SATURDAY MORNING, JUNE 24, 1899.

PUBLISHED AT NELSON, BRITISH COLUMBIA. DAILY (BY MAIL) $5 A YEAR; WEEKLY, $2.

HONORS FOR BOYS AND GIRLS

Result of School Examinations.

A comparatively small number of visitors were present yesterday at the school house to witness the announcement of the honor roll for the year, and the giving away of the certificates. The insufficient accommodations at the school were brought strongly into relief yesterday. Only 211 children were present, though there should have been 304, and still the rooms were uncomfortably crowded, especially for hot weather. Principal Soady, in an introductory speech, said they had had a hard year's work. The school was badly graded. It had suffered from over-crowding, with consequent irregularity of attendance. Hence the promotions were not as numerous as they might otherwise have been. He added that two more teachers were expected after the holidays, and that there might then be a re-arrangement of the classes. He then proceeded to read the promotions and the honor rolls in the various divisions. The certificates of honor in the fifth division were given away by Mrs. Smith, in the fourth by Mrs. Bannerman, in the the third by Mrs. D. Mackay, in the second by Mrs. Horton, and in the first by inspector Burns, who presided over the proceedings.

These read, inspector Burns read the list of the candidates for the high school entrance examination, of whom there were six. Four had passed, and of the other two one had obtained the necessary 60 per cent of the total, but had failed to obtain the necessary 30 per cent in one subject, namely arithmetic. The other had obtained the necessary percentage in all subjects, but failed to get the required proportion of the total by a few marks. Neither of these will have any trouble now in passing. The highest number of marks obtainable was 1100, so a minimum total of 660 had to be reached. Following are the names and marks of the candidates for the high school entrance examination:

Anna McDonald, 751; Guy Roberts, 713; Mabel McVicar, 683; Marie Horton, 682; Jack Bannerman, 677; Joseph Curran, 628.

Inspector Burns, after a short speech in which he urged a large attendance at the election of a trustee to be held today, called upon the Rev. Robert Frew to speak a few words. Mr. Frew impressed upon the children the necessity of patriotism. Canada was a most beautiful country with a history to be proud of, extraordinary resources and a brilliant future. He mentioned several great Canadians, Thomas Edison, sir William Dawson, Grant Allen and Gilbert Parker.

The Rev. J. Robson spoke of the exceeding importance of education, and impressed upon the children the necessity of working hard, while the Rev. C. W. Rose contented himself with congratulating the children and teachers on their work and wishing them healthful and happy holidays.

Mrs. D. MacKay, speaking from the parents point of view, complained that two of her younger children could only attend school for half the day owing to the overcrowding, which was not of much benefit. Her chief object in coming to Nelson was to get educational facilities, and she had been much disappointed, though she thought teachers and children had done very well under the circumstances.

F. W. Swannell also offered his thanks to the teaching staff, and it may be mentioned here that principal Soady has received a letter from Alexander Robinson, superintendent of education, congratulating him on the papers sent in by the Nelson candidates for the high school entrance examination.

In answer to a question, inspector Burns said that the wives of householders had a vote in the election of trustees, after which the school children dispersed for their holidays with three cheers for the teachers.

Below will be found the honor roll, and the names of the children who were promoted in the different divisions:

The Honor Roll.

Division I.—Proficiency, Anna McDonald; regularity, Bert Ferguson; deportment, Nellie Steel.

Division II.—Proficiency, Hannah Knudson; punctuality and regularity, Henry Avery; deportment, Pauline Annable.

Division III.—Deportment, Amy Swannell; proficiency, Mabel McCandlish; punctuality and regularity, Hugh Gallon.

Division IV.—Regularity and punctuality, Charlotte Ada Clayton; deportment, Elizabeth Scoley; proficiency, Milton W. D. McCandlish.

Division V.—Proficiency, Pauline Gebert; deportment, Jennie Currie; regularity, Lottie Annable.

The Promotion List.

First division—IV reader to V reader—Lulu Ellis, Donald McVicar, Bert Ferguson, Chester Hayward.

Second division—promoted from third to fourth class—Hannah Knudson, Pauline Annable, Florence Pogue, Beatrice Pfeiffer, George Moate, Celia Prosser, Edward Wallace, Pearl McAlmon, Frances Etter, Flora Macdonald, Clark Hoag, Burt Johnson.

Third division—Promoted from second to third reader—Esther Edlund, Violet Burney, Mabel McCandlish, Walter McCandlish, Lulu Gilchrist, Amy Swannell, Minna Etter, Hugh Gallon, Edith Thelin, Irma Mackay, Ernest Steel, Eddie Jackman, Ernest Kinahan, Pearl Duncan, Mary Harwood, Edna Ellis, Minnie Johnston.

Promoted from first to second reader—Reuben McCandlish, Willie Oates, Cora Hawley, Florence Forin, Bennie Crossett, Gladys McCreath, Clara Murphy, Blanche Jackman, Ethel Lawrence, Gordon Hollington.

Fourth division—Promoted from First reader to Second reader—James McGregor, Ebba Skatbo, Milton McCandlish, Roy McGregor, Ivan McKay, Nona Hill, Charlotte Clayton and Gladys Roberts, equal.

Promoted from First primer to Second primer—Alma Meyers, Lillian Hill, Kate McPhee, Fred Emory and Willie Edlund, equal, Pauline Tosca, Raymond Bard, Alma Demars, Willie McCardia, Elizabeth Scoley, Jack Miller, Nina Hopton, Mabel Knudson, Charles Connon, Theresa Barrett, Nels Nelson, Ernest Shaw.

Fifth division—Promoted from First primer to Second primer—Pauline Gebert, Howard Aldous, Jennie Currie, Mabel Hall, Leon McCandlish, Edgar Ellis, Lee Hall, Nita Smith.

Ogilvie's Klondyke Estimate.

VICTORIA, June 23.—The Klondyke newspapers just received, report commissioner Ogilvie as having been interviewed recently as to the probability of the Yukon royalty being reduced or removed. The commissioner is reported as replying thus: "Only Mr. Sifton and the powers at Ottawa can answer that. They fixed the royalty. They alone can remove or amend it. If the published utterances of Mr. Sifton can be taken as correct I believe the royalty will remain as it is. I have no direct or official advices in the matter. I never advised placing the royalty on and I do not believe that my reports have been responsible for it. I have reported a great faith in the country, and stated the facts upon which I base my faith, and that faith I still have. As a matter of fact I have asserted, not only as the result of my own observations, but those of men upon whom I can rely, that Bonanza, from sixty below to sixty above, will be good for $30,000,000, that Eldorado will produce the same sum, and that the whole district in the vicinity of Dawson will probably yield $100,000,000.

Darcy Island Lepers Burned Out.

VICTORIA, June 23.—Word reached here last night that a fire had occurred on Darcy island, which is set apart for the Chinese lepers which arrive in the province, and that it was accompanied by loss of life. Provincial health officer Dr. Fraser went to investigate. He found that the fire had occurred at 1.30 a.m. on June 15th, and that it was caused by one of the patients, who was very feeble, upsetting a lamp. The flames spread along the six cabins in a row, which were completely destroyed. The other nine cabins were unscorched, and in them the unfortunates took refuge. They had plenty of provisions left, in fact sufficient for one month. Since being visited last the lepers of the island had buried three dead lepers, and when the doctor arrived the wounds of the injured one were dressed.

Orange Free State is Arming.

BLOEMFONTEIN, Orange Free State, June 23.—The Volksraad, of the Orange Free State, has voted £9870 for the increase of artillery tents and other military supplies. A motion was adopted directing the government to adopt the Mauser rifle as the national weapon. A proposal to vote £22,500 for ammunition was discussed, but the debate was adjourned,

Trade with Capetown and Johannesburg is at a comparative standstill. The Germans who are in sympathy with the Transvaal are holding meetings at which they adopt resolutions requesting Germany to intercede in behalf of Pretoria.

Canadians Practice at Henley.

HENLEY, June 23.—During the day the Canadians did some fast work. Their eight rowed over the full course in seven minutes, one second, at an average stroke of 36, which is reckoned a good performance, the record being six minutes, fifty-one seconds. The Canadian four did the course in eight minutes, eleven seconds, to the astonishment of all spectators.

Parrott Hanged at Hamilton.

HAMILTON, June 22.—Benjamin Parrott was hanged here today by Radcliffe, the official executioner. The murderer tried to escape the penalty by the insanity dodge, but the physicians who examined him pronounced him sane and the law was permitted to take its course.

Movements of African Squadron.

CAPETOWN, June 23.—The British second class cruiser Doris, with rear admiral sir Robert Hastings Harris, commander-in-chief of the Cape of Good Hope and West African squadrons, left Simon's Bay for the east coast.

TRAMWAY COMPANY'S PROPOSAL

Will Build a Single Line.

Those persons who are curious to know what route has been selected for the local tramway will have their curiosity satisfied when the city council meets on Monday, July 3rd. The route has been selected, but the directors of the company consider that before the proposed route can be submitted to the city council no information should be given out concerning it.

F. W. Peters yesterday informed THE TRIBUNE that the company intended to build about three miles of tramway in the first instance, two miles of which will under the provisions of the municipal franchise require to be built within the city limits. With so short a line it would be impossible to attempt anything in the nature of a belt line, but the first section of the line will be so laid out that when additions are made to it from time to time, a belt line may be constructed which will cover a sufficient area to compensate the company for the doubling of tracks which a belt line involves. As it is not likely that the company will build a greater length of tramway than the promoters at present promise, there is but a remote possibility of the line being extended to the upper station of the Nelson & Fort Sheppard railway station this summer. There is another thing which may interfere with the suburban extensions of the company. So long as the tramway is within the city limits the company's charter gives it the right to the use of the public streets, but outside of the corporate limits it is different and the company must make terms with the owners of the additions before they can use the roadways.

The provincial directors of the tramway company are captain T. J. Duncan, F. W. Peters, J. Laing Stocks, W. A. Macdonald, and W. A. Duncan. The offices of the company have been removed to the Clement & Hillyer block.

French Officers Transferred.

PARIS, June 23.—The first cabinet council of the new ministry was held at the Elysee palace at five o'clock this evening, president Loubet presiding. At this meeting the general lines of a declaration, to be made by the government on Monday were decided upon. A ministerial statement will be decided at a council to be held on Sunday. At the instance of general marquis de Gallifet minister of war, the council decided upon the transfer of a number of superior officers of the army for "indulging in manifestations unbecoming a soldier."

LONDON, June 24.—M. De Blowitz, the Paris correspondent of the Times says "the incongruity and lack of cohesion that characterizes the new cabinet really explain its existence. These men have sunk their personal ambitions and antagonisms in order to relieve the country from a threatened revolution. They have devoted themselves to the defense of the law and honor. It is a conception of patriotism and devotion proving that France is, by one of these supreme efforts familiar to her in emergencies, proudly retrieving herself and resuming her proper place in the work of civilization."

Afraid to Face the House.

PARIS, June 23.—Not for a long period has a French ministry been greeted with such signs of unanimous hostility. Judging from the tone of the papers of all shades, the cabinet can scarcely live a single day. It is rumored that parliament will be prorogued in a few days to enable the government to carry out its programme unhampered. No doubt the cause of hostility is the presence of general de Gallifet, and when the paroxysm of anger has exhausted itself, it is not unlikely that a revolution of of feeling will occur, and that the government will get a good majority in the chamber of deputies. It is announced that the Dreyfus trial will be absolutely public. Former president Casimir-Perier with general Mercier, who was minister of war when Dreyfus was condemned, and many other prominent men will take apartments at Rennes.

A Sweeping Royal Decree.

ROME, June 23.—The royal decree, which in view of the prorogation of the Italian parliament without the passage of certain bills is about to be promulgated for the carrying out of the measures introduced by the government, will come into force July 2nd. It will empower the government to prohibit public meetings and the exhibition of religious emblems, and to dissolve seditious emblems and seditious associations. It will prescribe penalties for those concerting strikes on public works, and for the infringement of the press laws. The report to king Humbert accompanying the decree refers to recent instructions in the chamber of deputies, and announces that the decree will be submitted to parliament for approval before July 20th.

THE TOWN AND THE DISTRICT

Along the Water Front.

The cool nights make a considerable difference in the rise of the river, 4¾ inches being the record for the 48 hours ending at 6 p.m. yesterday.

The C. P. R. tug Ymir has had another propellor fitted on and was back on her usual run yesterday.

J. H. Matheson was trying the paces of his new yacht in the fine breeze yesterday, but the new gear does not work very smoothly yet.

The Myth, J. Keith Read's racing craft, is having her spars set up ready for the season.

Fishing is improving slightly and some nice trout are rising to the fly.

YMIR.

Fishing picnics have been commenced in Ymir. A party of picnickers went down to Erie this morning for fishing and rowing in the lake. The Ymir base ball team consider that the Nelson criticism upon their playing was just a little bit too rough. Captain Forrester left for Waneta today upon one of his usual tours of inspection. His district extends from Nelson to the boundary of the United States. Dan McLeod is a provincial police officer for the town and district. Incorporation to be or not to be is the question of the hour. Today the election of a school trustee takes place. Rumor has it that there will be a contested election. The teacher (Miss E. M. Green) leaves today for Nelson and thence on Tuesday for Moose Jaw, which is her home, to spend a well earned vacation. Since her arrival here two years ago she has has given universal satisfaction and she has had to teach children brought up in different parts of the world the Canadian system.

GRAND FORKS.

J. P. Graves, general manager of the Granby smelter, now building here, has returned from a trip to Spokane accompanied by A. B. W. Hodges, superintendent of the smelter. Mr. Hodges reports that he has placed the bulk of his order for machinery with the Gates Iron Works of Chicago. It comprises two steel-jacketed furnaces 44 inches by 160 inches, two large blowing engines, ore sampling plant, matte sampling plant, etc. The smelter will have a capacity of from four to five hundred tons daily and will employ about two hundred men, whose wages average $3 per day. The smelter will begin the treatment of ore in January. Carpenters, laborers and bricklayers will be needed within ten days. There will be employment for at least two hundred men.

ERIE.

The check which the introduction of the eight-hour law gave to the mining development in this section is now a thing of the past. While it is true that underground work has not yet been resumed upon the Second Relief property, one of the big mines of the camp, there are nevertheless no idle miners. Many of them have gone into small syndicates for the development of their own prospects and mining is steadily settling down to the changed conditions. Work has not altogether stopped on the Second Relief. There are at least a dozen men employed on the property, some of whom are at work installing the hoisting machinery, while others are doing surface work. There is every prospect of the property resuming operations on the union basis.

The Arlington the next largest property is working a force of twenty men, paying the union scale of $3.50 for the eight-hour shift. The shaft is down 125 feet and drifting is being done north and south. The company will put in pumps and a hoist. The Arlington ore is said to have netted the company $36 per ton after deducting transportation and treatment.

Development is being performed upon a score of properties of lesser note and taken all in all the season will not be as dull as some would like to make the public believe.

SILVERTON.

G. N. Dawson, owner of the Essex group, has obtained a 60-day bond from Ed. Stewart of Silverton, on the Baltimore and Le Roi claims. These properties lie between the Vancouver and Condor groups. Six men have been put to work on them.

On the Essex three men are employed in doing contract work.

On Thursday the L. H. mine began work. This property is owned by the L. H. Mining Company, whose head offices are in Silverton and whose stock is owned by Silverton parties. The mine is a valuable one, having an immense ledge of gold ore, seventy feet wide, giving a sample assay of from $20 to $108.

The A. E. claim, adjoining the Congo group, was purchased this week by local parties. A good trail is being built to it and work will be started on the property on its completion.

W. J. Williams, the well known Rossland mining superintendent, examined the Willa claim, on Red mountain, on Thursday. He says that its showing is equal to any in the Boundary country.

MOYIE.

The Canadian Gold Fields Company, which is operating the Lake Shore, is making great preparations for development. A concentrator is being built, and an air compressor is expected to be in operation by the middle of August. The company is paying the union scale of wages, $3.50 for an eight-hour shift.

NELSON.

D. M. Eberts, who occupied the post of attorney-general in the Turner administration, spent a few hours in Nelson on legal business, leaving this morning.

Dr. Doolittle yesterday informed a TRIBUNE reporter that he had discovered two or three suitable sites for the location of his gas and coke works, but would not definitely decide on one for a day or so, when construction will immediately begin under the supervision of David Morris.

Charles Matthews, agent for R. G. Dun & Co., returned last night from a trip through the Boundary country.

CRANBROOK.

Cranbrook will shortly be a mining town. There are no mines in the vicinity of Cranbrook but the aid of the Canadian Pacific railway is to be invoked to supply the deficiency. This will be done by building a spur from Cranbrook to the North Star mine by which means the ore will also be diverted to the Canadian Pacific railway.

Masonic Grand Lodge Officers.

KAMLOOPS, June 23.—The Masonic grand lodge assembled here today for the despatch of business in the Masonic temple, and was attended by a large number of the brethren from different sections of the province. They attended church in a body yesterday and listened to an able discourse by Rev. Brother Flewelling, in All Saints church. Today the election of officers took place, with the following result: R. E. Walker, of New Westminster, grand master; H. H. Watson, of Vancouver, deputy grand master; F. McB. Young of Nanaimo, senior warden, re-elected; A. S. Goodeve of Rossland, junior warden; Rev. F. P. Flewelling of Kamloops, chaplain; A. B. Erskine of Victoria, grand treasurer; W. J. Quinlan of Nelson, grand secretary; E. Hosker of Victoria, grand tyler, re-elected.

Edinburgh Goes Radical.

EDINBURGH, June 23.—In the parliamentary bye-election in the east division of Edinburgh today, to fill the vacancy caused by the death of the former Liberal member, Mr. Robert Wallace, who was seized with cerebral paralysis, while speaking in the house of commons on the grant to general lord Kitchener, the Liberal and radical candidate, Mr. George Macrae, treasurer of the city of Edinburgh, defeated the Unionist candidate, Mr. Harry G. Younger, by 1,930 votes. The voting was as follows: Macrae, Liberal and Radical, 4,891; Mr. Younger, Unionist, 2,961. Liberal and Radical majority, 1,930.

War is Not Popular.

NEW YORK, June 23.—Senator J. B. Foraker of Ohio, referring to the condition of affairs in the Philippines, said: "We seem to have a more formidable job on our hands in the Philippines than we anticipated. I don't believe the newspapers are getting all the news received at the war department, but I know nothing personally. If more men and money are wanted congress will provide the means. The war, whatever the result, is not popular."

Following His Father's Footsteps.

LONDON, June 24.—Lieutenant Winston Leonard Spencer Churchill, eldest son of the late lord Randolph Churchill, has been selected as the parliamentary candidate for Oldham, in the Conservative interest, to replace the late Robert Croft.

Negotiating for the German Cable.

BERLIN, June 23.—The Hamburgissher correspondent today declares that officials of the German foreign office are negotiating with British firms for the laying of the proposed German-American cable.

Creedon Knocked Out in One Round.

NEW YORK, June 23.—Joe Walcott, colored welterweight, won again from Dan Creedon, the Australian middleweight, knocking him out in the first round before the Lenox athletic club.

Five New Cases of Yellow Fever.

SANTIAGO DE CUBA, June 23.—Five new cases of yellow fever are reported today, three soldiers and two civilians. No deaths are reported.

Silver Quotations.

NEW YORK, June 23.—Bar silver, 60½c; Mexican dollars, 48½c. Silver certificates 60½c@62c.

ANOTHER ROSSLAND FATALITY

Four Miners Meet Death.

Special to The Tribune.

ROSSLAND, June 23.—Another terrible accident occurred in the War Eagle mine between 10:25 and 10:30 this morning in which three men were killed, two dying instantly and one a few minutes after he had been brought to the surface, while another man had been so badly injured that he will die.

The accident was the consequence of an explosion, caused by an overlooked shot in which about two sticks of dynamite or a little over had been left.

The particulars as far as can be gathered at the mine are as follows: Charles Lee, Mike Griffin, Charles Sturgis and Charles Coulson, drill men, and Daniel Green, mucker, were working in the west drift on the 625-foot level, 100 feet from the shaft. Lee and Griffin were working one machine and Sturgis and Coulson another. The cut hole in question was blasted on Wednesday night and was drilled by the same shift which was at work when the explosion occurred this morning, the hole having been drilled on Tuesday. It is evident that the two powder sticks in the hole which caused the disaster this morning did not explode when the general firing took place.

The fatal explosion was heard by a number of men working on the same level, though not in the same drift. These men understood that an accident had occurred and they at once ran to the spot to learn what the extent of the accident was. They were met by Coulson who was the least injured of the party, and who numb and bleeding was staggering forward towards them. He told them what had happened and word was at once sent to headquarters and aid asked for. The foreman immediately went with a force of men. The smoke by this time had cleared from the drift and the injured men were found lying on the ground covered by broken rock. This was cleared off and they were carried to the hoist and taken to the 250-foot level. Two of them only, Griffin and Green gave any signs of life and it was evident that they could not survive. They were then taken to the surface where Drs. Kenning and Bowes took them in charge. Sturgis and Lee were found to be instantly killed, and Griffin died while being carried to the hospital.

Daniel Green reached the hospital about noon, and lingered till four o'clock when he expired.

Coulson is believed to be not seriously injured, though he has a number of bad flesh wounds.

An inquest will be held tomorrow afternoon at two o'clock.

The Associated Press report states that with the exception of Coulson, who is an old timer and a Rossland man, the shift was composed of men very recently employed, and as far as known were unmarried men. Lee and Griffin came from Butte, and Sturgis from the Coeur d'Alene. Green had a brother at Leadville, Colorado, and it is understood that he came here from that camp.

Daniel Green, the fourth victim of the War Eagle accident, died at four o'clock. He was conscious until a short time before his death. Charles Coulson, the only survivor of the five men, was seen tonight at the hospital. His right hand and arm are badly cut up, but he will recover. He says he never lost his senses after the explosion. He warned the shift to clear away the debris over the holes shortly before the accident, but the rest of the men said not to mind, and went on. Two holes had been drilled since 7 a.m. and Coulson and his partner Sturgis were at work drilling the third, and had got in two feet six inches when they broke into the missed hole and the explosion followed. Coulson cannot explain his escape. He was directly in front of the missed hole, and said he should have suffered even more than the others. His miraculous escape is on a par with that of Cook, the sole survivor of the previous accident in the War Eagle six weeks ago.

Russian Proposals Will Not Pass.

THE HAGUE, June 23.—The drafting committee of the arbitration commission spent the afternoon considering articles one and seven of the Russian proposals. All that is left now is the drafting of the regulations for the board's procedure. The information from the Germans is that emperor William will separate himself from the other powers in the arbitration question, and the German delegates anticipate a favorable decision on that point.

The Times correspondent at The Hague says "There is not the faintest chance of the Russian proposals being adopted, but it is likely some of them will be carried to the effect that in the interest of peace and humanity the conference hopes that, unless the emergency should occur, war budgets will not be increased.

Must Confront Dreyfus.

LONDON, June 24.—The correspondent of the Daily Mail, at Rennes, says du Paty de Clam will be brought here to confront captain Dreyfus. His cell will be next to that of the celebrated prisoner. Madame and mademoiselle du Paty de Clam are already here.

It is rumored that the moment captain Dreyfus arrives the condemned murderer Decornee will be executed with a view of attracting the crowd from the railroad station.

WANTED—Two waitresses at the Queen's Hotel. None but waitresses need apply. Mrs. E. C. Clarke.

WANTED—To purchase, on three years' time at fair interest, a plot of land for building purposes, size about 150x120 feet, distant about fifteen minutes walk from postoffice. Address Presto, Tribune office.

WANTED—A servant girl to do general housework. Apply to Mrs. W. J. Wilson, Vernon street east.

The Tribune.

DAILY EDITION.....FIRST YEAR, No. 146
WEEKLY EDITION.....SEVENTH YEAR, No. 31

THE Vancouver World wants C. H. Mackintosh to lead the opposition against the Semlin government. Mr. Mackintosh would make an ideal candidate in a "wet" district like Vancouver, but Kootenay prefers candidates who go "dry" occasionally. Anyway opposition leaders are not effective unless they have a seat on the floor of the house, and the only seat Mackintosh has is on the floor of the Rossland stock exchange.

EVERY visitor to Nelson during the Dominion Day celebration should be as safe, in both person and property, as when in his or her own castle; and they will be if the many dissolute rounders now in the town are given the short shift—eight hours to leave town.

THE Victoria Colonist says that attorney-general Martin has paralyzed the most important industry of the province. The only industry that the attorney-general has attempted to paralyze is the importation of Chinese and Japanese, and all his future attempts in the same direction will have the backing of public opinion.

EVERY dissolute rounder in Nelson, with or without money, should be made to leave within the next twenty-four hours. They are well known to the police. The mayor should see that his subordinates do their whole duty, and back them up in doing it.

"JOE" MARTIN'S offending at Rossland was in his saying that had he been a resident of Boston, in 1776, he would have taken a hand in the tea-throwing episode that led to the American revolution. Those whom Mr. Martin offended would have hanged William Lyon MacKenzie had they lived in Canada in 1837.

THE mine owners who attempted to make political capital out of the workings of the eight-hour law must feel a trifle cheap, now that the attempt has been stillborn.

NELSON has spent several thousand dollars in money and the digestive organs of three of her prominent citizens have been ruined in vain attempts to procure an appropriation for a Dominion government building.

The Silver Cup Pays the Standard Wage.

Trout Lake Topic.

The Trout Lake district was affected by the eight-hour law for a very short time, the Silver Cup men coming down until the question was settled as to future working and pay. The management is to be congratulated on their decision, viz., to put the men back at the old pay for an eight-hour shift. The men from their side will show the management that though the hours be less per diem the work will not fall very much short of the old ten-hour standard. Men will enter on their daily duty with more vim, more energy, which should equal the protracted shift of ten hours.

Grand Trunk trackmen will have every chance to die of starvation or old age while the strike is in progress of settlement at the hands of sir Wilfrid Laurier.

If sir William Van Horne had gone in for art he would have never drawn anything as valuable as the annual salary of $50,000 which has rewarded his talents as a railway man.

Sir Richard Webster is going to open the British case before the Venezuelan arbitrators at Paris in a sixteen day speech, and still they say that arbitration is less horrible than war.

These decisive United States victories in the Philippines do not seem to decide anything except the date which should be graven on the tombstones of the brave Americans who fall in the unending conflict.

The atmosphere of the house of commons is being continually refrigerated by the coolness between R. L. Richardson, M.P., and Hon. Clifford Sifton, and thus parliament is able to survive the heat of this summer in Ottawa.

There is quite a contract in front of Hugh John Macdonald if he is to impart a throw down to Uncle Thomas Greenway, who ranks as the Fuzzy Wuzzy of Manitoba politics, and holds the record of a first-class fighting man.

An indignant repudiation of the statement that the Hamilton Times is "edited by a Methodist," will be thankfully accepted by every reader who reveres the name of John Wesley, or admires the great denomination which John Wesley founded.

Staked a Princeling Prospecting for a Wife.

Newspapers arriving here from abroad bring the following story: The Bergische Bank, the German Vereins Bank, and the Wurtemberg Vereins Bank have brought suit against prince Leopold, ex-hereditary prince of Isenberg-Birstein, who made a tour of America "for the improvement of his mind," and went back as poor as he came. The banks allege they staked the princeling with a fortune of 350,000 marks and sent him to this country to prospect for a wife. They expected him to return with Miss Anna Gould or Miss Florence Pullman, and with a fortune that would erase his own debts, put his impoverished father on a sounder basis than he has ever been and assure a well stocked purse to the Isenbergs for years to come. But they were disappointed and now claim 350,000 marks with interest for six years. In order to evade his creditors, Leopold has renounced the hereditary title in the principality whose name he bears, and permitted an infant nephew to succeed him. He now draws pay to the extent of about a dollar a day as first lieutenant of the Prussian infantry, and this by law is exempt from execution. The Isenbergs are first cousins to the emperor of Austria.

Heroic Surgery in Chicago.

Knute K. Oppen, formerly as fine a speciman of manhood as the physicians of Chicago have ever seen, is one of the few men in the world who has the distinction or misfortune, whichever it may be called, of being minus eight ribs and a portion of a lung. Oppen, who now lies on a cot at the Alexian Brothers' hospital, has three times been under the surgeon's knife, and upon two of these occasions he has suffered the removal of a portion of four ribs. Oppen was formerly a foreman of construction on the Northwestern railroad. On the night of April 4th, 1897, he was held up on Bickerdike street by two men, one of whom shot him, the bullet entering his left lung. The surgeon who dressed the wound was unable to locate the bullet, and it was not removed. At that time, and unknown to the surgeon, a piece of the drainage tube which was placed in the wound became loosened, and, together with the safety pin attached to it, was drawn into the lung. It began to make trouble for Oppen, and he was taken to the county hospital, where, on August 7th, a portion of four ribs over his left lung was removed and the drainage tube found and taken out, no trace being found of the safety pin. Oppen never recovered his strength after the operation and was unable to work. His condition was such this spring that it was decided that the removal of four more ribs was necessary to close the lung cavity, from which the larger portion of his lung had wasted away. He was taken to the Alexian Brothers' hospital, where the operation was successfully performed. A radiograph of Oppen's chest was made by professor W. C. Fuchs prior to the operation. The negative plainly shows the ribs first operated upon, the imbedded bullet and what professor Fuchs believes to be portions of the long lost safety pin.

THE BANK OF BRITISH COLUMBIA

Is now prepared to issue Drafts and Letters of Credit on Skaguay, U. S., Atlin, B. C., and Dawson City, Yukon District.

Mountain Climbing Race.

A striking and novel competition took place at Banavie, near Fort William, on Saturday of last week, when a record was established for the quickest ascent and descent of Ben Nevis, the highest mountain in Scotland. The competition was promoted by John Menzies of the Banavie hotel, who offered a gold medal for the winner. Ten competitors entered, including McDonald, the captain of the Stewartonian football team; Mann, of the Clydesdale Harriers; W. M. McDonald, a former record-holder, and others. After being photographed, the competitors started off from the front of the hotel at 11.2, at a sharp run. They had nearly three miles of flat to cover before reaching the base of the hill, and when they reached this point Kennedy and Williams struck up a precipitous path running up the side of the hill. Kennedy here drew away steadily from McDonald gaining a lead which he never lost. The former, who is a local gamekeeper, was the first to reach the summit, at 12.46, and, after signing his name, he started on the return journey, bounding down the hill at a pace which none but those born and bred among the mountains dare attempt. A single slip would have meant instant death, but he bounded down with the surefootedness of a mountain roe, and arrived at the hotel at 1.43, his exact time being 2 hours 41 minutes 12 seconds. The height of Ben Nevis is 4406 feet, and the distance from the Banavie hotel to the summit is estimated at seven miles, so that it will be seen that Kennedy's was a wonderful performance. William McDonald arrived second, taking 3 hours, 30 minutes, 50 seconds to complete the journey. McDonald last year went from Fort William postoffice to the summit and back in 2 hours 27 minutes, and Swan, of Fort William, has since done the same journey in 2 hours 20 minutes. The difficulties of the feat were greatly increased by the fact that the summit of the Ben is covered by over eight feet of snow, and the descent was done in a thick mist, accompanied by driving sleet, in which several of the competitors lost their way. The timekeeper was Mr. Lapsley of Edinburgh.

Entirely Unequal to the Occasion.

The sight of the ankle of Miss Kathryn Marie Dent, disjointed in playing tennis, and clad though it was in the daintiest silk stocking imaginable, was too much for the nerves of Channing A. Richardson, a student of the Northwestern university, in Evanston, a hightoned suburb of Chicago. Miss Dent had lately completed a post-graduate course at Cummock school of Oratory, but this did not prevent her from engaging in a game of tennis yesterday with Mr. Richardson, who is a student of the Garret Biblical Institute.

Miss Dent was playing close to the net, and Mr. Richardson "lobbed" the ball over her head. In turning quickly to catch the ball on the bound she wrenched her ankle and threw it out of place. Mr. Richardson cleared the net with one bound to assist his late opponent.

"Pull it!" exclaimed the young woman, extending her foot toward her late adversary.

Whether it was the sight of the distorted limb or the suddenness of the tempting invitation that caused Mr. Richardson to faint will never be known, as Mr. Richardson refused to be interviewed on the subject. At any rate, he fell in a heap before the disjointed ankle and silk stocking and could not assist the disabled young woman.

But a gallant iceman, who had concluded his rounds of a number of Evanston homes, was passing, and, not being as sensitive to a display of hosiery as the young theologian, and being accustomed to the process of pulling legs, speedily straightened the limb of Miss Dent. It required a chunk of ice to bring Mr. Richardson to his senses, and the young lady will be about in a few days.

THE LOCAL NEWS OF THE TOWN

A Game to Test Ability.

The members of the Nelson baseball team will have a practice game on Sunday afternoon, when the management will size up the several players with a view to selecting the strongest possible team to represent the city in the baseball tournament which will form a feature of the Dominion Day celebration. To even matters up and allow several of those who are likely to get upon the first nine to practice in their positions, the Rockenfield and Caverley battery will be given to the opposing side. Other changes have also been made in the positions assigned to the players in what was formerly the scratch nine, several of them being given places in the field with a view of ascertaining how the batting strength of the team may be best improved without sacrificing its efficiency in the field.

Sunday's game will be called at 2.30 o'clock, the teams being composed of the following: First team—Eacritt c, S, Neelands p, Partridge 1b, Blackwood 2b, Waters 3b, Houston ss, Mills rf, Phair cf and Emerson lf. Second team—Caverley c, Rockenfield p, J. Neelands 1b, Smith 2b, Hawkins 3b, Campbell ss, Moore lf, Votau rf and Blackburn cf.

NELSON.

Mills & Lott will occupy the first floor of the building at the corner of Baker and Ward streets. The west half is being fitted up for an ice cream drawing room—the only place of the kind in British Columbia.

C. W. Young, of the provincial police force, passed through Nelson yesterday en route for Duncan City where he will be stationed for the future. Constable Young was formerly stationed at Wellington, Vancouver Island.

The mayor and members of the city council of Sandon have accepted the invitation to be present at the Dominion Day celebration in this city. The city fathers of Sandon never do things by halves and they may be expected to arrive in a body.

Edward Grizzelle of Victoria is in Nelson with a view to establishing a florists business in this city. Grizzelle was for several years in charge of the Invertavish nursery at Victoria, and after looking over all the towns of Kootenay decided to locate in Nelson if he can secure a suitable location.

Subscribers to the celebration fund who can use the celebration-advertisement envelope should procure them from the secretary. About 2000 are still on hand.

James Clarke, son of Mrs. E. C. Clarke, returned yesterday morning from St. Boniface college. "Jimmy" was successful in winning the silver medal, donated by lieutenant-governor Patterson, for mathematics at the college examinations.

Five men were sent to the quarry of the West Kootenay Brick & Lime Company near Kaslo yesterday for the purpose of taking out dimension rock for the Hudson's Bay Company's building and the Houston block. The stone which they will take out is a local variety of marble which is admirably adapted for building. Its use in the two buildings in question is the first which has been found for it since the quarry was opened.

It is expected that Ward street, between Victoria and Baker streets, will be opened up and ready for traffic by Wednesday next at the latest.

A marriage license was issued yesterday authorizing the joining together in the bonds of holy matrimony of George Stanley Kellaway and Caroline Jemima H. Mouat.

Mrs. W. P. Tierney returned yesterday from Spokane in company with her daughter Stella, who has been attending the academy of Holy Names. Miss Stella was successful in winning the first prize for penmanship, a gold medal.

A meeting will be held this morning in the school house at 11 o'clock for the purpose of electing a school trustee vice Dr. Arthur, whose term has expired. Dr. Hall will preside at the meeting, the other two trustees, George Johnstone and Dr. Arthur, being at Kamloops attending the meeting of the Masonic grand lodge.

W. C. Nichol, the Vancouver newspaper man, and C. Dell-Smith of Rossland were in Nelson at the same time yesterday. They are both taking the temperature of the people, the one in a political and the other in a monetary sense.

"Ike" Holden, whose death has been twice announced from different quarters of the continent, returned to Nelson yesterday.

A meeting of the Thompson River and Jameson Creek Placer Mining Company was held last night in the office of H. R. Bellamy, at which there were present: H. R. Bellamy, A. H. Kelly, R. S. Lennie, A. D. Emory, W. J. Wilson and C. D. J. Christie. The offer of the Toronto syndicate to purchase a half interest in the claims for $45,000 was finally confirmed and the question of the purchase of a dredge to work the claims was left with H. R. Bellamy. The matter of organizing a company will be taken up at the next meeting of the shareholders which will be held on Wednesday night.

Pruning Stock for Inventory

A Volley of Economy that Carries Conviction into Every Home In Nelson

In spite of the howling success of last weeks big stock reduction sale, some lines scattered through the crockery department escaped the manager's pruning knife, or the customer's attention. These, with a score of lucky purchases in other lines, are your fruit for this week. This sale would not be necessary had the warm weather come two or three weeks earlier, but it is our rule in business to lower the stock before our semi-annual inventory. We take our medicine philosophically and will greet you pleasantly when you come to help us empty our shelves to the quick-step time of stock-taking prices.

WE ARE THE EXCLUSIVE AGENTS for many of the best lines of groceries, and always have a fresh, wholesome stock on hand.
