he will not accept a place in the cabinet, and it is understood that this refusal is because he fears he might not be re-elected if he went before his constituency again, as must all members when they accept cabinet offices.

Dunsmuir is assured of general support and the latest report is that McBride of Dewdney will be taken into the cabinet as commissioner of lands and works, and Green of Kaslo will be made minister of mines in place of Smith of Lillooet to appease dissentients at the caucus. One thing seems certain, and that is that McInnes will be forced out of the gubernatorial chair in short order now.

BOERS ABANDON MACHADORP

Has Kruger Escaped?

LONDON, June 21.—4:20 a. m.—The British have penetrated Transvaal territory as far as Machadorp. Passengers who arrived yesterday at Lorenzo Marquez from the Transvaal assert that heavy artillery was engaged and that the Boers abandoned Machadorp, retiring northward.

President Kruger is still at Alkamaar. Boer bulletins regarding general Dewet's operations along lord Roberts' communications assert that two convoys were captured and three hundred workmen with fifty military taken prisoners.

It is reported from Lorenzo Marquez that a resident of Komatipoort has been arrested and shot by the Boers for complicity in the break down of the Malana bridge.

President Kruger's unstamped sovereigns have been offered for sale in Lorenzo Marquez at twenty shillings.

A member of the British house of commons, who had an important connection with South Africa, is telling a story of a telegram alleged to have been received from Cape Town which says that Mr. Kruger has really escaped and is already on the seas bound for Europe, and that the person occupying the executive car is not Kruger, but a substitute.

Advices from Pretoria, dated June 17, say that an official warning has been issued to the effect that any further wrecking of communications will be followed by the demolition of the farms for five miles on both sides.

The Pretoria correspondent of the Daily Telegraph, in a dispatch dated Sunday, says: "An informal truce for five days is in operation between lord Roberts and commandant general Botha."

ALL SHIPPING IS STOPPED

Yang Tse Kiang Quiet.

SHANGHAI, June 20.—The Pekin news wired today emanated from the Chinese telegraph. Merchant steamers are not allowed to proceed to Tien Tsin, and vessels on their way have returned to Chefoo. Correspondence with Tien Tsin is difficult. The Chiness Merchants' Company has ceased sending vessels northward.

It is learned authentically that an understanding exists between Great Britain and the viceroys of Nankin and Wu Chang, which accounts for the quietness in the Yang Tse Kiang valley. It is reported that the Chu Su is executing large bodies of suspects daily.

The British armored cruiser Undaunted arrived at Woo Sung yesterday, and cleared for action while passing the forts as a precautionary measure.

Wire communication between Tien Tsin and Pekin is impossible, and the foreign officials here are ignorant of the state of affairs in the north.

Quarantine Raised.

The scarlet fever quarantine at the residence of T. S. Gray, Silica street, was raised yesterday by order of Dr. LaBau, medical health officer, who is satisfied that no further danger of contagion exists.

LEGATIONS ARE NOT HURT

Insurrection Spreads.

LONDON, June 21.—3:50 a.m.—The reports of admiral Seymour's arrival at Pekin and of the safety of the foreign legations, originating from Chinese sources, and cabled to this city from Shanghai are still unverified. However, the Italian consul at Shanghai has wired to the Italian foreign minister, marquis Visconti Venosta, that the legations are safe.

The rebellion is spreading far and wide. There is an impression in diplomatic circles here and on the continent that the allies have not yet grappled with the situation effectively, and that even 50,000 troops would be powerless to do do much to control four million square miles.

The latest story sent out by the Shanghai gossips is that prince Tuan, president of the Tsung Li Yamen, has burned the imperial palace at Pekin and murdered the emperor and that the empress dowager had committed suicide.

The effect of the bombardment of the Taku forts, as described by the Shanghai correspondents was gory in the extreme. Nothing less than "rivers of blood," and "mutilated corpses piled up inside the forts."

The Russians guarding Tien Tsin, according to another report, fired from artillery and rifles on June 15th at a range of fifty yards into dense crowds of attacking Boxers, and killed 300.

Japan, according to a despatch to the Daily Mail from Yokohama, intends to land an expedition at Foo Chow.

Emergency Rations Enquiry.

OTTAWA, June 20.—[Special to The Tribune.]—At the emergency rations committee today R. S. White, collector of customs, Montreal, was examined and said that the Devlin food was not admitted free of duty. It was admitted entirely on the collector's permission, entry to be made afterwards. The entry was not yet made, but cheques for the amount of the duty were handed in by Devlin. It was on his own responsibility that this course was taken. Clancy in the house moved on going into supply that the 5 cents excise duty on Canadian tobacco be taken off. This was lost by 70 to 36.

Unprepared for the Rising.

WASHINGTON, June 20.—There is every assurance that general McArthur executed his instructions as promptly as possible, and that the delay in the departure of troops is due to the conditions that could not have been anticipated. An evidence of the total unpreparedness of the foreign colony in Pekin for the Boxer uprising is afforded by a report to the state department from minister Conger in which he wrote from Pekin on April 8th that he had succeeded in obtaining permission from the Tsung Li Yamen to admit free of duty the goods to be placed on exhibition in the American warehouse in Shanghai to be established by the National Association of Manufacturers.

Mills' Non-Committal.

OTTAWA, June 20.—[Special to The Tribune.]—Bowell in the senate asked Mills if the report in the press that lieutenant-governor McInnes had been asked to resign or he would be dismissed was correct. If the government had done so, it would be a very popular thing. Mills was not in a position to say anything.

Provincial Constable Missing.

VICTORIA, June 20.—[Special to The Tribune.]—The attorney-general's department is endeavoring to locate sergeant Atkins of the provincial police. He was last heard from in Seattle on Tuesday, the police locating him when his absence commenced to arouse suspicion, he having remained away on a case longer than he should have done. About $1200, which he had collected for liquor licenses, is also missing.

Trouble at Canton.

HONG KONG, June 20.—The Chinese expect trouble at Canton on the departure of Li Hung Chang for Pekin. It is rumored that the forts have received orders to fire on any foreign warship attempting to pass. A gunboat is kept here under steam in case of emergency. There is no warship at Canton.

Chinese Merchants in a Panic.

LONDON, June 21.—The Shanghai correspondent of the Times, telegraphing yesterday, says: "An American transport from Manila is due at Taku today. Countless rumors emanating from native sources add to the local tension, and the wealthy native merchants are panic stricken.

Legations Saved.

ROME, June 20.—In the senate today, in response to an interpellation on the situation in China, the minister of foreign affairs, who was absent, telegraphed asking the house to adjourn the debate, adding that a dispatch from the Italian consul at Shanghai had been received today saying that the legation had been saved.

The Disgraced Governor.

VICTORIA, June 20.—McInnes refused tonight to be interviewed regarding his dismissal but promised to prepare a statement for the press. No more cabinet appointments will be announced until the new governor is sworn in.

AMERICANS HAD NO SHARE

Admiral Kempff's Dispatch.

WASHINGTON, June 20.—Owing to the disinclination of acting secretary Hackett to take the responsibility on his shoulders of making public any portion of admiral Kempff's dispatch, it was not until late in the afternoon and after the president had given his approval that the rather meagre statement of the admiral's communication was given out. It was then found to contain little that is new. Persistent inquiry developed the fact that the date of the cablegram was Chefoo, June 20th. The admiral's statement that heavy firing was heard at Tien Tsin on the evening of June 17th, possibly is the basis for the report current in Europe that Pekin was attacked that day by the foreign column, though it seems incredible that the sound of such artillery as could have been carried by admiral Seymour's column could have been heard seventy-five miles, the distance from Pekin to Tien Tsin.

It is possible the admiral means that he, himself, at Taku heard heavy firing in progress at Tien Tsin, 30 miles distant. Though, with an open river above him to that point and gunboats capable of navigating the channel lying at Tien Tsin, it would seem that he should have been able, in that case, to have ascertained what the firing meant in the two days that elapsed between the 17th and the date of his despatch.

Naval officers generally bitterly regret that admiral Kempff was not in the fight at Taku. Up to the receipt of his dispatch this afternoon they had continued to hope, even in the face of foreign reports to the contrary, that the American naval force had taken some part in repelling the attack of the Chinese forts. But the admiral's statement that they were captured by the other foreign forces dismissed that hope.

The prevailing idea among naval officers is that the reduction of these forts was necessary to the safe progress of an international relief expedition to Pekin, and that admiral Kempff should have found it to be within his duty in the protection of all American interests, to have borne his part in the burden. Much depends, however, on the exact terms of his instructions, and in fact it is not yet known whether he actually received all of his instructions or not.

The administration is said to be very much embarrassed by the length of time which necessarily will elapse before the United States military reinforcements reach China. When general MacArthur, at Manila, received instructions to send a regiment of infantry of Taku with all possible dispatch, it was impossible for him to comply immediately because of raging storms. Had the order for the troops been issued when the troubles at Pekin were found to be inevitable, it is more than likely that the troops from the Philippines would have started before the prevailing typhoon made such a step impossible, and now would be on Chinese soil.

The Axe Has Fallen.

VICTORIA, June 20.—[Special to the Tribune.]—The axe fell today when lieutenant-governor McInnes was dismissed from office by the Ottawa government, and as stated sir Henri Joly has been appointed in his stead. Joly has given up his position in the Dominion cabinet to accept the post, and as he is at Ottawa it will take a short time, before he can get to Victoria to take up his duties. In the meantime premier Dunsmuir cannot appoint the remaining members of his cabinet, so a lull is bound to ensue till Joly arrives. McInnes feels very sore, but he declines to talk for publication though he says that he will give a statement to the press in a few days. Joly cannot be officially appointed until McInnes receives his dismissal by mail and acknowledges it. There was great joy here today when McInnes' dismissal was announced.

Casualties in Ashantee.

LONDON, June 19.—Colonel Wilcocks' reports to the colonial office that captain Wilson of the Royal Irish Fusileers and seven natives were killed and ten wounded in captain Hall's attempt to relieve colonel Carter. There is no news from Kumassi.

The Tribune.

FROM the tone of the Nelson Miner yesterday, an outside reader might readily form the conclusion, that there are labor troubles existing in Nelson which in gravity approach those of the city of St. Louis. The cause for the Miner's hysterics is found in the fact that there exists at present a difference between the corporation of the city of Nelson and some nine rockmen, as to whether they shall work nine hours per day for $3.25, or eight hours for the same wage. These nine men are classed as skilled laborers, and are paid at the rate of 36 1-9 cents per hour, so that the granting of their request would mean 36 1-9 cents per man, or an additional cost to city all told of $3.25 per day. The demand for the eight hours has been made for the purpose of preserving uniform conditions for such labor. The city has simply been asked to pay the same scale of wages as is paid by private contractors. It is open for the members of the present city council to say whether they will treat their co-shareholders in the municipality as liberally as private contractors treat them. THE TRIBUNE takes the same position on the labor question now as it did before the recent election. It believes in trades unions and in standard wages. It not only believes that the demand of the rockmen is reasonable, but it also believes that the city of Nelson could pay the $3.25 per diem involved without straining its credit or restricting its programme for street improvements. The Nelson Miner should take advantage of the present opportunity to give effect to its doctrine of peace and prosperity. It should cease to play the part of the calumniator, and allow the members of the city council to decide the weighty question of the $3.25 increase in the cost of street work.

THE business men of Nelson are exasperated at the action of the editor of the Nelson Miner in raising a panic cry simply because the city council has been asked to meet private contractors in the scale of wages paid to nine skilled laborers in the employ of the corporation. The business men may disagree as to whether the city council should pay the nine men in question $2.88 8-9 cents for their eight hours work, or whether the full day's wage of $3.25 should be paid; but they are unanimously agreed that the Nelson Miner's policy is calculated to do more mischief than any demand which the labor organizations of the city have made or are likely to make. Outside readers who are not familiar with the Miner's rule or ruin policy may take alarm at the Miner's statements that building operations in Nelson are at a standstill; that the loan companies are refusing business right and left; that the bankers are openly expressing their distrust of the situation; and that financial ruin is in sight. Just how the Miner hopes to promote the commercial and industrial welfare of Nelson by the publication of such nonsense, the business men of Nelson are at a loss to understand.

Mining Records.

Yesterday's mining records were as follows: Transfers, an eighth interest in the Manila mineral claim, situated at the head of Ninemile creek, by A. H. Fischer of Nelson to C. H. Crandon of Nelson; locations, Midnight on the south fork of Porcupine creek by L. A. Snyder, Sunrise on Porcupine creek by L. A. Snyder and Gilbert Peone, Pendarry Fraction on Wild Horse creek by W. B. Doyle; certificates of work, to M. E. Graham on Monarch, Little Joe and Copper Dell, to British America Consolidated Gold and Silver Mining Company of B. C., Limited, on Hattie B., Anna B., Ida and Alice.

KEEP OUT THE JAPS.

Toronto Telegram.

Fear of Russia is the solid rock upon which Japan's friendship for Britain is built. No British Columbia law for the protection of Canadian labor could remove Japan's fear of Russia and could not, therefore weaken the alliance between Japan and Great Britain. There is no imperial reason why British Columbia should sacrifice the interests of Canadian labor on the altar of British interest. Japan could not cut loose from Britain without exposing herself to annihilation at the hands of Russia. No statute which a British Columbia legislature could pass would shake the foundations of an alliance based upon the unchanging fact that Japan has everything to fear from Russia and everything to hope for from Britain.

McInnes Dismissed.

OTTAWA, June 20.—[Special to The Tribune.]—Owing to the absence of the governor-general the order-in-council passed at the cabinet meeting today dismissing lieutenant-governor McInnes of British Columbia, is not likely to be signed for a day or two. Lord Minto is down the St. Lawrence fishing, and justice Taschereau is acting in his stead. McInnes' dismissal was found necessary because he refused to resign when asked to do so. There is no doubt but that Joly will succeed McInnes.

Gold Shipments.

NEW YORK, June 20.—It is announced that Lazard Freres will ship $600,000 and the National City Bank $600,000 gold to France tomorrow.

What does this mean?

All Nelson wholesale shippers and commercial travelers are requested to attend a meeting at the Hume Hotel on Saturday night at 8 o'clock sharp.

St. JOSEPH'S SCHOOL

NELSON, B. C.

A boarding and day school conducted by the Sisters of St. Joseph of Peace. It is situated at the corner of Mill and Josephine streets in one of the best residential portions of Nelson, and is easily accessible from all parts of the city.
The course of study includes the fundamental and higher branches of thorough English education: Business course—bookkeeping, stenography and typewriting. Science course—music, vocal and instrumental, drawing, etc. Plain art and needlework, etc.
For terms and particulars apply to the Sister Superior.

STORYETTES.

During the jubilation over the relief of Mafeking (says the Londoner), a humorous policeman was asked in the thick of the crowd by a harassed pedestrian to tell him the nearest way to Charing-Cross hospital. "Call for three cheers for Kruger," responded the genial guardian of the peace, "and you'll be there in no time."

It is said by those who know Cecil Rhodes, the South African magnate, that he has, in common with lord Kitchener, a strong aversion to the opposite sex. While on a visit to London before the commencement of the war he dined at the house of a very wealthy lady of title, and later, when he was discussing the affair with his secretary, the latter asked: "And whom did you take to dinner?" "Oh, I don't know. Some Lady Somebody," was the reply. "But what did you call her?" "Didn't call her anything—never spoke to her."

Not long ago the New York state newspaper men gave a banquet in Stanwix hall in Albany, and among the guests of honor were ex-governor David B. Hill and governor Theodore Roosevelt. The latter entered the hall first, wearing an evening suit and his famous brown sombrero, made famous by the Rough Riders. It was a combination costume at once original and picturesque. Among the last of the guests to arrive was Mr. Hill, who was conventionally attired, even to his silk hat. "Ah!" exclaimed Colonel Roosevelt, in his peculiar staccato manner, as he grasped Mr. Hill's hand, "now we have with us a real Albany swell. Governor Hill is the only man here tonight with a silk hat." "I've got a slouch hat myself," returned Mr. Hill, softly, "but I left it at home. I've given up wearing it since I went out of the advertising business."

SANDON RELIEF FUND.

CITY LOCAL NEWS

An improvement is being added to the opera house in the shape of balcony over the main entrance 16x0 feet in dimensions, on which the band will play before performances.

W. G. Gillette has secured the contract for the erection of a $1300 residence for A. L. McCulloch on Latimer street.

Herbert Lambert, one of the pioneer merchants of the new Kettle river town of Wauchope, is in the city on a business trip. Mr. Lambert states that if Nelson wholesalers are to hold the trade of this promising district steps must be taken to secure a government road through Fire valley. At present the trail is in very bad shape and packers charge 4 cents per pound, whereas from Vernon the cost of packing is only 2 cents. The result will be the diversion of trade to coast concerns.

Jacob Dover and family returned from Montreal yesterday, arriving here on thetrain which broke the season's record across the continent by making the trip in 86 hours. While in the east Mr. Dover spent several days in New York, where the temperature was several degrees over the 100 mark. He made extensive purchases from various eastern importers.

The switch where the steam shovel is working on the C. P. R. line between Slocan Junction and Robson has been named Thruins. Local wholesalers will now have a new shipping point.

The excellent run of the Athabasca mine last month and the prospect of a $25,000 clean-up at the end of this month has created quite a local demand for Athabasca. Several small blocks have changed hands during the past few days around 22 cents.

The Municipal band will not have their new uniforms for the Dominion Day celebration. The outfits were to be of kharki, cut in regulation military style, but the military tailors from whom the clothing was ordered could not fill the order on time. The band will therefore appear during the demonstration in the ordinary rifle uniforms and the Kharki suits may be ordered later.

The switch material for the street car turnout on Water street has arrived and a staff of men was put at work yesterday putting in the switch. Three cars will be placed on the run Sunday and a ten minute service will be given.

A quiet wedding was celebrated yesterday in the vestry of the Church of Mary Immaculate, the contracting parties being Miss Mary Russell and Herbert G. Goodeve, accountant for the Lawrence Hardware Company. The ceremony was celebrated by the Rev. Father Ferland. The bride and groom are well known young people and many will join THE TRIBUNE in extending hearty congratulations. Mr. and Mrs. Goodeve will reside on Silica street.

Within a few months a new hotel will be added to the list of Nelson hostelries. Cane & Macdonald, architects, have in preparation plans for a hotel 52 by 110 in dimensions, but are not at liberty as yet to divulge the name of their clients. They state that the building is to be three stories in height, stone in the basement and first story and brick for the balance. The estimated cost is $40,000. The architects anticipate that work will start on the building within a month.

The mammoth register at the gas works indicates that since the plant commenced half a million feet of gas has been manufactured and passed into the city mains.

The application for an injunction to restrain LaPointe & Croft from making bricks on Josephine street has been enlarged to next Monday.

Miss Antoinette Trebelli will give a concert in the opera house on Saturday evening, assisted by Eugene Bernstein. Miss Trebelli has a splendid soprano voice, and a large number of seats have already been retained by subscribers. Seats will be on sale to the public on Friday and Saturday.

The Venus mill is now installed, and will be started up this afternoon on a trial run. If all goes well it will start crushing continuously in a day or two.

Robrecht de Vos, who has been the guest of W. W. Beer for a couple of days, left yesterday for Winnipeg en route to Ottawa, where he will take up his residence. Mr. de Vos is the recently appointed vice-consul to Canada for Belgium, and his mission in the west is to make a report on districts suitable for emigrants. He was accompanied by a couple of representatives of a Belgian syndicate which is acquiring tracts of land north of Winnipeg for settlement.

The maxim gun squad of the Nelson Rifles got down to work last night with their instructor, sergeant Knight, of the garrison artillery company stationed at Esquimalt. The instructor put the class through the initial steps of the gun drill, which included a lecture on the rather completed breech mechanism. The class will meet nightly as sergeant Knight is only allowed to remain here ten days.

A man named Pretric sat in a game of draw poker at the Kootenay hotel Tuesday night and dropped $25. To square himself he filled his pockets with chips. Constable Hardy was called in and requested Pretric to hand over the ivories. He refused to do so and the officer ran him in. At the police court yesterday Pretric was before the magistrate, who remanded the case.

The formal opening of the dancing pavilion at Lake Park, rented by Mr. Werner, took place yesterday evening. The building was crowded by a large number of young people of both sexes, who pronounced the management and music excellent and voted the whole affair a great success. During the warm weather the regular dances which will be held in the pavilion are sure to be well attended, especially as every effort will be made to keep up the high standard of the place. The pavilion is a decided acquisition and should prove a success.
