McKINLEY OF OHIO THE WINNER

His Majority in the Electoral College will be Almost as Large as it was Four Years Ago.

BRYAN DID NOT CARRY HIS HOME PRECINCT IN LINCOLN

NEW YORK, November 7—1 a.m. It became evident at a very early hour last evening that the election of McKinley and Roosevelt was assured. At half past eight returns from nearly two-thirds of the election districts of Greater New York had been received, indicating that Bryan could not expect more than 25,000 or 30,000 plurality in this Democratic stronghold, and unless there was a landslide in the outside counties beyond all reasonable expectations, the pivot state of New York had declared in unmistakable terms, although by a greatly reduced majority, for the Republican candidates. As the night progressed it only served to confirm this judgment. The returns from Illinois betrayed a like condition. The Republican plurality of 1896 was greatly reduced, bnt it was still far too large to be overcome. On the other hand, the returns from Indiana, Michigan and the two Dakotas, Utah and Wyoming, as well as Nebraska, seemed to indicate strong Republican gains over 1896. Delaware, Maryland and West Virginia had given decisive Republican pluralities. The count in several of the far western states was naturally so delayed as to give little intimation of the outcome there, but they had ceased to have a determining effect and before 10 o'clock the Democratic leaders had given up the contest, and it was announced that Mr. Bryan had gone to bed and was sound asleep. The whole story was easily and briefly told. The Republican ticket would have a larger electoral vote than four years ago, but in the larger states of the east and middle west the pluralities had been greatly reduced. Massachusetts has fallen from 174,000 to 50,000; in New York from 268,000 to 150,000; Illinois from 146,000 to 100,000 or less.

The latest returns from Nebraska indicate a Republican plurality. The fifty-seventh congress seems to be Republican by a substantial working majority. The gubernatorial tickets have apparently followed the national, and Odell is elected in New York and Yates in Illinois.

NEW YORK, November 7.—At 1:30 this morning, national committeemen Manley, Gibbs, and Bliss held a conference, at the conclusion of which the following statement was given out, "On the returns received at Republican headquarters up to this hour, the Republican national committee claim to have elected McKinley and Roosevelt by an electoral vote of 284, with the possibility of 21 votes in addition, making a total of 305. These 21 votes consist of the 13 votes in Kentucky and 8 in Nebraska. The states we surely claim for McKinley and Roosevelt are California, Connecticut, Delaware, Illinois, Indiana, Maryland, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Washington, West Virginia, Wisconsin and Wyoming." The committeemen then closed their desks and left for their homes.

NEW YORK, November 7—1 a.m. —The electoral vote will probably be as follows:

For McKinley—California, Connecticut, Illinois, Delaware, Indiana, Kansas, Maine, Massachusetts, Michigan, Minnesota, Maryland, Nebraska, New Hampshire, New York, New Jersey, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Washington, West Virginia, Wisconsin and Wyoming, and Utah. Total—292.

For Bryan—Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Montana, Mississippi, Missouri, North Carolina, South Carolina, South Dakota, Tennessee, Texas, Virginia, Colorado, Idaho, and Nevada. Total—155.

CANTON, Ohio, November 6.—The president's first congratulations came from J. H. Manley, at New York, as follows: "Praise God from Whom all blessings flow. Your triumphal re-election is conceded by the Democratic managers. I tender my earnest congratulations. We are very happy at headquarters."

President McKinley received the election returns at his home surrounded by a large number of his old friends and neighbors, including many ladies, who came as the guests of Mrs. McKinley, to share with her the interest and excitement of this culminating event of the campaign. Direct wires connected the house with the Republican national headquarters at New York and Chicago and with senator Hanna at the Union Club in Cleveland and with the home of governor Roosevelt at Oyster Bay, New York, so that the president was in constant telegraphic touch with his associates on the ticket and with the campaign leaders. The president made his headquarters in his library, where most of the gentlemen guests congregated, while Mrs. McKinley entertained the ladies in the parlor. The president was in his usual good humor, showing no signs of anxiety over tke result.

Old Newspaper Scorched.

ALBANY, New York, November 6.—A fire started at 6:30 tonight in the candy factory of Kreischer & Co., and before the firemen could get water on the blaze, the entire building ranning through a block was a mass of flames. Next door on Beaver street was the Knickerbocker Express, the oldest established paper in this section of the state. So rapidly did the flames spread that the employees in the building preparing to get out the returns for the morning paper had to run for their lives. Not anything of value was saved, the Associated Press reporter having to leave without his machine. By the concentrated efforts of the entire fire department, the flames were confined to the two buildings. The office of the Argus is in the same block, and the Times-Union, another newspaper, is across the narrow street, and it was at first thought that both would suffer. At eight o'clock both buildings on fire were gutted and the loss is entire. The Knickerbocker Express at once started to find means to issue its paper, and every Albany paper lent assistance. Mr. McCarthy, the proprietor, accepted the offer of the Argus. The loss to the Knickerbocker Express is $60,000, insurance $30,000. The other losses will average $75,000, with insurance of about $35,000.

Miner Killed at Rossland.

ROSSLAND, November 6. — Andrew Howick, a miner in the Nickle Plate mine, was killed this morning by the cage descending upon him. Howick was doing some temporary work at the 500-foot level of the Nickle Plate vertical shaft, where a platform had been placed, cutting off the passage of the skips to the 600-foot level, or bottom of the shaft. Above Howick, at the 400-foot station, two muckers, named Munroe and Baxter, were at work, and it is said that Howick warned Munroe that he was at work below him and to be careful to not allow any rock to fall on him and also to keep the cage off him. Munroe, it is said, told Baxter about Howick, so that both men were aware that a man was at work 100 feet below and directly under them. At the 600-foot station chairs were in position to prevent the cage from going any further down. The men went on shift this morning as usual, and about 9 o'clock Baxter, it is stated, heard, as he thought, Howick striking on the pipe for the cage. Accordingly he pulled out the chairs and signalled the engineer to send the skip down to the 600-foot level. The cage passed on down, and although the engineer showed up in passing, or attempting to pass, the 500-foot station, the cage caught poor Howick and simply crushed him to death. The temporary platform, of course, held the cage, and Baxter, fearing an accident, went down the ladderway, only to find the mangled remains of Howick underneath the cage. Howick was a married man, and leaves a wife and two small children to mourn his loss.

THOUSANDS OF DOLLARS EXPENDED

In Buying a Mine and Mining Machinery and Supplies and Little to Show For It.

A SIX-MILE CREEK PROPERTY THAT WAS NOT A BONANZA

A. W. Gambs of Six-mile creek was in the city yesterday on business. He is driving a tunnel on the Alexandra-Dilley property on contract and the work will take the most of the winter. The property is looking well and has the distinction of being the only proposition in the immediate district working at the present time. In the 90-foot shaft completed this summer the company has several inches of $450 galena, and in the tunnel now under way there is twelve inches of $40 to $60 ore. Native silver is encountered at many points in the shaft and specimens of ore assaying 1000 ounces can be found all through the vein. The tunnel now under way is to tap the vein at 400 feet depth and the management figure that the improvement with depth, will be very considerable. The only other property working in the district is the group owned by Hittle and Nolan, two miles away and on the main Lemon creek. The partners have taken out some high-grade ore and will work the claims all winter.

Six-mile creek has been practically deserted by prospectors since the Golden Wedge proposition went flat. This was an instance of capital rushing into a mining investment before the conditions justified the outlay. A sum of money estimated at $75,000 to $90,000 was spent on the Golden Wedge, while the property turned out to be practically valueless. Apparently the ordinary course of obtaining reports from practical and theoretical miners was neglected, and a sum of money sufficient to swing a really first-class property was thus squandered. When the Wedge was sold, a company was organized in Toronto, and one of their first moves was to purchase a ten-stamp mill. A large sum was expended on a wagon road from the mouth of Six-mile creek to the mine, a distance of about 12 miles, and a further outlay was made in the construction of buildings at the camp. Things dragged along and finally a new manager was installed. He was skeptical of the merits of the property, but at the instructions of the management had the milling plant teamed up from the lake where it had been lying for six months. The machinery was set up and run as long as the ore held out, less than 15 days. The ore averaged about $4 per ton, and when the supply was exhausted the engineer recommended the management to shut up shop, which was done.

A couple of men were to look after the mill, but they were never paid for their services, and the institution has stood wide open for a couple of years. The battery of ten stamps is in good condition, and as the machinery is modern and complete it will doubtless be purchased for use elsewhere if a title can be secured from the defunct company. Several parties have enquired into this matter lately, and if the free milling belt west of Nelson goes ahead as is expected a good plant will not go hunting buyers. The company, equipped the camp with large quantities of hardware, tool steel, provisions, hay, oats, flour, oat meal, candles, sleighs, harness and the other necessaries of a mining outfit. This has been a bonanza for prospectors passing through the district, and scores have taken advantage of the fact that a well equipped storehouse was standing deserted in the hills with the doors wide open. The cache is practically worked out now, only a few sacks of mouldy flour and more or less oatmeal in a similar condition remaining.

The wagon road is rapidly falling into bad repair. Last winter settled it so far as teaming is concerned, and another winter will go far toward closing up the pack trail now used. In the days of the Golden Wedge's prosperity many claims were staked along the creek, and with teaming and other traffic along the road, the district was quite lively. The locations never amounted to anything, however, and the Six-mile creek country is now about the loneliest section in the vicinity of Nelson.

THE election returns indicate that the Republican party will retain power in the United States for another four years. McKinley is undoubtedly re-elected president, and as far as can be judged from the meagre returns received, the Republicans have elected a majority of the members of the next house of representatives, which meets on March 4th, 1901. The senate is now Republican, and is not likely to change its political complexion during the next four years. This means that the United States will remain on friendly terms with Great Britain; that there will be no change in the financial laws of the country; and that there will be no scuttling from the Philippines. It means that the business and political conditions that now prevail in the Republic will continue—and probably it is for the best.

THE people of Great Britain voted confidence in the Salisbury government. The people of the United States have said at the polls that they still have confidence in the Republican party and president McKinley. Will the people of Canada say at the ballot-box today that premirr Laurier and the party behind him are worthy an extension of time in office?

Williams's Side of the Case.

NELSON, November 6.—To the Editor of The Tribune: I shall be obliged if you will publish this re the Williams—Chapleau Mining Company dispute: Any question of account between Mr. Williams and the company will be thoroughly gone into in the near future, and it is unfair to him that the community should be led to believe that he has laid himself open to a charge of embezzlement. Ever since the organization of the company in this province it has had the services of both a bookkeeper and an inspector, who were in a position to advise the company of any improper use of its funds; and that the company felt that it could entirely trust Mr. Williams in the matter is shown by the fact that quite recently it placed a large sum of its money to the private account of Mr. Williams at a bank in Nelson. Furthermore, Mr. Williams has too large a stake in the company to make it worth his while to do anything which would injure the ultimate success of the company's undertaking.

HENRY A. STEWART.

American Bravery Praised.

LONDON, November 6.—The Gazette prints general Gaselee's dispatches to the secretary of state for India. Referring to the operations for the relief of Pekin and general Dorward's report of the operations about Tien-Tsin, Gaselee, among half a dozen others, mentions for special services two Americans "who gallantly supported our fighting line, namely, major Quinton and captain Taylor," both of the 14th United States infantry. General Dorward's report reports little news, but, relating to the withdrawal of the Ninth United States infantry after it had suffered so heavy after the attack at Tien-Tsin, he says: "I would specially bring to notice the conduct of major Lee during the retirement. In him the regiment possesses an officer of exceptional merit. Among many instances of bravery during the action I would specially bring to notice captain Smedley Rutter, United States marines, in bringing a wounded man in from the front under heavy fire. Rutter was wounded while so doing, and was himself carried out of the firing line by adjutant Leonard, who, I regret to say, was dangerously wounded in so doing."

A. H. MacNEILL

of Rossland

Candidate of the Liberal-Conservative Party for Member of the House of Commons for Yale-Cariboo.

PLATFORM

Adopted by the Liberal-Conservative Party in Convention at Revelstoke, September 15th, 1900

We, the delegates of the Liberal-Conservative party of Yale-Cariboo constituency, in convention assembled, reaffirm the principles of the party, and more particularly that cardinal principle, protection to home industries, and that that principle be carried out so that all sections of the country shall equally share its benefits.

The one industry on which the prosperity of this constituency is almost wholly dependent is mining; and we believe that our mining industries are as fairly entitled to protection as the manufacturing industries of Eastern Canada; therefore, we advocate that the duties on lead and lead products be increased, so that they shall be as high as those now imposed by the United States on the same articles.

That the output of the precious metal mines is largely increasing, therefore we favor the establishment of a mint, so that the specie in circulation shall be that of our own instead of that of a foreign country.

We advocate the restriction of the immigration of Chinese and Japanese, and all classes who cannot become good citizens of the Dominion of Canada, and suggest the adoption of the principles of the Natal Act.

British Columbia has not now the representation in the federal parliament that she is entitled to: therefore we advocate that when the redistribution of seats is made that this constituency shall be given representation according to its population.

That it augurs well for the success of the party that Hugh John Macdonald has decided to leave the field of provincial politics to take part in the larger one that affects the people of the whole of Canada.

RETURN OF THE HEROES.

Toronto News.

There are two great days in the history of Canada since Confederation. The first was the one which signalized the sailing of the first Canadian contingent from Quebec for South Africa a year ago this very day. The second dawned this morning when the announcement flashed forth from the battlements of the citadel that the Idaho was in the offing with her splendid cargo of over four hundred infantrymen, hardened in a great imperial war. Springing to arms in the gloomy days of October last, when British prestige seemed to be sinking into the dust, these men of the Royal Canadian regiment sailed for Africa with the burning desire to uphold the honor of the imperial flag. Marching hundreds of miles, winning many hard fought fields, they have aided in the conquest of two republics and have seen their flag raised over two capitals and countless minor towns. By the side of historic British regiments they have faced mauser bullet and shrapnel shell on almost every foot of ground from Belmont to Bloemfontein, from Bloemfontein to Pretoria.

They are the victors of Paardeberg, where the lion of the veldt, Cronje, was netted and had his claws clipped. But the link in the chain of empire which they have forged will be the feature of their work which will appeal to history, and the imagination of the nation builder, for by their absence of a year they have advanced the cause of Imperial unity by half a century. Little wonder, then, that Halifax should overflow with the molten fire of patriotism, and that Canada at large should be ranging itself in heaving lines to welcome as befits the occasion of these heroes of a hundred fights. Halifax is today the prey of an excitement that is all the more intense because it is impossible for the Anglo-Saxon to show fully what he feels. In another day or two the chief towns in Canada away from the seaboard will be imitating the Haligonian, and expressing as feeble as human modes of expression allow the admiration and honor in which the Dominion holds those who have used their bayonets as trowels with which to cement the Imperial, and at the same time, the Dominion structure. Canada welcomes and crowns with laurel the victors of Paardeberg.

Left to Take Possession.

The representatives of the Chapleau Mining Company, Messrs. Dusmet, Grammout, Mourgues and Weyl, left yesterday morning to take possession of the mine. They were accompanied by the sheriff who carried a copy of the injunction issued by the supreme court, in case opposition should be met with. It is understood the work at the mine is to be continued under the direction of M. Mourgues, the engineer. The machinery for the mill is all on the ground and the balance of it can be placed in position quickly. The tramway only requires a few finishing touches to be in running order, and these can be made inside of the week. The mine is developed to a stage where there is sufficient ore in sight to keep the mill going to its full capacity for the winter.

Scotch Game Comes High.

The autumn season in Scotland is now drawing rapidly to a close, and people are deserting their shooting boxes for the comparatively warmer climate of England. From a sporting point of view, the season has been a notable one, but hardly so in regard to the Scottish gatherings. Several parties were arranged in the south of Scotland for the annual race meetings at Lanark, Ayr, and Musselburg, but so many men are still absent in South Africa that the balls held in connection with the races were not altogether successful. The cost of shooting-parties in Scotland is tremendous. It is generally estimated that the rent of a Scottish moor is about $5.25 per brace—that is to say, a moor that will yield 400 brace will cost $2100, and yet many side luxuries, such as a bit of good salmon or trout fishing, a nice yachting anchorage, good roads for cycling, or proximity to golf links, will add $5.25 more. Keepers' wages are included in this rent. The lessee, especially if unused to shooting, will require a pair of new guns, which will cost him from $600 to $800, and in the gun room, for guests, will need three other pairs of cheaper manufacture, which will cost $300 to $500 more. The ammunition bill, allowing three shots to a grouse and three shots for other game, will run to $150 or more, while the railway fares on a moor renting for $2000, of lessee, family and servants, will rarely fall under $5000. Washing, with carriage to and from London, will amount to $250 or $350; horses and carriages, usually hired from London, $500 more, not to speak of the cost of gillies, beaters, etc. It will thus be seen that a Scotch grouse averages a cost of about a guinea and a half, or, say $8, to the average English sportsman.

NEWS WIRED IN PARAGRAPHS.

A football game in New York yesterday resulted: Columbia 62, Princeton 5.

One of the incidents of election day in Chicago was the suicide of Frederick Jannecks. Upon leaving for the polls, he remarked that he was about to cast his last vote. Upon his return home he committed suicide by drinking carbolic acid.

The election in the United States took first place in the London newspapers yesterday. Despatches of unusual length discuss the possibilities, special articles explain the election machinery, cartoons reproduced from American papers illustrate the humorous side, and editorials explain the party issues.

The French senate reopened its session at two o'clock yesterday afternoon. M. Falliers, who presided, pronounced eulogies on the senators who died during the summer vacation. After a brief and uninteresting session the house adjourned until tomorrow afternoon. A bill was introduced with the object of arresting the depopulation of France.

Not Afraid of a Tariff War.

ST. PETERSBURG, November 6.—Referring to the report that Russia and America had agreed to warn Germany against fulfilling the ultra-agrarian demands regarding the grain tariff, the proper authorities in the finance ministry here informed the correspondent of the Associated Press today that Russia does not intend to interfere with Germany in the conduct of her domestic affairs. Russia, he added, will not notice the tariff legislation officially until it is enacted and commercial treaty negotiations are begun. It is impossible that Germany will establish maximum and minimum rates; the discussion of this point had hitherto been academic. In any case, Russia will camly wait, as she is not airaid of a tariff war with Germany.

Odious Comparisons.

"Tell me," said the seeker after knowledge, "wasn't it Shakespeare who said: 'The evil that men do lives after them, the good is oft interred with their bones'?" "I don't know," replied the man who had married a widow, "but I'm sure it was never said by a man whose wife insists upon comparing him with her first husband."

All That Was Needed.

Cassidy—"Wudn't yez loike t' live on a farm, Pat?" Casey—"Oh, ut's th' only way t' live! Ef they only hod illivated roads, cable-cars, plinty av saloons, concert-halls, tinimint-houses, dirt, noise, and polacemin on a farm, Oi'd move on to a farm tomorrow."

Bad Form.

Mrs. Highblower—"Dont forget, my dear, that in conversation the interest must not be allowed to flag." Clara—"But I'm sure I do my best, mamma." Mrs. Highblower—"May be so; but while the pianist was playing I thought, once or twice, that I detected you listening to him.

TO

Contractors and Builders

Having disposed of our business to Mr. Ernest Mansfield, we bespeak for him a continuance of that liberal share of patronage which has been extended us during our career in Nelson. We can only say that those traits which have built up for us and maintained our reputation for reliable dealings will be continued throughout by the new firm. We therefore take great pleasure in recommending him to all our old customers, and also to any new ones who may honor him with their patronage.

Thanking you for past favors,

The West Kootenay Brick & Lime Co., Ltd.
T. G. PROCTER,
Late Managing Director

Nelson, B. C., 5th October, 1900.

To the Public . . .

Having taken over the business of the West Kootenay Brick & Lime Company, Limited, of Nelson, I beg to ask for a continuance of the patronage which you have heretofore extended them. My aim will be at all times to supply you with our products at lowest possible prices. Being in a position to manufacture goods in larger quantities than before, we shall be able to supply the trade at a lower figure.

It is our intention to install machinery to manufacture our marble products, and next season we shall be in a position to supply these products at reasonable rates.

We shall also keep on hand a stock of Fire Brick, Fire Clay, Tiles and Cement.

Our Bricks and Lime Rock have taken the First Prizes at the Spokane Industrial Exposition in 1899 and also this year. We also secured prizes last year and this year for Ornamental and Building Stone.

We are prepared to offer special rates to Contractors and Builders.

ERNEST MANSFIELD,
for The Mansfield Manufacturing Company.

NO MORE TIGHT BELTS

CLING SURFACE

a preservative and filler for belts. It is the only material that will permanently prevent belts from clipping and allow them to be run slack. It produces a smooth clinging surface, perfectly preserving the belt, but does not cause it to stretch. For leather, cotton rope or rubber belts.

CITY LOCAL NEWS

Albert Maslonka, aged 10 years, was taken to the provincial reformatory last night by timber inspector Martin, who was made a special officer for the occasion.

J. Teller, a miner from the Ymir mine, is at the general hospital. While working in one of the tunnels a quantity of rock fell upon him, causing painful injuries.

The contracts for the new house which J. K. Strachan is constructing have been let. John Toye will do the general work, William Lawr the plastering, and Strachan Brothers the plumbing.

The executive committee of the Nelson St. Andrew's Society met last night to discuss arrangements for the annual banquet. They decided to hold the dinner at the Hotel Phair on the 30th instant, as usual, and to have the affair up to the standard of previous events.

The action of Manley vs. Callom came up again at the court house yesterday and the balance of the evidence for the plaintiff was submitted. Counsel for defendant moved for a non-suit on nine points. Seven of the objections were thrown out and Mr. justice Walkem reserved his decision as to the remainder. In the meantime evidence for the defence was taken.

Today the balance of the men employed by J. W. Stewart and J. V. Welch will be taken off the work, and the outfits will be shipped to the Rainy River district shortly. A work train is likely to be out on the section between the city and Five-mile Point in a few days to ballast the road. When this is completed the C. P. R. will have spent in round figures $500,000 between Nelson and Procter.

Bishop Dontenwill returns from Rossland today and will go to Kaslo this afternoon with fathers Cocolo of Fort Steele and Cote of Nelson. On Friday morning his lordship celebrates mass at 8 o'clock, and in the evening service will be held at 7:30 o'clock, at which he will preach. On Saturday the party goes to Sandon, where the new church is to be blessed on Sunday. On Monday the party will be at Silverton.

The social evening at the Methodist church under the auspices of the Epworth League was eminently successful. The breach of promise case from "Pickwick Papers" as reproduced by members of the society made a decided hit, eliciting hearty rounds of laughter and applause. The first number of the league paper, the Parrot, proved to be amusing as well as instructive, and the publication is likely to become a popular feature of the monthly social evenings. Mrs. R. A. Laird, convenor of the social committee, occupied the chair.

Three Marriages Yesterday.

Rev. Robert Frew celebrated three marriages yesterday. At the church last evening Augustus A. Webb of Silverton was married to Miss Jessie McKerron of Summerside, P. E. I. The bride had just arrived from the east to join her fiancee here. The groom is a well-known mining man and the ceremony was witnessed by a number of friends. George H. Manhart, formerly of the C. P. R. and now of the street railway staff, was married to Miss Lilian Paulson of Spokane at the residence of rev. Mr. Frew. The third wedding was that of John H. Ellis of this city and Miss Ida J. Craig of QuAppelle, N. W. T., which also took place at the rectory.

NELSON MINES AND MINING

Robin Hood Group Bonded.

The bond on the Robin Hood group was recorded yesterday. The property is located on the east fork of Cottonwood creek and includes the Robin Hood, Lucknow, Pearl, Minna, Hecla, Gem, Seaforth and Gold Vein claims. It is owned by Hugh Nixon and M. A. Driscoll and is bonded to Miss R. L. Leigh Spencer of Vancouver, who is the only lady promoter in the province. The price is $10,000, half of which is payable on March 1st, 1902, and the balance in September of the same year. Development work must be started at once with a crew of men numbering not less than four, and any minerals taken out are to belong to the owners. Furthermore, the group is to be surveyed and crown granted before June next at Miss Spencer's expense.

Mining Records.

Yesterday's mining records were: Transfers—A quarter interest in the Golden Reef, Silver Bell and Copper Crown claims on Barrett creek by C. B. Archibald of Ymir to Herman Stolp of the same place.

Locations—The Foothill on Wild Horse creek by Finlay McLeod, the St. Elmo on Wild Horse creek by John G. Dewar.

Certificates of work—To John Morgan on the Black Bear, to M. R. Driscoll on the Seaforth, to John Lindsay on the Forest Bell, to Charles Monroe on the Brush.

M. S. Logan, managing director of the Juno company, spent yesterday at the property, and returned to Rossland last night well satisfied with the outlook. The tunnel is in on the vein fifty feet, a good record for the first two weeks, and the ledge has widened from eight inches to eighteen. The tunnel is being carefully driven and thoroughly timbered, the intention being to make this the main outlet for all the workings planned.

Checkers and Chess.

Ten members of the chess and checker club turned out to the matches last night. The following five players lead in the club tournament now under way:

	Won	Lost	Played
J. Hardie	9½	2½	12
E. G. Smyth	8½	1½	10
J. H. Wallace	11½	5½	17
Mr. Clark	7½	4½	12
D. Hardie	4½	5½	10

The club's chess match with J. R. Hunnex of Erie is progressing as rapidly as the mails will exchange moves.

Ladies' Bracelets.

We can strongly commend the different styles of bracelets to be found in our stock. The patterns are handsome and new. The quality and durability are positively assured, and the value is quite evident at the prices asked.

Fashion and Fit . . . . .

Are two important items in a woman's thought when she buys shoes.

Durability is a matter of course, a quality that any cobbler can furnish; but style, grace, beauty and fit are items that involve artistic taste, trained genius and expert knowledge of the foot and its anatomical needs.

WE CAN SUIT YOU.
