STANLEY FALLS TO KEEFER LAKE

Adventures of a Party of Prospectors Through a Country Rich in Mineral.

GAME OF ALL KINDS ALSO FOUND IN ABUNDANCE

George H. Keefer of Stanley Falls, Fire Valley, who has come into the city to spend the winter, was one of a party which made a most interesting trip last summer. In company with W. Hinchliffe and John Laritz of Robson, W. K. Richmond of Sandon and A. L. Marsh, an old Kettle river prospector, he spent July, August, September and October in the Pinnacle and Cherry creek headwaters districts, both north of what is usually termed the Kettle river country. The outfit was the first to prospect for quartz showings in both sections, and their report is of more than ordinary interest for this reason. The general characteristics of the whole country proved to be big strong leads of quartz carrying low grade ore.

The party left Stanley Falls on June 24th, following the Kettle river north to Keefer lake, which, by the way, is not named after G. H. Keefer, then on to Marsh lake. The latter body of water is fed by streams from the watershed, and ultimately discharges into the Columbia.

On the other side of the watershed the streams flow into Cherry creek and gnally reach the Fraser. Keefer and Marsh lakes were thoroughly prospected with no results. The lake section has big timber and fine townsites but no mineral. The upper affluent of Marsh lake is Poola creek and at the head of this stream the party staked eight claims as the Satellite group. The claims have a strong galena lead carrying low grade silver and copper. The formation here is diorite and schist.

On crossing to the Fraser river side of the watershed it was found the formation changed to slate. Cherry creek has five main feeders from the divide and on the extreme western fork the party located another group of claims. A 26-foot lead of quartz was stripped for some distance and fifty feet of drifting done on the lead in ore assaying from a trace to $14 in gold.

On Cherry creek placer mining is carried on now, and the creeks have been worked steadily for 30 years. A number of Chinamen and a few white men are working the creek claims. The latter are old Cariboo miners and lead an easy life. They work a few days each week and spend the balance with rod and gun. All have comfortable cabins and little gardens. Mr. Keefer states that colors can be found in all the streams, and that at many places ruby sand, always esteemed by placer miners, is to be found in liberal quantities. In panning out ruby sand the party secured a pint of rubies and garnets. Few of the jewels have any commercial value except to watchmakers who could utilize them. He believes that many places could be found where the ruby sand would yield good results, but the profitable spots are so scattered that the country is not likely to attain any importance on the strength of its placer claims.

The country through which the party traveled was magnificent. The valleys were filled with splendid timber, while the upper levels were park-like with jack pines and bunch grass. Along the creeks trails had to be cut to get the horses through, but on the hills traveling was easy. The whole section teemed with game. The party saw deer, cariboo, bear, goats and grouse galore. They shot for the pot only, but managed to get away with five deer and a couple of goats, not to mention birds. The lakes were full of rainbow and Beardsley trout. The outfit never had difficulty in securing all the game it could use within a mile or two of camp, and several fine heads were taken, but could not be preserved. The summer was unusually wet this being the only drawback to the trip.

The party reached Vernon about the end of October when the snow became deep and disbanded for the winter. Some of them will go in again in the spring to work the claims located. A. L. Marsh is now at Stanley Falls, where he is mayor, council and citizens combined, being the sole resident of the townsite.

Five Powers Are Agreed.

WASHINGTON, November 1.—The alignment of the powers on the German-British agreement is now complete. Aside from Italy and Austria, whose adherence to the agreement was expected owing to their political relations with Germany, Japan is the only one of the powers which has given unconditionally assent to the agreement. As the matter now stands, five of the powers are united in all the terms of the agreement, viz., Great Britain, Germany, Italy, Austria and Japan; three of the powers—United States, France and Russia—accept the clauses relating to the open door and the territorial integrity of China, but withhold action on the third clause as to future procedure in case any power siezes territory. Neither the state department nor the Russian embassy has received information of Russia's answer, though the Associated Press in its London dispatches announced that the reply had been received at the British foreign office on October 30th, and unreservedly accepted the first two clauses. In regard to the third clause, Russia referred the two contracting parties to the Russian circular of April 15th, saying that she would modify her attitude according to circumstances.

How McKinley Will Get the News.

CANTON, Ohio, November 1.—President McKinley has decided to remain in Canton to receive the news of the election next Tuesday night. In previous elections it has been his plan to leave for Washington either immediately after voting or else during the evening of the election day. This year he will remain in Canton until Wednesday noon. Arrangements are being made to furnish the president and his friends prompt and complete reports. Beside telegraph and press wires, a telephone service will be provided, furnishing direct communication between the president's home, the home of governor Roosevelt at Oyster Bay, the executive mansion at Washington and the Republican headquarters at Chicago and New York.

Four Lustful Brutes.

NEW YORK, November 1.—It is said tonight in Paterson, New Jersey, that the grand jury, acting upon the line laid down yesterday for their guidance by judge Dixon this afternoon, found a true bill of indictment for rape and homicide against Walter Kerr, Alexander Campbell, William Death and George Kerr in connection with the death of Jennie Bosschieter, which occurred two weeks ago tonight. It is expected that the men will be arraigned to plead and will of course have to enter pleas of not guilty as, even if a prisoner is willing to do so, he may not plead guilty to the crime of murder under the laws of New Jersey.

Kicked Into Insensibility.

BINGHAMPTON, New York, November 1.—Frank A. Reinbold, a wholesale liquor dealer of this city, was assaulted, kicked into insensibility and robbed by two men who entered his place of business about 7 o'clock this morning. The strangers secured a watch and several hundred dollars. They were captured by the police several hours later and gave their names as Connolly and O'Brien. Reinbold is in a critical condition.

Soldiers for Manila.

TIEN-TSIN, November 1.—The 14th United States infantry regiment has started for Manila.

Hobo Chinamen.

ALBANY, New York, November 1.—Four Chinamen, who were trying to smuggle themselves to New York, were captured in Rennselaer today by railway detectives. The four celestials were concealed in a hay car and were discovered when they were knocking off a board in order to get out of the car. They were arraigned before United States commissioner Cameron and committed to jail.

Entertained Canucks.

LIVERPOOL, November 2.—The lord mayor of Liverpool entertained yesterday at luncheon 24 invited Canadians from South Africa, who are to start home on the Carthagenian. He expressed his regret that he had not been earlier informed as to the date of their departure, so that he might have assembled the principal people of the city to meet them.

No More Bodies Found.

NEW YORK, November 1.—Work on the ruins of the Tarrant store and the adjacent property was pushed tonight to the full limit of the contractors' power. No bodies were found up to midnight, nor anything which would indicate the near presence of bodies.

Bison City Blaze.

BUFFALO, New York, November 1.—Fire tonight did $55,000 damages to a large brick building on Scott street, belonging to the John T. Nohes' estate, and its contents. The heaviest individual loss fell upon the T. Larkin Soap Company and was $10,000.

Plow Plant Destroyed.

ELMIRA, New York, November 1.—The plant of the Clipper Chilled Plow Company was destroyed by fire today. Loss $40,000, covered by insurance.

REDUCING THE U. S. ARMY

WILL BE DROPPED TO THE OLD LIMIT BY JULY.

War Department at Washington Issues a Statement as to the Decrease.

NEW YORK, November 2.—The Republican national committee issued a statement concerning the United States army today which says:

"Reports received from the war department at Washington by the Republican national committee gives news of the gradual reduction of the forces of occupation in the army. General Davis, commanding the army in Porto Rico, recommends that the troops on that island be withdrawn almost entirely.

"Orders have been issued for the reduction of the troops in China, and plans made for their final withdrawal. It is hoped that when the election is over the situation will improve sufficiently in the Philippines to warrant a material reduction of the force there.

"Secretary Root recently called attention to the fact that in the fall of 1898, when president McKinley recommended the retention of 100,000 men in the army, he was arguing for a decrease and not an increase, for then there were 272,000 men in service. The war with Spain was not ended, for the peace treaty had not been ratified. In the meantime people should remember that unless there is further legislation on the subject, the army will drop back to its former limit of 27,500 men next July, which is only one-third of what it was in proportion to the size of the country, so great has been the growth in population."

An order was issued today by direction of the president discontinuing the division of Cuba and the eastern and western departments of that division and establishing the department of Cuba. General Leonard Wood is placed in command of the new department.

General Fitzhugh Lee is ordered to command the department of the Missouri, with headquarters at Omaha.

General Elwell S. Otis has been ordered to Chicago to command the department of the Lakes.

The department of the Missouri has been under the command of general Merriam, and the department of the Lakes under command of general Wade, both of whom have had the command temporarily.

POISON EVIDENTLY USED

NEW YORK ATTORNEY SUSPECTED OF ATROCIOUS CRIME.

The Sudden Taking Off of Millionaire Rice Is Being Investigated In Gotham.

NEW YORK, November 1.—The death of the wealthy William Marsh Rice at his Madison avenue apartments on September 23rd; the attempt of his New York attorney, Albert T. Patrick, to cash checks for large amounts which purported to be signed by the millionaire; the refusal of the bank to cash the checks drawn on it and the discovery by the bank officials that Rice was lying dead at the time the checks were presented; the subsequent claim by Patrick that Mr. Rice had made him by will the trustee of his estate which amounts to anywhere from $3,000,000 to $8,000,000; the charge of forgery both as regards the checks and the will placed against Patrick and Mr. Rice's valet, Charles F. Jones; the arrest of Patrick and Jones and their lodgment in jail by the developments of today promises to become the most celebrated of the many celebrated crimes which the courts of this city have been called on to investigate. The first incident which led up to today's climax was the fact disclosed yesterday that Jones had been taken to the district attorney's office and the subsequent rumor that he had made a confession to the authorities. Before the public had time to learn of the report of a confession came the news that during the silent hours of the night Jones had in his cell in the Tombs attempted suicide by cutting his throat with a penknife given him, he says, by attorney Patrick, also confined in the Tombs.

That portion of the confession which has to do with the last moments of Mr. Rice is the following given out by the authorities as coming from Jones: "Rice said, 'I am very nervous, Mr. Patrick, I wish you would not trouble me. Please go away.'

"Patrick replied: 'I have some salts here, Mr. Rice, that will cure your nervousness.'

"He produced a bottle and uncorked it. The contents smelled to me like some very strong liniment. Then Patrick said to me: 'Get me a towel and a sponge.' I got him both. Then Patrick said: 'Jones, you have to leave.' I left. As I was leaving, Patrick said: 'I'll remain here until Mr. Rice gets to sleep.' He closed the door behind me. I stood in the hall for a few minutes and soon I heard Mr. Rice laugh. I thought this was queer, so I pushed open the door. I saw Mr. Rice lying on his back in bed. The towel I had given Patrick was wrapped around the sponge in a cone shape. This cone was lying directly over Mr. Rice's eyes and nose. Patrick was pressing it down with his right hand. Patrick did not see me and of course Mr. Rice could not. After seeing what I had seen I went and lay on my bed. Mr. Rice grew very sick. Patrick said to me: 'Go get a doctor.' I went for one. He pronounced Mr. Rice dead."

Attorney Patrick denies having furnished Jones the penknife, and he also denies the statement in the confession.

Jones, after his suicidal attempt, was taken to Bellevue hospital, hastily summoned physicians having just been in time to save him from death through loss of blood. At 8 o'clock tonight the hospital surgeon said he was slightly better, and the chances are that in a few days he will again be placed in the Tombs.

The coroner's investigation into the death of millionaire Rice, which was to have been held today, and which had previously been adjourned to await the report of the chemist who had examined portions of the remains for traces of poison, was again adjourned because of the new developments in the case.

Have Signed the Protest.

SAN DOMINGO, November 1—Via Haytien cable.—The Belgian consul here, Mr. Faybar, is in receipt of another cable message from the Belgian minister of foreign affairs, M. P. Defavereau, to the effect that holders of bonds of Santo Domingo to the amount of £2,013,300 had now signed the protest against the contract whereby the San Domingo Improvement Company of New York undertakes the readjustment and liquidation of the debt of the republic and an improvement generally of the country's financial affairs. Santo Domingo is at present in a quiet state. A number of political prisoners are awaiting trial.

The Best in the Country.

"Nelson is the best town in the country," is the unanimous opinion of everyone who travels through the province. A resident of Victoria, who recently made a trip through the southern portion of the province, says: "Nelson is the only town I struck where everybody was not making a poor mouth about hard times."

A Long Run in Sight.

The Hall Mines smelter is running the big furnace on lead ores, and has enough on hand and contracted for to make a long run. The new mechanical roaster is well under way, although the bad weather is retarding progress on the brick work. The only ore coming down from the Silver King is what is taken out in doing development.

Railway Promotions.

NEW YORK, November 1.—L. S. Miller has been appointed assistant to president E. B. Thomas of the Erie railway, to succeed J. A. Middleton, recently appointed third vice-president.

NO PRISONERS ARE TAKEN

EMPEROR WILLIAM'S DRASTIC POLICY IN CHINA.

Seventy-Four Natives Bayonted Because a German Patrolman Had Been Killed.

BERLIN, November 1.—Considerable impatience at the meagreness of the news from China is finding expression here. Letters from privates in China begin to find their way into the social Democratic papers showing that the German troops give no quarter. The Bremen Buerger Zeitung publishes a letter from a soldier in Pekin, who said he witnessed the following scene: "Sixty-eight captives, some of them not yet adults, were tied together by their pigtails, beaten bloody by the Germans, compelled to dig their own graves and then shot en mass."

The Halberstader Volks Zeitung prints a communication from Pekin, in which the writer says: "No prisoners are taken. All are shot, or preferably sabred to save ammunition. On Sunday afternoon we had to bayonet 74 prisoners. They had killed four of our patrolmen. An entire battalion pursued them and captured 74 alive. It was cruel. It was indescribable."

Threw the Frenchmen Out.

TIEN-TSIN, November 1.—Via Shang-Hai.—Yesterday at Yeng-Tsun a party of French officers occupied a coach of a special train assigned to carry the 14th United States infantry to Tong-Ku and declined to leave when requested to do so. Colonel Daggett of the 14th called the American guard and forcibly ejected the officers. The French are greatly incensed over the incident and demand an apology.

Wolseley's Declares Himself.

LONDON, November 1—Lord Wolseley's outspoken declaration that the shortcomings of the war office have been due to parsimony excites comment as not tending to decrease the shower of reproaches falling about the head of lord Lansdowne.

Buffalo's New Fireboat.

MONTREAL, November 1.—The big fire boat W. S. Grattan, built for the city of Buffalo, passed through Montreal today en route from Elizabethport, New Jersey, to that city.

Betting in Toronto.

TORONTO, November 1.—The betting in this city on the Dominion elections is 5 to 3 that the Laurier administration will be sustained. Money is being freely shaken in the opposition faces, with heavy odds, but no takers are to be found.

THEY HAVE A FORTUNE IN SIGHT

Duhamel and Powers Develop an Ore Body of Remarkable Richness.

NEAR FORTYNINE AND EAGLE CREEKS---OTHER MINING NEWS

A strike of free milling ore the equal of which has seldom been heard of in this district is reported from the Republic claim between Forty-nine and Eagle creeks owned by Joseph Duhamel and Arthur Powers. Duhamel is in the city today and states that for the last two months he has been working on a free milling reef thirty-five feet wide carrying average values of $27 clean across. The figures are almost staggering, for such a property means a fortune for the fortunate owners. Joe Duhamel has a first class reputation for veracity, however, and furthermore he invites any person who cares to verify the figures to visit the property and investigate the statement in person. The Republic is seven miles out on the government trail, and its location is indicated by a signboard so that the skeptical may convince themselves with comparatively little trouble and outlay of time. The only remarkable feature of the strike is the great width of the lead. Everyone familiar with the district knows that the richest float in the country comes from this, vicinity prospectors and companies having spent much time and many dollars in endeavoring to locate the mother lode. The Duncan Mines, Limited, is said to have expended $50,000 on its Nevada group, and on the principal claim owned by this corporation great masses of float have been found, from which the original owners used to pan $5 to $7 a day when water was available. Paddy Miles has found float weighing hundreds of pounds on the Paradise, which assayed away up in the hundreds of dollars and Joe Duhamel contributed a 20-pound chunk of float to the mineral exhibit at Spokane, specimens from which assayed $2000. In view of this it was only natural that the lead should be discovered eventually. What baffled the prospectors was the twenty feet of wash which covered the entire section, and made investigation purely a matter of chance.

Joe Duhamel staked the Republic five years ago and has worked on it every season since. Two months ago he crossent what is claimed to be the long looked for lead, finding it to be porphyry, decomposed quartz alternating with hard and gradually consolidating into hard quartz with depth. The walls are well defined and an average assay across the lead gives returns of $27. Under the wash the vein matter was badly decomposed, one shot taking out no less than sixteen barrowsful. The work on the claim consists of one open cut 300 feet long, 200 feet of crosscuts at other points and two tunnels, one 20 feet and the other 55 feet. There is a comfortable cabin, and four men will work on the claim all winter. The owners intend at the present time to put in a small stamp mill next spring if water can be obtained to operate the battery. The latter is doubtful, as the Duncan Mines have corralled about all the water in the vicinity.

The Republic lead quarters up hill in a westerly direction. If it continues in place, as seems probable in view of the well-defined contact, this would take the lead across the Majestic, owned by John Miles, the Free Gold, owned by Miles and Mickey Monahan, the corner of the Royal Canadian and through the Nevada, the latter belonging to the Duncan Mines. Below the Republic are the Coon, Redlands and a couple of other claims owned by Henry Sinkan. About $2000 has been spent on the group and a 12-foot lead, said to average over $10, has been uncovered. It is understood that the owners of this and adjoining claims will ground-sluice the whole hillside in the spring with a view to carrying away the heavy wash which has impeded prospecting up to the present time.

Below the Nevada property is the St. Mary's group, while adjoining the Duncan Mines ground is the Maple Leaf, a crown granted claim owned by the Maple Leaf Gold Mining Company, of whice senator Byrnes of San Francisco is president. This company has been resting quietly on its oars awaiting the result of work on adjoining properties, but it is reported now that they will start work at an early date.

Mining Records.

Yesterday's mining records were: Transfers—the Denmark claim eleven miles east of Nelson adjoining the Viana claim by John McLatchie to D. T. Mowat.

Locations—the Darien on Bird creek three-quarters of a mile above the government trail, formerly the Golden Crown.

Certificates of work—to James McL. Campbell on the Compsy Glen; to A. McDougall on the Silver Bluff, Golden Reef and Copper Crown; to the Ladysmith Gold & Copper Mining Company, Limited, on the Grand Junction, Red Star, St. Phillipe and Victoria.

MINING STOCK QUOTATIONS.

The following were the quotations of British Columbia mining stocks on the Toronto Stock Exchange yesterday:

STOCK.	Asked.	Bid.
Athabasca	$ 5 75	$ 5 00

Sales—Slocan Star, 500 at 8; White Bear, 1,000 at 2½; Minnehaha, 700 at 1; Deer Trail, 1000, 1000, 1000 at 2½; I X L, 1150 at 20½; Waterloo, 500, 500, 5000 at 3.

Big Odds on Mac.

DENVER, Colorado, November 1.—Firm in the belief that money talks, the Times of this city heads the first page of yesterday's edition with a $54,000 proposition in three parts, as follows:

No. 1. Special bargain—long shot—$3500 against $1000 that McKinley will be elected president. Will some fusionist kindly remove the burden.

No. 2. A good thing for any member of the family—$50,000 against $25,000 that McKinley will be the next president. Take it in doses to suit. Must go. The Times is authorized to announce this as well as the others to the right and left.

No 3. Easy to take—$500 to $150 that McKinley will succeed himself as president of the United States—Times are good—take it away.

A Denver Republican special from New York says: Betting on the election was very dull in Wall street yesterday. Only one wager of importance was placed. J. L. Judge, an outside broker, bet $12,500 against $2500 that McKinley will be re-elected. Mr. Judge said he had plenty of money to bet on the Republican standard-bearer at odds of 5 to 1.

Cashed in His Chips.

HELENA, Montana, November 1.—Louis Fischer, a well-known gambler and partner in the Helena Cab Company, committed suicide today by shooting himself through the head.

At the loot of Pekin and Tien-Tsin, Japan fared very well. If she gets nothing more in the way of spoils her treasury will be the better off by $13,000,000 of Chinese silver.

JOSEPH MARTIN and Smith Curtis are not doing much in the way of spellbinding in this campaign.

THE organ of the Bonnington Falls Power Company is authority for the statement that a by-law will be submitted to the people of Nelson at the next city election providing for the installation of a street lighting system. It is a pretty come to pass when a city like Nelson cannot devise ways and means to light the streets without first securing the consent of the Bonnington Falls Power Company.

ONE HUNDRED THOUSAND DOLLARS or more will be spent in carrying Brandon. Sifton has money to spend that came easy, and the men who made it are all on the ground spending it. Hugh John will have all the money that the Conservatives can make and scrape that can be spared from the east, and he also has men on the ground willing to spend it. That is how elections are conducted in this Canada of ours; a country in which bribery and corruption is said to be an unknown quantity in conducting elections.

THE TRIBUNE has supported the winning candidate in every election that has been held in Nelson since 1892, with only one exception. But in doing so it has been so fair that the candidates who were defeated remained on good terms with it. This is not at all to the liking of some people. They would like THE TRIBUNE to abuse candidate Galliher and candidate Foley because its editor is supporting and intends to vote for candidate MacNeill. There is a newspaper not many miles from Nelson that is loudly supporting candidate MacNeill and abusing the other candidates, yet the men who edit that newspaper are Liberals from away back, and who, no doubt, if they have a right to vote, will be found marking their ballots on election day just as their forebears would were they alive and able to vote.

A Question of Patronage.

Toronto News.

The eagerness with which men, who are wanting in qualification, try to grasp the nomination for parliament, is frequently due to the fact that, whether they are elected or not, the candidate of the winning party controls the patronage of the constituency. In ridings where the odds are so great as to frighten away those who are tempted into public life by an honorable ambition or a desire to serve the country, there is no difficulty in finding party standard bearers among the class who are in politics for what there is in it for them. We need not dwell on the viciousness of a system which gives men who have been rejected by the electors a power and influence in their constituencies greater than is possessed by those who have been chosen by the people to represent them. Candidates of the type we speak of consider it their first duty to provide for themselves, and their next to provide for their friends and followers, who in most cases are the riff-raff of the party machine. The result is that many persons who are neither fitted by character nor ability to fill responsible positions creep into and disarrange the public service. It is a matter for profound gratification to the electors of Toronto that the candidates of both parties in the city constituencies are men of high character, none of whom is likely to misuse such an influence should it be thrown into his hands. The chances of the Liberal candidates are very slight, but their standing in the community and the reputation they bear give us the assurance that they are not in the field in order that they may secure fat offices in case of the return of the Laurier government. Moreover, we believe that in such a contingency they could be relied on to take fitness into account in recommending appointments.

WRITTEN BY CONSERVATIVES.

[THE TRIBUNE has placed a part of one column at the disposal of the Conservatives, whose views will be expressed therein from time to time during the campaign. A like privilege is accorded the Labor party and the Liberals.]

The Liberals are now adopting the idol plan of campaign—they are abandoning public display of their feeble principles in favor of hero worship in the person of sir Wilfrid Laurier. A Baptist minister in Toronto went recently so far as to say that the only thing he had really to be thankful for on Thanksgiving day, was that we had sir Wilfrid with us in the flesh. The majority of the people of Canada do not share with the Liberal party that eagerness to sit at the feet of the present premier. What they want is to know what that party has to say about unredeemed pledges and to listen to the Conservative side of the question and judge accordingly. Of course few doubt the issue of November 7th. However lofty sir Wilfrid may appear to his friends he will nevertheless be dethroned and relegated to the cold shades of opposition for which many think he is eminently fitted.

Chris Foley apologizes for being an uneducated man, but no doubt entertains the idea that mental accomplishments cut no figure in politics. Surely in the light of experience it is wiser to send to Ottawa a man who can not only express his views in an intelligent manner, but has also the advantage of a liberal education, followed by a study of the effects of political issues in wider circles than Canada affords. Whether or no the electors vote for Conservative or Liberal, all thinking persons will agree that education in a candidate is a factor to be seriously considered and intelligently acted upon.

No one denies that the Liberal party has done good things, but they are totally eclipsed by the outrageous management of affairs in the Yukon and gigantic jobbery and rascality in the east. Even in Yale-Cariboo the Boundary people are suffering largely from want of railroad competition, due to the throwing out of the Kettle River Railway Bill by the railway committee, and certainly the $3000, which is annually dumped into the Duncan river, ostensibly to clear it of snags, might be laid out to better advantage elsewhere. The Liberal government does not know the needs of the far west and has not considered it worth while to find out what they really are.

The fact that the labor organization in Rossland is running a co-operative store, and that successfully, is in itself good evidence that the laboring element will extend its operations to other towns, as stated in this column on Tuesday. Nobody blames them for this, but the laborer who wrote the special appeal to the merchants of Nelson made a bad break, for it may be stated beyond contradiction that, given a co-operative store in this city, precious little labor money will find its way into the Baker street tills; and right here we have a goodly illustration of how Labor knows how to take care of itself as well as Capital.

ELECTION RETURNS

VOTE FOR....

A. H. MacNEILL

of Rossland

Candidate of the Liberal-Conservative Party for Member of the House of Commons for Yale-Cariboo.

PLATFORM

Adopted by the Liberal-Conservative Party in Convention at Revelstoke, September 15th, 1900

We, the delegates of the Liberal-Conservative party of Yale-Cariboo constituency, in convention assembled, reaffirm the principles of the party, and more particularly that cardinal principle, protection to home industries, and that that principle be carried out so that all sections of the country shall equally share its benefits.

The one industry on which the prosperity of this constituency is almost wholly dependent is mining; and we believe that our mining industries are as fairly entitled to protection as the manufacturing industries of Eastern Canada; therefore, we advocate that the duties on lead and lead products be increased, so that they shall be as high as those now imposed by the United States on the same articles.

That the output of the precious metal mines is largely increasing, therefore we favor the establishment of a mint, so that the specie in circulation shall be that of our own instead of that of a foreign country.

We advocate the restriction of the immigration of Chinese and Japanese, and all classes who cannot become good citizens of the Dominion of Canada, and suggest the adoption of the principles of the Natal Act.

British Columbia has not now the representation in the federal parliament that she is entitled to: therefore we advocate that when the redistribution of seats is made that this constituency shall be given representation according to its population.

That it augurs well for the success of the party that Hugh John Macdonald has decided to leave the field of provincial politics to take part in the larger one that affects the people of the whole of Canada.

CHANCE REMARKS.

"A credit man has many strange experiences," said a gentleman who formerly occupied a position with a large jobbing house. "Chance will play into his hands in all sorts of curious ways, and often he will feel as if Providence had directly interposed to save him from the swindler. I remember a remarkable incident that occurred the first year I was in business. We had a customer in a good-sized interior town who had been trading with us for a long time, and enjoyed the entire confidence of the house. One day in May he paid us a visit and placed a very large order, going, in fact, to the extreme limit of his credit. He explained its unusual size by saying that he was about to enlarge his establishment, that he had allowed his stock to run down preparatory to making a big splurge to wipe out a rival establishment, and, in short, told us such a pleasant story that I at once approved the account.

"That afternoon a young man from a furnishing store dropped in and asked whether captain ———, mentioning the merchant's name, had left the city. 'I am sorry,' he remarked, when he learned that he had gone. 'The captain placed an order with us for a couple of suits of extra heavy underwear, and was anxious to have them delivered next week. I wanted to tell him that we'd have to send north for the goods,' he added, 'and they may be delayed.' That incident set me thinking. There might be a thousand perfectly natural and innocent explanations of the order, yet it certainly carried the inference that our friend was contemplating an early trip to a cooler climate, and—well, I had a strong premonition, or whatever you choose to call it, that something wrong lurked in the background.

"The more I thought about it the more uneasy I became. It seemed absurd to turn down an old friend and lose a handsome sale simply because he ordered some heavy underwear, and I knew I was risking severe censure, if not my situation as well; but before night I countermanded his purchases and notified him by wire that we had decided to trim our credit lines for the summer, and were sorry we could not oblige him. He sent back a furious letter and placed his order with an opposition firm, who accepted him gladly.

"My bosses looked pretty black when they heard the story, but they changed their expression early in June, when the worthy captain suddenly disappeared, after turning everything he had into cash. Just as I anticipated, he headed for a cooler clime. When last heard from he was rusticating in Manitoba.

A Terrible Deed.

New Denver Ledge.

The shades of night were growing old and Nelson snored and slumbered. The tired street cars were resting easily, and scarcely a sound vibrated the fog-soaked ozone. Ever and anon the shriek of a piano indicated that the night shift were still working below the hill, while the rumble of a press near the big meat shop told of coming intelligence. Two men, carrying a large sack, emerged from a side street and glided towards the Hume. Hastily filling large tin shells with Kootenay election's smokeless powder they placed them under a large building, lit the fuse and ran to a safe distance. The powder soon did its work and nothing was left where the vast structure once stood, except a heavy editorial. The men chuckled, and ejaculated.

"Closed, Dave?"

"Yes, John."

Then as the first flush of dawn poked its nose over Toad Mountain they disappeared as softly and mysteriously as they had appeared, and the town still slumbered. This is called a scoop. In former days it was known as a Beat—on the other paper.

High Degree of Perfection.

Butte Mining World.

One of Butte's numerous newspapers that occasionally devotes a few lines to mining matters, is of the opinion that the Butte district is sadly in need of some cheaper method to treat the low grade ores. This will certainly be news to many mining men of this district. It is a fact well known to mining men that ores containing as low as 3 per cent copper are now being treated, and at a good, fair profit, too. When ores carry less than 3 per cent copper, it would be a crime against the creator to take it out of the ground, on account of the marring effect it would have on the contour of this fair earth. It costs the large smelting plants less than 40 cents a ton to concentrate the ores in Butte, and less than $5 per ton to smelt these concentrates. There is no likelihood of the cost being reduced for many years to come. The methods now in effect have attained the highest degree of perfection in the entire world, and there is but little opportunity for improvement.

A PERJURED LIAR.

LOUISVILLE, November 1.—The Louisville Evening Post today prints an affidavit of Finley Anderson, the telegraph operator upon whose testimony Caleb Powers was convicted of complicity in the murder of governor Goebel, in which Anderson swears his story told on the stand at Georgetown was perjured.

After telling of a conversation with attorney Campbell at Cincinnati in connection with the Goebel case, the affidavit continues:

"I remained in Cincinnati after this conversation with Mr. Campbell, and some time after that Arthur Goebel, in his store up stairs on the fourth floor, where I had gone at his request, asked me if Powers had not in my presence at Barbourville in January said to me in substance these words, referring to William Goebel: 'They say he wears a coat of mail, but it won't do him any good,' or something similar to that.

"I told Arthur Goebel that Powers had never said anything of the sort in my presence to the best of my knowledge. He told me to think and see if I could not remember. I could not remember such a remark and I know that Powers never did make such a remark or anything resembling it in my presence, but being urged by Arthur Goebel, I finally concluded to state that he did make such a statement and so swore upon the trial, which testimony was false.

"Before making my statement to Campbell, Wharton Golden told me to make it as strong as possible, as they (referring to Campbell and Goebel) would take care of me and protect me.

"I desire now to say that I never had but one conversation with Caleb Powers, and that was in relation to my going up to Frankfort with the men on the 25th of January and at no place was the name of William Goebel mentioned or referred to in any way or in any connection by Caleb Powers.

"I desire furthermore to state that either upon the occasion of the first conversation with Campbell or the day after I received from him $10 in cash and since that conversation I have received from him, both before and after I was a witness at Georgetown in the Powers case, various sums of money, and I have since such conversation with Campbell and Arthur Goebel received from Arthur Goebel various sums, aggregating about $300, and upon one occasion $10 from Justus Goebel.

"The last sum I received was on Tuesday, October 23rd, 1900, which was $5 given to me by colonel Campbell at his office in Cincinnati. Just prior to giving me this $5 Campbell had telephoned to Arthur Goebel to come to his office, which Goebel did, and when he arrived at Campbell's office he went into a private office with Campbell and Campbell came out and handed me $5."

Anderson further gives alleged dates and details and concludes his affidavit thus:

"I believe my testimony in the trial of Caleb Powers aided in his conviction, and I am unwilling longer to suffer in conscience by the thought that the falsity of my statements have aided in convicting Caleb Powers."

NOTICE OF ASSIGNMENT.

Pursuant to the "Creditors' Trust Deeds Act" and Amending Acts.

Notice is hereby given that Charles Trumbull and Alexander John McDonald, lately carrying on business as Tobacco and Cigar Merchants in the City of Kaslo, British Columbia, in partnership under the firm name and style of Trumbull & McDonald, by deed of assignment for the benefit of creditors, bearing date the 23rd day of October, A. D. 1900, have assigned all their and each of their personal estate, credits and effects which may be seized and sold under execution and all their and each of their real estate unto Robert McLean, of the said city of Kaslo, mill manager, in trust, to pay and satisfy ratably or proportionately and without preference or priority all the creditors of them, the said Charles Trumbull and Alexander John McDonald, or of either of them, their just debts, according to law.

The said deed of assignment was executed by the said Alexander John McDonald on the 23rd day of October, A. D. 1900, and by the said Charles Trumbull on the 25th day of October, A. D. 1900, and by the said Robert McLean on the 27th day of October, A. D. 1900.

All persons having claims against the said Charles Trumbull and Alexander John McDonald or against either of them are required on or before the 30th day of November, 1900, to deliver to the trustee vouchers and particulars of the same, together with particulars of any security which may be held by them therefor.

And notice is hereby given that after the said 30th day of November, 1900, the trustee will proceed to distribute the assets among those parties who are entitled thereto, having regard only to the claims of which he shall then have had due notice.

A meeting of the creditors will be held at the office of McAnn & McKay, Front street, in the said city of Kaslo, on Thursday, the 15th day of November, 1900, at the hour of three o'clock in the afternoon.

Dated at Kaslo the 27th day of October, A. D., 1900.

McANN & McKAY,
Solicitors for the Trustee.

SHERIFF'S SALE.

Province of British Columbia, Nelson, in West Kootenay, to wit:

By virtue of a writ of fieri-facias, issued out of the Supreme Court of British Columbia, at the suit of the Bank of Montreal, plaintiffs, and to me directed, against the goods and chattels of the Two Friends Mine, Limited Liability, defendants, I have seized and taken in execution all the right, title and interest of the said defendants, Two Friends Mine Limited Liability, in the mineral claim known as and called "Two Friends," situated on the divide between Lemon and Springer creeks, on the east slope of Lemon creek, located on the 31st day of July, A. D. 1895, and recorded in the office of the mining recorder for the Slocan City Mining Division of the West Kootenay District, on the 10th day of August, A. D. 1895; and also all the right title and interest of the said defendants, Two Friends Mine, Limited Liability, in sixty (60) tons of ore, more or less, mined from the mineral claim "Two Friends," and now upon the property: To recover the sum of two thousand and eighty-nine dollars and eighty-five cents ($2,089.85) together with interest on two thousand and eighty-six dollars and thirty-five cents ($2086 35) at six per centum per annum, from the 26th day of September, 1900, until payment, besides sheriff's poundage, officer's fees, and all other legal incidental expenses: All of which I shall expose for sale, or sufficient thereof to satisfy said judgment, debt, and costs, at the front of my office next to the court house, in the city of Nelson, B. C., on Friday the 26th day of October, A. D., 1900 at the hour of eleven o'clock in the forenoon.

NOTE.—Intending purchasers will satisfy themselves as to interest and title of the said defendants.

Dated at Slocan City the 12th day of October, 1900.

S. P. TUCK, Sheriff of South Kootenay

The above sale is postponed until Monday, the 26th day of November, 1900, at the same place and hour.

S. P. TUCK,
Sheriff of South Kootenay.

McLACHLAN BROS.

TO

Contractors and Builders

Having disposed of our business to Mr. Ernest Mansfield, we bespeak for him a continuance of that liberal share of patronage which has been extended us during our career in Nelson. We can only say that those traits which have built up for us and maintained our reputation for reliable dealings will be continued throughout by the new firm. We therefore take great pleasure in recommending him to all our old customers, and also to any new ones who may honor him with their patronage.

Thanking you for past favors,

The West Kootenay Brick & Lime Co., Ltd.

T. G. PROCTER,
Late Managing Director

Nelson, B. C., 5th October, 1900.

To the Public...

Having taken over the business of the West Kootenay Brick & Lime Company, Limited, of Nelson, I beg to ask for a continuance of the patronage which you have heretofore extended them. My aim will be at all times to supply you with our products at lowest possible prices. Being in a position to manufacture goods in larger quantities than before, we shall be able to supply the trade at a lower figure.

It is our intention to install machinery to manufacture our marble products, and next season we shall be in a position to supply these products at reasonable rates.

We shall also keep on hand a stock of Fire Brick, Fire Clay, Tiles and Cement.

Our Bricks and Lime Rock have taken the First Prizes at the Spokane Industrial Exposition in 1899 and also this year. We also secured prizes last year and this year for Ornamental and Building Stone.

We are prepared to offer special rates to Contractors and Builders.

ERNEST MANSFIELD,
for The Mansfield Manufacturing Company.

HOUSTON BLOCK, CORNER BAKER AND JOSEPHINE STREETS. **Nelson, B. C.**

CITY LOCAL NEWS

A rally of Liberals will be held at candidate Galliher's committee rooms on Saturday night. Good speakers will discuss the issues of the campaign.

G. C. Hodge, district manager of the telephone company, has assumed charge of the local exchange pending the appointment of a city manager in succession to L. B. Hodge who goes to the Greenwood exchange.

A. H. MacNeill, candidate of the Conservative party, and A. S. Goodeve, mayor of Rossland, arrived in Nelson last night on their way to address the electors of East Kootenay. They speak at Moyie tonight and Cranbrook on Saturday night.

As a result of the visit of F. Mourgues, the French engineer sent out from Paris, France, to look into affairs at the Chapleau mine, J. M. Williams has severed his connection with the Chapleau Mining Company. The management has been assumed by M. Mourgues.

George McFarland has the contract for raising the ground floor of the old Carney-Barrett block to street grade, some eighteen inches higher than it is at present. The new 15-foot sidewalk on the north side of Baker, between Stanley and Kootenay, is completed to the Hebden building.

The city will begin today to clean up Ward street, between Baker street and the first alleyway to the south. The next block that should be macadimized is the one on Hall street, between Baker and Vernon. Sidewalks should also be laid on both sides of Baker street east from Hendryx to Cedar street.

The street car line is being removed from Kootenay street and relaid on Stanley above Observatory street. The work will be completed shortly and a daily service to the skating rink will be inaugurated during the present month. The company expect to have the line into the C. P. R. depot running by December 10th.

On Monday night the annual supper of L. O. L. 1692, of this city, will take place at the Victoria hotel, Victoria street. The committee in charge of the affair include John Toye, W. W. Bradley and R. S. Leard. An invitation has been extended to all visiting members of the order to participate in Monday evening's festivities.

The case of Manley vs. Collom occupied the attention of the assize court yesterday. The suit is brought to adverse the Arlington No. 2 which, it is alleged, encroaches on the ground of the Native Silver claim. Galliher & Wilson appeared for plaintiff and W. A. Macdonald for the defence. The case will be resumed this morning.

Good progress has been made on the new St. Joseph's school building. The exterior has received two coats of paint and is about ready for the third application. Inside the plasterers are at work and other work is being prosecuted actively. The sisters expect to occupy the new building when school resumes after the Christmas vacation.

Collections are Good.

More money was paid the city last month than during any month since the city was incorporated. The bulk of it was for real estate taxes, although the water rate receipts amounted to over $2400. At the beginning of the year the finance committee estimated the receipts from water and electric light sales at $32,000 for the year. So far the receipts from these sources total over $28,000.

Meeting of St. Andrew's Society.

The annual meeting of the St. Andrew's Society was held last evening in the board of trade rooms. President McKillop was in the chair. After the routine business and adoption of reports, the meeting proceeded to the election of officers for the next year. J. Roderick Robertson was elected president, George Kydd vice-president, J. K. Strachan secretary-treasurer, S. S. Taylor solicitor, Rev. R. Frew chaplain, and Dr. Forin physician. An executive committee of ten was elected as follows: A. L. McKillop, J. A. Gibson, W. A. Macdonald, J. A. Forin, James Lawrence, George Johnstone, John Hamilton, James McPhee, captain Duncan and N. T. McLeod.

The meeting decided that St. Andrew's day would be celebrated by a banquet, and the executive committee will meet on Friday at 8 p. m. at the president's office to arrange details. The meeting was a complete success and augurs well for the success of the banquet, which is always a popular event in Nelson. The society is in a flourishing condition, and have already used part of their surplus funds in furnishing a ward in the general hospital.

Dominion Customs Revenue.

The collector of the port of Nelson gives the following as the business transacted through his office during the month of November: Dutiable goods imported, $61,513; free goods imported, $13,340. Duty collected $16,446.82; other revenue $40.

Captain Hodgins Stays.

OTTAWA, November 1.—A report from colonel Otter says fourteen officers, including captain Hodgins, and 200 men of the first contingent are remaining in South Africa.

PERSONAL.

G. W. Lawson, travelling auditor of the C. P. R., is at the Hotel Hume.

N. F. McNaught and wife of Silverton are at the Hotel Phair.

Hugh Niven of Three Forks and Fred Levy of Cariboo are registered at the Madden House.

John Gunn, James Gunn and Valentine Clift of Stonewall, Manitoba, are at the Queen's hotel. They are interested in the construction of the bridge over the Columbia at Robson.

Wanted—Girl wants situation as nurse or to do housework. Understands cooking. Address F. H. Case, Sentinel office, Kamloops, B. C.

WHAT WILL HAPPEN

If Galliher is elected

I will continue to sell the best goods for the least possible price; will maintain the very high standard of my repairing; will give the public prompt and attentive service; will represent goods for just what they are, and endeavor to deserve a continuance of the generous favor of the people of this community.

If MacNeill is elected

I will continue to sell the best goods for the least possible price; will maintain the very high standard of my repairing; will give the public prompt and attentive service; will represent goods for just what they are, and endeavor to deserve a continuance of the generous favor of the people of this community.

If Foley is elected I will do just the same thing. If Brown said so, it's right.

T. H. BROWN

THE JEWELER.

LABOR RALLY.

A meeting in the interests of Mr. Foley, the Labor candidate, is called for Saturday evening, November 3d, in the committee rooms on Baker street. Mr. Parr of Ymir, Messrs. Wilks, Mowatt, Robinson, Clayton and others are expected to be present to address the meeting.

WALTER R. KEE, Sec'y.
